## **WATER RESOURCES (RATES AND CHARGES) REGULATION 1992**

[as amended by all amendments that commenced on or before 14 October 1996]

### **PART 1—PRELIMINARY**

#### **Short title**

1. This regulation may be cited as the *Water Resources (Rates and Charges) Regulation 1992*.

#### **Definitions**

2. In this regulation—

“**channel supply**” means the supply of water from a channel constructed by the chief executive.

“**consumer offtake**” means water outlet works comprising a meter, valve and pipe fittings installed on a bulk water supply pipeline for conveying water to individual consumers.

“**drainage rate**” means a rate prescribed under section 26.

“**ground water**” means an underground source of water.

“**ground water area**” means an area determined by the chief executive under section 11 to be a ground water area.

“**irrigation project**” means an area determined by the chief executive under section 10 to be an irrigation project.

“**localservices**” means the provision of water, sewerage or sullage disposal services or garbage removal services.

“**nominal allocation charge**” means a charge payable under section 17.

“**on-farm storage**” means any storage of water made for purposes other than merely domestic purposes.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

**“QIDC business variable lending rate”** means the variable interest rate Queensland Industry Development Corporation charges on amounts lent to business.

**“regulated section”** of a watercourse means a part of the watercourse that the chief executive determines under section 6 to be a regulated section.

**“re-lift area”** means an area within which the channel supply to a holding cannot be effected merely by gravity, but requires water to be pumped from a channel.

**“rural residential purposes”** of the use of water on land with an area not more than 10 ha that is in a rural residential zone (however described) under a planning scheme under the *Local Government (Planning and Environment) Act 1990*, includes agricultural and horticultural purposes.

**“serviced land”** means land—

- (a) on which there exists an improvement put to a use specified in the table to Schedule 4; and
- (b) for which the Corporation provides local services for the improvement.

**“sugar mill assessment”** means an assessment, made by the chief executive under section 8.8 of the Act, of the amount and made in the manner prescribed under section 25.

**“surface water”** means water in a watercourse other than a channel constructed by the chief executive.

**“water charge”** means a charge payable under Part 3.

**“water harvesting”** means the taking of water from a source during a period that the chief executive has notified under section 7 to be a period of unregulated flow in relation to the source.

**“water year”** in relation to a rate, assessment or charge, means the period specified in this regulation of not more than 1 year for which the rate, assessment or charge is made or levied.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

**Interpretation—eastern and western sides of Eton Irrigation Area**

3. For the purposes of this regulation, land in the Eton Irrigation Area is taken to be—

- (a) if it has a nominal allocation of 3.6 ML/ha—on the western side of Eton Irrigation Area; or
- (b) if it has a nominal allocation of 2.7 ML/ha—on the eastern side of Eton Irrigation Area.

**Charges payable to the Corporation**

4. A charge payable under this regulation (other than section 17) is payable to the Corporation.

**Interest on outstanding debt**

5. For the purposes of section 10.13(2)(e) of the Act and this regulation (other than section 18), the interest rate on an outstanding debt is 13%.

**PART 2—PROVISIONS RELATING TO WATER  
SUPPLY**

**Regulated section of a watercourse**

6.(1) The chief executive may determine a part of a watercourse to be a regulated section of the watercourse if the chief executive considers that the water supply in that part is increased from time to time as a result of works constructed or operated by the chief executive.

(2) The chief executive must note on a licence that permits water to be taken from a part of a watercourse that is a regulated section, that the part is a regulated section.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

**Periods of unregulated flow**

**7.(1)** If at any time the chief executive considers that the water supply available from a source exceeds the expected demands on the water supply at that time, the chief executive may make a notification under this section.

**(2)** The notification—

- (a) is to be made to the persons licensed to harvest water from the source; and
- (b) is to declare a period of unregulated flow in relation to the source; and
- (c) may specify days on which the period starts and finishes, or may declare that the period is to continue until the chief executive makes a further notification specifying the day that the period is to finish; and
- (d) may be made by public notice or any other suitable means.

**(3)** For the purpose of calculating a water charge payable, by a person licensed to harvest water, for an amount of water taken from a source during a period of unregulated flow, that amount—

- (a) is to be included in a determination of the amount of water taken by water harvesting; and
- (b) is not to be included in a determination of the amount of water taken made by reference to an announced allocation or nominal allocation of a holding.

**(4)** If, in a notification made under this section, the chief executive declares—

- (a) a period of unregulated flow in relation to a regulated section of the Condamine River North Branch; and
- (b) that, during the period, either general water harvesting or restricted water harvesting is to apply;

a person must pay the charge, for water taken during the period, that is specified in this regulation in relation to general water harvesting or restricted water harvesting (as the case may be).

*Water Resources (Rates and Charges)  
Regulation 1992*

---

**Periods of unrestricted flow—Lockyer Valley Project**

**8.(1)** If at any time the chief executive considers that the water supply available from Laidley Creek, Lockyer Creek or Redbank Creek exceeds the expected demands on the water supply at that time, the chief executive may make a notification under this section.

**(2)** The notification—

- (a) is to be made to the persons licensed to take water from Laidley Creek; and
- (b) is to declare a period of unrestricted flow in relation to Laidley Creek; and
- (c) may specify days on which the period starts and finishes, or may declare that the period is to continue until the chief executive makes a further notification specifying the day that the period is to finish; and
- (d) may be made by public notice or any other suitable means.

**(3)** For the purpose of calculating a water charge payable for an amount of water taken from the Creek, Lockyer Creek or Redbank Creek during a period of unrestricted flow, that amount—

- (a) is to be charged at the specified rate for taking water during a period of unrestricted flow; and
- (b) is to be included in any determination of the amount of water taken made by reference to an announced allocation or nominal allocation of a holding.

**Water available from the natural flow in Pie Creek**

**9.(1)** For the purpose of calculating a water charge payable under Schedule 1 (in relation to land in the Mary Valley Project), water is taken to be available to land from the natural flow in Pie Creek if a licence of the kind mentioned in subsection (2) has been issued in relation to the land.

**(2)** For the purpose of subsection (1), the licence is a licence that—

- (a) permits water to be taken from a channel regulated by the Pie Creek Diversion Scheme; and

*Water Resources (Rates and Charges)  
Regulation 1992*

---

- (b) is subject to the term that the licensee must pay a water charge for water taken from the channel on the basis that water is available from the natural flow in Pie Creek.

(3) The chief executive may issue a licence mentioned in subsection (2) if the licence relates to—

- (a) land that abuts Pie Creek; or  
(b) land to which water can be conveyed directly from Pie Creek.

### **Irrigation projects**

**10.(1)** If the chief executive—

- (a) operates, or has constructed, works outside an irrigation area; and  
(b) considers that the water supply in an area outside an irrigation area has been increased as a result of the works;

the chief executive may determine the area to be an irrigation project.

(2) The chief executive may name an irrigation project for the purposes of the Act, for example—the ‘Mary Valley Project’.

(3) The chief executive must display at an office of the Corporation, or other suitable place, in or near an irrigation project, a map showing the boundaries of the irrigation project.

(4) The chief executive may make further determinations adding an area to, or excluding an area from, an irrigation project.

(5) In determining whether an area should be added to or excluded from an irrigation project, the chief executive must have regard to the effect the works are having on the water supply in the area at the time of the determination.

(6) If the chief executive determines that an area be added to or excluded from an irrigation project, the chief executive must, by public notice or other suitable means, notify the persons licensed to take water from the area.

### **Ground water areas**

**11.(1)** If the chief executive—

*Water Resources (Rates and Charges)  
Regulation 1992*

---

- (a) manages the ground water resource in an area; or
- (b) operates, or has constructed, works that the chief executive considers have—
  - (i) increased the ground water supply in an area; or
  - (ii) reduced the demand for ground water in an area;

the chief executive may determine the area to be a ground water area.

(2) The chief executive may name a ground water area for the purposes of the Act, for example—the ‘Horseshoe Lagoon Ground Water Area’.

(3) The chief executive must display at an office of the Corporation, or other suitable place, in or near a ground water area, a map showing the boundaries of the ground water area.

(4) The chief executive may make further determinations adding an area to, or excluding an area from, a ground water area.

(5) In determining whether an area should be added to or excluded from a ground water area, the chief executive must have regard to—

- (a) any representation made by a person affected by the determination; and
- (b) any other evidence;

as to the effect the works are having on the ground water supply, or demand for ground water, in the area at the time of the determination.

(6) If the chief executive determines that an area be added to or excluded from a ground water area, the chief executive must, by public notice or other suitable means, notify the persons licensed to take water from the area.

## **PART 3—WATER CHARGES**

### **Meaning of terms**

**12.** In this Part—

*Water Resources (Rates and Charges)  
Regulation 1992*

---

**“land”** means a holding or land for which water may be taken under a licence.

**“relevant area”**, in relation to land, means—

- (a) in the case of land in an area mentioned in Schedule 1 or 2—the area mentioned; or
- (b) in any other case—the area mentioned in Schedule 1 or 2 from which water may be taken under a licence for the land.

### **Water charges for Sch 1 land**

**13.(1)** A charge is levied on water taken from a Schedule 1 area for land.

**(2)** The charge is levied for the water year specified in Schedule 1 for the area.

**(3)** Subject to sections 14 and 16, the charge for the water is the amount specified in Schedule 1 as the charge for water from the relevant source in the relevant area.

### **Minimum water charge for nominal allocations granted to Sch 1 land**

**14.(1)** A minimum water charge for a water year is levied on each nominal allocation granted to land for which water may be taken from a Schedule 1 area.

**(2)** The minimum charge is the higher of the following amounts—

- (a) the minimum annual fixed amount specified in Schedule 1 for the area;
- (b) the amount payable for—
  - (i) if the amount payable for the announced allocation for the land is less than the amount payable for the prescribed percentage—the announced allocation for the land; or
  - (ii) if the amount payable for the announced allocation for the land is not less than the amount payable for the prescribed percentage, or if there is no announced allocation—the prescribed percentage.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

(3) The minimum charge is not payable if the cost of water supplied to the land is more than the minimum charge.

(4) In this section—

**“prescribed percentage”** means the percentage, specified in Schedule 1, of the nominal allocation granted to the land.

### **Water charges for Sch 2 land**

**15.(1)** A charge is levied in relation to water that may be taken from a Schedule 2 area for land.

(2) The charge is levied for the water year specified in Schedule 2 for the area.

(3) Subject to section 16, the charge for the water is the amount specified in Schedule 2 as the charge for water from the relevant source in the relevant area.

### **Charges for water in excess of entitlements**

**16.(1)** A charge is levied on water in excess of an entitlement under an announced allocation that is taken under an authority granted under section 10.15 of the Act.

(2) The charge may be worked out using the formula—

**amount payable for water + percentage amount of nominal allocation.**

(3) In the formula—

**“amount payable for water”** is the amount payable under this regulation (other than this section) for the water.

**“percentage amount of nominal allocation”** is 5% of the nominal allocation charge specified in Schedule 3 for each megalitre of water taken under the authority for the land.

### **Nominal allocation charges**

**17.(1)** Before the chief executive grants a nominal allocation for land in an irrigation area or irrigation project, the owner of the land must pay to the

*Water Resources (Rates and Charges)  
Regulation 1992*

---

chief executive the nominal allocation charge specified for the land in schedule 3.

(2) Despite subsection (1), the chief executive may grant the nominal allocation if the owner of the land arranges for payment of the nominal allocation charge for the land by instalments on terms satisfactory to the chief executive.

(3) The owner of the land is not required to pay the nominal allocation charge for the land if—

- (a) the owner acquires the land through an auction under the *Land Act 1994*; and
- (b) a nominal allocation is granted for the land before the land is offered for auction.

### **Payment of a nominal allocation charge by instalments**

**18.(1)** This section applies if an owner of land pays a nominal allocation charge by instalments.

(2) The owner must—

- (a) pay interest on the unpaid part of the charge; and
- (b) comply with the agreed terms for payment of instalments.

(3) Interest on the unpaid part of the charge—

- (a) accrues from the day the nominal allocation is granted; and
- (b) is payable at a rate that is 1.5% above the QIDC business variable lending rate applying on the day each instalment is payable.

## **PART 4—LOCAL SERVICES CHARGES**

### **Meaning of “owner”**

**19.** In this Part—

“owner” does not include the Corporation.

### **Charge for local services**

**20.(1)** A charge is payable for local services provided to serviced land.

**(2)** The charge for a local service is the amount specified in Schedule 4 for the service.

**(3)** The Corporation must give written notice to an owner of serviced land specifying—

- (a) the amount of the charges payable for the owner’s land; and
- (b) the local services for which the charges are made; and
- (c) the period to which the charge applies; and
- (d) the day by which the charges must be paid; and
- (e) the way in which payment must be made.

### **Owner must pay within 30 days**

**21.(1)** The owner must pay the amount specified in the notice within 30 days after receiving the notice.

**(2)** Payment must be made at the place, or in the way, specified in the notice.

### **Notice to Corporation concerning dealings with land**

**22.(1)** An owner who disposes of an interest in serviced land must give written notice of disposal to the Corporation within 7 days after disposal.

**(2)** The notice must specify—

- (a) the name and address of the person gaining the interest (the

*Water Resources (Rates and Charges)  
Regulation 1992*

---

“**purchaser**”); and

- (b) the nature of the interest; and
- (c) the day on which the purchaser becomes liable to pay charges under this Part.

(3) An owner who vacates land in which the Corporation has an interest must give written notice of vacation to the Corporation within 7 days after vacation.

(4) An owner who, without reasonable excuse, does not give notice to the Corporation under subsection (1) or (3) continues to be liable for charges payable for local services to the land after the day of disposal or vacation.

(5) However, the owner ceases to be liable for charges payable for local services provided to the land after the first of the following events happens—

- (a) the Corporation receives written notice—
  - (i) in the case of land in which the Corporation has an interest—that the owner has vacated the land; and
  - (ii) in other cases—of the name and address of the purchaser of the land;
- (b) the Corporation sends a notice under section 20 addressed to the purchaser.

(6) Subsection (4) does not limit the liability of the purchaser for charges payable for local services to the land after the day on which the purchaser acquires an interest in the land.

(7) A person must not state something in a notice that the person knows is false or misleading in a material particular.

Maximum penalty—20 penalty units.

(8) If a former owner of serviced land continues, under subsection (4), to be liable for charges payable for local services to the land, the Corporation may recover the amount payable from either—

- (a) the former owner; or
- (b) the purchaser of the land.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

### **Evidentiary provisions**

**23.(1)** This section applies to a proceeding for the recovery of a debt under this Part.

**(2)** A certificate purporting to be signed by an officer of the Corporation and stating the following matters is evidence of the matters—

- (a) land described in the certificate is serviced land;
- (b) the person named in the certificate as the owner of serviced land is the owner of the land;
- (c) specified charges for a specified period were payable for local services provided to the land;
- (d) a specified amount is owing to the Corporation by the person named in the certificate.

### **Collection of garbage**

**24.(1)** This section applies if the Corporation provides a garbage removal service for serviced land.

**(2)** The occupier of the serviced land must ensure that—

- (a) a garbage bin used for the collection of rubbish by the Corporation is made of galvanised iron or plastic and has a capacity that is not more than—
  - (i) the maximum capacity approved by the local government for the area in which the land is situated; or
  - (ii) if the local government has not approved a maximum capacity—85 L; and
- (b) the bin is not filled beyond its capacity; and
- (c) only household garbage is put in the bin; and
- (d) wet garbage is wrapped before being put in the bin; and
- (e) if the bin must be placed for its contents to be collected—the bin is placed as nearly as possible to the corner of the house most directly in line with the entrance.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

(3) The Corporation is not required to remove rubbish in a bin if the occupier does not comply with this section.

(4) If, under subsection (3), the Corporation does not remove rubbish, it does not affect the obligation of the person required to pay an annual charge for the local service to pay the full annual charge.

## PART 5—OTHER CHARGES

### Sugar mill assessments

25.(1) In this section—

“**assigned**” has the meaning given by the *Sugar Industry Act 1991*.

“**crushing season**” has the meaning given by the *Sugar Industry Act 1991*.

“**irrigation area**” includes part of an irrigation area.

“**sugar mill**” has the meaning given by the *Sugar Industry Act 1991*.

(2) For the purposes of section 8.8 of the Act, this section sets out—

- (a) the assessment that may be made by the chief executive; and
- (b) the manner for making the assessment.

(3) If land within an irrigation area is assigned to a sugar mill (the “**assigned land**”), the chief executive may, in relation to each crushing season, make an assessment on the owner of the sugar mill—

- (a) at the rate specified in Schedule 5 for the irrigation area; and
- (b) on the basis of the amount of 94 net titre sugar processed at the sugar mill, from sugarcane grown on the assigned land, during the crushing season.

(4) The chief executive may make the assessment on a person by sending to the person a notice specifying—

- (a) the amount of the assessment; and
- (b) the day, not before 30 days after the date of the notice, by which

*Water Resources (Rates and Charges)  
Regulation 1992*

---

the assessment is payable.

(5) A person who receives a notice sent under subsection (4) must comply with the notice.

### **Drainage rates**

**26.(1)** For the purposes of section 8.7 of the Act, this section sets out—

- (a) a charge that may be levied by the chief executive; and
- (b) the basis for levying the charge.

(2) The chief executive may, in relation to each water year, levy a charge on the owner of land within an irrigation area, at the rate set out in Schedule 6 for the irrigation area.

(3) The chief executive may levy the charge on a person by sending to the person a notice specifying—

- (a) the amount of the charge; and
- (b) the day, not before 30 days after the date of the notice, by which the amount is payable.

(4) A person who receives a notice sent under subsection (3) must comply with the notice.

(5) A levy made under this section in relation to land is to be determined according to the area of the land at the date of the notice.

### **Drainage levy—Emerald Left Bank**

**27.(1)** In addition to any levy made under section 26, the chief executive may, in relation to each water year, levy on an owner of a holding within the Emerald Irrigation Area who is supplied water from—

- (a) the Selma Main Channel; or
- (b) a subsidiary channel or pipeline of the Selma Main Channel;

a charge at the rate of \$6.00/ha of the holding.

(2) The levy may be made, and must be paid, in the manner mentioned in section 26 for drainage rates.

## **SCHEDULE 1**

### **CHARGES—AREAS OTHER THAN MAREEBA—DIMBULAH**

sections 13 and 14

#### **Awoonga—Callide pipeline project**

- 1.(1)** In this area, the water year ends on 30 June.
- (2)** The prescribed percentage of the nominal allocation is 100%.
- (3)** There is no minimum annual fixed amount.
- (4)** The charge for the supply from a consumer offtake of each ML of water for stock or domestic purposes is \$330.50.

#### **Barker—Barambah project**

- 2.(1)** In this area, the water year ends on 30 June.
- (2)** The prescribed percentage of the nominal allocation is 75%.
- (3)** The minimum annual fixed amount is \$166.25.
- (4)** The following charges apply for the supply of water from a regulated section of a watercourse—
  - (a)** \$10.00 for each ML up to the announced allocation;
  - (b)** \$25.00 for the first ML over the announced allocation;
  - (c)** \$100.00 for each further ML over the announced allocation.
- (5)** The charge for the supply of water by water harvesting is \$2.50 for each ML up to 500 ML.
- (6)** The following charges apply for the supply of water from the Redgate relift section—
  - (a)** \$21.65 for each ML up to the announced allocation;

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (b) \$25.00 for the first ML over the announced allocation;
- (c) \$100.00 for each further ML over the announced allocation.

**Barns ground water area**

- 3.(1) In this area, the water year ends on 30 June.
- (2) The prescribed percentage of the nominal allocation is 50%.
- (3) The minimum annual fixed amount is \$84.70.
- (4) The following charges apply for the supply of water from the area—
  - (a) \$1.25 for each ML up to the announced allocation;
  - (b) \$19.75 for each further ML up to 20 ML over the announced allocation;
  - (c) \$38.35 for each further ML over the announced allocation.

**Bowen–Broken Rivers project**

- 4.(1) In this area, the water year ends on 31 December.
- (2) The prescribed percentage of the nominal allocation is 75%.
- (3) The minimum annual fixed amount is \$169.40.
- (4) The charge for each ML of water supplied from a regulated section of the Bowen River or Broken River is \$11.75.

**Bowen ground water area**

- 5.(1) In this area, the water year ends on 31 December.
- (2) The prescribed percentage of the nominal allocation is 75%.
- (3) The minimum annual fixed amount is \$83.15.
- (4) The charge for each ML of water supplied is \$3.90.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

**Boyne River project**

- 6.(1) In this area, the water year ends on 30 June.
- (2) The prescribed percentage of the nominal allocation is 75%.
- (3) The minimum annual fixed amount is \$166.25.
- (4) The following charges apply for the supply of water from a regulated section of the Boyne River—
  - (a) \$10.55 for each ML up to the announced allocation;
  - (b) \$21.10 for each ML over the announced allocation;
  - (c) by water harvesting—\$2.55 for each ML up to 500 ML.

**Bundaberg irrigation area or project**

- 7.(1) In this area, the water year ends on 30 June.
- (2) The prescribed percentage of the nominal allocation is 50%.
- (3) The minimum annual fixed amount is—
  - (a) for water from a channel—\$338.80; and
  - (b) for surface water—\$169.40; and
  - (c) for ground water—\$84.70.
- (4) The following charges apply for the supply of water from a channel or watercourse supplemented from a channel—
  - (a) \$37.05 for each ML up to the announced allocation;
  - (b) \$55.55 for each further ML up to 20 ML over the announced allocation;
  - (c) \$74.10 for each further ML over the announced allocation.
- (5) The following charges apply for the supply of water from a regulated section of a watercourse—
  - (a) \$11.80 for each ML up to the announced allocation;
  - (b) \$30.40 for each further ML up to 20 ML over the announced

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

allocation;

(c) \$48.90 for each further ML over the announced allocation.

(6) The following charges apply for the supply of water by water harvesting—

(a) from a channel—\$37.05 for each ML;

(b) from a regulated section of a watercourse—\$2.95 for each ML.

(7) The following charges apply for the supply of water from ground water in the Bundaberg ground water area—

(a) \$4.80 for each ML up to the announced allocation;

(b) \$23.30 for each further ML up to 20 ML over the announced allocation;

(c) \$41.85 for each further ML over the announced allocation.

(8) The following charges apply for the supply of water to on-farm storage—

(a) from a channel—\$74.10 for each ML;

(b) from a regulated section of a watercourse—\$23.60 for each ML.

**Burdekin River irrigation area or project**

**8.(1)** In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 75%.

(3) The minimum annual fixed amount is—

(a) for water from a channel—\$338.80; and

(b) for surface water—\$169.40; and

(c) for ground water—\$84.70.

(4) The following charges apply for the supply of each ML of water—

(a) from a channel or regulated drain—\$37.20;

(b) from a diversion from unregulated drains—\$9.30;

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (c) from a regulated section of the Burdekin River—\$11.80;
- (d) from the Burdekin ground water area—\$6.20;
- (e) from the Giru ground water area or a regulated section of the Haughton River—
  - (i) for an allocation issued before 1 March 1995—\$18.60; and
  - (ii) for an allocation issued on or after 1 March 1995—\$37.20;
- (f) from the Horseshoe Lagoon ground water area—none;
- (g) from Glady's Lagoon—
  - (i) for an amount taken up to natural yield—none; and
  - (ii) for an amount from an additional allocation—\$37.20.

**Callide Valley project**

- 9.(1)** In this area, the water year ends on 30 June.
- (2)** The prescribed percentage of the nominal allocation is—
  - (a) in the Callide Valley ground water area—75%; and
  - (b) for the area not in the Callide Valley ground water area—100%.
- (3)** The minimum annual fixed amount for ground water is \$83.15.
- (4)** The following charges apply for the supply of water from ground water in the Callide Valley ground water area or from surface water—
  - (a) \$7.85 for each ML up to the announced allocation;
  - (b) \$15.70 for each further ML up to 20 ML over the announced allocation;
  - (c) \$62.80 for each further ML up to 50 ML over the announced allocation;
  - (d) \$141.30 for each further ML over the announced allocation.
- (5)** The following charges apply for the supply of water from ground water not in the Callide Valley ground water area—

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (a) \$1.00 for each ML up to the announced allocation;
- (b) \$15.70 for each further ML up to 20 ML over the announced allocation;
- (c) \$62.80 for each further ML up to 50 ML over the announced allocation;
- (d) \$141.30 for each further ML over the announced allocation.

**Chinchilla Weir project**

- 10.(1)** In this area, the water year ends on 31 August.
- (2)** The prescribed percentage of the nominal allocation is 75%.
- (3)** The minimum annual fixed amount is \$166.25.
- (4)** The charge for the supply of water from a regulated section of the Condamine River is \$11.60 for each ML.
- (5)** The charge for the supply of water by water harvesting is \$2.90 for each ML up to 500 ML.

**Condamine ground water area**

- 11.(1)** In this area, the water year ends on 30 June.
- (2)** The prescribed percentage of the nominal allocation is 75%.
- (3)** The minimum annual fixed amount is \$84.70.
- (4)** The following charges apply for the supply of water from the area—
  - (a) if the total amount supplied in a water year is not more than 130% of the nominal allocation the charge is—
    - (i) \$1.65 for each ML up to the nominal allocation; and
    - (ii) \$6.55 for each further ML up to 10 ML over the nominal allocation; and
    - (iii) \$12.90 for each further ML up to 20 ML over the nominal allocation; and

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (iv) \$23.20 for each further ML up to 40 ML over the nominal allocation; and
- (v) \$52.65 for each further ML up to 60 ML over the nominal allocation; and
- (vi) \$78.95 for each further ML over the nominal allocation;
- (b) if the total amount supplied in a water year is over 130% of the nominal allocation, the charge is the amount worked out under paragraph (a) plus \$78.95 for each ML over 130% of nominal allocation.

**Cressbrook Creek project**

**12.(1)** In this area, the water year ends on 30 June.

**(2)** The minimum annual fixed amount is—

- (a) for surface water—\$83.15; and
- (b) for ground water—\$83.15.

**(3)** The charge for the supply of water from the Cressbrook Creek ground water area or from surface water is \$1.10 for each ML.

**Cunnamulla Weir project**

**13.(1)** In this area, the water year ends on 31 August.

**(2)** The prescribed percentage of the nominal allocation is 75%.

**(3)** The minimum annual fixed amount is \$169.40.

**(4)** The following charges apply for the supply of water from this project—

- (a) \$11.15 for each ML up to the announced allocation;
- (b) \$22.30 for each further ML up to 125% of the announced allocation;
- (c) \$33.45 for each further ML.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

**Dawson Valley irrigation area or project**

**14.(1)** In these areas, the water year ends on 30 September.

**(2)** The prescribed percentage of the nominal allocation is 75%.

**(3)** The minimum annual fixed amount is—

(a) for water from a channel supply—\$332.50; and

(b) for surface water—\$166.25.

**(4)** The following charges apply for the supply of water from a channel—

(a) \$25.60 for each ML up to the announced allocation;

(b) \$51.20 for each further ML up to 125% of the announced allocation;

(c) \$76.80 for each further ML.

**(5)** The following charges apply for the supply of water from the regulated section of the Dawson River downstream of Glebe Weir to the junction with Herbert Creek—

(a) \$10.70 for each ML up to the announced allocation;

(b) \$51.20 for each further ML up to 125% of the announced allocation;

(c) \$76.80 for each further ML.

**(6)** The following charges apply for the supply of water from the Glebe Weir reservoir—

(a) \$3.70 for each ML up to the announced allocation;

(b) \$51.20 for each further ML up to 125% of the announced allocation;

(c) \$76.80 for each further ML.

**(7)** The following charges apply for the supply of water by water harvesting—

(a) from a channel—\$25.60;

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (b) from a regulated section of the Dawson River and from the Glebe Weir reservoir—\$2.70 for each ML up to 500 ML.

**Dumaresq River project**

- 15.(1)** In this area, the water year ends on 30 September.
- (2) The prescribed percentage of the nominal allocation is 75%.
- (3) The minimum annual fixed amount is—
- (a) for surface water—\$166.25; and
  - (b) for ground water—\$83.15.
- (4) The following charges apply for the supply of water from a regulated section of a watercourse flowing from Glenlyon Dam—
- (a) \$9.90 for each ML up to the announced allocation;
  - (b) \$99.00 for each ML over the announced allocation.
- (5) The charge for the supply of water from ground water in the Dumaresq ground water area is \$1.55 for each ML.
- (6) The charge for the supply of water by water harvesting is \$2.50 for each ML up to 500 ML.

**Emerald irrigation area or project**

- 16.(1)** In these areas, the water year ends on 30 June.
- (2) The prescribed percentage of the nominal allocation is 75%.
- (3) The minimum annual fixed amount is—
- (a) for water from a channel supply—\$338.80; and
  - (b) for surface water—\$169.40.
- (4) The following charges apply for the supply of water from a channel—
- (a) \$22.35 for each ML up to the announced allocation;

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (b) \$44.70 for each further ML up to 125% of the announced allocation;
- (c) \$67.05 for each further ML.

(5) The following charges apply for the supply of water from Fairbairn Dam, or a regulated section of the Nogoia River or Mackenzie River to the junction with Springton Creek—

- (a) \$10.90 for each ML up to the announced allocation;
- (b) \$21.80 for each further ML up to 125% of the announced allocation;
- (c) \$32.70 for each further ML.

(6) The following charges apply for the supply of water by water harvesting—

- (a) from a channel—\$22.35 for each ML;
- (b) from Fairbairn Dam, or a regulated section of the Nogoia River or Mackenzie River to the junction with Springton Creek—\$2.75 for each ML up to 500 ML.

(7) The charge for town water supply excess water use is \$110.10 for each ML.

**Eton irrigation area**

**17.(1)** In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is—

- (a) for the western side—50%; and
- (b) for the eastern side—66.66%.

(3) The minimum annual fixed amount is—

- (a) for water from the western side channel supply—\$338.80; and
- (b) for water from the eastern side channel supply—\$338.80.

(4) The following charges apply for the supply of water from a

Regulation 1992*

---

SCHEDULE 1 (continued)

channel—

- (a) \$32.50 for each ML up to the announced allocation;
- (b) \$65.00 for each further ML up to 10 ML over the announced allocation;
- (c) \$325.00 for each further ML.

(5) The charge for the supply of water by water harvesting from Mirani diversion channel is \$15.00 for each ML.

**Fitzroy River Barrage project**

**18.(1)** In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 75%.

(3) The minimum annual fixed amount is \$169.40.

(4) The charge for the supply of water from a regulated section of the Fitzroy River is \$11.90 for each ML.

(5) The charge for the supply of water by water harvesting is \$2.95 for each ML up to 500 ML.

**Lockyer Valley project (Central Lockyer)**

**19.(1)** In this area, the water year ends on 30 June.

(2) The minimum annual fixed amount is—

- (a) for surface water—\$166.25; and
- (b) for water from Lake Clarendon diversion channel—\$332.50; and
- (c) for water from Clarendon ground water area—\$166.25.

(3) The following charges apply for the supply of water from a regulated section of a watercourse—

- (a) \$18.80 for each ML when flow is restricted;
- (b) \$9.40 for each ML when flow is unrestricted.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

(4) The charge for the supply of water from ground water in the Clarendon ground water area is \$9.40 for each ML.

(5) The charge for the supply of water by water harvesting is \$2.30 for each ML up to 500 ML.

**Lockyer Valley project (Lower Lockyer)**

20.(1) In this area, the water year ends on 30 April.

(2) The prescribed percentage of the nominal allocation is 100%.

(3) The minimum annual fixed amount is \$166.25.

(4) The following charges apply for the supply of water from a regulated section of a watercourse—

(a) \$11.55 for each ML up to the announced allocation;

(b) \$23.10 for each ML over the announced allocation.

(5) The charge for the supply of water by water harvesting is \$2.90 for each ML up to 500 ML.

**Logan River project**

21.(1) In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 75%.

(3) The minimum annual fixed amount is \$166.25.

(4) The charge for the supply of water from a regulated section of Burnett Creek or the Logan River is \$13.10 for each ML.

(5) The charge for the supply of water by water harvesting from a regulated section of Burnett Creek or the Logan River is \$3.20 for each ML up to 500ML.

**Lower Mary River irrigation area or project**

22.(1) In these areas, the water year ends on 30 June.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (2) The prescribed percentage of the nominal allocation is 50%.
- (3) The minimum annual fixed amount is—
  - (a) for water from a channel supply—\$338.80; and
  - (b) for surface water—\$169.40.
- (4) The following charges apply for the supply of water from the area or project—
  - (a) from a channel—\$37.05 for each ML;
  - (b) from Mary Barrage—\$11.60 for each ML;
  - (c) from Tinana Barrage or Teddington Weir—\$17.75 for each ML.

**Macintyre Brook project**

- 23.(1) In this area, the water year ends on 30 September.
- (2) The prescribed percentage of the nominal allocation is 75%.
- (3) The minimum annual fixed amount is \$166.25.
- (4) The charge for the supply of water by water harvesting is \$2.85 for each ML up to 500 ML.
- (5) The charge for the supply of water other than by water harvesting is—
  - (a) \$11.35 for each ML up to the announced allocation;
  - (b) \$113.50 for each ML over the announced allocation.

**Maranoa River project**

- 24.(1) In this area, the water year ends on 31 August.
- (2) The prescribed percentage of the nominal allocation is 75%.
- (3) The minimum annual fixed amount is \$166.25.
- (4) The following charges apply for the supply of water from the project—

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (a) \$10.95 for each ML up to the announced allocation;
- (b) \$21.90 for each further ML up to 125% of the announced allocation;
- (c) \$32.60 for each further ML.

**Mary Valley project**

**25.(1)** In this area, the water year ends on 30 June.

**(2)** The prescribed percentage of the nominal allocation is 50%.

**(3)** The minimum annual fixed amount is—

- (a) for surface water—\$169.40; and
- (b) for water from Pie Creek diversion—\$338.80.

**(4)** The charge for the supply of water from a regulated section of Yabba Creek or the Mary River is \$11.60 for each ML.

**(5)** The charge for the supply of water from a section of a watercourse regulated by the Pie Creek diversion scheme is—

- (a) \$44.90 for each ML; or
- (b) \$89.80 for each ML from a channel, if water is available from the natural flow in Pie Creek.

**(6)** The charge for the supply of water from Cedar Pocket Dam or the regulated section of East Deep Creek between Cedar Pocket Dam and the junction with North Deep Creek is—

- (a) \$11.60 for each ML up to the announced allocation; and
- (b) \$23.20 for each ML.

**Pioneer River project**

**26.(1)** In this area, the water year ends on 30 June.

**(2)** The prescribed percentage of the nominal allocation is 60%.

**(3)** The minimum annual fixed amount is \$166.25.

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

(4) The charge for the supply of water from the section of the Pioneer River regulated by Mirani Weir is—

- (a) \$11.00 for each ML up to the announced allocation; and
- (b) \$22.00 for each further ML up to 10 ML over the announced allocation; and
- (c) \$110.00 for each further ML.

(5) The charge for the supply of water by water harvesting is \$2.75 for each ML up to 500 ML.

**Proserpine River project**

27.(1) In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 75%.

(3) The minimum annual fixed amount is—

- (a) for surface water—\$169.40; and
- (b) for ground water—\$169.40.

(4) The following charges apply for the supply of water from the project from surface water or from the Proserpine ground water area—

- (a) \$11.20 for each ML up to the announced allocation;
- (b) \$22.40 for each further ML up to 10 ML over the announced allocation;
- (c) \$112.00 for each further ML.

**Stanwell pipeline project**

28.(1) In this area the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 100%.

(3) There is no minimum annual fixed amount.

(4) The charge for the supply of water for stock or for domestic purposes from the pipeline's consumer offtakes is—

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

- (a) \$140.00 for each ML; and
- (b) \$126.00 for each offtake in each water year.

**St George irrigation area or project**

**29.(1)** In these areas, the water year ends on 30 September.

**(2)** The prescribed percentage of the nominal allocation is 60%.

**(3)** The minimum annual fixed amount is—

- (a) for water from a channel supply—\$332.50; and
- (b) for surface water—\$166.25.

**(4)** The following charges apply for the supply of water from a channel—

- (a) \$21.95 for each ML up to the announced allocation;
- (b) \$219.50 for each ML over the announced allocation.

**(5)** The following charges apply for the supply of water from a regulated section of the Thuraggi Watercourse or Thuraggi diversion channel—

- (a) \$11.00 for each ML up to the announced allocation;
- (b) \$110.00 for each ML over the announced allocation.

**(6)** The following charges apply for the supply of water from Beardmore Dam or a regulated section of the Balonne River—

- (a) \$11.00 for each ML up to the announced allocation;
- (b) \$110.00 for each ML over the announced allocation.

**(7)** The following charges apply for the supply of water by water harvesting from—

- (a) a channel—
  - (i) to on-farm storage—\$11.00 for each ML; and
  - (ii) for another use—\$22.00 for each ML;
- (b) a regulated section of the Thuraggi Watercourse or Thuraggi

SCHEDULE 1 (continued)

diversion channel—\$5.50 for each ML;

- (c) Beardmore Dam or from any watercourse downstream of Beardmore Dam to the Queensland/New South Wales Border—\$2.75 for each ML up to 500 ML.

**Tarong pipeline project**

**30.(1)** In this area the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 100%.

(3) There is no minimum annual fixed amount.

(4) The charge for the supply of water for stock, domestic and rural residential purposes from the pipeline's consumer offtakes is \$285.00 for each ML.

**Three Moon Creek project**

**31.(1)** In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 75%.

(3) The minimum annual fixed amount is—

(a) for surface water—\$169.40; and

(b) for ground water—\$84.70.

(4) The following charges apply for the supply of water from a regulated section of Three Moon Creek—

(a) \$10.20 for each ML up to the announced allocation;

(b) \$12.85 for each further ML up to 110% of the announced allocation;

(c) \$25.70 for each further ML up to 120% of the announced allocation;

(d) \$51.40 for each further ML.

(5) The following charges apply for the supply of water from ground

water in the Three Moon Creek ground water area—

- (a) \$5.15 for each ML up to announced allocation;
- (b) \$12.85 for each further ML up to 110% of the announced allocation;
- (c) \$25.70 for each further ML up to 120% of the announced allocation;
- (d) \$51.40 for each further ML.

(6) The charge for the supply of water by water harvesting is \$2.60 for each ML up to 500 ML.

**Upper Burnett project**

**32.(1)** In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is—

- (a) for surface water—75%; and
- (b) for water from John Goleby Weir—100%.

(3) The minimum annual fixed amount is—

- (a) for surface water—\$166.25; and
- (b) for water from John Goleby Weir—\$166.25.

(4) The following charges apply for the supply of water from a regulated section of the Nogo River or the Burnett River—

- (a) \$10.00 for each ML up to announced allocation;
- (b) \$20.00 for each further ML up to 110% of the announced allocation;
- (c) \$30.00 for each further ML up to 120% of the announced allocation;
- (d) \$40.00 for each further ML up to 130% of the announced allocation;
- (e) \$50.00 for each further ML up to 140% of the announced

allocation;

- (f) \$60.00 for each further ML up to 150% of the announced allocation;
- (g) \$70.00 for each further ML up to 160% of the announced allocation;
- (h) \$80.00 for each further ML up to 170% of the announced allocation;
- (i) \$90.00 for each further ML up to 180% of the announced allocation;
- (j) \$100.00 for each further ML.

(5) The following charges apply for the supply of water from John Goleby Weir—

- (a) \$10.00 for each ML up to the announced allocation;
- (b) \$20.00 for each further ML up to 102.5% of the announced allocation;
- (c) \$50.00 for each further ML up to 105% of the announced allocation;
- (d) \$100.00 for each further ML up to 107.5% of the announced allocation;
- (e) \$200.00 for each further ML.

(6) The charge for the supply of water by water harvesting from a regulated section of the Nogo River or Burnett River is \$2.55 for each ML up to 500 ML.

**Upper Condamine project**

**33.(1)** In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 75%.

(3) The minimum annual fixed amount is \$166.25.

(4) The following charges apply for the supply of water from a regulated

SCHEDULE 1 (continued)

section of Sandy Creek or the Condamine River—

- (a) \$11.60 for each ML up to the announced allocation;
- (b) \$116.00 for each ML.

(5) The following charges apply for the supply of water from a regulated section of the Condamine River North Branch—

- (a) \$18.15 for each ML up to the announced allocation;
- (b) \$181.50 for each ML.

(6) The charges for the supply of water by water harvesting from a regulated section of Sandy Creek or the Condamine River is \$2.90 for each ML up to 500 ML.

(7) The following charges apply for the supply of water from a regulated section of the Condamine River North Branch—

- (a) by restricted water harvesting—
  - (i) \$7.50 for each ML up to 500 ML; and
  - (ii) \$4.60 for each further ML;
- (b) by general water harvesting—\$2.90 for each ML up to 500 ML.

**Warrill Valley project**

**34.(1)** In this area, the water year ends on 30 June.

(2) The prescribed percentage of the nominal allocation is 75%.

(3) The minimum annual fixed amount is \$166.25.

(4) The following charges apply for the supply of water from a regulated section of Creek or Warrill Creek—

- (a) \$10.00 for each ML up to the announced allocation;
- (b) \$15.00 for each further ML up to 125% of the announced allocation;
- (c) \$20.00 for each further ML up to 150% of the announced allocation;

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 1 (continued)

(d) \$30.00 for each further ML.

(5) The following charges apply for the supply of water from a regulated section of Black Gully, Bremer River, Kent's Lagoon, Normanby Gully, West Branch, Warroolaba Creek and the Upper Warrill systems—

(a) \$11.35 for each ML up to the announced allocation;

(b) \$17.00 for each further ML up to 125% of the announced allocation;

(c) \$22.70 for each further ML up to 150% of the announced allocation;

(d) \$34.05 for each further ML.

(6) The following charges apply for the supply of water by water harvesting—

(a) for water from a regulated section of Reynolds Creek or Warrill Creek—\$2.50 for each ML up to 500 ML;

(b) for water from a regulated section of Black Gully, Bremer River, Kent's Lagoon, Normanby Gully, West Branch, Warroolaba Creek and the Upper Warrill systems—\$2.85 for each ML up to 500 ML.

## **SCHEDULE 2**

### **CHARGES—MAREEBA—DIMBULAH**

section 15

#### **Mareeba-Dimbulah irrigation area or project**

**1.(1)** In this area, the water year ends on 30 June.

**(2)** The amount payable for water taken for an owner's land is \$372.25 plus a charge based on—

- (a) the nominal allocation of the owner's land as worked out under subsection (3), and
- (b) the amount of water taken as worked out under subsection (4).

**(3)** The charge for water supplied, based on the nominal allocation of the owner's land, is as follows—

- (a) in a relift area—\$14.70 for each ML;
- (b) from a channel supply—
  - (i) \$13.60 for each ML up to 100 ML; and
  - (ii) \$9.05 for each further ML up to 500 ML; and
  - (iii) \$7.90 for each further ML;
- (c) from a regulated section of—
  - (i) Tinaroo Falls Dam or the Barron River—\$6.80 for each ML; and
  - (ii) Emerald Creek above AMTD 14.300—\$2.95 for each ML; and
  - (iii) another watercourse—\$11.35 for each ML.

**(4)** The charge for an amount of water taken is as follows—

- (a) for water taken up to the announced allocation from a channel in a relift area—\$22.60 for each ML;

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 2 (continued)

- (b) from a channel outside a relift area—
  - (i) \$15.85 for each ML up to 100 ML; and
  - (ii) \$13.55 for each further ML up to 500 ML; and
  - (iii) \$10.20 for each further ML;
- (c) from a channel, over the announced allocation—
  - (i) in a relift area—\$56.05 for each ML; and
  - (ii) in another area—\$44.15 for each ML;
- (d) for other water taken, up to the announced allocation—
  - (i) from a regulated section of Tinaroo Falls Dam or the Barron River—\$6.75 for each ML; and
  - (ii) from Emerald Creek above AMTD 14.300—nil; and
  - (iii) from a regulated section of another watercourse—\$9.05 for each ML;
- (e) for other water taken, over the announced allocation—
  - (i) from a regulated section of Tinaroo Falls Dam or the Barron River—\$20.40; and
  - (ii) from Emerald Creek above AMTD 14.300—nil; and
  - (iii) from a regulated section of another watercourse—\$30.60.

## **SCHEDULE 4**

### **CHARGES FOR LOCAL SERVICES**

section 20

#### **Town water supply charges—general**

**1.(1)** The annual town water supply charges are as follows—

- (a) for a maximum of 300 kL supplied to a church, CWA rest room, kindergarten, preschool centre (other than a State preschool), creche, or playgroup centre—\$107.85;
- (b) for a maximum of 360 kL supplied to a flat—\$129.40;
- (c) for a maximum of 600 kL supplied to a private residence or dwelling, public hall, the premises of a society, club, league, association or lodge, picture theatre, retail shop, office, bank, warehouse, bulk store, or sports clubhouse—\$215.70;
- (d) for a maximum of 900 kL supplied to a sawmill (electrically powered), post office, garage, mechanical or other workshop, service station, butchery, bakery, cafe, restaurant, railway station, or kiosk—\$323.55;
- (e) for a maximum of 1 200 kL supplied to a boarding or lodging house or school—\$431.40;
- (f) for a maximum of 1 500 kL supplied to a hospital—\$539.20;
- (g) for a maximum of 1 800 kL supplied to a cordial or aerated water factory, caravan park, hostel, motel, or campsite with camp accommodation and ablution building—\$647.10;
- (h) for a maximum of 2 400 kL supplied to a hotel—\$862.80;
- (i) for a maximum of 3 000 kL supplied to a swimming pool, sporting field or parkland—\$1 078.50;
- (j) for a maximum of 3 600 kL supplied to a lawn bowling club—\$1 294.20;

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 4 (continued)

- (k) for a maximum of 600 kL supplied to improvements on serviced land to which this section does not otherwise apply—\$215.70.

(2) If improvements on serviced land are put to more than 1 use, subsection (1) applies to each use.

**Town water supply charges for certain multiple uses**

2. Despite section 1, if improvements on serviced land are used for more than 1 of the following uses, an annual town water supply charge of \$129.40 for a maximum quantity of 360 kL of water is payable for each use—

- (a) a retail shop;
- (b) an office;
- (c) a bank;
- (d) a warehouse;
- (e) a bulk store.

**Excess water charges**

3. The water charge of for each kL of water supplied in excess of the maximum quantity for a use under section 1 is 57 c.

**Water charges may be levied on a proportional basis**

4. Charges for water supply may be levied on a proportional basis.

**Sewerage and sullage water disposal charges**

5.(1) The annual charges for sewerage services are—

- (a) for a private residence—\$264.85; and
- (b) for other premises—
  - (i) for the first pedestal—\$264.85; and

*Water Resources (Rates and Charges)  
Regulation 1992*

---

SCHEDULE 4 (continued)

(ii) for each urinal or additional pedestal—\$106.10.

(2) The annual charges for sullage water disposal (if the disposal is connected to the sewerage system) are—

(a) for a private residence—\$142.55; and

(b) for other premises—

(i) for the first 3 units—\$356.35; and

(ii) for each additional unit—\$58.05.

(3) In subsection (2)(b)—

“**unit**” means a pedestal or urinal.

**Garbage collection charges**

**6.(1)** The annual charge for collecting garbage each week is \$86.35 for each garbage bin.

(2) An additional charge of \$2.20 for each bin for each service is payable for additional garbage collection services.
