(2) An applicant for a licence must at the request of the Authority provide any further information or evidence that the Authority may require to decide the application.

Grant of licence

34.(1) If the Authority is satisfied, on an application under this Division, that the applicant is entitled to a licence, the Authority must issue a licence of the appropriate class.

(2) A contractor's licence may be issued by the Authority with or

without an endorsement signifying that the licensee may enter into contracts with consumers to carry out residential construction work covered by the statutory insurance scheme.

(3) A contractor's licence is to be in the form of a card capable of being used to imprint documents with the licensee's name and licence number.

(4) Subsection (3) does not apply to a contractor's licence (other than a licence allowing the licensee to perform residential construction work) if it is of a class identified in the Board's policies as a class of contractor's licence to which subsection (3) does not apply.

(5) The Authority may also issue a licence certificate in a form determined by the Authority.

(6) If, on application by a licensee and payment of the fee required by regulation, the Authority is satisfied that a licence card or a licence certificate has been lost, damaged or destroyed, the Authority may issue a new licence card or licence certificate.

Division 4—Conditions of licence

Imposition of conditions etc. on grant of licence

35. A licence may be granted subject to such conditions as the Authority considers appropriate.

Subsequent imposition of conditions etc.

36.(1) If the Authority has reason to believe—

- (a) that a licensee may have insufficient financial resources to meet possible liabilities in relation to building work; or
- (b) that there is some other proper ground for imposing a condition on the licence;

the Authority may notify the licensee of the proposed condition and invite the licensee, within a period specified in the notice, to make written representations on the proposal.

(2) After considering the written representations (if any) made by the

*Queensland Building Services Authority Act
1991*

licensee, the Authority, if satisfied that the condition is appropriate, may, by notice to the licensee, impose the condition.

(3) A condition may be imposed preventing the licensee from continuing to carry on business until the licensee has lodged with the Authority appropriate security against possible liabilities in relation to building work.

(4) The Authority may, by subsequent notice to the licensee, vary or revoke a condition imposed under this section.

(5) A notice imposing or varying a condition must inform the licensee of the licensee's right to apply for a review of the Authority's decision to impose or vary the condition.

Division 5—Annual licence fee

Annual licence fee

37. A licensee must pay the licence fee appropriate to a licence of the class held by the licensee in accordance with the regulations.

Suspension for non-payment of fee

38.(1) If a licensee fails to pay the appropriate licence fee within the time allowed under the regulations, the Authority may, by notice to the licensee, suspend the licence.

(2) A suspension imposed under this section terminates on payment of the appropriate fee.

(3) If a licence has remained in suspension under this section for more than 3 months, the Authority may, by notice to the licensee, cancel the licence.

Division 6—The register

Register

39.(1) A register of licensees must be kept by the Authority.

*Queensland Building Services Authority Act
1991*

(2) The register must include the following particulars in relation to each licensee—

- (a) the licensee's full name, business address and licence number;
- (b) if the licensee is a company—the full name and business address of the nominated supervisor and each director;
- (c) the class of licence held by the licensee and any special conditions to which the licence is subject;
- (d) any particulars required by regulation.

(3) The register must also contain against the name of each licensee a note of any direction or order requiring the licensee to rectify building work and of any disciplinary action taken against the licensee.

(4) If circumstances change so that the particulars recorded in the register in relation to a particular licensee no longer reflect the current position, the licensee must, within 14 days after the date of the change, give the Authority written particulars of the change.

(5) A person may, on payment of the fee, and subject to the conditions, prescribed by regulation, inspect the register at the Authority's office at any time that office is open to the public.

Certificates

41.(1) The Authority may, on application by any person and payment of the fee fixed by regulation, issue a certificate—

- (a) certifying that a particular person was or was not licensed under this Act as at a particular date or over a particular period; or
- (b) certifying the class or conditions of a particular licence; or
- (c) certifying the cancellation or suspension of a licence; or
- (d) certifying as to any other matter contained in the register.

(2) A certificate under this section is admissible in legal proceedings as evidence of any matter stated in the certificate.

Division 7—Requirement to be licensed

Unlawful carrying out of building work

42.(1) A person must not carry out, or undertake to carry out, building work unless that person holds a contractor's licence of the appropriate class under this Act.

(2) For the purposes of this section—

- (a) a person carries out building work whether that person carries it out personally, or directly or indirectly causes it to be carried out; and
- (b) a person is taken to carry out building work if that person provides advisory services, administration services, management services or supervisory services in relation to the building work; and
- (c) a person undertakes to carry out building work if that person enters into a contract to carry it out or submits a tender or makes an offer to carry it out.

(3) A person who carries out building work in contravention of this section is not entitled to any monetary or other consideration for doing so.

(4) An unlicensed person who carries out, in the course of employment, building work for which that person's employer holds a licence of the appropriate class under this Act does not contravene this section.

(5) An unlicensed person who holds an owner-builder permit does not contravene this section by carrying out building work permitted by the permit.

(6) An unlicensed person who carries out, or undertakes to carry out, building work in partnership with a person who is licensed to carry out building work of the relevant class does not contravene this section.

(7) A person who contravenes this section commits an offence.

Supervision of building work

43.(1) Any building work carried out by a licensed contractor must be carried out—

- (a) if the licensee is a company—under the personal supervision of an officer or employee of the company who holds a licence authorising supervision of building work of the relevant class; or
- (b) if the licensee is an individual—under the personal supervision of the licensee or an employee of the licensee who holds a licence authorising supervision of building work of the relevant class.

(2) A licensed contractor is obliged to ensure adequate supervision of all building work carried out under the licence and accordingly the number of licensed supervisors engaged in supervision must be adequate having regard to—

- (a) the nature and amount of the building work being carried out at any one time; and
- (b) the number of sites at which the building work is being carried out; and
- (c) the geographical location of the sites.

(3) The principles for determining the adequacy of supervision are to be laid down in the Board's policies.

(4) The Authority may, for any proper reason, waive compliance with a requirement of this section on such conditions as the Authority considers appropriate.

(5) If building work is not supervised as required by this section the licensed contractor commits an offence.

Maximum penalty—

Division 8—Owner-builders

Permits for owner-builders

44.(1) The Authority may, on application by the owner of land, and payment of the appropriate fee determined under the regulations, issue a permit permitting the owner (subject to any other relevant law) to carry out on the land building work of a class prescribed by regulation for the purposes of this Division.

(2) If the land is owned jointly or in common by 2 or more persons, the application must be made jointly by all of them.

(3) The regulations may require that an applicant for a permit to carry out building work of a particular class, or if there are 2 or more joint applicants, at least 1 of them, must have completed a specified course of instruction.

(4) A permit cannot be issued under this section if a permit has been issued to the same applicant within the previous 6 years unless—

- (a) the case falls within an exception stated in the regulations; or
- (b) the Authority is satisfied that there are special reasons for issuing the permit.

(5) In this section—

“owner” includes a person—

- (a) who—
 - (i) holds an estate or interest in land that entitles the person to become an owner (as defined in section 4(1)) of the land; or
 - (ii) is the occupier of land under a lease, licence or other authority from the owner (as defined in section 4(1)) of the

land; and

- (b) who produces with an application under subsection (1) the written agreement of the owner (as defined in section 4(1)) of the land for a permit to be issued under this section to the person.

Notification on certificate of title

46.(1) If a permit is issued under this Division, the Authority must notify the Registrar of Titles of the granting of the permit.

(2) On receiving a notification under this section, the Registrar of Titles must enter the notification in the file attached to the register and it may not be removed except under this section.

(3) At the end of 7 years from entry of a notification, the Registrar of Titles may remove it from the file.

(4) If the Authority directs earlier removal of a notification from the file, the Registrar of Titles must comply with that direction.

(5) In this section—

“**register**” means—

- (a) for freehold land—the freehold land register; or
- (b) for other land—the relevant register for the land.

Warnings

47.(1) If—

- (a) building work is carried out on land by a person who is not licensed to carry out that building work; and
- (b) the land is offered for sale within 6 years after completion of the building work;

the vendor must, before the contract of sale is signed by the purchaser, give the prospective purchaser a notice containing details of the building work and a warning in the form required by regulation.

(2) If a notice is not given as required by this section, the vendor will be taken to have given the purchaser a contractual warranty (which operates to

the exclusion of any inconsistent provision of the contract of sale) that the building work was properly carried out.

Division 9—Cancellation, suspension or surrender of licence

Cancellation or suspension of licence

48. The Authority may suspend or cancel a licence if—

- (a) the licence was obtained on the basis of incorrect information supplied to the Authority, whether or not fraud was intended; or
- (b) the licence was obtained by fraud or other improper means; or
- (c) the licensee is convicted of an indictable offence or an offence that, if committed in Queensland, would be an indictable offence; or
- (d) the licensee—
 - (i) for an individual—has become bankrupt or taken advantage of the laws of bankruptcy; or
 - (ii) for a company—is insolvent, has a provisional liquidator, a liquidator, an administrator or a controller appointed or is ordered to be wound up; or
- (e) the licensee is a company and it ceases, for a period exceeding 28 days, to have a nominated supervisor holding a licence authorising supervision of building work of the appropriate class or classes; or
- (f) the licensee is convicted of an offence against this Act; or
- (g) the licensee becomes a patient within the meaning of the *Mental Health Act 1974*; or
- (h) the licensee contravened a condition imposed under section 36 on the licensee's licence; or
- (i) the licensee owes an amount to the Authority and fails to comply with a demand by the Authority to discharge the debt; or
- (j) the Authority becomes aware of the existence of facts that, having

regard to section 31(1)(a)—

- (i) would allow the Authority to refuse to issue the licence if it were now being applied for by the licensee; or
- (ii) would have allowed the Authority to refuse to issue the licence originally.

Procedure for cancellation or suspension

49.(1) The Authority must, before cancelling or suspending a licence, give the licensee notice of its reasons for the proposed cancellation or suspension and allow the licensee 21 days from service of the notice to make written representations on the matter.

(2) The Authority must consider any written representations made within the time allowed under subsection (1) before imposing the cancellation or suspension.

(3) A cancellation or suspension is imposed by written notice to the licensee.

(4) The notice of cancellation or suspension must inform the licensee or former licensee of the right to apply to the Tribunal for a review of the Authority's decision.

Immediate cancellation of licence

49A.(1) Despite section 49(1), the Authority may cancel a licence without allowing the licensee time to make written representations before the cancellation takes effect, if—

- (a) grounds for cancellation mentioned in section 48(a), (b) or (d) exist; and
- (b) the Authority believes, on reasonable grounds, that there is a real likelihood that serious harm to consumers will happen if the licence is not immediately cancelled.

(2) The cancellation under subsection (1) is imposed by written notice to the licensee that also tells the licensee—

- (a) that the licensee may make written representations for restoration

of the licence; and

- (b) that the licensee may apply to the Tribunal for review of the Authority's decision; and
- (c) the reasons for the cancellation.

Surrender of licence

50. A licensee may, with the consent of the Authority, surrender the licence.

Division 10—Miscellaneous

False representation

51. A person must not, by words or conduct, falsely represent—

- (a) that a person (whether the representor or some other person) holds a licence under this Act; or
- (b) that a person who holds a licence of a particular class under this Act (whether the representor or some other person) holds a licence of some other class.

Maximum penalty—80 penalty units.

Signs to be exhibited

52.(1) A licensed contractor (not being a subcontractor) must exhibit at a prominent position on a building site under the contractor's control a sign conforming with the regulations showing the name under which the contractor is licensed under this Act and the number of the contractor's licence.

Maximum penalty—20 penalty units.

(2) A person who carries out building work under an owner-builder permit must exhibit at a prominent position on a building site under that person's control a sign conforming with the regulations showing the

number of the permit.

Maximum penalty—20 penalty units.

Return of licence

53.(1) A licensee (or former licensee) whose licence is suspended or cancelled must, within 14 days of receiving notice of the suspension or cancellation, return the licence and, if the Authority has issued a licence certificate, the licence certificate, to the Authority.

(2) A licensee must, within 14 days of receiving notice of the imposition, variation or revocation of a condition of the licence return the licence and, if the Authority has issued a licence certificate, the licence certificate, to the Authority for endorsement.

(3) A person who fails, without reasonable excuse, to comply with a requirement of this section commits an offence.

Maximum penalty—80 penalty units.

Advertisements

54. A licensee who publishes or causes to be published any advertisement in connection with the licensee's business must ensure that the advertisement—

- (a) contains the name under which the licensee is licensed; and
- (b) states that the licensee is licensed under this Act and the number of the licensee's licence; and
- (c) conforms with any other requirements imposed by regulation.

Maximum penalty—35 penalty units.

Notification of nominated supervisor

55. If a company that holds a licence—

- (a) ceases to have a nominated supervisor; or
- (b) changes its nominated supervisor;

the company must, within 14 days, give notice containing the information required by regulation to the Authority.

Maximum penalty—20 penalty units.

Partnerships

56.(1) A licensed contractor may carry on business under the licence in partnership with an unlicensed person subject to the following conditions—

- (a) no contract to carry out building work may be entered into, and no offer or tender to carry out building work may be made, on behalf of the partnership except by the licensed contractor;
- (b) any such contract offer or tender must be signed by the licensed contractor and have endorsed on it the names of the other members of the partnership;
- (c) any advertisement published in relation to the business carried on, or to be carried on, under the licence must state the name under which the licensed contractor is licensed and conform with any requirements imposed by regulation.

(2) If a condition imposed by subsection (1) is contravened, each member of the partnership commits an offence.

Maximum penalty—80 penalty units.

PART 4—DOMESTIC BUILDING CONTRACTS

Application of Pt 4

56A.(1) This Part (other than section 58(2) and (3)) applies to a contract only if the contract is about a duplex or single detached dwelling.

(2) This Part does not apply to a contract between—

- (a) a consumer; and

- (b) a licensed contractor of a class prescribed by regulation for this section.

Suggested contractual forms

57. The Authority may prepare and publish suggested contractual forms for use in relation to domestic building work.

Contract for major domestic building work

58.(1) A contract between a building contractor and a consumer for carrying out major domestic building work must—

- (a) be in writing and signed by the building contractor and the consumer; and
- (b) sufficiently describe the building work; and
- (c) clearly state the building contractor's name, licence number (as it appears on the building contractor's licence card) and address; and
- (d) comply with the regulations about the form and expression of contracts to which this section applies; and
- (e) if the major domestic building work is residential construction work—be imprinted with the building contractor's licence card when the contract is signed.

(2) As soon as practicable after entering into a contract for carrying out major domestic building work, the building contractor must—

- (a) give a copy of the contract to the consumer; and
- (b) if the work is residential construction work for a building that is class 1a or 2 under the classification of buildings and structures in the Building Code of Australia—give a copy of the contract to the Authority; and
- (c) if the work is residential construction work for another type of building—give the Authority written notice of details of the contract in a form approved under the Board's policies.

Maximum penalty—20 penalty units.

(3) If, when a consumer signs a contract for major domestic building work that is residential construction work, there is imprinted on the contract the licence card of a building contractor, the building contractor whose card is imprinted on the contract is taken to be a party to the contract even if the contract does not comply with subsection (1), or the building contractor does not comply with subsection (2).

(4) A building contractor who enters into a contract with a consumer for carrying out major domestic building work commits an offence if the contract does not comply with subsection (1).

Maximum penalty—20 penalty units.

Variations to be in writing

59.(1) Any variation to a contract for carrying out major domestic building work must be in writing and signed by the parties to the contract.

(2) A variation that does not comply with this section may not be relied on by the consumer or the building contractor.

Statement of contract price

60.(1) The price for which a building contractor is to carry out major domestic building work must be stated in the contract.

(2) If the stated price is subject to variation under any provision of the contract, the contract must contain a warning next to the stated price to the effect that the stated price is subject to variation under specified provisions of the contract.

(3) If a warning is not included as required by subsection (2), a provision of the contract for variation of the stated price operates so far as it would result in a reduction of price but not so far as it would increase the price.

Prime cost items etc.

61.(1) If a domestic building contract contains estimates of the cost to the consumer of items to be provided, or work to be done, under the contract,

those estimates must be reasonable having regard to—

- (a) information that the building contractor had or should have had at the date of the contract; and
- (b) the nature and location of the building site.

(2) If the estimate was not reasonable as at the date of the contract the building contractor commits an offence.

Maximum penalty—35 penalty units.

(3) The unlawful inclusion of an unreasonable estimate does not render any provision of the contract illegal or void but the Tribunal may, on application by the consumer, reduce the consumer's liability in relation to an item or work to which the estimate relates to such extent as may be just.

Cost escalation clauses

62.(1) A building contractor may not rely on a cost escalation clause in a domestic building contract unless—

- (a) before the consumer signs the contract containing the clause, the contractor gives the consumer a notice in the form required by regulation explaining the effect of the clause; and
- (b) the clause is specifically signed or initialled by the consumer.

(2) A cost escalation clause in a domestic building contract is void unless—

- (a) the contract price for carrying out the building work exceeds \$200 000 or a greater amount fixed by regulation; or
- (b) the building work is to be carried out under the supervision of an architect who has been engaged by the consumer; or
- (c) the clause is in a form approved by the Authority, provides for increase of the contract price in accordance with a formula stated in the regulations, and is subject to the conditions prescribed by the regulation.

Noncompliance with time for completion

63.(1) If a contract for carrying out domestic building work specifies a time for completion of the work, or a period within which the work is to be completed, and the work is not completed by that time, or within that period, the consumer is, subject to subsection (2), entitled to damages as if the building contractor had warranted that the work would be completed by the stated time or within the stated period.

(2) It is a defence to an action for damages under this section for the building contractor to establish—

- (a) that the work was delayed by events beyond the contractor's control; and
- (b) that within 10 business days of each such event the contractor gave written notice to the consumer of the happening of the event and its likely effect on the time for completion of the building work.

(3) This section does not prevent the parties to a contract from agreeing to provisions imposing more onerous consequences on a building contractor for failing to complete within the time allowed by the contract.

Fixtures and fittings

64.(1) If a domestic building contract is made by reference to plans, any fixtures and fittings shown in the plans are taken to be included in the contract price unless specifically excluded by the contract.

(2) Any such exclusion is ineffective unless signed or initialled by the consumer.

Display home contracts

65.(1) A person who makes a display home available for inspection must ensure that the following documents are prominently displayed in the display home—

- (a) a copy of the plans and specifications relating to its construction;
- (b) if the building contractor commonly enters into contracts in a

*Queensland Building Services Authority Act
1991*

particular form—a copy of the contract form.

Maximum penalty—20 penalty units.

(2) If—

- (a) a display home is made available for inspection by or on behalf of a building contractor; and
- (b) a consumer enters into a contract with the building contractor for the construction of a similar home;

the contract is to be presumed to provide that the home will be constructed according to the same plans and specifications, standards of work quality and quality of materials as the display home except to the extent (if any) that the contract provides for, and specifically identifies, departures from them.

(3) If—

- (a) a display home is made available for inspection by or on behalf of a building contractor; and
- (b) a consumer enters into a contract with the building contractor for the construction of a similar home or to have preliminary work carried out with a view to the construction of a similar home;

the consumer may, by notice given to the contractor within 5 business days after the date of the contract, rescind the contract.

(4) A contract to construct a home cannot be rescinded under subsection (3) if, more than 5 business days before the date of that contract, a contract was made between the same parties to have preliminary work carried out.

(5) On rescission of a contract under this section, the building contractor must repay to the consumer any deposit paid under the contract.

Progress payments

66.(1) If a contract to which this section applies contemplates the payment of the contract price in instalments, the instalments must become due at defined stages of the construction in accordance with a schedule included in the contract.

(2) If a schedule for the payment of instalments is to be fixed in a

contract to which this section applies, and the schedule differs from a suggested schedule for contracts of the relevant class contained in the regulations, the contractor must, before the contract is signed by the consumer, give the consumer a notice in the form required by the regulation—

- (a) setting out the suggested schedule contained in the regulations; and
- (b) explaining why that schedule is inappropriate in the circumstances of a particular case.

(3) An instalment of the contract price does not become due under a contract to which this section applies until the contractor has given the consumer an account for payment of the instalment accompanied by a certificate to the effect that the building work has been completed to the relevant stage.

(4) Noncompliance with this section does not render a contract or any provision of a contract illegal or void, but if a contract does not comply with subsection (1) or if a building contractor fails to comply with subsection (2), the contractor commits an offence.

Maximum penalty—35 penalty units.

(5) This section applies to a contract for the performance of building work of a class prescribed by regulation.

Arbitration clauses prohibited

67. A contractual provision requiring the reference of a dispute under a domestic building contract to arbitration is void.

PART 5—THE STATUTORY INSURANCE SCHEME

Payment of insurance premium

68.(1) A building contractor must, before commencing residential construction work pay to the Authority the appropriate insurance premium

for the work in accordance with the regulations.

Maximum penalty—20 penalty units.

(2) A local authority must not grant an approval under the *Building Act 1975* in respect of residential construction work unless the applicant produces satisfactory evidence that the appropriate insurance premium has been paid or that no insurance premium is payable.

(3) A certificate of insurance issued by the Authority in relation to residential construction work is conclusive evidence that the work is covered by a policy of insurance under the statutory insurance scheme.

Insurance of building work

69.(1) When the Authority accepts the appropriate insurance premium in respect of residential construction work, the Authority must issue a certificate of insurance in respect of the residential construction work.

(2) A policy of insurance comes into force in the terms prescribed by regulation if a consumer enters into a contract for the performance of residential construction work, and—

- (a) the contract is imprinted with a licensed contractor's licence card bearing an endorsement showing that the licensee may enter into contracts with consumers to carry out residential construction work covered by the statutory insurance scheme; or
- (b) the contract is with a licensed contractor whose licence bears an endorsement mentioned in paragraph (a); or
- (c) the contract is with a person fraudulently claiming to hold a licence mentioned in paragraph (b).

(3) Subsection (2) applies whether or not an insurance premium has been paid or a certificate of insurance has been issued.

Insurance claims

70.(1) A person claiming to be entitled to indemnity under the insurance scheme must give notice of the claim to the Authority in accordance with the regulations.

(2) If a claimant is dissatisfied with the Authority's decision on the claim, the claimant may apply to the Tribunal for a review of the Authority's decision.

(3) On an application under this section the Tribunal may confirm, vary or reverse the Authority's decision and make consequential orders and directions.

Recovery from building contractor etc.

71.(1) If the Authority makes any payment on a claim under the insurance scheme, the Authority may recover the amount of the payment, as a debt, from the building contractor by whom the relevant residential construction work was, or was to be, carried out or any other person through whose fault the claim arose.

(2) For subsection (1)—

- (a) a building contractor by whom the relevant residential construction work was, or was to be, carried out is taken to include—
 - (i) a licensed contractor whose licence card is imprinted on the contract for carrying out the work; and
 - (ii) a licensed contractor whose name, licence number and address are stated on the contract; and
 - (iii) a building contractor by whom the work was, or was to be, carried out; and
 - (iv) a person who, for profit or reward, carried out the work; and
- (b) a person through whose fault the claim arose is taken to include a person who performed services for the work if the services were performed without proper care and skill.

(3) The Authority is subrogated, to the extent of any payment that the Authority has made, or has undertaken to make, to the rights of a person to whom, or for whose benefit, the payment has been, or is to be, made in respect of the matter out of which the insurance claim arose.

(4) In a proceeding brought by the Authority under subsection (1) against a licensed contractor mentioned in subsection (2)(a)(i), it is a defence for the

*Queensland Building Services Authority Act
1991*

licensed contractor to prove that—

- (a) the licensed contractor's licence card was imprinted on the contract for carrying out the work without the licensed contractor's authority; and
- (b) the licensed contractor took all reasonable steps to ensure that the licence card was imprinted on contracts only with the licensed contractor's authority.

(5) In a proceeding brought by the Authority under subsection (1) against a licensed contractor mentioned in subsection (2)(a)(ii), it is a defence for the licensed contractor to prove that—

- (a) the licensed contractor's name, licence number and address were stated on the contract for carrying out the work without the licensed contractor's authority; and
- (b) the licensed contractor took all reasonable steps to ensure that the licensed contractor's name, licence number and address were stated in contracts only with the licensed contractor's authority.

PART 6—RECTIFICATION OF BUILDING WORK

Power to require rectification of building work

72.(1) If the Authority is of the opinion that building work is defective or incomplete, the Authority may direct the person who carried out the building work to rectify the building work within a reasonable period stated in the direction.

(2) For subsection (1), the person who carried out the building work is taken to include—

- (a) a licensed contractor whose licence card is imprinted on the contract for carrying out the building work; and
- (b) a licensed contractor whose name, licence number and address are stated on the contract; and

*Queensland Building Services Authority Act
1991*

- (c) a building contractor by whom the building work was carried out; and
- (d) a person who, for profit or reward, carried out the building work.

(3) If in order to rectify building work it is necessary to do so, the direction may require that a building or part of a building be demolished and building work be recommenced.

(4) If a direction is given under this section to a person who is not currently licensed to carry out the required work, the person must have the work carried out by a licensed contractor.

(5) A direction cannot be given under this section more than 6 years and 3 months after the building work to which the direction relates was completed or left in an incomplete state unless the Tribunal is satisfied, on application by the Authority, that there is in the circumstances of a particular case sufficient reason for extending the time for giving a direction and extends the time accordingly.

(6) The fact that a direction is given under this section does not prevent disciplinary action in respect of the defective or incomplete building work.

(7) A person who fails to rectify building work as required by a direction under this section is guilty of an offence.

Maximum penalty—80 penalty units.

(8) For the purposes of subsection (2)(c) and (d)—

- (a) a person carries out building work whether the person—
 - (i) carries it out personally; or
 - (ii) directly or indirectly causes it to be carried out; and
- (b) a person is taken to carry out building work if the person provides advisory services, administration services, management services or supervisory services for the work.

(9) In a prosecution for an offence against subsection (7), or in a proceeding for taking disciplinary action on the ground that a licensee has failed to comply with a direction to rectify building work, it is a defence for a licensed contractor mentioned in subsection (2)(a) to prove that—

- (a) the licensed contractor's licence card was imprinted on the

*Queensland Building Services Authority Act
1991*

contract for carrying out the building work without the contractor's authority; and

- (b) the licensed contractor took all reasonable steps to ensure that the licence card was imprinted on contracts only with the licensed contractor's authority.

(3E) An amount paid by the former Board under its obligations under section 69 of the repealed Act and not recovered at 1 July 1992—

- (a) is taken to be a debt owing to the Authority; and
- (b) the Authority has the same rights under section 71 of this Act as if the amount had been paid by the Authority on a claim under the insurance scheme mentioned in that section.

(4) A direction or order for rectification of building work may be made under this Act in relation to building work, as defined in the repealed Act, carried out before 1 July 1992 by a person who was a registered builder, registered general builder or registered house builder within the meaning of the repealed Act as if references in this Act to a licensed contractor extended to the person.

(5) An order in force under section 59 of the repealed Act immediately before the commencement of Part 6 is, on the commencement of that Part, taken to be a direction under that Part.

(6) The provisions of the repealed Act relating to building work carried out by owner-builders continue to apply, subject to any adaptations and modifications prescribed under this Act, to any such building work that had been carried out or started before the commencement of Part 3 and an approval mentioned in section 53(3) of the repealed Act may be given by the Authority.

(7) A proceeding for an offence against the repealed Act may, subject to the limitation of time prescribed by section 58 of the repealed Act, be brought by a person authorised by the Authority, either generally or in the particular case, to bring the proceeding.

SCHEDULE (continued)

(8) A person who was, immediately before the commencement of Part 3, carrying on the business of a class of building work for which a licence is required under this Act, but for which registration was not required under the repealed Act, is taken to be licensed to carry out and supervise that class of building work—

- (a) until a day 6 months after the commencement of Part 3 or, if another day is fixed by regulation for the purposes of this subsection in relation to the relevant class of building work, that other day; or

Validation of affected licences

9.(1) An affected licence is taken to be, and at all times to have been, a validly issued licence.

(2) Subsection (3) applies if—

- (a) before the commencement day, an affected licence was suspended, cancelled or surrendered; and

Condition of transitional licences

12.(1) This section applies to a transitional licence that is not an expired licence.

(2) The licence is subject to a condition that the relevant licensee must not, while the licence remains in force under section 10 or 11, enter into a building contract on the basis of being a licensee under the licence.

(3) The Authority must promptly give written notice of the condition to the relevant licensee.

(4) A failure by the Authority to comply with subsection (3) does not affect the effectiveness of the condition.
