- 3.(1) Unless otherwise stated in this regulation—
  - (a) a boundary or line along a shore follows high water mark; and

---

<sup>1</sup> In some regulations, definitions are contained in a dictionary that appears as the last schedule and forms part of the regulation—*Acts Interpretation Act 1954*, section 14(4) and *Statutory Instruments Act 1992*, section 14.

In this regulation, if a section has a definition that only applies to the section, or a part of the section, the definition is set out in a separate subsection (generally the last subsection) of the section.

*Fisheries Regulation 1995*

---

- (b) a boundary or line along a shore intersected by a waterway crosses the waterway by the shortest line between its banks; and
- (c) other boundaries and lines run from point to point in a straight line.

(2) Unless otherwise stated in this regulation—

- (a) a reference to a shore is a reference to the shore at high water mark; and
- (b) a reference to the tip of a cape, island or another geographical feature, or a point on the tip, is a reference to the tip or point on the shore at high water mark.

*Example of subsection (2)(b)—*

If a boundary point is described as the southern tip of an island, the point is at the island's southernmost tip at high water mark.

### **References to waterways**

4. Unless otherwise stated in this regulation, a reference to a waterway is a reference to the waterway upstream of the shortest line between its banks at their junction, at low water, with the body of water into which the waterway finally flows.

### **References to banks of waterways**

5. Unless otherwise stated in this regulation, a reference to a bank of a waterway is a reference to the bank at its junction, at high water, with the body of water into which it finally flows.

## ***Division 3—Other provisions aiding interpretation***

- (b) a tender commercial fishing boat's primary commercial fishing boat is a reference to a primary commercial fishing boat with the tender commercial fishing boat's alphabetical marking on it.

*Example—*

If the primary commercial fishing boat has the marking ABC on it, its tender commercial fishing boats have the marking ABC-1, ABC-2 etc.

**Measurement of percentage of certain fish**

**20.** If fish of a type are regulated by percentage and a particular characteristic of the fish,<sup>5</sup> the percentage must be worked out in 1 of the following ways—

- (a) by counting the fish of the type and the fish with the particular characteristic and expressing the number of fish with the particular characteristic as a percentage of the fish of the type;
- (b) by statistical sampling (including, for example, random sampling) of the fish of the type, working out the percentage of the sample under paragraph (a), and using statistical tests to work out the percentage of the fish of the type.

*Examples of ‘types’ of fish—*

- a species
- a genus
- a gender.

*Example of ‘characteristics’ of fish—*

- size.

**Measurement of size of fish**

**21.(1)** The size of a mud or sand crab is decided by measuring—

(6) The size of a Moreton Bay bug is decided by measuring the widest part of its carapace.

(7) The size of other fish is decided by measuring the distance between the front and end tips of the fish.

### **Measurement of weight of green snails**

**22.** The weight of a green snail is its empty shell weight.

### ***Division 3—Exemptions***

#### **Exemption for recreational fishers about barramundi size limit**

**23.(1)** The maximum size for barramundi stated in schedule 4 does not apply to a recreational fisher who, in the Lake Tinaroo area, takes barramundi, or possesses barramundi taken in the area.

(2) Also, the maximum size for barramundi stated in schedule 4 does not apply to a recreational fisher who possesses barramundi outside the Lake Tinaroo area, if the barramundi—

- (a) was taken in the Lake Tinaroo area; and  
(b) is tagged in the required way.

(3) Subsection (2) only applies to barramundi taken other than during the

closed season for barramundi in schedule 1, section 1(b).<sup>6</sup>

- (a) take not more than twice the number of the reef fish during an extended commercial fishing tour; or
- (b) possess not more than twice the number of the reef fish if they were taken during an extended commercial fishing tour.

(3) However, subsection (1) applies only if the recreational fisher ensures a square area (each side of which is at least 3 cm) of the skin of each reef fish is kept on it.

### **Exemptions for Mary River cod**

**24A.** Despite section 18,<sup>7</sup> a person may take or possess 1 Mary River cod taken from the following dams or waterway barrier works upstream from the dams—

  - (ii) another person who has obtained the fish from a holder mentioned in subparagraph (i).

## **PART 6—QUOTAS**

### **Quotas for commercial fisheries**

**26.** A quota stated in a fishery provision for a commercial fishery is the quota for the fishery.

### **Notice of filling of certain quotas**

**27.(1)** When a fisheries agency becomes aware that a quota (other than a daily or time quota) has been, or is likely to be, filled on or by a particular

---

<sup>8</sup> Section 18 (Regulated fish)

day, the fisheries agency must immediately notify a relevant authority holder, in writing, that the quota has been, or is likely to be, filled by a stated day.

(2) The authority holder must immediately tell persons acting under the authority that the quota has been, or is likely to be, filled on or by the stated day.

(3) A person given notice under subsection (1) or (2) must not take fish to which the notice relates after the day stated in the notice or, if the stated day has passed, the day after the notice is received.

(4) In this section—

**“relevant authority holder”** means an authority holder to whom the quota applies.

### **Daily quota**

**28.(1)** A person fishing in a commercial fishery must not take more fish than allowed by the daily quota stated in a fishery provision for the fishery.

### **Time quota**

**29.** If a fishery provision for a commercial fishery states a period (**“time quota”**) during which certain fishing apparatus may be used or certain fish may be taken, a person fishing in the commercial fishery must not use the apparatus or take the fish other than during the time quota.

**Restrictions on issue of fisheries resources permits**

- 37.** The chief executive may issue a fisheries resources permit only for—
- (a) research about an activity related to something for which the chief executive may issue an authority; or
  - (b) diseased fisheries resources.

**Restrictions on issue of fish habitat area permits**

**38.(1)** The chief executive may issue a fish habitat area permit only for the performance of works or related activity in a declared fish habitat area.

**(2)** However, the chief executive may issue the permit only if the chief executive is satisfied the works or activity is—

- (b) any disturbance to the area will be temporary and the area disturbed will be satisfactorily restored.

**Restriction on issue of marine plant permits**

**39.** The chief executive may issue a marine plant permit only for 1 of the following purposes—

**(2)** The Authority may issue an authority for taking coral, shell grit or star sand for trade or commerce as an exclusive coral, shell grit or star sand authority allowing only the holder to take the fish in the area identified in the authority.

### *Division 4—Fishery symbols on authorities*

#### **Fishery symbols to be written on authorities**

**41.(1)** If an authority (other than a tender commercial fishing boat licence) allows a person to do something in a commercial fishery, the Authority must write the fishery symbol for the commercial fishery on the authority.

*Example—*

If the authority allows fishing for trade or commerce in the net fishery (ocean beach), the Authority must write 'N4' on the authority.

**(2)** Also, the Authority may write a fishery symbol on a tender commercial fishing boat licence.

**(3)** However, the Authority may write the fishery symbol 'C5', 'L7' or 'T2' on an authority only if the boat identified in the authority can be used to take fish for trade or commerce under New South Wales law.<sup>9</sup>

---

<sup>9</sup> 'C5' is a fishery symbol for the crab fishery (spanner crab—south Queensland);  
'L7' is a fishery symbol for the line fishery (south Queensland);  
'T2' is the fishery symbol for the trawl fishery (concessional zone).

(4) Despite subsection (1), the Authority need not write the fishery symbol for a following commercial fishery on a crew or fisher licence under which a crew member or fisher may take fish in the fishery—

- (a) line fishery (multiple hook—Queensland Fisheries Joint Authority);
- (b) line fishery (Queensland Fisheries Joint Authority No. 1);
- (c) line fishery (Queensland Fisheries Joint Authority No. 2).

### **Restrictions on writing fishery symbols on authorities allowing the use of boats in commercial fisheries**

**42.(1)** If a licence for a primary commercial fishing boat has a fishery symbol for the line fishery (reef) on it, the Authority may write the fishery symbol on licences for not more than the following number of its tender commercial fishing boats—

- (a) for a primary commercial fishing boat licence with the fishery symbol ‘L2’ on it—4;
- (b) for a primary commercial fishing boat licence with the fishery symbol ‘L3’ on it—1.

(2) However, the Authority may renew a tender commercial fishing boat licence allowing the use of a boat in the line fishery (reef), if the licence was in force immediately before the commencement and has the fishery symbol ‘L2’ or ‘L3’ on it.

(3) Also, the Authority may issue a tender commercial fishing boat licence with the fishery symbol ‘L2’ or ‘L3’ on it, allowing the use of a boat in the line fishery (reef), but only if—

- (a) the boat is a replacement for a boat identified in another tender commercial fishing boat licence; and
- (b) the other tender commercial fishing boat licence was in force immediately before the commencement and has the fishery symbol on it.

(4) Subject to section 42A and the provisions of a management plan, the Authority must not write more than 1 of the same fishery symbol on an authority.

(5) The Authority must not write the fishery symbol ‘N3’ and the fishery symbol ‘N9’ on the same primary commercial fishing boat licence.

### **Combining spanner crab fishery symbols**

**42A.(1)** A person who holds more than 1 primary commercial fishing boat licence with a crab fishery symbol written on each of them may apply to the Authority in writing to amend 2 or more of the licences by—

- (c) taking all the fishery symbols off the licences, other than the stated licence.

(2) In subsection (1)—

“**crab fishery symbol**” means a fishery symbol ‘C2’, ‘C4’, ‘C5’ or ‘C6’.

### **Restrictions on writing fishery symbols on authorities allowing the use of boats of certain lengths in commercial fisheries**

**43.(1)** The Authority may write a fishery symbol on an authority allowing the use of a boat in a commercial fishery only if the boat is not longer than the length permitted under a fishery provision for the fishery.

(2) However, the Authority may renew an authority allowing the use of a boat in a commercial fishery even though the boat is longer than the length permitted under a fishery provision for the fishery, if the authority—

- (a) was in force immediately before the commencement; and
- (b) has a fishery symbol for the fishery on it.

(3) Also, the Authority may issue an authority with a fishery symbol on it allowing the use of a boat in a commercial fishery even though the boat is

longer than the length stated in a fishery provision relating to the boat's use in the fishery, but only if—

- (a) the boat is a replacement for a boat identified in another authority; and
- (b) the other authority was in force immediately before the commencement and has the fishery symbol on it.

### **Things authorised by fishery symbol**

**44.(1)** A person acting under an authority with a fishery symbol on it may take fish only in—

- (a) the commercial fishery identified by the symbol; or
- (b) if an area is stated on the authority—the stated area.<sup>10</sup>

**(2)** If a fishery provision for the commercial fishery states that only particular fish may be taken, the person may take only the stated fish.

**(3)** Also, the person may take fish in the commercial fishery only by using fishing apparatus—

- (a) permitted by a fishery provision for the fishery; and
- (b) in accordance with a fishery provision for the fishery.

**(4)** If a fishery provision for the commercial fishery does not state how many of a particular type of fishing apparatus a person may use, the person may use only 1 of each type at a time.

**(5)** Subsection (4) applies even if more than 1 person is acting under the authority.

### **Restriction on things authorised by an authority with more than 1 fishery symbol on it**

**45.(1)** If an authority has more than 1 fishery symbol on it, persons acting under the authority cannot take fish in more than 1 commercial fishery at a time.

---

<sup>10</sup> There may be other restrictions applying to the taking of fish. See, for example, the provisions about closed seasons, closed waters and regulated fish.

(2) However, if 1 of the fishery symbols is for the crab fishery (other than spanner crab), the persons may take crabs in that fishery and fish in 1 other commercial fishery at the same time.

### **Fishery symbol does not authorise taking fish in certain Joint Authority fisheries**

**46.** This division does not allow a person, in a Joint Authority fishery managed under Queensland law, and acting under an authority, to take fish to which the Joint Authority fishery applies unless—

- (a) the Joint Authority endorses the authority to extend its operation to activities over which the Joint Authority has powers under the Act; and
- (b) taking the fish is an activity over which the Joint Authority has powers under the Act.

### **When effect of certain fishery symbols end**

**47.(1)** The effect of the fishery symbol ‘C5’, ‘L7’ or ‘T2’ written on an authority ends if the boat identified in the authority cannot be used to take fish for trade or commerce under New South Wales law.<sup>11</sup>

(2) Also, the effect of the trawl fishery (river and inshore—area 3) fishery symbol written on an authority ends if—

- (a) the authority is transferred; or
- (b) only a named commercial fisher may use the boat identified in the authority to take fish and another commercial fisher uses the boat to take fish.

(3) In addition, the effect of a fishery symbol for any of the following commercial fisheries written on an authority ends when the authority is transferred—

- (a) line fishery (multiple hook—East Coast);

---

<sup>11</sup> ‘C5’ is a fishery symbol for the crab fishery (spanner crab—south Queensland); ‘L7’ is a fishery symbol for the line fishery (south Queensland); ‘T2’ is the fishery symbol for the trawl fishery (concessional zone).

- (b) line fishery (multiple hook—Queensland Fisheries Joint Authority);
- (c) net fishery (bait No. 2).

(4) Further, if the effect of the fishery symbol for the net fishery (bait No. 2) written on an authority ends, the effect of a fishery symbol for the net fishery (bait No. 1) written on the authority also ends.

(5) Nothing in subsection (1) or (2) prevents the Authority issuing an authority (a “**new authority**”) with a fishery symbol on it for a fishery mentioned in the subsection if—

- (a) the new authority is for a boat replacing the boat identified in an existing authority to which the subsection applies; and
- (b) the existing authority holder and the new authority holder are the same person.

### *Division 5—Things authorised by, and conditions of, authorities*

#### **Aquaculture licence**

**48.(1)** An aquaculture licence holder may buy fisheries resources stated in the licence, cultivate the fisheries resources in the area stated in the licence, process and sell fisheries resources cultivated under the licence.

(3) Subsection (2)(b)(ii) does not apply if the former holder has applied for another aquaculture licence for the same land, unless the application is refused.

(4) If the former holder does not comply with subsection (2)(b)(ii), the chief executive may remove and dispose of anything used for the aquaculture activity.

(5) The chief executive may recover costs reasonably incurred under subsection (4) as a debt payable to the State.

**(2)** A commercial fishing boat licence holder who holds a crew licence may engage crew members to work on a commercial fishing boat identified in a commercial fishing boat licence held by the holder.

**(3)** A crew member engaged under a crew licence, and acting under the licence, is taken to hold an assistant fisher licence.

**(4)** A crew member may be in control of a commercial fishing boat, but only if a commercial fisher is on the boat and the crew member is under direction.

**(5)** A crew licence is subject to the condition that not more than 4 crew members may be engaged under it.

<sup>13</sup> For restrictions on the issue of crew licences, see section 32 (Restriction on issue of crew licences).

**Primary commercial fishing boat licence**

**54.(1)** A primary commercial fishing boat licence holder may use, or allow someone else to use, the boat identified in the licence (the “**primary boat**”) to take fish for trade or commerce.

**Tender commercial fishing boat licence**

**56.(1)** A tender commercial fishing boat licence holder may use, or allow someone else to use, the boat identified in the licence (the “**tender boat**”) to take fish for trade or commerce.

**(2)** However, it is a condition of the licence that a commercial fisher or an assistant fisher under direction must be in control of the tender boat.

**(3)** Also, it is a condition of the licence that the tender boat may be used in a commercial fishery only if its primary commercial fishing boat may be used in the fishery and is not being used in another commercial fishery (other than the crab fishery (other than spanner crab)).

**(4)** A tender commercial fishing boat licence holder may use the tender boat as a primary commercial fishing boat if—

- (a) its primary commercial fishing boat is able to be used by the holder, but is not also being used to take fish for trade or commerce; and

*Fisheries Regulation 1995*

---

- (b) the primary commercial fishing boat licence is kept on board the tender boat while it is used as the primary commercial fishing boat.

(5) While a tender commercial fishing boat is used as a primary commercial fishing boat, it is taken to be the primary commercial fishing boat.

(6) In subsection (4)(a)—

“**take fish**” does not include merely have fishing apparatus or fish on board the primary commercial fishing boat.

**Fish habitat area permit**

**57.** A fish habitat area permit holder may perform the works or related activity stated in the permit in a fish habitat area stated in the permit.

**Authority allowing sale of fisheries resources**

**58.(1)** The holder of an authority allowing the holder to sell fisheries resources may sell them—

### **Fishing priority**

**64A.(1)** Commercial fishers have the right to use nets under an authority in the order in which the fishers are ready to fish with the nets.

**(2)** If 2 or more commercial fishers jointly use nets, they are taken to be 1 commercial fisher.

- (3)** A right under subsection (1)—
