Application for player registration

7.(1) A person may apply to be registered with a lottery licensee by—

- (a) giving the information required, under section 6, for the players register to the licensee or a lottery agent; or
- (b) completing a player registration application form and lodging the form with the licensee or at a selling point.

(2) Two persons (but not more than 2 persons) may apply jointly to be registered in a players register as a registered player.

(2) The card must state the player's card number allocated by the licensee.

(3) The person's registration is subject to the conditions printed on the card.

(4) If 2 persons apply jointly to be registered as a registered player, the licensee may issue only 1 card for the registration.

(5) The first time a person participating in a lottery uses a player's card, the lottery agent activates the card by passing it through a card reader

attached to a gaming terminal.

- (6) A lottery licensee may charge—
- (a) a fee to activate a player's card; and
 - (b) an annual fee for renewal of a player's card.

Registered player may have registered numbers

9.(1) A registered player may have numbers (or for super 66, a number) for entering a drawing of a lottery registered, for the player, in the players register.

- (a) give an entry form marked with the numbers to a lottery agent; and
- (b) ask the agent to register the numbers.

(3) To have a number registered for super 66, or to change a registered number for super 66, a registered player must—

- (b) ask the agent—
 - (i) to use the agent's gaming terminal to randomly generate a 6-digit number for super 66 at the same time as the agent registers numbers or changes the numbers registered for gold lotto, pools or powerball; and
 - (ii) to register the number generated as the person's registered number for super 66.

Changes in information for players register

10.(1) To change the information contained in the players register about a registered player, the registered player must—

(2) If the change required is a change in the player's name, the player must show the licensee or agent appropriate documents to explain the change.

(3) A registered player is not required to complete a change of details form if the change required is a change in the player's address, or the correction of a typographical error.

PART 3—PROCESSING AN ENTRY

Processing an entry

11. A lottery agent who processes a person's entry for a drawing of a lottery must use a gaming terminal to print, on a lottery ticket, the following information—

- (a) the number, or if the entry is on the basis of a multiweek sale, the numbers, allocated to identify each drawing of the lottery the person is entering;
- (b) the number of the gaming terminal;

- (d) the price of the lottery ticket;
- (e) the date and time of entry;
- (f) the control number and bar code generated by the lottery licensee's computer system;
- (g) if the person is a registered player, and enters the drawing using the person's player's card—the card number;
- (h) for a multiweek sale—the number of drawings entered;
- (i) the numbers selected;
- (j) if the person is a registered player and enters the drawing using the person's registered numbers—the numbers;
- (k) whether the entry is by a quickpick, astropick or powerpick, and

if so, which;

- (l) if the entry is for powerball—the powerball number clearly identified;
- (m) if the entry is by an astropick—the star sign selected;
- (n) other information the lottery licensee considers appropriate.

Participant may request cancellation of lottery ticket

12.(1) Neither a lottery licensee nor a lottery agent has an obligation to make sure a lottery ticket is in accordance with entry details requested by or on behalf of a participant.

(2) However, a participant may ask an agent for a lottery ticket to be cancelled if the request is made on the day the ticket was issued.

(3) If the participant's request is made within 10 minutes of the issue of the lottery ticket, the agent may cancel the ticket.

(4) If the participant's request is made on the day the ticket was issued, but more than 10 minutes after the issue, the lottery licensee may cancel the ticket, but only if—

- (a) entries have not closed for the drawing to which the ticket relates; and
- (b) a lottery agent asks the licensee to cancel the ticket; and
- (c) the licensee is able to identify and cancel the computer entry for the ticket; and
- (d) the agent endorses the ticket as cancelled.

No cash refunds for cancelled lottery tickets

13.(1) If a lottery ticket is cancelled, no cash refund is to be given.

(2) However, the purchase price for the cancelled ticket may be used for another entry.

When lottery ticket is void

14.(1) A lottery ticket is void if—

- (a) the lottery ticket is recorded in the lottery licensee's computer system as cancelled; or
- (b) information forming part of the lottery ticket is changed other than with the authority of the lottery licensee.

(2) A person does not have a claim against a lottery licensee for a prize based on a void lottery ticket.

PART 4—ENTRY DIRECTLY WITH LOTTERY LICENSEE

Entry form may be given or sent directly to lottery licensee

15.(1) If a lottery licensee sells or otherwise distributes lottery tickets to the public from a place approved by the chief executive for the purpose, a person may enter a drawing of a lottery by giving or sending a completed entry form directly to the lottery licensee and not through a lottery agent.

(2) The lottery licensee need not accept an entry form if—

- (a) it has not been completed in accordance with this rule; or
- (b) it is not accompanied by the purchase price for the lottery ticket.

(3) The person may pay the purchase price to the licensee by cheque but the licensee must not process the entry until the licensee receives the proceeds of the cheque.

(4) After the licensee receives the cheque's proceeds, the entry must be processed for the next available drawing of the lottery for which it is an entry.

(5) A lottery ticket must be sent by the licensee to the person as soon as practicable after the entry has been processed.

(6) However, the licensee is not required to send a lottery ticket to a registered player who has asked the licensee not to send the ticket.

Application for entry without entry form

16. A lottery licensee may complete an entry form for a person if—

- (a) without enclosing an entry form, the person sends to the licensee—
 - (i) a written request to enter a drawing of a lottery; and
 - (ii) the purchase price of a lottery ticket; and
- (b) the licensee is satisfied the person has supplied enough information for the licensee to complete an entry form for the person.

PART 5—DRAWING A LOTTERY AND PUBLISHING RESULTS**Each drawing to be numbered**

17. Each drawing of a lottery is to be given a number and identified by the number.

Announcement of provisional prize pool

18. The amount of the provisional prize pool for a drawing of a lottery must be announced at the drawing.

Publication of results

19.(1) As soon as practicable after the drawing of a lottery, the lottery licensee must tell all the licensee's lottery agents the winning numbers.

(2) Each agent must display the numbers at the agent's selling point.

(3) An agent may also display the following information—

- (a) the amount of the prize pool in each division;
- (b) the number of prize winners in each division;

- (c) the estimated value of a prize in division 1 and the value of a prize in each of the other divisions.

PART 6—CLAIMING A PRIZE

Computer system to identify prize-winning entries

20.(1) The prize-winning entries for a drawing of a lottery are the entries identified by the lottery licensee's computer system.

(2) If a person has a lottery ticket that, on the face of it, is a prize-winning ticket, but the computer system does not initially identify it as a prize-winning ticket, the licensee must investigate why the computer system did not identify the ticket.

(3) The licensee—

- (a) must not pay a prize for the ticket; and
- (b) must tell the chief executive an investigation is required and the reason for the investigation; and
- (c) must start the investigation as soon as practicable; and
- (d) must complete the investigation within 6 months after the drawing.

(4) When the investigation is complete, the licensee must obtain the chief executive's approval before paying the prize.

(5) If the chief executive considers it appropriate in all the circumstances to pay the prize, the chief executive may approve the payment and the licensee may make the payment.

Registered player as prize winner in division 1

21. As soon as practicable after the drawing of a lottery, the lottery licensee must use the computer system to find out whether a division 1 prize-winning entry is the entry of a registered player.

Division 1—claim and payment

22.(1) A person may claim a division 1 prize in a drawing of a lottery by presenting a prize-winning lottery ticket to the lottery licensee.

(2) The licensee may pay a division 1 prize to a person claiming the prize who—

- (a) presents a division 1 prize-winning lottery ticket; or
- (b) is a registered player whom the licensee believes is entitled to the division 1 prize.

(3) The licensee may wait 14 days after the drawing before paying a division 1 prize but, unless under section 20(3)(a) or 26(5) the prize can not be paid, must pay the prize as soon as practicable after the 14 days.

Claim and payment for prizes other than division 1 prizes

23.(1) A person (“**person A**”) may claim a prize in a division for a drawing of a lottery, other than division 1, by presenting a prize-winning lottery ticket to a lottery agent.

(2) The agent must use a gaming terminal to find out whether the lottery ticket is a prize-winning ticket in the drawing.

(3) The agent is not required to pay the prize to person A if—

- (a) the agent reasonably believes person A is not the owner of the lottery ticket; or
- (b) the lottery licensee has entered, on the licensee’s computer system, an instruction to stop payment of the prize.

(4) If the lottery ticket was issued to a registered player, the agent may pay the prize without checking whether the person claiming the prize is the registered player.

(5) If the computer system does not identify the lottery ticket as a prize-winning ticket—

- (a) the agent must not pay a prize; and
- (b) if the person nevertheless wishes to claim a prize—the person must claim the prize directly from the lottery licensee.

(6) A person must also claim a prize from a lottery licensee rather than

the agent if the amount of the prize is more than the agent's payment limit.

(7) Unless under section 20(3)(a) or 26(5) the prize can not be paid, an agent must pay a prize claimed in a division, other than division 1, as soon as practicable after it is claimed.

Lottery licensee may send cheque after agency payment period

24.(1) This section applies if—

- (a) the lottery licensee's computer system indicates that a participant in a drawing of a lottery is a registered player; and

- (c) the prize is not paid in the agency payment period for the lottery.

(2) The lottery licensee may send a cheque for the prize to the registered player.

(3) However, the lottery licensee need not send the cheque under subsection (2) if it appears to the licensee that the name or address in the players register for the registered player is incorrect, or is not adequate for the safe delivery of the cheque.

Lottery licensee may ask for statutory declaration and proof of identity

25. Before a lottery licensee pays a prize, the licensee may ask the person claiming the prize—

- (a) to complete a statutory declaration to the effect that the person is the owner of the prize-winning lottery ticket; and
- (b) to give proof of the person's identity.

Request to stop payment of prize

26.(1) A person may ask a lottery licensee to stop payment of a prize for a prize-winning lottery ticket on the basis that the ticket has been lost, stolen or destroyed.

(2) The request to stop payment must—

Lotteries Rule 1998

- (a) be on the form supplied by the licensee; and
- (b) contain enough information for the licensee to properly identify the lottery ticket; and
- (c) be accompanied by a search fee of—
 - (i) if the chief executive approves an amount—the approved amount; or
 - (ii) if the chief executive does not approve an amount—\$5.

(3) The licensee may stop payment of the prize.

(4) If the prize is paid before the licensee is able to stop payment, the licensee—

- (a) must tell the person who made the request that the payment has already been made; and
- (b) if the request was made on the basis that the lottery ticket has been lost or stolen—
 - (i) must help in any police investigation; and
 - (ii) if the licensee knows the name and address of the person to whom the prize was paid—may tell an investigating police officer the name and address.

(5) If the licensee stops payment of a prize under subsection (3), the licensee must not pay the prize until it investigates the ownership of the prize-winning lottery ticket.

Use of security codes and other tests to check lottery tickets and prizes

27.(1) A lottery licensee may record security codes on, or put into effect other tests for, lottery tickets—

- (a) for making sure forged or fraudulently altered tickets are not taken to be winning tickets; and
- (b) for deciding—
 - (i) whether a ticket is a winning ticket; and
 - (ii) if the ticket is a winning ticket—the amount of the prize.

(2) If the licensee or a lottery agent decides that a ticket does not display a

valid security code or satisfy other tests for the ticket, the licensee or agent must not pay a prize for the ticket.

(3) Subsection (2) has effect even though the ticket appears to be a valid winning ticket.

Information to be printed on receipt

28.(1) If the computer system identifies a lottery ticket as the ticket for a prize in a division, other than division 1, in a drawing of a lottery, and a lottery agent pays the prize, the agent must use the gaming terminal to print the following information—on a receipt for the ticket—

- (a) the date the agent paid the prize;
- (b) the number of the drawing in which the prize was won;
- (c) the number of the gaming terminal;
- (d) the amount paid to the winner.

(2) The agent must keep the receipt mentioned in subsection (1) for 3 months after paying the prize.

(3) If the lottery ticket was purchased on the basis of a multiweek sale and is still current for at least 1 more drawing, the agent must return the ticket to the person.

Lottery ticket to be returned if not a winning ticket

28A.(1) If a person presents a lottery ticket to a lottery agent and the computer system does not identify the lottery ticket as a winning ticket, the lottery agent to whom the ticket is presented must return the ticket to the person.

(2) However, subsection (1) does not apply if an investigation is required under section 20(2).

Payment of prize to 2 persons registered as a registered player

29.(1) If an entry from 2 persons registered as a registered player is a prize-winning entry, the prize is paid in the way directed by the 2 persons acting together, but only to 1 or both of the persons.

(2) If a lottery agent enters a drawing of a lottery on behalf of a group of persons, and the entry wins a prize in division 1 of the lottery, the lottery licensee may pay prize money to individual members of the group in the way directed by the agent.

Lottery licensee not bound by agreement between members of group

30. A lottery licensee is not bound by an agreement made between the members of a group of persons on whose behalf a person is a participant in a lottery.

- (a) the agent must not pay the prize; and
- (b) the person must claim the prize directly from the lottery licensee.

(3) If the entry form number is legible, the agent must use the keyboard attached to the gaming terminal to enter the entry form number on the computer system.

(4) If the computer system identifies the entry form number as belonging to a prize-winning lottery ticket, the agent—

- (a) may pay the prize; and
- (b) if the agent pays the prize—must print the following information on a receipt for the ticket—
 - (i) the date the agent paid the prize;
 - (ii) the number of the drawing in which the prize was won;
 - (iii) the number of the gaming terminal;
 - (iv) the amount paid.

- (5) The agent may pay a prize under subsection (4) only if—

PART 7—DISTRIBUTION OF PRIZE POOLS

Bonus prize reserve

33. If this rule provides for a stated part of the total subscriptions for a drawing of a lottery to be put aside to accumulate as part of a bonus prize reserve, the bonus prize reserve must, to the extent that it is not otherwise used for prizes under this rule, be distributed from time to time in payment of a prize or an additional prize in the lottery.

Pooling arrangements

- 34.(1) This section applies if—
- (a) there is an agreement between a lottery licensee and a foreign agency about the operation of a scheme by the licensee and agency; and
 - (b) the scheme is a combination of—
 - (i) a lottery (the **“local lottery”**); and
 - (ii) a gaming scheme (the **“foreign gaming scheme”**) conducted by the foreign agency that is equivalent to the local lottery; and
 - (c) for the scheme, the following amounts are pooled—

Lotteries Rule 1998

 - (ii) amounts paid by persons to the foreign agency in taking part in the foreign gaming scheme; and
- (d) the scheme has—
- (i) a single drawing; and
 - (ii) a single set of prizes.

(2) The local lottery may be conducted as part of the scheme, and the provisions of this rule about the local lottery have effect subject to the operation of the scheme.

(3) For subsection (1)(b), a reference to equivalent, for a local lottery, includes being equivalent with respect to—

- (a) the local lottery's prize structure; and
- (b) the percentage the net prize pool for a drawing of the local lottery bears to the total subscriptions for the drawing.

Jackpot and bonus prize reserve funds to be division 1 prize

35.(1) This section applies if—

- (a) a jackpot prize pool is available for a drawing of a lottery; and
- (b) the lottery licensee is to distribute an amount from the bonus prize reserve for the division 1 prize in the same drawing.

(2) The jackpot prize pool and the amount from the bonus prize reserve are a single prize pool for the drawing and, for making a claim, must be treated as a division 1 prize.

PART 8—MISCELLANEOUS**Withdrawal of unsold lottery tickets**

36.(1) This section applies to a lottery if a person takes part in the lottery through lottery tickets that are printed to enable the person to find out

Lotteries Rule 1998

immediately whether the person has won a prize.

Example—

A lottery known as instant scratch-its.

(2) A lottery licensee may withdraw all unsold lottery tickets for a drawing in the lottery—

- (a) if the drawing for the lottery can not proceed in a way that is substantially consistent with the prize structure for the drawing because of the way the tickets have been printed; or
- (b) if the wording on the tickets is ambiguous or may result in confusion about a person's entitlement to a prize; or
- (c) if prizes included in the prize structure for the lottery are no longer—
 - (i) available; or
 - (ii) of any value; or
- (d) on the closure of the lottery; or
- (e) if the chief executive considers it appropriate in all the circumstances to withdraw the tickets.

Example for subsection (2)(c)(ii)—

Some of the prizes for the drawing are tickets to a sporting event, but the event is held before all lottery tickets have been sold.

(3) If lottery tickets for a drawing in the lottery are damaged or stolen, the lottery licensee—

- (a) may withdraw the tickets; and
- (b) must advise the chief executive of the withdrawal.

(4) The lottery licensee must not withdraw tickets under subsection (2)(a), (b) or (c) without the chief executive's approval.

(5) Despite subsection (4), the lottery licensee may withdraw tickets under subsection (2)(a), (b) or (c) without the chief executive's approval if it is not practicable to obtain the chief executive's approval before the withdrawal.

(6) If the licensee withdraws tickets under subsection (2)(a), (b) or (c) without the chief executive's approval, the licensee must, as soon as

practicable after the withdrawal, seek the chief executive's approval.

(7) As soon as practicable after lottery tickets are withdrawn under subsection (2)(a), (b), (c) or (e), the licensee must advertise the withdrawal in a newspaper circulating generally in the State, and may advertise the withdrawal in any other way.

(8) If lottery tickets are withdrawn under subsection (2), the withdrawal remains effective until—

- (a) the chief executive decides the tickets—
 - (i) are available for sale; or
 - (ii) are to be destroyed; or
- (b) if the chief executive refuses to approve a withdrawal sought under subsection (6)—the chief executive's refusal.

Guaranteed minimum prize payout for division 1

37.(1) This section applies if—

- (a) a minimum prize payout in division 1 in a drawing of a lottery has been guaranteed; and
- (b) there is not enough money in the division 1 share of the prize pool and the bonus prize reserve for the payout.

(2) The lottery licensee must make available the shortfall for the payout from the licensee's own funds.

(3) However, if there is no winner in division 1, the amount made available from the bonus prize reserve or by the licensee under subsection (2) must not be used to decide the amount of a jackpot prize pool for a subsequent drawing.

(4) The licensee may be reimbursed from the bonus prize reserve for money made available by the licensee under subsection (2).

Application of provisions of rule to instant scratch-its

38.(1) The provisions of this rule (other than the schedules) apply to instant scratch-its only to the extent they can be sensibly applied having regard to the provisions of schedule 7.

(2) Without limiting subsection (1)—

- (a) parts 2 to 5 and 7 do not apply; and
- (b) part 6, other than sections 25 to 27, 30 and 32, does not apply.

Application of provisions of rule to casket

39.(1) The provisions of this rule (other than the schedules) apply to casket only to the extent they can be sensibly applied having regard to the provisions of schedule 8.

(2) A reference in this rule to a division in a lottery is taken to be a reference to an equivalent prize level for casket.

Example—

A reference to a division 1 prize is taken to be a reference to a prize in the highest category of prizes in a drawing of casket.

Application of provisions of rule to promotional lottery

40. The provisions of this rule (other than the schedules) apply to promotional lottery only to the extent they can be sensibly applied having regard to the provisions of schedule 9.

Transitional

42.(1) Anything done, or anything in existence, under the repealed rule for a current lottery is taken to have been done, or to be in existence, for the corresponding lottery under this rule.

(2) However, if a current drawing of golden casket mentioned in section 18¹ of schedule 8 of the repealed rule is not completed before the commencement of this section it must be continued and completed as if that section had not been repealed.

- (2)** The match numbers for the 6 highest ranked matches are the 6 winning numbers.
- (3)** The match number for the seventh highest ranked match is the supplementary number.
- (4)** This section is subject to section 16.

SCHEDULE 4 (continued)

Void match

16.(1) If a match numbered between 1 and 38 on the match list is a void match, the result of the next numbered match on the match list, after number 38, that is not a void match, is taken to be the result of the void match.

Example—

If match number 33 is a void match, the result of match number 39 is taken to be the result for match number 33. However, if match number 39 is also a void match, the result of match number 40 is taken to be the result for match number 33.

(2) However, if the match list relates to the English soccer season, the result, for ranking the match, is taken to be—

- (a) for a score draw—a goal score of 1–1; and
- (b) for an away win—a goal score of 0–2; and
- (c) for a home win—a goal score of 2–0.

(2) A score draw with a greater total number of goals ranks higher than a score draw with a smaller total number of goals.

(3) All nil score draws are ranked equally.

(4) For away wins—

- (a) an away win with the smallest goal difference ranks highest; and
- (b) if 2 or more away wins have the same goal difference—an away win with a greater total number of goals ranks higher than an away win with a smaller total number of goals.

SCHEDULE 4 (continued)

(5) For home wins—

- (a) a home win with the smallest goal difference ranks highest; and
- (b) if 2 or more home wins have the same goal difference—a home win with a greater total number of goals ranks higher than a home win with a smaller total number of goals.

(6) If 2 or more matches are ranked equally under subsection (2), (3), (4) or (5), the match with the highest match number is ranked highest.

Example—

If match number 12 and match number 16 each have a score of 2–2, they would rank equally under subsection (2). However, under subsection (6), match number 16 is ranked higher than match number 12.

(2) The prize pool for a division for a drawing must be divided in equal shares among the winners in the division.

(3) However, if the amount payable to a winner in a division (“**division A**”) is less than the amount payable to a winner in a lower division, the amount of the prize pool available for distribution to winners of division A and all lower divisions is to be combined and divided in equal shares among the winners of division A and all lower divisions.

(4) If the amount payable to a winner under subsections (1) to (3) is less than \$1, the lottery licensee must make available the shortfall from the bonus prize reserve for a payout of at least \$1 to each winner.

SCHEDULE 4 (continued)

(5) Despite subsection (1), the amount of a prize distributed, other than in division 1, may be rounded to the nearest sum consisting of a multiple of 5c.

Jackpot of division 1 prize pool

22.(1) If there is no division 1 prize winner for a drawing, the amount of the prize pool available for distribution to division 1 winners jackpots by the addition of the amount to the division 1 prize pool in the next drawing.

(2) There is no limit to the number of times the division 1 prize pool may jackpot under subsection (1).

Divisions 2–4 prize pool to be added to pool for next lower division

23.(1) If there is no winner in division 2, 3 or 4 in a drawing, the amount of the prize pool available for distribution to winners in the division must be added to the prize pool available for distribution to winners in the next lower division.

(4) Amounts deducted from, or added to, prizes in rounding under

SCHEDULE 6 (continued)

subsection (3) must be added to, or deducted from, the division 1 prize pool.

(5) Despite subsection (1), a lottery licensee may guarantee a minimum prize payout for division 1 in a drawing.

Jackpot of division 1 prize pool

19.(1) If there is no division 1 prize winner for a drawing, the amount of the prize pool available for distribution to division 1 winners jackpots by the addition of the amount to the division 1 prize pool in the next drawing.

(2) The division 1 prize pool in a drawing may jackpot under subsection (1) 25 times.

(3) If there is no division 1 prize winner in the 26th drawing, the total of the jackpot prize pool and the division 1 prize payable for the 26th drawing must be added to the prize pool available for distribution to winners in division 2 in the 26th drawing.

(4) If subsection (3) applies, the prize pool must be treated as division 1 prize money for making a claim.

Divisions 2–4 prize pool to be added to pool for next lower division

20.(1) If there is no winner in division 2, 3 or 4 in a drawing, the amount of the prize pool available for distribution to winners in the division must be added to the prize pool available for distribution to winners in the next lower division.

(2) If there is no winner in division 5 in a drawing, the prize pool available for distribution to winners of division 5 must be added to the bonus prize reserve.

SCHEDULE 7**INSTANT SCRATCH-ITS**

section 3

PART 1—PRELIMINARY**Gaming scheme known as instant scratch-its**

1. This schedule relates to the gaming scheme known as instant scratch-its.

Definitions

2. In this schedule—

“**advertised**” means advertised by notice published in a newspaper circulating generally in the State.

“**closure date**” see section 5.

“**game specifications**”, for a game, means matters approved by the Minister under section 5(2) and the security codes decided by the lottery licensee under section 5(3).

“**instant drawing**” means a drawing described in section 10(1).

“**instant prize**” means a prize that is known to be won when the matter printed in a game panel or panels on a ticket is exposed.

“**secondary drawing**”, for a game, means a drawing—

- (a) that uses tickets or parts of tickets from the instant drawing for the game; and
- (b) for which a ticket holder in the instant drawing becomes eligible.

“**ticket identifier**”, for a ticket, means—

- (a) the VIR number on the ticket; or

SCHEDULE 7 (continued)

- (b) information, capable of being produced by a security device built into the ticket, that identifies the ticket.

“VIR number” is the number exposed on a ticket when the panel marked ‘VOID IF REMOVED’ is scratched.

“winning ticket” is a ticket that discloses an instant prize.

Computer system

3. The lottery licensee’s computer system may be used to confirm that the ticket identifier for a ticket that appears to be a winning ticket is the ticket identifier for a winning ticket for the prize claimed.

Agency payment period

4. The agency payment period for a game of instant scratch-its is the first year after closure.

PART 2—PRINTING OF TICKETS**Approval of game or type of game of instant scratch-its**

5.(1) The Minister may approve a game or type of game of instant scratch-its.

(2) The Minister’s approval may include the following—

- (a) the number of tickets to be printed;
- (b) the layout and wording of the tickets;
- (c) the number of winning tickets to be printed;
- (d) the selling price of the tickets;
- (e) the number and value of cash prizes that may be won;
- (f) the number and type of other prizes that may be won;

SCHEDULE 7 (continued)

- (g) whether the game or type of game includes a secondary drawing;
- (h) for a game based on a particular event—the day after which all unsold tickets for the game may be withdrawn from sale (the “**closure date**”).

(3) Additionally, the lottery licensee may decide the security codes for the tickets.

Game specifications

6. The lottery licensee may enter into an agreement with a ticket printer for the printing of tickets for a game according to the game specifications.

Information to be printed on tickets

7.(1) The following information must be included on each ticket—

- (a) the ticket identifier for the ticket;
- (b) the selling price of the ticket;
- (c) the way in which a ticket holder may decide whether an instant prize has been won.

(2) Additionally, the following information may be printed on each ticket—

- (a) the procedure for claiming an instant prize;
- (b) the value of instant prizes that may be paid by a lottery agent;
- (c) if the game includes a secondary drawing—the way in which the ticket holder becomes eligible for the secondary drawing;
- (d) the circumstances under which a ticket is void and no prize is payable.

(3) A ticket must be printed so that it is not possible to decide whether a prize has been won until the matter printed in a game panel or panels on the ticket is exposed.

SCHEDULE 7 (continued)

Inspection of tickets

8. A lottery licensee must make sure that every contract for printing tickets for instant scratch-its provides that the licensee and the chief executive may, at any reasonable time—

- (a) inspect any tickets printed; or
- (b) inspect and test procedures, including security procedures, devices or aids used for printing tickets.

PART 3—ENTERING AND DRAWING INSTANT SCRATCH-ITS**Entering instant scratch-its**

9. A person enters instant scratch-its by asking for a ticket.

Drawings

10.(1) An instant drawing for a game of instant scratch-its happens when the tickets for the game are printed in accordance with the game specifications.

(2) If there is a secondary drawing for the game, the drawing takes place after the instant drawing and in accordance with the game specifications.

PART 4—CLAIM AND PAYMENT OF AN INSTANT PRIZE**Claiming an instant prize**

11.(1) A person claims an instant prize by—

SCHEDULE 7 (continued)

- (a) writing the person's name and address and any other information required and signing in the space provided on the back of a winning ticket; and
- (b) presenting the ticket to a lottery agent.

(2) A person claiming an instant prize must not write more than 1 name on the ticket.

(3) If there is no name and address on a ticket presented to an agent to claim an instant prize, the person who presented the ticket can not become eligible to be considered for a prize other than the instant prize.

Captions are taken to be part of symbols

12. For deciding whether a ticket is a winning ticket, a caption to a symbol is taken to be part of the symbol and not a separate symbol.

Example of winning ticket—

1. Statement on ticket—

SCRATCH THE PANEL. FIND 3 IDENTICAL NUMERICAL SYMBOLS
AND WIN THE PRIZE.

2. Panel on ticket—

71
SEVENONE

37
THREESEVEN

47
FOURSEVEN

The ticket is a winning ticket because, and only because, the numerical symbol '7' appears on the panel 3 times, and not because the caption 'SEVEN' appears on the panel.

Example of non-winning ticket—

1. Statement on ticket—

SCRATCH THE PANEL. FIND 3 IDENTICAL NUMERICAL SYMBOLS
AND WIN THE PRIZE.

SCHEDULE 7 (continued)**2. Panel on ticket—**

71
SEVENONE

36
THREESIX

46
FOURSIX

The caption ‘SIX’ merely provides confirmation of the numerical symbol appearing immediately above it. The caption is taken to be part of the representation of the numerical symbol ‘6’. The ticket is not a winning ticket because ‘6’ appears only twice, rather than the 3 times necessary to make the ticket a winning ticket.

Payment by lottery agent

13.(1) A lottery agent may pay a prize for a winning ticket only if the amount of the prize is—

- (a) not more than the agent’s payment limit; and
- (b) if the amount payable at an agency is stated on the back of the ticket—not more than the amount stated.

(2) If, despite the requirements of this rule, there is more than 1 name on a lottery ticket, the agent must pay the prize to the person whose name appears first on the ticket.

Lottery agent to confirm major prize

14. A lottery agent must not pay a major prize unless the agent has confirmed with the lottery licensee—

- (a) that the ticket is a winning ticket; and
- (b) the value of the prize won.

Ticket identifier

15.(1) The lottery licensee may use the ticket identifier to find out if a ticket is a winning ticket and the value of the prize won.

SCHEDULE 7 (continued)

(2) The licensee must use the ticket identifier to find out if a ticket is a winning ticket for a major prize.

Winning ticket not recognised

16.(1) If a person claiming a prize has a ticket that, on the face of it, is a winning ticket but the computer system does not initially recognise its ticket identifier as the ticket identifier of a winning ticket, the lottery licensee must investigate why the computer system did not recognise the ticket identifier.

(2) The licensee must start the investigation as soon as practicable and must complete it within 6 months after the claim.

Void tickets

17.(1) A ticket is void and no prize is payable if—

- (a) the ticket is stolen, unissued, defective, altered, damaged or produced in error; or
- (b) the ticket is a duplicate of a ticket already produced; or
- (c) for a ticket with a VIR number—any part of the matter printed in the ‘VOID IF REMOVED’ panel on the ticket is exposed; or
- (ca) for a ticket with a security device—the security device has been tampered with; or
- (d) circumstances exist that are circumstances printed on the ticket or otherwise advertised by the lottery licensee as circumstances under which a ticket is void and no prize is payable.

(2) Despite subsection (1), a prize may be paid if the licensee, having regard to all the circumstances, is satisfied it is reasonable and appropriate to pay.

Instant prizes

18.(1) An instant prize may be 1 or more of the following—

SCHEDULE 7 (continued)

- (a) cash;
- (b) a thing of value awarded as a prize;
- (c) an instant scratch-its ticket;
- (d) an entry in another lottery;
- (e) the right to be considered for another cash prize or thing of value awarded as a prize.

(2) A person with the right mentioned in subsection (1)(e) may be included in a secondary drawing.

PART 5—SECONDARY DRAWING**Selecting the winning tickets in a secondary drawing**

19.(1) A person who conducts a secondary drawing must select the winning tickets at random.

(2) The selection method may consist of or include the use of mechanical, electronic or other types of devices or aids.

PART 6—PAYMENT OF PRIZES IN A SECONDARY DRAWING**Notice to prize winners**

20.(1) For a secondary drawing, the lottery licensee must give written notice to the person whose name and address are written on a winning ticket.

(2) If, despite the requirements of this rule, there is more than 1 name on the ticket, the notice must be given to the person whose name appears first

SCHEDULE 7 (continued)

on the ticket.

(3) The notice may require the person to complete a claim form to claim the prize.

Payment of prizes in a secondary drawing

21.(1) The lottery licensee may send a cheque for a prize in a secondary drawing to the address shown on the winning ticket or the claim form for the winning ticket.

(2) A cheque drawn in payment of a prize may be made payable only to the person whose name is written on the ticket.

(3) If, despite the requirements of this rule, there is more than 1 name on the ticket, the cheque must be made payable to the person whose name appears first on the ticket.

(4) The licensee may wait 14 days after the secondary drawing before paying prizes but must pay the prizes as soon as practicable after the 14 days.
