The *Food Production (Safety) Act 2000* is additional to, and does not limit, this Act.

5 Definitions

The dictionary in schedule 3 defines particular words used in this Act.

5A Meaning of “food”

(1) In this Act, “**food**” includes—

- (a) a substance or thing of a kind used, or represented as being for use, for human consumption (whether it is raw, prepared or partly prepared); and
- (b) a substance or thing of a kind used, or represented as being for use, as an ingredient or additive in a substance or thing mentioned in paragraph (a); and
- (c) a substance used in preparing a substance or thing mentioned in paragraph (a) if it comes into direct contact with the substance or thing mentioned in that paragraph, including, for example, a processing aid; and
- (d) chewing gum or an ingredient or additive in chewing gum, or a substance used in preparing chewing gum; and
- (e) a substance or thing declared to be a food under a declaration in force under the *Australia New Zealand Food Authority Act 1991* (Cwlth), section 3B;

whether or not the substance, thing or chewing gum is in a condition fit for human consumption.

(2) However, “**food**” does not include a therapeutic good within the meaning of the *Therapeutic Goods Act 1989* (Cwlth).

5B Meaning of “food standards code”

(1) Subject to subsection (2), in this Act, “**food standards code**” means the Australia New Zealand Food Standards Code as defined in the *Australia New Zealand Food Authority Act 1991* (Cwlth).

(2) In applying the food standards code for this Act—

- (a) the code applies with the changes stated in schedule 2; and
- (b) standard 3.2.1 and clause 4 of standard 3.2.2 of the code¹ do not apply; and
- (c) clause 3 of standard 3.2.2 of the code² does not apply until 1 July 2002.

5C Meaning of “sell”

(1) In this Act, “sell” includes—

- (a) barter, offer or attempt to sell; and

- (p) sell for the purpose of resale.

(2) For this Act, food or equipment that is displayed for the purpose of being offered as a prize or reward or given away for the purpose of advertisement or in the furtherance of trade or business is taken to have been displayed for sale by the owner of the food or equipment.

5D Meaning of “unsafe” food

(1) For this Act, food is “**unsafe**” at a particular time if it would be likely to cause physical harm to a person who might later consume it, assuming—

- (a) it was, after that particular time and before being consumed by the person, properly subjected to all processes (if any) that are relevant to its reasonable intended use; and
- (b) nothing happened to it after that particular time and before being consumed by the person that would prevent its being used for its reasonable intended use; and
- (c) it was consumed by the person according to its reasonable intended use.

(2) However, food is not unsafe merely because its inherent nutritional or chemical properties cause, or its inherent nature causes, adverse reactions only in persons with allergies or sensitivities that are not common to the majority of persons.

(3) In subsection (1)—

“**processes**” include processes involving storage and preparation.

5E Meaning of “unsuitable” food

(1) For this Act, food is “**unsuitable**” if it is food that—

- (b) contains a damaged, deteriorated or perished substance that affects its reasonable intended use; or
- (c) is the product of a diseased animal, or an animal that has died other than by slaughter, and has not been declared under an Act to be safe for human consumption; or
- (d) contains a biological or chemical agent, or other matter or substance, that is foreign to the nature of the food.

(2) However, food is not unsuitable merely because—

- (a) it contains an agricultural or veterinary chemical in an amount that does not contravene the food standards code; or
- (b) it contains a metal or non-metal contaminant (within the meaning of the food standards code) in an amount that does not

contravene the permitted level for the contaminant as specified in the food standards code; or

- (c) it contains a matter or substance that is permitted by the food standards code.

(3) In this section—

“**slaughter**”, of an animal, includes the killing of an animal in the process of capturing, taking or harvesting it for the purposes of preparing it for use as food.

7 Entry and inspection of Crown premises

A regulation may authorise or direct the local governments specified in the regulation to enter premises or classes of premises the property of the Crown and therein to carry out such inspections of those premises or classes of premises or any vehicle or equipment found therein and to discharge therein such functions or duties imposed by or under this Act on local governments in connection with premises or other places, vehicles or equipment as are specified in the regulation.
