- incorporates all necessary consequential amendments, whether of punctuation, numbering or another kind (Reprints Act 1992 s 5(d)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Revised edition indicates further material has affected existing material. For example—

- a correction
- a retrospective provision
- other relevant information.

FISHERIES REGULATION 1995

[as amended by all amendments that commenced on or before 9 December 2002]

This regulation may be cited as the *Fisheries Regulation 1995*.

PART 2—INTERPRETATION

Division 1—Words and phrases

2 Definitions

Schedule 17 defines particular words used in this regulation.

Division 2—Working out boundaries

2A References to latitudes and longitudes

(1) Latitudes and longitudes mentioned in this regulation or a management plan are worked out using the ‘Australian Geodetic Datum 1966’, commonly called ‘AGD66’, notified in the Commonwealth Government Gazette No. 84 on 6 October 1966, at page 4984.

(2) However, subsection (1) does not apply for a management plan if it provides for another system for working out latitudes and longitudes.

3 References to boundaries, lines, shores and other points

(1) Unless otherwise stated in this regulation—

- (a) a boundary or line along a shore follows high water mark; and
- (b) a boundary or line along a shore intersected by a waterway crosses the waterway by the shortest line between its banks; and
- (c) other boundaries and lines run from point to point in a straight line.

(2) Unless otherwise stated in this regulation—

- (a) a reference to a shore is a reference to the shore at high water mark; and
- (b) a reference to the tip of a cape, island or another geographical feature, or a point on the tip, is a reference to the tip or point on the shore at high water mark.

Example of subsection (2)(b)—

If a boundary point is described as the southern tip of an island, the point is at the island's southernmost tip at high water mark.

4 References to waterways

Unless otherwise stated in this regulation, a reference to a waterway is a reference to the waterway upstream of the shortest line between its banks at their junction, at low water, with the body of water into which the waterway finally flows.

5 References to banks of waterways

Unless otherwise stated in this regulation, a reference to a bank of a waterway is a reference to the bank at its junction, at high water, with the body of water into which it finally flows.

- (a) if its carapace is not damaged or missing—the widest part of its carapace; or
- (b) if its carapace is damaged or missing—the underside of its body on 1 side, from the notch at the junction of the claw with the body to the notch at the junction of the last leg with the body.

(2) The size of a trochus is decided by measuring the widest part of the base of its shell.

(3) The size of a pearl oyster is decided by measuring from the edge of its butt or hinge to the opposite edge of its shell, whether or not the shell is broken or chipped.

(4) The size of a painted crayfish is decided by measuring, in a straight line—

- (a) if its carapace is not damaged or missing—from the anterior mid-dorsal margin to the posterior mid-dorsal margin of the cephalothorax; or
- (b) if its carapace is damaged or missing—along the dorsal surface from the anterior margin of the first abdominal somite to the posterior margin of the sixth abdominal somite, when the tail is laid flat on a horizontal surface.

(5) The size of other fish is decided by measuring the distance between the front and end tips of the fish.

22 Measurement of weight of green snails

The weight of a green snail is its empty shell weight.

Subdivision 3—Exemptions

23 Exemption for recreational fishers about barramundi size limit

The maximum size limit for barramundi stated in schedule 4 does not apply to a recreational fisher who possesses barramundi outside the Lake Awoonga area or the Lake Tinaroo area if the barramundi—

(3) However, subsection (1) applies only if the recreational fisher ensures a square area (each side of which is at least 3 cm) of the skin of each reef fish is kept on it.

25 Other exemptions

(1) This section applies despite section 18 or the provisions of any management plan about possessing or selling regulated fish.

(2) A person may possess regulated fish in the form of cleaned and preserved molluscs in a genuine shell collection.

(3) A person may—

(2) The chief executive may issue an authority for taking coral, shell grit or star sand for trade or commerce as an exclusive coral, shell grit or star sand authority allowing only the holder to take the fish in the area identified in the authority.

Division 4—Fishery symbols on authorities**41 Fishery symbols to be written on authorities**

(1) If an authority (other than a tender commercial fishing boat licence) allows a person to do something in a commercial fishery, the chief executive must write the fishery symbol for the commercial fishery on the authority.

Example—

If the authority allows fishing for trade or commerce in the net fishery (East Coast No. 2), the chief executive must write 'N8' on the authority.

(2) Also, the chief executive may write a fishery symbol on a tender commercial fishing boat licence.

(3) However, the chief executive may write the fishery symbol 'L7' on an authority only if the boat identified in the authority can be used to take fish for trade or commerce under New South Wales law.⁶

(4) Despite subsection (1), the chief executive need not write the fishery symbol for a following commercial fishery on a crew or fisher licence under which a crew member or fisher may take fish in the fishery—

- (a) line fishery (multiple hook—Queensland Fisheries Joint Authority);
- (b) line fishery (Queensland Fisheries Joint Authority No. 1);
- (c) line fishery (Queensland Fisheries Joint Authority No. 2).

⁶ For the fishery symbol 'L7' see schedule 12, part 7 (Line fishery (South Queensland)).

42 Restrictions on writing fishery symbols on authorities allowing the use of boats in commercial fisheries

(1) If a licence for a primary commercial fishing boat has a fishery symbol for the line fishery (reef) on it, the chief executive may write the fishery symbol on licences for not more than the following number of its tender commercial fishing boats—

- (a) for a primary commercial fishing boat licence with the fishery symbol 'L2' on it—4;
- (b) for a primary commercial fishing boat licence with the fishery symbol 'L3' on it—1.

(2) However, the chief executive may renew a tender commercial fishing boat licence allowing the use of a boat in the line fishery (reef), if the licence was in force immediately before the commencement and has the fishery symbol 'L2' or 'L3' on it.

(3) Also, the chief executive may issue a tender commercial fishing boat licence with the fishery symbol 'L2' or 'L3' on it, allowing the use of a boat in the line fishery (reef), but only if—

- (a) the boat is a replacement for a boat identified in another tender commercial fishing boat licence; and
- (b) the other tender commercial fishing boat licence was in force immediately before the commencement and has the fishery symbol on it.

(4) Subject to the provisions of a management plan, the chief executive must not write more than 1 of the same fishery symbol on an authority.

43 Restrictions on writing fishery symbols on authorities allowing the use of boats of certain lengths in commercial fisheries

(1) The chief executive may write a fishery symbol on an authority allowing the use of a boat in a commercial fishery only if the boat is not longer than the length permitted under a fishery provision for the fishery.

(2) However, the chief executive may renew an authority allowing the use of a boat in a commercial fishery even though the boat is longer than the length permitted under a fishery provision for the fishery, if the authority—

- (a) was in force immediately before the commencement; and
- (b) has a fishery symbol for the fishery on it.

(3) Also, the chief executive may issue an authority with a fishery symbol on it allowing the use of a boat in a commercial fishery even though the boat is longer than the length stated in a fishery provision relating to the boat's use in the fishery, but only if—

- (a) the boat is a replacement for a boat identified in another authority; and
- (b) the other authority was in force immediately before the commencement and has the fishery symbol on it.

44 Things authorised by fishery symbol

(1) A person acting under an authority with a fishery symbol on it may take fish only in—

- (a) the commercial fishery identified by the symbol; or
- (b) if an area is stated on the authority—the stated area.⁷

(2) If a fishery provision for the commercial fishery states that only particular fish may be taken, the person may take only the stated fish.

(3) Also, the person may take fish in the commercial fishery only by using fishing apparatus—

- (a) permitted by a fishery provision for the fishery; and
- (b) in accordance with a fishery provision for the fishery.

(4) If a fishery provision for the commercial fishery does not state how many of a particular type of fishing apparatus a person may use, the person may use only 1 of each type at a time.

(5) Subsection (4) applies even if more than 1 person is acting under the authority.

45 Restriction on things authorised by an authority with more than 1 fishery symbol on it

(1) If an authority has more than 1 fishery symbol on it, persons acting under the authority can not take fish in more than 1 commercial fishery at a time.

⁷ See however the fisheries offences in part 5, division 4 of the Act and part 8 of this regulation.

(2) However, if 1 of the fishery symbols is for the crab fishery, the persons may take crabs in that fishery and fish in 1 other commercial fishery at the same time.

46 Fishery symbol does not authorise taking fish in certain Joint Authority fisheries

This division does not allow a person, in a Joint Authority fishery managed under Queensland law, and acting under an authority, to take fish to which the Joint Authority fishery applies unless—

- (a) the Joint Authority endorses the authority to extend its operation to activities over which the Joint Authority has powers under the Act; and
- (b) taking the fish is an activity over which the Joint Authority has powers under the Act.

47 When effect of certain fishery symbols end

(1) The effect of the fishery symbol ‘L7’ written on an authority ends if the boat identified in the authority can not be used to take fish for trade or commerce under New South Wales law.⁸

(2) In addition, the effect of a fishery symbol for any of the following commercial fisheries written on an authority ends when the authority is transferred—

- (a) line fishery (multiple hook—East Coast);
- (b) line fishery (multiple hook—Queensland Fisheries Joint Authority);
- (c) net fishery (bait No. 2).

(3) Further, if the effect of the fishery symbol for the net fishery (bait No. 2) written on an authority ends, the effect of a fishery symbol for the net fishery (bait No. 1) written on the authority also ends.

(4) Nothing in subsection (1) prevents the chief executive issuing an authority (a “**new authority**”) with a fishery symbol on it for a fishery mentioned in the subsection if—

⁸ For the fishery symbol ‘L7’ see schedule 12, part 7 (Line fishery (South Queensland)).

- (a) the new authority is for a boat replacing the boat identified in an existing authority to which the subsection applies; and
- (b) the existing authority holder and the new authority holder are the same person.

Division 5—Things authorised by, and conditions of, authorities

48 Aquaculture licence

(1) An aquaculture licence holder may buy fisheries resources stated in the licence, cultivate the fisheries resources in the area stated in the licence, process and sell fisheries resources cultivated under the licence.

(2) The licence is subject to the following conditions, in addition to any other conditions stated on the licence—

- (a) the holder must mark the area covered by the licence in the way stated on the licence;
- (b) for aquaculture on unallocated State land—
 - (i) the holder must keep the area and posts marking it in good condition and free from waste material and debris; and
 - (ii) if the licence expires, is cancelled or surrendered—the person who held the licence immediately before it expired, was cancelled or surrendered (the “**former holder**”) must, as soon as practicable, remove and dispose of anything used for the aquaculture activity in the way the chief executive reasonably considers is satisfactory.

(3) Subsection (2)(b)(ii) does not apply if the former holder has applied for another aquaculture licence for the same land, unless the application is refused.
