Medical Radiation Technologists Registration Act
2001

(3) In deciding the part of the supervised practice program to be completed, and the period within which it must be completed, the board may have regard to the following—

- (a) the nature, extent and recency of any practice in the profession by the applicant, including, for example, any practice undertaken as part of a qualification in the profession the applicant has in addition to the qualification for registration;
- (b) any reports from persons who have supervised the applicant in the practice of the profession.

(4) The board may have regard to practice mentioned in subsection (3)(a) whether or not the practice has been undertaken under supervision.

(5) The board must as soon as practicable give the applicant an information notice about the conditions.

(6) Despite subsection (5), if in the application the applicant does not claim to have practised in the profession, the applicant is not entitled to an information notice merely because probationary conditions are imposed on the applicant's registration.

58 Relevant practical experience in the profession

(1) An applicant has relevant practical experience in a profession if the applicant has experience in the practice of the profession that is substantially equivalent to the nature and extent of the practice of the profession provided under the supervised practice program.

(2) To remove doubt, it is declared that an applicant's experience in the practice of a profession may be substantially equivalent to the practice of the profession provided under the supervised practice program even if the applicant's practice was not undertaken under the supervision of a registrant.

(3) In deciding whether an applicant has relevant practical experience in a profession, the board may have regard to the following—

- (a) any qualifications in the profession the applicant has in addition to the qualifications for general registration;
- (b) the nature and extent of any practice in the profession by the applicant;

- (e) any other relevant issue.

59 Imposition of other conditions by board

(1) In addition to any conditions imposed under section 57, the board may decide to register an applicant for general registration in a profession as a general registrant in the profession on conditions the board considers necessary or desirable for the applicant to competently and safely practise the profession.

Example of conditions of general registration—

A condition prohibiting a general registrant engaging in stated procedures related to the practice of the profession.

(2) If the board decides to register an applicant for general registration as a general registrant on conditions, it must as soon as practicable—

- (a) also decide the review period applying to the conditions;¹³ and
- (b) give the applicant an information notice about the decisions.

(3) If the board decides to register an applicant for general registration as a general registrant on conditions because of the applicant's mental and physical health, it must also decide whether details of the conditions must be recorded in the register for the period for which the conditions are in force.

(4) The board must decide not to record details of the conditions mentioned in subsection (3) in the register unless it reasonably believes it is in the interests of users of the registrant's services or the public to know the details.

13 The conditions may be reviewed under division 8 (Reviewing conditions of general registrations).

60 Contravention of conditions

A general registrant must not contravene a condition of the registration, including, for example, probationary conditions, imposed under this Act.

Maximum penalty—100 penalty units.

*Medical Radiation Technologists Registration Act

(3) The report must be in the approved form or, if a form has not been approved, must include the details prescribed under a regulation.

78 Recency of practice requirements are not satisfied

(1) This section applies if the board is not satisfied the applicant has satisfied recency of practice requirements for the profession to which the application relates.

99 Failure by board to make decision

(1) This section applies if the board fails to make a decision under section 97—

- (a) within 60 days after receiving the supervised practice report or the assessment of the supervised practice report; or
