- (b) produce—
 - (i) financial statements required to be produced by this Act; and
 - (ii) other financial statements or information required to be produced by the prescribed requirements or the Treasurer.

(2) Other than the consolidated fund accounts, the accounts established and kept by the under-Treasurer for preparing the consolidated whole-of-government statement for a financial year are departmental accounts of the treasury department.

Division 3—Accounts with financial institutions**14 Moneys to be kept at financial institution**

Save as is otherwise provided by this Act or any other Act or law, all public moneys and other moneys excepting—

- (a) investments made under division 8 or 8A; or
- (b) securities taken in respect of a loan or financial arrangement; or
- (c) public moneys or other moneys that a department, under a Treasurer's approval, holds or transacts in a currency denomination other than Australian dollars;

(1) The Treasurer must keep an account for the consolidated fund at a bank (the "**Treasurer's consolidated fund bank account**").

(2) All public moneys received by the Treasurer must be paid daily to the credit of the Treasurer's consolidated fund bank account, including, for example amounts received under section 18(3).

(3) Moneys may only be withdrawn from the Treasurer's consolidated fund bank account for—

6 Section 24A (When part of vote for treasury department may be applied for headings of another department)

7 Section 41 (Investment of surplus moneys)

18 Departmental financial-institution accounts

(1) Each accountable officer is to establish and keep at the places specified by that officer and at a financial institution approved by the Treasurer or, in the case of overseas operations, at a banking institution approved by the Treasurer, such departmental financial-institution accounts as are necessary for the operations of that accountable officer's department.

(2) All public moneys and other moneys collected or received by accountable officers are to be paid daily or at such other time as is specified by the accountable officer concerned in the departmental Financial Management Practice Manual to the credit of a departmental financial-institution account.

(3) Each accountable officer must, at intervals directed by the Treasurer, pay to the Treasurer an amount representing the administered receipts for the department during the period of the interval, other than an amount received from the Treasurer or an administered receipt received for another department.

(4) An amount representing public moneys may only be paid from a departmental financial-institution account if it is paid from the account under subsection (3) or the prescribed requirements.

(5) An amount representing other moneys may only be paid from a departmental financial-institution account if it is paid from the account—

- (a) under the prescribed requirements; or
- (b) under an agreement, arrangement, contract, court order, law or transaction under which the other moneys are received or become payable.

19 Overdrawn accounts

(1) This section applies if the net credit balance of the Treasurer's consolidated fund bank account and all the departmental financial-institution accounts is overdrawn unintentionally and the overdrawn is rectified as soon as practical.

(2) The overdrawn is authorised by this section and a Treasurer's approval is not needed.

(3) This section has effect despite sections 16 and 17.⁸

Example of unintentional overdrawing of accounts—

Each morning departments give the treasury department a forecast of their cash flow for the day. The relevant officers of the treasury department add the total of the departmental forecasts to the net credit balance of the Treasurer's consolidated fund bank account and all the departmental financial-institution accounts (including TISFIA) to decide the surplus or deficit of moneys on the day. If there is a surplus, it is invested. If the forecasts are incorrect because a department receives less or withdraws more on the day than forecasted, the net credit balance will be unintentionally overdrawn.

Division 4—Appropriation and supply

21 Annual Appropriation Acts

For each financial year, the Treasurer must present to the Legislative Assembly—

- (a) a Bill for an ordinary Annual Appropriation Act for the financial year; and
- (b) a Bill for a parliamentary Annual Appropriation Act for the financial year.

- (a) after the enactment of the ordinary Annual Appropriation Act for a financial year the public business of departments is redistributed; and
- (b) because of the redistribution a departmental output, administered item or equity adjustment relating to a department (the “**first department**”) becomes an output, item or adjustment of another department (the “**second department**”).

(2) The Governor in Council may, by gazette notice, decide that part of the first department’s vote, that is attributable to the distributed output, item or adjustment and has not been paid by the Treasurer to the first department, is available for payment to the second department for application to the distributed output, item or adjustment.

(3) The gazette notice must state—

- (a) the amount still available for the Treasurer to pay to the first department, together with the amounts still available under the department’s headings; and

(2) The Treasurer must prepare a statement setting out the amount available for the Legislative Assembly and parliamentary service from the parliamentary supply amount.

(3) As soon as practicable after preparing the statement, the Treasurer must give written notice to the Clerk of the Parliament about the amount available for the Legislative Assembly and parliamentary service from the parliamentary supply amount, pending the enactment of the parliamentary Annual Appropriation Act.

delivering a departmental output, administered item or equity adjustment for which the vote for the delivering department for the financial year did not provide or sufficiently provide.

(2) The Treasurer may pay to the delivering department a part of the Treasurer's advance that the Treasurer considers reflects the value of the output, item or adjustment to be delivered in the financial year by the delivering department.

(3) The Treasurer may pay an amount to the delivering department even though the amount appropriated to the department under the relevant Annual Appropriation Act for the financial year will be exceeded.

(4) The Treasurer must make appropriate entries for the payment in the accounts of the treasury department and the delivering department.

25 Unforeseen expenditure

Where a determination is made by the Governor in Council, on the recommendation of the Treasurer, during a financial year or within the further 2 weeks, that expenditure should be made from the consolidated fund for the financial year for which—

- (a) there is no appropriation; or
- (b) there is an appropriation but the making or charging of that expenditure to a vote would mean that the amount allocated to that vote would be exceeded;

the Governor in Council may authorise that such expenditure be made in advance of appropriation and charged as unforeseen expenditure to the consolidated fund and allocated to 1 or more of the department's headings as the Governor in Council directs.

25A Treasurer to prepare statement of unforeseen expenditure to be appropriated
