1 Short title

This regulation may be cited as the *Fisheries Regulation 1995*.

PART 2—INTERPRETATION

Division 1—Words and phrases

2 Definitions

Schedule 17 defines particular words used in this regulation.

Division 2—Working out boundaries

2A References to latitudes and longitudes

(1) Latitudes and longitudes mentioned in this regulation, other than schedule 2, section 193A, and schedule 5B,¹ or a management plan are worked out using the ‘Australian Geodetic Datum 1966’, commonly called ‘AGD66’, notified in the Commonwealth Government Gazette No. 84 on 6 October 1966, at page 4984.

1 Schedule 2 (Closed waters—Commercial fishing), section 193A (Hervey Bay scallop ranching areas) and schedule 5B (Special provisions for spanish mackerel commercial fishery)

(2) Latitudes and longitudes mentioned in schedule 2, section 193A, are worked out using the ‘Geocentric Datum of Australia 1994’, commonly called ‘GDA94’, notified in the Commonwealth Government Gazette No. GN 35 on 6 September 1995, at page 3369.

(3) Latitudes and longitudes mentioned in schedule 5B are worked out using the ‘World Geodetic System 1984’, commonly called ‘WGS 84’, defined in the technical report titled ‘Department of Defense—World Geodetic System 1984—Its Definition and Relationships with Local Geodetic Systems’, third edition, published by the (US) National Imagery and Mapping Agency.²

(4) However, subsection (1) does not apply for a management plan if it provides for another system for working out latitudes and longitudes.

3 References to boundaries, lines, shores and other points

(1) Unless otherwise stated in this regulation—

- (a) a boundary or line along a shore follows high water mark; and
- (b) a boundary or line along a shore intersected by a waterway crosses the waterway by the shortest line between its banks; and
- (c) other boundaries and lines run from point to point in a straight line.

(2) Unless otherwise stated in this regulation—

- (a) a reference to a shore is a reference to the shore at high water mark; and
- (b) a reference to the tip of a cape, island or another geographical feature, or a point on the tip, is a reference to the tip or point on the shore at high water mark.

Example of subsection (2)(b)—

If a boundary point is described as the southern tip of an island, the point is at the island’s southernmost tip at high water mark.

² The technical report may be accessed on the Internet at the website of Geoscience Australia at www.ga.gov.au. At the commencement of subsection (3) of this section, the report could be accessed at (www.ga.gov.au/nmd/geodesy/datums/wgs.jsp.)

4 References to waterways

Unless otherwise stated in this regulation, a reference to a waterway is a reference to the waterway upstream of the shortest line between its banks at their junction, at low water, with the body of water into which the waterway finally flows.

5 References to banks of waterways

Unless otherwise stated in this regulation, a reference to a bank of a waterway is a reference to the bank at its junction, at high water, with the body of water into which it finally flows.

PART 5—REGULATED FISH

Division 1—Regulated fish, other than prawns

Subdivision 1—Regulated fish declarations

18 Regulated fish

- (1) Fish in schedule 4 are regulated fish.

(2) However, if fish are regulated by number, only fish in excess of the number are regulated fish.

(3) If a regulated fish declaration under this regulation and a management plan or a regulated fish declaration under 1 or more management plans prohibits the taking or possession of a fish in excess of the same number, the total number of fish that may be taken or possessed is that number.

Example—

Under each of the following the number of barramundi that may be taken or possessed by a recreational fisher is 5—

- (a) schedule 4, part 2, division 1 of this regulation;
- (b) the *Fisheries (Freshwater) Management Plan 1999*, section 18(1) and schedule 4, section 1;
- (c) the *Fisheries (Gulf of Carpentaria Inshore Fin Fish) Management Plan 1999*, section 17.

The effect of subsection (3) is that the total number of barramundi that may be taken or possessed in the State by a recreational fisher is 5.

19 Application of sch 4 (Regulated fish)

Schedule 4 applies to the following persons—

- (a) for part 1—persons taking fish for trade or commerce;
- (b) for part 2—recreational fishers;
- (c) for part 3—everybody.

Subdivision 2—Measurement of fish to decide if they are regulated

21 Measurement of size of fish

(1) The size of a mud or blue swimmer crab is decided by measuring—

- (a) if its carapace is not damaged or missing—the widest part of its carapace; or
- (b) if its carapace is damaged or missing—the underside of its body on 1 side, from the notch at the junction of the claw with the body to the notch at the junction of the last leg with the body.

(2) The size of a trochus is decided by measuring the widest part of the base of its shell.

(3) The size of a pearl oyster is decided by measuring from the edge of its butt or hinge to the opposite edge of its shell, whether or not the shell is broken or chipped.

(4) The size of a painted crayfish is decided by measuring, in a straight line—

- (a) if its carapace is not damaged or missing—from the anterior mid-dorsal margin to the posterior mid-dorsal margin of the cephalothorax; or
- (b) if its carapace is damaged or missing—along the dorsal surface from the anterior margin of the first abdominal somite to the posterior margin of the sixth abdominal somite, when the tail is laid flat on a horizontal surface.

(5) The size of a fin fish is decided by measuring, with the fish in the required position—

- (a) for bar-tailed flathead, mud flathead or sand flathead—the distance along a straight line along the centre of the fish's underside from the fish's mouth to the end of its tail; or
- (b) for a fin fish not mentioned in paragraph (a)—the distance along a horizontal line (the “**measurement line**”) along the fish's side from its mouth to—
 - (i) the point on the measurement line where the fish's tail ends; or
 - (ii) if part of the tail extends further than the point on the measurement line where the fish's tail ends—the point on the measurement line corresponding in length with the end of the longest part of the fish's tail.

(6) The following figure is an illustration of the operation of subsections 5(b) and (8), definition “required position”, in diagrammatic form—

(7) For subsection (5), the size of the fish must be measured without stroking or otherwise physically manipulating the fish, other than to the extent reasonably necessary to allow the fish to be measured as required under the subsection.

(8) In this section—

“required position” means—

- (a) for a fish mentioned in subsection (5)(a)—lying on its underside; or
- (b) for a fish mentioned in subsection (5)(b)—lying on its side with the dorsal fin facing outward and its mouth closed.

22 Measurement of weight of green snails

The weight of a green snail is its empty shell weight.

Subdivision 3—Exemptions

23 Exemption for recreational fishers about barramundi size limit

The maximum size limit for barramundi stated in schedule 4 does not apply to a recreational fisher who possesses barramundi outside the Lake Awoonga area or the Lake Tinaroo area if the barramundi—

- (a) take not more than twice the number of the reef fish during an extended commercial fishing tour; or
- (b) possess not more than twice the number of the reef fish if they were taken during an extended commercial fishing tour.

(3) However, subsection (1) applies only if the recreational fisher ensures a square area (each side of which is at least 3 cm) of the skin of each reef fish is kept on it.

25 Other exemptions

(1) This section applies despite section 18 or the provisions of any management plan about possessing or selling regulated fish.

(2) A person may possess regulated fish in the form of cleaned and preserved molluscs in a genuine shell collection.

(3) A person may—

- (a) possess a regulated fish if the fish is an aquarium display fish bred by the person for aquarium display; or
- (b) possess or sell a regulated fish if an inspector is reasonably satisfied the person has obtained the fish from—
 - (i) the holder of an authority allowing the holder to sell the fish; or
 - (ii) another person who has obtained the fish from a holder mentioned in subparagraph (i).

Division 2—Prawns regulated for recreational fishers

- (a) to a recreational fisher; and
- (b) to prawns taken by the recreational fisher or another recreational fisher.

(2) More than a total of 10 L of prawns is regulated.

(3) Taking or possessing more than a total of 10 L of prawns is prohibited.

25B Measurement of volume of prawns

(1) This section provides for how a total volume of prawns is measured.

(2) The volume of any of the prawns that are in a container (“**contained prawns**”) must be measured by reference to the volume of the container when it is empty.

(3) For subsection (2), a prawn is not a contained prawn if any part of it protrudes above the top of the container.

(4) The volume of any of the prawns that are not contained prawns (“**uncontained prawns**”) must be measured by—

- (a) placing them in a container or containers so that no part of any of the prawns protrudes above the top of the container or containers; and
- (b) measuring the volume of each container when it is empty; and
- (c) reference to the volume of the container or containers.

(5) The total volume is worked out by adding together the volume of all of the contained and uncontained prawns.

(6) In this section—

“**prawn**” includes part of a prawn.⁶

⁶ See however section 98A (Prohibition for prawns taken by recreational fishers).

PART 5A—DECLARED DISEASES

(2) The quota stated in section 29A may apply to tailor taken in a commercial fishery.

(3) The quota stated in section 29B may apply to spotted mackerel taken in a commercial fishery.

27 Notice of filling of certain quotas

(1) When the chief executive becomes aware that a quota (other than a daily or time quota) has been, or is likely to be, filled on or by a particular day, the chief executive must immediately notify a relevant authority holder, in writing, that the quota has been, or is likely to be, filled by a stated day.

(2) The authority holder must immediately tell persons acting under the authority that the quota has been, or is likely to be, filled on or by the stated day.

(3) A person given notice under subsection (1) or (2) must not take fish to which the notice relates after the day stated in the notice or, if the stated day has passed, the day after the notice is received.

(4) In this section—

“**relevant authority holder**” means an authority holder to whom the quota applies.

28 Daily quota

(1) A person fishing in a commercial fishery must not take more fish than allowed by the daily quota stated in a fishery provision for the fishery.

(2) However, it is not unlawful for a person to unintentionally take more fish than allowed by the daily quota if the fish are not intentionally or recklessly injured or damaged and are immediately put back.

29 Time quota

If a fishery provision for a commercial fishery states a period (“**time quota**”) during which certain fishing apparatus may be used or certain fish may be taken, a person fishing in the commercial fishery must not use the apparatus or take the fish other than during the time quota.

 - (i) the earlier permit has been cancelled or has expired; and
 - (ii) the application is made within 6 months after the cancellation or expiry; and
 - (iii) the permit applied for is, other than for its term, the same, or substantially the same, as the earlier permit.

⁷ See also schedule 2, part 7 (Using or possessing purse seine nets) and schedule 3, part 7 (Using or possessing purse seine nets).

(4) Subsection (3)(c)(iii) does not prevent the chief executive issuing a permit that is not the same, or substantially the same, as the earlier permit.

- (b) diseased fisheries resources.

38 Restrictions on issue of fish habitat area permits

(1) The chief executive may issue a fish habitat area permit only for the performance of works or related activity in a declared fish habitat area.

(2) However, the chief executive may issue the permit only if the chief executive is satisfied the works or activity is—

- (a) to maintain an existing facility; or
- (b) to restore the habitat or natural processes in it; or
- (c) for the management, use or enjoyment of the area; or
- (d) for community infrastructure; or

Division 3—Other authorities

40 Other authorities the chief executive may issue

(1) The chief executive may issue an authority for taking fish for trade or commerce in a commercial fishery.

(2) The chief executive may issue an authority for taking coral, shell grit or star sand for trade or commerce as an exclusive coral, shell grit or star sand authority allowing only the holder to take the fish in the area identified in the authority.

Division 4—Fishery symbols on authorities

41 Fishery symbols to be written on authorities

(1) If an authority (other than a tender commercial fishing boat licence) allows a person to do something in a commercial fishery, the chief

executive must write the fishery symbol for the commercial fishery on the authority.

Example—

If the authority allows fishing for trade or commerce in the net fishery (East Coast No. 2), the chief executive must write 'N8' on the authority.

(2) Also, the chief executive may write a fishery symbol on a tender commercial fishing boat licence.

(3) However, the chief executive may write the fishery symbol 'L7' on an authority only if the boat identified in the authority can be used to take fish for trade or commerce under New South Wales law.⁸

(4) Despite subsection (1), the chief executive need not write the fishery symbol for a following commercial fishery on a crew or fisher licence under which a crew member or fisher may take fish in the fishery—

- (a) line fishery (multiple hook—Queensland Fisheries Joint Authority);
- (b) line fishery (Queensland Fisheries Joint Authority No. 1);
- (c) line fishery (Queensland Fisheries Joint Authority No. 2).

41A Restrictions on writing fishery symbol 'SM'

The chief executive may write the fishery symbol 'SM' on an authority only—

- (a) under schedule 5B, part 2;⁹ or
- (b) if—
 - (i) the authority replaces an authority on which the symbol was written under schedule 5B, part 2; or
 - (ii) the chief executive renews an authority on which the symbol was written under schedule 5B, part 2.

8 For the fishery symbol 'L7' see schedule 12, part 7 (Line fishery (South Queensland)).

9 Schedule 5B (Special provisions for spanish mackerel commercial fishery), part 2 (Obtaining fishery symbol 'SM')

42 Restrictions on writing fishery symbols on authorities allowing the use of boats in commercial fisheries

(1) If a licence for a primary commercial fishing boat has a fishery symbol for the line fishery (reef) on it, the chief executive may write the fishery symbol on licences for not more than the following number of its tender commercial fishing boats—

- (a) for a primary commercial fishing boat licence with the fishery symbol 'L2' on it—4;
- (b) for a primary commercial fishing boat licence with the fishery symbol 'L3' on it—1.

(2) However, the chief executive may renew a tender commercial fishing boat licence allowing the use of a boat in the line fishery (reef), if the licence was in force immediately before the commencement and has the fishery symbol 'L2' or 'L3' on it.

(3) Also, the chief executive may issue a tender commercial fishing boat licence with the fishery symbol 'L2' or 'L3' on it, allowing the use of a boat in the line fishery (reef), but only if—

- (a) the boat is a replacement for a boat identified in another tender commercial fishing boat licence; and
- (b) the other tender commercial fishing boat licence was in force immediately before the commencement and has the fishery symbol on it.

(4) Subject to the provisions of a management plan, the chief executive must not write more than 1 of the same fishery symbol on an authority.

43 Restrictions on writing fishery symbols on authorities allowing the use of boats of certain lengths in commercial fisheries

(1) The chief executive may write a fishery symbol on an authority allowing the use of a boat in a commercial fishery only if the boat is not longer than the length permitted under a fishery provision for the fishery.

(2) However, the chief executive may renew an authority allowing the use of a boat in a commercial fishery even though the boat is longer than the length permitted under a fishery provision for the fishery, if the authority—

- (a) was in force immediately before the commencement; and
- (b) has a fishery symbol for the fishery on it.

(3) Also, the chief executive may issue an authority with a fishery symbol on it allowing the use of a boat in a commercial fishery even though the boat is longer than the length stated in a fishery provision relating to the boat's use in the fishery, but only if—

- (a) the boat is a replacement for a boat identified in another authority; and
- (b) the other authority was in force immediately before the commencement and has the fishery symbol on it.

44 Things authorised by fishery symbol

(1) A person acting under an authority with a fishery symbol on it may take fish only in—

- (a) the commercial fishery identified by the symbol; or
- (b) if an area is stated on the authority—the stated area.¹⁰

(2) If a fishery provision for the commercial fishery states that only particular fish may be taken, the person may take only the stated fish.

(3) Also, the person may take fish in the commercial fishery only by using fishing apparatus—

- (a) permitted by a fishery provision for the fishery; and
- (b) in accordance with a fishery provision for the fishery.

(4) If a fishery provision for the commercial fishery does not state how many of a particular type of fishing apparatus a person may use, the person may use only 1 of each type at a time.

(5) Subsection (4) applies even if more than 1 person is acting under the authority.

45 Restriction on things authorised by an authority with more than 1 fishery symbol on it

(1) If an authority has more than 1 fishery symbol on it, persons acting under the authority can not take fish in more than 1 commercial fishery at a time.

¹⁰ See however the fisheries offences in part 5, division 4 of the Act and part 8 of this regulation.

(2) However, if 1 of the fishery symbols is for the crab fishery, the persons may take crabs in that fishery and fish in 1 other commercial fishery at the same time.

(3) Also, the persons may take the following fish at the same time—

- (a) coral reef fin fish under fishery symbol 'RQ';
- (b) fin fish, other than coral reef fin fish, under fishery symbol 'L1', 'L2', 'L3', 'L6', 'L7' or 'L8'.

46 Fishery symbol does not authorise taking fish in certain Joint Authority fisheries

This division does not allow a person, in a Joint Authority fishery managed under Queensland law, and acting under an authority, to take fish to which the Joint Authority fishery applies unless—

- (a) the Joint Authority endorses the authority to extend its operation to activities over which the Joint Authority has powers under the Act; and
- (b) taking the fish is an activity over which the Joint Authority has powers under the Act.

47 When effect of certain fishery symbols end

(1) The effect of the fishery symbol 'L7' written on an authority ends if the boat identified in the authority can not be used to take fish for trade or commerce under New South Wales law.¹¹

(2) In addition, the effect of a fishery symbol for any of the following commercial fisheries written on an authority ends when the authority is transferred—

- (a) line fishery (multiple hook—East Coast);
- (b) line fishery (multiple hook—Queensland Fisheries Joint Authority);
- (c) net fishery (bait no. 2).

¹¹ For the fishery symbol 'L7' see schedule 12, part 7 (Line fishery (South Queensland)).

(3) Further, if the effect of the fishery symbol for the net fishery (bait no. 2) written on an authority ends, the effect of a fishery symbol for the net fishery (bait no. 1) written on the authority also ends.

(4) Nothing in subsection (1) prevents the chief executive issuing an authority (a “**new authority**”) with a fishery symbol on it for a fishery mentioned in the subsection if—

- (a) the new authority is for a boat replacing the boat identified in an existing authority to which the subsection applies; and
- (b) the existing authority holder and the new authority holder are the same person.

Division 5—Things authorised by, and conditions of, authorities

(3) Subsection (2)(b)(ii) does not apply if the former holder has applied for another aquaculture licence for the same land, unless the application is refused.

(4) If the former holder does not comply with subsection (2)(b)(ii), the chief executive may remove and dispose of anything used for the aquaculture activity.

(5) The chief executive may recover costs reasonably incurred under subsection (4) as a debt payable to the State.

(2) However, it is a condition of the licence that a commercial fisher or an assistant fisher under direction must be in control of the tender boat.

(3) Also, it is a condition of the licence that the tender boat may be used in a commercial fishery only if its primary commercial fishing boat may be used in the fishery and is not being used in another commercial fishery (other than the crab fishery).

(4) A tender commercial fishing boat licence holder may use the tender boat as a primary commercial fishing boat if—

- (a) its primary commercial fishing boat is not also being used to take fish for trade or commerce; and
- (b) the primary commercial fishing boat licence is kept on board the tender boat while it is used as the primary commercial fishing boat.

(5) While a tender commercial fishing boat is used as a primary commercial fishing boat, it is taken to be the primary commercial fishing boat.

(6) Despite subsection (5), a tender commercial fishing boat licence holder using a tender commercial fishing boat as a primary commercial fishing boat is not required to comply with a VMS equipment or manual reporting condition for the tender commercial fishing boat if—

- (a) the VMS equipment or manual reporting condition for the primary commercial fishing boat is complied with; and

“D” is the difference between the SM factor of the licence and the prescribed number.

44 Working out SM factor

(1) The SM factor, of an eligible holder’s SM fishery licence, for SM units, is the factor worked out by using the following formula—

$$\text{SMF} = \left(\frac{\text{AC}}{563200.4288} \right) \times 563200$$

where—

“SMF” is the SM factor.

“AC” is the average number of kilograms of (whole weight) spanish mackerel taken lawfully, under the licence, for the years in the qualifying period.

(2) Subject to section 45 of this schedule, in deciding the average number of kilograms of (whole weight) spanish mackerel taken under the licence for the years in the qualifying period, the chief executive must consider only relevant logbook information for the years.

45 Interpretation of unlawful, ambiguous or incomplete relevant logbook information

(1) If relevant logbook information for a year in the qualifying period is ambiguous or incomplete, the chief executive may—

- (a) disregard the information; or

SCHEDULE 5B (continued)

- (b) interpret the information in a way that is, in the chief executive's opinion, reasonable.

Example of ambiguous or incomplete information—

The logbook information does not identify the species of the fish.

(2) However, if there is more than 1 interpretation of the information that the chief executive considers reasonable, the chief executive must prefer the interpretation most favourable to the holder.

(3) The chief executive must disregard relevant logbook information for a year in the qualifying period if the chief executive reasonably believes spanish mackerel recorded in the relevant logbook information were not taken or were taken unlawfully.

(4) For subsection (3), the chief executive may use any documents or information held or obtained by the chief executive to decide whether spanish mackerel recorded in the relevant logbook information were not taken or were taken unlawfully.

*Subdivision 2—Catch history notice***46 Chief executive to give catch history notice**

(1) The chief executive must give an eligible holder a catch history notice.

(2) The catch history notice must accompany the amendment notice given to the holder under part 2, division 6.

47 Requirements for catch history notice

A catch history notice must state, in writing, each of the following—

- (a) that the holder of an SM fishery licence may apply, under part 3, for the issue of SM units in relation to the licence held by the holder;
- (b) from relevant logbook information for each year in the qualifying period—

SCHEDULE 5B (continued)

- (i) the amount of (whole weight) spanish mackerel taken under the licence from the prescribed waters for each year in the qualifying period; and
 - (ii) the amount of (whole weight) unidentified mackerel interpreted by the chief executive as an amount of mackerel other than spanish mackerel; and
 - (iii) the amount of (whole weight) unplaced spanish mackerel taken under the licence interpreted by the chief executive as having been taken from waters other than the prescribed waters; and
 - (iv) the amount of (whole weight) disregarded spanish mackerel;
- (c) if there is an amount of disregarded spanish mackerel—the documents or information used by the chief executive to decide whether spanish mackerel were not taken or were taken unlawfully;
- (d) that the holder may, when applying for the issue of SM units, ask the chief executive to decide the number of SM units to be issued to the holder using the adjusted allocation provisions if the holder can establish any of the following (a “**reason for adjusted allocation**”)—
- (i) the relevant logbook information or copies of docketts identify, as spanish mackerel, unidentified mackerel interpreted by the chief executive as mackerel other than spanish mackerel;
 - (ii) the relevant logbook information or copies of docketts identify unplaced spanish mackerel interpreted by the chief executive as having been taken from waters other than the prescribed waters as spanish mackerel having been taken from the prescribed waters;
 - (iii) disregarded spanish mackerel were taken and were not taken unlawfully;
 - (iv) a special circumstance for the holder exists;
- (e) that an application for SM units must be received by the chief executive on or after 2 February 2004 but before 15 March 2004.

SCHEDULE 5B (continued)

*Subdivision 3—Application for issue of SM units***48 Application for issue of SM units**

(1) An eligible holder may, by written notice, apply to the chief executive for the issue of SM units under this part.

(2) The application must—

- (a) be received by the chief executive on or after 2 February 2004 but before 15 March 2004; and
- (b) if the holder wishes the chief executive to decide the number of SM units to be issued to the holder using the adjusted allocation provisions—
 - (i) state the reason for adjusted allocation; and
 - (ii) be accompanied by all documents or information on which the holder relies to establish the reasons for adjusted allocation.

(3) Despite subsection (2)(a), the chief executive may consider an application received after 15 March 2004 if the chief executive is reasonably satisfied the holder was prevented from giving the application to the chief executive by 15 March 2004 because of reasons beyond the holder's control.

49 Deciding application for issue of SM units

(1) The chief executive must, as soon as practicable after receiving an application for SM units from an eligible holder, decide the number of SM units to be issued to the holder.

(2) If the application states a reason for adjusted allocation exists, the chief executive must decide whether the reason for adjusted allocation is established using only the following—

- (a) the relevant logbook information;
- (b) any copies of dockets accompanying the application;
- (c) any further information or evidence given to the chief executive within the stated period under subsection (3);

SCHEDULE 5B (continued)

(3) The chief executive may ask the applicant to give, within the period stated by the chief executive of at least 14 days, further relevant information or evidence the chief executive requires to whether a reason for adjusted allocation exists.

(4) The applicant must give the chief executive the further information or evidence requested.

(5) Also, the chief executive may obtain, other than from the holder, further information or evidence the chief executive requires to decide whether disregarded spanish mackerel were not taken or were taken unlawfully.

(6) If the chief executive obtains information or evidence under subsection (5), the chief executive must, before deciding the application, give the holder a notice stating—

- (a) the information or evidence obtained; and
- (b) that the holder may respond, in writing, to the information or evidence within the period stated by the chief executive of at least 14 days after the notice is given to the holder.

(7) In deciding the number of SM units to be issued to the holder, the chief executive must use only the information mentioned in subsection (2)(a) to (d).

(8) As soon as practicable after deciding the application, the chief executive must—

- (a) issue to the holder—

- (b) give the holder a decision notice for the decision.

50 Allocation provisions to be applied if reason for adjusted allocation is established

If the chief executive is reasonably satisfied a reason for adjusted allocation is established for an eligible holder, the chief executive must decide the number of SM units to be issued to the holder using the following provisions (the “**adjusted allocation provisions**”)—

- (a) if a special circumstance exists for a holder—sections 41 to 45 of this schedule, having regard to sections 51 to 55 of this schedule;

SCHEDULE 5B (continued)

- (b) for another year in the qualifying period—the amount worked out under section 10 of this schedule.

(3) However, if the holder did not take any spanish mackerel under the licence in 2002 and the chief executive is satisfied the holder intended to take spanish mackerel under the licence in 2002, the amount of (whole weight) spanish mackerel taken by the holder in each year in the qualifying period is the higher of the following—

- (a) the amount of (whole weight) spanish mackerel taken under the licence in the year;
- (b) the yearly average of spanish mackerel taken for the year.

Examples, for subsection (3), of reasons the chief executive may be satisfied—
