Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Revised edition indicates further material has affected existing material. For example—

- a correction
- a retrospective provision
- other relevant information.

- (5) The remaining provisions of this plan commence on the notification day.

3 The fishery—sch 1

- (1) This plan applies in relation to the east coast trawl fishery (the *fishery*).

¹ Sections 11 (Annual southern closures—sch 3, pt 1, div 1), 28 (Saucer scallops—regulated by time), 159 (Requirement to use TED) and 142, 154 and 167 (Use of chains for net)

- (2) This plan applies only in relation to—
 - (a) fishing for trade or commerce in the fishery by the use of trawl nets (*trawling*); or
 - (b) the possession of permitted fish taken under this plan from the fishery.
- (3) The fishery is described in schedule 1, part 1.
- (4) Unless otherwise stated in schedule 1, part 1, the description is as the fishery was immediately before the notification day.
- (5) The fishery's known status, as at 31 December 1997, is stated in schedule 1, part 2.

Part 2

Objectives of plan and their achievement

4 Objectives

The objectives of this plan are to—

- (a) manage the fishery in a way that gives optimal, but sustainable, community benefit; and
- (b) ensure fisheries resources taken in the fishery are taken in an ecologically sustainable way; and
- (c) ensure the sustainability of the fishery's ecological systems; and
- (d) provide for an economically viable, but ecologically sustainable, trawl fishery; and

 - (b) must be able to be received on the boat instantaneously after the communication is sent by the chief executive or inspector.

Examples of ways that may be nominated—

- A radio on the boat, tuned to a stated radio frequency
 - The number for a facsimile, mobile phone, radiophone or satellite phone on the boat.
- (3) More than 1 mode may be nominated.
 - (4) The holder of the licence may change the nominated mode by giving notice of a new nominated mode to the chief executive.
 - (5) However, the new nominated mode must not be used until the chief executive has advised the holder of the licence that the notice of the change has been received by the chief executive.

57C Obligation to ensure communication with person in control

The holder of the licence and the person in control of the boat identified in the licence must take all reasonable steps to ensure the chief executive or an inspector is, whenever the person is on the boat, able to communicate with the person by using a nominated communication mode for the boat,

Example of 'all reasonable steps' for section—

The only nominated communication mode for the boat is a radio on the boat, at a stated radio frequency. The holder and the person in control must, when the person is on the boat, ensure the radio is—

- (a) on the boat; and
- (b) in working condition; and
- (c) connected to an appropriate power source and turned on; and
- (d) tuned to the stated frequency; and

Division 2 VMS equipment obligations

59 Obligation to install and register VMS equipment

- (1) The holder of the licence must have an approved person install approved VMS equipment on the boat identified in the licence.
- (2) The equipment and the installer must be included in the particulars about the licence in the register of authorities the chief executive keeps under section 73 of the Act.

60 Obligation to maintain and use VMS equipment

 - (a) maintained in a condition that allows it to perform the functions of VMS equipment; and
 - (b) used in a way that, at all times, allows the boat to be detected by VMS wherever the boat is located.
- (2) However, the obligations do not apply during a period if—
 - (a) the boat is not used for fishing during the period; and
 - (b) before the period started the chief executive received notice from the holder of the licence that the boat would not be used for fishing during the period because, during the whole of the period—
 - (i) no trawl net will be on board the boat; or
 - (ii) the boat will be in dry dock or on a slip; or
 - (iii) the boat will not be used in Queensland waters; or
 - (iv) the VMS equipment will be disconnected from its power source because of a stated maintenance reason.
- (3) However, if the notice is given because of a maintenance reason, the period can not be more than 6 hours.
- (4) The notice may be given to the chief executive by—
 - (a) telephone to a telecommunications service provider for the chief executive appointed by gazette notice; or

- (b) using VMS equipment in a way that ensures—
 - (i) the notice is given to, and received by, the chief executive instantaneously; and
 - (ii) the chief executive can readily access the information in the notice.
- (5) The holder or person in control may, during the period, by notice to the chief executive amend or withdraw a notice given under subsection (2)(b).
- (6) If the holder has given a notice under subsection (2)(b), the holder or person in control must not use the boat for fishing during the period unless the holder or person withdraws the notice.
- (7) If the person withdraws a notice given under subsection (2)(b), the person—
 - (a) may use the boat for fishing; and
 - (b) must comply with the requirements stated in subsection (1).

61 Obligation to modify or replace installed VMS if required

- (1) The chief executive may, by notice, require the holder of the licence to modify or replace VMS equipment installed on the boat identified in the licence.
- (2) The notice must—
 - (a) identify the holder, the licence and the boat; and
 - (b) state the required modification or replacement; and
 - (c) state a reasonable period of at least 3 months for the holder to comply with the notice; and
 - (d) be accompanied by, or include, an information notice about the decision to make the requirement.

66 **Manual reporting obligation**

- (1) The person in control must notify the boat's position and operation to the chief executive by radio, telephone or another form of instantaneous electronic communication at intervals that, in all the circumstances, reasonably acts as a substitute for VMS equipment.
- (2) The obligation under subsection (1) is called the *manual reporting obligation*.
- (3) The manual reporting obligation continues to apply to the person in control until the VMS maintenance and use obligations are complied with for the boat.
- (4) If notice is given about a boat under the manual reporting obligation the boat is *manually reported*.

67 **Further obligations for malfunction in major scallop area**

- (1) This section applies, as well as the manual reporting obligation, if the malfunction happened inside the area within the following boundary (the *major scallop area*)—

- (2) The person in control must—
- (a) stop the use of fishing apparatus from the boat; and
 - (b) immediately cause the boat to travel as soon as practicable to the defined port area nearest the boat, unless the person has a reasonable excuse.
- (3) If the person in control starts to comply with the VMS maintenance and use obligations for the boat, the obligations under subsection (2)—

 - (b) cease to apply if the chief executive or an inspector gives the person notice that the obligations need not be complied with.
- (4) Notice under subsection (3)(b) may be given—
- (a) orally in person; or
 - (b) by a nominated communication mode for the boat.
- (5) If the boat travels to a port, the person in control must not cause or allow the boat to be used for fishing unless an approved person gives the chief executive or an inspector notice that VMS equipment installed on the boat is in a condition that allows it to perform the functions of VMS equipment.

68 Further obligations for malfunction outside major scallop area

- (1) This section applies, as well as the manual reporting obligation, if the malfunction happened outside the major scallop area.

- (2) The person in control must cause the boat to travel to a defined port area within 5 days, unless the person has a reasonable excuse.
- (3) However, if the boat moves into the major scallop area, the person in control must—

The chief executive may make guidelines (*manual reporting guidelines*) for compliance with the manual reporting obligation.

70 Compliance with manual reporting obligation

A person to whom the manual obligation applies is taken to have complied with the obligation if, to the extent they are relevant, the manual reporting guidelines are complied with.

Division 4 Notice guidelines**71 Chief executive may make guidelines**

The chief executive may make guidelines (*notice guidelines*) about how to give a notice to the chief executive under this part.

72 Compliance with notice guidelines

A person is taken to have given a notice under this part if, to the extent they are relevant, the notice guidelines are complied with.

Part 6 Effort units**Division 1 Introduction****73 Simplified outline of pt 6**

- (1) This part provides for the issue of effort units, their entitlement and for conditions for their transfer.
- (2) Effort units must be issued as follows for each licence that is, or is a replacement or renewal of, a 'T1' or 'T2' licence in force at midday on 15 December 2000 (an *eligible licence*)—
 - (a) under division 3, by an issue on or before 1 January 2001, based on allocated days;

- (b) under division 4, by an issue on or before 1 August 2001, based on supplementary days decided under that division.¹⁸
- (3) Under divisions 3 and 4, the total of all allocated and supplementary days can not be more than 102 929.
- (4) Division 5 allows the chief executive to make a rateable issue of additional effort units for 'T1' or 'T2' fishery symbols if the total mentioned in subsection (3) is not exceeded.
- (5) Divisions 6 and 7 provide for the entitlement of effort units and for working out when they are used.
- (6) Divisions 8 and 9 prescribe conditions for the transfer of effort units and provide for the entitlement under transferred effort units.

Division 2 General provisions about effort units

74 Nature of an effort unit

Each effort unit is—

- (a) an authority, the entitlement for which is provided for under division 6; and
- (b) a quota for the fishery.

75 General condition for issue of effort units

An effort unit may be issued only under this part.

76 When effort unit is *issued*

An effort unit is *issued* when—

- (a) an effort unit certificate that includes the unit is issued;
or

¹⁸ See section 81(2) and (3) (Making allocation decision).

- (b) an effort unit certificate is amended under this part to include the unit.

Division 3 Initial effort units

Subdivision 1 General provisions

77 Obligation to issue

On or before 1 January 2001 the chief executive must—

- (a) work out, under this division, the number of effort units that must be issued for each eligible licence; and
- (b) issue an effort unit certificate for the units for the first effort year.

78 Effort unit formula

- (1) To work out the number of effort units that must be issued for each eligible licence under this division, the chief executive must apply the following formula—

$$\mathbf{EU = EUCF \times AD}$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

AD means the number of allocated days for the eligible licence.

- (2) If after applying the formula the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded up.

Subdivision 2 Allocated days

79 Purpose of sdiv 2

This subdivision provides for how the chief executive must decide the number of allocated days for each eligible licence (the *allocation decision*).

80 Deciding recorded fishing days

- (1) The chief executive must decide the higher of the following number of days for each eligible licence for each year from 1988 to 1998—
 - (a) the number of days on which a boat as follows (a *relevant boat*) was used, other than under a surrendered former licence—
 - (i) a boat identified in the eligible licence;
 - (ii) a boat identified in a former licence for the eligible licence;
 - (b) if a relevant boat was, in the year, used under a surrendered former licence—an adjusted number of days on which a relevant boat was used in the year under the surrendered former licence worked out by applying the following formula—

$$AD = \frac{(FD \times EUCF 1)}{EUCF 2}$$

where—

AD means the adjusted number of recorded fishing days worked out by applying the formula.

FD means the number of days on which relevant boats were used in the year under the surrendered former licence.

EUCF 1 means the effort unit conversion factor for the boat identified in the surrendered former licence.

EUCF 2 means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or

- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.
- (2) The higher number of days for a year decided under subsection (1) is called the **recorded fishing days** for the year.
- (3) In making the decision, the chief executive must consider—
- (a) any relevant logbook returns given before 1 May 1999; and
- (b) records held by the chief executive about the returns.
- (4) In this section—

day, for the use of a relevant boat, means any period 24 hours from when the use started, whether or not the period is included in more than 1 of the 7 named days of the week.

Example—

A relevant boat is used from 7 p.m. on a Sunday to 6 a.m. on the following Monday and again on the Monday from 5 p.m. to 6 p.m. For this section, the boat is only used for 1 day.

use, a relevant boat, means use a trawl net from the boat under a 'T1' or 'T2' licence.

81 Making allocation decision

- (1) This section provides for formulae to make the allocation decision, after deciding recorded fishing days.
- (2) For a 'T1' licence, the formula is—

$$AD = \frac{(\text{HRD}_1 + \text{HRD}_2 + \text{HRD}_3 + \text{HRD}_4)/4}{(\Sigma \text{HRD}_1 + \Sigma \text{HRD}_2 + \Sigma \text{HRD}_3 + \Sigma \text{HRD}_4)/4} \times 94\,080$$

- (3) For a 'T2' licence, the formula is—

$$AD = \frac{(\text{HRD}_1 + \text{HRD}_2 + \text{HRD}_3 + \text{HRD}_4)/4}{(\Sigma \text{HRD}_1 + \Sigma \text{HRD}_2 + \Sigma \text{HRD}_3 + \Sigma \text{HRD}_4)/4} \times 1\,920$$

- (4) In the formulae—

AD means the number of allocated days.

HRD₁ means the highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₂ means the second highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₃ means the third highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₄ means the fourth highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

ΣHRD₁ means the sum of the highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD₂ means the sum of the second highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD₃ means the sum of the third highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD₄ means the sum of the fourth highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

Subdivision 3 Provisions for giving effect to appeal decisions

81A Application of sdiv 3

This subdivision applies if the following events happen—

- (a) an eligible licence holder appeals to the tribunal against the allocation decision for the licence;
- (b) recorded fishing days for 1 or more years used to make the allocation decision are, or must be, changed because the tribunal decides to set aside that decision and—
 - (i) substitute another decision; or

- (ii) return the matter to the chief executive with directions;
- (c) the substituted decision, or a decision by the chief executive made under the directions, (the *new recorded fishing days decision*) will require the reapplication of the formula under section 81 (the *allocation decision formula*) to remake the allocation decision;
- (d) the total fishing days for all eligible licences are less than 102 929.

81B Effect of new recorded fishing days decision

Subject to any decision or direction by the tribunal, the making of the new recorded fishing days decision does not—

- (a) require the reapplication of the allocation decision formula for an eligible licence holder other than the appellant; or
- (b) invalidate or otherwise affect effort units issued to another eligible licence holder.

81C Adjustment to allocation decision formula

- (1) The chief executive may, instead of reapplying section 81, remake the allocation decision by reapplying the allocation decision formula using—
 - (a) the same denominators that were used for the allocation decision appealed against; and
 - (b) the numerators used for the decision, as changed by the new recorded fishing days decision.
- (2) If, under subsection (1), the chief executive remakes the decision, the chief executive must—
 - (a) work out whether any further effort units must be issued to the appellant by applying the effort unit formula under section 78, using the allocated days worked out by reapplying the allocation decision formula under subsection (1); and
 - (b) issue the further effort units; and

- (c) take steps to amend the relevant effort unit certificate to include the further effort units and the fishing days for which they were issued.

Division 4 Further effort units issued on basis of supplementary days

Subdivision 1 Preliminary

82 Purpose of div 4

The purpose of this division is to allow further effort units to be issued to eligible persons to attempt to remedy hardship or disadvantage because of the allocation decision.

83 Meaning of *small operator* for div 4

For this division, a *small operator* means an eligible person who—

- (a) holds only 1 ‘T1’ or ‘T2’ licence; and
- (b) owns the boat identified in the licence; and
- (c) is a person as follows—
 - (i) the person who usually is the person in control of the boat when it is used for trawling (the *usual person in control*);
 - (ii) a close relative of the usual person in control;
 - (iii) a corporation, a director or shareholder of which is, or is a close relative of, the usual person in control; and
- (d) in the 2 financial years immediately before the application was made, derived at least 80% of the person’s gross income from fishing under the licence by trawling; and
- (e) received less than 123 allocated days.

Subdivision 2 Applications for effort units

84 Requirements for application

- (1) An eligible person may, on or before 31 March 2001, apply to the chief executive to be issued with further effort units for the person's eligible licence (an *effort unit application*).
- (2) The application must—
 - (a) be made to the chief executive, in the approved form; and
 - (b) include, or be accompanied by, all documents or information on which the applicant relies to support the application.

85 Deciding application

Subject to sections 88 and 89A, the chief executive must decide each effort unit application on or before 1 August 2001.

86 Grounds for issuing effort units

- (1) The chief executive may, under subdivision 3, work out a number of effort units to be issued to an effort unit applicant if the applicant has reasonably satisfied the chief executive that the applicant is a small operator.
- (2) The chief executive may, under subdivision 4, work out a number of effort units to be issued to an effort unit applicant if the applicant has reasonably satisfied the chief executive that the applicant is not a small operator and that—
 - (a) logbook returns show that from 1988 to 1998 a trawl net was used from a boat identified in a licence as follows (a *relevant licence*) on a day other than a recorded fishing day—
 - (i) the eligible licence the subject of the application;
 - (ii) a former licence or surrendered former licence for the eligible licence; or

- (b) because of an exceptional circumstance mentioned in subsection (4), the 4 highest years used, under section 81, to make the allocation decision for the applicant do not reflect the applicant's representative level of participation in the fishery.
- (3) However, if an applicant is issued effort units worked out under subdivision 3, the chief executive must not issue the applicant effort units worked out under subdivision 4.
- (4) For subsection (2)(b), the exceptional circumstances are each of the following—
 - (a) the applicant first acquired, or obtained an approval from a former fisheries agency for, a relevant licence between 1 January 1995 and 13 November 1998;
 - (b) the applicant acquired the eligible licence the subject of the application after 13 November 1998 and, when it was acquired, the applicant—
 - (i) had no actual or constructive knowledge of the Queensland Fisheries Management Authority media release called 'Investment Advice for Queensland East Coast Trawl Fishery', published on 13 November 1998; or
 - (ii) did not understand the nature or significance of the media release, after having taken all reasonable steps in the circumstances to understand it;
 - (c) the applicant did not hold a relevant licence for the whole of the period from 1988 to 1998 and during the period that the applicant held a relevant licence—
 - (i) the applicant or a close relative of the applicant suffered illness or injury; or
 - (ii) the boat identified in the licence could not be used for trawling.

88 Priority of deciding effort unit applications

In deciding effort unit applications, the chief executive must, as much as practicable, give priority to applicants who—

- (a) claim to be small operators; or
- (b) hold the fewest effort units.

89 Steps after making decision

- (1) If effort units are worked out for an effort unit applicant under subdivision 3 or 4, the chief executive must, as soon as practicable, take steps to amend the applicant's effort unit certificate to include the effort units and the fishing days for which they were issued.
- (2) The effort units take effect when the amendment is made.

Subdivision 3 Further effort units for small operators

89A Restriction on granting application by small operator

The chief executive must refuse an effort unit application if—

- (a) the chief executive is satisfied the applicant is a small operator; and
- (b) the total of supplementary days already worked out for small operators exceeds 5 000.

90 Effort unit formula

- (1) This section provides for how the chief executive must decide the number of effort units if the chief executive is satisfied the applicant is a small operator.
- (2) To work out the number of effort units, the chief executive must apply the following formula—

$$\mathbf{EU = EUCF \times SD}$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or

- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

SD means the number of supplementary days for the eligible licence, worked out under section 91.

91 Working out supplementary days

- (1) For section 90(2), the supplementary days are worked out by applying the following formula—

$$SD = \frac{HD_1 + HD_2 + HD_3 + HD_4}{4} - AD$$

- (2) In the formula—

SD means the number of supplementary days.

HD₁ means the highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₂ means the second highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₃ means the third highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₄ means the fourth highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

AD means the number of allocated days for the eligible licence.

- (3) If the total of the supplementary days worked out by applying the formula and all other supplementary days already out worked under this section for small operators would, other than this subsection, exceed 5 000, the number of supplementary days for the eligible licence is the difference between 5 000 and the other supplementary days.
- (4) In this section—

logbook days, for a year, means the days, other than recorded fishing days, shown in logbook returns on which a trawl net was used from a boat identified in—

- (a) the eligible licence; or
- (b) a former licence or surrendered former licence for the eligible licence.

Subdivision 4 Further effort units on other grounds

92 Effort unit formula

- (1) This section provides for how the chief executive must decide the number of effort units other than on the ground that the applicant is a small operator.
- (2) To work out the number of effort units, the chief executive must apply the following formula—

$$\mathbf{EU = EUCF \times SD}$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

SD means the number of supplementary days for the eligible licence, worked out under section 93.

93 Working out supplementary days

- (1) This section provides for formulae to work out the number of supplementary days for section 92(2).

- (2) For a 'T1' licence, the formula is—

$$SD = \left(\frac{(HD_1 + HD_2 + HD_3 + HD_4)^{1/4}}{(\sum HD_1 + \sum HD_2 + \sum HD_3 + \sum HD_4)^{1/4}} \times 94\,080 \right) - AD$$

- (3) For a 'T2' licence, the formula is—

$$SD = \left(\frac{(HD_1 + HD_2 + HD_3 + HD_4)^{1/4}}{(\sum HD_1 + \sum HD_2 + \sum HD_3 + \sum HD_4)^{1/4}} \times 1\,920 \right) - AD$$

- (4) In the formulae—

AD means the number of allocated days for the eligible licence.

SD means the number of supplementary days.

HD₁ means the highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₂ means the second highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₃ means the third highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₄ means the fourth highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

$\sum HRD_1$ means the sum of the highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

$\sum HRD_2$ means the sum of the second highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

$\sum HRD_3$ means the sum of the third highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_4 means the sum of the fourth highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

- (5) For subsection (4), the extra days for a year are—
 - (a) all days for the year shown in logbook returns under section 86(2)(a);¹⁹ and
 - (b) a number of other days the chief executive decides that best achieves the purpose of this part.
- (6) For subsection (5)(b), the chief executive must not decide a number that places the applicant in a position as if the applicant had more than an average annual participation in the fishery.

Division 5 Additional effort units

94 Interim issue of additional effort units for all eligible licences

- (1) This section applies if, on the day this section commences—
 - (a) the total fishing days for all effort units are less than 102 929; and
 - (b) all appeals against decisions about effort unit applications are not ended or finally decided.
- (2) The chief executive must, not later than 30 June 2004, issue further additional effort units for each eligible licence to the holder.
- (3) The number of effort units that must be issued for an eligible licence is the number worked out by applying the following formula—

$$EU = EUCF \times \left(\frac{RD}{TEL} \right)$$

where—

19 Section 86 (Grounds for issuing effort units)

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

RD means 102 343, less the total number of fishing days for all effort units when each of the effort units were issued.

TEL means the total number of eligible licences.

- (4) If, after applying the formula, the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded down.

95 Further issue of additional effort units for all eligible licences

- (1) This section applies if, after all additional effort units have been issued under section 94, the total fishing days for all effort units is still less than 102 929.
- (2) The chief executive may issue further additional effort units to each eligible licence holder.
- (3) However, the chief executive must not issue the additional units before—
 - (a) the end of the period to appeal against all decisions about effort unit applications (*effort unit appeals*); and
 - (b) all effort unit appeals are ended or finally decided; and
 - (c) if, in deciding an effort unit appeal, the tribunal gave the chief executive directions—the directions have been complied with.
- (4) The number of effort units that must be issued is worked out by applying the following formula—

where—

$$\mathbf{EU} = \mathbf{EUCF} \times \left(\frac{\mathbf{RD}}{\mathbf{TEL}} \right)$$

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

RD means 102 929, less the total number of fishing days for all effort units when each of the effort units were issued.

TEL means the total number of eligible licences.

- (5) If after applying the formula the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded down.

96 Issue of effort units

- (1) As soon as practicable after working out, under section 94 or 95, the number of effort units to be issued, the chief executive must take steps to amend the relevant effort unit certificates to include the effort units and the days for which they were issued.
- (2) The effort units take effect when the amendment is made.

Division 5A Limit on effort units

96A Application of div 5A

This division applies if after all effort unit applications have been decided, the total allocated and supplementary days for all eligible licences, would, other than for this division, be more than 102 929.

96B Automatic rateable effort unit cancellations

- (1) The number of effort units for each eligible licence is, by cancellation, reduced by applying the following formula—

$$\mathbf{REU} = \mathbf{EU} \times (\mathbf{EFD} / \mathbf{TFD})$$

where—

REU means the number of effort units for the licence by which the total number of effort units for the licence must be reduced, worked out by applying the formula.

EU means the existing number of effort units for the eligible licence.

EFD means the number of fishing days that, other than for this section, would have exceeded 102 929.

TFD means the total number of fishing days for all effort units.

- (2) If after applying the formula, the number of effort units to be cancelled for the licence is not a whole number, the number of effort units that must be cancelled is the nearest whole number, rounded up.

96C Notice and taking of effect of cancellation

- (1) The chief executive must, as soon as practicable after the cancellation of effort units and reduction of fishing days under section 96B, give each eligible licence holder a replacement effort unit certificate that reflects the cancellation and reduction.
- (2) The cancellation for the holder takes effect when the holder is given the replacement effort unit certificate.

Division 6 Effort unit entitlement and use**97 Meaning of *entitlement* of effort unit holder**

- (1) The effort units held by a person authorise the holder, in an effort year to use the boat identified in the holder's effort unit

certificate for the year for the number of whole fishing days for the units—

- (a) if the units relate to a ‘T1’ licence—
 - (i) generally—the ‘T1’ area; and
 - (ii) if the licence also has an ‘M1’ fishery symbol written on it—the ‘M1’ and ‘M2’ area; or
 - (b) if the units relate to a ‘T2’ licence—the ‘T2’ area.
- (2) Also, if the boat is used for the number of fishing days for the year, the holder is also authorised to use the boat for 4 additional days (*steaming days*).
 - (3) If the boat is, under this section, used on an allocated or steaming day, the holder has *used* the boat for the allocated or steaming day.
 - (4) The authorisation under this section is subject to division 9.²⁰
 - (5) The authorisation under this section for an effort year is the holder’s *entitlement* under the holder’s effort units for the year.
 - (6) However, the entitlement applies only while the person holds a ‘T1’ or ‘T2’ licence.

98 When effort unit entitlement is *used* for an effort year

- (1) The entitlement of the effort units held by a person is *used* for an effort year—
 - (a) when the unit holder has, in that year, used the boat for—
 - (i) the number of whole fishing days for the units; and
 - (ii) 4 steaming days; or
 - (b) if section 100(2) applies.
- (2) The *unused entitlement* of a person’s effort units for an effort year is the number of whole fishing and steaming days for the units for the year, for which the boat has not been used.

20 Division 9 (Entitlement of transferee under transferred effort units)

99 Provisions for working out use of entitlement

- (1) This section provides for rules to work out whether the boat identified in an effort unit certificate has been used on a fishing or steaming day to decide whether the entitlement of an effort unit holder has been used.
- (2) The period of each fishing and steaming day for the effort units is from midday to midday.
- (3) However, if the holder has given the chief executive notice of 24 hours or more that the period of the days is to be—
 - (a) from midnight to midnight—the period is from midnight to midnight; or
 - (b) from 6 p.m. to 6 p.m.—the period from 6 p.m. to 6 p.m.
- (4) Subsection (3)(b) applies only if the eligible licence is also an ‘M1’ licence.
- (5) If the holder uses the boat in any part of a fishing or steaming day, the holder is taken to have used the boat for the whole of the day.
- (6) Despite subsections (3) to (5)—
 - (a) the use of the boat for the whole or part of the first 12 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—
 - (i) under subsection (3)(a), the period of the fishing or steaming day is from midnight to midnight; and
 - (ii) the boat has, in the preceding 12 hours, been used under a fishery symbol; and
 - (b) the use of the boat for the whole or part of the first 6 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—
 - (i) under subsection (3)(b), the period of the fishing or steaming day is from 6 p.m. to 6 p.m.; and
 - (ii) the boat has, in the preceding 18 hours, been used under a fishery symbol.

(7) In this section—

notice includes a notice given by facsimile, radio or telephone.

100 No carrying forward of unused entitlement

- (1) This section applies if, in an effort year, an effort unit holder fishes on fewer days than the total entitlements under the effort units held by the holder.
- (2) The holder is taken, at the end of the effort year, to have used all the entitlements under the effort units held by the holder for the year.

101 Effort unit certificates

- (1) The chief executive must, for each effort year, issue a single certificate (an *effort unit certificate*) for all effort units for each eligible licence.
- (2) The certificate must state the following—
 - (a) the holder's name;
 - (b) the following details about the boat identified in the licence—
 - (i) its mark under section 103 of the regulation;
 - (ii) its hull units;
 - (iii) its beam, depth and length;
 - (iv) its effort unit conversion factor;
 - (v) its main engine power in maximum continuous brake kW;
 - (c) the effort year to which the certificate applies;
 - (d) how many effort units the holder has;
 - (e) the number of whole fishing days for the effort units;
 - (f) if the chief executive has imposed conditions on the effort units—the conditions.

Division 7 Evidentiary aids for use of entitlement

Subdivision 1 Evidentiary aids for when a fishing or steaming day is used

102 VMS detection or manual reporting

- (1) This section applies if the boat identified in an effort unit certificate is detected by VMS or manually reported at any time during a day (the *relevant day*) within the area stated in section 97(1)²¹ for the effort units.
- (2) The detection or manual report is evidence that the holder of the units has used the boat for a whole fishing or steaming day for the units.
- (3) However, subsection (2) does not apply if—
 - (a) an exception for this section stated in subdivision 2 applies for the relevant day; or
 - (b) the holder satisfies the chief executive the boat was not used on the relevant day.

102A Absence of VMS detection or reporting

- (1) This section applies if at any time during a day (the *relevant time*)—
 - (a) the VMS maintenance and use obligations applied to a person in control of a boat identified in a ‘T1’ or ‘T2’ licence; and
 - (b) the boat is not detected by VMS anywhere; and
 - (c) at that time the manual reporting obligation—
 - (i) applied to the person in control of the boat; and
 - (ii) was not being complied with for the boat.

21 Section 97 (Meaning of *entitlement* of effort unit holder)

- (2) The absence of the detection is evidence that the boat was used for a whole fishing or steaming day in the area stated in section 97(1) for the effort units for the licence.
- (3) However, subsection (2) does not apply if the holder of the effort units satisfies the chief executive that the boat was not being used at the relevant time.

Subdivision 2 Exceptions

103 Exception—movement only at travelling speed

replacement boat, in relation to a licence amended under section 132, means the boat that was identified in the licence after the amendment was made.

240 Refund of effort units surrendered

- (1) This section applies if—
 - (a) before the commencement of this section, a holder of a licence—
 - (i) applied for an amendment to the licence under section 132; and

3 Nature of fishery and required fishery symbols

- (1) The fishery is a commercial fishery.⁴²

- (3) On 23 March 1999, the fishery symbol numbers were as follows—
 - (a) ‘T1’ fishery symbols—775;
 - (b) ‘T2’ fishery symbols—33;
 - (c) ‘T3’ fishery symbols—1;
 - (d) ‘T5’ fishery symbols—62;
 - (e) ‘T6’ fishery symbols—16;
 - (f) ‘T7’ fishery symbols—10;
 - (g) ‘T8’ fishery symbols—34;
 - (h) ‘T9’ fishery symbols—41.
- (4) A licence with a fishery symbol written on it may also have other symbols written on it that, under the regulation or another management plan, allow the boat to be used in other commercial fisheries.

⁴² Certain provisions of the regulation apply to commercial fisheries under a management plan. See generally parts 7 (Authorities generally) and 8 (Fisheries offences) and schedule 17, definition *commercial fishery* of the regulation.

Schedule 1, part 1—Fishery description (continued)

4 Restrictions on apparatus and other controls

- (1) Only beam trawl nets and otter trawl nets may be used to take fish for trade or commerce in the fishery.
- (2) The types of net that may be used under each fishery symbol are as follows—
 - (a) for a ‘T1’ fishery symbol—beam trawl nets and otter trawl nets;

- (3) It is not known whether customary fishing for fish in the fishery is undertaken by Torres Strait Islanders.

Part 2 Known status**6 General**

- (1) The fishery is Queensland's largest commercial fishery, based on the number of participants and the amount and value of fish taken.
- (2) The annual catch of fish for trade or commerce in the fishery is about 12 500 t.

7 Logbook program

- (1) Information from the commercial logbook program for the fishery program is the primary basis for working out the fishery's current status.
- (2) The program records—
 - (a) actual, but not potential, fishing effort; and
 - (b) the location of fishing effort.
- (3) The program aids the estimation of—
 - (a) fluctuations in catch over seasons and between locations; and
 - (b) changes in CPUE.

8 Markets

- (1) Most of the fish species taken in the fishery by trawling are for export.

Schedule 1, part 2—Known status (continued)

- (2) Some fish species taken in the fishery by trawling are sold on the domestic market.

9 Aborigines' and Torres Strait Islanders' fishery

The chief executive does not have reliable information about the taking or use of fish species in the fishery by Aboriginal or Torres Strait Island fishers for tradition or custom.

- (4) The volume of any of fish that are not contained fish (*uncontained fish*) must be measured by—
 - (a) placing them in a container or containers so that no part of any of the fish protrudes above the top of the container or containers; and
 - (b) measuring the volume of each container when it is empty; and
 - (c) reference to the volume of the container or containers.

 - (b) statistical sampling and testing as follows—
 - (i) collecting information (the *sample data*) about the total number of saucer scallops taken or possessed by taking a random sample of the saucer scallops and counting the number of saucer scallops of the relevant size;
 - (ii) using the sample data and a statistical method to estimate, based on a probability of 95%, the percentage of the total number of saucer scallops taken or possessed that are of the relevant size.
- (3) For subsection (2)(b), a saucer scallop that is not whole, including, for example, a saucer scallop that is cut, dismembered, shelled or shucked, must not be counted or included in a sample.

34 Working out *hull units* for a boat

The *hull units*, for a boat, must be worked out by using the following formula and rounding the amount worked out to the nearest whole number—

where—

HU means the number of hull units for the boat;

L means the length of the boat;

Schedule 7, part 3—Other extended definitions (continued)

B means the beam of the boat;

- (b) if the boat does not have a metal shell—the outer surfaces of its hull, excluding sponsons, fenders and rubbing strips.

36 Meaning of *depth* of a boat

(1) The *depth*, of the boat, means the vertical distance, measured in metres, from its keel datum to—

- (a) if the boat is, after 15 December 2000, modified or replaced under chapter 3, part 8—a point amidships that is level with the highest point of its uppermost continuous deck; or
- (b) otherwise—
 - (i) for a boat with a stepped uppermost continuous deck the raised part of which extends over amidships—a line of reference extending from the lower part of the deck along a parallel line to the raised part; or
 - (ii) if subparagraph (i) does not apply—the underside of its uppermost continuous deck at the side amidships.

(2) In this section—

⁶⁵ The figure of 0.6 represents a block coefficient to standardise variations in boat design and the figure of 2.83 represents a constant which converts cubic metres to units of 100 cubic feet.

- (c) if, because of the boat's shape, the keel datum can not be worked out under paragraph (a) or (b)—the tangent providing the greatest depth measurement.

37 Meaning of *length* of a boat

- (1) The ***length***, of a boat, means the distance between the front and end tips of the boat.
- (2) However, the length does not include anything that does not increase the boat's effective length.

 - (a) make;
 - (b) model;
 - (c) year of manufacture;
 - (d) serial number;

- (5) The following must be disregarded—
 - (a) variation from the standard power output, including, for example, engine deratings;
 - (b) different gear boxes or transmission trains associated with individual engines.
