Marine Parks Act 1982

Marine Parks (Woongarra) Zoning Plan 1991

Reprinted as in force on 18 February 2005
(includes commenced amendments up to 2005 SL No. 12)

Reprint No. 1A

This reprint is prepared by
the Office of the Queensland Parliamentary Counsel
Warning—This reprint is not an authorised copy

NOT FURTHER AMENDED
LAST REPRINT BEFORE REPEAL
See 2006 SL No. 229 s 89(b)

Information about this reprint

This regulation is reprinted as at 18 February 2005. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

Minor editorial changes allowed under the provisions of the Reprints Act 1992 have also been made to use aspects of format and printing style consistent with current drafting practice (s 35).

This page is specific to this reprint. See previous reprint for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Marine Parks (Woongarra) Zoning Plan 1991

[as amended by all amendments that commenced on or before 18 February 2005]

Part 1 Preliminary

1 Short title

This zoning plan may be cited as the *Marine Parks (Woongarra) Zoning Plan 1991*.

1A Application of zoning plan

This zoning plan applies to the Woongarra Marine Park.

2 Definitions

In this zoning plan—

aircraft means a machine or device that can derive support in the atmosphere from the reactions of the air or from buoyancy, but does not include a hovercraft.

animal means any member, alive or dead, of the animal kingdom (other than man) and includes—

- (a) spat, spawn, eggs and parts of eggs; and
- (b) the skin, feathers, shell or other part of an animal.

bait gathering means the taking of yabbies, eugaries (pippies), bait worms or crabs by hand or by hand-held implement under fisheries legislation.

bait netting means fishing using a recreational bait net or a commercial bait net described in, and used under fisheries legislation.

bait worms means worms belonging to the Family Nereidae or Family Eunicidae that are taken for use as bait.

collecting means the taking of any declared animal, plant or other marine product.

commercial netting means fishing using any net described in, and used under fisheries legislation.

commercial oyster gathering means the taking of oysters from an oyster ground under fisheries legislation.

crabbing means the taking of crabs by the apparatus described in, and used under schedules 5 and 6 of the *Fishing Industry Organisation and Marketing Regulation 1991*.

crabs means crustacea of the Infraorder Brachyura.

declared, in relation to marine products means, an animal, plant or other marine product listed in schedule 3.

eugarie means a mollusc belonging to the species *Plebidonax deltoides*.

fisheries legislation means the *Fisheries Act 1976*, and the *Fishing Industry Organisation and Marketing Act 1982*.

fishing means the taking of fish, crustaceans or molluscs but does not include the taking of declared animals.

highest astronomical tide means the highest level of the tides that can be predicted to occur under average meteorological conditions and under any combination of astronomical conditions.

high water means the Mean High Water Spring (MHWS) tide level.

hook means a single hook or a group of hooks linked (ganged) together.

hovercraft means any aircushion vehicle.

limited collecting means the taking for non-commercial purposes of not more than 5 specimens of any 1 species of any declared fish or invertebrate within any 28 day period, by means of a hand-held implement or by hand only but does not include the taking for non-commercial purposes of Class Anthozoa, a subspecies of Phylum Coelenterata.

limited oyster gathering means the gathering of oysters for immediate consumption.

manipulative research means any research that, by the nature of its activities, will result in significant damage, degradation or disruption to the physical environment or living resources of the marine park and includes taking of specimens by fishing or collecting.

non-manipulative research means any research that, by the nature of its activities, will not result in significant damage, degradation or disruption to the physical environment or living resources of the marine park and does not include taking of specimens by fishing or collecting.

oyster means a mollusc of the Family Ostreidae and includes an oyster without its shell.

photography and filming means the use of still, video or cine camera equipment for the recording of visual images or sound.

plants includes algae, fungi, seeds and parts of plants.

public notice means publication—

- (a) in the gazette; and
- (b) in a newspaper that circulates throughout Queensland.

ship means a vessel with a gross tonnage in excess of 1 500 t.

stowed or secured, in relation to equipment, means rendered inoperative and, in relation to trawl equipment, rendered inoperative at least to the extent of having nets out of water and hung on board with cod ends open.

the coastal 1 n mile line means the line every point of which is at a distance of one nautical mile from the nearest point of the coastline at high water.

the coastal 300 m line has a corresponding meaning to *the coastal one nautical mile line*.

the park means the Woongarra marine park.

vessel means a ship, boat, hovercraft, raft or pontoon or any other thing capable of carrying persons or goods through or on water.

yabbies means crustacea of the Genus *Callinassa* of the Family Callinassidae.

Part 2 Zoning provisions

Division 1 Zones

3 Zones

- (1) The park consists of the following zones—
 - (a) general use zone;
 - (b) habitat protection zone;
 - (c) conservation park zone.
- (2) The boundaries of the zones are set out in schedule 1.
- (3) The approximate locations of the zones are shown on the zoning map in schedule 4.

Division 2 General use zone

4 Objective

The objective of general use zoning is to provide opportunities for reasonable general use consistent with the conservation of the park.

5 Entry and use

- (1) Subject to part 4 (Additional uses and exemptions), a person may enter or use the general use zone for any of the following purposes—
 - (a) trolling;
 - (b) line fishing;
 - (c) spearfishing that is—
 - (i) not for sale or trade; and
 - (ii) not with underwater breathing apparatus (other than a snorkel); and
 - (iii) not with a power-head;

Marine Parks (Woongarra) Zoning Plan 1991

- (d) limited collecting;
 - (e) limited oyster gathering;
 - (f) commercial oyster gathering;
 - (g) crabbing;
 - (h) bait gathering;
 - (i) bait netting;
 - (j) commercial netting;
 - (k) trawling;
 - (l) recreational or educational activities that do not involve the taking of marine products;
 - (m) photography and filming;
 - (n) non-manipulative research;
 - (o) the navigation and operation of vessels, other than hovercraft;
 - (p) the operation of tourist programs and any associated use of vessels;
 - (q) the operation of an aircraft at an altitude of not less than 500 ft above ground or water.
- (2) The chief executive may give permission under the *Marine Parks Regulation 1990*, part 3¹ for a person to enter or use the general use zone for any of the following purposes—
- (a) manipulative research, including the taking of marine products;
 - (b) collecting;
 - (c) the farming of marine resources including the operation, construction, maintenance, demolition or removal of any associated facility;
 - (d) the construction, operation, maintenance, demolition or removal of any facility associated with a tourist program;

1 *Marine Parks Regulation 1990*, part 3 (Permission to enter or use a marine park)

- (e) the construction or conduct of mooring facilities for vessels;
- (f) the operation of a structure including the conduct of operations in or upon, the discharge of wastes from, or the building, assembling, fixing in position, maintenance or demolition of, that structure;
- (g) the operation of aircraft other than as permitted under subsection (1);
- (h) the navigation and operation of a hovercraft;
- (i) the dumping of soil or the carrying out of reclamation works, beach protection works, harbour works, road building works or any other works;
- (j) programs for the taking of animals or plants that pose a threat to human life or safety, or to marine ecosystems that are part of the park, or to the use and amenity of an area or of adjacent areas;
- (k) exploration for petroleum by the holder of an authority to prospect issued under the *Mineral Resources Act 1989*;
- (l) extraction of petroleum by the holder of a lease or licence issued under the *Mineral Resources Act 1989*;
- (m) exploration for minerals by the holder of an authority to prospect issued under the *Mineral Resources Act 1989*;
- (n) mining for minerals by the holder of a mining lease issued under the *Mineral Resources Act 1989*;
- (o) any purpose not listed in this section, consistent with the objective of the zone.

Division 3 Habitat protection zone

6 Objective

The objective of habitat protection zoning is to provide for the protection of important marine resources while providing opportunities for reasonable general use in areas that are free

from trawling, mining and generally free from substrate disturbance.

7 Entry and use

- (1) Subject to part 4 (Additional uses and exemptions), a person may enter or use the habitat protection zone for any of the following purposes—
 - (a) trolling;
 - (b) line fishing;
 - (c) spearfishing that is—
 - (i) not for sale or trade; and
 - (ii) not with underwater breathing apparatus (other than a snorkel); and
 - (iii) not with a power-head;
 - (d) limited collecting;
 - (e) limited oyster gathering;
 - (f) commercial oyster gathering;
 - (g) crabbing;
 - (h) bait gathering;
 - (i) bait netting;
 - (j) commercial netting;
 - (k) recreational or educational activities that do not involve the taking of marine products;
 - (l) photography and filming;
 - (m) non-manipulative research;
 - (n) navigation and operation of vessels, other than hovercraft or ships, if any equipment, the use of which is not permitted in the zone, is stowed or secured at all times when the vessel is in the zone;
 - (o) the operation of an aircraft at an altitude of not less than 500 ft above ground or water.

- (2) The chief executive may give permission under the *Marine Parks Regulation 1990*, part 3² for a person to enter or use the habitat protection zone for any of the following purposes—
- (a) manipulative research, including the taking of marine products;
 - (b) collecting;
 - (c) the farming of marine resources including the operation, construction, maintenance, demolition or removal of any associated facility;
 - (d) the operation of tourist programs and any associated use of vessels, or the construction, operation, maintenance, demolition or removal of any associated facility;
 - (e) the construction or conduct of mooring facilities for vessels;
 - (f) the operation of a structure including the conduct of operations in or upon, the discharge of wastes from, or the building, assembling, fixing in position, maintenance or demolition of, that structure;
 - (g) the operation of aircraft other than as permitted under in subsection (1);
 - (h) the navigation and operation of a hovercraft;
 - (i) the dumping of soil or the carrying out of reclamation works, beach protection works, harbour works, road building works or any other works;
 - (j) programs for the taking of animals or plants that pose a threat to human life or safety, or to marine ecosystems that are part of the park, or to the use and amenity of an area or adjacent areas;
 - (k) any purpose not listed in this section, consistent with the objective of the zone.

2 *Marine Parks Regulation 1990*, part 3 (Permission to enter or use a marine park)

Division 4 Conservation park zone

8 Objective

The objective of conservation park zoning is to provide for the protection of areas of the park in a natural state, allowing the public opportunities to appreciate and enjoy the relatively undisturbed nature of those areas, and providing for limited removal of marine resources.

9 Entry and use

- (1) Subject to part 4 (Additional uses and exemptions), a person may enter or use the conservation park zone for any of the following purposes—
 - (a) trolling for pelagic species;
 - (b) line fishing in which each person uses no more than 2 hand-held rods or handlines, each with—
 - (i) only 1 hook; or
 - (ii) an artificial fly; or
 - (iii) a lure;
 - (c) spearfishing that is—
 - (i) not for sale or trade; and
 - (ii) not with underwater breathing apparatus (other than a snorkel); and
 - (iii) not with a power-head;
 - (d) limited collecting;
 - (e) limited oyster gathering;
 - (f) recreational or educational activities that do not involve the taking of marine products;
 - (g) photography and filming;
 - (h) non-manipulative research;
 - (i) navigation and operation of vessels, other than hovercraft or ships, if any equipment, the use of which is

Marine Parks (Woongarra) Zoning Plan 1991

- not permitted in the zone, is stowed or secured at all times when the vessel is in the zone;
- (j) the operation of an aircraft at an altitude of not less than 500 ft above ground or water.
- (2) The chief executive may give permission under the *Marine Parks Regulation 1990*, part 3³ for a person to enter or use the conservation park zone for any of the following purposes—
- (a) manipulative research including the taking of marine products;
 - (b) the operation of tourist programs and any associated use of vessels, or the construction, operation, maintenance, demolition or removal of any associated facility;
 - (c) the construction or conduct of mooring facilities for vessels;
 - (d) the operation of a structure including the conduct of operations in or upon, the discharge of wastes from, or the building, assembling, fixing in position, maintenance or demolition of, that structure;
 - (e) the operation of aircraft other than as permitted under subsection (1);
 - (f) the carrying out of works consistent with the objective of the zone;
 - (g) programs for the taking of animals or plants that pose a threat to human life or safety, or to marine ecosystems which are part of the park, or to the use and amenity of an area or adjacent areas;
 - (h) any purpose not listed in this section, consistent with the objective of the zone.

3 *Marine Parks Regulation 1990*, part 3 (Permission to enter or use a marine park)

Division 5 General

10 Environmental impact

- (1) An applicant for permission to enter or use a zone must satisfy the chief executive that no unacceptable environmental impact will occur as a result of the use of the area for the purpose for which permission is sought.
- (2) In this section—
unacceptable environmental impact means an impact that may result in disturbance or alteration to the hydrology, water quality, substrate, or the natural species composition or productivity of communities.

Part 3 Designated area provisions

11 Designated areas

- (1) The following areas are set aside for special management—
 - (a) turtle monitoring special management area;
 - (b) Mon Repos special management area;
 - (c) turtle protection special management area.
- (2) The boundaries of the designated areas are set out in schedule 2.
- (3) The approximate locations of the designated areas are shown on the designated areas map in schedule 4.

12 Objectives

- (1) The objective of setting aside the turtle monitoring special management area for special management is to investigate any effects of trawling on marine turtles during the turtle nesting season.
- (2) The objective of setting aside the Mon Repos special management area is to provide for foreshore, inshore and

Shipwrecks Act 1976 of the Commonwealth or a wreck located within a special management area that has been designated for the purpose of special management of that wreck;

- (b) defence operations, including the use of ships and aircraft;
- (c) government geodetic, bathymetric or similar surveys;
- (d) the construction, installation and servicing of authorised navigational aids and their ancillary buildings and works, including the operation of vessels and aircraft for these purposes.

Schedule 1 Zone boundaries

1 General use zone

The general use zone consists of the tidal land and tidal waters within the boundaries of the park that are not included in any other zone.

2 Habitat protection zone

The habitat protection zone consists of—

- (a) the area the boundary of which—
 - (i) commences at the point of intersection of the parallel of latitude 24°45.6' south and the coastline at highest astronomical tide, in the vicinity of South Head; and
 - (ii) runs east along that parallel to its intersection by the coastal 300 m line; and
 - (iii) then generally south-easterly along the coastal 300 m line to its intersection by the parallel of latitude 24°48.7' south; and
 - (iv) then north-easterly along the geodesic bearing 30° true to the intersection of that geodesic by the coastal 1 n mile line; and
 - (v) then generally south-easterly along that coastal 1 n mile line to its intersection by the parallel of latitude 24°48.4' south; and
 - (vi) then south-westerly along the geodesic bearing 210° true to the intersection of that geodesic by the coastal 300 m line; and
 - (vii) then generally southerly along that coastal 300 m line to its intersection by the parallel of latitude 24°52.4' south; and
 - (viii) then west along that parallel to its intersection by the coastline at highest astronomical tide, in the vicinity of the southern bank of the mouth of Palmer Creek; and

Schedule 1 (continued)

- (ix) then generally northerly and north-westerly along that coastline at highest astronomical tide (crossing the mouths of creeks and streams in accordance with the general trend of the coast at highest astronomical tide) to the point of commencement; and
- (b) the tidal land and tidal waters of the unnamed inlet and its tributary streams that flow into the sea at the southern end of Mon Repos Beach at about latitude 24°48.1' south, longitude 152°26.7' east; and
- (c) the tidal land and tidal waters of Rifle Range Creek; and
- (d) the tidal land and tidal waters of Palmer Creek; and
- (e) the area the boundary of which—
 - (i) commences at the point of intersection of the parallel of latitude 24°53.3' south and the coastline at highest astronomical tide; and
 - (ii) runs east along that parallel to its intersection by the coastal 300 m line; and
 - (iii) then generally southerly along that coastal 300 m line to its intersection by the parallel of latitude 24°55.5' south; and
 - (iv) then west along that parallel to its intersection by the coastline at highest astronomical tide, in the vicinity of Elliott Heads; and
 - (v) then generally northerly along that coastline at highest astronomical tide to the point of commencement.

3 Conservation park zone

The conservation park zone consists of—

- (a) the area the boundary of which—
 - (i) commences at the point of intersection of the parallel of latitude 24°50.1' south and the coastline at highest astronomical tide; and

Schedule 1 (continued)

- (ii) runs east along that parallel to its intersection by the coastal 300 m line; and
 - (iii) then generally southeasterly then south-westerly along that coastal 300 m line to its intersection by the parallel of latitude 24°50.9' south; and
 - (iv) then west along that parallel to its intersection by the coastline at highest astronomical tide; and
 - (v) then generally northerly along that coastline at highest astronomical tide to the point of commencement; and
- (b) the area the boundary of which—
- (i) commences at the point of intersection of the parallel of latitude 24°52.4' south and the coastline at highest astronomical tide, in the vicinity of the south bank of the mouth of Palmer Creek; and
 - (ii) runs east along that parallel to its intersection by the coastal 300 m line; and
 - (iii) then generally southerly along that coastal 300 m line to its intersection by the parallel of latitude 24°53.3' south; and
 - (iv) then west along that parallel to its intersection by the coastline at highest astronomical tide; and
 - (v) then generally northerly along that coastline at highest astronomical tide to the point of commencement.

Schedule 2 Designated area boundaries

1 Turtle monitoring special management area

The turtle monitoring special management area consists of the entire area of the park.

2 Mon Repos special management area

The Mon Repos special management area consists of the area the boundary of which—

- (a) commences at the point of intersection of the parallel of latitude which passes through the northernmost point of Mon Repos Environmental Park (Res. 1133, Parish of Barolin, County of Cook) and the coastline at highest astronomical tide; and
- (b) runs east along that parallel to its intersection by the coastal 300 m line; and
- (c) then generally south-easterly along that coastal 300 m line to its intersection by the parallel of latitude which passes through the easternmost point of Mon Repos Environmental Park; and
- (d) then west along that parallel to its intersection by the coastline at highest astronomical tide; and
- (e) then generally north-westerly along that coastline at highest astronomical tide (crossing the mouths of creeks and streams in accordance with the general trend of the coast at highest astronomical tide) to the point of commencement.

3 Turtle protection special management area

The turtle protection special management area consists of the area the boundary of which—

- (a) commences at the point of intersection of the parallel of latitude 24°45.6' south and the coastline at highest astronomical tide; and

Schedule 2 (continued)

- (b) runs east along that parallel to its intersection by the coastal 1 n mile line; and
- (c) then generally south-easterly along that coastal 1 n mile line to its intersection with the parallel of latitude 24°49' south; and
- (d) then west along that parallel to its intersection by the coastline at highest astronomical tide; and
- (e) then generally north-westerly and northerly along the coastline at highest astronomical tide (crossing the mouths of creeks and streams in accordance with the general trend of the coast at highest astronomical tide) to the point of commencement.

Schedule 3 Declared species—animals, plants and other marine products

Part 1 Animals

Fish

All species of each of the following—

Family Chaetodontidae	(Butterfly fish, Coralfish, Angelfish)
Family Pomacentridae	(Damsel fish, Pullers, Sergeant-Majors, Anemone fish)
Family Holocentridae	(Squirrelfish, Soldierfish)
Family Syngnathidae	(Seahorses, Pipefish)
Genus <i>Pterois</i>	(Butterfly Cod, Red Firefish or Lionfish)
Genus <i>Pteropterus</i>	
Family Apogonidae	(Cardinalfish, Soldierfish)
Genus <i>Cirrhitichthys</i>	(Hawkfish)
Genus <i>Paracirrhites</i>	
Genus <i>Anamapses</i>	(Scribbled Wrasse)
Genus <i>Epibulus</i>	(Sling-Jaw or Telescopefish)
Genus <i>Gomphosus</i>	(Bird Wrasse)
Genus <i>Labroides</i>	(Cleaner Wrasse)
Genus <i>Macropharyngodon</i>	(Red-flecked Wrasse)
Genus <i>Stethojulis</i>	(Rainbowfish)
Genus <i>Thalassoma</i>	(Moon Wrasses, Jansen's Wrasse)

Schedule 3 (continued)

Family Blennidae	(Combtooth Blennies)
Family Clinidae	
Family Gobiidae	(Gobies, Mudhoppers, Gudgeons)
Family Acanthuridae	(Surgeonfish, Moorish Idols, Unicornfish)
Genus <i>Lo</i>	(Fox-face)
Family Ostraciontidae	(Box fish, Cowfish, Turretfish)
Species <i>Epinephelus lanceolatus</i>	(Queensland Groper)
Species <i>Epinephelus tauvina</i>	(Greasy Cod or Estuary Cod)
Species <i>Choerodon fasciatus</i>	(Harlequin Tusk fish)

Invertebrates

All species of each of the following—

Phylum Porifera	(Sponges)
Phylum Coelenterata	(Hydroids, Jellyfish and Corals)
Phylum Bryozoa	
Phylum Annelida (except Family Nereidae and Family Eunicidae)	
Phylum Echinodermata	(Starfish, Sea Cucumbers, Sea Urchins, Brittle-stars, Feather-stars)
Class Foraminifera	
Class Crustacea (except Family Panuliridae, Family Penaeidae, Family Scyllaridae, species <i>Portunus sanguinolentus</i> , males of the species <i>Portunus pelagicus</i> or <i>Scylla serrata</i>)	

Schedule 3 (continued)

Class Gastropoda

Class Bivalvia
(except Family Amusidae and
Family Ostreidae)

Family Nautilidae

Reptiles

All species of each of the following—

Family Cheloniidae (Marine Turtles)

Family Dermochelyidae (Marine Turtles)

Family Laticaudidae (Sea Snakes)

Family Hydrophiidae (Sea Snakes)

Mammals

All species of each of the following—

Order Cetacea (Whales and Dolphins)

Order Sirenia (Dugong)

Part 2 Plants

All species of plants

Schedule 3 (continued)

Part 3

Other marine products

sea-shells

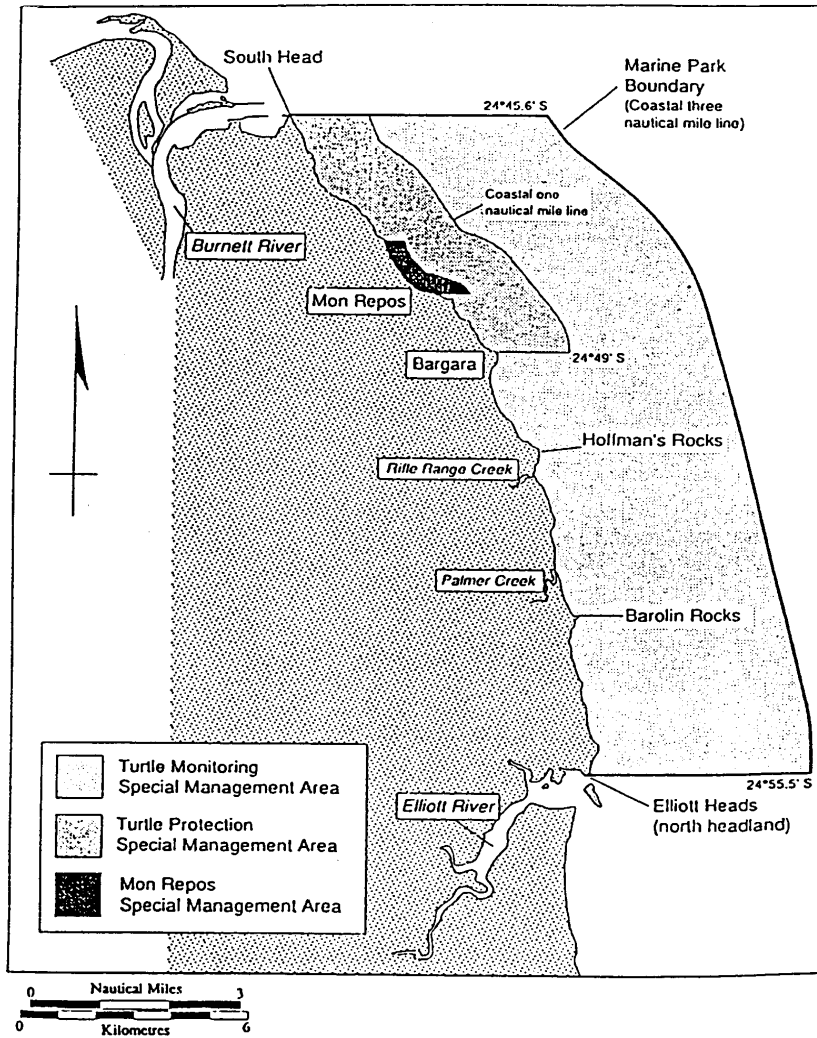

coral limestone

shell-grit

star sand
