Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Fisheries (East Coast Trawl) Management Plan 1999

[as amended by all amendments that commenced on or before 15 March 2008]

Chapter 1 Preliminary

Part 1 Introduction

1 Short title

This management plan may be cited as the *Fisheries (East Coast Trawl) Management Plan 1999*.

2 What is the *east coast trawl fishery*

The *east coast trawl fishery* is fishing for trade or commerce by the use of trawl nets (*trawling*) in any tidal waters east of longitude 142°31.89' east.

3 Application of plan

This plan applies in relation to the taking, possession and other uses of permitted fish taken under this plan from the east coast trawl fishery.

Part 2 Objectives of plan and their achievement

4 Objectives

The objectives of this plan are to—

- (a) manage the east coast trawl fishery in a way that gives optimal, but sustainable, community benefit; and
- (b) ensure fisheries resources taken in the east coast trawl fishery are taken in an ecologically sustainable way; and
- (c) ensure the sustainability of the east coast trawl fishery's ecological systems; and
- (d) provide for an economically viable, but ecologically sustainable, trawl fishery; and
- (e) ensure fair access to fisheries resources taken in the east coast trawl fishery, on a sustainable basis, among the following groups and persons in the groups—
 - (i) commercial fishers;
 - (ii) recreational fishers;
 - (iii) Aboriginal and Torres Strait Islander fishers;¹
 - (iv) other users of the fisheries resources.

Example of other users—

Divers who view or photograph fish, but do not take them.

5 How objectives are to be achieved—sch 2

- (1) Schedule 2 states how the objectives are to be achieved.
- (2) The achievement of each objective must be—
 - (a) measured only in the way stated in schedule 2; and
 - (b) reviewed by the chief executive under section 230² if a review event stated in schedule 2 for the objective happens.

1 For the right of Aborigines or Torres Strait Islanders to take fisheries resources, see section 14 (Aborigines' and Torres Strait Islanders' rights to take fisheries resources etc.) of the Act.

For the exercise or enjoyment of native title rights and interests in relation to land or waters under the *Native Title Act 1993* (Cwlth), see section 211 (Preservation of certain native title rights and interests) of that Act.

2 Section 230 (Consultation requirements)

 - (i) the ‘T1’ fishery symbol written on the subject licence; and
 - (ii) all effort units for the subject licence; and
 - (b) must refuse it if—
 - (i) the applicant has ever transferred effort units for the subject licence; or

- to latitude 27° south, longitude 153°30' east
- to latitude 27° south, longitude 153° east.

36 Steps after making decision

- (1) If an application for an ‘M1’ or ‘M2’ fishery symbol is granted, the chief executive must—
 - (a) write the symbol applied for on the licence; and
 - (b) if the application was for an ‘M2’ fishery symbol—remove the ‘T1’ fishery symbol from the licence the subject of the application.
- (2) If the chief executive decides to refuse the application, the chief executive must, as soon as practicable after making the

 - (c) the licence is a replacement licence; or
 - (d) the chief executive has approved a fishery symbol movement application and, under the application, the symbol is to be written on the licence.
- (2) However, the chief executive must not write a symbol as follows on a commercial fishing boat licence if it has the following written on it—

Division 1 Preliminary

51 Application and purpose of pt 4

This part—

- (a) applies if, under chapter 4, a TED must be used with a net used under a provision of that chapter; and
- (b) prescribes an additional condition to which the licence under which the net is used is subject.

52 Purpose of TED

The purpose of a TED is to allow turtles to escape immediately after being taken in the net.

Division 2 TED use condition**53 Requirement to achieve purpose**

- (1) The licence under which the net is used is subject to a condition (the *TED use condition*) that the use of the net must achieve the purpose of a TED.
- (2) The TED use condition also applies to anyone acting under the licence.

Division 3 Compliance with TED use condition**54 Compliance with TED use condition**

The TED use condition is taken to have been complied with if a device that complies with section 55 (a *recognised TED*) is used with the net.

55 Requirements for a recognised TED

- (1) A recognised TED must consist of a barrier and an opening that allows turtles to escape immediately after being taken in the net.

57B Obligation to nominate communication mode for boat

- (1) The holder of the licence must, by notice to the chief executive, nominate a mode by which the chief executive or an inspector may communicate with the person in control of the boat identified in the licence whenever the person is on the boat.
- (2) The mode—
 - (a) can not be by the use of VMS equipment; and
 - (b) must be able to be received on the boat instantaneously after the communication is sent by the chief executive or inspector.

Examples of ways that may be nominated—

- a radio on the boat, tuned to a stated radio frequency
 - the number for a facsimile, mobile phone, radiophone or satellite phone on the boat
- (3) More than 1 mode may be nominated.
 - (4) The holder of the licence may change the nominated mode by giving notice of a new nominated mode to the chief executive.

- (5) However, the new nominated mode must not be used until the chief executive has advised the holder of the licence that the notice of the change has been received by the chief executive.

57C Obligation to ensure communication with person in control

The holder of the licence and the person in control of the boat identified in the licence must take all reasonable steps to ensure the chief executive or an inspector is, whenever the person is on the boat, able to communicate with the person by using a nominated communication mode for the boat,

Example of all reasonable steps for section—

The only nominated communication mode for the boat is a radio on the boat, at a stated radio frequency. The holder and the person in control must, when the person is on the boat, ensure the radio is—

- (a) on the boat; and
- (b) in working condition; and
- (c) connected to an appropriate power source and turned on; and
- (d) tuned to the stated frequency; and
- (e) set at a volume that allows the person in control to receive communications from the chief executive or an inspector.

Part 5 VMS equipment and manual reporting conditions

Division 1 Preliminary

58 Purpose and application of pt 5

- (1) This part prescribes additional conditions to which an ‘M1’, ‘T1’ or ‘T2’ licence is subject.
- (2) If this part imposes an obligation on the person in control, it is a condition of the licence that the obligation must be complied with.

Division 2 VMS equipment obligations

59 Obligation to install and register VMS equipment

- (1) The holder of the licence must have an approved person install approved VMS equipment on the boat identified in the licence.
- (2) The equipment and the installer must be included in the particulars about the licence in the register of authorities the chief executive keeps under section 73 of the Act.

60 Obligation to maintain and use VMS equipment

- (1) The person in control of the boat identified in the licence must ensure VMS equipment installed on the boat is—
 - (a) maintained in a condition that allows it to perform the functions of VMS equipment; and
 - (b) used in a way that, at all times, allows the boat to be detected by VMS wherever the boat is located.
- (2) However, the obligations do not apply during a period if—
 - (a) the boat is not used for fishing during the period; and
 - (b) before the period started the chief executive received notice from the holder of the licence that the boat would not be used for fishing during the period because, during the whole of the period—
 - (i) no trawl net will be on board the boat; or
 - (ii) the boat will be in dry dock or on a slip; or
 - (iii) the boat will not be used in Queensland waters; or
 - (iv) the VMS equipment will be disconnected from its power source because of a stated maintenance reason.
- (3) However, if the notice is given because of a maintenance reason, the period can not be more than 6 hours.
- (4) The notice may be given to the chief executive by—
 - (a) telephone to a telecommunications service provider for the chief executive appointed by gazette notice; or

- (b) using VMS equipment in a way that ensures—
 - (i) the notice is given to, and received by, the chief executive instantaneously; and
 - (ii) the chief executive can readily access the information in the notice.
- (5) The holder or person in control may, during the period, by notice to the chief executive amend or withdraw a notice given under subsection (2)(b).
- (6) If the holder has given a notice under subsection (2)(b), the holder or person in control must not use the boat for fishing during the period unless the holder or person withdraws the notice.
- (7) If the person withdraws a notice given under subsection (2)(b), the person—
 - (a) may use the boat for fishing; and
 - (b) must comply with the requirements stated in subsection (1).

61 Obligation to modify or replace installed VMS if required

- (1) The chief executive may, by notice, require the holder of the licence to modify or replace VMS equipment installed on the boat identified in the licence.
- (2) The notice must—
 - (a) identify the holder, the licence and the boat; and
 - (b) state the required modification or replacement; and
 - (c) state a reasonable period of at least 3 months for the holder to comply with the notice; and
 - (d) be accompanied by, or include, an information notice about the decision to make the requirement.
- (3) The holder must, within the stated period, make the required modification or replacement.

Division 3 Obligations if VMS equipment malfunctions

Subdivision 1 Preliminary

62 Application and purpose of div 3

This division—

- (a) applies if VMS equipment installed on the boat identified in the licence malfunctions; and
- (b) imposes obligations on the person in control of the boat when the person becomes aware of the malfunction.

63 Meaning of *malfunction* for div 3

In this division, *malfunction*, for VMS equipment, means a failure to work at all and a failure to work in a way so as to perform the functions of VMS equipment.¹⁵

64 When person is taken to be aware of malfunction

- (1) A person in control is taken to be aware of the malfunction if the person receives notice from the chief executive or an inspector that the equipment is malfunctioning.
- (2) The notice may be given—
 - (a) orally in person; or
 - (b) by a nominated communication mode for the boat.

15 Under the schedule (Dictionary) of the Act—

VMS equipment means equipment used as part of a system that monitors the position and operation of a vessel.

Subdivision 2 Obligations

65 **Obligation to give notice of malfunction**

- (1) The person in control must immediately notify the chief executive of the malfunction, unless the person has a reasonable excuse.
- (2) The notice may be given to the chief executive by—
 - (a) telephone to a telecommunications service provider for the chief executive appointed by gazette notice; or
 - (b) using VMS equipment in a way that ensures—
 - (i) the notice is given to, and received by, the chief executive instantaneously; and
 - (ii) the chief executive can readily access the information in the notice.

66 **Manual reporting obligation**

- (1) The person in control must notify the boat's position and operation to the chief executive by radio, telephone or another form of instantaneous electronic communication at intervals that, in all the circumstances, reasonably acts as a substitute for VMS equipment.
- (2) The obligation under subsection (1) is called the *manual reporting obligation*.
- (3) The manual reporting obligation continues to apply to the person in control until the VMS maintenance and use obligations are complied with for the boat.
- (4) If notice is given about a boat under the manual reporting obligation the boat is *manually reported*.

67 **Further obligations for malfunction in major scallop area**

- (1) This section applies, as well as the manual reporting obligation, if the malfunction happened inside the area within the following boundary (the *major scallop area*)—

- from latitude 22°10.80' south, longitude 149°48' east to latitude 22°13.20' south, longitude 152° east
 - to latitude 24°13.80' south, longitude 153°33' east
 - to latitude 24°42' south, longitude 153°16.20' east
 - to latitude 25°06' south, longitude 153°12' east
 - to latitude 25°18' south, longitude 152°43.20' east
 - to latitude 22°10.80' south, longitude 149°48' east.
- (2) The person in control must—
- (a) stop the use of fishing apparatus from the boat; and
 - (b) immediately cause the boat to travel as soon as practicable to the defined port area nearest the boat, unless the person has a reasonable excuse.
- (3) If the person in control starts to comply with the VMS maintenance and use obligations for the boat, the obligations under subsection (2)—
- (a) continue to apply; but
 - (b) cease to apply if the chief executive or an inspector gives the person notice that the obligations need not be complied with.
- (4) Notice under subsection (3)(b) may be given—
- (a) orally in person; or
 - (b) by a nominated communication mode for the boat.
- (5) If the boat travels to a port, the person in control must not cause or allow the boat to be used for fishing unless an approved person gives the chief executive or an inspector notice that VMS equipment installed on the boat is in a condition that allows it to perform the functions of VMS equipment.

68 Further obligations for malfunction outside major scallop area

- (1) This section applies, as well as the manual reporting obligation, if the malfunction happened outside the major scallop area.

- (2) The person in control must cause the boat to travel to a defined port area within 5 days, unless the person has a reasonable excuse.
- (3) However, if the boat moves into the major scallop area, the person in control must—
 - (a) stop the use of fishing apparatus from the boat; and
 - (b) immediately cause the boat to travel as soon as practicable to the defined port area nearest the boat, unless the person has a reasonable excuse.
- (4) If the person in control starts to comply with the VMS maintenance and use obligations for the boat, the obligations under subsections (2) and (3)—
 - (a) cease to apply; but
 - (b) resume if the chief executive or an inspector gives the person notice that the obligations must be complied with.
- (5) Notice under subsection (4)(b) may be given—
 - (a) orally in person; or
 - (b) by a nominated communication mode for the boat.
- (6) If the boat travels to a port, the person in control must not cause or allow the boat to be used for fishing unless an approved person gives the chief executive or an inspector notice that VMS equipment installed on the boat is in a condition that allows it to perform the functions of VMS equipment.

Subdivision 3 Manual reporting guidelines

69 Chief executive may make guidelines

The chief executive may make guidelines (*manual reporting guidelines*) for compliance with the manual reporting obligation.

70 Compliance with manual reporting obligation

A person to whom the manual obligation applies is taken to have complied with the obligation if, to the extent they are relevant, the manual reporting guidelines are complied with.

Division 4 Notice guidelines**71 Chief executive may make guidelines**

The chief executive may make guidelines (*notice guidelines*) about how to give a notice to the chief executive under this part.

72 Compliance with notice guidelines

A person is taken to have given a notice under this part if, to the extent they are relevant, the notice guidelines are complied with.

Part 6 Effort units**Division 1 Introduction****73 Simplified outline of pt 6**

- (1) This part provides for the issue of effort units, their entitlement and for conditions for their transfer.
- (2) Effort units must be issued as follows for each licence that is, or is a replacement or renewal of, a 'T1' or 'T2' licence in force at midday on 15 December 2000 (an *eligible licence*)—
 - (a) under division 3, by an issue on or before 1 January 2001, based on allocated days;
 - (b) under division 4, by an issue on or before 1 August 2001, based on supplementary days decided under that

division.¹⁶

- (3) Under divisions 3 and 4, the total of all allocated and supplementary days can not be more than 102929.
- (4) Division 5 allows the chief executive to make a rateable issue of additional effort units for 'T1' or 'T2' fishery symbols if the total mentioned in subsection (3) is not exceeded.
- (5) Divisions 6 and 7 provide for the entitlement of effort units and for working out when they are used.
- (6) Divisions 8 and 9 prescribe conditions for the transfer of effort units and provide for the entitlement under transferred effort units.

Division 2 General provisions about effort units

74 Nature of an effort unit

Each effort unit is—

- (a) an authority, the entitlement for which is provided for under division 6; and
- (b) a quota for the east coast trawl fishery.

75 General condition for issue of effort units

An effort unit may be issued only under this part.

76 When effort unit is *issued*

An effort unit is *issued* when—

- (a) an effort unit certificate that includes the unit is issued; or
- (b) an effort unit certificate is amended or replaced under this part to include the unit.

¹⁶ See section 81(2) and (3) (Making allocation decision).

Division 3 Initial effort units

Subdivision 1 General provisions

77 Obligation to issue

On or before 1 January 2001 the chief executive must—

- (a) work out, under this division, the number of effort units that must be issued for each eligible licence; and
- (b) issue an effort unit certificate for the units for the first effort year.

78 Effort unit formula

- (1) To work out the number of effort units that must be issued for each eligible licence under this division, the chief executive must apply the following formula—

$$\mathbf{EU = EUCF \times AD}$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

AD means the number of allocated days for the eligible licence.

- (2) If after applying the formula the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded up.

Subdivision 2 Allocated days

79 Purpose of sdiv 2

This subdivision provides for how the chief executive must decide the number of allocated days for each eligible licence (the *allocation decision*).

80 Deciding recorded fishing days

- (1) The chief executive must decide the higher of the following number of days for each eligible licence for each year from 1988 to 1998—
 - (a) the number of days on which a boat as follows (a *relevant boat*) was used, other than under a surrendered former licence—
 - (i) a boat identified in the eligible licence;
 - (ii) a boat identified in a former licence for the eligible licence;
 - (b) if a relevant boat was, in the year, used under a surrendered former licence—an adjusted number of days on which a relevant boat was used in the year under the surrendered former licence worked out by applying the following formula—

$$AD = \frac{(FD \times EUCF 1)}{EUCF 2}$$

where—

AD means the adjusted number of recorded fishing days worked out by applying the formula.

FD means the number of days on which relevant boats were used in the year under the surrendered former licence.

EUCF 1 means the effort unit conversion factor for the boat identified in the surrendered former licence.

EUCF 2 means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or

- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.
- (2) The higher number of days for a year decided under subsection (1) is called the **recorded fishing days** for the year.
- (3) In making the decision, the chief executive must consider—
- (a) any relevant logbook returns given before 1 May 1999; and
- (b) records held by the chief executive about the returns.
- (4) In this section—

day, for the use of a relevant boat, means any period 24 hours from when the use started, whether or not the period is included in more than 1 of the 7 named days of the week.

Example—

A relevant boat is used from 7p.m. on a Sunday to 6a.m. on the following Monday and again on the Monday from 5p.m. to 6p.m. For this section, the boat is only used for 1 day.

use, a relevant boat, means use a trawl net from the boat under a 'T1' or 'T2' licence.

81 Making allocation decision

- (1) This section provides for formulae to make the allocation decision, after deciding recorded fishing days.
- (2) For a 'T1' licence, the formula is—

$$AD = \frac{(\text{HRD}_1 + \text{HRD}_2 + \text{HRD}_3 + \text{HRD}_4)/4}{(\Sigma \text{HRD}_1 + \Sigma \text{HRD}_2 + \Sigma \text{HRD}_3 + \Sigma \text{HRD}_4)/4} \times 94080$$

- (3) For a 'T2' licence, the formula is—

$$AD = \frac{(\text{HRD}_1 + \text{HRD}_2 + \text{HRD}_3 + \text{HRD}_4)/4}{(\Sigma \text{HRD}_1 + \Sigma \text{HRD}_2 + \Sigma \text{HRD}_3 + \Sigma \text{HRD}_4)/4} \times 1920$$

- (4) In the formulae—

AD means the number of allocated days.

HRD₁ means the highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₂ means the second highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₃ means the third highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₄ means the fourth highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

ΣHRD₁ means the sum of the highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD₂ means the sum of the second highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD₃ means the sum of the third highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD₄ means the sum of the fourth highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

Subdivision 3 Provisions for giving effect to appeal decisions

81A Application of sdiv 3

This subdivision applies if the following events happen—

- (a) an eligible licence holder appeals to the tribunal against the allocation decision for the licence;
- (b) recorded fishing days for 1 or more years used to make the allocation decision are, or must be, changed because the tribunal decides to set aside that decision and—
 - (i) substitute another decision; or
 - (ii) return the matter to the chief executive with

directions;

- (c) the substituted decision, or a decision by the chief executive made under the directions, (the *new recorded fishing days decision*) will require the reapplication of the formula under section 81 (the *allocation decision formula*) to remake the allocation decision;
- (d) the total fishing days for all eligible licences are less than 102929.

81B Effect of new recorded fishing days decision

Subject to any decision or direction by the tribunal, the making of the new recorded fishing days decision does not—

- (a) require the reapplication of the allocation decision formula for an eligible licence holder other than the appellant; or
- (b) invalidate or otherwise affect effort units issued to another eligible licence holder.

81C Adjustment to allocation decision formula

- (1) The chief executive may, instead of reapplying section 81, remake the allocation decision by reapplying the allocation decision formula using—
 - (a) the same denominators that were used for the allocation decision appealed against; and
 - (b) the numerators used for the decision, as changed by the new recorded fishing days decision.
- (2) If, under subsection (1), the chief executive remakes the decision, the chief executive must—
 - (a) work out whether any further effort units must be issued to the appellant by applying the effort unit formula under section 78, using the allocated days worked out by reapplying the allocation decision formula under subsection (1); and
 - (b) issue the further effort units; and

- (c) take steps to amend the relevant effort unit certificate to include the further effort units and the fishing days for which they were issued.

Division 4 Further effort units issued on basis of supplementary days

Subdivision 1 Preliminary

82 Purpose of div 4

The purpose of this division is to allow further effort units to be issued to eligible persons to attempt to remedy hardship or disadvantage because of the allocation decision.

83 Meaning of *small operator* for div 4

For this division, a *small operator* means an eligible person who—

- (a) holds only 1 ‘T1’ or ‘T2’ licence; and
- (b) owns the boat identified in the licence; and
- (c) is a person as follows—
 - (i) the person who usually is the person in control of the boat when it is used for trawling (the *usual person in control*);
 - (ii) a close relative of the usual person in control;
 - (iii) a corporation, a director or shareholder of which is, or is a close relative of, the usual person in control; and
- (d) in the 2 financial years immediately before the application was made, derived at least 80% of the person’s gross income from fishing under the licence by trawling; and
- (e) received less than 123 allocated days.

Subdivision 2 Applications for effort units

84 Requirements for application

- (1) An eligible person may, on or before 31 March 2001, apply to the chief executive to be issued with further effort units for the person's eligible licence (an *effort unit application*).
- (2) The application must—
 - (a) be made to the chief executive, in the approved form; and
 - (b) include, or be accompanied by, all documents or information on which the applicant relies to support the application.

85 Deciding application

Subject to sections 88 and 89A, the chief executive must decide each effort unit application on or before 1 August 2001.

86 Grounds for issuing effort units

- (1) The chief executive may, under subdivision 3, work out a number of effort units to be issued to an effort unit applicant if the applicant has reasonably satisfied the chief executive that the applicant is a small operator.
- (2) The chief executive may, under subdivision 4, work out a number of effort units to be issued to an effort unit applicant if the applicant has reasonably satisfied the chief executive that the applicant is not a small operator and that—
 - (a) logbook returns show that from 1988 to 1998 a trawl net was used from a boat identified in a licence as follows (a *relevant licence*) on a day other than a recorded fishing day—
 - (i) the eligible licence the subject of the application;
 - (ii) a former licence or surrendered former licence for the eligible licence; or
 - (b) because of an exceptional circumstance mentioned in

- subsection (4), the 4 highest years used, under section 81, to make the allocation decision for the applicant do not reflect the applicant's representative level of participation in the east coast trawl fishery.
- (3) However, if an applicant is issued effort units worked out under subdivision 3, the chief executive must not issue the applicant effort units worked out under subdivision 4.
- (4) For subsection (2)(b), the exceptional circumstances are each of the following—
- (a) the applicant first acquired, or obtained an approval from a former fisheries agency for, a relevant licence between 1 January 1995 and 13 November 1998;
 - (b) the applicant acquired the eligible licence the subject of the application after 13 November 1998 and, when it was acquired, the applicant—
 - (i) had no actual or constructive knowledge of the Queensland Fisheries Management Authority media release called 'Investment Advice for Queensland East Coast Trawl Fishery', published on 13 November 1998; or
 - (ii) did not understand the nature or significance of the media release, after having taken all reasonable steps in the circumstances to understand it;
 - (c) the applicant did not hold a relevant licence for the whole of the period from 1988 to 1998 and during the period that the applicant held a relevant licence—
 - (i) the applicant or a close relative of the applicant suffered illness or injury; or
 - (ii) the boat identified in the licence could not be used for trawling.

88 Priority of deciding effort unit applications

In deciding effort unit applications, the chief executive must, as much as practicable, give priority to applicants who—

- (a) claim to be small operators; or
- (b) hold the fewest effort units.

89 Steps after making decision

- (1) If effort units are worked out for an effort unit applicant under subdivision 3 or 4, the chief executive must, as soon as practicable, take steps to amend the applicant's effort unit certificate to include the effort units and the fishing days for which they were issued.
- (2) The effort units take effect when the amendment is made.

Subdivision 3 Further effort units for small operators**89A Restriction on granting application by small operator**

The chief executive must refuse an effort unit application if—

- (a) the chief executive is satisfied the applicant is a small operator; and
- (b) the total of supplementary days already worked out for small operators exceeds 5000.

90 Effort unit formula

- (1) This section provides for how the chief executive must decide the number of effort units if the chief executive is satisfied the applicant is a small operator.
- (2) To work out the number of effort units, the chief executive must apply the following formula—

$$\mathbf{EU = EUCF \times SD}$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

SD means the number of supplementary days for the eligible licence, worked out under section 91.

91 Working out supplementary days

- (1) For section 90(2), the supplementary days are worked out by applying the following formula—

$$SD = \frac{HD_1 + HD_2 + HD_3 + HD_4}{4} - AD$$

- (2) In the formula—

SD means the number of supplementary days.

HD₁ means the highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₂ means the second highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₃ means the third highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₄ means the fourth highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

AD means the number of allocated days for the eligible licence.

- (3) If the total of the supplementary days worked out by applying the formula and all other supplementary days already out worked under this section for small operators would, other than this subsection, exceed 5000, the number of supplementary days for the eligible licence is the difference between 5000 and the other supplementary days.

- (4) In this section—

logbook days, for a year, means the days, other than recorded fishing days, shown in logbook returns on which a trawl net was used from a boat identified in—

- (a) the eligible licence; or

- (b) a former licence or surrendered former licence for the eligible licence.

Subdivision 4 Further effort units on other grounds

92 Effort unit formula

- (1) This section provides for how the chief executive must decide the number of effort units other than on the ground that the applicant is a small operator.
- (2) To work out the number of effort units, the chief executive must apply the following formula—

$$EU = EUCF \times SD$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

SD means the number of supplementary days for the eligible licence, worked out under section 93.

93 Working out supplementary days

- (1) This section provides for formulae to work out the number of supplementary days for section 92(2).
- (2) For a 'T1' licence, the formula is—

$$SD = \left(\frac{(HD_1 + HD_2 + HD_3 + HD_4)/4}{(\sum HD_1 + \sum HD_2 + \sum HD_3 + \sum HD_4)/4} \times 94080 \right) - AD$$

- (3) For a 'T2' licence, the formula is—

$$SD = \left(\frac{(HD_1 + HD_2 + HD_3 + HD_4)/4}{(\Sigma HD_1 + \Sigma HD_2 + \Sigma HD_3 + \Sigma HD_4)/4} \times 1920 \right) - AD$$

- (4) In the formulae—

AD means the number of allocated days for the eligible licence.

SD means the number of supplementary days.

HD₁ means the highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₂ means the second highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₃ means the third highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₄ means the fourth highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

ΣHRD_1 means the sum of the highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_2 means the sum of the second highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_3 means the sum of the third highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_4 means the sum of the fourth highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

- (5) For subsection (4), the extra days for a year are—

- (a) all days for the year shown in logbook returns under section 86(2)(a);¹⁷ and
 - (b) a number of other days the chief executive decides that best achieves the purpose of this part.
- (6) For subsection (5)(b), the chief executive must not decide a number that places the applicant in a position as if the applicant had more than an average annual participation in the east coast trawl fishery.

Division 5 Additional effort units

94 Interim issue of additional effort units for all eligible licences

- (1) This section applies if, on the day this section commences—
 - (a) the total fishing days for all effort units are less than 102929; and
 - (b) all appeals against decisions about effort unit applications are not ended or finally decided.
- (2) The chief executive must, not later than 30 June 2004, issue further additional effort units for each eligible licence to the holder.
- (3) The number of effort units that must be issued for an eligible licence is the number worked out by applying the following formula—

$$\mathbf{EU} = \mathbf{EUCF} \times \left(\frac{\mathbf{RD}}{\mathbf{TEL}} \right)$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat

¹⁷ Section 86 (Grounds for issuing effort units)

last identified in the licence.

RD means 102343, less the total number of fishing days for all effort units when each of the effort units were issued.

TEL means the total number of eligible licences.

- (4) If, after applying the formula, the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded down.

95 Further issue of additional effort units for all eligible licences

- (1) This section applies if, after all additional effort units have been issued under section 94, the total fishing days for all effort units is still less than 102929.
- (2) The chief executive may issue further additional effort units to each eligible licence holder.
- (3) However, the chief executive must not issue the additional units before—
- (a) the end of the period to appeal against all decisions about effort unit applications (*effort unit appeals*); and
 - (b) all effort unit appeals are ended or finally decided; and
 - (c) if, in deciding an effort unit appeal, the tribunal gave the chief executive directions—the directions have been complied with.
- (4) The number of effort units that must be issued is worked out by applying the following formula—

where—

$$EU = EUCF \times \left(\frac{RD}{TEL} \right)$$

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat

last identified in the licence.

RD means 102929, less the total number of fishing days for all effort units when each of the effort units were issued.

TEL means the total number of eligible licences.

- (5) If after applying the formula the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded down.

96 Issue of effort units

- (1) As soon as practicable after working out, under section 94 or 95, the number of effort units to be issued, the chief executive must take steps to amend the relevant effort unit certificates to include the effort units and the days for which they were issued.
- (2) The effort units take effect when the amendment is made.

Division 5A Limit on effort units

96A Application of div 5A

This division applies if after all effort unit applications have been decided, the total allocated and supplementary days for all eligible licences, would, other than for this division, be more than 102929.

96B Automatic rateable effort unit cancellations

- (1) The number of effort units for each eligible licence is, by cancellation, reduced by applying the following formula—

$$\mathbf{REU} = \mathbf{EU} \times (\mathbf{EFD} / \mathbf{TFD})$$

where—

REU means the number of effort units for the licence by which the total number of effort units for the licence must be reduced, worked out by applying the formula.

EU means the existing number of effort units for the eligible licence.

EFD means the number of fishing days that, other than for this section, would have exceeded 102929.

TFD means the total number of fishing days for all effort units.

- (2) If after applying the formula, the number of effort units to be cancelled for the licence is not a whole number, the number of effort units that must be cancelled is the nearest whole number, rounded up.

96C Notice and taking of effect of cancellation

- (1) The chief executive must, as soon as practicable after the cancellation of effort units and reduction of fishing days under section 96B, give each eligible licence holder a replacement effort unit certificate that reflects the cancellation and reduction.
- (2) The cancellation for the holder takes effect when the holder is given the replacement effort unit certificate.

Division 6 Effort unit entitlement and use

97 Meaning of *entitlement* of effort unit holder

- (1) The effort units held by a person authorise the person, in an effort year, to—
- (a) if the effort units are effort units that can be used in conjunction with ‘T1’ licences (***T1 effort units***)—
- (i) use, or allow someone else to use, the boat identified in any ‘T1’ licence also held by the person until the effort units have been used; and
- (ii) use, or allow someone else to use, each of the boats for 4 additional days (each a ***steaming day***); or
- (b) if the effort units are effort units that can be used in conjunction with ‘T2’ licences (***T2 effort units***)—
- (i) use the boat identified in any ‘T2’ licence also held

- by the person until the effort units have been used;
and
- (ii) use each of the boats for 4 additional days (each also a *steaming day*).
- (2) However, the entitlement applies only while—
- (a) for T1 effort units—the person also holds a ‘T1’ licence that is in force; and
- (b) for T2 effort units—the person also holds a ‘T2’ licence that is in force.
- (3) The authorisation under this section is subject to division 9.¹⁸
- (4) The authorisation under this section for an effort year is the person’s *entitlement* under the person’s effort units for the year.
- (5) The entitlement is subject to any relevant prohibitions or restrictions under the regulation, this plan or a condition or other provision of the effort units, ‘T1’ licences or ‘T2’ licences.

Examples of relevant restrictions—

the restrictions under section 44(1) to (4)¹⁹ of the regulation

98 When effort units are *used* for an effort year

- (1) This section provides for when effort units held by a person are *used* for an effort year.
- (2) Effort units are not used until the holder of the effort units, or anyone else allowed by the holder, has, under section 99, used a boat identified in a ‘T1’ licence or ‘T2’ licence on a fishing day for effort units.
- (3) The number of effort units used on the fishing day is worked out by applying the following formula—

$$\mathbf{EU = 1 \div EU CF}$$

where—

18 Division 9 (Entitlement of transferee under transferred effort units)

19 Section 44 (Things authorised by fishery symbol) of the regulation

EU means the number of effort units used.

I means the fishing day.

EUCF means the effort unit conversion factor for the boat used.

99 Provisions for working out use of entitlement

- (1) This section provides for rules to work out whether a boat has been used on a fishing or steaming day to decide whether the entitlement of an effort unit holder has been used.
- (2) The period of each fishing and steaming day for the effort units is from midday to midday.
- (3) However, if the holder has given the chief executive notice of 24 hours or more that the period of the days is to be—
 - (a) from midnight to midnight—the period is from midnight to midnight; or
 - (b) from 6p.m. to 6p.m.—the period from 6p.m. to 6p.m.
- (4) Subsection (3)(b) applies only if the eligible licence is also an ‘M1’ licence.
- (5) If the holder uses the boat in any part of a fishing or steaming day, the holder is taken to have used the boat for the whole of the day.
- (6) Despite subsections (3) to (5)—
 - (a) the use of the boat for the whole or part of the first 12 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—
 - (i) under subsection (3)(a), the period of the fishing or steaming day is from midnight to midnight; and
 - (ii) the boat has, in the preceding 12 hours, been used under a fishery symbol; and
 - (b) the use of the boat for the whole or part of the first 6 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—

- (i) under subsection (3)(b), the period of the fishing or steaming day is from 6p.m. to 6p.m; and
 - (ii) the boat has, in the preceding 18 hours, been used under a fishery symbol.
- (7) The boat is taken to have been used on fishing days for effort units before it is used on steaming days.
- (8) In this section—
notice includes a notice given by facsimile, radio or telephone.

100 No carrying forward of unused entitlement

- (1) This section applies if, in an effort year, an effort unit holder fishes on fewer days than the total entitlements under the effort units held by the holder.
- (2) The holder is taken, at the end of the effort year, to have used all the entitlements under the effort units held by the holder for the year.

101 Effort unit certificates

- (1) The chief executive must issue a certificate to each person who holds effort units.
- (2) The certificate must state the following—
 - (a) the holder's name;
 - (b) if the holder has 'T1' effort units—how many of them the holder has;
 - (c) if the holder has 'T2' effort units—how many of them the holder has;
 - (d) if the chief executive has imposed conditions on the effort units—the conditions.

101A Evidentiary provision for effort unit certificate

An effort unit certificate is evidence of—

- (a) the number of effort units held when the certificate was issued under section 101, replaced under section 96C of

this plan or under section 71 of the Act or changed or replaced under section 115; and

- (b) the conditions, if any, imposed on the effort units.

Division 7 Evidentiary aids for use of entitlement

Subdivision 1 Evidentiary aids for when a fishing or steaming day is used

102 VMS detection or manual reporting

- (1) This section applies if the boat identified in a 'T1' licence or 'T2' licence is detected by VMS or manually reported at any time during a day (the *relevant day*) within the following area—
 - (a) for a boat identified in a 'T1' licence—
 - (i) generally—the 'T1' area; and
 - (ii) if the licence also has an 'M1' fishery symbol written on it—the 'M1' and 'M2' area;
 - (b) for a boat identified in a 'T2' licence—the 'T2' area.
- (2) The detection or manual report is evidence that the holder of the licence has used the boat for a whole fishing day or steaming day for—
 - (a) if the licence is a 'T1' licence—'T1' effort units; or
 - (b) if the licence is a 'T2' licence—'T2' effort units.
- (3) However, subsection (2) does not apply if—
 - (a) an exception for this section stated in subdivision 2 applies for the relevant day; or
 - (b) the holder satisfies the chief executive the boat was not used on the relevant day.

102A Absence of VMS detection or reporting

- (1) This section applies if at any time during a day (the *relevant time*)—
 - (a) the VMS maintenance and use obligations applied to a person in control of a boat identified in a ‘T1’ or ‘T2’ licence; and
 - (b) the boat is not detected by VMS anywhere; and
 - (c) at that time the manual reporting obligation—
 - (i) applied to the person in control of the boat; and
 - (ii) was not being complied with for the boat.
- (2) The absence of the detection is evidence that the boat was used for a whole fishing or steaming day for—
 - (a) if the licence is a ‘T1’ licence—‘T1’ effort units; or
 - (b) if the licence is a ‘T2’ licence—‘T2’ effort units.
- (3) However, subsection (2) does not apply if the holder of the effort units satisfies the chief executive that the boat was not being used at the relevant time.

102B Particular notice is evidence of unused entitlement

- (1) This section applies if an effort unit holder has obtained a written notice from the chief executive stating the amount of unused entitlement under the holder’s effort units for a stated effort year on a stated date.
- (2) The notice is evidence of the amount of unused entitlement under the effort units for the stated effort year on the stated date.

Subdivision 2 Exceptions**103 Exception—movement only at travelling speed**

- (1) It is an exception for section 102 if, during the whole of the day, the boat is detected by VMS or manually reported as—
 - (a) not having moved; or

- (b) having moved at a speed of no less than 5 knots.
- (2) For subsection (1)(b), if a boat is detected by VMS or manually reported as having moved continuously during a period, the first or last time the boat is detected or manually reported during the period must be disregarded if, at the time, the boat is detected or manually reported as moving at a speed of less than 5 knots.
- (3) This section does not limit sections 105 and 106.

104 Exception—minimum boat movement

- (1) It is an exception for section 102 if, during the whole of the day, the boat is detected by VMS or manually reported as—
 - (a) not having moved; or
 - (b) having moved no more than the following distance from where the boat was first detected on the day—
 - (i) if the boat is detected or manually reported as being in the deep water net area during any part of the day—1000m;
 - (ii) otherwise—250m.
- (2) This section does not limit sections 105 and 106.

105 Exception—moving boat without fishing

- (1) It is an exception for section 102 if—
 - (a) the boat is detected by VMS or manually reported as having moved during a day; and
 - (b) the conditions mentioned in subsection (2) have been complied with.
- (2) For subsection (1)(b), the conditions are as follows—
 - (a) the movement is, or is part of, any of the following journeys—
 - (i) from a defined port area to another defined port area;
 - (ii) a defined port area to a place outside the east coast trawl fishery;

Fisheries (East Coast Trawl) Management Plan 1999

 - (c) if any fish taken outside the east coast trawl fishery are on board the boat—the holder or person in control of the boat gave the chief executive notice of the number or weight of each species of permitted fish before the fish were brought into the area;
 - (d) the journey complies, or substantially complies, with the journey stated in the notice;
 - (e) during the whole of the journey—
 - (i) no fish taken by the use of a trawl net in the east coast trawl fishery are on board the boat; and
 - (ii) the VMS maintenance and use obligations or the manual reporting obligation are complied with for the boat; and
 - (iii) all trawl nets on board the boat are stored inboard the boat and are not suspended from a mast or boom.
- (3) However, the trawl nets may be suspended from a mast or boom if the journey is from a defined port area to the nearest northerly or southerly defined port area.
- (4) The holder or person in control may, during the journey, by

notice to the chief executive (*amendment notice*), amend a detail given under subsection (2)(b)(iii), (iv) or (v).

- (5) From the giving of the amendment notice, the condition mentioned in subsection (2)(d) is complied with if the rest of the journey complies, or substantially complies with, the notice given under subsection (2)(b), as amended under the amendment notice.

105A Exception—moving boat to test fishing apparatus

- (1) It is an exception for section 102 if—
- (a) the boat is detected by VMS or manually reported as having moved during a day; and
 - (b) the conditions mentioned in subsection (2) have been complied with.
- (2) For subsection (1), the conditions are as follows—

 - (ii) the place it will start;
 - (iii) the destination;
 - (iv) the estimated date and time of arrival at the destination;
 - (v) the reason for the journey;
 - (c) the journey complies, or substantially complies, with the journey stated in the notice;
 - (d) the destination for the journey is no more than 1n mile from where the journey started;
 - (e) during the whole of the journey—
 - (i) no fish are taken by the use of a trawl net in the east coast trawl fishery; and
 - (ii) the cod ends of each trawl net on or attached to the

boat are open; and

- (iii) the VMS maintenance and use obligations or the manual reporting obligation are complied with for the boat.

106 Exception—acting exclusively under authority other than a ‘M1’, ‘T1’ or ‘T2’ fishery symbol

- (1) It is an exception for section 102 if—
 - (a) the boat is detected by VMS or manually reported as having moved during a day; and
 - (b) the conditions mentioned in subsection (2) have been complied with.
- (2) For subsection (1)(b), the conditions are as follows—
 - (a) the movement is, or is part of, a trip that started from a defined port area;
 - (b) the holder or person in control of the boat gave the chief executive notice of the following about the trip before it started—
 - (i) the date and time it will start;
 - (ii) where it will start;
 - (iii) the proposed destination;

 - (vi) the activities for which the boat will be used during the trip;
 - (vii) the date and time the use of the boat under the fishery symbol or other authority will stop;
 - (c) the trip complies, or substantially complies, with the trip stated in the notice;
 - (d) during the whole of the trip—
 - (i) the VMS maintenance and use obligations or the

- manual reporting obligations are complied with for the boat; and
- (ii) if the boat is being used under an authority that does not permit the use of trawl nets to take fish in the east coast trawl fishery—there are no trawl nets, or fish taken by the use of a trawl net in the east coast trawl fishery, on board the boat.
- (3) The holder or person in control may, during the trip, by notice to the chief executive (*amendment notice*), amend a detail given under subsection (2)(b)(iii) to (vi).
- (4) From the giving of the amendment notice, the condition mentioned in subsection (2)(c) is complied with if the rest of the trip complies, or substantially complies, with the notice given under subsection (2)(b), as amended under the amendment notice.

107 Exception—VMS detection in certain closed waters

It is an exception for section 102 if the detection by VMS or manually reporting is within 1 or more of closed waters under the following—

Division 8 When effort units may or may not be transferred

111 Purpose of div 8

This division states, for section 65(1)²⁰ of the Act, the circumstances in which effort units may or may not be transferred.

112 Only whole effort units may be transferred

A part of an effort unit can not be transferred.

113 Eligibility of transferee

- (1) A 'T1' effort unit may be transferred only by a holder of the effort unit to a 'T1' licence holder, other than the transferor.
- (2) Subject to section 114, a 'T2' effort unit may be transferred only by a holder of the effort unit to a 'T2' licence holder, other than the transferor.

114 Transfer of half of the effort units of 'T2' licence to 'T1' licence

Half of the effort units for a 'T2' licence may be transferred to a 'T1' licence only if the 'T2' licence holder gives the chief executive notice that the 'T2' licence holder surrenders—

- (a) the 'T2' licence; and
- (b) the other half of the 'T2' licence holder's effort units for the 'T2' licence.

20 Section 65 (Transfer of authority (other than permit)) of the Act

Division 8A Applications to register transfer of effort units

115 Effort certificate changes required

If, under section 65B²¹ of the Act, an application to transfer an effort unit is registered, the chief executive must give effect to the transfer by changing, cancelling or replacing the transferor's and transferee's current effort unit certificates.

Division 9 Entitlement of transferee under transferred effort units

119 Entitlement

- (1) The entitlement of the transferee under transferred effort units is the unused entitlement of the transferor under the units immediately before the chief executive registers the transfer under section 65B of the Act.
- (2) However, the transferred entitlement only includes an entitlement of the transferor to use a boat on a steaming day if the transferor's former licence to which the effort units related was also transferred to the transferee.
- (3) Subsection (2) does not affect the transferee's entitlement to use a boat on a steaming day under other effort units.

Part 3
**Ensuring the sustainability of
the east coast trawl fishery's
ecological systems****9 Definition for pt 3**

In this part—

objective means the objective of ensuring the sustainability of the east coast trawl fishery's ecological systems.

10 How objective is to be achieved

The objective is to be achieved by—

- (a) the closed waters declarations under this plan; and
- (b) limiting, under chapters 3 and 4, the commercial fishing apparatus that may be used under this plan; and
- (c) the requirements under this plan for using a BRD or TED.

11 How achievement is to be measured

Achievement of the objective may be measured only by surveys or studies, accepted by the chief executive, of commercial fishing for principal fish by trawling in the east coast trawl fishery.

12 Review events

- (1) Each of the following is a review event for the achievement of the objective—
 - (a) a scientific study, showing levels accepted by the chief executive, shows the amount for any of the following is not, by 1 January 2005, reduced by the following percentage compared with an amount reported in a scientific study showing the levels before the notification day—

Schedule 2, part 3—Sustainability of ecological systems
(continued)

- (i) benthos—25%;
 - (ii) the amount of fish taken other than principal fish—40%;
 - (b) more than 5% of boats in the east coast trawl fishery in 2000 or a subsequent year are used to commit an offence under this plan;
 - (c) turtle capture or mortality for any of the following species is in any year more than 5% of the average level of turtle capture or mortality for the species in the Robins report—
 - (i) flatback turtle;
 - (ii) green turtle;
 - (iii) hawksbill turtle;
 - (iv) leatherback turtle;
 - (v) loggerhead turtle;
 - (vi) olive ridley turtle;
 - (d) the chief executive receives a logbook return for the east coast trawl fishery that shows trawling has happened in an area represented on a grid stated in the logbook where trawling has not previously been recorded in a logbook return;
 - (e) the chief executive accepts a scientific study or survey that shows the level of winter whiting by-catch between 1 April and 1 June has not significantly declined in the area mentioned in schedule 3, section 72(1),³⁸ before 2003.
- (2) In this section—

Part 4 **Providing an economically viable, but ecologically sustainable, trawl fishery**

13 **Definition for pt 4**

In this part—

objective means the objective of providing an economically viable, but ecologically sustainable, trawl fishery.

14 **How objective is to be achieved**

The objective is to be achieved by—

- (a) providing commercial fishers with fair access to permitted fish in the east coast trawl fishery; and
- (b) minimising restrictions, on a sustainable basis, on trawling; and
- (c) the provisions of this plan about effort units.

15 **How achievement is to be measured**

Achievement of the objective may be measured only by—

- (a) studies or surveys accepted by the chief executive on economic aspects of the east coast trawl fishery; and
- (b) how many effort units are surrendered under sections 117, 118 and 132(2).

³⁹ The Robins report can be inspected during business hours at the department's office at 80 Ann Street, Brisbane.

Schedule 2, part 4—Economically viable, but ecologically sustainable etc. (continued)

16 Review events

Each of the following is a review event for the achievement of the objective—

- (a) the chief executive's acceptance of an economic study of the east coast trawl fishery that shows a significant decline in the fishery's economic efficiency;
- (b) the number of effort units decreases by—
 - (i) 4% or more in each of 3 consecutive effort years;
or
 - (ii) 5% or more in each of 2 consecutive effort years;
or
 - (iii) 6% or more in an effort year after the second effort year;
- (c) the chief executive's acceptance of a study that shows effort units consistently can not be obtained by transfer;
- (d) the chief executive accepts a study or survey that shows a total of more than 15000 fishing days under 'M1' and 'M2' licences in a year.

**Part 5 Ensuring fair access to
fisheries resources on a
sustainable basis**

17 Definition for pt 5

In this part—

objective means the objective of ensuring fair access to fisheries resources taken in the east coast trawl fishery, on a sustainable basis, among the following groups and persons in the groups—

19 How achievement is to be measured

Achievement of the objective may be measured only by—

- (a) surveys, accepted by the chief executive, of fishing for fisheries resources taken in the east coast trawl fishery by commercial and recreational fishers and Aborigines and Torres Strait Islanders; and
- (b) commercial fishing catch and effort data for the east coast trawl fishery received by the chief executive.

20 Review events

It is a review event for the achievement of the objective if—

- (a) a survey mentioned in section 19(a) shows a significant decline in the catch of principal fish; or
- (b) data mentioned in section 19(b) shows a significant decline in the commercial catch of principal fish.

Division 3 Miscellaneous**10A Working out percentage of saucer scallops of relevant size**

- (1) This section states the way the percentage of saucer scallops of a relevant size, for a period mentioned in section 29 or 224, must be worked out.⁵³
- (2) The percentage must be worked out by—
 - (a) counting all of the saucer scallops of the relevant size and expressing the number of saucer scallops of the relevant size as a percentage of the total number of saucer scallops taken or possessed; or
 - (b) statistical sampling and testing as follows—
 - (i) collecting information (the *sample data*) about the total number of saucer scallops taken or possessed by taking a random sample of the saucer scallops and counting the number of saucer scallops of the relevant size;
 - (ii) using the sample data and a statistical method to estimate, based on a probability of 95%, the percentage of the total number of saucer scallops taken or possessed that are of the relevant size.
- (3) For subsection (2)(b), a saucer scallop that is not whole, including, for example, a saucer scallop that is cut, dismembered, shelled or shucked, must not be counted or included in a sample.
- (4) In this section—
relevant size, for a period mentioned in section 29 or 224, means the size, expressed as being less than a stated size, stated in the section for the period.

34 Working out *hull units* for a boat

The *hull units*, for a boat, must be worked out by using the following formula and rounding the amount worked out to the nearest whole number—

$$HU = \frac{L \times B \times D \times 0.6}{2.83}$$

where—

HU means the number of hull units for the boat;

L means the length of the boat;

- (b) if the boat does not have a metal shell—the outer surfaces of its hull, excluding sponsons, fenders and rubbing strips.

36 Meaning of *depth* of a boat

(1) The ***depth***, of the boat, means the vertical distance, measured in metres, from its keel datum to—
