Spelling

The spelling of certain words or phrases may be inconsistent in this reprint due to changes made in various editions of the Macquarie Dictionary. Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

23 Sit-out applications

- (1) The holder of a licence that has the fishery symbol 'M1', 'T1' or 'T2' written on it may apply for a decision by the chief executive that the boat identified in the licence was not, or was not up to the time the decision is made, used for trawling during a first regulated period under division 1 or 2.
- (2) The application must be in writing and supported by enough information to enable the chief executive to decide the application.
- (3) The chief executive may, by notice, require the applicant to give the chief executive a stated document or information that is relevant to the application.
- (4) The chief executive must consider and either grant or refuse the application within 7 days after the later of the following events happens—

- (2) The holder must ensure that every person acting under the licence is aware of the matters mentioned in the notice.
- (3) Subsection (4) applies if the usage notice states that the fishing and steaming days are likely to be used in the next month.
- (4) A person in control of a relevant boat under the licence must use the AIVR system, on each day the boat is to be used to take fish under the licence, to obtain the following information before any person starts taking fish from the boat on that day—
 - (a) whether the fishing and steaming days have been used;
 - (b) if the person finds out by using the AIVR system that the fishing and steaming days have been used on that day or an earlier day—the day the regulated period will start under section 27(4).
- (5) A person in control of a relevant boat under the licence complies with subsection (4) if another person obtains the information, in compliance with the subsection, for the person in control of the boat.

(6) In this section—

relevant boat, under a licence, means a boat that is to be used to take fish under the licence from regulated waters under this part.

 - (ii) all effort units for the subject licence; and
 - (b) must refuse it if—
 - (i) the applicant has ever transferred effort units for the subject licence; or
 - (ii) the boat identified in the subject licence has, since 1 January 2001, been replaced or been modified in a way mentioned in section 132(2)(a).²

- to latitude 27° south, longitude 153° east.

36 Steps after making decision

- (1) If an application for an ‘M1’ or ‘M2’ fishery symbol is granted, the chief executive must—
 - (a) write the symbol applied for on the licence; and
 - (b) if the application was for an ‘M2’ fishery symbol—remove the ‘T1’ fishery symbol from the licence the subject of the application.
- (2) If the chief executive decides to refuse the application, the chief executive must, as soon as practicable after making the

² Section 132 (Restriction for ‘M1’, ‘T1’ or ‘T2’ licences)

decision, give the applicant an information notice about the decision.

Division 3 Restrictions on writing fishery symbols on licences

- (1) The chief executive may write a fishery symbol on a commercial fishing boat licence only if—
 - (a) for an ‘M1’, ‘M2’ fishery symbol—the symbol is written under section 36(1); or
 - (b) for a ‘T5’, ‘T6’, ‘T7’, ‘T8’ or ‘T9’ licence—the symbol is written under a written approval by the chief executive for it to be written on the licence; or
 - (c) the licence is a replacement licence; or
 - (d) the chief executive has approved a fishery symbol movement application and, under the application, the symbol is to be written on the licence.
- (2) However, the chief executive must not write a symbol as follows on a commercial fishing boat licence if it has the following written on it—

 - (b) nothing covers any part of the opening during trawling.
- (2) The funnel must—
 - (a) be attached to the net for all of the funnel's front edge circumference; and
 - (b) be held open by—
 - (i) a hoop attached to the net at the funnel's front edge; or

- (ii) a TED that is not more than 62cm from the funnel's front edge; and

Part 4 Use of TEDs

Division 1 Preliminary

51 Application and purpose of pt 4

This part—

- (a) applies if, under chapter 4, a TED must be used with a net used under a provision of that chapter; and

- (b) prescribes an additional condition to which the licence under which the net is used is subject.

52 Purpose of TED

The purpose of a TED is to allow turtles to escape immediately after being taken in the net.

Division 2 TED use condition

53 Requirement to achieve purpose

- (1) The licence under which the net is used is subject to a condition (the *TED use condition*) that the use of the net must achieve the purpose of a TED.
- (2) The TED use condition also applies to anyone acting under the licence.

Division 3 Compliance with TED use condition

54 Compliance with TED use condition

The TED use condition is taken to have been complied with if a device that complies with section 55 (a *recognised TED*) is used with the net.

55 Requirements for a recognised TED

- (1) A recognised TED must consist of a barrier and an opening that allows turtles to escape immediately after being taken in the net.
- (2) The barrier must consist of a rigid or semirigid inclined barrier of bars attached to the net's circumference that acts to steer turtles through the opening.
- (3) The bars must be no more than 12cm apart.
- (4) The opening must—

- (a) be immediately forward of the edge of the barrier that is closest to the cod-end of the net; and
- (b) have a minimum taut measurement across the widest part of the net of—
 - (i) for a net that is used in a beam trawl net no longer than 5m—50cm; or
 - (ii) for another net—60cm; and
- (c) have a minimum taut measurement across any other part of the net of 50cm; and
- (d) have at least 1 taut measurement of at least 76cm.

Part 4A Communication conditions

57A Purpose and application of pt 4A

This part prescribes additional conditions to which an ‘M1’, ‘M2’, ‘T1’ or ‘T2’ licence is subject.

57B Obligation to nominate communication mode for boat

- (1) The holder of the licence must, by notice to the chief executive, nominate a mode by which the chief executive or an inspector may communicate with the person in control of the boat identified in the licence whenever the person is on the boat.
- (2) The mode—
 - (a) can not be by the use of VMS equipment; and
 - (b) must be able to be received on the boat instantaneously after the communication is sent by the chief executive or inspector.

Examples of ways that may be nominated—

- a radio on the boat, tuned to a stated radio frequency
- the number for a facsimile, mobile phone, radiophone or satellite phone on the boat

- (3) More than 1 mode may be nominated.
- (4) The holder of the licence may change the nominated mode by giving notice of a new nominated mode to the chief executive.
- (5) However, the new nominated mode must not be used until the chief executive has advised the holder of the licence that the notice of the change has been received by the chief executive.

57C Obligation to ensure communication with person in control

The holder of the licence and the person in control of the boat identified in the licence must take all reasonable steps to ensure the chief executive or an inspector is, whenever the person is on the boat, able to communicate with the person by using a nominated communication mode for the boat,

Example of all reasonable steps for section—

The only nominated communication mode for the boat is a radio on the boat, at a stated radio frequency. The holder and the person in control must, when the person is on the boat, ensure the radio is—

- (a) on the boat; and
- (b) in working condition; and
- (c) connected to an appropriate power source and turned on; and
- (d) tuned to the stated frequency; and
- (e) set at a volume that allows the person in control to receive communications from the chief executive or an inspector.

Part 5 VMS equipment requirements

58 Purpose and application of pt 5

- (1) This part prescribes additional conditions to which an ‘M1’, ‘T1’ or ‘T2’ licence is subject.
- (2) If this part imposes an obligation on the person in control, it is a condition of the licence that the obligation must be complied with.

59 VMS equipment requirements apply

The licence holder or person in control of a boat identified in the licence must ensure that VMS equipment is installed, maintained and used on the boat in compliance with the VMS equipment requirements.

Note—

See chapter 14 (Reporting), part 7 (VMS equipment requirements) of the regulation.

67 Further obligations for malfunction in major scallop area

- (1) This section applies in addition to the VMS equipment requirements if the VMS equipment installed on a boat identified in the licence malfunctions inside the area within the following boundary (the *major scallop area*)—
 - from latitude 22°10.80' south, longitude 149°48' east to latitude 22°13.20' south, longitude 152° east
 - to latitude 24°13.80' south, longitude 153°33' east
 - to latitude 24°42' south, longitude 153°16.20' east
 - to latitude 25°06' south, longitude 153°12' east
 - to latitude 25°18' south, longitude 152°43.20' east
 - to latitude 22°10.80' south, longitude 149°48' east.
- (2) The person in control must—
 - (a) stop the use of fishing apparatus from the boat; and
 - (b) immediately cause the boat to travel as soon as practicable to the defined port area nearest the boat, unless the person has a reasonable excuse.
- (3) If the person in control starts to comply with the VMS equipment requirements for the boat, the obligations under subsection (2)—
 - (a) continue to apply; but
 - (b) cease to apply if the chief executive or an inspector gives the person notice that the obligations need not be complied with.
- (4) Notice under subsection (3)(b) may be given—

- (a) orally in person; or
 - (b) by a nominated communication mode for the boat.
- (5) If the boat travels to a port, the person in control must not cause or allow the boat to be used for fishing unless an approved person gives the chief executive or an inspector notice that VMS equipment installed on the boat is in a condition that allows it to perform the functions of VMS equipment.

68 Further obligations for malfunction outside major scallop area

- (1) This section applies in addition to the VMS equipment requirements if the VMS equipment installed on a boat identified in the licence malfunctions outside the major scallop area.
- (2) The person in control must cause the boat to travel to a defined port area within 5 days, unless the person has a reasonable excuse.
- (3) However, if the boat moves into the major scallop area, the person in control must—
- (a) stop the use of fishing apparatus from the boat; and
 - (b) immediately cause the boat to travel as soon as practicable to the defined port area nearest the boat, unless the person has a reasonable excuse.
- (4) If the person in control starts to comply with the VMS equipment requirements for the boat, the obligations under subsections (2) and (3)—
- (a) cease to apply; but
 - (b) resume if the chief executive or an inspector gives the person notice that the obligations must be complied with.
- (5) Notice under subsection (4)(b) may be given—
- (a) orally in person; or
 - (b) by a nominated communication mode for the boat.

- (6) If the boat travels to a port, the person in control must not cause or allow the boat to be used for fishing unless an approved person gives the chief executive or an inspector notice that VMS equipment installed on the boat is in a condition that allows it to perform the functions of VMS equipment.

Part 6 Effort units

Division 1 Introduction

73 Simplified outline of pt 6

- (1) This part provides for the issue of effort units, their entitlement and for conditions for their transfer.
- (2) Effort units must be issued as follows for each licence that is, or is a replacement or renewal of, a 'T1' or 'T2' licence in force at midday on 15 December 2000 (an *eligible licence*)—
 - (a) under division 3, by an issue on or before 1 January 2001, based on allocated days;
 - (b) under division 4, by an issue on or before 1 August 2001, based on supplementary days decided under that division.³
- (3) Under divisions 3 and 4, the total of all allocated and supplementary days can not be more than 102929.
- (4) Division 5 allows the chief executive to make a rateable issue of additional effort units for 'T1' or 'T2' fishery symbols if the total mentioned in subsection (3) is not exceeded.
- (5) Divisions 6 and 7 provide for the entitlement of effort units and for working out when they are used.

3 See section 81(2) and (3) (Making allocation decision).

- (6) Divisions 8 and 9 prescribe conditions for the transfer of effort units and provide for the entitlement under transferred effort units.

Division 2 General provisions about effort units

74 Nature of an effort unit

Each effort unit is—

- (a) an authority, the entitlement for which is provided for under division 6; and
- (b) a quota for the east coast trawl fishery.

75 General condition for issue of effort units

An effort unit may be issued only under this part.

76 When effort unit is *issued*

An effort unit is *issued* when—

- (a) an effort unit certificate that includes the unit is issued; or
- (b) an effort unit certificate is amended or replaced under this part to include the unit.

Division 3 Initial effort units

Subdivision 1 General provisions

77 Obligation to issue

On or before 1 January 2001 the chief executive must—

- (a) work out, under this division, the number of effort units that must be issued for each eligible licence; and

- (b) issue an effort unit certificate for the units for the first effort year.

78 Effort unit formula

- (1) To work out the number of effort units that must be issued for each eligible licence under this division, the chief executive must apply the following formula—

$$\mathbf{EU = EUCF \times AD}$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

AD means the number of allocated days for the eligible licence.

- (2) If after applying the formula the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded up.

Subdivision 2 Allocated days

79 Purpose of sdiv 2

This subdivision provides for how the chief executive must decide the number of allocated days for each eligible licence (the *allocation decision*).

80 Deciding recorded fishing days

- (1) The chief executive must decide the higher of the following number of days for each eligible licence for each year from 1988 to 1998—

- (a) the number of days on which a boat as follows (a **relevant boat**) was used, other than under a surrendered former licence—
- (i) a boat identified in the eligible licence;
 - (ii) a boat identified in a former licence for the eligible licence;
- (b) if a relevant boat was, in the year, used under a surrendered former licence—an adjusted number of days on which a relevant boat was used in the year under the surrendered former licence worked out by applying the following formula—

$$AD = \frac{(FD \times EUCF 1)}{EUCF 2}$$

where—

AD means the adjusted number of recorded fishing days worked out by applying the formula.

FD means the number of days on which relevant boats were used in the year under the surrendered former licence.

EUCF 1 means the effort unit conversion factor for the boat identified in the surrendered former licence.

EUCF 2 means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
 - (b) if no boat is identified in the eligible licence—the boat last identified in the licence.
- (2) The higher number of days for a year decided under subsection (1) is called the **recorded fishing days** for the year.
- (3) In making the decision, the chief executive must consider—
- (a) any relevant logbook returns given before 1 May 1999; and
 - (b) records held by the chief executive about the returns.

- (4) In this section—

day, for the use of a relevant boat, means any period 24 hours from when the use started, whether or not the period is included in more than 1 of the 7 named days of the week.

Example—

A relevant boat is used from 7p.m. on a Sunday to 6a.m. on the following Monday and again on the Monday from 5p.m. to 6p.m. For this section, the boat is only used for 1 day.

use, a relevant boat, means use a trawl net from the boat under a 'T1' or 'T2' licence.

81 Making allocation decision

- (1) This section provides for formulae to make the allocation decision, after deciding recorded fishing days.
- (2) For a 'T1' licence, the formula is—

$$AD = \frac{(HRD_1 + HRD_2 + HRD_3 + HRD_4)/4}{(\Sigma HRD_1 + \Sigma HRD_2 + \Sigma HRD_3 + \Sigma HRD_4)/4} \times 94080$$

- (3) For a 'T2' licence, the formula is—

$$AD = \frac{(HRD_1 + HRD_2 + HRD_3 + HRD_4)/4}{(\Sigma HRD_1 + \Sigma HRD_2 + \Sigma HRD_3 + \Sigma HRD_4)/4} \times 1920$$

- (4) In the formulae—

AD means the number of allocated days.

HRD₁ means the highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₂ means the second highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₃ means the third highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

HRD₄ means the fourth highest number of recorded fishing days in any year from 1988 to 1998 for the eligible licence.

ΣHRD_1 means the sum of the highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_2 means the sum of the second highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_3 means the sum of the third highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_4 means the sum of the fourth highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

Subdivision 3 Provisions for giving effect to appeal decisions

81A Application of sdiv 3

This subdivision applies if the following events happen—

- (a) an eligible licence holder appeals to the tribunal against the allocation decision for the licence;
- (b) recorded fishing days for 1 or more years used to make the allocation decision are, or must be, changed because the tribunal decides to set aside that decision and—
 - (i) substitute another decision; or
 - (ii) return the matter to the chief executive with directions;
- (c) the substituted decision, or a decision by the chief executive made under the directions, (the ***new recorded fishing days decision***) will require the reapplication of the formula under section 81 (the ***allocation decision formula***) to remake the allocation decision;
- (d) the total fishing days for all eligible licences are less than 102929.

81B Effect of new recorded fishing days decision

Subject to any decision or direction by the tribunal, the making of the new recorded fishing days decision does not—

- (a) require the reapplication of the allocation decision formula for an eligible licence holder other than the appellant; or
- (b) invalidate or otherwise affect effort units issued to another eligible licence holder.

81C Adjustment to allocation decision formula

- (1) The chief executive may, instead of reapplying section 81, remake the allocation decision by reapplying the allocation decision formula using—
 - (a) the same denominators that were used for the allocation decision appealed against; and
 - (b) the numerators used for the decision, as changed by the new recorded fishing days decision.
- (2) If, under subsection (1), the chief executive remakes the decision, the chief executive must—
 - (a) work out whether any further effort units must be issued to the appellant by applying the effort unit formula under section 78, using the allocated days worked out by reapplying the allocation decision formula under subsection (1); and
 - (b) issue the further effort units; and
 - (c) take steps to amend the relevant effort unit certificate to include the further effort units and the fishing days for which they were issued.

Division 4 Further effort units issued on basis of supplementary days

Subdivision 1 Preliminary

82 Purpose of div 4

The purpose of this division is to allow further effort units to be issued to eligible persons to attempt to remedy hardship or disadvantage because of the allocation decision.

83 Meaning of *small operator* for div 4

For this division, a *small operator* means an eligible person who—

- (a) holds only 1 ‘T1’ or ‘T2’ licence; and
- (b) owns the boat identified in the licence; and
- (c) is a person as follows—
 - (i) the person who usually is the person in control of the boat when it is used for trawling (the *usual person in control*);
 - (ii) a close relative of the usual person in control;
 - (iii) a corporation, a director or shareholder of which is, or is a close relative of, the usual person in control; and
- (d) in the 2 financial years immediately before the application was made, derived at least 80% of the person’s gross income from fishing under the licence by trawling; and
- (e) received less than 123 allocated days.

Subdivision 2 Applications for effort units

84 Requirements for application

- (1) An eligible person may, on or before 31 March 2001, apply to the chief executive to be issued with further effort units for the person's eligible licence (an *effort unit application*).
- (2) The application must—
 - (a) be made to the chief executive, in the approved form; and
 - (b) include, or be accompanied by, all documents or information on which the applicant relies to support the application.

85 Deciding application

Subject to sections 88 and 89A, the chief executive must decide each effort unit application on or before 1 August 2001.

86 Grounds for issuing effort units

- (1) The chief executive may, under subdivision 3, work out a number of effort units to be issued to an effort unit applicant if the applicant has reasonably satisfied the chief executive that the applicant is a small operator.
- (2) The chief executive may, under subdivision 4, work out a number of effort units to be issued to an effort unit applicant if the applicant has reasonably satisfied the chief executive that the applicant is not a small operator and that—
 - (a) logbook returns show that from 1988 to 1998 a trawl net was used from a boat identified in a licence as follows (a *relevant licence*) on a day other than a recorded fishing day—
 - (i) the eligible licence the subject of the application;
 - (ii) a former licence or surrendered former licence for the eligible licence; or
 - (b) because of an exceptional circumstance mentioned in

- subsection (4), the 4 highest years used, under section 81, to make the allocation decision for the applicant do not reflect the applicant's representative level of participation in the east coast trawl fishery.
- (3) However, if an applicant is issued effort units worked out under subdivision 3, the chief executive must not issue the applicant effort units worked out under subdivision 4.
- (4) For subsection (2)(b), the exceptional circumstances are each of the following—
- (a) the applicant first acquired, or obtained an approval from a former fisheries agency for, a relevant licence between 1 January 1995 and 13 November 1998;
 - (b) the applicant acquired the eligible licence the subject of the application after 13 November 1998 and, when it was acquired, the applicant—
 - (i) had no actual or constructive knowledge of the Queensland Fisheries Management Authority media release called 'Investment Advice for Queensland East Coast Trawl Fishery', published on 13 November 1998; or
 - (ii) did not understand the nature or significance of the media release, after having taken all reasonable steps in the circumstances to understand it;
 - (c) the applicant did not hold a relevant licence for the whole of the period from 1988 to 1998 and during the period that the applicant held a relevant licence—
 - (i) the applicant or a close relative of the applicant suffered illness or injury; or
 - (ii) the boat identified in the licence could not be used for trawling.

88 Priority of deciding effort unit applications

In deciding effort unit applications, the chief executive must, as much as practicable, give priority to applicants who—

- (a) claim to be small operators; or
- (b) hold the fewest effort units.

89 Steps after making decision

- (1) If effort units are worked out for an effort unit applicant under subdivision 3 or 4, the chief executive must, as soon as practicable, take steps to amend the applicant's effort unit certificate to include the effort units and the fishing days for which they were issued.
- (2) The effort units take effect when the amendment is made.

Subdivision 3 Further effort units for small operators**89A Restriction on granting application by small operator**

The chief executive must refuse an effort unit application if—

- (a) the chief executive is satisfied the applicant is a small operator; and
- (b) the total of supplementary days already worked out for small operators exceeds 5000.

90 Effort unit formula

- (1) This section provides for how the chief executive must decide the number of effort units if the chief executive is satisfied the applicant is a small operator.
- (2) To work out the number of effort units, the chief executive must apply the following formula—

$$\mathbf{EU = EUCF \times SD}$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

SD means the number of supplementary days for the eligible licence, worked out under section 91.

91 Working out supplementary days

- (1) For section 90(2), the supplementary days are worked out by applying the following formula—

$$SD = \frac{HD_1 + HD_2 + HD_3 + HD_4}{4} - AD$$

- (2) In the formula—

SD means the number of supplementary days.

HD₁ means the highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₂ means the second highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₃ means the third highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

HD₄ means the fourth highest number of any recorded and logbook days in any year from 1988 to 1998 for the eligible licence.

AD means the number of allocated days for the eligible licence.

- (3) If the total of the supplementary days worked out by applying the formula and all other supplementary days already out worked under this section for small operators would, other than this subsection, exceed 5000, the number of supplementary days for the eligible licence is the difference between 5000 and the other supplementary days.

- (4) In this section—

logbook days, for a year, means the days, other than recorded fishing days, shown in logbook returns on which a trawl net was used from a boat identified in—

- (a) the eligible licence; or

- (b) a former licence or surrendered former licence for the eligible licence.

Subdivision 4 Further effort units on other grounds

92 Effort unit formula

- (1) This section provides for how the chief executive must decide the number of effort units other than on the ground that the applicant is a small operator.
- (2) To work out the number of effort units, the chief executive must apply the following formula—

$$EU = EUCF \times SD$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat last identified in the licence.

SD means the number of supplementary days for the eligible licence, worked out under section 93.

93 Working out supplementary days

- (1) This section provides for formulae to work out the number of supplementary days for section 92(2).
- (2) For a 'T1' licence, the formula is—

$$SD = \left(\frac{(HD_1 + HD_2 + HD_3 + HD_4)/4}{(\sum HD_1 + \sum HD_2 + \sum HD_3 + \sum HD_4)/4} \times 94080 \right) - AD$$

- (3) For a 'T2' licence, the formula is—

$$SD = \left(\frac{(HD_1 + HD_2 + HD_3 + HD_4)/4}{(\Sigma HD_1 + \Sigma HD_2 + \Sigma HD_3 + \Sigma HD_4)/4} \times 1920 \right) - AD$$

- (4) In the formulae—

AD means the number of allocated days for the eligible licence.

SD means the number of supplementary days.

HD₁ means the highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₂ means the second highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₃ means the third highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

HD₄ means the fourth highest number of any recorded days and the extra days in any year from 1988 to 1998 for the eligible licence.

ΣHRD_1 means the sum of the highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_2 means the sum of the second highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_3 means the sum of the third highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

ΣHRD_4 means the sum of the fourth highest number of recorded fishing days in any year from 1988 to 1998 for each eligible licence of the same type as the eligible licence.

- (5) For subsection (4), the extra days for a year are—

- (a) all days for the year shown in logbook returns under section 86(2)(a);⁴ and
 - (b) a number of other days the chief executive decides that best achieves the purpose of this part.
- (6) For subsection (5)(b), the chief executive must not decide a number that places the applicant in a position as if the applicant had more than an average annual participation in the east coast trawl fishery.

Division 5 Additional effort units

94 Interim issue of additional effort units for all eligible licences

- (1) This section applies if, on the day this section commences—
 - (a) the total fishing days for all effort units are less than 102929; and
 - (b) all appeals against decisions about effort unit applications are not ended or finally decided.
- (2) The chief executive must, not later than 30 June 2004, issue further additional effort units for each eligible licence to the holder.
- (3) The number of effort units that must be issued for an eligible licence is the number worked out by applying the following formula—

$$\mathbf{EU} = \mathbf{EUCF} \times \left(\frac{\mathbf{RD}}{\mathbf{TEL}} \right)$$

where—

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat

4 Section 86 (Grounds for issuing effort units)

last identified in the licence.

RD means 102343, less the total number of fishing days for all effort units when each of the effort units were issued.

TEL means the total number of eligible licences.

- (4) If, after applying the formula, the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded down.

95 Further issue of additional effort units for all eligible licences

- (1) This section applies if, after all additional effort units have been issued under section 94, the total fishing days for all effort units is still less than 102929.
- (2) The chief executive may issue further additional effort units to each eligible licence holder.
- (3) However, the chief executive must not issue the additional units before—
- (a) the end of the period to appeal against all decisions about effort unit applications (*effort unit appeals*); and
 - (b) all effort unit appeals are ended or finally decided; and
 - (c) if, in deciding an effort unit appeal, the tribunal gave the chief executive directions—the directions have been complied with.
- (4) The number of effort units that must be issued is worked out by applying the following formula—

where—

$$EU = EUCF \times \left(\frac{RD}{TEL} \right)$$

EU means the number of effort units worked out by applying the formula.

EUCF means the effort unit conversion factor for—

- (a) the boat identified in the eligible licence; or
- (b) if no boat is identified in the eligible licence—the boat

last identified in the licence.

RD means 102929, less the total number of fishing days for all effort units when each of the effort units were issued.

TEL means the total number of eligible licences.

- (5) If after applying the formula the number of effort units worked out is not a whole number, the number of effort units that must be issued for the eligible licence is the nearest whole number to the amount worked out, rounded down.

96 Issue of effort units

- (1) As soon as practicable after working out, under section 94 or 95, the number of effort units to be issued, the chief executive must take steps to amend the relevant effort unit certificates to include the effort units and the days for which they were issued.
- (2) The effort units take effect when the amendment is made.

Division 5A Limit on effort units

96A Application of div 5A

This division applies if after all effort unit applications have been decided, the total allocated and supplementary days for all eligible licences, would, other than for this division, be more than 102929.

96B Automatic rateable effort unit cancellations

- (1) The number of effort units for each eligible licence is, by cancellation, reduced by applying the following formula—

$$\mathbf{REU} = \mathbf{EU} \times (\mathbf{EFD} / \mathbf{TFD})$$

where—

REU means the number of effort units for the licence by which the total number of effort units for the licence must be reduced, worked out by applying the formula.

EU means the existing number of effort units for the eligible licence.

EFD means the number of fishing days that, other than for this section, would have exceeded 102929.

TFD means the total number of fishing days for all effort units.

- (2) If after applying the formula, the number of effort units to be cancelled for the licence is not a whole number, the number of effort units that must be cancelled is the nearest whole number, rounded up.

96C Notice and taking of effect of cancellation

- (1) The chief executive must, as soon as practicable after the cancellation of effort units and reduction of fishing days under section 96B, give each eligible licence holder a replacement effort unit certificate that reflects the cancellation and reduction.
- (2) The cancellation for the holder takes effect when the holder is given the replacement effort unit certificate.

Division 6 Effort unit entitlement and use

97 Meaning of *entitlement* of effort unit holder

- (1) The effort units held by a person authorise the person, in an effort year, to—
- (a) if the effort units are effort units that can be used in conjunction with ‘T1’ licences (***T1 effort units***)—
- (i) use, or allow someone else to use, the boat identified in any ‘T1’ licence also held by the person until the effort units have been used; and
- (ii) use, or allow someone else to use, each of the boats for 4 additional days (each a ***steaming day***); or
- (b) if the effort units are effort units that can be used in conjunction with ‘T2’ licences (***T2 effort units***)—
- (i) use the boat identified in any ‘T2’ licence also held

- by the person until the effort units have been used;
and
- (ii) use each of the boats for 4 additional days (each also a *steaming day*).
- (2) However, the entitlement applies only while—
- (a) for T1 effort units—the person also holds a ‘T1’ licence that is in force; and
- (b) for T2 effort units—the person also holds a ‘T2’ licence that is in force.
- (3) The authorisation under this section is subject to division 9.⁵
- (4) The authorisation under this section for an effort year is the person’s *entitlement* under the person’s effort units for the year.
- (5) The entitlement is subject to any relevant prohibitions or restrictions under the regulation, this plan or a condition or other provision of the effort units, ‘T1’ licences or ‘T2’ licences.

Examples of relevant restrictions—

the restrictions under sections 263 to 269 of the regulation

98 When effort units are *used* for an effort year

- (1) This section provides for when effort units held by a person are *used* for an effort year.
- (2) Effort units are not used until the holder of the effort units, or anyone else allowed by the holder, has, under section 99, used a boat identified in a ‘T1’ licence or ‘T2’ licence on a fishing day for effort units.
- (3) The number of effort units used on the fishing day is worked out by applying the following formula—

$$EU = 1 \div EUCF$$

where—

EU means the number of effort units used.

⁵ Division 9 (Entitlement of transferee under transferred effort units)

I means the fishing day.

EUCF means the effort unit conversion factor for the boat used.

99 Provisions for working out use of entitlement

- (1) This section provides for rules to work out whether a boat has been used on a fishing or steaming day to decide whether the entitlement of an effort unit holder has been used.
- (2) The period of each fishing and steaming day for the effort units is from midday to midday.
- (3) However, if the holder has given the chief executive notice of 24 hours or more that the period of the days is to be—
 - (a) from midnight to midnight—the period is from midnight to midnight; or
 - (b) from 6p.m. to 6p.m.—the period from 6p.m. to 6p.m.
- (4) Subsection (3)(b) applies only if the eligible licence is also an ‘M1’ licence.
- (5) If the holder uses the boat in any part of a fishing or steaming day, the holder is taken to have used the boat for the whole of the day.
- (6) Despite subsections (3) to (5)—
 - (a) the use of the boat for the whole or part of the first 12 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—
 - (i) under subsection (3)(a), the period of the fishing or steaming day is from midnight to midnight; and
 - (ii) the boat has, in the preceding 12 hours, been used under a fishery symbol; and
 - (b) the use of the boat for the whole or part of the first 6 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—
 - (i) under subsection (3)(b), the period of the fishing or steaming day is from 6p.m. to 6p.m.; and

- (ii) the boat has, in the preceding 18 hours, been used under a fishery symbol.
- (7) The boat is taken to have been used on fishing days for effort units before it is used on steaming days.
- (8) In this section—
notice includes a notice given by facsimile, radio or telephone.

100 No carrying forward of unused entitlement

- (1) This section applies if, in an effort year, an effort unit holder fishes on fewer days than the total entitlements under the effort units held by the holder.
- (2) The holder is taken, at the end of the effort year, to have used all the entitlements under the effort units held by the holder for the year.

101 Effort unit certificates

- (1) The chief executive must issue a certificate to each person who holds effort units.
- (2) The certificate must state the following—
 - (a) the holder's name;
 - (b) if the holder has 'T1' effort units—how many of them the holder has;
 - (c) if the holder has 'T2' effort units—how many of them the holder has;
 - (d) if the chief executive has imposed conditions on the effort units—the conditions.

101A Evidentiary provision for effort unit certificate

An effort unit certificate is evidence of—

- (a) the number of effort units held when the certificate was issued under section 101, replaced under section 96C of

this plan or under section 71 of the Act or changed or replaced under section 115; and

- (b) the conditions, if any, imposed on the effort units.

Division 7 Evidentiary aids for use of entitlement

Subdivision 1 Evidentiary aids for when a fishing or steaming day is used

102 VMS detection or manual reporting

- (1) This section applies if the boat identified in a ‘T1’ licence or ‘T2’ licence is detected by VMS or manually reported at any time during a day (the *relevant day*) within the following area—
- (a) for a boat identified in a ‘T1’ licence—
- (i) generally—the ‘T1’ area; and
 - (ii) if the licence also has an ‘M1’ fishery symbol written on it—the ‘M1’ and ‘M2’ area;
- (b) for a boat identified in a ‘T2’ licence—the ‘T2’ area.
- (2) The detection or manual report is evidence that the holder of the licence has used the boat for a whole fishing day or steaming day for—
- (a) if the licence is a ‘T1’ licence—‘T1’ effort units; or
 - (b) if the licence is a ‘T2’ licence—‘T2’ effort units.
- (3) However, subsection (2) does not apply if—
- (a) an exception for this section stated in subdivision 2 applies for the relevant day; or
 - (b) the holder satisfies the chief executive the boat was not used on the relevant day.

102A Absence of VMS detection or reporting

- (1) This section applies if at any time during a day (the *relevant time*)—
 - (a) the VMS maintenance and use obligations applied to a person in control of a boat identified in a ‘T1’ or ‘T2’ licence; and
 - (b) the boat is not detected by VMS anywhere; and
 - (c) at that time the manual reporting obligation—
 - (i) applied to the person in control of the boat; and
 - (ii) was not being complied with for the boat.
- (2) The absence of the detection is evidence that the boat was used for a whole fishing or steaming day for—
 - (a) if the licence is a ‘T1’ licence—‘T1’ effort units; or
 - (b) if the licence is a ‘T2’ licence—‘T2’ effort units.
- (3) However, subsection (2) does not apply if the holder of the effort units satisfies the chief executive that the boat was not being used at the relevant time.

102B Particular notice is evidence of unused entitlement

- (1) This section applies if an effort unit holder has obtained a written notice from the chief executive stating the amount of unused entitlement under the holder’s effort units for a stated effort year on a stated date.
- (2) The notice is evidence of the amount of unused entitlement under the effort units for the stated effort year on the stated date.

Subdivision 2 Exceptions**103 Exception—movement only at travelling speed**

- (1) It is an exception for section 102 if, during the whole of the day, the boat is detected by VMS or manually reported as—

- (a) not having moved; or
 - (b) having moved at a speed of no less than 5 knots.
- (2) For subsection (1)(b), if a boat is detected by VMS or manually reported as having moved continuously during a period, the first or last time the boat is detected or manually reported during the period must be disregarded if, at the time, the boat is detected or manually reported as moving at a speed of less than 5 knots.
- (3) This section does not limit sections 105 and 106.

104 Exception—minimum boat movement

- (1) It is an exception for section 102 if, during the whole of the day, the boat is detected by VMS or manually reported as—
- (a) not having moved; or
 - (b) having moved no more than the following distance from where the boat was first detected on the day—
 - (i) if the boat is detected or manually reported as being in the deep water net area during any part of the day—1000m;
 - (ii) otherwise—250m.
- (2) This section does not limit sections 105 and 106.

105 Exception—moving boat without fishing

- (1) It is an exception for section 102 if—
- (a) the boat is detected by VMS or manually reported as having moved during a day; and
 - (b) the conditions mentioned in subsection (2) have been complied with.
- (2) For subsection (1)(b), the conditions are as follows—
- (a) the movement is, or is part of, any of the following journeys—
 - (i) from a defined port area to another defined port area;

Fisheries (East Coast Trawl) Management Plan 1999

- (ii) a defined port area to a place outside the east coast trawl fishery;

 - (iv) the estimated date and time of arrival at the destination;
 - (v) if the movement involves entering or leaving the east coast trawl fishery—each entry or leaving;
 - (vi) the reason for the journey;
- (c) if any fish taken outside the east coast trawl fishery are on board the boat—the holder or person in control of the boat gave the chief executive notice of the number or weight of each species of permitted fish before the fish were brought into the area;
- (d) the journey complies, or substantially complies, with the journey stated in the notice;
- (e) during the whole of the journey—
 - (i) no fish taken by the use of a trawl net in the east coast trawl fishery are on board the boat; and
 - (ii) the VMS maintenance and use obligations or the manual reporting obligation are complied with for the boat; and
 - (iii) all trawl nets on board the boat are stored inboard the boat and are not suspended from a mast or boom.

- (3) However, the trawl nets may be suspended from a mast or boom if the journey is from a defined port area to the nearest northerly or southerly defined port area.
- (4) The holder or person in control may, during the journey, by notice to the chief executive (***amendment notice***), amend a detail given under subsection (2)(b)(iii), (iv) or (v).
- (5) From the giving of the amendment notice, the condition mentioned in subsection (2)(d) is complied with if the rest of the journey complies, or substantially complies with, the notice given under subsection (2)(b), as amended under the amendment notice.

105A Exception—moving boat to test fishing apparatus

- (1) It is an exception for section 102 if—
 - (a) the boat is detected by VMS or manually reported as having moved during a day; and
 - (b) the conditions mentioned in subsection (2) have been complied with.
- (2) For subsection (1), the conditions are as follows—
 - (a) the movement is, or is part of, a journey for the sole purpose of testing the operation of fishing apparatus;
 - (b) the holder or person in control of the boat gave, at least 24 hours before the journey, the chief executive notice of the following about the journey—

 - (iv) the estimated date and time of arrival at the destination;
 - (v) the reason for the journey;
 - (c) the journey complies, or substantially complies, with the journey stated in the notice;
 - (d) the destination for the journey is no more than 1n mile from where the journey started;

- (e) during the whole of the journey—
 - (i) no fish are taken by the use of a trawl net in the east coast trawl fishery; and
 - (ii) the cod ends of each trawl net on or attached to the boat are open; and
 - (iii) the VMS maintenance and use obligations or the manual reporting obligation are complied with for the boat.

106 Exception—acting exclusively under authority other than a ‘M1’, ‘T1’ or ‘T2’ fishery symbol

- (1) It is an exception for section 102 if—
 - (a) the boat is detected by VMS or manually reported as having moved during a day; and
 - (b) the conditions mentioned in subsection (2) have been complied with.
- (2) For subsection (1)(b), the conditions are as follows—
 - (a) the movement is, or is part of, a trip that started from a defined port area;
 - (b) the holder or person in control of the boat gave the chief executive notice of the following about the trip before it started—

- (c) the trip complies, or substantially complies, with the trip stated in the notice;
- (d) during the whole of the trip—
 - (i) the VMS maintenance and use obligations or the manual reporting obligations are complied with for the boat; and
 - (ii) if the boat is being used under an authority that does not permit the use of trawl nets to take fish in the east coast trawl fishery—there are no trawl nets, or fish taken by the use of a trawl net in the east coast trawl fishery, on board the boat.
- (3) The holder or person in control may, during the trip, by notice to the chief executive (***amendment notice***), amend a detail given under subsection (2)(b)(iii) to (vi).
- (4) From the giving of the amendment notice, the condition mentioned in subsection (2)(c) is complied with if the rest of the trip complies, or substantially complies, with the notice given under subsection (2)(b), as amended under the amendment notice.

107 Exception—VMS detection in particular regulated waters

111 Purpose of div 8

This division states, for section 65(1)⁶ of the Act, the circumstances in which effort units may or may not be transferred.

⁶ Section 65 (Transfer of authority (other than permit)) of the Act

112 Only whole effort units may be transferred

A part of an effort unit can not be transferred.

113 Eligibility of transferee

- (1) A 'T1' effort unit may be transferred only by a holder of the effort unit to a 'T1' licence holder, other than the transferor.
- (2) Subject to section 114, a 'T2' effort unit may be transferred only by a holder of the effort unit to a 'T2' licence holder, other than the transferor.

114 Transfer of half of the effort units of 'T2' licence to 'T1' licence

Half of the effort units for a 'T2' licence may be transferred to a 'T1' licence only if the 'T2' licence holder gives the chief executive notice that the 'T2' licence holder surrenders—

⁷ Section 65B (Registration of transfer of authority) of the Act

Division 9 Entitlement of transferee under transferred effort units

119 Entitlement

- (1) The entitlement of the transferee under transferred effort units is the unused entitlement of the transferor under the units immediately before the chief executive registers the transfer under section 65B of the Act.
- (2) However, the transferred entitlement only includes an entitlement of the transferor to use a boat on a steaming day if the transferor's former licence to which the effort units related was also transferred to the transferee.
- (3) Subsection (2) does not affect the transferee's entitlement to use a boat on a steaming day under other effort units.

Division 10 Miscellaneous provisions

120 Notice of decision about effort units

As soon as practicable after making a decision under this part, the chief executive must give each person to whom the decision relates an information notice about the decision.

- (b) the details of the boat recorded on the licence are amended to reflect the modification.

Division 2 Restrictions on amending licence to modify or replace boat

132 Restriction for 'M1', 'T1' or 'T2' licences

The chief executive may amend or replace an 'M1', 'T1' or 'T2' licence to allow the boat identified in the licence to be modified or replaced only if the modification or replacement does not result in—

- (a) the hull units for the boat being more than 70; or
- (b) the boat's main engine power being more than 300 maximum continuous brake kW.

133 Restriction for 'M2' licences

The chief executive may amend or replace an 'M2' licence to allow the boat identified in the licence to be modified or replaced only if—

8 Section 73 (Registers of authorities and fisheries development approval) of the Act

- (a) the amendment or replacement does not increase the number of hull units for the boat; or
- (b) the holder of the licence surrenders another 'M2' licence.

134 Length restriction for other licences

The chief executive may amend or replace a 'T5', 'T6', 'T7', 'T8' or 'T9' licence only if—

Part 3 Extended definitions for other things

34 Working out *hull units* for a boat

The *hull units*, for a boat, must be worked out by using the following formula and rounding the amount worked out to the nearest whole number—

Schedule 7, part 3—Extended definitions for other things
(continued)

$$HU = \frac{L \times B \times D \times 0.6}{2.83}$$

where—

HU means the number of hull units for the boat;

L means the length of the boat;

B means the beam of the boat;

D means the depth of the boat.²³

35 Meaning of *beam* of a boat

The *beam*, of a boat, means the maximum breadth, in metres, amidships between—

- (a) if the boat has a metal shell—the moulded lines of its frame; or
- (b) if the boat does not have a metal shell—the outer surfaces of its hull, excluding sponsons, fenders and rubbing strips.

36 Meaning of *depth* of a boat

- (1) The *depth*, of the boat, means the vertical distance, measured in metres, from its keel datum to—
 - (a) if the boat is, after 15 December 2000, modified or replaced under chapter 3, part 8—a point amidships that is level with the highest point of its uppermost continuous deck; or
 - (b) otherwise—
 - (i) for a boat with a stepped uppermost continuous deck the raised part of which extends over amidships—a line of reference extending from the

²³ The figure of 0.6 represents a block coefficient to standardise variations in boat design and the figure of 2.83 represents a constant which converts cubic metres to units of 100 cubic feet.

lower part of the deck along a parallel line to the raised part; or

amidships, of a boat, means the vertical plane at the middle of its length at a right angle to its centre-line plane.

keel datum means—

- (a) for a composite or wooden boat—the lower edge of its keel rabbet; or
- (b) for a boat in which the form at the lower part of midship section is of a hollow nature or if thick or horizontal garboards are fitted—the point where the line of the hull bottom shell continued inwards cuts the boat's centre-line; or
- (c) if, because of the boat's shape, the keel datum can not be worked out under paragraph (a) or (b)—the tangent providing the greatest depth measurement.

38 Meaning of *length* of a net

 - (b) fuel injectors consistent with the recommended maximum continuous brake kW of the engine type.
- (4) If the manufacturer revises the recommendation for the engine type, the revised rating is taken to apply to all new engines of that type installed on boats from the day the revised rating took effect.
- (5) The following must be disregarded—
 - (a) variation from the standard power output, including, for example, engine deratings;
 - (b) different gear boxes or transmission trains associated with individual engines.
- (6) In this section—

engine type means the type of main propulsion engine or engines installed on the boat.
