Fisheries Act 1994

Fisheries (Freshwater) Management Plan 1999

Reprinted as in force on 2 April 2009

Reprint No. 3C

This reprint is prepared by
the Office of the Queensland Parliamentary Counsel
Warning—This reprint is not an authorised copy

Information about this reprint

This plan is reprinted as at 2 April 2009. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

Fisheries (Freshwater) Management Plan 1999

[as amended by all amendments that commenced on or before 2 April 2009]

Part 1 Preliminary

1 Short title

This management plan may be cited as the *Fisheries (Freshwater) Management Plan 1999*.

2 What is the *freshwater fishery*

The *freshwater fishery* is activities by way of fishing relating to any freshwater fish in Queensland's non-tidal waters.

3 Application of plan

This plan applies in relation to the taking, possessing and other uses of freshwater fish.

4 Objectives of plan and its achievement

- (1) The objective of this management plan is to provide for the use, conservation and enhancement of the community's freshwater fish resources in a way that seeks to—
 - (a) apply and balance the principles of ecologically sustainable development; and
 - (b) promote ecologically sustainable development.
- (2) The objective is to be achieved mainly by—
 - (a) restricting the fishing apparatus that may be used to take freshwater fish; and
 - (b) imposing requirements for fish stocking; and
 - (c) managing the commercial eel fishery; and

(d) preventing inappropriate release of fish in fresh water.

(3) In this section—

principles of ecologically sustainable development see section 3(5) of the Act.

Notes—

- 1 In addition to the regulated fishing apparatus declarations under part 6, other fisheries declarations under the regulation also apply to the freshwater fishery. For relevant fisheries declarations, see chapters 2, 3 and 4 and schedule 2 of the regulation.
- 2 This plan does not apply to acts done under Aboriginal tradition or Island custom. See section 14 (Aborigines' and Torres Strait Islanders' rights to take fisheries resources etc.) of the Act.

5 Interpretation

- (1) Unless this plan provides otherwise, terms used in it have the meaning given under the regulation.
- (2) Subsection (1) is not limited to a term defined under the regulation but also applies to a provision of the regulation that aids the interpretation of a term used in the regulation.

Examples of provisions for subsection (2)—

chapter 1, part 2, divisions 3 to 7 of the regulation

- (3) Schedule 8, part 1 contains provisions that aid the interpretation of this plan.
- (4) The dictionary in schedule 8, part 2 defines particular words used in this plan.

Part 5 Releasing restrictions

28 Nonindigenous fisheries resources—sch 5

- (1) This section applies if a person holds a general fisheries permit to release nonindigenous fisheries resources into waters in the freshwater fishery.

- (2) As well as any conditions stated on the permit, the permit is subject to the condition that nonindigenous fisheries resources must not be released in waters mentioned in schedule 5.

29 Aquaculture fisheries resources

A person may release aquaculture fisheries resources into privately owned waters in the freshwater fishery only if—

- (a) the person holds an authority allowing the person to release the resources into the waters; or
- (b) the resources are not nonindigenous fisheries resources for the area where they are released; or
- (c) the resources are mentioned in schedule 6 and are released into a river basin into which the schedule states the resources may be released.

30 Live bait—sch 7

A person may use a freshwater fish mentioned in schedule 7 as live bait to take freshwater fish only in the waters stated in the schedule for the fish.

Part 6 Regulated fishing apparatus declarations for recreational fishers in nontidal waters

31 Operation of pt 6

- (1) This part provides for particular regulated fishing apparatus declarations under section 37(3) of the Act.
- (2) The fishing apparatus mentioned in this part is—
 - (a) declared to be regulated fishing apparatus; and
 - (b) regulated in the way stated in this part.

Note—

Chapter 4, part 1, division 5 of the regulation provides for an exception to regulated fishing apparatus declarations under this part.

32 Recreational fishers regulated for pt 6

- (1) This part applies to a recreational fisher for taking or possessing fish in waters, other than in tidal waters or on nontidal land.

Note—

See chapter 4, part 1, division 4, subdivision 2 of the regulation for regulated fishing apparatus declarations for recreational fishers taking fish in tidal waters or on tidal land.

- (2) A recreational fisher may only use fishing apparatus mentioned in a relevant section—
 - (a) in compliance with the relevant section; and
 - (b) if the relevant section states the way in which the apparatus must be used—in the stated way.
- (3) In this section—

relevant section means section 36, 37, 38, 39, 39A, 40, 41, 42 or 43.

36 Canister traps

- (1) A canister trap must be open at 1 end.
- (2) The trap must have dimensions of no more than—
 - (a) for its diameter, height and width—50cm; and
 - (b) for its length—60cm.
- (3) Also, the trap's diameter, width or height, measured anywhere along its length, must be no more than the diameter, width or height of its open end.
- (4) If the trap does not have a mesh made of rigid material, the size of its mesh must be no more than 25mm.

37 Collapsible traps

A collapsible trap must be made of rigid material and have 1 or more collapsible sides.

38 Dillies

A dilly must have—

- (a) a diameter of no more than 125cm; and
- (b) a mesh size of no more than 25mm.

39 Funnel traps

- (1) A funnel trap must not have more than 4 entrances and must not be longer than 70cm, wider than 50cm or higher than 50cm.
- (2) The trap's entrance—
 - (a) must be made of rigid material; and
 - (b) must be no more than 10cm in each of its dimensions.
- (3) If the trap does not have a mesh made of rigid material, the size of its mesh must be no more than 25mm.

39A Round traps

- (1) A round trap must not have—
 - (a) more than 4 entrances; or
 - (b) a diameter more than 70cm; or
 - (c) a height more than 50cm.
- (2) Each entrance on the trap must not have a diameter, height or width more than 10cm.
- (3) If the trap does not have a mesh made of rigid material, the size of its mesh must be no more than 25mm.

40 Scoop or dip nets

A scoop or dip net may be used only if—

- (a) the net is no more than 1m in each of its dimensions; and
- (b) the net has a mesh size of no more than 25mm; and
- (c) the handle or shaft of the net is no longer than 2.5m.

41 Fishing lines and set lines not used in privately owned waters

- (1) This section applies only to the use of a fishing line or set line in water that is not privately owned.

Example of privately owned water—

water in a dam on privately owned land, if the dam is not built across a waterway

- (2) A fishing line or set line must not have more than 1 hook or lure attached to it.
- (3) A person must not—
 - (a) use more than 6 fishing lines or set lines alone or in a combination; or
 - (b) set a fishing line as a cross-line.
- (4) A person who uses a set line must not be more than 200m from the line.
- (5) In this section—

cross-line means a fishing line fixed at both ends and set across or in water.

42 Number of traps

A person who is fishing must not possess or use more than a total of 4 traps of a type, or any combination of types of trap, mentioned in this part.

43 Marking traps and set lines

- (1) A person who uses a trap of a type mentioned in this part or a set line to take freshwater fish must have a tag on the trap or set line with the surname and address of the owner of the trap or set line written on the tag.

- (2) Also, if the trap is not fixed to something stationary above the water level while the trap is in use, the apparatus must have a light coloured float attached to it.
- (3) The float must—
 - (a) have the owner's first name and surname written on it; and
 - (b) be at least 15cm in each of its dimensions.
- (4) However, subsection (3)(b) does not apply if the float is a 2 or 3L plastic milk container.

Part 7 Stocked impoundments

44 Permit to fish with fishing line or set line in stocked impoundment

The chief executive may issue a permit (a *stocked impoundment permit*) to take freshwater fish from a stated stocked impoundment by using a fishing line or a set line.

45 Prohibition on using fishing line or set line without permit

- (1) A person may take a freshwater fish from a stocked impoundment with a fishing line or a set line only if the person has a stocked impoundment permit to take freshwater fish from the impoundment.
- (2) Subsection (1) does not apply to a person under 18 years.

Part 8 Commercial fishery for eels

Division 1 Preliminary

46 Meaning of *eel licence*

An *eel licence* is a commercial harvest fishery licence with the fishery symbol 'E' written on it.

Division 2 General

47 Who may take eels

- (1) A person may take or possess eels for trade or commerce only if—
 - (a) the person holds an eel licence; or
 - (b) the person is an approved nominee of an eel licence holder.
- (2) However only 1 person may act under the same eel licence at the same time.

47A Obtaining nominee approval

- (1) An eel licence holder may apply in writing to the chief executive for someone else to be the holder's approved nominee.
- (2) The chief executive may grant the approval only if satisfied the holder has become temporarily incapacitated or is otherwise temporarily unable to act under the licence.
- (3) The term of the approval may only be for the period during which the chief executive considers the holder will be incapacitated or otherwise temporarily unable to act under the licence.
- (4) If the chief executive decides to refuse the application, the chief executive must give the applicant an information notice about the decision.

48 How eels may be taken

- (1) Eels may be taken only by using an eel trap or a round trap.
- (2) An eel trap or round trap may be used only if—
 - (a) the trap complies with division 4; and
 - (b) the use of the trap complies with division 5.

49 Waters from which eels may be taken

A person may only take eels from waters in—

- (a) an impoundment formed by a dam stated on an eel licence; or
- (b) a privately owned artificially created impoundment within a catchment stated on an eel licence.

50 Selling or processing eels taken under eel licence

- (1) The holder of an eel licence, or an approved nominee of the holder, may sell or process eels taken under the licence.
- (2) The sale may be to anyone, whether or not the buyer holds an authority that allows the sale.

Division 3 Authorities**51 Restriction on writing fishery symbol 'E' on authorities**

The chief executive may write an 'E' fishery symbol on an authority only if the authority is a replacement eel licence issued under section 71 of the Act to replace an eel licence that has been lost, damaged or destroyed.

52 Eel licences are not transferable

An eel licence is not transferable.

Division 4 Eel traps and round traps

Subdivision 1 General requirements

54 Definition for sdiv 1

In this subdivision—

trap means an eel trap or a round trap.

55 Entrances to trap and from trap to pocket

- (1) A trap may only have 1 entrance into the trap itself or from the trap into its pocket.
- (2) The aperture of the entrance from the trap into its pocket must be at least 20cm in each of its dimensions.
- (3) The trap's entrance must not be extended by attaching wings.

56 Trap mesh size

- (1) A trap (other than its pocket) must have a mesh size of at least 25mm.
- (2) However, any meshes on the trap that are made of rigid material must be at least 22mm in each of its dimensions.

57 Trap frame

A trap when set must have a frame made of rigid material.

58 Trap float

The trap must have a float attached to it that is at least 150mm in each of its dimensions.

59 Marking of trap and trap float

The trap and trap float must be marked with—

- (a) the number of the authority under which the trap and float are being used; and
- (b) the authority holder's first name and surname.

60 Pocket length

The pocket of the trap must be long enough to allow an air-breathing animal trapped in the trap or the pocket to reach the surface of the water.

61 Pocket float

The pocket must be attached to a float in a way that allows an air-breathing animal trapped in the trap or the pocket to have access to the surface of the water to breathe.

62 Pocket frames

- (1) The pocket must have frames that are—
 - (a) made of rigid material; and
 - (b) no more than 1m apart; and
 - (c) at least 20cm in each of their dimensions.
- (2) The first frame must be no more than 1m from the exit of the trap into the pocket.
- (3) The last frame must be no more than 0.5m from the end of the pocket.

Subdivision 2 Dimension requirements for eel trap frames**63 Dimensions**

An eel trap when set must have a frame that is no longer than 2m, no wider than 0.6m and no deeper than 0.6m.

Subdivision 3 Dimension requirements for round traps

64 Diameter and height

A round trap must have a diameter no more than 1m and a height of no longer than 0.6m.

Division 5 Requirements for using eel traps and round traps

65 Restriction on trapping times

(1) This section applies to an eel trap or a round trap in waters in the freshwater fishery, other than in—

(a) privately owned waters; or

(b) waters—

(i) that the State has the right to use and control the flow of under the *Water Act 2000*, section 19; and

(ii) to which the public does not have access.

Example for paragraph (b)—

waters in a balancing storage, including, for example, the Bullyard Balancing storage

(2) A trap must not be used on—

(a) an ordinary weekend from 9a.m. on Saturday to 4p.m. on Sunday; or

(b) a long weekend from 9a.m. on the first day of the long weekend to 4p.m. on the last day of the long weekend.

(3) However, the trap may remain in the water if it is unbaited and its pocket is open.

(4) In this section—

long weekend means any period of 3 or 4 days, including Easter, made up of a weekend and 1 or 2 public holidays immediately before or immediately after the weekend.

ordinary weekend means a weekend other than a long weekend.

66 Number of traps that may be used

No more than the number of eel or round traps stated on the eel licence under which a trap is used may be used at the same time at each place stated on the licence.

67 Checking traps

An eel trap or a round trap that is in use must be checked within 1 day after being set.

Part 11 Miscellaneous

73 Criteria for suspending authority relating to fishery

- (1) This section applies to an eel licence or another authority that allows the taking or possession of freshwater fish if the authority holder has been convicted (*conviction*) of a serious fisheries offence prescribed under section 625 of the regulation.
- (2) However, this section does not apply if the conviction is a spent conviction.
- (3) For section 68B(4)(b)(i) of the Act, the criteria prescribed for a court suspending the authority are for the holder's—
 - (a) first conviction—2 to 3 months suspension; or
 - (b) second conviction—3 to 6 months suspension; or
 - (c) third conviction—6 months to 1 year's suspension; or
 - (d) fourth conviction—1 to 5 year's suspension; or
 - (e) fifth or subsequent conviction—5 years suspension.
- (4) In this section—

spent conviction means a conviction—

- (a) for which the rehabilitation period under the *Criminal Law (Rehabilitation of Offenders) Act 1986* has expired under that Act; and
- (b) that is not revived as prescribed by section 11 of that Act.

Part 12 Transitional provision

74 Transitional provision for Fisheries Management Plans Amendment Management Plan (No. 1) 2006

- (1) This section applies if, immediately before 1 July 2006, a person holds a nominee authority for an authority that, under section 52 as in force immediately before that day, is an eel authority.
- (2) On 1 July 2006, the nominee under the nominee authority is taken to be an approved nominee of the holder of the authority.

Note—

On 1 July 2006 the authority becomes an eel licence. See section 118 of the regulation.

- (3) The term of the approval is for the rest of the term of the nominee authority stated in the authority.

Schedule 5 Waters where nonindigenous fisheries resources must not be released

section 28(2)

1 Drainage divisions

Waters in river basins in the following drainage divisions—

Bulloo–Bancannia

Gulf of Carpentaria

Lake Eyre

Murray–Darling.

2 River basins in East Coast Drainage Division

Waters in the following river basins in the East Coast Drainage Division—

Baffle

Barron

Bloomfield

Curtis Island

Daintree

Endeavour

Fraser Island

Hann (with the reference number 9102)

Hinchinbrook Island

Jacky Jacky

Jeannie

Lockhart

Schedule 5 (continued)

Mossman
Mulgrave
Murray
Noosa
Normanby
North Johnstone
Olive
Pascoe
Russell
Shoalwater
South Johnstone
Stewart
Stradbroke Islands
Tully
Waterpark
Whitsunday Island.

Schedule 6 Where certain aquaculture fisheries resources may be released

section 29(c)

1 Australian bass

Australian bass may be released only into the following river basins—

Albert

Auburn

Barambah

Bremer

Brisbane

Burnett

Burrum

Caboolture

Eliot

Gregory

Lockyer

Logan

Maroochy

Mary

Nogo

Noosa

North Pine

Southcoast

Schedule 6 (continued)

South Pine

Stanley.

2 Barramundi

Barramundi may be released only into the following river basins—

- (a) river basins for south east Gulf of Carpentaria stock (Point Parker to Pera Head) as follows—

Archer

Cloncurry

Coen

Coleman

Einasleigh

Flinders

Gilbert

Holroyd

L Creek

Leichardt

Mitchell

Morning

Nicholson

Norman

Saxby

Staaten

Watson;

Schedule 6 (continued)

- (b) river basins for north west Cape York stock (Pera Head to Escape River) as follows—

Dulhunty

Embley

Escape

Jackson

Jardine

Mission

Skardon

Wenlock;

- (c) river basins for east coast Cape York stock (Orford Bay to Bathurst Heads) as follows—

Hann (with the reference number 1050)

Lockhardt

Normanby

Olive

Jacky Jacky

Pascoe

Stewart;

- (d) river basins for mid north east Coast stock (Cooktown to Burdekin River) as follows—

Barron

Black

Burdekin

Daintree

Endeavour

Haughton

Schedule 6 (continued)

Herbert

Hinchinbrook Island

Mossman

Mulgrave

Murray

North Johnstone

Ross

Russell

South Johnstone

Tully;

- (e) river basins for central east coast stock (Repulse Bay to Shoalwater Bay) as follows—

O'Connell

Pioneer

Plane

Shoalwater

Styx;

- (f) river basins for south east coast stock (Fitzroy River to Mary River) as follows—

Auburn

Baffle

Barambah

Boyne

Curtis Island

Dawson

Elliot

Schedule 6 (continued)

Fitzroy
Gregory
Isaac
Burnett
Burrum
Calliope
Comet
Kolan
Mackenzie
Mary
Nogo
Nogoa.

3 Eel-tailed catfish

Eel-tailed catfish may be released only into the following river basins—

(a) river basins for eastern stock as follows—

Albert
Auburn
Baffle
Barambah
Boyne
Bremer
Brisbane
Burnett
Burrum

Schedule 6 (continued)

Caboolture

Calliope

Comet

Dawson

Fitzroy

Fraser Island

Isaac

Kolan

Lockyer

Logan

Mackenzie

Maroochy

Mary

Nogo

Nogoa

Noosa

North Pine

Shoalwater

Southcoast

South Pine

Stanley

Waterpark;

- (b) river basins for Murray–Darling Drainage stock as follows—

Balonne

Border Rivers

Schedule 6 (continued)

Condamine

Macintyre

Maranoa

Moonie

Nebine

Paroo

Severn

Warrego.

4 Golden perch

Golden perch may be released only into the following river basins—

(a) river basins for Murray–Darling stock as follows—

Albert

Auburn

Balonne

Barambah

Border Rivers

Bremer

Brisbane

Burnett

Burrum

Caboolture

Condamine

Lockyer

Logan

Schedule 6 (continued)

(b) river basins for east coast stock as follows—

Comet

Dawson

Fitzroy

Isaac

Mackenzie

Nogoa;

(c) river basins for Lake Eyre stock as follows—

Barcoo

Cooper

Diamantina

Schedule 6 (continued)

Georgina

Mulligan

Thomson.

4A Khaki bream

Khaki bream may be released only into the following river basins—

Barron

Daintree

Mulgrave

Murray

North Johnstone

Russell

South Johnstone

Tully.

5 Mary River cod

Mary River cod may be released only into the following river basins—

Albert

Bremer

Brisbane

North Pine

Stanley

Lockyer

Logan

Schedule 6 (continued)

Mary

Southcoast.

6 Murray cod

Murray cod may be released only into the following river basins—

Balonne

Border Rivers

Condamine

Macintyre

Maranoa

Moonie

Nebine

Paroo

Severn

Warrego.

7 Redclaw crayfish

Redclaw crayfish may be released only into the following river basins—

Alice

Archer

Cliffdale

Cloncurry

Coen

Coleman

Dulhunty

Schedule 8 Aids to interpretation and definitions

section 5

Part 1 Provisions aiding interpretation

6 River basins and drainage divisions

- (1) The river basins mentioned in this plan are shown on the river basins map at the end of this part.
- (2) Each river basin is identified on the map by a reference number.
- (3) Each river basin's reference number is shown opposite its name under the heading 'reference numbers' that follows the map.
- (4) The drainage divisions mentioned in this plan are made up of river basins.
- (5) The reference numbers of the river basins that make up each drainage division are as follows—
 - (a) for the Bulloo–Bancannia Drainage Division—number 10112;
 - (b) for the East Coast Drainage Division—numbers 1010 to 1460;
 - (c) for the Gulf of Carpentaria Drainage Division—numbers 9101 to 9280;
 - (d) for the Lake Eyre Drainage Division—numbers 10011 to 10033;
 - (e) for the Murray–Darling Drainage Division—numbers 4162 to 4242.

Schedule 8 (continued)

- (6) The exact location of the boundaries of each river basin and drainage division can be identified on the series of maps called 'figure 1' to 'figure 33' held by the chief executive.¹
- (7) A reference to a river basin or drainage division does not include tidal waters in the river basin or drainage division.

¹ The maps can be inspected during business hours at the department's office at 80 Ann Street, Brisbane.

Schedule 8 (continued)

Part 2 Dictionary

approved nominee, of an eel licence holder, means a person approved under section 47A as the holder's nominee.

aquaculture development means fisheries development relating to aquaculture.

culture stock collection permit means a general fisheries permit for culture stock collection.

eel means a long-finned eel or a short-finned eel.

eel fishery means the commercial fishery for eels under part 8.

eel licence see section 46.

fishery symbol, for the eel fishery, means the symbol 'E'.

freshwater fishery see section 2.

notice means notice in writing.

plan means management plan.

reference number, for a river basin, means its reference number under part 1, section 6 of this schedule and the river basins map at the end of the part.

regulation means the *Fisheries Regulation 2008*.

rigid material includes steel and aluminium.

stocked impoundment—

1 A *stocked impoundment* means the waters of the following—

- Bill Gunn Dam (Lake Dyer)
- Bjelke Peterson Dam
- Boondooma Dam
- Borumba Dam
- Burdekin Falls Dam
- Callide Dam

Schedule 8 (continued)

- Cania Dam
- Connolly Dam
- Cooby Dam
- Coolmunda Dam
- Cressbrook Dam
- Eungella Dam
- Fairbairn Dam
- Fred Haigh Dam (Lake Monduran)
- Glenlyon Dam
- Gordonbrook Dam
- Isis Balancing Storage (Lake Gregory)
- Kinchant Dam
- Lake Clarendon
- Lake MacDonald
- Lenthalls Dam
- Leslie Dam
- Maroon Dam
- Moogerah Dam
- North Pine Dam
- Peter Faust Dam
- Somerset Dam
- Storm King Dam
- Teemburra Dam
- Theresa Creek Dam
- Tinaroo Falls Dam (Lake Tinaroo)
- Wivenhoe Dam
- Wuruma Dam.

Schedule 8 (continued)

- 2 The waters include all waters in the impoundments up to their full supply levels.

stocked impoundment permit see section 44.

trap, for part 8, division 4, subdivision 1, see section 54.

water does not include tidal waters.

waterway does not include tidal waters.
