Information about this reprint

This Act is reprinted as at 2 November 2009. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

Part 4 Competitive neutrality and significant business activities

Division 1 Preliminary

38 Principle of competitive neutrality

The principle of competitive neutrality is that a government agency carrying on a significant business activity should not enjoy a competitive advantage over competitors or potential competitors in a particular market solely because the agency's activities are not subject to 1 or more of the following—

- (a) full Commonwealth or State taxes or tax equivalent systems;
- (b) debt guarantee fees directed towards offsetting the competitive advantages of government guarantees;
- (c) procedural or regulatory requirements of the Commonwealth, the State or a local government on conditions equivalent to the conditions to which a competitor or potential competitor may be subject, including, for example, requirements about the

protection of the environment and about planning and approval processes.

39 Significant business activity

- (1) For this part, a *significant business activity* is a business activity carried on by a government agency and declared to be a significant business activity by the Ministers by gazette notice.
- (2) In making a declaration, the Ministers may have regard to government policies about the application of the principle of competitive neutrality.

Example of policy for subsection (2)—

Government policy statement ‘Competitive Neutrality and Queensland Government Business Activities’ (published by the Queensland Government, July 1996).²

- (3) A declaration must identify the activity by reference to the government agency carrying on the activity.

40 Time for doing things

If, under this part, anything is required to be done by the authority but no period within which, or time by which, the thing is to be done is stated, the thing must be done within a reasonable time.

41 Reference to noncompliance by government agency

In this part, a reference to a government agency not complying with the principle of competitive neutrality in carrying on a significant business activity is a reference to the agency carrying on the activity otherwise than under the principle.

² A copy of the policy may be inspected at the office of the Treasury Department at 100 George Street, Brisbane.

Division 2 Complaints about competitive neutrality

42 Grounds for complaint

A person may make a complaint under this division to the authority against a government agency carrying on a significant business activity on the ground the agency, in carrying on the activity, does not comply with the principle of competitive neutrality.

43 Persons who may make complaint

- (1) A complaint may be made to the authority only by a person who—
 - (a) is, or may be, adversely affected by the competitive advantage alleged by the person to be enjoyed by the government agency; and
 - (b) satisfies a competition requirement.
- (2) A person satisfies a competition requirement if the person—
 - (a) competes in a particular market with the government agency in relation to the significant business activity carried on by the agency; or
 - (b) seeks to compete in a particular market with the government agency in relation to the significant business activity carried on by the agency but is being hindered from doing so by the competitive advantage alleged by the person to be enjoyed by the agency.

44 Making a complaint

A complaint must—

- (a) be in writing; and
- (b) contain details of the alleged noncompliance by the government agency with the principle of competitive neutrality; and
- (c) include sufficient details to show—

- (i) how the complainant is, or may be, adversely affected by the alleged noncompliance; and
- (ii) the complainant and government agency are, or could be, in competition in the particular market; and
- (iii) the complainant has made a genuine, but unsuccessful, attempt to resolve the subject matter of its complaint with the government agency.

45 Further information to support complaint

- (1) The authority may, by written notice given to a complainant, require the complainant to give the authority further information about the complaint within the reasonable time stated in the notice.
- (2) A notice under subsection (1) must relate to information that is necessary and reasonable to help the authority decide whether or not to investigate the complaint.

Division 3 Investigation of complaints

46 Requirement of authority to investigate

- (1) The authority must investigate a complaint received by it unless—
 - (a) the authority reasonably believes the complainant is not, or could not be, in competition in a particular market with the government agency carrying on the significant business activity; or
 - (b) the authority reasonably believes the complainant is not, or the complainant is unlikely to be, adversely affected by the noncompliance by the government agency with the principle of competitive neutrality alleged in the complaint; or
 - (c) the authority reasonably believes the complainant has not shown it has made a genuine attempt to resolve the subject matter of its complaint with the government agency carrying on the significant business activity; or

- (d) if the authority has sought further information about the complaint under section 45—the complainant has failed, without reasonable excuse, to give the information to the authority within the time stated in the relevant notice; or
 - (e) the government agency carrying on the significant business activity has a current accreditation for the activity granted by the authority under this part; or
 - (f) the authority reasonably believes the complaint is frivolous or vexatious.
- (2) In forming a belief for subsection (1)(a), the authority must have regard to the following—
- (a) laws and government policy governing competition in the particular market;
 - (b) whether the complainant is supplying, or could supply, the goods or service the subject of the significant business activity carried on by the government agency, or similar goods or a similar service, in the particular market;
 - (c) the structure of the particular market;
 - (d) any other matter it considers appropriate.
- (3) If the authority decides not to investigate a complaint, the authority must, within 14 days after making the decision, give to the complainant a written notice stating its decision and the reasons for the decision.
- (4) Subsection (1) has effect subject to section 47(2).

47 Effect of complaint on competitive tender process

- (1) This section applies if the complainant and the government agency are engaged in a competitive tender process that relates to the significant business activity the subject of the complaint.
- (2) The authority may decide to—
- (a) investigate, or continue to investigate, the complaint before the tender process has been completed; or

- (b) defer or suspend investigating the complaint until after the tender process has been completed.
- (3) The tender process may be continued and completed despite—
 - (a) the making of the complaint; or
 - (b) the authority making a decision under subsection (2)(a).
- (4) The outcome of the tender process is not affected by—
 - (a) the results of the investigation; or
 - (b) any decision of the Ministers about the results of the investigation.

48 Notice of investigation

- (1) Before starting an investigation under this division, the authority must give reasonable notice of the investigation.
- (2) The notice must be given to—
 - (a) the government agency carrying on the significant business activity; and
 - (b) the responsible Minister for the government agency; and
 - (c) the complainant; and
 - (d) any other person the authority considers appropriate.
- (3) The notice must—

 - (c) invite the person to whom the notice is given to make written, or, if the authority approves, oral, submissions to the authority on the subject matter within a reasonable time stated in the notice; and
 - (d) state the authority's address.

49 Matters to be considered by authority for investigation

Example of a law for subsection (1)(g)—

Government Owned Corporations Act 1993 governing the corporatisation of government entities.

- (2) However, in deciding whether the complaint the subject of an investigation has been substantiated, the authority must not accept that any competitive advantage enjoyed by the government agency solely because of the government ownership or control of the agency is justified because of the existence of a competitive disadvantage suffered by the agency because of the government ownership or control of the agency.
- (3) Subsection (1) does not limit the matters the authority may have regard to in conducting an investigation.

 - (c) if the authority invites the parties to comment, within a period stated by the authority, on a draft determination given to the parties under section 117(5)—a day in the period for making comments stated by the authority;
 - (d) if the parties agree to a day not being included in the 6 month period—a day agreed to by the parties.
- (3) The authority must publish a notice on its website, for each access dispute being dealt with by arbitration, stating—
- (a) the day the 6 month period mentioned in subsection (1) started or will start; and
 - (b) the day the period will end; and
 - (c) for a day not included in the period under subsection (2)—the reason the day is not included in the period.

Editor's note—

The authority's website can be found at <www.qca.org.au>.

- (4) If the authority fails to make an access determination within the 6 month period mentioned in subsection (1), it must, as soon as practicable after the period ends, give written notice of the reasons for the authority's failure to the parties and the Ministers.

118 Examples of access determinations

- (1) Without limiting section 117(3), an access determination may—

- (a) require the access provider to provide access to the service by the access seeker; or
 - (b) require the access seeker to accept, and pay for, access to the service; or
 - (c) state the terms on which the access seeker has access to the service; or
 - (d) require the access provider to extend, or permit the extension of, the facility; or
 - (e) require the access provider to permit another facility to be connected to the facility; or
 - (f) include a requirement that the access provider and access seeker enter into an access agreement to give effect to a matter determined by the authority.
- (2) Also, if the authority makes an access determination that requires or permits the extension of a facility and none of the costs of the extension are to be paid by the access provider, the authority may make an access determination that relates to the ownership of the extension.

119 Restrictions affecting making of access determination

- (1) The authority must not make an access determination that is inconsistent with—
- (a) an approved access undertaking, or access code, for the service; or
 - (b) subject to section 150K, a ruling relating to the service that is in effect under division 7A.
- (2) Also, the authority must not make an access determination that would have any of the following effects—
- (a) reduce the amount of the service able to be obtained by an access provider;
 - (b) result in the access seeker, or someone else, becoming the owner, or 1 of the owners, of the facility, without the existing owner's agreement;
 - (c) require an access provider to pay some or all of the costs of extending the facility.

- (3) Despite subsection (2)(a), the authority may make an access determination reducing the amount of the service able to be obtained by an access provider if—
- (a) the access provider is a party to the arbitration; and
 - (b) the reduction does not prevent the access provider from obtaining a sufficient amount of the service to be able to meet the provider's reasonably anticipated requirements, as assessed by the authority, as at the time the access dispute notice was given; and
 - (c) if the authority considers the access provider is entitled to be compensated for the reduction—the amount of compensation is taken into account in fixing the amount to be paid by the access seeker for access to the service.
- (4) Despite subsection (2)(c), the authority may make an access determination requiring an access provider to extend, or permit the extension of, a facility.
- (5) However, the authority may make an access determination mentioned in subsection (4) only if—
- (a) the access provider is the owner or operator of the facility; and
 - (b) the authority is satisfied—
 - (i) the extension will be technically and economically feasible and consistent with the safe and reliable operation of the facility; and
 - (ii) the legitimate business interests of the owner of the facility are protected; and
 - (iii) if the owner and operator of the facility are different entities—the legitimate business interests of the operator of the facility are also protected; and
 - (c) for an access determination requiring an access provider to extend a facility—the authority imposes a requirement under the determination on a person other than the access provider to pay the costs of extending the facility.

- (6) If the authority makes an access determination mentioned in subsection (4), it must, in fixing the terms of access for the access seeker, take into account—
 - (a) the costs to be paid by the parties for the extension; and
 - (b) the benefits to the parties resulting from the extension.
- (7) An access determination has no effect if it is made in contravention of this section.

120 Matters to be considered by authority in making access determination

- (1) In making an access determination, the authority must have regard to the following matters—
 - (a) the object of this part;
 - (b) the access provider's legitimate business interests and investment in the facility;
 - (c) the legitimate business interests of persons who have, or may acquire, rights to use the service;
 - (d) the public interest, including the benefit to the public in having competitive markets;
 - (e) the value of the service to—
 - (i) the access seeker; or
 - (ii) a class of access seekers or users;
 - (f) the direct costs to the access provider of providing access to the service, including any costs of extending the facility, but not costs associated with losses arising from increased competition;
 - (g) the economic value to the access provider of any extensions to, or other additional investment in, the facility that the access provider or access seeker has undertaken or agreed to undertake;
 - (h) the quality of the service;
 - (i) the operational and technical requirements necessary for the safe and reliable operation of the facility;
 - (j) the economically efficient operation of the facility;

- (k) the effect of excluding existing assets for pricing purposes;
 - (l) the pricing principles mentioned in section 168A.

- (b) the subject matter of the dispute is trivial, misconceived or lacking in substance; or
- (c) the party who gave the access dispute notice has not engaged in negotiations for an access agreement in good faith.

- (3) For subsection (2), the relevant criterion is the terms, taken as a whole, on which the access provider provides, or proposes to provide, access to the declared service to itself and the competitor having regard, in particular, to—
 - (a) the fees, tariffs or other payments to be made for access to the declared service by the access provider and the competitor; and

- (4) An access provider or user of a declared service, or a related body corporate of the access provider or user, may be taken to have engaged in conduct for preventing or hindering a user's access to a service even though, after all the evidence has been considered, the existence of the purpose is ascertainable only by inference from the conduct of the access provider, user or related body corporate or other relevant circumstances.
- (5) Subsections (2) and (4) do not limit the ways in which the purpose of an access provider or user, or a related body

- (3) In making the ruling, the authority must—

150G Period for which ruling has effect

- (1) A ruling has effect for the period stated under section 150F(6)(e) in the ruling notice given for the ruling.

 - (b) the service is later declared.

Subdivision 3 Investigations about rulings**150H Authority may investigate**

For making a ruling, or deciding whether to make a ruling, the authority may conduct an investigation.

- (d) has conspired with others to effect the contravention.

152 Orders to enforce access determination

- (1) This section applies if, on the application of a party to an access determination, the court is satisfied that another party has engaged, is engaging, or proposes to engage, in conduct constituting a contravention of the determination.

- (2) The court may make all or any of the following orders—
 - (a) an order granting an injunction, on terms the court considers appropriate—
 - (i) restraining the other party from engaging in the conduct; or

- (4) The grounds on which the court may decide not to make an order under this section include the ground that division 5 provides a more appropriate way of dealing with the issue of the applicant's access to the service concerned.

154 Consent injunctions

On an application for an enforcement injunction, the court may grant the injunction by consent of all of the parties to the proceeding (whether or not the court is satisfied that the section under which the application is made applies).

155 Interim injunctions

- (1) The court may grant an interim injunction pending determination of an application for an enforcement injunction.
- (2) If the application is made by the authority, the court must not require the authority or another person, as a condition of granting an interim injunction, to give an undertaking as to damages.

156 Factors relevant to granting restraining injunction

The court may grant an enforcement injunction restraining a person from engaging in conduct whether or not—

Division 9 Accounting procedures for declared services

159 Preparation of cost allocation manual

- (1) The authority may prepare a cost allocation manual for use by the access provider of a declared service if—
- (a) the access provider has not prepared a cost allocation manual within 60 days of being asked to do so by the authority; or

- (2) The authority may, from time to time, revise the manual.
- (3) In preparing or revising a manual, the authority—
- (a) must consult with the access provider of the declared service; and
 - (b) may consult with any other persons it considers appropriate; and

160 Publication and distribution of manual

The authority must—

- (a) publish the manual and any revised manual in the way it considers appropriate; and
- (b) give a copy of the manual and any revised manual to the access provider of the declared service.

161 When manual binds access provider

The cost allocation manual is binding on the access provider of the declared service to whom it relates from—

- (a) the day after a copy of the manual is received by the access provider; or
- (b) if a later day is stated in the manual as its day of effect—the later day.

162 Access provider must keep books and records under manual

The access provider of a declared service must—

- (4) Despite section 239, the authority may direct that the accounting records for the declared service be published by the access provider if the authority considers publication—

 - (b) would not be likely to damage the access provider's commercial activities.

Division 11 Other matters

167 Inconsistency between Act or access code and access agreement

If a provision of this Act or an access code is inconsistent with a term of an access agreement, the provision prevails and the term is void to the extent of the inconsistency.

168 Inconsistency between access agreement and access undertaking

A term of an access agreement relating to a declared service is not invalid merely because it excludes, changes or restricts the application or operation of, or is otherwise inconsistent with, a provision of an approved access undertaking for the service.

168A Pricing principles

The pricing principles in relation to the price of access to a declared service are that the price should—

- (a) generate expected revenue for the service that is at least enough to meet the efficient costs of providing access to the service and include a return on investment commensurate with the regulatory and commercial risks involved; and
- (b) allow for multi-part pricing and price discrimination when it aids efficiency; and
- (c) not allow a vertically integrated access provider to set terms and conditions that discriminate in favour of its downstream operations, except to the extent the cost of providing access to other operators is higher; and
- (d) provide incentives to reduce costs or otherwise improve productivity.

Note—

The authority must have regard to the pricing principles when it makes an access determination or decides whether to approve a draft access undertaking. See sections 120 and 138.

169 Authority's role for other access regimes

- (1) Subsection (2) applies if a law of another State that establishes an access regime permits functions to be conferred on the authority for the law, in accordance with an agreement between Queensland and the State concerned.

170 Role of bodies having functions for other access regimes

- (1) This section applies if a law of another State—
 - (a) establishes an access regime; and

- (c) permits functions to be conferred on the authority for the law, in accordance with an agreement between Queensland and the State concerned.
- (2) Functions may be conferred on the body mentioned in subsection (1)(b) for this Act, in accordance with the agreement.

Part 5A Pricing and supply of water

- (2) If this part requires or permits something to be done by a water body, the thing may be done by 1 or more of the participants for the water body.
- (3) If a provision of this part refers to a water body doing something, the provision applies as if the provision referred to 1 or more of the participants for the water body doing the thing for the water body.
- (4) Subsection (5) applies if—
 - (a) a provision of this part requires a water body to do something, or prohibits a water body from doing something; and

- (a) a provision of this part requires a water body to do something, or prohibits a water body from doing something; and
 - (b) a contravention of the provision is not an offence.

- (1) Subsection (2) applies if this part requires or permits a notice to be given to a water supplier and the water supplier consists of 2 or more entities.
- (2) The notice may be given to—
 - (a) if there is a nominated entity for the water supplier—the nominated entity; or
 - (b) if the authority has requested notification of a nominated entity for the water supplier but there is no nominated entity—any 1 of the entities of which the water supplier consists.
- (3) An entity is the nominated entity for a water supplier consisting of 2 or more entities only if a written notice has been given to the authority in relation to the water supplier (the *nominee*) and the notice contains—
 - (a) the nominee's name and address for receiving notices; and
 - (b) a signed statement by the other entities of which the water supplier consists that the nominee is authorised by them to receive notices under this Act for all the entities of which the water supplier consists; and
 - (c) a signed statement by the nominee agreeing to be the entity authorised to receive notices under this Act for all the entities of which the water supplier consists.

- (4) For subsection (2)(b), the authority may request notification of a nominated entity, for a water supplier consisting of 2 or more entities, by giving a notice to each entity of which the water supplier consists asking that a written notice be given to the authority containing—
- (a) the name, and address for receiving notices, of 1 of the entities of which the water supplier consists (also the *nominee*); and
 - (b) a signed statement by the other entities comprising the water supplier that the nominee is authorised by them to receive notices under this Act for all the entities of which the water supplier consists; and
