Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Wild Rivers Act 2005

[as amended by all amendments that commenced on or before 1 December 2010]

An Act to provide for the preservation of the natural values of wild rivers, and for related purposes

Part 1 Preliminary

Division 1 Introduction and purpose of Act

1 Short title

This Act may be cited as the *Wild Rivers Act 2005*.

2 Commencement

This Act commences on a day to be fixed by proclamation.

3 Purpose of Act

- (1) The purpose of this Act is to—
 - (a) preserve the natural values of rivers that have all, or almost all, of their natural values intact; and
 - (b) provide for the preservation of the natural values of rivers in the Lake Eyre Basin.
- (2) The purpose is to be achieved mainly by establishing a framework that includes the declaration of wild river areas that will or may include the following—
 - (a) high preservation areas;

[s 4]

- (b) preservation areas;
 - (c) floodplain management areas;
 - (d) special floodplain management areas;
 - (e) subartesian management areas.
- (3) Through the framework mentioned in subsection (2), this Act and other Acts achieve the purpose mentioned in subsection (1) by—
- (a) providing for the regulation of particular activities and taking of natural resources in a wild river and its catchment to preserve the wild river's natural values; and
 - (b) having a precautionary approach to minimise adverse effects on known natural values and reduce the possibility of adversely affecting poorly understood ecological functions; and
 - (c) treating a wild river and its catchment as a single entity, linking the condition of the river to the health of the catchment; and
 - (d) considering the effect of individual activities and taking of natural resources on a wild river's natural values; and
 - (e) considering the cumulative effect of activities and taking of natural resources affecting a wild river area when further activities or taking are proposed; and
 - (f) if a wild river crosses a State border—working with the other State to encourage preservation of the wild river's natural values in the other State.

4 Act binds all persons

- (1) This Act binds all persons, including the State and, to the extent the legislative power of the Parliament permits, the Commonwealth and the other States.
- (2) However, the Commonwealth or a State can not be prosecuted for an offence against this Act.

Division 2 Interpretation

5 Definitions

The dictionary in the schedule defines particular words used in this Act.

6 Meaning of *nominated waterway*

- (1) A *nominated waterway*, for a wild river declaration, is the part of a drainage channel in the preservation area that—
- (a) is between the upstream and downstream limits, described in the wild river declaration, of the drainage channel; and
 - (b) extends laterally to the outer banks of the drainage channel.

- (2) In this section—

depositional feature means a deposit of clay, sand or silt that is carried in suspension during high flows and deposited in areas where there is a slow flow of water.

Examples—

- mud deposited in cracks in rocks
- sand deposits behind rocks

drainage channel means a passageway or depression that can contain flowing water, whether flowing continuously or periodically.

floodplain means an area of relatively flat land—

- (a) next to a drainage channel; and
- (b) covered by water when water overflows from the drainage channel.

outer bank, of a drainage channel, means—

- (a) if there is a floodplain next to the drainage channel—the place where the top of the bank of the drainage channel meets the floodplain; or

[s 6A]

- (b) if there is not a floodplain next to the drainage channel—the place on the bank of the drainage channel marked by a scour mark or depositional feature.

scour mark means—

- (a) a mark made on a bank of a drainage channel by the sweeping action of suspended sediments in water during high flows; or
- (b) a mark that can be identified by weathering stains, or the absence of lichens, on erosion-resistant surfaces of a bank of a drainage channel.

Example of an erosion-resistant surface—

rock

Part 1A Codes

Division 1 Wild rivers code

6A What is the *wild rivers code*

- (1) The *wild rivers code* is the ‘Wild Rivers Code’ made by the Minister on 30 January 2007, or that code as amended from time to time under this division.
- (2) The wild rivers code is a statutory instrument under the *Statutory Instruments Act 1992*.

6B Code amendments

- (1) The Minister may amend the wild rivers code.
- (2) Subject to section 6C, an amendment of the wild rivers code takes effect when—
- (a) it is approved by the Governor in Council; and
- (b) the approval is gazetted.

-
- (3) The Minister must table a copy of the amendment in the Legislative Assembly within 14 sitting days after the Governor in Council's approval of the amendment is gazetted.
 - (4) In this section—
amend includes replace.

6C Code amendments not requiring gazettal or tabling

- (1) This section applies if the Minister amends the wild rivers code and the amendment is a minor amendment or permitted amendment of the code.
- (2) The amendment takes effect when it has been approved by the Governor in Council.
- (3) The requirements of section 6B do not otherwise apply for the amendment.
- (4) In this section—
minor amendment, of the wild rivers code, means an amendment that is only to correct a minor error in the code or to make another change that is not a change of substance.
permitted amendment, of the wild rivers code, means an amendment of—
 - (a) a provision of the code about a suggested way of achieving a required outcome under the code; or
 - (b) a definition in a dictionary in the code; or
 - (c) a provision of the code to make it consistent with a regional vegetation management code under the *Vegetation Management Act 1999*.

6D Publication of wild rivers code

[s 6E]

- during office hours on business days; and
- (b) on the department's web site.
