Information about this reprint

This regulation is reprinted as at 1 July 2012. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

 - (b) not cause the land, to which the application relates, to include any land that is not land to which the applicant's prospecting permit, exploration permit or mineral development licence, applies.
- (4) Also, this section does not authorise or entitle the applicant to have the affected land surveyed.

17 Person may obtain copy of mining lease application

- (1) A person may apply, in writing, to a mining registrar for a copy of an application for a mining lease.
- (2) The application for the copy must be accompanied by the prescribed fee.
- (3) However, the mining registrar must not give the person a copy of a statement that accompanied the application for the mining lease if the statement contains information about the applicant's financial or technical resources.

19A Required level of knowledge about resources or reserves of petroleum

- (1) This section prescribes, for section 318BA(1)(c) of the Act, the required level of knowledge about a resource or reserve (the *deposit*) of petroleum in the land.
- (2) The requirements are that the Minister is reasonably satisfied that—
 - (a) at least 20% of the deposit is a proved or probable reserve under the relevant codes; and
 - (b) the remainder of the deposit, if any, is a low or best estimate contingent resource under the relevant codes.
- (3) Also, for a deposit of coal seam gas, the Minister must be reasonably satisfied that—

[s 19B]

- (a) there is adequate geological continuity for each coal seam (*relevant coal seam*) in relation to which the deposit occurs; and
 - (b) there is adequate data to establish each of the following—
 - (i) the composition of the gas in the natural underground reservoir;
 - (ii) the volume of the gas in the natural underground reservoir in relation to the mass of the coal seam;
 - (iii) flow rates for the natural underground reservoir, based on information obtained from drill stem or other tests; and
 - (c) sufficient production testing for coal seam gas has been undertaken throughout the deposit in the relevant coal seams to provide adequate certainty in relation to the estimations required under subsection (2)(a) and (b); and
 - (d) there are reasonable prospects for the economic production of coal seam gas from the deposit.
- (4) In deciding the amount of data required to make estimates of the resource or reserve for subsection (2)(a) and (b) for a deposit of coal seam gas, and the amount of data required in relation to subsection (3)(a) to (c), the Minister may have regard to the document called ‘Australian guidelines for estimating and reporting of inventory coal, coal resources and coal reserves’ (2003) published by the Coalfields Geology Council of New South Wales and the Queensland Mining Council.
- (5) In this section—
relevant codes see section 318BA of the Act.

19B Condition of mining lease—principal hazard management plan

- (1) This section applies in relation to a coal mining lease if—

-
- (a) coal mining operations carried out under the mining lease are carried out—
 - (i) within the area of a petroleum lease (an *overlapping petroleum lease*); or
 - (ii) adjacent to the area of a petroleum lease (an *adjacent petroleum lease*); and
 - (b) the coal mining operations physically affect, or may physically affect—
 - (i) the safety of persons or plant in the area of the petroleum lease; or
 - (ii) the efficiency with which the authorised activities under the petroleum lease can be carried out.
- (2) It is a condition of the mining lease that the holder must—
- (a) before the coal mining operations commence, make a principal hazard management plan for the mining lease that complies with section 19D; and
 - (b) if section 19C applies, before making the plan—
 - (i) make reasonable attempts to consult with the petroleum lease holder about the plan; and
 - (ii) subject to section 19C(3), have regard to any reasonable provisions for the plan proposed by the petroleum lease holder; and
 - (c) implement and maintain the plan.
- (3) A principal hazard management plan made by the mining lease holder may also relate to another coal mining lease—
- (a) that is held by the same holder; and
 - (b) under which coal mining operations are carried out in or adjacent to the area of the petroleum lease.
- (4) The condition of the holder's mining lease mentioned in subsection (2) is taken to have been complied with if—
- (a) a principal hazard management plan (a *mine's principal hazard management plan*) has been implemented under

[s 19C]

- the *Coal Mining Safety and Health Act 1999* for each coal mine operated under the lease at which coal mining operations mentioned in subsection (1) are carried out; and
- (b) the mine's principal hazard management plan contains all of the matters mentioned in section 19D; and
 - (c) before the mine's principal hazard management plan was made, the consultation requirements under subsection (2)(b) were complied with to the extent the plan was proposed to contain the matters mentioned in section 19D.
- (5) If the holder's mining lease is in force immediately before this section commences, the condition in subsection (2) does not apply for the lease until 6 months after the day this section commences.

19C Consultation requirement for principal hazard management plan

- (1) This section applies if—
 - (a) the holder of a mining lease to which section 19B applies is not the holder of the adjacent or overlapping petroleum lease; and
 - (b) the coal mining operations are carried out adjacent to the area of the petroleum lease.
- (2) For section 19B(2)(b)(i), the mining lease holder is taken to have made reasonable attempts to consult if—
 - (a) the holder gives the petroleum lease holder a copy of the holder's proposed principal hazard management plan; and
 - (b) the petroleum lease holder has not, within 20 days after being given the copy, made any proposal to the mining lease holder about the provisions for the plan.
- (3) The obligation under section 19B(2)(b)(ii) applies only to the extent the provisions are commercially and technically

feasible for the mining lease holder or the holder of any adjacent or overlapping petroleum lease.

19D Content of principal hazard management plan

- (1) For section 19B, a principal hazard management plan must, for the coal mining operations mentioned in section 19B(1)—
- (a) identify and assess the physical effects created or that may be created by the coal mining operations in relation to—
 - (i) the safety of persons or plant in the area of an adjacent or overlapping petroleum lease; or
 - (ii) the efficiency with which the authorised activities under the adjacent or overlapping petroleum lease can be carried out; and
 - (b) identify the triggers or material changes or effects, or the likely triggers, material changes or effects, that must be monitored, including for example, specific purpose boundary monitoring, if required; and
 - (c) for each matter identified under paragraph (b)—
 - (i) state response procedures and times; and
 - (ii) state the type of action required for the response; and
 - Examples of action that may be required—*
 - 1 a risk analysis
 - 2 notice to the petroleum lease holder of—
 - (a) a drop in hydrostatic pressure that may show a potential hazard to persons carrying out authorised activities under the petroleum lease; or
 - (b) a change in water that may show fluid interconnections with an adjacent petroleum lease
 - (iii) state the reporting procedures.

[s 19E]

- (2) The potential hazard guide in schedule 2A is a list of potential hazards that may be created by coal mining operations in relation to exploring for or producing coal seam gas or petroleum.
- (3) The guide is intended to help the mining lease holder identify and assess the effects mentioned in subsection (1)(a).

19E Resolving disputes about provision proposed by petroleum lease holder

- (1) This section applies if there is a dispute between the holder of the mining lease and a petroleum lease holder about the reasonableness of a provision proposed by the petroleum lease holder for the mining lease holder's proposed principal hazard management plan for the mining lease.
- (2) Either party may refer the dispute to the chief inspector of coal mines to decide whether the proposed provision is reasonable.
- (3) The referral must be—
 - (a) written; and
 - (b) lodged at the following office (the *relevant office*)—
 - (i) the office of the department for lodging the referral, as stated in gazette notice by the chief inspector of coal mines;
 - (ii) if no office is gazetted under subparagraph (i)—the office of the chief inspector of coal mines.
- (4) Before deciding the dispute, the chief inspector of coal mines must give each party a reasonable opportunity to lodge at the relevant office submissions about the dispute.
- (5) The chief inspector may decide the dispute only with the agreement of the chief inspector, petroleum and gas.
- (6) The decision of the chief inspector of coal mines binds each party to the dispute.
- (7) The chief inspector of coal mines must give each party written notice of the decision.

(8) In this section—

chief inspector of coal mines means the chief inspector of coal mines under the *Coal Mining Safety and Health Act 1999*.

chief inspector, petroleum and gas means the chief inspector under the Petroleum and Gas (Production and Safety) Act.

19F Requirement to stop particular activities

(1) The holder of a mining lease must ensure coal mining operations carried out under the lease stop immediately if—

(a) the holder becomes aware, or ought reasonably to be aware, that the operations physically affect the efficiency with which authorised activities under an adjacent or overlapping petroleum lease can be carried out; and

(b) the holder of the petroleum lease has not consented to the operations being carried out.

Maximum penalty—20 penalty units.

(2) The holder must ensure the activity does not resume until—

(a) the operations are modified so they do not have a physical effect on the efficiency of the petroleum activities to the extent mentioned in subsection (1); or

(b) the holder of the petroleum lease consents in writing to the operations being carried out.

Maximum penalty—20 penalty units.

(3) In this section—

acceptable level of risk has the meaning given under the Petroleum and Gas (Production and Safety) Act, section 700.

Part 8 Restrictions on grant

Division 1 Preliminary

20 Restricted areas

- (1) Each of the areas of land described in schedule 3—
 - (a) is a restricted area; and
 - (b) has the name stated, in schedule 3, for the area.
- (2) Schedule 3 also provides for 1 or more of the following for each restricted area—
 - (a) the prohibited mining tenements;
 - (b) the maximum grant area;
 - (c) the maximum number of tenements;
 - (d) the nominated referral entity;
 - (e) additional conditions that apply to mining tenements relating to the restricted area.

Division 2 Restrictions on grant

21 Restrictions on grant of mining tenements

The following things are prohibited for a restricted area—

- (a) the grant, or an application for the grant, of each prohibited mining tenement stated, in schedule 3, for the restricted area;
- (b) the grant of a mining tenement over an area of land that exceeds the maximum grant area stated, in schedule 3, for the tenement, in relation to the restricted area.

22 Restrictions on number of particular mining tenements

A holder of an exploration permit, mineral development licence, or mining lease, relating to a restricted area must not hold, alone or jointly with another person, more than the maximum number of exploration permits, mineral development licences, or mining leases stated, in schedule 3, for the restricted area.

23 Referral of applications

An application for the grant of a mining tenement relating to a restricted area must be referred to the nominated referral entity stated, in schedule 3, for the restricted area.

Part 9 Royalties

Division 1 Provisions about royalty returns

24 Application of div 1

This division prescribes, for section 320(4) of the Act, the requirements for royalty returns lodged under the Act.

25 Form of royalty returns

A royalty return lodged under the Act must be in the approved form.

26 Information to accompany or support royalty return

The Minister may require—

- (a) that a royalty return lodged by a particular person, or for a particular mining operation, be accompanied by

[s 27]

information to support the matters stated in the royalty return; or

- (b) a person who has lodged a royalty return to provide further information to support the matters stated in the royalty return.

27 Period to which a royalty return must relate

- (1) A royalty return lodged by a person must relate to a period of—
 - (a) 1 year starting on—
 - (i) 1 July; or
 - (ii) if the Minister has, by giving written notice to the person, approved another day for the start of the year—the day approved by the Minister; or
 - (b) if the Minister has decided, having regard to the size of the operation to which the return relates, the return should be lodged for a quarter—1 quarter starting on the first day of the quarter decided by the Minister to be the quarter to which the return must relate.
- (2) However, if the royalty return relates to oil shale, the royalty return must relate to a calendar quarter.

28 When royalty return must be lodged

- (1) A royalty return lodged under the Act must be lodged—
 - (a) if the return relates to a year—within 3 months after the day the year ended; or
 - (b) if the return relates to a quarter—on or before the last business day of the month after the day the quarter ended.
- (2) However, if a mining operation ends within the year or quarter, the royalty return must be lodged within 3 months after the day the operation ended.

- (3) Also, a person may apply, in writing, to the Minister for approval to lodge the royalty return on a day later than the day mentioned in subsection (1) or (2).
- (4) A royalty return lodged after the day mentioned in subsection (1) or (2) or, if the Minister has approved a later day under subsection (3), the later day approved by the Minister, must be accompanied by the prescribed fee.

29 No royalty return required in particular circumstances

- (1) This section applies in relation to a mining operation if—
 - (a) the mining operation consists of mining minerals under only 1 or more mining claims; and
 - (b) no royalty is payable for the mining operation for a return period.
- (2) No royalty return is required to be lodged in relation to the mining operation for the return period.

Note—

See, however, section 325 of the Act for the requirement that a person lodge a royalty return if the person assigns or surrenders, otherwise than for the purpose of a grant of a new mining claim, a mining claim in a return period.

- (3) Subsection (2)—
 - (a) does not prevent the Minister requiring, under section 327(1)(d) of the Act, the holder of a mining claim to lodge a royalty return for the return period; and
 - (b) is taken not to apply for the return period for that purpose.

[s 30]

Division 2 Royalty payable for minerals

Subdivision 1 Royalty payable

30 When royalty payable—yearly return period

The royalty payable by a person under the Act for a return period that is 1 year is payable on the day the royalty return must be lodged for the return period.

30A When and how royalty payable—quarterly return period

- (1) Subject to subsection (3), the royalty payable by a person under the Act for a return period that is a quarterly return period is payable as follows—
 - (a) instalment 1 is payable on or before the last business day of the second month of the return period;
 - (b) instalment 2 is payable on or before the last business day of the third month of the return period;
 - (c) instalment 3 is payable on the day a royalty return must be lodged for the return period.
- (2) A person must lodge an approved form for a payment under subsection (1) when the payment is made.
- (3) If the Minister considers it appropriate to do so, the Minister may by written notice (a *quarterly payment notice*) allow a person to pay the royalty payable by the person under the Act for a quarterly return period on the day the royalty return must be lodged for the return period.
- (4) A quarterly payment notice given to a person must state the period for which the notice applies.
- (5) If the Minister considers it appropriate to do so, the Minister may, by written notice, withdraw a quarterly payment notice.
- (6) A withdrawal under subsection (5) takes effect from the start of the next return period after the return period in which the notice of the withdrawal is given ends.

(7) In this section—

instalment 1, for a return period, means—

- (a) the amount payable by the person for the first month of the return period worked out under section 30B(2); or
- (b) if an election under section 30C(3) applies for the first month of the return period—the amount payable by the person for the first month of the return period worked out under section 30C(5).

instalment 2, for a return period, means—

- (a) the amount payable by the person for the second month of the return period worked out under section 30B(3); or
- (b) if an election under section 30C(3) applies for the second month of the return period—the amount payable by the person for the second month of the return period worked out under section 30C(6).

instalment 3, for a return period, means—

- (a) if the sum of instalment 1 and instalment 2 for the return period is less than the royalty payable by the person under the Act for the return period—the amount that is the total amount of royalty payable by the person under the Act for the return period less that sum; or
- (b) otherwise—zero.

Note—

Section 45 provides for a refund if the amount of royalty paid for a return period is more than the amount of royalty payable assessed by the chief executive under section 44.

quarterly return period means a return period that is a quarter.

30B Working out monthly payments for quarterly return period generally

- (1) This section prescribes, for section 30A(1), the amounts payable by a person for each month of a return period.

[s 30B]

Note—

Section 30C allows a person to make an election to change the amount payable for the first or second month of a return period if the person reasonably believes the royalty payable by the person under the Act for the return period will be less than the royalty payable by the person under the Act for the previous return period.

- (2) The amount payable by the person for the first month of the return period is an amount that is a third of the total amount of the royalty payable by the person under the Act for the previous return period.
- (3) The amount payable by the person for the second month of the return period is an amount that is a third of the total amount of the royalty payable by the person under the Act for the previous return period.
- (4) For subsections (2) and (3), the royalty payable by the person under the Act for the previous return period is the royalty payable by the person under the Act for the previous return period—
 - (a) taking into account any determination under section 330 of the Act, and any reassessment under section 331 of the Act, for the royalty made before the earlier of the following happens—
 - (i) the amount for the first month of the return period is paid;
 - (ii) the amount for the first month of the return period becomes payable; and
 - (b) disregarding any determination under section 330 of the Act, and any reassessment under section 331 of the Act, for the royalty made when or after the earlier of the following happens—
 - (i) the amount for the first month of the return period is paid;
 - (ii) the amount for the first month of the return period becomes payable.

Example—

The royalty paid for the previous return period was \$90000. A reassessment for the previous return period was made by the Minister under section 331 of the Act to increase the royalty payable for the previous return period to \$120000. The reassessment was made before the amount payable for the first month of the return period is paid or becomes payable (whichever is the earlier). Accordingly, the amount payable under this section for the first month and second month of the return period is \$40000 (being a third of \$120000).

- (5) If the person has not lodged a royalty return for the previous return period as required under the Act—
 - (a) the Minister—
 - (i) may estimate the amount of royalty payable by the person under the Act for the previous return period for working out the amounts payable under subsections (2) and (3); and
 - (ii) must give the person a written notice stating the estimated amount; and
 - (b) for subsections (2) and (3), the royalty payable by the person under the Act for the previous return period is the estimated amount.
- (6) If the previous return period was not a quarter—
 - (a) the Minister—
 - (i) may adjust the amount of royalty payable by the person under the Act for the previous return period to estimate an amount representative of the royalty that would have been payable if the previous return period were a quarter; and
 - (ii) must give the person a written notice stating the estimated amount; and
 - (b) for subsections (2) and (3), the royalty payable by the person under the Act for the previous return period is the estimated amount.
- (7) In estimating an amount for subsection (5) or (6), the Minister may have regard to—

[s 30C]

- (a) any other royalty returns lodged by the person; and
 - (b) the size of the operation for which the royalty is payable; and
 - (c) any other relevant matter.
- (8) In this section—
- previous return period*, for a return period, means the return period immediately preceding that return period.

30C Election to change monthly payments for quarterly return period

- (1) This section applies if—

[s 41]

Subdivision 2 Value of minerals generally

41 Value of coal seam gas

The value of coal seam gas must be worked out in the same way as the value of petroleum is worked out for the Petroleum and Gas (Production and Safety) Act, section 590(3).

42 Value of minerals other than coal seam gas

- (1) The value of a mineral other than coal seam gas must be worked out by—
 - (a) working out the gross value of the mineral under subdivision 3; and
 - (b) if the mineral is coal—adding, to the gross value, any amount relating to an early despatch of the coal from a port; and
 - (c) subtracting the following amounts from the gross value or, if paragraph (b) applies, the amount worked out by adding the gross value and the amount mentioned in paragraph (b)—
 - (i) any marine cost for the mineral;
 - (ii) if the mineral is a prescribed mineral—the amount the Minister has decided, on reasonable grounds, is the amount that should be subtracted from the gross value to allow for the loss of metal content in the processing of the particular prescribed mineral;
 - (iii) any other cost the Minister has decided, on reasonable grounds, is a type of cost that should be subtracted from the gross value.
- (2) Also, in working out the value of a mineral that is sold, regard must be had to any change in the exchange rate from the time the mineral was sold to the time any payment for the sale is received by the producer.
- (3) In this section—

marine cost means—

- (a) for coal—
 - (i) a cost relating to a late despatch of the coal from a port; or

- (g) for zinc—\$1900 for each tonne.

reference price 2, for a prescribed mineral, means—

- (a) for cobalt—\$38 for each pound; or
- (b) for copper—\$9200 for each tonne; or

- (c) for gold—\$890 for each troy ounce; or
- (d) for lead—\$2500 for each tonne; or
- (e) for nickel—\$38100 for each tonne; or
- (f) for silver—\$16.50 for each troy ounce; or
- (g) for zinc—\$4400 for each tonne.

2 Royalty rate for prescribed mineral

- (1) The royalty rate for a prescribed mineral is—
 - (a) if the average market price for the mineral is equal to or lower than reference price 1 for the mineral—2.5% of the value of the prescribed mineral; or
 - (b) if the average market price for the mineral is higher than reference price 1 for the mineral but lower than reference price 2 for the mineral—the prescribed percentage of the value of the prescribed mineral; or
 - (c) if the average market price for the mineral is equal to or higher than reference price 2 for the mineral—5% of the value of the prescribed mineral.

- (2) In this section—

prescribed percentage means the amount, expressed as a percentage, rounded down to nearest increment of 0.02%, worked out by using the following formula—

$$PP = 2.5\% + \left(\frac{PD}{RFD} \times 2.5\% \right)$$

where—

PP is the prescribed percentage.

PD is the difference between the average market price and reference price 1 for the prescribed mineral.

RFD is the difference between reference price 2 and reference price 1 for the prescribed mineral.

Example—

If, for a quarter, the average market price for copper is \$5045 for each tonne of copper, the royalty rate for copper for the quarter must be worked out under subsection (1)(b), given the average market price is higher than reference price 1 for copper (\$3600) but lower than reference price 2 for copper (\$9200). The royalty rate would be 3.14%, being the amount (3.145089%) worked out by using the formula in subsection (2), definition *prescribed percentage*, rounded down to the nearest increment of 0.02%.

Part 2 Royalty rates for minerals other than prescribed minerals

1 Particular minerals

The royalty rate for the following minerals is the rate, for each tonne of the mineral, stated opposite the mineral—

	\$
1 Bentonite	1.80
2 Calcite	1.00
3 Clay shale	0.50
4 Clay used for fired clay products	0.50
5 Diatomite	1.50
6 Dolomite	1.00
7 Felspar	0.75
8 Gypsum	0.50
9 Kaolin	1.00
10 Lime, earth	0.50
11 Limestone	0.75
12 Magnesite	1.50
13 Marble	1.00
14 Mica	1.50
15 Perlite	1.00

	\$
16 Rock mined in block or slab form for building or monumental purposes.....	1.00
17 Salt	1.50
18 Sand, gravel and rock, other than rock mined in block or slab form for building or monumental purposes	0.50
19 Silica.....	0.90
20 Wollastonite	0.75

2 Bauxite

The royalty rate for bauxite is—

- (a) if it is sold, disposed of or used outside the State by the holder of the mining lease for the bauxite—the higher of the following—
 - (i) 10% of the value of the bauxite;
 - (ii) \$2 for each tonne of bauxite; or
- (b) if it is sold, disposed of or used within the State by the holder of the mining lease for the bauxite—
 - (i) for a holder who has sold, disposed of or used bauxite outside the State—the higher of the following—
 - (A) 75% of the amount per tonne of the rate calculated under paragraph (a)(i);
 - (B) \$1.50 per tonne of bauxite; or
 - (ii) otherwise—\$1.50 per tonne of bauxite.

3 Coal

- (1) The royalty rate for coal is the higher of the following—
 - (a) 7% of the value of coal;
 - (b) the rate, rounded down to 2 decimal places, for each tonne of coal worked out using the following formula—

$$RR = 7\% + \left(\frac{(AP - 100)}{AP} \times 3\% \right)$$

where—

RR is the royalty rate.

AP is the average price per tonne of the coal sold, disposed or used in the quarterly period.

Note—

The royalty rate for coal prescribed under this section is not prescribed for the purpose or effect of funding the development or demonstration of technology which will assist in reducing the production or emission of Greenhouse Gas from the use of coal. See the *Clean Coal Technology Special Agreement Act 2007*, schedule, section 2.5.

- (2) The royalty rate must be worked out and applied separately for coal sold, disposed of or used inside the State and coal sold, disposed of or used outside the State.

4 Corundum, gemstones and other precious stones

The royalty rate for corundum, gemstones or other precious stones is 2.5% of the value of the corundum, gemstones or precious stones.

5 Coal seam gas

The royalty rate for coal seam gas is the rate applying to petroleum under the Petroleum and Gas (Production and Safety) Act, section 590.

5A Manganese, molybdenum, rare earths, tantalum and tungsten

The royalty rate for any of the following minerals is 2.7% of the value of the mineral—

- (a) manganese;
- (b) molybdenum;
- (c) rare earths;

- (d) tantalum;
- (e) tungsten.

6 Mineral sands

- (1) The royalty rate for a concentrate of a mineral sand is 5% of the value of the concentrate.
- (2) In this section—
mineral sand includes the following—

- (a) anatase;
- (b) ilmenite;
- (c) leucoxene;
- (d) monazite;
- (e) rutile;
- (f) zircon.

7 Phosphate rock

- (1) The royalty rate for phosphate rock is the higher of the following—
 - (a) 80 cents for each tonne of phosphate rock;
 - (b) the rate, rounded down to 2 decimal places, for each tonne of phosphate rock worked out using the following formula—

$$R = \$1 \times \frac{G}{32.3} \times \frac{P_{curr}}{\$72.50}$$

where—

R is the royalty rate.

G is the average P₂O₅ content of the phosphate rock for the return period.

P_{curr} is the average price for the return period, converted to Australian dollars at the average hedge settlement rate

for the return period, of Moroccan phosphate rock with 32.3% P₂O₅ content.

Editor's note—

The price, in US dollars, of Moroccan phosphate rock with 32.3% P₂O₅ content is published in the magazine called Fertilizer Week.

(2) In this section—

average hedge settlement rate, for a return period, means the average, worked out for the return period, of the hedge settlement rates for each day in the return period.

Example for subsection (1)—

For a quarter—

- the average P₂O₅ content of phosphate rock is 24%
- the average price of Moroccan phosphate rock with 32.3% P₂O₅ content is US\$46
- the average hedge settlement rate is 65c.

The rate under subsection (1)(b), by applying the formula, is 72.53c. Therefore, the royalty rate is 80c for each tonne of the phosphate rock.

8 Processed oil shale

(1) The royalty rate for oil shale that is processed is the lesser of the following—

- (a) 10% of the value of the oil processed from the oil shale; or
- (b) the WTI%, rounded to 2 decimal places, of the value of the oil processed from the oil shale.

(2) For subsection (1)(b), the WTI% must be worked out using the following formula—

$$\text{WTI}\% = \left(\left[\frac{\text{CPI}_{\text{BASE}}}{\text{CPI}_{\text{NOW}}} \times \text{WTI} \right]^2 \div 1000 \right) + 0.5$$

where—

CPI_{BASE} is 110.0.

CPI_{NOW} is the CPI for the calendar quarter for which the royalty for oil shale is being worked out.

WTI is the average crude oil price.

(3) In this section—

average crude oil price means the ‘Crude Oil West Texas—Spot—Last’ price published in the Australian Financial Review—

- (a) converted to Australian dollars at the hedge settlement rate for each day of trading in the calendar quarter for which the royalty payable for oil shale is being worked out; and
- (b) averaged over the calendar quarter for which the royalty payable for oil shale is being worked out.

CPI means the ‘Consumer Price Index: All Groups Index Numbers—Weighted Average of 8 Capital Cities’ published by the Australian Bureau of Statistics.

Example for subsection (1)—

For a calendar quarter—

- the CPI is 134.2; and
- the WTI is \$A30.

The WTI%, worked out using the formula in subsection (2), is 1.10%. Therefore, the royalty rate for oil would be 1.10% of the oil’s value.

9 Iron ore

(1) The royalty rate for iron ore is—

- (a) if the average price for each tonne of iron ore is \$100 or less—\$1.25 for each tonne; or
- (b) if the average price for each tonne of iron ore is more than \$100—the following percentage of the value of the iron ore, whichever is the higher—
 - (i) 1.25%;

- (ii) the amount, expressed as a percentage, worked out using the following formula, rounded down to nearest increment of 0.02%—

$$P = 1.25\% + \left(\frac{(A - 100)}{A} \times 1.25\% \right)$$

where—

P is the percentage.

A is the average price for each tonne of the iron ore.

- (2) In this section—

average price for each tonne, of iron ore, means the average price for each tonne of the iron ore sold, disposed of or used in the return period.

10 Other minerals

The royalty rate for a mineral for which a royalty rate is not already stated in this schedule is 2.5% of the value of the mineral.
