Sustainable Planning Regulation 2009

Current as at 12 April 2013

Information about this reprint

This reprint shows the legislation current as at the date on the cover and is authorised by the Parliamentary Counsel.

A new reprint of the legislation will be prepared by the Office of the Queensland Parliamentary Counsel when any change to the legislation takes effect. This change may be because a provision of the original legislation, or an amendment to it, commences or because a particular provision of the legislation expires or is repealed.

When a new reprint is prepared, this reprint will become a historical reprint. Also, if it is necessary to replace this reprint before a new reprint is prepared, for example, to include amendments with a retrospective commencement, an appropriate note would be included on the cover of the replacement reprint and on the copy of this reprint at www.legislation.qld.gov.au.

The endnotes to this reprint contain detailed information about the legislation and reprint. For example—

- The table of reprints endnote lists any previous reprints and, for this reprint, gives details of any discretionary editorial powers under the Reprints Act 1992 used by the Office of the Queensland Parliamentary Counsel in preparing it.
- The list of legislation endnote gives historical information about the original legislation and the legislation which amended it. It also gives details of uncommenced amendments to this legislation. For information about possible amendments to the legislation by Bills introduced in Parliament, see the Queensland Legislation Current Annotations at www.legislation.qld.gov.au/information.
- The list of annotations endnote gives historical information at section level.

All Queensland reprints are dated and authorised by the Parliamentary Counsel. The previous numbering system and distinctions between printed and electronic reprints are not continued.

- (2) Each designated region has the name given in schedule 1.

[s 4A]

4A Prescribed day for particular State planning policies to end—Act, s 45

For section 45(2) of the Act, the prescribed day for the following State planning policies to end is—

- (a) for ‘State planning policy 1/02—Development in the vicinity of certain airports and aviation facilities’—3 August 2013;
- (b) for ‘State planning policy 2/02—Planning and managing development involving acid sulfate soils’—18 November 2014.

5 Guideline for making or amending planning scheme or planning scheme policy—Act, s 117(1)

The guideline for making or amending a planning scheme or planning scheme policy is contained in the document called ‘Statutory guideline 02/12 Making and amending local planning instruments’, dated 30 October 2012 and published by the department.

6 Guideline for making temporary local planning instrument—Act, s 117(2)

The guideline for making a temporary local planning instrument is contained in the document called ‘Statutory guideline 02/12 Making and amending local planning instruments’, dated 30 October 2012 and published by the department.

8 Community infrastructure—Act, s 200

Community infrastructure stated in schedule 2 is prescribed for section 200 of the Act.

Part 3 Prescribed matters for IDAS

Division 1 General

9 Assessable development, self-assessable development and type of assessment—Act, s 232

- (1) For section 232(1) of the Act—
 - (a) development stated in schedule 3, part 1, column 2 is assessable development; and
 - (b) development stated in schedule 3, part 2, is self-assessable development.
- (2) For section 232(3) of the Act, schedule 3, part 1, column 3 identifies the type of assessment for the development stated opposite in column 2.

10 Development that can not be declared to be development of a particular type—Act, s 232

Development mentioned in schedule 4 is prescribed for section 232(2) of the Act.

11 Applicable codes, laws and policies for development

Schedule 5, parts 1 and 2, column 2 identifies the codes, laws and policies that may apply for assessing the aspect of development mentioned opposite in column 1.

12 Assessment manager for development applications—Act, s 246

For section 246(1) of the Act, schedule 6, column 2 states the assessment manager for the development application mentioned opposite the assessment manager in column 1.

[s 13]

13 Referral agencies and their jurisdictions—Act, ss 250, 251 and 254

For sections 250(a), 251(a) and 254(1) of the Act—

- (a) schedule 7, column 2 states the referral agency, and whether it is an advice agency or a concurrence agency, for the development application mentioned in column 1; and
- (b) schedule 7, column 3 states the jurisdiction of the referral agency mentioned in column 2.

16 Requirements for placing public notices on land—Act, s 297

- (1) This section prescribes, for section 297(1)(b) of the Act, requirements for placing a notice on land.
- (2) The notice must be—
 - (a) placed on, or within 1500mm of, the road frontage for the land; and
 - (b) mounted at least 300mm above ground level; and
 - (c) positioned so that it is visible from the road; and
 - (d) made of weatherproof material; and
 - (e) at least 900mm in height and 1200mm in width.
- (3) The lettering on the notice must be as stated on the approved form of the notice.
- (4) If the land has more than 1 road frontage, a notice must be placed on each road frontage for the land.
- (5) The applicant must maintain the notice from the day it is placed on the land until the end of the notification period.

-
- (6) In this section—
- road frontage*, for land, means—
- (a) the boundary between the land and any road adjoining the land; or
 - (b) if the only access to the land is across other land—the boundary between the other land and any road adjoining the other land at the point of access.

Division 2 Compliance assessment

18 Compliance assessment of particular development—Act, ss 232 and 397

For sections 232(1)(b) and 397(3) of the Act, schedule 18 prescribes—

- (a) particular development that requires compliance assessment; and
- (b) the matters or things against which the development must be assessed; and
- (c) the entity to whom the request for compliance assessment must be made.

19 Compliance assessment of plans for reconfiguring a lot—Act, ss 397 and 415

(1) For section 397(1) and (3) of the Act, schedule 19 prescribes—

- (a) a particular document that requires compliance assessment; and
- (b) the matters or things against which the document must be assessed; and
- (c) the entity to whom the request for compliance assessment must be made; and

[s 20]

- (d) when the request for compliance assessment must be made.
- (2) For section 415 of the Act—
 - (a) schedule 19 also prescribes additional actions that must be taken by the compliance assessor in relation to the assessment of the document; and
 - (b) a compliance certificate must be in the form required under the *Land Title Act 1994* for registration of a plan of subdivision.

20 When notice of decision about compliance assessment must be given—Act, s 408

For section 408(1) of the Act, the prescribed period is—

- (a) for compliance assessment of development or a subdivision plan requiring compliance assessment under schedule 18 or 19—20 business days after the local government receives the request for compliance assessment; or
- (b) if the compliance assessor is a public sector entity or a local government and paragraph (a) does not apply—15 business days after receiving the request for compliance assessment; or
- (c) if the compliance assessor is a nominated entity of a local government and a copy of the request for compliance assessment is given to the local government under section 402 of the Act—the period of at least 20 business days agreed between the entity and the person making the request for compliance assessment; or
- (d) if the compliance assessor is a nominated entity of a local government and paragraph (c) does not apply—the period agreed between the entity and the person making the request for compliance assessment.

21 Prescribed period—Act, s 409

For section 409(2)(b) of the Act, the prescribed period for a compliance permit is—

- (a) if the permit is for a material change of use or reconfiguring a lot requiring operational works—4 years after the day it takes effect; or
- (b) otherwise—2 years after the day it takes effect.

**Part 4 Prescribed matters for Act,
chapter 7**

22 Court fees

The fees payable for a proceeding in the court are stated in schedule 20.

23 Building and development committee fees—Act, ss 514 and 536

For sections 514(2) and 536(2) of the Act, the fees payable for proceedings before a building and development committee for a declaration or an appeal are stated in schedule 21.

24 Building and development committee fast-track fee—Act, ss 515 and 537

- (1) This section prescribes the fee to accompany a request under section 515(2) or 537(2) of the Act to the chief executive to appoint a building and development committee to start hearing proceedings for a declaration or an appeal within 2 business days after starting the proceedings or appeal.
- (2) The fee payable under this section is 50% of, and is in addition to, the fee payable for the proceedings or appeal under section 23.

[s 25]

- (3) However, if the chief executive refuses the request, the fee must be refunded.

25 Jurisdiction of building and development committees—Act, s 526

A decision about a part of a building development application for which part the local government is the concurrence agency is prescribed for section 526(c) of the Act.

26 Qualifications of general referee—Act, s 571

- (1) For section 571 of the Act, each of the following qualifications or experience for a member of a building and development committee that is to hear and decide a matter is prescribed for the matter—
- (a) a demonstrated ability—
 - (i) to negotiate and mediate outcomes between parties to an appeal; and
 - (ii) to apply the principles of natural justice; and
 - (iii) to analyse complex technical issues; and
 - (iv) to communicate effectively, including, for example, to write informed, succinct, and well-organised reports, submissions, decisions or other documents;
 - (b) demonstrated knowledge of at least 1 of the following the Minister considers is sufficient to enable the person to perform the functions of a member of the building and development committee in relation to the matter—
 - (i) building design and construction;
 - (ii) siting of residential buildings;
 - (iii) neighbourhood amenity issues;
 - (iv) relevant health or fire safety issues;

-
- (v) the Act, the Building Act or the *Plumbing and Drainage Act 2002*;
 - (vi) the BCA, Queensland Development Code, or Australian Standards relating to building work;
 - (vii) the National Plumbing and Drainage Code, or the Australian Standards relating to plumbing and drainage work.
- (2) Subsection (3) applies if the matter is about an infrastructure charges notice, regulated infrastructure charges notice, adopted infrastructure charges notice or regulated State infrastructure charges notice.
 - (3) A member of the building and development committee need not have the qualifications or experience mentioned in subsection (1)(b) if the Minister considers the member has a qualification or experience in engineering or accounting sufficient to enable the person to perform the functions of a member of the committee in relation to the matter.
 - (4) If the matter is about a part of a building development application for which part the local government is the concurrence agency, and the part is assessed against the planning scheme, at least 1 member of the building and development committee must also have—
 - (a) a university qualification in town planning; and
 - (b) substantial experience in interpreting and applying provisions of a planning scheme.
 - (5) If the matter is about a development application for a material change of use of premises that involves the use of a class 1, class 2 or class 10 building, at least 1 member of the building and development committee must also have—
 - (a) a university qualification in town planning or law; and
 - (b) substantial experience in interpreting and applying provisions of a planning scheme.
 - (6) If the matter is about development, a document or work requiring compliance assessment, at least 1 member of the building and development committee must also have a

[s 27]

university or professional qualification relevant for hearing and deciding the matter.

32 Development for which EIS process applies—Act, s 688

- (1) Development is prescribed for section 688 of the Act if—
- (a) the Commonwealth Minister has, under the Commonwealth Environment Act—
 - (i) decided the approach for assessing the relevant impacts of the development is assessment by an accredited assessment process; and
 - (ii) given notice of the decision; or

Note—

See the Commonwealth Environment Act, chapter 4, part 8, division 3 (Decision on assessment approach).

- (b) the relevant impacts of the development are to be assessed under a bilateral agreement.
- (2) However, the development must be development for which the chief executive decides an EIS is required.
- (3) Any steps or actions taken in the EIS process before the action mentioned in subsection (1)(a) happens are taken to have complied with this part.
- (4) In this section—

bilateral agreement see the Commonwealth Environment Act, section 45(2).

33 Criteria for making decision about requirement for EIS

In making a decision under section 32(2), the chief executive must consider—

- (a) the importance of the development to the State or part of the State; and
- (b) the complexity of the development including—
 - (i) the size or nature of the development; and

- (ii) the number of entities or local government areas potentially affected by the development; and
- (c) the significance of the potential environmental, economic and social impacts of the development.

34 Criteria for public notification of draft terms of reference for EIS—Act, s 691

For section 691(1)(b) of the Act, the criteria for public notification of draft terms of reference for an EIS are—

- (a) the complexity of the matters mentioned in the application for terms of reference for the EIS; and
- (b) the likely level of public interest in the draft terms of reference.

35 Content of draft terms of reference for EIS and draft EIS—Act, ss 691 and 694

(1) For sections 691(3)(f) and 694(1)(a)(v) of the Act, each of the following matters must be stated in a notice—

- (a) the development's name;
- (b) the proponent's name;
- (c) if the proponent and designated proponent for the development are not the same entity—the designated proponent's name;
- (d) the development's location;
- (e) any matter mentioned in the Commonwealth Environment Act, section 34, and protected by a controlling provision for the development.

(2) In this section—

controlling provision, for development, means a provision of the Commonwealth Environment Act, chapter 2, part 3, decided by the Commonwealth Minister as a controlling provision for the development under chapter 4, part 7, division 2 of that Act.

[s 36]

36 Public notification of draft terms of reference for EIS and draft EIS—Act, ss 691 and 694

For sections 691(4) and 694(2) of the Act, a notice must be published—

- (a) in a newspaper circulating throughout Australia; and
- (b) in a newspaper circulating generally in the State.

37 Matters for inclusion in draft EIS—Act, s 693

For section 693(2) of the Act, the draft EIS must include the matters mentioned in the *Environment Protection and Biodiversity Conservation Regulations 2000* (Cwlth), schedule 4.

38 Content of EIS assessment report—Act, s 699

- (1) For section 699(e) of the Act, an EIS assessment report about an EIS for development must contain each of the following—
 - (a) the development's name;
 - (b) the name of the designated proponent for the development;
 - (c) the development's location;
 - (d) a description of any matters of national environmental significance;
 - (e) a summary of the relevant impacts of the development;
 - (f) a description of feasible mitigation measures, or changes to the development or procedures, to prevent or minimise the development's relevant impacts, proposed by the proponent or suggested in relevant submissions;
 - (g) to the extent practicable, a description of feasible alternatives to the development identified in the EIS process, and the likely impact of the alternatives on matters of national environmental significance;
 - (h) a statement of conditions of approval for the development that may be imposed to address impacts,

identified in the EIS process, on matters of national environmental significance.

(2) In this section—

matters of national environmental significance means matters of national environmental significance mentioned in the Commonwealth Environment Act, chapter 2, part 3, division 1.

relevant submissions means properly made submissions, or other submissions accepted by the chief executive under section 695 of the Act.

39 To whom EIS and other material must be given—Act, s 700

For section 700(d) of the Act, the entity is the Commonwealth Minister.

Schedule 2 Community infrastructure

section 8

Part 1 Community infrastructure for transport

- 1 active transport infrastructure
- 2 air transport infrastructure
- 3 ancillary works and encroachments
- 4 busway transport infrastructure
- 5 light rail transport infrastructure
- 6 miscellaneous transport infrastructure
- 7 public marine transport infrastructure
- 8 rail transport infrastructure
- 9 roads on State toll road corridor land
- 10 State-controlled roads
- 11 transport infrastructure mentioned in schedule 3 of the Act, definition *development infrastructure*
- 12 wharves, public jetties, port facilities and navigational facilities
- 13 storage and works depots and similar facilities, including administrative facilities associated with the provision or maintenance of the community infrastructure mentioned in this part
- 14 any other facility for transport not mentioned in this part that is intended primarily to accommodate government functions

Part 2 Other community infrastructure

- 1 aged-care facilities
- 2 cemeteries and crematoriums
- 3 communication network facilities
- 4 community and cultural facilities, including facilities where an education and care service under the Education and Care Services National Law (Queensland) is operated or a child care service under the *Child Care Act 2002* is conducted, community centres, meeting halls, galleries and libraries
- 5 correctional facilities
- 6 educational facilities
- 7 emergency services facilities
- 8 facilities for parks and recreation
- 9 hospitals and associated institutions
- 10 oil and gas pipelines
- 11 operating works under the *Electricity Act 1994*
- 12 sporting facilities
- 13 waste management facilities
- 14 water cycle management infrastructure
- 15 storage and works depots and similar facilities, including administrative facilities associated with the provision or maintenance of the community infrastructure mentioned in this part
- 16 any other facility not mentioned in this part that is intended primarily to accommodate government functions

Schedule 3 Assessable development, self-assessable development and type of assessment

section 9

Part 1 Assessable development

Table 1—Building work		
Column 1	Column 2	Column 3
For the Building Act		
1	For assessing building work under the Building Act, building work that is not— (a) self-assessable development under part 2; and (b) declared under the Building Act to be exempt development	Code assessment
For declared fish habitat area		
2	For assessing building work against the Fisheries Act, building work in a declared fish habitat area if it is not self-assessable development under part 2	Code assessment, if the chief executive (fisheries) is the assessment manager

Table 2—Material change of use of premises		
Column 1	Column 2	Column 3
For an environmentally relevant activity		
1	<p>Making a material change of use of premises for an environmentally relevant activity that, under the <i>Environmental Protection Regulation 2008</i>, section 16, is identified as a concurrence ERA (the relevant ERA), unless—</p> <p>(a) an environmental authority to carry out a concurrence ERA has been approved for the premises; and</p> <p>(b) the relevant ERA and concurrence ERA mentioned in paragraph (a) are to be carried out under the environmental authority; and</p> <p>(c) under the <i>Environmental Protection Regulation 2008</i>, section 14(1), the relevant ERA has a lower aggregate environmental score than the concurrence ERA mentioned in paragraph (a)</p>	<p>For a concurrence ERA that is devolved to a local government under the <i>Environmental Protection Regulation 2008</i>, code assessment if the local government is the assessment manager</p> <p>For all other environmentally relevant activities, code assessment if the chief executive administering the Environmental Protection Act is the assessment manager</p>
For a brothel		
2	Making a material change of use of premises for a brothel	<p>Code assessment, if premises in an industrial area or on strategic port land</p> <p>Impact assessment, if premises in an area other than an industrial area or on strategic port land unless a local planning instrument, or amendment of a local planning instrument made after 1 July 2000, requires code assessment</p>

Table 2—Material change of use of premises		
Column 1	Column 2	Column 3
On strategic port land		
3	Making a material change of use of premises on strategic port land that is inconsistent with the land use plan approved under the Transport Infrastructure Act, section 286	Code assessment
On airport land		
4	Making a material change of use of premises on airport land that is inconsistent with the land use plan approved under the <i>Airport Assets (Restructuring and Disposal) Act 2008</i> , chapter 3, part 1	Code assessment, unless the land use plan requires impact assessment Impact assessment, if the land use plan requires impact assessment
For a major hazard facility		
5	Making a material change of use of premises for a major hazard facility or proposed major hazard facility	Code assessment, if the regulator under the <i>Work Health and Safety Act 2011</i> is the assessment manager

Table 2—Material change of use of premises		
Column 1	Column 2	Column 3
Contaminated land management		
6	<p>Making a material change of use of a potentially affected premises unless—</p> <p>(a) all of the following apply—</p> <p>(i) a suitability statement has been given for the premises;</p> <p>(ii) a site management plan has been approved in relation to the proposed use;</p> <p>(iii) the material change of use only involves—</p> <p>(A) the fit-out of a building; or</p> <p>(B) minor site excavation, including, for example, post holes for open-sided non-habitable structures; or</p> <p>(b) the proposed use is industrial and only involves minor site excavation, including, for example, post holes for open-sided non-habitable structures</p>	Code assessment, if the administering authority is the assessment manager
7	<p>Making a potentially sensitive material change of use of premises if all or part of the premises is—</p> <p>(a) used for, or if there is no existing use, was last used for, an industrial activity (other than a mining activity or a chapter 5A activity); or</p> <p>(b) in an area for which an area management advice has been given for natural mineralisation or industrial activity (other than for a mining activity or a chapter 5A activity)</p>	Code assessment, if the administering authority is the assessment manager

Table 2—Material change of use of premises		
Column 1	Column 2	Column 3
For aquaculture		
10	For assessing a material change of use of premises against the Fisheries Act, making a material change of use of premises for aquaculture if it is not self-assessable development under part 2	Code assessment, if the chief executive (fisheries) is the assessment manager
For a wild river area		
11	Making a material change of use of premises to the extent the premises is in a wild river area and the proposed use is for agricultural activities or animal husbandry activities, as defined under the <i>Wild Rivers Act 2005</i>	Code assessment, if the chief executive administering the <i>Wild Rivers Act 2005</i> is the assessment manager

Table 3—Reconfiguring a lot		
Column 1	Column 2	Column 3
Under the <i>Land Title Act 1994</i>		
1	<p>Reconfiguring a lot under the <i>Land Title Act 1994</i>, unless the reconfiguration requires compliance assessment under schedule 18, the reconfiguration is under a relevant instrument of lease or the plan of subdivision necessary for the reconfiguration—</p> <p>(a) is a building format plan of subdivision that does not subdivide land on or below the surface of the land; or</p> <p>(b) is for the amalgamation of 2 or more lots; or</p> <p>(c) is for the incorporation, under the <i>Body Corporate and Community Management Act 1997</i>, section 41, of a lot with common property for a community titles scheme; or</p> <p>(d) is for the conversion, under the <i>Body Corporate and Community Management Act 1997</i>, section 43, of lessee common property within the meaning of that Act to a lot in a community titles scheme; or</p> <p>(e) is in relation to the acquisition, including by agreement, under the Acquisition Act or otherwise, of land by—</p> <p style="padding-left: 20px;">(i) a constructing authority, as defined under that Act, for a purpose set out in parts 1 to 13 (other than part 10, second dot point) of the schedule to that Act; or</p> <p style="padding-left: 20px;">(ii) an authorised electricity entity; or</p> <p>(f) is for land held by the State, or a statutory body representing the State, and the land is being subdivided for a purpose set out in the Acquisition Act, schedule, parts 1 to 13 (other than part 10, second dot point) whether or not the land relates to an acquisition; or</p>	Code assessment, unless a planning scheme, temporary local planning instrument, master plan or preliminary approval to which section 242 of the Act applies requires impact assessment

Table 3—Reconfiguring a lot		
Column 1	Column 2	Column 3
	(g) is for reconfiguring a lot comprising strategic port land; or (h) is for reconfiguring a South Bank lot within the corporation area under the <i>South Bank Corporation Act 1989</i> ; or (i) is for the Transport Infrastructure Act, section 240; or (j) is in relation to the acquisition of land for a water infrastructure facility; or (k) is for land in a priority development area	

Table 4—Operational work		
Column 1	Column 2	Column 3
For clearing native vegetation		
1	Operational work that is the clearing of native vegetation on— (a) freehold land; or (b) indigenous land; or (c) any of the following under the <i>Land Act 1994</i> — (i) land subject to a lease; (ii) a road; (iii) trust land, other than indigenous land; (iv) unallocated State land; (v) land subject to a licence or permit; unless the clearing is— (d) on premises to which structure plan arrangements apply; or (e) clearing, or for another activity or matter, mentioned in schedule 24, part 1; or (f) clearing mentioned in schedule 24, part 2 for the particular land	Code assessment, if the chief executive administering the Vegetation Management Act is the assessment manager

Table 4—Operational work		
Column 1	Column 2	Column 3
Associated with reconfiguration		
2	Operational work for reconfiguring a lot, other than a lot in a priority development area, if the reconfiguration is also assessable development	<p>If the operational work is for residential, commercial or industrial purposes in a wild river area—code assessment, unless a planning scheme, temporary local planning instrument, master plan or preliminary approval to which section 242 of the Act applies requires impact assessment</p> <p>Otherwise—code assessment</p>

Table 4—Operational work		
Column 1	Column 2	Column 3
For taking or interfering with water		
3	<p>For assessing operational work against the <i>Water Act 2000</i>, operational work (other than work carried out in a priority development area or on premises to which structure plan arrangements apply) that involves—</p> <ul style="list-style-type: none"> (a) taking or interfering with water from a watercourse, lake or spring (other than under the <i>Water Act 2000</i>, section 20(2), (3) or (5)) or from a dam constructed on a watercourse or lake if it is not self-assessable development under part 2; or (b) taking, or interfering with, artesian water as defined under the <i>Water Act 2000</i>, schedule 4; or (c) taking, or interfering with— <ul style="list-style-type: none"> (i) overland flow water, if the operations are mentioned as assessable development in a wild river declaration; or (ii) subartesian water, if the operations are mentioned as assessable development in a water resource plan or a wild river declaration, or prescribed as assessable development under a regulation under the <i>Water Act 2000</i>; or (d) interfering with overland flow water in an area declared under the <i>Water Act 2000</i> to be a drainage and embankment area if the operations are declared under that Act to be assessable development; or (e) interfering with overland flow water in a wild river floodplain management area if the operations are specified works or stated in the wild river declaration for the area to be assessable development; or (f) taking overland flow water, if the operations are mentioned as assessable development in a water resource plan, or prescribed as assessable development under a regulation under the <i>Water Act 2000</i> 	Code assessment, if the chief executive administering the <i>Water Act 2000</i> is the assessment manager

Table 4—Operational work		
Column 1	Column 2	Column 3
For particular dams		
4	Operational work that is the construction of a dam or is carried out in relation to a dam if, because of the work, the dam must be failure impact assessed	Code assessment, if the chief executive administering the Water Supply Act is the assessment manager
For tidal works, or work within a coastal management district		
5	Operational work (other than excluded work, work that is self-assessable development under part 2, table 4, item 8, work carried out in a priority development area and work carried out on premises to which structure plan arrangements apply) that is— <ul style="list-style-type: none"> (a) tidal works; or (b) any of the following carried out completely or partly within a coastal management district— <ul style="list-style-type: none"> (i) interfering with quarry material as defined under the Coastal Protection and Management Act on State coastal land above high-water mark; (ii) disposing of dredge spoil or other solid waste material in tidal water; (iii) constructing an artificial waterway; (iv) removing or interfering with coastal dunes on land, other than State coastal land, that is in an erosion prone area as defined in the Coastal Protection and Management Act and above high-water mark 	Code assessment, if in a local government tidal area and a local government is the assessment manager Code assessment, if in a coastal management district and the chief executive administering the Coastal Protection and Management Act is the assessment manager
For constructing or raising waterway barrier works		
6	For assessing operational work against the Fisheries Act, operational work that is the constructing or raising of waterway barrier works, other than operational work that is self-assessable development under part 2 or carried out on premises to which structure plan arrangements apply	Code assessment, if the chief executive (fisheries) is the assessment manager

Table 4—Operational work		
Column 1	Column 2	Column 3
For works in a declared fish habitat area		
7	For assessing operational work against the Fisheries Act, operational work completely or partly within a declared fish habitat area, other than operational work that is self-assessable development under part 2	Code assessment, if the chief executive (fisheries) is the assessment manager
For removal, destruction or damage of marine plants		
8	<p>For assessing operational work against the Fisheries Act, operational work that is the removal, destruction or damage of a marine plant, other than operational work that is—</p> <ul style="list-style-type: none"> (a) for reconfiguring a lot that is assessable development under table 3, item 1, if there is a development permit in effect for the reconfiguration; or (b) for a material change of use that is assessable development, if there is a development permit in effect for the change of use; or (c) self-assessable development under part 2; or (d) carried out in a priority development area; or (e) carried out on premises to which structure plan arrangements apply 	Code assessment, if the chief executive (fisheries) is the assessment manager
For a wild river area		
9	Operational work for agricultural activities or animal husbandry activities (as defined under the <i>Wild Rivers Act 2005</i>) in a wild river area if the operational work is declared to be assessable development under the wild river declaration for the area	Code assessment, if the chief executive administering the <i>Wild Rivers Act 2005</i> is the assessment manager

Table 4—Operational work		
Column 1	Column 2	Column 3
For a wetland protection area		
10	<p>Operational work that is high impact earthworks in a wetland protection area, other than operational work—</p> <ul style="list-style-type: none"> (a) for a domestic housing activity; or (b) that is the natural and ordinary consequence of development involving— <ul style="list-style-type: none"> (i) a material change of use for which the chief executive (environment) was a concurrence agency under schedule 7, table 3, item 21A; or (ii) reconfiguring a lot for which the chief executive (environment) was a concurrence agency under schedule 7, table 2, item 43A; or (c) associated with government supported transport infrastructure or electricity infrastructure 	Code assessment, if the chief executive (environment) is the assessment manager

Table 5—Various aspects of development		
Column 1	Column 2	Column 3
For removal of quarry material		
1	<p>All aspects of development for removing quarry material from a watercourse or lake if an allocation notice is required under the <i>Water Act 2000</i> for the removal, other than development that is—</p> <ul style="list-style-type: none"> (a) in a priority development area; or (b) carried out on premises to which structure plan arrangements apply 	Code assessment, if the chief executive administering the <i>Water Act 2000</i> is the assessment manager

Column 1	Column 2	Column 3
Development on Queensland heritage place		
2	<p>All aspects of development on a Queensland heritage place, other than development—</p> <ul style="list-style-type: none"> (a) for which an exemption certificate under the <i>Queensland Heritage Act 1992</i> has been issued; or (b) that, under section 78 of that Act, is liturgical development; or (c) carried out by the State; or (d) in a priority development area 	Code assessment, if the chief executive administering the <i>Queensland Heritage Act 1992</i> is the assessment manager
Development on local heritage place		
3	<p>All aspects of development on a local heritage place, other than—</p> <ul style="list-style-type: none"> (a) development that is self-assessable development under part 2, table 1, item 1; or (b) development to which chapter 9, part 5 of the Act applies; or (c) development carried out by the State on designated land; or (d) development mentioned in schedule 4 	Code assessment, unless a planning scheme, temporary local planning instrument, master plan or preliminary approval to which section 242 of the Act applies requires impact assessment
Development on strategic port land		
6	All aspects of development on strategic port land, other than development mentioned in table 2, item 3, if the land use plan for the strategic port land approved under the Transport Infrastructure Act, section 286, states the development is assessable development	Code assessment

Table 5—Various aspects of development		
Column 1	Column 2	Column 3
Development on airport land		
7	All aspects of development on airport land, other than development mentioned in table 2, item 4, if the land use plan for the airport port land approved under the <i>Airport Assets (Restructuring and Disposal) Act 2008</i> , chapter 3, part 1, states the development is assessable development	Code assessment, unless the land use plan requires impact assessment Impact assessment, if the land use plan requires impact assessment

Part 2 Self-assessable development

Table 1—Building work	
By the State, a public sector entity or a local government	
1	Building work carried out by or on behalf of the State, a public sector entity or a local government, other than building work declared under the Building Act to be exempt development
For the <i>Building Act 1975</i>	
2	For assessing building work against the Building Act, building work declared under that Act to be self-assessable development

By or on behalf of a public sector entity	
1	Operational work or plumbing or drainage work (including maintenance and repair work) if the work is carried out by or on behalf of a public sector entity authorised under a State law to carry out the work

Table 4—Operational work	
For ancillary works and encroachments	
2	Operational work that is ancillary works and encroachments that are— <ul style="list-style-type: none"> (a) carried out in compliance with requirements specified by gazette notice by the chief executive administering the Transport Infrastructure Act; or (b) done as required by a contract entered into under the Transport Infrastructure Act, section 50, with the chief executive administering that Act
For substitute railway crossing	
3	Operational work for the construction of a substitute railway crossing by a railway manager in response to an emergency under the Transport Infrastructure Act, section 169
Performed by railway manager	
4	Operational work performed by a railway manager, within the meaning of the Transport Infrastructure Act, under section 260 of that Act
Under a rail feasibility investigator’s authority	
5	Operational work carried out under a rail feasibility investigator’s authority granted under the Transport Infrastructure Act
Under the Coastal Protection and Management Act	
6	Operational work that is the digging or boring into land by an authorised person under the Coastal Protection and Management Act, section 134
7	Operational work for an aid to navigation or sign for maritime navigation
For subscriber connections	
8	Operational work for a subscriber connection

Environmentally relevant activities	
1 Development requiring code assessment under schedule 3, part 1, table 2, item 1	The provisions of chapter 3, part 1, division 3A of the <i>Environmental Protection Regulation 2008</i> For a wild river area— (b) any applicable code for the development mentioned in the wild river declaration for the wild river area
Certain brothels	
2 Development requiring code assessment under schedule 3, table 2, item 2	The IDAS code mentioned in the <i>Prostitution Regulation 2000</i> , schedule 3
3 Development requiring impact assessment under schedule 3, table 2, item 2	The following— (a) the IDAS code mentioned in the <i>Prostitution Regulation 2000</i> , schedule 3; (b) the relevant provision of any local planning instrument
Strategic port land	
4 Development requiring code assessment under schedule 3, part 1, table 2, item 3	The current land use plan approved under the Transport Infrastructure Act, section 286
Airport land	
5 Development requiring code or impact assessment under schedule 3, part 1, table 2, item 4	The current land use plan for the airport land approved under the <i>Airport Assets (Restructuring and Disposal) Act 2008</i> , chapter 3, part 1
Major hazard facilities	
6 Development requiring code assessment under schedule 3, part 1, table 2, item 5	The relevant provisions of the <i>Work Health and Safety Act 2011</i>
Contaminated land	
7 Development requiring code or impact assessment under schedule 3, part 1, table 2, item 6 or 7	The relevant provisions of the Environmental Protection Act

Table 2—Material change of use	
Column 1 Development	Column 2 Codes, laws and policies that may apply for assessment
Certain aquaculture	
8 Development requiring code assessment under schedule 3, part 1, table 2, item 10	The relevant provisions of the Fisheries Act For a wild river area— (a) the Fisheries Act, section 76DA; and (b) any applicable code for the development mentioned in the wild river declaration for the wild river area
Certain agricultural or animal husbandry activities in a wild river area	
9 Development requiring code assessment under schedule 3, part 1, table 2, item 11	<i>Wild Rivers Act 2005</i> , section 42 Any applicable code for the development mentioned in the wild river declaration for the wild river area

Table 3—Reconfiguring a lot	
Column 1 Development	Column 2 Codes, laws and policies that may apply for assessment
Under the <i>Land Title Act 1994</i>	
1 Reconfiguring a lot requiring impact assessment under schedule 3, table 3, item 1	The relevant provisions of any planning scheme, temporary local planning instrument, master plan or preliminary approval to which section 242 of the Act applies

Table 4—Operational works	
Column 1 Development	Column 2 Codes, laws and policies that may apply for assessment
Clearing native vegetation	
1 Development requiring code assessment under schedule 3, part 1, table 4, item 1	Any relevant code under the Vegetation Management Act For a wild river area, any applicable code for the development mentioned in the wild river declaration for the wild river area
Operational works associated with reconfiguring	
2 Development requiring code assessment under schedule 3, part 1, table 4, item 2	The relevant provisions of any applicable planning scheme, temporary local planning instrument, master plan or preliminary approval to which section 242 of the Act applies
Taking or interfering with water—generally	
3 Development requiring code assessment under schedule 3, part 1, table 4, item 3, other than item 3(d) or (e)	The relevant provisions of the following— (a) the <i>Water Act 2000</i> ; (b) the codes mentioned in the <i>Water Regulation 2002</i> , section 61A For a wild river area— (a) the <i>Water Act 2000</i> , section 966A; and (b) any applicable code for the development mentioned in the wild river declaration for the wild river area
Interfering with overland flow water in a declared drainage and embankment area or wild river floodplain management area	
4 Development requiring code assessment under schedule 3, part 1, table 4, item 3(d) or (e)	The relevant provisions of the <i>Water Act 2000</i> For a wild river area— (a) the <i>Water Act 2000</i> , section 966B; and (b) any applicable code for the development mentioned in the wild river declaration for the wild river area

Taking or interfering with water	
1 Taking or interfering with water under the <i>Water Act 2000</i> made self-assessable under schedule 3, part 2, table 4, item 1	The codes mentioned in the <i>Water Regulation 2002</i> , section 62 For a wild river area, any applicable code for the development mentioned in the wild river declaration for the wild river area
Waterway barrier works	
2 Constructing or raising waterway barrier works made self-assessable under schedule 3, part 2, table 4, item 2	The IDAS codes mentioned in the <i>Fisheries Regulation 2008</i> , section 704
Works in a declared fish habitat area	
3 Completely or partly within a declared fish habitat area made self-assessable under schedule 3, part 2, table 4, item 3	The IDAS codes mentioned in the <i>Fisheries Regulation 2008</i> , section 705 For a wild river area, any applicable code for the development mentioned in the wild river declaration for the wild river area
Removal, destruction or damage of marine plants	
4 The removal, destruction or damage of a marine plant made self-assessable under schedule 3, part 2, table 4, item 4	The IDAS codes mentioned in the <i>Fisheries Regulation 2008</i> , section 706 For a wild river area, any applicable code for the development mentioned in the wild river declaration for the wild river area
Local government roads	
5 Works on local government roads made self-assessable under schedule 3, part 2, table 4, item 5	The code mentioned in the <i>Transport Planning and Coordination Regulation 2005</i> , section 3
High impact earthworks in a wetland protection area	
6 High impact earthworks for government supported transport infrastructure in a wetland protection area made self-assessable under schedule 3, part 2, table 4, item 6	The code under 'State Planning Policy 4/11 Protecting Wetlands of High Ecological Significance in Great Barrier Reef Catchments', annex 2

Table 4—Operational work	
Column 1 Development	Column 2 Codes, laws and policies that may apply for assessment

For tidal works, or works within a coastal management district	
8 Operational work made self-assessable under schedule 3, part 2, table 4, item 8	The code for the self-assessable operational work declared under the <i>Coastal Protection and Management Regulation 2003</i> to be a code for IDAS

Schedule 6 Assessment manager for development applications

section 12

Table 1	
Column 1 Application type	Column 2 Assessment manager
Local government planning schemes and local government tidal areas	
<p>1 If the application is for—</p> <p>(a) development completely in a single local government area and—</p> <p>(i) any aspect of the development is assessable against the planning scheme, a temporary local planning instrument, master plan or preliminary approval to which section 242 of the Act applies; or</p> <p>(ii) is for building work, that, under the Building Act, is assessable against the building assessment provisions; or</p> <p>(iii) is for reconfiguring a lot; or</p> <p>(iv) is for a brothel; or</p> <p>(v) is operational works associated with reconfiguring a lot; or</p> <p>(b) prescribed tidal work completely in a single local government tidal area; or</p> <p>(c) prescribed tidal work partly in a single local government tidal area and in no other local government tidal area or port authority's strategic port land tidal area; or</p> <p>(d) prescribed tidal work starting in a local government tidal area and extending into another local government's tidal area but in no port authority's strategic port land tidal area; or</p> <p>(e) operational work mentioned in schedule 3, part 1, table 4, item 5(b)(iii) and the work is associated with reconfiguring a lot</p>	Local government

Table 2	
Column 1 Application type	Column 2 Assessment manager
Strategic port land and strategic port land tidal areas	
1 If table 1 does not apply and the application is for— (a) development completely in a single port authority’s strategic port land; or (b) tidal works completely in a single port authority’s strategic port land tidal area; or (c) tidal works partly in a single port authority’s strategic port land tidal area and in no local government tidal area or another port authority’s strategic port land tidal area	Port authority
Airport land	
2 If table 1 does not apply and the application is for development completely or partly on airport land, whether or not the development includes tidal works	Chief executive administering the Act

Table 3	
Column 1 Application type	Column 2 Assessment manager
Environmentally relevant activities	
1 If tables 1 and 2 do not apply and the application is for— (a) development for an environmentally relevant activity; and (b) no other assessable development	for an environmentally relevant activity that is devolved to a local government under the <i>Environmental Protection Regulation 2008</i> , the local government for all other environmentally relevant activities mentioned in column 1, the chief executive administering the Environmental Protection Act
Vegetation clearing	
2 If tables 1 and 2 do not apply and the application is for— (a) operational work for the clearing of native vegetation; and (b) no other assessable development	Chief executive administering the Vegetation Management Act
Taking or interfering with water	
3 If tables 1 and 2 do not apply and the application is for— (a) operational work for the taking or interfering with water under the <i>Water Act 2000</i> ; and (b) no other assessable development	Chief executive administering the <i>Water Act 2000</i>

Table 3	
Column 1 Application type	Column 2 Assessment manager
3A If tables 1 and 2 do not apply and the application is for— (a) operational work for the construction of a dam, or that is carried out in relation to a dam, if, because of the work, the dam must be failure impact assessed; and (b) no other assessable development	Chief executive administering the Water Supply Act
Major hazard facilities	
4 If tables 1 and 2 do not apply and the application is for— (a) material change of use for a major hazard facility or proposed major hazard facility; and (b) no other assessable development	Regulator under the <i>Work Health and Safety Act 2011</i>
Quarrying in a watercourse or lake	
5 If tables 1 and 2 do not apply and the application is for— (a) removing quarry material from a watercourse or lake if an allocation notice is required under the <i>Water Act 2000</i> ; and (b) no other assessable development	Chief executive administering the <i>Water Act 2000</i>
Tidal works or work within a coastal management district	
6 If tables 1 and 2 do not apply and the application is for— (a) operational work that is— (i) tidal works not in a port authority's strategic port land tidal area or in local government's tidal area; or (ii) work carried out completely or partly within a coastal management district; and (b) no other assessable development	Chief executive administering the Coastal Protection and Management Act
Development on Queensland heritage place	
7 If tables 1 and 2 do not apply and the application is for— (a) assessable development on a Queensland heritage place; and (b) no other assessable development	Chief executive administering the <i>Queensland Heritage Act 1992</i>

Table 3	
Column 1 Application type	Column 2 Assessment manager
Development on local heritage place	
8 If tables 1 and 2 do not apply and the application is for— (a) assessable development on a local heritage place; and (b) no other assessable development	The local government for the place
Contaminated land management	
9 If tables 1 and 2 do not apply and the application is for— (a) assessable development under schedule 3, part 1, table 2, item 6 or 7; and (b) no other assessable development	Chief executive administering the Environmental Protection Act
Aquaculture	
10 If tables 1 and 2 do not apply and the application is for— (a) material change of use for aquaculture under the Fisheries Act; and (b) no other assessable development	Chief executive administering the Fisheries Act
Fisheries development other than aquaculture	
11 If tables 1 and 2 do not apply and the application is for— (a) building work in a declared fish habitat area or operational work that is 1 or more of the following— (i) constructing or raising waterway barrier works; (ii) work carried out completely or partly within a declared fish habitat area; (iii) removal, destruction or damage of a marine plant; and (b) no other assessable development	Chief executive administering the Fisheries Act

Table 3	
Column 1 Application type	Column 2 Assessment manager
For a wild river area	
12 If tables 1 and 2 do not apply and the application is for— (a) assessable development under— (i) schedule 3, part 1, table 2, item 11; or (ii) schedule 3, part 1, table 4, item 9; and (b) no other assessable development	Chief executive administering the <i>Wild Rivers Act 2005</i>
Development in wetland protection area	
13 If tables 1 and 2 do not apply and the application is for— (a) assessable development under schedule 3, part 1, table 4, item 10; and (b) no other assessable development	Chief executive administering the Environmental Protection Act

Table 4	
Column 1 Application type	Column 2 Assessment manager
Applications involving multiple jurisdictions	
<p>1 If tables 1, 2 and 3 do not apply and the application is for—</p> <p>(a) 2 or more of the following—</p> <p>(i) an environmentally relevant activity for which the chief executive administering the Environmental Protection Act is the administering authority;</p> <p>(ii) development on contaminated land;</p> <p>(iii) operational work that is tidal works or work carried out completely or partly within a coastal management district;</p> <p>(iv) assessable development on a Queensland heritage place;</p> <p>(v) assessable development under schedule 3, part 1, table 4, item 10; and</p> <p>(b) no other assessable development</p>	<p>The chief executive administering the Coastal Protection and Management Act, the Environmental Protection Act and the <i>Queensland Heritage Act 1992</i></p>
<p>2 If tables 1, 2 and 3 do not apply and the application is for—</p> <p>(a) 2 or more of the following—</p> <p>(i) operational work for the clearing of native vegetation under the Vegetation Management Act;</p> <p>(ii) operational work for the taking or interfering with water under the <i>Water Act 2000</i>;</p> <p>(iii) operational work for the construction of a dam, or that is carried out in relation to a dam, if, because of the work, the dam must be failure impact assessed;</p> <p>(iv) development for removing quarry material from a watercourse or lake if an allocation notice is required under the <i>Water Act 2000</i>; and</p> <p>(b) no other assessable development</p>	<p>The chief executive administering the Vegetation Management Act and the <i>Water Act 2000</i></p>

Table 4	
Column 1 Application type	Column 2 Assessment manager
<p>3 If tables 1, 2 and 3 do not apply and the application, whether or not the application is also for 1 or more of the matters mentioned in item 2(a), is for—</p> <p>(a) development for—</p> <p>(i) a dredging ERA; or</p> <p>(ii) an extraction ERA; or</p> <p>(iii) a combination of a dredging ERA and an extraction ERA; or</p> <p>(iv) a combination of a dredging ERA and a screening ERA; or</p> <p>(v) a combination of an extraction ERA and a screening ERA; or</p> <p>(vi) a combination of a dredging ERA, an extraction ERA and a screening ERA; and</p> <p>(b) removing quarry material from a watercourse or lake if an allocation notice is required under the <i>Water Act 2000</i>; and</p> <p>(c) no other assessable development</p>	<p>The chief executive administering the <i>Water Act 2000</i></p>
<p>4 If tables 1, 2 and 3 do not apply and the application is for—</p> <p>(a) building work in a declared fish habitat area or operational work carried out completely or partly within a declared fish habitat area, whether or not the application also involves operational work for waterway barrier works; and</p> <p>(b) operational work that is tidal works or work carried out completely or partly within a coastal management district; and</p> <p>(c) no other assessable development</p>	<p>The chief executive administering the Fisheries Act</p>

Table 4	
Column 1 Application type	Column 2 Assessment manager
<p>5 If tables 1, 2 and 3 do not apply and the application is for—</p> <ul style="list-style-type: none"> (a) operational work that is the construction or raising of waterway barrier works and any or none of the following— <ul style="list-style-type: none"> (i) building work in a declared fish habitat area; (ii) operational work carried out completely or partly within a declared fish habitat area; (iii) operational work that is the removal, destruction or damage of a marine plant; and (b) operational work for the taking or interfering with water under the <i>Water Act 2000</i>; and (c) no other assessable development 	The chief executive administering the <i>Water Act 2000</i>
<p>5A If tables 1, 2 and 3 do not apply and the application is for—</p> <ul style="list-style-type: none"> (a) operational work that is the construction or raising of waterway barrier works and any or none of the following— <ul style="list-style-type: none"> (i) building work in a declared fish habitat area; (ii) operational work carried out completely or partly within a declared fish habitat area; (iii) operational work that is the removal, destruction or damage of a marine plant; and (b) operational work for the construction of a dam, or that is carried out in relation to a dam, if, because of the work, the dam must be failure impact assessed; and (c) no other assessable development 	The chief executive administering the <i>Water Supply Act</i>

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
Fire safety system—generally		
<p>1 A fire safety system for a building or structure, other than a temporary structure or special structure as defined in the Building Act, schedule 2, if the building work—</p> <p>(a) requires special fire services mentioned in schedule 8, part 1; or</p> <p>(b) includes an alternative solution assessed against the performance requirements of the BCA, volume 1, or the Queensland Development Code, part 2.2, for the fire safety system; or</p> <p>(c) includes an alternative solution assessed against the relevant performance requirements of the BCA or the performance criteria stated in the Queensland Development Code, part 2.3, for the fire safety system</p>	<p>Queensland Fire and Rescue Service—as an advice agency</p>	<p>For the special fire services mentioned in schedule 8, part 1—the matters mentioned in schedule 8, part 2</p> <p>For item 1(b) and (c)—the Building Act, chapters 3 and 4</p>

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
Fire safety system—budget accommodation buildings		
<p>2 A fire safety system for a budget accommodation building as defined in the Building Act, section 216, if the work involves a solution—</p> <p>(a) assessed against—</p> <p>(i) the performance criteria stated in the Queensland Development Code, part 2.1; or</p> <p>(ii) the performance requirements of the BCA, volumes 1 and 2, for the fire safety system; and</p> <p>(b) that includes fire safety management procedures as a condition of the use and occupation of the building</p>	<p>Queensland Fire and Rescue Service—as an advice agency</p>	<p>The fire safety management procedures under the <i>Fire and Rescue Service Act 1990</i></p>
Water-based fire safety installations		
<p>2A A water-based fire safety installation for a building or structure, if the building work includes—</p> <p>(a) the installation of the water-based fire safety installation; and</p> <p>(b) an alternative solution assessed against the performance criteria 3, 4 and 5 of the Queensland Development Code, part 6.1</p>	<p>Queensland Fire and Rescue Service—as a concurrence agency</p>	<p>Compliance with the performance criteria 3, 4 and 5 of the Queensland Development Code, part 6.1.</p>

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
Residential care buildings		
3 A residential care building under the Queensland Development Code, part 2.2	Queensland Fire and Rescue Service—as an advice agency	For item A2 of the acceptable solutions stated in the Queensland Development Code, part 2.2—compliance with the Queensland Development Code, part 2.2, schedule 2 For item P2 of the performance criteria stated in the Queensland Development Code, part 2.2—the fire and evacuation plan for the building under the <i>Fire and Rescue Service Act 1990</i>
Workplace involving spray painting		
4 A workplace involving spray painting if— (a) the Queensland Development Code, part 5.8, applies to the work; and (b) the work is required to comply with performance criteria for the work (other than by an acceptable solution)	The regulator under the <i>Work Health and Safety Act 2011</i> —as a concurrence agency	The performance criteria stated in the Queensland Development Code, part 5.8
Retail meat premises		
5 A retail meat premises if— (a) the Queensland Development Code, part 5.3, applies to the work; and (b) the work is required to comply with performance criteria for the work (other than by an acceptable solution)	Safe Food Queensland—as a concurrence agency	The performance criteria stated in the Queensland Development Code, part 5.3

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
Private health facilities		
6 A private health facility if— (a) the Queensland Development Code, part 5.5, applies to the work; and (b) the work is required to comply with performance criteria for the work (other than by an acceptable solution)	The chief health officer under the <i>Health Act 1937</i> —as a concurrence agency	The performance criteria stated in the Queensland Development Code, part 5.5
Workplace area less than 2.3m²		
7 A workplace area less than 2.3m ² if— (a) the Queensland Development Code, part 5.1, applies to the work; and (b) the work is required to comply with the performance criteria for work areas, other than by the acceptable solution for work areas	The regulator under the <i>Work Health and Safety Act 2011</i> —as an advice agency	The performance criteria stated in the Queensland Development Code, part 5.1

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
State-controlled road		
<p>8 Building work if—</p> <p>(a) any part of the land is—</p> <p style="padding-left: 20px;">(i) within 25m of a State-controlled road; or</p> <p style="padding-left: 20px;">(ii) future State-controlled road; and</p> <p>(b) the building work is not associated with—</p> <p style="padding-left: 20px;">(i) a material change of use mentioned in table 3, item (1)(b); or</p> <p style="padding-left: 20px;">(ii) reconfiguring a lot mentioned in table 2, item 2; or</p> <p style="padding-left: 20px;">(iii) government supported transport infrastructure; and</p> <p>(c) the building work is for a non-residential purpose; and</p> <p>(d) the building work involves the redirection or intensification of site stormwater from the land, through a pipe with a cross-sectional area greater than 625cm², to a State-controlled road or future State-controlled road</p>	<p>The chief executive administering the Transport Infrastructure Act—as a concurrence agency</p>	<p>The purposes of the Transport Infrastructure Act</p>
Pastoral workers' accommodation		
<p>9 Pastoral worker's accommodation if—</p> <p>(a) the Queensland Development Code, part 5.6, applies to the work; and</p> <p>(b) the work is required to comply with the performance criteria for accommodation stated in the part (other than by an acceptable solution)</p>	<p>The chief executive administering the <i>Pastoral Workers' Accommodation Act 1980</i>—as a concurrence agency</p>	<p>The performance criteria stated in the Queensland Development Code, part 5.6</p>

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
Child care centres		
10 A child care centre if— (a) the Queensland Development Code, part 5.4, applies to the work; and (b) the work is required to comply with the performance criteria for child care centres stated in the part (other than by an acceptable solution)	The chief executive administering the <i>Child Care Act 2002</i> —as a concurrence agency	The performance criteria stated in the Queensland Development Code, part 5.4
Coastal management districts		
11 Building work on land completely or partly seaward of a coastal building line under the Coastal Protection and Management Act	The chief executive administering the Coastal Protection and Management Act—as a concurrence agency	Coastal management under the Coastal Protection and Management Act, excluding amenity or aesthetic significance or value
Queensland heritage place		
12 Building work on a Queensland heritage place	The chief executive administering the <i>Queensland Heritage Act 1992</i> —as a concurrence agency	The purposes of the <i>Queensland Heritage Act 1992</i>
Local heritage place		
13 Building work on a local heritage place	The local government—as a concurrence agency	The following— (a) IDAS code in the <i>Queensland Heritage Regulation 2003</i> , schedule 2; (b) the relevant provision of any planning scheme

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
Public passenger transport		
14 Building work on future public passenger transport corridor, if the building work is not associated with— (a) reconfiguring a lot mentioned in table 2, item 33 or 33A; or (b) a material change of use mentioned in table 3, item 14 or 14A; or (c) government supported transport infrastructure	The chief executive administering the <i>Transport Planning and Coordination Act 1994</i> —as a concurrence agency	The object mentioned in the <i>Transport Planning and Coordination Act 1994</i> , section 8A
Airports		
15 Building work that is within the obstacle limitation surface of an airport and at least 12m high, if the building work is not associated with a material change of use mentioned in table 3, item 15	The chief executive administering the <i>Transport Planning and Coordination Act 1994</i> —as a concurrence agency	The object mentioned in the <i>Transport Planning and Coordination Act 1994</i> , section 8A
Railways		
16 Building work on future railway land, if the building work is not associated with— (a) reconfiguring a lot mentioned in table 2, item 34; or (b) a material change of use mentioned in table 3, item 15A; or (c) government supported transport infrastructure	The chief executive administering the <i>Transport Infrastructure Act</i> —as a concurrence agency	The purpose mentioned in the <i>Transport Infrastructure Act</i> , section 258(2)

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
Amenity and aesthetic impact of particular building work		
17 Building work for a building or structure if it is— (a) a single detached class 1(a)(i) building, class 1(a)(ii) building comprising not more than 2 attached dwellings or a class 10 building or structure; and (b) in a locality and of a form for which the local government has, by resolution or in its planning scheme, declared that the form may— (i) have an extremely adverse effect on the amenity, or likely amenity, of the locality; or (ii) be in extreme conflict with the character of the locality	The local government—as a concurrence agency	The amenity and aesthetic impact of the building or structure if the building work is carried out
Whether particular buildings may be occupied for residential purposes		
18 Building work for a building, other than a class 1, 2, 3 or 4 building, for residential purposes	The local government—as a concurrence agency	Approval to use the building for residential purposes
Design and siting		
19 If— (a) the Queensland Development Code, part 1.1, 1.2 or 1.3 applies for building work; and (b) under the part, the proposed building or structure does not include an acceptable solution for a relevant performance criteria under the part	The local government—as a concurrence agency	Whether the proposed building or structure complies with the performance criteria

Table 1—For building work assessable against the Building Act		
Column 1 Application involving	Column 2 Referral agency and type	Column 3 Referral jurisdiction
<p>20 If—</p> <p>(a) under the Building Act, section 33, an alternative provision applies for the building work; and</p> <p>(b) under the provision, the proposed building or structure is not of the quantifiable standard for a relevant qualitative statement under the provision</p>	The local government—as a concurrence agency	Whether the proposed building or structure complies with the qualitative statement
<p>21 If—</p> <p>(a) under the <i>Building Regulation 2006</i>, section 10, a local planning instrument makes a provision about a matter provided for under performance criteria 4, 5, 7, 8 or 9 of the Queensland Development Code, part 1.1 or 1.2; and</p> <p>(b) the provision applies for building work; and</p> <p>(c) under the provision, the proposed building or structure is not of the quantifiable standard for a relevant qualitative statement under the provision</p>	The local government—as a concurrence agency	Whether the proposed building or structure complies with the qualitative statement
Fire safety in particular budget accommodation buildings		
<p>22 Building work required to ensure a building complies, under the Building Act, section 220, with the fire safety standard under that Act</p>	The local government—as a concurrence agency	Whether, after the building work is completed, the building will comply with the fire safety standard under the Building Act

Building work for removal or rebuilding		
25 Building work relating to any of the following— (a) the removal of a building or other structure, whether for rebuilding at another site or not; (b) the rebuilding of a building or other structure removed from another site	The local government—as a concurrence agency	Deciding— (a) whether the local government should require security, of no more than the value of the building work, for the performance of the work; and (b) if security is required—its amount and form
Building work for particular class 1 buildings		
26 Building work for a class 1(a)(i) building, or a class 1(a)(ii) building comprising not more than 2 attached dwellings, if any material change of use associated with the building work— (a) is for a residential purpose in a residential zone; and (b) would have required a development permit if schedule 4, table 2, item 2 did not apply for the use	The local government—as a concurrence agency	The provisions of the planning scheme that would apply for the development application if schedule 4, table 2, item 2 did not apply for the use
Temporary accommodation buildings		
27 Building work for a temporary accommodation building as defined under the <i>Building Regulation 2006</i> , section 54A if— (a) the Queensland Development Code, part 3.3 applies to the work; and (b) the requirements of acceptable solution A1 stated in the part are not complied with	The local government—as a concurrence agency	Performance criteria 1 of the Queensland Development Code, part 3.3

5 Operational work, not associated with reconfiguring a lot mentioned in item 4 or a material change of use mentioned in table 3, item 10, for clearing native vegetation made assessable under schedule 3, part 1, table 4, item 1	The chief executive administering the Vegetation Management Act—as a concurrence agency	The purposes of the Vegetation Management Act
Strategic port land		
6 A material change of use on strategic port land made assessable under schedule 3, part 1, table 2, item 3	The Minister under the Transport Infrastructure Act—as a concurrence agency	The purposes of the Transport Infrastructure Act
Airports		
7 A material change of use of premises on airport land made assessable under schedule 3, part 1, table 2, item 4	The Minister under the Transport Infrastructure Act—as a concurrence agency	The purposes of the Transport Infrastructure Act
7A Reconfiguring a lot if any part of the land is within— (a) the 25 ANEF contour for an airport and an accommodation activity is proposed; or (b) the public safety area of an airport	The chief executive administering the <i>Transport Planning and Coordination Act 1994</i> —as a concurrence agency	The object mentioned in the <i>Transport Planning and Coordination Act 1994</i> , section 8A
Major hazard facilities		
8 Material change of use of premises for a major hazard facility or proposed major hazard facility	The regulator under the <i>Work Health and Safety Act 2011</i> —as a concurrence agency	Safe storage and handling of any hazardous material as defined under the <i>Work Health and Safety Act 2011</i> and the control of major hazard facilities

Contaminated land		
22 Reconfiguring a lot if all or part of the premises are— (a) potentially affected premises; or (b) in an area for which an area management advice has been given for unexploded ordnance	The administering authority—as a concurrence agency	Protection of the environment by the management of contaminated land under the Environmental Protection Act
23 A material change of use made assessable under schedule 3, part 1, table 2, item 6 or 7	The administering authority—as a concurrence agency	Protection of the environment by the management of contaminated land under the Environmental Protection Act
Works or other development in or adjoining a fish habitat area		
25 Building work in a declared fish habitat area made assessable under schedule 3, part 1, table 1, item 2	The chief executive (fisheries)—as a concurrence agency	The purposes of the Fisheries Act
26 Operational work, completely or partly within a declared fish habitat area, made assessable under schedule 3, part 1, table 4, item 7	The chief executive (fisheries)—as a concurrence agency	The purposes of the Fisheries Act
27 Development on land that adjoins a declared fish habitat area made assessable under schedule 3, part 1	The chief executive (fisheries)—as an advice agency	The purposes of the Fisheries Act
Certain aquaculture		
28 A material change of use of premises for aquaculture made assessable under schedule 3, part 1, table 2, item 10	The chief executive (fisheries)—as a concurrence agency	The purposes of the Fisheries Act
Constructing or raising waterway barrier works		
29 Operational work that is the constructing or raising of a waterway barrier works made assessable under schedule 3, part 1, table 4, item 6	The chief executive (fisheries)—as a concurrence agency	The purposes of the Fisheries Act

Table 2—Other development made assessable under schedule 3 (whether or not the development is also assessable under a planning scheme, temporary local planning instrument or preliminary approval to which section 242 of the Act applies)

Land in or near a wetland		
43A Reconfiguring a lot if— (a) any part of the land is situated in a wetland protection area; and (b) the reconfiguration results in more than 6 lots, or any lot created is less than 5ha; and (c) the reconfiguration involves operational work that is high impact earthworks in a wetland protection area, other than for a domestic housing activity	The chief executive (environment)—as a concurrence agency	The purposes of the Environmental Protection Act
43B Operational work made assessable under schedule 3, part 1, table 4, item 10 if the chief executive (environment) is not the assessment manager	The chief executive (environment)—as a concurrence agency	The purposes of the Environmental Protection Act
Land in distributor-retailer's geographic area		
47 Reconfiguring a lot made assessable under schedule 3, part 1, table 3, item 1, or operational work for reconfiguring a lot made assessable under schedule 3, part 1, table 4, item 2, if— (a) the land is in the area of a local government that, under the SEQ Water Act, is a participating local government for a distributor-retailer; and (b) the participating local government is the assessment manager; and (c) the development application is made before 1 July 2013	The distributor-retailer for which the local government is a participating local government—as a concurrence agency <i>Note—</i> Under the SEQ Water Act, this jurisdiction is delegated to the local government.	The effects of the development on a water service or wastewater service of a distributor-retailer

27 Material change of use, other than a use or in an area mentioned in schedule 13A, of a lot of 5ha or larger if the footprint for the change of use is— (a) wholly or partly on SCL or potential SCL; and (b) more than 750m ²	The SCL chief executive—as a concurrence agency	1 The SCL principles 2 The SCL Act's purposes
28 Reconfiguring a lot, other than in an area mentioned in schedule 13A, if, under the reconfiguration, any lot with SCL or potential SCL in it is less than 15ha	The SCL chief executive—as a concurrence agency	1 The SCL principles 2 The SCL Act's purposes
29 A material change of use (not relating to a significant project) in a protection area— (a) for which the SCL chief executive is a concurrence agency under item 27; and (b) the carrying out of which will have a permanent impact on SCL or potential SCL; and (c) the footprint of which is more than 3000m ²	The Minister administering the SCL Act—as a concurrence agency	The SCL Act, chapter 4

Schedule 8 Special fire services and referral jurisdiction of Queensland Fire and Rescue Service for them

schedule 7, table 1, item 1

Part 1 Special fire services

- 1 air-handling systems used for smoke control
- 2 emergency lifts
- 3 emergency sound systems and intercom systems
- 4 fire control centres
- 5 fire detection and alarm systems (other than stand-alone smoke alarms not required to be interconnected or connected to a fire indicator panel)
- 6 fire hydrants
- 7 fire mains (other than fire mains that connect only fire hose reels)
- 8 services provided under conditions imposed under the Building Act, section 79
Editor's note—
Building Act, section 79 (Hazardous buildings)
- 9 services required under the BCA, clause E1.10
- 10 smoke and heat venting systems
- 11 smoke exhaust systems
- 12 special automatic fire suppression systems (including foam, deluge and gas flooding systems)
- 13 sprinklers (including wall-wetting sprinklers)

- 14 stairwell pressurisation systems
- 15 vehicular access for large isolated buildings

Part 2 Referral jurisdiction

Smoke control systems

- achievement of specified performance of systems
- suitability of automatic detector operation of stairwell pressurisation systems, smoke-and-heat vents and smoke exhaust systems
- suitability of operational controls and indicators

Emergency lifts

- operation of fire service controls in lifts

Emergency sound systems and intercom systems

- achievement of specified performance of sound systems and intercom systems
- operation of interface of sound systems and intercom systems
- location of main emergency control panel and warden intercom points
- suitability of warning tone and sound pressure levels under test

Fire control centres

- location of control centre
- suitability of contents, ventilation, signage, lighting and sound levels of control centre

Fire detection and alarm systems (other than stand-alone smoke alarms not required to be interconnected or connected to a fire indicator panel)

- achievement of specified performance of detection and alarm systems
- location and operation of main fire indicator panel, sub-indicator panels, mimic panels, repeater panels, strobe lights and directional signs
- operation of direct fire service alarm
- suitability of nominated types of detection in all areas, and the location of manual call points
- suitability of weather protection, accessibility and lighting of equipment
- if the sensitivity of a fire detection or alarm system can be varied—suitability of the sensitivity setting having regard to the location of the system and the Australian Standard for that system

Firefighting equipment

- achievement of specified performance
- location and suitability of booster connections and enclosures
- location and suitability of internal and roof hydrants and external hydrants including fire separation from adjacent buildings
- operation of fixed pump-set controls and status indication
- provision of additional hydrant services as mentioned in AS 2419
- provision of suitable facilities for testing internal hydrants
- provisions for connection of fire authority portable relay booster pump
- provisions for hard standing for fire appliances

Hazardous buildings

- suitability of special fire services and site requirements for hazardous buildings mentioned in the Building Act, section 79

Provision for special hazards

- suitability of special fire services for the protection of special hazards as mentioned in the BCA, clause E1.10

Special automatic fire suppression systems

- achievement of specified performance
- location of control valves
- provision of access for fire service vehicles
- provision of interface with other systems and direct fire service alarm
- suitability of extinguishment media

Sprinklers

- operation of direct fire service alarm and location of directional signs
- operation of pump-set controls and status indications
- provision of suitable fire protection for special hazards as mentioned in AS 2118
- the location of valve room, pump-sets, water alarm and booster point

Wall-wetting sprinklers

- location of isolating valves
- provision of suitable signs

Large isolated buildings

- suitability of site provisions for access by fire authority vehicles

Schedule 24 Clearing of native vegetation—not assessable development under schedule 3, part 1, table 4, item 1

schedule 3, part 1, table 4, item 1(e) and (f)

Part 1 Clearing and other activities or matters—general

1 Clearing and other activities or matters for land generally

- (1) Clearing under a development approval for a material change of use or reconfiguring a lot, if the approval is given for a development application—
 - (a) made after 4 October 2004; and
 - (b) for which the chief executive administering the Vegetation Management Act is a concurrence agency.
- (2) Clearing an area of vegetation that is less than 0.5ha within a watercourse or lake for an activity (other than an activity relating to a material change of use of premises or the reconfiguring of a lot) if—
 - (a) the clearing is—
 - (i) subject to an approval process and is approved under the Act or another Act; or
 - (ii) carried out under 1 of the following documents approved by the chief executive of the department that administers the *Water Act 2000*—
 - (A) the document called ‘Guideline—Activities in a watercourse, lake or spring carried out by an entity’;

- (B) the document called ‘Guideline—Activities in a watercourse, lake or spring carried out by a landowner’;
 - (C) the document called ‘Guideline—Activities in a watercourse or lake undertaken by a holder of an interim resource operations licence, resource operations licence or distribution operations licence’; and
 - (b) the area is—
 - (i) a least concern regional ecosystem—
 - (A) shown on the regional ecosystem map or remnant map as remnant vegetation; or
 - (B) shown on a PMAV as a category B area; or
 - (ii) shown on a PMAV as a category X area; or
 - (iii) shown on the regional ecosystem map or remnant map as other than remnant vegetation.
- (3) Clearing vegetation in an area declared under the Vegetation Management Act, section 19F if the clearing is carried out—
 - (a) under the management plan for the area; and
 - (b) for 1 or both of the following purposes—
 - (i) a purpose mentioned in the Vegetation Management Act, section 22A(2)(b), (c), (f), (g), (h) or (j);
 - (ii) the purpose of establishing a necessary fence, firebreak, road or vehicular track and the clearing can not reasonably be avoided or minimised.
- (4) Clearing vegetation—
 - (a) under a land management agreement for a lease under the *Land Act 1994*; and
 - (b) for 1 or more of the purposes mentioned in the Vegetation Management Act, section 22A(2)(b), (c), (d), (f), (g), (h) or (j).

-
- (5) A traditional Aboriginal or Torres Strait Islander cultural activity, other than a commercial activity.
 - (6) A mining activity or a chapter 5A activity.
 - (7) Any aspect of development for geothermal exploration carried out under a geothermal exploration permit under the *Geothermal Energy Act 2010*.
 - (8) Any aspect of development for core airport infrastructure on airport land.
 - (9) An activity under the *Fire and Rescue Service Act 1990*, section 53, 68 or 69.
 - (10) An activity under—
 - (a) the *Electricity Act 1994*, section 101 or 112A; or
 - (b) the *Electricity Regulation 2006*, section 17.
 - (11) For a State-controlled road or future State-controlled road—
 - (a) road works carried out on the State-controlled road or future State-controlled road; or
 - (b) ancillary works and encroachments carried out under the *Transport Infrastructure Act*, section 50.
 - (12) Clearing, for routine transport corridor management and safety purposes, on rail corridor land, non-rail corridor land or commercial corridor land (within the meaning of the *Transport Infrastructure Act*) that is not subject to a commercial lease.
 - (13) Any activity authorised under the *Forestry Act 1959*.
 - (14) Clearing vegetation on land in an area for which an area management plan under the *Vegetation Management Act*, section 20J is in force at the time of the clearing if—
 - (a) the clearing is done by the owner of the land, within the meaning of the *Vegetation Management Act*, or a person authorised by the owner; and
 - (b) the clearing is done in accordance with the area management plan; and

- (c) the owner has given the chief executive notice of the clearing under the *Vegetation Management Act*, section 20W.
- (15) Clearing vegetation on land mentioned in the *Forestry Act 1959*, section 55(1)(b), (c) or (d) to the extent the clearing is for accessing and extracting quarry material for road works under the *Transport Infrastructure Act 1994*.

Part 2 Clearing for particular land

2 Freehold land

For freehold land, clearing that is—

- (a) clearing of vegetation to which the *Vegetation Management Act* does not apply; or
- (b) for a forest practice; or
- (c) residential clearing; or
- (d) necessary for essential management; or
- (e) in an area shown on a PMAV as a category X area; or
- (f) in an area for which there is no PMAV and the vegetation is not regulated regrowth vegetation or shown on the regional ecosystem map or remnant map as remnant vegetation; or
- (g) for urban purposes in an urban area and the vegetation is regulated regrowth vegetation, or an of concern regional ecosystem or a least concern regional ecosystem—
 - (i) shown on a PMAV for the area as a category B area; or
 - (ii) if there is no PMAV for the area—shown on the regional ecosystem map or remnant map as remnant vegetation; or

-
- (h) for urban purposes in an urban area in a wild river high preservation area and the vegetation is—
 - (i) remnant vegetation, shown on the regional ecosystem map or remnant map, that is an of concern regional ecosystem or a least concern regional ecosystem; or
 - (ii) shown on the regional ecosystem map or remnant map as other than remnant vegetation; or
 - (iii) regulated regrowth vegetation; or
 - (i) necessary for routine management in an area of the land and the vegetation is regulated regrowth vegetation, or a least concern regional ecosystem—
 - (i) shown on a PMAV for the area as a category B area; or
 - (ii) if there is no PMAV for the area— shown on the regional ecosystem map or remnant map as remnant vegetation; or
 - (j) in a priority development area; or
 - (k) on airport land and the operational work—
 - (i) is consistent with the land use plan approved under the *Airport Assets (Restructuring and Disposal) Act 2008*, chapter 3, part 1 for the land; and
 - (ii) is carried out on land that is not stated, under the land use plan, to remain undeveloped land; or
 - (l) clearing of regulated regrowth vegetation under the regrowth vegetation code or a regrowth clearing authorisation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area; or
 - (m) for development that is for an extractive industry under the Vegetation Management Act, section 22A(3) in a key resource area to the extent it involves clearing regulated regrowth vegetation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area; or

- (n) for development that is a significant community project to the extent it involves clearing regulated regrowth vegetation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area.

3 Indigenous land

For indigenous land, clearing that is—

- (a) clearing of vegetation to which the Vegetation Management Act does not apply; or
- (b) for a forest practice, other than on land on which the State owns the trees; or
- (c) residential clearing; or
- (d) necessary for essential management; or
- (e) in an area shown on a PMAV as a category X area; or
- (f) in an area for which there is no PMAV and the vegetation is not regulated regrowth vegetation or shown on the regional ecosystem map or remnant map as remnant vegetation; or
- (g) for urban purposes in an urban area and the vegetation is regulated regrowth vegetation, or an of concern regional ecosystem or a least concern regional ecosystem—
 - (i) shown on a PMAV for the area as a category B area; or
 - (ii) if there is no PMAV for the area—shown on the regional ecosystem map or remnant map as remnant vegetation; or
- (h) for urban purposes in an urban area in a wild river high preservation area and the vegetation is—
 - (i) remnant vegetation, shown on the regional ecosystem map or remnant map, that is an of concern regional ecosystem or a least concern regional ecosystem; or
 - (ii) shown on the regional ecosystem map or remnant map as other than remnant vegetation; or

- (iii) regulated regrowth vegetation; or
- (i) necessary for routine management in an area of the land and the vegetation is regulated regrowth vegetation, or a least concern regional ecosystem—
 - (i) shown on a PMAV for the area as a category B area; or
 - (ii) if there is no PMAV for the area—shown on the regional ecosystem map or remnant map as remnant vegetation; or
- (j) gathering, digging or removing forest products—
 - (i) for the purpose of improving the land or for use under the *Aurukun and Mornington Shire Leases Act 1978*, section 28; or
 - (ii) for use under the *Aboriginal and Torres Strait Islander Communities (Justice, Land and Other Matters) Act 1984*, section 62; or
- (k) in a priority development area; or
- (l) clearing of regulated regrowth vegetation under the regrowth vegetation code or a regrowth clearing authorisation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area; or
- (m) for development that is for an extractive industry under the *Vegetation Management Act*, section 22A(3) in a key resource area to the extent it involves clearing regulated regrowth vegetation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area; or
- (n) for development that is a significant community project to the extent it involves clearing regulated regrowth vegetation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area.

4 Land subject to a lease under the Land Act 1994

- (1) For land subject to a lease under the *Land Act 1994* for agriculture or grazing purposes, clearing that is—

- (a) clearing of vegetation to which the Vegetation Management Act does not apply; or
 - (b) residential clearing; or
 - (c) necessary for essential management; or
 - (d) in an area shown on a PMAV as a category X area; or
 - (e) in an area for which there is no PMAV and the vegetation is not—
 - (i) shown on the regional ecosystem map or remnant map as remnant vegetation; or
 - (ii) regulated regrowth vegetation; or
 - (f) clearing of regulated regrowth vegetation under the regrowth vegetation code or a regrowth clearing authorisation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area; or
 - (g) necessary for routine management in an area of the land and the vegetation is regulated regrowth vegetation, or a least concern regional ecosystem—
 - (i) shown on a PMAV as a category B area; or
 - (ii) if there is no PMAV for the area—shown on the regional ecosystem map or remnant map as remnant vegetation; or
 - (h) for development that is for an extractive industry under the Vegetation Management Act, section 22A(3) in a key resource area to the extent it involves clearing regulated regrowth vegetation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area; or
 - (i) for development that is a significant community project to the extent it involves clearing regulated regrowth vegetation, other than if the vegetation is shown on a PMAV for an area of the land as a category A area.
- (2) For land subject to a lease under the *Land Act 1994* other than for agriculture or grazing purposes, clearing that is consistent with the purposes of the lease and is—

-
- (a) clearing of vegetation to which the Vegetation Management Act does not apply; or
 - (b) residential clearing; or
 - (c) necessary for essential management; or
 - (d) in an area shown on a PMAV as a category X area; or
 - (e) for rental category 3.1, 3.2, 4, 5, 8.2, 9.1 and 9.2 leases under the *Land Regulation 1995*—in an area for which there is no PMAV and the vegetation is not shown on the regional ecosystem map or remnant map as remnant vegetation.

5 Land that is a road under the Land Act 1994

For land that is a road under the *Land Act 1994*, clearing that is—

- (a) carried out by a local government, or by or for the chief executive of the department in which the Transport Infrastructure Act is administered, and is—
 - (i) necessary to construct road infrastructure or to source construction material for roads; or
 - (ii) in an urban area and the vegetation is a least concern regional ecosystem shown on the regional ecosystem map or remnant map as remnant vegetation; or
 - (iii) in an urban area and the vegetation is shown on the regional ecosystem map or remnant map as other than remnant vegetation; or
- (b) carried out by a local government and is for an activity, approved by the chief executive administering the Vegetation Management Act, that is carried out—
 - (i) to remove, under a management plan for the local government's area or part of its area, declared pests or vegetation that is not native vegetation; or
 - (ii) in response to an emergency situation or a natural disaster; or

- (c) necessary to remove or reduce the imminent risk that the vegetation poses of serious personal injury or damage to infrastructure; or
- (d) by fire under the *Fire and Rescue Service Act 1990* to reduce hazardous fuel load; or
- (e) necessary to maintain infrastructure located on the road, other than fences; or
- (f) necessary to maintain an existing boundary fence to the maximum width of 1.5m; or
- (g) necessary for reasonable access to adjoining land from the existing formed road for a maximum distance of 100m with a maximum width of 10m; or
- (h) necessary to maintain an existing firebreak or garden located on the road.

6 Particular trust land under the Land Act 1994

For land that is trust land under the *Land Act 1994*, other than indigenous land, clearing that is carried out by the trustee and is—

- (a) necessary for essential management; or
- (b) in an area shown on a PMAV as a category X area; or
- (c) in an area for which there is no PMAV and the vegetation is not shown on the regional ecosystem map or remnant map as remnant vegetation; or
- (d) for an activity, approved by the chief executive administering the Vegetation Management Act, that is carried out for the purpose of maintaining the trust land for the purpose for which it was granted and is necessary—
 - (i) to maintain a necessary fence, road or vehicular track; or
 - (ii) to maintain necessary built infrastructure, other than contour banks, fences, roads or vehicular tracks; or

- (iii) to remove, under a management plan for the land, declared pests or vegetation that is not native vegetation.

7 Unallocated State land under the Land Act 1994

For land that is unallocated State land under the *Land Act 1994*, clearing that is carried out by the chief executive administering that Act and is—

- (a) necessary for essential management; or
- (b) to control declared pests or vegetation that is not native vegetation; or
- (c) in a priority development area.

8 Land subject to a licence or permit under the Land Act 1994

For land that is subject to a licence or permit under the *Land Act 1994*, clearing that is carried out by the licensee or permittee and is—

- (a) necessary for essential management; or
- (b) in a priority development area.

- 37 a notice given under section 321(6) of the Act to withdraw a notice mentioned in item 36
- 38 a notice of a change to the development application given by the applicant under section 351(1) of the Act
- 39 a notice given by the local government under section 352 of the Act advising a referral agency of the effect of a notice mentioned in item 38
- 40 a notice given under section 356(1) of the Act withdrawing the development application
- 41 a notice given under section 357(2) of the Act advising that the applicant has not referred the development application as required under section 272 of the Act
- 42 correspondence about the development application between any of the following—
 - (a) the applicant;

- (b) the local government;
 - (c) a referral agency
- 43 correspondence about the development application between any of the entities mentioned in item 42 and a submitter
 - 44 representations made by the applicant under section 361(1) of the Act
 - 45 a notice given by the local government under section 363(5) of the Act of a decision not to agree with any of the representations mentioned in item 44
 - 46 a notice under section 366(1) of the Act suspending the applicant's appeal period
 - 47 a notice under section 366(4)(a) of the Act withdrawing a notice mentioned in item 46
 - 48 a notice given by the Minister to the local government under section 418(1) or 419(1) of the Act
 - 49 a notice given by the Minister to a concurrence agency under section 420(1) of the Act
 - 50 a notice given by the Minister to the applicant under section 421(1) of the Act
 - 51 a notice given by the Minister to the local government under section 425(1) of the Act calling in the development application
 - 52 a copy of the Minister's decision notice given to the local government under section 429(1) of the Act
 - 53 a notice given by the regional planning Minister to the local government under section 430(2) or (3) of the Act
 - 54 a notice given by the Minister to the local government under section 431(1) of the Act referring the aspects of the development application not decided back to the local government

Schedule 26 Dictionary

section 3

accommodation activities means the group of uses identified as accommodation activities under the standard planning scheme provisions.

active transport infrastructure see the *Transport Planning and Coordination Act 1994*, section 8A.

additional exempt operational work, for a lot in relation to development mentioned in schedule 7, table 2, item 4 or table 3, item 10, means operational work that—

- (a) is either of the following—
 - (i) clearing of vegetation on freehold land or land subject to a lease under the *Land Act 1994*, to the extent necessary for building a single dwelling house on a lot and any reasonably associated building or structure, if the building of the dwelling house is—
 - (A) building work for which a development permit for a building development application, or a compliance permit, has been given; or
 - (B) building work mentioned in schedule 3, part 2, table 1, item 1; or
 - (C) for public housing;
 - (ii) clearing for essential management or routine management; and
- (b) would be assessable development under schedule 3, part 1, table 4, item 1 (the ***relevant item***) if it were carried out on the lot immediately before the development happened, but because of the development is not assessable development under the relevant item.

Example of additional exempt operational work for development mentioned in schedule 7, table 3, item 10—

development involving a building or structure associated with a material change of use located within 70m of native vegetation

aged-care facility means a facility, or part of a facility, at which accommodation and nursing or personal care is provided to older persons who, because of incapacity or infirmity, have a continuing need for nursing or personal care.

agricultural ERA see the Environmental Protection Act, section 75.

aid to navigation see the *Transport Operations (Marine Safety) Act 1994*, section 104.

airport see ‘State Planning Policy 1/02 Development in the Vicinity of Certain Airports and Aviation Facilities’, Annex 1.

airport land see the *Airport Assets (Restructuring and Disposal) Act 2008*, schedule 3.

air transport infrastructure see the Transport Infrastructure Act, schedule 6.

ancillary works and encroachments see the Transport Infrastructure Act, schedule 6.

ANEF means Australian Noise Exposure Forecast.

ANEF contour, for an airport, means a contour marked with a number and shown on a document known as the airport’s ANEF chart that has been prepared by the airport’s operator and endorsed by Airservices Australia.

Example—

The 25 ANEF contour means the contour marked with the number 25 and shown on an airport’s ANEF chart.

area management advice means a written notice given by the administering authority to the local government about planning for or managing land contaminated because of natural mineralisation, industrial activity or unexploded ordnance.

artificial waterway see the Coastal Protection and Management Act, section 8.

Australian Noise Exposure Forecast see ‘State Planning Policy 1/02 Development in the Vicinity of Certain Airports and Aviation Facilities’.

authorised electricity entity means an entity authorised, or taken to be authorised, under the *Electricity Act 1994*, section 116(1), to acquire land.

background level, of noise for schedule 4, table 5, item 11(1)(ga), means the background level of noise measured by applying the relevant procedure under—

- (a) AS 1055-1997 ‘Acoustics—Description and measurement of environmental noise’; or
- (b) the document called ‘Noise measurement manual’, published by the department administering the Environmental Protection Act.

bed and banks—

- 1 *Bed and banks*, of a watercourse or lake, means land over which the water of the watercourse or lake normally flows or that is normally covered by the water, whether permanently or intermittently.
- 2 *Bed and banks* does not include land adjoining or adjacent to the bed or banks that is from time to time covered by floodwater.

business activities means the group of uses identified as business activities under the standard planning scheme provisions.

busway transport infrastructure see the Transport Infrastructure Act, schedule 6.

busway transport infrastructure works see the Transport Infrastructure Act, schedule 6.

canal see the Coastal Protection and Management Act, section 9.

car park means a car park as defined under the standard planning scheme provisions.

category A area means a category A area under the Vegetation Management Act.

category B area means a category B area under the Vegetation Management Act.

category C area means a category C area under the Vegetation Management Act.

category X area means a category X area under the Vegetation Management Act.

class, for a building or structure, means its particular classification under the BCA.

club means a club as defined under the standard planning scheme provisions.

coastal dune means a ridge or hillock of sand or other material—

- (a) on the coast; and
- (b) built up by the wind.

Coastal Protection and Management Act means the *Coastal Protection and Management Act 1995*.

commercial corridor land see the Transport Infrastructure Act, schedule 6.

Commonwealth Minister, for part 6, see section 31.

contaminated land see the Environmental Protection Act, schedule 4.

contaminated land register means the contaminated land register under the Environmental Protection Act.

core airport infrastructure see the *Airport Assets (Restructuring and Disposal) Act 2008*, schedule 3.

cultural heritage significance, in relation to a place for schedule 4, table 5, items 11 and 12A, means its aesthetic, architectural, historical, scientific, social or other significance, to the present generation or past or future generations.

dam see the *Water Act 2000*, schedule 4.

dead marine wood means a branch or trunk that—

- (a) is a part of a dead marine plant; or

(b) was a part of a dead marine plant.

declared pest means a declared pest under the *Land Protection (Pest and Stock Route Management) Act 2002*.

defined flood level see the *Building Regulation 2006*, schedule 4.

designated proponent, for part 6, see section 31.

distributor-retailer means a distributor-retailer established under the SEQ Water Act, section 8.

domestic housing activity means the construction or use of a single residence on a lot and any reasonably associated building or structure.

Examples of a building or structure that could be reasonably associated with a single residence—

caretakers' accommodation, granny flat, building or structure used for a home business

educational establishment means an educational establishment as defined under the standard planning scheme provisions.

education and care service premises see the Education and Care Services National Law (Queensland), section 5(1).

electricity infrastructure means operating works under the *Electricity Act 1994*, section 12(3).

entertainment activities means the group of uses identified as entertainment activities under the standard planning scheme provisions.

environmental management register means the environmental management register under the Environmental Protection Act.

essential management means clearing native vegetation—

- (a) for establishing or maintaining a necessary firebreak to protect infrastructure other than a fence, road or vehicular track, if the maximum width of the firebreak is equivalent to 1.5 times the height of the tallest vegetation adjacent to the infrastructure, or 20m, whichever is the greater; or

-
- (b) for establishing a necessary fire management line if the maximum width of the clearing for the fire management line is 10m; or
 - (c) necessary to remove or reduce the imminent risk that the vegetation poses of serious personal injury or damage to infrastructure; or
 - (d) by fire under the *Fire and Rescue Service Act 1990* to reduce hazardous fuel load; or
 - (e) necessary to maintain infrastructure including any core airport infrastructure, buildings, fences, helipads, roads, stockyards, vehicular tracks, watering facilities and constructed drains other than contour banks, other than to source construction material; or
 - (f) for maintaining a garden or orchard, other than clearing predominant canopy trees to maintain underplantings established within remnant vegetation; or
 - (g) on land subject to a lease issued under the *Land Act 1994* for agriculture or grazing purposes to source construction timber to repair existing infrastructure on the land, if—
 - (i) the infrastructure is in need of immediate repair; and
 - (ii) the clearing does not cause land degradation as defined under the *Vegetation Management Act*; and
 - (iii) restoration of a similar type, and to the extent of the removed trees, is ensured; or
 - (h) by the owner on freehold land to source construction timber to maintain infrastructure on any land of the owner, if—
 - (i) the clearing does not cause land degradation as defined under the *Vegetation Management Act*; and
 - (ii) restoration of a similar type, and to the extent of the removed trees, is ensured.

excluded work—

- 1 *Excluded work*, for schedule 3, part 1, table 4, item 5, means maintenance work on a lawful work.
- 2 *Excluded work*, for schedule 3, part 1, table 4, item 5(a) also means carrying out alterations to existing lawful boat ramps, bridges, pontoons, slipways, wharves and jetties (the ***existing structures***) other than alterations—
 - (a) creating roofed structures, including sheds and gazebos; or
 - (b) that change the footprint of the existing structures; or
 - (c) to the dimensions or structural capacity of the existing structures; or
 - (d) that may affect safe navigable access to or from tidal water or to or from properties adjoining tidal water, including alterations to clearance heights or lighting.
- 3 *Excluded work*, for schedule 3, part 1, table 4, item 5(b)(i) and (iv) also means—
 - (a) minor work that—
 - (i) has an insignificant impact on coastal management; and
 - (ii) is reversible or expendable; or
 - (b) work for which an exemption certificate under the Coastal Protection and Management Act has been issued.
- 4 *Excluded work*, for schedule 7, table 3, item 5 also means work for which an exemption certificate under the Coastal Protection and Management Act has been issued.
- 5 *Excluded work* does not include work to which section 584 of the Act applies.

existing school campus, for schedule 4, table 5, items 11 and 12A, means premises at which a school is established, but

does not include separate premises associated with the school and used solely—

- (a) for sporting or recreational purposes; or
- (b) for residential purposes, whether or not any residential dwellings comprising the premises are vacant.

extractive industry means an extractive industry as defined under the standard planning scheme provisions.

failure impact assessed means failure impact assessed under the Water Supply Act, section 343.

fire safety system means a fire safety system as defined under the BCA, volume 1, part A1.

Fisheries Act means the *Fisheries Act 1994*.

food and drink outlet means a food and drink outlet as defined under the standard planning scheme provisions.

footprint, for a provision about development, means the portion of the relevant lot covered by—

- (a) buildings or structures measured to their outermost projection; and
- (b) any of the following relating to the buildings or structures or the development—
 - (i) asphalt, concrete or another hard built surface;
 - (ii) a carpark;
 - (iii) a road or access track;
 - (iv) an area used for vehicle movement or parking;
 - (v) an area used or that may be used for storage.

function facility means a function facility as defined under the standard planning scheme provisions.

future public passenger transport corridor means land identified in a guideline made under the Transport Planning and Coordination Act 1994, section 8E for any of the following—

- (a) busway transport infrastructure;

- (b) busway transport infrastructure works;
- (c) light rail transport infrastructure;
- (d) light rail transport infrastructure works;
- (e) rail transport infrastructure;
- (f) railway works.

future public passenger transport facility means any of the following identified in a guideline made under the *Transport Planning and Coordination Act 1994*, section 8E—

- (a) a future busway station;
- (b) a future railway passenger station;
- (c) a future light rail station;
- (d) a future passenger transport interchange facility.

future railway land see the *Transport Infrastructure Act*, section 242.

future State-controlled road means a road or land that the chief executive administering the *Transport Infrastructure Act* has, by written notice given to a local government and published in the gazette, indicated is intended to become a State-controlled road under that Act, section 42.

future State-controlled transport tunnel means a tunnel that forms part of—

- (a) future State-controlled road; or
- (b) future railway land; or
- (c) a future public passenger transport corridor.

GFA, for a development application, means the gross floor area.

Gold Coast waters see the *Gold Coast Waterways Authority Act 2012*, section 7(1).

government supported transport infrastructure means transport infrastructure that—

- (a) is funded, wholly or partly, by appropriations from the consolidated fund; or

- (b) is funded, wholly or partly, by borrowings made by the Government (other than commercial borrowings made by the Queensland Treasury Corporation acting as an agent); or
- (c) is funded, wholly or partly, by borrowings guaranteed by the Government other than borrowings for commercial investments; or
- (d) is provided by a person on the basis of conditions agreed to by the Government that are intended to support the commercial viability of the infrastructure; or
- (e) is funded, wholly or partly, by the Commonwealth.

gross floor area, for a building, means the total floor area of all storeys of the building, including any mezzanines, (measured from the outside of the external walls and the centre of any common walls of the building), other than areas used for—

- (a) building services; or
- (b) a ground floor public lobby; or
- (c) a public mall in a shopping complex; or
- (d) parking, loading or manoeuvring of vehicles; or
- (e) balconies, whether roofed or not.

hazardous contaminant see the Environmental Protection Act, schedule 4.

health care services means health care services as defined under the standard planning scheme provisions.

high impact earthworks—

- 1 *High impact earthworks* means operational work that involves changing the form of land, or placing a structure on land, in a way that diverts water to or from a wetland.
- 2 However, *high impact earthworks* does not include operational work that is—
 - (a) necessary to maintain infrastructure including any core airport infrastructure, buildings, dams, fences,

- helipads, roads, stockyards, vehicular tracks, watering facilities and constructed drains other than contour banks, other than to source construction material; or
- (b) carried out for a forest practice; or
 - (c) excavating not more than 100m³ of material, or using not more than 100m³ of material as fill; or
 - (d) excavating not more than 1000m³ of material, or using not more than 1000m³ of material as fill, if the excavating or filling is more than 200m from the wetland in a wetland protection area; or
 - (e) excavating to establish underground infrastructure, other than infrastructure for drainage or stormwater flows, if the excavated land is to be restored, as far as practicable, to its original contours after the infrastructure is established; or
 - (f) carried out to restore or conserve the ecological processes or hydrological functions of a wetland protection area; or
 - (g) carried out completely or partly in a declared fish habitat area or a wild river area, if the work is assessable development under schedule 3, part 1; or
 - (h) the constructing or raising of waterway barrier works, if the work is self-assessable development under schedule 3, part 2; or
 - (i) carried out under—
 - (i) the *Electricity Act 1994*, section 101 or 112A; or
 - (ii) the *Fire and Rescue Service Act 1990*, section 53, 68 or 69; or
 - (iii) a geothermal exploration permit under the *Geothermal Energy Act 2010*; or
 - (j) the laser levelling of land if the work does not change the previously levelled contours or slope of the land; or

-
- (k) carried out for government supported transport infrastructure for which the funding and construction arrangements were approved by the State or Commonwealth before 31 October 2011; or
 - (l) the maintenance of government supported transport infrastructure, including any of the following relating to the infrastructure—
 - (i) rehabilitation;
 - (ii) replacement;
 - (iii) repair;
 - (iv) recurrent servicing;
 - (v) preventive and remedial action;
 - (vi) removal;
 - (vii) alteration;
 - (viii) maintaining systems and services; or
 - (m) carried out within a coastal management district; or
 - (n) necessary to reinstate earthworks destroyed by floods or landslides; or
 - (o) carried out in tidal water.

high impact industry means high impact industry as defined under the standard planning scheme provisions.

hospital means a hospital as defined under the standard planning scheme provisions.

hotel means a hotel as defined under the standard planning scheme provisions.

indigenous freshwater fish means a fish that is—

- (a) a freshwater fish as defined under the *Fisheries Regulation 2008*, schedule 11, part 2; and
- (b) indigenous, within the meaning of the Fisheries Act, schedule, definition *indigenous fisheries resources*, to—
 - (i) only Queensland freshwaters; or

- (ii) both Queensland freshwaters and Queensland tidal waters.

indigenous marine fish means a fish that is indigenous, within the meaning of the Fisheries Act, schedule, definition *indigenous fisheries resources*, to only Queensland tidal waters.

industrial area means land, however described, that is designated in a planning instrument as industrial, or that is predominantly industrial in character, having regard to—

- (a) dominant land uses in the area; or
- (b) the relevant provisions of a planning instrument applying to the area.

Examples of ways of describing industrial areas—

- heavy industry
- commercial industry
- light industry
- service industry
- general industry
- waterfront industry
- extractive industry

industry activities means the group of uses identified as industry activities under the standard planning scheme provisions.

intensive animal industries means intensive animal industries as defined under the standard planning scheme provisions.

key resource area means an area identified as a key resource area in the document called ‘State Planning Policy 2/07—Protection of Extractive Resources’, a State planning policy that took effect on 3 September 2007.

Editor’s note—

The document can be inspected on the department’s website at <www.dsdip.qld.gov.au>.

lake see the *Water Act 2000*, schedule 4.

land use plan means a plan approved under the Transport Infrastructure Act, section 286.

least concern regional ecosystem means a least concern regional ecosystem under the Vegetation Management Act.

LGA population 1 means a local government area of a local government mentioned in schedule 25.

LGA population 2 means a local government area that is not an LGA population 1.

light rail transport infrastructure see the Transport Infrastructure Act, schedule 6.

light rail transport infrastructure works see the Transport Infrastructure Act, schedule 6.

low impact industry means low impact industry as defined under the standard planning scheme provisions.

Lyngbya means a plant of the genus *Lyngbya*.

major hazard facility see the *Work Health and Safety Regulation 2011*, schedule 19.

major sport, recreation and entertainment facility means a major sport, recreation and entertainment facility as defined under the standard planning scheme provisions.

master plan means a master plan—

- (a) continued in force under chapter 10, part 6 of the Act; and
- (b) that has not ceased to have effect under section 907 of the Act.

maximum flow velocity of water see the *Building Regulation 2006*, schedule 4.

medium impact industry means medium impact industry as defined under the standard planning scheme provisions.

miscellaneous transport infrastructure see the Transport Infrastructure Act, section 416.

natural hazard management area (flood) see the *Building Regulation 2006*, schedule 4.

non-State school, for schedule 4, table 5, items 11 and 12A, means a school that is provisionally accredited, or accredited, under the *Education (Accreditation of Non-State Schools) Act 2001*, section 6.

notifiable activity see the Environmental Protection Act, schedule 4.

noxious and hazardous industries means noxious and hazardous industries as defined under the standard planning scheme provisions.

obstacle limitation surface means an obstacle limitation surface established under the *Civil Aviation Safety Regulations 1998* (Cwlth).

of concern regional ecosystem means an of concern regional ecosystem under the Vegetation Management Act.

office means an office as defined under the standard planning scheme provisions.

operational airspace see ‘State Planning Policy 1/02 Development in the Vicinity of Certain Airports and Aviation Facilities’.

other rail infrastructure see the Transport Infrastructure Act, schedule 6.

permanent impact, on SCL or potential SCL, see the SCL Act, section 14(1).

petroleum activities see the Environmental Protection Act, schedule 4.

PMAV means a property map of assessable vegetation under the Vegetation Management Act.

port authority see the Transport Infrastructure Act, schedule 6.

potentially affected premises—

1 ***Potentially affected premises*** means premises—

- (a) all or part of which is on the environmental management register or the contaminated land register; or

- (b) used for, or if there is no existing use, last used for, a notifiable activity or an industrial activity (other than a mining activity or a chapter 5A activity).
- 2 However, *potentially affected premises* does not include—
- (a) premises used or previously used for a notifiable activity if all of the following apply—
- (i) the land on which the premises is located has been removed from the environmental management register;
- (ii) a suitability statement has been given for the intended use;
- (iii) no new notifiable activity has occurred on the premises since the suitability statement was given;
- (iv) the land is not otherwise contaminated by a hazardous contaminant; or
- (b) premises on the environmental management register or contaminated land register if there is a notifiable activity on the premises that is continuing; or
- (c) premises in a priority development area.

potentially sensitive material change of use of premises, for schedule 3, part 1, table 2, item 7, means a material change of use of premises for any of the following, unless the premises is in a priority development area—

- (a) child care;
- (b) education and care service premises;
- (c) educational, recreational or residential (including caretakers' accommodation on industrial land) purposes.

potential SCL see the SCL Act, section 10.

priority development area means a priority development area under the *Economic Development Act 2012*.

proposed major hazard facility see the *Work Health and Safety Regulation 2011*, schedule 19.

protection area see the SCL Act, section 28(2).

public marine transport infrastructure see the Transport Infrastructure Act, schedule 6.

public passenger service see the *Transport Operations (Passenger Transport) Act 1994*, schedule 3.

public passenger transport corridor means land—

- (a) on which any of the following transport infrastructure is situated, if the infrastructure is used for providing public passenger services—
 - (i) busway transport infrastructure;
 - (ii) light rail transport infrastructure;
 - (iii) rail transport infrastructure; or
- (b) on which other services are provided for the maintenance or operation of transport infrastructure mentioned in paragraph (a).

public passenger transport facility means any of the following—

- (a) a busway station;
- (b) a railway passenger station;
- (c) a light rail station;
- (d) a passenger transport interchange facility identified in a guideline made under the *Transport Planning and Coordination Act 1994*, section 8E.

public safety area see ‘State Planning Policy 1/02 Development in the Vicinity of Certain Airports and Aviation Facilities’, Annex 3.

QPW code see the *Standard Plumbing and Drainage Regulation 2003*, schedule 6.

qualitative statement means a qualitative statement or other provision about a performance or outcome sought to be achieved when applicable buildings or structures are finished.

quantifiable standard means a standard that achieves a performance or outcome sought under a qualitative statement.

rail corridor land see the Transport Infrastructure Act, schedule 6.

rail transport infrastructure see the Transport Infrastructure Act, schedule 6.

railway means land on which railway transport infrastructure or other rail infrastructure is situated.

railway tunnel easement see the Transport Infrastructure Act, schedule 4.

railway works see the Transport Infrastructure Act, schedule 6.

recreation activities means the group of uses identified as recreation activities under the standard planning scheme provisions.

regional ecosystem map see the Vegetation Management Act, section 20A.

regrowth clearing authorisation means a regrowth clearing authorisation under the Vegetation Management Act, section 19ZA(1).

regrowth vegetation code means the regrowth vegetation code under the Vegetation Management Act, section 19S(1).

regrowth vegetation map means the regrowth vegetation map under the Vegetation Management Act, section 20AB.

regulated regrowth vegetation means regulated regrowth vegetation under the Vegetation Management Act.

relevant impacts, for part 6, see section 31.

relevant instrument of lease means an instrument of lease for a grant of a residential lease over a part of a lot that—

- (a) was previously subject to a social housing lease; and
- (b) is the same part of the lot that was subject to—
 - (i) a partial surrender of the social housing lease; or

- (ii) if the part of the lot is the last remaining part of the social housing lease—a whole surrender of the lease.

relevant program—

- 1 *Relevant program*, for schedule 4, table 5, items 11 and 12, means the program established by the Commonwealth government in February 2009 that—
 - (a) provides funding for new facilities and refurbishments in schools, including, for example, trade training centres; and
 - (b) is known as the ‘Nation Building and Jobs Plan—Building the Education Revolution’.
- 2 *Relevant program*, for schedule 4, table 5, item 12A, means the program established by the State in June 2011 that—
 - (a) provides funding for new educational facilities and refurbishments in schools; and
 - (b) is known as the ‘Transition of Year 7, from the last year of primary schooling to the first year of secondary schooling, as outlined in the Education White Paper - A Flying Start for Queensland Children’.

remnant map see the Vegetation Management Act, section 20AA.

remnant vegetation means remnant vegetation as defined under the Vegetation Management Act.

residential care facility means a residential care facility as defined under the standard planning scheme provisions.

residential clearing—

- (a) for the clearing of vegetation on freehold land or land subject to a lease under the *Land Act 1994*—means clearing the vegetation to the extent necessary for building a single dwelling house on a lot, and any reasonably associated building or structure, if the building of the dwelling house is—

-
- (i) building work for which a development permit for a building development application, or a compliance permit, has been given; or
 - (ii) building work mentioned in schedule 3, part 2, table 1, item 1; or
 - (iii) for public housing; or
- (b) for the clearing of vegetation on indigenous land—means clearing the vegetation to the extent necessary for building dwelling houses, and any reasonably associated building or structure, for Aboriginal or Torres Strait Islander inhabitants of the land or persons providing educational, health, police or other community services for the inhabitants, if the building of the dwelling houses is—
- (i) building work for which a development permit for a building development application, or a compliance permit, has been given; or
 - (ii) building work mentioned in schedule 3, part 2, table 1, item 1; or
 - (iii) for public housing.

residential land—

- 1 *Residential land*, for schedule 4, table 5, item 11, means land that—
- (a) is being used for residential purposes; or
 - (b) may or is intended to be used for residential purposes under—
 - (i) a development approval in effect on or before 24 April 2009; or
 - (ii) a planning scheme as in force on 24 April 2009.
- 2 *Residential land*, for schedule 4, table 5, item 12A, means land that—
- (a) is being used for residential purposes; or

- (b) may or is intended to be used for residential purposes under—
- (i) a development approval in effect on or before 9 June 2011; or
 - (ii) a planning scheme as in force on 9 June 2011.

residential lease means a residential lease under—

- (a) the *Aboriginal Land Act 1991*, section 147; or
- (b) the *Torres Strait Islander Land Act 1991*, section 112.

residential zone means land, however described, designated in a planning scheme, temporary local planning instrument, master plan or preliminary approval to which section 242 of the Act applies as residential.

Examples of ways of describing land—

- general residential
- park residential
- residential living
- residential choice
- residential low density
- residential medium density
- residential high density

road frontage, for land, for schedule 4, table 5, items 11 and 12A, means the boundary between the land and any road adjoining the land.

routine management, for clearing native vegetation on land, means the clearing of native vegetation—

- (a) to establish a necessary fence, road or vehicular track if the maximum width of clearing for the fence, road or track is 10m; or
- (b) to construct necessary built infrastructure, including core airport infrastructure, other than contour banks, fences, roads or vehicular tracks, if—

-
- (i) the clearing is not to source construction timber; and
 - (ii) the total extent of clearing is less than 2ha; and
 - (iii) the total extent of the infrastructure is on less than 2ha; or
- (c) by the owner on freehold land to source construction timber for establishing necessary infrastructure on any land of the owner, if—
- (i) the clearing does not cause land degradation as defined under the Vegetation Management Act; and
 - (ii) restoration of a similar type, and to the extent of the removed trees, is ensured; or
- (d) by the lessee of land subject to a lease issued under the *Land Act 1994* for agriculture or grazing purposes to source construction timber, other than commercial timber, for establishing necessary infrastructure on the land, if—
- (i) the clearing does not cause land degradation as defined under the Vegetation Management Act; and
 - (ii) restoration of a similar type, and to the extent of the removed trees, is ensured.

school, for schedule 4, table 5, items 11 and 12A, means a non-State school or State school.

SCL see the SCL Act, section 9(2).

SCL Act means the *Strategic Cropping Land Act 2011*.

SCL chief executive means the chief executive of the department in which the SCL Act is administered.

4 Table of reprints

A new reprint of the legislation is prepared by the Office of the Queensland Parliamentary Counsel each time a change to the legislation takes effect.

The notes column for this reprint gives details of any discretionary editorial powers under the *Reprints Act 1992* used by the Office of the Queensland Parliamentary Counsel in preparing it. Section 5(c) and (d) of the Act are not mentioned as they contain mandatory requirements that all amendments be included and all necessary consequential amendments be incorporated, whether of punctuation, numbering or another kind. Further details of the use of any discretionary editorial power noted in the table can be obtained by contacting the Office of the Queensland Parliamentary Counsel by telephone on 3237 0466 or email legislation.queries@oqpc.qld.gov.au.

From 29 January 2013, all Queensland reprints are dated and authorised by the Parliamentary Counsel. The previous numbering system and distinctions between printed and electronic reprints is not continued with the relevant details for historical reprints included in this table.
