Gene Technology Act 2001

Act No. 68 of 2001

**An Act to provide for regulating activities involving gene technology,
and for other purposes**

[Assented to 25 October 2001]

The Parliament of Queensland enacts—

PART 1—PRELIMINARY

1 Short title

This Act may be cited as the *Gene Technology Act 2001* or the Gene Technology Law of Queensland or simply as the Gene Technology Law.

Note—

This section differs from section 1 of the Commonwealth Act.

2 Commencement

(1) Subject to subsection (2), this Act commences on a day to be fixed by proclamation.

(2) If a provision of this Act does not commence before 1 January 2002, it commences on 1 January 2002.

Note—

This section differs from section 2 of the Commonwealth Act.

3 Object of Act

The object of this Act is to protect the health and safety of people, and to protect the environment, by identifying risks posed by or as a result of gene technology, and by managing the risks by regulating certain dealings with GMOs.

4 Regulatory framework to achieve object

The object of this Act is to be achieved by a regulatory framework that—

- (aa) provides that, where there are threats of serious or irreversible environmental damage, a lack of full scientific certainty should not be used as a reason for postponing cost-effective measures to prevent environmental degradation; and

- (a) provides an efficient and effective system for the application of gene technologies; and
- (b) operates in conjunction with other Commonwealth and State regulatory schemes relevant to GMOs and GM products.

Note—

Examples of the schemes mentioned in paragraph (b) are schemes that regulate food, agricultural and veterinary chemicals, industrial chemicals and therapeutic goods.

5 Nationally consistent scheme

It is the intention of the Parliament that this Act form a component of a nationally consistent scheme for the regulation of certain dealings with GMOs by the Commonwealth and the States.

6 Act binds all persons

(1) This Act binds all persons, including the State, and, so far as the legislative power of the Parliament permits, the Commonwealth and the other States.

(2) Nothing in this Act makes the Commonwealth or a State liable to be prosecuted for an offence.

7 External Territories

Note—

The Commonwealth Act includes a provision extending that Act to every external Territory other than Norfolk Island.

8 Offences and penalties

Notes—

1. The Commonwealth Act includes a provision applying chapter 2 of the *Criminal Code* (Cwlth) to offences against the Commonwealth Act and construing penalty provisions in that Act. The Criminal Code of Queensland applies for the purposes of this Act.
2. Penalties prescribed under this Act are expressed in Queensland penalty units. The number of penalty units in each case is as close as possible to the Commonwealth monetary penalty, rounded down to the next penalty unit.

8A Numbering

(1) In order to maintain consistent numbering between this Act and the Commonwealth Act—

- (a) if the Commonwealth Act contains a section not required in this Act, the provision number and heading to the section appearing in the Commonwealth Act are included in this Act despite the omission of the body of the section; and
- (b) if this Act contains a section that is not included in the Commonwealth Act, the section is numbered so as to maintain consistency in numbering between sections common to both Acts.

(2) A provision number and heading mentioned in subsection (1)(a) form part of this Act.

Notes—

1. A note appears under each heading of a kind mentioned in subsection (1)(a) describing the omitted section of the Commonwealth Act.
2. A note appears under each section of a kind mentioned in subsection (1)(b) highlighting the non-appearance of an equivalent section in the Commonwealth Act.
3. This section does not appear in the Commonwealth Act.

8B Notes

Notes do not form part of this Act.

Note—

This section does not appear in the Commonwealth Act.

8C Outlines

The provisions appearing at the beginning of parts 2 to 12, outlining the parts, are intended only as a guide to readers as to the general scheme and effect of the parts.

Note—

This section does not appear in the Commonwealth Act.

(2) If this Act requires or permits the Ministerial council to do a thing, the Ministerial council must do the thing under the gene technology agreement.

Note—

Subsection (1) differs from section 10(1) of the Commonwealth Act.

11 Meaning of “intentional release of a GMO into the environment”

A dealing with a GMO involves the “**intentional release of the GMO into the environment**” if the GMO is intentionally released into the open environment, whether or not it is released with provision for limiting the dissemination or persistence of the GMO or its genetic material in the environment.

12 Meaning of “corresponding State law”

Note—

The Commonwealth Act includes a provision defining “corresponding State law” for that Act.

12A Meaning of “reckless”

(1) A person is “**reckless**” in relation to a circumstance if—

(4) For this section, a reference in a provision of the Administrative Appeals Tribunal Act, as the provision applies as a law of the State, to all or any part of part IVA of that Act is taken to be a reference to all or part of that part as it has effect as a law of the Commonwealth.

Notes—

1. This section differs from section 19 of the Commonwealth Act.
2. The regulations in force mentioned in subsection (3) are those in force from time to time. See the *Acts Interpretation Act 1954*, section 14H(2) and the *Statutory Instruments Act 1992*, section 14(1) and schedule 1.

PART 5—LICENSING SYSTEM*Division 1—Simplified outline***39 Simplified outline of pt 5**

In outline, this part—

- (a) provides a licensing system under which a person may apply to the regulator for a licence authorising dealings with GMOs; and
- (b) states the processes the regulator must follow for applications involving the following kinds of dealings—
 - (i) dealings involving the intentional release of a GMO into the environment;
 - (ii) dealings not involving the intentional release of a GMO into the environment; and
- (c) provides that a licence may cover dealings by persons other than the licence holder and requires the licence holder to inform the persons of any conditions of the licence applying to the persons.

Division 2—Licence applications**40 Person may apply for a licence**

(1) A person may apply to the regulator for a licence authorising stated dealings with 1 or more stated GMOs by a person or persons.

(2) The application must be in writing and must contain—

- (a) the information, if any, prescribed under a regulation; and
- (b) the information specified in writing by the regulator.

(3) The application must state whether any of the proposed dealings would involve the intentional release of a GMO into the environment.

(4) The dealings for which a person may apply for a licence may be—

- (a) all dealings with a GMO or with a stated class of GMOs; or
- (b) a stated class of dealings with a GMO or with a stated class of GMOs; or

(3) The regulator must issue the licence, or refuse to issue the licence, within the period, if any, prescribed under a regulation.

44 Regulator may consult with applicant

Before considering the application, the regulator may consult the applicant, or another regulatory agency, on any aspect of the application.

If—

- (a) a person (the “**first person**”) applies for a GMO licence; and

- (b) the first person gives information to the regulator for the regulator's consideration of the application; and

- (b) in a newspaper circulating generally in the State; and
- (c) on the regulator's website, if any.

(2) For satisfying himself or herself as to whether the dealings may pose significant risks to the health and safety of people or the environment, the regulator must have regard to the following—

- (a) the properties of the organism to which the dealings relate before it became, or will become, a GMO;
- (b) the effect, or the expected effect, of genetic modification that has occurred, or will occur, on the properties of the organism;

Division 7—Suspension, cancellation and variation of licences

68 Suspension and cancellation of licence

The regulator may, by written notice given to the holder of a GMO licence, suspend or cancel the licence if—

- (a) the regulator reasonably believes a condition of the licence has been contravened, whether by the licence holder or a person covered by the licence; or
- (b) the regulator reasonably believes the licence holder, or a person covered by the licence, has committed an offence against this Act; or

- (c) any annual charge payable for the licence remains unpaid after the due date; or
- (d) the licence was obtained improperly; or
- (e) the regulator becomes aware of risks associated with the continuation of the dealings authorised by the licence, and is satisfied the licence holder has not proposed, or is not in a position to implement, adequate measures to deal with the risks; or
- (f) the regulator is satisfied the licence holder is no longer a suitable person to hold the licence.

69 Surrender of licence

A licence holder may, with the regulator's consent, surrender the licence.

70 Transfer of licences

(1) The licence holder and another person (the “**transferee**”) may jointly apply to the regulator for the licence to be transferred from the licence holder to the transferee.

(2) The application must be in writing, and must contain—

- (a) the information, if any, prescribed under a regulation; and
- (b) the information specified in writing by the regulator.

(3) The regulator must not transfer the licence unless the regulator is satisfied that if the licence is transferred, any risks posed by the dealings authorised by the licence will continue to be able to be managed in a way that protects—

- (a) the health and safety of people; and
- (b) the environment.

(4) The regulator must not transfer the licence unless the regulator is satisfied the transferee is a suitable person to hold the licence.

(5) The regulator must give written notice of the regulator's decision on the application to the licence holder and the transferee.

(6) If the regulator decides to transfer the licence—

- (a) the transfer takes effect on the date stated in the notice; and

71 Variation of licence

(1) The regulator may, at any time, by written notice given to the licence holder, vary the licence.

(2) However, the regulator must not vary a licence to authorise dealings involving the intentional release of a GMO into the environment if the application for the licence was originally considered under division 3.

(3) Without limiting subsection (1), the regulator may—

- (a) impose licence conditions or additional licence conditions; or
- (b) remove or vary licence conditions imposed by the regulator; or
- (c) extend or reduce the authority granted by the licence.

(4) However, the regulator must not vary the licence unless the regulator is satisfied that any risks posed by the proposed dealings as varied are able to be managed in a way that protects—

- (a) the health and safety of people; and
- (b) the environment.

Note for subsection (2)—

Applications may only be considered under division 3 if none of the proposed dealings would involve the intentional release of a GMO into the environment.

72 Regulator to notify of proposed suspension, cancellation or variation

(1) Before suspending, cancelling or varying a licence under this division, the regulator must give written notice of the proposed suspension, cancellation or variation to the licence holder.

(2) The notice—

- (a) must state that the regulator proposes to suspend, cancel or vary the licence; and

2 Section 60 (Period of licence)

- (b) may require the licence holder to give to the regulator any information of a kind stated in the notice that is relevant to the proposed suspension, cancellation or variation; and
- (c) may invite the licence holder to make a written submission to the regulator about the proposed suspension, cancellation or variation.

(3) The notice must state a period within which the licence holder—

- (a) must give the information mentioned in subsection (2)(b); and
- (b) may make a submission under subsection (2)(c).

(3A) The period must not end earlier than 30 days after the day on which the notice was given.

(4) In considering whether to suspend, cancel or vary a licence, the regulator must have regard to any submission made under subsection (2)(c).

(5) This section does not apply to a suspension, cancellation or variation requested by the licence holder.

(6) This section does not apply to a suspension, cancellation or variation of a licence if the regulator considers the suspension, cancellation or variation is necessary to avoid an imminent risk of death, serious illness, serious injury or serious damage to the environment.

Division 8—Annual charge

72A GMO licence—annual charge

(1) A person who is the holder of a GMO licence at any time during a financial year is liable to pay a charge for the licence for that year.

(2) The amount of the charge for a financial year is the amount prescribed under a regulation.

(3) The amount prescribed may be in the nature of a tax and not be related to the cost of providing any service.

Note—

This section does not appear in the Commonwealth Act. Provision is included, however, in the *Gene Technology (Licence Charges) Act 2000* (Cwlth) for the imposition of an annual charge for a GMO licence.

PART 6—REGULATION OF NOTIFIABLE LOW RISK DEALINGS AND DEALINGS ON THE GMO REGISTER

Division 1—Simplified outline

73 Simplified outline of pt 6

In outline, this part—

- (a) establishes a mechanism for the regulations to regulate certain dealings with GMOs (“**notifiable low risk dealings**”) not involving the intentional release of GMOs into the environment (see division 2); and
- (b) provides that the regulations may, among other things, require that the regulator be notified of the dealings; and
- (c) enables the regulator to determine that certain dealings previously authorised by a licence be included on the GMO Register; and
- (d) ensures that, if a dealing is included on the GMO register, anyone may undertake the dealing, subject to stated conditions.

Note—

This section differs from section 73 of the Commonwealth Act.

Division 2—Notifiable low risk dealings

74 Notifiable low risk dealings

(1) A regulation may declare a dealing with a GMO to be a notifiable low risk dealing for this Act.

(2) Before the regulation is made, the regulator must be satisfied the dealing would not involve the intentional release of a GMO into the environment.

(3) Also, before the regulation is made, the regulator must consider the following matters—

- (a) whether the GMO is biologically contained so it is not able to survive or reproduce without human intervention;

- (b) whether the dealing with the GMO would involve minimal risk to the health and safety of people and to the environment, taking into account the properties of the GMO as a pathogen or pest and the toxicity of any proteins produced by the GMO;
- (c) whether no conditions, or minimal conditions, would be necessary to be prescribed to manage any risk mentioned in paragraph (b).

Notes—

1. This section differs from section 74 of the Commonwealth Act.
2. For provisions corresponding to section 74(4) of the Commonwealth Act, see the *Statutory Instruments Act 1992*, section 25.

 - (ii) is a GMO only because of a regulation made under the definition “genetically modified organism”, paragraph (c).

(2) A determination under subsection (1) may be made—

- (a) on application by the holder of a licence authorising the dealing;
or
- (b) on the regulator’s own initiative.

(2) For subsection (1), the regulator must have regard to the following—

- (a) any data available to the regulator about adverse effects posed by the dealing;
- (b) any other information as to risks associated with the dealing of which the regulator is aware, including information given to the regulator by a licence holder under section 65 or by another person under section 66;
