recoupment charges**

116A Definitions for div 2

In this division—

charge area means 1 of the following identified
in an authorising instrument—

- (a) a single priority development area;
- (b) a part of a single priority development area;
- (c) an area consisting of 2 or more priority
development areas, or parts of 2 or more
priority development areas, in the same
local government area.

provision, of infrastructure, includes
coordination of the provision of the
infrastructure.

116B Making and levying charge

- (1) Subsection (2) applies if MEDQ incurs, or
reasonably expects to incur, an expense for the
provision of infrastructure in relation to land in a
charge area.
- (2) MEDQ may, by instrument (the *authorising
instrument*), make and levy on owners of
rateable land in the charge area a charge (an
infrastructure expenses recoupment charge) on

[s 17]

the rateable land to recoup, or provide for payment of, the expense.

- (3) However, subsection (2) does not apply if—
 - (a) the infrastructure is a facility or service for which a special rate or charge has been made and levied; or
 - (b) the expense is recouped or provision is made for payment of the expense, other than by levying the charge.
- (4) Subsection (2) is taken to have been complied with if the charge is made and levied on—
 - (a) all rateable land that, at the time of making and levying the charge, could reasonably be identified as land on which the charge may be made and levied; or
 - (b) all rateable land on which the charge may be made and levied, other than land accidentally omitted.
- (5) To remove any doubt, it is declared that subsection (2) applies even if MEDQ incurred, or reasonably expected to incur, the expense for the provision of infrastructure in relation to the land before the land was in a charge area.

116C Requirements for authorising instrument

- (1) The authorising instrument for an infrastructure expenses recoupment charge must—
 - (a) identify—
 - (i) the charge area to which the charge relates; and
 - (ii) the rateable land to which the charge applies; and

-
- (iii) the overall plan for the provision of the infrastructure to which the charge relates; and
 - (b) state—
 - (i) the amount of the charge for the residential land in the charge area; and
 - (ii) the way the amount of the charge for the non-residential land in the charge area is worked out; and
 - (iii) the rate, by reference to a stated index that is relevant to the estimated cost of the provision of infrastructure, by which the amount of the charge can be increased; and
 - (iv) the intervals at which the amount of the charge can be increased.
 - (2) The overall plan must—
 - (a) describe the infrastructure to which the charge relates; and
 - (b) state the estimated expenses and time for the provision of the infrastructure.
 - (3) MEDQ may identify parcels of rateable land to which the charge applies in any way MEDQ considers appropriate.
 - (4) In this section—
 - non-residential land*** means rateable land other than residential land.
 - residential land*** means rateable land for which a residential use under a development scheme is provided.

116D Basis and amount of charge

- (1) An infrastructure expenses recoupment charge may be made and levied on the bases MEDQ considers appropriate.

Note—

See also section 117 in relation to the recovery of the charge.

- (2) Without limiting subsection (1), MEDQ may—
 - (a) fix a minimum amount of the charge; or
 - (b) decide whether a discount for payment of the charge applies and the amount and terms of any discount.
- (3) However, an infrastructure expenses recoupment charge may be increased by no more than the rate, and only at the intervals, stated in the authorising instrument for the charge.

116E Making and levying of charge by superseding public sector entity

- (1) This section applies if—
 - (a) MEDQ has made and levied an infrastructure expenses recoupment charge to recoup an incurred expense, or provide for the payment of an expected expense, for the provision of infrastructure (the *planned infrastructure*) in relation to land (the *relevant land*) in a charge area consisting of the whole or part of a priority development area; and
 - (b) the declaration regulation under which the priority development area was declared is revoked so the relevant land ceases to be in a priority development area.

-
- (2) However, this section does not apply for an expense that MEDQ has recouped.
 - (3) On and after the revocation of the declaration regulation—
 - (a) the infrastructure expenses recoupment charge is taken to have been made and levied by the superseding public sector entity for the relevant land; and
 - (b) the superseding public sector entity may continue to make and levy the infrastructure expenses recoupment charge.
 - (4) For subsection (3)(b), this division, other than section 116B(1) and (5) and this section, applies as if a reference in the division to MEDQ were a reference to the superseding public sector entity.
 - (5) However, to remove any doubt, it is declared that subsections (3)(b) and (4) do not authorise the superseding public sector entity to make and levy an infrastructure expenses recoupment charge to recoup or provide for an expense, other than for the provision of the planned infrastructure.

Division 3 Recovery of relevant charges

116F Definitions for div 3

In this division—

The Coordinator-General must, as soon as practicable after making a declaration under section 26(1)(b), give the proponent written notice that an IAR is required for the project.

34G Preparation of draft IAR

- (1) The proponent of the project must prepare a draft IAR for the project.
- (2) The draft IAR must include—
 - (a) details of the project; and
 - (b) information about the likely environmental effects of the project; and
 - (c) a statement about whether or not any of the following approvals (each of which is a *notifiable approval*) is required for the project—
 - (i) a development approval if the development application for the approval would, under the Sustainable

-
- Planning Act, require impact assessment;
- (ii) an environmental authority if the application for the authority would, under the Environmental Protection Act, chapter 5, part 4, require public notification;
 - (iii) another approval under an Act if—
 - (A) the application for the approval requires, other than under the Sustainable Planning Act or the Environmental Protection Act, chapter 5, an EIS or a similar statement to address the environmental effects of the approval; and
 - (B) the application for, or the granting of, the approval requires public notification under the relevant Act.

34H Public notification of draft IAR

- (1) This section applies if—
 - (a) a notifiable approval is required for the project; or
 - (b) the Coordinator-General gives the proponent a written notice stating that the draft IAR for the project must be publicly notified under this section.
- (2) After the proponent prepares a draft IAR to the satisfaction of the Coordinator-General, the proponent must comply with section 33 as if a

reference in that section to a draft EIS were a reference to the draft IAR.

- (3) Submissions about the draft IAR may be made under section 34 as if the draft IAR were a draft EIS.
- (4) In deciding whether the draft IAR may be publicly notified, the Coordinator-General may ask any person for information, advice or comment about the draft IAR.

 - (iii) any other material the Coordinator-General considers is relevant to the project; and
 - (b) decide whether or not to accept the draft IAR as the final IAR.
- (2) However, subsection (1) does not apply until after—
 - (a) if the draft IAR required public notification under section 34H—the submission period for the draft IAR ends; or
 - (b) otherwise—the Coordinator-General receives the draft IAR.
- (3) The Coordinator-General may decide not to accept the draft IAR as the final IAR if satisfied additional information is needed about—

-
- (a) an environmental effect of the project; or
 - (b) any other matter the Coordinator-General considers relevant to the project.
- (4) In making a decision under subsection (1)(b), the Coordinator-General may ask any person for information, advice or comment about the draft IAR.

34K Requirement to provide additional information

- (1) This section applies if the Coordinator-General decides under section 34I(1)(b) not to accept the draft IAR as the final IAR.
- (2) If the notice given under section 34J states that public notification of the revised draft IAR is not

[s 37]

required, the proponent must, within the period stated in the notice, give the Coordinator-General the revised draft IAR.

- (3) If the notice given under section 34J states that public notification of the revised draft IAR is required, the proponent must, within the period stated in the notice—
 - (a) comply with section 33 as if a reference in that section to a draft EIS were a reference to the revised draft IAR; and
 - (b) give the Coordinator-General the revised draft IAR.
- (4) Submissions about the revised draft IAR may be made under section 34 as if the revised draft IAR were a draft EIS.
- (5) If the Coordinator-General receives a revised draft IAR under subsection (2) or (3), sections 34I and 34J apply to the revised draft IAR.

34L Report evaluating IAR

- (1) This section applies if the Coordinator-General decides under section 34I(1)(b) to accept the draft IAR as the final IAR.
- (2) The Coordinator-General must prepare a report evaluating the IAR.
