Division 1 Restrictions on authorisation in fishery provisions

7 Purpose of this division

This division states particular matters about what a person (the *authorised person*) acting under a licence on which a fishery symbol for a commercial fishery is written is authorised to do in the fishery under the licence.

8 Where fish may be taken

- (1) The authorised person may take fish only in a fishery area of the commercial fishery.
- (2) However, if a fishery provision about the commercial fishery states that fish may be taken only in an area stated on the licence and an area is stated on the licence, the authorised person may take fish only in the area stated on the licence.
- (3) Also, if a fishery provision about the commercial fishery states that fish may be taken only in a particular area within the fishery's fishery area, the authorised person may take fish only in the area stated in the fishery provision.

9 What fish may be taken

The authorised person may take only fish that a fishery provision about the commercial fishery states may be taken by the person in the fishery.

10 Way fish may be taken

- (1) If a fishery provision about the commercial fishery states that fish may be taken in the fishery only in a stated way, the authorised person may take fish in the fishery only in the stated way.

Examples of stated ways—

- by using only stated fishing apparatus
 - by using stated fishing apparatus only in a stated way
 - by using only a stated number of stated fishing apparatus
- (2) If a particular type of fishing apparatus is authorised to be used to take fish in the commercial fishery and there is no fishery provision about the fishery stating the number of items of that type of fishing apparatus that may be used for taking fish in the fishery, no more than 1 item of the type may be used at the same time for taking fish in the fishery.
- (3) Subsection (2) applies even if more than 1 person is acting under the licence.

11 Additional restrictions on authorisation

- (1) This section applies if a fishery provision about the commercial fishery states any of the following (each a *restriction*)—
- (a) fish may be taken in the fishery only if there is an unused quota entitlement for the licence;
 - (b) a maximum amount of fish that may be taken in the fishery;
 - (c) a period during which fish may be taken in the fishery;

[s 12]

- (d) a stated activity must not be carried out in a stated area of the fishery.
- (2) The authorised person may take fish in the commercial fishery only in accordance with the restriction.

12 Restriction on authorisation may apply in more than 1 way

A restriction under this division may apply to the authorised person in more than 1 way.

An authorised person may be authorised to take fish in a commercial fishery only in a particular area within the fishery's fishery area, using only a particular type of fishing apparatus, and only during a particular period.

Division 2 Other restrictions on authorisation

- (1) If a commercial fishing boat licence or commercial harvest fishery licence has more than 1 fishery symbol written on it, a person acting under the licence is not authorised to take fish in more than 1 commercial fishery at the same time.
- (2) However, if 1 of the fishery symbols is 'C1', 'C2' or 'C3', the person may take crabs in the fishery to which the fishery symbol relates and fish in 1 other commercial fishery at the same time.
- (3) Also, subsection (1) does not apply to a person taking any of the following fish at the same time—

Example—

The fishery symbol 'N4' is written on a licence authorising use of a net in offshore waters in the net fishery (east coast no. 3) and use of a net in nearshore waters in the net fishery (east coast no. 1). A person acting under the licence must not use the nets in the fisheries at the same time.

 - (i) the boat is longer than 14m; or
 - (ii) the boat’s main engine is more than 300 maximum continuous brake kW; or
 - (c) write an ‘M2’ fishery symbol on a licence allowing the use of a boat if the hull units of the boat are more than the hull units for a boat that may be used under the licence from which the fishery symbol is being moved.
- (2) Subsection (1)(c) does not apply if the holder of the licence surrenders another M2 licence.

60 Restrictions on writing fishery symbols on licences allowing the use of boats of particular lengths

- (1) The chief executive may write a fishery symbol on a licence allowing the use of a boat in a commercial fishery only if the

boat is no longer than the length permitted under a fishery provision about the fishery.

- (2) However, the chief executive may write a fishery symbol on a licence (other than a licence on which the fishery symbol ‘M1’, ‘M2’, ‘T1’, ‘T2’, ‘T5’, ‘T6’, ‘T7’, ‘T8’ or ‘T9’ is written) (the *second licence*) allowing the use in a commercial fishery of a boat that is longer than the length permitted under the fishery provision about the fishery if—
- (a) a person has applied, under section 62, to move the fishery symbol from another licence (the *first licence*) to the second licence; and
 - (b) the boat to be used under the second licence is no longer than the lesser of the following—
 - (i) 20m;
 - (ii) the length of a boat that is allowed to be used under the first licence.

Division 2 Moving fishery symbols

61 Definitions for division

In this division—

administrative conditions, of the first licence or second licence, means the conditions of the licence imposed by the chief executive under section 61 of the Act.

authorised tender boat number, for a fishery symbol, means the number of tender boats, other than an unlimited number, that is authorised for use under the fishery symbol under the *Fisheries (General) Regulation 2019*, section 35.

first licence see section 62(1)(a).

second licence see section 62(1)(b).

62 Application to move fishery symbol to another licence

- (1) This section applies if—
 - (a) a fishery symbol is written on a commercial fishing boat licence or commercial harvest fishery licence (either of which is the *first licence*); and
 - (b) the fishery symbol may, under this part, be written on another licence (the *second licence*).
- (2) The holder of the first licence and the holder of the second licence may apply to the chief executive to move the fishery symbol and the authorised tender boat number for the symbol from the first licence to the second licence.
- (3) The application must be—
 - (a) in the approved form; and
 - (b) accompanied by—
 - (i) the fee prescribed under the *Fisheries (General) Regulation 2019*, schedule 6; and
 - (ii) the written approval of each person, other than the holder of the first licence, who has a registered interest in the first licence.
- (4) The application may be made even if the same person holds the first licence and second licence.
- (5) However, an application can not be made by a person who holds a licence because of a temporary transfer.

63 Deciding application

- (1) The chief executive may—
 - (a) approve the application, with or without conditions; or
 - (b) refuse the application.
- (2) The chief executive is not required to consider an application that, if approved, would result in the writing or removal of a

fishery symbol on a licence that is not permitted under division 1.

64 Amendments required if application approved

- (1) This section applies if the chief executive—
 - (a) approves the application without conditions; or
 - (b) approves the application with conditions and the applicants agree in writing to the conditions within 28 days after the approval.
- (2) The chief executive must amend the first licence and second licence by—
 - (a) removing from the first licence—
 - (i) the fishery symbol; and
 - (ii) the authorised tender boat number for the fishery symbol and the brackets containing the authorised tender boat number; and
 - (b) writing on the second licence—
 - (i) the fishery symbol; and
 - (ii) the authorised tender boat number for the fishery symbol, in the way required under the *Fisheries (General) Regulation 2019*, section 35; and
 - (c) if the first licence or second licence contains administrative conditions—amending the conditions in a way the chief executive considers is consistent with the amendments under paragraphs (a) and (b).
- (3) The actions required to be taken by the chief executive under subsection (2)(a) and (b) for a licence may be done automatically for the licence by an online system established by the chief executive for that purpose.

[s 65]

65 Information notice about refusal of conditions

- (1) This section applies if the chief executive decides to—
 - (a) refuse the application; or

 - (c) amend the administrative conditions of the first licence or second licence and the applicants have not agreed in writing to the amendment within 28 days after the amendment.
- (2) The chief executive must give the applicants an information notice about the decision.

Chapter 4 Quota authorities

Part 1 Effort units

Division 1 Interpretation

66 Meaning of *effort year*

Effort year means the period from midday on 1 January to midday on 1 January in the next year.

67 Reference to a day

- (1) In this part, a reference to a day is—
 - (a) the period of 24 hours from midday to midday; or
 - (b) if the chief executive is given at least 24 hours notice that a different period is to apply under subsection (2) or

-
- (3) for a day—the period of 24 hours stated in the notice.
- (2) The holder of a T1 or T2 licence in relation to which effort units are to be used may notify the chief executive that the day is to be the period of 24 hours from midnight to midnight.
- (3) Also, the holder of a T1 licence that is also an M1 licence in relation to which T1 effort units are to be used may notify the chief executive that the day is to be the period of 24 hours from 6p.m. to 6p.m.
- (4) In this section—
notice includes a notice given by facsimile, radio or telephone.

Division 2 Entitlement

68 Purpose of this division

This division states the quota entitlement for effort units.

69 Entitlement under effort units

- (1) The holder of T1 effort units may, in an effort year, use, or allow someone else to use, the boat identified in a T1 licence also held by the holder—
- (a) until all the effort units for the year have been used; and
- (b) for 4 additional days (each a *steaming day*).
- (2) The holder of T2 effort units may, in an effort year use the boat identified in a T2 licence also held by the holder—
- (a) until all the effort units for the year have been used; and
- (b) for 4 additional days (each a *steaming day*).
- (3) The authorisation under this section for an effort year—

[s 70]

- (a) is the holder's *entitlement* under the holder's effort units for the year; and
- (b) imposes a quota on the entitlement for the effort year.

70 When effort units entitlement is *used* for an effort year

- (1) The entitlement under effort units is *used* for an effort year—
 - (a) when the holder of, or a person acting under, the effort units has used all the effort units for the year and used a boat identified in a T1 or T2 licence for all the steaming days for the units; or
 - (b) section 71 applies.
- (2) Effort units are used when the holder, or anyone else allowed by the holder, has used a boat identified in a T1 or T2 licence on a day.
- (3) The number of effort units used on the day is worked out by applying the following formula—

$$EU = 1 \times EUCF$$

where—

EU means the number of effort units used on the day.

EUCF means the effort unit conversion factor for the boat used stated in schedule 10 opposite the number of hull units for the boat.

- (4) If the boat is used in any part of a day, the boat is taken to have been used for the whole of the day.
- (5) If because of a notice given under section 67, the period of a day changes, the use of the boat at any time must not be counted twice in working out whether the boat has been used on a day.

Example—

The day applying to the holder of effort units, under section 67, is midday to midday (the *existing 24-hour period*). The holder gives the chief executive 24 hours notice, under section 67(2), to change the day applying to the holder to be midnight to midnight (the *new 24-hour period*). The boat is used in the 24 hours leading up to the first midnight of the new 24-hour period. The use of the boat during those 24 hours may be counted only for the existing 24-hour period, even if the boat is used after midday.

- (6) The *unused entitlement* under effort units for an effort year is the number of effort units and the steaming days that have not been used for the effort year under any T1 or T2 licence held by the holder of the effort units.

71 No carrying forward of unused entitlement

- (1) This section applies if, in an effort year, the holder of effort units uses a boat for a number of days that is less than the entitlement under the holder's effort units.
- (2) The holder is taken, at the end of the effort year, to have used all the entitlement under the effort units held by the holder for the effort year.

Division 3 Usage notices for T1 effort units

72 Chief executive to give usage notice

- (1) This section applies if the chief executive becomes aware that the total entitlement under all the T1 effort units for a particular effort year—
 - (a) has been used; or
 - (b) is likely to be used in the next month.
- (2) The chief executive must immediately give each holder of a T1 licence a written notice (a *usage notice*) stating—
 - (a) if the total entitlement has been used—

[s 73]

- (i) the day the total entitlement was used; and
 - (ii) the day the regulated period starts under the *Fisheries Declaration 2019*, section 92(3); or
- (b) if the total entitlement is likely to be used in the next month—that the total entitlement is likely to be used in the next month.

73 Obligations of T1 licence holders under usage notice

- (1) This section prescribes a condition for a T1 licence that applies if the holder of the licence is given a usage notice.
- (2) The holder of the T1 licence must ensure that every person acting under the licence is aware of the matters mentioned in the usage notice.
- (3) Subsection (4) applies if the usage notice states that the total entitlement is likely to be used in the next month.
- (4) A person in control of a relevant boat under the T1 licence must use the AIVR system, on each day the boat is to be used to take fish under the licence, to obtain the following information before any person starts taking fish from the boat on that day—
 - (a) whether the total entitlement has been used;
 - (b) if the person finds out by using the AIVR system that the total entitlement has been used on that day or an earlier day—the day the regulated period will start under the *Fisheries Declaration 2019*, section 92(3).
- (5) A person in control of a relevant boat under the T1 licence complies with subsection (4) if another person obtains the information, in compliance with that subsection, for the person in control of the boat.
- (6) In this section—

relevant boat, under a T1 licence, means a boat that is to be used to take fish under the licence from the reef world heritage area regulated waters.

Division 4 Evidentiary aids for use of entitlement

Subdivision 1 Evidentiary aids for when location detected or reported

74 Location detected or reported

- (1) This section applies if the boat identified in a T1 or T2 licence is detected by vessel tracking equipment or manually reported at any time during a day (the *relevant day*) within the following area—

 - (i) generally—the T1 area; and
 - (ii) if the licence also has an ‘M1’ fishery symbol written on it—the M1 and M2 area;
 - (b) for a boat identified in a T2 licence—the T2 area.
- (2) The detection or manual report is evidence that the holder of the licence has used the boat for a whole day for—
 - (a) if the licence is a T1 licence—T1 effort units; or
 - (b) if the licence is a T2 licence—T2 effort units.
- (3) However, subsection (2) does not apply if—
 - (a) an exception stated in this subdivision applies for the relevant day; or
 - (b) the chief executive decides on information provided by the holder of the licence that the boat was not used on the relevant day.
- (4) As soon as practicable after making a decision under subsection (3)(b), the chief executive must give each person to whom the decision relates an information notice about the decision.

[s 75]

 - (a) not having moved; or
 - (b) having moved at a speed of at least 5 knots.
- (2) For subsection (1)(b), if a boat is detected by vessel tracking equipment or manually reported as having moved continuously during a period, the first or last time the boat is detected or manually reported during the period must be disregarded if, at the time, the boat is detected or manually reported as moving at a speed of less than 5 knots.

- (3) Subsection (2)(e)(iii) does not apply if the journey is from a defined port area to the nearest northerly or southerly defined port area.
- (4) Also—
 - (a) the holder of the licence or person in control may, during the journey, by notice to the chief executive (***amendment notice***), amend a detail given under subsection (2)(b)(iii), (iv) or (v); and
 - (b) from the giving of the amendment notice, the condition mentioned in subsection (2)(d) is complied with if the rest of the journey complies, or substantially complies, with the notice given under subsection (2)(b), as amended under the amendment notice.

[s 85]

where—

WW is the whole weight, in kilograms, of the spanish mackerel, worked out under subsection (2).

N is the number of spanish mackerel.

Division 2 Entitlement

85 Purpose of division

This division states the quota entitlement for SM units.

86 Entitlement under SM unit

- (1) The holder of, or a person acting under, an SM unit may take, in an SM year, the weight of spanish mackerel worked out by dividing the total quota entitlement for spanish mackerel for the SM year by the total number of SM units that have been issued.
- (2) The authorisation for an SM year under subsection (1)—
 - (a) is the holder's *entitlement* under the SM unit for the SM year; and
 - (b) imposes a quota on the entitlement for the SM year.
- (3) However, the entitlement applies only while the holder holds an SM licence that is in force.
- (4) In this section—

total quota entitlement, for spanish mackerel, for an SM year, means the total quota entitlement stated for spanish mackerel in the quota declaration for the spanish mackerel fishery for the SM year.

87 When SM unit entitlement is *used* for an SM year

- (1) The entitlement under an SM unit is *used* for an SM year—

-
- (a) when the holder of, or a person acting under, the SM unit, has taken, in the SM year under any SM licence held by the holder, an amount of (whole weight) spanish mackerel for the SM unit equalling the entitlement under the SM unit; or
 - (b) if section 88 applies.
- (2) The *unused entitlement* under an SM unit for an SM year is the amount of (whole weight) spanish mackerel for the SM unit that has not been taken, for the SM year, under any SM licence held by the holder of the SM unit.

88 No carrying forward of unused entitlement

- (1) This section applies if, in an SM year, an SM unit holder takes an amount of spanish mackerel for the SM units that is less than the total entitlements under the holder's SM units.
- (2) The holder of, or a person acting under, SM units is taken, at the end of the SM year, to have used all the entitlements under the SM units held by the holder for the SM year.

Division 3 Evidentiary aids for use of entitlement

89 Unloaded fish notice is evidence of use of entitlement

- (1) This section applies if the holder of SM units, or a person acting for the holder, gives the chief executive an unloaded fish notice for spanish mackerel for the SM units.
- (2) The notice is evidence that the holder has taken, under the SM units, the whole weight equivalent of the amount of spanish mackerel stated in the notice.
- (3) For subsection (2), the whole weight equivalent of the amount of spanish mackerel stated in the notice is—

[s 90]

- (a) for an amount stated for whole spanish mackerel—the amount stated; or
 - (b) for an amount stated for spanish mackerel that is not whole—the amount worked out in the way stated in section 84(2).
- (4) In this section—
unloaded fish notice see schedule 5, section 28(2).

W is the weight, in kilograms, of the filleted fish.

CF is—

- (a) for filleted regulated coral trout—2; or

- (2) The **whole weight** of regulated coral reef fin fish that is gilled and gutted is the weight worked out using the following formula—

$$WW = W \times 1.1$$

where—

WW is the whole weight, in kilograms, of the fish.

W is the weight, in kilograms, of the gilled and gutted fish.

- (3) The **whole weight**, in kilograms, of a number of regulated coral reef fin fish is the number of the fish.
