	22
	23
(b) a trial of drugs, devices, biologicals or techniques involving the carrying out of health care that may include giving placebos to some of the participants in the trial.	24
	25
	26
	27
(2) However, a comparative assessment of health care already proven to be beneficial is not medical research.	28
	29
	30

[s 29]

- Examples—* 1
- a comparative assessment of the effects of different 2
forms of administration of a drug proven to be 3
beneficial in the treatment of a condition, for 4
example, a continuous infusion, as opposed to a 5
once-a-day administration of the drug 6
 - a comparative assessment of the angle at which to 7
set a tilt-bed to best assist an adult's breathing 8

known substantial risk to participants or, if 23

condition, the research will not involve 25
known material risk to the participants 26

existing health care; and 28
 - (d) the development of any drugs, devices, 29
biologicals or techniques to be trialled in the 30

	available to participants in the research	1
	despite the participants being unable to	2
	consent to participation; and	3
	(e) having regard to the potential benefits and	4
	risks of participation in the clinical research,	5
	on balance it is not adverse to the interests	6
	of participants in the research to participate.	7
	(2) The fact the drugs, devices, biologicals or	8
	techniques to be trialled in the clinical research	9
	will or may involve giving placebos to some of	10
	the participants in the research does not prevent	11
	the tribunal being satisfied it is, on balance, not	12
	adverse to the interests of the participants to	13
	participate.	14
	(3) The tribunal's approval of clinical research does	15
	not operate as a consent to the participation in the	16

8
9

	(h) the effect of the proposed health care on the adult's dignity and autonomy.	4 5
4	Substituted judgement	6
	For applying general principle 10(4) to a health matter, the views and wishes of an adult expressed when the adult had capacity may also be expressed—	7 8 9 10
	(a) in an advance health directive; or	11
	(b) by a consent to, or refusal of, health care given at a time when the adult had capacity to make decisions about the health care.	12 13 14 15
