

# **Contract Cleaning Industry (Portable Long Service Leave) Bill 2005**

## **Explanatory Notes for Amendments to be moved during Consideration in detail by the Honourable Tom Barton MP, Minister for Employment, Training and Industrial Relations**

### **Notes on Provisions**

*Clause 1* amends clause 9 (Who is a worker) of the Bill by inserting wording in subclause 9(1)(b) that the subclause applies to workers under a contract “whether or not the contract is a contract of service”. This makes it clear that the subclause applies to work under a contract of service as well as under other types of contractual arrangements (e.g. a contract for service) in the circumstances described by the subclause. The amendment brings the subclause into line with similar wording in subclause 9(1)(c) and differentiates it more clearly from subclause 9(1)(a) which deals with contracts of service only.
