*Health Act 1937*

# HEALTH REGULATION 1996

**Reprinted as in force on 7 September 1998  
(includes amendments up to SL No. 246 of 1998)**

**Reprint No. 2A**

This reprint is prepared by  
the Office of the Queensland Parliamentary Counsel  
Warning—This reprint is not an authorised copy

# Information about this reprint

This regulation is reprinted as at 7 September 1998. The reprint—

- shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c))
- incorporates all necessary consequential amendments, whether of punctuation, numbering or another kind (Reprints Act 1992 s 5(d)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of earlier reprints is included in the endnotes.

**Also see endnotes for information about—**

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

## HEALTH REGULATION 1996

[as amended by all amendments that commenced on or before 7 September 1998]

### PART 1—PRELIMINARY

#### Short title

1. This regulation may be cited as the *Health Regulation 1996*.

### PART 2—CAMPING GROUNDS

#### Definitions

2. In this part—

“**bedding**” includes mattresses, pillows, bed linen, blankets, bedclothes, and coverings.

“**cabin**” means a relocatable home, building or fixed structure (other than a building or structure used exclusively as a manager’s or caretaker’s quarters or an office) in a camping ground and which is used either continuously or intermittently for human habitation.

“**caravan**” means a dwelling place on wheels which can be immediately towed and which is or is required to be registered under the provisions of the *Transport Infrastructure (Roads) Act 1991*.

“**potable water**” means water that contains no pathogenic micro-organisms, micro-organisms of intestinal origin, or harmful chemical constituents.

“**proprietor**”, of a camping ground, means a person who has an approval under section 6.

“**relocatable home**” means a structure (whether on wheels or not) in a camping ground which complies in all respects with the *Building Act*

1975 for a class 1 or class 3 building and which is so designed or constructed that it is capable of being moved from place to place.

“**site**” means that part of a camping ground marked and set aside for a single camp.

### **Administration of part**

3. The local government of an area shall superintend and see to the execution of this part, and shall do and provide all such acts, matters and things as may be necessary for superintending or aiding in their execution.

### **Approval to use land as camping ground**

4.(1) A local government may approve of the use of any land within its area as a camping ground.

(2) However, a local government shall not approve of the use of any land as a camping ground—

- (a) which is low lying or swampy or cannot be drained by natural gravitation;
- (b) which is in such a position that any trade, business, manufacture, undertaking or other activity is liable to contaminate any water supply to or for such land or cause any conditions prejudicial to the health of the inhabitants of such land.

### **Offence to use land as camping ground without approval**

5. A person shall not use any land as a camping ground or suffer or permit any land to be used as a camping ground unless an approval of the relevant local government to use the land as a camping ground is in force.

Maximum penalty—8 penalty units.

### **Application for approval to use land as a camping ground**

6.(1) A person who desires the approval of a local government to use any land as a camping ground, otherwise than for the purpose of a single camp, shall make application to the local government in the approved form.

(2) An application in the approved form shall be accompanied by a plan of the proposed camping ground drawn to scale showing the following particulars—

- (a) the location and real property description of such land;
- (b) the boundaries of such land;
- (c) the proposed location, number, designation and type of sanitary conveniences to be provided;
- (d) the proposed location, number and designation of ablutionary facilities to be provided;
- (e) the proposed location and number of laundry facilities to be provided;
- (f) details of the proposed water reticulation;
- (g) the proposed drainage plan;
- (h) details of each site clearly defined and bearing a distinguishing mark or number;
- (i) any other particulars which the local government may require.

(3) Every plan submitted to a local government pursuant to this section shall be deemed to be part of the application for approval to use land as a camping ground and shall be retained by the local government.

(4) The approval to use land as a camping ground must be in the approved form.

(5) A local government may, on the written application of a person, grant an approval in writing to the person to use the land specified in the approval as a camping ground for the purpose of a single camp for the period specified in the approval.

### **Revocation of approval**

7.(1) In any case where the proprietor of a camping ground has been convicted of an offence against the provisions of this part the local government may revoke the approval granted pursuant to section 6.

(2) A local government may at any time reinstate an approval revoked pursuant to this section.

**Approval to make alterations or additions**

**8.** The proprietor of a camping ground shall not make any alterations or additions or suffer or permit any alterations or additions to be made to such camping ground without the approval of the local government.

Maximum penalty—8 penalty units.

**Application to make alterations or additions**

**9.(1)** The proprietor of a camping ground who desires approval to make alterations or additions to a camping ground shall make application to the local government in the approved form.

**(2)** An application in the approved form shall be accompanied by a plan drawn to scale detailing proposed alterations or additions.

**(3)** Every plan submitted to a local government pursuant to this section shall be deemed to be part of the application to make alterations or additions to a camping ground and shall be retained by the local government.

**(4)** The approval of an application made pursuant to this section shall be in the approved form.

**Maintenance of camping ground**

**10.** The proprietor of a camping ground established, altered or added to in accordance with an approval granted by the local government under the provisions of this part shall maintain such camping ground in accordance with the approval.

Maximum penalty—8 penalty units.

**Approval to transfer approval**

**11.(1)** The proprietor of a camping ground shall not transfer to another person an approval granted by the local government pursuant to section 6 without the approval in writing of the local government.

Maximum penalty—8 penalty units.

**(2)** The proprietor of a camping ground who desires to transfer to another person an approval granted by the local government pursuant to

section 6 shall make application to the local government in the approved form.

(3) The approval of an application made pursuant to this section shall be in the approved form.

### **Proprietors' obligations**

12. The proprietor of a camping ground shall—

- (a) provide and maintain an adequate supply of water to the camping ground;
- (b) supply potable water for drinking, cooking and ablutionary purposes;
- (c) cause such potable water at all times to be protected from contamination;
- (d) cause every outlet within a camping ground that receives non-potable water to display a permanent, prominent and legible sign 'UNSUITABLE FOR DRINKING';
- (e) provide for the exclusive use of the occupants thereof separate sanitary conveniences for each sex in accordance with the table to this section.

However—

- (i) a cabin which is fitted with a sanitary convenience shall be deemed not to be a site for the purpose of this paragraph;
- (ii) a proprietor may provide sanitary conveniences in addition to those required by this paragraph;
- (f) in any case where 10 or more water closet fixtures are provided, cause at least 1 such water closet fixture and its compartment or cubicle to be constructed, equipped and provided with access in accordance with AS 1428, Code of Practice for Design Rules for Access by the Disabled.

However, where only 1 such water closet fixture is provided, such shall be accessible to both sexes;

- (g) cause all sanitary conveniences to be constructed so as to ensure privacy;

*Health Regulation 1996*

---

- (h) provide for the exclusive use of the occupants thereof separate ablutionary facilities for each sex in the ratio of 1 shower or bath and 1 hand basin to every 15 sites or part thereof:

However, a cabin which is fitted with ablutionary facilities shall be deemed not to be a site for the purpose of this paragraph;

- (i) cause such shower or bath to be installed in a separate compartment or cubicle which is constructed so as to ensure privacy;
- (j) cause hot and cold water to be reticulated to every shower, bath and hand basin;
- (k) provide for the exclusive use of the occupants thereof laundry facilities in the ratio of 1 set of twin wash tubs and 1 clothes washing machine or washing boiler and 1 clothes hoist or an equivalent length of clothes line for every 20 sites or part thereof.

However, a cabin which is fitted with a set of twin wash tubs and a clothes washing machine or washing boiler shall be deemed not to be a site for the purpose of calculating the number of those items required to be provided;

- (l) provide sewerage or a drainage system in conformity with the requirements of the local government for the carrying off and disposal of all wastes from every water closet fixture, urinal, ablutionary facility, laundry facility and camp;
- (m) provide, at a distance not more than 10 m from any site, a waste water disposal point which is—
- (i) provided with a water stand pipe;
  - (ii) provided with an impervious paved area measuring not less than 1 m x 1 m and graded to a central drainage inlet which is connected to sewerage or a drainage system;
- (n) cause sanitary conveniences and ablutionary facilities to be located not more than 100 m from and not closer than 6 m to any site;
- (o) cause each site to be clearly defined and legibly marked in accordance with the plan submitted to the local government pursuant to section 6;
- (p) not erect or locate a camp, or suffer or permit a camp to be

*Health Regulation 1996*

- erected or located, at any place other than on a site;
- (q) not erect or locate more than 1 camp, or suffer or permit more than 1 camp, to be erected or located on a site at any 1 time;
  - (r) not erect or locate a camp, or suffer or permit a camp to be erected or located, closer than 3 m to any other camp;
  - (s) not erect a camp, or suffer or permit a camp to be erected, unless and until such camp is weatherproof, in good repair, fit for human habitation and in a clean and sanitary condition;
  - (t) not cause or suffer or permit a camp to be occupied by more persons than such camp is designed to accommodate;
  - (u) at all times cause the camping ground, its buildings, sanitary conveniences and other facilities to be maintained in a clean, sanitary and safe condition.

Maximum penalty—8 penalty units.

TABLE

No. of sites	No. of water closets or pan cabinets and pans for females	No. of water closets or pan cabinets and pans for males	Length of urinals for males
up to 40	1 for every 7 sites or part thereof	1 for every 10 sites or part thereof	0.6 m for every 20 sites or part thereof
over 40	6 plus an additional 1 for every 15 sites or part thereof in excess of 40 sites	4 plus an additional 1 for every 15 sites or part thereof in excess of 40 sites	0.6 m for every 20 sites or part thereof

### Bedding

**13.** In any case where the proprietor of a camping ground supplies bedding—

- (a) same shall be maintained at all times in a clean and sanitary condition and free from vermin;
- (b) all bed linen in a camp shall be changed and replaced with clean

bed linen when the camp is vacated and before the camp is again occupied by another person.

Maximum penalty—8 penalty units.

### **Occupiers' obligations**

**14.** A person who occupies a camp in a camping ground shall—

- (a) at all times maintain such camp and its site in a clean, tidy and sanitary condition;
- (b) deposit all refuse generated at such camp in the refuse containers provided for that purpose;
- (c) dispose of all liquid wastes in the disposal systems provided for that purpose;
- (d) not cast or throw waste water on to the ground;
- (e) not permit waste water to discharge on to the ground from such camp;
- (f) use all sanitary conveniences, ablutionary facilities and laundry facilities in a clean and sanitary manner;
- (g) except where bedding is supplied by the proprietor of the camping ground, provide clean bedding for each occupant of such camp;
- (h) not permit such camp to be occupied by more persons than it is designed to accommodate.

Maximum penalty—8 penalty units.

### **Application of part to local government**

**15.** Where a local government sets aside as a camping ground any land vested in or under the control of such local government, the provisions of this part shall forthwith apply to such camping ground and to such local government and to all persons concerned, and for the purposes of this part such local government shall be deemed to be the proprietor of such camping ground.

## **PART 3—CANCER REGISTRATION**

### **Definition for part**

**16.** In this part—

“**hospital**” means a private, psychiatric, public or other hospital.

### **Class of person or resident—Act, s 100C(1)**

**17.** A person belongs to the class of person or resident to whom section 100C(1) of the Act applies if the person has cancer and is—

- (a) an inpatient in a nursing home or hospital; or
- (b) a resident in a charitable institution; or
- (b) attending a hospital for chemotherapy or radiotherapy.

### **Time for giving return—Act, s 100C(1)**

**18.** A prescribed person must give the return mentioned in section 100C(1) of the Act within 1 month after—

- (a) the discharge or transfer of the patient or resident from a nursing home, hospital or charitable institution; or
- (b) the death of the patient or resident; or
- (c) the patient first attended a hospital for chemotherapy or radiotherapy in any calendar year.

### **Person required to complete return—Act, s 100C(1)**

**19.** The person required to complete a return under section 100C(1) of the Act is a medical superintendent, director of nursing or other competent person who has been given the function by the prescribed person for the relevant nursing home, hospital or charitable institution.

### **Classes of cancer—Act, s 100C(2)**

**20.** Section 100C(2) of the Act applies to all classes of cancer.

**Time for giving return—Act, s 100C(2) and (3)**

**21.(1)** A person required to give a return under section 100(2)(b) must do so within 1 month after the examination.

**(2)** A person required to give a return under section 100(3) must do so within 1 month after the examination.

**PART 4—DISPENSARY***Division 1—Preliminary***Definitions**

**22.** In this part—

**“AS 1386”** means Australian Standard 1386—Cleanrooms and Clean Work Stations.

**“AS 2639”** means Australian Standard 2639—Cytotoxic Drug Safety Cabinets—Installation and Use.

**“Australian Standard”** means a standard published by Standards Australia.

**“dispensary”** means a place used by a pharmacist to dispense a drug or poison.

**“dispense”** includes compound.

**“equipment”** includes apparatus and utensils.

**“extemporaneous preparation”** means a medicine made from 2 or more weighed or measured ingredients (other than a medicine obtained by merely reconstituting an existing medicine).

**“Standard for the Uniform Scheduling of Drugs and Poisons”** has the meaning given by the *Poisons Regulation 1973*.

**“therapeutic use”** means use for or in—

- (a) preventing, diagnosing, curing or alleviating a disease, ailment,

- defect or injury; or
- (b) influencing, inhibiting or modifying a physiological process; or
- (c) testing the susceptibility of a person or animal to a disease or ailment.

### *Division 2—General requirements*

#### **Restriction on use of place as dispensary**

**23.(1)** The occupier of a dispensary must ensure the dispensary—

- (a) is adequately enclosed, ventilated, painted and lit; and
- (b) has lined walls and ceilings; and
- (c) has a floor covering that may be easily cleaned; and
- (d) has a stainless steel sink supplied with—
  - (i) cold running water; and
  - (ii) hot running water of at least 60°C; and
- (e) has a separate dispensing bench with a smooth, impervious surface.

**(2)** The occupier of a dispensary must ensure the dispensary is only used for a purpose associated with dispensing a drug or poison.

Maximum penalty—20 penalty units.

#### **Standards to be maintained**

**24.** The occupier of a dispensary must ensure—

- (a) the dispensary is kept clean, and free from anything able to contaminate a drug or poison; and
- (b) benches, shelves, drawers, and other places used in association with the dispensary, where drugs or poisons are placed or stored, are kept clean, and free from anything able to contaminate a drug or poison; and
- (c) equipment used to dispense a drug or poison is—

- (i) free from cracks and chips; and
  - (ii) regularly serviced, kept in an efficient state of operation, and repaired as necessary; and
  - (iii) kept clean, and free from anything able to contaminate a drug or poison; and
- (d) containers used to hold drugs and poisons are always kept clean, and free from—
- (i) cracks and chips; and
  - (ii) anything able to contaminate a drug or poison; and
- (e) drugs and poisons are stored at appropriate temperatures.

Maximum penalty—20 penalty units.

### **Items to be available at dispensary**

**25.(1)** The occupier of a dispensary must ensure the items in schedule 4 are available at the dispensary.

Maximum penalty—20 penalty units.

**(2)** If a dispensary is used to dispense an extemporaneous preparation, the occupier of the dispensary must ensure the additional items in schedule 5 are available at the dispensary.

Maximum penalty—20 penalty units.

**(3)** If an item mentioned in schedule 4 or 5 is a document, the document may be a printed, microfiche or electronic copy of the document.

### ***Division 3—Sterile dispensing***

#### **Application of division**

**26.(1)** This division applies to the dispensing of drugs or poisons for therapeutic use, using—

- (a) an aseptic technique; or
- (b) a process in which sterilisation happens as the last stage of

dispensing the drugs or poisons.

(2) However, this division does not apply to the dispensing of—

- (a) proprietary eye drops that are merely reconstituted; or
- (b) antineoplastic drugs.

### **General requirements**

**27.** The occupier of a dispensary used for drug or poison dispensing to which this division applies must ensure the dispensing happens—

- (a) in a separate part of the dispensary; and
- (b) under a system that controls particulate and microbial contaminants in a way appropriate to the class of drugs or poisons being dispensed; and
- (c) under a high standard of hygiene; and
- (d) with special care and attention to detail; and
- (e) in the way specified under procedures established and validated by the pharmacist managing or supervising the dispensary; and
- (f) using a properly maintained laminar flow cabinet in an area complying with parts 1 to 6 of AS 1386.

Maximum penalty—20 penalty units.

### **Standard operating procedures to be applied**

**28.(1)** An occupier mentioned in section 27 must ensure—

- (a) written policies and standard operating procedures are prepared—
  - (i) for the drug or poison dispensing; and
  - (ii) complying with subsection (2); and
- (b) the policies and procedures are available in the dispensary; and
- (c) the drug or poison dispensing complies with the policies and procedures; and
- (d) the policies and procedures are reviewed at intervals of not more than 1 year.

Maximum penalty—20 penalty units.

(2) The policies and procedures mentioned in subsection (1) must provide for—

- (a) the training and monitoring of staff involved in a technique or process mentioned in section 26(1); and
- (b) the operation and cleaning of the part of the dispensary mentioned in section 27(a); and
- (c) spillage, storage and disposal of waste; and
- (d) servicing of equipment used in drug or poison dispensing; and
- (e) quality assurance; and
- (f) packing, labelling, handling and storage of drugs and poisons.

### **Maintenance**

**29.(1)** An occupier mentioned in section 27 must ensure equipment used for sterile drug or poison dispensing, and air handling facilities for the part of the dispensary mentioned in section 27(a), are regularly maintained under a planned maintenance schedule.

(2) The occupier must also ensure the equipment and facilities mentioned in subsection (1) are maintained and tested in a way complying with AS 1386.

Maximum penalty—20 penalty units.

### ***Division 4—Dispensing of antineoplastic drugs***

#### **Application of division**

**30.** This division applies to the dispensing of antineoplastic drugs.

#### **General requirements**

**31.(1)** The occupier of a dispensary used for dispensing to which this division applies must ensure the dispensing happens—

- (a) in a separate part of the dispensary; and
- (b) under a system that controls particulate and microbial contaminants in a way appropriate to the class of drugs being dispensed; and
- (c) under a high standard of hygiene; and
- (d) with special care and attention to detail; and
- (e) in the way specified under procedures established and validated by the pharmacist managing or supervising the dispensary.

(2) If it is necessary to store an antineoplastic agent within a particular temperature range to ensure that the agent will be effective when it is used, an occupier mentioned in subsection (1) who has any of the agent must ensure it is stored—

- (a) in a refrigerator at the appropriate temperature; and
- (b) in an enclosed container preventing the agent from contaminating other items in the refrigerator.

Maximum penalty—20 penalty units.

### **Dispensing**

**32.(1)** An occupier mentioned in section 31(1) must ensure, for the purpose of the dispensing, that—

- (a) AS 2639 is complied with; and
- (b) vertical laminar flow cabinets complying with AS 2639 are used; and
- (c) persons directly involved in the dispensing wear impervious clothing and gloves; and
- (d) the compounding room and an adjoining anteroom have an air supply and extraction system separate from the air supply and extraction for any other part of the premises in which the rooms are situated; and
- (e) air exhausts are sited so as not to cause pollution or toxicity outside the area where the dispensing happens.

Maximum penalty—20 penalty units.

(2) This section does not apply to the dispensing of an antineoplastic drug if it is a pre-packed product not needing further preparation.

### **Standard operating procedures to be applied**

**33.(1)** An occupier mentioned in section 31(1) must ensure—

- (a) written policies and standard operating procedures are prepared—
  - (i) for the dispensing; and
  - (ii) complying with subsection (2); and
- (b) the policies and procedures are available in the dispensary; and
- (c) the way the drugs are dispensed complies with the policies and procedures; and
- (d) the policies and procedures are reviewed at intervals of not more than 1 year.

Maximum penalty—20 penalty units.

(2) The policies and procedures mentioned in subsection (1) must provide for—

- (a) the training and monitoring of staff involved in the dispensing; and
- (b) the operation and cleaning of the part of the dispensary mentioned in section 31(1)(a); and
- (c) spillage, storage and disposal of waste; and
- (d) servicing of equipment used in the dispensing; and
- (e) quality assurance; and
- (f) packing, labelling, handling and storage of antineoplastic drugs.

### **Maintenance**

**34.** An occupier mentioned in section 31(1) must ensure equipment used to dispense antineoplastic drugs, and air handling facilities for the part of the dispensary mentioned in section 31(1)(a), are regularly maintained under a

planned maintenance schedule.

Maximum penalty—20 penalty units.

## **PART 5—HAIRDRESSERS**

### *Division 1—Administration of part and interpretation*

#### **Definitions**

**35.** In this part—

**“hairstylist”** means every person who shaves, cuts, trims, dresses, waves, curls, stains or dyes or who in any other way treats the hair of any person for a fee or reward, and also any person who for fee or reward performs scalp or facial massage, manicure, pedicure, or in any other way whatsoever treats or otherwise deals with the head, scalp, face, hands, skin, fingernails, toenails, or feet or manipulates any form of electrical treatment, but does not include a medical practitioner, physiotherapist or podiatrist whilst engaged in the conduct of his or her profession.

**“hairstylist’s shop”** means the premises wherein or whereon any of the operations of a hairstylist is conducted, but does not include the premises where the operations of a hairstylist are conducted pursuant to a mobile hairstyling service licence.

**“licensed premises”** means a hairstylist’s shop or other premises, in respect of which a hairstylist’s shop licence or mobile hairstyling service licence is issued pursuant to this part, wherein, whereon or wherefrom a hairstylist conducts the operations of a hairstylist.

**“mobile hairstyling service”** means the practice whereby a hairstylist conducts any of the operations of a hairstylist other than at a hairstylist’s shop.

**“waste receptacle”** means a standard commercial waste container or a standard domestic waste container within the meaning of the *Environmental Protection (Interim Waste) Regulation 1996*.

**Superintendence by local governments**

**36.(1)** This part shall be in force within the areas of all local governments.

**(2)** Each local government shall superintend and see to the execution of this part and shall do and provide all such acts, matters and things as may be necessary for superintending or aiding in the execution thereof.

***Division 2—Licences*****Licences for hairdressers' shops and mobile hairdressing services**

**37.(1)** A person shall not use any premises as a hairdresser's shop unless the person is the holder of a current hairdresser's shop licence in the person's name in respect of such premises, granted by a local government.

**(2)** A person shall not establish or conduct a mobile hairdressing service unless the person is the holder of a current mobile hairdressing service licence granted by a local government.

Maximum penalty—40 penalty units.

**Application for licence**

**38.(1)** An application for—

- (a) a hairdresser's shop licence shall be made to the local government in whose area the shop is situated in the approved form and shall be accompanied by—
  - (i) the appropriate licence fee from time to time fixed by resolution of the local government; and
  - (ii) a copy of specifications and drawings of the shop showing plans and elevations to a scale not smaller than 1:100, and where necessary, further detailed drawings including sections that facilitate adequate assessment of the subject matter to the application; and
- (b) a mobile hairdressing service licence shall be made to the local government in whose area the service is to be conducted in the

approved form and shall be accompanied by—

- (i) the appropriate licence fee from time to time fixed by resolution of the local government; and
- (ii) where the premises in respect of which the application is sought comprise a building or a caravan, a copy of specifications and drawings of the premises showing plans and elevations to a scale not smaller than 1:100, and where necessary, further detailed drawings including sections that facilitate adequate assessment of the subject matter to the application.

(2) Upon consideration of an application for a licence, the local government shall—

- (a) grant a licence in accordance with the application; or
- (b) grant a licence subject to such reasonable and relevant conditions as it deems fit; or
- (c) refuse the application for good cause shown.

### **Application for renewal of licence**

**39.(1)** An application for renewal of a licence issued pursuant to this part shall be—

- (a) made in the approved form; and
- (b) accompanied by the appropriate licence renewal fee from time to time fixed by resolution of the local government; and
- (c) made at least 30 days prior to the date of expiry thereof or the next previous renewal thereof.

(2) Upon receipt of an application for renewal of a licence, the local government shall—

- (a) grant a renewal of the licence in accordance with the application; or
- (b) refuse the application for good cause shown.

**Form of licences and renewals**

**40.** A licence, or renewal of a licence, must be in the approved form.

**Duration of licence**

**41.(1)** A licence issued pursuant to this part shall take effect from the date of issue thereof and unless earlier cancelled or suspended shall expire—

- (a) on the 30 June next following; or
- (b) on the day 12 months after the date thereof, as determined by the local government.

**(2)** A renewal of a licence issued pursuant to this part shall take effect from the expiry date of the licence, or as the case may be, the next previous renewal thereof and, unless earlier cancelled or suspended, shall expire on—

- (a) the 30 June next following; or
- (b) on the day 12 months after the date thereof, as determined by the local government.

**Transfer of licence**

**42.(1)** A hairdresser's shop licence may, with the consent of the local government by which it was issued, be transferred to another person.

**(2)** An application to transfer a licence shall be made by the licensee and the transferee in the approved form and be accompanied by the appropriate transfer of licence fee from time to time fixed by resolution of the local government.

**(3)** The transfer of a licence shall be effected by the production of the licence to the local government and the endorsement thereon by the local government of the name and address of the transferee who shall thereupon become and be the licensee under and for the purposes of this part.

**Additional information to be furnished**

**43.** An applicant for a licence, renewal of a licence or transfer of a licence shall furnish such additional information and particulars relevant to the

application as the local government considers necessary and requests in writing.

### **Refusal of licence etc.**

**44.** A local government may refuse to licence, renew a licence or transfer a licence if the applicant, licensee or transferee, as the case may be, has been convicted within a period of 2 years of an offence against this part.

### **Cancellation etc. of licence**

**45.(1)** A local government may, subject to this section, by notice in writing to the licensee cancel or suspend a licence if—

- (a) the licensee fails to observe or comply with any conditions of the licence; or
- (b) the licensee is convicted of an offence against this part; or
- (c) the licensed premises no longer comply with the requirements of this part.

**(2)** Before it gives a notice under subsection (1), a local government shall afford to the licensee an opportunity to show cause why the notice should not be given, by notifying the licensee in writing of a day (being not earlier than 30 days after the giving of the notification), a time and place when and where the licensee may show cause why the notice, which it is proposed to issue, should not be issued.

**(3)** Any licensee to whom a notification is given under subsection (2)—

- (a) may appear at the day, time and place so notified and take such steps as are calculated to show the required cause; or
- (b) may endeavour to show the required cause by writing furnished to the chief executive officer of the local government concerned at any time before the time so notified.

**(4)** When a local government suspends a person's licence—

- (a) such licence shall not be effective; and
- (b) that person shall be deemed not to be a licensee, for the period of the suspension.

**Delivery of licence to local government**

**46.(1)** When a licence is cancelled or suspended pursuant to this part, the person who was the licensee shall, upon request by notice in writing served upon the person, deliver that cancelled or suspended licence to the local government within 7 days therefrom.

Maximum penalty—40 penalty units.

**(2)** Upon the termination of the period of suspension of a licence delivered up to the local government in pursuance of subsection (1), the local government shall, if such licence is still in force, return it to the licensee.

***Division 3—Licensed premises*****Requirements for hairdresser's shop**

**47.** A local government shall not issue a hairdresser's shop licence unless—

- (a) there is provided in the premises in respect of which the application relates—
  - (i) in the room where customers are attended to, suitable and sufficient wash hand basins to which hot and cold running water are connected and so located as to be readily accessible to hairdressers;
  - (ii) an adequate supply of hot and cold water to every sink and basin in the premises;
  - (iii) adequate vermin-proof cupboards, cabinets or similar fittings for the storage of all clean towels, cloths or other materials that may be required to hygienically conduct the operations of a hairdresser;
  - (iv) sufficient receptacles—
    - (A) constructed of light coloured, durable, smooth and impervious material with close fitting lids; and
    - (B) having painted thereon or affixed thereto in letters of not less than 100 mm in height the words 'SOILED

*Health Regulation 1996*

---

## LINEN’;

for the reception of all soiled towels, cloths and similar material; and

- (v) sufficient receptacles constructed of a smooth and impervious material with close fitting lids for the reception of hair, paper and other waste material; and
- (b) the floor of the premises on which the operations of a hairdresser are to be conducted is surfaced with a smooth, durable and impervious material; and
- (c) all surfaces in the premises in respect of which the application relates on which appliances, implements, instruments, tools or things are or may be placed are of a durable, smooth and impervious material free from cracks or crevices.

**Requirements for mobile hairdressing service**

**48.** A local government shall not issue a mobile hairdressing service licence unless—

- (a) there is provided in the premises in respect of which the application is made—
  - (i) facilities for the cleaning and disinfection of all appliances, implements, instruments and tools; and
  - (ii) an adequate supply of hot and cold water; and
  - (iii) adequate receptacles constructed of light coloured, durable, smooth and impervious material with close fitting lids for the reception of soiled towels, cloths and similar materials; and
  - (iv) adequate vermin-proof cupboards, cabinets or similar fittings for the storage of all clean towels, cloths or other materials that may be required to hygienically conduct the operations of a hairdresser; and
- (b) all surfaces in the premises in respect of which the application relates on which appliances, implements, instruments, tools or

things are or may be placed are of a durable, smooth and impervious material free from cracks or crevices.

#### *Division 4—Sanitary provisions*

### **Conduct of premises**

#### **49. A licensee—**

- (a) shall cause all walls, floors, ceilings, floor coverings, shelves, fittings, furniture, appliances, implements, instruments, tools and things that are situated or used in the licensed premises to be maintained in good order and in a clean condition so as to ensure the hygienic conduct of the operations of hairdressers; and
- (b) shall ensure that the contents of receptacles for the reception of soiled towels, cloths and similar material are removed from the licensed premises daily and are not brought back into the premises unless properly disinfected in accordance with this part; and
- (c) shall provide at all times for the exclusive use of hairdressers an adequate supply of—
  - (i) soap or antibacterial cleansing agent of a type specified in schedule 6, part 1; and
  - (ii) nail brushes; and
  - (iii) clean towels or other suitable hand drying equipment; and
- (d) in the case of a licensee of a hairdresser's shop—
  - (i) shall cause any hair, paper and other waste material deposited in refuse receptacles to be disposed of at least once daily in a waste receptacle; and
  - (ii) shall not use the wash hand basins referred to in section 47(a)(i) for the purpose of washing or rinsing the hair or scalp of a customer; and
  - (iii) shall cause the floor of his or her hairdresser's shop to be

completely swept at least once a day.

Maximum penalty—40 penalty units.

### **Hairdresser to remain clean**

**50.** A hairdresser shall whilst conducting any of the operations of the hairdresser—

- (a) at all times keep his or her clothing, hands, fingernails and body clean;
- (b) thoroughly cleanse his or her hands by washing and scrubbing with soap or antibacterial agent of a type specified in schedule 6, part 1 and water and drying them with a clean towel or other suitable hand drying equipment—
  - (i) immediately before commencing and immediately after completing any service on a customer;
  - (ii) immediately after visiting or using a sanitary convenience;
  - (iii) immediately after smoking;
  - (iv) immediately after using a handkerchief or nasal tissue;
  - (v) immediately after handling or touching soiled towels, cloths or similar materials or waste materials used or produced in connection with the particular operation conducted;
- (c) at all times when attending to a customer, wear clean clothing; and
- (d) not carry combs or other appliances, implements, instruments or tools in pockets of his or her clothing.

Maximum penalty—40 penalty units.

### **Smoking**

**51.** A hairdresser shall not smoke while attending to a customer.

Maximum penalty—40 penalty units.

**Waste collection**

**52.** A hairdresser conducting the operations of a hairdresser on licensed premises shall cause—

- (a) all hair clippings and other waste, including shaving lather and paper, to be swept up or collected as soon as practicable after each hair treatment and placed in a refuse receptacle or waste receptacle; and
- (b) all soiled towels, cloths and paper, immediately after use to be placed in the proper receptacle.

Maximum penalty—40 penalty units.

**Expectorating and animals prohibited**

**53.(1)** A person shall not expectorate in licensed premises.

**(2)** A person shall not keep or allow any animal to be in licensed premises.

Maximum penalty—40 penalty units.

**Use of clean towels etc.**

**54.(1)** A hairdresser shall not, in the course of carrying out any of the operations of a hairdresser, use any towel, wrap, cloth, paper, headband or any other thing which comes into contact with the skin of a customer that is not clean.

**(2)** A hairdresser shall place a paper strip or clean towel not previously used completely around the neck of each customer before any wrap or other protective device is fastened around the neck.

**(3)** A hairdresser shall not cause or permit a customer to recline in a chair or couch, unless the head rest of the chair or couch has first been covered with a clean towel, cloth or clean sheet of paper not previously used for any other purpose.

Maximum penalty—40 penalty units.

**Method of lathering**

**55.(1)** A hairdresser shall cause all lathering and soaping required to be carried out on a customer to be effected by wetting the shaving brush with water and sprinkling it with soap, powder, cream or fluid before applying it to the skin or hair of the customer.

**(2)** A hairdresser shall not rub or dip a shaving brush in soap or soap preparation, nor shall the hairdresser apply soap or soap prepared directly to the skin or hair of a customer except by means of a spatula or applicator which has been disinfected prior to such use or by means of a sterile disposable spatula or applicator which the hairdresser shall immediately after use dispose of in the refuse receptacle provided or in a waste receptacle.

Maximum penalty—40 penalty units.

**Use of powder puffs etc. prohibited**

**56.(1)** A hairdresser shall not use on a customer a rotary hairbrush, sponge, powder puff, neck duster, substances in block form or any other thing or substance likely to convey infection to the customer.

**(2)** If a hairdresser has occasion to arrest bleeding that arises in the course of service to a customer—

- (a) the hairdresser shall apply cotton wool, impregnated with a styptic in liquid or powdered form, to the site of the bleeding; and
- (b) the hairdresser shall, immediately after having arrested the bleeding, deposit the cotton wool in the refuse receptacle provided or a waste receptacle.

**(3)** A hairdresser shall not apply to the skin of a customer any powder, rouge, or similar cosmetics other than by means of a mechanical blower or a fresh clean pad or brush.

**(4)** A hairdresser shall not apply, petroleum jelly or any other substance to the skin of a customer unless it is removed from its container by means of a spatula or applicator which has been disinfected prior to such use or by means of a sterile disposable spatula or applicator which the hairdresser shall immediately after use dispose of in the receptacle provided or a waste receptacle.

(5) A hairdresser shall keep all fluids and solutions for use in permanent waving in a type of container that prevents contamination of the unused solution.

(5A) A hairdresser shall not apply to a customer fluids or solutions previously used on another customer.

(6) A hairdresser shall not apply creams or other substances used in face massage to a customer unless it is removed from a collapsible tube or alternatively from a container by means of a spatula or applicator which has been disinfected prior to use or by means of a sterile disposable spatula or applicator which the hairdresser shall immediately after use dispose of in the receptacle provided or a waste receptacle.

Maximum penalty—40 penalty units.

### **Depilatory wax**

**57.** A hairdresser shall not use wax for the removal of hair from any part of the body of a person unless such wax—

- (a) has not previously been used for the removal of hair from any part of the body of another person; or
- (b) if it has been so used, has been cleaned by being—
  - (i) strained through a metal straining appliance to remove all hair and other extraneous matter; and
  - (ii) maintained at a temperature of not less than 130°C for not less than 15 minutes.

However, wax which has been previously used in the removal of hair from any part of the body of a person who was at the time of such use, suffering from an infectious skin disease or was infested with head lice or some other parasitic infestation of the skin or hair, shall not be used for the purpose of removal of hair from any part of the body of another person.

Maximum penalty—40 penalty units.

***Division 5—Disinfection of appliances*****Disinfection of appliances etc.**

**58.(1)** A hairdresser shall keep all appliances, implements, instruments and tools in a clean condition and shall disinfect such appliances, implements, instruments and tools before use each day and immediately after use on each customer.

**(2)** A hairdresser shall—

- (a) keep all razors, scissors, forceps, combs and clippers, when not in use, in containers provided for that purpose; and
- (b) keep the containers closed except when articles are being placed therein or removed therefrom; and
- (c) wipe out the containers daily with a cloth or pad impregnated with a solution specified in schedule 6, part 2 hereto; and
- (d) after being used, thoroughly clean, rinse and dry all portable bowls, basins, cups and like containers with soap or suitable detergent and keep the same dust free.

**(3)** A hairdresser shall disinfect appliances, implements, instruments, tools and other things in the following manner—

- (a) razors, scissors, shears and combs by—
  - (i) washing in cold water and soap or a suitable detergent; and
  - (ii) drying with a clean cloth or towel; and
  - (iii) immersion in a solution specified in schedule 6, part 2;
- (b) clippers by—
  - (i) brushing the clipper teeth with a clean brush dipped in methylated spirits or 95% ethyl alcohol to remove all hair; and
  - (ii) wiping the blades with a clean swab or cloth impregnated with a solution specified in schedule 6, part 2;
- (c) hair and shaving brushes by—
  - (i) washing in cold water and soap or a suitable detergent; or

*Health Regulation 1996*

---

- (ii) by immersion in a solution specified in schedule 6, part 2;
- (d) towels, cloths, wraps and other washable fabrics by—
  - (i) immersing in a solution specified in schedule 6, part 2; or
  - (ii) washing—
    - (A) in water at a temperature of at least 71°C for not less than 10 minutes; or
    - (B) in water and drying or ironing at a temperature of at least 71°C on the premises where washed;
- (e) plastic wraps by—
  - (i) washing in cold water and soap or suitable detergent; and
  - (ii) drying with a clean cloth or towel;
- (f) strops by wiping with a pad, cloth or sponge impregnated with a solution specified in schedule 6, part 2;
- (g) hair clips and rollers used in hair waving or styling and which come into contact with the customer's hair by—
  - (i) washing in cold water and soap or suitable detergent; and
  - (ii) drying with a clean cloth or towel; and
  - (iii) immersing in a solution specified in schedule 6, part 2;
- (h) electric heating clips and tongs used in hair waving or styling and which come into contact with the customer's hair by wiping with a clean swab or cloth impregnated with a solution specified in schedule 6, part 2;
- (i) all other appliances, implements, instruments and tools capable of being immersed in liquid by immersing in a solution specified in schedule 6, part 2.

(4) A hairdresser shall not use an appliance, implement, instrument or tool which has been dropped on to the floor or otherwise contaminated unless the hairdresser has first disinfected the same in the manner prescribed by this section.

Maximum penalty—40 penalty units.

***Division 6—Miscellaneous*****Infectious skin diseases etc.**

**59.(1)** A person who knows or suspects that he or she is suffering from an infectious skin disease, or is infested with head lice or some other parasitic infestation of the skin or hair, shall not enter licensed premises.

**(2)** A hairdresser shall not carry out any of the operations of a hairdresser on any person in a hairdresser's shop if—

- (a) the hairdresser has been notified by such person or, after inquiry by the hairdresser, by any other person that such person is or may be suffering from an infectious skin disease, or is or may be infested with head lice or some other parasitic infestation of the skin or hair; or
- (b) the hairdresser knows or suspects that such person is suffering from an infectious skin disease, or is infested with head lice or some other parasitic infestation of the skin or hair.

**(3)** If a hairdresser knows or suspects that a person in his or her hairdresser's shop is suffering from an infectious skin disease, or is infested with head lice or some other parasitic infestation of the skin or hair, the hairdresser shall direct such person to leave the hairdresser's shop.

**(4)** A hairdresser suffering from an infectious skin disease, or who is infested with head lice or some other parasitic infestation of the skin or hair, shall not—

- (a) carry out any of the operations of a hairdresser;
- (b) enter or remain in licensed premises when the hairdresser becomes aware that the hairdresser is suffering from an infectious skin disease, or is infested with head lice or other parasitic infestation of the skin or hair.

**(5)** If a hairdresser observes the presence of an infectious skin disease on a customer the hairdresser shall—

- (a) immediately gather together all readily movable appliances, implements, instruments, tools and things used in the services of that customer and disinfect such appliances, implements, instruments, tools and things in the manner prescribed in this

part; and

- (b) immediately destroy, disinfect or dispose of in a waste receptacle every paper, pad, swab, appliance, implement, tool and thing used in the service of such customer and in the case of towels, cloths and any coat or overall worn by the hairdresser, cause such towels, cloths and coat or overall to be placed in a sealed container and at the first practicable opportunity disinfect the same in the manner prescribed in this part; and
- (c) cleanse his or her hands by scrubbing them with a nail brush and soap or antibacterial cleansing agent of a type specified in schedule 6, part 1.

Maximum penalty—40 penalty units.

## **PART 6—HYPERBARIC CHAMBER THERAPY**

### **Definitions**

**60.** In this part—

**“compression (recompression) chamber”** means a chamber in which a person may be subjected to a pressure greater than that experienced at sea level atmospheric pressure or 1 atmosphere absolute, and includes a hyperbaric oxygen therapy chamber.

**“disease”** means any disease or disability, whether of body or mind.

**“therapeutic purpose”** means a purpose of or in connection with—

- (a) preventing, diagnosing, curing or alleviating any disease in any person;
- (b) influencing, inhibiting or modifying a physiological process in any person.

### **Application**

**61.** This part does not apply to—

- (a) therapeutic recompression treatment for dysbaric illness, including decompression sickness and gas embolism, by—
  - (i) a person who is qualified in diving supervision and in the operation of recompression facilities—
    - (A) to the level of petty officer clearance diver as specified by the Royal Australian Navy;
    - (B) to the level of life support technician, as certified by the Association of Diving Contractors;
    - (C) to an equivalent level, as certified upon completion of a course approved by the chief health officer;
  - (ii) a person who is qualified in the operation of a portable compression (recompression) chamber, as certified upon completion of a course approved by the chief health officer;
  - (iii) a medical practitioner who is qualified and experienced in underwater and hyperbaric medicine—
    - (A) who has been awarded the Diploma in Diving and Hyperbaric Medicine as approved by the South Pacific Underwater Medicine Society; or
    - (B) who has successfully completed an equivalent course approved by the chief health officer;
- (b) a hospital or intensive care facility equipped with full resuscitation facilities and being used under the supervision of a medical practitioner with qualifications as referred to in paragraph (a);
- (c) a person using a compression (recompression) chamber in relation to the health and safety of persons engaged in underwater diving and who is a person with the qualifications referred to in paragraph (a);
- (d) a compression (recompression) chamber being used for a therapeutic purpose approved by the chief health officer.

### **Hyperbaric oxygen therapy prohibited**

**62.** Except as provided in section 61, a person shall not—

- (a) use or permit or cause to be used a compression (recompression)

chamber for a therapeutic purpose using hyperbaric oxygen, air or any other gas or a mixture thereof;

- (b) have in possession a portable compression (recompression) chamber that is capable of being used for a therapeutic purpose.

Maximum penalty—20 penalty units.

## **PART 7—MALTREATMENT OF CHILDREN**

### **Authorised persons—Act, s 76K(1)**

**63.** A person who holds an office mentioned in schedule 1, column 2, 3 or 4 is an authorised person for the place set out opposite in schedule 1, column 1.

### **Further notification of maltreatment—Act, s 76K(3)**

**64.** A further notification required to be given by a doctor must be in the approved form.

### **Order for detention of child in hospital—Act, s 76L(2)(c) or (d)**

**65.** An order for the admission of a child to hospital, or for a child to be taken into custody and brought to a hospital, must be in the approved form.

## **PART 8—MOSQUITO PREVENTION AND DESTRUCTION**

### *Division 1—Preliminary*

#### **Definitions**

**66.** In this part—

**“approved”** means approved in writing by the chief health officer.

**“occupier”**, of premises, includes, if there is no person in actual occupation of the premises, a person entitled to possession of the premises.

**“water or other liquid”** means water or other liquid—

- (a) in which mosquitoes are likely to breed; or
- (b) that is likely to provide harbourage for mosquitoes.

#### **All mosquitoes noxious**

**67.** Mosquitoes of all species are hereby declared to be noxious.

#### **Local governments to superintend**

**68.** The local government shall superintend and see to the execution of this part and shall do and provide all such acts, matters, and things as may be necessary for superintending or aiding in the execution of this part.

### *Division 2—Measures to be adopted by manufacturers, owners and occupiers*

#### **Tanks to be protected**

**69.(1)** A person must not construct any tank or other receptacle that is used or intended to be used for the holding or storing of water or other liquid unless the tank or other receptacle complies with subsections (3) and (4).

(2) The owner of any premises must not—

- (a) install or place on the premises, whether above or below ground, any tank or other receptacle that is used or intended to be used for the holding or storing of water or other liquid; or
- (b) permit or allow any such tank or other receptacle to remain on the premises;

unless the tank or other receptacle complies with subsections (3) and (4).

(3) A tank or other receptacle used or intended to be used for the holding or storing of water or other liquid must be provided with—

- (a) mosquito-proof screens of brass, copper, aluminium or stainless steel gauze not coarser than 1 mm aperture mesh of substantial construction and installed in such a manner as not to cause or accelerate corrosion; or
- (b) flap valves at every opening of the tank or other receptacle; or
- (c) other approved means for preventing the ingress or egress of mosquitoes.

(4) Where a tank or other receptacle is provided with a manhole, the manhole must have a diameter of no more than 40 cm.

Maximum penalty—40 penalty units.

### **Ponds and pools to be covered or treated**

**70.** The occupier of any premises shall at all times ensure that any pond, pool, trough, fountain, barrel, trench, or other like place or receptacle which ordinarily or occasionally contains water or other liquid is prevented from serving as a breeding place or harbourage for mosquitoes by 1 or more of the following methods, namely—

- (a) by keeping the water or other liquid therein covered or treated with kerosene, other suitable oil, or other suitable substance;
- (b) by keeping the water or other liquid stocked with mosquito-larvae-destroying fish;
- (c) by covering all openings in the manner prescribed by section 69;
- (d) by completely drawing off or emptying all water or other liquids

from the receptacle and allowing the interior to dry, or thoroughly scrubbing all parts of the interior of the receptacle after emptying, at least once in every 7 days.

Maximum penalty—40 penalty units.

### **Certain ponds and pools to be drained or filled**

**71.(1)** Where there is on any premises any pond, pool, swamp, or other accumulation of water or other liquid, whether permanent or not, which is likely to serve as a breeding place or harbourage for mosquitoes if it is not drained or filled in, the owner of the premises shall effectively drain or fully fill in such pond, pool, swamp or other accumulation of water or other liquid.

(2) The owner of the premises shall—

- (a) ensure that all drains are at all times properly maintained and kept free from obstruction;
- (b) maintain the surface of the land at appropriate levels so that at all times the water or other liquid does not remain on any portion of the premises and flows into the drains without obstruction.

Maximum penalty—40 penalty units.

### **Other measures to be taken by occupiers**

**72.(1)** The occupier of any premises shall at least once in every 7 days completely empty all water from every can, bowl, bottle, tub, bucket, pot, barrel, jug, vase, flowerpot, safe dish, or other like receptacle kept on the premises, and shall thoroughly dry and cleanse such receptacle before again filling it, so as to prevent it from serving as a breeding place or harbourage for mosquitoes.

(2) The occupier of any premises shall not permit or allow to remain on the premises any tin, bottle, can, container, or other thing which by collecting rain water or other water or other liquid is likely to serve as a breeding place or harbourage for mosquitoes.

(3) The occupier of any premises shall ensure that all open drains and channels on the premises are kept free from obstruction to prevent them holding water or other liquid that is likely to serve as a breeding place or

harbourage for mosquitoes.

Maximum penalty—40 penalty units.

### **Other measures to be taken by owners**

**73.(1)** The owner of any premises shall—

- (a) ensure that every gutter, drain, roof, spouting, roof gutter, and other like channel is properly maintained and kept free from obstruction, so as to prevent water or other liquid remaining in it and serving as a breeding place or harbourage for mosquitoes;
- (b) cut down and remove any vegetation or undergrowth that is likely to serve as a breeding place or harbourage for mosquitoes or to obstruct any gutter, drain or watercourse.

Maximum penalty—40 penalty units.

**(2)** The owner of any premises shall, when so directed by a notice in writing given to the owner by an inspector—

- (a) cut back and trim to the extent specified in the notice any overhanging branches of trees, so as to prevent leaves or debris being deposited in any roof gutter, tank top or other place where the free flow of water or other liquid may be obstructed, whether upon the owner's own or any adjoining premises;
- (b) take such other measures that are reasonably practicable and are specified in the notice, to prevent the premises or any part thereof serving as a breeding place or harbourage for mosquitoes.

### **Local government premises**

**74.** The local government shall—

- (a) in respect of premises owned or occupied by it or under its management and control, take the measures prescribed by this division for owners and occupiers of premises;
- (b) in respect of roads, drains and sewers, including disused drains and sewers, take such measures that are reasonably practicable and are specified in a notice given to it by the chief health officer,

to prevent any road, drain or sewer or any part thereof serving as a breeding place or harbourage for mosquitoes.

### *Division 3—Miscellaneous*

#### **House-to-house visitation**

**75.(1)** The local government may and when required by the chief health officer by notice in writing shall undertake a house-to-house visitation within its area or part thereof and inspect all the premises therein.

**(2)** The local government shall in respect of every such visitation and inspection which has been required by the chief health officer furnish to the chief health officer within the time specified by the chief health officer a full report in writing—

- (a) whether the provisions of this part are being complied with by the owners and occupiers of premises; and
- (b) upon the action taken or proposed to be taken by the local government with respect to any premises which were ascertained to be or to be likely to be a breeding place or harbourage for mosquitoes.

#### **Damaging drains, screens or covers**

**76.** A person who—

- (a) destroys, damages or obstructs any drain that has been constructed or installed on any premises for any purpose of this part;
- (b) destroys, damages or removes any screen or other protective covering affixed to any tank or other receptacle for any purpose of this part;

commits an offence.

Maximum penalty—40 penalty units.

**Failing to fill in excavation**

**77.** A person who cuts turfs or removes soil or other material from any premises and who does not forthwith fill in the excavation with clean, sound material, finishing off level with the surface of the surrounding ground, commits an offence, unless written permission to the contrary has been obtained from the local government.

Maximum penalty—40 penalty units.

**Default of owner or occupier**

**78.(1)** If the owner or occupier of any premises to whom a notice has been given under section 73(2) or 209 neglects to comply with such notice, or fails to comply therewith within the time specified therein, the chief health officer or the local government may, whether or not that person has been proceeded against for an offence against this part, by the chief health officer or local government or by the chief health officer's or local government's contractor enter the premises to which the notice relates and do or cause to be done all such acts and things and perform or cause to be performed all such work as is necessary to comply with the requirements of the notice.

**(2)** Any expenses incurred in so doing shall be paid to the chief health officer or, as the case may be, to the local government by the owner or occupier concerned within the time specified by the chief health officer or local government (being not less than 30 days) after the giving to that person of a notice in writing specifying the amount of such expenses incurred and giving reasonable particulars thereof.

**PART 9—PERINATAL STATISTICS****Prescribed class of child**

**79.** For section 100G of the Act,<sup>1</sup> definition “**child not born alive**”, a

---

<sup>1</sup> Section 100G (Interpretation)

prescribed class of child is—

- (a) a child of at least 20 weeks gestation; or
- (b) a child weighing at least 400 g at birth.

### **Returns**

**80.** For section 100H(1) of the Act,<sup>2</sup> a return must be—

- (a) completed by—
  - (i) the prescribed person for the delivery; or
  - (ii) a medical or nursing superintendent or another person decided by the prescribed person; and
- (b) provided to the chief health officer within 35 days after the day of the delivery.

### **Inadequate returns**

**81.(1)** If the chief health officer is satisfied that a return under section 100H(1) of the Act is inaccurate, misleading or deficient, the chief health officer may give the prescribed person who provided the return a written notice, requiring the person to amend the return in the way, and in the time, stated in the notice.

**(2)** The person must comply with the notice, unless the person has a reasonable excuse for not complying with it.

Maximum penalty—8 penalty units.

## **PART 10—PEST CONTROL OPERATORS**

### **Application for a licence**

**82.(1)** An application for a licence must be made to the chief health

---

<sup>2</sup> Section 100H (Furnishing returns to chief health officer)

officer in the approved form.

(2) The application must be accompanied by the application fee set out in schedule 3.

### **Application for renewal of a licence**

**83.(1)** An application for the renewal of a licence must be made to the chief health officer in the approved form.

(2) The application must be accompanied by the fee set out in schedule 3.

### **Production of licence**

**84.** An inspector may require a pest control operator to produce the pest control operator's licence at any time.

### **Storage of pesticide**

**85.** A pest control operator shall not have a pesticide in the pest control operator's possession or at the pest control operator's order or disposition, except when in use for the purpose of controlling, destroying or preventing the growth or development of insects, mites or vermin or when being transported to premises for such purposes, unless such pesticide is stored in a room, building or other place which is—

- (a) provided with a floor impervious to such pesticide; and
- (b) constructed so that pesticide spillage therein cannot pollute a water supply or a watercourse or a place which is accessible to a human being or a domestic animal; and
- (c) kept locked except when a pesticide is being placed into or removed therefrom or is being prepared therein.

Maximum penalty—10 penalty units.

### **Key to pesticide storage place**

**86.** A pest control operator shall not permit a key to a lock of a room, building or other place, used by the pest control operator for the storage of a pesticide, to be in the possession of a person who has not attained the age of

18 years.

Maximum penalty—10 penalty units.

### **Pesticide in vehicle**

**87.** A pest control operator shall not have, on a vehicle, a pesticide unless—

- (a) such pesticide and each apparatus or equipment used to contain it are kept so as to be inaccessible to any person other than the pest control operator or a person who has attained the age of 18 years and who is under the pest control operator's personal supervision; and
- (b) that part of the vehicle, in which such pesticide and each apparatus or equipment used to contain it are kept is provided with a floor and walls which are impervious to the pesticide and in the event of a spillage would not allow it to escape from the vehicle; and
- (c) the pest control operator's name, address and licence number are legibly and conspicuously displayed on the exterior of the vehicle.

Maximum penalty—10 penalty units.

### **Pesticide in container**

**88.** A pest control operator shall not have a pesticide in the pest control operator's possession or at the pest control operator's order or disposition unless such pesticide is packed in a container which is—

- (a) labelled in legible letters with the name of such pesticide and its percentage proportion of the contents of the container; and
- (b) impervious to such pesticide; and
- (c) sufficiently strong to prevent breakage or leakage arising from the ordinary risks of handling, storing or transport; and
- (d) of sufficient excess capacity to prevent breakage of the container or leakage of the contents if such contents are likely to expand during handling, storage or transport; and
- (e) securely closed, except when pesticides are being placed into or

removed therefrom; and

- (f) not capable of causing a chemical reaction with such pesticide.

Maximum penalty—10 penalty units.

### **Disposal of pesticide**

**89.** A pest control operator shall not dispose of a pesticide in a manner likely to endanger the life or safety of a human being or a domestic animal or to pollute a water supply or watercourse.

Maximum penalty—10 penalty units.

### **Disposal of pesticide container**

**90.** A pest control operator shall not dispose of a pesticide container other than by 1 of the following methods—

- (a) by burning so that the fumes and smoke do not endanger the life or safety of a human being or domestic animal;
- (b) by reclosing the container and returning it to the supplier;
- (c) by draining the contents, rinsing several times with clean water and then breaking, puncturing, flattening or otherwise rendering it unusable and thereafter burying or disposing of it in a manner not likely to endanger the life or safety of a human being or domestic animal or to pollute a water supply or watercourse.

Maximum penalty—10 penalty units.

## **PART 11—PLACARDING FOR HAZARDOUS SUBSTANCES**

### *Division 1—Interpretation*

#### **Definitions**

**91.** In this part—

**“ADG code”** means the Australian Code for the Transport of Dangerous Goods by Road and Rail, endorsed by the Australian Transport Advisory Council and the Ministerial Council on Road Transport.

**“class”** means a class of hazardous substance as determined by reference to the class numbers referred to in section 2 of the ADG code.

**“class label”** means the label in respect of a class signifying the character of that class of hazardous substance.

**“hazardous substance”** means a hazardous substance as defined by section 131WE of the Act.

**“hazchem code”** means the Hazchem Emergency Action Code referred to in section 9 of the ADG code.

**“packaging group”** means a packaging group as determined by reference to section 2.4 of the ADG code.

**“tank”** means a container having a capacity:—

- (a) in respect of liquids—in excess of 250 l;
- (b) in respect of gases—in excess of 500 l.

**“underground tank”** means a tank which is completely covered by at least 600 mm of earth and which has not less than half of its rated capacity buried below ground.

#### **Adoption of ADG code**

**92.(1)** The provisions of the ADG code expressly referred to in this part are adopted as the law of Queensland subject to any alteration, amendment, modification or variation prescribed by this part.

(2) A term occurring in the ADG code that is defined by the Act but not by the ADG code has the meaning assigned to it by the Act.

(3) Where a term is defined by the ADG code and also by the Act and there is an inconsistency between the meaning assigned to that term by the ADG code and the meaning assigned to it by the Act, the meaning assigned to it by the Act shall prevail.

### *Division 2—Application*

#### **Application**

**93.(1)** This part applies to places where hazardous substances are stored, other than the following places—

- (a) places where class 1 or class 7 hazardous substances are stored;
- (b) places where class 3 hazardous substances are stored in an underground tank;
- (c) places where only 1 particular hazardous substance of class 3, 4, 5, 6.1, 8 or 9 is stored in a total quantity less than or equal to the exemption limit prescribed by this part for the packaging group to which the hazardous substance is assigned;
- (d) places where a number of hazardous substances of class 3, 4, 5, 6.1, 8 or 9 are stored and the factor determined in accordance with the method prescribed by schedule 8 is less than or equal to unity;
- (e) places where a hazardous substance of class 6.2 is stored and used in a manner approved by the chief health officer.

(2) This part does not apply to hazardous substances stored in amounts which do not exceed the following exemption limits—

- (a) class 2 hazardous substances—the exemption limits set out in schedule 9; and
- (b) hazardous substances assigned to packaging group 1—50 l or 50 kg; and
- (c) hazardous substances assigned to packaging group 2—2 000 l or 2 000 kg; and

- (d) hazardous substances assigned to packaging group 3—5 000 l or 5 000 kg.

(3) For the purposes of this part, the packaging group for a hazardous substance, other than a class 1, 2, 6.2 or 7 hazardous substances, shall be the packaging group assigned to the hazardous substance by the ADG code.

(3A) A hazardous substance which is not assigned to a packaging group pursuant to the provisions of the ADG code shall be assigned to packaging group 3, unless the chief health officer has approved, by notification published in the gazette, that the hazardous substance is assigned to packaging group 1 or packaging group 2.

(4) This part does not apply to hazardous substances in, on or about—

- (a) a mine within the meaning of the *Mines Regulation Act 1964*;
- (b) a coal mine within the meaning of the *Coal Mining Act 1925*;
- (c) a well, field production facility and pipeline transport facility within the meaning of the *Petroleum Act 1923*.

### *Division 3—Warning signs*

#### **Warning signs to be displayed**

**94.** Where a hazardous substance is stored at any place, the occupier shall display warning signs as prescribed by this part.

Maximum penalty—20 penalty units.

#### **Warning signs**

**95.(1)** Warning signs shall be of the following types—

- (a) outer warning sign; and
- (b) emergency information sign.

(2) A warning sign shall be displayed in a position separated from any other sign or notice so that the warning sign is not obscured by or capable of being confused with such other sign or notice.

(3) A warning sign shall be made of durable and weather-resistant

material and shall be maintained in good repair and legible condition.

(4) A warning sign shall conform with the requirements prescribed by schedule 10.

### **Location of warning signs**

96. Where a hazardous substance is stored at a place—

- (a) an outer warning sign shall be prominently displayed at every vehicle point of entry to the place, so as to be clearly visible by a person approaching by road, street or railway from any direction; and
- (b) an emergency information sign shall be prominently displayed within the place—
  - (i) at the main point of entry to any building or other place where the hazardous substance is stored; and
  - (ii) at every point of entry to the room, enclosure or other area where the hazardous substance is stored; and
  - (iii) adjacent to any outdoor area where the hazardous substance is stored; and
  - (iv) on the external surface of any tank where a hazardous substance is stored.

### ***Division 4—Class labels***

#### **Requirements**

97.(1) A class label identifying the class of hazardous substance to which an emergency information sign relates, shall be securely attached to each emergency information sign required to be displayed under this part.

(2) A class label in respect of a hazardous substance of class 2, 3, 4, 5, 6 or 8 shall be of the form and colour required by the ADG code in respect of the relevant class.

(3) A class label in respect of a hazardous substance of class 9 shall be in the form and colour specified in schedule 7.

- (4) A class label shall be—
- (a) made of durable and weather-resistant material; and
  - (b) maintained in good repair and legible condition; and
  - (c) of a minimum size of 100 mm<sup>2</sup>.

### *Division 5—Hazchem code*

#### **Hazchem code**

98. A hazchem code required to be displayed under this part must be—
- (a) determined by reference to the ADG code; and
  - (b) of the form and colour specified in schedule 10.

## **PART 12—POISONS (FUMIGATION)**

### **Definitions**

99. In this part—

“**building**”, without limiting the ordinary meaning, includes any vessel, room or other structure, and includes a covered grain stack, grain tank, grain bulkhead, and every structure used for the storing or holding of grain.

“**fumigant**” means methyl bromide, hydrocyanic acid, carbon disulphide, ethylene dibromide or any other substance so declared by the chief health officer with the approval of the Governor in Council, and includes any substance capable of producing or releasing hydrogen cyanide or other fumigants where such substances are used for the express purpose of fumigation.

“**fumigation**” means the treatment of a building, foodstuffs, produce or goods with a fumigant.

“**fumigator**” means a person licensed pursuant to this part.

**Use of fumigant**

**100.(1)** A person other than a fumigator shall not use any fumigant for the purpose of fumigation.

**(2)** However, a fumigator may permit the fumigator's assistant to use such fumigant in the presence and under the direction of the fumigator.

Maximum penalty—2 penalty units.

**Application for licence**

**101.(1)** An application for a licence must be made to the chief health officer in the approved form.

**(2)** The application must be accompanied by the application fee set out in schedule 3.

**Time licence expires**

**102.** A licence expires 1 year after the day the licence is granted unless it is cancelled by the chief health officer or surrendered by the fumigator before the expiry day.

**Application for renewal of licence**

**103.(1)** An application for the renewal of a licence must be made to the chief health officer in the approved form at least 14 days before the licence is due to expire.

**(2)** The application must be accompanied by the fee set out in schedule 3.

**Applicant**

**104.(1)** The chief health officer shall not grant a licence unless the chief health officer is satisfied that the applicant therefor is a fit and proper person to carry out fumigation.

**(1A)** An applicant for a licence shall furnish such information and particulars as the chief health officer may require.

**(2)** The chief health officer may at the chief health officer's discretion

require the applicant to establish to the chief health officer's satisfaction that the applicant has a good knowledge of the provisions of this part, and is competent to undertake fumigation using the fumigant specified in the applicant's application.

(3) Such applicant shall also satisfy the chief health officer that the applicant is medically fit to do such fumigation and that the applicant is over the age of 18 years.

### **Medical examinations and tests**

**105.** The chief health officer may require a fumigator or the fumigator's assistant to submit himself or herself to such medical examinations and tests as the chief health officer considers necessary from time to time in order to ascertain whether the exposure or continued exposure to fumigation of such fumigator or assistant has endangered or may endanger his or her health.

### **Suspension of licence**

**106.(1)** The chief health officer may suspend for such period as the chief health officer thinks fit, the licence of a fumigator whose health, in the opinion of the chief health officer, may be endangered by the fumigator's engaging further in the fumigation of buildings.

(2) Such fumigator may at any time apply for the restoration of the fumigator's licence on the ground that the fumigator's health will no longer be endangered by the fumigator's engaging in fumigations.

### **Notice to show cause**

**107.(1)** The chief health officer may suspend or revoke a fumigator's licence if in the chief health officer's opinion such fumigator is no longer a fit and proper person to hold such licence, or has committed a breach of this part.

(2) In any such case the chief health officer may by notice in writing addressed to such fumigator call upon the fumigator to show cause why the fumigator's licence should not be cancelled or suspended.

(3) If after consideration of the representations (if any) made by such

fumigator, the chief health officer is satisfied that such licence ought to be cancelled or suspended for any reason specified in such notice, the chief health officer may cancel or suspend it accordingly.

### **Accident**

**108.** Where an accident resulting in personal injury or death of a person occurs in the course of, or arises out of, the fumigation of a building, such accident shall be reported forthwith to the chief health officer by the fumigator or assistant employed in such fumigation at the time of the accident.

Maximum penalty—2 penalty units.

### **Exhaust system**

**109.** A fumigator intending to use any room, vault or chamber for the purposes of fumigation with methyl bromide or other fumigant shall provide such room, vault or chamber with a mechanical exhaust system capable of completely and harmlessly removing all fumigant therefrom, and capable of providing 60 air changes therein per hour.

Maximum penalty—2 penalty units.

### **Mask or respirator**

**110.(1)** A fumigator and each of the fumigator's assistants shall be equipped with and use a mask or respirator that is appropriate for the type of fumigant being used, or shall be equipped with and use a self-contained or air-line respirator capable of providing the fumigator with an independent supply of air.

**(2)** Such fumigator or assistant shall be closely accompanied at all times by at least 1 other person who is at least of the age of 18 years.

Maximum penalty—2 penalty units.

### **Smoking**

**111.** A person shall not smoke within a building in which fumigation is

being carried out, nor in the immediate vicinity of such building.

Maximum penalty—2 penalty units.

### **Doors and entrances**

**112.(1)** A fumigator, when fumigating a building shall immediately after starting the fumigation process securely lock or bar every door or entrance giving access to such building, and shall keep all such doors and entrances so locked or barred until such time as the fumigation is completed.

**(2)** During such time the fumigator shall prominently display on every such locked or barred door or entrance of such building the following notice printed on a white background in red letters not less than 100 mm in height—

‘DANGER, KEEP OUT  
FUMIGATION IN PROGRESS  
POISON GAS’.

Maximum penalty—2 penalty units.

### **No doors and entrances**

**113.** Where a building in which fumigation is being performed is not provided with doors and entrances reasonably capable of being locked or barred, the fumigator shall—

- (a) display in conspicuous positions on such building at least 2 copies of the notice prescribed by section 112; and
- (b) ensure that a reliable person approved of by the fumigator is in attendance in the immediate vicinity of such building at all times during the process of fumigation.

Maximum penalty—2 penalty units.

### **Re-entry into building**

**114.** A person other than the fumigator or the fumigator’s assistant shall not enter a building in which fumigation has been carried out until such time

as the fumigator considers it safe to re-enter such building.

Maximum penalty—2 penalty units.

### **Instructions by an officer**

**115.** A fumigator and the fumigator's assistant shall obey and carry out all instructions that may be given the fumigator by an officer (either orally or in writing) to ensure the safety of any person within the building in which the fumigation is being carried out or of any other person who may be in the immediate vicinity of such building.

Maximum penalty—2 penalty units.

### **Procedures before fumigation**

**116.** A fumigator shall not commence nor permit the fumigator's assistant to commence to fumigate a building, vessel or other enclosed space by means of a fumigant until—

- (a) the fumigator has by personal inspection ascertained that all portions of the fumigation area and immediately adjacent surroundings have been vacated, and the fumigator has notified in writing all persons normally using such building that fumigation will be carried out therein; and
- (b) all fires, electric radiators and naked lights within the fumigation area have been extinguished or switched off; and
- (c) all liquids and foods which are liable to absorb the fumigant have been removed from the fumigation area; and
- (d) all windows of the ground floor and basement of such building have been securely fastened; and
- (e) all cracks, crevices or openings in or between walls, or between walls and ceilings or roofs or floors, and all windows or ventilators, and all fireplaces of such building, vessel or other enclosed space about to be fumigated have been closed in such a manner as to prevent the escape of fumes or vapour from the fumigation area; and
- (f) an area of the flooring, extending 1 m beyond the fumigation area

on all sides has been made impervious to methyl bromide where it is intended to use methyl bromide as the fumigant; and

- (g) the officers in charge of the police station and of the fire brigade situated nearest to such building or enclosed space have been informed of the proposed fumigation and the exact time such fumigation is to commence.

Maximum penalty—2 penalty units.

### **Procedures after fumigation**

**117.** Immediately the fumigation of a building is completed, the fumigator shall—

- (a) remove and safely dispose of every substance and material used in such fumigation and the sealing of the openings to such building; and
- (b) ensure that all fabrics, furnishings and goods within such building are free from fumigant; and
- (c) cause the building to be thoroughly ventilated with fresh air; and
- (d) when hydrogen cyanide has been used, flush every water closet in such building that may have been exposed to the fumigant, and empty every receptacle therein containing water or any other liquid capable of absorbing the fumigant.

Maximum penalty—2 penalty units.

### **Concentration of fumigant**

**118.** A fumigator shall take all reasonable precautions to prevent any unauthorised person from entering, occupying or using a building being fumigated by the fumigator until the fumigator has ascertained by carrying out tests in a manner approved by the chief health officer having regard to the fumigant used, that the concentration of such fumigant present in any part of such building is less than—

- (a) 20 parts per million by volume where the fumigant used was methyl bromide; or
- (b) 10 parts per million by volume where the fumigant used was

hydrogen cyanide; or

- (c) such concentrations as may be determined by the chief health officer from time to time in the case of any other fumigant.

Maximum penalty—2 penalty units.

### **Mask**

**119.(1)** The fumigator of a building shall not cause nor permit the release of any fumigant until it has been ascertained, by the carrying out of tests in the manner referred to in this section, immediately before it is intended to release such fumigant, that the masks to be used by the fumigator and that of each of the fumigator's assistants are airtight.

(2) A mask shall be tested to ascertain whether it is airtight by the person by whom it is to be used by holding the mask close to the person's face, closing the inlet to the mask tightly and inhaling deeply.

(3) If the mask then clings to the face for a period of 15 seconds, the mask may be regarded as airtight.

Maximum penalty—2 penalty units.

### **Canisters**

**120.** A determination for establishing the efficiency of canisters shall be based on the following standards namely—

- (a) in the case of hydrocyanic acid, canisters shall be capable of giving effective protection for not less than 2 hours to a concentration of hydrocyanic acid of 1 part in every 100 parts of air.
- (b) in the case of methyl bromide canisters shall be capable of giving effective protection for not less than 1 hour to a concentration of methyl bromide of 1 part in every 85 parts of air.
- (c) in the case of any other fumigant, to such concentrations as may be determined from time to time by the chief health officer.

**Fumigator using certain poisons must have halide detector**

**121.** A fumigator must not carry out fumigation using methyl bromide or ethylene dibromide at any place, unless the fumigator has at the place a working halide detector of a type approved by the chief health officer.

Maximum penalty—2 penalty units.

**Respiratory apparatus**

**122.** A fumigator shall ensure that all respiratory apparatus used by the fumigator and the fumigator's assistants conforms at all times with Australian Standards AS 1715–1994 and AS 1716–1994 or such SAA codes on respiratory protective devices, and that such respiratory apparatus is regularly checked and maintained in efficient working order.

Maximum penalty—2 penalty units.

**Period of use of canister**

**123.(1)** A fumigator shall not use nor shall the fumigator permit the fumigator's assistant to use a canister in his or her mask that has been in use for a longer period than that for which it is reasonably expected to be efficient.

**(2)** The fumigator shall keep a written record of the length of time during which each canister has been in use, and when required to do so by an officer produce such record for inspection.

Maximum penalty—2 penalty units.

**Storage and transportation of fumigant**

**124.** A fumigator having the custody, control or possession of fumigant shall—

- (a) cause such fumigant to be so stored as to prevent any other person gaining access thereto without the fumigator's knowledge and authority; and
- (b) if such fumigant is being transported to any place, cause it to be so packed and placed so as to prevent the accidental loss or

leakage of such fumigant during transit.

Maximum penalty—2 penalty units.

### **First aid and resuscitation equipment**

**125.** A fumigator carrying out a fumigation shall keep immediately available at the place of fumigation first aid and resuscitation appliances and equipment such as the chief health officer may from time to time direct either generally or in specific cases.

Maximum penalty—2 penalty units.

### **Carbon disulphide**

**126.(1)** A fumigator and each of the fumigator's assistants whilst engaged in fumigation in which the fumigant used is carbon disulphide shall not wear footwear which contains or is composed of any nail or other metal substance of any description, nor have in his or her immediate possession any match or other form of ignition or any torch unless such torch is of an approved explosion-proof type.

**(2)** A person shall not use in opening a drum containing carbon disulphide a wrench that is not of a nonsparking type or not made of nonferrous metals.

**(3)** A fumigator shall not keep any carbon disulphide unless it is contained in a hermetically closed vessel labelled and packed, as required by the *Poisons Regulation 1973* and unless there is printed in the label attached to such container the words 'Carbon Disulphide' (or 'Carbon Bisulphide'), 'Highly Inflammable. To be Used in Fumigation by Authorised Persons Only'.

**(4)** A fumigator shall not have nor keep any carbon disulphide in storage unless the container thereof is kept in a cool situation or position and protected from the direct rays of the sun, and unless such situation or position has first been approved for the purpose by the local government.

Maximum penalty—2 penalty units.

**Record of each fumigation procedure**

**127.(1)** A fumigator shall keep or cause to be kept a full and complete written record of each fumigation procedure performed by the fumigator, and shall retain such record for a period of 2 years from the date of last entry therein.

**(2)** Such record shall contain details of time of application of fumigant, location, fumigant used and the names of all operators.

Maximum penalty—2 penalty units.

**Non-application of part**

**128.(1)** The provisions of this part shall not apply to the fumigation of a structure having an internal space measurement of less than 3 m<sup>3</sup>, or to a grain stack, grain tank, or grain bulkhead which does not exceed 15 m<sup>3</sup> internal measurement, provided that such grain stack, grain tank, or grain bulkhead is situated upon the farming property of the owner thereof.

**(2)** A fumigation referred to in subsection (1) shall be carried out by the person performing it with all due care and precautions so as not to endanger human life.

**Fumigant used for agricultural or horticultural purposes**

**129.** The provisions of this part other than those of section 128 shall not apply to fumigation carried out by means of a fumigant which is exclusively used for agricultural or horticultural purposes.

**PART 13—PRESCRIBED SUBSTANCES STANDARDS  
AND METHODS****Definitions**

**130.** In this part—

“AS” means an Australian Standard published by the Standards

Association of Australia.

“**BS**” means a British Standard published by the British Standards Institution.

“**flat ware**” means any plate (including soup or dessert plate), saucer, similar food receptacle or cooking utensil.

“**hollow ware**” means any cup, mug, jar, teapot, coffeepot or cooking utensil.

“**metal**” includes a compound of metal.

“**prescribed substance**” means a metal specified in section 132.

### **Adoption of Australian, British and other standards**

**131.(1)** Prescribed methods of analysis of cooking utensils, food receptacles, toys, wallpaper or other decorative paper, paper serviettes, or paper used in the packaging, of food, hair and scalp preparations, articles and substances, for the presence of a prescribed substance shall be in accordance with and not inferior to the requirements of the relevant standard specification of the Standards Association of Australia.

**(1A)** In the event of a relevant standard specification of the Standards Association of Australia not existing, the relevant standard specification of the British Standards Institution shall apply.

**(2)** In the event of no relevant standard specification of the Standards Association of Australia or the British Standards Institution existing, the chief health officer may determine a relevant standard specification which shall apply in subsection (1).

**(3)** However, if a relevant standard specification is subsequently determined by either of the above 2 bodies the standards specification determined by the chief health officer shall lapse.

### **Prescribed substances**

**132.** For part 4, division 3 of the Act, the following substances are prescribed substances—

- antimony

- arsenic
- barium
- cadmium
- chromium
- lead
- mercury
- selenium.

### **Prescribed proportions**

**133.** For part 4, division 3 of the Act, the prescribed proportions of prescribed substances are specified in schedule 11.

### **Prescribed methods of analysis**

**134.** For part 4, division 3 of the Act, the prescribed methods of analysis are specified in schedule 11.

## **PART 14—RADIOACTIVE SUBSTANCES**

### **Abrasive blasting material**

**135.(1)** This section applies to abrasive blasting material that contains a radioactive substance in less than the concentration prescribed under the *Radioactive Substances Act 1958*.

**(2)** A person must not sell, supply, use or otherwise deal with the material mentioned in subsection (1) unless—

(a) the material complies with the following release criteria—

$$(i) \quad \frac{[\text{Th} + \text{D}]}{1.5} (\text{Bq g}^{-1}) + \frac{[\text{U} + \text{D}]}{4.0} (\text{Bq g}^{-1}) \leq 1 \quad ; \text{ and}$$

(ii) the gross alpha and gross beta activity concentrations in the TCLP extracts from the material are no more than 10 times

the concentrations stated in the Australian Drinking Water Guidelines<sup>3</sup> of the National Health and Medical Research Council and the Australian Water Resources Council for the screening of gross alpha and gross beta activity concentration; or

- (b) the chief executive is satisfied—
  - (i) the material complies with other more appropriate release criteria; and
  - (ii) the other release criteria are consistent with the National Health and Medical Research Council guidelines on the use of abrasive blasting material.

Maximum penalty—20 penalty units.

(3) The extraction fluids to be used in the screening mentioned in subsection (2)(a)(ii) are acetate buffer at pH 4.9 and deionised water.

(4) In subsection (2)—

“**TCLP**” means the Toxicity Characteristic Leaching Procedure stated in the Code<sup>4</sup> of Federal Regulations of the United States, Title 40, Part 261, Appendix 2, 7–1–91, EPA Method 1311.

“**[Th + D]**” means the total specific activity in becquerels per gram (Bq g<sup>-1</sup>) of the thorium series radionuclides present in the material.

“**[U + D]**” means the total specific activity in becquerels per gram (Bq g<sup>-1</sup>) of the uranium series radionuclides present in the material.

---

<sup>3</sup> A copy of the guidelines is available for inspection at the department’s head office in Brisbane.

<sup>4</sup> A copy of the relevant part of the code is available for inspection at the department’s head office in Brisbane.

## **PART 15—SKIN PENETRATION**

### *Division 1—Application, interpretation and administration of part*

#### **Application**

**136.(1)** This part shall not apply in the case of—

- (a) medical practitioners in the conduct of their profession;
- (b) persons acting under the direction of medical practitioners given in the conduct of their profession;
- (c) dentists in the conduct of their profession;
- (d) persons acting under the direction of dentists given in the conduct of their profession;
- (e) chiropractors in the conduct of their profession;
- (f) physiotherapists in the conduct of their profession;
- (g) registered nurses in the conduct of their profession;
- (h) administering injections of a substance required as a treatment for a medical condition.

(2) The provisions of division 2 shall not apply in the case of an establishment where the only process of skin penetration that is either available for a customer or carried out is ear piercing.

(3) The provisions of divisions 3 and 4 shall not apply in the case of an establishment where the only process of skin penetration that is either available for a customer or carried out is closed ear piercing.

#### **Definitions**

**137.(1)** In this part—

**“closed ear piercing”** means a process of ear piercing that is carried out by means of an apparatus that does not come in contact with the skin of a customer and that can be operated only by the use of sealed presterilised disposable fittings.

**“customer”** means a person receiving or seeking or awaiting the provision

of some skin penetration service at an establishment.

“**dentist**” has the meaning given to it by the *Dental Act 1971*.

“**establishment**” means a place or room within which skin penetration is or may be carried out commercially or for remuneration or for the public.

“**operator**” means a person who carries out skin penetration.

“**physiotherapist**” has the meaning given to it by the *Physiotherapists Act 1964*.

“**podiatrist**” has the meaning given to it by the *Podiatrists Act 1969*.

“**proprietor**” in relation to an establishment means the owner, occupier or other person who has the control or management of the carrying out of skin penetration at that establishment.

“**skin penetration**” means tattooing, ear piercing, acupuncture, or any other process by which the skin of a living person is penetrated.

“**waste receptacle**” means a waste container within the meaning of the *Environmental Protection (Interim Waste) Regulation 1996*.

(2) For the purpose of this part, an appliance, implement, tool or thing used for skin penetration shall be deemed to be sterilised if it has been—

- (a) cleansed of all visible matter by washing in cold water and then subjected to saturated steam under pressure in a steam steriliser at 134°C for not less than 3 minutes; or
- (b) cleansed of all visible matter by washing in cold water and then heated in a hot air oven at a temperature of not less than 160°C for not less than 60 minutes; or
- (c) taken directly from a sealed container which bears a label affixed by the manufacturer stating that the contents thereof are sterile; or
- (d) subjected to another process that has been approved in writing by the chief health officer.

### **Superintendence by local governments**

**138.(1)** This part shall be in force within the areas of all local governments.

(2) Each local government shall superintend and see to the execution of divisions 2, 3 and 4 within its area (except in the case of establishments where the only process of skin penetration that is either available for a customer or carried out is ear piercing) and shall do and provide all such acts, matters and things as may be necessary for superintending or aiding in the execution thereof.

### *Division 2—Registration*

#### **Registration of establishments**

**139.** The proprietor of an establishment shall not carry out or permit to be carried out a process of skin penetration at that establishment unless the establishment is currently registered in accordance with this part and that process of skin penetration is authorised in a certificate of registration for such establishment.

Maximum penalty—10 penalty units.

#### **Form of application etc.**

**140.(1)** An application for registration or renewal of registration of an establishment shall be made by the proprietor thereof to the relevant local government in the approved form, and shall be accompanied by the fee specified in schedule 3.

(2) A certificate of registration or renewal of registration of an establishment shall be issued in the approved form.

(3) Each local government shall keep a register of all registered establishments within its area.

#### **Suspension etc. of registration**

**141.(1)** A local government may refuse to register or renew, or may suspend or cancel registration of an establishment where—

- (a) the establishment is unsanitary; or
- (b) the drainage from or ventilation or lighting of the establishment is insufficient for the carrying out of a process of skin penetration

*Health Regulation 1996*

---

hygienically; or

- (c) the arrangements for the cleansing, disinfection or sterilisation of the fittings, appliances, implements, tools and things are unsatisfactory; or
- (d) there are other reasons why the establishment is unsuitable for safeguarding the health of the operator, the operator's employees or the operator's customers.

(2) A local government may refuse to register or renew the registration of an establishment in any case where the proprietor of such establishment has been convicted within a period of 2 years for an offence against this part.

(3) Nothing in this section shall be construed as in any way limiting the power of a local government to refuse to register or renew registration of an establishment where the use of the establishment for the carrying out of skin penetration would be a use that does not conform to the provisions of a planning scheme within the meaning of the *Local Government (Planning and Environment) Act 1990* or of local laws made by the local government under the *Local Government Act 1993* to implement, regulate or control the administration and execution of such a scheme or of any other Act or regulations, ordinances or by-laws made thereunder.

### ***Division 3—Premises***

#### **Use or conduct of premises**

**142.** A person shall not use an establishment or permit or cause an establishment to be used for the carrying out of skin penetration unless—

- (a) at least 1 basin for each 5 operator positions or part thereof is fitted within that establishment in accordance with the Standard Sewerage Law, so located as to be readily accessible to such operators, the water supply to each basin being controlled by arm or foot operated cocks; and
- (b) there is an adequate supply of hot and cold water to that establishment to carry out the particular process of skin penetration involved hygienically; and

*Health Regulation 1996*

---

- (c) there is at all times available in that establishment for the exclusive personal use of the operators an adequate supply of—
  - (i) soap or antibacterial cleansing agent of a type specified in schedule 12, part 1; and
  - (ii) nailbrushes; and
  - (iii) clean paper; and
  - (iv) clean towels or other hand drying equipment which has been approved in writing by the chief health officer;for the operators to remain clean; and
- (d) all walls, floors, ceilings, floor coverings, shelves, fittings, furniture, appliances, implements, tools and things that are situated or used in that establishment are maintained in good order and in a clean condition so that the particular process of skin penetration involved may be carried out hygienically; and
- (e) all surfaces within that establishment on which appliances, implements, tools or things are or may be placed are of a durable, smooth and impervious material free from cracks or crevices; and
- (f) there are within that establishment adequate vermin-proof cupboards, cabinets or similar fittings for the storage of all the clean towels, linen or other materials that may be required to carry out the particular process of skin penetration involved hygienically; and
- (g) there are within that establishment adequate waste receptacles for the storage of waste matter generated in the process of skin penetration carried out therein; and
- (h) there are within that establishment adequate receptacles—
  - (i) constructed of smooth, impervious material with close fitting lids; and
  - (ii) having painted thereon or affixed thereto in letters of not less than 100 mm in height the words ‘SOILED LINEN’;for the reception of all soiled towels, cloths, linen and similar material; and
- (i) the contents of all receptacles for the reception of soiled linen are

removed from the establishment daily and are not brought back into the establishment unless and until properly cleaned.

Maximum penalty—10 penalty units.

#### *Division 4—Sanitary provisions*

### **Operator to remain clean**

**143.** An operator whilst at an establishment shall—

- (a) at all times keep his or her clothing, hands, fingernails and body clean; and
- (b) thoroughly cleanse his or her hands by washing and brushing with soap or antibacterial cleansing agent of a type specified in schedule 12, part 1 and water and drying them with a clean towel or other hand drying equipment of a type approved in writing by the chief health officer—
  - (i) immediately before commencing and immediately after completing a process of skin penetration;
  - (ii) immediately after visiting or using a sanitary convenience;
  - (iii) immediately after smoking;
  - (iv) immediately after using a handkerchief or nasal tissue;
  - (v) immediately after handling or touching soiled towels, linen or similar materials, biological matter or waste materials used or produced in connection with a process of skin penetration; and
- (c) at all times wear a clean coat over any other garment.

Maximum penalty—10 penalty units.

### **Smoking**

**144.** A person shall not smoke in an establishment except in a part of that establishment that is designed for that purpose and is clearly separate from

the area where a process of skin penetration is carried out.

Maximum penalty—10 penalty units.

### **Notifiable diseases**

**145.(1)** A person who knows or suspects that he or she is suffering from a notifiable disease or infectious skin disease shall not enter an establishment.

**(2)** An operator shall not commence or continue a process of skin penetration on any person if—

- (a) the operator has been notified by such person or, after inquiry by the operator, by any other person that such person is or may be suffering from a notifiable disease or infectious skin disease; or
- (b) the operator knows or suspects that such person is suffering from a notifiable disease or infectious skin disease; or
- (c) such person shows yellow discolouration of the skin or sclera of the eyes.

**(3)** Where a proprietor or operator of an establishment knows or suspects that a person in such establishment is suffering from a notifiable disease or infectious skin disease the proprietor or operator shall direct such person to leave the establishment.

**(4)** An operator suffering from a notifiable disease or infectious skin disease shall not carry out a process of skin penetration and shall not enter or remain in an establishment when the presence of such notifiable disease or infectious skin disease becomes known to the operator.

**(5)** If an operator observes the presence of an infectious skin disease on a customer the operator shall—

- (a) immediately gather together all readily movable appliances, implements, tools and things used in the service of that customer and wash such appliances, implements, tools and things with cold water and soap or detergent and dry them with a clean towel or cloth and immerse them in a solution specified in schedule 12, part 2;
- (b) immediately destroy, sterilise or dispose of in a waste receptacle

every paper, pad, swab, appliance, implement, tool and thing used in the service of such customer and in the case of towels, cloths, linen and the coat or overall worn by the operator, cause such towels, cloths, linen and coat or overall to be placed in a receptacle for soiled linen and, at the first practicable opportunity, launder same in water at a temperature of 71°C at the point of washing for not less than 10 minutes;

- (c) cleanse his or her hands by scrubbing them with a nail brush and soap or antibacterial cleansing agent of a type specified in schedule 12, part 1 or by applying a solution specified in schedule 12, part 2.

Maximum penalty—10 penalty units.

### **Cleansing surfaces etc.**

**146.(1)** An operator shall immediately following service to a customer cause every bench, table or other article of equipment used in the carrying out of a process of skin penetration to be washed down with a solution specified in schedule 12, part 2.

**(2)** An operator shall, before service to a customer, cause every bench, table or other article likely to be contaminated with biological matter or waste materials that may be generated in the carrying out of skin penetration to be covered with a clean towel, clean cloth or a clean, unused paper towel or paper cover.

**(3)** Whenever a paper towel or paper cover is used for the purposes of subsection (2), an operator shall cause such paper towel or paper cover to be disposed of in a waste receptacle immediately following the service to a customer and shall not use such paper towel or paper cover in the service of another customer.

Maximum penalty—10 penalty units.

### **Disposal of soiled linen etc.**

**147.** An operator shall, immediately following service to a customer, cause—

- (a) all soiled towels, cloths, linen and similar materials generated in

the carrying out of skin penetration on that customer to be placed in a receptacle for soiled linen; and

- (b) all biological matter or waste materials generated in the carrying out of skin penetration on that customer to be disposed of in a waste receptacle.

Maximum penalty—10 penalty units.

### **Cleansing of skin, appliances etc.**

**148.(1)** Before commencing to carry out skin penetration on a customer an operator shall cleanse the whole of the area of the skin to be treated with a sterile swab impregnated with a solution specified in schedule 12, part 3, which solution has been taken directly from the container in which it was supplied.

**(2)** An operator shall cause every appliance, implement, tool and thing which is used or which comes into contact with the skin of a customer while a process of skin penetration is being carried out to be cleansed and sterilised and maintained free from contamination before its first application to another customer, before any subsequent application to the customer if it has been touched by any other person and, in the case of tattooing, before each separate dye or ink is applied.

Maximum penalty—10 penalty units.

### **Sterilisation of electrical actuating appliances**

**149.** Where an electrical actuating appliance or instrument for projecting a needle or thing into the skin of a customer is used in the carrying out of a process of skin penetration the handpiece thereof shall be deemed to be sterilised if it is wiped with a clean paper towel or clean cloth soaked in methylated spirits or in 95% ethyl alcohol.

### **Tattooing**

**150.(1)** In addition to any other obligations imposed by this part, an operator who has completed a process of tattooing on a customer shall—

- (a) immediately following service to such customer, cause the

contents of every bowl, cup, jar, or other container from which the dyes or inks used in the process of tattooing the customer were drawn to be disposed of in a waste receptacle or a fixture connected to the drainage system for the establishment concerned; and

- (b) immediately following service to such customer, cause each such bowl, cup, jar or other container that is to be reused to be sterilised; and
- (c) immediately following service to such customer, cause each screen, pattern or template used in the process of tattooing the customer to be cleansed thoroughly with a swab impregnated with a solution specified in schedule 12, part 3, which solution has been taken directly from the container in which it was supplied; and
- (d) immediately following service to such customer, cause the handpiece of the apparatus used to actuate the needle to be sterilised; and
- (e) immediately following completion of the tattooing, affix to the skin of the customer a sterile gauze dressing covering the treated area.

(2) An operator shall not use dye or ink in a process of tattooing unless it is drawn from a collapsible tube.

(3) An operator shall not apply petroleum jelly or another substance to the skin of a customer unless it is removed from its container by means of a spatula or applicator which has been sterilised prior to such use or by means of a sterile disposable spatula or applicator which shall immediately after use be disposed of in a waste receptacle.

Maximum penalty—10 penalty units.

### **Expectorating, keeping animals**

**151.(1)** A person shall not expectorate in an establishment.

(2) A person shall not keep or allow an animal to be in an establishment.

Maximum penalty—10 penalty units.

***Division 5—Closed ear piercing*****Use or conduct of premises etc.**

**152.(1)** For the purposes of this section—

**“establishment”** means an establishment in which the only process of skin penetration carried out is closed ear piercing.

**(2)** A person shall not use an establishment or permit or cause any establishment to be used for closed ear piercing unless—

- (a) the establishment is fitted with a reticulated water supply and at least 1 basin fitted in accordance with the Standard Sewerage Law; and
- (b) there is at all times available in that establishment for the use of operators an adequate supply of—
  - (i) soap or antibacterial cleansing agent of a type specified in schedule 12, part 1; and
  - (ii) clean towels or other hand drying equipment of a type approved in writing by the chief health officer;for the operators to remain clean.

**(3)** An operator at an establishment shall—

- (a) thoroughly cleanse his or her hands by washing and brushing with soap or antibacterial cleansing agent of a type specified in schedule 12, part 1 and water and drying them with a clean towel or other hand drying equipment of a type approved in writing by the chief health officer—
  - (i) immediately before commencing the procedure of loading the presterilised disposable fittings into the ear-piercing apparatus; and
  - (ii) immediately before commencing and immediately after completing a process of closed ear piercing on a customer; and
- (b) before commencing to carry out a process of closed ear piercing on a customer, cleanse the whole of the area of the skin to be treated with a sterile swab impregnated with a solution specified

in schedule 12, part 2, which solution has been taken directly from the container in which it was supplied.

Maximum penalty—10 penalty units.

## **PART 16—THERAPEUTIC GOODS AND OTHER DRUGS**

### **Definitions**

**153.(1)** In this part—

“**APF**” means the latest edition for the time being of the Australian Pharmaceutical Formulary and Handbook published by the Pharmaceutical Association of Australia and New Zealand.

“**batch number**” means any combination of letters or figures or both given by a manufacturer of therapeutic goods or other drugs to a batch thereof manufactured by the manufacturer by which that batch can be traced in manufacture and identified in distribution.

“**expiry date**”, when used in relation to therapeutic goods or other drugs, means the date—

- (a) after which they may be expected to cease to comply with standards applicable thereto; or
- (b) where there are no such standards, signifying the end of their minimum durable life.

“**main label**” means the face of a label on or attached to a package containing therapeutic goods or other drugs on which face the name of such goods or drugs is most prominently shown and where such name is equally prominent on 2 or more faces each such face shall be taken to be a main label.

“**other drugs**” means cosmetics, deodorants, dusting powders, soaps, tobaccos, unguents, other toilet articles and any other drugs prescribed to be drugs to which this part applies.

“**soap**” means the product called ‘soap’ that complies with the standard for

soap prescribed by this part.

**“therapeutic device”** means—

- (a) a device that—
  - (i) is included in a class of devices the sole or principal use of which is, or ordinarily is, a therapeutic use;
  - (ii) is represented to be, or might reasonably be taken to be, for therapeutic use;
- (b) a device that—
  - (i) is included in a class of devices the sole or principal use of which is, or ordinarily is, a use for the purpose of or in connection with measuring or weighing therapeutic goods by the person using or administering those goods;
  - (ii) is represented to be, or might reasonably be taken to be, for a use of the kind referred to in subparagraph (i);

but does not include goods for animal use only.

**“therapeutic goods”** means a therapeutic substance or therapeutic device and includes a package thereof.

**“therapeutic substance”** means—

- (a) a substance that—
  - (i) is included in a class of substances the sole or principal use of which is, or ordinarily is, a therapeutic use;
  - (ii) is represented to be, or might reasonably be taken to be, for therapeutic use;
- (b) a substance that—
  - (i) is represented to be, or might reasonably be taken to be, for use as an ingredient or the sole ingredient in the manufacture of a substance referred to in paragraph (a), whether or not the substance that is so represented or might reasonably be so taken is to be itself the subject of manufacture or of further manufacture;
  - (ii) is included in a class of substances the sole or principal use of which is, or ordinarily is, a use of the kind referred to in

subparagraph (i)—

- (c) any gelatine capsule or other substance enclosing a substance referred to in paragraph (a) or (b), if that capsule or other substance is intended to be consumed or otherwise administered together with the substance referred to;

but does not include—

- (d) food within the meaning of the *Food Act 1981*;
- (e) goods for animal use only;
- (f) a substance consisting of a vaccine prepared from microscopic organisms from the body of a person for use only in the treatment of that person.

**“therapeutic use”** means a use for the purpose of or in connection with—

- (a) preventing, diagnosing, curing or alleviating any disease, ailment, defect or injury in any person;
- (b) influencing, inhibiting or modifying a physiological process in any person;
- (c) testing the susceptibility of any person to a disease or ailment.

### **References to prescribed standard**

**154.** A reference in this part to the nature, substance, composition, strength, weight, quantity, purity or quality of any therapeutic goods or other drugs or any article or any ingredient or component thereof, shall be the prescribed standard with respect to those goods or other drugs or that article, ingredient or component.

**Application of Statutory Instruments Act 1992, s 23**

**155.** The *Statutory Instruments Act 1992*, section 23, applies to this part as if it were made on the commencement of this section.<sup>5</sup>

**Labelling requirements generally**

**156.(1)** A package containing therapeutic goods or other drugs shall bear on or attached to it a label on which shall be written such particulars or statements as are prescribed by this part.

Maximum penalty—20 penalty units.

**(2)** Particulars or statements referred to in subsection (1)—

(a) shall be written—

- (i) in the English language;
- (ii) on the face of the main label;
- (iii) in durable, conspicuous and legible characters of not less than 1.5 mm face depth;
- (iv) in such colour or colours as will ensure a distinct contrast to the background colour;

(b) shall include—

- (i) the name, trade name or description of the therapeutic goods or other drugs contained in the package;
- (ii) the name and business address of the manufacturer or importer or the vendor or packer, not being a post office address;

---

<sup>5</sup> The *Statutory Instruments Act 1992*, section 23, allows a statutory instrument to provide for a matter by applying another document. Section 23(2) provides—

‘(2) If a statutory instrument made after 1 January 1992 applies, adopts or incorporates the provisions of a document, the provisions applied, adopted or incorporated are the provisions as in force from time to time unless the statutory instrument expressly provides otherwise.’.

This part contains provisions relocated from a regulation made in 1982. Section 155 clarifies how the *Statutory Instruments Act 1992*, section 23, applies, by providing that this part was made on the commencement of this section, not in 1982.

*Health Regulation 1996*

---

- (iii) the net weight or number or true measure or, as the case requires, volume of the contents of the package;
  - (iv) in the case of a package containing therapeutic goods, the batch number immediately preceded by the words, or the symbol for the words, 'Batch No.';
  - (v) in a case where the chief health officer considers that the therapeutic goods or other drugs contained in the package may have a limited durable life, the expiry date of the contents of the package immediately preceded by words clearly indicating that the date is the expiry date;
  - (vi) in the case of a package containing a therapeutic substance, except a substance specified in the *Poisons Regulation 1973*, schedule 3, schedule 4 or schedule 8, the precise dose and frequency of the dose required;
- (c) shall not include—
- (i) a reference to the Act;
  - (ii) any comment on, reference to or explanation of a particular or statement required by the Act or this part to be included in the label that directly or by implication contradicts, qualifies or modifies that particular or statement;
  - (iii) in the case of a package containing a therapeutic substance any comment or statement likely to induce or encourage the consumption of the substance except in accordance with the prescribed dose.

**(3)** A person who packs for sale or labels for sale therapeutic goods or other drugs in a manner contrary to or otherwise than in compliance with this part commits an offence against this part.

Maximum penalty—20 penalty units.

**(4)** A person shall not sell therapeutic goods or other drugs, the label on or attached to which contravenes this part.

Maximum penalty—20 penalty units.

**Advertising and further labelling requirements**

**157.(1)** The label on or attached to a package containing therapeutic goods or other drugs for sale or any advertisement relating to such goods or drugs shall not contain a statement, claim or representation pictorial or otherwise in relation to such goods or drugs, that directly or by implication indicates or suggests any matter or thing—

- (a) with respect to the use of such goods or drugs for the purpose of or in connection with—
- abortifacient action
  - acidity of the stomach, other than temporary relief
  - alcoholism
  - anaemia
  - arthritis (all forms including rheumatoid arthritis), other than temporary relief of pain
  - asthma, other than relief of mild spasms
  - baldness
  - blindness
  - boils, other than treatment by local application
  - bronchitis, other than relief of cough
  - bust development
  - carbuncles
  - cardiovascular system diseases, ailments or defects (including high or low blood pressure), other than temporary relief of varicose veins by use of elastic hosiery
  - cataract
  - catarrh, other than temporary relief
  - chilblains, other than temporary relief of symptoms
  - colds, other than temporary relief of symptoms
  - coughs, other than temporary relief
  - croup

- deafness, other than relief by an appliance
- diphtheria
- eczema, other than temporary relief of symptoms
- endocrine system diseases, ailments, defects or injuries (including diabetes and goitre)
- erysipelas
- fungus infections, other than treatment of tinea (athlete's foot)
- gallbladder diseases, ailments, defects or injuries
- gastric or duodenal ulcer
- genito-urinary system diseases, ailments, defects or injuries
- glandular diseases, ailments, defects or injuries (including glandular enlargement)
- glaucoma
- gout
- haemorrhoids, other than the temporary relief of discomfort by local application
- headaches, other than temporary relief
- height increase
- immune system diseases, ailments, defects or injuries including acquired immune deficiency syndrome (AIDS), other than reduction of the risk of transmission of acquired immune deficiency syndrome by the use of condoms
- impetigo
- impotence
- indigestion, other than temporary relief
- infertility
- influenza, other than temporary relief of symptoms
- liver diseases, ailments, defects or injuries

- lupus
- menopausal diseases, ailments or defects
- menstrual diseases, ailments, defects or injuries, other than temporary relief of pain
- mouth ulcers, other than temporary relief of recurrent ulcers
- muscular aches and pains, other than temporary relief
- neoplastic diseases (including cancer and leukaemia), other than the use of suncreening preparations as an aid in the prevention of skin cancer, being a use that is approved in writing by the chief health officer
- nervous system diseases, ailments, defects or injuries (including convulsions, epilepsy, fits, mental illness or paralysis)
- overweight, other than suppression of appetite in conjunction with a medically sound diet
- phlebitis
- prostate gland diseases, ailments, defects or injuries
- psoriasis
- purpura
- pyorrhoea
- rheumatism, other than temporary relief of pain
- rupture or hernia
- scabies
- sexual intercourse and diseases arising therefrom, other than reduction in the possibility of conception or the risk of transmission of venereal disease
- sexual potency or virility
- sinus infection, other than temporary relief of sinusitis
- sleeplessness, other than temporary relief
- thrombosis

*Health Regulation 1996*

---

- tuberculosis
  - varicose ulcers or varicose veins, other than temporary relief of symptoms by use of elastic hosiery
  - whooping cough;
- (b) with respect to the use or consumption of such goods or drugs, that—
- (i) depicts excessive pain or suffering;
  - (ii) induces or is likely to induce persons to believe that they are suffering from a serious ailment;
  - (iii) induces or is likely to induce persons to believe that harmful consequences will result if such goods or drugs are not used or consumed;
  - (iv) disparages any physical or mental affliction or deformity;
  - (v) claims or implies or induces or is likely to induce persons to infer that such goods or drugs or their sales are recommended or used generally by medical practitioners, pharmacists, dentists, nurses or physiotherapists or by persons having or purporting to have a qualification in a health care field;
- (c) with respect to the use or consumption of such goods or drugs, that such goods or drugs—
- (i) are a universal panacea;
  - (ii) possess infallible, unfailing, sure, magical or miraculous curing properties;
  - (iii) possess unique or absolute properties, except where that statement, claim or representation is approved in writing by the chief health officer;
  - (iv) are immediately or rapidly acting;
  - (v) are a natural remedy or nature's remedy;
  - (vi) possess stimulant properties;
  - (vii) promote vitality;
  - (viii) must be used for the relief of symptoms of any disease,

ailment, defect or injury.

Maximum penalty—20 penalty units.

(2) A fictitious testimonial or the name of a fictitious person shall not be included in the label on or attached to or in an advertisement relating to therapeutic goods or other drugs.

Maximum penalty—20 penalty units.

(3) A person shall not publish or display in any manner or cause to be published or displayed in any manner an advertisement that contravenes this part.

Maximum penalty—20 penalty units.

(4) A person shall not attach to or permit to be attached to or allow to remain upon an automatic vending machine or similar mechanical device used for the sale or supply of condoms any advertisement, statement, claim, representation or pictorial design other than—

- (a) the name and address of the manufacturer or vendor; or
- (b) directions for use of the machine; or
- (c) a description of the contents of the machine expressed as a brand or trade name in conjunction with the word ‘condom’; or
- (d) any other advertisement, statement, claim, representation or pictorial design approved by the chief health officer.

Maximum penalty—20 penalty units.

(5) This section shall not be construed so as to prohibit the publication of advertisements relating to therapeutic goods or other drugs in medical journals, bona fide trade journals or price lists for the use of the retail trade.

### **Further labelling where claims as to presence of vitamins made**

**158.** Where a claim is made as to the presence of vitamins in therapeutic goods or other drugs, there shall be written in the label on or attached to the package containing such goods or drugs a statement setting out separately in respect of each vitamin claimed to be so present the amount thereof in international units or milligrams in a stated quantity of such goods or drugs and a claim so made shall not be extended by the use in the label of the word ‘enriched’ or ‘fortified’ or any word or words having the same or a

similar effect.

Maximum penalty—20 penalty units.

### **Further labelling where alcohol present**

**159.(1)** Subject to subsection (2), there shall be written in the label on or attached to a package containing therapeutic goods or other drugs for sale for internal use by man that are compounded with ethyl alcohol in a proportion greater than 50 millilitres per litre, in boldface sanserif capital letters, the proportion of alcohol contained in such goods or drugs expressed in the form—

‘ALCOHOL  
THIS MIXTURE CONTAINS NOT  
MORE THAN (here insert the number of  
parts per centum present,  
volume in volume) of ALCOHOL’.

Maximum penalty—20 penalty units.

**(2)** This section does not apply to therapeutic goods or other drugs dispensed and supplied on any prescription or order signed by a medical practitioner or dentist.

### **Further labelling where methylated spirits present**

**160.** There shall be written in the label on or attached to a package containing therapeutic goods or other drugs for external use that are mixed or prepared with methylated spirits, in boldface sanserif capital letters, a statement declaring the presence of those spirits and the proportion thereof contained in that substance in the form—

‘THIS PREPARATION CONTAINS  
(here insert the number of parts  
per centum present,  
volume in volume) OF ALCOHOL  
IN THE FORM OF METHYLATED SPIRITS’.

Maximum penalty—20 penalty units.

**Further labelling for analgesics**

**161.(1)** Subject to subsection (2), there shall be written in the label on or attached to a package containing a preparation for internal use by man that consists of or contains any of the substances—

- (a) aspirin (acetylsalicylic acid) and its salts;
- (b) paracetamol;
- (c) salicylic acid, its salts, derivatives and their salts other than aspirin;

a statement in 1 of the forms—

‘WARNING—This medication may  
be dangerous when used in  
large amounts or for a long period’

or

‘CAUTION—This preparation is for  
the relief of minor and temporary  
ailments and should be used  
strictly as directed. Prolonged  
use without medical supervision  
could be harmful’.

Maximum penalty—20 penalty units.

**(2)** This section does not apply to a preparation dispensed by a medical practitioner or dentist or by a pharmaceutical chemist upon the prescription of a medical practitioner or dentist.

**Further labelling requirements for tobacco**

**162.(1)** This section applies to a retail package only as far as the Commonwealth regulation does not apply to the package.<sup>6</sup>

---

<sup>6</sup> The Commonwealth regulation applies to a corporation, in trade or commerce, supplying goods that are intended to be used, or are of a kind likely to be used, by a consumer. See the *Trade Practices Act 1974* (Cwlth), s 65D.

This section provides for the same labelling requirements to apply to a package of tobacco under this regulation as apply to a package under the Commonwealth regulation.

(2) A retail package must be labelled in the way specified in the Commonwealth regulation, as if it were a package to which the Commonwealth regulation applied.

(3) In this section—

“**Commonwealth regulation**” means the Trade Practices (Consumer Product Information Standards) (Tobacco) Regulations (Cwlth).

“**retail package**” has the meaning given by the Commonwealth regulation.

### **Soap and soap mixtures**

**163.(1)** Soap is a product prepared from the action of a solution of alkali on fats, oils or resins or a mixture of any 2 or all of them.

(2) Soap—

(a) shall contain—

(i) not less than 590 grams of fatty acids and resin acids or both per kilogram;

(ii) not more than—

(A) 1 gram of free caustic alkali;

(B) 30 grams of sodium carbonate;

per kilogram;

(b) shall not contain any other substances save water, perfume and harmless colouring matter.

Maximum penalty—20 penalty units.

(3) Soap mixture is soap mixed with mineral substances or vegetable substances or both in such proportion as to ensure that the total content of any such substance or a mixture of them does not exceed 100 grams per kilogram.

(3A) Soap mixture shall contain not less than 530 grams of fatty acids or resin acids or both per kilogram.

Maximum penalty—20 penalty units.

(3B) There shall be stamped or embossed on all bars and cakes of soap mixture for sale in that form, in boldface sanserif capital letters with a

minimum letter height of 8 mm, the words—

‘SOAP MIXTURE’.

Maximum penalty—20 penalty units.

**(3C)** Where soap mixture is for sale enclosed in a package, there shall be written in the label on or attached to that package, in boldface sanserif capital letters with a minimum letter height of 8 mm, a statement in the form—

‘SOAP MIXTURE  
SOAP MIXED WITH (here insert  
in letters with a minimum letter  
height of 2 millimetres the  
name or names of the admixed  
substance or substances)’.

Maximum penalty—20 penalty units.

**(4)** Abrasive soap is a preparation of soap and any abrasive substance or substances for sale as being suitable for abrasive purposes.

**(4A)** There shall be written in the label on or attached to a package containing abrasive soap, in boldface sanserif capital letters with a minimum letter height of 4.5 mm, the words—

‘ABRASIVE SOAP’

or

‘PUMICE SOAP’

or words having the same or a similar effect.

Maximum penalty—20 penalty units.

**(4B)** Where abrasive soap is for sale in unwrapped bars or cakes, the words specified shall be stamped or embossed on each such bar and cake in accordance with subsection (4A).

Maximum penalty—20 penalty units.

**(5)** Medicated soap is soap mixed with a drug of recognised therapeutic properties.

**(5A)** There shall be written in the label on or attached to a package containing medicated soap, in boldface sanserif capital letters with a minimum letter height of 4.5 mm, the word—

‘MEDICINAL’, ‘MEDICATED’,  
or ‘MEDICAL’ followed  
by the word ‘SOAP’.

Maximum penalty—20 penalty units.

**(5B)** Where medicated soap is for sale in unwrapped bars or cakes, those words shall be stamped or embossed on each such bar and cake in accordance with subsection (5A).

Maximum penalty—20 penalty units.

**(6)** Borax soap is soap mixed with a quantity of not less than 20 grams of borax per kilogram.

**(7)** Castile soap is soap prepared by the action of sodium hydroxide on olive oil.

**(7A)** It shall comply with the general standard for soap prescribed by this part.

**(7B)** The word ‘castile’ or any word or words resembling or having the same or a similar effect as ‘castile’ shall not be used on a bar or cake of or package containing soap other than soap that complies with the standard prescribed by this part for castile soap.

Maximum penalty—20 penalty units.

**(8)** Soft soap is a product prepared from the action of a solution of potassium hydroxide, with or without sodium hydroxide, on fats, oils or resin.

**(8A)** Soft soap—

- (i) shall contain not less than 400 grams of fatty acids or resin acids or both per kilogram;
- (ii) may contain not more than 30 grams of potassium silicate per kilogram.

Maximum penalty—20 penalty units.

**(9)** Shaving soap in the form of shaving sticks, shaving cakes or other solids purporting to be suitable for use in shaving shall comply with the general standard for soap prescribed by this part.

Maximum penalty—20 penalty units.

**(9A)** Unwrapped cakes or sticks of shaving soap for sale in that form shall be stamped or embossed with the name of the product.

Maximum penalty—20 penalty units.

**(9B)** The general labelling requirements prescribed by this part apply to shaving soap in any form for sale in packages.

**(10)** Liquid soap is a product that contains not less than 100 grams per kilogram of fatty acids or resin acids or both, combined as soap.

**(10A)** Liquid soap need not comply with the general standard for soap prescribed by this part.

**(11)** Toilet soap is soap that complies with the Australian Standard Specification for Toilet Soap published by the Standards Association of Australia (AS 1877–1976).

**(12)** Laundry soap or bar soap is soap that complies with the Australian Standard Specification for Laundry Tablet or Bar Soap published by the Standards Association of Australia (AS 1878–1976).

**(13)** The general standard for soap prescribed by this section does not apply to the product called washing powder.

**(14)** For the purposes of this section, a declaration of the presence of a colouring substance in any variety of soap is not required.

### **Requirements as to packages**

**164.(1)** A person engaged in or in connection with the manufacture, preparation, production or packing for sale of therapeutic goods or other drugs shall ensure that—

- (a) every package intended to be used by the person to hold such goods or drugs or in which they are to be packed—
  - (i) is scrupulously clean and free from foreign matter;
  - (ii) has been and is being kept stored until such time as it is used, in such manner as to protect it from contamination from any source;
  - (iii) is free from every ingredient capable of imparting to it any unwholesome property or poisonous or injurious matter or thing;

- (iv) is free from cracks and chips;
- (b) every second-hand package, intended to be used by the person, pursuant to paragraph (a), in addition to being subject to the requirements specified in that paragraph, has been properly cleaned and washed in accordance with this part;
- (c) every cork, crown seal, wad or appliance intended to be used by the person in the closing or sealing of such goods or drugs is new and clean and has been and is being kept stored until it is so used, in such manner as to protect it from contamination from any source.

Maximum penalty—20 penalty units.

(2) A person shall not use for the purpose of holding any substance or thing a package intended to be used by the person for holding therapeutic goods or other drugs, if such use were such as to result in the likelihood of contaminating or affecting the quality or taste of such goods or other drugs if they were subsequently packed in that package.

Maximum penalty—20 penalty units.

(3) A person shall not use a package intended to be used by the person for holding therapeutic goods or other drugs as a receptacle for urine or sputum or for the purpose of holding, storing or preserving a pathological specimen or any objectionable matter or thing.

Maximum penalty—20 penalty units.

### **Restrictions on use of certain second-hand packages**

**165.** A person shall not pack therapeutic goods or other drugs for sale in a package that has been previously used where that package is made wholly or partly of paper, cardboard or the like absorbent material.

Maximum penalty—20 penalty units.

### **Requirements as to conduct of business of preparing second-hand or used packages for sale**

**166.(1)** A person shall not conduct the business of preparing second-hand bottles or used bottles, cans or other packages for sale as

packages of therapeutic goods or other drugs unless and until—

- (a) the place in or at which those packages are and are to be stored;
- (b) the plant to be used, methods of treatment (whether by washing, cleaning or other process) and storage of those packages;

have been approved by the chief health officer.

Maximum penalty—20 penalty units.

(2) Packages that have been treated in accordance with subsection (1) shall be stored and kept stored in such place and manner as to ensure that those packages are protected from re-contamination by dust or other means.

Maximum penalty—20 penalty units.

(3) A person shall not convey a package that has been treated and stored in accordance with subsections (1) and (2) through a street or other open place by such method and in such manner as to render that package likely to be contaminated by dust or other means.

Maximum penalty—20 penalty units.

(4) A person shall not sell as fit for use as a package for therapeutic goods or other drugs a second-hand package or used package that has not been treated, stored and kept stored in accordance with subsections (1) and (2).

Maximum penalty—20 penalty units.

(5) The chief health officer may at any time furnish to a person engaged in the packing of therapeutic goods or other drugs a list of persons and their business addresses whose premises and plant have been approved by the chief health officer under subsection (1).

### **Packaging of certain therapeutic and other substances**

**167.(1)** A person must not sell a prescribed substance unless it is packed—

- (a) in a reclosable container that has directions for opening and closing the container conspicuously marked or written on it or on a label securely attached to it; or
- (b) in a non-reclosable container.

Maximum penalty—8 penalty units.

(2) Subsection (1) does not apply to a prescribed substance—

- (a) in a container holding 500 solid dosage units or more; or
- (b) supplied to a person whom the doctor, dentist, veterinary surgeon or pharmacist prescribing or supplying the substance believes would suffer undue hardship if the person were required to open a container complying with this section; or
- (c) to be used by, or administered to, a patient in a hospital or nursing home.

(3) In this section—

**“non-reclosable container”** means a container that—

- (a) is in the form of a blister package or other sealed unit; and
- (b) is made from paper, film, plastic material, metal foil or another sheet or strip material, other than cellulose film or unlaminated paper; and
- (c) contains a single dosage unit, whether or not as part of a continuous series forming a strip or sheet of the same material.

**“prescribed substance”** means—

- (a) a capsule, lozenge, pastille, suppository, tablet or similar discrete solid dosage unit, other than individually wrapped powders, containing—
  - (i) a therapeutic or animal use substance mentioned in schedule 14, part 1; or
  - (ii) an ester, salt or other derivative of a therapeutic or animal use substance mentioned in schedule 14, part 1; or
- (b) a liquid preparation containing a therapeutic or animal use substance mentioned in schedule 14, part 2.

**“reclosable container”** means—

- (a) a container fitted with a closure mentioned in schedule 13, part 1; or
- (b) a container mentioned in schedule 13, part 2.

**“therapeutic or animal use substance”** means—

- (a) a therapeutic substance; or
- (b) a substance for animal use that would be a therapeutic substance if it were for human use.

### **Biological preparations**

**168.(1)** In this section—

**“biological preparation”** means—

- (a) a product prepared from animal tissue (including blood, lymph or glandular secretion) or by the agency of microscopic or ultramicroscopic organisms or ferment of any kind, used for or in relation to therapeutic use;
- (b) a synthetic compound identical with or closely related to the products specified in paragraph (a) and in respect of which a claim is made that it has comparable therapeutic use.

**(2)** A person shall not sell a package containing a biological preparation unless the label on or attached to that package—

- (a) complies with the general labelling requirements prescribed by this part;
- (b) bears thereon or therein—
  - (i) the nature and proportion of antiseptic (if any) that has been added;
  - (ii) the precautions necessary for preserving the properties of the contents during the period to and including the expiry date;
  - (iii) in the case of diphtheria or tetanus antitoxic sera—
    - (A) the number of immunising units contained in any stated volume expressed in terms of the units prescribed by the *Therapeutic Substances Regulations* made under the *Therapeutic Substances Act 1925* (UK) or the *Therapeutic Goods Regulations* made under the *Therapeutic Goods Act 1989* (Cwlth), or adopted by the National Institute of Health, Washington, D.C., United States of America;

- (B) whether or not the contents are free from organisms natural serum, a solution of antitoxic globulins, dried natural serum or dried antitoxic globulins;
- (iv) in the case of bacterial vaccines—
  - (A) the identity and number of organisms per millilitre and the maximal doses for administration;
  - (B) whether or not the contents are free from organisms other than those peculiar to the preparation;
- (v) in the case of anti-toxin, whether or not the contents are sterile or contain free toxin.

Maximum penalty—20 penalty units.

(3) A biological preparation in which the growth of pathological organisms is possible shall not be packed in a rubbercapped package for repeated use unless there is present in the preparation a sufficient concentration of antiseptic to inhibit bacterial growth.

Maximum penalty—20 penalty units.

(4) Where no antiseptic is present in a biological preparation, there shall be written in the label on or attached to a package containing the preparation, in boldface sanserif capital letters, the words—

‘NO ANTISEPTIC IS PRESENT IN THE CONTENTS OF THIS  
PACKAGE. THEY SHOULD BE USED FORTHWITH ON  
OPENING AND THE UNUSED PORTION SHOULD BE  
DISCARDED’.

Maximum penalty—20 penalty units.

(5) A person shall not sell a biological preparation unless it is packed in a package prescribed by the Therapeutic Goods Regulations made under the *Therapeutic Goods Act 1989* (Cwlth) or in a clear glass container.

Maximum penalty—20 penalty units.

### **Duties of manufacturer**

**169.(1)** A person who manufactures for sale a therapeutic substance shall assign to each batch of that substance manufactured by the person a batch number and shall make and maintain records in accordance with

subsection (2) indicating—

- (a) the substances used in the manufacture of each batch;
- (b) the analyses performed on those substances referred to in paragraph (a) and the results of those analyses;
- (c) the quantities of each substance used in the manufacture of each batch;
- (d) the procedures and controls applied in the course of manufacture to each batch being manufactured and the results of any measurements made on the batch or a sample from the batch taken during its manufacture;
- (e) the analyses performed on each batch and the results of those analyses.

Maximum penalty—20 penalty units.

**(2)** The records prescribed by subsection (1) shall be maintained for—

- (a) at least 1 year after the expiry date shown with respect to the therapeutic substance in question;
- (b) where no expiry date is shown, at least 6 years after the date of completion of manufacture of the therapeutic substance in question.

**(2A)** A copy of any record made and maintained under this section, certified as correct by the manufacturer, shall be sent to the chief health officer when and as often as the chief health officer makes a request in that behalf.

Maximum penalty—20 penalty units.

**(3)** A person who manufactures for sale a therapeutic substance—

- (a) shall take a sample of each substance used in the manufacture of each batch so manufactured of at least twice the quantity necessary for the tests required to establish its identity and purity;
- (b) shall retain each sample taken in accordance with paragraph (a) for at least 2 years after the date of the use of the substance in such manufacture;
- (c) shall take a sample of each therapeutic substance so manufactured

of such quantity as is adequate to permit examination of the substance at suitable intervals of time and the investigation of possible complaints;

- (d) shall store the sample taken in accordance with paragraph (c) under the conditions of storage (if any) recommended on the label otherwise under such conditions as will ensure preservation of the sample;
- (e) shall retain the sample taken in accordance with paragraph (c)—
  - (i) for at least 1 year after the expiry date shown with respect to the therapeutic substance in question;
  - (ii) where no expiry date is shown, for at least 6 years after the date of completion of the manufacture of the therapeutic substance in question.

Maximum penalty—20 penalty units.

**(4)** Where the chief health officer considers that it is necessary in the interests of public health to do so, a sample taken and retained in accordance with subsection (3)—

- (a) shall be subjected to such analyses and examinations as the chief health officer directs; or
- (b) shall, at the direction of the chief health officer, be furnished wholly or in part to an inspector for submission by the inspector to a laboratory of the Department of Health.

**(5)** A person shall not use or cause to be used in the manufacture, preparation or production of a therapeutic substance for sale water other than potable water.

Maximum penalty—20 penalty units.

**(6)** For the purposes of this section, potable water is water—

- (a) that has been obtained from an approved source; or
- (b) that has been distilled, boiled, filtered or otherwise rendered sterile by an approved process.

**(7)** Potable water—

- (a) shall contain not more than 100 micro-organisms in 1 ml;

- (b) shall be colourless;
- (c) shall not contain—
  - (i) micro-organisms of intestinal origin;
  - (ii) objectionable chemical constituents;
  - (iii) sediment;
- (d) shall not be used for any purpose specified in this part requiring the use of potable water unless it has been stored and kept during the period between its collection or sterilisation and its manufacture or sale in such place and such manner as to protect and preserve it from contamination.

Maximum penalty—20 penalty units.

### **Specifications for places**

**170.(1)** A person shall not establish or conduct or suffer or cause to be established or conducted a business with respect to or connected with the manufacture, preparation, production, storage, handling, packing, displaying, serving, selling or other dealing with any therapeutic substance or other drug in or at a place other than a place that complies in all respects with this part.

Maximum penalty—20 penalty units.

**(2)** The occupier of a place in or at which any therapeutic substance or other drug for sale or a substance used or intended to be used in the manufacture or preparation of any therapeutic substance or other drug for sale is manufactured, prepared, produced, stored, handled, packed, displayed, served, sold or otherwise dealt with, shall ensure that that place is at all times—

- (a) adequate in size;
- (b) properly enclosed, floored, ceiled and lined;
- (c) lighted in accordance with the appropriate provisions of the *Factories and Shops Act 1960*;
- (d) effectively ventilated;
- (e) provided with effective subfloor ventilation, save where the floor

- is constructed of concrete or similar impervious material;
- (f) constructed and maintained in accordance with the part 17;
  - (g) provided with an adequate supply of potable water, washbasins in the ratio of 1 basin to every 12 persons, conveniently located and fitted, and a constant supply of soap and clean towels;
  - (h) provided with—
    - (i) for the use of the occupier and the occupier's employees, sufficient sanitary conveniences for both sexes;
    - (ii) change rooms in accordance with the appropriate provisions of the *Factories and Shops Act 1960*;
    - (iii) sewerage and drainage in compliance with the requirements of the local government, in accordance with the *Sewerage and Water Supply Act 1949* or any other enactment relating to sewerage or drainage, maintained at all times in good and efficient working order.

Maximum penalty—20 penalty units.

### **Prohibition of use of certain places**

**171.** A person shall not manufacture, prepare, produce, store, handle, pack, display, serve or sell any therapeutic substance or other drug for sale or a substance used or intended to be used in the manufacture, preparation or production of any therapeutic substance or other drug for sale in or at a place or part of a place—

- (a) that is at any time—
  - (i) used as a sleeping apartment or in which there is a bed or bedding or in direct communication by means of any door, window or other opening with a sleeping apartment or place in which there is a bed or bedding;
  - (ii) used as a sanitary convenience or in direct communication by means of any door, window or other opening with a sanitary convenience or place in which any animal or bird is allowed to be at large;
  - (iii) used as a change room;

- (b) in or at which—
  - (i) work is being performed that would be likely to contaminate that substance or drug or injuriously affect its wholesomeness, quality or cleanliness;
  - (ii) there is an opening in direct communication with a sewer or drain;
  - (iii) any animal or bird is stabled, kept or allowed to be at large;
- (c) that is in such an insanitary condition or so located or maintained as to be unfit for use in or in connection with a process or procedure specified in this section;
- (d) that is a cellar, basement, underground room or place, save with the written consent of the chief health officer.

Maximum penalty—20 penalty units.

### **Power of chief health officer to require cessation of use of or alterations to places or equipment**

**172.(1)** The chief health officer may give a written notice requiring the owner or occupier of a place used for the manufacture, preparation, production, storing, handling, packing, displaying, serving or selling therapeutic goods or other drugs for sale, which place the chief health officer has reason to believe by reason of its situation, condition, construction or disrepair is such as to render possible contamination of those goods or drugs, to cease to use in or in connection with a process or procedure specified in this subsection or to reconstruct, alter, clean, repair or otherwise deal with, that place or any part thereof as directed and within the time specified in the notice.

**(2)** The chief health officer, by notice in writing directed to the owner or occupier of a place used for the manufacture, preparation or production of therapeutic goods or other drugs for sale, may prohibit the use in the manufacture, preparation or production of such goods or drugs of any appliance, apparatus or equipment that the chief health officer has reason to believe is unsuitable for the purpose for which it is being so used.

**(3)** The chief health officer, by notice in writing directed to the occupier of a place used for the manufacture, preparation or production of therapeutic

goods or other drugs for sale, may require the occupier to restrict, in the manner and to the extent specified in the notice or to cease within the time specified such manufacture, preparation or production.

### **Maintenance of places and equipment**

**173.(1)** The occupier of a place where therapeutic goods or other drugs for sale or a substance used or intended for use in the manufacture of therapeutic goods or other drugs for sale are manufactured, prepared, produced, stored, handled, packed, displayed, served or sold, at all times, shall—

- (a) maintain in a clean, serviceable and sanitary condition and a state of good repair—
  - (i) such place and all vehicles used in or in connection with the conveyance of such goods or other drugs;
  - (ii) all apparatus, appliances, implements, fittings, machinery and utensils used in or at such place in or in connection with a process or procedure specified in this section;
- (b) provide adequate facilities, including hot water, for cleaning such place and all apparatus, appliances, implements, fittings or machinery used in or in connection with a process or procedure specified in this section carried out or performed in or at such place;
- (c) keep or cause to be kept—
  - (i) such place free from rats, mice, cockroaches, flies or other vermin or insects;
  - (ii) for the purpose specified in subparagraph (i)—
    - (A) all materials used in or in connection with such place so stored, stacked and arranged as to preclude harbourage for rates, mice, cockroaches, flies or other vermin or insects;
    - (B) all land adjoining and every shed and outbuilding appurtenant to such place clean and free from lumber, rubbish, garbage and deleterious substances;

- (iii) the interior surfaces of every wall and ceiling of every room or compartment of such place thoroughly treated with paint or other durable material;
- (d) for the purpose of compliance with paragraph (c)(i), protect, so far as is practicable, all doors, windows and other openings in or at such place, by means of self-closing wire gauze doors or, as the case requires, wire gauze screens constructed from suitable mesh and materials;
- (e) when required so to do by the chief health officer, cause any floor of such place to be covered with impervious material;
- (f) not conduct in such place, save with the consent of the chief health officer, any other trade or business.

Maximum penalty—20 penalty units.

(2) A person engaged in the manufacture, preparation, production, storage, handling, packing, conveyance or delivery for sale of therapeutic goods and other drugs shall at all times take all steps and do all such acts and things as are necessary to protect such goods and drugs and every ingredient used in the manufacture thereof from rats, mice, cockroaches, flies or other vermin or insects and any contaminating or unwholesome matter, odour or thing.

Maximum penalty—20 penalty units.

### **Prohibition as to poisonous preparations**

**174.** A person shall not keep, use or spread or cause or suffer to be kept, used or spread a preparation containing any poison or other objectionable, injurious or deleterious matter on, in or from any place in such manner and to such extent as to expose therapeutic goods or other drugs for sale to the risk of contamination.

Maximum penalty—20 penalty units.

### **Requirements as to personal cleanliness**

**175.(1)** Subject to this subsection, a person engaged in the manufacture, preparation, production, storage, handling, packing, serving, selling, conveyance or delivery of therapeutic goods or other drugs for sale, whilst

so engaged shall—

- (a) not expectorate or smoke;
- (b) be clean in his or her habits, body and attire;
- (c) be free from any contagious or infectious disease or communicable skin infection or infected wound;
- (d) not wear a bandage or dressing that may come into contact with or contaminate such goods or drugs;
- (e) immediately before commencing work and upon every occasion after visiting a sanitary convenience before resuming work, wash his or her hands and brush his or her fingernails thoroughly with soap and clean water;
- (f) for the purpose of the prevention of the risk of contamination to or by such goods or drugs and when so directed in writing by the chief health officer so to do, wear such clothing as the person is directed to wear.

Maximum penalty—20 penalty units.

**(1A)** Subsection (1)(a), so far as it relates to smoking, does not apply with respect to a person engaged in or in connection with the storage, handling, conveyance or delivery of therapeutic goods or other drugs for sale in cases where such goods are enclosed in hermetically sealed packages.

**(2)** Subject to subsection (3), a person shall not expectorate or smoke in or at any place used in the manufacture, preparation, production, storage, handling, packing, serving, selling, conveyance or delivery of therapeutic goods or other drugs for sale or whilst on or in a vehicle engaged in the conveyance for sale of such goods or drugs.

Maximum penalty—20 penalty units.

**(3)** The prohibition with respect to smoking specified in subsection (2) does not apply in cases where therapeutic goods or other drugs for sale contained in hermetically sealed packages are stored, handled, conveyed or delivered.

**Prohibition as to certain persons**

**176.(1)** A person who—

- (a) is suffering from—
  - (i) any contagious or infectious disease;
  - (ii) any communicable skin infection or acute respiratory infection;
  - (iii) any open sore or infected wound;
- (b) is wearing a bandage or dressing that may come into contact with or contaminate therapeutic goods or other drugs;

shall not be engaged in or in connection with the manufacture, preparation, production, storage, handling, packing, serving, selling, conveyance or delivery of therapeutic goods or other drugs for sale.

Maximum penalty—20 penalty units.

(2) A person who is a carrier of disease shall not be engaged in, or be employed in any capacity in, a business connected with the manufacture, preparation, production, storage, handling, packing, serving, selling, conveyance or delivery of therapeutic goods or other drugs for sale or handle any instrument, package, receptacle, utensil or vessel or other thing used in or in connection with the processes or procedures specified in this subsection.

Maximum penalty—20 penalty units.

(3) The chief health officer, by order in writing directed to the chief health officer, may require a person who is employed in or in connection with—

- (a) manufacturing, preparing, producing, storing, handling, packing, displaying, serving, selling, conveying or delivering or otherwise dealing with therapeutic goods or other drugs for sale;
- (b) handling any receptacle, utensil, vessel or other thing in, on or from which such goods or drugs are kept or served;

to submit himself or herself to any process of clinical or bacteriological examination specified in the order for the purpose of ascertaining whether such person is capable of conveying the germs of disease to a consumer of those goods or drugs and for the purpose of such examination to present himself or herself to the medical officer in charge of the hospital nearest to

the place in question or some other duly qualified medical practitioner specified in the order.

(4) Where the chief health officer is satisfied that a person is capable of conveying the causal agent of disease to a consumer of therapeutic goods or other drugs, the chief health officer, by order in writing addressed to that person, may direct that person to forthwith cease work in or in connection with—

- (a) the manufacture, preparation, production, storage, handling, serving, selling, conveying, delivering or other dealing with such goods or drugs for sale;
- (b) the handling or other dealing with any receptacle, utensil, vessel or other thing in, on or from which such goods or drugs are kept or served;

and refrain from resuming such work until after the production by the person to the chief health officer of satisfactory evidence that the person is fit to do so and the receipt by the person of permission in writing signed by the chief health officer that the person may resume such work.

### **Offence as to therapeutic substance to which certain colouring substance added**

**177.** A person shall not manufacture, prepare, produce or sell a therapeutic substance that contains a colouring substance other than a permitted colouring substance stated in Standard A5 of the Food Standards Code.

Maximum penalty—20 penalty units.

### **Compliance of therapeutic goods or other drugs with certain description or standard**

**178.(1)** Therapeutic goods and other drugs that are included in the APF shall comply with the descriptions therein specified for them.

(1A) However—

- (a) wherever therapeutic goods or other drugs are included in the British pharmacopoeia, APF and the British pharmaceutical codex, the standard of the British pharmacopoeia shall prevail;

- (b) wherever therapeutic goods and other drugs are included in the APF and the British pharmaceutical codex but not in the British pharmacopoeia, the standard of the APF shall prevail;
- (c) where olive oil, cottonseed oil, sesame oil or arachis oil is indicated in the British pharmacopoeia or British pharmaceutical codex as a constituent of therapeutic goods or other drugs, maize oil may be used in the stead of any of those oils.

Maximum penalty—20 penalty units.

(2) Sunscreening preparations shall comply with the Australian Standard for Sunscreen Products—Evaluation and Classification (AS 2604–1993) as published by the Standards Association of Australia.

(3) A person shall not sell a sunscreening preparation which does not comply with the above standard.

Maximum penalty—20 penalty units.

### **Sale, supply and use of certain therapeutic goods restricted**

**179.(1)** A person must not sell, supply or use a reagent for testing for antibodies to the human immunodeficiency virus unless permitted under this section.

Maximum penalty—20 penalty units.

(2) The reagent may be sold or supplied to a person who has the management and control of an approved hospital or laboratory.

(3) The reagent may be used by a person in the course of the person's professional duties at an approved hospital or laboratory.

(4) The chief health officer may approve a hospital or laboratory in writing for the purposes of this section if the chief health officer is satisfied the reagent will be used in a safe and correct manner.

(5) The chief health officer may impose conditions on the approval that the chief health officer considers appropriate.

## **PART 17—VERMIN CONTROL**

### *Division 1—Preliminary*

#### **Definitions**

**180.** In this part—

“**assembly place**” means a place designed, constructed, adapted or used for the assembly of persons for civic, political, educational, transit, religious, social, recreational, sporting, entertainment or amusement purposes or any purpose associated with those purposes.

“**occupier**”, of a place, includes, if there is no person in actual occupation of the place, a person entitled to possession of the place.

“**permit**” means a permit issued under section 194E.

“**refuse**” includes any thing which could be a source of food for vermin or encourage vermin to visit or frequent any place or afford or form or be likely to afford or form shelter or attraction for vermin.

“**vermin**” means rats, mice, guineapigs and other rodents capable of carrying or transmitting a notifiable disease, but does not include a protected animal within the meaning of the *Nature Conservation Act 1992*.

“**vermin-proof material**” means any material that effectively prevents access by vermin.

#### **All vermin noxious**

**181.** Vermin of all species are declared to be noxious.

#### **Local governments to superintend**

**182.(1)** This part is in force within the areas of all local governments.

**(2)** Each local government must enforce this part and do and provide all acts, matters and things necessary for the enforcement of this part.

***Division 2—Measures to be adopted by owners and occupiers*****Buildings etc. to be vermin proofed**

**183.** The owner of any place must cause—

- (a) every floor, wall, partition, ceiling, roof and every ancillary fitting thereto of every building or other structure on such place to be so construed and maintained as to prevent the entry of vermin into such place; and
- (b) every hole or opening in every floor, wall, partition, ceiling or roof and in every ancillary fitting thereto of every building or other structure on such place, to be securely covered with a suitable vermin-proof material; and
- (c) every retaining wall, embankment, improvement or work of any kind or any formation, whether natural or artificial on such place, to be so constructed and maintained as not to afford or form or be likely to afford or form shelter or attraction for vermin.

Maximum penalty—40 penalty units.

**Vegetation and other things not to provide shelter**

**184.(1)** The occupier of any place must not—

- (a) have or suffer or permit to remain on such place any vegetation which is growing in such a way as to afford or form or be likely to afford or form shelter or attraction for vermin; and
- (b) have or suffer or permit to remain on such place any thing which is in such condition or is kept or stored in such a way as to afford or form or be likely to afford or form shelter or attraction for vermin.

Maximum penalty—40 penalty units.

**(2)** A reference to vermin in this section does not include vermin permitted to be kept under division 3A.

**Drains etc. to be vermin proofed**

**185.(1)** Every covered drain, sewer, pipe, covered conduit or covered channel within any place must be so trapped or otherwise protected by the owner as to prevent the ingress or egress of vermin.

(2) Every disused covered drain, disused sewer, disused pipe, disused covered conduit or disused covered channel must be removed or blocked or otherwise dealt with by the owner so as to prevent the ingress or egress of vermin.

Maximum penalty—40 penalty units.

**Wharves to be vermin proofed**

**186.** The owner of any wharf, dock or slip, must cause such place and any retaining wall thereon to be constructed and maintained so as to prevent vermin from sheltering on or in the wharf, dock, slip or wall.

Maximum penalty—40 penalty units.

**Food and water not to be accessible to vermin**

**187.(1)** The occupier of any place must cause—

- (a) every thing on such place which is or may be a source of food for vermin, to be protected so as to effectively prevent access by vermin to such thing; and
- (b) every supply or collection of water on such place to be protected as far as is practicable so as to effectively prevent access by vermin to such water.

Maximum penalty—40 penalty units.

(2) A reference to vermin in this section does not include vermin permitted to be kept under division 3A.

**Storage of refuse, keeping of animals**

**188.** The occupier of any place must not—

- (a) have or suffer or permit to remain on such place any refuse unless such refuse is stored in accordance with the *Environmental*

*Protection (Interim Waste) Regulation 1996*, and in the case of an assembly place all refuse must be collected and so stored immediately at the conclusion of every assembly of persons at that place; or

- (b) have or keep or suffer or permit to remain or to keep on such place any bird or animal in such a way as to afford or form or be likely to afford or form shelter or attraction for vermin.

Maximum penalty—40 penalty units.

### **Notification of presence of vermin**

**189.(1)** The occupier of any place must—

- (a) notify in writing the relevant local government of the presence of vermin on such place immediately on becoming aware of its presence; and
- (b) cause every thing which is infested with vermin to be treated in the manner directed by the local government.

Maximum penalty—40 penalty units.

(2) A reference to vermin in this section does not include vermin permitted to be kept under division 3A.

### **Local government premises**

**190.** The local government must—

- (a) in respect of premises owned or occupied by it or under its management or control take the measures prescribed by this division for owners and occupiers of places; and
- (b) in respect of roads, drains and sewers, including disused drains and sewers within its area, take such measures as are reasonably practicable or as are required by notice given to it by the chief health officer, to prevent any road, drain or sewer from serving as a shelter or attraction for vermin.

***Division 3—Destruction of vermin by local governments*****Local government to destroy vermin in the area**

**191.(1)** The local government must—

- (a) do all such acts, matters and things or cause to be done all such acts, matters and things as are necessary to destroy vermin in its area; and
- (b) immediately investigate any notification that any place is infested with vermin, and do all such acts, matters and things or cause to be done all such acts, matters and things as are necessary to destroy any vermin at such place.

(2) A reference to vermin in this section does not include vermin permitted to be kept under division 3A.

**Vermin infested areas**

**192.(1)** The chief health officer may, if satisfied on the evidence available, that any place is infested with vermin, by notice in writing require the local government to do or cause to be done such acts, matters and things designed to destroy vermin in that place as are specified in that notice.

(2) A reference to vermin in this section does not include vermin permitted to be kept under division 3A.

**Unusual sickness or mortality in vermin**

**193.** If any unusual or suspicious sickness or any abnormal mortality rate occurs in vermin in any part of its area, the local government must immediately notify the medical officer of health, or if there is no medical officer of health, the chief health officer, of the circumstances, and at the same time provide the fullest information available relating thereto.

**Local government to examine vermin specimens**

**194.** The local government must, when required by the chief health officer by notice in writing—

- (a) cause such examinations as may be specified in the notice, to be made of all vermin destroyed by it or obtained by it and must provide within the time specified in the notice a full report in writing containing the results of such examinations; and
- (b) obtain and submit to the Centre for Public Health Sciences or such other laboratory as may be approved by the chief health officer, such vermin specimens or specimens from vermin cadavers as may be specified in the notice, and mark those specimens with the particulars specified in the notice.

### *Division 3A—Keeping vermin*

#### **Prohibition from keeping vermin**

**194A.(1)** A person must not keep vermin other than under this division.

Maximum penalty—40 penalty units.

(2) A person may keep vermin, without a permit, under section 194D.

(3) A person may keep rats, mice or guineapigs—

- (a) without a permit, under section 194C; or
- (b) under a permit.

#### **Conditions under which vermin must be kept**

**194B.** A person permitted to keep vermin under this division must keep them—

- (a) under hygienic conditions; and
- (b) in an enclosure from which they cannot escape.

Maximum penalty—40 penalty units.

#### **Keeping up to 100 rats, mice or guineapigs**

**194C.(1)** A person may keep up to 100 rats, mice or guineapigs at a place.

(2) However, if someone else also keeps rats, mice or guineapigs at the place, the total number kept at the place must not be more than 100.

(3) In this section—

“place” means a dwelling, shop or other separate premises.

### **Keeping vermin at a laboratory**

**194D.** A person may keep any number of vermin at a laboratory or a place ancillary to a laboratory for medical, research, scientific or teaching purposes pursued at the laboratory.

### *Division 3B—Permits*

### **Keeping rats, mice or guineapigs under a permit**

**194E.(1)** A person may keep rats, mice or guineapigs at a place under a permit given under this section.

(2) An application for a permit, or the renewal of a permit, must be made, in the approved form, to the local government in whose area the place is situated.

(3) The local government must promptly consider the application and either grant or refuse to grant the application.

(4) If the local government decides to grant the application, it must promptly issue a permit to the applicant.

(5) A permit may be issued on reasonable conditions imposed by the local government.

(6) If the local government refuses to grant the application or issues a permit on conditions, it must give the applicant written notice of its decision within 14 days after making it.

(7) The notice must state—

- (a) the decision; and
- (b) the reasons for the decision; and
- (c) that the applicant may appeal against the decision to a Magistrates

Court within 28 days after the applicant receives the notice.

(8) If the local government fails to decide the application within 60 days after its receipt, the failure is taken to be a decision by the local government to refuse to grant the application.

### **Criteria for decisions about applications**

**194F.** In deciding the application, the local government must consider the following criteria—

- (a) the security of the place where the rats, mice or guineapigs are kept or intended to be kept;
- (b) the conditions under which the rats, mice or guineapigs are kept or intended to be kept;
- (c) the design and construction of the enclosure in which the rats, mice or guineapigs are kept or intended to be kept;
- (d) the existence of a management plan, addressing the following issues—
  - (i) identification and minimisation of potential risks to public health;
  - (ii) odour and noise;
  - (iii) security;
  - (iv) escape of rats, mice or guineapigs;
  - (v) sanitation;
  - (vi) waste disposal;
  - (vii) pest control;
  - (viii) provision of food and water;
  - (ix) dealing with diseased rats, mice or guineapigs;
  - (x) ventilation;
  - (xi) training of staff in disease management;
- (e) any other relevant issue.

***Division 3C—Suspension or cancellation of permits*****Grounds for suspension or cancellation**

**194G.** Each of the following is a ground for the suspension or cancellation of a permit—

- (a) the permit was obtained because of incorrect or misleading information;
- (b) the holder of the permit has contravened a condition of the permit;
- (c) the holder of the permit has been found guilty of an offence against this part.

**Procedure for suspension or cancellation**

**194H.(1)** If a local government believes a ground exists to suspend or cancel a permit (the “**proposed action**”), the local government must give the holder of the permit written notice—

- (a) stating the proposed action; and
- (b) stating the grounds for the proposed action; and
- (c) outlining the facts and circumstances forming the basis for the local government’s belief; and
- (d) if the proposed action is suspension of the permit—
  - (i) stating the proposed suspension period; and
  - (ii) explaining the effect of suspension under this division; and
- (e) inviting the holder to show in writing, within a stated reasonable time of at least 28 days, why the proposed action should not be taken.

**(2)** If, after considering all written representations made within the stated time, the local government still considers a ground for the proposed action exists, the local government may—

- (a) if the proposed action was to suspend the permit for a stated period—suspend the permit for no longer than the proposed suspension period; or

(b) if the proposed action was to cancel the permit—either cancel the permit or suspend it for a period.

(3) The local government must inform the holder of its decision by written notice.

(4) The notice must be given within 10 days after the local government makes its decision.

(5) If the local government decides to suspend or cancel the permit, the notice must state—

- (a) the decision; and
- (b) the reasons for the decision; and
- (c) that the holder may appeal against the decision to a Magistrates Court within 28 days after the holder receives the notice.

(6) The decision takes effect on the later of the following days—

- (a) the day when the notice is given to the holder;
- (b) the day of effect stated in the notice.

(7) However, if the ground for the suspension or cancellation of the permit is that the holder has been found guilty of an offence against this part, the suspension or cancellation has no effect if the finding is quashed on appeal.

(8) Also, subsections (1) to (7) do not apply if the holder agrees to the local government cancelling the permit.

(9) The local government may cancel a permit under subsection (8) by written notice given to the holder.

### **Procedure for immediate suspension**

**194I.(1)** This section applies if—

- (a) the local government believes a ground exists to cancel or suspend a permit; and
- (b) the local government considers the health of members of the public may be adversely affected if urgent action to suspend the permit is not taken.

(2) The local government may immediately suspend the permit by written notice given to the holder of the permit.

(3) The suspension takes effect immediately the notice is given to the holder.

(4) The notice must state—

- (a) that the permit is suspended; and
- (b) the reasons for the suspension; and
- (c) that the holder may appeal against the suspension to a Magistrates Court within 28 days after the holder receives the notice.

(5) The local government must at the same time give the holder a notice under section 194H(1).

(6) The suspension of the permit continues until the first to happen of the following—

- (a) the local government cancels the suspension;
- (b) the local government gives the holder notice of its decision under section 194H(3);
- (c) the end of 60 days after the notice under subsection (2) was given to the holder.

### *Division 3D—Amendment of permits*

#### **Procedure for amendment**

**194J.(1)** The local government may amend a permit if—

- (a) the holder of the permit agrees to the amendment; or
- (b) the local government is reasonably satisfied the permit should be amended.

(2) If the local government is reasonably satisfied the permit should be amended under subsection (1)(b), the local government must give the holder a written notice that—

- (a) states the proposed amendment and the reasons for the amendment; and

*Health Regulation 1996*

---

- (b) outlines the facts and circumstances forming the basis for the reasons; and
- (c) invites the holder to make written representations to the local government, within a stated reasonable time of at least 28 days, to show why the amendment should not be made.

(3) If, after considering the representations properly made by the holder, the local government is still reasonably satisfied the permit should be amended in the way mentioned in the notice, or in another way having regard to the representations, the local government must—

- (a) issue a new permit to the holder; and
- (b) give the holder a written notice that states—
  - (i) that the old permit has been cancelled; and
  - (ii) the way in which the new permit is different from the old permit; and
  - (iii) the reasons for the amendment; and
  - (iv) that the holder may appeal to a Magistrates Court against its decision within 28 days after the person receives the notice.

(4) The new permit takes effect on the later of the following days—

- (a) the day when the notice is given to the holder;
- (b) the day of effect stated in the notice.

(5) In this section—

“**amend**”, a permit, means—

- (a) impose conditions on the permit; or
- (b) vary any conditions of the permit.

*Division 3E—Appeals***Decisions open to appeal**

**194K.(1)** An applicant for a permit may appeal against a decision of a local government to—

- (a) refuse to grant the application; or
- (b) impose a condition on the permit under section 194E(5).

(2) The holder of a permit may appeal against a decision of a local government to—

- (a) cancel or suspend the permit; or
- (b) amend the permit under section 194J(1)(b).

### **Starting an appeal**

**194L.(1)** A person starts an appeal by—

- (a) filing a written notice of appeal with a Magistrates Court; and
- (b) serving a copy of the notice on the local government.

(2) The appeal may be made to a Magistrates Court nearest the place—

- (a) where the person lives; or
- (b) where the place the subject of the application or permit is situated.

(3) However, subsection (2) does not limit the jurisdiction of another Magistrates Court to hear the appeal.

(4) The notice of appeal must state fully the grounds of the appeal and the facts relied on.

### **Time for starting an appeal**

**194M.(1)** An appeal may be started at any time.

(2) However, if written notice is given of a decision, and reasons for the decision are included in the notice, an appeal against the decision by a person to whom the notice was given must be started within 28 days after the person receives the notice.

(3) A Magistrates Court may at any time extend the period for filing a notice of appeal.

**Stay of operation of decisions**

**194N.(1)** The Magistrates Court may grant a stay of the operation of the decision to secure the effectiveness of the appeal.

**(2)** A stay—

- (a) may be granted on the conditions the court considers appropriate; and
- (b) applies for the period the court states, but must not extend past the time when the court makes a decision on the appeal; and
- (c) may be cancelled or amended by the court.

**Hearing procedures**

**194O.(1)** In deciding the appeal, the Magistrates Court—

- (a) has the powers of the local government in relation to permits; and
- (b) is not bound by the rules of evidence; and
- (c) must comply with natural justice; and
- (d) may hear the appeal in court or in chambers.

**(2)** The appeal is by way of rehearing.

**Powers of court on appeal**

**194P.(1)** In deciding the appeal, the Magistrates Court may—

- (a) confirm the decision; or
- (b) set aside the decision and substitute another decision; or
- (c) set aside the decision and return the issue to the local government with the directions the court considers appropriate.

**(2)** If the Magistrates Court substitutes another decision, the substituted decision is, for this part (other than this division), taken to be that of the local government.

**Appeal to District Court**

**194Q.** An appeal to a District Court may be made from a decision of a Magistrates Court under this division, but only on a question of law.

***Division 4—Miscellaneous*****House-to-house visits**

**195.(1)** The local government may, and when required by the chief health officer by notice in writing must, undertake house-to-house visits within its area or that part of its area specified in the notice, and inspect every place therein.

**(2)** The local government must in respect of every such visitation and inspection which has been required by the chief health officer, furnish to the chief health officer within the time specified a full report in writing—

- (a) as to whether the provisions of this part are being complied with by the owners and occupiers of such places; and
- (b) upon action taken or proposed to be taken by the local government with respect to any places which were ascertained to afford or form or to be likely to afford or form shelter or attraction for vermin.

**Damaging vermin-proofing measures**

**196.** A person must not, without lawful reason, interfere with or damage or destroy any thing which has been constructed or installed or placed on any place for the purposes of this part.

Maximum penalty—40 penalty units.

**Local government to employ persons for purpose of this part**

**197.** The local government must, when required by the chief health officer by notice in writing, employ at its expense such number of persons

and provide such equipment, appliances and animals as may be specified in the notice for the purpose of this part.

### **Food not to be thrown on roads**

**198.** A person must not throw, place, leave or have any thing in or upon any road or place so as to provide a potential source of food or sustenance for vermin.

Maximum penalty—40 penalty units.

### **Default of owner or occupier**

**200.(1)** If the owner or occupier of any place to whom a notice has been given under section 209 neglects to comply with such notice, or fails to comply within the time specified, the chief health officer or the local government, whether or not that person has been proceeded against for an offence against this part and without prejudice to the commencement of such proceedings, may enter the place to which the notice relates and do or cause to be done all acts and things and perform or cause to be performed all work necessary to comply with the requirements of the notice.

**(2)** Any expenses incurred under subsection (1) must be paid to the chief health officer or, as the case may be, to the local government by the owner or occupier concerned within the time specified (being not less than 30 days) after the giving to that person of a notice in writing specifying the amount of such expenses incurred and giving reasonable particulars thereof.

### **Default of local government**

**201.** If the local government makes default in carrying out or fails to do anything which by this part it is required to do, the chief health officer may carry out and do such things, and in such case may recover all expenses so incurred from the local government in the manner provided by section 200.

## **PART 18—MISCELLANEOUS**

### **Notifiable diseases—Act, s 32(1)**

**202.** For section 32(1) of the Act, the diseases and disabilities listed in schedule 2, part 1, are notifiable diseases.

### **Controlled notifiable diseases—Act, s 48(1)**

**203.** For section 48(1) of the Act, the notifiable diseases listed in schedule 2, part 2, are controlled notifiable diseases.

### **Automatic machines—Act, s 106**

**204.** For section 106 of the Act, the sale or supply of condoms, by means of an automatic machine or similar mechanical device, is prohibited in—

- a State school or non-State school, within the meaning of the *Education (General Provisions) Act 1989*
- a grammar school, within the meaning of the *Grammar Schools Act 1975*.

### **Institutions—Act, s 130B**

**205.** For section 130B of the Act, the following are institutions—

- Cairns Base Hospital
- Mackay Base Hospital
- Mental Health Building, Royal Brisbane Hospital
- Townsville General Hospital
- Wacol Rehabilitation Clinics, Wacol
- Wolston Park Hospital, Wacol.

**Hazardous substances—Act, s 131WE**

**206.** For part 4, division 9 of the Act, the following substances are hazardous substances—

- dangerous goods mentioned in the Australian Code for the Transport of Dangerous Goods by Road and Rail, section 9, published in the Commonwealth of Australia Gazette No. P15 on 7 April 1987
- halon 2402 Dibromotetrafluoroethane (C<sub>2</sub>F<sub>4</sub>Br<sub>2</sub>).

**Articles and drugs—Act, ss 132 and 134A**

**207.(1)** In this section—

“**gonk**” means a cardboard cylinder, usually—

- (a) covered with a fur-like fibre; and
- (b) with fibre-backed vinyl feet glued to one end; and
- (c) having eyes and a nose in appropriate positions.

**(2)** For section 132 of the Act, a gonk is an article.

**(3)** For section 134A of the Act, the following things are articles—

- (a) anything used for storing, holding, carrying, conserving, preserving, serving, consuming, cooking or preparing—
  - (i) water for domestic use; or
  - (ii) food;
- (b) paint;
- (c) toys.

**(4)** For section 134A of the Act, drugs in tablet form, ampoules, capsules or other single dose packages are drugs.

**Analyst’s certificate—Act, s 136**

**208.** An analyst’s certificate must be in the approved form.

**Inspector may serve notice to comply**

**209.(1)** If an inspector believes, on reasonable grounds, that a person is committing an offence against this regulation, the inspector may give the person a written notice (“**notice to comply**”) under this section.

**(2)** A notice to comply must state—

- (a) the act or omission comprising the alleged offence; and
- (b) the action the person must take to rectify the alleged offence; and
- (c) the day or time by which the person must take the action (the “**due date**”).

**(3)** The time between when the notice to comply is given to the person and the due date must be reasonable, having regard to the action the person must take.

**(4)** A person who receives a notice to comply may not be prosecuted for the alleged offence unless the person does not comply with the notice by the due date.

**(5)** A person may be prosecuted for an offence against this regulation even though the person has not received a notice to comply.

**Fees**

**210.** The fees payable under the Act are in schedule 3.

**Expiry of regulation**

**211.** This regulation expires on 1 July 1999.

**PART 19—REPEALS, TRANSITIONS AND EXPIRY PROVISIONS****Repeals**

**424.(1)** The following regulations made under the Act are repealed—

*Health Regulation 1996*

---

- Camping Ground Regulation 1987
- Cancer Registration Regulation 1981
- Hairdressers Regulation 1989
- Hazardous Substances (Placarding) Regulation 1988
- Health (Analysis Fees) Regulation 1981
- Health (Analyst's Certificate) Regulation 1993
- Health (Dispensary) Regulation 1993
- Health (Pest Control Operators) Regulation 1977
- Health (Poisons—Fumigation) Regulation 1973
- Health (Radioactive Substances) Regulation 1994
- Health (Scientific Research and Studies) Regulation 1993
- Hyperbaric Chamber Therapy Regulation 1989
- Maltreatment of Children Regulation 1980
- Mosquito Prevention and Destruction Regulation 1982
- Perinatal Statistics Regulation 1986
- Prescribed Substances Standards and Methods Regulation 1987
- Skin Penetration Regulation 1987
- Therapeutic Goods and Other Drugs Regulation 1982
- Vermin Control Regulation 1991.

(2) The instruments made under the Act as notifications and published in the gazette on the dates and at the pages stated below are repealed—

- (a) 26 June 1982 at page 1643; and
- (b) 22 October 1988 at page 881; and
- (c) 16 June 1990 at page 962; and
- (d) 4 June 1993 at page 777.

(3) The instruments made under the Act as orders in council and published in the gazette on the dates and at the pages stated below are repealed—

- (a) 8 May 1971 at page 183; and
- (b) 30 July 1977 at page 1695; and
- (c) 1 September 1979 at page 75; and
- (d) 13 August 1988 at page 3393; and
- (e) 22 October 1988 at page 881; and
- (f) 1 September 1990 at page 84.

**SCHEDULE 1****AUTHORISED PERSONS**

section 63

<b>Place</b>	<b>Medical practitioners</b>	<b>Department of Family and Community Services officers</b>	<b>Police officers</b>
Atherton	medical superintendent, Atherton Hospital	area manager, Atherton area office	officer in charge of police, Atherton
Ayr	medical superintendent, Ayr Hospital	area manager, Townsville city area office	officer in charge of police, Ayr
Beenleigh	child health medical officer, division of child health, Brisbane	area manager, Beenleigh area office	district officer assigned to Beenleigh Police District
Blackwater	medical superintendent, Blackwater Hospital	area manager, Emerald area office	officer in charge of police, Blackwater
Bowen	medical superintendent, Bowen Hospital	area manager, Bowen area office	officer in charge of police, Bowen

## SCHEDULE 1 (continued)

Brisbane	medical superintendent, Royal Children's Hospital	deputy director-general (child protection and family support)	commissioner of the police service deputy commissioner of police
	medical superintendent, Mater Children's Hospital	regional director, Brisbane north regional director, Brisbane south	assistant commissioners of police inspector of police (Juvenile Aid Bureau)
	medical superintendent, Princess Alexandra Hospital	regional director, Brisbane west	superintendent of police (C.I.B.)
	medical superintendent, Prince Charles Hospital	regional director, north coast area manager, inner city area office	superintendent of police assigned to North Brisbane Police Region, Brisbane
	director of ambulatory services, Mater Children's Hospital	area manager, Corinda area office	superintendent of police assigned to South Brisbane Police Region, Brisbane
	child health medical officer, division of child health, Brisbane	area manager, Fortitude Valley area office	detective inspector, Juvenile Aid Bureau, Brisbane

## SCHEDULE 1 (continued)

	area manager, Inala area office	
medical officer in charge, Inala Community Health Services Centre	area manager, Mount Gravatt area office	inspector of police, assigned to Oxley Police District
	area manager, Nundah area office	
	area manager, Stones Corner area office	detective senior sergeant, child abuse unit, Juvenile Aid Bureau, Brisbane
	area manager, Toowong area office	
	area manager, Wynnum area office	detective sergeant, Mater S.C.A.N. team, Juvenile Aid Bureau, Brisbane
	area manager, Redlands area office	
	manager, child protection support services	detective sergeant, Royal Children's Hospital S.C.A.N. team, child abuse unit, Juvenile Aid Bureau, Brisbane
	senior resource officers, child protection	
	manager, crisis care supervisor, sexual abuse treatment program	

## SCHEDULE 1 (continued)

			detective sergeant, North Brisbane Community S.C.A.N. team, Child Abuse Unit, Juvenile Aid Bureau, Brisbane
Bundaberg	medical superintendent, Bundaberg Hospital	area manager, Bundaberg area office	inspector of police assigned to Bundaberg Police District
Cairns	medical superintendent, Cairns hospital  visiting paediatrician, Cairns Hospital	regional director, far northern  area manager, Cairns area office	superintendent of police assigned to Far Northern Police Region, Cairns  inspector of police assigned to Cairns Police District
Charleville	medical superintendent, Charleville Hospital	area manager, Charleville area office	inspector of police assigned to Charleville Police District
Charters Towers	medical superintendent, Charters Towers Hospital	area manager, Aitkenvale area office	officer in charge of police, Charters Towers
Cherbourg	medical superintendent, Cherbourg Hospital	area manager, Murgon area office	officer in charge of police, Cherbourg

## SCHEDULE 1 (continued)

Chinchilla	medical superintendent, Chinchilla Hospital	area manager, Toowoomba area office	officer in charge of police, Chinchilla
Dalby	medical superintendent, Dalby Hospital	area manager, Toowoomba area office	inspector of police assigned to Dalby Police District
Emerald	medical superintendent, Emerald Hospital	area manager, Emerald area office	officer in charge of police, Emerald
Gladstone	medical superintendent, Gladstone Hospital	area manager, Gladstone area office	inspector of police assigned to Gladstone Police District
Gold Coast	medical superintendent, Gold Coast Hospital visiting paediatrician, Gold Coast Hospital	regional director, South Coast area manager, Southport area office area manager, Burleigh Heads area office	superintendent of police assigned to South-Eastern Police Region, Surfers Paradise superintendent of police assigned to Gold Coast Police District
Goondiwindi	medical superintendent, Goondiwindi Hospital	area manager, Warwick area office	officer in charge of police, Goondiwindi

## SCHEDULE 1 (continued)

Gympie	medical superintendent, Gympie Hospital	area manager, Gympie area office	superintendent of police assigned to North Coast Police Region, Gympie  inspector of police assigned to Gympie Police District
Ingham	medical superintendent, Ingham Hospital	area manager, Aitkenvale area office	officer in charge of police, Ingham
Innisfail	medical superintendent, Innisfail Hospital	area manager, Innisfail area office	inspector of police assigned to Innisfail Police District
Ipswich	medical superintendent, Ipswich Hospital  visiting paediatrician, Ipswich Hospital	area manager, Ipswich area office	inspector of police assigned to Ipswich Police District
Kingaroy	medical superintendent, Kingaroy Hospital	area manager, Murgon area office	officer in charge of police, Kingaroy

## SCHEDULE 1 (continued)

Logan City	child health medical officer, division of child health, Brisbane medical officer in charge, Woodridge Community Health Services Centre	area manager, Beenleigh area office area manager, Logan City Area Office area manager, Woodridge area office	inspector of police assigned to Beenleigh Police District
Longreach	medical superintendent, Longreach Hospital	area manager, Emerald area office	inspector of police assigned to Longreach Police District
Mackay	medical superintendent, Mackay Hospital visiting paediatrician, Mackay Hospital	area manager, Mackay area office	inspector of police assigned to Mackay Police District
Maryborough	medical superintendent, Maryborough Hospital casualty area manager, Maryborough Hospital	regional director, Wide Bay area manager, Maryborough area office	inspector of police assigned to Maryborough Police District

## SCHEDULE 1 (continued)

Moranbah	medical superintendent, Moranbah Hospital	area manager, Dysart area office	officer in charge of police, Moranbah
Mount Isa	medical superintendent, Mount Isa Hospital  staff physician, Mount Isa Hospital	area manager, Mount Isa area office	inspector of police assigned to Mount Isa Police District
Nambour	medical superintendent, Nambour Hospital  casualty area manager, Nambour Hospital	area manager, Maroochydore area office	inspector of police assigned to Sunshine Coast Police District, Maroochydore
Redcliffe	medical superintendent, Redcliffe Hospital  casualty area manager, Redcliffe Hospital	area manager, Redcliffe area office  area manager, Pine Rivers area office	inspector of police assigned to Redcliffe Police District

## SCHEDULE 1 (continued)

Rockhampton	medical superintendent, Rockhampton Hospital visiting paediatricians, Rockhampton Hospital	regional director, central area manager, Rockhampton area office	superintendent of police assigned to Central Police Region, Rockhampton superintendent of police assigned to Rockhampton Police District
Roma	medical superintendent, Roma Hospital	area manager, Roma area office	inspector of police assigned to Roma Police District
Stanthorpe	medical superintendent, Stanthorpe Hospital	area manager, Warwick area office	officer in charge of police, Stanthorpe
St. George	medical superintendent, St. George Hospital	area manager, Roma area office	officer in charge of police, St. George
Thursday Island	medical superintendent, Thursday Island Hospital	area manager, Cairns area office	officer in charge of police, Thursday Island

## SCHEDULE 1 (continued)

Toowoomba	medical superintendent, Toowoomba Hospital visiting paediatricians, Toowoomba General Hospital	regional director, Southwest area manager, Toowoomba area office	superintendent of police assigned to Southern Police Region, Toowoomba inspector of police assigned to Toowoomba Police District
Townsville	medical superintendent, Townsville Hospital visiting paediatricians, Townsville General Hospital	area manager, Aitkenvale area office area manager, Townsville area office	superintendent of police assigned to Northern Police Region, Townsville superintendent of police assigned to Townsville Police District
Warwick	medical superintendent, Warwick Hospital	area manager, Warwick area office	inspector of police assigned to Warwick Police District
Winton	medical superintendent, Winton Hospital	area manager, Emerald area office	officer in charge of police, Winton

**SCHEDULE 2****NOTIFIABLE AND CONTROLLED NOTIFIABLE  
DISEASES**

sections 202 and 203

**PART 1—NOTIFIABLE DISEASES**

acute viral hepatitis

adverse event following vaccination

anthrax

arbovirus infections (specified)

alphavirus infections (Barmah Forest, getah, Ross River, sindbis virus etc.)

bunyaviruses infections (gan gan, mapputta, termeil, trubanaman virus etc.)

flavivirus infections (alfuy, dengue, Edge Hill, Japanese encephalitis, kokobera, kunjin, Murray Valley encephalitis, Stratford, yellow fever, unspecified flaviviruses etc.)

any other arbovirus infection demonstrated to cause human disease

atypical mycobacterial infection

botulism

brucellosis

campylobacter enteritis

chancroid

chlamydia trachomatis infections

## SCHEDULE 2 (continued)

chlamydia trachomatis infections (excluding lymphogranuloma venereum)

lymphogranuloma venereum

cholera

ciguatera

cryptococcosis

cryptosporidiosis

diphtheria

donovanosis (granuloma inguinale)

echinococcosis (hydatid disease)

enterohaemorrhagic escherichia coli infection

equine morbillivirus infection

food-borne or water-borne illness in 2 or more associated cases

gonococcal infection

gonorrhoea

gonococcal infections (excluding gonorrhoea)

haemolytic uraemic syndrome

haemophilus influenzae type b infection (invasive)

hansen's disease (leprosy)

hepatitis A

hepatitis B (acute, chronic and NOS)

hepatitis C

hepatitis D

hepatitis E

human immunodeficiency virus infection

lead exposure (notifiable)

## SCHEDULE 2 (continued)

legionellosis

leptospirosis

listeriosis

malaria

measles

meningococcal infection (invasive)

mumps

pertussis

plague

poliomyelitis

pneumococcal disease (invasive)

Q fever

rabies

rubella

    rubella (congenital syndrome)

salmonellosis (NOS)

shigellosis

syphilis

    syphilis (congenital syndrome)

    syphilis (excluding congenital syndrome)

tetanus

tuberculosis

typhoid and paratyphoid

viral haemorrhagic fevers (Crimean-Congo, Ebola, lassa fever and Marburg viruses)

yersiniosis

## SCHEDULE 2 (continued)

**PART 2—CONTROLLED NOTIFIABLE DISEASES**

chancroid

donovanosis (granuloma inguinale)

gonorrhoea

hepatitis B (acute)

human immunodeficiency virus infection

lymphogranuloma venereum

syphilis (excluding congenital syndrome)

**SCHEDULE 3****FEES**

section 210

	\$
<b>1.</b> Analysis of a drug or article by an analyst by any of the following methods—	
(a) chemical .....	183.00
(b) physical .....	183.00
(c) chemical and physical .....	183.00
(d) microbiological .....	183.00
<b>2.</b> Application for, or renewal of, a licence under part 10 ..	65.00
<b>3.</b> Application for, or renewal of, a licence under part 12 ..	28.00
<b>4.</b> Application for, or renewal of, registration of establishment under part 15 .....	200.00

**SCHEDULE 4****ITEMS TO BE PROVIDED**

section 25(1)

1. A refrigerator, fitted with a device capable of registering the minimum and maximum temperature, for use for storing therapeutic products at appropriate temperatures.
2. Three metric certified dispensing measures.
3. A funnel.
4. Two spatulas.
5. A tablet counting tray.
6. A current copy of each of the following—
  - (a) the *Poisons Regulation 1973*;
  - (b) the Standard for the Uniform Scheduling of Drugs and Poisons;
  - (c) the register of medical practitioners, Queensland;
  - (d) the register of dentists Queensland;
  - (e) the roll of veterinary surgeons of Queensland.
7. Each document specified in a code of conduct prepared under the *Pharmacy Act 1976*, section 27.

**SCHEDULE 5****ADDITIONAL ITEMS**

section 25(2)

1. A set of mechanical or electronic counter scales, capable of weighing up to 1 kg with an appropriate set of metric weights (if necessary).
2. A dispensing balance capable of weighing up to 50 g that is either—
  - (a) an electronic balance; or
  - (b) a mechanical balance with an appropriate set of metric weights (if necessary).
3. A certified 10 ml, 20 ml, 50 ml, 100 ml, 200 ml and 1 l dispensing measure.
4. A mortar and pestle.
5. A stirring rod.
6. An ointment slab.
7. An electric or gas heating appliance for use in dispensing a drug or poison.

**SCHEDULE 6****CLEANSERS AND DISINFECTANTS**

sections 49(c), 50(b), 58 and 59(5)

**PART 1—ANTIBACTERIAL CLEANSING AGENTS**

chlorhexidine gluconate 4%, foaming detergent

chlorhexidine gluconate 0.5%, aqueous

chlorhexidine gluconate 0.5%, in ethyl alcohol 95%, with glycerol 1%

chlorhexidine gluconate 0.5%, in isopropyl alcohol 70%

hexachlorophane 3%, antibacterial cleansing agent

**PART 2—DISINFECTING SOLUTIONS**

alcohol, ethyl 70%

alcohol, isopropyl 70%

hospital grade disinfectant

sodium hypochlorite 1%

**SCHEDULE 7****ALTERATIONS, AMENDMENTS, MODIFICATIONS  
AND VARIATIONS OF THE ADG CODE**

section 97(3)

1. *Class 9.* The class label shall be of the form shown in Figure 1 and shall have black sans serif capital letters and numeral and lines on a white background.

Figure 1—Class 9 Class Label

## SCHEDULE 8

### FACTOR CALCULATION FOR THE PURPOSES OF SECTION 93

section 93(1)

The factor is calculated as follows—

1. The total quantity of packaging group 1 divided by the exemption limit for packaging group 1 plus the total quantity of packaging group 2 divided by the exemption limit for packaging group 2 plus the total quantity of packaging group 3 divided by the exemption limit for packaging group 3.

2. When calculating the factor, where the total quantity of hazardous substances in any packaging group in any class is less than 5% of the exemption limit for that packaging group, then that quantity shall be excluded from the calculation.

3. If the total quantity of all hazardous substances in each class in each packaging group is less than the amount specified in the table below, then that quantity is exempt from calculations in determining the factor referred to above.

**TABLE**

Class	Packaging group 1	Packaging group 2	Packaging group 3
	l/kg	l/kg	l/kg
3	2.5	100	250
4	2.5	100	250
5	2.5	100	250
6.1	2.5	100	250
8	2.5	100	250
9	-	-	250
<b>TOTAL</b>	<b>12.5</b>	<b>500</b>	<b>1 500</b>

**SCHEDULE 9****EXEMPTION LIMITS FOR CLASS 2—GASES**

section 93(2)

(This table applies to both compressed and liquefiable gases)

Capacity  Cylinder size (water capacity kg)	Exemption limit (number of cylinders)		
	Class 2.3 poisonous	Class 2.1 flammable/ oxidizing	Class 2.2 non poisonous /non flammable
<= 5(p)	10	100	400
> 5 & <= 10(q)	5	50	200
> 10 & <= 25(r)	2	20	80
> 25 & <= 50(s)	1	10	40
> 50 & <= 100(t)	0	5	20
> 100 & <= 250(u)	0	2	8
> 250 & <= 500(v)	0	1	4
> 500 & <= 1000(w)	0	0	2
> 1000 & <= 2000(x)	0	0	1
> 2000(y)	0	0	0

Placarding is required for mixed gases in storage when—

- (a) the exemption limit in any capacity/class is exceeded;
- (b) when the sum of the factors obtained by dividing the number of cylinders (where cylinders are present) in a cylinder size/class by the exemption limit for that class is greater than unity. In making this calculation, cylinder size/classes with an exemption limit of 0 will be ignored as the presence of 1 or more cylinders in any such cylinder size/class requires placarding under (a) above;
- (c) where gases are kept on the same premises as other hazardous substances, a similar formula shall be used to calculate the contribution of each class of hazardous substance. If the sum of individual fractions is greater than unity, then placarding will be required;

## SCHEDULE 9 (continued)

- (d) if any cylinders are present in any capacity/class where the exemption limit is 0, then placarding is required irrespective of the presence of other hazardous substances;
- (e) when performing the above calculations for class 2, all cylinders of gas will be included. There will be no exemptions for 'small quantities'—5% or less of the exemption limit as with classes 3, 4, 5, 6.1, 8 and 9.

**SCHEDULE 10****REQUIREMENTS FOR WARNING SIGNS**

sections 95(4) and 98(b)

**Outer warning sign**

1.(1) The arrangement of what is shown on the sign and the minimum height of letters and numerals shall be in accordance with the illustrated example in figure 2.

(2) Particulars to be displayed on outer warning sign—

- (a) the expression 'HAZCHEM';
- (b) the expression 'IN EMERGENCY DIAL 000 POLICE OR FIRE BRIGADE' or where there is no 000 emergency telephone service, the telephone number of the police or fire brigade in the area, followed by the expression 'POLICE OR FIRE BRIGADE' as appropriate to the telephone number.

(3) The sign shall have red sans serif capital letters and numerals on a white background.

figure 2—outer warning sign

## SCHEDULE 10 (continued)

**Emergency information sign**

**2.(1)** The arrangement of what is shown on the sign and the minimum height of letters and numerals shall be in accordance with the illustrated examples in figures 3, 4 and 5.

**(2)** The sign shall have black sans serif capital letters and numerals on a white background.

**(3)** Particulars to be displayed on emergency information sign at a place where a single hazardous substance is stored—

- (a) correct name of hazardous substance kept;
- (b) United Nations number determined from the ADG code;
- (c) hazchem code determined from the ADG code;
- (d) appropriate class label.

Note: An emergency telephone number may be included.

figure 3—form and dimensions of emergency information sign for single class of hazardous substance

## SCHEDULE 10 (continued)

figure 4—example of completed emergency information sign for single class of hazardous substance

(4) Particular to be displayed on emergency information sign at a place where multiple classes of hazardous substances are stored—

- (a) hazchem code determined from the ADG code;
- (b) appropriate class label.

figure 5—example of completed emergency information sign for multiple classes of hazardous substances.

**SCHEDULE 11****PRESCRIBED METHODS OF ANALYSIS AND  
PERMISSIBLE LEVELS OF METAL RELEASE**

sections 133 and 134

**SCHEDULE 14****PRESCRIBED SUBSTANCES**

section 167(3), definition “**prescribed substance**”

**PART 1—SOLID DOSAGE UNIT**

1. Antihistamines, that is all substances the principal action of which is to antagonise the effects of histamine on H<sub>1</sub> receptors, in preparations where the antihistamine is the only therapeutically active substance, including—

antazoline	dexbrompheniramine	methdilazine
astemizole	dexchlorpheniramine	phenindamine
azatadine	dimenhydrinate	pheniramine
bamipine	dimethindene	phenyltoloxamine
bromodiphenhydramine	dimethothiazine	promethazine
brompheniramine	diphenhydramine	prothipendyl
buclizine	diphenidol	pyrathiazine
carbinoxamine	diphenylpyraline	pyroxamine
cetoxime	doxylamine	pyrrobutamine
chlorcyclizine	embramine	rotoxamine
chloropyrilene	halopyramine	thenalidine
chlorpheniramine	histapyrrodine	thenyldiamine
chlorphenoxamine	homochlorcyclizine	thiazinamium
cinnarizine	hydroxyzine	thonzylamine
clemastine	isothipendyl	tolpropamine
clemizole	mebhydrolin	trimeprazine

---

 SCHEDULE 14 (continued)

cycliramine	meclozine	trimethobenzamide
cyclizine	mepyramine	tripelennamine
cyproheptadine	methaphenilene	triprolidine
deproprine		

**2. Tricyclic antidepressants including—**

amitriptyline	imipramine	monometacrine
amoxapine	intriptyline	nortriptyline
butriptyline	iprindole	noxiptyline
cidoxepin	ketipramine	octriptyline
clomipramine	lofepramine	opipramol
desipramine	loxapine	pirandamine
dibenzepin	maprotiline	prazepine
dothiepin	melitracen	protriptyline
doxepin	mezepine	tandamine
fantridone	mianserin	trimipramine

**3. Aspirin**
**4. Paracetamol**
**5. Salicylamide**
**6. Iron compounds, other than in preparations containing the equivalent of 5 mg or less of elemental iron in each solid dosage form**
**7. Digitalis glycosides**
**8. Quinine**
**9. Chloroquine**
**10. Monoamine oxidase inhibitors including—**

iproniazid	phenelzine
isocarboxazid	tranlycypromine

## SCHEDULE 14 (continued)

**11.** Antiarrhythmics including—

amiodarone	mexiletine
bretylum	procainamide
disopyramide	quinidine
flecainide	verapamil

**12.** Anticonvulsants including—

carbamazepine	phenytoin
---------------	-----------

**13.** Glutethimide**14.** Orphenadrine**15.** Lithium carbonate**16.** Diphenoxylate hydrochloride with atropine sulphate**17.** Fluoride salts, in packs containing the equivalent of more than 100 mg of elemental fluorine**PART 2—LIQUID PREPARATIONS**

**18.** Paracetamol, in preparations where paracetamol is the only therapeutically active substance, except in paediatric drops in packs containing not more than 2 g of paracetamol

**19.** Methyl salicylate, in preparations containing more than 50% volume in volume of methyl salicylate, in a volume of 200 ml or less

**20.** Eucalyptus oil, in preparations containing more than 50% volume in volume of eucalyptus oil, in a volume of 200 ml or less

**21.** Digitalis glycosides

**22.** Iron, in preparations containing the equivalent of more than 250 mg of elemental iron in the total contents of the container

## SCHEDULE 14 (continued)

23. Melaleuca oil, in preparations containing more than 25% of cineole and in packs of 200 ml or less.

**2 Date to which amendments incorporated**

This is the reprint date mentioned in the Reprints Act 1992, section 5(c). Accordingly, this reprint includes all amendments that commenced operation on or before 7 September 1998. Future amendments of the Health Regulation 1996 may be made in accordance with this reprint under the Reprints Act 1992, section 49.

**Note—This new regulation includes provisions relocated from several older regulations (see list of legislation). The list of annotations does not include information about the history of any provision before its relocation to the Health Regulation 1996.**
