HEALTH (DRUGS AND POISONS) REGULATION 1996

[as amended by all amendments that commenced on or before 2 March 1998]

CHAPTER 1—INTRODUCTION

PART 1—PRELIMINARY

Short title

1. This regulation may be cited as the *Health (Drugs and Poisons) Regulation 1996*.

PART 2—INTERPRETATION

Dictionary

3.(1) The dictionary in appendix 9 of this regulation defines particular words used in this regulation.¹

¹ In some regulations, definitions are contained in a dictionary that appears as the last schedule or appendix and forms part of the regulation—*Acts Interpretation Act 1954*, section 14, *Statutory Instruments Act 1992*, section 14.

(2) Definitions found elsewhere in this regulation are signposted² in the dictionary.³

Meaning of “manufacture”

4.(1) “Manufacture”, of a controlled drug, restricted drug or a poison, means—

- (a) perform a process to produce the drug or poison; or
- (b) refine the drug or poison; or
- (c) convert the drug or poison into another controlled or restricted drug or another poison; or
- (d) make or prepare an ampoule, capsule, tablet, vial or other similar article that is or contains the drug or poison; or
- (e) mix or compound the drug or poison with another controlled or restricted drug, poison or substance; or
- (f) pack or repack the drug or poison.

(2) However, “**manufacture**” of a controlled or restricted drug or a poison does not include an act mentioned in subsection (1)(d), (e) or (f) done by a dispenser in relation to or for dispensing the drug or poison.

(3) In addition, “**manufacture**”, of a poison, does not include an act mentioned in subsection (1)(e) done—

- (a) by a primary producer for use only by the person on the person’s property, other than the act of self-administering the poison or administering the poison to another person; or
- (b) by a pest control operator for pest control under a licence under

² Words defined elsewhere in this regulation are generally signposted in the dictionary. However, if a section has a definition that only applies to the section, it is not generally signposted. If this type of definition is set out in a separate subsection, the subsection is generally the last subsection of the section.

³ The signpost definitions in the dictionary alert the reader to terms defined elsewhere in the regulation and tell the reader where the definitions can be found. For example, the definition ‘ “expiry day” see section 19’, tells the reader there is a definition of the term “expiry day” in section 19.

the Act; or

- (c) by a fumigator for fumigation under a licence under the Act.

Meaning of “S2” to “S9”

5. The expression “S2”, “S3”, “S4”, “S5”, “S6”, “S7”, “S8” or “S9” means—

- (a) if followed by a controlled drug, restricted drug or a poison—the drug or poison in the schedule to the standard with the number given in the expression; or
- (b) if followed by ‘poison’ without naming a poison or substance—any poison in the schedule to the standard with the number given in the expression.

Examples—

1. If a provision mentions ‘S2 fluorides’, it means fluorides in schedule 2 to the standard, i.e., fluorides in preparations for topical human therapeutic use.
2. If a provision mentions ‘S3 fluorides’, it means fluorides in schedule 3 to the standard, i.e., fluorides in dentifrices containing more than 1 000 mg/kg of fluoride ion. Fluorides may also be included in other schedules, for example as S4, S5 or S6 poisons.
3. If a provision mentions ‘S7 poison’, it means any poison in schedule 7 to the standard.

Meaning of “transaction”

6. “Transaction” means an event by which—

(2) An interpretation provision in the standard applies in the interpretation of this regulation.

(4) Despite the fact that the definition “poison” in this regulation does not have the same meaning as it has in the standard, the interpretation provisions in the standard that apply to the definition “poison” apply to controlled drugs, restricted drugs and poisons as defined in this regulation.

Example of subsection (4)—

Paragraph 76 of the standard states that, unless a contrary intention appears, a reference to a poison in a schedule includes a number of other things, including, for example, every salt, active principle or derivative of the poison and every salt of such an active principle or derivative.

Also, paragraph 76(8) provides that a reference in a schedule to a poison does not include certain poisons, including, for example, a poison in a product in appendix A of the standard.

⁴ Part 2 (Recommended standards for labels and containers)

- (a) it does not comply with the standard because—
 - (i) it is uncoloured; or

 - (iii) it is designed for a particular purpose; and
- (b) the chief executive is reasonably satisfied using the container as a package for a controlled or restricted drug or a poison is as safe as using a container permitted under the standard.

(3) The chief executive may approve another way of mounting that is of equal or greater security.

Type 1 mounting

6.(1) For type 1 mounting, a cabinet must be mounted to a concrete, brick or timber wall by 4 bolts made from heavy duty galvanised steel or equivalent quality bolts, of at least 12.5 mm diameter, that are passed through the wall and fastened inside the rear of the cabinet by steel ‘cyclone’ type washers and suitable nuts.

(2) However, for a timber wall, the bolts must pass through studs or noggings in the wall.

Type 2 mounting
