Example of a law for subsection (1)(g)—

(2) However, in deciding whether the complaint the subject of an investigation has been substantiated, the authority must not accept that any competitive advantage enjoyed by the government agency solely because of the government ownership or control of the agency is justified because of the existence of a competitive disadvantage suffered by the agency because of the government ownership or control of the agency.

(3) Subsection (1) does not limit the matters the authority may have regard to in conducting an investigation.

Procedures for investigations

50. Part 6¹⁰ applies to an investigation under this division.

- (a) if the authority is satisfied the applicant carries on the significant business activity in accordance with the principle—the authority must grant the accreditation; or
- (b) if the authority is not satisfied the applicant carries on the significant business activity in accordance with the principle—the authority must refuse to grant the accreditation.

(3) Also, the authority may refuse to grant the accreditation if—

- (a) the authority has sought further information about the application under section 62; and
- (b) the applicant has failed, without reasonable excuse, to give the information to the authority within the time stated in the relevant notice.

Conditions on grant of accreditation

64.(1) If the authority decides to grant an accreditation, the grant is subject to the following conditions—

- (a) a condition that the government agency must continue to comply with the principle of competitive neutrality;
- (b) a condition that the government agency must inform the authority of any change in the agency's structure or operations that may affect the agency's continued compliance with the principle of competitive neutrality.

(2) The authority may impose any other conditions it considers are necessary and reasonable for ensuring compliance with the accreditation.

(3) Without limiting subsection (2), a condition may relate to requirements of the government agency to give relevant information to the authority that is necessary and reasonable to enable the authority to decide whether it is appropriate to maintain the accreditation.

(4) For a condition mentioned in subsection (3), the information may be required to be given to the authority either—

- (a) from time to time, at reasonable intervals; or
- (b) at stated reasonable times.

- (b) if a later day of effect is stated in the notice—the later day.

Cancellation of accreditation

69.(1) An accreditation may be cancelled on the ground the government agency concerned has contravened a condition of the accreditation.

(2) If the authority believes the ground exists to cancel an accreditation, the authority must give the government agency a written notice that—

- (a) states the authority proposes to cancel the accreditation; and
- (b) states the grounds for the proposed action; and
- (c) outlines the facts and circumstances forming the basis for the grounds; and
- (d) invites the agency to show within the show cause period why the proposed action should not be taken.

(3) If, after considering all written representations made within the show cause period, the authority still believes the ground exists to cancel the accreditation, the authority may cancel the accreditation.

(4) The authority must give the government agency a written notice stating its decision and the reasons for the decision.

(5) The decision takes effect—

- (a) the day the notice is given to the government agency; or
- (b) if a later day of effect is stated in the notice—the later day.

(6) In this section—

(3) Subsection (1) does not limit the matters the authority may consider in conducting an investigation.

Queensland Competition Authority Act 1997

- (a) the authority is required to be satisfied for recommending that a candidate service be declared by the Ministers; and
- (b) the Ministers are required to be satisfied for declaring a candidate service.

(2) The access criteria are as follows—

- (a) that access (or increased access) to the service would promote competition in at least 1 market (whether or not in Australia), other than the market for the service;
- (b) that it would be uneconomical to duplicate the facility for the service;
- (c) that access (or increased access) to the service can be provided safely;
- (d) that access (or increased access) to the service would not be contrary to the public interest.

(3) In considering the access criterion mentioned in subsection (2)(d), the authority and the Ministers must have regard to the following matters—

- (a) legislation and government policies relating to ecologically sustainable development;
- (b) social welfare and equity considerations including community service obligations and the availability of goods and services to consumers;

Making recommendation

79.(1) After receiving a request, the authority must recommend to the Ministers that—

- (a)** the service be declared; or

- (a) is not satisfied that access (or increased access) to the service would be likely to have a substantial effect on a market; or
- (b) considers the request was not made in good faith or is frivolous.

(4) Subsection (3)(b) does not apply to a request made by the Ministers.

(5) Despite subsections (1) and (2), the authority may recommend that part of a candidate service be declared by the Ministers if the authority is satisfied about all of the access criteria for the part of the service.

(4) Despite subsections (1) and (2), the Ministers may declare part of a candidate service if they are satisfied about all of the access criteria for the part of the service.

Duration of declaration

87.(1) A Ministerial declaration starts to operate on—

Subdivision 5—Revocation of declaration**Recommendation to revoke**

88.(1) The authority may recommend to the Ministers that a Ministerial declaration be revoked.

(2) The authority may recommend revocation of a Ministerial declaration only if it is satisfied that, at the time of the recommendation, section 86 would prevent the Ministers from declaring the relevant service.

Power of authority to conduct investigation

89. For making a revocation recommendation, the authority may conduct an investigation about the declared service.

Notice of investigation

90.(1) Before starting an investigation under this subdivision, the authority must give reasonable notice of the investigation to—

- (b) the reasons for the decision.

(2) The register must include, for each Ministerial declaration, details the authority considers appropriate.

Division 3—Regulation based declarations**Declaration of service**

97.(1) A regulation may declare a service for this Act.

(2) A service may be declared under subsection (1) only if the service is a service for which the facility used, or to be used, to provide the service is a

- (b) authorise the access provider not to give the access seeker 1 or

Subdivision 3—Arbitration of access disputes and making of access determinations

Parties to arbitration of access disputes

116.(1) If the access dispute notice for an access dispute states the dispute is to be dealt with by arbitration, the parties to the arbitration of the dispute are—

- (a) the access provider or access seeker who gives the access dispute notice for the access dispute; and
- (b) if the access dispute notice is given by an access provider—the access seeker stated in the notice as being the access seeker involved in the access dispute with the access provider; and

- (d) any other person who applies to the authority in writing to be made a party and is accepted by the authority as having a sufficient interest.

(2) If an access dispute is referred to the authority for arbitration by a mediator under section 115F, the parties to the arbitration of the dispute are—

- (a) the parties to the mediation to which the dispute relates; and
- (b) any other person who applies to the authority in writing to be made a party and is accepted by the authority as having a sufficient interest.

Access determination by authority

117.(1) The authority must make a written determination (an “**access determination**”) in an arbitration on access to the declared service by the access seeker.

- (2)** However, the authority is not required to make an access

determination if it ends the arbitration under section 122.²¹

(3) The determination may deal with any matter relating to access to the service by the access seeker, including matters that were not the basis for the access dispute notice for the access dispute.

(4) The authority is not required to make an access determination that requires the access provider to provide access to the service by the access seeker.

(5) Before making an access determination, the authority must give a draft determination to the parties.

(6) Subject to subsection (5), the authority is not required to consult with any entity before making an access determination.

(7) When making an access determination, the authority must give the parties its reasons for making the determination.

(8) The fact that a party to an arbitration did not engage in negotiations for an access agreement in good faith does not affect—

- (a) an arbitration; or
- (b) the making of an access determination, or an access determination made, in the arbitration.

Examples of access determinations

118.(1) Without limiting section 117(3), an access determination may—

- (a) require the access provider to provide access to the service by the access seeker; or
- (b) require the access seeker to accept, and pay for, access to the service; or
- (c) state the terms on which the access seeker has access to the service; or
- (d) require the access provider to extend, or permit the extension of, the facility; or

²¹ Section 122 (Resolution of access dispute by authority without arbitration or determination)

- (e) require the access provider to permit another facility to be connected to the facility; or
- (f) include a requirement that the access provider and access seeker enter into an access agreement to give effect to a matter determined by the authority.

(2) Also, if the authority makes an access determination that requires or permits the extension of a facility and none of the costs of the extension are to be paid by the access provider, the authority may make an access determination that relates to the ownership of the extension.

Restrictions affecting making of access determination

119.(1) The authority must not make an access determination that is inconsistent with an approved access undertaking, or access code, for the service.

(2) Also, the authority must not make an access determination that would have any of the following effects—

- (a) reduce the amount of the service able to be obtained by an access provider;
- (b) result in the access seeker, or someone else, becoming the owner, or 1 of the owners, of the facility, without the existing owner's agreement;
- (c) require an access provider to pay some or all of the costs of extending the facility.

(3) Despite subsection (2)(a), the authority may make an access determination reducing the amount of the service able to be obtained by an access provider if—

- (a) the access provider is a party to the arbitration; and
- (b) the reduction does not prevent the access provider from obtaining a sufficient amount of the service to be able to meet the provider's reasonably anticipated requirements, as assessed by the authority, as at the time the access dispute notice was given; and
- (c) if the authority considers the access provider is entitled to be compensated for the reduction—the amount of compensation is

taken into account in fixing the amount to be paid by the access seeker for access to the service.

(4) Despite subsection (2)(c), the authority may make an access determination requiring an access provider to extend, or permit the extension of, a facility.

(5) However, the authority may make an access determination mentioned in subsection (4) only if—

- (a) the access provider is the owner of the facility; and
- (b) the authority is satisfied—
 - (i) the extension will be technically and economically feasible and consistent with the safe and reliable operation of the facility; and
 - (ii) the legitimate business interests of the owner of the facility are protected; and
- (c) for an access determination requiring an access provider to extend a facility—the authority imposes a requirement under the determination on a person other than the access provider to pay the costs of extending the facility.

(6) If the authority makes an access determination mentioned in subsection (4), it must, in fixing the terms of access for the access seeker, take into account—

- (a) the costs to be paid by the parties for the extension; and
- (b) the benefits to the parties resulting from the extension.

(7) An access determination has no effect if it is made in contravention of this section.

Matters to be considered by authority in making access determination

120.(1) In making an access determination, the authority must have regard to the following matters—

- (a) the access provider's legitimate business interests and investment in the facility;
- (b) the legitimate business interests of persons who have, or may

- acquire, rights to use the service;
- (c) the public interest, including the benefit to the public in having competitive markets;
 - (d) the value of the service to—
 - (i) the access seeker; or
 - (ii) a class of access seekers or users;
 - (e) the direct costs to the access provider of providing access to the service, including any costs of extending the facility, but not costs associated with losses arising from increased competition;
 - (f) the economic value to the access provider of any extensions to, or other additional investment in, the facility that the access provider or access seeker has undertaken or agreed to undertake;
 - (g) the quality of the service;
 - (h) the operational and technical requirements necessary for the safe and reliable operation of the facility;
 - (i) the economically efficient operation of the facility.

(2) The authority may take into account any other matters relating to the matters mentioned in subsection (1) it considers are appropriate.

Conduct of arbitration

121. Part 7²² applies to an arbitration under this subdivision.

Resolution of access dispute by authority without arbitration or determination

122. The authority may decide not to start an arbitration, or at any time end an arbitration (without making an access determination), if it considers that—

- (a) the giving of the access dispute notice was vexatious; or
- (b) the subject matter of the dispute is trivial, misconceived or lacking

²² Part 7 (Conduct of arbitration hearings by authority)

in substance; or

- (c) the party who gave the access dispute notice has not engaged in negotiations for an access agreement in good faith.

When access determination takes effect

123. An access determination takes effect on—

- (a) the day the determination is made; or
(b) if a later day of effect is stated in the determination—the later day.

Enforcement of access determination

124. An access determination may be enforced in the way provided under division 8.²³

(2) An access provider who is the owner or operator of a declared service engages in conduct for preventing or hindering a user's access to the declared service if, having regard to the relevant criterion, the access provider provides, or proposes to provide, access to the declared service to itself, or a related body corporate of the access provider, on more favourable terms than the terms on which the access provider provides, or proposes to provide, access to the declared service to a competitor of the access provider.

(3) For subsection (2), the relevant criterion is the terms, taken as a whole, on which the access provider provides, or proposes to provide, access to the declared service to itself and the competitor having regard, in

²³ Division 8 (Enforcement for pt 5)

²⁴ Provision for enforcing compliance with section 125(1) is made in section 153 (Orders to enforce prohibition on hindering access).

particular, to—

- (a) the fees, tariffs or other payments to be made for access to the declared service by the access provider and the competitor; and
- (b) the nature and quality of the declared service provided, or proposed to be provided, to the access provider and competitor.

(4) An access provider or user of a declared service, or a related body corporate of the access provider or user, may be taken to have engaged in conduct for preventing or hindering a user's access to a service even though, after all the evidence has been considered, the existence of the purpose is ascertainable only by inference from the conduct of the access provider, user or related body corporate or other relevant circumstances.

(5) Subsections (2) and (4) do not limit the ways in which the purpose of an access provider or user, or a related body corporate of an access provider or user, may be established for subsection (1).

(6) An access provider or user of a declared service, or a related body corporate of the access provider or user, does not contravene subsection (1) if the conduct of the access provider, user or related body corporate is constituted by—

- (a) an act done in accordance with an access code or approved access undertaking for the declared service; or
- (b) a reasonable act done in, and for, an emergency (including an emergency that involves, or may involve, injury to persons or damage to property).

(2) The authority may, by written notice given to the access provider, require the access provider to give the authority, within the time (not less than 14 days) stated in the notice, stated information about the arrangements under which the access provider provides, or proposes to provide, access to the service to itself or a related body corporate of the access provider.

(3) The access provider must comply with the requirement within the time stated in the notice, unless the access provider has a reasonable excuse.

Maximum penalty—500 penalty units or 6 months imprisonment.

(4) An access provider is not required to comply with a requirement to give information if the access provider claims on the ground of self incrimination a privilege the access provider would be entitled to claim against giving the information were the access provider a witness in a prosecution for an offence in the Supreme Court.

(5) The authority or access provider may apply to the Supreme Court for a determination of the validity of a claim of privilege.

127.(1) The authority must keep a register of access determinations.

(2) The register must include, for each access determination, details of the following—

- (a) within 90 days after receiving the notice; or
- (b) if the authority extends, or further extends, the period by written notice given to the owner in the period or extended period—within the period as extended.

Consideration and approval of draft access undertaking by authority

134.(1) The authority must consider a draft access undertaking given to it in response to an initial undertaking notice and either approve, or refuse to approve, the draft access undertaking within the prescribed period.
