PETROLEUM (SUBMERGED LANDS) ACT 1982

[as amended by all amendments that commenced on or before 7 July 2000]

An Act to make provision with respect to the exploration for and the exploitation of the petroleum resources, and certain other resources of, and to conveying petroleum resources (wherever recovered) across, certain submerged lands adjacent to the coasts of Queensland, and for other purposes

Preamble

Whereas in accordance with international law Australia as a coastal State has sovereign rights over the Continental Shelf beyond the limits of Australian territorial waters for the purpose of exploring it and exploiting its natural resources:

And whereas Australia is a party to the Convention on the Continental Shelf signed at Geneva on 29 April 1958 in which those rights are defined:

And whereas by the *Seas and Submerged Lands Act 1973* (Cwlth) it is declared and enacted that the sovereignty in respect of the territorial sea of Australia and in respect of the airspace over it and in respect of its seabed and subsoil, and the sovereignty in respect of certain internal waters of Australia and in respect of the airspace over those waters and in respect of the seabed and subsoil beneath those waters, is vested in and exercisable by the Crown in right of the Commonwealth:

And whereas the Parliaments of the States and the Legislative Assembly of the Northern Territory have certain legislative powers in respect of the seabed and subsoil referred to in the last preceding recital and the Parliament of the Commonwealth has vested in the Crown in right of each of the States and the Crown in right of the Northern Territory certain proprietary rights in respect of that seabed and subsoil:

And whereas it has been agreed between the Commonwealth, the States and the Northern Territory that, in place of the scheme provided for by an agreement between the Commonwealth and the States dated 16 October 1967—

- (a) legislation of the Parliament of the Commonwealth in respect of the exploration for and the exploitation of the petroleum resources of submerged lands should be limited to the resources of lands beneath waters that are beyond the outer limits of the territorial sea adjacent to the States and the Northern Territory (being outer limits based, unless and until otherwise agreed, on the breadth of that sea being 3 nautical miles), and that the States and the Northern Territory should share in the administration of that legislation; and
- (b) legislation of the Parliament of each State should apply in respect of the exploration for and the exploitation of the petroleum resources of such part of the submerged lands in an area adjacent to the State as is on the landward side of the waters referred to in paragraph (a); and
- (c) legislation of the Legislative Assembly of the Northern Territory should apply in respect of the exploration for and the exploitation of the petroleum resources of such part of the submerged lands in an area adjacent to the Northern Territory as is on the landward side of the waters referred to in paragraph (a); and
- (d) the Commonwealth, the States and the Northern Territory should endeavour to maintain, as far as practicable, common principles, rules and practices in the regulation and control of the exploration for and the exploitation of the petroleum resources of all the submerged lands referred to above that are on the seaward side of the inner limits of the territorial sea of Australia.

(2) Where a wellhead is situated in a licence area and the well from that wellhead is inclined so as to enter a petroleum pool, being a pool that does not extend to that licence area, at a place within an adjoining licence area of the same licensee, any petroleum recovered through that well shall be deemed to have been recovered in that adjoining licence area under the licence in respect of that area.

¹ The Commonwealth Act, section 5 (Interpretation)

² Under the Commonwealth Act, section 5AAA(3) (Effect of changes in the baseline of Australia’s territorial sea on pipeline licences), the Commonwealth Act does not apply to the area after the change or reassessment.

Petroleum (Submerged Lands) Act 1982

(3) Where a petroleum pool is partly in 1 licence area and partly in an adjoining licence area of the same licensee and petroleum is recovered from that pool through a well or wells in 1 or both of the licence areas, there shall be deemed to have been recovered in each of the licence areas, under the licence in respect of that area, such proportion of all petroleum so recovered as may reasonably be treated as being derived from that area, having regard to the nature and probable extent of the pool, and the respective proportions shall be determined in accordance with subsection (4).

(4) The proportions to be determined for the purposes of subsection (3) may be determined by agreement between the licensee and the Minister or, in the absence of agreement, may be determined by the Supreme Court on the application of the licensee or the Minister.

(5) Where a petroleum pool is partly in a licence area and partly in an area (“**the Commonwealth licence area**”) in which the licensee has authority under the Commonwealth Act to explore for, or recover, petroleum, and petroleum is recovered from that pool through a well or wells in the licence area, the Commonwealth licence area or both, there shall be deemed to have been recovered in the licence area such proportion of all petroleum so recovered as may reasonably be treated as being derived from that area, having regard to the nature and probable extent of the pool, and that proportion shall be determined in accordance with subsection (6).

(6) The proportion to be determined for the purposes of subsection (5) may be determined by agreement between the licensee, the Joint Authority and the Minister or, in the absence of agreement, may be determined by the Supreme Court on the application of the licensee, the Joint Authority or the Minister.

(7) Where a petroleum pool is partly in a licence area and partly in an area (“**the other licence area**”) in which the licensee has authority, under a corresponding law, to explore for or recover, petroleum, and petroleum is recovered from that pool through a well or wells in the licence area, the other licence area or both, there shall be deemed to have been recovered in the licence area such proportion of all petroleum so recovered as may reasonably be treated as being derived from that area, having regard to the nature and probable extent of the pool, and that proportion shall be determined in accordance with subsection (8).

(8) The proportion to be determined for the purposes of subsection (7) may be determined by agreement between the licensee, the Minister and the

Petroleum (Submerged Lands) Act 1982

Minister administering the corresponding law or, in the absence of agreement, may be determined by the Supreme Court on the application of any of those persons.

(9) Where—

- (a) a petroleum pool is partly in a licence area and partly in another area, being an area which is outside the adjacent area and in which the licensee has, under the Commonwealth Act or a corresponding law, authority to explore for, or recover, petroleum; and
- (b) petroleum is recovered from that pool; and
- (c) the Supreme Court of another State or of the Northern Territory makes a determination, under the Commonwealth Act or a corresponding law, of the proportion of the petroleum recovered from that pool that is, for the purposes of the Commonwealth Act or the corresponding law, to be deemed to have been recovered from the other area;

the Supreme Court shall not make a determination under this section that is inconsistent with the determination of the Supreme Court of the other State or of the Northern Territory.

(10) Where—

- (a) a petroleum pool is partly in a licence area and partly in another area, whether in the adjacent area or not, in respect of which another person has authority, whether under this Act, the Commonwealth Act or a corresponding law, to explore for or recover petroleum; and
- (b) a unit development agreement in accordance with section 59 is in force between the licensee and that other person; and
- (c) petroleum is recovered from that pool through a well or wells in the licence area, the other area or both;

there shall be deemed to have been recovered in the licence area such proportion of all petroleum so recovered as is specified in, or determined in accordance with, the agreement.

(11) In this section a reference to a licence, a licensee or a licence area

shall be read as including a reference to a permit, a permittee, or a permit area.

Points etc. to be ascertained by reference to Australian Geodetic Datum

8.(1) Where, for the purposes of this Act or the regulations, or for the purposes of an instrument under this Act or the regulations, it is necessary to determine the position on the surface of the earth of a point, line or area, that position shall be determined by reference to a spheroid having its centre at the centre of the earth and a major (equatorial) radius of 6 378 160 m and a flattening of $\frac{100}{29825}$

Station in the Northern Territory of Australia.

(2) A licensee is required, during each subsequent year of the term of the licence, to carry out in or in relation to the licence area, in connection with exploration for, or operations for the recovery of, petroleum in or from the licence area, approved works—

- (a) if the licensee did not recover petroleum in or from the licence area during the last preceding year of the term of the licence—to the value of not less than the amount calculated by multiplying the sum of \$300 000 by the number of blocks in respect of which the licence is in force; or
- (b) if the licensee did recover petroleum in or from the licence area during the last preceding year of the term of the licence and the amount referred to in paragraph (a) exceeds the value of the petroleum so recovered—to the value of not less than the amount of the excess.

(3) Where, in respect of a year of the term of his or her licence, a licensee has not complied with subsection (1) or (2), the State is entitled to recover from the licensee, by action against the licensee in a court of competent jurisdiction, an amount equal to the value of the approved works that the licensee was required to carry out in or in relation to the licence area during that year of the term of the licence less the value of any approved works carried out by the licensee in or in relation to that area during that year.

(4) The Minister may, if the Minister is satisfied that special circumstances exist that justify the Minister doing so, by instrument in writing served on a licensee, exempt the licensee from compliance with the requirements of this section in respect of the year of the term of the licence specified in the instrument subject to such conditions (if any) as the Minister thinks fit and specifies in the instrument.

(5) For the purposes of this section the value of any petroleum is the

value at the wellhead of that petroleum ascertained in accordance with Division 7.

Directions as to recovery of petroleum

58.(1) Where petroleum is not being recovered in a licence area and the Minister is satisfied that there is recoverable petroleum in that area, the Minister may, by instrument in writing served on the licensee, direct the licensee to take all necessary and practicable steps to recover that petroleum.

(2) Where the Minister is not satisfied with the steps taken or being taken by a licensee to whom a direction has been given under subsection (1), the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for or in relation to the recovery of petroleum in the licence area.

(3) Where petroleum is being recovered in a licence area, the Minister may, for reasons that the Minister thinks sufficient, by instrument in writing served on the licensee, direct the licensee to take all necessary and practicable steps to increase or reduce the rate at which the petroleum is being recovered to such rate as the Minister specifies in the instrument.

(4) Where the Minister is not satisfied with the steps taken or being taken by a licensee to whom a direction has been given under subsection (3), the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for or in relation to the increase or reduction of the rate at which petroleum is being recovered in the licence area.

“Unit development”

59.(1) In this section—

“unit development”—

- (a) applies in relation to a petroleum pool that is partly in a particular licence area of a licensee and partly in a licence area of another licensee or in an area that is not within the adjacent area but in which a person other than the first mentioned licensee is lawfully entitled to carry on operations for the recovery of petroleum from the pool; and

Petroleum (Submerged Lands) Act 1982

- (b) means the carrying on of operations for the recovery of petroleum from that pool under cooperative arrangements between the persons entitled to carry on such operations in each of those areas.

(2) A licensee may from time to time enter into an agreement in writing for or in relation to the unit development of a petroleum pool, but such an agreement does not have any force or effect unless it has been approved by the Minister.

(3) The Minister of the Minister's own motion or on application made to the Minister in writing by—

- (a) a licensee in whose licence area there is a part of a particular petroleum pool; or
- (b) a person who is lawfully entitled to carry on operations for the recovery of petroleum in an area outside the adjacent area that includes part of a particular petroleum pool that extends into the adjacent area;

may, for the purpose of securing the more effective recovery of petroleum from the petroleum pool, direct any licensee whose licence area includes part of the petroleum pool to enter into an agreement in writing, within the period specified in the instrument, for or in relation to the unit development of the petroleum pool and to lodge the agreement with the Minister forthwith in accordance with section 81.

(4) Where—

- (a) a licensee who is directed, under subsection (3), to enter into an agreement for or in relation to the unit development of a petroleum pool does not enter into such an agreement within the specified period; or
- (b) a licensee enters into such an agreement but the agreement is not lodged with the Minister in accordance with subsection (3) or, if so lodged, is not approved under section 81;

the Minister may, by instrument in writing served on the licensee, direct the licensee to submit to the Minister, within the period specified in the instrument, a scheme for or in relation to the unit development of the petroleum pool.

(5) At any time after the expiration of the period within which a scheme for or in relation to the unit development of a petroleum pool is to be

Petroleum (Submerged Lands) Act 1982

submitted by a licensee under subsection (4), the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(6) Where a person is the licensee in respect of 2 or more licence areas in each of which there is part of a particular petroleum pool, the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(7) Where an agreement under this section is in force or the Minister has given directions under subsection (5) or (6), the Minister may, having regard to additional information that has become available, by instrument in writing served on the licensee or licensees concerned give to the licensee or licensees such directions, or further directions, as the case may be, as the Minister thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(8) The Minister shall not give a direction under subsection (6) or (7) unless the Minister has given to the licensee or licensees concerned an opportunity to confer with the Minister concerning the proposed direction.

(9) Directions under subsection (5), (6) or (7) may include directions as to the rate at which petroleum is to be recovered.

(10) An agreement under this section is an instrument to which section 81 applies.

(11) The Minister shall—

- (a) if a petroleum pool extends, or is reasonably believed by the Minister to extend, from the adjacent area into lands to which the laws of another State or of the Northern Territory relating to the exploitation of petroleum resources apply—consult with the appropriate authority of that State or of the Northern Territory concerning the exploitation of the petroleum pool; or
- (b) if a petroleum pool extends, or is reasonably believed by the Minister to extend, from the adjacent area into the adjacent area in respect of a State (other than Queensland), within the meaning of the Commonwealth Act, or the adjacent area in respect of the Northern Territory, within the meaning of that Act—consult with

the Designated Authority under the Commonwealth Act in respect of that State or the Northern Territory concerning the exploitation of the petroleum pool; or

- (c) if both paragraphs (a) and (b) apply—comply with both of those paragraphs.

(12) Where subsection (11) applies in relation to a petroleum pool, the Minister shall not approve an agreement under this section, or give a direction under this section, in relation to that petroleum pool except with the approval of any other authority or Designated Authority required by that subsection to be consulted.

inform the applicant, by instrument in writing served on the applicant, that the Minister is prepared to grant a pipeline licence to the applicant.

(2) Where a licensee who has not complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations makes an application in accordance with section 64 for a pipeline licence in respect of the construction of a pipeline for the conveyance of petroleum recovered in the licensee area, the Minister, if the Minister is satisfied that, although the licensee has not so complied, special circumstances exist that justify the granting of a pipeline licence, may

inform the licensee, by instrument in writing served on the licensee, that the Minister is prepared to grant a pipeline licence to the licensee.

(3) If a licensee who has not complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations makes an application in accordance with section 64 for a pipeline licence, and if the Minister is not satisfied that special circumstances exist that justify the granting of a pipeline licence, the Minister shall, subject to subsection (4), by instrument in writing served on the licensee, refuse to grant a pipeline licence.

Term of the pipeline licence

67.(1) Subject to this Part, a pipeline licence remains in force—

- (a) for a period of 21 years; or
- (b) where the Minister is of the opinion that having regard to the dates of expiration of the licences that relate to the licence areas from which petroleum is, or is to be, conveyed by means of the pipeline, it is not necessary for the pipeline licence to remain in force for a period of 21 years—for such period less than 21 years as the Minister determines and specifies in the pipeline licence.

(2) The period for which a pipeline licence remains in force commences on the day on which the pipeline licence is granted.

Grant or refusal of renewal of pipeline licence

69.(1) Where the pipeline licensee makes an application for the renewal of the pipeline licence under section 68, the Minister—

- (a) shall, if the pipeline licensee has complied with the conditions to which the pipeline licence is subject and with the provisions of this Part and of the regulations; or
- (b) may, if the pipeline licensee has not so complied and the Minister is satisfied that, although the pipeline licensee has not so complied, special circumstances exist that justify the granting of the renewal of the pipeline licence;

inform the pipeline licensee, by instrument in writing served on the pipeline licensee—

- (c) that the Minister is prepared to grant to the pipeline licensee the renewal of the pipeline licence; and
- (d) that the pipeline licensee will be required to lodge a security for compliance with the conditions to which the pipeline licence, if the renewal is granted, will from time to time be subject and with the provisions of this Part and of the regulations.

(2) If a pipeline licensee who has not complied with the conditions to which the pipeline licence is subject and with the provisions of this Part and of the regulations makes an application under section 68 for the renewal of the pipeline licence, and if the Minister is not satisfied that special circumstances exist that justify the granting of the renewal of the pipeline licence, the Minister shall, subject to subsection (3), by instrument in writing served on the pipeline licensee, refuse to grant the renewal of the pipeline licence.

(3) The Minister shall not refuse to grant the renewal of the pipeline licence unless—

- (a) the Minister has, by instrument in writing served on the pipeline licensee, given not less than 1 month's notice of the Minister's intention to refuse to grant the renewal of the pipeline licence; and
- (b) the Minister has served a copy of the instrument on such other persons (if any) as the Minister thinks fit; and

- within the period referred to in subsection (5), the Minister shall grant to the licensee the renewal of the pipeline licence.
- (7)** Where a pipeline licensee on whom there has been served an instrument under subsection (1)—

- (a) has not made a request under subsection (5); or
- (b) has not lodged with the Minister the security referred to in the instrument;

within the period referred to in subsection (5), the application lapses upon the expiration of that period.

(8) Where—

- (a) an application for the renewal of a pipeline licence is made under section 68; and
- (b) the pipeline licence expires—
 - (i) before the Minister grants, or refuses to grant, the renewal of the pipeline licence; or
 - (ii) before the application lapses as provided by subsection (7);

the pipeline licence shall be deemed to continue in force in all respects—

- (c) until the Minister grants, or refuses to grant, the renewal of the pipeline licence; or
- (d) until the application so lapses;

whichever first happens.

Conditions of pipeline licence

70.(1) A pipeline licence may be granted subject to such conditions as the Minister thinks fit and specifies in the pipeline licence.

(2) The conditions referred to in subsection (1) may include a condition that the pipeline licensee shall complete the construction of the pipeline within the period specified in the pipeline licence.

(3) This section extends to a pipeline licence granted by way of the renewal of a pipeline licence and, in the case of a pipeline licence so granted, the conditions may include conditions varying or adding to the conditions of the previous licence and conditions requiring reconstruction or modification of the pipeline or of associated works.

Variation of pipeline licence on application of pipeline licensee

71.(1) A pipeline licensee may, at any time, make an application to the Minister for the variation of the pipeline licence.

(5) After considering any matters submitted to him or her under subsection (4) the Minister may, by instrument in writing, vary the pipeline licence to such extent as the Minister thinks necessary or may refuse to vary the pipeline licence.

Variation of pipeline licence by Minister

72.(1) The Minister may—

- (a) at the request of—
 - (i) a Minister of this State or a Minister of State of the Commonwealth; or
 - (ii) a body established by a law of the Commonwealth or of the State; and

by instrument in writing served on a person who is a pipeline licensee or the

holder of an instrument of consent under section 60 direct that person to make such changes in the design, construction, route or position of the pipeline, or of a water line, pumping station, tank station, valve station or secondary line to which the pipeline licence or instrument of consent relates, as are specified in the first mentioned instrument, within the period specified in the first mentioned instrument, and, if the person so directed is a pipeline licensee, shall vary the pipeline licence accordingly.

(2) A person to whom a direction is given under subsection (1) shall comply with the direction.

Maximum penalty—\$50 000 or imprisonment for 5 years.

(3) Where the Minister gives a direction under subsection (1), and the person to whom the direction was given has complied with the direction, that person may bring an action in the Supreme Court against the Minister of this State or Minister of State of the Commonwealth or body making the request.

(4) The Supreme Court shall hear the action, without a jury, and shall determine whether it is just that the whole or a portion of the reasonable cost of complying with the direction ought to be paid to the plaintiff by the defendant.

(5) If the Supreme Court determines that it is just that such a payment ought to be made, the Supreme Court shall determine the amount of the payment and give judgment accordingly.

Common carrier

73. The Minister may, by instrument in writing served on a pipeline licensee, direct the pipeline licensee to be a common carrier of petroleum in respect of the pipeline and thereupon the pipeline licensee is a common carrier of petroleum in respect of the pipeline.

Ceasing to operate pipeline

Maximum penalty—\$50 000 or imprisonment for 5 years.

(2) It is not an offence against subsection (1) if the failure of the pipeline licensee to operate the pipeline—

- (a) was in the ordinary course of operating the pipeline; or
- (b) was for the purpose of repairing or maintaining the pipeline; or
- (c) was in an emergency in which there was a likelihood of loss or injury.

Division 5—Registration of instruments

(2) Prescribed offences are misdemeanours within the meaning of the Criminal Code and the provisions of that code apply in relation to those offences and in relation to attempts to commit any of those offences.

(2A) Unless a contrary intention appears, offences against this Act, other than prescribed offences, are simple offences.

(2B) A person who attempts to commit an offence against this Act that is a simple offence is guilty of a simple offence and is punishable as if the person had committed the offence.

(3) When a person is charged before justices with a prescribed offence and it appears to the justices that the nature of the offence is such that the offender may be adequately punished upon summary conviction the justices may deal with the charge summarily if the person charged and the prosecutor consent to their so doing.

(4) However—

- (a)** a court of summary jurisdiction shall have jurisdiction to deal summarily with a charge of a prescribed offence under this subsection notwithstanding that more than 1 year has elapsed from the time the matter of complaint to which the charge relates arose;
- (b)** the penalty which a court of summary jurisdiction may impose in respect of an offence for which the person charged is dealt with summarily under this subsection is a fine not exceeding \$10 000 or imprisonment for a term not exceeding 2 years.

- (b) an order for the forfeiture of specified equipment used in the commission of the offence;
- (c) an order—
 - (i) for the forfeiture of specified petroleum recovered, or conveyed through a pipeline, as the case may be, in the course of the commission of the offence; or
 - (ii) for the payment by that person to the State of an amount equal to the proceeds of the sale of specified petroleum so recovered or conveyed; or
 - (iii) for the payment by that person to the State of an amount equal to the value at the wellhead, assessed by the Court, of the quantity, so assessed, of petroleum so recovered or conveyed or for the payment of such part of that amount as the Court, having regard to all the circumstances, thinks fit.

(2) Where the Court is satisfied that an order made under subsection (1)(c)(i) cannot, for any reason, be enforced, the Court may, upon the application of the person by whom the proceedings were brought, set aside the order and make either of the orders referred to in subsection (1)(c)(ii) or (iii).

(3) The Court may, before making an order under this section, require notice to be given to, and hear, such persons as the Court thinks fit.

- (b) by prepaying and posting the document as a letter addressed to that person at the person’s last known place of residence or business or, if the person is carrying on business at 2 or more places, at 1 of those places; or
- (c) by leaving the document at the last known place of residence of that person with some person apparently a resident of that place and apparently not less than 16 years of age; or
- (d) by leaving the document at the last known place of business of that person, or if the person is carrying on business at 2 or more places, at 1 of those places, with some person apparently in the service of that person and apparently not less than 16 years of age.

(2) A document required or permitted by this Act to be served on the Minister shall be served by prepaying and posting the document as a letter addressed to such officer or person as the Minister, by instrument published in the Gazette, specifies, at such place as the Minister specifies.

(3) A document required by this Act to be served upon a person, being a

corporation, shall be served—

- (a) by prepaying and posting the document as a letter addressed to the corporation at its last known place of business or, if it is carrying on business at 2 or more places, at 1 of those places; or
- (b) by leaving it at that place, or at 1 of those places, with some person apparently in the service of the corporation and apparently not less than 16 years of age.

(4) Where a document required by this Act to be served is posted as a letter in accordance with this section, service shall, unless the contrary is proved, be deemed to have been effected at the time at which the letter would have been delivered in the ordinary course of post.

Division 7—Fees and royalties

Permit fees

139. There is payable to the Minister by a permittee in respect of each year of the term of the permit—

- (a) a fee of \$300; or
- (b) a fee calculated at the rate of \$15 for each of the blocks to which the permit relates at the commencement of that year;

whichever is the greater.

Licence fees

140. There is payable to the Minister by a licensee, in respect of each year of the term of the licence, a fee calculated at the rate of \$9 000 for each of the blocks to which the licence relates at the commencement of that year.

Application of GST to permit and licence fees

140A. If a fee payable under section 139 or 140 is for a supply for which GST is payable, the fee payable is the total of—

- (a) the fee that would have been payable if the fee were not for a supply for which GST is payable; and

- (b) 10% of the fee that would have been payable if the fee were not for a supply for which GST is payable.

Pipeline licence fees

141. There is payable to the Minister by a pipeline licensee, in respect of each year of the term of the pipeline licence, a fee of \$40 in respect of each kilometre or portion of a kilometre of the length of the pipeline at the commencement of that year.

Time of payment of fees

142. A fee under section 139, 140 or 141 is payable within 1 month after—

- (a) in the case of the first year of the term of the permit, licence or pipeline licence—the day on which that term commenced; and
- (b) in the case of a year of the term of the permit, licence or pipeline licence other than the first—the anniversary of that day.

Royalty

143.(1) A permittee or licensee shall, subject to this Division, pay to the Minister royalty at the prescribed rate in respect of all petroleum recovered by the permittee or licensee in the permit area or licence area.

(2) Subject to subsections (3) to (8) and the provisions of section 144, the prescribed rate in respect of petroleum recovered under a permit or licence is 10% of the value at the wellhead of the petroleum.

(3) The prescribed rate in respect of petroleum recovered under a secondary licence is the percentage determined by the Minister in pursuance of section 42(1) in respect of petroleum so recovered.

(4) Where a secondary licence is granted to the holder of a primary licence, the prescribed rate in respect of petroleum recovered under the primary licence is, as from the commencement of the next royalty period after the day from which the secondary licence has effect, the same percentage as is applicable in respect of petroleum recovered under the secondary licence.

(5) Where—

- (a) a licence is granted on an application under section 47; and
- (b) the instrument served on the applicant under section 49 contains a statement that the applicant will be required to pay, in respect of petroleum recovered under that licence, royalty at the rate specified in that statement;

the prescribed rate in respect of petroleum recovered under that licence is the percentage specified in that statement.

(6) Where a licence is granted on an application under section 51(1), the prescribed rate in respect of petroleum recovered under that licence is the same percentage as was applicable in respect of petroleum recovered under the original licence as defined by that subsection.

(7) The prescribed rate in respect of petroleum recovered in the licence area referred to in a licence granted by way of renewal of a licence is the percentage that would be the prescribed rate of the licence so granted were the continuation in force of the previous licence.

(8) A reference in this section or in a permit or licence to royalty at the prescribed rate or royalty at the rate that is for the time being the prescribed rate shall be read as a reference to royalty at the rate that is or was the prescribed rate applicable in accordance with the provisions of this Act as in force from time to time.

Reduction of royalty in certain cases

144.(1) Where the Minister is satisfied that the rate of recovery of petroleum from a well has become so deduced that, having regard to the rate or rates of royalty applicable under section 143, further recovery of petroleum from that well would be uneconomic, the Minister may, by instrument in writing, determine that the royalty in respect of all or any of the petroleum recovered from that well on or after a date specified in the determination shall be at such rate (being a rate lower than the rate that would be applicable under section 143) as the Minister specifies.

(2) The prescribed rate in respect of petroleum to which a determination under subsection (1) is applicable is the rate specified in the determination.

(3) The Minister may, by instrument in writing, revoke or vary a

determination under subsection (1) and the revocation or variation applies to petroleum recovered on or after such date as is specified in the instrument.

Royalty not payable in certain cases

145.(1) Royalty under this Act—

- (a) is not payable in respect of petroleum that the Minister is satisfied was unavoidably lost before the quantity of that petroleum was ascertained; and
- (b) is not payable in respect of petroleum that is used by the permittee or licensee, as approved by the Minister, for the purposes of petroleum exploration operation or operations for the recovery of petroleum; and
- (c) is not payable in respect of petroleum that, with the approval of the Minister, is flared or vented in connection with operations for the recovery of petroleum.

(2) Where petroleum that has been recovered by a permittee or licensee is, with the approval of the Minister, returned to a natural reservoir, royalty under this Act is not payable in respect of that petroleum by reason of that recovery but this subsection does not affect the liability of that or any other permittee or licensee to pay royalty in respect of petroleum that is recovered from that natural reservoir.

Ascertainment of wellhead

146. For the purposes of this Act, the wellhead, in relation to any petroleum, is such valve station as is agreed between the permittee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such valve station as is determined by the Minister as being that wellhead.

Ascertainment of value

147. For the purposes of this Act, the value at the wellhead of any petroleum is such amount as is agreed between the permittee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such amount as is determined by the Minister as being that value.

Ascertainment of quantity of petroleum recovered

148. For the purposes of this Act, the quantity of petroleum recovered by a permittee or licensee from a well during a period shall be taken to be—

- (a) the quantity measured during that period by a measuring device approved by the Minister and installed at the wellhead or at such other place as the Minister approves; or
- (b) where no such measuring device is so installed, or the Minister is not satisfied that the quantity of petroleum recovered by the permittee or licensee from that well has been properly or accurately measured by such a measuring device—the quantity determined by the Minister as being the quantity recovered by the permittee or licensee from that well during that period.

Payment of royalty

149. Royalty under this Act in respect of petroleum recovered during a royalty period is payable not later than the last day of the next succeeding royalty period.

Penalty for late payment

150.(1) Where a fee or an amount of royalty under this Act is not paid under this Division at or before the time when the fee or the amount of royalty is payable there is payable to the Minister by the permittee, licensee or pipeline licensee an additional amount calculated at the rate of $\frac{1}{3}$ of 1% per day upon the amount of the fee or royalty from time to time remaining unpaid to be computed from the time when the amount became payable until it is paid.

(2) An additional amount in respect of royalty is not payable under subsection (1) in respect of any period before the expiration of 7 days after the value of the petroleum was agreed or determined under section 147.

Fees and penalties debts due to the State

151. A fee royalty or other amount payable under this Division is a debt due by the permittee, licensee or pipeline licensee to the State and is recoverable in a court of competent jurisdiction.

- (a) happened before the commencement of this section; or
- (b) started before the commencement and finishes after the commencement.

(5) It is declared that for the application of the *Petroleum Act 1923*, section 70A(2), the PNG–Queensland gas project selection process is taken to be a competitive selection process for the grant of a pipeline licence, unless, before the grant of the licence, the Minister declares the process is not competitive.

(4) The regulations may provide, in respect of an offence against the regulations, for the imposition of—

- (a) a fine not exceeding \$10 000; or
- (b) a fine not exceeding that amount for each day on which the

offence occurs.

Effect of Mineral Resources (Adjacent Submarine Areas) Act 1964

153. In so far as the provisions of the *Mineral Resources (Adjacent Submarine Areas) Act 1964* are inconsistent with the provisions of this Act, the provisions of this Act shall prevail.

SCHEDULE 1**CONVENTION ON THE CONTINENTAL SHELF**

section 4(1)

*The States Parties to this Convention
have agreed as follows:*

ARTICLE 1

For the purpose of these articles, the term “continental shelf” is used as referring (a) to the sea-bed and subsoil of the submarine areas adjacent to the coast but outside the area of the territorial sea, to a depth of 200 metres or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of the said areas; (b) to the sea-bed and subsoil or similar submarine areas adjacent to the coasts of islands.

ARTICLE 2

1. The coastal State exercises over the continental shelf sovereign rights for the purpose of exploring it and exploiting its natural resources.

2. The rights referred to in paragraph 1 of this article are exclusive in the sense that if the coastal State does not explore the continental shelf or exploit its natural resources, no one may undertake these activities, or make a claim to the continental shelf, without the express consent of the coastal State.

3. The rights of the coastal State over the continental shelf do not depend on occupation, effective or notional, or on any express proclamation.

4. The natural resources referred to in these articles consist of the mineral and other non-living resources of the sea-bed and subsoil together with living organisms belonging to sedentary species, that is to say, organisms which, at the harvestable stage, either are immobile on or under the sea-bed or are unable to move except in constant physical contact with the sea-bed or the subsoil.

SCHEDULE 1 (continued)

ARTICLE 3

The rights of the coastal State over the continental shelf do not affect the legal status of the superjacent waters as high seas, or that of the airspace above those waters.

ARTICLE 4

Subject to its right to take reasonable measures for the exploration of the continental shelf and the exploitation of its natural resources, the coastal State may not impede the laying or maintenance of submarine cables or pipelines on the continental shelf.

ARTICLE 5

1. The exploration of the continental shelf and the exploitation of its natural resources must not result in any unjustifiable interference with navigation, fishing or the conservation of the living resources of the sea, nor result in any interference with fundamental oceanographic or other scientific research carried out with the intention of open publication.

2. Subject to the provisions of paragraphs 1 and 6 of this article, the coastal State is entitled to construct and maintain or operate on the continental shelf installations and other devices necessary for its exploration and the exploitation of its natural resources, and to establish safety zones around such installations and devices and to take in those zones measures necessary for their protection.

3. The safety zones referred to in paragraph 2 of this article may extend to a distance of 500 metres around the installations and other devices which have been erected, measured from each point on their outer edge. Ships of all nationalities must respect these safety zones.

4. Such installations and devices, though under the jurisdiction of the coastal State, do not possess the status of islands. They have no territorial sea of their own, and their presence does not affect the delimitation of the territorial sea of the coastal State.

5. Due notice must be given of the construction of any such installations, and permanent means for giving warning of their presence must be maintained. Any installations which are abandoned or disused must be entirely removed.

SCHEDULE 1 (continued)

6. Neither the installations or devices, nor the safety zones around them, may be established where interference may be caused to the use of recognized sea lanes essential to international navigation.

7. The coastal State is obliged to undertake, in the safety zones, all appropriate measures for the protection of the living resources of the sea from harmful agents.

8. The consent of the coastal State shall be obtained in respect of any research concerning the continental shelf and undertaken there. Nevertheless the coastal State shall not normally withhold its consent if the request is submitted by a qualified institution with a view to purely scientific research into the physical or biological characteristics of the continental shelf, subject to the proviso that the coastal State shall have the right, if it so desires, to participate or to be represented in the research, and that in any event the results shall be published.

ARTICLE 6

1. Where the same continental shelf is adjacent to the territories of two or more States whose coasts are opposite each other, the boundary of the continental shelf appertaining to such States shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary is the median line, every point of which is equidistant from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

2. Where the same continental shelf is adjacent to the territories of two adjacent States, the boundary of the continental shelf shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary shall be determined by application of the principle of equidistance from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

3. In delimiting the boundaries of the continental shelf, any lines which are drawn in accordance with the principles set out in paragraphs 1 and 2 of this article should be defined with reference to charts and geographical features as they exist at a particular date, and reference should be made to fixed permanent identifiable points on the land.

SCHEDULE 1 (continued)

ARTICLE 7

The provisions of these articles shall not prejudice the right of the coastal State to exploit the subsoil by means of tunnelling irrespective of the depth of water above the subsoil.

ARTICLE 8
