- (a) building work, the certification of building work and the occupation of buildings;
- (b) matters relating to the accrediting of building certifiers.

(2) In carrying out building work or in occupying a building a person must comply with the Standard Building Regulation even if a development permit given by an assessment manager is contrary to the Standard Building Regulation.

(3) In this section—

“**Standard Building Regulation**” includes any variation, exception or exemption to the Standard Building Regulation permitted by this Act.⁶

Variation of how Standard Building Regulation may apply

5.(1) This section applies if building work is proposed to be carried out, is being carried out or has been carried out, and the building work will not, or does not, comply in all respects with the Standard Building Regulation.

(2) A person may apply to the chief executive to vary how the Standard Building Regulation applies to the building work.

(3) An application may not be made under this section if the Standard Building Regulation permits an assessment manager or private certifier to exercise discretion about the matter for which the variation is sought.

⁶ Under the *Acts Interpretation Act 1954*, section 7, reference to the Act includes reference to the Standard Building Regulation.

(4) The application must be made in the approved form and be accompanied by the fee prescribed under a regulation.

(5) If the application is about building work proposed to be carried out and for which a development application has been made under the *Integrated Planning Act 1997*, the IDAS process under that Act—

- (a) stops on the day the application is received by the chief executive; and
- (b) starts again the day the chief executive gives the applicant written notice under section 6(5).

Deciding application to vary how Standard Building Regulation will apply

6.(1) If there is an assessment manager or a private certifier for the building work, the chief executive must consult with the assessment manager or the private certifier about the application before deciding it.

(2) The chief executive may consult with any other person about the application before deciding it.

(3) After considering the application, the chief executive must decide to—

- (a) vary how the Standard Building Regulation applies to the building work; or
- (b) refuse to vary how the Standard Building Regulation applies to the building work.

(4) The chief executive must decide the application within 20 business days after the application is made.

(5) The chief executive must, within 5 business days after deciding the application, give written notice of the decision to—

- (a) the applicant; and
- (b) if there is an assessment manager or private certifier for the building work—the assessment manager or private certifier.

(6) Subsection (1) does not apply to building work carried out by or on behalf of the State.

7.(1) The applicant, may, in the application, ask the chief executive to decide the application within 2 business days after making the application.

(2) A request made under subsection (1) must be accompanied by the fee prescribed under a regulation.

(3) The chief executive may grant or refuse the request.

(4) If the chief executive grants the request, the chief executive may, as a condition of granting the request, require the applicant to pay any reasonable additional costs that would be incurred by the chief executive in deciding the application within the 2 business days.

Appeal from chief executive's decision

8.(1) If the applicant is dissatisfied with the chief executive's decision, the applicant may appeal to a tribunal against the decision under the *Integrated Planning Act 1997*.

(2) The appeal must be started within 20 business days after the day notice of the decision is given to the applicant.

Effect of variation of Standard Building Regulation

9.(1) This section applies if the chief executive decides to vary how the Standard Building Regulation applies to the building work.

(2) Subject to any appeal against the chief executive's decision, the Standard Building Regulation, as varied by the decision, applies to the building work.

(3) An assessment manager or private certifier must not refuse to approve an application for building work to which the chief executive's decision relates merely on the ground that the building work does not comply with the Standard Building Regulation.

How changes to Standard Building Regulation may affect certain building work to be carried out

10.(1) This section applies to building work if—

- (a) the lawful carrying out of the work starts before the Standard Building Regulation is amended; or
- (b) approval to carry out the work is given before the Standard Building Regulation is amended, but the work does not start before the amendment commences; or
- (c) application to carry out the work is made before the Standard Building Regulation is amended, but the application is not decided before the Standard Building Regulation is amended; or
- (d) planning for carrying out the work started before the Standard Building Regulation is amended and the person deciding the application is satisfied that to require the work to be replanned to conform with the Standard Building Regulation after the amendment would cause financial hardship to the person for whom the work is to be carried out having regard to the following—
 - (i) the stage the planning has reached;
 - (ii) the nature of the work;
 - (iii) the means and circumstances of the person.

(2) For subsection (1)—

- (a) the work is lawfully carried out if the work is carried out in accordance with the Standard Building Regulation in force immediately before the amendment; and
- (b) approval for the work may be given if the approval is given in accordance with the Standard Building Regulation in force immediately before the amendment.

(3) For subsections (1) and (2), an amendment of the Standard Building Regulation includes an amendment of the Building Code of Australia.

Alterations to safe existing work

11.(1) If an application for building work is for adding to or altering a building or other structure, the work must comply with the Standard Building Regulation in force at the time the application for the work is approved.

(2) However, if the person approving the application is satisfied the general safety and structural standards of the building or structure would not be at risk if the addition or alteration were carried out in accordance with the Standard Building Regulation or a local law in force in a local government area at a particular time before the application was made, the person may approve that the work be carried out in accordance with the Standard Building Regulation or local law in force at that time.

Alterations to unsafe existing work

12.(1) This section applies if an application for building work is for adding to or altering a building or other structure and the person approving the application is satisfied the building or structure is unsafe or structurally unsound.

(2) The person approving the application may require, as a condition of approving the application, that all or part of the building or structure conform with the Standard Building Regulation in force—

- (a) at the time the application is approved; or
- (b) at a time as will ensure the building or structure is made safe and structurally sound.

PART 3—SWIMMING POOL FENCING

Local law for fencing of swimming pools

13.(1) This section applies if a local government has a local law requiring—

- (a) the construction of fencing around swimming pools; or
- (b) doors, windows and other openings giving access to swimming pools to comply with the local law.

(2) The local law has effect only if the local law can reasonably be characterised as being directed to inhibiting young children from accessing swimming pools.

- (3) A local law is of no effect if the local law—
- (a) requires the construction of fencing around swimming pools on land used, or to be used, for a tourist resort complex and the land is specified under a regulation; or
 - (b) allows the construction of fencing around outdoor swimming pools on residential land to a standard less effective than the standard required by section 14.

Outdoor swimming pools must be fenced

14.(1) This section applies if an outdoor swimming pool is to be constructed or installed on, or is on, residential land.

(2) Before the pool is intentionally filled by the owner with water to a depth of 300 mm or more, the owner of the land must construct around the pool, fencing that complies with the design, construction and performance standards (the “**standards**”) prescribed under a regulation.

Maximum penalty—165 penalty units.

- (3) The owner must—
- (a) keep the fencing in good condition; and
 - (b) at all times, ensure the fencing complies with the standards applying at the time of construction.

Maximum penalty—165 penalty units.

(4) If the fencing no longer complies with the standards applying at the time of construction because the owner or occupier of adjoining land has constructed or placed something on the adjoining land, the owner of the land with the pool on it is not required to construct additional fencing or change existing fencing to comply with the standards.

Application for exemption from fencing

15.(1) An owner of residential land on which there is an outdoor swimming pool, or on which an outdoor swimming pool is to be constructed or installed, may apply to the local government for exemption from complying with section 14(2).

(2) The local government may grant the application only if it is satisfied it is unlikely a young child would gain access to the pool because of—

- (a) the physical nature or location of the land concerned; or
- (b) the design or construction of the pool or fencing; or
- (c) the location of the pool or fencing.

(3) The local government may grant the application subject to the conditions the local government considers appropriate to inhibit young children accessing the pool.

(4) If an application is made under this section, the local government must decide the application within 5 business days after the application is made.

(5) As soon as practicable after making the decision, the local government must give the owner written notice of the decision.

(6) The notice must state—

- (a) the reasons for the decision; and
- (b) the decision may be appealed to a tribunal under the *Integrated Planning Act 1997*; and
- (c) the appeal must be made within 20 business days after the day the owner receives the notice.

(7) The owner of the land must comply with each condition attached to the exemption.

Maximum penalty for subsection (7)—165 penalty units.

Revocation of decisions or previous variations

16.(1) This section applies if, in relation to fencing around an outdoor swimming pool on residential land, a local government has previously made a decision or given a variation and the local government is satisfied 1 or more of the following has happened—

- (a) the decision or variation was based on a false or misleading particular given by the owner of the land;
- (b) a significant change has happened so that reasonable provision no longer exists for inhibiting access by young children to the pool;

Building Act 1975

(c) if the decision or variation was subject to conditions—the owner has contravened a condition.

(2) The local government must give the owner a show cause notice inviting the owner to show cause why the decision or variation should not be revoked.

(3) Subsection (2) applies only if the work the owner must do to comply with section 14(2) is not of a minor nature.

(4) After considering any representations made to it under the show cause notice, the local government may, by a further written notice (a “**revocation notice**”) given to the owner, revoke the decision or variation previously given.

(5) The revocation notice must specify—

- (a) what the owner must do to comply with section 14(2); and
- (b) the day by which the work must be done.

(6) The owner must comply with the revocation notice.

Maximum penalty for subsection (6)—165 penalty units.

(7) If the owner fails to perform the work required to be performed under the revocation notice, the failure is taken to be a failure mentioned in the *Local Government Act 1993*, section 1066.⁷

(8) In this section—

“**variation**” means a variation given under section 30M as in force immediately before the commencement of the *Building and Integrated Planning Amendment Act 1998*, part 2.⁸

Advice as to compliance

17.(1) The owner of residential land on which there is an outdoor swimming pool may make written application to the local government for written advice as to whether the fencing around the pool complies with

⁷ *Local Government Act 1993*, section 1066 (Performing work for owner or occupier)

⁸ Section 30M (Variations), was repealed by the *Building and Integrated Planning Amendment Act 1998*.

section 14(2).

(2) If an application is made under subsection (1), the local government must—

- (a) decide if the fencing complies with section 14(2); and
- (b) give the owner written notice of its decision within 10 business days after receiving the application.

(3) If the local government decides the fencing does not comply with section 14(2), the local government must—

- (a) include in the written notice given under subsection (2) the reasons why the fencing does not comply; and
- (b) advise the owner what must be done to make the fencing comply with section 14(2).

(4) The owner must comply with the notice.

Maximum penalty—165 penalty units.

Access to outdoor swimming pools must be kept secure

18. The occupier of residential land on which there is an outdoor swimming pool must ensure that any gate or door giving access to the pool is kept securely closed at all times when the gate or door is not in use.

Maximum penalty—165 penalty units.

Apportionment of cost of constructing dividing fence

19.(1) The cost of constructing, altering, repairing, replacing and maintaining an outdoor swimming pool fence consisting of the whole or part of a dividing fence is, to the extent it is attributable to work done to comply with section 14(2), to be borne—

- (a) by the owner of the residential land on which the pool is constructed or installed; or
- (b) if the work or part of the work is done to comply with this part in relation to more than 1 parcel of residential land—equally by the owners of the parcels of land where the pools are constructed or installed.

(2) Subsection (1) applies despite the *Dividing Fences Act 1953*.

(3) A local law mentioned in section 13(1) does not limit the discretion of a Magistrates Court under the *Dividing Fences Act 1953*.

(6) The magistrate may issue the warrant only if the magistrate is satisfied there is a proper reason for entering and inspecting the building.

(7) The warrant must state—
