Attachment (continued)

- (a) a distribution system; or
- (b) a transmission system,
owned, controlled or operated by that network service provider, the prospective network service user, network service user or network service provider may notify the AER, in writing, that an access dispute exists.

Note—

Access dispute is defined in section 2A.

- (2) A notification must be accompanied by the fee (if any) prescribed by the Regulations.
- (3) On receiving a notification under subsection (1), the AER must notify, in writing, of the access dispute—
 - (a) the network service provider, if a prospective network service user or network service user (as the case requires) notified the AER of the access dispute under subsection (1);
 - (b) the prospective network service user or network service user (as the case requires), if the network service provider notified the AER of the access dispute under subsection (1).

Division 3 Access determinations**128 Determination of access dispute**

- (1) Unless the AER terminates an access dispute under section 131, the AER must, subject to this Part and the Rules, make a determination on access by (as the case requires) the prospective network service user or network service user.

Note—

- (b) in effect at the time the determination is made,
(even though that determination may not have been in force when notification of the access dispute was given).

Division 4 Variation of access determinations

135 Variation of access determinations

- (1) The AER may vary an access determination on the application of any party to the determination. However, it cannot vary the final determination if any other party objects.

Note—
