Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the authorised version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

Transport Operations (Marine Pollution) Act 1995

[as amended by all amendments that commenced on or before 18 May 2008]

An Act to protect Queensland's marine and coastal environment by minimising deliberate and negligent discharges of ship-sourced pollutants into coastal waters, and for related purposes

Part 1 Preliminary

Division 1 Introduction

1 Short title

This Act may be cited as the *Transport Operations (Marine Pollution) Act 1995*.

Division 2 Act's overall purpose

3 Overall purpose

- (1) The overall purpose of this Act is to protect Queensland's marine and coastal environment by minimising deliberate and negligent discharges of ship-sourced pollutants into coastal waters.
- (2) This purpose is to be achieved primarily by giving effect to relevant provisions of the following annexes of MARPOL—
 - Annex I (which deals with pollution by oil)
 - Annex II (which deals with pollution by noxious liquid substances in bulk)

- Annex III (which deals with pollution by harmful substances in packaged form)
 - Annex IV (which deals with pollution by sewage)
 - Annex V (which deals with pollution by garbage).
- (3) The purpose is also to be achieved by—
- (a) providing an approach to protecting Queensland’s marine and coastal environment from ship-sourced pollutants complementary to the approach of the Commonwealth and the other States; and
 - (b) making provision about the discharge of sewage from ships; and
 - (c) giving power to deal with shipping casualties that are polluting, or threatening to pollute, coastal waters; and
 - (d) enhancing, through education processes, industry and community awareness of the effects of ship-sourced pollutants on Queensland’s marine and coastal environment; and
 - (e) providing for the imposition of severe penalties on persons who pollute Queensland’s marine and coastal environment in contravention of this Act.

Division 3 Interpretation

4 Definitions—the dictionary

- (1) A dictionary in the schedule defines particular words used in this Act.
- (2) Definitions found elsewhere in the Act are signposted in the dictionary.

5 Words and expressions used in MARPOL and this Act

- (1) Words and expressions used in MARPOL (other than in an annex) and this Act have the same meanings in this Act they have in MARPOL.
- (2) Subsection (1) applies—

- (a) whether or not a particular word or expression is defined in MARPOL; and
 - (b) subject to sections 25, 34, 41, 46, 54 and 60.
- (3) Except as far as the context or subject matter otherwise indicates or requires, if a word or expression is defined in MARPOL (other than in an annex) and this Act—
- (a) this Act's definition does not limit or exclude, but may extend, the meaning of the word or expression given under MARPOL; and
 - (b) the definitions are to be read in the context of each other and the other provisions of this Act, but, if the definitions so read are inconsistent, the MARPOL definition is displaced.

6 Meaning of *MARPOL*

- (1) *MARPOL* is the International Convention for the Prevention of Pollution from Ships, 1973—
- (a) as corrected by the procès-verbal of rectification dated 13 June 1978; and
 - (b) as modified and added to by the 1978 Pollution Protocol relating to the Convention; and
 - (c) as affected by any amendment made under article 16 of the Convention and accepted by Australia.
- (2) A regulation must be made before the commencement of this Act setting out a copy of the English text of the provisions of MARPOL as in force at the commencement.
- (3) If an amendment to MARPOL is made under article 16 of the Convention and accepted by Australia, a regulation must be made setting out the English text of the provisions of MARPOL as in force at that time.
- (4) However, in interpreting this Act, MARPOL is taken to be the copy of the English text from time to time set out in the regulations.

7 Meaning of *agent*

- (1) An *agent* of a ship owner is the person who, for the owner—
 - (a) performs a function under the *Transport Operations (Marine Safety) Act 1994* or the *Transport Infrastructure Act 1994*, chapter 5A;¹ or
 - (b) makes an arrangement for berthing the ship, or loading or unloading cargo on or from the ship, in the State; or
 - (c) makes an arrangement for the ship to load bunkers or stores in the State.
- (2) The person remains the ship owner's agent until—
 - (a) the person, or the ship owner, gives the general manager written notice that the person is no longer the ship's agent; or
 - (b) someone else in the State is appointed by the ship owner as agent; or
 - (c) the ship goes outside coastal waters.
- (3) If subsection (2)(a) and (b) do not apply, the person again becomes the ship owner's agent when the ship returns to coastal waters.

7A Meaning of *length overall*

- (1) The *length overall* of a ship is the distance in the fore and aft line from the foremost part of the hull of the ship to the aftermost part of the hull of the ship taken at the upper weather tight deck or, for an open ship, at the height of the gunwale.
- (2) However, the length overall of the ship does not include the length of appendages to the hull.

Example—

A bowsprit or boarding platform is not taken into account when measuring the length overall of a ship.

¹ *Transport Infrastructure Act 1994*, chapter 5A has been renumbered as chapter 8 (Port infrastructure and other matters).

Division 4 Operation of Act

8 Act binds all persons

This Act binds all persons, including the State, and, so far as the legislative power of the Parliament permits, the Commonwealth and the other States.

9 Discharge outside coastal waters that enters coastal waters

- (1) The discharge of a pollutant, whether or not in packaged form, that happens outside coastal waters is taken to be a discharge into coastal waters under this Act if the discharged pollutant enters coastal waters.
- (2) The discharge is taken to happen when the discharged pollutant enters coastal waters.

Part 2 Information about this Act

10 Why this Act was enacted

- (1) In 1973, the international community responded to worldwide concern about the threat to the marine environment and coastlines posed by the discharge of ship-sourced pollutants.
- (2) The international community's response was the International Convention for the Prevention of Pollution from Ships, 1973.
- (3) The Convention, for the first time, set international standards for the proper construction of ships designed to carry oil and noxious substances and laid down rules about the level of discharges that may be made into the sea without risk to the marine environment.
- (4) The Convention, as amended, is known as MARPOL.²

² See section 6 for the precise meaning of MARPOL for this Act.

- (5) MARPOL was ratified by Australia in 1987.
- (6) This Act gives effect to MARPOL by—
 - (a) enacting as part of Queensland’s law provisions to give effect to relevant provisions of MARPOL; and
 - (b) providing a legislative framework in which the provisions can be enforced.
- (7) This approach complements the approach adopted by the Commonwealth and the other States.

11 Queensland’s jurisdiction

- (1) The body of law governing Australian waters is extremely complex and this section is intended to provide only a very general overview of the State’s jurisdiction in the territorial sea.
- (2) Queensland’s jurisdiction in the territorial sea is limited under the *Coastal Waters (State Powers) Act 1980* (Cwlth).
- (3) Because of this limitation, this Act only deals with discharges from ships that happen, or are taken to happen, in the first 3n miles of the territorial sea and other coastal waters subject to the ebb and flow of the tide.
- (4) These waters are referred to as coastal waters³ in this Act.
- (5) Waters beyond the 3n mile limit come under Commonwealth jurisdiction to the extent that Australia has jurisdiction.

12 The ships this Act applies to

This Act applies to all ships in coastal waters.

13 Ship construction, survey and certification

Issues about ship construction, survey and certification are generally dealt with under the Marine Safety Act.

³ See the dictionary in the schedule for the precise meaning of coastal waters for this Act.

14 How this Act interacts with other environmental laws

- (1) This Act deals with the discharge of pollutants into coastal waters happening from ships or because of transfer operations involving ships.
- (2) If a pollutant is discharged into coastal waters from another source, other environmental laws may apply.⁴

Part 3 Marine pollution strategies**Division 1 Development and approval of strategies****15 Development and approval of marine pollution strategies**

- (1) The chief executive must, from time to time, develop for the Minister's approval strategies designed to give effect to the transport coordination plan to protect Queensland's marine and coastal environment from the effects of the deliberate, negligent or accidental discharge of ship-sourced pollutants into coastal waters.
- (2) In developing marine pollution strategies, the chief executive must take reasonable steps to engage in public consultation.
- (3) The Minister may, at any time, direct the chief executive to prepare new marine pollution strategies for the Minister's approval or to amend marine pollution strategies in the way the Minister directs.
- (4) The Minister may approve marine pollution strategies submitted for approval or require the chief executive to amend the strategies in the way the Minister directs.
- (5) The Minister must table a copy of each marine pollution strategy, and each amendment of a marine pollution strategy,

⁴ See, for example, the *Environmental Protection Act 1994*.

approved by the Minister in the Legislative Assembly within 5 sitting days after its approval.

16 Contents of marine pollution strategies

- (1) Marine pollution strategies must include—
 - (a) a statement of the specific objectives sought to be achieved; and
 - (b) proposals for the provision of marine pollution prevention initiatives and related marine operational initiatives; and
 - (c) criteria for deciding priorities for government spending on marine pollution prevention initiatives and related marine operational initiatives, and options for raising the necessary finance; and
 - (d) appropriate performance indicators for deciding whether, and to what extent, the objectives of the strategies have been achieved.
- (2) Marine pollution strategies must take account of—
 - (a) Australia's international obligations about marine pollution prevention, including its obligations under MARPOL; and
 - (b) agreements or arrangements between the State and the Commonwealth, other States and local governments about marine pollution prevention initiatives.

Division 2 Marine pollution prevention and response programs

17 Development and approval of marine pollution prevention and response programs

- (1) Before the start of each financial year, the chief executive must develop for the Minister's approval marine pollution prevention and response programs for the year and for 1 or more later years.

- (2) Marine pollution prevention and response programs must include—
 - (a) the policies, projects and financial provisions for carrying out marine pollution strategies; and
 - (b) the performance targets to be achieved.
- (3) Marine pollution prevention and response programs may include proposals to spend amounts on programs other than marine pollution if the spending may contribute to the minimisation of marine pollution in coastal waters.
- (4) In developing marine pollution prevention and response programs, the chief executive must take reasonable steps to consult with government agencies, port authorities, local governments, sectors of the maritime industry and community and interest groups that, in the chief executive's opinion, would be affected by the programs.
- (5) Marine pollution prevention and response programs are to be made publicly available in the way decided by the Minister.
- (6) The Minister may at any time direct the chief executive to amend marine pollution prevention and response programs.
- (7) The Minister may approve marine pollution prevention and response programs that are submitted for approval or require the chief executive to amend the programs in the way the Minister directs.

18 Consistency with marine pollution strategies

- (1) Subject to directions of the Minister, marine pollution prevention and response programs must be consistent with marine pollution strategies.
- (2) If the Minister gives a direction under this section that results in a marine pollution prevention and response program being inconsistent with a marine pollution strategy, the Minister must table a copy of the direction in the Legislative Assembly within 5 sitting days after it is given.

19 Report on operation of marine pollution prevention and response programs

Each annual report of the department must include a report on the operation of the marine pollution prevention and response programs during the financial year to which the annual report relates.

Division 3 Obligations of marine pollution strategies**20 Division's purpose**

This division is intended to ensure value for money for resources applied to preventing marine pollution.

21 Obligations about marine pollution

The chief executive must ensure marine pollution strategies are developed in a way that—

- (a) takes into account national and international benchmarks and international best practice; and
- (b) promotes, within overall transport operations, the safe transport of persons and goods and the protection and conservation of Queensland's marine and coastal environment.

22 Report on giving effect to s 21

The department's annual report must include a report on the way in which effect has been given to section 21 during the financial year to which the report relates.

Part 4 Prevention of pollution by oil

Division 1 Purpose of part

23 Part gives effect to Annex I to MARPOL

The purpose of this part is to give effect to relevant provisions of Annex I to MARPOL.

Division 2 Interpretation

24 Definitions for part

In this part—

discharge offence means an offence against section 26(1) or 27(1).

oil includes an oily mixture.

25 Words and expressions used in Annex I to MARPOL and this part

- (1) Words and expressions used in Annex I to MARPOL and this part have the same meanings in this part they have in the annex.
- (2) Subsection (1) applies whether or not a particular word or expression is defined in Annex I.
- (3) Except as far as the context or subject matter otherwise indicates or requires, if a word or expression is defined in Annex I to MARPOL and this part—
 - (a) this part's definition does not limit or exclude, but may extend, the meaning of the word or expression given under Annex I; and
 - (b) the definitions are to be read in the context of each other and the other provisions of this Act, but, if the definitions so read are inconsistent, the Annex I definition is displaced.

Division 3 Discharge of oil prohibited

26 Discharge of oil into coastal waters prohibited

- (1) If oil is discharged from a ship into coastal waters, the following persons each commit an offence—
- (a) the ship's owner;
 - (b) the ship's master;
 - (c) another member of the ship's crew whose act caused or contributed to the discharge, unless the member was complying with an instruction from the master or of someone authorised by the master to give the instruction.

Maximum penalty—3500 penalty units.

- (2) Subsection (1) applies despite the Criminal Code, sections 23 and 24.⁵

27 Oil residues

- (1) If any oil residues that cannot be discharged from a ship without contravening section 26(1) are not retained on board the ship while the ship is in coastal waters, the ship's master and owner each commit an offence.⁶

Maximum penalty—3500 penalty units.

Example—

A ship leaves port A with a quantity of oil residues held in a tank or space and, without leaving coastal waters, arrives at port B with a lesser quantity in the tank or space. This subsection places an onus on the ship's master to explain why there is a discrepancy in the quantity.

5 The Criminal Code, section 23 deals with a person's criminal responsibility for an act or omission that happens independently of the person's will or for an event which is accidental. The Criminal Code, section 24 deals with a person's criminal responsibility for an act or omission done under an honest and reasonable, but mistaken, belief in the state of things.

6 See Annex I, regulation 9(6).

- (2) If an event contravenes subsection (1) and section 26(1), the ship's owner and master cannot be punished for the event under both provisions.

 - (b) the discharge resulted from damage, other than intentional damage, to the ship or its equipment and all reasonable precautions were taken after the damage happened or the discharge was discovered to prevent or minimise the discharge of the oil;
 - (c) for an oily mixture—the discharge was made to combat specific pollution incidents to minimise the damage from pollution and was approved by an authorised officer;
 - (d) the discharge was authorised by an authorised officer for training purposes.
- (2) For subsection (1)(b), damage to a ship or its equipment is intentional damage only if the damage arose in circumstances in which the ship's owner or master or, for a discharge offence against section 26(1), another member of the ship's crew—
- (a) acted with intent to cause damage; or

Division 6 Response action to discharge and authorised officer's emergency powers

92 Purpose of division

The purpose of this division is to enable the State, through powers given to the marine pollution controller and authorised officers under this Act, to direct and coordinate the response to a discharge or probable discharge of pollutant into coastal waters.

93 State has prime responsibility for directing emergency response

- (1) This section applies if there is a discharge or probable discharge of pollutant into coastal waters (a *relevant discharge*).
- (2) The State has prime responsibility for directing and coordinating the response to a relevant discharge.
- (3) The State may enter into an agreement with a port authority about the port authority responding to a relevant discharge within the port limits of the port.
- (4) To the extent stated in either of the following agreements between the State and a port authority, the port authority has responsibility within the port limits of the port for directing and coordinating the State's response if there is a relevant discharge within the port limits—
 - (a) an agreement under subsection (3);

- (b) an agreement of the type mentioned in subsection (3) entered into before the commencement of this subsection.
- (5) The State or port authority may consult with other interested agencies and entities and local governments in preparing a response to a relevant discharge.

- (1) To facilitate the State's fulfilment of its responsibility under section 93(2), there is to be a marine pollution controller.
- (2) The marine pollution controller is the general manager.
- (3) The function of the marine pollution controller is to direct and coordinate, for the State, the response by the State and other entities if—
 - (a) there is a discharge, or probable discharge, of pollutant into coastal waters; and
 - (b) the discharge, or probable discharge, is serious or potentially serious.
- (4) The marine pollution controller may perform his or her function under this section only if the marine pollution controller—

- (1) Civil liability does not attach to a protected person because of anything done or omitted to be done under this division as or for the marine pollution controller in good faith without reckless disregard for the possible occurrence of the personal injury or loss or damage to property from which liability would arise, if this section did not apply.
- (2) If subsection (1) prevents a civil liability attaching to a protected person, the liability attaches instead to the State.
- (3) In this section—
protected person means—
 - (a) the marine pollution controller; or
 - (b) a person acting under the direction of the marine pollution controller.

94 Emergency declaration may overrule local law

- (1) The Minister may, by emergency declaration, declare a local law that is inconsistent with, or hinders, the State's response to a serious discharge of pollutant into coastal waters is of no effect to the extent, and for the period (not longer than 14 days), mentioned in the Minister's declaration.
- (2) However, the Minister may make the emergency declaration only if the Minister is satisfied that urgent action is needed to deal with the discharge.
- (3) The declaration must state it is an emergency declaration and outline the nature of the emergency.
- (4) The Minister is not required to engage in consultation about the declaration.
- (5) The Minister must notify the declaration in the gazette and may publish it in other ways the Minister considers appropriate having regard to the emergency.
- (6) The Minister must repeal the declaration as soon as possible after the Minister is satisfied the emergency no longer exists.

- (7) Unless it is earlier repealed, the declaration expires 14 days after it is gazetted.
- (8) An emergency declaration is subordinate legislation.

95 Authorised officer's powers in an emergency

- (9) If a person or thing is obstructing or preventing an authorised officer from boarding a ship or entering a place or taking action on or at any ship or place while the authorised officer is exercising or attempting to exercise emergency powers, a police officer may, if asked by the authorised officer, using any necessary and reasonable force—
- (a) remove the person or thing from the place; and
 - (b) take all reasonable measures to ensure the person or thing does not again obstruct or prevent the action being taken.
- (10) In exercising or attempting to exercise emergency powers, an authorised officer must take all reasonable steps to ensure the officer causes as little inconvenience, and does as little damage, as is practicable in the circumstances.
- (11) This section does not limit any power an authorised officer has apart from this section.
- (12) If an authorised officer authorises a person to take action under subsection (2)(b)—
- (a) the person may exercise the powers mentioned in subsection (7)(a); and
 - (b) the officer must inform the person—
