Information about this reprint

This Act is reprinted as at 1 December 2009. The reprint—

- shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c))
- incorporates all necessary consequential amendments, whether of punctuation, numbering or another kind (Reprints Act 1992 s 5(d)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

Revised edition indicates further material has affected existing material. For example—

- a correction
- a retrospective provision
- other relevant information.

- (3) If the board refuses to license the applicant or the applicant withdraws the application, the board must refund to the applicant the application fee paid, less the amount of the cost to the board of processing the application.

43 Failure to decide application

- (1) Subject to subsections (2) and (3), if the board fails to decide the application within 40 business days after its receipt, the failure is taken to be a decision by the board to refuse to license the applicant.

 - (b) under section 38(1)(c), required the applicant to undergo an examination.

- (a) to be carried out in an area prescribed under a regulation as a remote area; and
 - (b) the local government has, by resolution, declared it is satisfied that in the absence of assessment of the work at the stages prescribed under a regulation by an inspector will not adversely affect public health or safety.
- (2) A request for compliance assessment of the work must be—
 - (a) in the approved form; and
 - (b) made to the local government; and
 - (c) accompanied by the fee fixed by resolution of the local government.
- (3) After the work has been completed the local government—
 - (a) must be given a notice stating that the work complies with the requirements of the Standard Plumbing and Drainage Regulation; and
 - (b) may ask the person who made the request to provide a plan of the completed work.
- (4) The request must be decided within 3 business days—
 - (a) if the local government has not requested a plan of the work—after receiving the notice; or

 - (b) if the local government has asked for the plan—after it receives the plan.

86C Conditions of compliance certificate

- (1) Conditions can not be imposed on a compliance certificate for regulated work other than for a greywater use facility.
- (2) Conditions may be imposed on a compliance certificate for regulated work for a greywater use facility only if they relate to the ongoing operation, maintenance or testing of the facility.

Examples—

- 1 A condition could require the owner of the relevant premises to maintain, in a stated way, the facility's filtering system.

11 For appeals against the decision, see the *Integrated Planning Act 1997*, chapter 4 (Appeals, offences and enforcement), part 2 (Building and development tribunals), divisions 4 to 6.

- 2 If the greywater use facility is or includes a greywater treatment plant, a condition could require the owner of the treatment plant to have in place an arrangement to ensure people are not exposed to its contents.
- (2A) However, if the compliance certificate is for regulated work for a greywater use facility that is or includes a large greywater treatment plant, conditions may also be imposed on the compliance certificate in accordance with requirements advised to the local government by the regulator.

Example of condition the regulator might require under subsection (2A)—

The regulator may require the local government to impose a condition that greywater must continue to be discharged to sanitary drainage until there is an approved recycled water management plan under the Water Supply Act for the greywater use facility.

- (3) Conditions may be imposed on a compliance certificate for on-site sewerage work only if they relate to the ongoing operation, maintenance or testing of the relevant on-site sewerage facility.

Examples—

- 1 A condition could require the owner of the relevant premises to do all or any of the following—
 - keep an area of land (commonly called a ‘land application area’) in reserve for the future replacement of effluent disposal in relation to the facility
 - maintain any grease arrester for the premises in a stated way
 - have in place an arrangement for the carrying out of stated maintenance of the relevant on-site sewerage facility with a person who can lawfully do so
 - replace a part of the facility at stated intervals.
- 2 If the relevant on-site sewerage facility includes a sewage treatment plant, a condition could require the owner of the relevant premises not to dispose of effluent from the plant by spraying or in another way that produces aerial mists or sprays.

- (3) The local government may, by written notice, require the former holder of the certificate to remove all or a stated part of the relevant greywater use facility or on-site sewerage facility.
- (4) The former holder must comply with the notice as soon as practicable after receiving it.

Maximum penalty for subsection (4)—100 penalty units.

A compliance certificate given for work for testing purposes ceases to have effect if any chief executive approval for an item that relates to the work ends.¹²

12 For when chief executive approval ends, see section 96 (Term of chief executive approval).

86G Power to amend conditions of particular compliance certificates

- (1) The local government may, by complying with subsections (2) and (3), amend a condition of a compliance certificate for work for testing purposes if it considers the amendment is necessary or desirable because of a change in a relevant chief executive approval.
- (2) The local government must give the owner of the premises for which the certificate was given a written notice stating—
