Information about this reprint

This Act is reprinted as at 1 July 2010. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

 - (c) declared areas; and
 - (d) a framework for decision making that, in achieving this Act's purpose in relation to subsection (1)(a) to (e), applies the precautionary principle that lack of full scientific certainty should not be used as a reason for postponing a measure to prevent degradation of the environment if there are threats of serious or irreversible environmental damage; and
 - (e) the phasing out of broadscale clearing of remnant vegetation by 31 December 2006; and
 - (f) the regulation of particular regrowth vegetation.
- (3) In this section—

- (d) a forest entitlement area under the *Land Act 1994*.
- (2) This Act does not prevent a local law from imposing requirements on the clearing of vegetation in its local government area.
- (3) The requirements mentioned in subsection (2) are unaffected by the *Local Government Act 2009*, section 27.
- (4) The *Local Government Act 2009*, section 27 is subject to subsection (3).
- (5) This Act does not prevent a local planning instrument under the Planning Act from imposing requirements on the clearing of vegetation in its local government area.
- (6) The requirements mentioned in subsection (5) are unaffected by the Planning Act, section 233(3) to (7).
- (7) The Planning Act, section 233(3) to (7) is subject to subsection (6).

Part 2 Vegetation management

Division 1 Key concepts

8 What is vegetation

- (a) grass or non-woody herbage;
- (b) a plant within a grassland regional ecosystem prescribed under a regulation;
- (c) a mangrove.

- (2) For subsection (1), the management of vegetation may include, for example, the following—
 - (a) the retention or maintenance of vegetation to—
 - (i) avoid land degradation; or
 - (ii) maintain or increase biodiversity; or
 - (iii) maintain ecological processes;
 - (b) the retention of riparian vegetation;
 - (c) the retention of vegetation clumps or corridors.

Division 2 State policy for vegetation management

10 State policy for vegetation management

- (1) The Minister must prepare a policy for vegetation management for the State.
- (2) Without limiting subsection (1), the policy must state—
 - (a) outcomes for vegetation management and actions proposed to achieve the outcomes; and
 - (b) special considerations for significant community projects.
- (3) The Governor in Council, by gazette notice, may approve the policy.
- (4) The policy is not subordinate legislation.

Division 2A Other policies for vegetation management

Subdivision 1 Concurrence agency policies

10A Types of concurrence agency policies

- (1) The *MCU policy* is the document called 'Concurrence Agency Policy for Material Change of Use (MCU)' made by the chief executive on 23 August 2007, as amended or replaced from time to time under this section.
- (2) The *RaL policy* is the document called 'Concurrence Agency Policy for Reconfiguring a Lot (RaL)' made by the chief executive on 23 August 2007, as amended or replaced from time to time under this section.
- (3) Each of the MCU policy and the RaL policy is called a *concurrence agency policy*.
- (4) The chief executive may amend or replace the document mentioned in subsection (1) or (2) or any amendment or replacement of it.
- (5) However, the amendment or replacement does not take effect until it is approved under a regulation.

- (6) A reference to a concurrence agency policy is taken to include any amendment or replacement under subsection (4) that has taken effect.

10B Content of concurrence agency policy

- (1) A concurrence agency policy may provide for any matter about assessing and responding as a concurrence agency to the part of a concurrence agency application giving rise to the referral that the chief executive considers is necessary or desirable for achieving the purpose of this Act.
- (2) A concurrence agency policy may—
- (a) provide criteria for assessing the part of a concurrence agency application giving rise to the referral, including the clearing of native vegetation—
 - (i) made assessable under the Planning Act; or
 - (ii) that becomes exempt development under the Planning Act if the application is approved; or
 - (b) state the circumstances in which the chief executive must in its referral agency's response to a concurrence agency application tell the assessment manager to refuse the application.

Subdivision 2 Offsets policy

10C What is the *offsets policy*

- (1) The *offsets policy* is the document called 'Policy for Vegetation Management Offsets' made by the chief executive on 28 September 2007, as amended or replaced from time to time under this section.

[s 10D]

10D Content of offsets policy

- (1) The offsets policy may provide for any matter about the requirements for an offset as a condition of a development approval that the chief executive considers is necessary or desirable for achieving the purpose of this Act.
- (2) The offsets policy may—
 - (a) set out the characteristics of a suitable offset area for the offset, including the following—
 - (i) remnant status or current level of protection of the vegetation in the offset area;
 - (ii) the location and size of the offset area;
 - (iii) the ecological equivalence of the vegetation in the offset area to the vegetation in the area to be cleared; and
 - (b) provide for on-going management and monitoring of the vegetation in the offset area; and
 - (c) require reporting about the management and monitoring of the vegetation in the offset area; and
 - (d) provide for a range of ways to legally secure an offset area; and

Examples—

- a covenant under the *Land Title Act 1994*
- a declaration under part 2, division 4

-
- (e) provide the circumstances when the chief executive may enter into an agreement with the applicant for the development approval or a third party to provide an offset area; and

landform, pollinator, regional ecosystem, soil and water, that is necessary or desirable for the wildlife at any stage of its lifecycle.

- (5) ***Essential regrowth habitat***, for protected wildlife, means an area of vegetation shown on the regrowth vegetation map as high value regrowth vegetation—
- (a) that has at least 3 essential habitat factors for the protected wildlife that must include any essential habitat factors that are stated as mandatory for the protected wildlife in the essential regrowth habitat database; or
 - (b) in which the protected wildlife, at any stage of its life cycle, is located.
- (6) ***Essential regrowth habitat database*** means a database, listing essential habitat factors for protected wildlife, certified by the chief executive as an essential regrowth habitat database.

20AD What is a *registered area of agriculture map*

A ***registered area of agriculture map*** is a map certified by the chief executive as a registered area of agriculture map for a wild river area and showing, for the wild river area, registered areas of agriculture.

20AE Certifying vegetation management map

The chief executive may certify a vegetation management map by certifying—

- (a) a hard copy of the map; or
- (b) a digital electronic form of the map.

20AF Amending vegetation management map

The chief executive may amend a vegetation management map (the ***old map***) by—

- (a) replacing the map; and

[s 20AG]

- (b) certifying a vegetation management map that replaces the old map.

20AG When vegetation management map takes effect

- (1) A vegetation management map or a map replacing a vegetation management map does not take effect until a regulation approves the map.
- (2) The regulation must state the day on which the map was certified.
- (3) A reference to a vegetation management map is taken to include any replacement under subsection (1) that has taken effect.

20AH Deciding to show particular areas as remnant vegetation

In certifying the regional ecosystem map or remnant map, the chief executive may decide to show an area on the map as remnant vegetation if—

- (a) a development approval for the area has been given for—
 - (i) fodder harvesting; or
 - (ii) thinning; or
 - (iii) clearing of encroachment; or
 - (iv) control of non-native plants or declared pests; or
- (b) the area is a declared area or offset area; or
- (c) the chief executive has been notified that the area is subject to a native forest practice; or
- (d) the area contains forest products under the *Forestry Act 1959* and the vegetation in the area is shown on the regional ecosystem map or remnant map as remnant vegetation and—

-
- (i) has been defined by agreement with the FA chief executive as an area in which the State has an interest in commercial timber; or
 - (ii) is an area in which the State has carried out harvesting of commercial timber; or
 - (iii) has been cleared under section 70A; or
 - (e) the chief executive has made a PMAV for the area under section 20B(1)(e), (g) or (h); or
 - (f) the area has been unlawfully cleared; or
 - (g) the area has been cleared of native vegetation and in relation to the clearing a person has been found guilty by a court, whether or not a conviction has been recorded, of a clearing offence; or
 - (h) the area is a regional ecosystem that—
 - (i) has a predominant canopy not dominated by woody vegetation; and
 - (ii) has not been cultivated for 15 years; and
 - (iii) contains native species normally found in the regional ecosystem; and
 - (iv) is not dominated by non-native perennial species.

20AI Deciding to show particular areas as high value regrowth vegetation

In certifying the regrowth vegetation map, the chief executive may decide to show an area on the map as high value regrowth vegetation if—

- (a) the chief executive has been given a clearing notification for the area and the purpose of clearing the regulated regrowth vegetation in the area is for—
 - (i) thinning; or
 - (ii) clearing of encroachment; or
 - (iii) control of non-native plants or declared pests; or

[s 20AJ]

- (b) the area is an exchange area; or
- (c) the area contains forest products under the *Forestry Act 1959* that are regulated regrowth vegetation and—
 - (i) has been defined by agreement with the FA chief executive as an area in which the State has an interest in commercial timber; or
 - (ii) is an area in which the State has carried out harvesting of commercial timber; or
 - (iii) has been cleared under section 70A; or
- (d) the chief executive has made a PMAV for the area under section 20B(1)(e), (g) or (h); or
- (e) the area has been unlawfully cleared; or
- (f) the chief executive has been notified that the area is subject to a native forest practice; or
- (g) the area has been cleared of native vegetation and in relation to the clearing a person has been found guilty by a court, whether or not a conviction has been recorded, of a clearing offence.

20AJ Application to make PMAV before amending particular vegetation management maps

- (1) This section applies to the following vegetation management maps—
 - (a) the regional ecosystem map;
 - (b) the remnant map;
 - (c) the regrowth vegetation map.
- (2) If an owner of land in an area wants the chief executive to amend a vegetation management map, the owner must apply to the chief executive under section 20C to make a PMAV for the area.

Note—

See section 20H for the effect of an inconsistency between a PMAV and a vegetation management map.

Division 5A **Property map of assessable vegetation**

20AK What is a *property map of assessable vegetation* (or *PMAV*)

- (1) A *property map of assessable vegetation* (or *PMAV*) is a map certified by the chief executive as a PMAV for an area and showing for the area the following—
 - (a) category A areas;
 - (b) category B areas;
 - (c) category C areas;
 - (d) category X areas;
 - (e) areas subject to a regional ecosystem map, remnant map or regrowth vegetation map.
- (2) The map may also show for the area the location of the boundaries of, and the regional ecosystem number for, each regional ecosystem in the area.
- (3) Each of category A area, category B area, category C area and category X area is called a *vegetation category area*.

Note—

The effect of sections 20AL to 20AO, 20BA and 20CA is that there is no overlap of the boundaries of the vegetation category areas.

- (4) The chief executive may certify a map as a PMAV by certifying—
 - (a) a hard copy of the map; or
 - (b) a digital electronic form of the map.

20AL What is a *category A area*

A *category A area* is an area that—

- (a) is any of the following—
 - (i) a declared area;

[s 20AM]

- (ii) an offset area;
- (iii) an exchange area; or
- (b) has been unlawfully cleared; or
- (c) is, or has been, subject to—
 - (i) a restoration notice; or
 - (ii) an enforcement notice under the Planning Act containing conditions about restoration of vegetation; or
- (d) has been cleared of native vegetation and in relation to the clearing a person has been found guilty by a court, whether or not a conviction has been recorded, of a clearing offence; or
- (e) the chief executive decides under section 20BA is a category A area.

20AM What is a *category B area*

A *category B area* is an area, other than a category A area—

- (a) shown on a regional ecosystem map or remnant map as remnant vegetation; or
- (b) that, if section 20AN does not apply to the area, is a Land Act tenure to be converted under the *Land Act 1994* to another form of tenure and is or contains an endangered regional ecosystem, of concern regional ecosystem or a least concern regional ecosystem.

20AN What is a *category C area*

A *category C area* is an area, other than a category A area, that contains regrowth vegetation that is—

- (a) an endangered regional ecosystem, of concern regional ecosystem or a least concern regional ecosystem that has not been cleared since 31 December 1989; and
- (b) either—

- (i) shown on a regional ecosystem map or remnant map as remnant vegetation; or
- (ii) shown on a regrowth vegetation map as high value regrowth vegetation.

20AO What is a *category X area*

- (1) A *category X area* is an area, other than a category A area or category C area, in which clearing of vegetation has happened and that, when a PMAV applying to the area was made, did not contain remnant vegetation or vegetation shown on the regional ecosystem map or remnant map as remnant vegetation.
- (2) However, an area is not a *category X area* if the chief executive decides under section 20CA the area is not a category X area.

20B When chief executive may make PMAV

- (1) The chief executive may make a PMAV for an area if—
 - (a) the area becomes a declared area; or
 - (b) the area becomes an offset area; or
 - (c) the area becomes an exchange area; or
 - (d) the area has been unlawfully cleared; or
 - (e) the area is subject to—
 - (i) a restoration notice; or
 - (ii) an enforcement notice under the Planning Act containing conditions about restoration of vegetation; or
 - (f) the area has been cleared of native vegetation and in relation to the clearing a person has been found guilty by a court, whether or not a conviction has been recorded, of a clearing offence; or
 - (g) the chief executive reasonably believes—

[s 20BA]

- (i) a person has committed a vegetation clearing offence in relation to the area, whether before or after the commencement of this section, or a vegetation clearing offence is being committed in relation to the area; or
 - (ii) the area was cleared of vegetation in contravention of a tree clearing provision under the *Land Act 1994* as in force before the commencement of the *Vegetation Management and Other Legislation Amendment Act 2004*, section 3; or
 - (iii) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area; or
 - (h) the area is a Land Act tenure that is to be converted under the *Land Act 1994* to another form of tenure; or
 - (i) the chief executive reasonably believes there is an error in the part of the regrowth vegetation map for the area.
- (2) The chief executive must give each owner of land to be included in the PMAV an information notice about the decision to make the PMAV.

20BA Chief executive may make decision about category A area

The chief executive may make an area a category A area on a PMAV if the chief executive reasonably believes—

- (a) a vegetation clearing offence is being, or has been, committed in relation to the area; or
- (b) the area was cleared of vegetation in contravention of a tree clearing provision under the *Land Act 1994* as in force before the commencement of the *Vegetation Management and Other Legislation Amendment Act 2004*, section 3; or
- (c) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area.

20C When owner may apply for PMAV

- (1) An owner of land may apply to the chief executive for the making of a PMAV for the land or part of the land.
- (2) The application must—
 - (a) be in the approved form; and
 - (b) state the information prescribed under a regulation; and
 - (c) be accompanied by the fee prescribed under a regulation.
- (3) If the owner of the land and the chief executive agree to the making of the PMAV, the chief executive must make the PMAV.
- (4) The chief executive may waive the prescribed fee for the making of a PMAV if it is in the interests of the State and the owner.
- (5) If the chief executive refuses to make a PMAV for the area, the chief executive must give the owner an information notice about the decision.

20CA Process before making PMAV

- (1) This section applies if—
 - (a) an owner of land applies under section 20C for the making of a PMAV for the land or part of the land; and
 - (b) the owner proposes that the land or part of the land (the *relevant area*) be a category X area on the PMAV.
- (2) The chief executive can not make the relevant area a category X area on the PMAV if any of the circumstances mentioned in section 20AH or 20AI for the area have happened unless the area has later been cleared and—
 - (a) when the area was cleared of vegetation, the clearing was exempt development; or
 - (b) the clearing of vegetation has been carried out under a moratorium exemption; or

[s 20CA]

- (c) the clearing of vegetation has been carried out under a development approval other than a development approval for—
 - (i) fodder harvesting; or
 - (ii) thinning; or
 - (iii) clearing of encroachment; or
 - (iv) control of non-native plants or declared pests; or
 - (d) a clearing notification for the area has been received and the purpose of clearing was other than clearing regulated regrowth vegetation in the area for—
 - (i) thinning; or
 - (ii) clearing of encroachment; or
 - (iii) control of non-native plants or declared pests.
- (3) Also, the chief executive can not make the relevant area a category X area on the PMAV if—
- (a) vegetation in the area is not remnant vegetation because of clearing that happened as a result of burning, flooding or natural causes; or
 - (b) the area is located within 50m of a watercourse identified on the regrowth vegetation map as a regrowth watercourse.
- (4) If the chief executive considers the relevant area can not be made a category X area because of subsection (2) or (3), the chief executive must, before making the PMAV, give the owner of the land a notice inviting the owner to show why the relevant area should be a category X area.
- (5) The notice must state the following—
- (a) the grounds for the proposed decision that the relevant area is not a category X area;
 - (b) the facts and circumstances forming the basis for the grounds;

-
- (c) the proposed boundaries of the vegetation category areas for the PMAV;
 - (d) that the owner may make submissions about the proposed decision;
 - (e) how to make a properly made submission;
 - (f) where the submission may be made or sent;
 - (g) a period within which the submission must be made.
- (6) The stated period must be at least 15 business days after the notice is given.
- (7) If, after considering any properly made submission by the owner, the chief executive still considers the relevant area is not a category X area, the chief executive may make the relevant area other than a category X area on the PMAV.
- (8) The chief executive must give the owner an information notice about the decision to make the relevant area other than a category X area.
- (9) In this section—
- properly made submission*** means a submission that—
- (a) is written; and
 - (b) is signed by each person (a ***signatory***) who made the submission; and
 - (c) states the name and address of each signatory; and
 - (d) states the grounds of the submission and the facts and circumstances relied on in support of the grounds; and
 - (e) is made to the person stated in the notice inviting the submission; and
 - (f) is received on or before the last day for the making of the submission.

20D When PMAV may be replaced

- (1) The chief executive may replace a PMAV for an area (the ***previous area***) with 1 or more PMAVs (each a ***new PMAV***).

[s 20E]

- (2) A new PMAV may apply to—
 - (a) part or all of the previous area; or
 - (b) part or all of the previous area and another area.
- (3) Subsection (1) applies only—
 - (a) if a matter mentioned in section 20B occurs in relation to an area mentioned in subsection (2); or
 - (b) to reflect a change to an endangered, of concern or a least concern regional ecosystem in an area mentioned in subsection (2); or

Editor's note—

A change may only be made by amending the *Vegetation Management Regulation 2000*.

- (c) for a matter other than a matter mentioned in paragraph (a) or (b), if each of the affected owners agrees to the replacement.
- (4) A reference to a PMAV made under section 20B or 20C is taken to include its replacement under this section.
- (5) In this section—

affected owner means an owner of land proposed to be included in a new PMAV if any of the following apply—

 - (a) the owner applied under section 20C for the making of the new PMAV;
 - (b) there was not a PMAV for the land or part of the land;
 - (c) the land, or part of the land, will be affected by a change to the boundary of a vegetation category area in the new PMAV.

20E When PMAV may be revoked

- (1) The chief executive may revoke a PMAV for an area if—
 - (a) for a PMAV made under section 20B(1)(a) for a declared area under division 4, subdivision 2—the declaration for the area ends; or

-
- (b) for a PMAV made under section 20B(1)(b)—the offset in relation to the offset area ends; or
 - (c) for a PMAV made under section 20B(1)(c)—the exchange area is no longer an exchange area required under the regrowth vegetation code; or
 - (d) for a PMAV made under section 20B(1)(d), (e), (f) or (g)—the area is shown on a regional ecosystem map or remnant map as remnant vegetation; or
 - (e) for a PMAV made under section 20B(1)(h)—the Land Act tenure over the area is not converted to another form of tenure; or
 - (f) for a PMAV made under section 20B(1)(i)—the regrowth vegetation map is amended to correct the error.
- (2) Also, the chief executive may revoke a property map of assessable vegetation made under section 20C(3) if the owner of the land agrees to the revocation.

20F Copies of PMAV given to owners

- (1) If a PMAV is made or replaced, a copy must be given, free of charge, to each owner of land that is included in the PMAV.
- (2) However, if there are 2 or more owners who reside at the same address, a copy of the PMAV may be sent to the owners jointly.

20G Owners to be advised of revocation of PMAV

If a PMAV is revoked, the chief executive must give each owner of land that is included in the map written notice of the revocation and the reasons for the revocation.

20H Inconsistency between PMAV and particular vegetation management maps

If there is an inconsistency in the boundary of an area shown on a PMAV and a boundary of the area shown on any of the

[s 21]

following, the boundary of the area shown on the PMAV prevails to the extent of the inconsistency—

- (a) the regional ecosystem map;
- (b) the remnant map;
- (c) the regrowth vegetation map.

Division 6 Relationship with Planning Act

Subdivision 1 Modifying effect of Planning Act

21 Modifying effect on vegetation clearing applications

- (1) This section applies for a vegetation clearing application.
- (2) If the chief executive is the assessment manager for the application, a property vegetation management plan is a mandatory requirement in addition to the requirements stated in the Planning Act, section 260(2)(a).
- (3) If the chief executive is a concurrence agency for the application, the applicant must give the chief executive a property vegetation management plan in addition to the things mentioned in section 272(1) of that Act.
- (4) For the aspect of the application relating to the clearing of vegetation—
 - (a) section 326 of that Act does not apply; and
 - (b) the assessment manager's decision must comply with the applicable code.

22 Declarations for the Planning Act

- (1) To remove any doubt, it is declared that for the Planning Act, section 9, a use of premises does not include clearing vegetation that is assessable development.

-
- (2) Subsection (3) applies if the chief executive is the assessment manager for a vegetation clearing application and is satisfied there is commercial timber on the land the subject of the application.
 - (3) The chief executive may—
 - (a) refuse the application to the extent the development will affect the commercial timber; or
 - (b) grant the vegetation clearing application but impose conditions on the development approval in relation to the commercial timber.
 - (4) Subsection (5) applies if the chief executive is a concurrence agency for a development application and is satisfied there is commercial timber on the land the subject of the application.
 - (5) Consideration of the application by the chief executive, in relation to the existence of the timber, is taken to be within the limits of the chief executive's jurisdiction for the Planning Act, section 282.

22A Particular vegetation clearing applications may be assessed

- (1) This section provides for when a vegetation clearing application is for a relevant purpose for the Planning Act, schedule 1, item 3.
- (2) A vegetation clearing application is for a relevant purpose under this section if the applicant satisfies the chief executive that the development applied for is—
 - (a) a project declared to be a significant project under the *State Development and Public Works Organisation Act 1971*, section 26; or
 - (b) necessary to control non-native plants or declared pests; or
 - (c) to ensure public safety; or
 - (d) for establishing a necessary fence, firebreak, road or vehicular track, or for constructing necessary built

[s 22A]

- infrastructure, (each *relevant infrastructure*) and the clearing for the relevant infrastructure can not reasonably be avoided or minimised; or
- (e) a natural and ordinary consequence of other assessable development for which a development approval was given under the repealed *Integrated Planning Act 1997*, or a development application was made under that Act, before 16 May 2003; or
 - (f) for fodder harvesting; or
 - (g) for thinning; or
 - (h) for clearing of encroachment; or
 - (i) for an extractive industry; or
 - (j) for clearing regrowth vegetation on freehold land, indigenous land or leases issued under the *Land Act 1994* for agriculture or grazing purposes, in an area shown as a registered area of agriculture on a registered area of agriculture map in a wild river high preservation area.
- (2AA) Also, a vegetation clearing application is for a relevant purpose under this section if, under the CYPH Act, the Minister is satisfied the development applied for is for a special indigenous purpose.
- (2A) However, a vegetation clearing application is not for a relevant purpose under this section if the development applied for is—
- (a) mentioned in subsection (2)(a), (f), (g) or (i) or subsection (2AA); and
 - (b) proposed for a wild river high preservation area.
- (2B) Also, a vegetation clearing application is not for a relevant purpose under this section if the development applied for is clearing regulated regrowth vegetation on freehold land, indigenous land or leases issued under the *Land Act 1994* for agriculture or grazing purposes.

-
- (2C) In addition, a vegetation clearing application is not for a relevant purpose under this section if the development applied for is—
- (a) mentioned in subsection (2)(e), (f) or (i) or subsection (2AA); and
 - (b) proposed for an area declared to be a declared area under division 4, subdivision 2.
- (3) In this section—
- extractive industry***—
- (a) means 1 or more of the following—
 - (i) dredging material from the bed of any waters;
 - (ii) extracting, from a pit or quarry, rock, sand, clay, gravel, loam or other material;
 - (iii) screening, washing, grinding, milling, sizing or separating material extracted from a pit or quarry; and
 - (b) includes carrying out work that is the natural and ordinary consequence of carrying out the work mentioned in paragraph (a).

Example—

constructing roads, buildings and other infrastructure

22B Modifying Planning Act effect for delegations and appointment of referees

- (1) For a vegetation clearing application for which the chief executive is the assessment manager, the Planning Act, sections 570(1) and 761(1) apply as if a reference to the Minister in those sections were a reference to the Minister for this Act.
- (2) For a vegetation clearing application for which the chief executive is the assessment manager, the Planning Act, chapter 7, part 2 applies as if a reference to the chief executive in that part were a reference to the chief executive for this Act.

[s 22C]

22C Modifying Planning Act effect of appeal rights on particular applications (assessment manager)

- (1) This section applies for a vegetation clearing application that is for a relevant purpose under section 22A if the chief executive is the assessment manager for the application.
- (2) An appeal about an application for which this section applies may only be made to the Planning and Environment Court under the Planning Act, section 461.
- (3) However, an appeal, other than for a deemed refusal, may not be made unless the applicant has made representations about the matter.

Editor's note—

See the Planning Act, chapter 6, part 8, division 1 (Changing decision notices and approvals during applicant's appeal period).

- (4) The representations may also be about a refusal.
- (5) The Planning Act, sections 361 to 365, applies for the representations, including representations about a refusal.

22D Modifying Planning Act effect of appeal rights on particular applications (concurrence agency)

- (1) This section applies for a vegetation clearing application that is for a relevant purpose under section 22A if the chief executive is a concurrence agency for the application.
- (2) Before an appeal may be made in relation to the application, the applicant must make representations under the Planning Act, section 320 about the matter being appealed.

Subdivision 2 Referral agency assessment and responses

22DA Requirement for property vegetation management plan

The applicant for a concurrence agency application must give the chief executive a property vegetation management plan

for the area to which the application relates in addition to the things mentioned in the Planning Act, section 3.3.3(1).

22DB Compliance with concurrence agency policy

The chief executive must, for assessing and giving its referral agency's response to a concurrence agency application, comply with—

- (a) the concurrence agency policy applicable to the referral;
or
- (b) if both the concurrence agency policies are applicable to the referral—each of the concurrence agency policies.

22DC Refusal of particular concurrence agency application

(1) The chief executive may in its referral agency's response to a concurrence agency application tell the assessment manager to refuse the application or impose a condition—

- (a) if a PMAV applying to the relevant land or part of the land has been made under section 20B and has not been revoked; or
- (b) if the relevant land is subject to any of the following—
 - (i) a restoration notice;
 - (ii) a compliance notice given before the commencement of this section containing conditions about the restoration of vegetation;
 - (iii) a Land Act notice;
 - (iv) a trespass notice if the trespass related act under the *Land Act 1994* for the notice is the clearing of vegetation on the relevant land;
 - (v) an enforcement notice under the Planning Act issued for a vegetation clearing offence; or
- (c) to the extent the development applied for is inconsistent with an offset or another agreement related to an offset.

[s 22DD]

- (2) In this section—
relevant land means land to which the concurrence agency application relates.

22DD Commercial timber on State land

- (1) This section applies if—
- (a) a concurrence agency application is for a material change of use of premises on State land; and
 - (b) the chief executive is satisfied there is commercial timber on the land.
- (2) The chief executive may in its referral agency's response to the application tell the assessment manager—
- (a) to refuse the application to the extent the development affects the commercial timber; or
 - (b) any conditions in relation to the commercial timber that must attach to the development approval.

22DE Development not for a relevant purpose under s 22A

- (1) This section applies if the chief executive is not satisfied the development applied for under a concurrence agency application is for a relevant purpose under section 22A.
- (2) For applying section 22A, a reference to a vegetation clearing application is taken to be a reference to a concurrence agency application.
- (3) The chief executive must in its referral agency's response to the application tell the assessment manager to refuse the application to the extent the development is not for a relevant purpose under section 22A other than subsection (2B) of that section.

22DF Clearing vegetation on adjoining lot for firebreaks and fire management lines

- (1) This section applies if the location of proposed infrastructure for a concurrence agency application would enable the applicant to clear vegetation on adjoining land under the Planning Act, schedule 10, definition *essential management*, paragraphs (a) or (b).
- (2) In assessing and responding to the part of the application giving rise to the referral, the chief executive must consider any clearing of vegetation that may be required on the adjoining land for—
 - (a) establishing or maintaining a necessary firebreak to protect the infrastructure; or
 - (b) for establishing a necessary fire management line.
- (3) Subsection (2) is in addition to, and does not limit, the Planning Act, section 3.3.15 and chapter 3, part 5, division 2.
- (4) In this section—

infrastructure means infrastructure other than a fence, road or vehicular track.

Division 6A Vegetation management offsets

Subdivision 1 Preliminary

22DG What are *vegetation management offsets* (or *offsets*) and *offset areas*

- (1) A *vegetation management offset* (or an *offset*) is an agreement to carry out works or activities to conserve, enhance, maintain, monitor or rehabilitate an area of vegetation.
- (2) The area to be conserved, enhanced, maintained, monitored or rehabilitated is called the *offset area*.

Subdivision 2 Imposing offsets

22DH Application of sdiv 2

- (1) This subdivision applies to an application for a development approval if—
 - (a) the relevant regional vegetation management code is the code for the clearing of vegetation in the area; and
 - (b) a required outcome under the code is to maintain the current extent of a particular regional ecosystem by—
 - (i) not clearing the regional ecosystem; or
 - (ii) if subparagraph (i) is not reasonably practicable, ensuring the structure and function of the regional ecosystem is maintained; or
 - (iii) if subparagraphs (i) and (ii) are not reasonably practicable, imposing an offset as a condition of the development approval; and
 - (c) the applicant proposes an offset to satisfy the required outcome.

- (2) In this section—

relevant regional vegetation management code means the regional vegetation management code for the region of the State in which the area proposed to be cleared under the application is situated.

22DI Compliance with offsets policy

- (1) The chief executive must, for assessing the application, comply with the offsets policy.
- (2) Without limiting subsection (1), the chief executive may impose the offset as a condition of the development approval.

22DJ Criteria for decision about offset

In deciding whether to impose the proposed offset as a condition of the development approval, the chief executive may refuse to impose the proposed offset as a condition of the development approval to satisfy a required outcome under the code if—

- (a) the applicant has had an offset imposed as a condition of another development approval; and
- (b) the applicant has not complied with the condition.

22DK When offset ends

The offset remains in effect until the offset ends under its terms.

Subdivision 3 Register of offsets

22DL Chief executive must keep register of offsets

- (1) The chief executive must keep a register of offsets.
- (2) The register must include, for each offset imposed as a condition of a development approval—
 - (a) the name of the applicant for the development approval; and
 - (b) the name of the owner of the land in which the offset area is located; and
 - (c) the department's reference number for the development approval; and
 - (d) the real property description of the land—
 - (i) in which the offset area is located; and
 - (ii) on which the vegetation is cleared under the development approval; and
 - (e) the location and extent of the offset area; and

[s 22E]

- (f) a description of the vegetation in the offset area; and
 - (g) a description of the vegetation cleared under the development approval.
- (3) The chief executive may also keep in the register other information about the development approval the chief executive considers appropriate.
 - (4) A person's name under subsection (2)(a) or (b) must not be contained in the publicly available part of the register.
 - (5) The chief executive must publish details in the publicly available part of the register on the department's website.

Division 7 Broadscale applications and ballots

22E Application of div 7

This division applies for a broadscale application.

22F Exception to s 22A(1)

- (1) Section 22A(1) does not apply to a broadscale application if the application is—
 - (a) only for land in a single region prescribed under section 22G(1)(a); and
 - (b) properly made during the ballot application period.
- (2) The chief executive must, for each region of the State for which a ballot must be conducted, conduct a ballot for all broadscale applications for that region that comply with subsection (1).
- (3) If, during the ballot application period, another broadscale application mentioned in subsection (1) is made for clearing land already included in a ballot, section 22A(1) applies to the other application to the extent the other application includes land already included in a ballot.

22G Regions and ballots

- (1) A regulation may prescribe—
 - (a) the regions of the State for which a ballot must be conducted; and
 - (b) the way, and the time at which, each ballot must be conducted; and
 - (c) the clearing allocation for each region; and
 - (d) the matters a broadscale application must contain.
- (2) The purpose of conducting the ballot for a region is to decide the priority in which applications included in the ballot will be assessed under subsection (3) for receiving part of the clearing allocation for the region until the allocation is exhausted.
- (3) After the ballot for a region is conducted—
 - (a) the applications for the ballot must be assessed in their priority against the regional vegetation management codes; and
 - (b) subject to the finalisation of any appeals, development approvals may be given only until the clearing allocation for the region is exhausted.
- (4) When the clearing allocation for a region has been exhausted, any applications not assessed from the ballot for the region must be refused and need not be assessed, despite the Planning Act, section 326.

22H Modifying Planning Act effect on changing broadscale application

Despite the Planning Act, a broadscale application included in the ballot for a region—

- (a) may only be changed under the Planning Act, section 351(1) until 20 business days after an information request has been made for the application; and

[s 22I]

- (b) can not be changed after the ballot application period has ended in a way that increases the size of the area proposed to be cleared.

22I Modifying Planning Act time frames

For a broadscale application included in the ballot for a region, each of the following sections of the Planning Act applies as if—

- (a) in section 276(5), there were no time limit within which the assessment manager must make the request; and
- (b) in section 278, if the applicant did not respond within 20 business days, the assessment manager may assess the application as if the applicant had sent a notice under the Planning Act, section 278(1)(c); and
- (c) in section 318(1), there were no time limit within which the assessment manager must decide the application; and
- (d) in section 366(3) and (4), the period were 10 business days; and
- (e) in section 527(2), the period were 10 business days.

22J Modifying Planning Act effect on changing development approval

Despite the Planning Act, a development approval for the application can not be changed to extend the currency period.

22K Modifying Planning Act effect of appeal rights on broadscale applications

- (1) Subject to section 22L(c), an appeal may only be made to a building and development dispute resolution committee under the Planning Act, section 527.
- (2) However, an appeal, other than for a deemed refusal, may not be made unless the applicant has made representations about the matter.

Editor's note—

See the Planning Act, chapter 6, part 8, division 1 (Changing decision notices and approvals during applicant's appeal period).

- (3) The representations may also be about a refusal.
- (4) The Planning Act, sections 361 to 365, applies for the representations, including representations about a refusal.

22L Appeals

A person can not appeal under any Act against—

- (a) the ballot process or result; or
- (b) a refusal under section 22G(4); or
- (c) the length of the currency period; or
- (d) the decision of a building and development dispute resolution committee under the Planning Act.

Editor's note—

See the Planning Act, section 479 (Appeals from building and development committees).

22LC Least concern regional ecosystems

- (1) A regulation may declare a stated regional ecosystem to be a least concern regional ecosystem.
- (2) The Minister must not recommend to the Governor in Council the making of a regulation under subsection (1) unless the Minister is satisfied the area of remnant vegetation for the regional ecosystem is—

Division 8 Miscellaneous

22M Refusing vegetation clearing application after conviction for vegetation clearing offence

 - (b) an acknowledgement mentioned in subsection (4) is not produced in evidence for the entry; and
 - (c) it is not proved by the person relying on the lawfulness of the entry that the occupier consented to the entry.

32 Application for warrant

- (1) An authorised officer may apply to a magistrate for a warrant for a place.
- (2) The application must be sworn and state the grounds on which the warrant is sought.

-
- (3) The magistrate may refuse to consider the application until the authorised officer gives the magistrate all the information the magistrate requires about the application in the way the magistrate requires.

Example—

The magistrate may require additional information supporting the application to be given by statutory declaration.

33 Issue of warrant

- (1) The magistrate may issue a warrant only if the magistrate is satisfied there are reasonable grounds for suspecting—
- (a) there is a particular thing or activity (the *evidence*) that may provide evidence of a vegetation clearing offence; and
 - (b) the evidence is at the place, or, within the next 7 days, may be at the place.
- (2) The warrant must state—
- (a) that any authorised officer or stated authorised officer may, with necessary and reasonable help and force—

[s 34]

- (4) A provision of this part applying to entry authorised under a warrant is taken also to apply to any re-entry authorised under the warrant.

34 Special warrants

- (1) An authorised officer may apply for a warrant (a *special warrant*) by phone, fax, radio or another form of communication if the authorised officer considers it necessary because of—

 - (c) it is not proved by the person relying on the lawfulness of the entry that the authorised officer obtained the special warrant.

35 Warrants—procedure before entry

- (1) This section applies if an authorised officer is intending to enter a place under a warrant issued under this division.
- (2) Before entering the place, the authorised officer must do or make a reasonable attempt to do the following things—
 - (a) identify himself or herself to a person present at the place who is an occupier of the place by producing the authorised officer's identity card or a copy of another document evidencing the authorised officer's appointment;
 - (b) give the person a copy of the warrant or, if the entry is authorised by a facsimile warrant or warrant form

[s 36]

- mentioned in section 34(6), a copy of the facsimile warrant or warrant form;
- (c) tell the person the authorised officer is permitted by the warrant to enter the place;
 - (d) give the person an opportunity to allow the authorised officer immediate entry to the place without using force.
- (3) However, the authorised officer need not comply with subsection (2) if the authorised officer reasonably believes that immediate entry to the place is required to ensure the effective execution of the warrant is not frustrated.
- (4) If there is no person present at the place who is an occupier of the place, or it is vacant land, it is sufficient compliance with subsection (2) for the officer, before entering the place, to do or make a reasonable attempt to do the following things—
- (a) contact an owner or occupier of the place;
 - (b) tell the owner or occupier the authorised officer is permitted by the warrant to enter the place;

- (a) give the occupier the stop work notice; and
 - (b) take into or onto the place any person the authorised officer reasonably requires for giving the notice.

37 Failure to help authorised officer

- (1) A person required to give reasonable help under section 36(3)(f) must comply with the requirement, unless the person has a reasonable excuse.

Maximum penalty—50 penalty units.

[s 38]

- (2) If the requirement is to be complied with by an individual giving information, or producing a document, it is a reasonable excuse for the individual not to comply with the requirement that complying with the requirement may tend to incriminate the individual.

38 Failure to give information

- (1) A person of whom a requirement is made under section 36(3)(g) must comply with the requirement, unless the person has a reasonable excuse.

Maximum penalty—50 penalty units.

- (2) It is a reasonable excuse for an individual not to comply with the requirement that complying with the requirement may tend to incriminate the individual.

Subdivision 5 Power to seize evidence

39 Seizing evidence

- (1) This section applies if, under this division, an authorised officer enters a place after obtaining the consent of an occupier or under a warrant.
- (2) If the authorised officer enters the place with the occupier's consent, the authorised officer may seize a thing at the place if—
 - (a) the authorised officer reasonably believes the thing is evidence of a vegetation clearing offence; and
 - (b) seizure of the thing is consistent with the purpose of entry as told to the occupier when asking for the occupier's consent.
- (3) If the authorised officer enters the place with a warrant, the authorised officer may seize the evidence for which the warrant was issued.

-
- (4) The authorised officer may seize anything else at the place if the authorised officer reasonably believes—
- (a) the thing is evidence of a vegetation clearing offence; and
 - (b) the seizure is necessary to prevent the thing being—
 - (i) hidden, lost or destroyed; or
 - (ii) used to continue, or repeat, the offence.
- (5) Also, the authorised officer may seize a thing at the place if the authorised officer reasonably believes it has just been used in committing a vegetation clearing offence.

40 Securing seized things

Having seized a thing, an authorised officer may—

- (a) move the thing from the place where it was seized (the *place of seizure*); or
- (b) leave the thing at the place of seizure but take reasonable action to restrict access to it; or

Examples of restricting access to a thing—

- 1 sealing a thing and marking it to show access to it is restricted
 - 2 sealing the entrance to a place where the thing is situated and marking it to show access to it is restricted
- (c) if the thing is equipment—make it inoperable.

Example of making equipment inoperable—

dismantling equipment or removing a component of equipment without which the equipment is not capable of being used

41 Tampering with seized things

- (1) If an authorised officer restricts access to a seized thing, a person must not tamper, or attempt to tamper, with the thing,

[s 42]

or something restricting access to the thing, without an authorised officer's approval.

Maximum penalty—100 penalty units.

- (2) If an authorised officer makes seized equipment inoperable, a person must not tamper, or attempt to tamper, with the equipment, without an authorised officer's approval.

Maximum penalty—100 penalty units.

42 Powers to support seizure

- (1) To enable a thing to be seized, an authorised officer may require the person in control of it—

- (a) to take it to a stated reasonable place by a stated reasonable time; and
(b) if necessary, to remain in control of it at the stated place for a stated reasonable period.

- (2) The requirement—

- (a) must be made by notice in the approved form; or
(b) if for any reason it is not practicable to give the notice, may be made orally and confirmed by a notice in the approved form as soon as practicable.

- (3) A further requirement may be made under this section about the thing if it is necessary and reasonable to make the further requirement.

- (4) A person of whom a requirement is made under subsection (1) or (3) must comply with the requirement, unless the person has a reasonable excuse.

Maximum penalty for subsection (4)—50 penalty units.

43 Receipts for seized things

- (1) As soon as practicable after an authorised officer seizes a thing, the authorised officer must give a receipt for it to the person from whom it was seized.

-
- (2) However, if for any reason it is not practicable to comply with subsection (1), the authorised officer must leave the receipt at the place of seizure in a conspicuous position and in a reasonably secure way.
 - (3) The receipt must describe generally each thing seized and its condition.
 - (4) This section does not apply to a thing if it is impracticable, or would be unreasonable, to give the receipt, having regard to the thing's nature, condition and value.

44 Forfeiture by authorised officer

- (1) A thing that has been seized under this subdivision is forfeited to the State if the authorised officer who seized the thing—
 - (a) can not find its owner, after making reasonable inquiries; or
 - (b) can not return it to its owner, after making reasonable efforts.
- (2) In applying subsection (1)—
 - (a) subsection (1)(a) does not require the authorised officer to make inquiries if it would be unreasonable to make inquiries to find the owner; and
 - (b) subsection (1)(b) does not require the authorised officer to make efforts if it would be unreasonable to make efforts to return the thing to its owner.

Example for paragraph (b)—
the owner of the thing has migrated to another country
- (3) Regard must be had to a thing's nature, condition and value in deciding—
 - (a) whether it is reasonable to make inquiries or efforts; and
 - (b) if making inquiries or efforts—what inquiries or efforts, including the period over which they are made, are reasonable.

[s 45]

45 Forfeiture on conviction

- (1) On conviction of a person for a vegetation clearing offence, the court may order the forfeiture to the State of anything owned by the person and seized under this subdivision.
- (2) The court may make any order to enforce the forfeiture it considers appropriate.
- (3) This section does not limit the court's powers under the *Penalties and Sentences Act 1992* or another law.

46 Dealing with forfeited things

- (1) On forfeiture of a thing to the State, the thing becomes the State's property and may be dealt with by the chief executive as the chief executive considers appropriate.
- (2) Without limiting subsection (1), the chief executive may destroy or dispose of the thing.

47 Return of seized things

- (1) If a seized thing is not forfeited, the authorised officer must return it to its owner—
 - (a) at the end of 6 months; or
 - (b) if a proceeding for a vegetation clearing offence involving the thing is started within 6 months—at the end of the proceeding and any appeal from the proceeding.
- (2) Despite subsection (1), unless the thing is forfeited, the authorised officer must immediately return a thing seized to its owner if the authorised officer stops being satisfied—
 - (a) its continued retention as evidence is necessary; or
 - (b) its continued retention is necessary to prevent the thing being used to continue, or repeat, the offence.

48 Access to seized things

- (1) Until a seized thing is forfeited or returned, an authorised officer must allow its owner to inspect it and, if it is a document, to copy it.
- (2) Subsection (1) does not apply if it is impracticable, or would be unreasonable, to allow the inspection or copying.

Subdivision 6 Power to obtain information

49 Power to require name and address

- (1) This section applies if an authorised officer—
 - (a) finds a person committing a vegetation clearing offence; or
 - (b) finds a person in circumstances that lead the authorised officer reasonably to suspect the person has just committed a vegetation clearing offence; or
 - (c) has information that leads the authorised officer reasonably to suspect a person has just committed a vegetation clearing offence.
- (2) The authorised officer may require the person to state the person's name and residential address.
- (3) When making the requirement, the authorised officer must warn the person it is an offence to fail to state the person's name or residential address, unless the person has a reasonable excuse.
- (4) The authorised officer may require the person to give evidence of the correctness of the stated name or residential address if the authorised officer reasonably suspects the stated name or address to be false.

[s 50]

50 Failure to give name or address

- (1) A person of whom a requirement is made under section 49 must comply with the requirement, unless the person has a reasonable excuse.

Maximum penalty—50 penalty units.

- (2) A person does not commit an offence against subsection (1) if—
- (a) the person was required to state the person's name and residential address by an authorised officer who suspected the person had committed a vegetation clearing offence; and
 - (b) the person is not proved to have committed the offence.

51 Power to require information

- (1) This section applies if an authorised officer reasonably believes—
- (a) a vegetation clearing offence has been committed; and
 - (b) a person may be able to give information about the offence.
- (2) The authorised officer may, by notice given to the person, require the person to give information about the offence to the authorised officer at a stated reasonable place and at a stated reasonable time.
- (3) The person must comply with a requirement under subsection (2), unless the person has a reasonable excuse.

Maximum penalty—50 penalty units.

- (4) It is not a reasonable excuse for a person to fail to give the information because giving the information might tend to incriminate the person.
- (5) However, if the person is an individual, evidence of, or evidence directly or indirectly derived from, the information that might tend to incriminate the person is not admissible in evidence against the person in a civil or criminal proceeding,

other than a proceeding for an offence about the falsity of the information.

- (6) If a person is convicted of an offence against subsection (3), the court may, as well as imposing a penalty for the offence, order the person to comply with the requirement.

52 Power to require production of documents

- (1) An authorised officer may require a person to make available for inspection by an authorised officer, or produce to the authorised officer for inspection, at a reasonable time and place nominated by the authorised officer, a document relating to the clearing of vegetation.
- (2) The authorised officer may keep the document to copy it.
- (3) If the authorised officer copies a document mentioned in subsection (1), or an entry in the document, the authorised officer may require the person responsible for keeping the document to certify the copy as a true copy of the document or entry.
- (4) The authorised officer must return the document to the person as soon as practicable after copying it.
- (5) However, if a requirement (a *document certification requirement*) is made of a person under subsection (3), the authorised officer may keep the document until the person complies with the requirement.

 - (b) the restoration notice is taken to have been given to the transferee on the transfer of the interest; and
 - (c) any outstanding liability, other than criminal liability, of the person becomes a liability of the transferee.

-
- (2) If the restoration notice requires a matter to be rectified by a stated day or within a stated period and it is not reasonably practical for the transferee to comply with the notice by the stated day or within the stated period, the transferee may ask the chief executive to extend the time for compliance with the notice.
