

Offshore Minerals Act 1998

Current as at 30 January 2012

Information about this reprint

This Act is reprinted as at 30 January 2012. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Offshore Minerals Act 1998

[as amended by all amendments that commenced on or before 30 January 2012]

An Act relating to exploration for, and the recovery of, minerals (other than petroleum) in the first 3 nautical miles of the territorial sea in relation to Queensland, and for related purposes

Chapter 1 Introduction

Part 1.1 Preliminary

1 Short title

This Act may be cited as the *Offshore Minerals Act 1998*.

2 Commencement

This Act comes into operation on a day to be fixed by proclamation.

3 Commonwealth–State agreement (the Offshore Constitutional Settlement)

- (1) The Commonwealth and the States have agreed that—
 - (a) Commonwealth offshore mining legislation should be limited to the area that is outside State coastal waters; and

[s 3]

- (b) the States should share, in the way provided by the *Offshore Minerals Act 1994* (Cwlth), in the administration of the Commonwealth offshore mining legislation; and
- (c) State offshore mining legislation should apply to State coastal waters beyond the baseline for the territorial sea (that is, the first 3 nautical miles of the territorial sea); and
- (d) the Commonwealth and the States should try to maintain, as far as practicable, common principles, rules and practices in regulating and controlling offshore mining beyond the baseline of Australia's territorial sea.

Note 1—

So far as the agreement is about petroleum, it is reflected in this State's legislation by the *Petroleum (Submerged Lands) Act 1982*.

Note 2—

The decimal part numbering system closely corresponds to the same decimal part numbering system in the Commonwealth Act. Also, sections 1 to 423 of this Act closely correspond to the same sections of the Commonwealth Act. Some sections of the Commonwealth Act contain provisions that are not relevant to the operation of this Act. To maximise uniformity between this Act and the Commonwealth Act, the numbers of some sections that are not relevant have not been used in the numbering of this Act, unless required for provisions particular to the State.

- (2) Other Acts that provide background in this State to the agreement (commonly referred to as the *Offshore Constitutional Settlement*) are—
 - (a) the *Seas and Submerged Lands Act 1973* (Cwlth), the *Coastal Waters (State Powers) Act 1980* (Cwlth), the *Coastal Waters (State Title) Act 1980* (Cwlth) and the *Petroleum (Submerged Lands) Act 1967* (Cwlth); and
 - (b) the *Petroleum (Submerged Lands) Act 1982*.

Note 1—

The *Seas and Submerged Lands Act 1973* (Cwlth)—

- declares and enacts that the sovereignty in respect of the territorial sea and the associated airspace, seabed and subsoil is vested in and exercisable by the Crown in right of the Commonwealth;
- gives the Governor-General power to declare, by proclamation, the limits of the territorial sea;
- declares and enacts that the sovereignty in respect of waters of the sea that are on the landward side of the baseline of the territorial sea (but not within the limits of a State) and in relation to the associated airspace, seabed and subsoil is vested in and exercisable by the Crown in right of the Commonwealth;
- declares and enacts that the sovereign rights of Australia as a coastal State in relation to the continental shelf of Australia (for the purpose of exploring it and exploiting its natural resources) are vested in and exercisable by the Crown in right of the Commonwealth;
- gives the Governor-General power to declare, by proclamation, the limits of the continental shelf of Australia.

Note 2—

The *Coastal Waters (State Powers) Act 1980* (Cwlth) was enacted following a request from the Parliaments of all the States under section 51(xxxviii) of the Constitution of the Commonwealth and provides that the legislative powers exercisable under the Constitution of each State extend to the making of certain laws that would operate offshore.

Note 3—

The *Coastal Waters (State Title) Act 1980* (Cwlth) vests in each State certain property rights in the seabed beneath the coastal waters.

Note 4—

The *Petroleum (Submerged Lands) Act 1967* (Cwlth) and the *Petroleum (Submerged Lands) Act 1982* of this State make provision, based on the agreement referred to in subsection (1), for the licensing regime that applies to the exploration for and recovery of petroleum in coastal waters and offshore areas of this State.

3A Declaration for Commonwealth Act

The following are declared not to be personal property under the *Personal Property Securities Act 2009* (Cwlth)—

[s 4]

- (a) a special purpose consent;
- (b) a tenure.

Part 1.2 Interpretation

Division 1 General

4 Note etc. in the text

A note, diagram or map in this Act is provided to help understanding and does not form part of the Act.

5 Definitions—the dictionary

The dictionary in schedule 5 defines particular words used in this Act.

6 Shares in a tenure

- (1) A person has a share in a tenure if the person is the holder, or 1 of the holders, of the tenure.
- (2) If a holder is entitled to a particular percentage of the value of the rights conferred by a tenure, that percentage is the holder's share in the tenure.

Note—

A sole holder has a 100% share in the tenure.

- (3) If—
 - (a) a person is a registered holder of a tenure; and
 - (b) the person is shown in the offshore mining register as being entitled to a specified percentage of the value of the rights conferred by the tenure;

the person's share in the tenure is taken to be the percentage specified in the register.

7 Transfer of a tenure

- (1) A tenure is transferred if—
 - (a) the tenure has only 1 holder and the holder transfers the whole of the licensee's interest in the tenure to another person or other persons; or
 - (b) the tenure has 2 or more holders and the holders all transfer the whole of their interests in the tenure to another person or other persons.
- (2) A share in a tenure is transferred if—
 - (a) the tenure has only 1 holder and the holder transfers a part of the holder's share in the tenure to another person or other persons; or
 - (b) the tenure has 2 or more holders and—
 - (i) some, but not all, of the holders transfer the whole of their shares in the tenure to another person; or
 - (ii) some or all of the holders transfer a part of their shares in the tenure to another person.
- (3) The other person referred to in subsection (2)(b) may be an existing tenure holder.

8 Successor tenures

- (1) If—
 - (a) a mining lease takes effect immediately after an exploration permit expires; and
 - (b) the holder of the mining lease immediately after it takes effect was the holder of the exploration permit immediately before it expired;

[s 9]

the mining lease is a successor tenure to the exploration permit.

(2) If—

- (a) a mineral development licence takes effect immediately after an exploration permit expires; and
- (b) the holder of the mineral development licence immediately after it takes effect was the holder of the exploration permit immediately before it expired;

the mineral development licence is a successor tenure to the exploration permit.

(3) If—

- (a) a mining lease takes effect immediately after a mineral development licence expires; and
- (b) the mineral development licence took effect immediately after an exploration permit expired; and
- (c) the holder of the mining lease immediately after it takes effect was the holder of the mineral development licence immediately before it expired; and
- (d) the holder of the mineral development licence immediately after it took effect was the holder of the exploration permit immediately before it expired;

the mining lease is a successor tenure to the exploration permit and the mineral development licence.

9 Section number not used

See note 2 to section 3(1).

10 Position on the Earth's surface

This is how the position of a point, line or area on the Earth's surface must be worked out for this Act—

- (a) the position must be worked out by reference to a spheroid that—
 - (i) has a major (equatorial) radius of 6,378,160 metres; and
 - (ii) has a flattening of 100/29825; and
- (b) the Johnston Geodetic Station in the Northern Territory is taken to be located 571.2 metres above the point on the surface of the spheroid that is at—
 - (i) 133°12'30.0771" east longitude; and
 - (ii) 25°56'54.5515" south latitude.

11 Section number not used

See note 2 to section 3(1).

12 Power to amend and revoke instruments

- (1) A provision of this Act that confers a power to do something in writing is also taken to confer the power to revoke or amend the written document by which that thing is done.
- (2) The power to revoke or amend—
 - (a) must also be exercised in writing; and
 - (b) is subject to the same procedural requirements as the original power; and
 - (c) is subject to the same conditions as those that governed the exercise of the original power.

Division 2 Basic concepts for this Act

13–15 Section numbers not used

See note 2 to section 3(1).

[s 16]

16 Coastal waters, and effect of change in baseline

- (1) Subject to this section, the coastal waters of the State are constituted by the first 3 nautical miles of the territorial sea from the baseline.
- (2) The coastal waters do not include any waters that are inside the baseline.
- (3) If—
 - (a) a tenure has been granted on the basis that an area is within coastal waters; and
 - (b) there is a change to the baseline or, because new data is obtained or existing data is reconsidered, the location of the baseline is reassessed; and
 - (c) as a result of the change to, or reassessment of the location of, the baseline, the area ceases to be within coastal waters;

this Act applies as if the area were still within coastal waters.

- (4) Subsection (3) continues to apply to the area only while the tenure and any successor tenure remains in force.
- (5) If—
 - (a) an area in the offshore area under the Commonwealth Act is covered by a tenure under the Commonwealth Act; and
 - (b) there is a change to the baseline; and
 - (c) as a result of the change to the baseline, the area—
 - (i) ceases to be within the offshore area under the Commonwealth Act; and
 - (ii) falls within coastal waters;

this Act does not apply to the area.

- (6) Subsection (5) continues to apply to the area only while the tenure under the Commonwealth Act and any successor tenure under that Act remains in force.

(7) This Act has effect subject to the *Mineral Resources Act 1989*, section 4.

(8) In this section—

baseline means the baseline adjacent to the coast of the State (including the coast of any island forming part of the State) as for the time being decided under the *Seas and Submerged Lands Act 1973* (Cwlth), section 7(2)(b).

Note 1—

Generally the baseline is the lowest astronomical tide along the coast but it also includes lines enclosing bays and indentations that are not bays and straight baselines that depart from the coast. See *Australia's territorial sea baseline* published 1988 by the Australian Government Printing Service.

Note 2—

The map in schedule 1 shows the coastal waters of the State.

17 Sub-blocks

(1) This is how a sub-block is constituted in coastal waters—

(a) assume that there is laid over the coastal waters a grid constituted by—

(i) lines running along meridians drawn through each degree of longitude and the minutes between those degrees; and

(ii) lines running along parallels drawn through each degree of latitude and the minutes between those degrees;

(b) take a bounded space defined by the grid;

(c) the seabed and subsoil within the coastal waters that is under that space is a sub-block.

(2) The diagram in schedule 2 shows how a sub-block is constituted.

[s 18]

- (3) Each sub-block is identified by giving the name of the plan in the 1:1000000 map series, an identifying number of the 5 minute block and a letter identifying the 1 minute sub-block.

18 Reserved sub-block

- (1) Subject to subsection (2), the Minister may declare that a sub-block in coastal waters is a reserved sub-block.

Note 1—

A reserved sub-block may be put up for tender by the Minister publishing in the *Gazette* a tender sub-block tenure notice (see sections 74 and 218).

Note 2—

The *Acts Interpretation Act 1954*, section 32C, which provides that in an Act, the singular includes the plural, allows a single declaration under this subsection to be made for 2 or more sub-blocks.

- (2) A declaration under subsection (1) must not be made about a sub-block if—
 - (a) a tenure over that sub-block is in force; or
 - (b) an application for a tenure over that sub-block has been made and has not been decided.
- (3) A declaration under subsection (1) must be made by gazette notice.

19 Standard sub-block

A standard sub-block is a sub-block that is not the subject of a declaration under section 18(1).

20 Tender sub-block

A tender sub-block is a sub-block that is the subject of a tender sub-block tenure notice published by the Minister under section 74 or 218.

21 Discrete area

- (1) A group of sub-blocks forms a discrete area if the area formed by the sub-blocks is continuous.
- (2) Two sub-blocks that are joined at 1 point only do not form a continuous area.

22 Minerals

- (1) A mineral is a naturally occurring substance or a naturally occurring mixture of substances.

Editor's note—

This Act does not apply to petroleum, see section 35 (Act does not apply to exploration for or recovery of petroleum).

- (2) Without limiting subsection (1), a mineral may be in the form of clay, limestone, evaporites, shale, oil-shale or coal.
- (3) However, the following are not minerals under this Act—
 - (a) coral limestone;
 - (b) sand, gravel and rock.

Editor's note—

See the *Transport Infrastructure Act 1994*, section 153 (Definitions for chapter), definition *extractive material*.

23 Exploration

- (1) Exploration for minerals includes any activity that is directly related to the exploration for minerals.
- (2) Exploration does not include the exploration for minerals of the subsoil of coastal waters that is carried out by way of

[s 24]

underground mining from land in the State if that exploration is carried out under the *Mineral Resources Act 1989*.

24 Recovery

- (1) Recovery of minerals includes any activity that is directly related to the recovery of minerals.
- (2) Recovery does not include the recovery of minerals from the subsoil of coastal waters that is carried out by way of underground mining from land in the State if that exploration is carried out under the *Mineral Resources Act 1989*.

25 Tenure holder

- (1) A reference to the holder of a tenure or the tenure holder is a reference to the person whose name is entered in the offshore mining register as the person who holds the tenure.

Note 1—

This Act is based upon the grant and registration of tenures.

Note 2—

If a tenure is granted to a person, that person's name is entered in the register (see section 333).

Note 3—

The entry in the register about a tenure will be varied if there is a change in the holder of the tenure (see section 338(4)).

- (2) A tenure may be held by more than 1 person.

26 Associates

- (1) The following are the associates of a tenure holder—
 - (a) associated contractors of the holder;
 - (b) associated agents of the holder;
 - (c) associated agents of associated contractors;
 - (d) associated employees of the holder;

-
- (e) associated employees of associated contractors.
 - (2) A person is an associated contractor of the holder if—
 - (a) the person enters into an agreement with the holder for carrying out activities under the tenure; or
 - (b) the person enters into an agreement with a person who is an associated contractor under paragraph (a) or this paragraph for carrying out activities under the tenure.
 - (3) A person is an associated agent of the holder if the person is the agent of, or acts on behalf of, the holder in relation to carrying out activities under the tenure.
 - (4) A person is an associated agent of an associated contractor if the person is the agent of, or acts on behalf of, the associated contractor in relation to carrying out activities under the tenure.
 - (5) A person is an associated employee of the holder if the person is employed by the holder and, in the course of that employment, carries out activities under the tenure.
 - (6) A person is an associated employee of an associated contractor if the person is employed by the associated contractor and, in the course of that employment, carries out activities under the tenure.

27 Confidential information

- (1) Information is confidential information if—
 - (a) a tenure holder has given it to the Minister; and
 - (b) it is in a record, return, report or document; and
 - (c) it relates to activities authorised by the tenure; and
 - (d) it relates to an area of the seabed or subsoil that is covered by the tenure or a successor tenure to the tenure.
- (2) However, if—
 - (a) a person is required to give the Minister a report about particular sub-blocks; and

[s 28]

- (b) the person gives the Minister a report that relates not only to those sub-blocks but also to other sub-blocks; and
- (c) the Minister is required to make the report available under section 376;

the information that relates to those other sub-blocks is not confidential information.

28 Confidential sample

A sample is a confidential sample if—

- (a) a tenure holder has given it to the Minister; and
- (b) it was recovered in the course of activities authorised by the tenure; and
- (c) it was recovered from an area of the seabed or subsoil that is covered by the tenure or a successor tenure to the tenure.

Part 1.3 Administration of the Commonwealth–State offshore area

29 Definitions

In this part—

Commonwealth–State offshore area means the Commonwealth–State offshore area for the State under the Commonwealth Act, section 13.

Editor’s note—

The diagram in schedule 3 illustrates the Commonwealth–State offshore area.

30 Minister as member of Joint Authority, or as Designated Authority

- (1) The Minister may perform any function that the Minister has under the Commonwealth Act or an associated revenue Act—
 - (a) as a member of the Joint Authority for the Commonwealth–State offshore area provided for by the Commonwealth Act, section 32(2); or
 - (b) as the Designated Authority for that area provided for by the Commonwealth Act, section 29(2).
- (2) The Minister must perform any such function that the Minister is required to perform by the Commonwealth Act or an associated revenue Act.

31 State officer acting under delegation

An officer of the public service to whom a delegation is made under the Commonwealth Act, section 419 may perform any function that the officer has under that delegation and must perform any such function that the officer is required to perform under the Commonwealth Act.

32–34 Section numbers not used

See note 2 to section 3(1).

Part 1.4 Application of this Act

35 Act does not apply to exploration for or recovery of petroleum

This Act does not apply to the exploration for or recovery of petroleum.

[s 36]

Note 1—

Offshore petroleum exploration and mining are regulated by the *Petroleum (Submerged Lands) Act 1967* (Cwlth) and the *Petroleum (Submerged Lands) Act 1982*.

Editor's note—

For *petroleum*, see schedule 5 (Dictionary).

36 Section number not used

See note 2 to section 3(1).

37 Act applies to all individuals and corporations

- (1) This Act applies to all individuals, including—
 - (a) individuals who are not Australian citizens; and
 - (b) individuals who are not resident in Queensland.
- (2) This Act applies to all corporations, including—
 - (a) corporations that are not incorporated in Queensland; and
 - (b) corporations that do not carry on business in Queensland; and
 - (c) a company that, under the Corporations Act, is taken to be registered other than in Queensland.

Editor's note—

The *Penalties and Sentences Act 1992*, section 181B provides that the maximum fine for a corporation is 5 times the maximum fine for an individual.

Chapter 2 Regulation of offshore exploration and mining

Part 2.1 General

38 General prohibition on exploring and mining without appropriate authorisation

A person must not—

- (a) explore for minerals in coastal waters; or
- (b) recover minerals from coastal waters;

unless the exploration or recovery is authorised by a tenure or special purpose consent granted under this Act.

Maximum penalty—400 penalty units.

Note—

A works licence may be necessary because *exploration* includes activities that are directly related to exploration (see section 23(1)) and *recovery* includes activities that are directly related to recovery (see section 24(1)).

39 Tenure and consents available under this Act

This Act provides for the grant of—

- (a) exploration permits; and
- (b) mineral development licences; and
- (c) mining leases; and
- (d) works licences; and
- (e) special purpose consents.

Note 1—

An exploration permit is designed to cover the exploration phase of a project and authorises—

[s 39]

- exploration; and
- the recovery of mineral samples.

Note 2—

A mineral development licence is designed to ensure the retention of rights pending the transition of a project from the exploration phase to the commercial mining phase and authorises—

- exploration; and
- the recovery of minerals but not as part of a commercial mining operation.

Note 3—

A mining lease is designed to cover the commercial mining phase of a project and authorises—

- exploration; and
- full commercial recovery.

Note 4—

A project might make use of any of the following 3 tenure arrangements—

- an exploration permit leading to a mining lease;
- an exploration permit leading to a mineral development licence and then a mining lease;
- a mining lease (without progressing through an exploration permit/mineral development licence stage).

Note 5—

A tenure is granted over a particular area (constituted by sub-blocks). The tenure holder may need to carry out engineering or other activities outside the tenure area. If so, the tenure holder or someone else must obtain a works licence to carry out those activities.

Note 6—

If a person wants to carry out—

- a scientific investigation; or
- a reconnaissance survey; or
- the collection of only small amounts of minerals;

in coastal waters, the person must obtain a special purpose consent under part 2.6 to carry out the activity.

Note 7—

Even though a person has a tenure or special purpose consent, the person must not interfere unnecessarily with navigation, native title, fishing, resource conservation or other activities in the area (see section 44).

40 Steps involved in the grant of a fully effective tenure

- (1) The following 3 steps must happen before a tenure comes into force—
 - (a) provisional grant of the tenure;
 - (b) proper acceptance of the grant;
 - (c) registration of the grant.

Note—

See sections 88, 154, 232 and 286.

- (2) If a tenure is provisionally granted to a person, the person must do the following to properly accept the grant—
 - (a) give the Minister a written acceptance;
 - (b) lodge any security that the Minister has required;
 - (c) pay the fee that is payable under section 425.

Note—

See sections 70, 84, 151, 214, 228 and 283.

- (3) The following 3 steps must occur before a renewal of a tenure comes into force—
 - (a) provisional renewal of the tenure;
 - (b) proper acceptance of the renewal;
 - (c) registration of the renewal.

Note—

See sections 89, 155, 233 and 287.

- (4) If a tenure is provisionally renewed, the holder must do the following to properly accept the renewal—

[s 41]

- (a) give the Minister a written acceptance of the renewal;
- (b) lodge any security that the Minister has required;
- (c) pay the fee that is payable under section 425.

Note—

See sections 114, 173, 250 and 300.

41 Approval of form of applications etc.

- (1) The Minister may approve the form and the way in which the following are to be made—
 - (a) applications for tenures over sub-blocks in coastal waters;
 - (b) applications for the renewal of tenures over sub-blocks in coastal waters.
- (2) An approval under subsection (1) must be made in writing.

42 Rights to minerals recovered

- (1) Any minerals recovered by a tenure holder or special purpose consent holder from a sub-block covered by the tenure or consent become the property of the holder when they are recovered.
- (2) If the tenure or consent authorises the exploration for and the recovery of minerals only of a particular kind, subsection (1) only applies to the recovery of minerals of that kind.
- (3) Subsection (1) does not apply to the recovery of minerals by a works licence holder.
- (4) The minerals recovered are not subject to the rights of any other person.
- (5) Subsection (4) does not apply to rights that the tenure or consent holder transfers to the other person.

43 Effect of grant of tenure or special purpose consent on native title

- (1) The grant of a tenure or special purpose consent does not extinguish native title in the tenure or consent area.
- (2) While a tenure or special purpose consent is in force over an area, native title in the area is subject to the rights conferred by the tenure or consent.
- (3) If compensation is payable under the *Native Title Act 1993* (Cwlth), section 23(4) in relation to the grant of a tenure or special purpose consent, the person who applied for the grant must, for section 23(5)(b) of that Act, pay the compensation.

44 Tenure etc. does not authorise unnecessary interference with other activities in the tenure area

A person who carries out activities in coastal waters under a tenure or special purpose consent granted under this Act must not do so in a way that interferes with—

- (a) navigation; or
- (b) the exercise of native title rights and interests; or
- (c) fishing; or
- (d) the conservation of the resources of the sea or the seabed; or
- (e) any activities that someone else is lawfully carrying out; to a greater extent than is necessary for—
- (f) the reasonable exercise of the person's rights under the tenure or consent; or
- (g) the performance of the person's duties under the tenure or consent.

Maximum penalty—134 penalty units.

Example—

The person referred to here might be the tenure or consent holder or might be an associated person.

Part 2.2 Exploration permits

Division 1 General

45 Exploration permits

- (1) This part provides for the grant of exploration permits over sub-blocks in coastal waters.
- (2) An exploration permit may be granted over a standard sub-block or over a tender sub-block.

Note—

A tender sub-block is a sub-block that has been declared available for tender. A standard sub-block is any sub-block that is not a reserved sub-block (see sections 19 and 20).

Editor's note—

See division 2 (Application for a grant of exploration permit over standard sub-blocks) or division 3 (Application for and grant of exploration permit over tender sub-block).

46 Activities authorised by an exploration permit

- (1) Subject to subsection (2), an exploration permit holder may—
 - (a) explore for minerals in the tenure area; and
 - (b) take samples of minerals in the tenure area.

Note—

Under section 23(1) the concept of *exploration* extends to activities that are directly related to exploration.

- (2) If the tenure is expressed to restrict the kind of minerals covered by the tenure, the holder is not permitted to explore for, or to take samples of, minerals not covered by the tenure.
- (3) A restriction on the kind of minerals covered by the tenure may be inclusive (for example, only minerals A, B and C) or exclusive (for example, all minerals except A, B and C).

-
- (4) For subsection (2), the holder does not take samples of an excluded mineral if, in the course of exploring for, or taking samples of, another mineral, the holder recovers some excluded mineral.

47 Minister may cancel or not renew exploration permit without compensation

No compensation is payable because of the cancellation or non-renewal of an exploration permit by the Minister.

Note 1—

The Minister may cancel the tenure under section 130.

Note 2—

The Minister may refuse to renew the tenure under section 108.

48 Tenure rights may be suspended

- (1) The Minister must suspend particular rights conferred by an exploration permit if the Minister is satisfied that it is necessary in the public interest to do so.
- (2) The Minister may suspend rights under subsection (1) for a specified period or for an indefinite period.
- (3) The Minister may end a suspension at any time.
- (4) A suspension or the ending of a suspension must be in writing.
- (5) If the Minister—
- (a) suspends rights conferred by an exploration permit; or
 - (b) ends a suspension;

the Minister must give the tenure holder a notice that informs the holder of the suspension or the ending of the suspension.

Note—

See section 122 for the effect of the suspension on the obligations associated with the tenure.

[s 49]

- (6) A suspension takes effect when—
- (a) the holder has been given notice of the suspension under subsection (5); and
 - (b) the suspension has been registered under section 337.

49 Compensation for acquisition of property due to suspension of rights

- (1) If—
- (a) the Minister suspends tenure rights under section 48; and
 - (b) the suspension results in the acquisition of property from a person; and
 - (c) the State and the person agree on an amount of compensation for the acquisition;
- the State must pay the person the agreed amount of compensation.
- (2) If—
- (a) the Minister suspends tenure rights under section 48; and
 - (b) the suspension results in the acquisition of property from a person; and
 - (c) the State and the person do not agree on an amount of compensation for the acquisition; and
 - (d) the person brings an action for compensation against the State in the Wardens Court;
- the State must pay the person the amount of compensation (if any) that is decided by the court.
- (3) In this section—
- acquisition of property* see the Commonwealth Constitution, section 51(xxxi).

Division 2 Application for and grant of exploration permit over standard sub-blocks

50 Application for exploration permit over standard sub-block

- (1) A person may apply to the Minister for an exploration permit over a standard sub-block if—
 - (a) the sub-block is vacant; and

Note 1—

A tender sub-block is a sub-block that has been declared available for tender. A standard sub-block is any other sub-block (see sections 19 and 20).

Note 2—

An exploration permit or mineral development licence holder may apply for a mining lease over the same area or part of the same area.

Editor's note—

For paragraphs (a) and (b) see division 2 (Application for and grant of mining lease over standard sub-blocks) and for paragraph (c) see division 3 (Application for and grant of mining lease over tender sub-block).

193 Activities authorised by a mining lease

- (1) Subject to subsection (2), a mining lease holder may—
 - (a) recover minerals in the tenure area; and
 - (b) explore for minerals in the tenure area.

Note 1—

Under section 23(1) the concept of *exploration* extends to activities that are directly related to exploration.

[s 194]

Note 2—

Under section 24(1) the concept of *recovery* extends to activities that are directly related to the recovery of minerals.

- (2) If the tenure is expressed to restrict the kind of minerals covered by the tenure, the holder is not permitted to recover, or to explore for, minerals not covered by the tenure.
- (3) A restriction on the kind of minerals covered by the tenure may be inclusive (for example, only minerals A, B and C) or exclusive (for example, all minerals except A, B and C).
- (4) For subsection (2), the holder does not recover an excluded mineral if, in the course of recovering, or exploring for, another mineral, the holder recovers some excluded mineral.

194 Minister may cancel or not renew mining lease without compensation

No compensation is payable because of the cancellation or non-renewal of a mining lease by the Minister.

Note 1—

The Minister may cancel the tenure under section 265.

Note 2—

[s 197]

(d) the person brings an action for compensation against the State in the Wardens Court;

the State must pay the person the amount of compensation (if any) that is decided by the court.

Schedule 1 Coastal waters of the State

section 16(1)

State coastal waters extend three nautical miles seaward from Australia's territorial sea baseline

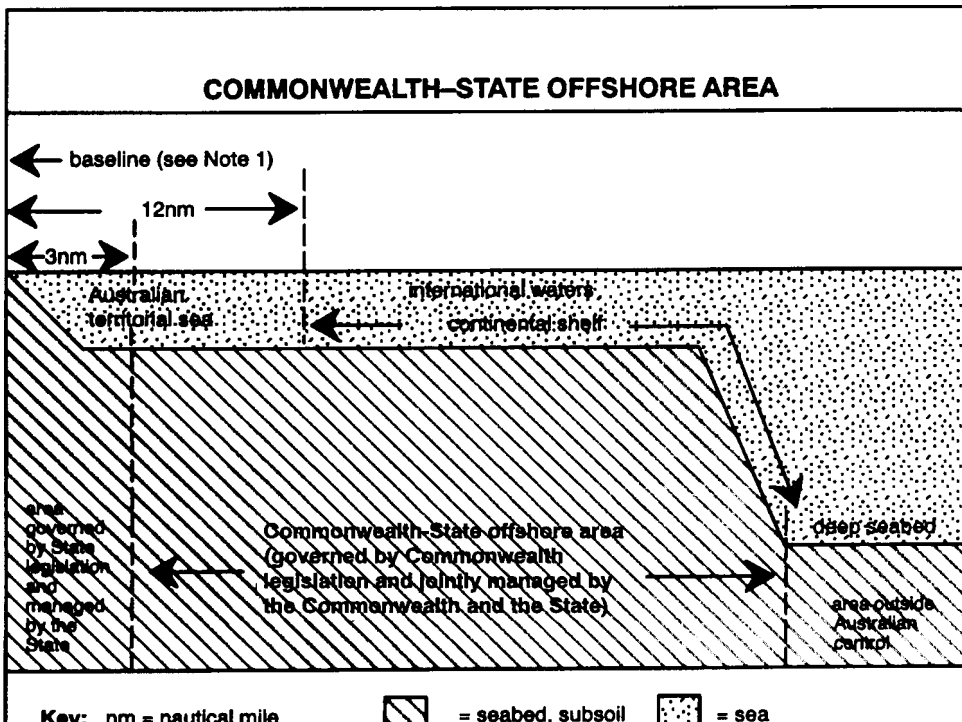

Schedule 2 Sub-blocks

section 17

Schedule 3 Commonwealth–State offshore area

section 29

Note 1—

for the *baseline* see *Australia's territorial sea baseline* (AGPS) 1988: generally the baseline is the lowest astronomical tide along the coast but it also includes lines enclosing bays and indentations that are not bays and straight baselines that depart from the coast.

Note 2—

the *Continental Shelf* in a legal sense starts not from the coast but from the outer limits of the territorial sea. In a geophysical sense, of course, the continental shelf starts at the coast. The diagram shows the outer edge of the continental margin as the limit of the Continental Shelf but

Schedule 3

sometimes the 200 nautical mile limit defines the limit of the Continental Shelf.

Note 3—

sometimes the outer limit of the Commonwealth-State offshore area is a bilaterally negotiated boundary or a median line adopted pending bilateral negotiations.
