

Queensland

Transport Operations (Road Use Management) Act 1995

Traffic Regulation 1962

Current as at 1 July 2013

Information about this reprint

This reprint shows the legislation current as at the date on the cover and is authorised by the Parliamentary Counsel.

A new reprint of the legislation will be prepared by the Office of the Queensland Parliamentary Counsel when any change to the legislation takes effect. This change may be because a provision of the original legislation, or an amendment to it, commences or because a particular provision of the legislation expires or is repealed.

When a new reprint is prepared, this reprint will become a historical reprint. Also, if it is necessary to replace this reprint before a new reprint is prepared, for example, to include amendments with a retrospective commencement, an appropriate note would be included on the cover of the replacement reprint and on the copy of this reprint at www.legislation.qld.gov.au.

The endnotes to this reprint contain detailed information about the legislation and reprint. For example—

- The table of reprints endnote lists any previous reprints and, for this reprint, gives details of any discretionary editorial powers under the *Reprints Act 1992* used by the Office of the Queensland Parliamentary Counsel in preparing it.
- The list of legislation endnote gives historical information about the original legislation and the legislation which amended it. It also gives details of uncommenced amendments to this legislation. For information about possible amendments to the legislation by Bills introduced in Parliament, see the Queensland Legislation Current Annotations at www.legislation.qld.gov.au/information.
- The list of annotations endnote gives historical information at section level.

All Queensland reprints are dated and authorised by the Parliamentary Counsel. The previous numbering system and distinctions between printed and electronic reprints are not continued.

Traffic Regulation 1962

[as amended by all amendments that commenced on or before 1 July 2013]

Part 1 Preliminary

1 Short title

This regulation may be cited as the *Traffic Regulation 1962*.

2 Fees

The fees payable under the Act are set out in schedule 4.

4 Definitions

In this regulation—

analogue redlight camera system means a camera system described in schedule 10, part 1.

analogue speed camera system means a camera system described in schedule 10, part 2.

ANPR camera system means a camera system described in schedule 10, part 3.

camera means that part of a photographic detection device used for taking photographs or capturing images.

camera system hardware, for a digital redlight camera system, digital speed camera system, digital combined redlight and speed camera system or digital point-to-point camera system, means a component of the system.

Examples—

the system's camera or cameras, server and electrical wiring

[s 4]

digital combined redlight and speed camera system means a camera system described in schedule 10, part 6.

digital point-to-point camera system means a camera system described in schedule 10, part 7.

Note—

A digital point-to-point camera system comprises multiple cameras. It can be used to provide evidence of a prescribed offence based on—

- (a) an image, or images, of a vehicle taken by 1 of the system's cameras at a particular location and time; or
- (b) images of a vehicle taken by more than 1 of the system's cameras at different points on a road, the distance between which is used to calculate the average speed of the vehicle (see the Act, section 120A).

digital redlight camera system means a camera system described in schedule 10, part 4.

digital speed camera system means a camera system described in schedule 10, part 5.

disability parking permit means a permit under section 111 of the Act.

driver has the meaning given by the Queensland Road Rules.

rider has the meaning given by the Queensland Road Rules.

road-related area has the meaning given by the Queensland Road Rules.

sign includes any poster, placard, notice, sign board, or sign of any kind whatsoever, and which is or is not illuminated or has affixed thereto any material designed to reflect light, and also includes any device, design, structure or erection in the nature of an advertisement or advertising device, and any framework, board, or other structure whatsoever which is used or intended to be used, or is adapted to be used, for the purpose of affixing thereto or supporting any device, design, poster, placard, notice, sign board, or other sign which is a *sign* within the meaning of this definition.

speeding offence means a prescribed offence against the Queensland Road Rules, section 20.

[s 60]

a part thereof, or is or is not or was or was not within a traffic area; or

- (b) that any specified time is or is not or was or was not within the fixed hours in relation to a metered space or spaces, or a parkatarea space or spaces, or is or is not or was or was not within the hours and upon a day during which regulated parking other than metered parking and parkatarea parking is or was operative within a traffic area; or
- (c) that any specified period is or was the prescribed maximum period for which a vehicle may be parked in a metered space or in a parkatarea space, or within a traffic area other than in a metered space or parkatarea space; or
- (d) that a device installed for a metered space or parkatarea space is a parking meter or parkatarea, as the case may be, duly installed and maintained in relation to, or provided for, that space;

shall be prima facie evidence of the matter or matters so alleged or averred.

- (2) This section shall apply to any matter alleged or averred hereunder although evidence in support of such matter or of any other matter is given and shall not lessen or affect any onus of proof otherwise falling on the defendant.

Part 12A Disability parking

60 Eligibility for disability parking permit

- (1) The following are eligible to apply to the chief executive for the grant of a disability parking permit—
 - (a) an individual who resides in Queensland, if—

-
- (i) the individual is unable to walk and always requires the use of a wheelchair; or
 - (ii) the individual's ability to walk is severely restricted by a permanent medical condition or disability; or
 - (iii) the individual's ability to walk is severely restricted by a temporary medical condition or disability;
- (b) an organisation for a specified vehicle with a GVM of not more than 4.5t, if the organisation transports persons mentioned in paragraph (a) in the vehicle.
- (2) For subsection (1)(a)(iii), a temporary medical condition or disability must be of at least 6 months' duration, as certified by a doctor or occupational therapist.
 - (3) In this section—

occupational therapist means a person registered under the Health Practitioner Regulation National Law to practise, other than as a student, in the occupational therapy profession.

61 Application for permit

- (1) An application for a disability parking permit must—
 - (a) be in the approved form; and
 - (b) be supported by enough information to enable the chief executive to decide the application; and
 - (c) be accompanied by the appropriate fee.
- (2) Subsection (1)(c) does not apply if the application is made by a person mentioned in section 60(1)(a)(i) or (ii) or an organisation, and the applicant—
 - (a) holds a disability parking permit and makes the application before the permit expires; or
 - (b) held a disability parking permit that has expired and makes the application within 3 months after the expiry.

[s 62]

- (3) If the chief executive reasonably believes further information or documents are required to make a decision about the application, the chief executive may give a written notice to the applicant requiring the applicant, within a stated period of at least 28 days, to give the chief executive further information or documents relevant to the application.
- (4) If the applicant does not comply with a notice given under subsection (3), the chief executive may declare, by further written notice given to the applicant, that the application is taken to be withdrawn on the day stated in the notice.

62 Deciding the application

- (1) The chief executive must, as soon as practicable, consider the application after receiving all necessary information relevant to the application, and—
 - (a) grant the application; or
 - (b) refuse to grant the application.
- (2) If the applicant is an individual, the chief executive may grant the application only if the chief executive is satisfied the applicant is a person mentioned in section 60(1)(a)(i), (ii) or (iii).

Note—

In addition to the standard conditions mentioned in section 65, the permit may be issued subject to conditions—see section 111(2) of the Act.

- (3) If the applicant is an organisation and the application is for a specified vehicle, the chief executive may grant the application only if the chief executive is satisfied the organisation transports persons mentioned in section 60(1)(a) in the vehicle.

Note—

In addition to the standard conditions mentioned in section 65, the permit may be issued subject to conditions—see section 111(2) of the Act.

-
- (4) Despite subsection (2) or (3), the chief executive may refuse to grant the application if, within 1 year immediately before the application was made, a disability parking permit held by the applicant was cancelled under chapter 3, part 1A of the Act on any of the following grounds—
- (a) the applicant was convicted of an offence against section 126(1) of the Act;
 - (b) a breach of the condition mentioned in section 65(1)(d) or (2)(d).

63 Granting of, or refusing to grant, application

- (1) If the chief executive decides to grant the application, the chief executive must issue a disability parking permit to the applicant.
- (2) Subsection (3) applies if the chief executive decides—
- (a) to refuse to grant the application; or
 - (b) to issue a disability parking permit to the applicant subject to a condition, other than a condition mentioned in section 65.
- (3) The chief executive must, as soon as practicable, give the applicant a written notice stating the following—
- (a) the decision;
 - (b) the reasons for the decision;
 - (c) that the applicant may either—
 - (i) apply for a review of the decision under section 65 of the Act; or
 - (ii) apply to QCAT for a review of the decision under section 131(1AA) of the Act;
 - (d) that, if the applicant applies for a review of the decision under section 65 of the Act (the *first review*), the applicant is also able, under section 65A of the Act, to apply to QCAT for a review of the chief executive's decision on the first review.

[s 64]

64 Duration of permit

- (1) For a person mentioned in section 60(1)(a)(i) or (ii) or an organisation, the disability parking permit is issued for a period of 5 years.
- (2) For a person mentioned in section 60(1)(a)(iii), the disability parking permit is issued for the shorter of—
 - (a) a period equal to the duration of the medical condition or disability; or
 - (b) a period of 1 year.

65 Standard conditions

- (1) A disability parking permit issued to an individual is subject to the following conditions—
 - (a) a vehicle in which the individual is travelling must not be parked in a parking area for people with disabilities unless the vehicle displays the permit;
 - (b) at some time while a vehicle in which the individual is travelling is parked in a parking area for people with disabilities, the individual must alight from, or enter, the vehicle;
 - (c) if a vehicle in which the individual is travelling is parked at a place under the Queensland Road Rules, section 206—at some time while the vehicle is parked at the place, the individual must alight from, or enter, the vehicle;
 - (d) the individual must not allow the permit to be used by another person for a purpose for which the permit was issued, unless the use is in connection with a vehicle in which the individual is travelling at the time;
 - (e) the individual may only use the permit for a vehicle with a GVM of not more than 4.5t.
- (2) A disability parking permit issued to an organisation for a specified vehicle is subject to the following conditions—

- (a) if the vehicle is being used by the organisation to transport persons mentioned in section 60(1)(a)—it must not be parked in a parking area for people with disabilities unless it displays the permit;
 - (b) if the vehicle is being used by the organisation to transport persons mentioned in section 60(1)(a) and is parked in a parking area for people with disabilities—at some time while the vehicle is parked in the parking area, 1 or more of the persons must alight from, or enter, the vehicle;
 - (c) if the vehicle is being used by the organisation to transport persons mentioned in section 60(1)(a) and is parked at a place under the Queensland Road Rules, section 206—at some time while the vehicle is parked at the place, 1 or more of the persons must alight from, or enter, the vehicle;
 - (d) the organisation must not allow the permit to be used by another person for a purpose for which the permit was issued, unless the other person is at the time using the vehicle to transport persons mentioned in section 60(1)(a).
- (3) In this section—
- parking area for people with disabilities* has the meaning given by the Queensland Road Rules, section 203(2).

66 Review of decisions

- (1) Sections 65 and 65A of the Act apply to a permit decision as if a reference to an original decision in section 65 of the Act were a reference to the permit decision.
- (2) In this section—

permit decision means a decision of the chief executive—

 - (a) to refuse to grant an application for a disability parking permit; or

[s 67]

- (b) to issue a disability parking permit subject to a condition, other than a condition mentioned in section 65.

67 Return of suspended or cancelled permit

- (1) This section applies if the chief executive suspends or cancels a person's disability parking permit under chapter 3, part 1A of the Act.
- (2) The chief executive may give the person a written notice requiring the person to return the permit in a way and within a period that is at least 14 days stated in the notice.
- (3) The person must comply with the notice, unless the person has a reasonable excuse.

Maximum penalty—20 penalty units.

- (4) The chief executive must return a suspended permit to the person at the end of the suspension period.

68 Replacement permits

- (1) This section applies if the holder of a disability parking permit (the *original permit*) becomes aware, or reasonably suspects, the permit has been damaged, lost or stolen.
- (2) The holder must promptly apply to the chief executive for a replacement permit.
- (3) The application must be made in the approved form.
- (4) If the chief executive is satisfied the original permit has been damaged, lost or stolen, the chief executive must issue a replacement permit to the person.

69 Damaging permits

A person must not wilfully damage a disability parking permit, unless the person has a reasonable excuse.

Maximum penalty—20 penalty units.

70 Change of name or address

If the holder of a disability parking permit changes the holder's name or address, the holder must notify the chief executive of the change within 14 days of the change.

Maximum penalty—20 penalty units.

Part 13 Construction of vehicles, and equipment, loading, use and inspection of vehicles**76 Loading exceeding normal carrying capacity of vehicle**

A person shall not upon any road drive any vehicle if the number of persons or the weight of loading upon such vehicle exceeds the maximum number of persons or the maximum weight, as the case may be, which the vehicle is—

- (a) capable of carrying as stated in—
 - (i) the certificate of registration for the vehicle under the *Transport Operations (Road Use Management—Vehicle Registration) Regulation 2010* or a law of the Commonwealth or another State corresponding to that Act; or
 - (ii) the application for the certificate of registration; or
- (b) licensed, authorised or permitted to carry by or under any law; or
- (c) reasonably capable of carrying with safety having regard to the designed carrying capacity of the vehicle.

Maximum penalty—20 penalty units.

77 Carrying capacity of hire vehicle—Fraser Island

- (1) A person must not drive a hire vehicle on Fraser Island if the vehicle—
- (a) has more than 8 seats; or
 - (b) has seats that are not forward or rear facing; or
 - (c) has an apparatus, other than an approved apparatus, that is attached to the roof or ceiling of the vehicle and may be used for carrying a load inside the vehicle; or
 - (d) is carrying a load—
 - (i) on the vehicle's roof; or
 - (ii) higher than the maximum internal carry height.

Maximum penalty—40 penalty units.

- (2) In this section—

approved apparatus means an apparatus that—

- (a) is fixed to both the ceiling and floor of the vehicle; and
- (b) is used to separate passengers in the vehicle from a load being carried in the vehicle.

hire vehicle means a vehicle hired under a hiring agreement.

hiring agreement does not include a hire-purchase agreement.

Example—

If a person acquires a vehicle under a hire-purchase agreement and the person hires the vehicle to someone else under a hiring agreement, the vehicle is a hire vehicle while under the hiring agreement.

load means any thing other than a roof rack.

Examples—

surfboard, backpack, camping equipment, mounted spare tyre, cargo pod, jerry can

maximum internal carry height means a height that is equal to the height of a line in the interior of the vehicle running—

- (a) from the front windscreen to the rear windscreen; and

(b) level with the top of the door frames.

roof rack includes a cross bar and roof rail but does not include a tray, basket or similar item.

Part 16 Licences

102 Application of pt 16

This part does not apply to a disability parking permit.

Note—

See part 12A for disability parking permits.

103 Licences—applications

- (1) A person may apply to a superintendent in the approved form for the grant of a licence.
- (2) The superintendent, by written notice, may request the applicant to give further information or documents relevant to the application.
- (3) The superintendent may refuse to consider the application if the applicant does not comply with the request without reasonable excuse.

104A Licences—decision on application

- (1) The superintendent must consider an application for a licence and either—
 - (a) grant the licence; or
 - (b) refuse to grant the licence.
- (2) If the superintendent decides to grant the licence, the superintendent must promptly give the applicant—
 - (a) the licence; and

[s 107A]

- (b) if the licence is subject to a condition—a written notice stating that the applicant may contest the decision to impose the condition by—
 - (i) applying under section 134C for reconsideration of the decision; or
 - (ii) applying for a review of the decision under section 131(1AA) of the Act.
- (3) If the superintendent decides to refuse to grant the licence, the superintendent must promptly give the applicant a written notice stating—
 - (a) the decision; and
 - (b) the reasons for the decision; and
 - (c) that the applicant may contest the refusal by—
 - (i) applying under section 134C for reconsideration of the decision; or
 - (ii) applying for a review of the decision under section 131(1AA) of the Act.

107A Term of licence

- (1) A permit mentioned in section 126 or 126B is for the term, of not longer than 1 year, stated in the permit.
- (2) A licence may only be renewed before it expires.
- (3) The term of a licence includes any period when it is not in force under section 135.

116 Conditions of licences

- (1) A superintendent may grant a licence with conditions stated on the licence.
- (2) The licensee must comply with the conditions of the licence while acting under the authority of the licence.

Maximum penalty—20 penalty units.

117 Amendment of conditions

- (1) In this section—

amendment of conditions on a licence includes the imposition of conditions on a licence that was unconditional before amendment.
- (2) If a superintendent considers the conditions on a licence should be amended, the superintendent must give the licensee a written notice (the *show cause notice*) that—
 - (a) states the way the conditions are proposed to be amended; and
 - (b) states the reasons for the amendment; and
 - (c) outlines the facts and circumstances forming the basis for the reasons; and
 - (d) invites the licensee to show cause, within a specified time, why the conditions should not be amended.
- (3) The time specified in subsection (2)(d) must be at least 28 days.
- (4) The superintendent may, before or after the end of the specified time, extend the time within which the licensee must show cause.
- (5) The superintendent may amend the conditions if, after considering any representations made within the time specified or allowed, the superintendent still believes the conditions should be amended—
 - (a) in the way mentioned in the show cause notice; or
 - (b) in another way, having regard to the representations.
- (6) If the superintendent decides to amend the conditions, the superintendent must give the licensee a written notice stating—
 - (a) the way in which the conditions have been amended; and
 - (b) that the licensee may contest the decision by—

[s 117AA]

- (i) applying under section 134C for reconsideration of the decision; or
 - (ii) applying for a review of the decision under section 131(1AA) of the Act.
- (7) Subsections (2) to (6) do not apply if the conditions of a licence are to be amended only—
 - (a) by omitting a condition; or
 - (b) for a formal or clerical reason; or
 - (c) in another way that does not adversely affect the licensee's interests.
- (8) The superintendent may make an amendment of a type mentioned in subsection (7) by written notice given to the licensee.
- (9) An amendment takes effect on the later of the following—
 - (a) the day the notice is given to the licensee;
 - (b) the day specified in the notice.

117AA Return of licence for alteration

- (1) A superintendent may, by written notice, require the licensee to return the licence (in a way, and within a time, specified) to enable the conditions stated on the licence to be amended.
- (2) The time specified must be at least 14 days.
- (3) A licensee must comply with a notice under subsection (1), unless the person has a reasonable excuse not to comply with it.

Maximum penalty—20 penalty units.

- (4) The licence conditions as amended under section 117 take effect from the appropriate day under section 117(9), even if the licensee does not return the licence for alteration.

125 Funeral processions

- (1) The superintendent may at any time direct the diversion of funeral processions from any road.
- (1A) Notice of intention to direct such diversion shall, if practicable, be published in 1 or more newspapers circulating within the locality to which such directions shall apply.
- (2) A person shall not drive any hearse, mourning coach, carriage or other vehicle used for any purpose in connection with any funeral procession, upon any road in contravention of a direction given by the superintendent under subsection (1).

Maximum penalty—20 penalty units.

- (3) The driver of any vehicle upon any road shall not knowingly drive or attempt to drive such vehicle into or through or otherwise interfere with or interrupt the progress of any funeral procession.

Maximum penalty—20 penalty units.

126 Advertising, placards, handbills etc.

- (1) A person shall not—
 - (a) upon any road for the purpose of business advertising—
 - (i) carry any advertisement, placard, board, notice or sign;
 - (ii) throw or distribute any handbill or other printed or written matter; or
 - (b) in respect of a vehicle on which or alongside of which an advertisement is being displayed—drive, or permit to be driven, that vehicle on a road or cause or permit that vehicle to stop on a road in such circumstances that the primary purpose for which the vehicle is being driven or stopped at the material time is business advertising;

unless the person is the holder of a permit issued by the chief executive or commissioner authorising the person so to do and unless the person complies in every respect with the terms and conditions of such permit.

[s 126B]

Maximum penalty—20 penalty units.

- (2) Without limiting the liability of any other person where an offence is committed in relation of a breach of subsection (1)(b), the person who at the time of the commission of the breach was the owner of the vehicle shall be deemed to have committed that offence and may be proceeded against and shall be punishable accordingly.
- (3) In this section—
business advertising includes advertising for a single event, financial venture, fete, stall or sale.

126B Carrying signs on roads

A person shall not upon any road for any purpose other than business advertising carry any placard, board, notice or sign—

- (a) of a size exceeding 610mm in width and 610mm in length; or
- (b) which is constructed, framed or supported by any rigid material other than cardboard;

unless the person is the holder of a permit issued by the chief executive or commissioner authorising the person so to do and unless the person complies in every respect with the terms and conditions of such permit.

Maximum penalty—20 penalty units.

130 Destruction or mutilation of licence

A person shall not wilfully deface, mutilate or destroy a licence.

Maximum penalty—20 penalty units.

131 Licence lost, stolen etc.

- (1) Whenever a licence is lost, stolen, destroyed, mutilated, defaced, or mislaid, or can not be found, or whenever the particulars upon a licence other than a driver's licence become

illegible, the licensee shall forthwith forward written notification thereof to the superintendent.

Maximum penalty—20 penalty units.

- (2) A licensee whose licence is lost, stolen, destroyed, mislaid, defaced, or mutilated, or can not be found, or upon which the particulars have become illegible may apply in writing to the superintendent for the issue of a duplicate licence and the superintendent may upon proof of the facts to his or her satisfaction by a statutory declaration or otherwise and, upon payment of the prescribed fee cause to be issued in lieu of such licence a duplicate licence which, upon issue, shall become for all the purposes of the Act and this regulation the licence of the person named therein.
- (3) A duplicate licence shall be in accordance with the form prescribed for a new licence and indicate that it is a duplicate licence.
- (3A) Upon the issue of a duplicate licence the previous licence as aforesaid shall become null and void and the duplicate licence shall be valid for all purposes and uses for which the original licence would have been valid.

132 Delivery of expired licence

When any licence has expired or has become null and void any police officer may seize and take possession thereof.

133 Voluntary surrender or cancellation of licence

- (1) A licensee may by written notification addressed and delivered to the superintendent, surrender any licence, or request the cancellation of such licence.
- (2) Such licence shall, if in the possession of such licensee, be forwarded to the superintendent with such written notification.

[s 134]

134 Grounds for suspension or cancellation

- (1) Each of the following is a ground for the suspension or cancellation of a licence—
 - (a) the licence was obtained on the basis of incorrect or misleading information;
 - (b) the licensee has contravened a condition of the licence;
 - (c) the licensee is not, or is no longer, an appropriate person to hold the licence.
- (2) The question whether a person is, or continues to be, an appropriate person is decided in the same way as the question whether the person would be an appropriate person for the grant of the licence.

134A Procedure for suspension or cancellation

- (1) If a superintendent considers that reasonable grounds exist to suspend or cancel a licence (the *action*), the superintendent must give the licensee a written notice (the *show cause notice*) that—
 - (a) states the action proposed; and
 - (b) states the grounds for proposing to take the action; and
 - (c) outlines the facts and circumstances forming the basis for the grounds; and
 - (d) if the superintendent proposes to suspend the licence—states the proposed suspension period; and
 - (e) invites the licensee to show cause, within a specified time, why the action should not be taken.

Examples for paragraph (a)—

The superintendent may propose—

- (a) suspending a licensee's licence for a period shorter than the remaining term of the licence; or
- (b) cancelling a licensee's licence and prohibiting the licensee from applying for another licence for a period equal to, or longer than, the remaining term of the cancelled licence; or

-
- (c) cancelling a licensee's licence but allowing the licensee to apply immediately for another specified type of licence.
- (2) The time specified in subsection (1)(e) must be at least 28 days.
- (3) The superintendent may, before or after the end of the specified time, extend the time within which the licensee may show cause.
- (4) The licensee may show cause by personal or written representations.
- (5) If, after considering any representations made within the time specified or allowed, the superintendent still believes that grounds to take the action exist, the superintendent may—
- (a) if the show cause notice was a notice of intention to suspend the licence for a specified period—suspend the licence for a period not longer than the specified period; or
- (b) if the show cause notice was a notice of intention to cancel the licence—
- (i) cancel the licence; or
- (ii) suspend the licence for a period.
- (6) The superintendent must inform the licensee of the decision by written notice.
- (7) If the superintendent decides to suspend or cancel the licence, the notice must state—
- (a) the reasons for the decision; and
- (b) that the licensee may contest the decision by—
- (i) applying under section 134C for reconsideration of the decision; or
- (ii) applying for a review of the decision under section 131(1AA) of the Act.
- (8) Except for a ground mentioned in section 134(1)(a), the decision takes effect on the later of the following—
- (a) the day the notice is given to the licensee;

[s 134B]

(b) the day specified in the notice.

Note—

Section 53(2) of the Act applies for a ground mentioned in section 134(1)(a).

134B Return of suspended or cancelled licence

- (1) Having suspended or cancelled a person's licence, the superintendent may give the person a written notice requiring the person to return the licence in a way, and within a time, specified.
- (2) The time specified must be at least 14 days.
- (3) The person must comply with the notice, unless the person has a reasonable excuse not to comply with it.

Maximum penalty—20 penalty units.

- (4) The superintendent must return a suspended licence to the licensee at the end of the suspension period.

134C Reconsideration of decision by chief executive or commissioner

- (1) An applicant for a licence may apply in the approved form for the chief executive or commissioner to reconsider the superintendent's decision to refuse to grant the licence.
- (2) A licensee may apply in the approved form for the chief executive or commissioner to reconsider the superintendent's decision—
 - (a) to refuse to renew a licence; or
 - (b) to impose a condition on a licence; or
 - (c) to amend a condition on a licence; or
 - (d) to suspend or cancel a licence under section 134A.
- (3) The application must be made within 28 days after—
 - (a) the day the notice is given to the applicant; or

- (b) if the applicant is given oral notice of the decision and asks for written notice—the day the written notice is given to the applicant.
- (4) The applicant or licensee may offer further information in support of the application.
- (5) After reconsideration, the chief executive or commissioner may—
 - (a) confirm the decision; or
 - (b) set aside the decision and substitute another decision.
- (6) The chief executive or commissioner must promptly give the applicant or licensee written notice of the decision.
- (7) The notice must state that, if the applicant or licensee is dissatisfied with the decision, the applicant or licensee may apply for a review of the decision under section 131(1AA) of the Act.

135 Effect of cancellation or suspension of licence

Unless otherwise provided under the Act—

- (a) cancellation or suspension takes effect on the appropriate day under section 134A(8); and
- (b) a licence shall cease to have any force or effect—
 - (i) in the case of cancellation—from the time that cancellation thereof takes effect;
 - (ii) in the case of suspension—from the time that suspension thereof takes effect for so long as such suspension remains in force;
 - (iii) in respect of a written notification specified in section 133—from the time of receipt of that notification by the superintendent.

136 Seizure of licences

If any police officer suspects that an offence has been committed in respect of any licence produced to the police officer or that such licence is required for the purpose of having an endorsement made thereon such police officer may seize and retain such licence until—

- (a) any investigation involving such licence has been completed; or
- (b) any required endorsement has been made on such licence; or
- (c) such licence has been produced in any proceedings in which its production may be required.

138 Change of name or address

(1) Every licensee shall within 28 days after change of the licensee's name or address give written notice thereof to the superintendent and shall produce the licensee's licence to the superintendent who shall, on being satisfied with the correctness of the information supplied by the licensee concerning such change of name or address endorse upon such licence each of the following—

- (a) the licensee's correct name or address;
- (b) the date upon which such endorsement is made;
- (c) the name of the city or other locality where such endorsement is made.

Maximum penalty—20 penalty units.

(2) Every endorsement made upon a licence pursuant to subsection (1) shall carry the usual signature and designation of the superintendent making such endorsement.

139 Licensee to attend when notified

The superintendent may by notice in writing call upon any licensee to attend at the office of such superintendent and such

licensee shall at all reasonable times upon receiving such notice in all respects comply with the terms of the notice.

Maximum penalty—20 penalty units.

Part 17A Offences dealt with under s 81 of the Act

142A Prescribed penalties etc. for offences dealt with under s 81 of the Act

- (1) For the purposes of section 81 of the Act—
 - (a) table 1 sets out the prescribed penalty; and
 - (b) table 2 sets out the prescribed period of disqualification from holding or obtaining a driver's licence;for an offence to which section 81 applies.
- (2) In table 1 and table 2, the concentration of alcohol in a person's blood is expressed in terms of the number of milligrams of alcohol per 100mL of the person's blood.

Table 1—Penalties

Concentration of alcohol in a person's blood	Penalty
	\$
less than 70	100
70 but less than 90	250
90 but less than 100	400

[s 142B]

Table 2—Disqualification periods

Concentration of alcohol in a person's blood	Disqualification period (months) for an offence under—		
	s 79(2) of the Act	s 79(2A) of the Act	s 79(2B) of the Act
less than 50	—	3	1
50 but less than 70	1	3	1
70 but less than 90	2	3	2
90 but less than 100	3	3	3

142B Prescribed circumstances for withdrawal of a notice

For the purposes of section 81(12) of the Act, the prescribed circumstances in which the commissioner may withdraw a notice served on a person are that—

- (a) a detail entered on the notice by a police officer is incorrect in a material particular; or
- (b) at or about the time of the commission of the alleged offence to which the notice relates, the person has committed an indictable offence in relation to the use of the motor vehicle involved in the commission of the alleged offence.

Part 18 Miscellaneous

149 Interference or damage to roads

A person shall not, without lawful authority, dig up, undermine or otherwise interfere with any road or use upon any road anything which may or would be likely to cause danger, obstruction, inconvenience, annoyance or injury to any person or animal upon such road.

Maximum penalty—20 penalty units.

149A Painting or construction on roads (other than road-related areas) prohibited

A person shall not, without lawful authority—

- (a) make or paint any notice, sign, or mark on the surface of a road (other than a road-related area); or
- (b) construct, erect, or place any placard, board, notice, or sign in or on a road (other than a road-related area).

Maximum penalty—20 penalty units.

151 Goods and other obstructions upon road

(1) A person shall not—

- (a) stack or store any goods or permit any goods to remain upon any road for a longer period than is necessary for housing or removing such goods and not in any case before sunrise or after sunset on any day; or
- (b) place or cause to be placed any rope, wire, or other apparatus across a road in such a manner as to cause or be likely to cause danger to any person using such road; or
- (c) place or cause to be placed upon any road anything whatsoever to the obstruction or danger of any person or of traffic.

(2) A person shall not upon any road—

- (a) sell or offer for sale or solicit in any manner the purchase of any goods so as to cause obstruction to any person or to traffic upon such road; or
- (b) play or take part in any game; or
- (c) carry any article or substance of an offensive or indecent character or of such length or dimensions as to be an inconvenience, obstruction or danger to any person or to traffic upon such road; or
- (d) carry a whip or other object or article in such a manner as to be likely to strike any person; or

[s 161]

- (e) crack or use a whip so as to annoy, interfere with or endanger any person, or so as to frighten or interfere with any animal other than any animal which the person is using; or
- (f) discharge any firearm or throw or discharge any stone or other missile or make any bonfire or throw or set fire to any firework.

Maximum penalty—20 penalty units.

161 Register of motor vehicles repaired or painted

- (1) For section 133 of the Act, the written register must also contain—
 - (a) the name and address of the occupier of the garage or premises where the motor vehicle is repaired or painted; and
 - (b) the date and time a person who is not the owner of the motor vehicle, or is not the owner's agent, drove it from or to the garage or premises; and
 - (c) the name and residential address of a person mentioned in paragraph (b).

Example for paragraphs (b) and (c)—

If an employee of the occupier of the garage takes the vehicle for a test drive, the employee's name and residential address, and the date and time when the vehicle was driven in and out of the garage, must be inserted in the register.

- (2) In this section—

painting means the painting of any part of a motor vehicle which has or may have been damaged as a result of a collision between such vehicle and any other vehicle or any person, or any train or other property, and also includes any other painting which alters the description of a vehicle.

repairs means the repairing, renovating, or replacing of any part of a motor vehicle which has or may have been damaged as a result of a collision between such vehicle and any other vehicle or any person, or any train or other property.

170 Police reports

- (1) A report made by a police officer or a copy of such report may be furnished by the commissioner to a police department or other department of the Commonwealth or any State or Territory concerning or in relation to the qualifications or fitness of any person who is or has been or is likely to be in Queensland to hold any licence, permit, certificate or other document or authority of a like nature, issued in any State or Territory, in relation to vehicles or traffic, and concerning or in relation to the antecedents, character and conduct of any such person.
- (2) A police officer shall not incur any civil or criminal liability in respect of any report made or furnished to a police department or other department as aforesaid.

170A Prescribed places of conviction

The Magistrates Court at each place mentioned in schedule 5 is prescribed for section 82 of the Act.

171 Prescribed persons for training programs

- (1) The persons who may conduct a training program under section 82 of the Act are—
 - (a) the Queensland University of Technology; and
 - (b) the Vocational Education, Training and Employment Corporation.
- (2) A corrective services officer under the *Corrective Services Act 2006* may give a written notice under section 82 of the Act.

172 Relevant drugs prescribed

For schedule 4 of the Act, definition *relevant drug*, each of the following drugs is prescribed—

- (a) 3,4-Methylenedioxymethamphetamine (MDMA);
- (b) Delta-9-tetrahydrocannabinol;

- (c) Methylamphetamine.

Part 19 **Breath analysing instruments and specimens of blood, saliva or urine for laboratory tests**

173 **Definitions for pt 19**

For the purposes of this part—

health care professional has the same meaning it has in section 80 of the Act.

standard alcohol solution means a solution of ethyl alcohol and distilled water prepared by an analyst and certified as suitable for use with an approved breath analysing instrument.

175 **Evidence—breath analysing instruments**

A certificate purporting to be under the hand of an analyst that—

- (a) the analyst prepared a quantity of a solution consisting of ethyl alcohol and distilled water; and
- (b) such solution was suitable for use with an approved breath analysing instrument; and
- (c) the analyst sealed such solution in each of a number of containers; and
- (d) the analyst endorsed on each such container a control number;

shall upon its production in evidence be conclusive evidence unless the contrary is proved that any such container bearing that control number contained standard alcohol solution.

177 Evidence—police officers

Evidence by a police officer that the police officer used a device for carrying out a breath test or saliva test on a specimen provided by a person shall be sufficient evidence that the device used by the police officer was a device approved under a regulation for the purposes of such test unless the contrary is proved.

178 Blood specimens

- (1) In taking a specimen of blood for the purpose of a laboratory test a health care professional must comply with the following—
 - (a) take such specimen from any vein selected by the health care professional;
 - (b) not use any substance which the health care professional believes on reasonable grounds to be or to contain alcohol or ether when cleaning the site of the venipuncture or for the purpose of cleaning any needle or syringe used for the purpose of the taking by the health care professional of such specimen;
 - (c) take a sufficient quantity of blood for the purpose of such laboratory test and if required pursuant to the Act take such additional quantity of blood either at the same time or immediately thereafter as will be a sufficient specimen to give to the person whose blood is taken;
 - (d) place the specimen of blood in a specimen tube;
 - (e) place on the specimen tube an identifying number;
 - (f) sign a certificate (a *specimen certificate*) stating—
 - (i) the name of the person from whom the specimen was taken; and
 - (ii) the place where and the date and time when the specimen was taken; and

- (iii) the identifying number the health care professional placed on the specimen tube containing the specimen; and
 - (iv) the name, rank and station of the police officer who asked for the specimen.
- (2) A copy of the specimen certificate is to be given to the analyst with the specimen of blood to which it refers.
- (2A) The copy of the specimen certificate given to the analyst is sufficient authority for the analyst to issue a certificate of an analysis for the specimen of blood.
- (3) A specimen certificate signed in accordance with this section shall be admissible in evidence and, in the absence of proof to the contrary, shall be conclusive evidence of the matters certified to therein.
- (4) It shall be conclusively presumed that no substance containing alcohol or ether was used by a health care professional unless he or she gives evidence on oath that he or she did so.
- (4A) Where a health care professional gives evidence on oath that any substance containing alcohol or ether was used by him or her it shall be conclusively presumed that the use of any such substance did not affect the result of any analysis of a specimen taken by him or her unless the contrary is proved.
- (5) Where in a certificate issued by an analyst for the purposes of the Act the analyst in respect of the specimen of blood to which such certificate relates certifies that there was sufficient quantity of blood for the purposes of an analysis and that such specimen was capable of analysis, such certificate shall be sufficient evidence of those matters unless the contrary is proved.

178AA Authority for analyst to issue certificate of an analysis for specimen of saliva

A copy of a notice under section 80(15AB) of the Act, for a specimen of saliva, given to an analyst is sufficient authority

for the analyst to issue a certificate of an analysis for the specimen.

178A Evidence—certificates about breath and blood specimens

Where, in any certificate made by him or her for any purpose where he or she is required under the Act to make a certificate consequent upon the providing of a specimen of breath for the purposes of analysis by a breath analysing instrument or a specimen of blood for a laboratory test, or, as the case may be, the failure to provide any such specimen, a health care professional or authorised police officer certifies that he or she has given all necessary directions as required by the relevant provisions of the Act in connection with the provision of whatever specimen was required in the case in question, and that a copy of a certificate signed as required by the Act was delivered to such person to whom by the Act it was required to be given, such certificate shall be conclusive evidence until the contrary is proved of the matters so certified.

178B Evidence—certificates

Where, by any section under this part, a certificate of or purporting to be signed by a health care professional, an authorised police officer or an analyst is made evidence of any matter, a certificate purporting to be signed by a health care professional, an authorised police officer or an analyst, as the case may be, as to that matter shall, upon its production in any proceeding, be accepted as evidence—

- (a) that the signature thereto is that of the person by whom the certificate purports to be made; and
- (b) of all matters contained therein including the status, authority or qualification of the person by whom the certificate purports to be made;

and until the contrary is proved shall be conclusive such evidence.

179 Evidence—authority to operate breath analysing instrument or saliva analysing instrument

- (1) In any proceedings under the Act it shall not be necessary for any police officer to produce in evidence any certificate of authority issued by the commissioner that the police officer is authorised to operate a breath analysing instrument or saliva analysing instrument and evidence by a police officer that he or she is so authorised shall be sufficient evidence of that fact until the contrary is proved.
- (2) If a person intends to dispute at a hearing that a particular police officer is authorised to operate a breath analysing instrument or saliva analysing instrument, the person must give the commissioner written notice of the intention at least 14 days before the day fixed for the hearing.

180 Failure to comply with part

Unless it is proved that any failure to comply with any of the sections under this part substantially affected any breath analysis or the result of any laboratory test of a specimen of blood it shall be presumed that any such failure did not in any way affect the result of any such analysis or test.

181 Dealing with blood specimens

Any specimen of blood given to a person from whom a specimen of blood for a laboratory test was obtained shall be dealt with by the health care professional in the same manner as if the specimen of blood were a specimen of blood for a laboratory test.

182 Medical exemption from breath test

A doctor's certificate given for the purposes of section 80(5B)(a) or (8E) of the Act must be in the approved form.

183 Delivery of blood, saliva and urine specimens

For the purposes of section 80(16A) of the Act, delivery of a blood, saliva or urine specimen made other than personally must be made in accordance with the International Air Transport Association Dangerous Goods Regulations.

183A Breath analysing instruments and breath testing devices

- (1) An instrument described in schedule 6, part 1 is approved for section 80(1) of the Act, definition *breath analysing instrument*, paragraph (b).
- (2) A device described in schedule 6, part 2 is approved for section 80(1) of the Act, definition *breath test*.

Part 20 Further provisions about saliva tests and saliva analysing instruments**184 Instrument approved for Act, s 80(1), definition *saliva analysing instrument***

For section 80(1) of the Act, definition *saliva analysing instrument*, a Cozart DDS Reader—DDS202S is approved.

185 Laboratory test approved for Act, s 80(1), definition *saliva analysis*

For section 80(1) of the Act, definition *saliva analysis*, a laboratory test that uses mass spectrometry to identify the presence of a relevant drug is approved.

186 Device approved for Act, s 80(1), definition *saliva test*

For section 80(1) of the Act, definition *saliva test*, a Securetec Drugwipe II Twin is approved.

[s 187]

187 Prescribed collection unit

For section 80(8FA)(a) of the Act, a saliva collection swab from a Cozart DDS805 2-panel methamphetamine/THC test kit is a prescribed collection unit.

188 Prescribed way of dealing with collection unit

For section 80(8FA)(b) of the Act, the prescribed way of dealing with the collection unit is to—

- (a) place the collection unit in the mouth of the person who is required to provide a specimen of the person's saliva so that it contacts the tongue or the inside of the person's mouth, or both; and
- (b) move the collection unit around the mouth in a continuous motion so that it contacts the tongue or the inside of the mouth, or both.

189 Prescribed record about saliva analysis

For section 80(15AB)(a) of the Act, a record that states the following information is prescribed—

- (a) the name, address and date of birth of the person who provided the specimen of saliva;
- (b) the place at which the analysis was made.

Part 22 Camera-detected offences

Division 1 Photographic detection devices

208 Approved photographic detection devices

A camera system described in schedule 10 is approved for section 113 of the Act, definition *photographic detection device*.

Division 2 Evidentiary matters

209 Operating and testing analogue redlight camera systems

If an analogue redlight camera system is used to provide evidence of a prescribed offence, the following provisions must be complied with—

- (a) the system's camera must be aimed so that an image taken by the camera shows—
 - (i) the rear of a vehicle that is driven past the stop line for a traffic light or, if there is no stop line, the traffic light; and
 - (ii) the stop line (if any) and the traffic light showing a red symbol;
- (b) the system's induction loop must be installed in, on or under the road surface on either side of the stop line or traffic light;
- (c) the camera, the induction loop and traffic light must be linked so that—
 - (i) after the traffic light changes to red and a programmed delay has elapsed, a vehicle passing over the induction loop activates the camera; and
 - (ii) the activated camera takes at least 2 images of the vehicle, stop line (if any) and traffic light; and

[s 210]

- (iii) the camera is not activated unless the traffic light shows a red symbol;
- (d) each person who inserts into or removes a film magazine from the camera, or relocates the camera with a film magazine in place, must—
 - (i) ensure that the camera is correctly positioned and aimed; and
 - (ii) use the system's testing mode (but by reference to green light cycles) to ensure that the camera and induction loop operate correctly as referred to in paragraph (c); and
 - (iii) if a fault is indicated, take corrective action and repeat the testing process until no fault is indicated by the system in its testing mode;
- (e) if the tests or the film when developed indicate a fault has affected the proper operation of the system as required under this section, the film must be rejected for evidentiary purposes.

210 Operating and testing analogue speed camera systems

If an analogue speed camera system is used to provide evidence of a prescribed offence, the following provisions must be complied with—

- (a) the system's camera must be positioned and aimed to ensure an image taken by the camera depicts the front or rear of the vehicle the speed of which was measured by the system;
- (b) each person who inserts into or removes a film magazine from the camera, or who relocates the camera with a film magazine in place, or who changes information programmed into the system, must—
 - (i) ensure the camera is correctly positioned and aimed; and
 - (ii) use the system's testing mode to ensure the camera

-
- operates correctly; and
- (iii) if a fault is indicated, take corrective action and repeat the testing process until no fault is indicated by the system in its testing mode;
- (c) if the tests or the film when developed indicate a fault has affected the proper operation of the system as required under this section, the film must be rejected for evidentiary purposes.

210A ANPR camera systems

- (1) This section applies if an ANPR camera system is used to provide evidence of a prescribed offence against the Queensland Road Rules, section 104(1), (2) or (3).

Note—

The Queensland Road Rules, section 104, involves offences for driving past a no trucks sign.

- (2) For section 120(2)(d) of the Act, the following are the requirements about the operation of an ANPR camera system—
- (a) the camera part of the ANPR camera system must be positioned and aimed so that—
 - (i) an image taken by the camera part shows the front of the vehicle that has driven past the no trucks sign, including the vehicle's registration plate; and
 - (ii) the image mentioned in subparagraph (i), or another image taken by any other camera operating in conjunction with the camera part, shows the vehicle that has driven past the no trucks sign;
 - (b) the ANPR camera system must operate in a way that indicates whether an image taken by the camera part of the ANPR camera system has been tampered with.

Note—

Since an image certified by the commissioner as mentioned in section 120(2) of the Act is evidence of the accuracy of the image, if there is an

[s 210B]

indication that an image has been tampered with, the commissioner would not be able to certify that the image was properly taken.

- (3) For section 120(4) of the Act, the marking or writing (a *data block*) made by an ANPR camera system on an image taken by the camera part of the ANPR camera system has the following meaning—
- (a) a sequence of four numbers separated by a colon is the time in 24-hour clock mode when the image was taken;
 - (b) a sequence of six numbers separated by 2 backslashes is the date, in the order of day, month and year (ddmmyy), when the image was taken;
 - (c) a sequence of five numbers is the number given in the Traffic Camera Coding Manual for the location of the camera part of the ANPR camera system when the image was taken.

Example for subsection (3)—

A data block may show the following information—

- 23:59
- 07/07/06
- 20001.

The data block indicates the image was taken at 11:59p.m. on 7 July 2006 and the camera part of the ANPR camera system was located at the place given the number 20001 in the Traffic Camera Coding Manual.

210B Operating and testing digital redlight camera systems

- (1) If a digital redlight camera system is used to provide evidence of a prescribed offence, the following provisions must be complied with—
- (a) the system's camera must be aimed so that an image taken by the camera shows—
 - (i) the front or rear of a vehicle that is driven past the stop line for a traffic light or, if there is no stop line, the traffic light; and
 - (ii) the stop line (if any) and the traffic light showing a

red symbol;

- (b) a component of the system that detects vehicles must be installed in a way that recognises when a vehicle passes the stop line or traffic light;
 - (c) the system and traffic light must be linked so that—
 - (i) after the traffic light changes to red and a programmed delay has elapsed, a vehicle passing the stop line or traffic light activates the camera; and
 - (ii) the activated camera takes at least 2 images of the vehicle, stop line (if any) and traffic light; and
 - (iii) the camera is not activated unless the traffic light shows a red symbol;
 - (d) if a relevant event happens—the system must be tested in accordance with the specifications of the system's manufacturer (but by reference to green light cycles) to ensure the system operates correctly;
 - (e) if a fault is indicated in the system because of testing under paragraph (d)—corrective action must be taken and the testing must be repeated until no fault is indicated in the system;
 - (f) if the tests or an image when viewed indicates a fault has affected the proper operation of the system as required under this section, the image must be rejected for evidentiary purposes.
- (2) Each of the following is a relevant event for subsection (1)(d)—
- (a) the installation of the camera system;
 - (b) the reinstallation, replacement or repair of camera system hardware for the system;
- Example—*
- the replacement of the system's camera
 - (c) a change to the computer software used by the system.

[s 210C]

Example—

the application of a software patch

210C Operating and testing digital speed camera systems

- (1) If a digital speed camera system is used to provide evidence of a prescribed offence, the following provisions must be complied with—
 - (a) the system's camera must be positioned and aimed to ensure an image taken by the camera depicts the front or rear of the vehicle the speed of which was measured by the system;
 - (b) if a relevant event happens—the system must be tested in accordance with the specifications of the system's manufacturer to ensure the system operates correctly;
 - (c) if a fault is indicated in the system because of testing under paragraph (b)—corrective action must be taken and the testing must be repeated until no fault is indicated in the system;
 - (d) if the tests or an image when viewed indicates a fault has affected the proper operation of the system as required under this section, the image must be rejected for evidentiary purposes.
- (2) Each of the following is a relevant event for subsection (1)(b)—
 - (a) the installation of the camera system;
 - (b) the reinstallation, replacement or repair of camera system hardware for the system;

Example—

the replacement of the system's camera

- (c) a change to the computer software used by the system;

Example—

the application of a software patch

-
- (d) a change of the maximum speed limit for the place at which the system's camera is located or being used.
- (3) In this section—
- installation*, of the camera system, includes starting the operation of the system at a place at which the system is to be used.

210D Operating and testing digital combined redlight and speed camera systems

- (1) If a digital combined redlight and speed camera system is used to provide evidence of a prescribed offence, the following provisions must be complied with—
- (a) for a prescribed offence that is a redlight offence—
- (i) the system's camera must be aimed so that an image taken by the camera shows—
- (A) the front or rear of a vehicle that is driven past the stop line for a traffic light or, if there is no stop line, the traffic light; and
- (B) the stop line (if any) and the traffic light showing a red symbol; and
- (ii) a component of the system that detects vehicles must be installed in a way that recognises when a vehicle passes a stop line or traffic light; and
- (iii) the system and traffic light must be linked so that—
- (A) after the traffic light changes to red and a programmed delay has elapsed, a vehicle passing the stop line or traffic light activates the camera; and
- (B) the activated camera takes at least 2 images of the vehicle, stop line (if any) and traffic light;

[s 210D]

- (b) for a prescribed offence other than a redlight offence, the system's camera must be positioned and aimed so that an image taken by the camera shows—
 - (i) if the prescribed offence is a speeding offence—the front or rear of a vehicle the speed of which was measured by the system; or
 - (ii) otherwise—the front or rear of a vehicle in relation to which the system is used to provide evidence of the offence;
 - (c) if a relevant event happens—the system must be tested in accordance with the specifications of the system's manufacturer to ensure the system operates correctly;
 - (d) if a fault is indicated in the system because of testing under paragraph (c)—corrective action must be taken and the testing must be repeated until no fault is indicated in the system;
 - (e) if the tests or an image when viewed indicate a fault has affected the proper operation of the system as required under this section, the image must be rejected for evidentiary purposes.
- (2) Each of the following is a relevant event for subsection (1)(c)—
- (a) the installation of the camera system;
 - (b) the reinstallation, replacement or repair of camera system hardware for the system;
- Example—*
- the replacement of the system's camera
- (c) a change to the computer software used by the system;
- Example—*
- the application of a software patch
- (d) a change of the maximum speed limit for the place at which the system's camera is located.
- (3) In this section—

redlight offence means a prescribed offence against the Queensland Road Rules, section 56(1) or (2).

210E Operating and testing digital point-to-point camera systems

- (1) If a digital point-to-point camera system is used to provide evidence of a prescribed offence, the following provisions must be complied with—
 - (a) each camera in the system that takes an image or images on which evidence of the offence is based must be positioned and aimed so that an image taken by the camera shows the front or rear of the vehicle in relation to which the system is used to provide evidence;
 - (b) if a relevant event happens—the system must be tested in accordance with the specifications of the system’s manufacturer to ensure the system operates correctly;
 - (c) if a fault is indicated in the system because of testing under paragraph (b)—corrective action must be taken and the testing must be repeated until no fault is indicated in the system;
 - (d) if the tests or an image when viewed indicate a fault has affected the proper operation of the system as required under this section—to the extent subsection (3) does not apply to the evidence of the offence, the image must be rejected for evidentiary purposes.
- (2) Each of the following is a relevant event for subsection (1)(b)—
 - (a) the installation of the camera system;
 - (b) the reinstallation, replacement or repair of camera system hardware for the system;
Example—
the replacement of one of the system’s cameras
 - (c) a change to the computer software used by the system;

[s 210E]

Example—

the application of a software patch

- (d) a change of the maximum speed limit for a place at which any of the system's cameras are located;
 - (e) a reconfiguration of the system's cameras that changes the 2 points on a road the distance between which is used for calculating the average speed of a vehicle under the Act, section 120A.
- (3) This section does not prevent a digital point-to-point camera system being used to provide evidence of a prescribed offence if—
- (a) 1 or more of the system's cameras takes an image, or images, on which evidence of the offence is based; and
 - (b) there is a fault in the system, or the system is being tested; and
 - (c) the fault or testing mentioned in paragraph (b) does not affect the proper operation of—
 - (i) the camera or cameras mentioned in paragraph (a); or
 - (ii) any part of the system associated with the operation of the camera or cameras mentioned in paragraph (a) for the provision of evidence of the offence.

Example for subsection (3)—

A digital point-to-point camera system consists of 2 cameras, camera A and camera B. There is a fault in camera B that does not affect the proper operation of camera A or any part of the system associated with the operation of camera A for the provision of evidence of a prescribed offence. The system is not prevented from being used to provide evidence of a prescribed offence based on an image taken by camera A.

210F Calibration testing of particular photographic detection devices

- (1) This section prescribes, for section 120(2A)(a)(ii) of the Act, requirements about calibration testing for the following photographic detection devices (each a *relevant device*)—
 - (a) an analogue speed camera system;
 - (b) a digital speed camera system;
 - (c) a digital combined redlight and speed camera system, to the extent it is used to provide evidence of a speeding offence;
 - (d) a digital point-to-point camera system, to the extent it is used to provide evidence of a speeding offence based on an image or images taken by one of the system's cameras of a vehicle at a particular location and time.
- (2) Calibration testing of a relevant device must be conducted by an approved testing entity.
- (3) On finding that a relevant device is producing accurate results, an approved testing entity must—
 - (a) ensure the device's speed computing unit is sealed in a way that prevents physical interference with any component contained within the unit without breaking the seal; and
 - (b) prepare and sign a report stating—
 - (i) the serial number for the device tested; and
 - (ii) the date and time when testing was conducted; and
 - (iii) the results of the testing.
- (4) In this section—

approved testing entity, for conducting calibration testing of a relevant device, means an entity the commissioner, on being satisfied the entity is competent to conduct the testing, has approved to conduct the testing.

[s 211]

speed computing unit, of a relevant device, means a part of the device used to compute the speed of a vehicle for the purpose of providing evidence of a speeding offence.

211 Markings or writings on photographic detection device images other than ANPR camera system images

- (1) For section 120 of the Act, a data block has the meaning given in—
- (a) for the first image of a vehicle taken by an analogue redlight camera system—schedule 11, part 1; and
 - (b) for the second or a subsequent image of a vehicle taken by an analogue redlight camera system—schedule 11, part 2; and
 - (c) for an image of a vehicle taken by an analogue speed camera system—schedule 11, part 3; and
 - (d) for an image of a vehicle taken by a digital redlight camera system—schedule 12; and
 - (e) for an image of a vehicle taken by a digital speed camera system—schedule 13; and
 - (f) for an image of a vehicle taken by a digital combined redlight and speed camera system—schedule 14; and
 - (g) for an image of a vehicle taken by a digital point-to-point camera system—schedule 15.
- (2) In this section—

data block means the marking or writing made by a photographic detection device on an image taken by the device.

on, an image, includes adjacent to or associated with the image.

212 Traffic Camera Coding Manual

- (1) A court must presume a document purporting to be the Traffic Camera Coding Manual is the Traffic Camera Coding Manual, until the contrary is proved.
- (2) In a proceeding, a certificate purporting to be signed by the commissioner stating a document is a copy of a part of the Traffic Camera Coding Manual is evidence of that fact.

Part 23 Transitional provisions for Transport Legislation Amendment Regulation (No. 1) 2011

213 Definitions for pt 23

In this part—

amending regulation means the *Transport Legislation Amendment Regulation (No. 1) 2011*.

commencement means commencement of this section.

permit decision means a decision of the chief executive—

- (a) to refuse to grant an application for a disability parking permit; or
- (b) to grant an application for a disability parking permit subject to a condition.

red permit means a disability parking permit issued to a person before the commencement that shows a people with disabilities symbol marked on a red background.

214 Existing applications for disability parking permits—no decision made

- (1) This section applies if, before the commencement, a person had applied to the chief executive for a disability parking permit but the chief executive had not made a decision about the application.
- (2) The chief executive must consider the application as if the amending regulation had not been made.
- (3) Section 134C continues to apply to the chief executive's decision on the application.

215 Refusing to grant application for disability parking permit or granting application subject to a condition

- (1) This section applies if, on the commencement—
 - (a) a person—
 - (i) has not applied to the chief executive under section 134C for a reconsideration of a permit decision; or
 - (ii) the time for applying for a reconsideration of the permit decision has not yet expired.
- (2) Section 134C continues to apply to the permit decision, as if the amending regulation had not been made.

216 Existing applications for reconsideration of decision about disability parking permit

- (1) This section applies if—
 - (a) before the commencement, a person applied to the chief executive under section 134C for a reconsideration of a permit decision; and
 - (b) on the commencement, a decision on the reconsideration of the permit decision has not been made.
- (2) The application for reconsideration must be dealt with as if the amending regulation had not been made.

217 Existing holders of temporary red permits

- (1) This section applies if, on the commencement, a person is the holder of a temporary red permit.
- (2) The permit remains valid until it expires.
- (3) In this section—

temporary, in relation to a red permit, means a red permit issued for a period of 12 months or less.

218 Existing holders of permanent red permits

- (1) This section applies if, on the commencement, a person is the holder of a permanent red permit.
- (2) The permit remains valid until it expires.
- (3) The person may, after the commencement, apply for the grant of a further permanent red permit.
- (4) The application for the further permit is to be dealt with as if the amending regulation had not been made.
- (5) The person may apply for the grant of a further permanent red permit on more than 1 occasion.
- (6) In this section—

permanent, in relation to a red permit, means a red permit issued for a period of 5 years.

Part 24 **Transitional provision for
Transport Legislation
Amendment Regulation (No. 4)
2011**

219 **Certificates under Act, s 120(2A)**

To remove any doubt, it is declared that section 210F does not apply in relation to a certificate mentioned in the Act, section 120(2A), if the certificate relates to a photographic detection device for which calibration testing was conducted before the commencement of section 210F.

Schedule 4 Fees

section 2

	\$
1 Application for an order for the closure of a road (Act, s 96(3))	107.70
2 Colour prints of the photographic evidence of a camera-detected offence (Act, s 118)	20.25
3 Disability parking permit (Act, s 111)	14.85
4 Permit to carry a sign for business advertising, for each month or part of a month (s 126)	21.85

Schedule 6 Breath analysing instruments and breath test devices

section 183A

Part 1 Types of breath analysing instruments

- 1 A Drager Alcotest 7110, whether or not including the following—
- (a) a keyboard;
 - (b) an appropriate software program;
 - (c) an external printer.
- 1A An instrument complying with International Recommendation OIML R 126 Edition 1998(E) Evidential Breath Analyzers.
- Editor's note—*
- OIML—International Organization of Legal Metrology
- 1B An instrument complying with NSC R 126:2000 Pattern Approval Specifications for Evidential Breath Analysers.
- Editor's note—*
- NSC—National Standards Commission (Australia)
- 1C A Lion intoxilyzer 8000 for which the NMI has issued Approval Certificate No. 16/1/1.
- Editor's note—*
- NMI—National Measurement Institute

Part 2

Breath testing devices

- 2 A Lion alcolmeter solid state electronic fuel cell detector and a mouthpiece.

detection devices**

section 208

Part 1 **Analogue redlight camera
system**

Gatso redlight camera system models GTC-F and RLC 36

Part 2 **Analogue speed camera
system**

Gatso speed camera system model Radar AUS 24

Part 3 **ANPR camera system**

a camera system that is designed and marketed as an
automatic number plate recognition camera system

Part 4 **Digital redlight camera system**

Gatso redlight camera system model RLC GS
Redflex redlight camera system model RL101

Schedule 11 Data blocks for analogue redlight camera systems and analogue speed camera systems

section 211

Part 1 First image taken by an analogue redlight camera system

T is the time, in 24-hour clock mode, when the image was taken.

D is the date when the image was taken, in the order of day, month and year (ddmmyy).

CH is the number (preceded by “CH.”) given in the Traffic Camera Coding Manual for the lane in which the vehicle that

activated the system's camera was travelling, with the highest number being furthest from the camera.

red is the time elapsed from when the traffic light changed to red to when the image was taken. The large numbers indicate seconds. The small numbers indicate tenths of a second.

O is the number allocated sequentially by the system for each occasion when a vehicle activates the system's camera after the film magazine was inserted in the camera.

C is the number given in the Traffic Camera Coding Manual for the location of the system's camera when the image was taken.

Example—

The diagram in this part shows—

- the image was taken at 1:41p.m. on 1 October 1996
- the vehicle that activated the camera was in the lane given the number 1 in the Traffic Camera Coding Manual
- the image was taken 0.6 seconds after the traffic light changed to red
- the vehicle that activated the camera is the fifteenth vehicle to activate the camera since the film magazine was inserted
- the camera was located at the place given the number 7 in the Traffic Camera Coding Manual.

Part 2 Second or subsequent image taken by an analogue redlight camera system

T is the time, in 24-hour clock mode, when the image was taken.

D is the date when the image was taken, in the order of day, month and year (ddmmyy).

CH is the number given in the Traffic Camera Coding Manual for the lane in which the vehicle that activated the system's camera was travelling, with the highest number being furthest from the camera.

I is the number given in the Traffic Camera Coding Manual for the person who inserted the film magazine in the system's camera.

red is the time elapsed from when the traffic light changed to red to when the image was taken. The large numbers indicate seconds. The small numbers indicate tenths of a second.

O is the number allocated sequentially by the system for each

occasion when a vehicle activates the system's camera after the film magazine was inserted in the camera.

C is the number given in the Traffic Camera Coding Manual for the location of the system's camera when the image was taken.

Example—

The diagram in this part shows—

- the image was taken at 1:41p.m. on 1 October 1996
- the film magazine was inserted in the camera by the person given the number 74 in the Traffic Camera Coding Manual
- the vehicle that activated the camera was in the lane given the number 1 in the Traffic Camera Coding Manual
- the image was taken 1.6 seconds after the traffic light changed to red
- the vehicle that activated the camera is the fifteenth vehicle to activate the camera since the film magazine was inserted
- the camera was located at the place given the number 7 in the Traffic Camera Coding Manual.

Part 3

Image taken by an analogue speed camera system

A is details written by the operator of the system's camera, when a film magazine is inserted, that are superimposed on each image on the film as it is taken.

B is the direction that the vehicle the speed of which was measured by the system (the *target vehicle*) is travelling in relation to the system's camera. "A" indicates the target vehicle was travelling away from the camera. "F" indicates the target vehicle was travelling towards the camera.

C is the sensitivity range selected by the operator of the system's camera. "--" indicates range I, the lower sensitivity range, was selected. "--" indicates range II, the higher sensitivity range, was selected.

D is the speed, in kilometres per hour, at which the system's camera was travelling in relation to the ground when the

image was taken.

E is the speed, in kilometres per hour, at which the target vehicle was travelling in relation to the system's camera when the image was taken.

F is the speed, in kilometres per hour, at which the target vehicle was travelling in relation to the ground when the image was taken.

G is the time, in 24-hour clock mode, when the image was taken. The large numbers indicate hours and minutes, in that order. The small numbers indicate seconds.

H is the date when the image was taken, in the order of day, month and year (ddmmyy) or year, month and day (yymmdd).

I is the number given in the Traffic Camera Coding Manual for the location of the system's camera when the image was taken.

J is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken.

K is the number allocated sequentially by the system for each image taken by the system's camera after the film magazine was inserted in the camera.

Example—

The diagram in this part shows—

- the target vehicle was travelling away from the camera
- range II (high) was selected
- the camera was stationary
- the target vehicle was travelling at 83km/h in relation to the camera and in relation to the ground
- the image was taken at 12:37:04p.m. on 1 May 1997
- the camera was located at the place given the number 110001 in the Traffic Camera Coding Manual
- the maximum speed limit at that place and time was 75km/h
- the image was the twenty-ninth image taken by the camera since the film magazine was inserted.

first image taken, and ‘B’ indicates the image was the second image taken, in the series.

h is the camera system type and indicates the system is a digital redlight camera system.

Example—

The diagram in this part shows—

- the image was taken at 8:09a.m. on 1 September 2011
- the vehicle that activated the system’s camera was in the lane given the number 1 in the Traffic Camera Coding Manual
- the image was taken 11.1 seconds after the traffic light changed to red
- the image was allocated the number 97 by the system
- the system’s camera was located at the place given the number 62 in the Traffic Camera Coding Manual
- the image was the first image taken in a series of images
- the camera system type is a digital redlight camera system.

Part 2

Images taken by Redflex redlight camera system model RL101

- ‘date’ followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- ‘direction’ followed by the word ‘Away’ or ‘Towards’ is the direction that the vehicle in relation to which the system is used to provide evidence of a prescribed offence (the *target vehicle*) was travelling in relation to the system’s camera. ‘Away’ indicates the target vehicle was travelling away from the camera and ‘Towards’ indicates the target vehicle was travelling towards the camera

- ‘dist interval’ followed by a number is the distance travelled by the target vehicle, in metres, from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- ‘elapsed time’ followed by a number is the time elapsed, in seconds, from when an image of the target vehicle was taken to when another image of the vehicle was taken
- ‘image no’ followed by a number is the number allocated by the system to the image
- ‘lane’ followed by a number is the number given in the Traffic Camera Coding Manual for the lane in which the target vehicle was travelling, with the highest number being furthest from the camera
- ‘location’ followed by writing is the name of the location where the image was taken
- ‘model’ followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system
- ‘phase’ followed by writing is the traffic light phase when the image was taken (the *relevant phase*)
- ‘phase duration’ followed by a number is the time elapsed, in seconds, from when the traffic light changed to the relevant phase to when the image was taken
- ‘serial no’ followed by a number or writing is the serial number of the system used to take the image
- ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
- ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
- ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: Away
- dist interval: 10m
- elapsed time: 0.50s
- image no: 45
- lane: 2
- location: Beaudesert Road, Calamvale
- model: RL101
- phase: red
- phase duration: 1.50s
- serial no: 2898
- site code: 2222
- speed limit: 80km/h
- time: 22:30:00.

The data block indicates the following—

- the image was taken at 10:30p.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera
- the target vehicle travelled 10 metres from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- the time elapsed from when an image of the target vehicle was taken to when another image of the vehicle was taken was 0.5 seconds
- the image was allocated the number 45 by the system
- the target vehicle was in the lane given the number 2 in the Traffic Camera Coding Manual
- the location where the image was taken was Beaudesert Road at Calamvale
- the model of the system used to take the image was RL101
- the traffic light was in its red phase
- the image was taken 1.5 seconds after the traffic light changed to red

Schedule 12

- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 2222 in the Traffic Camera Coding Manual
- the maximum speed limit at that place and time was 80km/h.

Schedule 13 **Data blocks for digital speed camera systems**

section 211

Part 1 **Images taken by Gatso speed camera system models Radar AUS GS, RS-GS2 and RS-GS11**

- 'date' followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- 'direction' followed by a letter 'A' or 'F' is the direction that the vehicle the speed of which was measured by the system (the *target vehicle*) was travelling in relation to the system's camera. 'A' indicates the target vehicle was travelling away from the camera and 'F' indicates the target vehicle was travelling towards the camera
- 'dist interval' followed by a number is the distance travelled by the target vehicle, in metres, from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- 'elapsed time' followed by a number is the time elapsed, in seconds, from when an image of the target vehicle was taken to when another image of the vehicle was taken
- 'image no' followed by a number is the number allocated by the system to the image
- 'lane' followed by a number is the number given in the Traffic Camera Coding Manual for the lane in which the target vehicle was travelling
- 'location' followed by writing is the name of the location where the image was taken

- ‘model’ followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system
- ‘serial no’ followed by a number or writing is the serial number of the system used to take the image
- ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
- ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
- ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
- ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: A
- dist interval: 10m
- elapsed time: 0.383s
- image no: 45
- lane: 2
- location: M7 Bowen Hills
- model: RS-GS2
- serial no: 2898
- site code: 280007
- speed: 94km/h
- speed limit: 80km/h
- time: 5:45:00.

The data block indicates the following—

- the image was taken at 5:45a.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera
- the target vehicle travelled 10 metres from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- the time elapsed from when an image of the target vehicle was taken to when another image of the vehicle was taken was 0.383 seconds
- the image was allocated the number 45 by the system
- the target vehicle was in the lane given the number 2 in the Traffic Camera Coding Manual
- the location where the image was taken was the M7 at Bowen Hills
- the model of the system used to take the image was RS-GS2
- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 280007 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 94km/h
- the maximum speed limit at that place and time was 80km/h.

Part 2

Images taken by LTI speed camera system model LTI 20-20 TruCAM

- 'date' followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- 'distance' followed by a number is the distance, in metres, that the vehicle the speed of which was measured by the system (the *target vehicle*) was from the system's camera when the speed was measured
- 'image no' followed by a number is the number allocated by the system to the image

- ‘last aligned’ followed by a sequence of numbers is the date and time in 24-hour clock mode when the alignment of the system was last checked, in the order of day, month and year (ddmmyyyy) and hour, minute and second
- ‘location’ followed by writing is the name of the location where the image was taken
- ‘operator no’ followed by a number is the number of the operator of the system
- ‘serial no’ followed by writing is the serial number of the system used to take the image
- ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
- ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system as the vehicle was travelling towards the system’s camera
- ‘speed’ followed by the sign ‘-’ and a number is the speed, in kilometres per hour, of the target vehicle measured by the system as the vehicle was travelling away from the system’s camera
- ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
- ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second
- a symbol of a cross or a circle on a vehicle shown in the image indicates the vehicle is the target vehicle.

Example—

A data block may show the following information—

- date: 01/09/2011
- distance: 182
- image no: 1069
- last aligned: 01/09/2011 09:39:22

- location: Gympie Road, Kedron
- operator no: 001
- serial no: TC000060
- site code: 101001
- speed: -80km/h
- speed limit: 60km/h
- time: 22:30:00.

The data block indicates the following—

- the image was taken at 10:30p.m. on 1 September 2011
- the distance that the target vehicle was from the system's camera when the speed was measured was 182 metres
- the image was allocated the number 1069 by the system
- the system was last aligned at 9:39am on 1 September 2011
- the location where the image was taken was Gympie Road at Kedron
- the system operator's number was 001
- the serial number of the system used to take the image was TC000060
- the system's camera was located at the place given the number 101001 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 80km/h as the vehicle was travelling away from the system's camera
- the maximum speed limit at that place and time was 60km/h.

Part 3

Images taken by Redflex speed camera system model MR101

- 'date' followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- 'direction' followed by the word 'Away' or 'Towards' is the direction that the vehicle the speed of which was

measured by the system (the *target vehicle*) was travelling in relation to the system's camera. 'Away' indicates the target vehicle was travelling away from the camera and 'Towards' indicates the target vehicle was travelling towards the camera

- 'image no' followed by a number is the number allocated by the system to the image
- 'lane' followed by a number is the number for the lane in which the target vehicle was travelling, with the highest number being furthest from the camera
- 'location' followed by writing is the name of the location where the image was taken
- 'model' followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system
- 'operator no' followed by a number is the number of the operator of the system
- 'serial no' followed by writing is the serial number of the system used to take the image
- 'site code' followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system's camera when the image was taken
- 'speed' followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
- 'speed limit' followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
- 'time' followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second
- a symbol of a cross or a rectangle or a square or a circle on a vehicle shown in the image indicates the vehicle is the target vehicle.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: Away
- image no: 20
- lane: 4
- location: Gympie Road, Kedron
- model: MR101
- operator no: 0266
- serial no: 2898
- site code: 101001
- speed: 80km/h
- speed limit: 60km/h
- time: 20:25:00.

The data block indicates the following—

- the image was taken at 8:25p.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera
- the image was allocated the number 20 by the system
- the target vehicle was in lane number 4
- the location where the image was taken was Gympie Road at Kedron
- the model of the system used to take the image was MR101
- the system operator's number was 0266
- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 101001 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 80km/h
- the maximum speed limit at that place and time was 60km/h.

Part 4

Images taken by Robot speed camera system models Multaradar CM, Multaradar SD480 and Multaradar SD580

- ‘date’ followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- ‘direction’ followed by the word ‘Away’ or ‘Towards’ is the direction that the vehicle the speed of which was measured by the system (the *target vehicle*) was travelling in relation to the system’s camera. ‘Away’ indicates the target vehicle was travelling away from the camera and ‘Towards’ indicates the target vehicle was travelling towards the camera
- ‘dist interval’ followed by a number is the distance travelled by the target vehicle, in metres, from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- ‘elapsed time’ followed by a number is the time elapsed, in seconds, from when an image of the target vehicle was taken to when another image of the vehicle was taken
- ‘image no’ followed by writing is the number allocated by the system to the image
- ‘lane’ followed by a number is the number given in the Traffic Camera Coding Manual for the lane in which the target vehicle was travelling, with the highest number being furthest from the camera
- ‘location’ followed by writing is the name of the location where the image was taken
- ‘model’ followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system

-
- ‘serial no’ followed by writing is the serial number of the system used to take the image
 - ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
 - ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
 - ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
 - ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: Away
- dist interval: 10m
- elapsed time: 0.343s
- image no: 45B
- lane: 2
- location: M1, Nudgee
- model: Multaradar SD580
- serial no: 2898
- site code: 182011
- speed: 105km/h
- speed limit: 90km/h
- time: 22:30:00.

The data block indicates the following—

- the image was taken at 10:30p.m. on 1 September 2011
- the target vehicle was travelling away from the system’s camera

- the target vehicle travelled 10 metres from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- the time elapsed from when an image of the target vehicle was taken to when another image of the vehicle was taken was 0.343 seconds
- the image was allocated the number 45B by the system
- the target vehicle was in the lane given the number 2 by the Traffic Camera Coding Manual
- the location where the image was taken was the M1 at Nudgee
- the model of the system used to take the image was Multaradar SD580
- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 182011 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 105km/h
- the maximum speed limit at that place and time was 90km/h.

Part 5

Images taken by Vitronic speed camera system model Poliscan Speed

- 'date' followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- 'direction' followed by the word 'Approaching' or 'Receding' is the direction that the vehicle the speed of which was measured by the system (the *target vehicle*) was travelling in relation to the system's camera. 'Approaching' indicates the target vehicle was travelling towards the camera and 'Receding' indicates the target vehicle was travelling away from the camera

-
- ‘image no’ followed by writing is the number allocated by the system to the image
 - ‘lane’ followed by a number is the number for the lane in which the target vehicle was travelling, with the highest number being closest to the camera
 - ‘limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
 - ‘location’ followed by writing is the name of the location where the image was taken
 - ‘location code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
 - ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
 - ‘system’ followed by writing is the device type and serial number of the system used to take the image
 - ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second
 - a symbol of a rectangle or a square on a vehicle shown in the image indicates the vehicle is the target vehicle.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: Approaching
- image no: 100310223000-13-1
- lane: 4
- limit: 80km/h
- location: M7 Bowen Hills
- location code: 280007
- speed: 94km/h

- system: PSS626000
- time: 22:30:00.

The data block indicates the following—

- the image was taken at 10:30p.m. on 1 September 2011
- the target vehicle was travelling towards the system's camera
- the image was allocated the number 100310223000-13-1 by the system
- the target vehicle was in lane number 4
- the maximum speed limit at that place and time was 80km/h
- the location where the image was taken was the M7 at Bowen Hills
- the system's camera was located at the place given the number 280007 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 94km/h
- the system used to take the image was the device type PSS and serial number 626000.

Schedule 14 **Data blocks for digital combined redlight and speed camera systems**

section 211

Part 1 **Images taken by Gatso combined redlight and speed camera system model GTC-GS11**

- ‘amb phase’ followed by a number is the time, in seconds, for which the traffic light was amber for the traffic light cycle immediately before the red phase that is recorded on the data block
- ‘date’ followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- ‘direction’ followed by the letter ‘A’ or ‘F’ is the direction that the vehicle that activated the system’s camera (the *target vehicle*) was travelling in relation to the camera. ‘A’ indicates the target vehicle was travelling away from the camera and ‘F’ indicates the target vehicle was travelling towards the camera
- ‘dist interval’ followed by a number is the distance travelled by the target vehicle, in metres, from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- ‘elapsed time’ followed by a number is the time elapsed, in seconds, from when an image of the target vehicle was taken to when another image of the vehicle was taken
- ‘image no’ followed by a number is the number allocated by the system to the image

- ‘lane’ followed by a number is the number given in the Traffic Camera Coding Manual for the lane in which the target vehicle was travelling, with the highest number being furthest from the camera
- ‘location’ followed by writing is the name of the location where the image was taken
- ‘model’ followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system
- ‘red phase’ followed by a number is the time elapsed, in seconds, from when the traffic light changed to red to when the image was taken
- ‘serial no’ followed by writing is the serial number of the system used to take the image
- ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
- ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
- ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
- ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: A
- dist interval: 10m
- elapsed time: 0.486s
- image no: 45
- lane: 2

- location: Gympie Road, Kedron
- model: GTC-GS11
- red phase: 2.3s
- serial no: 2898
- site code: 180005
- speed: 74km/h
- speed limit: 60km/h
- time: 22:30:00.

The data block indicates the following—

- the image was taken at 10:30p.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera
- the target vehicle travelled 10 metres from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- the time elapsed from when an image of the target vehicle was taken to when another image of the vehicle was taken was 0.486 seconds
- the image was allocated the number 45 by the system
- the target vehicle was in the lane given the number 2 in the Traffic Camera Coding Manual
- the location where the image was taken was Gympie Road at Kedron
- the model of the system used to take the image was GTC-GS11
- the image was taken 2.3 seconds after the traffic light changed to red
- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 180005 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 74km/h
- the maximum speed limit at that place and time was 60km/h.

Part 2

Images taken by Redflex combined redlight and speed camera system models SR101, SR102, SR103, SR104, SR105 and SR106

- ‘date’ followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- ‘direction’ followed by the word ‘Away’ or ‘Towards’ is the direction that the vehicle that activated the system’s camera (the *target vehicle*) was travelling in relation to the camera. ‘Away’ indicates the target vehicle was travelling away from the camera and ‘Towards’ indicates the target vehicle was travelling towards the camera
- ‘dist interval’ followed by a number is the distance travelled by the target vehicle, in metres, from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- ‘elapsed time’ followed by a number is the time elapsed, in seconds, from when an image of the target vehicle was taken to when another image of the vehicle was taken
- ‘image no’ followed by a number is the number allocated by the system to the image
- ‘lane’ followed by a number is the number given in the Traffic Camera Coding Manual for the lane in which the target vehicle was travelling, with the highest number being furthest from the camera
- ‘location’ followed by writing is the name of the location where the image was taken
- ‘model’ followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system

-
- ‘phase’ followed by writing is the traffic light phase when the image was taken (the *relevant phase*)
 - ‘phase duration’ followed by a number is the time elapsed, in seconds, from when the traffic light changed to the relevant phase to when the image was taken
 - ‘serial no’ followed by writing is the serial number of the system used to take the image
 - ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
 - ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
 - ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
 - ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: Away
- dist interval: 10m
- elapsed time: 0.383s
- image no: 45
- lane: 2
- location: Beaudesert Road, Calamvale
- model: SR106
- phase: red
- phase duration: 1.50s
- serial no: 2898
- site code: 2222

- speed: 94km/h
- speed limit: 80km/h
- time: 07:35:00.

The data block indicates the following—

- the image was taken at 7:35a.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera
- the target vehicle travelled 10 metres from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- the time elapsed from when an image of the target vehicle was taken to when another image of the vehicle was taken was 0.383 seconds
- the image was allocated the number 45 by the system
- the target vehicle was in the lane given the number 2 in the Traffic Camera Coding Manual
- the location where the image was taken was Beaudesert Road at Calamvale
- the model of the system used to take the image was SR106
- the traffic light was in its red phase
- the image was taken 1.5 seconds after the traffic light changed to red
- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 2222 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 94km/h
- the maximum speed limit at that place and time was 80km/h.

Part 3**Images taken by Robot
combined redlight and speed
camera system models
Traffistar SR420, Traffistar
SR490, Traffistar SR520 and
Traffistar SR590**

- ‘amb phase’ followed by a number is the time, in seconds, for which the traffic light was amber for the traffic light cycle immediately before the red phase that is recorded on the data block
- ‘date’ followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- ‘direction’ followed by the word ‘Away’ or ‘Towards’ is the direction that the vehicle that activated the system’s camera (the *target vehicle*) was travelling in relation to the camera. ‘Away’ indicates the target vehicle was travelling away from the camera and ‘Towards’ indicates the target vehicle was travelling towards the camera
- ‘dist interval’ followed by a number is the distance travelled by the target vehicle, in metres, from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- ‘elapsed time’ followed by a number is the time elapsed, in seconds, from when an image of the target vehicle was taken to when another image of the vehicle was taken
- ‘image no’ followed by a number is the number allocated by the system to the image
- ‘lane’ followed by a number is the number given in the Traffic Camera Coding Manual for the lane in which the target vehicle was travelling, with the highest number being furthest from the camera

- ‘location’ followed by writing is the name of the location where the image was taken
- ‘model’ followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system
- ‘red phase’ followed by a number is the time elapsed, in seconds, from when the traffic light changed to red to when the image was taken
- ‘serial no’ followed by writing is the serial number of the system used to take the image
- ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
- ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
- ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
- ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second.

Example—

A data block may show the following information—

- date: 01/09/2011
- direction: Away
- dist interval: 10m
- elapsed time: 0.486s
- image no: 45B
- lane: 2
- location: Waterworks Road, Ashgrove
- model: Traffistar SR520
- red phase: 002.88s

- serial no: 3444
- site code: 1053
- speed: 74km/h
- speed limit: 60km/h
- time: 13:15:00.

The data block indicates the following—

- the image was taken at 1:15p.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera
- the target vehicle travelled 10 metres from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- the time elapsed from when an image of the target vehicle was taken to when another image of the vehicle was taken was 0.486 seconds
- the image was allocated the number 45B by the system
- the target vehicle was in the lane given the number 2 in the Traffic Camera Coding Manual
- the location where the image was taken was Waterworks Road at Ashgrove
- the model of the system used to take the image was Traffistar SR520
- the image was taken 2.88 seconds after the traffic light changed to red
- the serial number of the system used to take the image was 3444
- the system's camera was located at the place given the number 1053 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 74km/h
- the maximum speed limit at that place and time was 60km/h.

Schedule 15 Data blocks for digital point-to-point camera system—images taken by Redflex point-to-point camera system models P2P101, P2P102, P2P103, P2P104, P2P105 and P2P106

section 211

- ‘date’ followed by a sequence of numbers is the date when the image was taken, in the order of day, month and year (ddmmyyyy)
- ‘direction’ followed by the word ‘Away’ or ‘Towards’ is the direction that the vehicle that activated the system’s camera (the *target vehicle*) was travelling in relation to the system’s camera. ‘Away’ indicates the target vehicle was travelling away from the camera and ‘Towards’ indicates the target vehicle was travelling towards the camera
- ‘dist interval’ followed by a number is the distance travelled by the target vehicle, in metres, from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- ‘elapsed time’ followed by a number is the time elapsed, in seconds, from when an image of the target vehicle was taken to when another image of the vehicle was taken
- ‘image no’ followed by a number is the number allocated by the system to the image
- ‘lane’ followed by a number is the number given in the Traffic Camera Coding Manual for the lane in which the target vehicle was travelling, with the highest number being furthest from the camera

-
- ‘location’ followed by writing is the name of the location where the image was taken
 - ‘model’ followed by writing is the model of the system used to take the image, even if the writing is accompanied by characters or markings included to identify a component of the model of the system
 - ‘serial no’ followed by writing is the serial number of the system used to take the image
 - ‘site code’ followed by a number is the number given in the Traffic Camera Coding Manual for the location of the system’s camera when the image was taken
 - ‘speed’ followed by a number is the speed, in kilometres per hour, of the target vehicle measured by the system when the image was taken
 - ‘speed limit’ followed by a number is the maximum speed limit, in kilometres per hour, for the place at which the image was taken when the image was taken
 - ‘time’ followed by a sequence of numbers is the time in 24-hour clock mode when the image was taken in the order of hour, minute and second.

Example of a data block for an image taken by 1 of the system’s cameras of a vehicle at a point on a road used, in conjunction with another image taken by 1 of the system’s other cameras at a different point, to calculate the average speed of the vehicle under the Act, section 120A—

A data block may show the following information—

- date: 01/09/2011
- direction: Away
- image no: 45
- lane: 2
- location: Bruce Highway, Beerwah
- model: P2P102
- serial no: 2898
- site code: 583013
- speed limit: 110km/h
- time: 21:30:00.

The data block indicates the following—

- the image was taken at 9:30p.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera
- the image was allocated the number 45 by the system
- the target vehicle was in the lane given the number 2 in the Traffic Camera Coding Manual
- the location where the image was taken was the Bruce Highway at Beerwah
- the model of the system used to take the image was P2P102
- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 583013 in the Traffic Camera Coding Manual
- the maximum speed limit at that place and time was 110km/h.

Example of a data block for an image taken by 1 of the system's cameras of a vehicle at a particular location and time—

A data block may show the following information—

- date: 01/09/2011
- direction: Away
- dist interval: 10m
- elapsed time: 0.288s
- image no: 20
- lane: 1
- location: Bruce Highway, Landsborough
- model: P2P102
- serial no: 2898
- site code: 583012
- speed: 125km/h
- speed limit: 110km/h
- time: 21:35:00.

The data block indicates the following—

- the image was taken at 9:35p.m. on 1 September 2011
- the target vehicle was travelling away from the system's camera

- the target vehicle travelled 10 metres from its location when an image of the vehicle was taken to its location when another image of the vehicle was taken
- the time elapsed from when an image of the target vehicle was taken to when another image of the vehicle was taken was 0.288 seconds
- the image was allocated the number 20 by the system
- the target vehicle was in the lane given the number 1 in the Traffic Camera Coding Manual
- the location where the image was taken was the Bruce Highway at Landsborough
- the model of the system used to take the image was P2P102
- the serial number of the system used to take the image was 2898
- the system's camera was located at the place given the number 583012 in the Traffic Camera Coding Manual
- the speed of the target vehicle measured by the system was 125km/h
- the maximum speed limit at that place and time was 110km/h.

4 Table of reprints

A new reprint of the legislation is prepared by the Office of the Queensland Parliamentary Counsel each time a change to the legislation takes effect.

The notes column for this reprint gives details of any discretionary editorial powers under the *Reprints Act 1992* used by the Office of the Queensland Parliamentary Counsel in preparing it. Section 5(c) and (d) of the Act are not mentioned as they contain mandatory requirements that all amendments be included and all necessary consequential amendments be incorporated, whether of punctuation, numbering or another kind. Further details of the use of any discretionary editorial power noted in the table can be obtained by contacting the Office of the Queensland Parliamentary Counsel by telephone on 3237 0466 or email legislation.queries@oqpc.qld.gov.au.

From 29 January 2013, all Queensland reprints are dated and authorised by the Parliamentary Counsel. The previous numbering system and distinctions between printed and electronic reprints is not continued with the relevant details for historical reprints included in this table.
