## Information about this reprint

This reprint shows the legislation current as at the date on the cover and is authorised by the Parliamentary Counsel.

A new reprint of the legislation will be prepared by the Office of the Queensland Parliamentary Counsel when any change to the legislation takes effect. This change may be because a provision of the original legislation, or an amendment to it, commences or because a particular provision of the legislation expires or is repealed.

When a new reprint is prepared, this reprint will become a historical reprint. Also, if it is necessary to replace this reprint before a new reprint is prepared, for example, to include amendments with a retrospective commencement, an appropriate note would be included on the cover of the replacement reprint and on the copy of this reprint at [www.legislation.qld.gov.au](http://www.legislation.qld.gov.au).

The endnotes to this reprint contain detailed information about the legislation and reprint. For example—

- The table of reprints endnote lists any previous reprints and, for this reprint, gives details of any discretionary editorial powers under the *Reprints Act 1992* used by the Office of the Queensland Parliamentary Counsel in preparing it.
- The list of legislation endnote gives historical information about the original legislation and the legislation which amended it. It also gives details of uncommenced amendments to this legislation. For information about possible amendments to the legislation by Bills introduced in Parliament, see the Queensland Legislation Current Annotations at [www.legislation.qld.gov.au/Leg\\_Info/information.htm](http://www.legislation.qld.gov.au/Leg_Info/information.htm).
- The list of annotations endnote gives historical information at section level.

All Queensland reprints are dated and authorised by the Parliamentary Counsel. The previous numbering system and distinctions between printed and electronic reprints are not continued.

# Transport Operations (Marine Pollution) Act 1995

[as amended by all amendments that commenced on or before 23 September 2013]

**An Act to protect Queensland's marine and coastal environment by minimising deliberate and negligent discharges of ship-sourced pollutants into coastal waters, and for related purposes**

## **Part 1                      Preliminary**

### **Division 1                Introduction**

#### **1                      Short title**

This Act may be cited as the *Transport Operations (Marine Pollution) Act 1995*.

### **Division 2                Act's overall purpose**

#### **3                      Overall purpose**

- (1) The overall purpose of this Act is to protect Queensland's marine and coastal environment by minimising deliberate and negligent discharges of ship-sourced pollutants into coastal waters.
- (2) This purpose is to be achieved primarily by giving effect to relevant provisions of the following annexes of MARPOL—

[s 4]

---

- Annex I (which deals with pollution by oil)
  - Annex II (which deals with pollution by noxious liquid substances in bulk)
  - Annex III (which deals with pollution by harmful substances in packaged form)
  - Annex IV (which deals with pollution by sewage)
  - Annex V (which deals with pollution by garbage).
- (3) The purpose is also to be achieved by—
- (a) providing an approach to protecting Queensland’s marine and coastal environment from ship-sourced pollutants complementary to the approach of the Commonwealth and the other States; and
  - (b) making provision about the discharge of sewage from ships; and
  - (c) giving power to deal with shipping casualties that are polluting, or threatening to pollute, coastal waters; and
  - (d) enhancing, through education processes, industry and community awareness of the effects of ship-sourced pollutants on Queensland’s marine and coastal environment; and
  - (e) providing for the imposition of severe penalties on persons who pollute Queensland’s marine and coastal environment in contravention of this Act.

## **Division 3                      Interpretation**

### **4                      Definitions—the dictionary**

- (1) A dictionary in the schedule defines particular words used in this Act.
- (2) Definitions found elsewhere in the Act are signposted in the dictionary.

---

## 5 Words and expressions used in MARPOL and this Act

- (1) Words and expressions used in MARPOL (other than in an annex) and this Act have the same meanings in this Act they have in MARPOL.
- (2) Subsection (1) applies—
  - (a) whether or not a particular word or expression is defined in MARPOL; and
  - (b) subject to sections 25, 34, 41, 46, 54 and 60.
- (3) Except as far as the context or subject matter otherwise indicates or requires, if a word or expression is defined in MARPOL (other than in an annex) and this Act—
  - (a) this Act's definition does not limit or exclude, but may extend, the meaning of the word or expression given under MARPOL; and
  - (b) the definitions are to be read in the context of each other and the other provisions of this Act, but, if the definitions so read are inconsistent, the MARPOL definition is displaced.

## 6 Meaning of *MARPOL*

- (1) *MARPOL* is the International Convention for the Prevention of Pollution from Ships, 1973—
  - (a) as corrected by the procès-verbal of rectification dated 13 June 1978; and
  - (b) as modified and added to by the 1978 Protocol; and
  - (c) as affected by any amendment made under article 16 of the Convention and that has entered force for Australia.

*Note*—

At the commencement of this note, the text of MARPOL is accessible through the Australian Maritime Safety Authority website at <<http://www.amsa.gov.au>>.

- (2) In this section—

[s 7]

---

**1978 Protocol** means the Protocol of 1978 relating to the International Convention for the Prevention of Pollution from Ships, 1973, as affected by any amendment made under article VI of the Protocol that has entered force for Australia.

## 7 Meaning of *agent*

- (1) An *agent* of a ship owner is the person who, for the owner—
  - (a) performs a function under the *Transport Operations (Marine Safety) Act 1994* or the *Transport Infrastructure Act 1994*, chapter 8; or
  - (b) makes an arrangement for berthing the ship, or loading or unloading cargo on or from the ship, in the State; or
  - (c) makes an arrangement for the ship to load bunkers or stores in the State.
- (2) The person remains the ship owner's agent until—
  - (a) the person, or the ship owner, gives the general manager written notice that the person is no longer the ship's agent; or
  - (b) someone else in the State is appointed by the ship owner as agent; or
  - (c) the ship goes outside coastal waters.
- (3) If subsection (2)(a) and (b) do not apply, the person again becomes the ship owner's agent when the ship returns to coastal waters.

## 7A Meaning of *length overall*

- (1) The *length overall* of a ship is the distance in the fore and aft line from the foremost part of the hull of the ship to the aftermost part of the hull of the ship taken at the upper weather tight deck or, for an open ship, at the height of the gunwale.
- (2) However, the length overall of the ship does not include the length of appendages to the hull.

---

*Example—*

A bowsprit or boarding platform is not taken into account when measuring the length overall of a ship.

## **Division 4                      Operation of Act**

### **8                      Act binds all persons**

This Act binds all persons, including the State, and, so far as the legislative power of the Parliament permits, the Commonwealth and the other States.

### **9                      Discharge outside coastal waters that enters coastal waters**

- (1) The discharge of a pollutant, whether or not in packaged form, that happens outside coastal waters is taken to be a discharge into coastal waters under this Act if the discharged pollutant enters coastal waters.
- (2) The discharge is taken to happen when the discharged pollutant enters coastal waters.

## **Part 2                              Information about this Act**

### **10                      Why this Act was enacted**

- (1) In 1973, the international community responded to worldwide concern about the threat to the marine environment and coastlines posed by the discharge of ship-sourced pollutants.
- (2) The international community's response was the International Convention for the Prevention of Pollution from Ships, 1973.
- (3) The Convention, for the first time, set international standards for the proper construction of ships designed to carry oil and noxious substances and laid down rules about the level of

[s 11]

---

discharges that may be made into the sea without risk to the marine environment.

- (4) The Convention, as amended, is known as MARPOL.

*Note—*

See section 6 for the precise meaning of MARPOL for this Act.

- (5) MARPOL was ratified by Australia in 1987.

- (6) This Act gives effect to MARPOL by—

- (a) enacting as part of Queensland's law provisions to give effect to relevant provisions of MARPOL; and
- (b) providing a legislative framework in which the provisions can be enforced.

- (7) This approach complements the approach adopted by the Commonwealth and the other States.

## **11 Queensland's jurisdiction**

- (1) The body of law governing Australian waters is extremely complex and this section is intended to provide only a very general overview of the State's jurisdiction in the territorial sea.
- (2) Queensland's jurisdiction in the territorial sea is limited under the *Coastal Waters (State Powers) Act 1980* (Cwlth).
- (3) Because of this limitation, this Act only deals with discharges from ships that happen, or are taken to happen, in the first 3n miles of the territorial sea and other coastal waters subject to the ebb and flow of the tide.
- (4) These waters are referred to as coastal waters in this Act.

*Note—*

See the dictionary in the schedule for the precise meaning of coastal waters for this Act.

- (5) Waters beyond the 3n mile limit come under Commonwealth jurisdiction to the extent that Australia has jurisdiction.

**12 The ships this Act applies to**

This Act applies to all ships in coastal waters.

**13 Ship construction, survey and certification**

Issues about ship construction, survey and certification are generally dealt with under the Marine Safety Act.

**14 How this Act interacts with other environmental laws**

- (1) This Act deals with the discharge of pollutants into coastal waters happening from ships or because of transfer operations involving ships.
- (2) If a pollutant is discharged into coastal waters from another source, other environmental laws may apply.

*Note—*

See, for example, the *Environmental Protection Act 1994*.

## **Part 3 Marine pollution strategies**

### **Division 1 Development and approval of strategies**

**15 Development and approval of marine pollution strategies**

- (1) The chief executive must, from time to time, develop for the Minister's approval strategies designed to give effect to the transport coordination plan to protect Queensland's marine and coastal environment from the effects of the deliberate, negligent or accidental discharge of ship-sourced pollutants into coastal waters.
- (2) In developing marine pollution strategies, the chief executive must take reasonable steps to engage in public consultation.

[s 16]

---

- (3) The Minister may, at any time, direct the chief executive to prepare new marine pollution strategies for the Minister's approval or to amend marine pollution strategies in the way the Minister directs.
- (4) The Minister may approve marine pollution strategies submitted for approval or require the chief executive to amend the strategies in the way the Minister directs.
- (5) The Minister must table a copy of each marine pollution strategy, and each amendment of a marine pollution strategy, approved by the Minister in the Legislative Assembly within 5 sitting days after its approval.

## **16 Contents of marine pollution strategies**

- (1) Marine pollution strategies must include—
  - (a) a statement of the specific objectives sought to be achieved; and
  - (b) proposals for the provision of marine pollution prevention initiatives and related marine operational initiatives; and
  - (c) criteria for deciding priorities for government spending on marine pollution prevention initiatives and related marine operational initiatives, and options for raising the necessary finance; and
  - (d) appropriate performance indicators for deciding whether, and to what extent, the objectives of the strategies have been achieved.
- (2) Marine pollution strategies must take account of—
  - (a) Australia's international obligations about marine pollution prevention, including its obligations under MARPOL; and
  - (b) agreements or arrangements between the State and the Commonwealth, other States and local governments about marine pollution prevention initiatives.

---

## Division 2                              **Marine pollution prevention and response programs**

### **17      Development and approval of marine pollution prevention and response programs**

- (1) Before the start of each financial year, the chief executive must develop for the Minister’s approval marine pollution prevention and response programs for the year and for 1 or more later years.
- (2) Marine pollution prevention and response programs must include—
  - (a) the policies, projects and financial provisions for carrying out marine pollution strategies; and
  - (b) the performance targets to be achieved.
- (3) Marine pollution prevention and response programs may include proposals to spend amounts on programs other than marine pollution if the spending may contribute to the minimisation of marine pollution in coastal waters.
- (4) In developing marine pollution prevention and response programs, the chief executive must take reasonable steps to consult with government agencies, port authorities, port operators, local governments, sectors of the maritime industry and community and interest groups that, in the chief executive’s opinion, would be affected by the programs.
- (5) Marine pollution prevention and response programs are to be made publicly available in the way decided by the Minister.
- (6) The Minister may at any time direct the chief executive to amend marine pollution prevention and response programs.
- (7) The Minister may approve marine pollution prevention and response programs that are submitted for approval or require the chief executive to amend the programs in the way the Minister directs.

[s 18]

---

## **18 Consistency with marine pollution strategies**

- (1) Subject to directions of the Minister, marine pollution prevention and response programs must be consistent with marine pollution strategies.
- (2) If the Minister gives a direction under this section that results in a marine pollution prevention and response program being inconsistent with a marine pollution strategy, the Minister must table a copy of the direction in the Legislative Assembly within 5 sitting days after it is given.

## **19 Report on operation of marine pollution prevention and response programs**

Each annual report of the department must include a report on the operation of the marine pollution prevention and response programs during the financial year to which the annual report relates.

## **Division 3 Obligations of marine pollution strategies**

### **20 Division's purpose**

This division is intended to ensure value for money for resources applied to preventing marine pollution.

### **21 Obligations about marine pollution**

The chief executive must ensure marine pollution strategies are developed in a way that—

- (a) takes into account national and international benchmarks and international best practice; and
- (b) promotes, within overall transport operations, the safe transport of persons and goods and the protection and conservation of Queensland's marine and coastal environment.

**22 Report on giving effect to s 21**

The department's annual report must include a report on the way in which effect has been given to section 21 during the financial year to which the report relates.

## **Part 4 Prevention of pollution by oil**

### **Division 1 Purpose of part**

**23 Part gives effect to Annex I to MARPOL**

The purpose of this part is to give effect to relevant provisions of Annex I to MARPOL.

### **Division 2 Interpretation**

**24 Definitions for part**

In this part—

*discharge offence* means an offence against section 26(1) or 27(1).

*oil* includes an oily mixture.

**25 Words and expressions used in Annex I to MARPOL and this part**

- (1) Words and expressions used in Annex I to MARPOL and this part have the same meanings in this part they have in the annex.
- (2) Subsection (1) applies whether or not a particular word or expression is defined in Annex I.

[s 26]

---

- (3) Except as far as the context or subject matter otherwise indicates or requires, if a word or expression is defined in Annex I to MARPOL and this part—
- (a) this part's definition does not limit or exclude, but may extend, the meaning of the word or expression given under Annex I; and
  - (b) the definitions are to be read in the context of each other and the other provisions of this Act, but, if the definitions so read are inconsistent, the Annex I definition is displaced.

## **Division 3                      Discharge of oil prohibited**

### **26            Discharge of oil into coastal waters prohibited**

- (1) If oil is discharged from a ship into coastal waters, the following persons each commit an offence—
- (a) the ship's owner;
  - (b) the ship's master;
  - (c) another member of the ship's crew whose act caused or contributed to the discharge, unless the member was complying with an instruction from the master or of someone authorised by the master to give the instruction.

Maximum penalty—

- (a) for an individual—5000 penalty units; or
  - (b) for a corporation—100000 penalty units.
- (2) Subsection (1) applies despite the Criminal Code, sections 23 and 24.

*Note—*

The Criminal Code, section 23 deals with a person's criminal responsibility for an act or omission that happens independently of the person's will or for an event which is accidental. The Criminal Code, section 24 deals with a person's criminal responsibility for an act or

---

omission done under an honest and reasonable, but mistaken, belief in the state of things.

## **27 Oil residues**

- (1) If any oil residues that cannot be discharged from a ship without contravening section 26(1) are not retained on board the ship while the ship is in coastal waters, the ship's master and owner each commit an offence.

*Example—*

A ship leaves port A with a quantity of oil residues held in a tank or space and, without leaving coastal waters, arrives at port B with a lesser quantity in the tank or space. This subsection places an onus on the ship's master to explain why there is a discrepancy in the quantity.

Maximum penalty—

- (a) for an individual—5000 penalty units; or
  - (b) for a corporation—100000 penalty units.
- (2) If an event contravenes subsection (1) and section 26(1), the ship's owner and master cannot be punished for the event under both provisions.

## **Division 4 Defences**

### **28 Defences to discharge offence**

- (1) Each of the following is a defence to a prosecution for a discharge offence—
- (a) the discharge was necessary for the purpose of securing the safety of a ship or saving life at sea;
  - (b) the discharge resulted from damage, other than intentional damage, to the ship or its equipment and all reasonable precautions were taken after the damage happened or the discharge was discovered to prevent or minimise the discharge of the oil;

[s 29]

---

- (c) for an oily mixture—the discharge was made to combat specific pollution incidents to minimise the damage from pollution and was approved by an authorised officer;
  - (d) the discharge was authorised by an authorised officer for training purposes.
- (2) For subsection (1)(b), damage to a ship or its equipment is intentional damage only if the damage arose in circumstances in which the ship’s owner or master or, for a discharge offence against section 26(1), another member of the ship’s crew—
- (a) acted with intent to cause damage; or
  - (b) acted recklessly and with knowledge that damage would probably result.

## **Division 5 Exemptions**

### **29 Certain discharges permissible**

- (1) The regulations may exempt discharges from the operation of the discharge offences.
- (2) However, a regulation may be made only if it gives effect to an exemption allowed under MARPOL.

*Example—*

The regulations may prescribe that oil may be discharged outside specified areas, at a rate and under conditions prescribed under MARPOL. A discharge made outside the area, at the prescribed rate and under the prescribed conditions does not contravene this Act.

## **Division 6 General**

### **30 Shipboard oil pollution emergency plan**

- (1) If a ship does not have on board a shipboard oil pollution emergency plan, the ship’s owner and master each commit an offence.

---

Maximum penalty—850 penalty units.

- (6) In this section—

***discharge offence*** means a discharge offence within the meaning of part 4, 5, 6, 7, 8 or 9.

[s 86A]

---

- (7) The officer must return a seized thing to the person at the end of—
  - (a) 6 months; or
  - (b) if a prosecution for an offence involving it is started within 6 months—the prosecution for the offence and any appeal from the prosecution.
- (8) Despite subsection (7), the officer must return the seized thing to the person immediately the officer stops being satisfied its retention as evidence is necessary.
- (9) However, the officer need not return the seized thing if the officer believes, on reasonable grounds, it is necessary to retain it to prevent its use in committing an offence.

**86A Power to give notice in relation to discharge or likely discharge of pollutant**

- (a) must give the owner or master of the ship a copy of the requirement as soon as practicable; and

**Division 6 Response action to discharge and authorised officer's emergency powers**

**92 Purpose of division**

The purpose of this division is to enable the State, through powers given to the marine pollution controller and authorised officers under this Act, to direct and coordinate the response to a discharge or probable discharge of pollutant into coastal waters.

**93 State has prime responsibility for directing emergency response**

- (1) This section applies if there is a discharge or probable discharge of pollutant into coastal waters (a *relevant discharge*).
- (2) The State has prime responsibility for directing and coordinating the response to a relevant discharge.
- (3) The State may enter into an agreement with a port authority or port operator about the port authority or port operator responding to a relevant discharge within the port limits of the port.

[s 93A]

---

- (4) To the extent stated in either of the following agreements between the State and a port authority or port operator, the port authority or port operator has responsibility within the port limits of the port for directing and coordinating the State's response if there is a relevant discharge within the port limits—
  - (a) an agreement under subsection (3);
  - (b) an agreement of the type mentioned in subsection (3) entered into before the commencement of this subsection.
- (5) The State, port authority or port operator may consult with other interested agencies and entities and local governments in preparing a response to a relevant discharge.

### **93A Marine pollution controller**

- (1) To facilitate the State's fulfilment of its responsibility under section 93(2), there is to be a marine pollution controller.
- (2) The marine pollution controller is the general manager.
- (3) The function of the marine pollution controller is to direct and coordinate, for the State, the response by the State and other entities if—
  - (a) there is a discharge, or probable discharge, of pollutant into coastal waters; and
  - (b) the discharge, or probable discharge, is serious or potentially serious.
- (4) The marine pollution controller may perform his or her function under this section only if the marine pollution controller—
  - (a) is reasonably satisfied it is necessary to perform the function; and

- (5) In performing his or her function, the marine pollution controller has all the powers under this Act of—
- (a) the general manager; and
  - (b) an authorised officer.

### **93B Protection from liability**

- (1) Civil liability does not attach to a protected person because of anything done or omitted to be done under this division as or for the marine pollution controller in good faith without reckless disregard for the possible occurrence of the personal injury or loss or damage to property from which liability would arise, if this section did not apply.
- (2) If subsection (1) prevents a civil liability attaching to a protected person, the liability attaches instead to the State.
- (3) In this section—
- protected person* means—
- (a) the marine pollution controller; or
  - (b) a person acting under the direction of the marine pollution controller.

### **94 Emergency declaration may overrule local law**

- (1) The Minister may, by emergency declaration, declare a local law that is inconsistent with, or hinders, the State's response to a serious discharge of pollutant into coastal waters is of no effect to the extent, and for the period (not longer than 14 days), mentioned in the Minister's declaration.
- (2) However, the Minister may make the emergency declaration only if the Minister is satisfied that urgent action is needed to deal with the discharge.
- (3) The declaration must state it is an emergency declaration and outline the nature of the emergency.

[s 95]

---

- (4) The Minister is not required to engage in consultation about the declaration.
- (5) After notification of the declaration, the Minister may publish it in the ways the Minister considers appropriate having regard to the emergency.
- (6) The Minister must repeal the declaration as soon as possible after the Minister is satisfied the emergency no longer exists.
- (7) Unless it is earlier repealed, the declaration expires 14 days after it is notified.
- (8) An emergency declaration is subordinate legislation.

## **95 Authorised officer's powers in an emergency**

- (1) This section applies if an authorised officer is satisfied on reasonable grounds that—

  - (a) board any ship or, without a warrant, enter any place and take the action; and
  - (b) in taking the action, exercise any of the powers (other than investigatory powers) under this part.
- (8) The authorised officer may exercise the powers mentioned in subsection (7) (**emergency powers**) with any necessary and reasonable help and force.
- (9) If a person or thing is obstructing or preventing an authorised officer from boarding a ship or entering a place or taking action on or at any ship or place while the authorised officer is exercising or attempting to exercise emergency powers, a police officer may, if asked by the authorised officer, using any necessary and reasonable force—
  - (a) remove the person or thing from the place; and
  - (b) take all reasonable measures to ensure the person or thing does not again obstruct or prevent the action being taken.

[s 96]

---

- (10) In exercising or attempting to exercise emergency powers, an authorised officer must take all reasonable steps to ensure the officer causes as little inconvenience, and does as little damage, as is practicable in the circumstances.
- (11) This section does not limit any power an authorised officer has apart from this section.
- (12) If an authorised officer authorises a person to take action under subsection (2)(b)—
  - (a) the person may exercise the powers mentioned in subsection (7)(a); and
  - (b) the officer must inform the person—

    - (ii) of the person's powers under this section; and
    - (iii) in general terms, of section 109; and

*Note—*

- (c) subsections (8), (9) and (10) (so far as they relate to the power mentioned in subsection (7)(a)) apply to the person as if the person were the authorised officer.

## **96 Authorised officer may direct emergency release of pollutant**

- (1) An authorised officer may give a written direction to a person to release a pollutant into coastal waters if the officer is satisfied—

- (2) The authorised officer may impose reasonable conditions on the direction.
- (3) A person to whom a direction is given must—

[s 98]

---

- (2) Without limiting subsection (1), the general manager may take measures the general manager considers necessary to prevent, minimise or eliminate the danger, including, for example—
