Current as at 23 September 2013

Information about this reprint

This reprint shows the legislation current as at the date on the cover and is authorised by the Parliamentary Counsel.

A new reprint of the legislation will be prepared by the Office of the Queensland Parliamentary Counsel when any change to the legislation takes effect. This change may be because a provision of the original legislation, or an amendment to it, commences or because a particular provision of the legislation expires or is repealed.

When a new reprint is prepared, this reprint will become a historical reprint. Also, if it is necessary to replace this reprint before a new reprint is prepared, for example, to include amendments with a retrospective commencement, an appropriate note would be included on the cover of the replacement reprint and on the copy of this reprint at www.legislation.qld.gov.au.

The endnotes to this reprint contain detailed information about the legislation and reprint. For example—

- The table of reprints endnote lists any previous reprints and, for this reprint, gives details of any discretionary editorial powers under the *Reprints Act 1992* used by the Office of the Queensland Parliamentary Counsel in preparing it.
- The list of legislation endnote gives historical information about the original legislation and the legislation which amended it. It also gives details of uncommenced amendments to this legislation. For information about possible amendments to the legislation by Bills introduced in Parliament, see the Queensland Legislation Current Annotations at www.legislation.qld.gov.au/Leg_Info/information.htm.
- The list of annotations endnote gives historical information at section level.

All Queensland reprints are dated and authorised by the Parliamentary Counsel. The previous numbering system and distinctions between printed and electronic reprints are not continued.

- (b) has not had an interstate or New Zealand licence suspended or cancelled.

38 Inquiries into application

- (1) Before deciding the application, the council may—

39 Further consideration of application

- (1) This section applies if the council considers it needs further time to make a decision on the application because of the complexity of the matters that need to be considered in deciding the application.

Example for subsection (1)—

an application requiring the council to obtain and consider information about the applicant from a foreign licensing authority

- (2) The council may at any time before the final consideration day give notice to the applicant that—
- (a) because of the complexity of the matters that need to be considered in deciding the application, the council needs further time to decide the application; and
 - (b) the period within which the council must decide the application is extended to a day (the ***extended day***) that is 40 business days after the final consideration day.
- (3) Also, the applicant and council may at any time before the final consideration day agree in writing on a day (the ***agreed extended day***) by which the application must be decided.
- (4) The council is taken to have decided to refuse to license the applicant if it does not decide the application by—
- (a) if subsection (2) applies—the extended day; or
 - (b) if subsection (3) applies—the agreed extended day; or
 - (c) if both subsections (2) and (3) apply—the later of the extended day or agreed extended day.

- (5) In this section—

final consideration day means the later of the following days—

- (a) the day that is 40 business days after receipt of the application;
- (b) if the council has, under section 38(1)(b), required the applicant to give the council further information or a

 - (a) license the applicant; or
 - (b) provisionally license the applicant for the class of licence applied for; or
 - (c) refuse to license the applicant.
- (2) The council may act under subsection (1)(b) only if—

 - (b) at least 1 of the following applies—
 - (i) the council reasonably considers the applicant needs more practical experience before being licensed;
 - (ii) the council reasonably considers the applicant does not have the qualifications required under section 37(a), but does have enough practical experience to be able to perform work under the provisional licence;
 - (iii) the council reasonably considers the applicant holds a relevant corresponding licence;
 - (iv) the council reasonably considers the applicant has the qualifications and experience required under section 37(a), but evidence of them has not been given to the council.
- (3) However, subsection (2)(a) does not apply if the applicant holds an interstate or New Zealand licence that is in force.
- (4) In this section—

relevant corresponding licence means any of the following—

 - (a) an interstate or New Zealand licence;

[s 41]

- (b) a licence, however called, issued in another country, that allows the applicant to perform part of the work to which the licence application relates.

41 Imposing conditions on licence

- (1) The council may issue a licence, including a provisional licence, on conditions the council considers necessary or desirable for the licensee to competently practise the trade.
- (2) The council must not record details of the conditions in the register unless it reasonably believes it is in the interests of users of the licensee's services or the public to know the details.

42 Steps to be taken after application decided

- (1) If the council decides to license the applicant, including a provisional licence, it must as soon as practicable issue the appropriate licence to the applicant.
- (2) If the council issues a licence with conditions, or issues a provisional licence instead of the licence applied for or refuses to license the applicant, it must as soon as practicable give the applicant an information notice about the conditions, provisional licence or refusal.
- (3) If the council refuses to license the applicant or the applicant withdraws the application, the council must refund to the applicant the application fee paid, less the amount of the cost to the council of processing the application.

43 Failure to decide application

- (1) Subject to subsections (2) and (3), if the council fails to decide the application within 40 business days after its receipt, the failure is taken to be a decision by the council to refuse to license the applicant.
- (2) Subsection (3) applies if the council has—

- (a) under section 38(1)(b), required the applicant to give the council further information or a document; or
 - (b) under section 38(1)(c), required the applicant to undergo an examination.
- (3) The council is taken to have decided to refuse to license the applicant if it fails to decide the application by the later of the following days—

 - (c) the provisional licence has not expired; and
 - (d) the provisional licensee satisfies the council about a matter that caused the council to give the provisional licence rather than the licence.
- (2) The council may, under division 2, license the applicant, with or without the conditions originally applied for.
- (3) The provisional licence is cancelled when the licence applied for is issued.

Division 4 Renewing licences

47 Notice of expiry of licence

The council must give each licensee notice of the expiry of the licensee's licence at least 40 business days before its expiry.

48 Procedural requirements for applications to renew a licence

- (1) A licensee, other than a provisional licensee, may apply to the council for the renewal of the licensee's licence.

Division 3 Assessing plans

85 Process for assessing plans

- (1) This section applies, subject to sections 85B to 85E, to a request (a *compliance request*) for compliance assessment of a plan for compliance assessable work.
- (2) A compliance request must be—
- (a) in the approved form; and
 - (b) made to the local government; and
 - (c) accompanied by the fee fixed by resolution of the local government; and
 - (d) if the request is about a plan for SEQ water work—accompanied by a document or information to show the work has been approved by or for the relevant service provider.

[s 85]

Examples of a document for paragraph (d)—

- a development approval
 - a Water Supply Act connection approval
- (3) The local government may give the person making the request, a written notice (an *information request*), requesting further information needed to assess the plan.
- (4) An information request must be made within 10 business days after the plan is received.
- (5) The compliance request must be decided within 20 business days—
- (a) if an information request is not made—after receiving the compliance request; or
 - (b) if an information request is made—after receiving the information requested.
- (6) The local government must in deciding the compliance request—
- (a) give the person making the request a compliance permit; or
 - (b) refuse to give a compliance permit.
- (7) A compliance permit may be given on reasonable and relevant conditions decided by the local government for achieving compliance.

Examples—

- 1 A condition of a compliance permit for on-site sewerage work may require the owner of the relevant premises to install a grease arrester for the premises.
 - 2 A condition of a compliance permit for compliance assessable work on premises that involves the installation of water meters may require the person carrying out the work to notify the water service provider for the premises that a particular stage of the work has been reached.
- (7A) A local government can not give a compliance permit for SEQ water work unless it is the relevant service provider for the work or 1 of the following applies—

-
- (a) the work has been approved by the distributor-retailer who is the relevant service provider for the work;

Examples of an approval for paragraph (a)—

- a development approval
- a Water Supply Act connection approval

- (b) the local government has been advised by the distributor-retailer in writing that a compliance permit for the type of work may be given without the distributor-retailer's approval.

(7B) A distributor-retailer may give a participating local government a written advice for subsection (7A)(b) for stated types of connections, disconnections or changes to connections for the distributor-retailer's water infrastructure.

- (8) If the local government gives a compliance permit, the local government must also give a copy of the permit to—

(a) the owner of the premises to which the permit relates; and

(b) if the permit is for a plan for work involving the installation of water meters on premises—the water service provider for the premises, if the water service provider is not the local government.

- (9) If the local government does not decide the compliance request within the time stated in subsection (5), the request is taken to have been refused.

(10) If the local government refuses to give a compliance permit or gives a compliance permit on conditions, the local government must give the person who made the request an information notice about the decision.

Note—

For appeals against the decision, see the *Sustainable Planning Act 2009*, chapter 7, part 2, divisions 6, 8 and 9.

(11) If an information request is made and the local government does not receive the information requested within the following period, the compliance request lapses—

[s 85A]

- (a) generally—1 year after the request was made;
 - (b) if, within the year, the local government agrees to a longer period—the longer period.

89 Administration of Standard Plumbing and Drainage Regulation

- (1) Each local government must administer the Standard Plumbing and Drainage Regulation for its area.
- (2) However, if an area within a local government's area is not under the local government's control, the entity that has control of the area must administer the Standard Plumbing and Drainage Regulation for the area.
- (3) Subsection (4) applies if—

- (2) However, the application may be granted only if the chief executive is reasonably satisfied the item the subject of the application complies with the Standard Plumbing and Drainage Regulation.
- (3) Also, if the item the subject of the application is a greywater use facility or on-site sewerage facility, the chief executive may refuse the application but decide to give a testing approval for the item.

94 Conditions of approval

- (1) The chief executive may impose conditions on the approval, including, for example, conditions about the way the item the subject of the approval must be built or manufactured, installed, operated and serviced.

Example—

A chief executive approval for a particular model of on-site sewage treatment plant may require that the plant may be supplied only if it is supplied with each of the following—

- evidence of the approval
- details of the model of the plant

-
- instructions for its building or manufacture, installation, operation, and maintenance.
- (2) If the item the subject of the approval is an on-site sewerage facility, the conditions—
- (a) may authorise the dismantling or taking away of all or part of the installed facility; and
- Note—*
- See section 128 (Restriction on dismantling or taking away on-site sewerage facility).
- (b) for an on-site sewerage facility installed only for testing purposes—also may state when the contents of the installed facility may be disposed of in a way mentioned in section 128P(1) or (3).

95 Information notice

If the chief executive decides to refuse the application or issue an approval with conditions, the chief executive must, as soon as practicable, give the applicant an information notice about the decision.

Note—

For appeals against the decision, see the *Sustainable Planning Act 2009*, chapter 7, part 2, divisions 6, 8 and 9.
