Information about this reprint

This reprint shows the legislation current as at the date on the cover and is authorised by the Parliamentary Counsel.

A new reprint of the legislation will be prepared by the Office of the Queensland Parliamentary Counsel when any change to the legislation takes effect. This change may be because a provision of the original legislation, or an amendment to it, commences or because a particular provision of the legislation expires or is repealed.

When a new reprint is prepared, this reprint will become a historical reprint. Also, if it is necessary to replace this reprint before a new reprint is prepared, for example, to include amendments with a retrospective commencement, an appropriate note would be included on the cover of the replacement reprint and on the copy of this reprint at www.legislation.qld.gov.au.

The endnotes to this reprint contain detailed information about the legislation and reprint. For example—

- The table of reprints endnote lists any previous reprints and, for this reprint, gives details of any discretionary editorial powers under the *Reprints Act 1992* used by the Office of the Queensland Parliamentary Counsel in preparing it.
- The list of legislation endnote gives historical information about the original legislation and the legislation which amended it. It also gives details of uncommenced amendments to this legislation. For information about possible amendments to the legislation by Bills introduced in Parliament, see the Queensland Legislation Current Annotations at www.legislation.qld.gov.au/Leg_Info/information.htm.
- The list of annotations endnote gives historical information at section level.

All Queensland reprints are dated and authorised by the Parliamentary Counsel. The previous numbering system and distinctions between printed and electronic reprints are not continued.

[as amended by all amendments that commenced on or before 1 October 2014]

An Act to provide for the assessment, development and utilisation of mineral resources to the maximum extent practicable consistent with sound economic and land use management

Chapter 1 Preliminary

Part 1 Introduction

1 Short title

This Act may be cited as the *Mineral Resources Act 1989*.

2 Objectives of Act

The principal objectives of this Act are to—

- (a) encourage and facilitate prospecting and exploring for and mining of minerals;
- (b) enhance knowledge of the mineral resources of the State;
- (c) minimise land use conflict with respect to prospecting, exploring and mining;
- (d) encourage environmental responsibility in prospecting, exploring and mining;

[s 3]

- (e) ensure an appropriate financial return to the State from mining;
- (f) provide an administrative framework to expedite and regulate prospecting and exploring for and mining of minerals;
- (g) encourage responsible land care management in prospecting, exploring and mining.

Part 2 Application of Act generally etc.

3 Application of Act to Commonwealth land and coastal waters of the State

- (1) To the extent that the Parliament of the Commonwealth shall have from time to time vested in the Crown in right of Queensland jurisdiction to make such laws with respect thereto, this Act applies in respect of the sea bed and subsoil beneath the internal waters of Australia and beneath the baseline waters of the State and to waters above that sea bed as if that sea bed and subsoil were land within Queensland.
- (2) This Act applies in respect of land of or vested in the Commonwealth to the extent that from time to time the Parliament of the Commonwealth shall determine.
- (3) Subsections (1) and (2) shall not be construed to authorise prospecting, exploration or mining of the sea bed and subsoil that—
 - (a) is within a protected area; or
 - (b) by a law of the Commonwealth is excluded from the application of this Act (whether by reference to this Act or to the subject matter of this Act) to the extent of that exclusion.

- (4) In this section—

baseline waters means the waters between the mean low water springs level and the inside of the baseline under the *Offshore Minerals Act 1998*, section 16.

3A Relationship with petroleum legislation

- (1) This section does not apply to a coal or oil shale mining tenement.

Note—

For the relationship between this Act and the Petroleum and Gas (Production and Safety) Act—

- (a) in relation to coal or oil shale mining tenements, see chapter 8; or
 - (b) otherwise, see the Petroleum and Gas (Production and Safety) Act, section 6 (Relationship with Mineral Resources Act).
- (2) Subject to subsections (3) to (9), the *Petroleum Act 1923* and the Petroleum and Gas (Production and Safety) Act do not limit or otherwise affect—
- (a) the power under this Act to grant or renew a mining tenement over land (the *overlapping land*) in the area of a petroleum authority; or
 - (b) a mining tenement already granted over land (also the *overlapping land*) in the area of an existing petroleum authority.
- (3) If the petroleum authority is a petroleum lease or petroleum facility licence and the mining tenement is an exploration permit, mineral development licence, or mining lease, an authorised activity for the mining tenement may be carried out on the overlapping land only if—
- (a) the petroleum lease or petroleum facility licence holder has agreed in writing to the carrying out of the activity; and
 - (b) a copy of the agreement has been lodged; and

[s 3A]

Note—

For other relevant provisions about lodging documents, see section 386O.

- (c) the agreement is still in force.
- (4) If the petroleum authority is a petroleum lease and the mining tenement is a prospecting permit or mining claim, an authorised activity for the mining tenement may be carried out on the overlapping land only if carrying out the activity does not adversely affect the carrying out of an authorised activity for the petroleum lease.
- (5) Subsection (4) applies whether or not the authorised activity for the petroleum lease has already started.
- (6) If the petroleum authority is an authority to prospect or pipeline licence and the mining tenement is not a mining lease, an authorised activity for the mining tenement may be carried out on the overlapping land only if—
 - (a) the authority to prospect or pipeline licence holder has agreed in writing to the carrying out of the activity, a copy of the agreement has been lodged and the agreement is still in force; or
 - (b) carrying out the activity does not adversely affect the carrying out of an authorised activity for the authority to prospect that has already started.
- (7) If the petroleum authority is an authority to prospect and the mining tenement is a mining lease, an authorised activity for the authority to prospect may be carried out on the overlapping land only if—
 - (a) the mining lease holder has agreed in writing to the carrying out of the activity; and
 - (b) a copy of the agreement has been lodged; and
 - (c) the agreement is still in force.

- (8) Subsection (7) does not apply, or ceases to apply, if the same person holds the authority and the mining lease.
- (9) This section applies despite any other provision of this Act.

3B Relationship with Geothermal Energy Act 2010 and Greenhouse Gas Storage Act 2009

The relationship between this Act, the *Geothermal Energy Act 2010* (the ***Geothermal Act***), the *Greenhouse Gas Storage Act 2009* (the ***GHG storage Act***) and authorities under them is provided for under—

- (a) chapter 9; and
- (b) the Geothermal Act, chapter 5; and
- (c) the GHG storage Act, chapter 4.

3C Declaration for Commonwealth Act

4 Effect of change of baseline

- (1) If—
 - (a) an offshore area is in the area of an exploration permit, mineral development licence or mining lease (the ***mining tenement***); and
 - (b) there is a change to the inner limit of the coastal waters of the State as defined in the *Offshore Minerals Act 1998*, section 16(1) and (2); and
 - (c) as a result of the change, the offshore area comes within those coastal waters;

this Act applies, while the mining tenement or any successor mining tenement remains in force, as if the area were still within the offshore area.

[s 4]

(2) If—

- (a) a mining lease takes effect immediately after an exploration permit expires; and
- (b) the holder of the mining lease immediately after it takes effect was the holder of the exploration permit immediately before it expired;

the mining lease is a successor mining tenement to the exploration permit for subsection (1).

(3) If—

- (a) a mineral development licence takes effect immediately after an exploration permit expires; and
- (b) the holder of the mineral development licence immediately after it takes effect was the holder of the exploration permit immediately before it expired;

the mineral development licence is a successor mining tenement to the exploration permit for subsection (1).

(4) If—

- (a) a mining lease takes effect immediately after a mineral development licence expires; and
- (b) the mineral development licence took effect immediately after an exploration permit expired; and
- (c) the holder of the mining lease immediately after it takes effect was the holder of the mineral development licence immediately before it expired; and
- (d) the holder of the mineral development licence immediately after it took effect was the holder of the exploration permit immediately before it expired;

the mining lease is a successor mining tenement to the exploration permit and the mineral development licence for subsection (1).

(5) In this section—

offshore area means an area of the sea bed and subsoil to which the Act applies.

Part 3 Relationship with Sustainable Planning Act 2009

4A Effect on development

- (1) Subject to subsections (2) and (3), the Planning Act does not apply to development authorised under this Act.
- (2) For administering IDAS for the Heritage Act, the Planning Act applies to a Queensland heritage place under the Heritage Act even if development of the place is authorised under this Act.
- (3) For applying the Planning Act in relation to the *Building Act 1975*—
 - (a) the Planning Act applies to building work, as defined under that Act, forming part of development authorised under this Act, including development authorised under a mining tenement; and
 - (b) the building work is taken to be self-assessable building work for the *Building Act 1975*, section 21.

Note—

See in particular the Planning Act, section 574 (Self-assessable development must comply with codes).

4B Notice to local government and chief executive (planning) of particular mining tenements

- (1) This section applies if a mining claim, mineral development licence or mining lease (the *mining tenement*) is granted or renewed.

[s 5]

- (2) The chief executive must give notice of the mining tenement to—
 - (a) each local government in whose area the area of the tenement is situated; and
 - (b) the chief executive (planning).
- (3) An entity given a notice under subsection (2) must make a note on each relevant map in the local government's planning scheme held by the entity.
- (4) The note must—
 - (a) identify the area of the mining tenement; and
 - (b) state that the Planning Act does not apply to development in the area authorised under this Act, other than for administering IDAS for the Heritage Act, in relation to a Queensland heritage place under the Heritage Act; and
 - (c) state that interested persons may obtain details of the mining tenement from the chief executive of the department in which this Act is administered.
- (5) In this section—

chief executive (planning) means the chief executive of the department in which the Planning Act is administered.

Part 5 General provisions for minerals and mining tenements

8 Crown's property in minerals

- (1) Gold on or below the surface of land is the property of the Crown.
- (2) Coal—
 - (a) on or below the surface of land that was acquired by the Crown as provided in the *Agricultural Lands Special Purchase Act 1901* and subsequently alienated in fee simple by the Crown is the property of the Crown;
 - (b) on or below the surface of land (other than land referred to in paragraph (a)) is the property of the Crown except where that land was alienated in fee simple by the Crown before 1 March 1910 and the grant of that land did not contain a reservation to the Crown of the property in that coal.
- (3) All minerals (other than coal and gold but including minerals dissolved or suspended in water within or upon the earth's crust) on or below the surface of land in Queensland other than land alienated in fee simple by the Crown pursuant to—
 - (a) the *Alienation of Crown Lands Act 1860*, section 22; or
 - (b) the *Crown Lands Alienation Act 1868*, section 32; or

[s 9]

- (c) the *Mineral Lands Act 1872*, section 21;
are the property of the Crown.
- (4) Each deed of grant or lease of unallocated State land must contain a reservation of—
 - (a) minerals on and below the surface of the land; and
 - (b) the right of access for prospecting, exploring or mining.
- (5) Mineral on or below the surface of land that is or becomes road is (to the extent that the mineral, but for this subsection would not be the property of the Crown) on and from the date the land becomes or became road, the property of the Crown.
- (6) Where land to a specified depth only is or becomes road, subsection (5) applies in respect only of mineral in or below the surface of that land to the specified depth.
- (7) Nothing in subsections (5) and (6) shall be construed as abrogating any right that the owner of land whose land is compulsorily acquired after the commencement of this Act for the purpose of being used as a road may have under any other Act or law to compensation in respect of that acquisition.

9 Exclusive right of Crown to grant mining leases etc. irrespective of ownership of mineral

- (1) A person is not competent to grant a lease or to enter into an agreement or arrangement, whether for valuable consideration or otherwise (other than an agreement referred to in section 320(2)(a) or (b)) authorising the prospecting or exploring for mineral or the mining of any mineral therefrom notwithstanding that the mineral is not the property of the Crown.
- (2) For the purposes of subsection (1) a compensation agreement entered into pursuant to this Act does not authorise prospecting, exploring or mining.
- (3) Subject to this Act, a mining tenement may be granted over land even though—

- (a) a deed of grant in fee simple from the State may or may not contain a reservation to the State of the relevant mineral on or below the surface of the land; or
 - (b) the relevant mineral is not the property of the State.
- (4) Notwithstanding the other provisions of this Act, a person who undertakes any airborne activity to determine the existence of minerals shall notify the Minister after the completion of that activity and shall furnish the Minister such data as the Minister may determine in the particular case.

10 Act does not create estates in land

The grant of a mining tenement under this Act does not create an estate or interest in land.

10AAA Extinguishing mining tenement interests on the taking of land in a mining tenement's area (other than by an easement)

- (1) This section applies to the taking of land, other than by taking or otherwise creating an easement, under a resumption law.
- (2) Despite any other Act, the taking of land does not extinguish mining tenement interests other than to the extent, if any, provided for in the resumption notice for the taking of the land.
- (3) The resumption notice for the taking of land may provide for the extinguishment of a mining tenement interest on the taking only to the extent the relevant Minister for the taking is satisfied the interest is incompatible with the purpose for which the land is taken.
- (4) Without limiting the application of subsection (3), the relevant Minister may be satisfied a mining tenement interest is incompatible with the purpose for which the land is taken if, for that purpose, it is necessary to extinguish all interests in the land, including native title rights and interests.

[s 10AAA]

- (5) A mining tenement interest may be—
- (a) wholly extinguished; or
 - (b) partially extinguished by—
 - (i) excluding land from the land the subject of the interest; or
 - (ii) prohibiting the carrying out of activities by the holder of the interest.
- (6) The resumption notice for the taking of land may provide for the extinguishment of mining tenement interests by reference to either or both of the following—
- (a) stated land, which—
 - (i) may be all or part of the land that is taken; and
 - (ii) if the stated land is only part of the land that is taken—may be described in the resumption notice in any way, including, for example—
 - (A) as a shape that does not constitute a block or sub-block; or
 - (B) by using 3 dimensionally located points to identify the position, shape and dimensions of each boundary;
 - (b) stated mining tenement interests, which may be all mining tenement interests or mining tenement interests of a particular type.
- (7) For the taking of land for which mining tenement interests are extinguished as provided by this section—
- (a) each person's interest in an extinguished mining tenement interest is converted into a right to claim compensation under the resumption law; and
 - (b) the resumption law applies with necessary and convenient changes and with the changes mentioned in subsections (8) and (9) and section 10AAD.

-
- (8) The notice of intention to resume for the proposed taking of the land must state the extent to which the mining tenement interests are proposed to be extinguished.
- (9) The entity taking the land must give the chief executive a written notice that—
- (a) states the details of the extinguishment; and
 - (b) asks for the extinguishment to be recorded in the register; and
 - (c) is accompanied by a certified copy of the resumption notice.

- (10) In this section—

certified copy, of the resumption notice, means a copy of the original of the notice that has been certified by a justice of the peace as being a correct copy of the original notice.

relevant Minister, for the taking of land under a resumption law, means—

- (a) if the land is taken under the process stated in the ALA (whether the land is taken under the ALA or another resumption law)—the Minister to whom the application that the land be taken is made under section 9 of that Act; or
- (b) otherwise—the Minister administering the resumption law under which the land is, or is to be, taken.

10AAB Effect of extinguishment of mining tenement interests on the taking of land in a mining tenement's area (other than by an easement)

- (1) This section applies if, under section 10AAA, the resumption notice for the taking of land (other than by taking or otherwise creating an easement) under a resumption law provides for the extinguishment of mining tenement interests for stated land.
- (2) If the resumption notice states that all mining tenement interests relating to the stated land are extinguished and a

[s 10AAB]

mining tenement interest relates only to the stated land, the interest is wholly extinguished.

- (3) If the resumption notice states that all mining tenement interests relating to the stated land are extinguished and a mining tenement interest relates to the stated land and other land—
 - (a) the stated land is no longer the subject of the interest; and
 - (b) without limiting paragraph (a)—
 - (i) the stated land is excluded from the area of the mining tenement comprising the interest, or under or in relation to which the interest exists; and
 - (ii) this Act applies in relation to the area of the mining tenement with necessary and convenient changes to allow for the exclusion of the stated land, including, for example, to allow the area—
 - (A) to include a part of a block or sub-block if the part is what is left after the stated land is excluded from the area; or
 - (B) to comprise land that is not contiguous; and
 - (iii) for this Act, land in the area of the mining tenement is taken to be contiguous if the land would be contiguous but for the exclusion of the stated land.
- (4) If the resumption notice states that the carrying out of stated activities on the stated land by holders of stated mining tenement interests is prohibited, the holder of a stated mining tenement interest is not, or is no longer, authorised to carry out the stated activities on the stated land.
- (5) However, subsections (3) and (4) do not apply in relation to a mining tenement interest that comprises, or exists under or in relation to, a new or renewed mining tenement granted after the land is taken.

10AAC Applications relating to land taken under a resumption law for which mining tenement interests were extinguished

- (1) The decision-maker for an application for a new mining tenement may, under a grant provision, grant a new mining tenement for an area that includes acquired land only if the decision-maker, after consulting the entity that took the land, is satisfied the grant of the tenement is compatible with the purpose for which the land is being or is to be used.
- (2) If there are 2 or more applications under this Act for the grant, under a grant provision, of a new mining tenement for an area that includes the same acquired land, the applications are to be dealt with as follows—
 - (a) the applications must be considered and decided according to the day on which they are lodged;
 - (b) if the applications were lodged on the same day—
 - (i) they take the priority the decision-maker decides, after considering the relative merits of each application; and
 - (ii) the chief executive must give each applicant a written notice stating there is competition for priority between the applicant's application and another application, or other applications, lodged on the same day as the day on which the applicant's application was lodged.
- (3) If a grant provision provides for the grant of a new mining tenement (the *new tenement*) over land in the area of an existing mining tenement (the *existing tenement*)—
 - (a) the application under this Act for the new tenement may include acquired land that was, immediately before the taking of the land, in the existing tenement's area; and
 - (b) subject to subsections (1) and (2), the decision-maker for the application may grant a new tenement for an area that includes the acquired land as if the acquired land were in the existing tenement's area.

[s 10AAD]

- (4) To remove any doubt, it is declared that this section does not affect the operation of the provisions of this Act about the application for, and grant of, a new mining tenement other than to the extent provided for in subsections (1) to (3).
- (5) In this section—
- decision-maker*, for an application for a new mining tenement, means the entity responsible for granting the tenement.
- grant provision* means a provision of this Act providing for the grant of a new mining tenement.
- new mining tenement* includes a renewed mining tenement.

10AAD Compensation for effect of taking of land in a mining tenement's area on mining tenement interests

- (1) This section applies if land in a mining tenement's area is taken under a resumption law (including by taking or otherwise creating an easement).
- (2) In assessing any compensation to be paid to the holder of a mining tenement interest in relation to the taking of the land, allowance can not be made for the value of minerals known or supposed to be on or below the surface of, or mined from, the land.

10AA Joint holders of mining tenement

- (1) A mining tenement may be held by 2 or more persons as joint tenants or as tenants in common.
- (2) If, under this Act—
- (a) an application is made for a mining tenement, or for approval of an assessable transfer for a mining tenement or an application transfer, for more than 1 proposed holder or transferee; and

(b) the application does not show whether the proposed holders or transferees are to hold as joint tenants or as tenants in common; and

(c) the mining tenement or approval is granted;

the chief executive must record in the register that the holders or transferees hold the mining tenement as tenants in common.

(3) In this section—

mining tenement includes an interest in a mining tenement.

10A Extension of certain entitlements to registered native title bodies corporate and registered native title claimants

(1) To the extent that a provision of chapter 2, other than section 19(1) or 34, applies to a prospecting permit granted only for pegging purposes, a reference in the provision to the owner of land is taken to include a reference to any registered native title body corporate under the Commonwealth Native Title Act in relation to any of the land.

(2) To the extent that section 31 applies to a prospecting permit granted other than only for pegging purposes, a reference in the section to the owner of land is taken to include a reference to any registered native title body corporate or registered native title claimant under the Commonwealth Native Title Act in relation to any of the land.

(3) In sections 34, 125, 231(9) and 317 and chapter 13, part 2 a reference to the owner of land is taken to include a reference to any registered native title body corporate or registered native title claimant under the Commonwealth Native Title Act in relation to any of the land.

(4) In this section—

pegging purposes, in relation to a prospecting permit, means purposes necessary to enable the holder of the permit to apply for a mining claim or mining lease over the land for which the permit is granted.

Part 6 Mining districts

11 Mining districts

- (1) The chief executive may by gazette notice declare an area of land to be a mining district.
- (2) The notice must—
 - (a) state the name of the mining district; and

16 Land excluded from prospecting permit

- (1) Land is excluded from a prospecting permit if—
 - (a) it is in the area of a mining claim, mineral development licence or mining lease; or
 - (b) it is covered by an application for a mining claim, mineral development licence or mining lease that has not been finally decided.
- (2) Also, a prospecting permit may be granted for all or part of a fossicking area only if the application for the permit was made, but not decided, before the land became a fossicking area.
- (3) However, if the holder of, or applicant for, the mining claim, mineral development licence or mining lease consents in writing to an application for a prospecting permit for land in the area of or covered by the claim, licence or lease, this

[s 17]

section does not apply to the application to the extent stated in the consent.

- (4) In addition, this section does not apply if—
- (a) the prospecting permit holder is the applicant for the mining claim, mineral development licence or mining lease; and
 - (b) there is no other application for a claim, licence or lease for land in the area of the prospecting permit.

17 Prospecting permit to be granted to a single person

A prospecting permit may only be issued in the name of a single eligible person.

18 Entitlements under prospecting permit

- (3) Also, a prospecting permit holder may enter occupied land for hand mining only with the written consent of the owner of the land.
- (4) In addition, a prospecting permit holder may enter restricted land only with the written consent of the owner of the land where the relevant permanent building, or relevant feature, is situated.
- (5) Further, a prospecting permit holder may enter land within 50m laterally of a place where activities are being carried on under an exploration permit only with the written consent of the exploration permit holder.

20 Provisions about consents to enter land

- (1) This section applies to consents for a prospecting permit holder to enter land.
- (2) In the absence of evidence to the contrary, the consent of an owner who is a joint tenant or tenant in common with other owners, is taken to be the consent of all the owners.
- (3) If the owner of land can not be easily contacted, a consent may be given for the land by the land's occupier.

Examples of the owner not being easily contacted—

- 1 The owner does not live in Australia and there is no known current overseas address for the owner.
 - 2 The owner is travelling in Australia and there is no known current address for the owner.
- (4) Consent under this section may be given on conditions.
 - (5) The holder of a consent must comply with the consent's conditions.

Maximum penalty for subsection (5)—10 penalty units.

[s 21]

- (6) A consent given for land may be amended or withdrawn by the land's owner (or, if given by the occupier, the occupier) by written notice given to the holder and the chief executive.

Note—

For other relevant provisions about giving the chief executive documents, see section 386O.

- (5) Despite subsections (2) to (4), a condition must not be imposed, prescribed or varied if the condition, or the condition as varied, is the same, or substantially the same, or inconsistent with, a prescribed condition under the Environmental Protection Act for carrying out a small scale mining activity.
- (6) The holder of a prospecting permit and all persons acting under the authority of the permit shall comply with the conditions for the time being of the permit of which notice has been served on the holder.
- (7) To remove doubt, it is declared that a condition may limit the extent of the holder's entitlements under section 18(1).
- (8) If a prospecting permit is subject to a condition imposed under schedule 1A, section 433, the condition is taken to be a condition of the permit of which notice has been served on the holder.

25AA Additional conditions of prospecting permit relating to native title

- (1) Conditions imposed on a prospecting permit by the chief executive under section 25(2) may include native title protection conditions for the permit.
- (2) Subsection (1) does not limit section 25(2).
- (3) In this section—
native title protection conditions, for a prospecting permit, means conditions that—
 - (a) are about ways of minimising the impact of the permit on native title in relation to the land affected by the

[s 25A]

- permit, including ways of accessing the land and ways anything authorised under the permit may be done; and
- (b) are identified in the permit as native title protection conditions for the permit.

25A Indigenous land use agreement conditions

- (1) This section applies if—
- (a) a registered indigenous land use agreement under the Commonwealth Native Title Act provides for the granting of a prospecting permit; and
- (b) the State is a party to the agreement; and
- (c) the agreement includes a requirement that, if the prospecting permit is granted, it must be granted subject to conditions stated in the agreement (the *stated conditions*); and
- (d) the prospecting permit is granted.
- (2) The prospecting permit is subject to the stated conditions.
- (3) The stated conditions are taken to be conditions of the permit of which notice has been served on the holder of the prospecting permit.

26 Provision of security

- (1) A prospecting permit shall not be granted until the applicant for the permit deposits the security (if any) determined by the chief executive for compliance with the conditions of the prospecting permit and the provisions of this Act and to rectify any actual damage that may be caused by any person whilst purporting to act under the authority of the permit to pre-existing improvements for the permit.
- (2) If the chief executive fixes an amount of security under subsection (1), the amount must not be less than the amount prescribed under a regulation.

- (3) The owner of any land may apply in writing to the chief executive to rectify the damage referred to in subsection (1) that has been caused by any activity allegedly authorised under a prospecting permit in respect of that land.
- (4) If the chief executive is satisfied (whether or not upon an application referred to in subsection (3)) that damage referred to in subsection (1) has been caused by any person purporting to act under the authority of a prospecting permit the chief executive shall require that person to take all action necessary to rectify that damage.
- (5) The chief executive may, at any time (whether before or after the expiry or cancellation of a prospecting permit), use all or part of the security deposited for the permit to rectify actual damage caused by someone acting under the permit.
- (6) If, at any time (whether during or within 20 business days after the expiration of the term of a prospecting permit) the amount or any part of the amount deposited under this section is utilised as provided by subsection (5) or the chief executive considers that, in view of the damage caused or likely to be caused by any person purporting to act under the authority of the prospecting permit or for any other reason, a further amount of security should be deposited in respect of that prospecting permit, the chief executive shall require the holder or former holder of the prospecting permit, within the time specified by the chief executive, to deposit the further security.
- (7) The chief executive may accept a bond or a guarantee or indemnity by, or other financial arrangement with, a financial institution, insurance company or another credit provider approved by the chief executive or other form of security acceptable to the chief executive as the whole or part of the security to be deposited under this section.
- (8) It shall be a condition of a prospecting permit that the holder shall deposit security or further security from time to time in accordance with a requirement made as provided by this section.

[s 26]

- (9) Subsection (10) applies if an amount of security deposited by a holder of a prospecting permit has not been used when the permit terminates and—
 - (a) for a parcel prospecting permit—the owner of the occupied land in the area of the permit—
 - (i) gives the chief executive written approval to refund the security; or
 - (ii) does not make a claim against the security within—
 - (A) 20 business days after the termination; or
 - (B) a longer period (of not more than 3 months) fixed by the chief executive by written notice given to the permit holder and owner; or
 - (b) for a district prospecting permit—an owner of land in the area of the permit does not make a claim against the security within—
 - (i) 20 business days after the termination; or
 - (ii) a longer period (of not more than 3 months) fixed by the chief executive by written notice given to the permit holder and owner.
- (10) After deducting the amount the chief executive considers should be held for use under subsection (5), the chief executive may refund the balance of the security.
- (11) The chief executive must refund the amount to the permit holder or in accordance with any written direction the holder gives the chief executive.
- (12) In the absence of evidence to the contrary, the approval of an owner who is a joint tenant or tenant in common is taken to be the approval of all the owners for subsection (9)(a)(i).
- (13) Subsection (10) does not limit the chief executive's powers under subsection (15).
- (14) If—

-
- (a) a prospecting permit holder applies for a mining claim or mining lease; and
 - (b) the application has not been finally decided when the permit is terminated; and
 - (c) after the application is decided, an amount held as security under this section is not held as security for the claim or lease;

the amount may be refunded under subsection (9).

- (15) If the chief executive accepts a bond, guarantee or indemnity by, or another financial arrangement with, a financial institution, insurance company or credit provider as security under this section, any amount payable to the holder under subsection (9) or (10) must be refunded to the financial institution, insurance company or credit provider and not to the holder of the prospecting permit to which the security relates.

27 Utilisation of security deposit towards subsequent prospecting permit

If the holder of a prospecting permit or an expired prospecting permit makes application for a further prospecting permit, the chief executive may, instead of refunding the whole or part of the security deposited in respect of the existing or expired permit, retain that security or part thereof (together with any further security fixed by the chief executive) as the security (in which case it shall be taken to be or to be part of the security) deposited by the applicant in respect of the application for the further prospecting permit.

28 Compensation

- (1) Notwithstanding section 26, the Crown or an owner is entitled to recover, from time to time in the Land Court, compensation in respect of damage or injury suffered or loss incurred by reason of a person acting or purporting to act under the authority of a prospecting permit but any moneys paid under

[s 29]

that section in respect of rectification of damage the subject of the proceeding shall be taken into account in assessing any compensation.

 - (b) a mining lease;

in respect of any land in the area of the prospecting permit, shall, during the period from the expiration of the prospecting permit until the determination of the application, for so long as the provisions of this Act and the terms and conditions that would apply if the permit were current are complied with, have all the responsibilities, powers, authorities and duties that the holder would have had in respect of the land the

subject of the application if the prospecting permit was current.

- (2) The entitlements of the holder of a prospecting permit are not reduced or limited by reason only of the holder's application for the grant of a mining claim or a mining lease in respect of any land in the area of the prospecting permit.

31 Chief executive to notify owners of occupied land of grant of parcel prospecting permit

- (1) Upon granting a parcel prospecting permit, the chief executive must, within 5 business days after the grant, advise the owner of any occupied land specified in the permit including occupied land (other than a reserve for public road) specified as access.
- (2) Where advice is not in writing, the advice shall be confirmed in writing as soon as practicable.

- (1) A parcel prospecting permit holder must give the owner of the land in the area of the permit notice of entry before initial entry is made under the permit.
- (2) The notice must be given at least 5 business days before the intended entry (or a shorter time acceptable to the owner and endorsed on the notice).

- (4) If the holder satisfies the chief executive it is impracticable to give either the owner or occupier notice of the intended entry, the chief executive may dispense with the need to give notice.

[s 33]

- (5) If the chief executive dispenses with the need to give notice, the chief executive must make an appropriate endorsement on the permit.
- (6) However, before making the endorsement, the chief executive may require the holder to take the action the chief executive considers appropriate to publicise the proposed entry, including, for example, publishing an advertisement in a newspaper or other publication.

33 Prospecting permit not transferable

Note—

[s 49]

For inclusion of acquired land that was previously in the area of a prospecting permit or exploration permit, see section 10AAC(3).

- (2) The area of the mining claim must include the whole of the surface of the land within the boundaries of the area of the mining claim.

 - (3) During the currency of a mining claim, a person who delivers goods or substances or provides services to the holder may enter that area for that purpose.
 - (4) Where any Act provides that water may be diverted or appropriated only under authority granted under that Act, the holder of a mining claim shall not divert or appropriate water unless the holder holds that authority.
 - (5) In this section—
 - prescribed mining claim* means a mining claim that—
 - (a) applies to corundum, gemstones or other precious stones, and the area of which has been decided by the Minister under section 53; or

- (2) A mining claim may be granted over the surface of land that is restricted land when the application for the claim was lodged only if—
- (a) the owner of the land where the relevant permanent building or relevant feature is situated, consents in writing to the application; and
 - (b) the applicant lodges the owner's written consent with the chief executive before the last objection day ends.
- (3) The owner of the land can not withdraw his or her consent under subsection (2) once it has been lodged with the chief executive.

- (1A) For a mining claim that applies to corundum, gemstones or other precious stones, the Minister also may grant the claim for an area, of not more than 20ha, decided by the Minister (the *decided area*).
- (2) Despite subsection (1)(a), the Minister may, for a particular mining claim for which an area is not decided by the Minister, accept an application for a mining claim over land of a different shape.
- (2A) In deciding the area of a mining claim for subsection (1A), the Minister must have regard to—
- (a) whether the area of land is mineralised; and
 - (b) whether the area of land is of an appropriate size and shape in relation to the mineralisation; and
 - (c) the type and location of activities to be carried out under the mining claim.
- (3) The prescribed area of the land over which a mining claim for which an area is not decided by the Minister may be granted is—

- whichever is the smaller.
- (3A) Subsection (3B) applies to a mining claim for which an area is decided by the Minister if the land to which the mining claim applies is within an area prescribed by regulation under subsection (3)(b).

[s 54]

- (3B) Despite subsection (1A), the Minister can not decide an area for the mining claim that is more than the area prescribed by regulation.
- (4) Where it is found that the area of a mining claim exceeds the prescribed area or the decided area, the mining claim is not thereby invalidated but the following provisions of this subsection shall be complied with.

- (3) If the Minister is not satisfied that there is good reason why the Minister should not do so, the Minister may cancel the mining claim or interest.
- (4) Where, pursuant to subsection (3) an interest only in a mining claim is cancelled, each holder of any other interest in the mining claim shall hold an interest in the mining claim in the same proportion that the holder's original interest bears to the aggregate of the remaining interests.

56 Marking out land before application for grant of mining claim

- (1) The holder of a prospecting permit or exploration permit who wishes to apply for the grant of a mining claim must mark out under section 57, the boundary of the land proposed to be the subject of the application.
- (2) The fact that the land marked out pursuant to subsection (1) is not a rectangular shape does not constitute a failure to comply with this section.

57 Manner of marking out land proposed to be subject of mining claim

- (1) Before making an application for the grant of a mining claim, the intending applicant or some person authorised on the intending applicant's behalf shall mark out the land by inserting firmly in the ground at each and every corner of the land applied for a round post which shall be not less than 10cm in diameter or a square post each side of which shall be not less than 10cm in width standing at least 1m above the surface and sunk not less than 50cm in the ground.

- (6) Where the applicant is a company the initials of that company (or of any 1 company should there be more than 1) shall be engraved and marked as prescribed herein on the posts.
- (7) If a post can not be inserted in the manner prescribed there shall be erected a cairn of stones at least 50cm high in the place where the post should have been inserted.
- (8) If cairns of stones are erected there shall be engraved or in some way durably marked thereon the particulars which would have been required had a post been inserted.
- (9) Where it is not practicable to insert a post or erect a cairn of stones in the manner prescribed at every corner of the land applied for, there may be inserted a datum post only and compass bearings shall be taken and distances measured, as required by section 62.
- (10) Where it is impossible to insert a datum post or erect a cairn of stones in the manner prescribed by subsection (1) the land shall be marked by measuring a distance on a given bearing from a reference post to a point which shall be the nominal position of the starting point and from which any survey of the land shall commence and the reference post shall in all respects comply with the provisions of this Act relating to a datum post, except the provisions relating to position.

58 Consent of chief executive required to certain marking out of land

- (1) Where the land the subject of a mining claim is marked out in accordance with section 57(9) or (10) the consent of the chief executive is required and the chief executive's consent may be given at any time prior to the issue of the mining claim application certificate for the mining claim.

Note—

For other relevant provisions about applications, see section 386O.

60 If application for mining claim not made, is rejected or abandoned, posts etc. to be removed

- (1) A person who marks out the boundary of land for the purpose of making an application for the grant of a mining claim shall remove or cause to be removed forthwith all posts, cairns and other things used by the person to mark out the boundary (not being a survey mark or other thing required by any other Act not to be removed)—
 - (a) where the person has not made the application within 5 business days of the marking out, upon the expiration of those 5 business days; or
 - (b) where the person has made the application as prescribed, upon the rejection or abandonment of the application.

[s 61]

 - (o) such other conditions as are prescribed;
 - (p) such other conditions as the Minister may impose (including such conditions as the Land Court may determine pursuant to this chapter).
- (1AA) Without limiting subsection (1), the Minister may impose a condition on a mining claim if the Minister considers the condition is in the public interest.
- (2) If in any case there is conflict between a condition determined by the Land Court and a condition determined by the Governor in Council, then to the extent of the conflict the determination of the Governor in Council shall prevail.
 - (3) Despite subsections (1) to (2), a condition must not be determined, imposed or prescribed if it is the same, or substantially the same, or inconsistent with, a relevant environmental condition for the mining claim.

 - (c) the Minister consents to the mining claim being subject to 1 or more of the conditions (the *consent conditions*); and
 - (d) the act is done.
- (2) The mining claim is subject to the consent conditions.

81B Other agreement conditions

- (1) This section applies if—
 - (a) a registered indigenous use agreement under the Commonwealth Native Title Act, or an agreement mentioned in section 31(1)(b) of the Commonwealth Native Title Act, provides for the grant, renewal or variation of, or another act concerning, a mining claim; and
 - (b) the State is a party to the agreement; and
 - (c) the agreement includes a requirement that, if the act is done, the mining claim must be subject to conditions stated in the agreement (the *stated conditions*); and
 - (d) the act is done.

- (2) The mining claim is subject to the stated conditions.

82 Variation of conditions of mining claim

- (1) The conditions to which a mining claim is for the time being subject may be varied by the Minister in terms not inconsistent with this Act upon the agreement in writing of the holder of the mining claim.
- (2) However, the Minister must not vary a condition of a mining claim if—
- (a) the condition was decided or recommended by the tribunal under the native title provisions; or
 - (b) the condition as varied is the same, or substantially the same, or inconsistent with, a relevant environmental condition for the mining claim.
- (3) Without limiting subsection (1), the Minister may refuse to vary a condition of a mining claim if the Minister considers the variation is not in the public interest.
- (4) A mining claim that is duly varied pursuant to subsection (1) shall thereafter until again varied, be subject to its conditions as so varied.
- (5) Particulars of every variation of a mining claim shall be endorsed on the certificate of grant, if issued, for that mining claim.

83 Provision of security

- (1) Before a mining claim is granted or renewed, the Minister taking into consideration the work program mentioned in section 61(1)(j)(iv) shall determine the amount of the security to be deposited by the holder of that mining claim as reasonable security for—
- (a) compliance with the conditions of the mining claim; and
 - (b) compliance with the provisions of this Act; and

[s 83]

- (c) rectification of any actual damage that may be caused by any person whilst purporting to act under the authority of the mining claim to pre-existing improvements for the mining claim; and
 - (d) amounts (other than penalties) payable to the State under this Act.
- (2) The Governor in Council, when giving consent to the grant of a mining claim pursuant to section 79, may determine the amount of the security to be deposited by the holder of the mining claim.
 - (3) The Land Court, when instructing the Minister to grant an application for the grant of a mining claim, may determine the amount of the security to be deposited by the holder of the mining claim.
 - (4) Where, in respect of an application for the grant of a mining claim, an amount of security is determined by the Governor in Council pursuant to subsection (2) or by the Land Court pursuant to subsection (3), that amount shall be determined by the Minister as the security pursuant to subsection (1) in respect of that mining claim.
 - (5) In respect of an application for the grant of a mining claim, an amount determined by the Governor in Council shall prevail over an amount determined by the Land Court.
 - (6) A mining claim shall not be granted or renewed until the applicant for the grant or renewal of the mining claim deposits the security as determined under this section.
 - (7) If the Minister is satisfied that any condition of the mining claim or any provision of this Act has not been complied with or that damage referred to in subsection (1)(c) has been caused by any person purporting to act under the authority of the mining claim or who enters land upon the instruction of the holder, the Minister may require that person to take all action necessary to rectify that noncompliance or damage and, save where the person was not the holder and was not upon the land with the holder's approval at the time the damage was caused, may utilise for that purpose the whole or part of the

amount of the security deposited in respect of that mining claim.

- (8) If, at any time (whether during, or within 20 business days after the expiration of the term of a mining claim) the amount or any part of the amount deposited under this section is utilised under subsection (7) or the Minister considers that, in view of the damage caused or likely to be caused by any person purporting to act under the authority of the mining claim or upon the instruction of the holder or for any other reason, a further amount of security should be deposited in respect of that mining claim, the Minister shall require the holder or former holder of the mining claim, within the time specified by the Minister to deposit the further security.
- (9) The Minister may make a requirement referred to in subsection (8) notwithstanding that the amount of the security deposited was originally determined by the Governor in Council or the Land Court.
- (10) The Minister may accept a bond or a guarantee or indemnity by, or other financial arrangement with, a financial institution, insurance company or another credit provider approved by the Minister or other form of security acceptable to the Minister as the whole or part of the security to be deposited under this section.
- (11) It shall be a condition of a mining claim that the holder shall deposit security or further security from time to time in accordance with a requirement made as provided by this section.
- (12) If a mining claim terminates, the Minister may, not earlier than 20 business days after the termination, refund the amount of security held for the mining claim, after deducting any amount used under subsection (7).
- (13) The Minister must refund the amount to the holder of the claim or in accordance with any written direction the holder gives to the Minister.
- (14) However, before refunding the security, the Minister may also deduct the amount the Minister considers appropriate to apply in the following order towards—

[s 84]

- (a) rectifying anything caused by noncompliance with—
 - (i) a condition of the mining claim; or
 - (ii) an order given to the holder by the Minister;
 - (b) amounts (other than penalties) the holder owes to the State under this Act or the conditions of the mining claim (including amounts that became payable before or after the termination of the claim);
 - (c) rates and charges (including interest on unpaid rates and charges) owing to a local government for the mining claim by the former holder.
- (15) Subsection (12) does not limit the Minister's powers under subsection (16).
- (16) If the Minister accepts a bond, guarantee or indemnity by, or another financial arrangement with, a financial institution, insurance company or credit provider as security under this section, any amount payable to the holder must be refunded to the financial institution, insurance company or credit provider and not to the holder of the mining claim to which the security relates.

84 Utilisation of security deposit towards subsequent mining claim

If the holder of a mining claim or an expired mining claim makes application for a further mining claim, the Minister may, instead of refunding the whole or part of the security deposited in respect of the existing or expired mining claim, retain that security or part thereof (together with any further security fixed by the Minister) as the security (in which case it shall be taken to be or to be part of the security) deposited by the applicant in respect of the further mining claim.

85 Compensation to be settled before grant or renewal of mining claim

- (1) A mining claim shall not be granted or renewed unless—

- (a) compensation has been determined (whether by agreement or by determination of the Land Court) between the applicant and each person who is the owner of land the subject of the application and of any surface access to that land; or
 - (b) there is no person (other than the applicant) who is the owner of any of the land referred to in paragraph (a);
and the conditions of the agreement or determination have been or are being complied with by the applicant.
- (2) For the purposes of subsection (1)(a), where the Land Court makes a determination of an amount of compensation, that compensation is not determined until—
- (a) where no appeal against that determination is lodged within the period prescribed therefor—upon the expiration of that period; or
 - (b) where an appeal is duly lodged against that determination—upon the determination of that appeal.
- (3) An agreement made pursuant to subsection (1)(a) shall not be effective unless and until—
- (a) it is in writing signed by or on behalf of the parties; and
 - (b) it is filed.
- (4) If an agreement referred to in subsection (3) is required by any law of Queensland to be stamped, it shall not be filed until it is stamped according to law.

119 Hearing procedures

- (1) In deciding an appeal, the Land Court—
 - (a) is not bound by the rules of evidence; and
 - (b) must observe natural justice.
- (2) An appeal is by way of rehearing.

120 Powers of Land Court on appeal

- (1) In deciding an appeal, the Land Court may—
 - (a) confirm the decision appealed against; or
 - (b) set the decision aside and substitute another decision; or
 - (c) set aside the decision and return the issue to the Minister with directions the Land Court considers appropriate.
- (2) In substituting another decision, the Land Court has the same powers as the Minister.

Example—

The Land Court may decide that an unsuccessful applicant for a mining claim be granted the claim and impose conditions on it.

- (3) If the Land Court substitutes another decision, the substituted decision is, for this Act, taken to be the decision of the Minister.

121 Effect of termination of mining claim

- (1) This section applies on the termination of a mining claim.
- (2) However, this section (other than subsection (3)) does not apply to a mining claim if the termination is for granting a

[s 122]

new mining claim or a mining lease over the same area to the holder of the terminated mining claim.

- (3) The person who was the holder of the terminated mining claim immediately before its termination must immediately remove each post or other thing used to mark the area under this Act (other than a survey mark or anything else required under another Act not to be removed).
- (4) On the termination of a mining claim, the ownership of all mineral and property on the land in the area of the terminated claim divests from the owner and vests in the State.
- (5) However, subsection (4) applies to property only if it was brought on to the area under the terminated claim.

122 Application may be made for approval to remove mineral and property

- (1) This section applies to mineral and property that vests in the State on the termination of a mining claim.
- (2) Anyone who had an interest in the mineral or property immediately before its ownership vests in the State may apply in writing to the chief executive for permission to remove the mineral or property from the land.
- (3) The application—
 - (a) must be made within 20 business days after the mineral or property vests in the State (or a longer period, of not more than 3 months, allowed by the chief executive); and
 - (b) may be made even though a subsequent grant of a mining claim, exploration permit, mineral development licence or mining lease has been made over the land.
- (4) The chief executive may approve or refuse to approve the application.
- (5) However, the chief executive must approve the application if the chief executive is satisfied—

-
- (a) the person was entitled to the mineral or property immediately before it vested in the State; and
 - (b) there is enough security held for the mining claim to meet the costs for which it was deposited.

Note—

For the provision of security, see section 83.

- (6) The approval may be given on conditions stated in it.
- (7) If the application is approved, the person named in the approval may enter the land and remove mineral or property (other than covers, fencing, casings, linings, timbering or other things securing the safety of the land) stated in the application before the time stated in the approval ends.
- (8) Anything removed under subsection (7) divests from the State and vests in the person entitled to it immediately before the termination of the mining claim.
- (9) However, mineral divests from the State and forms part of the land if it is not removed before the later of—
 - (a) the end of the time stated in an approval under this section; or
 - (b) 3 months after the termination of the mining claim.

123 Property remaining on former mining claim may be sold etc.

- (1) This section applies if the chief executive has not received, or has received but not granted, an application for approval to remove property from the area of a terminated mining claim within 3 months after the claim's termination.
- (2) The chief executive may—
 - (a) sell the property by public auction or in another way; or
 - (b) if the property has no commercial value—dispose of or destroy it.
- (3) Proceeds of a sale are to be applied in the following order towards—

[s 124]

- (a) the reasonable expenses incurred in the sale;
 - (b) the cost of rectifying actual damage for which an amount of security deposited for the mining claim could have been used but was not used, or was inadequate;
 - (c) any costs or expenses mentioned in the Environmental Protection Act, section 298;
 - (d) amounts owing to the State under this Act by the former holder;
 - (e) any other amounts owing to the State under the Environmental Protection Act for a relevant environmental authority;
 - (f) rates and charges (including interest on unpaid rates and charges) owing to a local government by the former holder for the mining claim;
 - (g) amounts owing to a mortgagee by the former holder under a mortgage registered under this Act over the mining claim.
- (4) Any balance must be paid to the former holder.
- (5) If the chief executive can not decide the identity of, or locate, a person entitled to the proceeds or a part of the proceeds, the chief executive may pay the amount to the public trustee as unclaimed moneys.
- (6) Compensation is not payable for a sale, disposal or destruction under this section.

124 Approval for prospecting or exploring on reserve subject of mining claim application

- (1) The holder of a prospecting permit or exploration permit who makes application for the grant of a mining claim in respect of land that is a reserve and who is unable to obtain the consent of the owner to prospect or explore on that land for the purposes of obtaining information necessary to further the application may apply to the chief executive for permission to so prospect or explore upon that land.

- (2) The chief executive may reject the application or may recommend to the Minister that, subject to the views of the owner being obtained and taken into account, permission be given to the holder to prospect or explore accordingly.
- (3) Where the Minister gives the holder of a prospecting permit or exploration permit permission pursuant to subsection (2), the holder, for as long as the holder complies with any conditions imposed by the Minister, shall be deemed to have the consent of the owner of the relevant land to be on that land for prospecting or exploring purposes until the application for the grant of the mining claim is determined or the Minister otherwise determines.

125 Variation of access to mining claim area

- (1) The holder of a mining claim may apply to the chief executive in the approved form for a variation of the land used or proposed to be used as access in relation to the area of the mining claim.
- (2) An application for a variation of the land used or proposed to be used as access under this section shall be accompanied by—
 - (a) such particulars as are, by sections 61 and 62, required to accompany an application for the grant of a mining claim in so far as those particulars relate to the land used or proposed to be used as access in relation to the area of the mining claim; and
 - (b) the prescribed application fee.
- (3) Where, in respect of an application for a variation of the land used or proposed to be used as access under this section, the chief executive is not satisfied that the owner of the land proposed to be used as access consents to the use, the chief executive must refer the issue of consent to the Land Court for its consideration.
- (4) The Land Court must fix a date for the hearing and immediately give written notice of the date to each of the following—

[s 125]

- (a) the chief executive;
 - (b) the applicant;
 - (c) the land owner.
- (4A) The date must be at least 20 business days after the day the Land Court fixes the date.
- (5) The Land Court shall hear and determine the matter by determining—
- (a) that consent to the proposed variation should or should not be given; and
 - (b) if consent should be given, the amount (if any) of compensation payable by the holder in respect of the proposed use of that land as access.
- (6) Subject to subsection (7), the provisions of section 85(7) to (11) apply in respect of a matter referred to the Land Court under this section as if the matter were an application referred to the Land Court under section 85(5).
- (7) In determining compensation payable under subsection (5), allowance shall be made for compensation agreed or determined to be payable in respect of the current land used as access in respect of the mining claim.
- (8) The determination of the Land Court of a matter under this section shall be final and conclusive.
- (9) In respect of an application made under this section, upon—
- (a) where the proposed access is over land of which there is an owner—
 - (i) lodgement with the chief executive of the consent in writing of the owner or owners of that land; or
 - (ii) where the Land Court determines that consent should be granted, whether with or without compensation, compliance with any terms and conditions imposed by the Land Court to be complied with before consent is given; and

-
- (b) where the proposed access is over land of which there is no owner, the chief executive determining that the variation is, in the circumstances, appropriate;
- the chief executive shall record the variation of that access in the register and advise the holder and the owner accordingly.
- (10) An agreement made between a holder and an owner of land regarding compensation payable in respect of the proposed use of the land as access in respect of a mining claim as a result of a variation under this section shall not be effective unless and until—
- (a) it is in writing signed by or on behalf of the parties; and
- (b) it is filed.
- (11) If an agreement referred to in subsection (10) is required by any law of Queensland to be stamped, it shall not be filed until it is stamped according to law.

Chapter 4 Exploration permits

Part 1 Preliminary

126 Blocks and sub-blocks of land

- (1) For the purposes of this Act the surface of the earth shall be deemed to be divided into blocks and sub-blocks.
- (2) A block shall be the land contained within 2 meridians 5' of longitude apart each meridian being a multiple of 5' of longitude from the meridian of Greenwich and within 2 parallels of latitude 5' apart each parallel of latitude being a multiple of 5' of latitude from the equator.

[s 127]

- (3) A block shall be divided into 25 sub-blocks each sub-block being bounded by 2 meridians 1' of longitude apart and 2 parallels of latitude and 1' of latitude apart.
- (4) Each block and sub-block shall be identified by a means approved for the time being by the chief executive.

127 Land subject to exploration permit

- (1) An exploration permit authorises entry to sub-blocks of land specified therein.
- (2) Subject to subsection (3), an exploration permit shall be granted in respect of specified sub-blocks of land each sub-block to have at least 1 side in common with another sub-block within the subject land.
- (3) If the Minister, on the information contained in the application for an exploration permit, is satisfied that the program of work proposed in the application can be carried out using competent and efficient mineral exploration practices, an exploration permit may be granted for sub-blocks of land that do not have a common boundary.
- (4) Unless otherwise approved by the Minister either generally or in a particular case, the area of land in respect of which an exploration permit may be granted shall not exceed the area prescribed in respect of the mineral or minerals concerned.

128 Only eligible persons to hold exploration permits

An exploration permit shall not be held by a person who is not an eligible person.

129 Entitlements under exploration permit

- (1) During the term of an exploration permit—
 - (a) the holder of the exploration permit and any person who acts for the purpose of carrying out any activity authorised by the exploration permit, with or by such

vehicles, vessels, machinery and equipment as may be necessary or expedient for the purpose of exploring for any mineral to which the exploration permit applies, may, subject to compliance with schedule 1, enter—

- (i) any part of the area of the exploration permit that is not the surface area of a reserve; and
- (ii) with the consent of the owner, or the consent of the Governor in Council, any part of the area of the exploration permit that is the surface area of a reserve;

for the purposes of facilitating that exploration; and

- (b) the holder of the permit may, subject to compliance with this Act, have considered for grant, in priority to all other persons, an application for the grant of a mining claim, mineral development licence or mining lease for all or part of the area of the permit; and
- (c) the holder of the permit may enter the area of the permit for either or both of the following purposes—
 - (i) doing all acts necessary to comply with this Act for an application mentioned in paragraph (b);

Example for paragraph (c)(i)—

The holder of the permit wishes to apply for the grant of a mining lease for the area of the permit. The holder may enter the area to mark out the boundary of the area under section 240.

- (ii) if the application or EIS relates to an application mentioned in paragraph (b), doing all acts necessary to comply with—
 - (A) an application for an environmental authority under the Environmental Protection Act; or
 - (B) that Act for an EIS; or
 - (C) the *State Development and Public Works Organisation Act 1971* for an EIS.

Example for paragraph (c)(ii)—

[s 129]

The holder of the permit wishes to apply for the grant of a mining lease for the area of the permit. The holder also wishes to apply for an environmental authority for a mining activity that relates to the mining lease under the Environmental Protection Act. The holder may enter the area to carry out an environmental assessment for the environmental authority application under the Environmental Protection Act, section 125(1)(l).

- (2) Notwithstanding subsection (1)(a) the holder of an exploration permit is not required to obtain consent in respect of the entry or being upon land that is a reserve for public road where the entry of or being upon that land is solely as access in respect of the area of the exploration permit.
- (3) An exploration permit authorises a person to enter the surface of restricted land only if—
 - (a) the owner of the land where the relevant permanent building, or relevant feature, is situated consents in writing to entry; and
 - (b) the exploration permit holder gives the consent to the chief executive.
- (4) Consent given pursuant to subsection (3) shall specify the period of the consent and any conditions applicable to the consent and once given that consent can not be withdrawn.
- (5) For the purposes of subsection (1)(a)(ii), the holder of an exploration permit has the consent of an owner of land if that consent in writing has been previously lodged with the chief executive and has not been withdrawn as provided for in subsection (6).
- (6) Consent referred to in subsection (1)(a)(ii) can only be withdrawn by the owner of the relevant land giving notice in writing to the chief executive and shall only be effective when the Minister accepts the withdrawal or, if not accepted, after the holder of the exploration permit has been given the opportunity by the Minister to apply for the consent of the Governor in Council in lieu of the owner's consent—

- (a) if, within the time allowed by the Minister for the holder to do so, the holder does not apply for that consent, that time expires; or
 - (b) if, within the time allowed by the Minister for the holder to do so, the holder applies for that consent, the Governor in Council gives or refuses to give that consent.
- (7) The holder of an exploration permit, and each person who enters or is upon land under the authority of that exploration permit, shall comply with the terms and conditions upon which any consent required to be given under this Act in respect thereof was given by the owner of that land.
- (8) If an owner of land that is a reserve refuses or fails within a reasonable time to give a consent required by subsection (1)(a)(ii) or imposes terms and conditions thereon that the holder of the relevant exploration permit considers to be so harsh as to be unreasonable, the holder of the exploration permit may apply in writing to the Minister who may refuse the application or may recommend to the Governor in Council that consent be given.
- (9) Upon receipt of an application under subsection (6) or (8), the Minister shall seek the views of the owner of the relevant land on the application.
- (10) If the Minister is satisfied that it is unreasonable for an owner of land that is a reserve to refuse to give to the holder of an exploration permit the consent required by subsection (1)(a)(ii), to withdraw consent previously given or to have imposed the terms and conditions upon which that consent was given, the Governor in Council may, upon the recommendation of the Minister—
- (a) subject to such terms and conditions as the Governor in Council thinks appropriate, give that consent in lieu of the consent of the owner; or
 - (b) set aside or vary as the Governor in Council thinks fit the terms and conditions upon which the consent is subject;

[s 130]

whereupon the owner of the land shall, subject to compliance by the holder of the exploration permit with any terms and conditions set by the Governor in Council, be deemed to have given the consent or, as the case may be, have set aside or varied the terms and conditions in accordance with the Governor in Council's determination.

- (11) The Governor in Council may make a determination under subsection (10) whether or not an owner of land makes any submission to the Minister pursuant to subsection (9).
- (12) The chief executive shall notify the holder of an exploration permit and the owner of land that is a reserve of particulars of any relevant determination made by the Governor in Council pursuant to subsection (10) before any entry of that land is made under the authority of the exploration permit except where the entry is in accordance with any consent given by the owner.
- (13) Consent given as required by subsection (1)(a)(ii) may be restricted as to time or to a part only of the land in question.
- (14) The terms and conditions upon which consent required by subsections (1)(a)(ii) and (3) is given shall be deemed to be part of the terms and conditions of the relevant exploration permit.
- (15) For the purpose of exercising his or her entitlements under this part a person who enters or is upon land under the authority of an exploration permit may stay at night thereon and for that purpose may set up temporary accommodation thereon.
- (16) During the term of an exploration permit, the rights of the holder of the permit relate, and are taken to have always related, to the whole of the area of the permit.

130 Exploration permit to specify minerals sought

- (1) Except where subsection (2) is applied, an exploration permit shall be granted in respect of—

- (a) all minerals other than coal; or
 - (b) coal.
- (2) If, in the exceptional circumstances of a particular case, the Minister considers good reason exists therefor, an exploration permit may be granted in respect of the mineral or minerals specified therein.
- (3) Minerals may be specified by indicating other minerals to which the exploration permit does not apply.

Part 2

Obtaining exploration permit for a mineral other than coal

130A Application of pt 2

This part applies to exploration permits for a mineral other than coal.

131 Who may apply

- (1) An eligible person may apply for an exploration permit (the *proposed permit*) other than for a sub-block—
- (a) over which a current exploration permit authorises exploration for a mineral for which the proposed permit is sought; or
 - (b) that has been the subject of an exploration permit (the *earlier permit*) authorising the exploration for a mineral for which the proposed permit is sought and less than 2 months has passed since the end of the month in which the sub-block ceased to be in—
 - (i) the earlier permit's area; or
 - (ii) if the earlier permit has ended—the former earlier permit's area; or

[s 132]

- (c) that is or has been the subject of an earlier exploration permit application if the earlier application was for a mineral for which the proposed permit is sought and—
 - (i) the earlier application has not been decided; or
 - (ii) if the earlier application has been refused or abandoned—less than 2 months has passed since the end of the month in which the earlier application was refused or abandoned.
- (2) However, an application can not be made for an exploration permit for a sub-block the subject of a call for EP (non-coal) tenders.

Note—

See section 136A in relation to calls for EP (non-coal) tenders.

- (3) Despite subsection (1)(a), an eligible person may apply for a proposed permit for a sub-block (the *relevant sub-block*) in the area of a current exploration permit if—
 - (a) the person is the holder of the current exploration permit; and
 - (b) the person purports to surrender the current exploration permit under section 161(1) and the application for the proposed permit relates to land including the relevant sub-block.
- (4) Despite subsection (1)(b), an eligible person may apply for a proposed permit for a sub-block over which the person held an exploration permit the person had surrendered to be granted a further exploration permit for the sub-block.

132 Exclusion of land from area of exploration permit if subject to other authority under Act

- (1) Where, at the time the lodgement of an application for the grant of an exploration permit is accepted, land is the subject of—

-
- (a) a mining claim, mineral development licence or mining lease; or
 - (b) an application for a mining claim, mineral development licence or mining lease;

that land and the surface of that land shall be taken to be excluded from the land specified in the exploration permit—

- (c) in the case of a mining claim, mineral development licence or mining lease referred to in paragraph (a)—for so long as the land remains subject thereto; and
- (d) in the case of an application referred to in paragraph (b)—
 - (i) for so long as the application is not rejected or abandoned; and
 - (ii) if a mining claim, mineral development licence or mining lease is granted, for so long as the land remains subject thereto;

except where the Minister, in exceptional circumstances in the Minister's absolute discretion otherwise determines.

(2) Upon—

- (a) the termination of a mining claim or mining lease granted; or
- (b) the rejection or abandonment of an application for—
 - (i) a mining claim; or
 - (ii) a mineral development licence; or
 - (iii) a mining lease;

in respect of land within the external boundaries of the area of an exploration permit that land shall become part of the area of the exploration permit except—

- (c) to the extent that the land is the subject of a current mining claim, mineral development licence or mining lease or application for a mining claim, mineral development licence or mining lease; or

[s 133]

- (d) in the case of a rejection or abandonment of an application for a mineral development licence where the applicant is not the holder of the exploration permit; or
 - (e) where the exploration permit provides otherwise.
- (3) Land (the *relevant land*) does not, under subsection (2), become part of the land in respect of which an exploration permit is granted if—
- (a) the relevant land is non-exclusive land under the native title provisions; and
 - (b) the exploration permit was granted after 23 December 1996.

133 Application for exploration permit

An application for an exploration permit may be made by an eligible person and shall—

- (a) be in the approved form; and
- (b) specify the name of each applicant; and
- (c) specify the name and address for service of 1 person upon whom any notice may be served on behalf of the applicant or the applicants; and
- (d) identify in the prescribed manner the land in respect of which an exploration permit is sought; and
- (e) specify the mineral or minerals in respect of which the exploration permit is sought; and
- (f) be accompanied by a statement—
 - (i) specifying a description of the program of work proposed to be carried out under the authority of the exploration permit, if granted; and
 - (ii) specifying the estimated human, technical and financial resources proposed to be committed to exploration work during each year of the exploration permit, if granted; and

-
- (iii) detailing exploration data captured by the applicant prior to the application in relation to that land; and
 - (g) be accompanied by—
 - (i) a statement, separate from the statement mentioned in paragraph (g), detailing the applicant’s financial and technical resources; and
 - (ii) if the application relates to land that includes sub-blocks of land that do not have a common boundary—a statement detailing how the work proposed can be carried out using competent and efficient mineral exploration practices; and
 - (iii) if the application relates to an area of land that exceeds the area prescribed for the mineral or minerals—a statement about why the applicant requires more than the prescribed area of land; and
 - (iv) proof of the applicant’s identity; and
 - (v) the application fee prescribed under a regulation.

134 Application to be numbered

An application for an exploration permit shall be numbered as prescribed which number, if the exploration permit is granted, shall become the number of that permit.

134A Priority of applications for grant of exploration permit

- (1) Applications for the grant of exploration permits in respect of the same mineral, duly made in respect of or including the same land take priority, for the purpose of considering and deciding the applications, according to the day on which they are lodged under this Act.
- (2) If applications are lodged on the same day, they take the priority the Minister decides, after considering the relative merits of each application.

[s 135]

- (3) If an application is lodged by mail, courier service or similar means, it is taken to be lodged on the day the application is received at a place that the application may be lodged under section 386O.

135 Abandonment of application for exploration permit

- (1) The applicant for an exploration permit may, at any time before the grant of the exploration permit, by notice in writing to the chief executive abandon the application in relation to all or part of the land to which it relates.
- (2) The abandonment of an application for the grant of an exploration permit shall take effect on the day next following its receipt by the chief executive.
- (2A) If the application is abandoned in relation to part only of the land to which it relates, the application must be amended to identify the area in relation to which the application is to remain in force (the *remaining area*).
- (2B) The remaining area must be identified in the way required under section 133(d).
- (3) Upon the abandonment of an application for an exploration permit, the Minister, at the Minister's discretion, may retain the whole or part of the application fee.

136 Grant of exploration permit on application

- (1) The Minister may, for an application for an exploration permit under this part—
 - (a) grant an exploration permit, with or without conditions;
or
 - (b) refuse the application.
- (2) However, the Minister must not grant an exploration permit unless the Minister is satisfied the prescribed criteria for the grant of the permit are met.

-
- (3) Also, subject to subsection (4), the Minister must not grant an exploration permit for land if all or any part of the land is—
 - (a) in a fossicking area; or
 - (b) subject to an exploration permit for the same mineral.
 - (4) Subsection (3)(a) does not apply if the application for the exploration permit was made, but not decided, before the land became a fossicking area.
 - (5) If the Minister refuses an application for an exploration permit under this part, the Minister may decide whether all or part of the application fee that accompanied the application will be retained.

136A Obtaining exploration permit by competitive tender

- (1) This section applies if the Minister considers it is in the best interests of the State for an exploration permit for a mineral other than coal to be granted for 1 or more sub-blocks by competitive tender.
- (2) The Minister may publish a gazette notice (a *call for EP (non-coal) tenders*) inviting tenders for the exploration permit.
- (3) Part 3, divisions 2 and 3 apply for the call for EP (non-coal) tenders—
 - (a) as if—
 - (i) a reference to a call for EP (coal) tenders were a reference to a call for EP (non-coal) tenders; and
 - (ii) a reference to an exploration permit for coal were a reference to an exploration permit for a mineral other than coal for the sub-blocks the subject of the call; and
 - (b) with any other necessary changes.
- (4) The Minister must not act under subsection (2) for a sub-block that is—

[s 136B]

- (a) in a fossicking area; or
- (b) the subject of an application for an exploration permit for the same mineral.

Part 3 Obtaining exploration permit for coal

Division 1 Preliminary

136B Application and operation of pt 3

- (1) This part—
 - (a) applies to exploration permits for coal; and
 - (b) provides for a process for the granting of exploration permits for coal—
 - (i) generally, by competitive tender; or
 - (ii) to a person who holds 1 or more exploration permits for coal for the same land that are surrendered immediately before the grant of the permit.
- (2) To remove any doubt, it is declared that an exploration permit for coal can only be granted under this part.

Division 2 Competitive tenders

136C Call for tenders

- (1) The Minister may publish a gazette notice (a *call for EP (coal) tenders*) inviting tenders for an exploration permit for coal.

-
- (2) The call must state—
- (a) the proposed area of the permit; and
 - (b) the day and time by which tenders in response to it must be made (the *closing time* for the call); and
 - (c) that the tenders must be lodged before the closing time for the call; and
 - (d) that details about each of the following are available at a stated place—
 - (i) any proposed conditions of the permit that are likely to impact significantly on exploration in the proposed area;
 - (ii) the period of not more than 5 years for which the proposed program of work for the permit must apply;
 - (iii) any criteria (*special criteria*), other than the prescribed criteria, proposed to be used to decide whether to grant the permit, or to decide its provisions;
 - (iv) whether a process for appointing a preferred tenderer involving a cash bid component is to be used for deciding the call.
- (3) The call may state other relevant matters, including, for example, matters relevant to the special criteria and prescribed criteria.
- (4) Subsection (2)(d)(i) does not limit the Minister’s power under section 136K to decide conditions of the exploration permit if it is granted.
- (5) However, the Minister must not act under this section for land if all or any part of the land is—
- (a) in a fossicking area; or
 - (b) the subject of an application for an exploration permit for the same mineral.

[s 136D]

136D Right to tender

- (1) An eligible person may, by a tender made under section 136E, tender for a proposed exploration permit the subject of a call for EP (coal) tenders.
- (2) However, the tender can not be made—
 - (a) after the closing time for the call; or
 - (b) for only part of the area of the proposed exploration permit.

136E Requirements for making tender

A tender for an exploration permit for coal must—

- (a) be in the approved form; and
- (b) be accompanied by a statement—
 - (i) specifying a description of the program of work proposed to be carried out under the authority of the exploration permit, if granted; and
 - (ii) specifying the estimated human, technical and financial resources proposed to be committed to exploration work during each year of the exploration permit, if granted; and
- (c) be accompanied by a statement, separate from the statement mentioned in paragraph (b), detailing the tenderer's financial and technical resources; and
- (d) be accompanied by the following—
 - (i) a statement, separate from the statements mentioned in paragraphs (b) and (c), about how and when the tenderer proposes to consult with, and keep informed, each owner and occupier of private or public land on which authorised activities for the proposed exploration permit are, or are likely to be, carried out;

Note—

See section 140A for obligations about consulting with particular owners and occupiers.

- (ii) proof of the tenderer's identity;
- (iii) the application fee prescribed under a regulation;
- (iv) if a process for appointing a preferred tenderer involving a cash bid component is to be used for deciding the call—the tenderer's cash bid.

136F Right to terminate call for tenders

- (1) The Minister may, by gazette notice, terminate a call for EP (coal) tenders at any time before deciding to grant an exploration permit to an eligible person who has made a tender in response to the call.
- (2) All tenders in response to the call lapse when the call is terminated.
- (3) No amount, whether by way of compensation, reimbursement or otherwise is payable by the State to any person for or in connection with the termination.
- (4) However, subject to sections 136H(4) and 136J(4), the Minister must refund any tender security given by the tenderer.

136G Amendment of tender

- (1) This section provides for the amendments that can be made to a tender in response to a call for EP (coal) tenders.
- (2) A proposed program of work included in the tender may be amended at any time until, but not after, the tenderer has become the preferred tenderer for the call.
- (3) The tender may be amended, other than as provided by subsection (2), at any time until, but not after, the closing time for the call.
- (4) However, subsection (3) does not apply if—

[s 136H]

- (a) the tenderer is a company; and
- (b) the change is only a change of name of the tenderer; and
- (c) the tenderer's Australian company number and Australian registered business name have not changed.

136H Withdrawal of tender

- (1) A person who has lodged a tender in response to a call for EP (coal) tenders may lodge a notice withdrawing the tender at any time before the relevant exploration permit is granted.
- (2) The withdrawal takes effect when the notice is lodged.
- (3) If the preferred tenderer's tender is withdrawn under this section, the withdrawal does not affect the Minister's power to appoint another tenderer, from the tenders made in response to the call, to be the preferred tenderer.
- (4) If a tender is withdrawn under this section, the Minister may, if the Minister considers it reasonable in the circumstances, retain the whole or part of any tender security given by the tenderer.

Division 3 Deciding tenders

136I Process for deciding tenders

- (1) Subject to section 136K(2) and (3), any process the Minister considers appropriate may be used to decide a call for EP (coal) tenders, including, for example—
 - (a) a process appointing a preferred tenderer on the tenders made in response to the call (whether or not involving a cash bid component); or
 - (b) a process involving short-listing a group of possible preferred tenderers and inviting them to engage in another round of tendering before appointing a preferred tenderer from that group.

-
- (2) Without limiting subsection (1), the Minister may give a tenderer a notice requiring the tenderer to give the Minister, within the reasonable period stated in the notice, information the Minister reasonably requires to assess the tender.

136J Provisions for preferred tenderers

- (1) The Minister may require a preferred tenderer for the call for EP (coal) tenders to—
- (a) pay any amounts necessarily incurred, or to be incurred, to enable the exploration permit to be granted; and
- Example—*
amounts required to comply with the Commonwealth Native Title Act, part 2, division 3, subdivision P
- (b) do all or any of the following within a stated reasonable period—
- (i) pay the rental for the first year of the term of the permit under section 138;
- (ii) give, under section 144, security for the permit.
- (2) If a preferred tenderer does not—
- (a) comply with a requirement under subsection (1); or
- (b) do all things reasonably necessary to allow an exploration permit for coal to be granted to the tenderer;
- the Minister may revoke the tenderer's appointment as the preferred tenderer.
- (3) However, before acting under subsection (2), the Minister must give the preferred tenderer a reasonable opportunity to provide reasons for, and rectify, the tenderer's failure to comply with a requirement under subsection (1) or (2)(b).
- (4) If the Minister revokes the appointment of the tenderer as the preferred tenderer under this section, the Minister may—

[s 136K]

- (a) retain the whole or part of any tender security given by the tenderer, if the Minister considers it reasonable in the circumstances; and
- (b) appoint another tenderer to be the preferred tenderer.

136K Deciding whether to grant exploration permit

- (1) The Minister may, after the closing time for the call for EP (coal) tenders—
 - (a) grant an exploration permit for coal to 1 tenderer, with or without conditions; or
 - (b) refuse to grant any exploration permit for coal.
- (2) However, the Minister must not grant the exploration permit unless the Minister is satisfied the prescribed criteria for the grant of the permit are met.
- (3) Also, in deciding whether to grant an exploration permit or deciding its provisions, the Minister must consider any special criteria for the call.

136L Notice to unsuccessful tenderers

- (1) After a call for EP (coal) tenders has been decided, each tenderer not granted the exploration permit must be given notice of the decision.

Note—

See also the *Judicial Review Act 1991*, section 32 (Request for statement of reasons).

- (2) Subject to sections 136H(4) and 136J(4), the Minister must refund any tender security given by the tenderer.

Division 4 Obtaining exploration permit following surrender

136M Application for exploration permit for surrendered exploration permits

- (1) This section applies if the holder of an exploration permit for coal intends to surrender the permit.
- (2) The holder may apply for a new exploration permit for the whole or part of the area of the exploration permit to be surrendered.
- (3) The application must be made in the same way an application for an exploration permit is made under section 133.
- (4) The Minister may give the applicant a notice requiring the applicant to give the Minister information the Minister reasonably requires to assess the application.
- (5) If the information is not given to the Minister within the reasonable period stated in the notice, the Minister may refuse the application.
- (6) An application for an exploration permit under this section must be numbered in the way prescribed under a regulation and the number, if the permit is granted, must become the number of that permit.

136N Grant of exploration permit for surrendered exploration permits

- (1) The Minister may, for an application for an exploration permit under section 136M—
 - (a) grant the exploration permit, with or without conditions;
or
 - (b) refuse the application.
- (2) However, the Minister must not grant an exploration permit under this section unless the Minister is satisfied the prescribed criteria for the grant of the permit are met.

[s 137]

- (3) Also, subject to subsection (4), the Minister must not grant an exploration permit for land if all or any part of the land is in a fossicking area.
- (4) Subsection (3) does not apply if the application for the exploration permit was made, but not decided, before the land became a fossicking area.
- (5) If the Minister refuses the application, the Minister may decide whether all or part of the application fee that accompanied the application will be retained.

Part 4 Other provisions about exploration permits

137 Prescribed criteria for grant of exploration permit

- (1) This section states the criteria (*prescribed criteria*) for the grant of an exploration permit under part 2 or 3.
- (2) The criteria are as follows—
 - (a) the requirements of this Act have been complied with;
 - (b) the applicant is an eligible person;
 - (c) the applicant has paid rental for the first year of the term of the exploration permit under section 138;
 - (d) the Minister has, under subsection (3), approved the program of work that accompanied the application for the exploration permit;
 - (e) the Minister is satisfied the applicant is not disqualified, under subsection (4), from being granted the permit.

Notes—

- 1 Under section 144, an exploration permit can not be granted until the applicant has deposited security decided under that section.
- 2 If the application relates to acquired land, see also section 10AAC.

-
- (3) In deciding whether to approve the program of work, the Minister must have regard to the following matters—
- (a) the extent of the proposed activities in the proposed area of the exploration permit;
 - (b) when and where the applicant proposes to carry out exploration activities in the proposed area of the exploration permit;
 - (c) whether the applicant has the financial and technical capability for carrying out the work.
- (4) An applicant is disqualified from being granted an exploration permit if—
- (a) the Minister reasonably believes the applicant has, at any time, contravened a provision of this Act, the repealed Acts or other mining legislation (whether or not the applicant has been charged or convicted of an offence for the contravention); or
 - (b) the applicant is a company and the Minister reasonably believes an officer or employee of the company, or another person who in the Minister's opinion is in a position to control or influence substantially the company's affairs, has, at any time, contravened a provision of this Act, the repealed Acts or other mining legislation (whether or not the officer, employee or person, or the company, has been charged or convicted of an offence for the contravention).

137A Content of exploration permit

An exploration permit granted by the Minister must be in the approved form and state the following information—

- (a) the identification number of the permit;
- (b) the name of the holder;
- (c) the address for service of notices on the holder;
- (d) the description of land for which the permit is granted;

[s 138]

- (e) the term and date of commencement of the permit;
- (f) the conditions, other than conditions prescribed by this Act, to which the permit is subject;
- (g) the minerals the subject of the permit;
- (h) the programs of works and studies to be carried out under the permit.

138 Rental payable on exploration permit

- (1) Rental for the first year of the term of an exploration permit (its *first rental period*) is payable before the granting of the permit under part 2 or 3 (the *original permit*).
- (2) On the renewal of an exploration permit, rental is payable—
 - (a) for the first year of the term of the renewed permit; and
 - (b) within 20 business days after the renewal is granted.
- (3) For each year an exploration permit is in force, rental for the whole year (other than its first rental period) is payable on or before the anniversary of—
 - (a) for an original permit—the grant of the permit; or
 - (b) for a renewed permit—the day the term of the renewed permit started.

Note—

For when the term of a renewed permit starts, see section 147D.

- (4) The amount of the rental payable for each year is calculated by multiplying the number of sub-blocks to which the permit applies by the amount prescribed under a regulation for the year.

139 Periodic reduction in area of exploration permit

- (1) Unless the Minister otherwise decides, whether before the grant of an exploration permit or during its term the area of the permit must be reduced—

-
- (a) by 40% by the end of the first 3 years after the permit is granted; and
 - (b) by a further 50% of the remaining area of the permit by the end of the first 5 years after the permit is granted; and
 - (c) each time the permit is renewed—
 - (i) by a further 40% of the remaining area of the permit by the end of the first 3 years after the day the renewed permit started; and
 - (ii) by a further 50% of the remaining area of the permit by the end of the first 5 years after the day the renewed permit started.

Note—

See section 147D.

- (2) The area remaining after the reduction must consist of whole sub-blocks.

Note—

See, however, section 10AAB(3) if land in the exploration permit is taken under a resumption law.

- (3) If the Minister so directs on reasonable grounds, the reduction of the area of a particular exploration permit may be more or less than that prescribed by subsection (1).
- (4) At least 20 business days (or such shorter period as the Minister in the particular case allows) prior to the date when, pursuant to subsection (1), the area of an exploration permit is to be reduced, the holder of the permit shall make a submission to the chief executive identifying the sub-blocks of land to which the holder desires the exploration permit to apply after that reduction.

Note—

For other relevant provisions about making a submission, see section 386O.

- (5) If a submission made in accordance with subsection (4) proposes a reduction of the area of the exploration permit and

[s 140]

the reduction complies with subsection (1), then on and from the date when the area is to be reduced, the exploration permit shall apply only in respect of the land specified in the submission.

- (6) If a submission that is made for the purposes of subsection (4) is not made in accordance with subsection (4) or does not comply with subsection (1), then the Minister may determine as the Minister considers reasonable that an exploration permit shall apply on and from the date of the Minister's determination or the date when pursuant to subsection (1) the reduction should take effect, whichever is the later in respect of land specified in the Minister's determination, and on and from that date the exploration permit shall apply only in respect of that land.
- (7) If the holder of an exploration permit fails to make a submission in accordance with subsection (4) the Minister may proceed as provided in subsection (6) or may cancel the exploration permit.
- (8) Compensation is not payable for a reduction in the area of an exploration permit under this section.

140 Voluntary reduction in area of exploration permit

- (1) In addition to the requirement under section 139 to reduce the area of an exploration permit, the holder of the permit may, at any time during its term, make a submission to the chief executive—
 - (a) voluntarily reducing the area of the permit; and
 - (b) identifying the sub-blocks of land to which the holder no longer wants the permit to apply.
- (2) The area remaining after the reduction must consist of whole sub-blocks.

Note—

See, however, section 10AAB(3) if land in the exploration permit is taken under a resumption law.

-
- (3) The Minister may approve the reduction, with or without conditions, or refuse the reduction.
 - (4) If the Minister approves the reduction, the Minister must give the holder a written notice stating—
 - (a) the reduction is approved; and
 - (b) the date of the approval; and
 - (c) if the Minister decides to approve the reduction on conditions—the conditions and reasons for the decision.
 - (5) If the Minister refuses the reduction, the Minister must give the holder a written notice stating the reasons for the decision.
 - (6) The reduction takes effect on the date it is approved.
 - (7) Compensation is not payable for the reduction.

140A Obligation to consult with particular owners and occupiers

- (1) An exploration permit holder must consult or use reasonable endeavours to consult with each owner and occupier of private or public land on which authorised activities for the permit are proposed to be carried out or are being carried out.
- (2) The consultation must be about—
 - (a) access; and
 - (b) the carrying out of authorised activities for the exploration permit (including, for example, crossing access land for the permit) to the extent they relate to the owners and occupiers; and
 - (c) the exploration permit holder's compensation liability to the owners or occupiers.

Note—

For the holder's compensation liability, see schedule 1, section 13(2).

141 Conditions of exploration permit

- (1) Each exploration permit shall be subject to—
 - (aa) a condition that the holder must—
 - (i) comply with the mandatory provisions of the land access code and the small scale mining code to the extent the codes apply to the holder; and
 - (ii) ensure any other person carrying out an authorised activity for the exploration permit complies with the mandatory provisions of the land access code and the small scale mining code; and
 - (a) a condition that the holder shall carry out such programs of work and such studies for the purposes for which the exploration permit was granted and in accordance with this Act and the conditions of the exploration permit and for no other purpose; and
 - (b) a condition that the holder must carry out improvement restoration for the exploration permit; and
 - (c) a condition that the holder prior to the termination for whatever cause of the exploration permit shall remove all equipment and plant on or in the area of the exploration permit unless otherwise authorised by the Minister; and
 - (d) a condition that without the prior approval in writing of the Minister the holder shall not obstruct or interfere with any right of access had at any time during the term of the exploration permit by any person in respect of the area of the exploration permit for so long as that right of access is exercised; and
 - (e) a condition that the holder must give the following reports to the Minister, in the way and containing the information prescribed under a regulation—
 - (i) an annual report, given each year during the term of the exploration permit, within 1 month after

each anniversary of the day the exploration permit takes effect;

- (ii) a report about a reduction in the area of the exploration permit, given within 2 months after the reduction takes effect;
 - (iii) a report summarising the results of exploration for the whole of the term of the exploration permit, given within 2 months after the exploration permit ends; and
- (f) a condition that the holder must, when the Minister directs, give to the Minister a report—
- (i) about the exploration permit, that is in addition to any report mentioned in paragraph (f); and
 - (ii) about materials obtained because of the holder's activities under the exploration permit; and

Note—

For other relevant provisions about giving a document to the Minister, see section 386O.

- (g) a condition that the holder—
- (i) shall pay the rental as prescribed; and
 - (ii) shall deposit as required by the Minister any security from time to time under this Act; and
- (h) a condition that the holder shall comply with this Act and other mining legislation; and
- (i) such other conditions as are prescribed; and
 - (j) such other conditions as are determined by the Minister.
- (4) The holder of an exploration permit and all persons acting under the authority of the permit shall comply with the conditions for the time being of the permit.
- (5) Conditions may be imposed in respect of an exploration permit that require compliance with specified codes.

[s 141AA]

- (6) Despite subsections (1) and (5), a condition must not be determined, imposed, prescribed or varied if the condition, or the condition as varied, is the same, or substantially the same, or inconsistent with, a relevant environmental condition for the exploration permit.

141AA Additional conditions of exploration permit relating to native title

- (1) Conditions determined for an exploration permit by the Minister under section 141(1)(j) may include native title protection conditions for the permit.
- (2) Subsection (1) does not limit section 141(1)(j).
- (3) In this section—

native title protection conditions, for an exploration permit, means conditions that—

- (a) are about ways of minimising the impact of the permit on native title in relation to the land affected by the permit, including ways of accessing the land and ways anything authorised under the permit may be done; and
- (b) are identified in the permit as native title protection conditions for the permit.

141A Consultation and negotiated agreement conditions

- (1) This section applies if—
 - (a) a negotiated agreement under schedule 1A, part 6, division 4, provides for the grant, renewal or variation of, or another act concerning, an exploration permit; and
 - (b) the agreement includes conditions to be complied with by 1 or more of the parties to the agreement; and
 - (c) the Minister consents to the exploration permit being subject to 1 or more of the conditions (the *consent conditions*); and

- (d) the act is done.
- (2) The exploration permit is subject to the consent conditions.

141B Other agreement conditions

- (1) This section applies if—
 - (a) a registered indigenous land use agreement under the Commonwealth Native Title Act, or an agreement mentioned in section 31(1)(b) of the Commonwealth Native Title Act, provides for the grant, renewal or variation of, or another act concerning, an exploration permit; and
 - (b) the State is a party to the agreement; and
 - (c) the agreement includes a requirement that, if the act is done, the exploration permit must be subject to conditions stated in the agreement (the *stated conditions*); and
 - (d) the act is done.
- (2) The exploration permit is subject to the stated conditions.

141C Application to vary conditions of existing permit

- (1) The holder of an exploration permit (the *existing permit*) may apply to the Minister for a variation of the conditions of the existing permit.
- (2) The provisions of this chapter apply, with necessary changes, to an application under subsection (1) as if it were an application under section 133.
- (3) Without limiting subsection (2), in deciding the application, the Minister may—
 - (a) vary the conditions of the existing permit by imposing conditions under section 141(1)(j) in addition to any conditions that apply under the existing permit; and

[s 144]

- (b) fix an amount of security to be deposited under section 144 in addition to any security for the existing permit.
- (4) Subsections (2) and (3) apply in relation to an exploration permit for coal despite section 130A.
- (5) On the granting of the application, the varied conditions, including imposed conditions mentioned in subsection (3)(a), are included in the existing permit.

144 Provision of security

- (1) Before an exploration permit is granted or renewed or a condition of the permit is varied, the Minister, taking into consideration the program of work, or activities, proposed to be carried out under the permit, must determine the amount of the security to be deposited by the holder of that permit as reasonable security for—
 - (a) compliance with the conditions of the exploration permit; and
 - (b) compliance with the provisions of this Act; and
 - (c) rectification of any actual damage that may be caused by any person whilst purporting to act under the authority of the exploration permit to pre-existing improvements for the exploration permit; and
 - (d) amounts (other than penalties) payable to the State under this Act.
- (2) A person who holds more than 1 exploration permit may elect to deposit a single amount of security for all exploration permits held by the person.
- (3) The Minister is to decide the amount of security to be deposited under subsection (2).
- (4) An exploration permit must not be granted or renewed, and a condition of an exploration permit must not be varied, until the applicant for the grant, renewal or variation deposits the security decided under this section.

-
- (5) If the Minister is satisfied—
- (a) a condition of an exploration permit has not been complied with; or
 - (b) a provision of this Act has not been complied with in relation to an exploration permit; or
 - (c) someone claiming to act under an exploration permit, or to have entered land on the permit holder's instructions, caused damage mentioned in subsection (1)(c);
- the Minister may require the permit holder to take the steps necessary to stop the noncompliance or repair the damage.
- (6) Also, the Minister may use any of the security deposited by the holder to stop the noncompliance or repair the damage.
- (7) Subsections (5) and (6) do not apply if the holder satisfies the Minister that the person responsible for the noncompliance or damage was not on the land with the holder's approval or on the holder's instructions when the noncompliance or damage happened.
- (8) If, at any time (whether during or within 20 business days after the expiration of the term of an exploration permit) the amount or any part of the amount deposited under this section is utilised as provided by subsection (5) or (6) or the Minister considers that, in view of the damage caused or likely to be caused by any person purporting to act under the authority of the exploration permit or upon the instruction of the holder or for any other reason, a further amount of security should be deposited in respect of that exploration permit, the Minister shall require the holder or former holder of the exploration permit, within the time specified by the Minister, to deposit the further specified security.
- (9) The Minister may accept a bond or a guarantee or indemnity by, or other financial arrangement with, a financial institution, insurance company or another credit provider approved by the Minister or other form of security acceptable to the Minister as the whole or part of the security to be deposited under this section.

[s 144]

- (10) It shall be a condition of an exploration permit that the holder shall deposit security or further security from time to time in accordance with a requirement made as provided by this section.
- (11) Subject to subsections (13) and (14), if an exploration permit terminates, the Minister may, not earlier than 6 months after the termination, refund to the permit holder the amount of security deposited for the permit and not used after deducting the amounts the Minister considers should be kept towards—
 - (a) remedying anything caused by noncompliance with the conditions of the permit or an order or direction given by the Minister to the permit holder; and
 - (b) amounts (other than penalties) the holder owes to the State under this Act (whether they become owing before or after the termination).
- (12) If the Minister accepts a bond, guarantee or indemnity by, or another financial arrangement with, a financial institution, insurance company or credit provider as security under this section, any amount payable to the holder under subsection (11) must be refunded to the financial institution, insurance company or credit provider and not to the holder of the exploration permit to which the security relates.
- (13) Subsection (11) does not apply to a person who elects to deposit security for all exploration permits held by the person if the person continues to hold an exploration permit for which the security is held.
- (14) However, the Minister may, at the person's written request, reduce the amount of security held for the person's exploration permits to an amount decided by the Minister.
- (15) If the security deposited was money, an amount equal to the reduction is to be refunded to the person or in accordance with any written direction the holder gives to the chief executive.

146 Initial term of exploration permit

- (1) Unless the Minister in the particular case otherwise determines the initial term of an exploration permit shall, unless the permit is sooner surrendered or cancelled, be for a period not exceeding 5 years commencing on the date specified in the permit (being a date not earlier than the date of grant of the permit).
- (2) However, the initial term of an exploration permit granted in response to a call for EP (coal) tenders or EP (non-coal tenders) must be for the required period for the proposed program of work for the permit.
- (3) In this section—

required period, for the proposed program of work for an exploration permit granted in response to a call for EP (coal) tenders or EP (non-coal tenders), means the period that the call states is the period for which the program must apply.

147 Application for renewal of exploration permit

- (1) The holder of an exploration permit may, within the renewal period, apply to the chief executive for a renewal of the permit.
- (2) The application must be—
 - (a) made in the approved form; and
 - (b) accompanied by the fee prescribed under a regulation; and
 - (c) accompanied by a statement—
 - (i) describing the program of work proposed to be carried out under the authority of the exploration permit, if renewed; and
 - (ii) detailing the estimated human, technical and financial resources to be used to carry out the exploration work during each year of the term of the exploration permit, if renewed; and

[s 147A]

(iii) detailing the applicant's financial and technical resources for carrying out the exploration work.

(3) In this section—

renewal period means the period that is—

- (a) at least 3 months, or any shorter period allowed by the Minister in the particular case, before the current term of the permit expires; and
- (b) not more than 6 months before the current term expires.

147A Decision on application

(1) The Minister may renew an exploration permit if the Minister is satisfied of each of the following—

- (a) the holder of the permit has—
 - (i) observed and performed all the covenants and conditions applying to the permit and required to be observed and performed by the holder; and
 - (ii) complied with this Act in relation to the permit;
- (b) the activities proposed to be carried out during the renewed term are appropriate and acceptable;
- (c) the financial and technical resources available to the holder to carry out the proposed activities during the renewed term are appropriate;
- (d) the public interest will not be adversely affected by the renewal.

(2) The renewal may be granted for the further term of not more than 5 years decided by the Minister.

(3) The renewed permit is subject to—

- (a) any conditions prescribed under a regulation; and
- (b) any conditions decided by the Minister.

(4) The Minister may refuse to renew the permit if the Minister—

-
- (a) has served on the holder a notice in the approved form asking the holder to show cause, within the period stated in the notice, why the renewal should not be refused; and
 - (b) after considering the holder's response, is satisfied the renewal should be refused.
- (5) As soon as practicable after deciding the application for the renewal, the Minister must give the holder a written notice stating—
- (a) the decision; and
 - (b) if the decision is to grant the renewal on conditions, or to refuse the renewal, the reasons for the decision.

147C Continuation of permit while application being dealt with

- (1) This section applies to an application for renewal of an exploration permit if—
 - (a) the application is not withdrawn, refused or granted before the permit's expiry day ends; and
 - (b) after the expiry day, the holder—
 - (i) continues to pay rental on the permit and other amounts required to be paid under this Act; and
 - (ii) otherwise complies with this Act and the permit conditions.
- (2) If the application is a properly made application, the permit continues in force subject to the rights, entitlements and obligations in effect immediately before the end of the expiry day until the application is withdrawn, refused or granted.
- (3) If the application is an outstanding request application, the permit continues in force subject to the rights, entitlements and obligations in effect immediately before the end of the expiry day until either of the following days, whichever happens first—
 - (a) the application is withdrawn;

[s 147D]

- (b) the period in which the action that must be taken under section 386K(1) ends.
- (4) In this section—
- outstanding request application*, for renewal of an exploration permit, means an application—
- (a) that complies with section 147(2)(a) and (b), but does not comply with all or part of section 147(2)(c); and
 - (b) for which—
 - (i) the chief executive has given a notice under section 386J(1); and
 - (ii) the period to comply with the notice under section 386K(1) ends after the permit expiry day; and
 - (iii) the notice has not been complied with.

properly made application, for renewal of an exploration permit, means an application that complies with all of section 147(2).

147D When term of renewed permit starts

- (1) If an exploration permit is renewed before its expiry day ends, the term of the renewed permit starts on the day after the expiry day.
- (2) If the permit is renewed after the expiry day, the term of the renewed permit is taken to have started on the day after the expiry day.

147E When new conditions of renewed permit start

- (1) If a renewed exploration permit is subject to conditions (the *new conditions*) different from, or not included in, the permit conditions applying immediately before its renewal, the new conditions apply from the later of the following—
 - (a) the start of the term of the renewed permit;

-
- (b) the day the renewal is granted.
- (2) However, if the permit is continued in force under section 147C, the holder must pay rental on the permit from the day after its expiry day at the rate that would have been payable, from time to time, if the renewed exploration permit had been renewed on the day after the expiry day.
- (3) Subsection (2) applies even though payment of rental may be a condition of the permit.
- (4) If the application for renewal of the permit is withdrawn or is refused, the chief executive must refund the overpaid rental to the applicant.
- (5) In this section—

overpaid rental means the annual rental overpaid because of the withdrawal or refusal, worked out proportionately for the whole months remaining after the withdrawal or refusal until the end of the year for which the rental was paid.

147F Renewal of permit must be in name of last recorded transferee

- (1) This section applies if a transfer of an exploration permit is registered under section 318AAT—
- (a) after the date on which an application for renewal of the permit is made; and
- (b) before the application is decided by the Minister.
- (2) Any renewal granted on the application must be in the name of the transferee under the last transfer registered before the grant of the renewal.

148 Rights and obligations upon application for mining claim, mining lease or mineral development licence

- (1) The holder of an exploration permit who, during the term of the exploration permit, makes application for the grant of—
- (a) a mining claim; or

[s 149]

- (b) a mining lease; or
- (c) a mineral development licence;

in respect of any part of the area of the exploration permit, shall, during the period from the expiration of the exploration permit until the determination of the application, for so long as the provisions of this Act and the terms and conditions that would apply if the permit were current are complied with, have all the responsibilities, powers, authorities and duties that the holder would have had in respect of the land the subject of the application if the exploration permit was current but during that period no rental shall be payable under this part in respect of any whole sub-blocks of land the subject of the application.

- (2) The entitlements of the holder of an exploration permit are not reduced or limited by reason only of the holder's application for the grant of a mining claim, mining lease or mineral development licence in respect of any part of the area of the exploration permit.

149 Correction of instrument of exploration permit

If, at any time, the Minister is of the opinion that the instrument of an exploration permit should be corrected by reason that—

- (a) facts have appeared or been established since the grant of the exploration permit justifying a correction of the instrument to more accurately reflect the holder's entitlements under the permit; or
- (b) the instrument is defective owing to error in its preparation;

the Minister may correct the instrument and shall record details thereof in the register of exploration permits kept by the chief executive and endorse the instrument which shall take effect accordingly.

150 Replacement of instrument of exploration permit

- (1) Where the Minister is satisfied that the instrument of an exploration permit should be cancelled and a replacement instrument issued in its place, the Minister shall cancel the instrument and cause a replacement instrument to be issued in its place.
- (2) A replacement instrument of an exploration permit issued under this section—
 - (a) shall be the instrument in place of the instrument previously issued and cancelled under this section which lastmentioned instrument shall, upon the issue of the fresh instrument, cease to be of any force or effect; and
 - (b) may bear a form of endorsement which briefly traces the devolution of the permit from the original holder of the exploration permit to the person appearing as holder thereof at the time the replacement instrument is issued; and
 - (c) shall be delivered to the person who appears to the Minister to be lawfully entitled to possession thereof.
- (3) The chief executive shall cause the instrument so cancelled to be suitably endorsed and a suitable recording made in the register kept by the chief executive that a replacement instrument has been issued in its place.
- (4) The cancelled instrument shall be retained by the chief executive.

160 Contravention by holder of exploration permit

- (1) If the Minister considers that the holder of an exploration permit—
 - (a) has carried out activities that are not bona fide for the purposes for which the exploration permit was granted; or

[s 160]

- (b) has failed to pay any moneys (other than rental) payable thereunder or in respect thereof by the due date for payment; or
- (c) has failed to comply with any condition that is to be observed and performed by the holder under or in respect of the exploration permit, other than a condition with respect to matters referred to in subsection (2)(a) or (b); or
- (d) has failed to report to the Minister upon the discovery of any mineral as required by section 176;

the Minister may—

- (e) cancel the exploration permit; or
 - (f) impose on the holder a penalty not exceeding 500 penalty units.
- (2) If the Minister considers that the holder of an exploration permit—
- (a) has failed to pay the rental payable thereunder by the date due for payment; or
 - (b) has failed to pay a penalty imposed on the holder pursuant to subsection (1)(f) within the time allowed for the payment by the Minister;

the Minister may cancel the exploration permit and shall notify the holder of the exploration permit and every person who currently holds a recorded interest in respect of the exploration permit accordingly.

- (3) The Minister shall not act pursuant to subsection (1) until the Minister has, by notice in writing in the approved form served on the holder of the exploration permit, called upon the holder to show cause within the time specified therein why the exploration permit should not be cancelled or a penalty imposed and served a copy of the notice on every person who currently holds a recorded interest in the exploration permit and such cause has not been shown to the satisfaction of the Minister.

- (4) When the Minister pursuant to this section cancels an exploration permit the Minister shall notify the holder and every person who holds a recorded interest in the exploration permit accordingly.
- (5) For the purposes of this section a recorded interest in an exploration permit does not include an associated agreement recorded in the register under chapter 7, part 2.

161 Surrender of exploration permit

- (1) The holder of an exploration permit may, by notice in writing to the chief executive, surrender the permit.
- (3) A surrender of an exploration permit shall take effect on the day next following its acceptance by the Minister except in respect of sub-blocks the subject of an application for a new exploration permit made under subsection (4).
- (4) Where, at the time when the holder of an exploration permit purports to surrender the permit, the holder duly makes application for a new exploration permit in respect of the whole or part of the area of the exploration permit to be surrendered, the purported surrender shall take effect immediately prior to the grant of the new exploration permit.
- (5) The Minister may accept a surrender of an exploration permit only if the Minister is satisfied—
 - (a) the holder has complied with the condition to carry out improvement restoration for the permit; and
 - (b) any relevant environmental authority has been cancelled or surrendered under the Environmental Protection Act.
- (6) If the Minister is not satisfied the holder has complied with the condition, the Minister may, by written notice, give the holder reasonable directions about carrying out improvement restoration for the exploration permit.
- (7) The holder must comply with the directions.

Maximum penalty for subsection (7)—200 penalty units.

[s 162]

162 Adjustment of rental etc. upon surrender etc. of exploration permit

- (1) Upon a surrender of an exploration permit or the reduction in the area of the permit such adjustments as the Minister approves shall be made with respect to the rental payable under the exploration permit and security deposited and to the terms and conditions of the permit.
- (2) Any moneys payable to the Crown under the adjustments approved by the Minister pursuant to subsection (1) which have not been recovered by utilisation of the security deposit may be recovered as a debt due and owing to the Crown by action in the Land Court.
- (3) In an action under subsection (2) for recovery of a debt due to the Crown, the production to the Land Court of a certificate by the chief executive certifying the amount of that debt shall be evidence and, in the absence of evidence to the contrary, conclusive evidence of the debt and the amount thereof.

163 Access and compensation provisions—sch 1

Schedule 1 contains provisions about access, compensation and related matters for exploration permits.

166 Improvement restoration for exploration permit

- (1) This section applies on the termination of an exploration permit, other than—
 - (a) by surrender under section 161; or
 - (b) for the granting of a new exploration permit, a mining claim, a mineral development licence or a mining lease over the area of the terminated permit.
- (2) If the Minister is not satisfied the holder has satisfactorily complied with the condition to carry out improvement restoration for the exploration permit, the Minister may, by written notice, give the holder reasonable directions about carrying out the restoration.

-
- (3) The holder must comply with the directions.
Maximum penalty—200 penalty units.
 - (4) The holder and the holder's employees or agents may, to the extent reasonable and necessary to comply with the directions—
 - (a) enter land stated in the notice; and
 - (b) bring on to the land vehicles, vessels, machinery and equipment.

167 Production of exploration permit

- (1) A person purporting to be upon land under the authority of an exploration permit shall upon demand made by the owner of that land, an agent of the owner or a person authorised in that behalf by the Minister for proof of the person's authority for being on the land, produce or cause to be produced to the person making the demand the exploration permit or a written authorisation in a form acceptable to the Minister from the holder of the exploration permit authorising the person to enter or be upon that land for exploration purposes.
- (2) For so long as a person fails to comply with a demand lawfully made of the person under subsection (1) the person does not have any of the entitlements under this chapter.
- (3) This section does not apply to prevent a person entering land for the purpose of delivering goods or substances or providing services ancillary to the purpose for which an exploration permit is granted to a person who is lawfully on that land under this chapter.

168 Utilisation of security deposit towards subsequent exploration permit

Where the holder of an exploration permit makes application for a further exploration permit, the Minister, if satisfied that the whole or part of the security deposited in respect of the existing permit is or will be refundable under section 144,

[s 175]

notwithstanding that the period of 6 months after the termination of that permit may not have elapsed, may retain that security or part thereof (together with any further security fixed by the Minister) as the security (in which case it shall be taken to be or to be part of the security) deposited by the applicant in respect of the application for the further exploration permit and not refund that amount to the holder.

175 Chief executive may recommend action to ease concerns or other action

- (1) If the chief executive considers an exploration permit holder should take action to ease concerns of an owner of land or another exploration permit holder, or should take some other action, the chief executive may recommend the action to the Minister.
- (2) The Minister may give the exploration permit holder the directions the Minister considers appropriate about the recommended action.
- (3) A failure by the holder to comply with the Minister's directions is taken to be a breach of a condition of the exploration permit.
- (4) If the Minister gives a direction under subsection (2), the chief executive must give a copy to—
 - (a) if the recommended action under subsection (1) relates only to native title protection conditions under section 141AA—any person identified in the conditions as a native title party; or
 - (b) if the recommended action under subsection (1) relates only partly to the native title protection conditions—
 - (i) any person identified in the conditions as a native title party; and
 - (ii) the owner of the land; or
 - (c) otherwise—the owner of the land.

-
- (5) If the recommended action under subsection (1) is action to ease concerns of an owner of land or another exploration permit holder, the chief executive must give the land's owner and the exploration permit holder written notice of—
- (a) the substance of any recommendation made to the Minister under subsection (1) or, if the chief executive decides not to make a recommendation, the chief executive's decision; and
 - (b) any other action the chief executive has taken to ease the concerns of the owner or exploration permit holder.

176 Discovery of minerals to be reported

- (1) The holder of an exploration permit shall, within 14 days after discovery of any mineral of commercial value in what appears to be payable quantities within the area specified in the exploration permit by any person acting under the authority of the exploration permit, report to the Minister the fact of that discovery and such other particulars as the Minister requires.
- (2) The Minister may direct the holder of an exploration permit to apply for a mining claim, mineral development licence or mining lease over all or part of the land specified in the exploration permit as the Minister directs in respect of any mineral discovered.
- (3) If the holder of an exploration permit to whom a notice under subsection (2) is given does not apply for a mining claim, mineral development licence or a mining lease as directed within the specified time, the Minister may in the Minister's discretion cancel the exploration permit.
- (4) Any refund of moneys held in respect of an exploration permit that is cancelled pursuant to subsection (3) (including any security deposited) shall be at the Minister's discretion.

[s 176A]

176A Application to add excluded land to existing permit

- (1) The holder of an exploration permit (the *existing permit*) may apply to the Minister to add excluded land to the existing permit.
- (2) The provisions of this chapter apply, with necessary changes, to an application under subsection (1) as if it were an application under section 133.
- (3) Without limiting subsection (2), in deciding the application, the Minister may—
 - (a) impose conditions under section 141(1)(j) in addition to any conditions that apply under the existing permit; and
 - (b) fix an amount of security to be deposited under section 144 in addition to any security for the existing permit.
- (4) On the granting of the application, the excluded land is included in the existing permit.
- (5) In this section—

excluded land means land that was the subject of a specific exclusion when the existing permit was granted or that was taken to be excluded under section 132.

177 Reduction of area of exploration permit upon grant of mining claim, mineral development licence or mining lease

Upon the grant of a mining claim, mineral development licence or mining lease consequent upon an application made by the holder of an exploration permit granted in respect of the same area for the same mineral (whether or not at the direction of the Minister) or by an eligible person with the consent of the holder, the area of the exploration permit shall be reduced accordingly and the terms and conditions applying to the exploration permit may be varied as the Minister directs.

178 Discovery etc. of mineral does not vest property

A person who whilst acting under the authority of an exploration permit discovers or takes any mineral does not thereby acquire property therein and shall not dispose of any such mineral except with the consent of the Minister whose consent may be subject to such terms and conditions as the Minister thinks fit (including prescribed conditions as to the payment of royalties).

Chapter 5 Mineral development licences

Part 1 Mineral development licences generally

179 Mineral development licence

Unless otherwise approved by the Minister pursuant to section 226(3), a mineral development licence in respect of a mineral occurrence may be applied for by an eligible person in respect of land which, at the time the application for the grant is made, is in the area of—

- (a) an exploration permit; or
- (b) a mineral development licence;

in respect of the same mineral of which the applicant or, where more than 1 person is the applicant, at least 1 of them is, with or without others, the holder.

[s 180]

180 Only eligible persons to hold mineral development licences

A mineral development licence shall not be held by a person who is not an eligible person.

181 Obligations and entitlement under mineral development licence

- (1) During the currency of a mineral development licence, the holder shall carry out or cause to be carried out such activities as are specified in the licence by the Minister.
- (2) The Minister may specify in a mineral development licence that no activity need be carried out for the term of the licence or for such period as is specified therein.
- (3) Without in any way limiting the activities that the Minister may specify in a mineral development licence, activities leading to the evaluation and economic development of an ore body by or on behalf of the holder may include—
 - (a) geological, geophysical and geochemical programs and other works as are reasonably necessary to evaluate the potential for development of any mineral occurrence of possible economic potential occurring in or on the area of the mineral development licence; and
 - (b) mining feasibility studies; and
 - (c) metallurgical testing; and
 - (d) environmental studies; and
 - (e) marketing studies; and
 - (f) engineering and design studies; and
 - (g) such other activities as the Minister considers appropriate.
- (4) During the currency of a mineral development licence—
 - (a) the holder—

- (i) may carry out or cause to be carried out any activities (including activities referred to in subsection (2)) as are appropriate for the purpose for which the licence is granted; and
 - (ii) may, in relation to the area of the mineral development licence, do all such things as are authorised or were authorised, at the time of the application for the mineral development licence, under the relevant exploration permit then held by the applicant for the mineral development licence; and
 - (b) the holder and any person who acts for the purpose of carrying out any activity authorised by the mineral development licence with or by such vehicles, vessels, machinery and equipment as may be necessary or expedient for the purpose may, subject to compliance with schedule 1, enter—
 - (i) any part of the area of the mineral development licence that is not the surface area of a reserve; and
 - (ii) with the consent of the owner, or the consent of the Governor in Council, any part of the area of the mineral development licence that is the surface area of a reserve;for any purpose permitted or required under the licence or by this Act; and
 - (c) the holder of the mineral development licence, subject to compliance with this Act, may have considered for grant, in priority to all other persons, any number of mineral development licences and mining leases relating to any minerals specified in the mineral development licence in respect of any land in the area of the mineral development licence and may enter that land for the purpose of doing all acts necessary to comply with this Act relating to an application therefor.
- (5) For the purposes of subsection (4)(b)(ii), the holder of a mineral development licence has the consent of an owner of

[s 181]

part of the area of the licence if that consent in writing has been previously lodged with the chief executive and has not been withdrawn as provided for in subsection (11).

- (6) Consent given as required by subsection (4)(b)(ii) may be restricted as to time or to a part of the area in question.
- (7) Notwithstanding subsection (4)(b) the holder of a mineral development licence is not required to obtain consent in respect of the entry or being upon land in the area of a mineral development licence that is a reserve for public road where the entry of or being upon that land is solely as access in respect of the area of the exploration permit.
- (8) A mineral development licence authorises a person to enter the surface of land that was restricted land when the application for the licence is lodged only if—
 - (a) the owner of the land where the relevant permanent building, or relevant feature, is situated, consents in writing to the application; and
 - (b) the applicant gives the consent to the chief executive.
- (9) Consent given pursuant to subsection (8) shall specify the period of the consent and any conditions applicable to the consent and once given that consent can not be withdrawn.
- (11) Consent referred to in subsection (4)(b)(ii) can only be withdrawn by the owner of the relevant land giving notice in writing to the chief executive and shall only be effective when the Minister accepts the withdrawal or, if not accepted, after the holder of the mineral development licence has been given an opportunity by the Minister to apply for the consent of the Governor in Council in lieu of the owner's consent—
 - (a) if, within the time allowed by the Minister for the holder to do so, the holder does not apply for that consent, that time expires; or
 - (b) if, within the time allowed by the Minister for the holder to do so, the holder applies for that consent, the Governor in Council gives or refuses to give that consent.

-
- (12) The holder of a mineral development licence, and each person who enters or is upon land under the authority of the licence, shall comply with the terms and conditions upon which any consent required to be given under this Act in respect thereof was given by the owner of that land.
- (13) If an owner of land in the area of a mineral development licence that is a reserve refuses or fails within a reasonable time to give a consent required by subsection (4)(b)(ii) or imposes terms and conditions thereon that the holder of the relevant mineral development licence considers to be so harsh as to be unreasonable, the holder of the mineral development licence may apply in writing to the Minister who may refuse the application or may recommend to the Governor in Council that consent be given.
- (14) Upon receipt of an application under subsection (11) or (13), the Minister shall seek the views of the owner of the relevant land on the application.
- (15) If the Minister is satisfied that it is unreasonable for an owner of land in the area of a mineral development licence that is a reserve to refuse to give to the holder of a mineral development licence the consent required by subsection (4)(b)(ii), to withdraw consent previously given or to have imposed the terms and conditions upon which that consent was given, the Governor in Council may, upon the recommendation of the Minister—
- (a) subject to such terms and conditions as the Governor in Council thinks appropriate, give that consent in lieu of the consent of the owner; or
 - (b) set aside or vary as the Governor in Council thinks fit the terms and conditions upon which the consent is subject;

whereupon the owner of the land shall, subject to compliance by the holder of the mineral development licence with any terms and conditions set by the Governor in Council, be deemed to have given the consent or, as the case may be, have

[s 182]

set aside or varied the terms and conditions in accordance with the Governor in Council's determination.

- (16) The Governor in Council may make a determination under subsection (15) whether or not an owner of land makes any submission to the Minister pursuant to subsection (14).
- (17) The chief executive shall notify the holder of a mineral development licence and the owner of land in the area of a mineral development licence that is a reserve of particulars of any relevant determination made by the Governor in Council pursuant to subsection (15) before any entry of that land is made under the authority of the mineral development licence except where the entry is in accordance with any consent given by the owner.
- (18) For the purposes of exercising entitlements under this part a person who enters or is upon land under the authority of a mineral development licence may stay at night thereon and for that purpose may set up temporary accommodation thereon.
- (19) During the currency of a mineral development licence, the rights of the holder of the licence relate, and are taken to have always related, to the whole of the area of the licence.
- (20) The terms and conditions upon which consent required by subsections (4)(b)(ii) and (8) is given shall be deemed to be part of the terms and conditions of the relevant mineral development licence.
- (21) Consent given as required by subsection (4)(b)(ii) may be restricted as to time or to a part only of the area in question.

182 Land is excluded from area of mineral development licence if covered by other authority under Act

- (1) This section applies if—
 - (a) the chief executive accepts lodgement of an application for a mineral development licence for particular land; and

-
- (b) all or some of the land applied for in the accepted application is—
 - (i) in the area of an existing mining claim or mining lease; or
 - (ii) land applied for in an earlier application for a mining claim or mining lease.
 - (2) Land mentioned in subsection (1)(b) that is within the boundaries of the land applied for in the accepted application, and its surface, (*excluded land*) is taken to be excluded from the area of a mineral development licence granted for the land applied for in the accepted application.
 - (3) However, the land is excluded land—
 - (a) if subsection (1)(b)(i) applies—only while it is in the area of an existing mining claim or mining lease; or
 - (b) if subsection (1)(b)(ii) applies—
 - (i) until the earlier application is abandoned or rejected; or
 - (ii) while it is in the area of a mining claim or mining lease granted on the earlier application.
 - (4) If excluded land within the boundaries of the area of the mineral development licence ceases to be excluded land, it is taken to be included in the area of the mineral development licence unless the mineral development licence provides otherwise.
 - (5) Subsections (3) and (4) do not apply to land that is non-exclusive land under the native title provisions if the mineral development licence was granted after 23 December 1996.

183 Application for mineral development licence

- (1) An application for the grant of a mineral development licence shall—
 - (a) be in the approved form; and

[s 183]

- (b) specify the name of each applicant; and
- (c) specify the name and address for service of 1 person upon whom any notice may be served on behalf of the applicant or the applicants; and
- (d) describe all parcels of land the whole or part of which are applied for in the application and specify the current use of the land and the names and addresses of the owner or owners of the land and of land which is to be used as access thereto; and
- (e) identify in the prescribed manner the boundaries of the land applied for; and
- (f) specify the mineral or minerals in respect of which the mineral development licence is sought; and
- (g) give reasons why the mineral development licence should be granted in respect of the area and shape of the land described in the application; and
- (h) be accompanied by a sketch, map or other graphic representation acceptable to the chief executive setting out the boundaries of any land referred to in paragraphs (d) and (i); and
- (i) describe and identify in the prescribed manner any land proposed to be used as access from a point outside the boundary of the land the subject of the mineral development licence acceptable to the chief executive to any part on the surface of the land sought to be included in the mineral development licence; and
- (j) nominate the term of the mineral development licence sought and give reasons therefor; and
- (k) be accompanied by the consent in writing of each person who alone or with others is the holder of the exploration permit or the mineral development licence in respect of the land and the mineral the subject of the application and is not the applicant; and
- (l) be lodged with the chief executive; and

-
- (m) be accompanied by a statement—
 - (i) giving a detailed description and technical particulars of the mineral occurrence for which the mineral development licence is sought together with any necessary supporting documents; and
 - (ii) stating any activities proposed to be carried out under the mineral development licence, including, for example, work programs, amounts to be spent and studies to be performed; and
 - (iii) stating the estimated human, technical and financial resources proposed to be committed to authorised activities for the mineral development licence during each year of the licence, if granted; and
 - (n) be accompanied by—
 - (i) a statement, separate from the statement mentioned in paragraph (m), detailing the applicant’s financial and technical resources; and
 - (ii) proof of the applicant’s identity; and
 - (iii) the application fee prescribed under a regulation.
- (2) Only an eligible person may apply for a mineral development licence.

184 Description of mineral development licence

In an application for the grant of a mineral development licence—

- (a) the commencement point for the description shall be accurately related by measured distances and compass bearings (or other method acceptable to the chief executive) to a survey mark or other fixed and well defined point acceptable to the chief executive; and
- (b) the boundaries of the land applied for under the mineral development licence shall be described by accurately

[s 185]

- measured distances and compass bearings or other method acceptable to the chief executive; and
- (c) the surface access from a point acceptable to the chief executive to the land applied for under the mineral development licence must be described by measured distances and compass bearings along the centre line of that access together with the width of that access or by some other method acceptable to the chief executive; and
 - (d) the datum post or commencement point of the description of any land the subject of a mining claim, mineral development licence or mining lease or earlier application for the grant of a mining claim, mineral development licence or mining lease, in any case wholly or partly within the land sought in the current application for the mineral development licence shall be related by measured distances and compass bearings (or other method acceptable to the chief executive) to the commencement point of the description of the land applied for in the current application.

185 Priority of applications for grant of mineral development licences

Applications for the grant of mineral development licences duly made in respect of or including the same land shall take priority according to the Minister's determination.

186 Minister may grant or refuse application

- (1) The Minister may—
 - (a) grant a mineral development licence, with or without conditions, for all or part of the land the subject of an application (the *relevant land*) for the licence; or
 - (b) refuse the application.

-
- (2) Without limiting subsection (1), the Minister may refuse to grant a mineral development licence if the Minister considers the grant is not in the public interest.
- (3) The Minister may grant the mineral development licence only if—
- (a) the Minister is satisfied—
 - (i) the requirements of this Act have been complied with; and
 - (ii) the applicant is an eligible person; and
 - (iii) the applicant has paid rental for the first year of the term of the licence under section 193(1); and
 - (b) the Minister has approved the statements that, under section 183(1), accompanied the application.

Notes—

- 1 Under section 190, a mineral development licence can not be granted until the applicant has deposited security decided under that section.
 - 2 If the application relates to acquired land, see also section 10AAC.
- (4) The Minister must refuse to grant a mineral development licence for land if any part of the land is—
- (a) in a fossicking area; or
 - (b) subject to a mineral development licence for the same mineral.
- (5) However, subsection (4)(a) does not apply if the application was made but not decided before the land became a fossicking area.
- (6) In deciding whether to approve the statements mentioned in subsection (3)(b), the Minister must have regard to—
- (a) whether there exists to a high degree of definition on or in the land a significant mineral occurrence of possible economic potential; and

[s 186A]

- (b) whether the area of land applied for is appropriate to further investigation of that occurrence; and
 - (c) whether the applicant has the financial and technical capability to comply with the conditions of the mineral development licence under section 194.
- (7) If a mineral development licence is only granted for part of the relevant land—
- (a) the application is taken to be refused for the rest of the relevant land; and
 - (b) the Minister must give the applicant written notice of the reasons for the refusal.
- (8) If the Minister refuses the mineral development licence the Minister may decide whether all or part of the application fee that accompanied the application will be retained.

186A Content of mineral development licence

A mineral development licence granted by the Minister must be in the approved form and state the following information—

- (a) the identification number of the licence;
- (b) the name of the holder;
- (c) the address for service of notices on the holder;
- (d) the description of land for which the licence is granted;
- (e) the term and date of commencement of the licence;
- (f) the conditions, other than conditions prescribed by this Act, to which the licence is subject;
- (g) the minerals the subject of the licence.

187 Holder to notify owners of land of grant or renewal

Within 20 business days, or such longer period as the Minister shall in the particular case allow, after the grant or renewal of a mineral development licence, the holder shall give notice in

the approved form to the owners of the parcels of land in the area of the licence.

188 Upon rejection of application, application fee or part may be retained

If the Minister rejects an application for the grant of a mineral development licence the Minister may determine, at the Minister's discretion, whether all or part of the application fee that accompanied the application for the licence shall be retained.

189 Abandonment of application for mineral development licence

- (1) The applicant for the grant of a mineral development licence may, at any time before the grant of the mineral development licence, by notice in writing to the chief executive abandon the application in relation to all or part of the area to which it relates.
- (2) The abandonment of an application for the grant of a mineral development licence shall take effect on the day next following its receipt by the chief executive.
- (2A) If the application is abandoned in relation to part only of the land to which it relates, the application must be amended to identify the area in relation to which the application is to remain in force (the *remaining area*).
- (2B) The remaining area must be identified in the way required under section 183(1)(d) and (e).
- (3) Upon the abandonment of an application for the grant of a mineral development licence, the Minister, at the Minister's discretion, may retain the whole or part of the application fee.
- (4) Upon the abandonment of an application for the grant of a mineral development licence taking effect the land that ceases to be comprised in that application shall form part of any

existing exploration permit or mineral development licence over that land of which the applicant is holder.

190 Provision of security

- (1) Before a mineral development licence is granted or renewed or a condition of the licence is varied or approval is given to add stated minerals to the licence, the Minister, taking into consideration the matters outlined in section 183(1)(m)(i) and (ii), shall determine the amount of security to be deposited by the holder of that licence as reasonable security for—
 - (a) compliance with the conditions of the licence; and
 - (b) compliance with the provisions of this Act; and
 - (c) rectification of any actual damage that may be caused by any person whilst purporting to act under the authority of the mineral development licence to pre-existing improvements for the licence; and
 - (d) amounts (other than penalties) payable to the State under this Act.
- (2) A mineral development licence must not be granted or renewed, a condition of a mineral development licence must not be varied, and an approval must not be given to add stated minerals to a mineral development licence, until the applicant for the grant, renewal, variation or approval deposits the security decided under this section.
- (3) The Minister, if satisfied that any condition of the mineral development licence or any provision of this Act has not been complied with or that damage referred to in subsection (1)(c) has been caused by any person purporting to act under the authority of a mineral development licence or who enters land upon the instruction of the holder, the Minister may require that person to take all action necessary to rectify that noncompliance or damage and, save where the person was not the holder and was not upon the land with the holder's approval at the time the damage was caused, may utilise for

that purpose the whole or part of the amount of the security deposited in respect of that mineral development licence.

- (4) If, at any time (whether during or within 20 business days after the expiration of the term of a mineral development licence) the amount or any part of the amount deposited under this section is utilised as provided by subsection (3) or the Minister considers that, in view of the damage caused or likely to be caused by any person purporting to act under the authority of the mineral development licence or upon the instruction of the holder or for any other reason, a further amount of security should be deposited in respect of that mineral development licence, the Minister shall require the holder or former holder of the mineral development licence, within the time specified by the Minister, to deposit the further security.

- (3) A failure by the holder to comply with the Minister's directions is taken to be a breach of a condition of the mineral development licence.
- (4) If the Minister gives a direction under subsection (2), the chief executive must give a copy to—
 - (a) if the recommended action under subsection (1) relates only to native title protection conditions under section 194AAA—any person identified in the conditions as a native title party; or
 - (b) if the recommended action under subsection (1) relates only partly to the native title protection conditions—
 - (i) any person identified in the conditions as a native title party; and
 - (ii) the owner of the land; or
 - (c) otherwise—the owner of the land.
- (5) If the recommended action under subsection (1) is action to ease concerns of an owner of land or another mineral development licence holder, the chief executive must give the owner and the other mineral development licence holder written notice of—
 - (a) the substance of any recommendation made to the Minister under subsection (1) or, if the chief executive decides not to make a recommendation, the chief executive's decision; and

[s 224]

- (b) any other action the chief executive has taken to ease the concerns of the owner or mineral development licence holder.

224 Utilisation of security deposit towards subsequent mineral development licence or mining lease

Where the holder of a mineral development licence makes application for the grant of a subsequent mineral development licence or a mining lease, the Minister notwithstanding that the period of 6 months after the termination of that licence may not have elapsed may, instead of refunding the whole or part of the security deposited in respect of the current mineral development licence, retain that security or part thereof (together with any further security fixed by the Minister) as the security (in which case it shall be taken to be or to be part of the security) deposited by the applicant in respect of the subsequent mineral development licence or the mining lease.

225 Direction to apply for mining lease

- (1) If, at any time during the currency of a mineral development licence, the Minister is of the opinion that actual mining operations should commence on any part of the area of the licence, the Minister shall give to the holder written notice directing the holder to indicate, within the time specified in the notice, why the holder should not apply for a mining lease for that purpose.
- (2) If the holder of a mineral development licence to whom a notice under subsection (1) has been given does not, within the time specified in the notice, or such longer time as the Minister in writing may approve, reply to the notice, or the Minister, on considering the holder's reply, is not satisfied that the holder should not apply for a mining lease, the Minister may give the holder a further written notice directing the holder, within the time specified in the notice or such extended time as the Minister in writing may approve, to apply for such a mining lease.

- (3) If the holder to whom a notice under subsection (2) is given does not apply for a mining lease as directed within the specified time or such extended time, the Minister may in the Minister's discretion cancel the mineral development licence.
- (4) Upon the cancellation of a mineral development licence pursuant to subsection (3) land in the area of the mineral development licence does not become part of the area of any current exploration permit.
- (5) Any refund of moneys held in respect of a mineral development licence that is cancelled pursuant to subsection (3) (including any security deposited) shall be at the Minister's discretion.

226 Minister may determine availability of certain land

- (1) Where in respect of any land—
 - (a) an application for a mineral development licence or for renewal thereof is rejected by the Minister; or
 - (b) a mineral development licence expires by effluxion of time and an application to renew the licence is not duly made; or
 - (c) a mineral development licence is cancelled pursuant to section 209 or 225; or
 - (d) a mineral development licence is surrendered or an application for the grant of a mineral development licence is abandoned in respect of land over which the holder of or the applicant for the grant does not hold an exploration permit that adjoins that land;that land, shall not be available for any subsequent application for the grant of a mining tenement unless and until approved by the Minister.
- (2) An approval of the Minister under subsection (1) may limit the type of application or grant that may be made in respect of the land specified in the approval and may stipulate the conditions under which applications therefor may be made.

[s 226AA]

- (3) An approval of the Minister under subsection (1) may provide that a subsequent application by an eligible person need not be by the holder of a prospecting permit, exploration permit or a mineral development licence.
- (4) Notwithstanding subsection (1), where the applicant for a mineral development licence that is rejected is at the time of the rejection the holder of an exploration permit in respect of the same land, that land shall, upon the rejection, be subject to the exploration permit.

226AA Application to add excluded land to existing licence

- (1) The holder of a mineral development licence (the *existing licence*) may apply to the Minister to add excluded land to the existing licence.
- (2) The provisions of this part apply, with necessary changes, to an application under subsection (1) as if it were an application under section 183.
- (3) Without limiting subsection (2), in deciding the application, the Minister may—
 - (a) impose conditions under section 194(1)(j) in addition to any conditions that apply under the existing licence; and
 - (b) fix an amount of security to be deposited under section 190 in addition to any security for the existing licence.
- (4) On the granting of the application, the excluded land is included in the existing licence.
- (5) In this section—

excluded land means land that was the subject of a specific exclusion when the existing licence was granted or that was taken to be excluded under section 182.

226A Reduction of area of mineral development licence on grant of mining lease

- (1) This section applies if a mining lease is granted because of an application made by—
 - (a) the holder of a mineral development licence granted for the same area for the same mineral, whether or not at the Minister's direction; or
 - (b) an eligible person with the holder's consent.
- (2) The area of the licence must be reduced by omitting the area of the mining lease.
- (3) The terms of the licence may be varied as the Minister directs.

227 Discovery etc. of mineral does not vest property

A person who whilst acting under the authority of a mineral development licence discovers or takes any mineral does not thereby acquire property therein and shall not dispose of any such mineral except with the consent of the Minister whose consent may be subject to such terms and conditions as the Minister thinks fit (including conditions as to the payment of royalties).

228 Effect of termination of mineral development licence

- (1) This section applies on the termination of a mineral development licence.
- (2) However, this section does not apply to a mineral development licence if the termination is for granting a new mineral development licence or a mining lease over the area of the terminated licence to the holder of the terminated licence.
- (3) On the termination of a mineral development licence, the ownership of machinery, equipment and removable improvements (*plant*) on the area of the terminated licence divests from the owner and vests in the State.

[s 229]

- (4) However, subsection (3) applies to plant only if the plant was brought on to the land under the terminated mineral development licence.

229 Application may be made for approval to remove plant

- (1) This section applies to plant that vests in the State on the termination of a mineral development licence.
- (2) Anyone who had an interest in the plant immediately before its ownership vested in the State may apply in writing to the Minister for permission to remove the plant from the land.
- (3) The application—
 - (a) must be made within 20 business days after the plant vests in the State (or a longer period, of not more than 3 months, allowed by the Minister); and
 - (b) may be made even though a subsequent grant of a mining claim, exploration permit, mineral development licence or mining lease has been made over the land.
- (4) The Minister may approve or refuse to approve the application.
- (5) However, the Minister must approve the application if the Minister is satisfied—
 - (a) the person was entitled to the plant immediately before it vested in the State; and
 - (b) there is enough security held for the terminated mineral development licence to meet the costs for which it was deposited.

Note—

For the provision of security, see section 190.

- (6) An approval may be given on conditions stated in it.
- (7) If the application is approved, the person named in the approval may enter the land and remove the plant (other than any covers, fencing, casings, linings, timbering or other things

securing the safety of the land) stated in the application before the time stated in the approval ends.

- (8) Anything lawfully removed under subsection (7) divests from the State and vests in the person entitled to it immediately before the termination of the mineral development licence.
- (9) In this section, *plant* has the meaning given in section 228(3).

230 Plant remaining on former mineral development licence may be sold etc.

- (1) This section applies if the chief executive has not received, or has received but not granted, an application for approval to remove plant from the site of a terminated mineral development licence within 3 months after the licence's termination.
- (2) The Minister may direct the chief executive to—
 - (a) sell the plant by public auction or in another stated way; or
 - (b) if the plant has no commercial value—dispose of or destroy it.
- (3) Proceeds of a sale are to be applied in the following order towards—
 - (a) the reasonable expenses incurred in the sale;
 - (b) the cost of rectifying actual damage for which an amount of security deposited for the terminated mineral development licence could have been used but was not used, or was inadequate;
 - (c) any costs or expenses mentioned in the Environmental Protection Act, section 298 for a relevant environmental authority;
 - (d) amounts owing to the State under this Act by the former holder;

[s 231]

- (e) any other amounts owing to the State under the Environmental Protection Act for a relevant environmental authority;
 - (f) amounts owing to a mortgagee under a mortgage registered under this Act over the mineral development licence.
- (4) Any balance must be paid to the former holder.
- (5) If the chief executive can not decide the identity of, or locate, a person entitled to the proceeds or part of the proceeds, the chief executive may pay the amount to the public trustee as unclaimed moneys.
- (5A) A secured party can not enforce any security interest in the proceeds of sale against an entity to whom an amount is payable under subsection (3)(a) to (e).
- (6) Compensation is not payable for a sale, disposal or destruction under this section.
- (7) In this section—
- plant* has the meaning given in section 228(3).
- PPS Act* means the *Personal Property Securities Act 2009* (Cwlth).
- secured party* has the meaning given by the PPS Act, section 10.
- security interest* has the meaning given by the PPS Act, section 12.

- (1) The holder of a mineral development licence may apply to the chief executive in the approved form for a variation of the land used or proposed to be used as access in relation to the area of the mineral development licence.
- (2) An application for a variation of the land used or to be used as access under this section shall be accompanied by—

- (a) such particulars as are, by sections 183 and 184, required to accompany an application for the grant of a mineral development licence in so far as those particulars relate to the land used or proposed to be used as access in relation to the area of the mineral development licence; and
 - (b) the prescribed application fee.
- (3) The Minister may grant or reject an application under this section.
 - (4) Without limiting subsection (3), the Minister may reject the application if the Minister considers the variation is not in the public interest.
 - (5) If the Minister grants the application, the Minister may impose conditions on the variation.
 - (6) Without limiting subsection (5), the Minister may impose a condition on the variation if the Minister considers the condition is in the public interest.
 - (7) Upon the grant of an application under this section the variation shall thereupon become effective.
 - (8) If an application under this section is rejected, the Minister shall cause the applicant to be advised of the reasons for the rejection.
 - (9) Within 15 business days (or such longer period as the Minister shall in the particular case allow) of the Minister granting an application under this section, the holder of the mineral development licence shall give notice in the approved form to the owner of land directly affected by the variation.

 - (c) a mineral development licence or mineral development licences;

in respect of that mineral or those minerals of which the applicant or, where more than 1 person is the applicant, at least 1 of them is, with or without others, the holder.

Notes—

- 1 See section 10AAB(3) if land in the relevant mining tenement is not contiguous following the taking of land under a resumption law.
 - 2 For inclusion of acquired land that was previously in the relevant mining tenement's area, see section 10AAC(3).
- (2) Where a mining lease may be granted to a person pursuant to subsection (1) a mining lease may also be granted to that

[s 233]

person for any purpose for which mining leases may be granted.

- (3) Despite subsection (1), a mining lease for a mineral or minerals that include mineral (f) may only be granted to an eligible person in respect of contiguous land that is in the area or areas of a mineral development licence or mineral development licences.

233 Only eligible persons to hold mining leases

A mining lease shall not be held by a person who is not an eligible person.

234 Minister may grant mining lease

- (1) The Minister may grant to an eligible person or persons, a mining lease for all or any of the following purposes—

 - (b) such purposes, other than mining, as are specified in the mining lease and that are associated with, arising from or promoting the activity of mining.
- (2) However, coal seam gas can not be specified in a mining lease.

Note—

For the entitlement of a coal mining lease holder or an oil shale mining lease holder to mine coal seam gas, see section 318CM.

- (3) Also, the Minister must not grant a mining lease for land in a fossicking area, or for land that includes the whole or part of a fossicking area, unless the application—
 - (a) was made, but not decided, before the land became a fossicking area; or
 - (b) is for land in a prospecting permit, exploration permit or mineral development licence.

235 General entitlements of holder of mining lease

- (1) Subject to section 236 and chapter 8, part 8, division 1, during the currency of a mining lease, the holder of the mining lease and any person who acts as agent or employee of the holder (or who delivers goods or substances or provides services to the holder) for a purpose or right for which the mining lease is granted—

[s 237]

with the consent of the holder of the mining lease, after the grant of the mining lease for the use or disposal applies thereto.

- (2) A provision in any other Act, other than the Environmental Protection Act, that, but for this subsection, would require a person acting pursuant to subsection (1) to obtain a licence or other authority thereunder to so act or would prohibit that person from so acting unless the person held such a licence or authority does not apply to that person.
- (3) For the purposes of chapter 11, sand, gravel and rock utilised by the holder of a mining lease pursuant to this section shall be deemed to be mineral mined by the holder.

237 Drilling and other activities on land not included in surface area

- (1) A mining lease holder may, in the approved form, apply to the Minister for approval to conduct drilling and other activities on land not included in the surface area covered under the lease.

- (4) An approval may be given on conditions stated in it, including conditions about, for example, depositing security and complying with stated codes.
- (5) If an approval is given—
 - (a) the mining lease must be amended to give effect to the approval and the conditions stated in it; and
 - (b) particulars of the approval must be recorded in the register and endorsed on the relevant instrument of mining lease.

238 Mining lease over surface of restricted land

- (1) A mining lease may be granted over the surface of land that was restricted land when the application for the lease was lodged only if—
 - (a) the owner of the land where the relevant permanent building, or relevant feature, is situated, consents in writing to the application; and
 - (b) the applicant lodges the consent with the chief executive before the last objection day ends.
- (2) A consent given for subsection (1) can not be withdrawn.

239 Restriction on mining leases where land freed from exploration permit

Upon an area of land, for whatever reason, ceasing to be the subject of an exploration permit, then, for a period of 2 calendar months following the end of the month in which that cessation occurs—

[s 240]

- (a) any application for a mining lease in respect of land within that area that exceeds 50ha shall be rejected; and
- (b) a person shall not apply for the grant of or hold or have an interest (whether direct or indirect) in mining leases over any of that land the aggregate area of which exceeds 300ha.

- (1) An eligible person who wishes to apply for the grant of a mining lease shall mark out, in the prescribed manner, the boundary of the land proposed to be the subject of the application, whether or not the surface of the land is included in the application.
- (2) Where an application for a mining lease is for part only of the surface of the land proposed to be the subject of the mining lease a person shall not, in complying with subsection (1), be required to peg the boundary of the surface area which is to be included in the mining lease.

241 Manner of marking out land proposed to be subject of mining lease

- (1) Before making an application for the grant of a mining lease, the intending applicant or some person authorised on the intending applicant's behalf shall mark out the land by inserting firmly in the ground at each and every corner of the land applied for a round post which shall be not less than 10cm in diameter or a square post each side of which shall be not less than 10cm in width standing at least 1m above the surface and sunk not less than 50cm in the ground.
- (2) The part of each post above the surface shall be painted white.
- (3) Where posts are of timber construction they shall be barked and dried of sap before use.

- (4) One of the posts shall be selected to be the datum post for the purpose of the commencement of the description and from which a cadastral surveyor shall commence any survey of the land.
- (5) There shall be engraved or in some way durably marked on each post the applicant's initials and surname (or of 1 applicant should there be more than 1) and the numerals indicating the date on which the subject land was marked in accordance with this section and the engraving or marking shall be so maintained until action is taken in accordance with section 252B(1)(a) and (b).
- (6) Where the applicant is a company the initials of that company (or of any 1 company should there be more than 1) shall be engraved and marked as prescribed herein on the posts.
- (7) If a post can not be inserted in the manner prescribed there shall be erected a cairn of stones at least 50cm high in the place where the post should have been inserted.
- (8) If cairns of stones are erected there shall be engraved or in some way durably marked thereon the particulars which would have been required had a post been inserted.
- (9) Where it is not practicable to insert a post or erect a cairn of stones in the manner prescribed at every corner of the land applied for, there may be inserted a datum post only and compass bearings shall be taken and distances measured, as required by section 246.

as will enable the holder to carry out the purposes for which the firstmentioned mining lease is granted.

274 Holder of a mining lease to mark boundary posts

Unless the area of a mining lease has been surveyed, the holder of the mining lease shall, within 5 business days of the date of grant of the mining lease, engrave or in some way durably mark on every boundary post of the area of the mining lease or cairn erected as prescribed in lieu thereof the number of that mining lease and shall maintain those posts or cairns duly engraved or marked while the mining lease subsists and the area is not surveyed.

275 Application for inclusion of surface of area of mining lease

- (1) Notwithstanding section 232, the holder of a mining lease that does not include any part of the surface of the area of that mining lease or that includes a part only of the surface of the area of that mining lease may at any time apply for an additional part of the surface of that area to be included in the mining lease.
- (2) An application made under this section shall be made and dealt with in the same manner as if it were an application for a mining lease made under this part, and for that purpose—
 - (a) the posting of any notice on a conspicuous part of the area applied for shall be sufficient compliance with the provisions of this Act relating to the posting of that notice on the land; and
 - (b) the certificate of application and the certificate of public notice must state, as the number of the proposed mining lease, the number of the existing lease together with the words ‘addition of surface area’.

 - (b) particulars of the approval must be recorded in the register and endorsed on the relevant instrument of mining lease.

276 General conditions of mining lease

- (1) Each mining lease shall be subject to—
- (a) a condition that the holder shall use the area of the mining lease bona fide for the purpose for which the mining lease was granted and in accordance with this Act and the conditions of the mining lease and for no other purpose; and
 - (b) a condition that the holder must carry out improvement restoration for the mining lease; and

 - (d) the act is done.
- (2) The mining lease is subject to the stated conditions.

277 Provision of security

- (1) The holder of a mining lease must deposit security for the lease to ensure the holder—

[s 277]

land with the holder's approval at the time the damage was caused, may utilise for that purpose the whole or part of the amount of the security deposited in respect of that mining lease.

- (6) If the amount of the security deposited by the holder of a mining lease is not earlier reviewed pursuant to subsection (7), the Minister shall review that amount at the expiration of 5 years from the grant of the mining lease or from the previous review.
- (7) On the use under this section of any part of the security deposited in respect of a mining lease, the Minister may review the amount of the security deposited by the holder in respect of that mining lease.

- (11) Where a mining lease has expired or been terminated, the Minister shall, subject to subsection (13), refund to the holder of the mining lease (or as the holder in writing directs) any security deposited and not utilised as provided by subsection (5) less any amounts determined by the Minister to be retained towards—

- (13) If the Minister accepts a bond, guarantee or indemnity by, or another financial arrangement with, a financial institution, insurance company or other credit provider as security under this section, any amount payable to the holder under subsection (11) must be refunded to the financial institution, insurance company or credit provider and not to the holder of the mining lease to which the security relates.

278 Utilisation of security deposit towards subsequent mining lease

If the holder of a mining lease or an expired mining lease makes application for a further mining lease, the Minister may, instead of refunding the whole or part of the security deposited in respect of the existing or expired mining lease, retain that security or part thereof (together with any further security fixed by the Minister) as the security (in which case it shall be taken to be or to be part of the security) deposited by the applicant in respect of the further mining lease.

 - (a) a properly made application for renewal of a mining lease is not withdrawn, refused or granted before the lease's expiry day ends; and
 - (b) after the expiry day, the holder—
 - (i) continues to pay rental on the lease and other amounts required to be paid under this Act; and
 - (ii) otherwise complies with this Act and the lease conditions.
- (2) The lease continues in force subject to the rights, entitlements and obligations in effect immediately before the end of the expiry day until the application is withdrawn, refused or granted.

286D When term of renewed lease starts

- (1) If a mining lease is renewed before its expiry day ends, the term of the renewed lease starts on the day after the expiry day.
- (2) If the lease is renewed after the expiry day, the term of the renewed lease is taken to have started on the day after the expiry day.

286E When new conditions of renewed lease start

- (1) If a renewed mining lease is subject to conditions (the *new conditions*) different from, or not included in, the lease conditions applying immediately before its renewal, the new conditions apply from the later of the following—
 - (a) the start of the term of the renewed lease;

-
- (b) the day the renewal is granted.
- (2) However, if the lease is continued in force under section 286C, the holder must pay rental on the lease from the day after its expiry day at the rate that would have been payable, from time to time, if the renewed mining lease had been renewed on the day after the expiry day.
- (3) Subsection (2) applies even though payment of rental may be a condition of the lease.

286F Renewal of lease must be in name of last recorded transferee

- (1) This section applies if a transfer of a mining lease is registered under section 318AAT—
- (a) after the date on which an application for renewal of the lease is made; and
- (b) before the application is disposed of by the Minister.
- (2) Any renewal granted on the application must be in the name of the transferee under the last transfer registered before the grant of the renewal.

287 Notice of rejection of renewal application

If the Minister decides to reject an application to renew a mining lease, the Minister must promptly give the applicant a written notice stating the decision and the reasons for it.

288 Holder to notify owner of grant or renewal of mining lease

- (1) The holder of a mining lease must notify each owner of land in the area of the lease of the grant or renewal of the lease.
- (2) The notice must be given within 20 business days after the holder receives notice of the grant or renewal.
- (3) If the lease is for a purpose mentioned in section 234(1)(b), the reference in subsection (1) to the owner of land includes

[s 289]

the holder of an exploration permit, mineral development licence or mining lease over the land.

289 Chief executive may issue instrument of mining lease

- (1) If the Minister grants or renews a mining lease, the chief executive may issue an instrument of lease for the mining lease.
- (2) The instrument of lease may be issued even though the boundaries of the land have not been surveyed.
- (3) For an instrument of lease mentioned in subsection (2)—
 - (a) the area and boundaries of the land must be described as accurately as possible; and
 - (b) a defect in the description of the land does not, of itself, invalidate or otherwise affect the lease.

290 Rental payable on mining lease

- (1) Upon the grant of a mining lease rental shall first be payable thereon with respect to the period from the commencement of the term of the mining lease to 31 August of that year (the *first rental period*) and shall be paid within 20 business days (or such longer period as the Minister in the particular case approves) of the grant of the mining lease.
- (2) The amount of the rental payable in respect of the first rental period shall be an amount that bears to the rental payable for a rental year prescribed pursuant to subsection (4) for the rental year in which the first rental period falls the same proportion that the number of whole calendar months of the first rental period bears to 12.
- (3) In respect of each rental year or part thereof of the term of a mining lease (other than the first rental period) a full rental year's rental shall be payable in advance not later than 31 August of the previous rental year.

-
- (4) If the full rental payable for a rental year is paid in advance, the amount of the rental shall be the amount prescribed under a regulation for that rental year.
 - (5) If, for a particular rental year, rental is not paid in advance—
 - (a) the chief executive shall, prior to 30 September of that rental year, notify the holder of and any person holding a recorded interest in the mining lease that the rental has not been paid and of the amount of rental payable as prescribed by paragraph (b); and
 - (b) the amount of the full rental payable for the rental year shall be payable before 1 December of that rental year and shall be an amount equal to the amount prescribed under a regulation for that rental year plus an amount equal to 15% of that prescribed amount.
 - (6) Upon the renewal of a mining lease, no further rental shall be payable in respect of the period that, if the renewal was a grant of a mining lease, would be the first rental period, except where that period commences on 1 September.
 - (7) Except as provided in subsection (9), where in any rental year a mining lease is surrendered or terminated through effluxion of time and is not renewed there shall be refundable to the last holder of the mining lease an amount that bears to the amount of the rental that was paid in respect of that rental year the same proportion that the number of whole calendar months from—
 - (a) the date of surrender or termination; or
 - (b) the date of rejection of the application for renewal;whichever is the later, to 31 August of that rental year bears to 12.
 - (8) Subsections (3) to (7) apply to a mining lease continued in force under section 286C, with all necessary changes and with any changes prescribed by regulation, in the same way as they would apply if the lease had been renewed on the last day of its term.

[s 290A]

- (9) No amount shall be refunded pursuant to subsection (7) where a mining lease is surrendered within its first rental period after its original grant.

290A Application of GST to rents for certain mining leases

- (1) This section applies to a lease, however called, that, under the repealed schedule to this Act, section 3, became a mining lease under this Act.

Editor's note—

The repealed schedule to this Act was repealed by the *Offshore Minerals Act 1998*, section 446 and schedule 4, section 4.

- (2) If any rent payable under the lease after 30 June 2005 is for a supply for which GST is payable, the rent payable is the total of—
- (a) the rent that would have been payable if the rent were not for a supply for which GST is payable; and
 - (b) 10% of the rent that would have been payable if the rent were not for a supply for which GST is payable.
- (3) Subsection (2) applies despite the provisions of the mining lease.

294 Variation of conditions of mining lease

- (1) The conditions to which a mining lease is subject may be varied by the Minister if—
- (a) the varied conditions are not inconsistent with this Act; and
 - (b) the holder of the mining lease gives the Minister written agreement.
- (2) However, the Minister must not vary a condition of a mining lease if the condition as varied is the same or substantially the same as, or inconsistent with, a relevant environmental condition for the lease.

- (3) Without limiting subsection (1), the Minister may refuse to vary a condition of a mining lease if the Minister considers the variation is not in the public interest.
- (4) A mining lease that is duly varied pursuant to subsection (1) shall thereafter until again varied, be subject to its conditions as so varied.
- (5) Particulars of every variation of a mining lease shall be endorsed on the instrument of lease by the chief executive if the lease has been issued.

295 Variation of mining lease for accuracy etc.

- (1) The Minister may vary a mining lease for all or any of the following reasons—
 - (a) the boundaries and area of the mining lease have been more accurately worked out and described by survey or another method approved by the Minister;
 - (b) the lease is contiguous to another mining lease and—
 - (i) the holders of the mining leases have agreed to exchange areas adjoining a part of a boundary common to both mining leases; and
 - (ii) the Minister has approved the exchange;
 - (c) new facts have arisen since the grant of the mining lease that satisfy the Minister that the variation should be made to more accurately reflect the holder's entitlements under the lease.
- (2) A variation of a mining lease pursuant to subsection (1) shall take effect from the time indicated in that variation.
- (3) Notice of every variation of a mining lease pursuant to subsection (1) shall be given in writing by the Minister to the holder of the mining lease and to all persons holding an interest recorded as provided in this part in the mining lease.
- (4) The notice to the holder shall direct the holder to produce any instrument of lease for endorsement.

[s 295]

- (5) The chief executive upon receipt of the instrument of lease shall make all endorsements thereon to give effect to the variation.
- (6) The Minister shall cause suitable recordings to be made in the register that the mining lease has been varied.
- (7) Where, prior to receiving a notice of variation pursuant to subsection (3) the holder of a mining lease has placed any improvements, machinery, plant or equipment on land which, by reason of the variation, has ceased to be part of the area of the mining lease, the holder may within 20 business days after receipt by the holder of that notice, apply to the Minister for permission to enter upon that land and to remove the improvements, machinery, plant or equipment or any part thereof.
- (8) Upon application duly made to the Minister under subsection (7), the Minister shall grant permission to the applicant in respect thereof for such period and upon such conditions as the Minister thinks fit.
- (9) The applicant, together with the applicant's workers and persons delivering goods or substances or providing services ancillary to that purpose and vehicles and equipment, may enter upon land and remove improvements, machinery, plant or equipment or any part thereof in accordance with the permission granted pursuant to subsection (8).
- (10) Where a mining lease has been varied pursuant to subsection (1), the holder thereof shall be deemed to hold indemnified the Crown, the Minister and all officers, servants and agents of the Crown and the Minister against all claims arising out of anything done pursuant to this Act or done on or in land which, by reason of that variation, has ceased to be part of the area of the mining lease.
- (11) Where the boundaries and size of the area of a mining lease have been varied pursuant to subsection (1)(a)—
 - (a) the condition under section 276(1)(c) that applied before the variation shall continue to apply after that variation

in respect of activities carried on before that variation;
and

- (b) the conditions (other than the condition referred to in paragraph (a)) that applied before the variation shall cease to apply after that variation in respect of activities carried on after that variation;

in respect of the land that has ceased to be part of the area of the mining lease.

- (12) Where the boundaries and size of the area of a mining lease have been varied pursuant to subsection (1)(a), the conditions of the lease shall from that variation also apply in respect of land that becomes part of the area of the mining lease.
- (13) Where an exchange of parts of land has been effected pursuant to subsection (1)(b), in respect of each mining lease—
 - (a) the conditions that applied before the exchange shall continue to apply in respect of the area of the mining lease after the exchange; and
 - (b) the conditions that applied before the exchange shall cease to apply in respect of the part of land that has ceased to be part of the area of the mining lease.
- (14) Notwithstanding subsections (11) and (13), the provisions of sections 277 and 308 shall continue to apply after a variation of a mining lease pursuant to subsection (1) in respect of any acts done or omitted to be done before that variation.
- (15) The Minister may direct and authorise the holder of a mining lease to enter upon land that has ceased to be part of the area of the mining lease to comply with any condition referred to in subsection (11) or (13).
- (16) This section shall not be construed to abrogate or prejudice any right had by the Crown or a person, authority or body in respect of land which by reason of a variation pursuant to subsection (1) has ceased to be part of the area of a mining lease, from proceeding in any court of competent jurisdiction or independently of this Act to recover damages or to obtain

[s 296]

any other remedy in respect of damage or injury suffered or loss incurred by reason of a person acting or purporting to act under the authority of that mining lease but any moneys paid under section 277 in respect of damage the subject of the proceedings shall be taken into account by that court in assessing the loss or damage.

- (17) The person who was the holder of a mining lease that is varied pursuant to this section shall pay the prescribed royalty in respect of all mineral mined by the person or on the person's behalf from land that ceases to be a part of the area of the mining lease as if it had been mined under the authority of that mining lease.

296 Correction of instrument of lease

- (1) If, at any time, the chief executive is of the opinion that an instrument of lease of a mining lease should be corrected by reason that the instrument is defective owing to error in its preparation, the chief executive may correct the instrument and shall endorse every copy thereof accordingly.
- (2) When an instrument of lease is corrected under this section it shall be construed and operate as if it had been originally issued as corrected.

297 Replacement instrument of lease

- (1) Where the Minister is satisfied that an instrument of lease of a mining lease should be cancelled and a replacement instrument of lease issued in its place—
- (a) the Minister must cancel the instrument of lease; and
 - (b) the chief executive must issue a replacement instrument of lease.
- (2) A replacement instrument of lease of a mining lease issued under this section—
- (a) shall be the instrument of lease issued in respect of the mining lease concerned in place of the instrument of

lease previously issued in respect thereof and cancelled under this section which lastmentioned instrument shall, upon the issue of the fresh instrument, cease to be of any force or effect; and

- (b) may bear a form of endorsement which briefly traces the devolution of the title from the original holder of the mining lease to the person appearing as holder thereof at the time the replacement instrument of lease is issued; and
 - (c) shall bear endorsement of all apparently subsisting mortgages affecting the mining lease concerned and endorsed on the instrument of lease so cancelled; and
 - (d) shall be delivered to the person who appears to the Minister to be lawfully entitled to possession thereof.
- (3) The Minister shall cause the instrument of lease so cancelled to be suitably endorsed and a suitable recording to be made in the register that a replacement instrument of lease has been issued in its place.
- (4) The cancelled instrument of lease shall be retained by the chief executive.

298 Mining other minerals or use for other purposes

- (1) The holder of a mining lease for the mining of minerals may lodge an application in writing with the chief executive for the Minister's approval to mine specified minerals (other than coal seam gas), being minerals not specified in the mining lease, in respect of the whole or that part of the land specified in the mining lease that is not currently the subject of a mining lease or mineral development licence (or an application for a mining lease or mineral development licence) in respect of those specified minerals.

Note—

See also chapter 8, part 8, division 1.

[s 298]

- (2) The application shall be accompanied by the prescribed application fee.
- (3) The application and any other application for the grant of a mining lease for the same minerals must be considered and decided according to the day on which they are lodged.
- (3A) If the applications were lodged on the same day—
 - (a) they take the priority the Minister decides, after considering the relative merits of each application; and
 - (b) the chief executive must give each applicant a written notice stating there is competition for priority between the applicant's application and another application, or other applications, lodged on the same day as the day on which the applicant's application was lodged.
- (4) The holder of a mining lease granted for purposes (other than mining of minerals) may lodge an application in writing with the chief executive for the Minister's approval for the addition of such purposes not specified in the mining lease (being not those of mining for minerals), which the Minister accepts are appropriate for the mining lease and are not inconsistent with this Act.
- (5) The application shall be accompanied by the prescribed fee.
- (6) The holder of a mining lease granted for the mining of minerals may apply in writing to the chief executive for the Minister's approval for the addition of such purposes not specified in the mining lease as are not inconsistent with this Act.
- (7) The application shall be accompanied by the prescribed fee.
- (8) The Minister may approve or reject an application under this section.
- (9) Without limiting subsection (8), the Minister may reject the application if the Minister considers the addition is not in the public interest.
- (10) Upon the Minister approving an application under this section and compliance by the applicant with any requirements

imposed by the Minister, the relevant mining lease shall be deemed to include the specified minerals or, as the case may be, the additional purposes.

Note—

See, however, the Environmental Protection Act, section 426 (Environmental authority required for particular environmentally relevant activities) and chapter 5, part 12, division 1 (Plan of operations for environmental authority relating to mining lease or petroleum lease).

- (11) Without limiting subsection (12)(a), a condition may be imposed on the approval of the Minister if the Minister considers the condition is in the public interest.
- (12) An approval of the Minister under this section may be subject to—
 - (a) conditions; and
 - (b) the requirement to deposit such security under section 277 as the Minister determines.
- (13) Particulars of an approval under this section shall be recorded in the register and endorsed on the relevant instrument of mining lease.

299 Consolidation of mining leases

- (1) The holder of mining leases for the mining of minerals in respect of contiguous areas may lodge an application in writing with the chief executive for the grant of a mining lease consolidating those mining leases.
- (2) The application shall be accompanied by the prescribed fee.
- (3) If the chief executive is not satisfied the areas are adjoining, the holder may apply to the Land Court for an order declaring the areas to be adjoining areas for this section.
- (4) The Minister may cancel the mining leases referred to in an application lodged pursuant to subsection (1) and grant the mining lease applied for, subject to such conditions as may be imposed by or under this Act.

[s 307]

- (5) The relevant instruments of lease shall be cancelled or, as the case may be, issued to evidence the cancellation and grant of the mining leases.
- (6) If, within the proposed area of the consolidated mining lease, there is an area not included in 1 of the leases to be consolidated, the Minister may include the area in the consolidated mining lease.
- (7) A consolidated mining lease may be granted only if the Minister is satisfied arrangements for compensation, the deposit of security and the proposed conditions of the mining lease are adequate.
- (8) Sections 232, 238, 240, 241, 243, 245, 251 to 253, 260, 265, 266, 268, 269, 271 to 272, 274 and 275 and such other provisions as the Minister approves do not apply in respect of an application for and grant of a mining lease under this section.
- (9) The provisions of section 312(3) do not apply in respect of a mining lease terminated for the purposes of the grant of a mining lease under this section.
- (10) Notwithstanding the provisions of section 277(11), the security that pursuant to that section would have been refunded to the holder of the cancelled mining leases or as the holder directs may, at the request of the applicant, be retained by the Minister towards security required under section 277(1) to be deposited by the holder of the new mining lease issued under subsection (4).

307 Abandonment of application for the grant of a mining lease

- (1) The applicant for a mining lease may, at any time before the grant of the mining lease, by notice in writing to the chief executive abandon the application in respect of the whole or part of the land applied for.
- (2) The abandonment shall take effect on the day next following its receipt by the chief executive.

-
- (3) The applicant for the grant of a mining lease who gives a notice referred to in subsection (1) to the chief executive shall forthwith serve a copy of that notice on—
- (a) if the application has been referred to the Land Court under section 265—the Land Court; and
 - (b) all other persons on whom the applicant was required under this Act to give a copy of the certificate of public notice for the mining lease.
- (4) Where an application for the grant of a mining lease is abandoned in respect of part only of the land applied for, the application shall be amended to show the area in respect of which the mining lease application is to remain in force in the same manner as is required for an original application and the amended application shall proceed in respect of that area in accordance with this part.

308 Contravention by holder of mining lease

- (1) If the Minister considers that the holder of a mining lease—
- (a) has carried out activities that are not bona fide for the purposes for which the mining lease was granted; or
 - (b) has failed to pay the royalty or any other moneys payable thereunder (other than rental) or in respect thereof by the due date for payment; or
 - (c) has failed to comply with any condition that is to be observed and performed by the holder under or in respect of the mining lease, other than a condition with respect to matters referred to in subsection (2)(a) or (b);
- the Minister may—
- (d) cancel the mining lease; or
 - (e) impose on the holder a penalty not exceeding 1500 penalty units.
- (2) If the Minister considers that the holder of a mining lease—

[s 309]

- (a) in any rental year has failed after notice given to the holder in accordance with section 290(5) to pay before 1 December of that rental year the amount of the rental payable under that section by that date in respect of that mining lease; or
- (b) has failed to pay a penalty imposed on the holder pursuant to subsection (1)(e) within the time allowed for the payment by the Minister;

the Minister may cancel the mining lease.

- (3) The Minister shall not act pursuant to subsection (1) until the Minister has, by notice in writing in the approved form served on the holder of the mining lease, called upon the holder to show cause within the time specified therein why the mining lease should not be cancelled or a penalty imposed and served a copy of the notice on every person who currently holds a recorded interest in respect of the mining lease at the person's address last recorded by the chief executive and such cause has not been shown to the satisfaction of the Minister.
- (4) When the Minister pursuant to this section cancels a mining lease the Minister shall notify the holder and every person who holds a recorded interest in respect of the mining lease accordingly stating the reason for the cancellation.
- (5) The cancellation of a mining lease under this section shall take effect on the day next following the Minister's determination to cancel the mining lease.

309 Surrender of mining lease

- (1) The holder of a mining lease may apply to surrender the mining lease or any part of the area of the mining lease at any time before the expiration of its term.
- (2) The holder of a mining lease who desires to surrender a mining lease or any part of the area of the mining lease shall lodge with the chief executive—
 - (a) a notice of surrender in the approved form; and

-
- (b) for the surrender of the whole of the area of the mining lease—
 - (i) a properly completed royalty return, unless it has already been lodged under section 320(4); and
 - (ii) either—
 - (A) the royalty payable to the State under section 320(3)(a), unless it has already been paid; or
 - (B) evidence that the royalty has been paid to another person entitled to the royalty under section 320(3)(b); and
 - (c) the fee prescribed under a regulation.
- (4) The Minister may, by written notice, give the mining lease holder directions about carrying out improvement restoration for the mining lease.
 - (5) A purported surrender of a mining lease or of any part of the area of a mining lease shall not be effective unless—
 - (a) the holder has complied with this section; and
 - (b) the Minister consents to the surrender.
 - (6) However, the Minister may give the consent only if the Minister is satisfied—
 - (a) the holder has complied with the condition to carry out improvement restoration for the mining lease; and
 - (b) the relevant environmental authority has been cancelled or surrendered under the Environmental Protection Act.
 - (7) If a mining lease is surrendered for only part of the area of the lease—
 - (a) the mining lease continues in force for the part of the area not surrendered; and
 - (b) details of the surrender must be—
 - (i) recorded in the register; and

[s 309]

- (ii) if an instrument of lease has been issued—endorsed on the instrument of lease by the chief executive.
- (8) Upon a surrender of a mining lease, all adjustments between the holder and the Crown in respect of the payment of rental, fees and other moneys shall be at the discretion of the Minister.
 - (9) Where any moneys are specified pursuant to subsection (8) as a debt due to the Crown, the Minister may direct that the security deposited in accordance with section 277 may be utilised for payment thereof.
 - (10) Nothing in this section shall prevent the Crown from recovering moneys from a person specified in subsection (8) as liable to pay and unpaid (whether directly or through utilisation of the security deposit) by action in the Land Court.
 - (11) In a proceeding for the recovery of an amount owing to the State under this Act, a certificate signed by the chief executive stating the amount of the debt is evidence of the amount of the debt.
 - (12) Where, at the time when the holder of a mining lease purports to surrender the mining lease or a part of the area of the mining lease, the holder applies for a new mining claim or mining lease for the whole or part of the area of the current mining lease, the purported surrender shall take effect immediately prior to the grant of the new mining claim or mining lease.
 - (13) Nothing in section 232 shall prevent a holder of a mining lease, at the time the holder surrenders the mining lease or part of the area of the mining lease, from applying for the grant of a mining lease over the whole or part of the area of the surrendered mining lease and the grant of the mining lease applied for.
 - (14) A surrender of a mining lease (other than a surrender referred to in subsection (12)) shall take effect on the day next following its acceptance by the Minister.

310 Minerals taken become property of holder of mining lease

All minerals lawfully mined under the authority of a mining lease cease to be the property of the Crown or person who had property therein and become the property of the holder of the mining lease subject however to the rights to royalty payments under this Act of the Crown or any other person.

311 Royalties in respect of minerals taken under mining lease

The holder of a mining lease shall pay in respect of all minerals mined or purported to be mined under the authority of the mining lease, the royalty prescribed pursuant to chapter 11.

312 Effect of termination of mining lease

- (1) This section applies on the termination of a mining lease.
- (2) However, this section does not apply to a mining lease if the termination is for granting a mining claim or a new mining lease over the area of the terminated lease to the holder of the terminated lease.
- (3) The person who was the holder of the terminated mining lease immediately before its termination must immediately remove each post or other thing used to mark the land under this Act (other than a survey mark or anything else required under another Act not to be removed).
- (4) On the termination of the mining lease, the ownership of all mineral and property on the land in the area of the terminated lease divests from the owner and vests in the State.
- (5) However, subsection (4) applies to property only if it was brought on to the land under the terminated mining lease.

[s 313]

313 Application for approval to remove mineral and property

- (1) This section applies to mineral and property that vests in the State on the termination of a mining lease.
- (2) Anyone who had an interest in the mineral or property immediately before its ownership vests in the State may apply in writing to the chief executive for the Minister's permission to remove the mineral or property from the land.
- (3) The application—
 - (a) must be made within 20 business days (or a longer period, of not more than 3 months, allowed by the Minister) after the mineral or property vests in the State; and
 - (b) may be made even though a subsequent grant of a mining claim, exploration permit, mineral development licence or mining lease is made over for the land.
- (4) The Minister may approve or refuse to approve the application.
- (5) However, the Minister must approve the application if the Minister is satisfied—
 - (a) the person was entitled to the mineral or property immediately before it vested in the State; and
 - (b) there is enough security to meet the costs for which it was deposited.

Note—

For the provision of security, see section 277.

- (6) The approval may be given on conditions stated in it.
- (7) If the application is approved, the person named in the approval may enter the land and remove the mineral or property (other than covers, fencing, casings, linings, timbering or other things securing the safety of the land) stated in the application before the time stated in the approval ends.

-
- (8) Anything removed under subsection (7) divests from the State and vests in the person entitled to it immediately before the termination of the mining lease.
 - (9) However, mineral divests from the State and forms part of the land if it is not removed before the later of—
 - (a) the end of the time stated in an approval under this section; or
 - (b) 3 months after the mining lease's termination.

314 Property remaining on former mining lease may be sold

- (1) This section applies if the chief executive has not received an application, or has received an application that has not been granted, for approval to remove property from the site of a terminated mining lease within 3 months after the lease's termination.
- (2) The Minister may direct the chief executive to—
 - (a) sell the property by public auction or in another stated way; or
 - (b) if the property has no commercial value—dispose of or destroy it.
- (3) Proceeds of a sale are to be applied in the following order towards—
 - (a) the reasonable expenses incurred in the sale;
 - (b) the cost of rectifying actual damage for which an amount of security deposited for the terminated mining lease could have been used, but was not used, or was inadequate;
 - (c) any costs or expenses mentioned in the Environmental Protection Act, section 298 for a relevant environmental authority;
 - (d) amounts owing to the State under this Act by the former holder;

[s 316]

- (e) any other amounts owing to the State under the Environmental Protection Act for a relevant environmental authority;
 - (f) rates and charges (including interest on unpaid rates and charges) owing to a local government by the former holder for the lease;
 - (g) amounts owing to a mortgagee under a mortgage registered under this Act over the lease.
- (4) Any balance must be paid to the former holder.
 - (5) If the chief executive can not decide the identity of, or locate, a person entitled to the proceeds or part of the proceeds, the chief executive may pay the amount to the public trustee as unclaimed moneys.
- (5A) A secured party can not enforce any security interest in the proceeds of sale against an entity to whom an amount is payable under subsection (3)(a) to (e).
 - (6) Compensation is not payable for a sale, disposal or destruction under this section.
 - (7) In this section—

PPS Act means the *Personal Property Securities Act 2009* (Cwlth).

secured party has the meaning given by the PPS Act, section 10.

security interest has the meaning given by the PPS Act, section 12.

316 Mining lease for transportation through land

- (1) This section applies if a person who holds, or is an applicant for, a mining lease for a particular area—
 - (a) wants a mining lease over land that is not in the area of the person's lease for the transportation of something through, over or under the land by a pipeline, aerial

-
- ropeway, conveyor apparatus, transmission line or similar method of transport, or road; and
- (b) does not hold a prospecting permit, exploration permit or mineral development licence for the land.
- (2) The Minister may grant to a person a mining lease for the transportation of the thing through, over or under the land covered by the application for the lease if—
- (a) the Minister is satisfied the proposed lease is for a purpose associated with or arising from activities performed, or to be performed, under the person's mining lease; or
 - (b) before the person applied for the lease, the Governor in Council, under a regulation, declared the transportation of the thing through, over or under land that is not in the area of a mining lease by a pipeline, aerial ropeway, conveyor apparatus, transmission line or similar method of transport to be an activity associated with or arising from mining.
- (3) An application for a mining lease under this section must be given to the chief executive.
- (4) If land included in the application is in the area of an exploration permit or mineral development licence, the application does not have to be accompanied by the consent of the permit or licence holder, but the applicant must give written notice of the application to the permit or licence holder within 5 business days after lodging the application.
- (5) The chief executive may either completely or partly dispense with a requirement under this part for marking out the land included in the application.

 - (a) such particulars as are, by sections 245 and 246, required to accompany an application for the grant of a mining lease in so far as those particulars relate to the land used or proposed to be used as access in relation to surface area of the land the subject of the mining lease; and
 - (b) the prescribed application fee.
- (3) Where, in respect of an application for a variation of the land used or proposed to be used as access under this section, the chief executive is not satisfied that the owner of the land proposed to be used as access consents to the use, the chief executive must refer the issue of consent to the Land Court for its consideration.
- (4) The Land Court must fix a date for the hearing and immediately give written notice of the date to each of the following—
 - (a) the chief executive;
 - (b) the applicant;
 - (c) the land owner.
- (4A) The date must be at least 20 business days after the day the Land Court fixes the hearing date.

 - (a) that consent to the proposed variation should or should not be given; and
 - (b) if consent should be given—the amount (if any) of compensation payable by the holder in respect of the proposed use of that land as access.

-
- (5A) Without limiting subsection (5), the Land Court may determine that consent to the proposed variation should not be given if the court considers the variation is not in the public interest.
- (6) Subject to subsection (7), the provisions of section 281(3) to (7) apply in respect of a matter referred to the Land Court under this section as if the matter were an application referred to the Land Court under section 281(1).
- (7) In determining compensation payable under subsection (5), allowance shall be made for compensation agreed or determined to be payable in respect of the current land used as access in respect of the mining lease.
- (8) The determination of the Land Court of a matter under this section shall be final and conclusive.
- (9) In respect of an application made under this section, upon—
- (a) where the proposed access is over land of which there is an owner—

 - (ii) where the Land Court determines that consent should be granted, whether with or without compensation, compliance with any terms and conditions imposed by the Land Court to be complied with before consent is given; and
 - (b) where the proposed access is over land of which there is no owner, the chief executive determining that the variation is, in the circumstances, appropriate;
- the chief executive shall record the variation of that access in the register and advise the holder and the owner accordingly.
- (9A) Without limiting subsection (9)(a)(ii), the Land Court may impose terms and conditions to be complied with before consent is given if the court considers the condition is in the public interest.

[s 318]

- (10) An agreement made between a holder and an owner of land regarding compensation payable in respect of the proposed use of the land as access in respect of a mining lease as a result of a variation under this section shall not be effective unless and until—
- (a) it is in writing signed by or on behalf of the parties; and
 - (b) it is filed.
- (11) If an agreement referred to in subsection (10) is required by any law of Queensland to be stamped, it shall not be filed until it is stamped according to law.

 - (b) a mortgage over the mining tenement or over a share in the mining tenement;
 - (c) a release, transfer or surrender of a mortgage mentioned in paragraph (b);

 - (ii) a transfer of a sublease of the mining lease or of a share in a sublease of the mining lease.
- (2) To remove any doubt, it is declared that any transaction or commercial agreement not mentioned in subsection (1) is not a dealing with a mining tenement.

318AAQ Prohibited dealings

A dealing with a mining tenement, other than a dealing mentioned in section 318AAP(1)(e), that transfers a divided part of the area of the mining tenement is prohibited.

Examples of a divided part of the area of a mining tenement—

- a particular part of the surface of the area
- a particular strata beneath the surface of the area

318AAR Types of transfers

(1) The following transfers (each a *non-assessable transfer*) do not require assessment before being registered—

- (a) a transfer of a mining tenement or of a share in a mining tenement if—
 - (i) the transferee is an entity having the same Australian Business Number as the entity comprising all or part of the transferor; or
 - (ii) part of one holder's share in the mining tenement will be transferred to another holder of the mining tenement;
- (b) a transmission by death of a mining tenement or of a share in a mining tenement;

[s 318AAS]

- (1) A dealing with a mining tenement or an application transfer has no effect until it is registered.
- (2) A registered dealing takes effect on—
 - (a) for a dealing that is an assessable transfer—the day the transfer was approved under division 3; or
 - (b) for any other dealing—the day notice of the dealing was given to the chief executive under section 318AAT.
- (3) A registered application transfer takes effect on the day the transfer was approved under division 3.

318AAT Obtaining registration

- (1) Registration of a dealing with a mining tenement, other than an assessable transfer, may be sought by giving the chief executive a notice of the dealing in the approved form.
- (2) However, a dealing with a mining tenement prohibited under section 318AAQ can not be registered and is of no effect.
- (3) The approved form must be accompanied by the fee prescribed under a regulation.
- (4) Registration of an assessable transfer must be carried out by the chief executive.

Note—

An application transfer is an assessable transfer and must be approved by the Minister under division 3 before registration of the transfer.

318AAU Effect of approval and registration

The registration of a dealing with a mining tenement or application transfer, or an approval of an assessable transfer under division 3, allows the dealing or transfer to have effect according to its terms but does not of itself give the dealing or transfer any more effect or validity than it would otherwise have.

Division 3 Approval of assessable transfers

318AAV Indicative approval

- (1) The holder of a mining tenement, an applicant for a mining lease or the holder of an interest in an application for a mining lease may, before applying for approval of an assessable transfer for the mining tenement, application or interest, apply—
 - (a) for an indication whether the transfer is likely to be approved (an *indicative approval*); and
 - (b) if conditions are likely to be imposed on the giving of the approval—for an indication what the conditions are likely to be.
- (2) The application must be—
 - (a) made to the Minister; and
 - (b) in the approved form; and
 - (c) accompanied by—
 - (i) the information the Minister requires to make a decision; and
 - (ii) the fee prescribed under a regulation.
- (3) In deciding whether or not to give the indicative approval, the Minister must consider the matters mentioned in section 318AAX(2) as if the request were an application for approval of an assessable transfer.

[s 318AAW]

- (4) The Minister must decide whether or not to give the indicative approval and give the applicant notice of the decision.

318AAW Applying for approval of assessable transfer

- (1) The holder of a mining tenement may apply for approval of an assessable transfer for the mining tenement.
- (2) An application under subsection (1) must be—

 - (ii) if the mining tenement or a share in the mining tenement is subject to a mortgage—a written consent to the transfer by the mortgagee; and
 - (iii) for a transfer of a share in a mining tenement—a written consent to the transfer by each person, other than the transferor, who holds a share in the mining tenement; and
 - (iv) the fee prescribed under a regulation.
- (3) An applicant for a mining lease or the holder of an interest in an application for a mining lease may apply for approval of an assessable transfer for the application or interest.
- (4) An application under subsection (3) must be made to the Minister in the approved form and be accompanied by—
 - (a) a written consent to the transfer by the proposed transferee; and
 - (b) a written consent to the transfer by—

 - (c) the fee prescribed under a regulation.
- (5) However, an application under subsection (1) or (3) can not be made under this section if the proposed transferee is not an eligible person.

318AAX Deciding application

- (1) The Minister must decide whether or not to give the approval of the assessable transfer.
- (2) In deciding whether or not to give the approval, the Minister must consider—
 - (a) the application for approval and any additional information accompanying the application; and
 - (b) for an assessable transfer other than an application relating to a mining claim—whether the transferee has the human, technical and financial resources to comply with—
 - (i) if the application relates to an exploration permit—the conditions of the exploration permit under section 141; or
 - (ii) if the application relates to a mineral development licence—the conditions of the mineral development licence under section 194; or
 - (iii) if the application relates to a mining lease—the conditions of the mining lease under section 276; and
 - (c) the public interest.
- (3) However, subsection (2) does not apply if, under subsection (6) or (7), the approval is taken to have been given.
- (4) The approval may be given only if—

[s 318AAX]

- (a) the proposed transferee is—
 - (i) an eligible person; and
 - (ii) for a mining tenement for other than small scale mining activities—a registered suitable operator under the Environmental Protection Act; and
 - (b) for a transfer of a mining tenement or of a share in a mining tenement—no royalty payable under this Act by the holder of the mining tenement remains unpaid.
- (5) Also, the Minister may refuse to give the approval if the Minister is not satisfied the transferor has substantially complied with the conditions of the mining tenement.
- (6) The approval is taken to have been given if—
- (a) under section 318AAV, an indicative approval has been given for the proposed dealing; and
 - (b) subsection (4) does not prevent the giving of the approval; and
 - (c) within 3 months after the giving of the indicative approval—
 - (i) an application for approval of the assessable transfer is made; and
 - (ii) if, under section 318AAV, an indication of likely conditions was given—the conditions are complied with.
- (7) The approval is also taken to have been given if—
- (a) subsection (6)(a) and (b) is satisfied; and
 - (b) within 10 business days before the expiration of 3 months after the giving of the indicative approval, the applicant gives the chief executive—
 - (i) notice in the approved form that a proposed transferee has given a notice under the *Foreign Acquisitions and Takeovers Act 1975* (Cwlth)

-
- about a proposal that relates to the assessable transfer; and
- (ii) evidence that the proposed transferee has given the notice under that Act; and
 - (iii) a statement from the proposed transferee that the proposed transferee has not received notice about an order or decision made under that Act about the proposal; and
- (c) within 6 months after the giving of the indicative approval, subsection (6)(c)(i) and (ii) is satisfied.
- (8) Despite subsections (6) and (7), the approval of the assessable transfer is taken not to have been given if—
- (a) the request for indicative approval contained incorrect material information or omitted material information; and
 - (b) had the Minister been aware of the discrepancy, the Minister would not have given the indicative approval.

318AAY Security may be required

- (1) This section applies to an assessable transfer other than an application transfer.
- (2) The Minister may, as a condition of deciding to give the approval, require the proposed transferee to give under the following section (the *relevant section*), security for the mining tenement the subject of the transfer as if the proposed transferee were an applicant for the mining tenement—
 - (a) for an approval relating to a mining claim—section 83;
 - (b) for an approval relating to an exploration permit—section 144;
 - (c) for an approval relating to a mineral development licence—section 190;
 - (d) for an approval relating to a mining lease—section 277.

[s 318AAZ]

- (3) If the proposed transferee does not comply with the requirement, the application may be refused.
- (4) When the transfer of the mining tenement is complete, the relevant section applies to the transferee of the mining tenement as holder.

318AAZ Written notice about decision

- (1) If the Minister decides to give the approval, the Minister must give the applicant for the approval written notice of the decision.
- (2) If the Minister decides not to give the approval, the Minister must give the applicant for the approval written notice of the decision stating the following—

- (2) For subsection (1)(b), a person does not have an interest in a mining tenement only because the person is a party to an associated agreement recorded in the register against the mining tenement.

318AAZI Effect of lodging caveat

- (1) Until a caveat lapses, or is removed or withdrawn, the caveat prevents registration of a dealing with a mining tenement or an application transfer over which the caveat is lodged from the date and time endorsed by the chief executive on the caveat as the caveat's date and time of lodgement.
- (2) However, lodgement of a caveat does not prevent registration of the following—
 - (a) an instrument stated in the caveat as an instrument to which the caveat does not apply;
 - (b) an instrument if the caveator consents, in the approved form, to its registration and the consent is lodged with the chief executive;
 - (c) an instrument executed by a mortgagee whose interest was registered before lodgement of the caveat if—

-
- (i) the mortgagee has power under the mortgage to execute the instrument; and
 - (ii) the caveator claims an interest in the mining tenement as security for the payment of money or money's worth;
 - (d) an instrument of transfer of mortgage executed by a mortgagee whose interest was registered before lodgement of the caveat;
 - (e) another interest that, if registered, will not affect the interest claimed by the caveator.
- (3) The exception in subsection (2)(d) does not apply to a caveat lodged by the mining tenement holder.
- (4) Lodgement of a caveat does not create in the caveator an interest in the mining tenement, or the application for a mining lease, affected by the caveat.

318AAZJ Lapsing, withdrawal or removal of caveat

- (1) An agreed caveat lapses at the expiration of the term stated in the caveat but, if no term is stated, the caveat continues until it is withdrawn or removed.
- (2) A caveat that is not an agreed caveat lapses—
 - (a) if an order of the Land Court is in force in relation to the caveat—at the expiration of the order; or
 - (b) otherwise—at the expiration of 3 months after the date of lodgement of the caveat or a shorter term stated in the caveat.
- (3) A caveator may withdraw the caveat by notifying the chief executive in writing.
- (4) An affected person for a caveat may apply to the Land Court for an order that the caveat be removed.
- (5) The Land Court may make the order whether or not the caveator has been served with the application, and may make the order on the terms it considers appropriate.

[s 318AAZK]

(6) If a caveat is withdrawn, lapses or is ordered to be removed, the chief executive must record the withdrawal, lapse or removal in the register.

(7) In this section—

affected person, for a caveat, means a person—

- (a) who has a right or interest (present or prospective) in the mining tenement, or the application for a mining lease, the subject of the caveat; or
- (b) whose right (present or prospective) to deal with the mining tenement, or the application for a mining lease, the subject of the caveat is affected by the caveat.

agreed caveat means a caveat to which—

- (a) for a caveat affecting a mining tenement—each holder of the mining tenement the subject of the caveat has consented, if the consent has been lodged with the caveat; or
- (b) for a caveat affecting an application for a mining lease—each applicant for the application the subject of the caveat has consented, if the consent has been lodged with the caveat.

318AAZK Further caveat not available to same person

- (1) This section applies if a caveat (the ***original caveat***) is lodged in relation to an interest.
- (2) A further caveat with the same caveator can never be lodged in relation to the interest on the same, or substantially the same, grounds as the grounds stated in the original caveat unless—
 - (a) for a caveat affecting a mining tenement—the consent of each holder of the mining tenement the subject of the caveat has been lodged with the caveat; or
 - (b) for a caveat affecting an application for a mining lease—the consent of each applicant for the application

the subject of the caveat has been lodged with the caveat; or

- (c) generally—the leave of a court of competent jurisdiction to lodge the further caveat has been granted.

318AAZL Compensation for lodging caveat without reasonable cause

A person who lodges a caveat in relation to a mining tenement or an application for a mining lease without reasonable cause is liable to compensate anyone else who suffers loss or damage because of the caveat.

Part 4 Appeals about approvals of assessable transfers

318AAZM Who may appeal

- (1) A person whose interests are affected by a decision of the Minister to refuse to approve an assessable transfer may appeal against the decision to the Land Court.
- (2) For this section, a person who has been given or is entitled to be given a notice about the decision under section 318AAZ is taken to be a person whose interests are affected by the decision.

318AAZN Period to appeal

- (1) The appeal must be started within 20 business days after—
 - (a) if the person has been given a notice about the decision—the day the person is given the notice; or
 - (b) if paragraph (a) does not apply—the day the person otherwise becomes aware of the decision.

[s 318AAZO]

- (2) However, the Land Court may at any time within the 20 business days extend the period for starting the appeal.

318AAZO Starting appeal

- (1) The appeal is started by filing a written notice of appeal with the Land Court.
- (2) The appellant must give the chief executive a copy of the notice.

318AAZP Stay of operation of decision

- (1) The Land Court may grant a stay of the decision to secure the effectiveness of the appeal.
- (2) A stay—
 - (a) may be given on the conditions the Land Court considers appropriate; and
 - (b) operates for the period fixed by the Land Court; and
 - (c) may be amended or cancelled by the Land Court.
- (3) The period of a stay under this section must not extend past the time when the Land Court decides the appeal.
- (4) The appeal affects the decision or carrying out of the decision only if it is stayed.

318AAZQ Hearing procedures

- (1) In deciding an appeal, the Land Court—
 - (a) has the same powers as the Minister; and
 - (b) is not bound by the rules of evidence; and
 - (c) must comply with natural justice; and
 - (d) may hear the appeal in court or in chambers.
- (2) An appeal is by way of rehearing unaffected by the decision.

-
- (3) Subject to subsections (1) and (2), the procedure for the appeal is—
 - (a) in accordance with the rules for the Land Court; or
 - (b) in the absence of relevant rules, as directed by the Land Court.
 - (4) A power under an Act to make rules for the Land Court includes power to make rules for appeals under this part.

318AAZR Land Court's powers on appeal

- (1) In deciding an appeal under this part, the Land Court may—
 - (a) confirm the decision; or
 - (b) set aside the decision and substitute another decision; or
 - (c) set aside the decision and return the issue to the Minister with the directions the court considers appropriate.
- (2) If the Land Court substitutes another decision, the substituted decision is for this Act, other than this part, taken to be the decision of the Minister.

Chapter 8 Provisions for coal seam gas

Part 1 Preliminary

Division 1 Introduction

318A Main purposes of ch 8

The main purposes of this chapter are, in conjunction with the

[s 318AA]

Petroleum and Gas (Production and Safety) Act, chapter 3, and the *Petroleum Act 1923*, part 6F, to—

- (a) clarify rights under this Act to mine coal seam gas; and

Note—

For the limited entitlement to mine coal seam gas under this Act, see part 8, division 1.

- (b) address issues arising for coal seam gas mining under this Act, and, in particular, issues arising when a coal mining lease or an oil shale mining lease and a petroleum lease are granted over the same area; and

- (c) provide security of tenure to protect existing operations and investments relating to coal, oil shale and petroleum; and

Note—

See also chapter 15, part 2, division 6.

- (d) provide certainty of tenure for future investments relating to coal, oil shale and petroleum; and

- (e) optimise the development and use of the State's coal, oil shale and petroleum resources to maximise the benefit for all Queenslanders; and

- (f) ensure, if it is commercially and technically feasible, the grant of coal mining leases and oil shale mining leases that may affect petroleum exploration or production, or proposed petroleum exploration or production, optimises the commercial use of coal, oil shale and petroleum resources in a safe and efficient way.

Note—

For provisions regulating the safety of coal seam gas exploration or production, see the *Coal Mining Safety and Health Act 1999* and the Petroleum and Gas (Production and Safety) Act, chapter 9.

318AA How main purposes are achieved

- (1) The main purposes of this chapter are achieved by—

-
- (a) ensuring commercial coal seam gas production (other than for use for mining under a coal mining lease or an oil shale mining lease) is carried out under a relevant petroleum lease; and

Note—

See, however, chapter 15, part 2, division 6.

- (b) providing for processes to decide the priority of overlapping coal mining leases or oil shale mining leases and petroleum tenure applications or potential applications; and
 - (c) imposing additional requirements for deciding the overlapping applications; and
 - (d) requiring proposed development plans to accompany all coal mining lease and oil shale mining lease applications; and
 - (e) imposing restrictions on the authorised activities for particular coal or oil shale mining tenements; and
 - (f) imposing additional—
 - (i) requirements relating to development plans for coal mining leases and oil shale mining leases; and
 - (ii) conditions on coal or oil shale mining tenements.
- (2) The following are also relevant to the achievement of the purposes—
- (a) section 3A and chapter 15, part 2, division 6;
 - (b) the Petroleum and Gas (Production and Safety) Act, section 10, chapter 2, part 8 and chapter 3.

318AB Relationship with ch 4–6 and ch 7, pt 1

- (1) Requirements and restrictions under this chapter apply as well as any relevant requirements and restrictions under chapters 4 to 6 and chapter 7, part 1.

[s 318AC]

- (2) If this chapter imposes a requirement for, or a restriction on, the granting, renewal, consolidation, transfer or subleasing of a coal or oil shale mining tenement, the mining tenement can not be granted, renewed, consolidated, transferred or subleased if the restriction applies or if the requirement has not been complied with.
- (3) If this chapter imposes a requirement for, or a restriction on, the carrying out of an authorised activity for a coal or oil shale mining tenement, despite chapters 4 to 6 and chapter 7, part 1, the activity is not an authorised activity for the tenure while the restriction applies or if the requirement has not been complied with.
- (4) If a provision of this chapter conflicts with a provision of chapters 4 to 6 and chapter 7, part 1, the provision of this chapter prevails to the extent of the inconsistency.

Division 2 Definitions for chapter 8

318AC What is *coal seam gas* and *incidental coal seam gas*

- (1) *Coal seam gas* is a substance (in any state) occurring naturally in association with coal or oil shale, or with strata associated with coal or oil shale mining, if the substance is petroleum under the Petroleum and Gas (Production and Safety) Act.

- (3) Subsections (1) and (2)(a) apply whether or not the permit, licence or lease is also granted for another mineral.

318AG What is a *coal or oil shale mining tenement*

A *coal or oil shale mining tenement* is—

- (a) a coal or oil shale exploration tenement; or
- (b) a coal mining lease or an oil shale mining lease.

318AH What is a *development plan and its plan period*

- (1) The *development plan*, for a coal mining lease or an oil shale mining lease, is its current initial or later development plan, as approved under part 9.
- (2) For subsection (1), the development plan is current if the period to which the plan applies has started and has not ended.

Note—

See also sections 318DK and 318EE.

- (3) The period to which a development plan applies is its *plan period*.

- (e) social impacts;
- (f) the overall economic benefit for the State, or a part of the State, in the short and long term.

Division 3 Relationship with particular special agreement Acts

318AL Application of ch 8 to grant of special coal mining lease under Central Queensland Coal Associates Agreement Act 1968

- (1) This chapter applies to the granting of a special coal mining lease under the *Central Queensland Coal Associates Agreement Act 1968* (the *CQCA Act*).
- (2) If this chapter imposes a requirement for, or a restriction on, the granting of a special coal mining lease under the CQCA Act, the lease can not be granted if the restriction applies or if the requirement has not been met.

[s 318AM]

- (3) For this section, the grant of a lease includes an addition to the land subject to an existing special coal mining lease granted under the special agreement Act.
- (4) This section applies despite any provision of the CQCA Act.

318AM Chapter prevails over special agreement Acts

If a provision of this chapter conflicts with a provision of an Act or agreement mentioned in section 318AE(2)(b), the provision of this chapter prevails to the extent of the inconsistency.

318AN No compensation

- (1) No amount, whether by way of compensation, reimbursement or otherwise is payable by the State to any person for or in connection with the enactment or operation of this division or section 318AE(2)(b).
- (2) Subsection (1) applies despite any provision of a special agreement Act and despite any other Act or law.

Part 2

Obtaining coal or oil shale mining lease over land in area of authority to prospect (other than by or jointly with, or with the consent of, authority to prospect holder)

Division 1 Preliminary

318AO Application of pt 2

- (1) This part applies if a person wishes to apply for a coal mining lease or an oil shale mining lease for all or part of the land in the area of an authority to prospect.
- (2) However, this part does not apply if—
 - (a) the person is the authority to prospect holder; or
 - (b) the application is to be made jointly with the holder; or
 - (c) the application is made with the holder's written consent; or
 - (d) the land is also in the area of a petroleum lease and the same person holds the authority to prospect and the petroleum lease.

Notes—

- 1 For the circumstances mentioned in subsection (2)(a) to (c), see part 3.
- 2 For the circumstance mentioned in subsection (2)(d), see part 6.

Division 2 Provisions for making coal or oil shale mining lease application

318AP Additional requirements for making application

- (1) The application must include—

 - (ii) the technical and commercial feasibility of coordinated petroleum production and coal or oil shale mining from the land; and
 - (b) a proposed development plan that complies with the initial development plan requirements; and

Note—

For requirements for proposed initial development plans, see part 9, division 2.

- (c) other information that addresses the matters mentioned in subsection (2) (the *CSG assessment criteria*), other than the matter mentioned in subsection (2)(c)(iii).
- (2) The CSG assessment criteria are—
 - (a) the initial development plan requirements; and
 - (b) the legitimate business interests of the applicant and the authority to prospect holder (the *parties*); and

Examples of a party's legitimate business interests—

- 1 contractual obligations
 - 2 the effect on, and use of, existing infrastructure or mining or production facilities
 - 3 exploration expenditure on relevant overlapping tenures
- (c) the effect of the proposed mining lease on the future development of petroleum resources in the land, including for example, each of the following—

-
- (i) the proposed timing and rate of coal or oil shale mining and the development of petroleum from the land;
 - (ii) the potential for the parties to make a coordination arrangement about—
 - (A) coal or oil shale mining and any incidental coal seam gas mining under the proposed mining lease; and
 - (B) petroleum production under any future petroleum lease over the land;
 - (iii) the attempts required of the applicant under section 318AT(1)(b) and any change of the type mentioned in section 318AT(1)(c);
 - (iv) the economic and technical viability of the concurrent or coordinated coal or oil shale mining and the development of any petroleum from the land;

- (3) For subsection (2), if the proposed mining lease is to be granted under section 234(1)(b) for a purpose associated with, arising from or promoting the activity of mining, a reference to mining in the land includes a reference to mining in other land associated with the lease.

Division 3 Provisions for applications in particular circumstances

318AQ Applications relating to authority to prospect and petroleum lease not held by same person

- (1) This section applies if a person to whom this part applies wishes to make an application to which this part applies—
 - (a) for land in the area of each of the following—
 - (i) the authority to prospect (the *authority to prospect part*);
 - (ii) a petroleum lease (the *petroleum lease part*); and
 - (b) the authority to prospect and the petroleum lease are not held by the same person.

Note—

If the authority to prospect and the petroleum lease are held by the same person, see part 6.

- (2) The person may lodge separate mining lease applications for the authority to prospect part and the petroleum lease part.
- (3) A separate application for the authority to prospect part, or the part of an application that relates to the authority to prospect part, must be decided under this part.
- (4) A separate application for the petroleum lease part, or the part of an application that relates to the petroleum lease part, must be decided under part 5 or 6.

318AR Applications relating to other land

- (1) This section applies if a person to whom this part applies wishes to make an application to which this part applies and the proposed application includes land (the *other part*) not in the area of another petroleum tenure.
- (2) The person may lodge a separate mining lease application for the other part.

- (3) A separate application for the other part, or the part of an application that relates to the other part, must be decided under chapter 6, part 1.

Division 4 **Obligations of applicant and authority to prospect holder**

318AT Applicant's obligations

- (1) The applicant must—
- (a) within 10 business days after making the application, give the authority to prospect holder a copy of the application, other than the part of the application consisting of the statement mentioned in section 245(1)(o)(iv); and
 - (b) use reasonable attempts to—
 - (i) consult with the authority to prospect holder about the applicant's proposed development plan; and
 - (ii) make an appropriate arrangement with the authority to prospect holder about testing for petroleum production carried out, or proposed to be carried out, by the authority to prospect holder (a *testing arrangement*); and

Example of testing—

production testing

Note—

For confidentiality obligations of tenure holders or persons who have applied for a tenure, see part 10.

- (c) change the proposed development plan to give effect to any reasonable proposal by the authority to prospect holder that will optimise petroleum production under any future petroleum lease over the land; and
- (d) within 4 months after making the application, lodge a written notice stating each of the following—

- (i) the details of the consultation;
 - (ii) the results of the consultation;
 - (iii) any comments the applicant wishes to make about any submissions lodged by the authority to prospect holder, under section 318AX;
 - (iv) any changes to the proposed development plan;
 - (v) if a testing arrangement has been made—details of the arrangement;
 - (vi) if a testing arrangement has not been made—details of the attempts made to make a testing arrangement;
 - (vii) the applicant’s assessment of the potential of the applicant and the authority to prospect holder to make a coordination arrangement about—
 - (A) coal or oil shale mining and any incidental coal seam gas mining under the proposed mining lease; and
 - (B) petroleum production under any future petroleum lease over the land.
- (2) However, the obligations under subsection (1)(b)(ii) and (c) apply only to the extent the provisions or arrangement are commercially and technically feasible for the applicant.
- (3) For subsection (1)(b)(ii), it is appropriate for the testing arrangement to give the authority to prospect holder the right to carry out testing for petroleum production to help the holder make, or allow the deciding of, an application under the Petroleum and Gas (Production and Safety) Act, chapter 2, part 1, division 6.

Note—

See the Petroleum and Gas (Production and Safety) Act, chapter 2, part 1, division 6 (Potential commercial areas).

- (4) However, subsection (3) does not require the applicant to agree to testing having a duration of more than 12 months.

318AU Minister may require further negotiation

- (1) The Minister may, after receiving the notice under section 318AT(1)(d), require the applicant to conduct negotiations with the authority to prospect holder with a view to—
 - (a) making a testing arrangement mentioned in section 318AT(1)(b)(ii); or
 - (b) making changes of a type mentioned in section 318AT(1)(c).
- (2) The applicant must use all reasonable attempts to comply with the requirement.

318AV Consequence of applicant not complying with obligations or requirement

If the Minister is reasonably satisfied the applicant has not complied with an obligation under section 318AT or 318AU, the application may be rejected.

Note—

For confidentiality obligations of tenure holders or persons who have applied for a tenure, see part 10.

318AW Authority to prospect holder's obligations

The authority to prospect holder must—

- (a) within 20 business days after receiving a copy of the application, give the applicant basic information the authority holder has about the following that the applicant may reasonably need to comply with sections 318AP and 318AT—
 - (i) the type of exploration activities carried out, or proposed to be carried out under the authority;
 - (ii) petroleum in the land; and
- (b) after receiving a copy of the application, use reasonable attempts to reach an agreement with the applicant, about the matters mentioned in section 318AT(1)(b) and (c),

that provides the best resource use outcome without significantly affecting the parties' rights or interests.

318AX Submissions by authority to prospect holder

- (1) The authority to prospect holder may lodge submissions about the application.
- (2) However, the submissions may be lodged only within 3 months after the holder is, under section 318AT(1)(a), given a copy of the application (the *submission period*).
- (3) The submissions may—
 - (a) state that the holder does not object to the granting of the proposed mining lease; and
 - (b) state that the holder does not wish any preference for the future development of petroleum production from the land (*petroleum development preference*); and
 - (c) include information about all or any of the following—
 - (i) exploration carried out under the authority;
 - (ii) the results of the exploration;
 - (iii) the prospects for future petroleum production from the land; and
 - (d) include a proposal by the authority to prospect holder for petroleum production from the land; and
 - (e) include information relevant to the CSG assessment criteria.

Note—

For confidentiality obligations of tenure holders or persons who have applied for a tenure, see part 10.

- (4) The holder must give the applicant a copy of the submissions.
- (5) In deciding the application, regard must be had to the submissions.

Division 5 Priority for earlier petroleum lease application or proposed application

318AY Earlier petroleum lease application

- (1) If—
- (a) before the making of the mining lease application, a petroleum lease application was made for the land; and
 - (b) the petroleum lease application complies with the Petroleum and Gas (Production and Safety) Act; and
 - (c) the petroleum lease application has not been decided;
- a certificate of public notice can not be issued for the mining lease application until the petroleum lease application has been decided.
- (2) However, subsection (1) does not apply if—
- (a) the mining lease application was made in response to an invitation in a notice given under the Petroleum and Gas (Production and Safety) Act, section 323 and the application was made within 6 months after the giving of the notice; or
 - (b) the petroleum lease applicant has given written consent to the mining lease application.

Note—

See, however, the Petroleum and Gas (Production and Safety) Act, chapter 3, part 2, division 3 (Petroleum lease applications in response to Mineral Resources Act preference decision) and section 315 (Earlier coal or oil shale mining lease application).

318AZ Proposed petroleum lease for which EIS approval given

- (1) This section applies if—
- (a) before the making of the mining lease application, an approval under the Environmental Protection Act, chapter 3, part 2, was granted for the voluntary

- preparation of an EIS for a project that is, or includes, a proposed petroleum lease for the land; and
- (b) the proponent for the EIS—
 - (i) is, or includes, the authority to prospect holder; or
 - (ii) is someone else who has the authority holder's consent.
- (2) A certificate of public notice can not be issued for the mining lease application until an application for the proposed petroleum lease is decided.
- (3) However, subsection (2) ceases to apply if—
- (a) the proponent of the EIS does not make a petroleum lease application for the land within 1 year after the granting of the approval; or
 - (b) a petroleum lease application for the land is made within the period mentioned in paragraph (a) and—
 - (i) it does not comply with the Petroleum and Gas (Production and Safety) Act; or
 - (ii) it is decided; or
 - (c) the proponent for the EIS has given written consent to the mining lease application.

318B Proposed petroleum lease declared a coordinated project

- (1) This section applies if—
- (a) before the making of the mining lease application, a project is declared a coordinated project under the *State Development and Public Works Organisation Act 1971* that is, or includes, a proposed petroleum lease for the land; and

Note—

See the *State Development and Public Works Organisation Act 1971*, section 26 (Declaration of coordinated project).

- (b) the proponent for the coordinated project—

-
- (i) is, or includes, the authority to prospect holder; or
 - (ii) is someone else who has the authority holder's consent.
 - (2) A certificate of public notice can not be issued for the mining lease application until the application for the proposed petroleum lease is decided.
 - (3) However, subsection (2) ceases to apply if—
 - (a) the proponent of the coordinated project does not make a petroleum lease application for the land within 1 year after the making of the declaration; or
 - (b) a petroleum lease application for the land is made within the period mentioned in paragraph (a) and—
 - (i) it does not comply with the Petroleum and Gas (Production and Safety) Act; or
 - (ii) it is decided; or
 - (c) the proponent of the coordinated project has given written consent to the mining lease application.

Division 6 Ministerial decision about whether to give any preference to petroleum development

318BA When preference decision is required

- (1) This division applies for the application only if the Minister is satisfied of each of the following—
 - (a) there is a resource or reserve (the *deposit*) of petroleum in the land;
 - (b) the deposit has been identified under the relevant codes;
 - (c) there is the level of knowledge about the deposit, as prescribed under a regulation;

- (d) the location, quantity, quality, geological characteristics and continuity of the deposit are known, or have been estimated or interpreted, from specific geological evidence and knowledge;
 - (e) there are reasonable prospects for the eventual economic production of the deposit.
- (2) However, this division does not apply if—
- (a) the authority to prospect holder has not complied with section 318AW(a); or
 - (b) the authority to prospect holder has, under section 318AX, lodged a submission stating that the holder does not wish any petroleum development preference for the land; or
 - (c) the authority to prospect holder has not lodged any submission under section 318AX within the submission period.
- (3) If the Minister decides that the Minister is not satisfied as mentioned in subsection (1), the authority holder must be given notice of the decision.
- (4) In this section—
- relevant codes*** means any of the following—
- (a) the following documents published by the Society of Petroleum Engineers (***SPE***), as amended and published from time to time—
 - (i) the document called ‘Petroleum Resources Classification System and Definitions’;
 - (ii) the documents called ‘Petroleum Reserves Definitions’ and ‘Standards Pertaining to the Estimating and Auditing of Oil and Gas Reserve Information’;

Editor’s note—

The SPE’s website address is <www.spe.org>.

- (b) another document (however called) published by SPE that amends or replaces the documents mentioned in paragraph (a);
- (c) if a document mentioned in paragraph (a) or (b) stops being published—another similar document prescribed under a regulation.

Notes—

- 1 If the Minister is not satisfied as mentioned in subsection (1), the application can be decided under chapter 6, part 1.
- 2 If this subdivision does not apply because of subsection (2), the application can be decided under chapter 6, part 1 and division 8.

318BB Decision about whether to give any preference to petroleum development

- (1) Subject to section 318BC, the Minister must decide whether to—
 - (a) grant the mining lease under section 271A; or
 - (b) give any petroleum development preference for the land, in whole or part.
- (2) The decision under subsection (1) is the *preference decision*.
- (3) In making the preference decision the CSG assessment criteria must be considered.
- (4) If, under the Petroleum and Gas (Production and Safety) Act, chapter 3, part 2, division 1, subdivision 6, coal or oil shale development preference has been given for the land, the preference decision is taken to be not to give any petroleum development preference for any of the land.

318BC Reference to Land Court before making preference decision

- (1) Before making the preference decision—
 - (a) the chief executive must refer the application to the Land Court for it to make recommendations to the

Minister about what the preference decision should be;
and

- (b) the Minister must consider the recommendations.
- (2) The referral must be made by filing a notice in the approved form with the registrar of the Land Court.
- (3) The referral starts a proceeding before the Land Court for it to make the recommendations.
- (4) The parties to the proceeding are the applicant and the authority to prospect holder.
- (5) In making the recommendations—
 - (a) the CSG assessment criteria must be considered; and
 - (b) section 318BD applies as if a reference in the section—
 - (i) to the Minister were a reference to the Land Court; and
 - (ii) to petroleum development preference were a reference to recommending petroleum development preference.
- (6) The recommendations may also include recommendations about the conditions and term of the mining lease.

318BD Restrictions on giving preference

- (1) Petroleum development preference, in whole or part, must not be given unless this section has been complied with.
- (2) Petroleum development preference may be given only if the Minister is satisfied of each of the following—
 - (a) on the basis of the submissions and the results of consultation lodged under sections 318AT and 318AX, it is either not commercially or technically feasible or it is unlikely that the applicant and the authority holder are able to make a future coordination arrangement about—

-
- (i) coal or oil shale mining and any incidental coal seam gas mining under the proposed mining lease; and
 - (ii) petroleum production under any future petroleum lease for the land;
- (b) that, having regard to the public interest, the public interest in the following would be best served by not granting a mining lease to the mining lease applicant first—
- (i) coal or oil shale mining and any incidental coal seam gas mining;
 - (ii) petroleum production;
- (c) if the petroleum is a brownfield petroleum resource—
- (i) it is critical to the continuance of existing petroleum production or processing or the efficient use of infrastructure related to the production or processing; and
 - (ii) the applicant's proposed development plan is incompatible with the future development of the resource;
- (d) if the petroleum is a greenfield petroleum resource—
- (i) it is commercially viable; and
 - (ii) petroleum production will, if a petroleum lease is granted to the authority to prospect holder, start within 2 years after the grant of the lease.
- (3) In this section—

brownfield petroleum resource means petroleum associated with, or adjacent to, existing petroleum production or a processing operation under the Petroleum and Gas (Production and Safety) Act.

greenfield petroleum resource means petroleum not associated with, or adjacent to, existing petroleum production

or a processing operation under the Petroleum and Gas (Production and Safety) Act.

Division 7 Process if preference decision is to give any preference to petroleum development

318BF Application of div 7

This division applies only if, under section 318BA, a preference decision is required and that decision was to give petroleum development preference for the whole or part of the land.

318BG Notice to applicant and authority to prospect holder

- (1) The mining lease applicant and the authority to prospect holder must be given written notice of the preference decision.
- (2) The notice must invite the authority to prospect holder to, within 6 months after the giving of the notice (the *petroleum lease application period*), apply for a petroleum lease for—
 - (a) if the preference is for all of the land—all of the land; or
 - (b) if the preference is for part of the land—that part.

318BH Petroleum lease application for all of the land

- (1) This section applies if the preference is for all of the land and, within the petroleum lease application period, the authority to prospect holder applies for a lease for all of the land.
- (2) A further step can not be taken to decide the mining lease application until after the petroleum lease application has been decided.

Note—

See, however, Petroleum and Gas (Production and Safety) Act, chapter 3, part 2, division 3 (Petroleum lease applications in response to Mineral Resources Act preference decision).

- (3) If the decision on the petroleum lease application is to grant a petroleum lease for all of the land, the mining lease application is taken to have lapsed, unless the petroleum lease applicant has consented in writing to the application.

318BI Petroleum lease application for part of the land

- (1) This section applies if the authority to prospect holder applies for a petroleum lease for part of the land within the petroleum lease application period.
- (2) The mining lease applicant may, by notice lodged with the chief executive, amend the mining lease application so that a mining lease is only sought for all or part of the rest of the land.
- (3) Unless the amendment is made, a further step can not be taken to decide the mining lease application until after the petroleum lease application has been decided.

Note—

See, however, the Petroleum and Gas (Production and Safety) Act, chapter 3, part 2, division 3 (Petroleum lease applications in response to Mineral Resources Act preference decision).

- (4) If—
 - (a) the amendment has not been made; and
 - (b) the decision on the petroleum lease application is to grant a petroleum lease for part of the land;

the mining lease applicant may amend the mining lease application so that a mining lease is only sought for all or part of the rest of the land.

Note—

See, however, section 318CB.

318BJ No petroleum lease application

If the authority to prospect holder does not apply for a petroleum lease for any of the land within the petroleum lease application period, the mining lease application may be decided.

Division 8 Deciding mining lease

318BK Application of div 8

This division applies if—

- (a) the authority to prospect holder has not complied with section 318AW(a); or
- (b) the authority to prospect holder has, under section 318AX, lodged a submission stating that the holder does not wish any petroleum development preference for the land; or
- (c) the authority to prospect holder has not lodged any submission under section 318AX within the submission period; or
- (d) under section 318BA, a preference decision is required and—
 - (i) the preference decision was not to give petroleum development preference for any of the land; or
 - (ii) the preference decision was to give petroleum development preference for the whole or part of the land and, after division 7 is complied with, the Minister decides, under section 271A, to grant a coal mining lease or an oil shale mining lease for the land.

318BL Additional criteria for deciding conditions or term

- (1) In making a decision as follows, regard must be had to the prescribed criteria—
 - (a) deciding conditions of the mining lease under section 276(1)(m);
 - (b) deciding the term of the lease under section 284.
- (2) This section does not limit the power under section 276(1)(m) to determine conditions of the mining lease.
- (3) In this section—

prescribed criteria means each of the following—

- (a) the CSG assessment criteria;
- (b) the effect of the mining lease on safe and efficient petroleum production under any adjacent lease;
- (c) the effect on safe and efficient petroleum production under any future petroleum lease that arises from the authority to prospect.

318BM Power to determine relinquishment condition

- (1) A condition of the mining lease determined under section 276(1)(m) may be that its holder is required, by a lodged notice, to relinquish a stated part or percentage of its area at stated times or intervals.

Note—

See, however, section 318CZ.

- (2) A condition determined under subsection (1) is called a *relinquishment condition*.

Note—

See also section 318CX.

- (3) A relinquishment under a relinquishment condition takes effect on the day after the notice is lodged.

- (4) This section does not limit the power under section 276(1)(m) to determine conditions of the mining lease.

318BN Publication of outcome of application

- (1) After the Minister decides whether to grant the mining lease, the chief executive must publish a notice about the outcome of the application in the gazette or another publication the Minister considers appropriate.
- (2) The notice must state—
- (a) whether the Minister decided to grant, or not to grant, the mining lease; and
 - (b) if the decision was to grant—the conditions decided by the Minister; and
 - (c) if, under section 318BA, a preference decision is required and the preference decision was to give petroleum development preference for the whole or part of the land—the decision, and the reasons for it.
- (3) However, if the chief executive considers that information in any condition is commercial-in-confidence, the chief executive may, instead of publishing the condition, publish a statement about the intent of the condition.

Part 3 Obtaining coal or oil shale mining lease over land in area of authority to prospect (by or jointly with, or with the consent of, authority to prospect holder)

318BO Application of pt 3

- (1) This part applies if—
- (a) land is in the area of an authority to prospect; and
 - (b) a person as follows wishes to apply for a coal mining lease or an oil shale mining lease for all or part of the land—
 - (i) the holder of a coal or oil shale exploration tenement or prospecting permit;
 - (ii) a person who wishes to make the application jointly with the exploration tenement or prospecting permit holder; and
 - (c) either—
 - (i) the applicant is the authority holder; or
 - (ii) the authority holder has given written consent to the making of the application.
- (2) However, this part does not apply if the land is also in the area of a petroleum lease and the same person holds the authority to prospect and the petroleum lease.

Note—

For the circumstances mentioned in subsection (2), see part 6.

318BP Additional requirements for making application

The application must include—

- (a) a CSG statement; and
- (b) a proposed development plan that complies with the initial development plan requirements; and

Note—

See part 9, division 2.

- (c) other information that addresses the CSG assessment criteria.

318BQ Applications relating to petroleum lease and authority to prospect not held by same person

- (1) This section applies if—
 - (a) a person to whom this part applies wishes to make an application to which this part applies for land in the area of each of the following—
 - (i) the authority to prospect (the *authority to prospect part*);
 - (ii) a petroleum lease (the *petroleum lease part*); and
 - (b) the authority to prospect and the petroleum lease are not held by the same person.

Note—

If the authority to prospect and the petroleum lease are held by the same person, see part 5.

- (2) The person may lodge separate mining lease applications for the authority to prospect part and the petroleum lease part.
- (3) A separate application for the authority to prospect part, or the part of an application that relates to the authority to prospect part, must be decided under this part.
- (4) A separate application for the petroleum lease part, or the part of an application that relates to the petroleum lease part, must be decided under part 5 or 6.

318BR Applications relating to other land

- (1) This section applies if a person to whom this part applies wishes to make an application to which this part applies and the proposed application includes land (the *other part*) not in the area of another petroleum tenure.
- (2) The person may lodge a separate mining lease application for the other part.
- (3) A separate application for the other part, or the part of an application that relates to the other part, must be decided under chapter 6, part 1.

318BT Priority for earlier petroleum lease application or proposed application

Part 2, division 5, applies for the mining lease application.

318BU Additional criteria for deciding conditions or term

- (1) In making a decision as follows, regard must be had to the conditions of the authority to prospect, any future development proposals of the authority to prospect holder and the likelihood of coordinated production of petroleum under a future petroleum lease—
 - (a) deciding conditions of the mining lease under section 276(1)(m);
 - (b) deciding the term of the lease under section 284.
- (2) This section does not limit the power under section 276(1)(m) to determine conditions for the mining lease.

Part 4

Coal mining lease and oil shale mining lease applications in response to Petroleum and Gas (Production and Safety) Act preference decision

318BV Additional ground for refusing application

- (1) This section applies if—
 - (a) a coal or oil shale mining lease application is made in response to an invitation given under the Petroleum and Gas (Production and Safety) Act, section 323; and
 - (b) the application is made within 6 months after the giving of the invitation.

Note—

For a coal or oil shale mining lease application not made within the 6 months, see the Petroleum and Gas (Production and Safety) Act, section 326 (No mining lease application).

- (2) The Minister may refuse the application if satisfied the applicant has not, in a timely manner, taken any step in relation to the application required of the applicant under chapter 6 or this chapter.
- (3) Subsection (2) does not limit another ground for refusing the application under chapter 6 or this chapter.

Part 5

Obtaining coal or oil shale mining lease over land in area of petroleum lease (other than by or jointly with petroleum lease holder)

318BW Application of pt 5

- (1) This part applies if a person wishes to apply for a coal mining lease or an oil shale mining lease for all or part of the land in the area of a petroleum lease.
- (2) However, this part does not apply if—
 - (a) the person is the petroleum lease holder; or
 - (b) the application is to be made jointly with the holder.

Note—

For the circumstances mentioned in subsection (2), see part 6.

- (3) If—
 - (a) the land is also in the area of an authority to prospect; and
 - (b) the same person holds the petroleum lease and the authority to prospect;

a reference in this part to the petroleum lease holder includes a reference to the authority to prospect holder.

Note—

If the petroleum lease and the authority to prospect are held by different persons, see section 318BQ.

318BX Additional requirements for making application

The application must include—

- (a) a CSG statement; and

- (b) a proposed development plan that complies with the initial development plan requirements.

Note—

For requirements for proposed initial development plans, see part 9, division 2.

318BY Applications relating to other land

- (1) This section applies if—
 - (a) a person to whom this part applies wishes to make an application to which this part applies; and
 - (b) the proposed application includes land (the *other part*) in the area of an authority to prospect held by someone else.
- (2) The person may lodge a separate mining lease application for the other part.
- (3) A separate application for the other part, or the part of an application that relates to the other part, must be decided under part 2.

318C Notice to petroleum lease holder

The applicant must, within 10 business days after lodging the application, give the petroleum lease holder a copy of the application, other than the part of the application consisting of the statement mentioned in section 245(1)(o)(iv).

Note—

For confidentiality obligations of tenure holders or persons who have applied for a tenure, see part 10.

318CA Petroleum lease holder's obligation to negotiate

- (1) The petroleum lease holder must, after receiving the copy of the application, use reasonable attempts to reach a coordination arrangement with the applicant about the

following matters that provides the best resource use outcome without significantly affecting the parties' rights or interests—

- (a) coal or oil shale mining and any incidental coal seam gas mining under the proposed mining lease;
- (b) petroleum production under the petroleum lease for the land.

Note—

For the extent to which coal seam gas production is permitted under the coal or oil shale mining lease, see part 8, division 1.

- (2) However, the obligation under subsection (1) applies only to the extent that a coordination arrangement is commercially and technically feasible for the petroleum lease holder.

Note—

For confidentiality obligations of tenure holders or persons who have applied for a tenure, see part 10.

318CB Restriction on issuing certificate of public notice and additional requirements for grant

- (1) Section 252A does not apply for the application, and the Minister can not under section 271A grant the mining lease until—
 - (a) the applicant has negotiated, with the petroleum lease holder, a proposed coordination arrangement (a ***relevant arrangement***) about the following matters—
 - (i) coal or oil shale mining and any incidental coal seam gas under the proposed mining lease;
 - (ii) petroleum production under the petroleum lease; and
 - (b) the Minister has approved the relevant arrangement; and
 - (c) there is a safety and health management system that applies for the proposed mining lease; and
 - (d) the petroleum lease holder has lodged a notice that the holder has agreed to the system.

- (2) Subsections (3) and (4) apply if the Minister is satisfied the applicant and the petroleum lease holder have, as required under section 318CA, made reasonable attempts to reach a relevant arrangement and—
- (a) the petroleum lease holder has lodged a written notice stating there are no reasonable prospects of a relevant arrangement being made; or
 - (b) a relevant arrangement has not been lodged for approval by the Minister and the Minister considers the applicant and the petroleum lease holder have had a reasonable opportunity to make a relevant arrangement.
- (2A) Despite subsection (1), a certificate of public notice may be issued under section 252A for the application if the petroleum lease holder has consented to the making of the application and the issuing of the notice.
- (3) A certificate of public notice can not be issued for the application.
- (4) The Minister may immediately decide to reject the application.
- (5) In this section—
- safety and health management system*** means—
- (a) for a coal mining lease—a safety and health management system under the *Coal Mining Safety and Health Act 1999*; or
 - (b) for an oil shale mining lease—a safety and health management system under the *Mining and Quarrying Safety and Health Act 1999*.

Part 6 **Obtaining coal or oil shale mining lease over land in area of petroleum lease (by or jointly with petroleum lease holder)**

318CC Application of pt 6

- (1) This part applies if a person as follows wishes to apply for a coal mining lease or an oil shale mining lease for all or part of the land in the area of a petroleum lease—
 - (a) the petroleum lease holder;
 - (b) a person who wishes to make the application jointly with the holder.
- (2) If—
 - (a) the land is also in the area of an authority to prospect; and
 - (b) the same person holds the petroleum lease and the authority to prospect;

a reference in this part to the petroleum lease holder includes a reference to the authority to prospect holder.

Note—

If the petroleum lease and the authority to prospect are held by different persons, see section 318BQ.

318CD Additional requirements for making application

The application must include—

- (a) a CSG statement; and
- (b) a proposed development plan that complies with the initial development plan requirements.

Note—

For requirements for proposed initial development plans, see part 9, division 2.

318CE Applications relating to other land

- (1) This section applies if—
 - (a) a person to whom this part applies wishes to make an application to which this part applies; and
 - (b) the proposed application includes land (the *other part*) in the area of an authority to prospect held by someone else.
- (2) The person may lodge a separate mining lease application for the other part.
- (3) A separate application for the other part, or the part of an application that relates to the other part, must be decided under part 2.

318CG Additional criteria for deciding conditions

- (1) In deciding conditions of the mining lease under section 276(1)(m), regard must be had to—
 - (a) the conditions of the petroleum lease; and
 - (b) the development plan for the petroleum lease.
- (2) This section does not limit the power under section 276(1)(m) to determine conditions of the mining lease.

Part 7 Additional provisions for coal and oil shale exploration tenements

Division 1 Grant of coal or oil shale exploration tenement in area of authority to prospect

318CH Provisions for coal or oil shale exploration tenement

- (1) The *Petroleum Act 1923* and the Petroleum and Gas (Production and Safety) Act do not limit or otherwise affect the power under this Act to grant a coal or oil shale exploration tenement over land (the *overlapping land*) in the area of an authority to prospect.
- (2) However, an authorised activity for the coal or oil shale exploration tenement can not be carried out on the overlapping land if—
 - (a) carrying it out adversely affects the carrying out of an authorised activity for the authority to prospect; and
 - (b) the authorised activity for the authority to prospect has already started.

Division 2 Restriction on authorised activities on petroleum lease land

318CI Restriction

- (1) If land is in the area of a coal or oil shale exploration tenement and a petroleum lease, an authorised activity for the tenement may be carried out on the land only if—
 - (a) the petroleum lease holder has agreed in writing to the carrying out of the activity; and

[s 318CJ]

- (b) a copy of the agreement has been lodged; and
 - (c) the agreement is still in force.
- (2) Subsection (1) does not apply, or ceases to apply, if the same person holds the tenement and the petroleum lease.

Division 3 Conditions

318CJ Notice of grant to authority to prospect holder or applicant

- (1) This section applies if, when a coal or oil shale exploration tenement is granted, land in the area of the tenement is in the area of an authority to prospect or a proposed area under an authority to prospect application.
- (2) It is a condition of the tenement that its holder must, within 20 business days after receiving notice of the grant, give the authority to prospect holder or the applicant written notice stating—
- (a) that the tenement has been granted; and
 - (b) the tenement holder's name; and
 - (c) the term of the tenement.

318CK Compliance with obligations under Petroleum and Gas (Production and Safety) Act

If an obligation under the Petroleum and Gas (Production and Safety) Act, section 313 or 371, applies to a coal or oil shale exploration tenement holder, it is a condition of the tenement that the holder must comply with the obligation.

Part 8 Additional provisions for coal mining leases and oil shale mining leases

Division 1 Entitlement to coal seam gas

318CL Application of pt 8

- (1) This part applies to a person (the *mining lease holder*) who holds a coal mining lease or an oil shale mining lease.

Note—

See, however, chapter 15, part 2, division 6.

- (2) This division is subject to division 2.

318CM Limited entitlement to mine coal seam gas

- (1) The mining lease holder may mine coal seam gas in the area of the lease only if—
 - (a) the mining happens as a necessary result of coal or oil shale mining carried out under the mining lease; or
 - (b) the mining is necessary to ensure a safe mine working environment for coal or oil shale mining under the mining lease; or
 - (c) the mining is necessary to minimise the fugitive emission of methane during the course of coal mining operations.
- (2) Coal seam gas mined, or proposed to be mined, under subsection (1) is called *incidental coal seam gas*.
- (3) To remove any doubt, it is declared that incidental coal seam gas includes coal seam gas in a goaf if the gas is mined, or proposed to be mined, under subsection (1).
- (4) In this section—

[s 318CN]

mine, for coal seam gas, includes extract, produce, release or dispose of the gas.

318CN Use that may be made under mining lease of incidental coal seam gas

(1) Subject to section 318CO, the mining lease holder may do the following in relation to incidental coal seam gas mined under section 318CM in the area of the mining lease—

(a) use it beneficially for mining under the mining lease;

Examples of possible uses of incidental coal seam gas for mining under the mining lease—

- 1 power generation for equipment used for any mining on the mining lease
- 2 heating

(b) transport or store it within the area of the mining lease to allow it to be used under paragraph (a);

Note—

See also the exemptions in the Petroleum and Gas (Production and Safety) Act, sections 800(2)(a) and (b) (Restriction on petroleum tenure activities) and 802 (Restriction on pipeline construction or operation).

(c) give it to a petroleum lease holder if—

- (i) the mining lease is over land that is in an area of a petroleum lease (the *overlapping land*); and
- (ii) the incidental coal seam gas has been mined in the overlapping land; and
- (iii) the mining lease holder has given the petroleum lease holder written notice (an *availability notice*) that the gas is available to the petroleum lease holder; and
- (iv) the petroleum lease holder has given the mining lease holder written notice (an *acceptance notice*) accepting the gas within 20 business days after being given the availability notice.

-
- (1A) An availability notice or acceptance notice may be given for incidental coal seam gas proposed to be mined under section 318CM(1).
- (2) The mining lease holder can not, under the mining lease, use the incidental coal seam gas for a purpose other than for mining under the mining lease or for giving it to a petroleum lease holder under subsection (1)(c).

Examples of a purpose other than mining—

- selling the incidental coal seam gas
- processing it
- transporting it, by way of a pipeline, outside the area of the mining lease
- using it for power generation and selling the power or supplying the power to a transmission grid as defined under the *Electricity Act 1994*, section 6

Notes—

- 1 If the mining lease holder wishes to use the incidental coal seam gas for a purpose other than for mining under the mining lease, the holder may apply for a petroleum lease. See the Petroleum and Gas (Production and Safety) Act, chapter 2, part 2, division 1 and chapter 3, part 3, division 3.
 - 2 For the entitlement of a petroleum lease holder to use incidental or other coal seam gas commercially, see the Petroleum and Gas (Production and Safety) Act, chapter 2, part 2, division 1 and chapter 3, part 5, division 1.
- (3) In this section—
mining, under the mining lease, includes mining for coal seam gas authorised under section 318CM.

318CO Restriction on flaring or venting of incidental coal seam gas

- (1) It is a condition of the mining lease that the mining lease holder must not flare or vent incidental coal seam gas mined under section 318CM(1) in the area of the mining lease unless the flaring or venting is authorised under this section.

[s 318CO]

- (2) Flaring the incidental coal seam gas is authorised if it is not commercially or technically feasible to use it—
 - (a) beneficially for mining under the mining lease; or
 - (b) commercially under a petroleum lease that the holder might be able to obtain.
- (3) Venting the incidental coal seam gas is authorised if—
 - (a) it is not safe to use the gas for a purpose mentioned in subsection (2) or to flare it; or
 - (b) flaring it is not technically practicable; or
 - (c) for incidental coal seam gas that is vented as or with mine ventilation air—it is not commercially practicable to use the air.
- (4) Venting the incidental coal seam gas is also authorised if—
 - (a) it is being used, or is proposed to be used, under a greenhouse abatement scheme; and
 - (b) if subsection (1) were to apply, the direct or indirect benefit the mining lease holder would otherwise obtain because of the use of the gas under the scheme would be reduced.
- (5) Subsection (6) applies, despite subsections (2) to (4), if—
 - (a) a mining lease is over land in an area of a petroleum lease (the *overlapping land*); and
 - (b) incidental coal seam gas is, under section 318CM(1), mined from the overlapping land.
- (6) Flaring or venting is authorised only if—
 - (a) the mining lease holder has given the petroleum lease holder written notice that the gas is available to the petroleum lease holder; and
 - (b) the petroleum lease holder has either not responded or has refused to accept the gas within 20 business days after receiving the notice.

(7) In this section—

greenhouse abatement scheme means—

(a) the *Electricity Supply Act 1995* (NSW), part 8A; or

Note—

See, in particular, the *Greenhouse Gas Benchmark Rule (Generation) No. 2 of 2003*, paragraph 10.1, made under the *Electricity Supply Act 1995* (NSW), section 97K.

(b) the Commonwealth's Greenhouse Gas Abatement Program; or

(c) another scheme about the abatement of greenhouse gases prescribed under a regulation.

Division 2 Provisions for mining coal seam gas from coextensive natural underground reservoirs

318CP Application of div 2

This division applies if a natural underground reservoir in the area of a coal mining lease or an oil shale mining lease extends to—

(a) the area of an adjacent coal mining lease, oil shale mining lease or petroleum lease (an ***adjacent lease***); or

(b) if a person has applied for a coal mining lease, oil shale mining lease or petroleum lease that will, if granted, be an adjacent lease—the area of the proposed lease.

Note—

See also the *Petroleum Act 1923*, section 52A (Application of 2004 Act provisions about coextensive natural underground reservoirs).

[s 318CQ]

318CQ Coordination arrangement may be made about mining or production from reservoir

The mining lease holder and an adjacent lease holder, or proposed adjacent lease holder, may make a coordination arrangement that provides for the petroleum or coal seam gas that can, under this Act or the Petroleum and Gas (Production and Safety) Act, be mined or produced from the reservoir from within the area of the mining lease and the adjacent lease, or proposed adjacent lease.

Note—

For the making of coordination arrangements, see the Petroleum and Gas (Production and Safety) Act, chapter 2, part 8.

318CR Restriction on carrying out particular authorised activities

- (1) The mining lease holder must not carry out a relevant activity for an adjacent lease or proposed adjacent lease unless—
 - (a) the adjacent lease holder, or the proposed adjacent lease holder, has consented in writing to the carrying out of the activity; or
 - (b) the activity is carried out under—
 - (i) a coordination arrangement mentioned in section 318CQ; or
 - (ii) a decision of the Land Court under section 318CS.
- (2) However, if the adjacent lease was granted after the mining lease was granted and, when the adjacent lease was granted, the mining lease holder was carrying out the relevant activity, subsection (1) does not apply to the mining lease holder until the later of the following—
 - (a) 6 months after granting of the adjacent lease;
 - (b) if within the 6 months the mining lease holder applies to the Land Court under section 318CS—when the Land Court decides the application.

-
- (3) In this section—
- relevant activity**, for an adjacent lease or proposed adjacent lease, means—
- (a) the mining, under the mining lease, of coal seam gas that comes, or is likely to come, from the part of the reservoir that is in the area of an adjacent lease or the proposed adjacent lease; or

- (3) If the adjacent lease was granted after the mining lease was granted, the decision may apply from the grant of the adjacent lease.
- (4) In making the decision, the Land Court—
 - (a) must attempt to optimise mining under the mining lease and mining or production under the adjacent lease in a way that maximises the benefit for all Queenslanders; and
 - (b) may make the decision without having regard to the issue of who would, under another Act or law, have otherwise owned the petroleum.
- (5) In considering the benefit to all Queenslanders, the Land Court must have regard to the public interest.

Division 3 Conditions

318CT Continuing requirement for coordination arrangement for particular coal or oil shale mining leases

 - (b) if it is decided not to renew the lease—the decision not to renew takes effect.

Note—

For when the decision takes effect, see section 318EH, as applied under section 318DJ.

- (2) Despite the ending of the plan period for the current development plan for the lease—
 - (a) the mining lease is taken to have a development plan; and

 - (a) coal or oil shale mining and any incidental coal seam gas under the mining lease; and
 - (b) petroleum production under the petroleum lease.

Note—

For matters about coordination arrangements, see the Petroleum and Gas (Production and Safety) Act, chapter 2, part 8.

Part 9 Development plans for coal mining leases and oil shale mining leases

Division 1 General provisions about development plans

318DP Function and purpose

- (1) The development plan for a coal mining lease or an oil shale mining lease, or a proposed coal mining lease or an oil shale mining lease, (the *relevant lease*) gives detailed information about the nature and extent of activities to be carried out under the lease.
- (2) The development plan may—
 - (a) also relate to another coal or oil shale mining lease or proposed coal or oil shale mining lease if the other lease or proposed lease relates to the relevant lease; and
 - (b) provide that when the plan is approved it will replace any development plan for the other lease.
- (3) The purposes of giving the information is to—
 - (a) allow resource management decisions to be made; and
 - (b) ensure appropriate development of minerals that, under section 234, are specified in the lease.

318DQ Requirement to have development plan

It is a condition of each coal or oil shale mining lease that its holder must ensure there is a development plan for the lease.

Note—

The only ‘development plan’ for a coal or oil shale mining lease is its current initial or later development plan, as approved under this part.

[s 318DR]

See the definition of that term in the dictionary. For the requirement to lodge a proposed later development plan and its approval, see division 4.

318DR Obligation to comply with development plan

It is a condition of each coal or oil shale mining lease that its holder must comply with the development plan for the lease.

Note—

See, however, chapter 15, part 2, division 6.

Division 2 Requirements for proposed initial development plans

318DS Operation of div 2

This division provides for requirements (the *initial development plan requirements*) for a proposed initial development plan for a proposed coal or oil shale mining lease.

Note—

For additional requirements for proposed later development plans, see section 318ED.

The proposed plan must include a statement of how the effects on, and the interests of, any relevant overlapping or adjacent petroleum tenure holder have, or have not, been considered, having regard to—

- (a) the main purposes of this chapter; and
- (b) the CSG assessment criteria, other than the initial development plan requirements.

318DW Requirement to optimise use of incidental coal seam gas

The activities provided for under the proposed plan must seek to optimise the use of incidental coal seam gas in a safe and efficient way if it is commercially and technically feasible to do so.

318DX Consistency with petroleum lease development plan and relevant coordination arrangement

If all or part of the land in the area of the proposed mining lease is in the area of a petroleum lease (the *relevant land*), the proposed plan must, to the extent it applies to the relevant land, be consistent with—

- (a) the development plan for the petroleum lease; and

-
- (b) any coordination arrangement relating to the relevant land.

Division 3 Approval of proposed initial development plans

318DY Application of div 3

This division applies to all coal mining lease and oil shale mining lease applications.

318DZ Ministerial approval of proposed plan

- (1) The Minister must decide whether to approve the applicant's proposed development plan for the proposed mining lease.
- (2) If the proposed plan is not approved the application must be rejected.

318E Amendment of proposed plan before approval

- (1) The applicant may, by lodged notice, amend the proposed development plan at any time before the Minister decides whether to approve the applicant's proposed development plan.
- (2) The notice must be accompanied by the amended proposed plan.

318EA Deciding whether to approve proposed plan

- (1) The Minister may approve or refuse to approve the proposed development plan.
- (2) The matters that must be considered in deciding whether to approve the proposed plan include each of the following—
 - (a) the potential of the area of the proposed mining lease for each of the following (the *activities*)—

[s 318EB]

- (i) mining;
- (ii) each other purpose for which the lease is sought;
- (b) the nature and extent of the activities;
- (c) when and where the activities are proposed to be carried out;
- (d) whether the mining of minerals that, under section 234, are sought to be specified in the lease will be optimised in the best interests of the State, having regard to the public interest;
- (e) the CSG assessment criteria.

Division 4 Approval of proposed later development plans

318EB Obligation to lodge proposed later development plan

- (1) It is a condition of each coal or oil shale mining lease that its holder must lodge a proposed later development plan for the mining lease as provided for under this section.

Note—

If the holder wishes to renew the lease, a proposed later development plan must be included in the renewal application. See section 318DI(2)(c).

- (2) The condition is complied with only if the proposed later development plan—
 - (a) is lodged; and
 - (b) complies with the later development plan requirements; and
 - (c) is accompanied by the relevant fee.
- (3) A proposed later development plan must be lodged—

-
- (a) at least 40, but no more than 100, business days before the end of the plan period for its current development plan (the *current plan period*); or
 - (b) as soon as practicable after the holder proposes or becomes aware of a significant change to the nature and extent of an authorised activity that is not already dealt with under the current development plan for the lease; or
 - (c) within 20 business days after a coordination arrangement relating to the lease ends.
- (4) However, if before the end of the current plan period, a decision is made not to approve a proposed later development plan lodged under subsection (3), the holder may, within the period, lodge another proposed later development plan.
- (5) If the holder does not lodge any proposed later development plan before the end of the current plan period or if subsection (4) applies and the holder does not lodge another proposed later development plan within the current plan period—
- (a) the holder must be given a notice requiring the holder to lodge a proposed later development plan for the lease within 40 business days after the giving of the notice; and
 - (b) the holder must comply with the requirement.
- (6) In this section—
- relevant fee*, for the lodgement of the proposed plan, means—
- (a) if the proposed plan is lodged within the time required under subsection (3)—the fee prescribed under a regulation; or
 - (b) if the proposed plan is lodged after the time required under subsection (3)—
 - (i) if it is lodged under subsection (4)—nil; or
 - (ii) if it is not lodged under subsection (4)—an amount that is 10 times the prescribed fee.

[s 318EC]

318EC Consequence of failure to comply with notice to lodge proposed later development plan

- (1) If a coal or oil shale mining lease holder does not comply with a requirement under section 318EB(5)(a), the lease is cancelled.
- (2) However, the cancellation does not take effect until the holder is given a notice stating that the lease has been cancelled because of the operation of subsection (1).

318ED Later development plan requirements

- (1) A proposed later development plan must—
 - (a) comply with the initial development plan requirements, as if the reference in section 318DU(2) to the term sought for the mining lease were a reference to the remaining term, or the renewed term, of the lease; and

Note—

For requirements for proposed initial development plans, see division 2.

 - (b) highlight any significant changes from the current development plan for the mining lease; and
 - (c) state whether the current development plan has been complied with; and
 - (d) if the current development plan has not been complied with—state the details of, and the reasons for, each noncompliance.
- (2) For subsection (1), section 318DU applies as if a reference to the term sought for the mining lease is a reference to the term of the mining lease.
- (3) If the effect of the proposed plan is to significantly change an activity provided for under the current development plan, the proposed plan must also state reasons for the change.

-
- (4) The requirements under subsection (1), as applied under subsection (2), and subsection (3) are the *later development plan requirements*.

318EE Mining lease taken to have development plan until decision on whether to approve proposed later development plan

- (1) This section applies until the happening of the following event if, under section 318EB, the holder lodges a proposed later development plan before the end of the plan period for the current development plan for the mining lease—
- (a) if the proposed plan is approved—the holder is given notice of the approval;
 - (b) if approval of the proposed program is refused—when the refusal takes effect.

Note—

For when the decision takes effect, see section 318EH.

- (2) Despite the ending of the plan period for the current development plan—
- (a) the mining lease is taken to have a development plan; and
 - (b) the holder may carry out any authorised activity for the lease.

318EF Criteria for deciding whether to approve proposed plan

The matters that must be considered in deciding whether to approve the proposed later development plan include each of the following—

- (a) the criteria under section 318EA for deciding whether to approve a proposed initial development plan;
- (b) the extent to which the current development plan for the mining lease has been complied with;

[s 318EG]

- (c) the CSG assessment criteria;
- (d) the effect of any approval of the proposed plan on any relinquishment condition for the mining lease;
- (e) if the proposed plan provides for a significant change that is a cessation or reduction of mining or other purposes for which the mining lease is granted—
 - (i) whether the cessation or reduction is reasonable; and
 - (ii) whether the mining lease holder has taken all reasonable steps to prevent the cessation or reduction.

318EG Power to require partial surrender application

- (1) This section applies if the proposed plan provides for a significant change that is a cessation or reduction of mining or other purposes for which the mining lease is granted.
- (2) The Minister may approve the proposed plan, but—
 - (a) decide (a *deferral decision*)—
 - (i) to defer the taking of effect of the approval until the mining lease holder applies under section 309 to surrender a stated part or percentage of the area of the lease on or before a stated day; and
 - (ii) that the decision to approve the proposed plan is replaced by a decision not to approve it if the surrender application is not made on or before the stated day; or
 - (b) impose a condition on the mining lease requiring its holder to apply under section 309 to surrender a stated part or percentage of the area of the lease at stated times or intervals.
- (3) The public interest must be considered before making a deferral decision or imposing the condition.

318EH Steps after, and taking effect of, decision

- (1) On approval of the proposed later development plan, the chief executive must give the holder notice of the approval.
- (2) For the following, the notice must be an information notice—
 - (a) a decision to refuse to approve the proposed plan;
 - (b) an approval of the proposed plan that, under section 318EG, is deferred;
 - (c) a decision under section 318EG(2)(b).
- (3) An approval without any deferral under section 318EG(2)(a) takes effect when the holder is given the notice or, if the notice states a later day of effect, on that later day.
- (4) A refusal does not take effect until the end the appeal period under section 318EI.
- (5) In this section—

information notice means a notice stating—

 - (a) the reasons for the decision; and
 - (b) that the holder may appeal against the decision; and
 - (c) how to appeal.

Division 5 Appeals

318EI Right of appeal against cancellation, deferral or refusal

- (1) This section applies if—
 - (a) under section 318DZ, it is decided not to approve a proposed development plan; or
 - (b) under section 318EC, it is decided to cancel the mining lease; or
 - (c) it is decided not to approve the proposed later development plan; or

[s 318EJ]

- (d) under section 318EG, it is decided to defer an approval of the later development plan.
- (2) The Petroleum and Gas (Production and Safety) Act, chapter 12, part 2, applies, with necessary changes, as if—
 - (a) the decision were mentioned in schedule 1, table 2 of that Act; and
 - (b) the schedule stated the Land Court as the appeal body for the decision; and
 - (c) a reference in that part to an information notice were a reference to a notice under section 318EH.

Part 10 Confidentiality of information

318EJ Application of pt 10

- (1) This part applies if a tenure holder or a person who has applied for a tenure (the *information-giver*) gives another tenure holder or a person who has applied for a tenure (the *recipient*) information—
 - (a) that this chapter requires the information-giver to give the recipient, including, for example, information given to comply with section 318AW(a); or
 - (b) for the purposes of this chapter.
- (2) However, this part applies subject to any agreement between the information-giver and the recipient about the information or its use.
- (3) In this section—

information means information given verbally or in writing.

tenure means a coal or oil shale mining tenement or a petroleum tenure.

318EK Confidentiality obligations

- (1) The recipient must not disclose the information to anyone else, unless—
 - (a) the information is publicly available; or
 - (b) the disclosure is—
 - (i) to someone else whom the recipient has authorised to carry out the authorised activities for the recipient's coal or oil shale mining tenement or petroleum tenure; or
 - (ii) made with the information-giver's consent; or
 - (iii) expressly permitted or required under this or another Act; or
 - (iv) to the Minister.
- (2) The recipient may use the information only for the purpose for which it is given.

318EL Civil remedies

If the recipient does not comply with section 318EK, a court of competent jurisdiction may order the recipient to pay the information-giver all or any of the following—

- (a) compensation for any loss the information-giver incurred because of the failure to comply with the section;
- (b) the amount of any commercial gain the recipient made because of the failure to comply with the section.

Chapter 9 Provisions for geothermal tenures and GHG authorities

Part 1 Preliminary

318ELAM Relationship with chs 2 to 8 and ch 12, pt 1

- (1) Requirements and restrictions under this chapter apply as well as any relevant requirements and restrictions under chapters 2 to 8 and chapter 12, part 1.
- (2) If this chapter imposes a requirement for or a restriction on the granting of a mining lease, the mining lease can not be granted if the restriction applies or if the requirement has not been complied with.
- (3) If a provision of this chapter conflicts with a provision of any of chapters 2 to 8 and chapter 12, part 1 the provision of this chapter prevails to the extent of the inconsistency.
- (4) This chapter does not otherwise limit or affect the requirements of chapters 2 to 8 and chapter 12, part 1.
- (5) Subsection (6) applies if this chapter imposes a requirement for or a restriction on the carrying out of an authorised activity for a mining tenement.
- (6) Despite chapters 2 and 6, the activity is not an authorised activity for the mining tenement while the restriction applies or if the requirement has not been complied with.

318ELAN What is an *overlapping authority (geothermal or GHG)*

- (1) An *overlapping authority (geothermal or GHG)*, for a mining tenement, is any geothermal tenure or GHG authority all or part of the area of which is in the mining tenement's area.

-
- (2) An *overlapping authority (geothermal or GHG)*, for a proposed mining tenement, is any geothermal tenure or GHG authority all or part of the area of which will, if the proposed mining tenement is granted, be in the mining tenement's area.

318ELAO General provision about mining tenements for land subject to geothermal tenure or GHG authority

Subject to the other provisions of this chapter, chapters 2 to 8 and chapter 12, part 1, the Geothermal Act, GHG storage Act, a geothermal tenure or a GHG authority does not limit or otherwise affect—

- (a) the power under this Act to grant a mining tenement over land in the area of an overlapping authority (geothermal or GHG) for the proposed mining tenement; or
- (b) the carrying out of authorised activities for a mining tenement.

Part 2 Obtaining mining lease if overlapping tenure

Division 1 Preliminary

318ELAP Application of pt 2

This part applies if—

- (a) a person (the *applicant*) wishes to make a mining lease application; and
- (b) there is an overlapping authority (geothermal or GHG) for the proposed mining lease; and

[s 318ELAQ]

- (c) the overlapping authority (geothermal or GHG) is a geothermal tenure or GHG tenure (the *overlapping tenure*).

Division 2 Requirements for application

318ELAQ Requirements for making application

- (1) The mining lease application must include—
 - (a) a statement complying with section 318ELAR (an *information statement*); and
 - (b) other information addressing the matters mentioned in subsection (2) (the *assessment criteria*).

Note—

Chapter 8, part 9 also imposes development plan requirements for a proposed coal mining lease or oil shale mining lease.

- (2) The assessment criteria are—
 - (a) the potential for the parties to make the following for the proposed mining lease—
 - (i) for a geothermal tenure—a geothermal coordination arrangement;
 - (ii) for a GHG tenure—a GHG coordination arrangement; and
 - (b) the economic and technical viability of the concurrent or coordinated carrying out of authorised activities for the proposed mining lease and the overlapping tenure; and
 - (c) the public interest.

318ELAR Content requirements for information statement

The information statement must assess—

-
- (a) the likely effect of proposed activities under the proposed mining lease on the future carrying out of authorised activities for the overlapping tenure; and
 - (b) the technical and commercial feasibility of coordinating the proposed activities and the future carrying out of the authorised activities.

Division 3 Consultation provisions

318ELAS Applicant's information obligation

- (1) The applicant must within 10 business days after making the mining lease application give the overlapping tenure holder a copy of the application.
- (2) If the Minister is reasonably satisfied the applicant has not complied with subsection (1), the Minister may refuse the mining lease application.

318ELAT Submissions by overlapping tenure holder

- (1) The overlapping tenure holder may lodge submissions about the mining lease application (*holder submissions*).
- (2) However, holder submissions may be lodged only within 4 months after the holder is given a copy of the application.
- (3) Holder submissions may do all or any of the following—
 - (a) state that the holder does not object to the granting of the proposed mining lease;
 - (b) if the overlapping tenure is a geothermal permit or GHG permit—
 - (i) state that the holder does not wish any priority for the carrying out of authorised activities for any future lease that may arise from the permit (*overlapping authority priority*); or

[s 318ELAU]

- (ii) include a proposal by the overlapping tenure holder for the authorised activities for which overlapping authority priority is sought;
 - (c) include information about authorised activities carried out under the overlapping tenure;
 - (d) include information relevant to the assessment criteria.
- (4) The holder must give the applicant a copy of the holder submissions.

Division 4 Resource management decision if overlapping permit

318ELAU Application of div 4

- (1) This division applies if—
- (a) the overlapping tenure is a geothermal permit or GHG permit (the *overlapping permit*); and
 - (b) the overlapping permit holder has lodged holder submissions within 4 months after the holder was given a copy of the application; and
 - (c) the submissions state that the holder wishes overlapping authority priority.
- (2) However, this division does not apply if under the Geothermal Act, chapter 5 or the GHG storage Act, chapter 4, overlapping authority priority has been given for any of the relevant land.

Note—

If this subdivision does not apply, the mining lease application proceeds immediately to a decision under chapter 6, part 1 as affected by division 7.

318ELAV Operation of div 4

This division provides for the Minister to make a decision (the *resource management decision*) about whether—

- (a) to grant the mining lease under section 271A; or
- (b) to give any overlapping authority priority for all or part of the relevant land; or
- (c) not to grant the mining lease and not to give any overlapping authority priority for all or part of the relevant land.

318ELAW Criteria for decision

The Minister must consider the following in making the resource management decision—

- (a) the information statement;
- (b) the assessment criteria;
- (c) the holder submissions;
- (d) the public interest.

318ELAX Restrictions on giving overlapping authority priority

Overlapping authority priority may be given only if the Minister considers—

- (a) either—
 - (i) it is unlikely the applicant and the overlapping permit holder will enter into—
 - (A) for a geothermal permit—a geothermal coordination arrangement; or
 - (B) for a GHG permit—a GHG coordination arrangement; or
 - (ii) an arrangement mentioned in subparagraph (i) for the proposed mining lease is not commercially or technically feasible; and
- (b) the public interest would be best served by not granting a mining lease to the applicant first.

[s 318ELAY]

Division 5 **Process if resource management decision is to give overlapping authority priority**

318ELAY Application of div 5

This division applies only if, under division 4, a resource management decision is required and the decision is to give overlapping authority priority for all or part of the relevant land.

318ELAZ Notice to applicant and overlapping permit holder

- (1) The chief executive must give the applicant and the overlapping permit holder written notice of the resource management decision.
- (2) The notice must invite the overlapping permit holder to, within 6 months after the giving of the notice (the *overlapping authority application period*), apply for a lease as follows (an *overlapping lease*) for the land mentioned in subsection (3)—
 - (a) if the overlapping permit is a geothermal permit—a geothermal lease;
 - (b) if the overlapping permit is a GHG permit—a GHG lease.
- (3) For subsection (2), the land is—
 - (a) if the overlapping authority priority is for all of the land—for all of the land; or
 - (b) if the priority is for part of the land—for that part.

318ELBA Overlapping lease application for all of the land

- (1) This section applies if—
 - (a) the overlapping authority priority is for all of the land; and

-
- (b) within the overlapping authority application period the overlapping permit holder applies for an overlapping lease for all of the land.
- (2) A further step can not be taken to decide the mining lease application until after the overlapping lease application has been decided.

Note—

The Geothermal Act, chapter 5, part 5 and the GHG storage Act, chapter 4, part 5 provide for refusal of the overlapping lease application if it is not pursued in a timely manner.

- (3) If the decision on the overlapping lease application is to grant an overlapping lease for all of the land, the mining lease application is taken to have lapsed.

318ELBB Overlapping lease application for part of the land

- (1) This section applies if the overlapping permit holder applies for an overlapping lease for part of the land within the overlapping authority application period.
- (2) The person who made the mining lease application may amend it so that a mining lease is only sought for all or part of the rest of the land.
- (3) Unless the amendment is made, a further step can not be taken to decide the mining lease application until after the overlapping lease application has been decided.
- (4) If—
- (a) the amendment has not been made; and
 - (b) the decision on the overlapping lease application is to grant an overlapping lease for part of the land;

the person who made the mining lease application may amend it so that a mining lease is only sought for all or part of the rest of the land.

[s 318ELBC]

Note—

If the mining lease application is not amended, see section 318ELBF (Application may be refused if no reasonable prospects of future geothermal or GHG coordination arrangement).

318ELBC No overlapping lease application

If the overlapping permit holder does not apply for an overlapping lease for any of the land within the overlapping authority application period, the mining lease application may be decided.

Division 6 Resource management decision not to grant and not to give priority

318ELBD Lapsing of application

The mining lease application is taken to have lapsed if—

- (a) under division 4, a resource management decision is required; and
- (b) the decision was not to grant the mining lease and not to give any overlapping authority priority for any of the relevant land.

Division 7 Deciding application

318ELBE Application of div 7

This division applies only if—

- (a) the overlapping tenure holder has not lodged holder submissions within 4 months after the holder was given a copy of the application (the *submission period*) or at all; or

-
- (b) the overlapping tenure holder has lodged holder submissions within the submission period stating that the holder does not wish any overlapping authority priority; or
 - (c) under division 4, a resource management decision is required and—
 - (i) the resource management decision is not to give overlapping authority priority for any of the relevant land; or
 - (ii) the resource management decision is to give overlapping authority priority for all or part of the relevant land and after division 5 has been complied with the Minister decides to grant a mining lease for the land.

318ELBF Application may be refused if no reasonable prospects of future geothermal or GHG coordination arrangement

- (1) This section applies if—
 - (a) the Minister is satisfied the applicant and the overlapping tenure holder have made reasonable attempts to reach the following (a *relevant arrangement*)—
 - (i) if the overlapping tenure is a geothermal permit—a proposed geothermal coordination arrangement;
 - (ii) if the overlapping tenure is a GHG permit—a proposed GHG coordination arrangement; and
 - (b) either—
 - (i) the overlapping tenure holder has lodged a written notice stating there are no reasonable prospects of a relevant arrangement being made; or
 - (ii) a relevant arrangement has not been lodged for approval by the Minister and the Minister considers the applicant and the overlapping tenure

[s 318ELBG]

holder have had a reasonable opportunity to make a relevant arrangement.

- (2) The Minister may decide to refuse the application.

318ELBG Additional criteria for deciding provisions of mining lease

- (1) In making a decision as follows, regard must be had to the prescribed criteria—
- (a) deciding conditions of the mining lease under section 276(1)(m);
 - (b) deciding the term of the lease under section 284.
- (2) In this section—

prescribed criteria means all of the following—

- (a) the information statement;
- (b) the assessment criteria;
- (c) any holder submissions;
- (d) the effect of the mining lease on the safe and efficient carrying out of authorised activities for the overlapping tenure;
- (e) for an overlapping permit—the effect of the mining lease on the safe and efficient carrying out of authorised activities for any future lease that may arise from the permit.

318ELBH Publication of outcome of application

- (1) After the Minister decides whether or not to grant the mining lease, the chief executive must publish a notice about the outcome of the mining lease application in or on at least 1 of the following—
- (a) the gazette;
 - (b) the department's website;

-
- (c) another publication the chief executive considers appropriate.
- (2) The notice must state—
- (a) the decision; and
 - (b) if the decision was to grant the mining lease—all conditions decided by the Minister; and
 - (c) if, under division 4, a resource management decision is required and the decision is to give overlapping authority priority for all or part of the land—the decision and the reasons for it.
- (3) However, if the chief executive considers information in a condition is commercial-in-confidence, the chief executive may instead of publishing the condition publish a statement about its intent.

Part 3

Priority to particular geothermal or GHG lease applications

318ELBI Earlier geothermal or GHG lease application

If—

- (a) a mining lease application is made; and
- (b) before the making of that application, an application (the *other application*) was made for a geothermal lease or GHG lease (the *other proposed lease*) but not decided; and
- (c) the other application had not been decided before the making of the mining lease application; and

[s 318ELBJ]

- (d) the other proposed lease would, if it were granted, be an overlapping authority (geothermal or GHG) for the proposed mining lease;

the mining lease application must not be decided until the other application has been decided.

318ELBJ Proposed geothermal or GHG lease for which EIS approval given

- (1) This section applies for a mining lease application if—
 - (a) before the making of the application, an approval under the Environmental Protection Act, chapter 3, part 2 was granted for the voluntary preparation of an EIS; and
 - (b) the EIS is for a project that is, or includes, a proposed geothermal lease or GHG lease (the *proposed lease*) for land the subject of the application.
- (2) The application must not be decided until—
 - (a) if no application is made for the proposed lease within 1 year after the granting of the approval—the end of that year; or
 - (b) if an application is made for the proposed lease within that year—that application is decided.

318ELBK Proposed GHG lease declared a coordinated project

- (1) This section applies for a mining lease application if—
 - (a) before the making of the mining lease application a coordinated project was declared; and
 - (b) the project is, or includes, a proposed geothermal lease or GHG lease (the *proposed lease*) for land applied for in the application.
- (2) The application must not be decided until—

- (a) if no application is made for the proposed lease within 1 year after the making of the declaration—the end of that year; or
- (b) if an application is made for the proposed lease within that year—that application is decided.

Part 4

Mining lease applications in response to invitation under Geothermal Act or GHG storage Act

318ELBL Application of pt 4

This part applies if—

- (a) a mining lease application is made in response to an invitation given because of a resource management decision under the Geothermal Act or the GHG storage Act; and
- (b) the application is made within 6 months after the giving of the invitation.

318ELBM Minister may refuse application

The Minister may refuse the application if satisfied the applicant has not, in a timely manner—

- (a) taken any step for the application required of the applicant under chapter 6, chapter 8 or this chapter; or
- (b) satisfied the Minister about a matter that, under chapter 6, chapter 8 or this chapter, is required for the Minister to grant the mining lease.

Part 5 **Additional provisions for particular mining tenements**

Division 1 **Restrictions on authorised activities for particular mining tenements**

318ELBN Prospecting permit overlapping with geothermal or GHG lease

- (1) This section applies if—
 - (a) land in the area of a prospecting permit is in the area of a geothermal lease or GHG lease; and
 - (b) the prospecting permit and the geothermal lease or GHG lease are not held by the same person.
- (2) An authorised activity for the prospecting permit may be carried out on the land only if—
 - (a) the geothermal lease or GHG lease holder has not, in the way required under subsection (3), objected to the carrying out of the activity; or
 - (b) if an objection under paragraph (a) has been made—the Minister has, under section 318ELBP, decided the authorised activity may be carried out.

Note—

For notice of authorised activities, see section 318ELBS.

- (3) The objection must be written and given to the prospecting permit holder and lodged.

318ELBO Other overlapping authorities

- (1) This section applies if land is in the area of a mining tenement and a geothermal tenure or GHG authority and section 318ELBN does not apply.

- (2) An authorised activity for the mining tenement can not be carried out on the land if—
 - (a) carrying out the activity adversely affects the carrying out of an authorised activity for the geothermal tenure or GHG authority; and
 - (b) the authorised activity for the geothermal tenure or GHG authority has already started.

318ELBP Resolving disputes

- (1) This section applies if, under section 318ELBN, a geothermal lease or GHG lease holder has objected to the carrying out of an authorised activity by a prospecting permit holder.
- (2) This section also applies if—
 - (a) section 318ELBO applies to a mining tenement holder and a geothermal tenure or GHG authority holder; and
 - (b) there is a dispute between the holders about whether an authorised activity for the mining tenement can be carried out under that section.
- (3) Either of the parties may, by a notice in the approved form, ask the Minister to decide—
 - (a) for section 318ELBN—whether the authorised activity may be carried out under that section; or
 - (b) for section 318ELBO—whether the authorised activity may be carried out under that section.
- (4) Before making the decision, the Minister must give the parties a reasonable opportunity to make submissions about the request within a reasonable period.
- (5) The Minister must, after complying with subsection (4) and considering any submission made under that subsection, decide the matter and give the parties notice of the decision.
- (6) The Minister’s decision binds the parties.

[s 318ELBQ]

- (7) If the request is about a matter mentioned in subsection (1), the Minister may impose conditions on any decision that the authorised activity may be carried out.
- (8) In this section—
parties means—
 - (a) for a request about a matter mentioned in subsection (1)—the authority to prospect holder and the geothermal lease or GHG lease holder; or
 - (b) for a request about a matter mentioned in subsection (2)—the mining tenement holder and the geothermal tenure or GHG authority holder.

Division 2 Provisions about conditions

318ELBQ Notice by particular mining tenement holders to particular geothermal tenure or GHG authority holders or applicants

- (1) This section applies if—
 - (a) a mining tenement as follows is granted—
 - (i) a mining claim;
 - (ii) a mineral development licence;
 - (iii) an exploration permit; and
 - (b) land in the mining tenement’s area is in the area of, or in a proposed area under an application for, a geothermal tenure or GHG authority other than a geothermal lease or GHG lease.
- (2) It is a condition of the mining tenement that its holder must within 20 business days after the holder receives notice of the grant of the tenement give the geothermal tenure or GHG authority holder or the applicant a written notice stating—
 - (a) the mining tenement has been granted; and

- (b) the mining tenement holder's name; and
- (c) the term of the mining tenement.

318ELBR Restriction on varying conditions of particular mining leases

If there is an overlapping authority (geothermal or GHG) for a mining lease, a condition of the mining lease must not be varied under section 294 unless the interests of the authority holder have been considered.

318ELBS Condition to notify particular authority holders of proposed start of designated activities

- (1) This section applies to a mining tenement holder if there is either of the following (the *other authority*) for the mining tenement—
 - (a) an overlapping authority (geothermal or GHG);
 - (b) a geothermal tenure or GHG authority sharing a common boundary with the mining tenement.
- (2) Before the mining tenement holder first starts a designated activity in the other authority's area, the mining tenement holder must give the other authority holder at least 30 business days notice of the activity.
- (3) A notice under subsection (2) must be written and state—
 - (a) when the designated activity is to start; and
 - (b) where the designated activity is to be carried out; and
 - (c) the nature of the activity.
- (4) Before changing the land on which the designated activity is being carried out, the mining tenement tenure holder must give the other authority holder at least 30 business days notice in writing stating where the activity is to be carried out.
- (5) Compliance with this section is a condition of the mining tenement.

[s 318ELBT]

(6) In this section—

designated activity means any authorised activity for the mining tenement, other than—

- (a) an authorised activity for the mining tenement that is the same as or similar to an incidental activity under the Petroleum and Gas (Production and Safety) Act, section 33 or 112; or
- (b) an activity only involving selecting places where other authorised activities for the mining tenement may be carried out.

318ELBT Requirement to continue geothermal or GHG coordination arrangement after renewal of or dealing with mining lease

(1) This section applies if—

- (a) a mining lease has an overlapping authority (geothermal or GHG) that is a geothermal lease or GHG lease (the *other lease*); and
- (b) a geothermal coordination arrangement or GHG coordination arrangement applies to the mining lease; and
- (c) a renewal, transfer, consolidation or subletting takes place for the mining lease.

(2) It is a condition of the mining lease that its holder must continue to be a party to a GHG coordination arrangement for the mining lease while the other lease continues in force.

Chapter 10 Roads

Part 1 Preliminary

318EM Coordinated projects excluded from ch 10

- (1) This chapter does not apply for a mining lease that is, or is included in, a project declared under the *State Development and Public Works Organisation Act 1971*, section 26, to be a coordinated project.
- (2) Subsection (1) does not limit or otherwise affect Coordinator-General's conditions included in the mining lease, under the *State Development and Public Works Organisation Act 1971*, part 4, division 5.

318EN What is the *road authority* for a road

The *road authority*, for a road, is—

- (a) for a State-controlled road—the chief executive of the department in which the *Transport Infrastructure Act 1994* is administered; or
- (b) for another road—the local government having the control of the road.

318EO What is a *notifiable road use*

- (1) A *notifiable road use*, for a mining tenement, is the use of a road to haul loads at more than the following rate if the haulage relates to the transport of minerals mined in the area of the mining tenement—
 - (a) for a State-controlled road—50,000t a year;
 - (b) for another road—10,000t a year.
- (2) For subsection (1), a mineral is produced only if it is—
 - (a) mined, or released by mining, on the land; or

[s 318EP]

- (b) processed on the land, including, for example, by a process in a refinery or smelter on the land under which a mineral is changed to another substance.
- (3) Subsection (1) applies even if the road is not in the area of the mining tenement.

Note—

See, however, section 736.

Part 2 Notifiable road uses

318EP Notice of notifiable road use

- (1) It is a condition of each mining tenement that its holder must not use a road for a notifiable road use unless the holder has given the road authority for the road written notice that the holder proposes to carry out the use.

Note—

See also section 318EX.

- (2) The notice must—
- (a) be given—
- (i) at least 10 business days before the use starts; or
- (ii) within a shorter period agreed to by the authority in writing; and
- (b) state each of the following—
- (i) the road proposed to be used;
- (ii) the type of haulage under the use;

Examples of type of haulage—

- vehicle type
- mineral hauled
- frequency of vehicle movements

- (iii) the yearly or other rate at which the haulage is proposed to be carried out;
- (iv) when the use is proposed to start and end;
- (v) contact details for the holder or someone else the holder has authorised to discuss the matters stated in the notice.

318EQ Directions about notifiable road use

- (1) The road authority for a road may, by written notice, give a mining tenement holder a direction (a *road use direction*) about the way the holder may use the road for notifiable road uses, being carried out, or proposed to be carried out, by the holder.
- (2) A road use direction must—
 - (a) be reasonable; and
 - (b) only be about—
 - (i) preserving the condition of the road; or
 - (ii) the safety of road-users or the public; and
 - (c) be accompanied by, or include, a statement—
 - (i) of reasons for giving the direction; and
 - (ii) that, under section 406, the holder may apply to the Land Court to review the direction; and
 - (iii) about how to apply for the review.

Examples of what a road use direction may be about—

 - 1 when the road may be used
 - 2 the route for the movement of heavy vehicles
 - 3 safety precautions the holder must take
- (3) The direction may also require the holder to—

[s 318ER]

- (a) carry out an assessment of the impacts likely to arise from the notifiable road use the subject of the notice; and
 - (b) consult with the road authority in carrying out the assessment.
- (4) However, the authority can not require an assessment of an impact to the extent it has already been assessed under an EIS under the Environmental Protection Act, or a similar document under another Act.

318ER Obligation to comply with road use directions

It is a condition of each mining tenement that its holder must comply with any road use direction given to the holder relating to the tenement, unless the holder has a reasonable excuse.

Part 3 Compensation for notifiable road uses

318ES Liability to compensate road authority

- (1) The holder of each mining tenement is liable to compensate the road authority for a road for any cost, damage or loss it incurs, or will incur, that is or will be caused by notifiable road uses carried out by the holder that relate to the road.

Examples of a possible cost for subsection (1)—

- 1 repair costs to rectify damage to the road caused, or that will be caused, by any of the uses
- 2 capital costs for unplanned upgrades of the road incurred, or that will be incurred, because of any of the uses
- 3 bring-forward costs, including interest charges, for a planned upgrade of the road that, because of any of the uses, is or will be required earlier than planned

-
- (2) The holder's liability under subsection (1) is called the holder's *compensation liability* to the authority.
 - (3) The compensation liability—
 - (a) applies whether or not the holder has, under section 318EP, given notice of the use; and
 - (b) is subject to section 318EY; and
 - (c) is in addition to, and does not limit or otherwise affect, the holder's liability under another provision of this Act about compensating the authority or anyone else.

318ET Compensation agreement

- (1) A mining tenement holder and the road authority for a road may enter into an agreement (a *compensation agreement*) about the holder's compensation liability to the authority relating to the road.
- (2) A compensation agreement may relate to the whole or part of the liability.
- (3) A compensation agreement must—
 - (a) be signed by or for the holder and the authority; and
 - (b) state whether it is for the whole or part of the liability; and
 - (c) if it is for only part of the liability, state—
 - (i) each part of the notifiable road use to which the agreement relates; and
 - (ii) the period for which the agreement has effect; and
 - (d) provide for how and when the liability will be met.
- (4) A compensation agreement may—
 - (a) extend the holder's compensation liability to the authority relating to the road to any renewal of the mining tenement; and
 - (b) provide for—

[s 318EU]

- (i) monetary or non-monetary compensation; or
- (ii) a process by which it may be amended or enforced.

Example for paragraph (b)—

A compensation agreement may provide for compensation under it to be reviewed on the happening of a material change in circumstances for the mining tenement, including a significant decrease or increase in the extent of the relevant notifiable road use.

- (5) Subsections (2) to (4) do not limit the matters that may be provided for in a compensation agreement.

318EU Deciding compensation through Land Court

- (1) The road authority for a road or a mining tenement holder may apply to the Land Court for it to decide the holder's compensation liability to the authority relating to the road.
- (2) The Land Court may decide the compensation liability only to the extent it is not subject to a compensation agreement.
- (3) In making the decision, the Land Court may have regard to whether the applicant has attempted to mediate or negotiate the compensation liability.

318EV Criteria for decision

- (1) The criteria the Land Court must consider, in deciding a compensation application, include—
 - (a) the reasonableness of the cost, damage or loss claimed; and
 - (b) if the road authority is a local government—the extent to which the cost, damage or loss claimed has been, will be or ought reasonably to be or to have been, met from—
 - (i) amounts the mining tenement holder has paid, or agreed to pay, the authority for notifiable road uses; or

-
- (ii) rates and charges under the *Local Government Act 2009* paid or payable from the mining tenement holder to the authority; and
 - (c) any other relevant matter.
 - (2) In considering the reasonableness of any cost, damage or loss claimed, the Land Court must have regard to—
 - (a) any action taken, or proposal, by the mining tenement holder to, or to attempt to, avoid, minimise or remedy the cost, damage or loss; and
 - (b) any relevant act or omission of the road authority.
 - (3) Subsection (1)(b)(ii) applies whether or not the rates and charges relate to notifiable road uses.

318EW Land Court review of compensation

- (1) This section applies if—
 - (a) compensation has been agreed to under a compensation agreement or decided by the Land Court (the *original compensation*); and
 - (b) there has, since the agreement or decision, been a material change in circumstances.

Example of a material change in circumstances—

a significant decrease or increase in the extent of the relevant notifiable road use

- (2) The relevant road authority or mining tenement holder may apply to the Land Court for it to review the original compensation.
- (3) Sections 318EU and 318EV apply, with necessary changes, for the review as if the application were a compensation application.
- (4) The Land Court may, after conducting the review, decide to confirm the original compensation or amend it in a way the Land Court considers appropriate.

[s 318EX]

- (5) However, before making the decision, the Land Court must have regard to—
 - (a) the original compensation; and
 - (b) whether the applicant has attempted to mediate or negotiate an amendment of the original compensation; and
 - (c) any change in the matters mentioned in section 318EV(1) since the original compensation was agreed or decided.
- (6) If the decision is to amend the original compensation, the original compensation, as amended under the decision, is for this Act, taken to be the original compensation.

318EX Compensation to be addressed before carrying out notifiable road use

- (1) It is a condition of each mining tenement that the holder of the tenement must not carry out a notifiable road use on a road unless—
 - (a) the holder and the relevant road authority have signed a compensation agreement for the use; or
 - (b) the authority has given written consent to the carrying out of the use; or
 - (c) a compensation application has been made to decide the holder's compensation liability to the authority relating to the road.
- (2) A consent under subsection (1)(b) may be given for any renewal of the mining tenement.

318EY Compensation not affected by change in administration or holder

- (1) An agreement or decision under this chapter about compensation liability is binding on—

-
- (a) the relevant road authority and mining tenement holder;
and
 - (b) each of their personal representatives, successors and assigns.
- (2) Subsection (1) is subject to section 318EW.

Chapter 11 Royalties

Part 1 Payment of royalty

320 Royalty return and payment

- (1) The holder of a mining claim, mining lease or other authority under this Act or any other Act relating to mining who mines or allows to be mined mineral, whether or not the Crown has the property in the mineral, from the area of that mining claim, mining lease or other authority shall pay royalty as prescribed at the rate for the time being prescribed in respect of that mineral.
- (2) Subsection (1) does not apply in respect of—
 - (a) coal, that is not the property of the Crown, mined under the authority of a mining lease granted or renewed or deemed to be granted or renewed under this Act for as long as there subsists an agreement made prior to the commencement of the *Mining Act Amendment Act 1976* with the owner of the coal or the owner's predecessor in title as to the royalty to be paid to the owner in respect of the coal mined or where such an agreement has, as provided in that agreement, been renewed, whether before or after the commencement of the *Mining Act Amendment Act 1976* for as long as there subsists a renewal of such an agreement; or

[s 320]

- (b) mineral, that is not the property of the Crown and is not referred to in paragraph (a), mined under the authority of a mining claim or mining lease granted or renewed under this Act for so long as there subsists an agreement made prior to the commencement of this Act with the owner of the mineral or the owner's predecessor in title as to the royalty to be paid to the owner in respect of the mineral mined or where such an agreement has, as provided in that agreement, been renewed, whether before or after the commencement of this Act for so long as there subsists a renewal of such an agreement.
- (3) Where mineral is mined under the authority of a mining claim or a mining lease royalty payable under this chapter shall be payable—
 - (a) where the Crown has the property in the mineral—to the Crown; or
 - (b) in any other case—to the person who has the property in the mineral.
- (4) The holder of a mining claim, mining lease or another authority under this Act or another Act about mining who mines mineral or allows mineral to be mined from the area of the mining claim, mining lease or other authority must, whether or not the State has property in the mineral, lodge royalty returns as required under a regulation.
- (5) Unless a regulation otherwise provides, the holder of a mining claim or mining lease that authorises the mining of minerals for which royalty is or would be payable must lodge a royalty return whether or not mineral has been mined during the period of the return.
- (6) Where, during a period in respect of which a royalty return is required to be lodged, mineral is mined by more than 1 person under a mining claim or mining lease or other authority under this Act or any other Act the holder shall ensure lodgement of the prescribed royalty return and payment of the prescribed royalty in respect of all mineral mined during the whole of the

period under the mining claim, mining lease or other authority.

- (7) A person who mines mineral from land other than under a mining claim, mining lease or other authority mentioned in subsection (1) or (2), must, whether or not the State has the property in the mineral—
 - (a) lodge the royalty returns as required under a regulation; and
 - (b) pay royalty to the State or anyone else who has property in the mineral at the rate required under a regulation.
- (8) The Minister may in the Minister's discretion determine that for the purpose of calculating royalty payable under this chapter, mineral has been mined under the 1 mining operation notwithstanding that that operation may be carried on under more than 1 authority granted under this or any other Act to mine that mineral.

321 Prescription of royalty

- (1) Regulations made pursuant to section 417, may prescribe the royalties payable in respect of mineral mined from land to the Crown or other person who had the property in the mineral.
- (2) Royalty may be prescribed whether the obligation to pay the royalty arises under this Act or under any agreement made with the State of Queensland or under any undertaking given by any person and shall be calculated at such rate or rates, in such manner and on such basis or bases as are prescribed by regulation.
- (3) Without limiting the authority of the Governor in Council to regulate with respect to royalty, a rate of royalty and the manner and basis of its calculation—
 - (a) may be prescribed by reference to the quantity of mineral-bearing ore removed or by reference to the quantity of mineral mined;

[s 321A]

- (b) may be prescribed by reference to a proportion of the profits made from specified operations or from a particular operation or of the gross proceeds of the sale or disposal of the product of specified operations or of a particular operation;
- (c) may vary as between royalties payable in respect of different minerals;
- (d) may vary as between royalties payable by the same person or by different persons whether—
 - (i) in respect of the same mineral or different minerals;
 - (ii) in respect of mineral mined at the same place or at different places;
 - (iii) in respect of mineral mined at the same point in time or at different points in time;
 - (iv) in respect of mineral mined by the same method of mining or by different methods of mining;
- (e) may be prescribed to apply generally throughout the State or in any prescribed locality of the State;
- (f) may be prescribed in respect of all mining operations in the State or in respect of a particular mining operation or in respect of the mining operations of a particular person.

321A Regulation may impose civil penalties

- (1) This section applies if a regulation provides for a person to make an election about the time and manner, or amount, of payment of royalty to the State.
- (2) To deter exploitation of the provision, the regulation may impose a civil penalty—
 - (a) for contravention of a prescribed requirement; or
 - (b) in other prescribed circumstances.

-
- (3) The amount of the civil penalty must be a prescribed amount or a prescribed percentage of royalty payable.

323 Resolving inconsistency between differing royalty provisions

Where there is inconsistency between the requirements of the regulations and the provisions of any agreement made with the State of Queensland or of any undertaking given by any person (whether made or given before or after the commencement of the *Mining Royalties Act 1974* and whether or not such provisions have the force of law) as respects the royalty payable to the Crown in respect of mineral mined or mineral-bearing ore removed in any mining operation or as respects the manner or basis of its calculation, the requirements of the regulations shall prevail and the royalty payable and the manner and basis of its calculation shall be as prescribed by regulation, and any amount of royalty paid pursuant to such agreement or undertaking in relation to any period shall be offset against the amount of royalty duly payable pursuant to the regulations in relation to the same period.

324 Utilisation of security deposit towards royalty payments

- (1) Where royalty is payable under this chapter by a person in respect of 1 mining operation (as determined by the Minister pursuant to section 320(8)) and is unpaid, that amount may be recovered by the Minister or, as the case may be, the chief executive by utilisation of security deposited by or on behalf of that person in respect of mining claims or mining leases or any of them under which the mining operation is carried on.
- (2) This section shall not be construed to limit the right to utilise a security deposit for any purpose under any other provision of this Act.

[s 325]

325 Royalty return and payment upon transfer or surrender of mining claim or mining lease

- (1) A person who transfers or surrenders, otherwise than for the purpose of a grant of a new mining claim or mining lease, a mining claim or a mining lease shall lodge with the document of transfer or surrender a royalty return with respect to mineral mined under the authority of the mining claim or mining lease for the current return period up to the last day of the month immediately preceding the lodgement of the transfer or surrender and shall lodge with the return the prescribed royalty in respect of that mineral.
- (2) Nothing in subsection (1) shall abrogate the liability of a holder of a mining claim or mining lease at the time that minerals are mined thereunder to pay royalty on the minerals mined during the period from the date up to which the return required under subsection (1) is required up to the date the transfer or surrender thereof takes effect.
- (3) Despite subsection (1)—
 - (a) the person is not required to lodge the royalty return if the royalty return has already been lodged under section 320(4); and
 - (b) the person is not required to pay the royalty if the person has already paid the royalty under section 320.

Part 2 Records and information

326 Requirement to keep proper records

- (1) A person who is the holder of a mining claim or mining lease or who otherwise mines mineral from land must keep the records necessary to enable the royalty payable by the person to be ascertained.

Division 2 Royalty assessments and reassessments

331A Assessment of royalty

- (1) The Minister must make an assessment of a royalty-related amount payable by a person for each royalty return lodged by the person under this chapter, even if the royalty-related amount payable by the person is nil.
- (2) Also, the Minister may, at any time, make an assessment of the royalty-related amount payable by a person for a period (a *default assessment*), if the Minister is reasonably satisfied—
 - (a) a royalty-related amount is payable by the person for the period; but
 - (b) the person has not lodged a return for the period under this chapter.

331B Reassessment of royalty

- (1) The Minister may make a reassessment of a royalty-related amount payable by a person for a period if the Minister is reasonably satisfied the original assessment or an earlier

- (4) A reassessment decreasing a royalty-related amount payable by a person for a period must be made within 5 years after the day the original assessment for the period was made (the *reassessment period*).
- (5) However, a reassessment decreasing a royalty-related amount payable by a person for a period may be made after the reassessment period if—
 - (a) within the reassessment period, the person asks the Minister to reassess a royalty-related amount payable by the person for the period and the Minister agrees to make the reassessment; or
 - (b) the reassessment is required under a provision of this or another Act.
- (6) A reassessment does not replace the previous assessment of a royalty-related amount payable by a person for a period, but merely varies it by—

 - (b) changing the basis on which the royalty-related amount payable by the person is assessed.

331C Making assessments and default assessments in particular circumstances

- (1) The Minister may make an assessment of a royalty-related amount payable by a person for a period on the available information the Minister considers relevant.

[s 331D]

- (2) Subsection (3) applies if—
 - (a) the Minister makes a default assessment of a royalty-related amount payable by a person for a period;
or
 - (b) the information given by a person in a return or another document relating to the return is insufficient to enable the Minister to determine a royalty-related amount payable by the person for a period; or
 - (c) a person fails to give the Minister information or a document required to enable the Minister to determine a royalty-related amount payable by the person for a period.
- (3) The Minister may make an assessment of the amount the Minister reasonably believes to be the royalty-related amount payable by the person for the period.
- (4) If an assessment of a royalty-related amount payable by a person is made under subsection (3) because the person failed to give a document mentioned in subsection (2)(c), the Minister may make an assessment as if the document were in existence and in the Minister's possession.

331D Notice of assessment or reassessment

- (1) The Minister must give notice of an assessment or reassessment of a royalty-related amount payable by a person for a period (an *assessment notice*) to the person.
- (2) If the royalty-related amount already paid by the person for the period is more than the amount assessed or reassessed as payable for the period, the assessment notice must include the difference between those amounts.
- (3) Subsection (4) applies if the royalty-related amount already paid by the person for the period is less than the amount assessed or reassessed as payable for the period.
- (4) The assessment notice must include—

 - (b) the day by which the liability difference must be paid (the *due date*); and
 - (c) a statement that, under section 332, unpaid royalty interest is payable on the amount of the liability difference, to the extent it is comprised of royalty unpaid from time to time, for the period—
 - (i) starting on, and including, the day after the lodgement day; and
 - (ii) ending on, and including, the day the liability difference is paid in full; and
 - (d) the rate at which the interest is payable; and

- (6) In this section—

lodgement day, for a period, means the day a royalty return must be lodged by a person for the period (disregarding any extended time for lodging the return provided for by regulation).

[s 331E]

Division 3 Unpaid royalty interest and royalty penalties

331E Liability for royalty penalty amount

- (1) A person is liable to the State for an amount (*royalty penalty amount*) if—

 - (b) the Minister makes a reassessment and the original assessment was a default assessment under section 331A(2); or
 - (c) the royalty payable by the person for a period on a reassessment under section 331B is more than the royalty assessed as payable by the person on the original assessment, or an earlier reassessment, for the period.
- (2) The royalty penalty amount must be assessed as follows—
 - (a) if subsection (1)(a) applies—an amount equal to 75% of the royalty payable;
 - (b) if subsection (1)(b) applies—an amount equal to 75% of the royalty payable under the reassessment;
 - (c) if subsection (1)(c) applies and the royalty payable on the reassessment is more than the royalty assessed on the original assessment—an amount equal to 75% of the difference between the 2 amounts;
 - (d) if subsection (1)(c) applies and the royalty payable on the reassessment is less than the royalty assessed on the original assessment but more than the royalty assessed on an earlier reassessment—an amount equal to 75% of the difference between the royalty payable on the last reassessment and the lowest royalty assessed on an earlier reassessment.
- (3) The Minister may increase the royalty penalty amount by not more than 20% of the royalty penalty amount assessed under

subsection (2) if the Minister is reasonably satisfied the person has hindered or prevented the Minister from becoming aware of the nature and extent of the person's liability to pay royalty.

331F Royalty penalty amount not payable if proceeding for offence started

- (1) This section applies if a person is liable to pay all or part of a royalty penalty amount because of a particular act or omission of the person.
- (2) If a proceeding is started against the person for an offence under this Act that is constituted by the particular act or omission and the royalty penalty amount has not been paid, the royalty penalty amount is payable only if the Minister withdraws the proceeding.
- (3) If a proceeding is started against the person for an offence under this Act that is constituted by the particular act or omission and the royalty penalty amount has been paid, the Minister must make a reassessment remitting the royalty penalty amount to nil.
- (4) However, if the proceeding against the person is withdrawn, the Minister must make a reassessment to reinstate the royalty penalty amount remitted under subsection (3).

331G Remission of royalty penalty amount

The Minister may remit the whole or part of a royalty penalty amount.

332 Unpaid royalty interest

- (1) A person must pay interest (*unpaid royalty interest*) on the amount of royalty payable by the person to the State and unpaid from time to time (*unpaid royalty*).
- (2) Unpaid royalty interest accrues on unpaid royalty—

[s 332AA]

- (a) at the rate prescribed under a regulation; and
 - (b) daily, for the period starting on the day after the amount is required to be paid under this Act (the *start date*) and ending on the day the unpaid royalty is paid in full, both days inclusive.
- (3) A regulation may prescribe how unpaid royalty interest is worked out in particular cases or classes of cases, including, for example, how the interest is worked out if royalty is, under a regulation, payable in instalments.
 - (4) If the time for payment of royalty by a person is extended, the extension of time must be disregarded for working out the start date.
 - (5) The order of application of a payment under section 332A applies to determine the amount of unpaid royalty on which unpaid royalty interest accrues.
 - (6) The Minister may remit the whole or part of unpaid royalty interest payable under this section.
 - (7) If a regulation made under subsection (3) provides for unpaid royalty interest to be worked out if royalty is payable by instalments, and the Minister decides to remit to a person the whole or part of the interest under subsection (6) payable for an instalment, the Minister must give the person a notice stating the amount to be remitted.
 - (8) However, subsection (7) only applies if the amount of unpaid royalty interest is to be remitted before an assessment notice is given for the remittance.

Division 4 Refunds and payments

332AA Refunds

- (1) This section applies—
 - (a) if, on an assessment of a royalty-related amount payable by a person for a period made under section 331A, the

-
- royalty-related amount paid for the period is more than the royalty-related amount payable by the person for the period under the assessment (the difference being an *excess amount*); or
- (b) if, on a reassessment of a royalty-related amount payable by a person for a period made under section 331B, the royalty-related amount paid for the period is more than the royalty-related amount payable by the person for the period under the reassessment (the difference also being an *excess amount*); or
- (c) if—
- (i) the royalty-related amount paid by a person for a period is otherwise more than the royalty-related amount payable by the person under this chapter (the difference also being an *excess amount*); and
 - (ii) the Minister has given the person a notice stating the excess amount.
- (2) The Minister must refund an excess amount mentioned in subsection (1) by—
- (a) repaying the excess amount to the person; or

- (3) No interest is payable on the excess amount refunded.

332A Application of payments

A payment made by a person to the State for a royalty-related amount must be applied in the following order—

[s 333]

333 Recovery of unpaid amounts

- (1) This section applies if a person does not pay the whole or part of a royalty-related amount payable by the person under this Act.

- (3) Subsection (2) applies in relation to a civil penalty or royalty penalty amount despite section 412(3).
- (4) In this section—
relevant entity means—
 - (a) for royalty payable to a person other than the State—that person; or
 - (b) otherwise—the State.

333A Earlier time for payment of royalty-related amount

- (1) This section applies despite any other provision of this Act relating to when a royalty-related amount is payable by a person for a period.
- (2) The Minister may, in an assessment notice or notice given under this section, state an earlier date than the date a royalty-related amount would otherwise be payable under this Act (the *ordinary due date*), if the Minister reasonably believes the amount may not be recoverable if the ordinary due date were to apply.
- (3) The date stated in the notice mentioned in subsection (2) must not be a date before the notice is given.

- (b) the *Thiess Peabody Mitsui Coal Pty. Ltd. Agreements Acts 1962 to 1965*;
- (c) an agreement, or amendment of an agreement, provided for under an Act mentioned in paragraph (a) or (b).

Subdivision 2 Provisions for special agreement Acts

740 Application of div 6 to special coal mining lease under special agreement Act

This division applies to a special coal mining lease granted under a special agreement Act as if the lease were a mineral hydrocarbon mining lease.

741 Unfinished special coal mining lease applications

- (1) A special coal mining lease must not be granted under a special agreement Act if the lease was applied for or requested, but not granted, before the commencement of this section.
- (2) Subject to subsection (3), an addition to the area of an existing special coal mining lease must not be made under a special agreement Act if the addition was applied for or requested, but not made, before the commencement.
- (3) Subsection (2) does not apply if the addition is additional surface areas within the area of the existing special coal mining lease and the special coal mining lease was granted under the *Thiess Peabody Coal Pty. Ltd. Agreement Act 1962*.
- (4) This section applies despite any provision of the special agreement Act.
- (5) In this section—

applied for includes specified under clause 18 of the agreement under the *Thiess Peabody Coal Pty. Ltd. Agreement Act 1962*.

existing special coal mining lease means a special coal mining lease that, immediately before the commencement, was in force under a special agreement Act.

[s 742]

742 Division 6 prevails over special agreement Acts

If a provision of this division conflicts with a provision of a special agreement Act, the provision of this division prevails to the extent of the inconsistency.

743 No compensation

- (1) No amount, whether by way of compensation, reimbursement or otherwise is payable by the State to any person for or in connection with the enactment or operation of this subdivision.
- (2) Subsection (1) applies despite any provision of a special agreement Act and despite any other Act or law.

Subdivision 3 Provision for section 3A

744 Application of s 3A to existing mining tenements

- (1) Section 3A applies for an existing mining tenement.
- (2) However, section 3A(3) and (7) do not apply for an authorised activity for an existing mining tenement until 3 months after the commencement.
- (3) In this section—

commencement means the day section 3A commences.

existing mining tenement means a mining tenement (other than a coal or oil shale mining tenement) in force immediately before the commencement.

Subdivision 4 Unfinished coal or oil shale mining lease applications for land in area of petroleum tenure

745 Application of pt 7AA

- (1) This section applies if, before the commencement—
 - (a) a coal or oil shale mining lease application was made; and
 - (b) a recommendation about the application had not been made to the Governor in Council under section 271(3)(a)(i); and
 - (c) the land the subject of the application is in the area of a petroleum tenure.
- (2) Part 7AA applies to the application.
- (3) The application may be decided only if the provisions of part 7AA, to the extent they are relevant, have been complied with.
- (4) However, subsections (2) and (3) are subject to sections 307 and 392.

Subdivision 5 Provisions for existing coal mining leases

746 Clarification provision for coal seam gas

- (1) This section applies to a coal mining lease, other than a mineral hydrocarbon mining lease, that was in force during the period in which the *Petroleum Act 1923*, former section 150(4), was in force.
- (2) To remove any doubt, it is declared that despite the provisions of the *Petroleum Act 1923*, section 150(4), the entitlement under section 235 (as it was in force during that period) of the lease holder is taken, during the period, to have included the right to extract and produce, or mine, coal seam gas.

[s 747]

- (3) To remove any doubt, it is declared that subsection (2) does not affect the application of part 7AA, division 8, subdivision 1 in relation to the lease.
- (4) The right under subsection (2) is subject to section 748.

747 Continuation of particular rights relating to coal seam gas under mineral hydrocarbon mining leases

- (1) From the commencement, a mineral hydrocarbon mining lease holder may—
 - (a) mine for coal seam gas in the area of the mining lease; and
 - (b) use the coal seam gas mined for any purpose allowed under the lease, including, for example, any of the following uses allowed under the lease—
 - (i) a use that, under section 318CN, may be made of incidental coal seam gas by a coal or oil shale mining lease holder;
 - (ii) a commercial use that may be made of coal seam gas by a petroleum lease holder.
- (2) However, the mining and the carrying out of a use mentioned in subsection (1)(b) is subject to—
 - (a) section 318CO, as deferred under section 749; and
 - (b) section 318CU; and
 - (c) the following provisions of the Petroleum and Gas (Production and Safety) Act—
 - (i) chapters 6, 9, 10 and 11;
 - (ii) chapter 8, parts 1 and 2;
 - (iii) chapters 12 to 14 to the extent they apply for the provisions mentioned in subparagraphs (i) and (ii).
- (3) To remove any doubt, it is declared that—
 - (a) subsection (1) applies despite—

-
- (i) section 318CN(1), (2) and (3); or
 - (ii) the *Petroleum Act 1923*, section 150; or
 - (iii) the Petroleum and Gas (Production and Safety) Act, sections 800 and 802; and
- (b) the rights under subsection (1) may be exercised—
- (i) even though the holder does not hold a petroleum tenure that allows the rights to be exercised; and
 - (ii) independently of any right the holder has under the lease to mine coal.

748 Restriction on flaring or venting coal seam gas

Section 318CO applies for a coal mining lease in force immediately before the commencement as if a reference in section 318CO to incidental coal seam gas were a reference to coal seam gas generally.

749 Deferral of ss 318CN(2) and 318CO for particular existing coal mining lease holders

If, immediately before the commencement, the holder of a coal mining lease was commercially using incidental coal seam gas mined under the lease, sections 318CN(2) and 318CO do not apply to the holder until 12 months after the commencement.

750 Deferral of s 318CR(1) for existing coal mining lease holders

Section 318CR(1) does not apply to the holder of a coal mining lease in force at the commencement until 6 months after the commencement.

[s 751]

Subdivision 6 Modified application of section 318CI for particular existing exploration tenements overlapping with petroleum lease

751 Application of sdiv 6

- (1) This subdivision applies if—
 - (a) land is in the area of—
 - (i) a coal or oil shale exploration tenement; and
 - (ii) a petroleum lease; and
 - (b) the exploration tenement and the lease are in force immediately before the commencement.
- (2) However—
 - (a) this subdivision does not apply to an MDL granted before the petroleum lease; and
 - (b) this subdivision does not apply, or ceases to apply, if the same person holds the exploration tenement and the lease.

752 Modified application of s 318CI until 3 months after commencement

- (1) If, immediately before the commencement, an authorised activity for the exploration tenement was being carried out on the land, section 318CI does not apply for the carrying out of the activity on the land during the period that—
 - (a) starts on the commencement; and
 - (b) ends 3 months after the commencement.
- (2) However, if the carrying out of the activity during the period adversely affects the carrying out of an authorised activity for the lease, the activity may be carried out during the period only if section 318CI is complied with.

-
- (3) Subsection (2) applies whether or not the authorised activity for the lease has already started.

753 Power to relinquish if activity restricted

- (1) If, because of the restriction under section 752(2), the activity can not be carried out, the exploration tenement holder may with the Minister's approval lodge a written notice—
- (a) relinquishing the part of the area of the exploration tenement to which the restriction applies; and
 - (b) proposing, for the Minister's approval, amendments to the exploration tenement accepted by the Minister under section 133(1)(g)(i) or 183(1)(m)(i)(B) to reflect the restriction.
- (2) The notice must be lodged at—
- (a) the office of the department for lodging the notice, as stated in a gazette notice by the chief executive; or
 - (b) if no office is gazetted under paragraph (a)—the office of the chief executive.
- (3) Subsection (1) does not limit section 141C.
- (4) The proposed amendments have no effect unless the Minister approves them.

Subdivision 7 Particular provision for existing mineral development licences that overlap with a Petroleum Act lease

754 Application of sdiv 7

- (1) This subdivision applies if, before the commencement, a petroleum lease under the *Petroleum Act 1923* was granted and when it was granted the area of the lease included any of the following land (*overlapping land*)—

[s 755]

- (a) land in the area of an MDL that is a coal or oil shale exploration tenement;
 - (b) land the subject of an application (the *MDL application*) for an MDL made but not decided before the commencement if the MDL applied for would, if granted, be a coal or oil shale exploration tenement under that Act.
- (2) However, this subdivision does not apply, or ceases to apply, if—
- (a) the same person holds the lease and the MDL; or
 - (b) the overlapping land ceases to be in the area of the lease or the MDL, or subject to the MDL application; or
 - (c) the person who made the MDL application (the *MDL applicant*) is also the lessee; or
 - (d) the MDL application is rejected; or
 - (e) the MDL holder or the MDL applicant has agreed in writing with the lessee that this division does not apply.

755 Substituted restriction on authorised activities

- (1) This section applies instead of section 318CI for the MDL or any licence granted because of the MDL application.
- (2) An authorised activity for the MDL may be carried out on the overlapping land only if—
 - (a) an agreement between the MDL holder and the lessee about coordinated development or access on the overlapping land provides that the activity may be carried out; or
 - (b) the required notice has been given and the carrying out of the activity—
 - (i) does not interfere with the carrying out of an authorised activity under the lease on the overlapping land; and

-
- (ii) is consistent with the safety management plan under the Petroleum and Gas (Production and Safety) Act for any operating plant on the overlapping land, the operation of which is an authorised activity for the lease.
- (3) Subsection (2)(b) applies whether or not the authorised activity for the lease has already started.
- (4) In this section—

required notice means a notice from the MDL holder to the lessee, given a reasonable period before the start of the authorised activity for the MDL, that states when and where the activity is proposed to be carried out.

Subdivision 8 Development plans

756 Application of sdiv 8

- (1) This subdivision applies for any coal or oil shale mining lease in force immediately before the commencement.
- (2) Sections 757 to 759 also apply for any coal or oil shale mining lease granted for an application made before 31 December 2004 if the land the subject of the application was not in the area of a petroleum tenure.
- (3) For applying subsection (2), the definition *relevant period* in section 758(4) is taken to be as follows—

relevant period means 6 months after the first anniversary of the grant of the lease.

757 Deferral of obligation to comply with development plan

Sections 318DQ and 318DR do not apply for the coal or oil shale mining lease until—

[s 758]

- (a) if its holder complies with section 758—when the Minister’s decision about whether to approve the holder’s proposed development plan takes effect; or
- (b) if its holder does not comply with section 758—6 months after the commencement.

758 Obligation to lodge proposed development plan

- (1) It is a condition of the coal or oil shale mining lease that its holder must, within the relevant period, lodge at the following office a proposed initial development plan for the lease—
 - (a) the office of the department for lodging proposed development plans, as stated in a gazette notice by the chief executive;
 - (b) if no office is gazetted under paragraph (a)—the office of the chief executive.
- (2) The proposed plan must—
 - (a) comply with the initial development plan requirements; and

Note—
See also section 318ED.

 - (b) be accompanied by the fee prescribed under a regulation.
- (3) Section 318DP and part 7AA, division 9, subdivision 3, apply for the proposed plan as if a reference in sections 318DZ to 318EA to a proposed mining lease were a reference to the coal or oil shale mining lease.
- (4) In this section—

relevant period means—

 - (a) if, at the commencement, the lease has underground coal mining operations or the holder is carrying out activities to manage or mine coal seam gas—6 months after the commencement; or

- (b) otherwise—6 months after the first anniversary of the grant of the lease that happens after the commencement.

759 Application of pt 7AA, div 9, sdiv 3 for approval of proposed plan

- (1) If the holder complies with section 758, part 7AA, division 9, subdivision 3 applies—
 - (a) as if a reference in the subdivision to a proposed mining lease were a reference to the coal or oil shale mining lease; and
 - (b) subject to section 760; and
 - (c) with other necessary changes.
- (2) For section 318AH, the reference to a development plan approved under part 7AA, division 8 is taken to include a reference to a development plan approved under division 8 as applied under subsection (1).

760 Additional requirement for proposed development plan for mineral hydrocarbon mining lease

- (1) If the coal or oil shale mining lease is a mineral hydrocarbon mining lease, a proposed development plan for the lease lodged under section 758 must—
 - (a) show that the lease holder proposes to commercialise coal seam gas; or
 - (b) include, or be accompanied by, evidence that satisfies the Minister that—
 - (i) the holder has fully investigated the opportunities to commercialise coal seam gas; and
 - (ii) there is no basis to commercialise coal seam gas.
- (2) In this section—

[s 761]

commercialise, for coal seam gas, means to carry out commercial mining of coal seam gas under the rights for the lease under section 747(1).

761 Additional condition for proposed development plan for mineral hydrocarbon mining lease

- (1) This section applies if—
 - (a) the coal or oil shale mining lease is a mineral hydrocarbon mining lease; and
 - (b) the lease holder has, under section 758, lodged a proposed development plan for the lease; and
 - (c) the Minister is not satisfied as mentioned in section 760(1)(b).
- (2) The Minister may, by written notice, require the holder to carry out further investigations and lodge a written report about the investigations within a stated reasonable period at—
 - (a) the office of the department for lodging the report, as stated in a gazette notice by the chief executive; or

- (2) The registered native title party or the permit holder may be represented at the conference by a lawyer.
- (3) A party to the conference must pay the party's own costs for the conference.

- (2) If the chief executive is asked to refer the matter to the tribunal for a decision—

 - (b) the tribunal must also make a compensation decision or compensation trust decision for the registered native title party under part 7.

437 Notice of access agreement

The permit holder must, as soon as practicable after an access agreement for entry to an area is obtained, but in any event before the holder first enters the area, give a copy of the access agreement to the chief executive.

 - (b) identify the previous notice.

Subdivision 3 Consultation and access agreement requirements before entry

488 Requirement for consultation and access agreement

- (1) It is a condition of a low impact exploration permit that the permit holder must not act under the permit to enter, for the first time, any area of non-exclusive land unless the holder has consulted with each registered native title party for the area.
- (2) However, the condition does not require consultation with a registered native title party if, at any time after the start of the consultation period for entry to the area, the registered native title party gives the permit holder a written notice that the party does not wish to be consulted about the proposed activities stated in the application notice.
- (3) It is a condition of a low impact exploration permit that the permit holder must not act under the permit to enter, for the first time, any area of non-exclusive land unless the holder has

an access agreement for entry to the area with each registered native title party for the area, obtained after the start of the consultation period for entry to the area.

- (4) However, the condition does not require an access agreement for entry to the area with a particular registered native title party if, at any time after the start of the consultation period for entry to the area, the registered native title party gives the permit holder a written notice that the party does not wish to be consulted about an access agreement for the entry.

488A Exploration activities to be carried out in accordance with access agreement

- (1) This section applies to the holder of an exploration permit if—
- (a) the holder is carrying out activities in an area under, or purportedly under, the permit; and
 - (b) there is an access agreement for entry to the area under the permit.
- (2) The holder must not carry out the activities in a way that is inconsistent with the requirements of the access agreement.

489 Consultation matters

- (1) The purpose of the consultation is to minimise the impact of the low impact exploration permit on the exercise of native title rights and interests in relation to the land that will be affected under the permit, and to obtain any necessary access agreement for entry.
- (2) In particular, the consultation must be about the matters mentioned in section 26A(7) of the Commonwealth Native Title Act, as follows—
- (a) the protection and avoidance of any area or site, on the land or waters to which the native title rights and interests relate, of particular significance to the persons holding the native title in accordance with their traditional laws and customs;

- (b) any access to the land or waters to which the native title rights and interests relate by—
 - (i) the persons mentioned in paragraph (a); or
 - (ii) any person who will do anything that is authorised because of, or results from, or otherwise relates to, the permit;
- (c) the way in which any other thing that is authorised because of, results from, or otherwise relates to, the permit and affects native title rights and interests, is to be done.

489A Access agreements

- (1) An access agreement for entry to an area under a low impact exploration permit may include provisions about any of the following—
 - (a) the periods during which the permit holder is to be permitted access to the area;
 - (b) the parts of the area the permit holder may access and the means by which access may be gained;
 - (c) the kinds of low impact activities that may be carried out on the area;
 - (d) the requirements to be observed by the permit holder when on the area;
 - (e) the things the permit holder needs to do to protect the environment in carrying out low impact activities on the area;
 - (f) compensation to be paid under part 7;
 - (g) how disputes arising in connection with the agreement are to be resolved;
 - (h) the way the agreement may be changed;
 - (i) other matters the parties to the agreement agree to provide for in the agreement.
- (2) Subsection (3) applies if there is an inconsistency between—

-
- (a) a provision of an access agreement; and
 - (b) either of the following—
 - (i) a provision of this Act;
 - (ii) a condition of an exploration permit.
 - (3) The provision of the Act or condition of the exploration permit prevails.

490 Consultation period and consultation period advice day

- (1) The *consultation period*, for entry to an area—
 - (a) starts 1 month after the consultation period advice day for entry to the area; and
 - (b) ends 2 months after it starts.
- (2) The *consultation period advice day*, for entry to an area, is the day the notice is given under subsection (4).
- (3) The consultation period advice day—
 - (a) must not be before the permit holder was advised of the amount of security decided by the Minister under section 144; and
 - (b) must not be less than 3 months after the application notice relating to the low impact exploration permit was given, or, if a replacement notice was given under section 487, the day the replacement notice was given.
- (4) The permit holder must give notice of the day on which the consultation period for entry to the area is to start, and the area to which the consultation in the consultation period is to relate, to—
 - (a) each entity that is a registered native title party for land included in the area; and

- (5) The notice given under subsection (4) must contain a clear description of the area to be entered and its location, and a description of the nature of the low impact activities proposed for the area.

491 Parties may seek mediation

- (1) If, at the end of the consultation period for entry to an area, an access agreement for entry to the area has not been obtained between the permit holder and a registered native title party for the area, either party may ask the chief executive to hold a conference for mediation about the access agreement.
- (2) Part 10, division 1B applies to the conference as if the request were a request made under section 335F(2)(a) by an owner of land mentioned in section 335F(2)(a).
- (3) Despite section 335H(3), the registered native title party or the permit holder may be represented at the conference by a lawyer.
- (4) Subject to any order made under section 335I, a party to the conference must pay the party's own costs for the conference.

491A Decision by tribunal

- (1) If an access agreement for entry to an area is not obtained within 1 month after the chief executive has been asked to hold a conference for mediation about the agreement, the permit holder or the registered native title party may ask the chief executive to refer the matter to the tribunal for a decision.
- (2) If the chief executive is asked to refer the matter to the tribunal for a decision—
 - (a) the chief executive must refer the matter; and
 - (b) the tribunal must decide the terms of the access agreement.
- (3) When the tribunal decides the terms of the access agreement—
 - (a) subject to any order made by the tribunal in the matter, the access agreement decided by the tribunal has effect as an access agreement as if the registered native title party and the permit holder had executed it; and

- (b) the tribunal must also make a compensation decision or compensation trust decision for the registered native title party under part 7.

492 Notice of access agreement

The permit holder must, as soon as practicable after an access agreement for entry to an area is obtained, but in any event before the holder first enters the area, give a copy of the access agreement to the chief executive.

493 Chief executive may recommend action

- (1) The chief executive may recommend action to the Minister to address any matter raised by a registered native title party in relation to an access agreement.
- (2) The Minister may give the exploration permit holder the directions the Minister considers appropriate about the recommended action.
- (3) A failure by the holder to comply with the Minister's directions is taken to be a breach of the conditions of the exploration permit.

543 Notification of chief executive

- (1) Within 5 business days after the applicant has complied, or purportedly complied, with the requirements of section 542, the applicant must give the chief executive information in the approved form about the applicant's compliance with section 542.
- (2) A copy of the written notice given under section 542(1) must be attached to the approved form.
- (3) If the chief executive is satisfied that a written notice given, or purportedly given, under section 542 has not been given in accordance with the requirements of section 542(1) and (2), or does not comply with the requirements of section 542(3), the chief executive must—

- (4) The new notice, when given, must—
 - (a) state that it is a replacement notice; and
 - (b) identify the previous notice.

Subdivision 3 Consultation and access agreement requirements before entry

544 Requirement for consultation and access agreement

- (1) It is a condition of a low impact mineral development licence that the licence holder must not act under the licence to enter, for the first time, any area of non-exclusive land unless the holder has consulted with each registered native title party for the area.

- (2) However, the condition does not require consultation with a registered native title party if, at any time after the start of the consultation period for entry to the area, the registered native title party gives the licence holder a written notice that the party does not wish to be consulted about the proposed activities stated in the application notice.
- (3) It is a condition of a low impact mineral development licence that the licence holder must not act under the licence to enter, for the first time, any area of non-exclusive land unless the holder has an access agreement for entry to the area with each registered native title party for the area, obtained after the start of the consultation period for entry to the area.
- (4) However, the condition does not require an access agreement for entry to the area with a particular registered native title party if, at any time after the start of the consultation period for entry to the area, the registered native title party gives the licence holder a written notice that the party does not wish to be consulted about an access agreement for the entry.

544A Mineral development activities to be carried out in accordance with access agreement

- (1) This section applies to the holder of a mineral development licence if—
 - (a) the holder is carrying out activities in an area under, or purportedly under, the licence; and
 - (b) there is an access agreement for entry to the area under the licence.
- (2) The holder must not carry out the activities in a way that is inconsistent with the requirements of the access agreement.

545 Consultation matters

- (1) The purpose of the consultation is to minimise the impact of the low impact mineral development licence on the exercise of native title rights and interests in relation to the land that will be affected under the licence, and to obtain any necessary access agreement for entry.

-
- (2) In particular, the consultation must be about the matters mentioned in section 26A(7) of the Commonwealth Native Title Act, as follows—
- (a) the protection and avoidance of any area or site, on the land or waters to which the native title rights and interests relate, of particular significance to the persons holding the native title in accordance with their traditional laws and customs;
 - (b) any access to the land or waters to which the native title rights and interests relate by—
 - (i) the persons mentioned in paragraph (a); or
 - (ii) any person who will do anything that is authorised because of, or results from, or otherwise relates to, the licence;
 - (c) the way in which any other thing that is authorised because of, results from, or otherwise relates to, the licence and affects native title rights and interests, is to be done.

545A Access agreements

- (1) An access agreement for entry to an area under a low impact mineral development licence may include provisions about any of the following—
- (a) the periods during which the licence holder is to be permitted access to the area;
 - (b) the parts of the area the licence holder may access and the means by which access may be gained;
 - (c) the kinds of low impact activities that may be carried out on the area;
 - (d) the requirements to be observed by the licence holder when on the area;
 - (e) the things the licence holder needs to do to protect the environment in carrying out low impact activities on the area;

- (f) compensation to be paid under part 7;
 - (g) how disputes arising in connection with the agreement are to be resolved;
 - (h) the way the agreement may be changed;
 - (i) other matters the parties to the agreement agree to provide for in the agreement.
- (2) Subsection (3) applies if there is an inconsistency between—
- (a) a provision of an access agreement; and
 - (b) either of the following—
 - (i) a provision of this Act;
 - (ii) a condition of a mineral development licence.
- (3) The provision of the Act or condition of the mineral development licence prevails.

546 Consultation period and consultation period advice day

- (1) The *consultation period*, for entry to an area—
- (a) starts 1 month after the consultation period advice day for entry to the area; and
 - (b) ends 2 months after it starts.
- (2) The *consultation period advice day*, for entry to an area, is the day the notice is given under subsection (4).
- (3) The consultation period advice day must not be less than 3 months after the application notice relating to the low impact mineral development licence was given, or, if a replacement notice was given under section 543, the day the replacement notice was given.
- (4) The licence holder must give notice of the day on which the consultation period for entry to the area is to start, and the area to which the consultation in the consultation period is to relate, to—
- (a) each entity that is a registered native title party for land included in the area; and

- (b) the chief executive.
- (5) The notice given under subsection (4) must contain a clear description of the area to be entered and its location, and a description of the nature of the low impact activities proposed for the area.

547 Parties may seek mediation

- (1) If, at the end of the consultation period for entry to an area, an access agreement for entry to the area has not been obtained between the licence holder and a registered native title party for the area, either party may ask the chief executive to hold a conference for mediation about the access agreement.
- (2) Chapter 13, part 2 applies to the conference as if the request were a request made under section 335F(2)(a) by an owner of land mentioned in section 335F(2)(a).
- (3) Despite section 335H(3), the registered native title party or the licence holder may be represented at the conference by a lawyer.
- (4) Subject to any order made under section 335I, a consultation party must pay the party's own costs for the conference.

547A Decision by tribunal

- (1) If an access agreement for entry to an area is not obtained within 1 month after the chief executive has been asked to hold a conference for mediation about the agreement, the licence holder or the registered native title party may ask the chief executive to refer the matter to the tribunal for a decision.
- (2) If the chief executive is asked to refer the matter to the tribunal for a decision—
 - (a) the chief executive must refer the matter; and
 - (b) the tribunal must decide the terms of the access agreement.
- (3) When the tribunal decides the terms of the access agreement—

- (a) subject to any order made by the tribunal in the matter, the access agreement decided by the tribunal has effect as an access agreement as if the registered native title party and the licence holder had executed it; and
- (b) the tribunal must also make a compensation decision or compensation trust decision for the registered native title party under part 7.

548 Notice of access agreement

The licence holder must, as soon as practicable after an access agreement for entry to an area is obtained, but in any event before the holder first enters the area, give a copy of the access agreement to the chief executive.

549 Chief executive may recommend action

- (1) The chief executive may recommend action to the Minister to address any matter raised by a registered native title party in relation to an access agreement.
- (2) The Minister may give the mineral development licence holder the directions the Minister considers appropriate about the recommended action.
- (3) A failure by the holder to comply with the Minister's directions is taken to be a breach of the conditions of the mineral development licence.

-
- (3) The written notice must advise the granting of the mining lease and state any conditions of the mining lease.

Subdivision 3 Consultation and negotiation

658 Parties to consultation and negotiation

- (1) The parties to the consultation and negotiation required under this subdivision about the granting of the proposed mining lease are the following (the *consultation and negotiation parties* for the proposed mining lease)—
- (a) the applicant;
 - (b) the registered native title parties;
 - (c) the State.
- (2) However, the State stops being a consultation and negotiation party for the proposed mining lease if the State and all the other consultation and negotiation parties for the proposed mining lease at any time agree, in the approved form lodged with the chief executive, that the State is not to be a consultation and negotiation party.
- (3) Also, if all the consultation and negotiation parties at any time agree, in the approved form lodged with the chief executive, that the State is to take a particular role in the consultation and negotiation, stated in the lodged approved form, the State may adopt the stated role, even though it is no longer a consultation and negotiation party.
- (4) A registered native title party is taken to stop being a consultation and negotiation party if the party lodges an approved form under section 657(1)(b).

659 Requirement for consultation and negotiation in good faith

- (1) The consultation and negotiation parties for the proposed mining lease must consult and negotiate in good faith with a view to obtaining the agreement of each of the registered native title parties (a *negotiated agreement*) to—

- (a) the granting of the proposed mining lease; and
 - (b) any conditions to be complied with by the consultation and negotiation parties if the proposed mining lease is granted.
- (2) Also, as part of the consultation and negotiation—
- (a) the applicant—
 - (i) must consult the registered native title parties about ways of minimising the impact of the grant of the proposed mining lease on their registered native title rights and interests in relation to the land, including about—
 - (A) any access to the land; and
 - (B) the way in which anything authorised by the proposed mining lease might be done; and
 - (ii) for the consultation, must have regard to the guidelines set out in this subdivision for applicant consultation; and
 - (b) the registered native title parties—
 - (i) must consult the other consultation and negotiation parties about the effect of the proposed mining lease on their registered native title rights and interests; and
 - (ii) for the consultation, must have regard to the guidelines set out in this subdivision for registered native title party consultation.

660 Content of negotiation in good faith

- (1) Subsections (3) to (5) apply for the requirement under this subdivision to negotiate in good faith.
- (2) However, subject to those subsections, this subdivision does not limit the requirements that apply for negotiation in good faith.
- (3) A consultation and negotiation party must make every reasonable effort to reach agreement.

- (4) To negotiate in good faith, a consultation and negotiation party is not required to negotiate about issues unrelated or unconnected to the proposed mining lease.
- (5) A consultation and negotiation party is not required to negotiate about matters unrelated to the impact of the grant of the proposed mining lease on the registered native title rights and interests of registered native title parties.

661 Failure to negotiate

The failure of 1 consultation and negotiation party to negotiate in good faith can not be used to establish that another consultation and negotiation party has not negotiated in good faith.

662 Request for mediation

- (1) At any time before a negotiated agreement is reached or the proposed mining lease is referred to the tribunal, by action taken under section 669, for a native title issues decision, a consultation and negotiation party may ask for mediation to help in resolving issues relevant to the consultation and negotiation.
- (2) If a consultation and negotiation party asks for mediation under subsection (1), mediation—
 - (a) must be conducted by—
 - (i) a mediator chosen by the consultation and negotiation parties; or
 - (ii) if the consultation and negotiation parties are not able to agree on a mediator and the party asks the tribunal to provide the mediation—the tribunal, or a mediator chosen by the tribunal; and
 - (b) does not extend the period that must elapse before the proposed mining lease may be referred to the tribunal, by action taken under section 669, for a native title issues decision; and

- (c) may continue after the period mentioned in paragraph (b) has elapsed if the consultation and negotiation parties agree; and
- (d) may end at any time—
 - (i) by decision of the mediator; or
 - (ii) by agreement of the consultation and negotiation parties.

663 Process for consultation and negotiation—applicant consultation

- (1) This section states guidelines for applicant consultation under this subdivision.
- (2) Within 4 months after the notification day (native title issues), the applicant should—
 - (a) give each registered native title party a true copy of the application for the proposed mining lease (but not the statement detailing the applicant’s financial and technical resources) and the endorsed certificate of application; and
 - (b) convene at least 1 meeting (*consultation meeting*) to provide a reasonable opportunity for all registered native title parties to be given a presentation about the proposed mining lease.
- (3) A consultation meeting may be—
 - (a) in a town or city in which there is an office of the representative Aboriginal/Torres Strait Islander body for the area that includes the land; or
 - (b) at another place agreed between the consultation and negotiation parties.
- (4) A consultation meeting should be convened at a time and place suitable for maximising attendance.
- (5) If the applicant has convened a consultation meeting under subsection (2)(b), the meeting is taken to have happened even though not all, or none, of the registered native title parties attended the meeting.

- (6) The presentation mentioned in subsection (2)(b) should be directed at providing registered native title parties with an understanding of the anticipated nature, extent and impact of the project authorised by the grant of the proposed mining lease.

664 Process for consultation and negotiation—registered native title parties consultation

- (1) This section states the guidelines for registered native title party consultation under this subdivision.
- (2) The consultation should be carried out as soon as practicable after the applicant consultation has been completed.
- (3) Each registered native title party should advise the other consultation and negotiation parties about the impact the party considers the grant of the proposed mining lease will have on the party's registered native title rights and interests.

665 Process for consultation and negotiation—taking account of existing rights, interests and use

Without limiting the scope of consultation and negotiation under this subdivision, the nature and extent of the following may be taken into account—

- (a) existing non-native title rights and interests in relation to the land;
- (b) existing use of the land by persons other than registered native title parties;
- (c) the practical effect of the exercise of any existing non-native title rights and interests mentioned in paragraph (a), and of the existing use mentioned in paragraph (b), on the exercise of native title rights and interests in relation to the land.

666 Process for consultation and negotiation—negotiated agreement with or without conditions attached

- (1) This section applies if a negotiated agreement is reached, whether or not the negotiated agreement includes conditions to be complied with by the consultation and negotiation parties for the proposed mining lease if the proposed mining lease is granted.
- (2) The consultation and negotiation parties must—
 - (a) give the chief executive—
 - (i) a written notice in the approved form stating that a negotiated agreement has been reached for the proposed mining lease; and
 - (ii) a copy of the signed negotiated agreement; and
 - (b) give a copy of the notice to the tribunal.
- (3) When the approved form has been lodged under subsection (2), the additional requirements provided for under this division, other than section 667, stop applying to the proposed mining lease.
- (4) However, if the Minister grants the proposed mining lease, the holder of the mining lease must, within 20 business days after the holder receives notice of the grant, give a written notice complying with subsection (5) to each registered native title party.

Maximum penalty—100 penalty units.
- (5) The written notice must advise the granting of the mining lease and state any conditions of the mining lease.

667 Process for consultation and negotiation—negotiated agreement with conditions attached

- (1) This section applies if a negotiated agreement is reached, and the negotiated agreement includes conditions to be complied with by the consultation and negotiation parties for the proposed mining lease if the proposed mining lease is granted.
- (2) The negotiated agreement has effect, if the proposed mining lease is granted, as if—

- (a) the conditions included in the agreement were the terms of a contract; and
 - (b) all the consultation and negotiation parties were parties to the contract; and
 - (c) if a registered native title party is a registered native title claimant—any individual included in the native title claim group concerned were a party to the contract.
- (3) Subsection (2) has effect in addition to any other effect that the negotiated agreement may have apart from under subsection (2).

668 Objections

- (1) At any time before a negotiated agreement is reached or the proposed mining lease is referred to the tribunal, by action taken under section 669, for a native title issues decision, a registered native title party may lodge an objection to the proposed mining lease.
- (2) The objection—
- (a) must be made in writing in the approved form; and
 - (b) must be lodged with the chief executive; and
 - (c) must state the facts and circumstances relied on by the registered native title party in support of the ground of objection.
- (3) Anything about the amount or payment of compensation is not a ground for objection.
- (4) The registered native title party must also give a copy of the objection, and all material accompanying the objection, to the other consultation and negotiation parties and the tribunal as soon as practicable after the objection is lodged with the chief executive.
- (5) At any time before a negotiated agreement is reached or the proposed mining lease is referred to the tribunal, by action taken under section 669, for a native title issues decision, the registered native title party may withdraw the objection by

lodging with the chief executive a written notice withdrawing the objection.

- (6) The registered native title party must also give a copy of the written notice withdrawing the objection to the other consultation and negotiation parties and the tribunal as soon as practicable after the withdrawal of the objection is lodged with the chief executive.
- (7) The registered native title party must withdraw the objection under this section if at any time a negotiated agreement is reached.
- (8) The registered native title party may object about the effect of the grant of the proposed mining lease on its registered native title rights and interests under this section only, and may not object under section 260 about the effect of the grant of the proposed mining lease on its registered native title rights and interests.
- (9) If at any time a person who has lodged an objection under this section stops being a registered native title party, the objection is taken to have been withdrawn.
- (10) However, an objection continues to have effect as an objection if the person who lodged the objection stops being a registered native title party because—
 - (a) the person is replaced by another person (the *replacing person*) under section 66B of the Commonwealth Native Title Act; or
 - (b) an approved determination of native title that native title exists is made, and immediately before the determination is made, the person is a registered native title claimant.
- (11) If an objection continues to have effect as an objection because of subsection (10)(a), the objection is taken to have been lodged by the replacing person.
- (12) If an objection continues to have effect as an objection because of subsection (10)(b), the objection is taken to have been lodged by the relevant registered native title body corporate.

- (13) An objection lodged under this section, if it is not withdrawn, must be given to the tribunal and must be heard by the tribunal in a combined hearing under subdivision 4.
- (14) However, the tribunal must not hear an objection if the objection has not been made in substantial compliance with this section.

Subdivision 4 Referral and native title issues decision

669 Referral of proposed mining lease to tribunal

- (1) If the pre-referral period has ended, but a negotiated agreement has not been reached, a consultation and negotiation party for the proposed mining lease may refer the proposed mining lease to the tribunal for a decision under this division (a *native title issues decision*).
- (2) The referral must be—
 - (a) lodged with the chief executive; and
 - (b) made in the approved form.
- (3) A copy of the approved form lodged with the chief executive must also be given to the other consultation and negotiation parties for the proposed mining lease.
- (4) If there has been no referral within 3 months after the end of the pre-referral period, the Minister may reject the application for the proposed mining lease.
- (5) If the pre-referral period has ended, and a registered native title party who lodged an objection under section 668 has not withdrawn the objection, the proposed mining lease is taken to have been referred to the tribunal under subsection (1).
- (6) In this section—

pre-referral period means—

 - (a) if an environmental impact statement for the proposed mining lease is not required to be prepared under another State Act or a Commonwealth Act—

- (i) the period of 6 months starting on the notification day (native title issues); or
 - (ii) if the registered native title parties and the applicant agree on a time, which must be later than the time that would otherwise apply under subparagraph (i), and advise the chief executive in writing of the agreed later time—the period ending at the agreed later time; or
- (b) otherwise—the period which, out of the following periods, ends latest—
- (i) the period of 3 months starting on the day the environmental impact statement is publicly notified under the other State Act or the Commonwealth Act;
 - (ii) if the registered native title parties for the non-exclusive land and the applicant agree on a time, which must be later than the time that would otherwise apply under paragraph (a), and advise the chief executive in writing of the agreed later time—the period ending at the agreed later time;
 - (iii) the period of 6 months starting on the notification day (native title issues).

670 Continuing negotiation

- (1) After the referral of the proposed mining lease to the tribunal, the consultation and negotiation parties for the proposed mining lease may continue to negotiate to reach a negotiated agreement before the native title issues decision is made.
- (2) If a negotiated agreement is reached, all referrals of the proposed mining lease to the tribunal are taken to be withdrawn, and the tribunal must not make a native title issues decision.

671 Combined hearing

- (1) A hearing for the grant of a proposed mining lease referred to the tribunal must include the following—

-
- (a) the hearing of any objections and other matters mentioned in section 268(1);
 - (b) the hearing for a native title issues decision, including the hearing of any objections lodged under section 668.
- (2) The hearing mentioned in subsection (1) is a ***combined hearing***.
 - (3) The combined hearing must take place, unless a negotiated agreement has been reached.
 - (4) All consultation and negotiation parties have the right to be heard at the combined hearing.

672 Fixing of date for combined hearing

- (1) Subsections (2) to (5) apply if the tribunal is required to fix under section 265 a hearing date for the combined hearing, but there has not yet been a referral (other than a referral that has been withdrawn) of the mining lease for a native title issues decision.
- (2) The tribunal may, if the applicant agrees, fix a hearing date for the application for the proposed mining lease, and any objections to the application, under section 265 as if the hearing were not a combined hearing.
- (3) At the hearing, the tribunal may—
 - (a) proceed with the hearing of the application for the proposed mining lease, and any objections to the application, as if the hearing were not a combined hearing; and
 - (b) at an appropriate time adjourn the hearing.
- (4) However, as soon as practicable after a negotiated agreement is reached or the proposed mining lease is referred to the tribunal for a native title issues decision, the tribunal must reconvene the combined hearing.
- (5) The tribunal may defer fixing a date for the combined hearing until the proposed mining lease is referred to the tribunal for a native title issues decision.

- (6) If the proposed mining lease has been referred to the tribunal for a native title issues decision, but the tribunal is not yet required under section 265 to fix a hearing date for the combined hearing, the tribunal must fix a date for the combined hearing when the tribunal is able to fix a date under section 265.

Subdivision 5 Requirements for combined hearing

673 Directions about conduct of combined hearing

At any time after the referral of the proposed mining lease for a native title issues decision, the tribunal may give directions to the consultation and negotiation parties, including directions about the filing and serving of the following—

- (a) a statement by the applicant that includes a copy of the material provided to the registered native title parties under subdivision 3;
- (b) a statement of impact by each registered native title party, setting out the effect the party considers the grant of the proposed mining lease will have on the party's registered native title rights and interests;
- (c) submissions by any of the consultation and negotiation parties on the matters the tribunal will be required to take into account for making its native title issues decision.

674 Issue of negotiation in good faith

- (1) If a consultation and negotiation party raises the issue of whether another consultation and negotiation party has complied with subdivision 3, including with the requirement for negotiation in good faith, the issue must be dealt with as a part of the combined hearing for the application for the grant of the proposed mining lease.
- (2) If at the combined hearing the tribunal is not satisfied that the applicant or the State has complied with subdivision 3,

including with the requirement for negotiation in good faith, it may adjourn the combined hearing to allow for the subdivision to be complied with by all the consultation and negotiation parties.

- (3) An adjournment under subsection (2) may only be for a maximum period of 3 months.
- (4) If the tribunal is satisfied that a registered native title party did not comply with subdivision 3, including with the requirement for negotiation in good faith, the tribunal may not adjourn the combined hearing on that ground alone.
- (5) However, the tribunal may take the failure of a consultation and negotiation party to comply with subdivision 3 into account in making its native title issues decision.
- (6) A consultation and negotiation party can not raise the issue of the State's compliance with subdivision 3, including the requirement for negotiation in good faith, on the ground that the State stopped being a consultation and negotiation party under section 658(2) or took a particular role under section 658(3).

675 Nature of native title issues decision

- (1) The native title issues decision must be 1 of the following—
 - (a) that the proposed mining lease may be granted;
 - (b) that the proposed mining lease may be granted, but subject to either or both of the following—
 - (i) that conditions, described or identified in the native title issues decision, are to be included in the mining lease;
 - (ii) that conditions (*contract conditions*), described or identified in the native title issues decision, are required to be complied with by 1 or more of the consultation and negotiation parties (even though the conditions are not included in the mining lease);
 - (c) that the proposed mining lease should not be granted.

- (2) If, at the end of the combined hearing, the consultation and negotiation parties have not reached an agreement about compensation, the tribunal, whether or not an application has been made to the tribunal about compensation, must also make any compensation decision or compensation trust decision that is required to be made under part 7 before the mining lease is granted.
- (3) The tribunal must not include a condition, whether or not a contract condition, that has the effect that a registered native title party is entitled to payments from the applicant worked out by reference to 1 or more of the following—
 - (a) the amount of profits to be made under the proposed mining lease;
 - (b) the amount of any income to be derived under the proposed mining lease;
 - (c) anything to be produced under the proposed mining lease.

676 Timing of tribunal’s recommendation and native title issues decision

The tribunal must advise the Minister of its native title issues decision when the tribunal forwards its recommendation to the Minister under section 269(1).

677 Tribunal’s native title issues decision

- (1) In making its native title issues decision, the tribunal must take into account the following—
 - (a) the effect of the grant of the proposed mining lease on—
 - (i) the enjoyment by the registered native title parties of their registered native title rights and interests; and
 - (ii) the way of life, culture and traditions of any of the registered native title parties; and

- (iii) the development of social, cultural and economic structures of any of the registered native title parties; and
 - (iv) the freedom of access by any of the registered native title parties to the land; and
 - (v) the freedom of any of the registered native title parties to carry out rites, ceremonies or other activities of cultural significance on the land in accordance with their traditions; and
 - (vi) any area or site on the land of particular significance to the registered native title parties in accordance with their traditions;
- (b) the interests, proposals, opinions or wishes of the registered native title parties in relation to the management, use or control of land in relation to which there are registered native title rights and interests of the registered native title parties that will be affected by the grant of the proposed mining lease;
 - (c) the economic or other significance of the grant of the proposed mining lease to Australia, Queensland, the area in which the land is located and Aboriginal peoples and Torres Strait Islanders who live in the area;
 - (d) any public interest in the granting of the proposed mining lease;
 - (e) any other matter the tribunal considers relevant.
- (2) In deciding the effect of the grant of the proposed mining on the matters mentioned in subsection (1)(a), the tribunal must also take into account the nature and extent of—
 - (a) existing non-native title rights and interests in relation to the land; and
 - (b) existing use of the land or waters by persons other than the registered native title parties.
 - (3) In complying with subsections (1) and (2) the tribunal must take into account all objections lodged under this division to the granting of the proposed mining lease, and any other documents lodged or filed under this division.

- (4) Taking into account the effect of the grant of the proposed mining lease on an area or site mentioned in subsection (1)(a)(vi) does not affect the operation of any law of the State for the preservation or protection of those areas or sites.
- (5) Before making the native title issues decision—
 - (a) the tribunal must establish whether there are any issues relevant to its decision on which the consultation and negotiation parties are currently in agreement; and
 - (b) if there are agreed issues under paragraph (a), and all the consultation and negotiation parties consent—the tribunal, in making its native title issues decision—
 - (i) must take the agreed issues into account; and
 - (ii) need not take into account the matters mentioned in subsection (1)(a) to (e) to the extent the matters are the subject of the agreed issues.

678 Deferred matters

- (1) As well as making the native title issues decision, the tribunal may make a decision about matters (the *deferred matters*) that—
 - (a) were the subject of negotiation between the consultation and negotiation parties; and
 - (b) under an agreement that includes all the consultation and negotiation parties, are to be the subject of further negotiation, or are to be decided in a way stated in the decision under this section; and
 - (c) are not reasonably capable of being decided when the native title issues decision is made; and
 - (d) are not directly relevant to the native title issues decision.
- (2) The tribunal must give a copy of its decision under this section to—
 - (a) the consultation and negotiation parties; and

- (b) if the State is not a consultation and negotiation party—the chief executive.
- (3) The tribunal’s decision under this section about the deferred matters is binding on all the consultation and negotiation parties.
- (4) If the decision under this section is that the deferred matters are to be decided by arbitration, and, after the decision is made, the consultation and negotiation parties can not agree on the way the arbitration is to take place, the tribunal, on the application of a consultation and negotiation party, has jurisdiction to decide the deferred matters.

679 General time requirement for making native title issues decision

- (1) The tribunal must take all reasonable steps to make sure that the native title issues decision is made within 6 months after the proposed mining lease is referred to the tribunal for the decision.
- (2) If the native title issues decision is not made within the 6 months, the tribunal must, as soon as practicable after the 6 months ends, give a written notice to the Minister—
 - (a) advising why the native title issues decision has not yet been made; and
 - (b) giving an estimate of when the decision is likely to be made.

680 Effect of native title issues decision

- (1) The native title issues decision must be complied with by the Minister unless the Minister overrules the native title issues decision under subdivision 6.
- (2) If the native title issues decision is that the proposed mining lease should not be granted, the tribunal may nevertheless recommend under section 269 that the application for the proposed mining lease should be granted.

- (3) However, if subsection (2) applies, the Minister must not grant the proposed mining lease under section 271A(1) unless the Minister overrules the native title issues decision under section 681.

Subdivision 6 Overruling of native title issues decision

681 Minister may overrule native title issues decision

- (1) The Minister may overrule the native title issues decision, but only if—
- (a) it is in the interests of Queensland or in the national interest to overrule the native title issues decision; and
 - (b) the Minister overrules the decision within 2 months after the native titles issues decision is made.
- (2) If the Minister overrules the native title issues decision, the Minister must make a substituted decision.
- (3) The substituted decision—
- (a) must comply with the requirements of section 675(1) and (3) for a native title issues decision; and
 - (b) when made, takes the place of the native title issues decision.
- (4) The substituted decision can not overrule a compensation decision or compensation trust decision, for the granting of the proposed mining lease, already made by the tribunal under part 7.
- (5) If the substituted decision is that the proposed mining lease may be granted with or without conditions, the Minister must refer the matter to the tribunal for—
- (a) if a compensation decision or compensation trust decision has already been made under part 7 for the granting of the proposed mining lease—a new compensation decision or compensation trust decision; or

- (b) otherwise—a compensation decision or compensation trust decision under part 7 for the granting of the proposed mining lease.
- (6) The Minister must give a copy of the substituted decision to the tribunal and the consultation and negotiation parties.

682 Effect of overruling

- (1) This section applies if the Minister makes a substituted decision under section 681.
- (2) If the substituted decision is that the proposed mining lease may be granted on conditions to be included in the mining lease, the Minister must grant the lease on those conditions.
- (3) If the substituted decision is that the proposed mining lease not be granted, the Minister must not grant the lease.

Subdivision 7 Special provisions about completion of combined hearing and making of native titles issues decision

683 Giving of urgency notice

- (1) This section applies if the tribunal's native titles issues decision has not been made, and a negotiated agreement has not been reached, 4 months after the proposed mining lease was referred to the tribunal for a native title issues decision, other than under a referral that was later withdrawn.
- (2) The Minister may give the tribunal a written notice (an *urgency notice*) asking the tribunal to complete its combined hearing and make its native title issues decision within the period stated in the written notice.
- (3) The period stated under subsection (2) must be a period ending after the end of the period of 6 months after the proposed mining lease was referred to the tribunal for a native title issues decision.

684 Minister's decision if tribunal recommendation delayed

- (1) This section applies if—
 - (a) the Minister has given the tribunal an urgency notice under section 683 in relation to the proposed mining lease; and
 - (b) the period stated in the urgency notice for the tribunal to complete its combined hearing and make its native title issues decision has ended; and
 - (c) the tribunal has not made its native title issues decision; and
 - (d) the consultation required under this subdivision (including under this section) for the making of a decision by the Minister has happened.
- (2) The Minister may make a decision (the *Minister's decision*) under this section about the native title issues decision.
- (3) The Minister may make a decision under this section that has the effect of a native title issues decision that the proposed mining lease may be granted, with or without conditions and whether or not contract conditions, only if the Minister has first consulted with the Commonwealth Minister about the making of the decision.
- (4) The Minister may make a decision under this section only if—
 - (a) the making of the native title issues decision is unlikely to happen within a period that is reasonable, taking into account all the circumstances; and
 - (b) it is in the interests of Queensland to make the decision at the time it is made.
- (5) Subsection (4)(a) and (b) does not stop the Minister from taking into account other matters in deciding whether to make a decision under this section.

685 Consultation before Minister's decision

- (1) Before making the Minister's decision, the Minister must give a written notice under subsections (2) and (3).

-
- (2) The Minister must give written notice to the tribunal requiring it, by the end of the day stated in the notice, to give the Minister and each consultation and negotiation party a summary of the material presented to the tribunal in the course of the tribunal considering what the native title issues decision should be.
 - (3) The Minister must give a written notice to each consultation and negotiation party stating the following—
 - (a) that the Minister is considering making the decision;
 - (b) that each consultation and negotiation party—
 - (i) may, by the end of the day stated in the written notice, give the Minister any submission or other material that the consultation and negotiation party wants the Minister to take into account in deciding whether to make the decision and, if so, its terms; and
 - (ii) if the consultation and negotiation party gives the Minister a submission or other material, must also give each of the other consultation and negotiation parties a copy of the submission or other material; and
 - (iii) may, within 5 business days after the day stated in the written notice, in response to any submission or other material given by any other consultation and negotiation party or the tribunal, give the Minister any further submission or other material that the consultation and negotiation party wants the Minister to take into account.
 - (4) The day stated in the written notices given under subsections (2) and (3) must be—
 - (a) the same day in all of the written notices given under the subsections; and
 - (b) a day by which, in the Minister's opinion, it is reasonable to assume that all of the written notices given will have been received by, or will otherwise have come to the attention of, the persons who must be notified under this section.

- (5) If the Minister complies with subsection (1), there is no requirement for any person to be given any further hearing before the Minister makes the decision.
- (6) In making the decision, the Minister—
 - (a) must take into account—
 - (i) any submission or material provided by a consultation and negotiation party under subsection (3), but only if the consultation and negotiation party has complied with the Minister's written notice in the way mentioned in subsection (3)(b)(ii); and
 - (ii) any report provided by the tribunal; and
 - (iii) the Minister's consultation with the Commonwealth Minister under this subdivision; and
 - (iv) any issues about which the consultation and negotiation parties have agreed in writing and advised to the Minister; and
 - (b) may, but need not, take into account any other matter or thing.
- (7) The fact that no submission or other material of the kind mentioned in subsection (3) has been given to the Minister before the end of the day stated in the written notices does not stop the Minister from making the decision.

686 Minister's decisions generally

- (1) The Minister's decision has effect as a native title issues decision.
- (2) The Minister's decision must, as for a native title issues decision for section 675, be 1 of the following—
 - (a) that the proposed mining lease may be granted;
 - (b) that the proposed mining lease may be granted, but subject to either or both of the following—

- (i) that conditions, described or identified in the Minister's decision, are to be included in the mining lease;
 - (ii) contract conditions;
 - (c) that the proposed mining lease should not be granted.
- (3) If the Minister's decision is a decision mentioned in subsection (2)(a) or (b), the Minister must refer the matter to the tribunal for a compensation decision or compensation trust decision under part 7.
- (4) The Minister does not have a duty to make a Minister's decision, despite the following—
 - (a) the giving of any notice by the Minister;
 - (b) the giving of any submission or other material to the Minister;
 - (c) any request by a consultation and negotiation party for the Minister to make the decision;
 - (d) any other circumstance.
- (5) The Minister's decision must be made by the Minister personally.
- (6) The Minister must table in the Legislative Assembly a report containing the Minister's decision, and the reasons for the decision, within 15 sitting days after making the decision.

Subdivision 8 Miscellaneous matters about grant

687 Contract conditions

- (1) If the Minister grants the proposed mining lease, a contract condition has effect, in addition to any effect that it may have other than under this subsection, as if it were included in the terms of a contract between the consultation and negotiation parties.

Part 7 Compensation provisions

Division 1 Preliminary

706 Definitions for pt 7

In this part—

compensation decision, for a relevant act, means a decision of the tribunal, other than a compensation trust decision, that provides for—

- (a) whether compensation is to be paid to a registered native title body corporate in relation to the relevant act; and
- (b) if compensation is to be paid—the amount of money to be paid.

compensation trust decision, for a relevant act, means a decision of the tribunal about the payment of an amount to be held in trust for any entitlement to compensation for the doing of the relevant act.

relevant act means the grant, renewal or variation of, or another act concerning, a mining tenement, if the act happens after the commencement of this section, and is an act—

- (a) to which—
 - (i) part 2 applies; or
 - (ii) part 3 or 6, division 4, 5 or 6 applies; or
 - (iii) part 4 or 5, division 2, 4, 5 or 6 applies; or

- (b) to which part 2 would apply, or part 3 or 6, division 4, 5 or 6 would apply, or part 4 or 5, division 2, 4, 5 or 6 would apply, were it not that—
 - (i) the act relates to a mining tenement in an approved opal or gem mining area, and is excluded from the application of the right to negotiate provisions under section 26(2)(d) of the Commonwealth Native Title Act; or
 - (ii) the mining tenement relates to a place that is on the seaward side of the mean high-water mark of the sea; or
 - (iii) the act relates to a mining lease for the sole purpose of the construction of an infrastructure facility associated with mining, and is an act mentioned in section 24MD(6B)(b) of the Commonwealth Native Title Act; or
- (c) that is a renewal to which part 3, 4, 5 or 6, division 5 would apply, were it not that the renewal is an act—
 - (i) to which the right to negotiate provisions do not apply because of section 26D(1) of the Commonwealth Native Title Act; and
 - (ii) in relation to which the earlier right to mine mentioned in section 26D(1)(a) is an earlier right mentioned in section 26D(1)(b)(ii); and
 - (iii) for which compensation has not previously been agreed.

Division 2 General principles

707 Native title compensation

- (1) An entity is entitled to compensation for the effect of a relevant act on the entity's native title rights and interests, including for activities carried out under the mining tenement the subject of the relevant act as a result of the relevant act.

- (2) However, the entity may receive compensation only in a way provided for in this part.
- (3) Nothing in subsections (1) and (2) stops—
 - (a) compensation from being agreed to before a relevant act is done, based on the expected effect of the relevant act on an entity's native title rights and interests; or
 - (b) a compensation decision or compensation trust decision being made, in accordance with the requirements of the native title provisions, including this part, before a relevant act is done, having regard to the expected effect of the relevant act on an entity's native title rights and interests.
- (4) Subject to the provisions of this part under which the tribunal may require the State to pay an amount of compensation in relation to a relevant act, the tribunal may order only the following to pay an amount under a compensation decision or compensation trust decision for a relevant act—
 - (a) the applicant for, or the holder for the time being of, the mining tenement the subject of the relevant act;
 - (b) another entity, if the tribunal considers that it would be just and equitable that the entity should be ordered to pay the amount, having regard to the circumstances of the entity's past or present, direct or indirect, financial or other connection with—
 - (i) the relevant act, including the activities carried out under the mining tenement the subject of the relevant act; or
 - (ii) an entity that is or was the holder of the mining tenement the subject of the relevant act.
- (5) There is no entitlement to be compensated more than once for the effect on native title rights and interests of an act if compensation has already been provided under this part for what is essentially the same effect of the same act.
- (5A) Without limiting subsection (1), the tribunal, in arriving at a compensation decision or compensation trust decision, must

apply all relevant principles applicable under this Act for deciding amounts of compensation.

- (6) The tribunal must not, in relation to any part of the area the subject of a relevant act relating to a mining claim or mining lease, make more than 1 compensation trust decision for the relevant act.

708 Agreement for compensation

- (1) The applicant for the doing of a relevant act, or the holder of a mining tenement the subject of a relevant act, may enter into an agreement with an entity about compensation for the effect of the relevant act on—
- (a) if the entity is a registered native title body corporate that holds native title rights and interests in trust for common law holders—the native title rights and interests that the body corporate holds in trust; or
 - (b) if the entity is a registered native title body corporate that acts as an agent or representative for common law holders—the native title rights and interests of the common law holders; or
 - (c) if the entity is a registered native title claimant—the native title rights and interests of the native title claim group; or
 - (d) otherwise—the entity’s native title rights and interests.
- (2) An agreement about compensation is not effective as an agreement under this part unless the agreement—
- (a) is in writing, and signed by or on behalf of the parties to it; and
 - (b) has been filed.
- (3) If a registered native title body corporate is a party to an agreement about compensation, each common law holder for whom the body corporate holds native title rights and interests in trust or acts as an agent or representative is a party to the agreement.

- (4) If a registered native title claimant is a party to an agreement about compensation, each individual included in the native title claim group concerned is a party to the agreement.

709 Application for compensation

- (1) An entity may apply to the tribunal for a compensation decision or a compensation trust decision for a relevant act if the entity is not a party to an agreement about compensation for the relevant act, but is—
- (a) for a compensation decision—
 - (i) a registered native title body corporate claiming compensation for the effect of the relevant act on the native title rights and interests that the body corporate holds in trust for common law holders; or
 - (ii) a registered native title body corporate claiming compensation for the effect of the relevant act on the native title rights and interests of the common law holders for whom the body corporate acts as an agent or representative; or
 - (b) for a compensation trust decision—a registered native title claimant claiming compensation for the effect of the relevant act on the native title rights and interests of the native title claim group.
- (2) Also, an entity may apply to the tribunal for a compensation decision or a compensation trust decision for a relevant act if the entity is the applicant for the doing of the relevant act, or the holder of the mining tenement the subject of the relevant act.
- (3) An entity can not apply to the tribunal for a compensation decision or compensation trust decision for a relevant act if it is not an entity that may apply under subsection (1) or (2).

710 Compensation provided in non-monetary form

- (1) This section applies if the tribunal makes a compensation decision for a relevant act and the decision is that compensation is payable.
- (2) If the registered native title body corporate asks the tribunal to make a recommendation that the whole or part of the amount of the compensation should instead take the form of non-monetary compensation, the tribunal—
 - (a) must consider the request; and
 - (b) may recommend that the person required under the compensation decision to pay the compensation should, within the period specified in the tribunal's recommendation, provide non-monetary compensation in accordance with the recommendation.
- (3) If the tribunal makes the recommendation, the person required to pay the compensation under the compensation decision may provide non-monetary compensation in accordance with the recommendation.
- (4) If the person does provide non-monetary compensation in accordance with the recommendation, the non-monetary compensation is full compensation for the relevant act to the extent of the compensation that was the subject of the recommendation.
- (5) If the non-monetary compensation is not provided in the way recommended by the tribunal, the registered native title body corporate entitled to receive compensation under the compensation decision may ask the tribunal to vary the compensation decision.
- (6) The variation of the compensation decision may take into account the extent to which non-monetary compensation has been provided under the recommendation.
- (7) In this section—

non-monetary compensation includes the following—

 - (a) the transfer of land or other property;

- (b) the provision of goods or services;
- (c) the creation of employment opportunities.

711 Conditions of agreement or compensation decision

If there is an agreement about compensation under this part, or a compensation decision, for a relevant act relating to a mining claim or mining lease, it is a condition of the mining claim or mining lease that the holder of the claim or lease must comply with the terms of the agreement or decision that apply to the holder.

712 Compensation trust decisions

- (1) If the tribunal makes a compensation trust decision for a relevant act, any amount required to be paid into trust under the decision—
 - (a) must be paid to the tribunal; and
 - (b) must be held in the way prescribed under a regulation until it is paid to an entity in a way provided for in this part.
- (2) The applicant for, or holder of, a mining tenement the subject of a relevant act can not be required to pay an amount under a compensation decision for the relevant act to the extent that the area the subject of the relevant act is the subject of a compensation trust decision for the relevant act.

713 State's right to be heard

The State has the right to be heard at any proceeding before the tribunal under this part.

Division 3 Payment of compensation in particular circumstances

 - (b) neither the applicant for the doing of the relevant act nor the registered native title claimant has applied to the tribunal for a compensation trust decision for the relevant act.
- (4) If the chief executive asks the tribunal under subsection (3) to make a compensation trust decision, the tribunal must—

 - (c) on or after the hearing day, make a compensation trust decision.

716 Compensation after relevant act relating to mining claim or mining lease

- (1) This section applies if—

 - (b) after the doing of the relevant act an entity becomes a registered native title body corporate or registered native title claimant in relation to the area.
- (2) If the entity becomes a registered native title body corporate, the entity may, at any time after the relevant act is done—
