 - (i) an endangered regional ecosystem; or
 - (ii) an of concern regional ecosystem; or
 - (iii) a least concern regional ecosystem; and
 - (b) conserves vegetation in declared areas; and
 - (c) ensures the clearing does not cause land degradation; and
 - (d) prevents the loss of biodiversity; and
 - (e) maintains ecological processes; and
 - (f) manages the environmental effects of the clearing to achieve the matters mentioned in paragraphs (a) to (e); and
 - (g) reduces greenhouse gas emissions; and
 - (h) allows for sustainable land use.

- (2) The purpose is achieved mainly by providing for—
- (a) the following matters—
 - (i) assessment benchmarks for the Planning Act for the assessment of assessable development that is the clearing of vegetation, other than an assessment carried out by the planning chief executive;
 - (ii) for the Planning Act, the matters a referral agency other than the planning chief executive—
 - (A) must or may assess a development application against; or
 - (B) must or may assess a development application having regard to; and

 - (c) declared areas; and
 - (d) a framework for decision making that, in achieving this Act's purpose in relation to subsection (1)(a) to (e), applies the precautionary principle that lack of full scientific certainty should not be used as a reason for postponing a measure to prevent degradation of the environment if there are threats of serious or irreversible environmental damage; and
 - (e) the regulation of particular regrowth vegetation.
- (3) In this section—
- environment* includes—
- (a) ecosystems and their constituent parts including people and communities; and
 - (b) all natural and physical resources; and

19N Draft matters for assessing development application for clearing of vegetation for special indigenous purpose

- (1) The Minister may prepare a document stating draft assessment matters for development that—
 - (a) involves, or relates to, the clearing of vegetation; and

 - (a) must consult with—
 - (i) the relevant landholders; and
 - (ii) the Cape York Peninsula Regional Advisory Committee; and
 - (b) may, for example, consider any matter stated in the CYPH Act, section 18 or 19 the Minister considers is relevant to the clearing of vegetation for development.
- (3) In preparing assessment matters under the Planning Act, the document may be considered, but otherwise does not affect the preparation or making of assessment matters under that Act.

 - (a) clearing of vegetation, including for the following—
 - (i) an extractive industry;
 - (ii) relevant infrastructure activities;
 - (iii) environmental activities, including necessary environmental clearing;
 - (iv) sustainable land use, including fodder harvesting;
or
 - (b) conducting a native forest practice.
- (2) Also, the Minister may make a code (also an ***accepted development vegetation clearing code***) for any other matter about clearing vegetation the Minister considers is necessary or desirable for achieving the purpose of this Act.

- (3) An accepted development vegetation clearing code may provide for all or any of the following—
 - (a) clearing for 1 or more relevant purposes under section 22A;
 - (b) clearing that is subject to another code under this Act;
 - (c) clearing a particular area;
 - (d) clearing a particular type of vegetation;
 - (e) required outcomes and practices, and voluntary best practices, for clearing vegetation;
 - (f) restrictions on clearing commercial timber on State land;
 - (g) the protection of habitat for protected wildlife;
 - (h) the circumstance in which an exchange area must be provided;
 - (i) giving notice to the chief executive of the intended clearing or native forest practice to be conducted under the code.
- (4) An accepted development vegetation clearing code must not be inconsistent with this Act or the State policy.

19P When accepted development vegetation clearing code takes effect

An accepted development vegetation clearing code does not take effect until it has been approved under a regulation.

19Q When code compliant clearing and conduct of native forest practices are accepted development, assessable development or prohibited development for Planning Act

- (1) This section applies if an accepted development vegetation clearing code applies to the clearing of vegetation or the conduct of a native forest practice (the *activity*).
- (2) For the Planning Act, the activity is—

- (a) accepted development to the extent the activity complies with the code; or
 - (b) assessable development to the extent—
 - (i) the activity does not comply with the code; and
 - (ii) the development the subject of a vegetation clearing application for the activity would be for a relevant purpose under section 22A; or
 - (c) prohibited development under that Act to the extent—
 - (i) the activity does not comply with the code; and
 - (ii) the development the subject of a vegetation clearing application for the activity would not be for a relevant purpose under section 22A.

Note—

For an offence relating to carrying out assessable development without a development permit under the Planning Act and an exemption from the offence, see chapter 5, part 2 of that Act.

19R Register of accepted development notices given under code

- (1) The chief executive must keep a register of notices required to be given to the chief executive under an accepted development vegetation clearing code.
- (2) The register must include details of each notice the chief executive considers appropriate.
- (3) The publicly available part of the register must not contain the name of the person giving the notice.
- (4) The chief executive must publish the real property description of the land the subject of the notification in the publicly available part of the register on the department's website.

19S When notice given under code ends

- (1) This section applies if the Minister revokes or replaces an accepted development vegetation clearing code.

- (2) For this Act and the Planning Act—
- (a) a notice for the intended clearing of vegetation or the conduct of a native forest practice (the *activity*) given under the code ceases to have effect when the code is revoked or replaced; and
 - (b) the activity can not continue to be carried out under that code or, if that code is replaced, the replacement code.
- (3) However, if the Minister replaces an accepted development vegetation clearing code, subsection (2) does not apply to the extent the replacement code provides otherwise.

Division 5AA Vegetation management maps

20A What is the *regulated vegetation management map*

The *regulated vegetation management map* is the map certified by the chief executive as the regulated vegetation management map for a part of the State and showing the vegetation category areas for the part.

 - (v) necessary environmental clearing.

20AJ Application to make PMAV before amending regulated vegetation management map

If an owner of land in an area wants the chief executive to amend the regulated vegetation management map, the owner must apply to the chief executive under section 20C to make a PMAV for the area.

Note—

See section 20H for the effect of an inconsistency between a PMAV and the regulated vegetation management map.

20AK What is a *property map of assessable vegetation* (or *PMAV*)

- (1) A *property map of assessable vegetation* (or *PMAV*) is a map certified by the chief executive as a PMAV for an area and showing the vegetation category area for the area.
- (2) The map may also show for the area the location of the boundaries of, and the regional ecosystem number for, each regional ecosystem in the area.

20AKA What is a *vegetation category area*

A *vegetation category area* is a category A area, category B area, category C area, category R area or category X area.

Note—

The effect of sections 20AL to 20AO, 20BA and 20CA is that there is no overlap of the boundaries of the vegetation category areas.

20AL What is a *category A area*

A *category A area* is an area, other than a category B area, category C area, category R area or category X area, shown on the regulated vegetation management map as a category A area that—

- (a) is any of the following—
 - (i) a declared area;

- (ii) an offset area;
- (iii) an exchange area; or
- (b) has been unlawfully cleared; or
- (c) is, or has been, subject to—
 - (i) a restoration notice; or
 - (ii) an enforcement notice under the Planning Act containing conditions about restoration of vegetation; or
- (d) has been cleared of native vegetation and in relation to the clearing a person has been found guilty by a court, whether or not a conviction has been recorded, of a clearing offence; or
- (e) the chief executive decides under section 20BA is a category A area; or
- (f) is a category A area by agreement under section 20C(3) if, immediately before the agreement is entered into, the area was a category X area on a PMAV containing remnant vegetation or high value regrowth.

20AM What is a *category B area*

A *category B area* is an area, other than a category A area, category C area, category R area or category X area, shown on the regulated vegetation management map as a category B area that—

- (a) contains remnant vegetation; or
- (b) the chief executive decides to show on the regulated vegetation management map as a category B area; or

Note—

The chief executive may decide under section 20AH to show an area on the regulated vegetation management map as a category B area even though the vegetation is not remnant vegetation.

- (c) if section 20AN does not apply to the area—

- (i) is a Land Act tenure to be converted under the *Land Act 1994* to another form of tenure; and
- (ii) contains—
 - (A) an endangered regional ecosystem; or
 - (B) an of concern regional ecosystem; or
 - (C) a least concern regional ecosystem.

20AN What is a *category C area*

A *category C area* is an area, other than a category A area, category B area, category R area or category X area, shown on the regulated vegetation management map as a category C area that—

- (a) contains high value regrowth vegetation; or
- (b) the chief executive decides to show on the regulated vegetation management map as a category C area.

Note—

The chief executive may decide under section 20AI to show an area on the regulated vegetation management map as a category C area even though the vegetation is not high value regrowth vegetation.

20ANA What is a *category R area*

A *category R area* is an area, other than a category A area, category B area, category C area or category X area, shown on the regulated vegetation management map as a category R area that is a regrowth watercourse and drainage feature area.

20AO What is a *category X area*

- (1) A *category X area* is an area, other than a category A area, category B area, category C area or category R area (in which the clearing of vegetation has happened), shown on the regulated vegetation management map as a category X area.

- (2) However, an area is not a *category X area* if the chief executive decides under section 20CA the area is not a category X area.

20B When chief executive may make PMAV

- (1) The chief executive may make a PMAV for an area if—
- (a) the area becomes a declared area; or
 - (b) the area becomes an offset area; or
 - (c) the area becomes an exchange area; or
 - (d) the area has been unlawfully cleared; or
 - (e) the area is subject to—
 - (i) a restoration notice; or
 - (ii) an enforcement notice under the Planning Act containing conditions about restoration of vegetation; or
 - (f) the area has been cleared of native vegetation and in relation to the clearing a person has been found guilty by a court, whether or not a conviction has been recorded, of a clearing offence; or
 - (g) the chief executive reasonably believes—
 - (i) a person has committed a vegetation clearing offence in relation to the area, whether before or after the commencement of this section, or a vegetation clearing offence is being committed in relation to the area; or
 - (ii) the area was cleared of vegetation in contravention of a tree clearing provision under the *Land Act 1994* as in force before the commencement of the *Vegetation Management and Other Legislation Amendment Act 2004*, section 3; or
 - (iii) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area; or

- (h) the area is a Land Act tenure that is to be converted under the *Land Act 1994* to another form of tenure; or
 - (i) the chief executive reasonably believes there is an error in the part of the regulated vegetation management map for the area.
- (2) The chief executive must give each owner of land to be included in the PMAV an information notice about the decision to make the PMAV.
 - (3) Nothing prevents the chief executive making a PMAV for 2 or more of the circumstances mentioned in subsection (1)(a) to (i) over the same or different areas.

20BA Chief executive may make decision about category A area

The chief executive may make an area a category A area on a PMAV if the chief executive reasonably believes—

- (a) a vegetation clearing offence is being, or has been, committed in relation to the area; or
- (b) the area was cleared of vegetation in contravention of a tree clearing provision under the *Land Act 1994* as in force before the commencement of the *Vegetation Management and Other Legislation Amendment Act 2004*, section 3; or
- (c) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area.

20C When owner may apply for PMAV

- (1) An owner of land may apply to the chief executive for the making of a PMAV for the land or part of the land.
- (2) The application must—
 - (a) be in the approved form; and
 - (b) state the information prescribed under a regulation; and

- (c) be accompanied by the fee prescribed under a regulation.
- (3) If the owner of the land and the chief executive agree to the making of the PMAV, the chief executive must make the PMAV.
- (4) The chief executive may waive the prescribed fee for the making of a PMAV if it is in the interests of the State and the owner.
- (5) If the chief executive refuses to make a PMAV for the area, the chief executive must give the owner an information notice about the decision.

20CA Process before making PMAV

- (1) This section applies if—
 - (a) an owner of land applies under section 20C for the making of a PMAV for the land or part of the land; and
 - (b) the owner proposes that the land or part of the land (the *relevant area*) be a category X area on the PMAV.
- (2) The chief executive can not make the relevant area a category X area on the PMAV if any of the circumstances mentioned in section 20AH or 20AI for the area have happened unless the area has later been cleared and—
 - (a) the clearing was carried out under a moratorium exemption; or
 - (b) the clearing was carried out under a development approval other than a development approval for—
 - (i) fodder harvesting; or
 - (ii) managing thickened vegetation; or
 - (iii) clearing of encroachment; or
 - (iv) controlling non-native plants or declared pests; or
 - (v) necessary environmental clearing; or

- (c) the clearing was carried out under an accepted development vegetation clearing code other than for—
 - (i) conducting a native forest practice; or
 - (ii) fodder harvesting; or
 - (iii) clearing of encroachment; or
 - (iv) controlling non-native plants or declared pests; or
 - (v) necessary environmental clearing; or
 - (d) the clearing was carried out under an area management plan other than for—
 - (i) fodder harvesting; or
 - (ii) managing thickened vegetation; or
 - (iii) clearing of encroachment; or
 - (iv) controlling non-native plants or declared pests; or
 - (v) necessary environmental clearing; or
 - (e) the clearing was not carried out under an accepted development vegetation clearing code or an area management plan and, when the clearing was carried out, the clearing did not require a development permit under the Planning Act.
- (3) Also, the chief executive can not make the relevant area a category X area on the PMAV if—
- (a) the vegetation in the relevant area is not remnant vegetation or high value regrowth vegetation because of clearing that happened because of burning, flooding or natural causes; or
 - (b) the chief executive is satisfied the clearing of vegetation for the relevant area after 29 November 2013 was not lawfully carried out.
- (3A) However, subsection (3) does not prevent the chief executive making the relevant area a category X area on the PMAV if clearing in the area was carried out under subsection (2)(a),

- (b), (c), (d) or (e) after the clearing mentioned in subsection (3)(a) or (b).
- (4) If the chief executive considers the relevant area can not be made a category X area because of subsection (2) or (3), the chief executive must, before making the PMAV, give the owner of the land a notice inviting the owner to show why the relevant area should be a category X area.
- (5) The notice must state the following—
- (a) the grounds for the proposed decision that the relevant area is not a category X area;
 - (b) the facts and circumstances forming the basis for the grounds;
 - (c) the proposed boundaries of the vegetation category areas for the PMAV;
 - (d) that the owner may make submissions about the proposed decision;
 - (e) how to make a properly made submission;
 - (f) where the submission may be made or sent;
 - (g) a period within which the submission must be made.
- (6) The stated period must be at least 15 business days after the notice is given.
- (7) If, after considering any properly made submission by the owner, the chief executive still considers the relevant area is not a category X area, the chief executive may make the relevant area other than a category X area on the PMAV.
- (8) The chief executive must give the owner an information notice about the decision to make the relevant area other than a category X area.
- (9) In this section—
- lawfully carried out***, for the clearing of vegetation, means the clearing was, at the time of the clearing, authorised or permitted under this Act or under any of the following—
- (a) the Planning Act;

-
- (b) the repealed *Integrated Planning Act 1997*;
 - (c) the repealed *Sustainable Planning Act 2009*;
 - (d) the *State Development and Public Works Organisation Act 1971*;
 - (e) the *Cape York Peninsula Heritage Act 2007*.

properly made submission means a submission that—

- (a) is written; and
- (b) is signed by each person (a ***signatory***) who made the submission; and
- (c) states the name and address of each signatory; and
- (d) states the grounds of the submission and the facts and circumstances relied on in support of the grounds; and
- (e) is made to the person stated in the notice inviting the submission; and
- (f) is received on or before the last day for the making of the submission.

20D When PMAV may be replaced

- (1) The chief executive may replace a PMAV for an area (the ***previous area***) with 1 or more PMAVs (each a ***new PMAV***).
- (2) A new PMAV may apply to—
 - (a) part or all of the previous area; or
 - (b) part or all of the previous area and another area.
- (3) Subsection (1) applies only—
 - (a) if a matter mentioned in section 20B occurs in relation to an area mentioned in subsection (2); or
 - (b) to reflect a change to an endangered, of concern or a least concern regional ecosystem in an area mentioned in subsection (2); or

Editor's note—

A change may only be made by amending the *Vegetation Management Regulation 2012*.

- (c) to change a category A area mentioned in section 20AL(f) to a category B area, category C area or category X area, if each of the affected owners agrees to the replacement; or
 - (d) for a matter other than a matter mentioned in paragraph (a), (b) or (c), if each of the affected owners agrees to the replacement.
- (3A) Despite subsection (3), the chief executive may replace a PMAV for an area if—
- (a) for a PMAV made under section 20B(1)(a) for a declared area under division 4, subdivision 2—the declaration for the area ends; or
 - (b) for a PMAV made under section 20B(1)(b)—the offset in relation to the offset area ends; or
 - (c) for a PMAV made under section 20B(1)(c)—the exchange area is no longer an exchange area required under an accepted development vegetation clearing code; or
 - (d) for a PMAV made under section 20B(1)(d), (e), (f) or (g)—
 - (i) the area contains remnant vegetation; or
 - (ii) the person the subject of a restoration notice, an enforcement notice under the Planning Act or a court order has complied with the conditions of the restoration notice or enforcement notice or order; or
 - (e) for a PMAV made under section 20B(1)(h)—the Land Act tenure over the area is not converted to another form of tenure; or
 - (f) for a PMAV made under section 20B(1)(i)—the regulated vegetation management map is amended to correct the error.

- (4) A reference to a PMAV made under section 20B or 20C is taken to include its replacement under this section.
- (5) In this section—
- affected owner* means an owner of land proposed to be included in a new PMAV if any of the following apply—
- (a) the owner applied under section 20C for the making of the new PMAV;
 - (b) there was not a PMAV for the land or part of the land;
 - (c) the land, or part of the land, will be affected by a change to the boundary of a vegetation category area in the new PMAV.

20F Copies of PMAV given to owners

- (1) If a PMAV is made or replaced, a copy must be given, free of charge, to each affected owner of land that is included in the PMAV.
- (2) However, if there are 2 or more affected owners who reside at the same address, a copy of the PMAV may be sent to the owners jointly.
- (3) In this section—
- affected owner*, of land included in a PMAV, means an owner of the land if all, or a part of, the land will be affected by a change to the boundary of a vegetation category area in the PMAV.

20H PMAV boundaries prevail

- (1) This section applies if there is an inconsistency between a boundary of a vegetation category area shown on a PMAV and the boundary of the area shown on the regulated vegetation management map.
- (2) The boundary shown on the PMAV prevails to the extent of the inconsistency.

20HA Certifying vegetation management map

The chief executive may certify a vegetation management map by certifying—

- (a) a hard copy of the map; or
- (b) a digital electronic form of the map.

20HB Amending vegetation management map

If the chief executive certifies or amends a PMAV the chief executive must amend the regulated vegetation management map in a way that reflects the certification or amendment.

20HC When vegetation management map takes effect

A vegetation management map or a map replacing a vegetation management map does not take effect until the map is certified by the chief executive.

Division 5B Area management plans

Subdivision 1 Preliminary

21 Definitions for division

In this division—

area management plan means an area management plan made by the chief executive under subdivision 2.

plan area, for an area management plan, means the area to which the plan relates.

restricted (fodder harvesting) land see section 21A.

21A What is *restricted (fodder harvesting) land*

- (1) *Restricted (fodder harvesting) land* is—

-
- (a) a State-controlled road under the *Transport Infrastructure Act 1994*; or
 - (b) a road controlled by a local government under the *Local Government Act 2009*; or
 - (c) trust land under the *Land Act 1994*.
- (2) However, *restricted (fodder harvesting) land* does not include indigenous land.

Subdivision 2 Plans made by chief executive

21B Chief executive may make area management plans

- (1) The chief executive may make an area management plan for an area that provides for any matter about clearing vegetation the chief executive considers necessary or desirable for achieving the purpose of this Act.
- (2) An area management plan must—
 - (a) include enough information to allow the chief executive to map the boundary of—
 - (i) the plan area; and
 - (ii) if the conditions for clearing vegetation relate to different zones within the plan area—each of the zones; and
 - (b) state—
 - (i) the management intent and management outcomes for vegetation management in the plan area; and
 - (ii) the conditions for clearing, or restricting clearing of, vegetation in the area to achieve the management intent and management outcomes; and
 - (c) provide for, or allow, clearing of vegetation for 1 or more of the following—
 - (i) controlling non-native plants or declared pests;

- (ii) ensuring public safety;
 - (iii) relevant infrastructure activities;
 - (iv) clearing of encroachment;
 - (v) managing thickened vegetation;
 - (vi) fodder harvesting, other than on a part of the area that is restricted (fodder harvesting) land;
 - (vii) necessary environmental clearing; and
- (d) not be inconsistent with the State policy.
- (3) An area management plan is not subordinate legislation.

21C Plan period for area management plan

An area management plan must state the period, of no longer than 10 years, for which it will be in force, and remains in force until the end of the period.

21D Mandatory conditions for area management plan

- (1) An area management plan is subject to the conditions under subsections (2) and (3).
- (2) If the plan provides for, or allows, clearing of vegetation for relevant infrastructure activities, the condition is that the clearing can not reasonably be avoided or minimised.
- (3) If the plan area includes restricted (fodder harvesting) land, the condition is that vegetation on the land can not be cleared for fodder harvesting.

Subdivision 3 Keeping plans

21E Register of area management plans

- (1) The chief executive must—

- (a) give each area management plan a unique identifying number; and
 - (b) keep a register of area management plans.

 - (b) necessary to control non-native plants or declared pests; or
 - (c) to ensure public safety; or
 - (d) for relevant infrastructure activities and clearing for the development can not reasonably be avoided or minimised; or

 - (b) the area of remnant vegetation for the regional ecosystem is—
 - (i) 10% to 30% of the pre-clearing extent of the regional ecosystem; and
 - (ii) less than 10,000ha.

- (1) A regulation may declare a stated regional ecosystem to be a least concern regional ecosystem.
- (2) The Minister must not recommend to the Governor in Council the making of a regulation under subsection (1) unless the Minister is satisfied the area of remnant vegetation for the regional ecosystem is—
 - (a) more than 30% of the pre-clearing extent of the regional ecosystem; and
 - (b) more than 10,000ha.

32 Application for warrant

- (1) An authorised officer may apply to a magistrate for a warrant for a place.
- (2) The application must be sworn and state the grounds on which the warrant is sought.

Example—

The magistrate may require additional information supporting the application to be given by statutory declaration.

33 Issue of warrant

- (1) The magistrate may issue a warrant only if the magistrate is satisfied there are reasonable grounds for suspecting—

 - (b) the evidence is at the place, or, within the next 7 days, may be at the place.
- (2) The warrant must state—

- (4) A provision of this part applying to entry authorised under a warrant is taken also to apply to any re-entry authorised under the warrant.

34 Special warrants

- (1) An authorised officer may apply for a warrant (a *special warrant*) by phone, fax, radio or another form of communication if the authorised officer considers it necessary because of—

 - (c) tell the person the authorised officer is permitted by the warrant to enter the place;

- (d) give the person an opportunity to allow the authorised officer immediate entry to the place without using force.

- (4) If there is no person present at the place who is an occupier of the place, or it is vacant land, it is sufficient compliance with subsection (2) for the officer, before entering the place, to do or make a reasonable attempt to do the following things—
 - (a) contact an owner or occupier of the place;
 - (b) tell the owner or occupier the authorised officer is permitted by the warrant to enter the place;

- (a) the authorised officer reasonably believes the thing is evidence of a vegetation clearing offence; and
 - (b) either—
 - (i) if the authorised officer entered the place with the occupier's consent—seizure of the thing is consistent with the purpose of the entry as told to the occupier when asking for the occupier's consent; or
 - (ii) if the authorised officer entered the place under section 30A—seizure of the thing is consistent with the purpose of the proposed entry stated in the

written notice of entry given to the occupier under that section.

- (3) If the authorised officer enters the place with a warrant, the authorised officer may seize the evidence for which the warrant was issued.
- (4) The authorised officer may seize anything else at the place if the authorised officer reasonably believes—
