		Page
Part 1	Preliminary	
1	Short title	17
2	Commencement	17
3	Definitions	17
Part 2	Planning	
Division 1	State planning instruments	
4	Regions—Act, sch 2	17
Division 2	Local planning instruments	
Subdivision 1	Regulated requirements	
5	Purpose and application of subdivision	18
6	Zones that may be adopted	18
7	Use terms that may be adopted	19
8	Administrative terms	19
Subdivision 2	Other provisions for local planning instruments	
10	Minister's guidelines and rules—Act, s 17	20
Division 3	Superseded planning schemes	
11	Making superseded planning scheme request—Act, s 29	20
12	Deciding superseded planning scheme request—Act, s 29	21
Division 4	Designation of premises for development of infrastructure	
13	Infrastructure—Act, s 35	21
14	Guidelines for environmental assessment and consultation—Act, s 36 21	
15	Designation process rules—Act, s 37	22
Part 3	Local categorising instruments	
16	Development local categorising instrument is prohibited from stating is assessable development—Act, s 43	22

Contents

17	Assessment benchmarks that local categorising instruments may not be inconsistent with—Act, s 43	22
Part 3A	Minor changes of use	
17A	Minor changes of use—Act, s 284	23
17B	Expiry of provisions	23
Part 4	Development assessment	
Division 1	Categories of development	
18	Accepted development—Act, s 44	23
19	Prohibited development—Act, s 44	24
20	Assessable development—Act, ss 44 and 45	24
Division 2	Assessment manager	
21	Assessment manager for development applications—Act, s 48	24
Division 3	Referral agency’s assessment	
22	Referral agency’s assessment generally—Act, ss 54, 55 and 56	25
23	Changes to referral agency’s assessment for particular development at Port of Brisbane	27
24	When no response by referral agency is taken to be direction to refuse—Act, s 58	28
Division 4	Assessment manager’s decision	
Subdivision 1	Code assessment	
25	Application of subdivision	29
26	Assessment benchmarks generally—Act, s 45	29
27	Matters code assessment must have regard to generally—Act, s 45	30
28	Code assessment for particular development applications	31
Subdivision 2	Impact assessment	
29	Application of subdivision	32
30	Assessment benchmarks generally—Act, s 45	32
31	Matters impact assessment must have regard to generally—Act, s 45	33
Subdivision 3	Variation requests	
32	Assessing variation requests—Act, s 61	34
Division 5	Fees	
33	Required fee for development applications—Act, s 51	35
34	Required fee for referral agency’s assessment—Act, s 54	35
35	Fee for operational work for clearing native vegetation	36
36	Fee for operational work that is waterway barrier works	37

36A	Fee for assessable development under sch 10, pt 16	37
37	Fee for fast-track development	38
38	Required fee for registered non-profit organisations and government-funded community development	38
39	Required fee for particular change applications and extension applications—Act, ss 79 and 86	39
40	When required fee may be waived—Act, s 109	39
Division 6	Miscellaneous	
41	Deciding whether development is consistent with future planning intent 40	
41A	Deciding whether development is required to be outside SEQ urban footprint	41
41B	Deciding whether there is an overriding need in the public interest for development	41
42	Who decision notice must be given to—Act, ss 63 and 76	42
43	Requirements for decision notice—Act, s 63	43
44	Development assessment rules—Act, ss 68 and 69	44
Part 5	Proposed call in notice	
45	Purpose of part	44
46	Content of proposed call in notice	44
47	When proposed call in notice must be given	45
48	Effect of proposed call in notice on process for assessing and deciding application	46
49	Effect of proposed call in notice on appeal period	46
50	Representation period	47
51	Notice of decision not to call in application	47
Part 6	Infrastructure	
52	Adopted charges—Act, s 112	47
53	Infrastructure guidelines—Act, ss 116 and 117	48
Part 7	Dispute resolution	
54	Qualifications and experience for referees—Act, s 233	49
55	Tribunal chairperson—Act, s 237	49
56	Required fees for tribunal proceedings—Act, s 237	50
Part 8	Urban encroachment	
Division 1	Application for registration or renewal	
Subdivision 1	Preliminary	
57	Application of division	50

Contents

Subdivision 2	Matters for chapter 7, part 4 of the Act	
58	Purpose of subdivision	51
59	Requirements for application for registration or renewal	51
60	Applicant to give notice of application	52
61	Minister may request extra information	53
62	Assessing application for registration or renewal	53
63	Content of notices	54
Subdivision 3	Other matters	
64	Criteria for registration or renewal—Act, s 267	55
Division 2	Amending or cancelling registration	
65	Notice of proposed amendment—Act, s 275	55
66	Notice of proposed cancellation—Act, s 275	55
67	Requirements for notices about amending or cancelling registration— Act, s 275	56
Division 3	Affected area development applications	
68	Development applications that are not affected area development applications	57
Part 9	Miscellaneous	
69	Approving plans of subdivision—Act, s 284	58
70	Public access to certain documents—Act, s 264	58
71	Planning and development certificates—Act, s 265	59
72	Priority infrastructure areas—Act, s 304	59
Schedule 1	Regions	60
Schedule 2	Zones for local planning instruments	63
Schedule 3	Use terms for local planning instruments	74
Schedule 4	Administrative terms for local planning instruments	80
Schedule 5	Infrastructure	85
Schedule 5A	Minor changes of use	87
Part 1	Interpretation	
1	Definitions for schedule	87
Part 2	Change of use of particular retail premises for container refund scheme	
2	Change of use of prescribed retail premises for container refund scheme 89	
3	Change of use of other premises for container refund scheme	91
Part 3	Change of use of particular industrial premises for container refund scheme	

4	Change of use of prescribed industrial premises for container refund scheme	95
5	Change of use of other premises for container refund scheme	97
Schedule 5B	Prescribed retail premises and prescribed industrial premises	101
Schedule 6	Development local categorising instrument is prohibited from stating is assessable development	106
Part 1	Building work	
1	Building work for a wind farm	106
Part 2	Material change of use	
2	Material change of use for particular buildings or structures	106
3	Material change of use for particular cropping	108
5	Material change of use for off-road motorcycling facility	108
6	Material change of use for community residence	111
7	Material change of use for wind farm	112
Part 3	Operational work	
8	Operational work by or for public sector entity	112
9	Operational work for ancillary works and encroachments	112
10	Operational work for substitute railway crossing	113
11	Operational work performed by railway manager	113
12	Operational work under rail feasibility investigator’s authority	113
13	Operational work under Coastal Act	113
14	Operational work for navigational aid or sign	113
15	Operational work for subscriber connection	113
16	Operational work for agriculture	114
17	Operational work for removing quarry material	114
18	Operational work for the removal, destruction or damage of a marine plant	114
19	Operational work for harvesting trees for wood production	115
20	Operational work on off-road motorcycling facility land	115
Part 4	Reconfiguring a lot	
21	Particular reconfigurations	116
Part 5	Other development	
22	Development for a mining or petroleum activity	118
23	Development for geothermal exploration	118
24	Development for GHG storage activities	119
25	Development directed under a State law	119
26	Development for infrastructure activities	119

Contents

27	Development under South Bank Corporation Act 1989	120
28	Development that is PDA-related development	120
29	Development for a connection under SEQ Water Act	121
30	Development for public housing	121
31	Development for detention centre on lot 395 on SP118987	123
32	Development for detention centre on lot 409 on SP257441	124
Schedule 7	Accepted development	126
Part 1	Building work	
1	Building work declared under Building Act	126
2	Building work by or for the State or a public sector entity	126
Part 2	Material change of use	
3	Material change of use for prescribed aquaculture	126
4	Material change of use in a State forest	127
Part 3	Operational work	
5	Operational work for taking or interfering with water	128
6	Operational work for waterway barrier works	129
7	Operational work in a declared fish habitat area	129
8	Operational work impacting on marine plants	130
9	Operational work in wetland protection areas	130
10	Operational work for tidal works or work within a coastal management district	130
11	Operational work relating to levees	131
12	Operational work for clearing native vegetation	131
Schedule 8	Assessment manager for development applications	132
Schedule 9	Building work under Building Act	139
Part 1	Assessable development	
1	Assessable development—building work under the Building Act	139
Part 2	Assessment by assessment manager	
Part 3	Referral agency’s assessment	
Division 1	Chief executive as referral agency	
Division 2	Local government as referral agency	
Division 3	Other persons as referral agency	
Schedule 10	Development assessment	166
Part 1	Airport land	
Division 1	Assessable development	
1	Assessable development—development on airport land	166

Division 2	Assessment by assessment manager	
Division 3	Referral agency’s assessment	
Part 2	Brothels	
Division 1	Prohibited development	
2	Prohibited development—material change of use for a brothel	168
Division 2	Assessable development	
3	Assessable development—material change of use for a brothel	169
Division 3	Assessment by assessment manager	
Part 3	Clearing native vegetation	
Division 1	Prohibited development	
4	Prohibited development—clearing native vegetation other than for a relevant purpose	170
Division 2	Assessable development	
5	Assessable development—clearing native vegetation on prescribed land	171
Division 3	Assessment by assessment manager	
Division 4	Referral agency’s assessment	
Part 4	Contaminated land	
Division 1	Assessable development	
6	Assessable development—material change of use on contaminated land	178
Division 2	Assessment by assessment manager	
Division 3	Referral agency’s assessment	
Part 5	Environmentally relevant activities	
Division 1	Prohibited development	
7	Prohibited development—development in North Stradbroke Island Region	181
Division 2	Assessable development	
8	Assessable development—material change of use for an environmentally relevant activity	181
Division 3	Assessment by assessment manager	
Division 4	Referral agency’s assessment	
Part 6	Fisheries	
Division 1	Aquaculture	
Subdivision 1	Assessable development	
9	Assessable development—material change of use for aquaculture	185
Subdivision 2	Assessment by assessment manager

Subdivision 1	Assessable development	
10	Assessable development—operational work in declared fish habitat area	188
Subdivision 2	Assessment by assessment manager	
Subdivision 3	Referral agency’s assessment	
Division 3	Marine plants	
Subdivision 1	Assessable development	
11	Assessable development—operational work involving marine plants	190
Subdivision 2	Assessment by assessment manager	
Subdivision 3	Referral agency’s assessment	
Division 4	Waterway barrier works	
Subdivision 1	Assessable development	
12	Assessable development—operational work for waterway barrier works	196
Subdivision 2	Assessment by assessment manager	
Subdivision 3	Referral agency’s assessment	
Part 7	Hazardous chemical facilities	
Division 1	Assessable development	
13	Assessable development—material change of use for a hazardous chemical facility	199
Division 2	Assessment by assessment manager	
Division 3	Referral agency’s assessment	
Part 8	Heritage places	
Division 1	Local heritage places	
Subdivision 1	Assessable development	
14	Assessable development—development on local heritage place	201
Subdivision 2	Assessment by assessment manager	
Subdivision 3	Referral agency’s assessment	
Division 2	Queensland heritage place	
Subdivision 1	Assessable development	
15	Assessable development—development on or adjoining a Queensland heritage place	204
Subdivision 2	Assessment by assessment manager	
Subdivision 3	Referral agency’s assessment	

Part 9	Infrastructure-related referrals	
Division 1	Designated premises—referral agency’s assessment	
Division 2	Electricity infrastructure—referral agency’s assessment	
Division 3	Oil and gas infrastructure—referral agency’s assessment	
Division 4	State transport infrastructure—referral agency’s assessment	
Subdivision 1	State transport infrastructure generally	
Subdivision 2	State transport corridors and future State transport corridors	
Subdivision 3	State-controlled transport tunnels and future State-controlled transport tunnels	
Part 10	Koala habitat area	
Division 1	Prohibited development	
16	Prohibited development—material change of use in priority koala assessable development area	233
Division 2	Assessment by assessment manager	
Part 11	Noise sensitive place on noise attenuation land	
17	Prohibited development—material change of use for a noise sensitive place	235
Part 12	Operational work for reconfiguring a lot	
Division 1	Assessable development	
18	Assessable development—operational work for reconfiguring a lot	236
Division 2	Assessment by assessment manager	
Part 13	Ports	
Division 1	Brisbane core port land	
Subdivision 1	Assessment by assessment manager	
Subdivision 2	Referral agency’s assessment	
Division 2	Land within Port of Brisbane’s port limits—referral agency’s assessment	
Division 3	Land within limits of another port—assessable development	
Division 4	Priority port’s master planned area	
Subdivision 1	Assessable development	
19	Assessable development—development in priority port’s master planned area	251
Subdivision 2	Assessment by assessment manager	
Division 5	Strategic port land	
Subdivision 1	Assessable development	
20	Assessable development—development on strategic port land .	252
Subdivision 2	Assessment by assessment manager

Planning Regulation 2017

Part 1 Preliminary

1 Short title

This regulation may be cited as the *Planning Regulation 2017*.

2 Commencement

This regulation commences on 3 July 2017.

3 Definitions

The dictionary in schedule 24 defines particular words used in this regulation.

Part 2 Planning

Division 1 State planning instruments

4 Regions—Act, sch 2

- (1) The local government areas, or parts of the local government areas, of each group of local governments stated in schedule 1, column 2 are prescribed as a region for schedule 2 of the Act, definition *region*.
- (2) Each region has the name stated in schedule 1, column 1.

Division 2 Local planning instruments

Subdivision 1 Regulated requirements

5 Purpose and application of subdivision

- (1) This subdivision prescribes, for section 16(2) of the Act, the regulated requirements for the contents of a local planning instrument.
- (2) This subdivision does not apply to—
 - (a) a local planning instrument made under the old Act before or after the commencement; or
 - (b) a TLPI made for all or part of a local government area, if a planning scheme made under the old Act before or after the commencement applies to the area.

6 Zones that may be adopted

- (1) A local planning instrument must not include land in a zone other than a zone stated in schedule 2, column 1.
- (2) If a local planning instrument includes land in a zone stated in schedule 2, column 1—
 - (a) the instrument must include the purpose statement stated opposite the zone in column 2; and
 - (b) the land must be shown on zoning maps in the local planning instrument using the RGB colour stated opposite the zone in column 3.
- (3) However, a local planning instrument may change a purpose statement for a zone if the Minister considers the change is necessary or desirable having regard to the circumstances in the local government area to which the instrument will apply.
- (4) If a local planning instrument changes a purpose statement for a zone, the instrument must state—
 - (a) that the purpose statement has been changed; and

(b) the day the changed purpose statement took effect.

(5) In this section—

RGB colour means the colour created when the colours red, green and blue are combined in accordance with an integer value for each colour, expressed as a number from 0 to 255.

7 Use terms that may be adopted

- (1) For regulating uses in a local government area, a local planning instrument may adopt only the use terms stated in schedule 3, column 1.
- (2) If a local planning instrument adopts a use term stated in schedule 3, column 1, the local planning instrument must include the definition of the term stated opposite the term in column 2.

8 Administrative terms

- (1) If a local planning instrument includes an administrative term stated in schedule 4, column 1, the local planning instrument must include the definition of the term stated opposite the term in column 2.
- (2) A local planning instrument may include an administrative term, other than a term in schedule 4, column 1, only if the term is consistent with and does not change the effect of—
 - (a) the administrative terms in schedule 4, column 1; and
 - (b) the definitions of those terms stated in schedule 4, column 2.

Subdivision 2 Other provisions for local planning instruments

10 Minister’s guidelines and rules—Act, s 17

For section 17(3) of the Act, the Minister’s guidelines and rules are contained in the document called ‘Minister’s guidelines and rules’, dated July 2017 and published on the department’s website.

Division 3 Superseded planning schemes

11 Making superseded planning scheme request—Act, s 29

- (1) For section 29(5)(a) of the Act, if the local government to which a superseded planning scheme request is made has a form for the request, the request must be in that form.
- (2) For section 29(5)(b) of the Act, a superseded planning scheme request must include—
 - (a) the name, residential or business address, electronic address and phone number of the person making the request; and
 - (b) the address or property description of the premises that the request relates to; and
 - (c) a statement about whether the person making the request is asking the local government—
 - (i) to accept, assess and decide a superseded planning scheme application; or
 - (ii) to apply a superseded planning scheme to the carrying out of development that was accepted development under the superseded planning scheme; and
 - (d) for a request under paragraph (c)(i)—a copy of the proposed superseded planning scheme application; and

- (e) for a request under paragraph (c)(ii)—a description and plan of the proposed development; and
 - (f) details of the superseded planning scheme that the request relates to; and
 - (g) if the local government has set a fee under subsection (3) for considering the request—the fee.
- (3) For section 29(5)(c) of the Act, a local government may, by resolution, set a fee for considering a superseded planning scheme request.

12 Deciding superseded planning scheme request—Act, s 29

For section 29(6) of the Act—

- (a) a local government must decide whether or not to agree to a superseded planning scheme request within 30 business days after the request is received; and
- (b) the period mentioned in paragraph (a) may be extended by the local government if the person making the request agrees, in writing, to the extension before the period ends.

Division 4 Designation of premises for development of infrastructure

13 Infrastructure—Act, s 35

The infrastructure stated in schedule 5 is prescribed for section 35(1) of the Act.

14 Guidelines for environmental assessment and consultation—Act, s 36

For section 36(3) of the Act, the guidelines for the process for carrying out an environmental assessment, including consultation, under section 36(2) of the Act are contained in

the document called ‘Minister’s guidelines and rules’, dated July 2017 and published on the department’s website.

15 Designation process rules—Act, s 37

For section 37(8) of the Act, definition *designation process rules*, the designation process rules are contained in the document called ‘Minister’s guidelines and rules’, dated July 2017 and published on the department’s website.

Part 3 Local categorising instruments

16 Development local categorising instrument is prohibited from stating is assessable development—Act, s 43

For section 43(5)(b) of the Act, a local categorising instrument is prohibited from stating that development stated in schedule 6 is assessable development.

17 Assessment benchmarks that local categorising instruments may not be inconsistent with—Act, s 43

For section 43(5)(c) of the Act, a local categorising instrument may not, in its effect, be inconsistent with the effect of the following assessment benchmarks—

- (a) schedule 11;
- (b) the building assessment provisions stated in the Building Act, section 30(a) to (d), (f) or (g);
- (c) the Coastal Regulation, schedule 3;
- (d) an assessment benchmark prescribed under the Environmental Protection Act, section 580(4)(a) for a material change of use for an environmentally relevant activity that is a concurrence ERA;
- (e) the *Prostitution Regulation 2014*, schedule 3;
- (f) the *Queensland Heritage Regulation 2015*, schedule 2;

-
- (g) an assessment benchmark stated in the regional plan for a region to which the local categorising instrument applies.

Part 3A Minor changes of use

17A Minor changes of use—Act, s 284

For section 284(2)(a) of the Act, schedule 5A, parts 2 and 3 prescribes minor changes of use that are not a material change of use for particular premises.

17B Expiry of provisions

The following provisions expire on 1 November 2019—

- (a) this part;
- (b) schedules 5A and 5B;
- (c) schedule 24, definitions *change of use, commercial character building, container, container refund depot, container refund drop off, container refund scheme, operating hours, prescribed industrial premises, prescribed retail premises, refund amount, relevant industrial use, relevant retail use* and *retail use*.

Part 4 Development assessment

Division 1 Categories of development

18 Accepted development—Act, s 44

For section 44(5) of the Act, development stated in schedule 7 is accepted development.

19 Prohibited development—Act, s 44

For section 44(5) of the Act, development is prohibited development if it is stated in schedule 10 to be prohibited development.

20 Assessable development—Act, ss 44 and 45

- (1) For section 44(5) of the Act, development is assessable development if it—
 - (a) is stated in schedule 9 or 10 to be assessable development; and
 - (b) is not prohibited development under section 19.
- (2) For section 45(2) of the Act, schedules 9 and 10 state the category of assessment required for assessable development stated in the schedules.

Division 2 Assessment manager

21 Assessment manager for development applications—Act, s 48

- (1) This section prescribes, for section 48(1) of the Act, the assessment manager for a development application.
- (2) For a development application for—
 - (a) a material change of use for a wind farm and no other assessable development, the assessment manager is the chief executive; or
 - (b) a material change of use for a wind farm and other assessable development—
 - (i) if the other assessable development is prescribed assessable development only, the assessment manager is the chief executive; or
 - (ii) otherwise—the assessment manager is the entity decided by the Minister.

-
- (3) For a development application for—
- (a) a material change of use that is assessable development under schedule 10, part 4, division 1 and no other assessable development, the assessment manager is the chief executive; or
 - (b) a material change of use that is assessable development under schedule 10, part 4, division 1 and other assessable development—
 - (i) if the other assessable development is prescribed assessable development only, the assessment manager is the chief executive; or
 - (ii) otherwise—the assessment manager is the entity decided by the Minister.
- (4) For a development application other than an application stated in subsection (2) or (3), schedule 8, column 2 states the assessment manager for the application stated opposite the assessment manager in column 1.
- (5) In this section—
- prescribed assessable development* means assessable development for which, if a separate development application were made for the development, the chief executive would be the prescribed assessment manager.

Division 3 Referral agency's assessment

22 Referral agency's assessment generally—Act, ss 54, 55 and 56

- (1) Schedules 9 and 10 prescribe—
- (a) for section 54(2)(a) of the Act, the referral agency for the development applications stated in the schedules; and
 - (b) for section 55(2) of the Act, the matters the referral agency—

- (i) may or must assess the development application against; and
 - (ii) may or must assess the development application having regard to.
- (2) For section 55(2)(a) of the Act, a referral agency for a development application must also assess the application against the following matters, unless the referral agency is the chief executive—
 - (a) the laws administered by the referral agency;
 - (b) the policies that are reasonably identifiable as policies applied by the referral agency.
- (3) For section 55(2)(b) of the Act, a referral agency for a development application must also assess the application having regard to—
 - (a) if the referral agency is the chief executive—
 - (i) the strategic outcomes for the local government area stated in the planning scheme; and
 - (ii) the purpose statement stated in the planning scheme for the zone and any overlay applying to the premises under the planning scheme; and
 - (iii) the strategic intent and desired regional outcomes stated in the regional plan for a region; and
 - (iv) the State Planning Policy, parts C and D; and
 - (v) for premises designated by the Minister—the designation for the premises; and
 - (b) if the referral agency is a person other than the chief executive—
 - (i) a local planning instrument applying to the premises; and
 - (ii) the regional plan for a region, to the extent the regional plan is not identified in the planning scheme as being appropriately integrated in the planning scheme; and

- (iii) the State Planning Policy, to the extent the State Planning Policy is not identified in the planning scheme as being appropriately integrated in the planning scheme; and
- (iv) for premises that are designated premises—the designation; and
- (c) any temporary State planning policy applying to the premises; and
- (d) any development approval applying to the premises; and
- (e) to the extent the referral agency's powers involve assessing the cost impacts of supplying infrastructure for development under chapter 4, part 2, division 2, subdivision 3 or part 3 of the Act—any relevant charges resolution; and
- (f) material about the application received by the referral agency, including material received before the application was made.

Note—

See also section 23.

- (4) A referral agency may consider a matter stated in subsection (1)(b), (2) or (3) only to the extent the referral agency considers the matter is relevant to the development.
- (5) For section 56(5) of the Act, a referral agency's powers for a development application are limited in the way stated for the application in schedule 9 or 10.

23 Changes to referral agency's assessment for particular development at Port of Brisbane

- (1) Subsection (2) applies to a development application for development on Brisbane core port land that is categorised as assessable development under the Brisbane port LUP, other than development that is—
 - (a) building work; or
 - (b) carried out on a Queensland heritage place.

[s 24]

- (2) An entity that would, other than for this subsection, be a referral agency for the development application under schedule 10, other than schedule 10, part 13, division 1, is not a referral agency for the application.
- (3) Subsections (4) and (5) apply to a development application for—
 - (a) development on Brisbane core port land that is categorised as assessable development under the Brisbane port LUP; or
 - (b) development below high-water mark and within the Port of Brisbane's port limits under the Transport Infrastructure Act.
- (4) Section 22(3)(a)(i) to (iii) and (b)(i) and (ii) does not apply to the development application.
- (5) For section 55(2)(b) of the Act, a referral agency for the development application must assess the application having regard to the Brisbane port LUP.

24 When no response by referral agency is taken to be direction to refuse—Act, s 58

- (1) This section applies to a development application for building work under the Building Act, if—
 - (a) the local government is a referral agency for the application; and
 - (b) the local government is assessing a matter other than the amenity and aesthetic impact of a building or structure; and
 - (c) the local government does not comply with section 56(4) of the Act before the end of the period stated in the development assessment rules for complying with the section, including any extension of that period under the rules.

- (2) For section 58(2)(c) of the Act, the local government is taken to have directed the assessment manager to refuse the development application.

Division 4 Assessment manager's decision

Subdivision 1 Code assessment

25 Application of subdivision

This subdivision applies to a development application for assessable development that requires code assessment.

26 Assessment benchmarks generally—Act, s 45

- (1) For section 45(3)(a) of the Act, the code assessment must be carried out against the assessment benchmarks for the development stated in schedules 9 and 10.
- (2) Also, if the prescribed assessment manager is the local government, the code assessment must be carried out against the following assessment benchmarks—
- (a) the assessment benchmarks stated in—
 - (i) the regional plan for a region, to the extent the regional plan is not identified in the planning scheme as being appropriately integrated in the planning scheme; and
 - (ii) the State Planning Policy, part E, to the extent part E is not identified in the planning scheme as being appropriately integrated in the planning scheme; and
 - (iii) any temporary State planning policy applying to the premises;
 - (b) if the local government is an infrastructure provider—the local government's LGIP.

[s 27]

- (3) However, an assessment manager may, in assessing development requiring code assessment, consider an assessment benchmark only to the extent the assessment benchmark is relevant to the development.

27 Matters code assessment must have regard to generally—Act, s 45

- (1) For section 45(3)(b) of the Act, the code assessment must be carried out having regard to—
- (a) the matters stated in schedules 9 and 10 for the development; and
 - (b) if the prescribed assessment manager is the chief executive—
 - (i) the strategic outcomes for the local government area stated in the planning scheme; and
 - (ii) the purpose statement stated in the planning scheme for the zone and any overlay applying to the premises under the planning scheme; and
 - (iii) the strategic intent and desired regional outcomes stated in the regional plan for a region; and
 - (iv) the State Planning Policy, parts C and D; and
 - (v) for premises designated by the Minister—the designation for the premises; and
 - (c) if the prescribed assessment manager is a person other than the chief executive or the local government—the planning scheme; and
 - (d) if the prescribed assessment manager is a person other than the chief executive—
 - (i) the regional plan for a region, to the extent the regional plan is not identified in the planning scheme as being appropriately integrated in the planning scheme; and
 - (ii) the State Planning Policy, to the extent the State Planning Policy is not identified in the planning

-
- scheme as being appropriately integrated in the planning scheme; and
- (iii) for designated premises—the designation for the premises; and
 - (e) any temporary State planning policy applying to the premises; and
 - (f) any development approval for, and any lawful use of, the premises or adjacent premises; and
 - (g) the common material.
- (2) However—
- (a) an assessment manager may, in assessing development requiring code assessment, consider a matter mentioned in subsection (1) only to the extent the assessment manager considers the matter is relevant to the development; and
 - (b) if an assessment manager is required to carry out code assessment against assessment benchmarks in an instrument stated in subsection (1), this section does not require the assessment manager to also have regard to the assessment benchmarks.

28 Code assessment for particular development applications

- (1) Section 26(2)(a) does not apply to a development application for building work assessable against the building assessment provisions.
- (2) For a development application for reconfiguring a lot to which schedule 12 applies—
 - (a) sections 26 and 27 do not apply; and
 - (b) the code assessment must be carried out only against the assessment benchmarks stated in schedule 10, part 14, division 2 for the development.

Subdivision 2 Impact assessment

29 Application of subdivision

This subdivision applies to a development application for assessable development that requires impact assessment.

30 Assessment benchmarks generally—Act, s 45

- (1) For section 45(5)(a)(i) of the Act, the impact assessment must be carried out against the assessment benchmarks for the development stated in schedules 9 and 10.
- (2) Also, if the prescribed assessment manager is the local government, the impact assessment must be carried out against the following assessment benchmarks—
 - (a) the assessment benchmarks stated in—
 - (i) the regional plan for a region; and
 - (ii) the State Planning Policy, part E, to the extent part E is not identified in the planning scheme as being appropriately integrated in the planning scheme; and
 - (iii) a temporary State planning policy applying to the premises;
 - (b) if the development is not in a local government area—any local planning instrument for a local government area that may be materially affected by the development;
 - (c) if the local government is an infrastructure provider—the local government’s LGIP.
- (3) However, an assessment manager may, in assessing development requiring impact assessment, consider an assessment benchmark only to the extent the assessment benchmark is relevant to the development.

31 Matters impact assessment must have regard to generally—Act, s 45

- (1) For section 45(5)(a)(ii) of the Act, the impact assessment must be carried out having regard to—
- (a) the matters stated in schedules 9 and 10 for the development; and
 - (b) if the prescribed assessment manager is the chief executive—
 - (i) the strategic outcomes for the local government area stated in the planning scheme; and
 - (ii) the purpose statement stated in the planning scheme for the zone and any overlay applying to the premises under the planning scheme; and
 - (iii) the strategic intent and desired regional outcomes stated in the regional plan for a region; and
 - (iv) the State Planning Policy, parts C and D; and
 - (v) for premises designated by the Minister—the designation for the premises; and
 - (c) if the prescribed assessment manager is a person other than the chief executive or the local government—the planning scheme; and
 - (d) if the prescribed assessment manager is a person other than the chief executive—
 - (i) the regional plan for a region; and
 - (ii) the State Planning Policy, to the extent the State Planning Policy is not identified in the planning scheme as being appropriately integrated in the planning scheme; and
 - (iii) for designated premises—the designation for the premises; and
 - (e) any temporary State planning policy applying to the premises; and

- (f) any development approval for, and any lawful use of, the premises or adjacent premises; and
 - (g) the common material.
- (2) However—
- (a) an assessment manager may, in assessing development requiring impact assessment, consider a matter mentioned in subsection (1) only to the extent the assessment manager considers the matter is relevant to the development; and
 - (b) if an assessment manager is required to carry out impact assessment against assessment benchmarks in an instrument stated in subsection (1), this section does not require the assessment manager to also have regard to the assessment benchmarks.

Subdivision 3 Variation requests

32 Assessing variation requests—Act, s 61

For section 61(2)(d) of the Act, an assessment manager must consider the following matters when assessing a variation request, to the extent the matter is relevant to the request—

- (a) the common material;
- (b) the regional plan for a region;
- (c) the State Planning Policy, to the extent the State Planning Policy is not identified in the planning scheme as being appropriately integrated in the planning scheme;
- (d) any temporary State planning policy.

Division 5 Fees

33 Required fee for development applications—Act, s 51

- (1) For section 51(1)(b)(ii) of the Act, the required fee for a development application (a *prescribed development application*) that the Minister or a public sector entity, other than a local government, is the assessment manager for is—
 - (a) if the application is for 1 aspect of development only—the fee stated in schedule 9 or 10 for a development application for the aspect made to the Minister or public sector entity; or
 - (b) if the application is for more than 1 aspect of development—the total of the fees that would be payable under paragraph (a) if separate development applications for each aspect were made to the Minister or public sector entity.

Example for paragraph (b)—

The chief executive is assessment manager for a development application for assessable development under schedule 10, part 7, division 1, section 13, and assessable development under schedule 10, part 3, division 2, section 5 for the aspects of development stated in schedule 10, part 3, division 3, table 1, item 5(a)(ii) and (b)(iii). The required fee that is payable to the chief executive as assessment manager is \$23,185.00.

- (2) However, this section is subject to sections 35 to 38.

34 Required fee for referral agency's assessment—Act, s 54

- (1) For section 54(1) of the Act, the required fee for the referral under section 54 of the Act of a development application (also a *prescribed development application*) to the Minister or a public sector entity, other than a local government, is—
 - (a) if the Minister or public sector entity is a referral agency for 1 aspect of development only—the fee stated in schedule 9 or 10 for the referral of a development application for the aspect to the Minister or public sector entity; or

[s 35]

- (b) if the Minister or public sector entity is a referral agency for more than 1 aspect of development—the total of the fees that would be payable under paragraph (a) if separate development applications for each aspect were referred to the Minister or public sector entity.

Example for paragraph (b)—

The chief executive is a referral agency for a development application for assessable development under schedule 10, part 7, division 1, section 13, and assessable development under schedule 10, part 3, division 2, section 5 for the aspects of development stated in schedule 10, part 3, division 3, table 1, item 5(a)(ii) and (b)(iii). The required fee that is payable to the chief executive as referral agency is \$10,765.00.

- (2) However, this section is subject to sections 35 to 38.

35 Fee for operational work for clearing native vegetation

- (1) This section applies to a prescribed development application for operational work for the clearing of native vegetation if—
- (a) the application or referral is for more than 1 aspect of the operational work; and
- (b) the total of the fee payable to the assessment manager or referral agency for the aspects would, other than for this section, be more than \$13,248.
- (2) The total of the fee payable to the assessment manager or referral agency for the aspects is \$13,248.

Example—

For a development application for assessable development under schedule 10, part 3, division 2, section 5 for the aspects of development stated in schedule 10, part 3, division 3, table 1, item 5(a)(ii), (b)(iii) and (c), the total of the fee payable to the chief executive as assessment manager or referral agency for the aspects is \$13,248.

- (3) However, this section is subject to sections 37 and 38.

36 Fee for operational work that is waterway barrier works

- (1) This section applies to a prescribed development application for operational work that is constructing or raising waterway barrier works if—
 - (a) the application or referral is for more than 1 aspect of the operational work; and
 - (b) the total of the fee payable to the assessment manager or referral agency for the aspects would, other than for this section, be more than \$13,248.
- (2) The total of the fee payable to the assessment manager or referral agency for the aspects is \$13,248.

Example—

For a development application for assessable development under schedule 10, part 6, division 4, subdivision 1, section 12 for the aspects of development stated in schedule 10, part 6, division 4, subdivision 2, table 1, item 5(a), (b) and (c), the total of the fee payable to the chief executive as assessment manager or referral agency for the aspects is \$13,248.

- (3) However, this section is subject to sections 37 and 38.

36A Fee for assessable development under sch 10, pt 16

- (1) This section applies in relation to the referral of a prescribed development application under schedule 10, part 16 if the referral is for more than 1 type of material change of use that is assessable development under that part.
- (2) The total of the fee payable to the referral agency for the referral is \$1,655.

Example—

For a development application for assessable development under schedule 10, part 16, sections 24 and 27, the total fee payable to the chief executive as referral agency for the application is \$1,655.

- (3) However, this section is subject to sections 37 and 38.

37 Fee for fast-track development

- (1) This section applies to a prescribed development application if—
 - (a) the application is for an aspect of development that is fast-track development; and
 - (b) the fee payable to the assessment manager or a referral agency for the aspect would, other than for this section, be more than \$827.
- (2) The fee payable to the assessment manager or referral agency for the aspect is \$827.
- (3) However, this section is subject to section 38.

38 Required fee for registered non-profit organisations and government-funded community development

- (1) This section applies to a prescribed development application if 1 or both of the following apply—
 - (a) the application is made by a registered non-profit organisation;
 - (b) the application is for a community-related use, activity or facility, and all of the following apply—
 - (i) the development is funded, wholly or partly, by the State or Commonwealth;
 - (ii) the application is accompanied by a statutory declaration by the applicant stating the amount of the funding;
 - (iii) the required fee that would, other than for this section, be payable to the assessment manager or a referral agency for the application, is more than 5% of the amount stated in the statutory declaration.
- (2) The required fee payable to the assessment manager or referral agency for the application, is 50% of the fee that would, other than for this section, be payable for the application.

Examples—

- 1 For a development application made by a registered non-profit organisation for assessable development under schedule 10, part 3, division 2, section 5 for the aspect of development stated in schedule 10, part 3, division 3, table 1, item 5(c), the required fee payable to the assessment manager for the application, which would, other than for this section, be \$13,248, is \$6,624.
- 2 For a development application made by a registered non-profit organisation for assessable development under schedule 10, part 3, division 2, section 5 for the aspect of development stated in schedule 10, part 3, division 3, table 1, item 5(c) that is fast-track development, the required fee payable to the assessment manager for the application, which would other than for this section be \$827, is \$413.50.

39 Required fee for particular change applications and extension applications—Act, ss 79 and 86

Schedule 15 prescribes—

- (a) for section 79(1)(b)(i) of the Act, the required fee for making a change application to the chief executive or the Minister as the responsible entity; and
- (b) for section 86(2)(b)(i) of the Act, the required fee for making an extension application to the chief executive as the assessment manager.

40 When required fee may be waived—Act, s 109

- (1) This section applies to—
 - (a) a development application; or
 - (b) a change application; or
 - (c) an extension application; or
 - (d) the referral, under section 54 of the Act, of a development application or change application to a referral agency.
- (2) For section 109(b) of the Act, all or part of the required fee for the application or referral may be waived if the application or referral is made by a registered non-profit organisation.

Division 6 Miscellaneous

41 Deciding whether development is consistent with future planning intent

- (1) This section applies if, under schedule 10, part 15, a referral agency is deciding whether or not development on premises completely or partly in an SEQ development area is consistent with the future planning intent for the area in which the premises are located.
- (2) Subsection (3) applies if—
 - (a) the planning scheme applying to the premises, or a major amendment of the planning scheme, is made after the gazette notice identifying the SEQ development area is published; and
 - (b) the planning scheme or amendment includes a land use and infrastructure plan for the SEQ development area.
- (3) The referral agency may decide the development is consistent with the future planning intent for the area only if the development is consistent with the land use and infrastructure plan.
- (4) If subsection (3) does not apply, the referral agency may decide the development is consistent with the future planning intent for the area only if the development—
 - (a) is consistent with the goals, elements and strategies stated in the SEQ regional plan; and
 - (b) does not compromise the intent for the area stated in—
 - (i) the SEQ regional plan; or
 - (ii) the gazette notice for the SEQ development area; and
 - (c) does not adversely affect the delivery and orderly sequencing of infrastructure for the SEQ development area or land adjacent to the SEQ development area; and

- (d) is compatible with the use of other premises in the surrounding area; and
 - (e) avoids an area that involves a risk of serious harm to persons or property from natural events or processes, including, for example, bush fires, coastal erosion, flooding or landslides, or, if the area can not be avoided, minimises the risk.
- (5) In this section—
- major amendment*, of a planning scheme, see the Minister’s guidelines and rules, schedule 1, section 4.

41A Deciding whether development is required to be outside SEQ urban footprint

- (1) This section applies if, under schedule 10, part 16, a referral agency is deciding whether or not the locational requirements or environmental impacts of development require it to be outside the SEQ urban footprint.
- (2) The referral agency may decide the locational requirements or environmental impacts of the development require it to be outside the SEQ urban footprint only if—
 - (a) the premises have particular characteristics that are necessary for the carrying out of the development; and
 - (b) the development could not reasonably be located on premises in the SEQ urban footprint that have the particular characteristics.

41B Deciding whether there is an overriding need in the public interest for development

- (1) This section applies if, under schedule 10, part 16, a referral agency is deciding whether or not there is an overriding need, in the public interest, for development to be carried out.
- (2) The referral agency may decide there is an overriding need, in the public interest, for the development to be carried out only if the development application demonstrates that—

[s 42]

- (a) the development will have a social, economic or environmental benefit for the community that outweighs—
 - (i) any adverse impact of the development on a matter or thing stated in the SEQ regional plan, table 11b; and
 - (ii) the desirability of achieving the goals, elements and strategies stated in the SEQ regional plan, particularly the goals, elements and strategies about—
 - (A) consolidating urban development in the SEQ urban footprint; and
 - (B) preventing land fragmentation in the SEQ regional landscape and rural production area; and
- (b) there will be a significant adverse economic, social or environmental impact on the community if the development is not carried out.
- (3) To remove any doubt, it is declared that there is not an overriding need, in the public interest, for the development to be carried out merely because—
 - (a) the applicant—
 - (i) owns the premises; or
 - (ii) has an interest in, or option over, the premises; or
 - (b) the premises are available for the carrying out of the development.

42 Who decision notice must be given to—Act, ss 63 and 76

- (1) For sections 63(1)(f) and 76(2)(b)(v) of the Act, the following persons are prescribed—
 - (a) if a distributor-retailer delegated its functions as a referral agency for the development application to its participating local government—the distributor-retailer;

- (b) if the development application is for building work—
 - (i) the owner of any prescribed building that the application relates to; and
 - (ii) any other person nominated on the application as the person to receive documents.
- (2) In this section—

prescribed building means a building that is, under the Building Code, a single detached class 1(a) building or a class 10 building or structure.

43 Requirements for decision notice—Act, s 63

For section 63(3) of the Act, a decision notice for a development application that is approved must—

- (a) state any other development permits necessary to allow the development to be carried out; and
- (b) be accompanied by any approved plans, specifications or drawings for the development approval; and
- (c) if the development involves building work that is building, repairing or altering a building and is assessable against the building assessment provisions—state the classification or proposed classification of the building or parts of the building under the Building Code; and
- (d) if the development application is taken, under the Environmental Protection Act, section 115, to also be an application for an environmental authority—state details of any environmental authority given for the application under that Act; and
- (e) be accompanied by a copy of any written agreement under section 49(4)(b) or 66(2)(b) or (c) of the Act relating to the approval.

44 Development assessment rules—Act, ss 68 and 69

- (1) For sections 68(4) and 69(2)(b) of the Act, the development assessment rules are contained in the document called ‘Development assessment rules’, made and amended by the Minister and published on the department’s website on 4 August 2017.
- (2) For section 69(4) of the Act, the amendment of the development assessment rules was published on the department’s website on 4 August 2017.

Part 5 Proposed call in notice

45 Purpose of part

This part prescribes, for section 102(3) of the Act, matters in relation to the giving of a proposed call in notice.

46 Content of proposed call in notice

A proposed call in notice for an application must state—

- (a) that the Minister is proposing to call in the application; and
- (b) the reasons for the proposed call in; and
- (c) for an application other than a cancellation application—
 - (i) if the notice is given before the decision-maker decides the application—that the process for assessing and deciding the application stops on the day the notice is given; and
 - (ii) the point in the process for assessing and deciding the application from which the Minister proposes the process will restart if the application is called in; and
 - (iii) if the application is proposed to be called in before the decision-maker decides the application—

whether the Minister intends to direct the decision-maker to assess all or part of the application; and

- (d) that the person to whom the notice is given may make representations to the Minister about the proposed call in within the representation period.

47 When proposed call in notice must be given

A proposed call in notice for an application must be given—

- (a) if the application is a development application—any time before the latest of the following—
 - (i) 15 business days after the day the chief executive receives notice of an appeal about the decision for the application;
 - (ii) if there is a submitter for the application—50 business days after the day the decision notice is given to the applicant;
 - (iii) if there are no submitters for the application and a decision notice is given for the application—25 business days after the day the decision notice is given to the applicant;
 - (iv) if the application is taken to have been approved under section 64 of the Act and a decision notice is not given for the application—25 business days after the day the decision notice was required to be given to the applicant; or
- (b) if the application is change representations about a development approval—any time before the latest of the following—
 - (i) 15 business days after the day the chief executive receives notice of an appeal about the decision for the development application;
 - (ii) if there is a submitter for the development application—50 business days after the day the

[s 48]

- decision notice for the change representations is given to the applicant;
- (iii) if there are no submitters for the development application—25 business days after the day the decision notice for the change representations is given to the applicant; or
- (c) if the application is a change application or an extension application—within 20 business days after the later of the following—
- (i) the day the chief executive receives notice of an appeal about the decision for the application;
- (ii) the end of the appeal period for the decision on the application; or
- (d) if the application is a cancellation application—any time before the development approval is cancelled.

48 Effect of proposed call in notice on process for assessing and deciding application

- (1) This section applies to an application other than a cancellation application.
- (2) If a proposed call in notice is given for the application before the decision-maker decides the application, the process for assessing and deciding the application stops on the day the notice is given.
- (3) If the Minister gives notice, under section 51, that the application will not be called in, the process for assessing and deciding the application restarts from the point in the process at which it stopped under subsection (2).

49 Effect of proposed call in notice on appeal period

- (1) This section applies to an application other than a cancellation application, if—
- (a) a proposed call in notice is given for the application after the decision-maker decides the application; and

- (b) the Minister gives notice, under section 51, that the application will not be called in.
- (2) The appeal period relating to the decision is taken to have started again the day after the notice is given under section 51.

50 Representation period

The representation period for a proposed call in is the period, of at least 5 business days after the proposed call in notice is given, stated in the notice.

51 Notice of decision not to call in application

- (1) If the Minister decides not to call in an application for which a proposed call in notice has been given, the Minister must give notice of the decision to each person to whom the proposed call in notice was given.
- (2) The notice must be given within 20 business days after the end of the representation period for the proposed call in.
- (3) Subsection (4) applies if the proposed call in notice was given—
 - (a) for an application other than a cancellation application; and
 - (b) before the decision-maker decided the application.
- (4) The notice under subsection (2) must state that the process for assessing and deciding the application restarts from the point in the process at which the process stopped because of the giving of the proposed call in notice.

Part 6 Infrastructure

52 Adopted charges—Act, s 112

- (1) For section 112(1) of the Act, schedule 16, column 2 states the prescribed amount for each adopted charge under

chapter 4 of the Act and the SEQ Water Act for providing trunk infrastructure for the use stated in schedule 16, column 1.

- (2) For section 112(3)(a) of the Act, the charges breakup as between Ipswich City Council and Queensland Urban Utilities is the proportion that applied to each of those entities under Ipswich City Council's adopted infrastructure charges resolution as in force at the commencement.
- (3) For section 112(3)(b) of the Act—
 - (a) if development is a material change of use, reconfiguring a lot or building work and is for a use stated in schedule 16, column 1—a local government may have an adopted charge for trunk infrastructure for the development under chapter 4 of the Act; and
 - (b) if a connection under the SEQ Water Act is for a use stated in schedule 16, column 1—a distributor-retailer may have an adopted charge under that Act for trunk infrastructure for the connection.

53 Infrastructure guidelines—Act, ss 116 and 117

For sections 116(2) and 117(2) of the Act, the guidelines for the following matters are contained in the document called 'Minister's guidelines and rules', dated July 2017 and published on the department's website—

- (a) parameters for the purpose of working out an offset or refund under chapter 4, part 2 of the Act;
- (b) parameters for the criteria for deciding a conversion application.

Part 7 Dispute resolution

54 Qualifications and experience for referees—Act, s 233

- (1) For section 233(1)(a) of the Act, the appointer may appoint a person to be a referee if the appointer considers the person has demonstrated knowledge of at least 1 of the following that the appointer considers is sufficient to enable the person to perform the functions of a referee—
- (a) building design and construction;
 - (b) infrastructure design and delivery;
 - (c) siting of residential buildings;
 - (d) neighbourhood amenity matters;
 - (e) relevant health or fire safety matters;
 - (f) the Act, the Building Act or the *Plumbing and Drainage Act 2018*;
 - (g) the Building Code, the Queensland Development Code or the Australian Standards relating to building work;
 - (h) the Plumbing Code, the Queensland Plumbing and Wastewater Code or the Australian Standards relating to plumbing or drainage work;
 - (i) engineering.
- (2) In this section—

Plumbing Code means the parts of the National Construction Code that form the Plumbing Code of Australia (including the Queensland Appendix), published by the Australian Building Codes Board, as amended from time to time by amendments published by the board.

55 Tribunal chairperson—Act, s 237

For section 237(4)(a) of the Act, if a tribunal is to hear only a proceeding about an infrastructure charges notice or

conversion application, the chairperson of the tribunal must be a lawyer.

56 Required fees for tribunal proceedings—Act, s 237

- (1) For section 237(4)(b) of the Act, the required fees for tribunal proceedings are stated in schedule 17.
- (2) A reference in schedule 17, item 6, 11 or 16 to an appeal about a decision under the *Plumbing and Drainage Act 2018* is taken to include a reference to an appeal about a decision under the repealed *Plumbing and Drainage Act 2002*, part 4 or 5.
- (3) A reference in schedule 17, item 18 to an appeal about an enforcement notice given in relation to a matter relating to the *Plumbing and Drainage Act 2018* is taken to include a reference to an appeal about an enforcement notice given in relation to a matter relating to the repealed *Plumbing and Drainage Act 2002*.

Part 8 Urban encroachment

Division 1 Application for registration or renewal

Subdivision 1 Preliminary

57 Application of division

This division applies to an application under section 267 of the Act to register, or renew the registration of, premises.

Subdivision 2 Matters for chapter 7, part 4 of the Act

58 Purpose of subdivision

This subdivision prescribes, for section 275 of the Act, matters for chapter 7, part 4 of the Act.

59 Requirements for application for registration or renewal

- (1) The application must include—
 - (a) a map that shows—
 - (i) the area (the *mapped area*) that the proposed registration, or renewed registration, is intended to relate to; and
 - (ii) a lot on plan description of the mapped area; and
 - (b) details of any intensification of development, or proposed development, within the mapped area that is encroaching, or is likely to encroach, on the premises; and
 - (c) a statement about the nature of development proposed for the mapped area under a local categorising instrument or regional plan applying to the area; and
 - (d) information about the significance of the activity carried out at the premises to the economy, heritage or infrastructure of the State, a region or the locality in which the mapped area is situated; and
 - (e) details of all public consultation carried out in the mapped area by, or for, the applicant about the proposed registration or renewal, including—
 - (i) copies of the notices under section 60; and
 - (ii) details of the period for which the consultation was carried out and the outcomes of the consultation; and

[s 60]

- (f) details of any written complaints made to the applicant—
 - (i) within 1 year before the application is made; and
 - (ii) about emissions from the activity carried out at the premises; and
 - (g) details of any action taken by, or for, the applicant to mitigate emissions from the activity carried out at the premises; and
 - (h) a report (the *technical report*) prepared by an appropriately qualified person that shows the levels of emissions from the carrying out of the activity during normal operating hours for the premises; and
 - (i) if the activity is a prescribed ERA under the Environmental Protection Act—a copy of the environmental authority for carrying out the activity.
- (2) The technical report must include a certification by the person who prepared the report about whether the levels of emissions from the carrying out of the activity comply with—
- (a) any development approval for the premises; and
 - (b) any authority under the Environmental Protection Act applying to the activity.

60 Applicant to give notice of application

- (1) The applicant must—
- (a) give notice of the application to the owners and occupiers of all premises in the mapped area; and
 - (b) publish a notice about the application at least once in a newspaper circulating generally in the mapped area.
- (2) The notice must—
- (a) state the name, postal address, electronic address and phone number of the applicant; and
 - (b) state the name of, or describe, the premises that the application relates to; and

- (c) describe the mapped area; and
- (d) state where copies of the application may be inspected or purchased; and
- (e) include information about legal proceedings that, under section 274 of the Act, will not be able to be brought if the application is approved.

61 Minister may request extra information

- (1) This section applies if the Minister reasonably requires extra information or a document to decide the application.
- (2) The Minister may, by notice, require the applicant to give the extra information or document to the Minister within the reasonable period of at least 30 business days stated in the notice.
- (3) The notice must be given within 30 business days after the Minister receives the application.
- (4) If the applicant does not comply with the requirement within the stated period, the applicant is taken to have withdrawn the application.

62 Assessing application for registration or renewal

- (1) The Minister must assess the application against—
 - (a) whether the activity carried out on the premises is significant to the economy, heritage or infrastructure of the State, a region or the locality in which the mapped area is situated; and
 - (b) whether the activity carried out on the premises is consistent with the nature of development proposed for the mapped area under a local categorising instrument and a regional plan applying to the mapped area.
- (2) The Minister must assess the application having regard to the outcomes of the public consultation about the proposed registration or renewal.

63 Content of notices

- (1) This section applies if the Minister decides, under section 267 of the Act, to register premises (with or without conditions) or renew the registration of premises.
- (2) The decision notice for the decision must—
 - (a) if the decision is to register the premises, or renew the registration, on conditions—state the conditions and the period within which the conditions must be complied with; and
 - (b) if the Minister decides a term of registration for the premises of more than 10 years—state the term of the registration.
- (3) The notice given under section 267(12) of the Act must—
 - (a) include a map of the affected area; and
 - (b) state the period for which the registration has effect.
- (4) The notice published by the owner of the premises under section 269(3)(a) or (4) of the Act must—
 - (a) state the name of, or describe, the registered premises; and
 - (b) include a description of the affected area; and
 - (c) state where a member of the public can get—
 - (i) a map showing the affected area; or
 - (ii) a copy of any conditions of the registration; or
 - (iii) details of the types and levels of emissions from the carrying out of the activity for which the premises are registered.

Subdivision 3 Other matters

64 Criteria for registration or renewal—Act, s 267

For section 267(7)(b) of the Act, the Minister may register premises, or renew the registration of premises, if the Minister is satisfied that public consultation about the proposed registration or renewal has been carried out in the mapped area by, or for, the applicant.

Division 2 Amending or cancelling registration

65 Notice of proposed amendment—Act, s 275

- (1) This section applies if the Minister proposes, under section 268(1)(a) of the Act, to amend the conditions of the registration of premises.
- (2) For section 275 of the Act, the Minister must give the owner of the premises a notice that states—
 - (a) that the Minister proposes to amend the conditions of the registration; and
 - (b) details of the proposed amendment, including the reasons for the amendment; and
 - (c) that the owner may, within a stated period of at least 14 business days after the notice is given, make representations to the Minister about the proposed amendment.

66 Notice of proposed cancellation—Act, s 275

- (1) This section applies if the Minister proposes, under section 268(1)(b) of the Act, to cancel the registration of premises.
- (2) For section 275 of the Act, the Minister must give the owner of the premises a notice that states—

- (a) that the Minister proposes to cancel the registration; and
- (b) the reasons for the proposed cancellation; and
- (c) that the owner may, within a stated period of at least 20 business days after the notice is given, make representations to the Minister about the proposed cancellation.

67 Requirements for notices about amending or cancelling registration—Act, s 275

- (1) For section 275 of the Act, if the Minister decides, under section 268(1)(a) of the Act, to amend the conditions of the registration of premises, the decision notice given under section 268(2) of the Act must state—
 - (a) the conditions being amended, including details of the amendments; and
 - (b) the reasons for the decision; and
 - (c) the period within which the amended conditions must be complied with.
- (2) For section 275 of the Act, if the Minister decides, under section 268(1)(b) of the Act, to cancel the registration of premises, the decision notice given under section 268(2) of the Act must—
 - (a) state the decision and the reasons for the decision; and
 - (b) include details of the registered premises; and
 - (c) include a map of the affected area.
- (3) For section 275 of the Act, if the owner of registered premises gives a notice under section 268(4) of the Act cancelling the registration, the notice must include—
 - (a) details of the registered premises; and
 - (b) a map of the affected area.

Division 3 **Affected area development applications**

68 Development applications that are not affected area development applications

- (1) For schedule 2 of the Act, definition *affected area development application*, the following development applications are not affected area development applications—
- (a) a development application for development relating to a class 1(a) building or class 1(b) building, if the development is on land other than undeveloped land;
 - (b) a development application for development relating to a class 10 building or structure.
- (2) In this section—
- undeveloped land*** means—
- (a) land in its natural state; or
 - (b) land that is or was used for 1 or more of the following purposes and has not been developed for an urban purpose—
 - (i) agriculture;
 - (ii) animal husbandry;
 - (iii) apiculture;
 - (iv) aquaculture;
 - (v) dairy farming;
 - (vi) grazing;
 - (vii) horticulture;
 - (viii) viticulture; or
 - (c) land on which an abattoir or tannery is or was situated and that has not been developed for an urban purpose.

Part 9 **Miscellaneous**

69 **Approving plans of subdivision—Act, s 284**

For section 284(2)(b) of the Act, schedule 18 states the process for local governments to approve a plan of subdivision for reconfiguring a lot that, under an Act, requires local government approval (in whatever form) before the plan can be registered or otherwise recorded under that Act.

70 **Public access to certain documents—Act, s 264**

- (1) For section 264(1) of the Act, schedule 22 prescribes—
 - (a) the documents the following persons must or may keep publicly available—
 - (i) a local government;
 - (ii) an assessment manager;
 - (iii) a referral agency;
 - (iv) the chief executive; and
 - (b) whether the documents—
 - (i) must be kept available for inspection and purchase or for inspection only; and
 - (ii) must or may be published on the person's website; and
 - (c) if a document must or may be kept for a particular period only—the period during which the document must or may be kept.
- (2) For section 264(6) of the Act, schedule 22 also prescribes the documents that section 264 of the Act does not apply to the extent the person required to make the document publicly available reasonably considers the document contains the information mentioned in section 264(6) of the Act.
- (3) If schedule 22 requires a document to be kept, a certified copy of the document may be kept instead of the document.

71 Planning and development certificates—Act, s 265

For section 265(4) of the Act, schedule 23 prescribes the information that must be included in limited, standard and full planning and development certificates.

72 Priority infrastructure areas—Act, s 304

(1) For section 304(2) of the Act, the PIA for the local government area of a local government stated in the repealed SPRP (adopted charges), schedule 2, column 1 is the area shown as a PIA on a map stated opposite the local government in column 2 and published on the department's website.

(2) In this section—

repealed SPRP (adopted charges) means the State planning regulatory provision, made under the old Act, called 'State Planning Regulatory Provision (adopted charges) - July 2012', as in force immediately before the old Act was repealed.

Schedule 1 Regions

section 4

Column 1 Name of region	Column 2 Groups of local governments
SEQ region	Brisbane Gold Coast Ipswich Lockyer Valley Logan Moreton Bay Noosa Redland Scenic Rim Somerset Sunshine Coast the part of the local government area of Toowoomba Regional Council delineated in black on maps SEQ RP 16 and SEQ RP 21, dated August 2017 and published on the department's website
Far North Queensland region	Cairns Cassowary Coast Douglas Mareeba Tablelands Wujal Wujal Yarrabah
North West region	Cloncurry Flinders McKinlay Mount Isa Richmond

Column 1 Name of region	Column 2 Groups of local governments
Central West region	Barcaldine Barcoo Blackall Tambo Boulia Diamantina Longreach Winton
South West region	Bulloo Murweh Paroo Quilpie
Maranoa-Balonne region	Balonne Maranoa
Wide Bay Burnett region	Bundaberg Cherbourg Fraser Coast Gympie North Burnett South Burnett
Mackay, Isaac and Whitsunday region	Isaac Mackay Whitsunday
Central Queensland region	Banana Central Highlands Gladstone Livingstone Rockhampton Woorabinda

Schedule 1

Column 1 Name of region	Column 2 Groups of local governments
Darling Downs region	Balonne Goondiwindi Maranoa Southern Downs Toowoomba Western Downs
Cape York region	Aurukun Cook Hope Vale Kowanyama Lockhart River Mapoon Napranum Northern Peninsula Area Pormpuraaw Weipa Town Authority Wujal Wujal
North Queensland region	Burdekin Charters Towers Hinchinbrook Palm Island Townsville
Gulf region	Burke Carpentaria Croydon Doomadgee Etheridge Mornington

Schedule 2 Zones for local planning instruments

section 6

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
Residential zones		
General residential zone	The purpose of the general residential zone is to provide for— (a) residential uses; and (b) community uses, and small-scale services, facilities and infrastructure, to support local residents.	Red (255) Green (164) Blue (164)
Low density residential zone	The purpose of the low density residential zone is to provide for— (a) a variety of low density dwelling types, including dwelling houses; and (b) community uses, and small-scale services, facilities and infrastructure, to support local residents.	Red (255) Green (220) Blue (220)
Low-medium density residential zone	The purpose of the low-medium density residential zone is to provide for— (a) a variety of dwelling types, including dwelling houses and low to medium density multiple dwellings; and (b) community uses, and small-scale services, facilities and infrastructure, to support local residents.	Red (255) Green (164) Blue (164)
Medium density residential zone	The purpose of the medium density residential zone is to provide for— (a) medium density multiple dwellings; and	Red (255) Green (101) Blue (101)

Schedule 2

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
	(b) community uses, and small-scale services, facilities and infrastructure, to support local residents.	
High density residential zone	The purpose of the high density residential zone is to provide for— (a) high density multiple dwellings; and (b) community uses, and small-scale services, facilities and infrastructure, to support local residents.	Red (170) Green (0) Blue (0)
Character residential zone	The purpose of the character residential zone is to— (a) ensure the character of a residential area is protected or enhanced; and (b) provide for community uses, and small-scale services, facilities and infrastructure, to support local residents.	Red (255) Green (175) Blue (219)
Tourist accommodation zone	The purpose of the tourist accommodation zone is to provide for— (a) short-term accommodation; and (b) community uses, and small-scale services, facilities and infrastructure, to support short-term accommodation and tourist attractions.	Red (255) Green (75) Blue (39)
Centre zones		
Centre zone	The purpose of the centre zone is to provide for a variety of uses and activities to service all or part of the local government area, including, for example, administrative, business, community, cultural, entertainment, professional, residential or retail uses or activities.	Red (134) Green (166) Blue (255)
Neighbourhood centre zone	The purpose of the neighbourhood centre zone is to provide for— (a) a small variety of uses and activities to service local residents; and	Red (200) Green (225) Blue (255)

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
	(b) other small-scale uses and activities that directly support local residents, including, for example, community services, convenience shops or offices.	
Local centre zone	<p>The purpose of the local centre zone is to provide for—</p> <p>(a) a limited variety of commercial, community and retail activities to service local residents; and</p> <p>(b) other uses and activities that integrate with, and enhance, the local centre, including, for example, entertainment, shopping or residential uses.</p>	Red (134) Green (166) Blue (255)
District centre zone	<p>The purpose of the district centre zone is to provide for a large variety of uses and activities to service a district of the local government area, including, for example, administrative, business, community, cultural, entertainment, professional, residential or retail uses or activities.</p>	Red (112) Green (130) Blue (170)
Major centre zone	<p>The purpose of the major centre zone is to provide for a large variety of uses and activities to service a part of the local government area, including, for example, administrative, business, community, cultural, entertainment, professional, residential or retail uses or activities.</p>	Red (66) Green (107) Blue (255)
Principal centre zone	<p>The purpose of the principal centre zone is to provide for a large variety of uses and activities (including, for example, administrative, business, community, cultural, entertainment, professional, residential or retail activities) to—</p> <p>(a) form the core of an urban area; and</p> <p>(b) service the local government area.</p>	Red (0) Green (50) Blue (255)

Schedule 2

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
Recreation zones		
Recreation and open space zone	<p>The purpose of the recreation and open space zone is to provide for—</p> <p>(a) a variety of cultural, educational, leisure, recreation and sporting uses and activities, including, for example—</p> <p style="padding-left: 20px;">(i) parks, playgrounds or playing fields for the use of residents and visitors; and</p> <p style="padding-left: 20px;">(ii) parks, or other areas, for the conservation of natural areas; and</p> <p>(b) facilities and infrastructure to support the uses and activities stated in paragraph (a).</p>	<p>Red (175)</p> <p>Green (225)</p> <p>Blue (200)</p>
Open space zone	<p>The purpose of the open space zone is to provide for—</p> <p>(a) local, district and regional parks for the use of residents and visitors; and</p> <p>(b) facilities and infrastructure that support, and are required by, users of the parks.</p>	<p>Red (110)</p> <p>Green (175)</p> <p>Blue (75)</p>
Sport and recreation zone	<p>The purpose of the sport and recreation zone is to provide for—</p> <p>(a) a variety of cultural, educational, recreation and sporting uses and activities that require built infrastructure, including, for example, clubhouses, gymnasiums, swimming pools or tennis courts; and</p> <p>(b) facilities and infrastructure to support the uses and activities stated in paragraph (a).</p>	<p>Red (175)</p> <p>Green (225)</p> <p>Blue (200)</p>
Environmental zones		
Environmental management and conservation zone	<p>The purpose of the environmental management and conservation zone is to provide for the protection and maintenance of areas that support 1 or more of the following—</p>	<p>Red (50)</p> <p>Green (125)</p> <p>Blue (0)</p>

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
	(a) biological diversity; (b) ecological integrity; (c) naturally occurring landforms; (d) coastal processes.	
Conservation zone	The purpose of the conservation zone is to provide for the management, protection and restoration of areas that support 1 or more of the following— (a) biological diversity; (b) ecological integrity; (c) naturally occurring landforms; (d) coastal processes.	Red (55) Green (145) Blue (130)
Environmental management zone	The purpose of the environmental management zone is to— (a) identify environmentally sensitive areas; and (b) provide for the protection of the environmentally sensitive areas from urban and industry activities, other than— (i) dwelling houses and other low-impact activities; and (ii) quarries, if the protection or promotion of the quarries is identified in the planning scheme as a strategic outcome for the local government area.	Red (50) Green (125) Blue (0)
Industry zones		
Industry zone	The purpose of the industry zone is to provide for— (a) a variety of industry activities; and (b) other uses and activities that—	Red (200) Green (143) Blue (200)

Red (140) Green (125) Blue (222)
Industry investigation zone	<p>The purpose of the industry investigation zone is to identify and protect land that may be suitable for industry activities, subject to further planning and investigation.</p>	Red (200) Green (175) Blue (225)
Waterfront and marine industry zone	<p>The purpose of the waterfront and marine industry zone is to provide for—</p> <ul style="list-style-type: none"> (a) marine industry; and (b) other uses and activities that— <ul style="list-style-type: none"> (i) need to be on or near water or a marine environment; or (ii) support industry activities and do not compromise the future use of premises for industry activities. 	Red (85) Green (60) Blue (155)
Tourism zones		
Tourism zone	<p>The purpose of the tourism zone is to provide for tourist activities, facilities and places in coastal, environmental, rural and urban areas.</p>	Red (179) Green (210) Blue (52)
Major tourism zone	<p>The purpose of the major tourism zone is to provide for—</p> <ul style="list-style-type: none"> (a) a variety of activities, facilities and places that— 	Red (179) Green (210) Blue (52)

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
	<ul style="list-style-type: none"> (i) are for or support tourism; and (ii) are large-scale and integrated; and (iii) are in coastal, environmental, rural or urban areas; and (b) permanent accommodation for employees, if required for the activities, facilities and places stated in paragraph (a) and appropriate for the area. 	
Minor tourism zone	<p>The purpose of the minor tourism zone is to provide for—</p> <ul style="list-style-type: none"> (a) a variety of activities, facilities and places that— <ul style="list-style-type: none"> (i) are for or support tourism; and (ii) have less than 20 employees; and (iii) are in coastal, environmental, rural or urban areas; and (b) permanent accommodation for employees, if required for the activities, facilities and places stated in paragraph (a) and appropriate for the area. 	Red (222) Green (231) Blue (135)
Other zones		
Community facilities zone	<p>The purpose of the community facilities zone is to provide for community-related uses, activities and facilities, whether publicly or privately owned, including, for example—</p> <ul style="list-style-type: none"> (a) educational establishments; and (b) hospitals; and (c) transport and telecommunication networks; and (d) utility installations. 	Red (255) Green (255) Blue (100)

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
Emerging community zone	<p>The purpose of the emerging community zone is to—</p> <ul style="list-style-type: none"> (a) identify land that is intended for an urban purpose in the future; and (b) protect land that is identified for an urban purpose in the future from incompatible uses; and (c) provide for the timely conversion of non-urban land to land for urban purposes. 	<p>Red (232) Green (190) Blue (175)</p>
Extractive industry zone	<p>The purpose of the extractive industry zone is to provide for extractive industry.</p>	<p>Red (100) Green (50) Blue (0)</p>
Innovation zone	<p>The purpose of the innovation zone is to—</p> <ul style="list-style-type: none"> (a) identify land suitable for new and emerging uses and activities to provide opportunities for innovation and creativity; and (b) facilitate new and emerging uses and activities that can not readily be provided for in other parts of the local government area; and (c) provide for uses and activities that promote knowledge creation and entrepreneurship in industry, research and development, science and technology. 	<p>Red (25) Green (205) Blue (255)</p>
Limited development zone	<p>The purpose of the limited development zone is to identify land that is significantly affected by 1 or more development constraints, including, for example, constraints relating to defence requirements, flooding, historical subdivisions, land contamination, past or future mining activities or topography.</p>	<p>Red (250) Green (175) Blue (50)</p>

Schedule 2

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
Mixed use zone	The purpose of the mixed use zone is to provide for a variety of uses and activities, including, for example, business, residential, retail, service industry, tourist accommodation or low impact industrial uses or activities.	Red (255) Green (120) Blue (0)
Rural zone	The purpose of the rural zone is to— (a) provide for rural uses and activities; and (b) provide for other uses and activities that are compatible with— (i) existing and future rural uses and activities; and (ii) the character and environmental features of the zone; and (c) maintain the capacity of land for rural uses and activities by protecting and managing significant natural resources and processes.	Red (240) Green (250) Blue (230)
Rural residential zone	The purpose of the rural residential zone is to provide for residential uses and activities on large lots, including lots for which the local government has not provided infrastructure and services.	Red (160) Green (120) Blue (120)
Special purpose zone	The purpose of the special purpose zone is to— (a) provide for public facilities and infrastructure that are publicly or privately owned or operated; and (b) ensure that incompatible uses do not encroach on the public facilities and infrastructure.	Red (204) Green (204) Blue (0)
Specialised centre zone	The purpose of the specialised centre zone is to provide for 1 or more specialised uses including, for example, conference centres, entertainment centres, education and research facilities or university campuses.	Red (169) Green (169) Blue (169)

Column 1 Zone	Column 2 Purpose statement	Column 3 RGB colour
Township zone	<p>The purpose of the township zone is to provide for—</p> <ul style="list-style-type: none"> (a) small to medium urban areas in a rural or coastal area; and (b) a variety of uses and activities to service local residents, including, for example, business, community, education, industrial, open space, recreation, residential or retail uses or activities; and (c) tourist attractions and short-term accommodation, if appropriate for the area. 	<p>Red (255) Green (225) Blue (175)</p>

Schedule 3 Use terms for local planning instruments

section 7

Column 1 Use term	Column 2 Definition
adult store	adult store see the <i>Planning Regulation 2017</i> , schedule 24.
agricultural supplies store	agricultural supplies store see the <i>Planning Regulation 2017</i> , schedule 24.
air service	air service see the <i>Planning Regulation 2017</i> , schedule 24.
animal husbandry	animal husbandry see the <i>Planning Regulation 2017</i> , schedule 24.
animal keeping	animal keeping see the <i>Planning Regulation 2017</i> , schedule 24.
aquaculture	aquaculture means the use of premises for cultivating, in a confined area, aquatic animals or plants for sale.
bar	bar see the <i>Planning Regulation 2017</i> , schedule 24.
brothel	brothel see the <i>Prostitution Act 1999</i> , schedule 4.
bulk landscape supplies	bulk landscape supplies see the <i>Planning Regulation 2017</i> , schedule 24.
caretaker's accommodation	caretaker's accommodation see the <i>Planning Regulation 2017</i> , schedule 24.
car wash	car wash means the use of premises for the commercial cleaning of motor vehicles.
cemetery	cemetery see the <i>Planning Regulation 2017</i> , schedule 24.
childcare centre	childcare centre see the <i>Planning Regulation 2017</i> , schedule 24.
club	club see the <i>Planning Regulation 2017</i> , schedule 24.

Column 1 Use term	Column 2 Definition
community care centre	community care centre see the <i>Planning Regulation 2017</i> , schedule 24.
community residence	community residence see the <i>Planning Regulation 2017</i> , schedule 24.
community use	community use see the <i>Planning Regulation 2017</i> , schedule 24.
crematorium	crematorium see the <i>Planning Regulation 2017</i> , schedule 24.
cropping	cropping see the <i>Planning Regulation 2017</i> , schedule 24.
detention facility	detention facility see the <i>Planning Regulation 2017</i> , schedule 24.
dual occupancy	dual occupancy see the <i>Planning Regulation 2017</i> , schedule 24.
dwelling house	dwelling house see the <i>Planning Regulation 2017</i> , schedule 24.
dwelling unit	dwelling unit see the <i>Planning Regulation 2017</i> , schedule 24.
educational establishment	educational establishment see the <i>Planning Regulation 2017</i> , schedule 24.
emergency services	emergency services see the <i>Planning Regulation 2017</i> , schedule 24.
environment facility	environment facility see the <i>Planning Regulation 2017</i> , schedule 24.
extractive industry	extractive industry see the <i>Planning Regulation 2017</i> , schedule 24.
food and drink outlet	food and drink outlet see the <i>Planning Regulation 2017</i> , schedule 24.
function facility	function facility see the <i>Planning Regulation 2017</i> , schedule 24.
funeral parlour	funeral parlour see the <i>Planning Regulation 2017</i> , schedule 24.

Column 1 Use term	Column 2 Definition
garden centre	<i>garden centre</i> see the <i>Planning Regulation 2017</i> , schedule 24.
hardware and trade supplies	<i>hardware and trade supplies</i> see the <i>Planning Regulation 2017</i> , schedule 24.
health care service	<i>health care service</i> see the <i>Planning Regulation 2017</i> , schedule 24.
high impact industry	<i>high impact industry</i> see the <i>Planning Regulation 2017</i> , schedule 24.
home-based business	<i>home-based business</i> see the <i>Planning Regulation 2017</i> , schedule 24.
hospital	<i>hospital</i> see the <i>Planning Regulation 2017</i> , schedule 24.
hotel	<i>hotel</i> see the <i>Planning Regulation 2017</i> , schedule 24.
indoor sport and recreation	<i>indoor sport and recreation</i> see the <i>Planning Regulation 2017</i> , schedule 24.
intensive animal industry	<i>intensive animal industry</i> see the <i>Planning Regulation 2017</i> , schedule 24.
intensive horticulture	<i>intensive horticulture</i> see the <i>Planning Regulation 2017</i> , schedule 24.
landing	<i>landing</i> see the <i>Planning Regulation 2017</i> , schedule 24.
low impact industry	<i>low impact industry</i> see the <i>Planning Regulation 2017</i> , schedule 24.
major electricity infrastructure	<i>major electricity infrastructure</i> see the <i>Planning Regulation 2017</i> , schedule 24.
major sport, recreation and entertainment facility	<i>major sport, recreation and entertainment facility</i> see the <i>Planning Regulation 2017</i> , schedule 24.
marine industry	<i>marine industry</i> see the <i>Planning Regulation 2017</i> , schedule 24.
market	<i>market</i> see the <i>Planning Regulation 2017</i> , schedule 24.
medium impact industry	<i>medium impact industry</i> see the <i>Planning Regulation 2017</i> , schedule 24.

Column 1 Use term	Column 2 Definition
motor sport facility	motor sport facility see the <i>Planning Regulation 2017</i> , schedule 24.
multiple dwelling	multiple dwelling see the <i>Planning Regulation 2017</i> , schedule 24.
nature-based tourism	nature-based tourism see the <i>Planning Regulation 2017</i> , schedule 24.
nightclub entertainment facility	nightclub entertainment facility see the <i>Planning Regulation 2017</i> , schedule 24.
non-resident workforce accommodation	non-resident workforce accommodation see the <i>Planning Regulation 2017</i> , schedule 24.
office	office see the <i>Planning Regulation 2017</i> , schedule 24.
outdoor sales	outdoor sales see the <i>Planning Regulation 2017</i> , schedule 24.
outdoor sport and recreation	outdoor sport and recreation see the <i>Planning Regulation 2017</i> , schedule 24.
outstation	outstation means the use of premises for— (a) cultural or recreation activities by Aboriginal people or Torres Strait Islanders; or (b) facilities for short-term or long-term camping activities, if the use is ancillary to the use in paragraph (a).
park	park see the <i>Planning Regulation 2017</i> , schedule 24.
parking station	parking station see the <i>Planning Regulation 2017</i> , schedule 24.
party house	party house see the <i>Planning Act 2016</i> , section 276(5).
permanent plantation	permanent plantation see the <i>Planning Regulation 2017</i> , schedule 24.
place of worship	place of worship see the <i>Planning Regulation 2017</i> , schedule 24.
port service	port service see the <i>Planning Regulation 2017</i> , schedule 24.
relocatable home park	relocatable home park see the <i>Planning Regulation 2017</i> , schedule 24.

Column 1 Use term	Column 2 Definition
renewable energy facility	renewable energy facility see the <i>Planning Regulation 2017</i> , schedule 24.
research and technology industry	research and technology industry see the <i>Planning Regulation 2017</i> , schedule 24.
residential care facility	residential care facility see the <i>Planning Regulation 2017</i> , schedule 24.
resort complex	resort complex see the <i>Planning Regulation 2017</i> , schedule 24.
retirement facility	retirement facility see the <i>Planning Regulation 2017</i> , schedule 24.
roadside stall	roadside stall see the <i>Planning Regulation 2017</i> , schedule 24.
rooming accommodation	rooming accommodation see the <i>Planning Regulation 2017</i> , schedule 24.
rural industry	rural industry see the <i>Planning Regulation 2017</i> , schedule 24.
rural workers' accommodation	rural workers' accommodation see the <i>Planning Regulation 2017</i> , schedule 24.
sales office	sales office see the <i>Planning Regulation 2017</i> , schedule 24.
service industry	service industry see the <i>Planning Regulation 2017</i> , schedule 24.
service station	service station see the <i>Planning Regulation 2017</i> , schedule 24.
shop	shop see the <i>Planning Regulation 2017</i> , schedule 24.
shopping centre	shopping centre see the <i>Planning Regulation 2017</i> , schedule 24.
short-term accommodation	short-term accommodation see the <i>Planning Regulation 2017</i> , schedule 24.
showroom	showroom see the <i>Planning Regulation 2017</i> , schedule 24.
special industry	special industry see the <i>Planning Regulation 2017</i> , schedule 24.

Column 1 Use term	Column 2 Definition
substation	substation see the <i>Planning Regulation 2017</i> , schedule 24.
telecommunications facility	telecommunications facility see the <i>Planning Regulation 2017</i> , schedule 24.
theatre	theatre see the <i>Planning Regulation 2017</i> , schedule 24.
tourist attraction	tourist attraction see the <i>Planning Regulation 2017</i> , schedule 24.
tourist park	tourist park see the <i>Planning Regulation 2017</i> , schedule 24.
transport depot	transport depot see the <i>Planning Regulation 2017</i> , schedule 24.
utility installation	utility installation see the <i>Planning Regulation 2017</i> , schedule 24.
veterinary service	veterinary service see the <i>Planning Regulation 2017</i> , schedule 24.
warehouse	warehouse see the <i>Planning Regulation 2017</i> , schedule 24.
wholesale nursery	wholesale nursery see the <i>Planning Regulation 2017</i> , schedule 24.
winery	winery see the <i>Planning Regulation 2017</i> , schedule 24.

Schedule 4 Administrative terms for local planning instruments

section 8

Column 1 Administrative term	Column 2 Definition
adjoining premises	<i>adjoining premises</i> see the <i>Planning Regulation 2017</i> , schedule 24.
advertising device	<i>advertising device</i> see the <i>Planning Regulation 2017</i> , schedule 24.
affordable housing	<i>affordable housing</i> means housing that is appropriate to the needs of households with low to moderate incomes, if the members of the households will spend no more than 30% of gross income on housing costs.
average width	<i>average width</i> , of a lot, means the distance, measured in metres, between the midpoint on each side boundary of the lot.
base date	<i>base date</i> means the date from which the local government has estimated future infrastructure demand and costs for the local government area.
basement	<i>basement</i> see the <i>Planning Regulation 2017</i> , schedule 24.
boundary clearance	<p><i>boundary clearance</i> means the distance between a building or structure on premises and the boundary of the premises, measured from the part of the building or structure that is closest to the boundary, other than a part that is—</p> <ul style="list-style-type: none"> (a) an architectural or ornamental attachment; or (b) a rainwater fitting. <p><i>Examples—</i></p> <ol style="list-style-type: none"> 1 If the fascia of a building is the part of the building that is closest to the boundary, the boundary clearance is the distance between the outside of the fascia and the boundary.

Column 1 Administrative term	Column 2 Definition
	<p>2 If a point on the roof of a building is the part of the building that is closest to the boundary, the boundary clearance is the distance between that point on the roof and the boundary.</p>
building height	<p>building height, of a building, means—</p> <p>(a) the vertical distance, measured in metres, between the ground level of the building and the highest point on the roof of the building, other than a point that is part of an aerial, chimney, flagpole or load-bearing antenna; or</p> <p>(b) the number of storeys in the building above ground level.</p>
demand unit	<p>demand unit means a unit of measurement for measuring the level of demand for infrastructure.</p>
development footprint	<p>development footprint, for development, means a part of the premises that the development relates to, including, for example, any part of the premises that, after the development is carried out, will be covered by—</p> <p>(a) buildings or structures, measured to their outermost projection; or</p> <p>(b) landscaping or open space; or</p> <p>(c) facilities relating to the development; or</p> <p>(d) on-site stormwater drainage or wastewater treatment; or</p> <p>(e) a car park, road, access track or area used for vehicle movement; or</p> <p>(f) another area of disturbance.</p>
domestic outbuilding	<p>domestic outbuilding see the <i>Planning Regulation 2017</i>, schedule 24.</p>
dwelling	<p>dwelling see the <i>Planning Regulation 2017</i>, schedule 24.</p>
gross floor area	<p>gross floor area, for a building, see the <i>Planning Regulation 2017</i>, schedule 24.</p>

Column 1 Administrative term	Column 2 Definition
ground level	ground level see the <i>Planning Regulation 2017</i> , schedule 24.
household	household see the <i>Planning Regulation 2017</i> , schedule 24.
minor building work	minor building work see the <i>Planning Regulation 2017</i> , schedule 24.
minor electricity infrastructure	minor electricity infrastructure means development stated in the <i>Planning Regulation 2017</i> , schedule 6, section 26(5).
net developable area	net developable area , for premises, means the area of the premises that— (a) is able to be developed; and (b) is not subject to a development constraint, including, for example, a constraint relating to acid sulfate soils, flooding or slope.
non-resident worker	non-resident worker see the <i>Planning Regulation 2017</i> , schedule 24.
outermost projection	outermost projection , of a building or structure, means the outermost part of the building or structure, other than a part that is— (a) a retractable blind; or (b) a fixed screen; or (c) a rainwater fitting; or (d) an ornamental attachment.
planning assumption	planning assumption means an assumption about the type, scale, location and timing of future growth in the local government area.
plot ratio	plot ratio means the ratio of the gross floor area of a building on a site to the area of the site.
projection area	projection area means a part of the local government area for which the local government has carried out demand growth projection.

Column 1 Administrative term	Column 2 Definition
secondary dwelling	<i>secondary dwelling</i> see the <i>Planning Regulation 2017</i> , schedule 24.
service catchment	<i>service catchment</i> means an area serviced by an infrastructure network.
setback	<i>setback</i> , for a building or structure, means the shortest distance, measured horizontally, between the outermost projection of the building or structure to the vertical projection of the boundary of the lot where the building or structure is.
site	<p><i>site</i>, of development, means the land that the development is to be carried out on.</p> <p><i>Examples—</i></p> <ol style="list-style-type: none"> 1 If development is to be carried out on part of a lot, the site of the development is that part of the lot. 2 If development is to be carried out on part of 1 lot and part of an adjoining lot, the site of the development is both of those parts.
site cover	<p><i>site cover</i>, of development, means the portion of the site, expressed as a percentage, that will be covered by a building or structure, measured to its outermost projection, after the development is carried out, other than a building or structure, or part of a building or structure, that is—</p> <ol style="list-style-type: none"> (a) in a landscaped or open space area, including, for example, a gazebo or shade structure; or (b) a basement that is completely below ground level and used for car parking; or (c) the eaves of a building; or (d) a sun shade.
storey	<i>storey</i> see the <i>Planning Regulation 2017</i> , schedule 24.
temporary use	<i>temporary use</i> see the <i>Planning Regulation 2017</i> , schedule 24.

Schedule 4

Column 1 Administrative term	Column 2 Definition
ultimate development	<i>ultimate development</i> , for an area or premises, means the likely extent of development that is anticipated in the area, or on the premises, if the area or premises are fully developed.
water netserv plan	<i>water netserv plan</i> means a plan adopted by an SEQ service provider, as defined under the <i>South-East Queensland Water (Distribution and Retail Restructuring) Act 2009</i> , under section 99BJ of that Act.

Schedule 5 Infrastructure

section 13

Part 1 Infrastructure for transport

- 1 ancillary works and encroachments
- 2 transport infrastructure, including transport infrastructure stated in schedule 2 of the Act, definition *development infrastructure*
- 3 wharves, public jetties, port facilities and navigational facilities
- 4 storage and works depots and similar facilities, including administrative facilities relating to the provision or maintenance of infrastructure stated in this part
- 5 any other facility for transport not stated in this part that is intended mainly to accommodate government functions

Part 2 Other infrastructure

- 1 cemeteries and crematoriums
- 2 communication network facilities
- 3 community and cultural facilities, including community centres, galleries, libraries and meeting halls
- 4 community residences
- 5 correctional facilities
- 6 educational facilities
- 7 electricity operating works
- 8 emergency services facilities

Schedule 5

- 9 facilities at which an education and care service under the Education and Care Services National Law (Queensland) is operated
- 10 facilities at which a QEC approved service under the *Education and Care Services Act 2013* is operated
- 11 facilities for parks and recreation
- 12 hospitals and health care services
- 13 oil and gas pipelines
- 14 residential care facilities
- 15 sporting facilities
- 16 waste management facilities
- 17 water cycle management infrastructure
- 18 storage and works depots and similar facilities, including administrative facilities relating to the provision or maintenance of infrastructure stated in this part
- 19 any other facility not stated in this part that is intended mainly to accommodate government functions

Schedule 5A Minor changes of use

section 17A

Part 1 Interpretation

1 Definitions for schedule

In this schedule—

change of use, of premises, means—

- (a) the start of a new use of the premises; or
- (b) the re-establishment on the premises of a use that has been abandoned; or
- (c) a material increase in the intensity or scale of the use of the premises.

commercial character building means a building that is a commercial character building under the Brisbane City Plan 2014, made by the Brisbane City Council, as in force from time to time.

operating hours means—

- (a) for prescribed retail premises or premises to which section 3 applies—
 - (i) if a development approval in effect in relation to the premises states operating hours for the premises—the operating hours stated in the development approval; or
 - (ii) if subparagraph (i) does not apply and a planning scheme applying to the premises states operating hours for a relevant retail use on the premises—the operating hours for the relevant retail use stated in the planning scheme; or
 - (iii) if subparagraphs (i) and (ii) do not apply—from 8a.m. to 5p.m. on a business day or a Saturday; or

- (b) for prescribed industrial premises or premises to which section 5 applies—
 - (i) if a development approval in effect in relation to the premises states operating hours for the premises—the operating hours stated in the development approval; or
 - (ii) if subparagraph (i) does not apply and a planning scheme applying to the premises states operating hours for a relevant industrial use on the premises—the operating hours for the relevant industrial use stated in the planning scheme; or
 - (iii) if subparagraphs (i) and (ii) do not apply—from 8a.m. to 5p.m. on a business day or a Saturday.

prescribed industrial premises see section 4(1).

prescribed retail premises see section 2(1).

refund amount see the *Waste Reduction and Recycling Act 2011*, section 99K.

relevant industrial use, on premises, means—

- (a) if the premises are being used for a medium impact industry—the medium impact industry; or
- (b) otherwise—a low impact industry.

relevant retail use, on premises, means—

- (a) if the premises are being used for a retail use—the retail use; or
- (b) otherwise—a shop.

retail use means—

- (a) a shop; or
- (b) a shopping centre; or
- (c) a showroom; or
- (d) a service station.

Part 2 **Change of use of particular retail premises for container refund scheme**

2 Change of use of prescribed retail premises for container refund scheme

- (1) This section applies to premises mentioned in schedule 5B, part 1, table, column 1 (the *prescribed retail premises*).
- (2) A change of use of the prescribed retail premises that involves a use mentioned in schedule 5B, part 1, table, column 2 for the premises is a minor change of use that is not a material change of use if—
 - (a) the use involves a person returning containers in exchange for the person or another person receiving a refund amount under the container refund scheme; and
 - (b) the use, other than the transfer of the containers from the premises, is carried out inside an existing building; and
 - (c) the return of the containers happens only during the operating hours for the premises; and
 - (d) the transfer by vehicle of the containers from the premises happens only—
 - (i) if a development approval in effect in relation to the premises states that goods may be transferred by vehicle from the premises only during a particular period—during that period; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises states that goods may be transferred by vehicle from a relevant retail use on the premises only during a particular period—during that period; or
 - (iii) if subparagraphs (i) and (ii) do not apply—during the operating hours for the premises; and
 - (e) the noise levels generated by the carrying out of all uses on the premises comply with—

- (i) if a development approval in effect in relation to the premises includes a condition about noise levels on the premises—the condition; or
 - (ii) if subparagraph (i) does not apply and a local law includes a requirement about noise levels that applies to a relevant retail use on the premises—the requirement in the local law; or
 - (iii) if subparagraphs (i) and (ii) do not apply and the planning scheme applying to the premises includes a requirement about noise levels that applies to a relevant retail use on the premises—the requirement in the planning scheme; or
 - (iv) if subparagraphs (i) to (iii) do not apply—the acoustic quality objectives under the *Environmental Protection (Noise) Policy 2019*, schedule 1; and
- (f) the number of car parking spaces on the premises—
- (i) if a development approval in effect in relation to the premises contains a requirement about car parking spaces on the premises—complies with the requirement in the development approval; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises includes a requirement about car parking spaces for a relevant retail use on the premises—complies with the requirement in the planning scheme; or
 - (iii) if subparagraphs (i) and (ii) do not apply—is 1 or more; and
- (g) a notice is given to the local government for the local government area in which the premises are located no later than 10 business days after the change of use happens, stating—
- (i) the address of the premises; and
 - (ii) the contact details of the person responsible for managing the use; and

- (iii) a description of the existing use of the premises; and
- (iv) a description of the change of use; and
- (h) any approvals required under the *Transport Infrastructure Act 1994*, section 33 or 62 for a new or changed access between the premises and a State-controlled road are in effect.

3 Change of use of other premises for container refund scheme

- (1) This section applies to premises, other than prescribed retail premises, that—
- (a) are used for a retail use or contain a building that has been used for a commercial use; and
Example of a building that has been used for a commercial use—
a building that was used for a physiotherapy clinic or a shop but is currently vacant
 - (b) are included in—
 - (i) a centre zone under a local categorising instrument; or
 - (ii) a prescribed zone under a local categorising instrument; and
 - (c) are not a local heritage place or a State heritage place; and
 - (d) are not—
 - (i) within 25m of a State transport corridor; or
 - (ii) a future State transport corridor; or
 - (iii) adjacent to a road that intersects with a State-controlled road or within 100m of the intersection; and
 - (e) if the premises are used for a service station or are included in a prescribed zone under a local categorising instrument—are at least 150m from a residential zone; and

- (f) if the premises are located in the local government area of the Brisbane City Council—do not contain a commercial character building.
- (2) A change of use of the premises that involves the collection, counting, handling, sorting, aggregating, storing or transfer of containers for the container refund scheme is a minor change of use that is not a material change of use if—
- (a) the use involves a person returning the containers in exchange for the person or another person receiving a refund amount under the container refund scheme; and
 - (b) the use, other than the transfer of the containers from the premises, is carried out inside an existing building; and
Example of a use carried out inside an existing building—
the collection of containers at a dedicated collection counter in an existing building that contains a shop
 - (c) the building does not contain a dwelling; and
 - (d) the return of containers happens only during the operating hours for the premises; and
 - (e) the transfer by vehicle of the containers from the premises happens only—
 - (i) if a development approval in effect in relation to the premises states that goods may be transferred by vehicle from the premises only during a particular period—during that period; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises states that goods may be transferred by vehicle from a relevant retail use on the premises only during a particular period—during that period; or
 - (iii) if subparagraphs (i) and (ii) do not apply—during the operating hours for the premises; and
 - (f) the noise levels generated by the carrying out of all uses on the premises comply with—

-
- (i) if a development approval in effect in relation to the premises includes a condition about noise levels on the premises—the condition; or
 - (ii) if subparagraph (i) does not apply and a local law includes a requirement about noise levels that applies to a relevant retail use on the premises—the requirement in the local law; or
 - (iii) if subparagraphs (i) and (ii) do not apply and the planning scheme applying to the premises includes a requirement about noise levels that applies to a relevant retail use on the premises—the requirement in the planning scheme; or
 - (iv) if subparagraphs (i) to (iii) do not apply—the acoustic quality objectives under the *Environmental Protection (Noise) Policy 2019*, schedule 1; and
- (g) the number of car parking spaces on the premises—
- (i) if a development approval in effect in relation to the premises contains a requirement about car parking spaces on the premises—complies with the requirement in the development approval; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises includes a requirement about car parking spaces for a relevant retail use on the premises—complies with the requirement in the planning scheme; or
 - (iii) if subparagraphs (i) and (ii) do not apply—is 1 or more; and
- (h) a notice is given to the local government for the local government area in which the premises are located no later than 10 business days after the change of use happens, stating—
- (i) the address of the premises; and
 - (ii) the contact details of the person responsible for managing the use; and

(iii) a description of the existing use of the premises;
and

(iv) a description of the change of use.

(3) In this section—

centre zone means—

(a) any of the following zones stated in schedule 2—

(i) centre zone;

(ii) district centre zone;

(iii) local centre zone;

(iv) major centre zone;

(v) mixed use zone;

(vi) principal centre zone; or

(b) a zone, other than a zone stated in schedule 2, that is of a substantially similar type to a zone stated in paragraph (a).

prescribed zone means—

(a) any of the following zones stated in schedule 2—

(i) community facilities zone;

(ii) neighbourhood centre zone;

(iii) special purpose zone;

(iv) specialised centre zone; or

(b) a zone, other than a zone stated in schedule 2, that is of a substantially similar type to a zone stated in paragraph (a).

Part 3 **Change of use of particular industrial premises for container refund scheme**

4 **Change of use of prescribed industrial premises for container refund scheme**

- (1) This section applies to premises mentioned in schedule 5B, part 2, table, column 1 (the *prescribed industrial premises*).
- (2) A change of use of the prescribed industrial premises that involves a use mentioned in schedule 5B, part 2, table, column 2 for the premises is a minor change of use that is not a material change of use if—
 - (a) the use involves a person returning containers in exchange for the person or another person receiving a refund amount under the container refund scheme; and
 - (b) the return of the containers happens only during the operating hours for the premises; and
 - (c) the transfer by vehicle of the containers from the premises happens only—
 - (i) if a development approval in effect in relation to the premises states that goods may be transferred by vehicle from the premises only during a particular period—during that period; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises states that goods may be transferred by vehicle from a relevant industrial use on the premises only during a particular period—during that period; or
 - (iii) if subparagraphs (i) and (ii) do not apply—during the operating hours for the premises; and
 - (d) the noise levels generated by the carrying out of all uses on the premises comply with—

- (i) if a development approval in effect in relation to the premises includes a condition about noise levels on the premises—the condition; or
 - (ii) if subparagraph (i) does not apply and a local law includes a requirement about noise levels that applies to a relevant industrial use on the premises—the requirement in the local law; or
 - (iii) if subparagraphs (i) and (ii) do not apply and the planning scheme applying to the premises includes a requirement about noise levels that applies to a relevant industrial use on the premises—the requirement in the planning scheme; or
 - (iv) if subparagraphs (i) to (iii) do not apply—the acoustic quality objectives under the *Environmental Protection (Noise) Policy 2019*, schedule 1; and
- (e) the number of car parking spaces on the premises—
- (i) if a development approval in effect in relation to the premises contains a requirement about car parking spaces on the premises—complies with the requirement in the development approval; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises includes a requirement about car parking spaces for a relevant industrial use on the premises—complies with the requirement in the planning scheme; or
 - (iii) if subparagraphs (i) and (ii) do not apply—is 1 or more; and
- (f) a notice is given to the local government for the local government area in which the premises are located no later than 10 business days after the change of use happens, stating—
- (i) the address of the premises; and
 - (ii) the contact details of the person responsible for managing the use; and

- (iii) a description of the existing use of the premises; and
- (iv) a description of the change of use; and
- (g) any approvals required under the *Transport Infrastructure Act 1994*, section 33 or 62 for a new or changed access between the premises and a State-controlled road are in effect.

5 Change of use of other premises for container refund scheme

- (1) This section applies to premises, other than prescribed industrial premises, that—
- (a) are used for a low impact industry or a medium impact industry, or have been used for a commercial use or an industry activity; and
 - (b) are included in—
 - (i) an industry zone under a local categorising instrument; or
 - (ii) another area under a local categorising instrument, if the purpose of the area is to provide specifically for low impact industry or medium impact industry or both; and
- Example—*
- a precinct under a local categorising instrument that is for the purpose of providing for a variety of low impact industries
- (c) are not a local heritage place or a State heritage place; and
 - (d) are not—
 - (i) within 25m of a State transport corridor; or
 - (ii) a future State transport corridor; or
 - (iii) adjacent to a road that intersects with a State-controlled road or within 100m of the intersection; and

- (e) if the premises are located in the local government area of the Brisbane City Council—do not contain a commercial character building.
- (2) A change of use of the premises that involves the collection, receiving, sorting, counting, aggregating, storing, handling, distributing, crushing, compounding or transferring of containers for the container refund scheme is a minor change of use that is not a material change of use if—
- (a) the use involves a person returning the containers in exchange for the person or another person receiving a refund amount under the container refund scheme; and
 - (b) the use, other than the transfer of the containers from the premises, is carried out inside an existing building; and
 - (c) the transfer by vehicle of the containers from the premises happens only—
 - (i) if a development approval in effect in relation to the premises states that goods may be transferred by vehicle from the premises only during a particular period—during that period; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises states that goods may be transferred by vehicle from a relevant industrial use on the premises only during a particular period—during that period; or
 - (iii) if subparagraphs (i) and (ii) do not apply—during the operating hours for the premises; and
 - (d) the return of containers happens only during the operating hours for the premises; and
 - (e) the number of car parking spaces on the premises—
 - (i) if a development approval in effect in relation to the premises contains a requirement about car parking spaces on the premises—complies with the requirement in the development approval; or
 - (ii) if subparagraph (i) does not apply and the planning scheme applying to the premises includes a requirement about car parking spaces for a relevant

-
- industrial use on the premises—complies with the requirement in the planning scheme; or
- (iii) if subparagraphs (i) and (ii) do not apply—is 1 or more; and
- (f) all of the uses on the premises comply with—
- (i) if the premises are being used for a low impact industry—the thresholds for the activity mentioned in schedule 24, definition *low impact industry*, paragraph (c); or
- (ii) if the premises are being used for a medium impact industry—the thresholds for the activity mentioned in schedule 24, definition *medium impact industry*, paragraph (c); or
- (iii) if subparagraphs (i) and (ii) do not apply—the thresholds for the use mentioned in schedule 24, definition *low impact industry*, paragraph (c); and
- (g) a notice is given to the local government for the local government area in which the premises are located no later than 10 business days after the change of use happens, stating—
- (i) the address of the premises; and
- (ii) the contact details of the person responsible for managing the use; and
- (iii) a description of the existing use of the premises; and
- (iv) a description of the change of use.
- (3) In this section—
- industry zone*** means—
- (a) either of the following zones stated in schedule 2—
- (i) low impact industry zone;
- (ii) medium impact industry zone; or

- (b) a zone, other than a zone stated in schedule 2, that is of a substantially similar type to a zone stated in paragraph (a).

Schedule 6 Development local categorising instrument is prohibited from stating is assessable development

section 16

Part 1 Building work

1 Building work for a wind farm

Building work for a wind farm.

Part 2 Material change of use

2 Material change of use for particular buildings or structures

- (1) A material change of use of premises for a class 1 or 2 building, if the use is providing support services and temporary accommodation for persons escaping domestic violence.
- (2) A material change of use of premises for a dwelling house, if—
 - (a) the use is for a residential purpose in a residential zone; and
 - (b) either—
 - (i) there is no dwelling on the premises; or

-
- (ii) the material change of use involves repairing, renovating, altering or adding to the dwelling house in a way that does not change the classification for the dwelling house under the Building Code; and
 - (c) either—
 - (i) no overlay, as identified in the local categorising instrument and relevant to assessment of the material change of use, applies to the premises; or
 - (ii) only an overlay about bush fire hazards applies to the premises and the premises are less than 2,000m².
 - (3) A material change of use of premises for a dual occupancy, if—
 - (a) the use is for a residential purpose in a residential zone; and
 - (b) either—
 - (i) the material change of use involves repairing, renovating, altering or adding to the dual occupancy in a way that does not change the classification for the dual occupancy under the Building Code; or
 - (ii) if the dual occupancy is made up of 2 attached dwellings—the local government for the local government area where the premises are has, by resolution, decided to apply this subsection to the premises.
 - (4) A material change of use of premises for a class 10 building or structure, if—
 - (a) the use is for a residential purpose in a residential zone; and
 - (b) either—
 - (i) no overlay, as identified in the local categorising instrument and relevant to assessment of the material change of use, applies to the premises; or

- (ii) only an overlay about bush fire hazards applies to the premises and the premises are less than 2,000m².

3 Material change of use for particular cropping

A material change of use of premises for cropping that involves forestry for wood production, if—

- (a) the premises are in a rural zone; and
- (b) the material change of use complies with schedule 13.

5 Material change of use for off-road motorcycling facility

(1) A material change of use of premises for an off-road motorcycling facility on off-road motorcycling facility land, if the material change of use complies with the following requirements—

- (a) the material change of use protects the environmental values of the premises;
- (b) the use does not result in contamination of, or interfere with water flows into, any surface water or groundwater;
- (c) any camping facility on the premises—
 - (i) is designed to ensure the safe movement of pedestrians and vehicles; and
 - (ii) is on a part of the premises that allows for the future expansion of the camping facility; and
 - (iii) is managed to ensure that the number of persons using the camping facility at any 1 time is appropriate having regard to the capacity of the facility; and
 - (iv) provides adequate toilet, shower, water and wastewater facilities to service users of the camping facility;
- (d) vegetation buffers with a width of at least 20m are established on the premises to provide a visual screen

-
- between riding trails, other than motocross tracks, and relevant neighbouring premises;
- (e) vegetation buffers under paragraph (d) use only vegetation species that are endemic to the surrounding area;
 - (f) outdoor lighting on the premises does not adversely impact on the amenity of relevant neighbouring premises;
 - (g) before the use starts on the premises, the following documents are prepared—
 - (i) an acoustic assessment report;
 - (ii) a road and traffic assessment report;
 - (iii) an erosion and sediment control plan;
 - (h) all circuits, tracks, trails and noise-generating activities on the premises are at a distance of at least the buffer distance, stated in the acoustic assessment report, from a relevant noise sensitive place;
 - (i) the noise levels generated by the use during operating hours do not exceed 45dBA (L_{Aeq}) at a relevant noise sensitive place, measured at a point on the noise sensitive place that is outdoors and closest, in a direct line, to the off-road motorcycling facility land;
 - (j) any measures identified in the road and traffic assessment report for addressing impacts on traffic are implemented;
 - (k) on-site parking is provided in accordance with the road and traffic assessment report;
 - (l) service vehicles can access the parts of the premises used for off-road motorcycling, camping or spectator facilities;
 - (m) the premises provide access for emergency vehicles or helicopters;

- (n) any measures identified in the erosion and sediment control plan for minimising erosion and sediment run-off impacts on the premises are implemented;
 - (o) an irrigation system and water supply is provided for motocross tracks on the premises to prevent dust being generated.
- (2) In this section—

acoustic assessment report means a report—

- (a) prepared by an appropriately qualified person; and
- (b) stating measures, including buffer distances, for ensuring noise levels generated by the use do not exceed 45dBA (L_{Aeq}) at a relevant noise sensitive place.

erosion and sediment control plan means a plan—

- (a) prepared by an appropriately qualified person; and
- (b) stating measures to be implemented, including measures relating to the design and location of buildings and structures, to minimise erosion and sediment run-off impacts of the use.

relevant neighbouring premises means premises that—

- (a) share a common boundary with off-road motorcycling facility land; and
- (b) either—
 - (i) contain a dwelling built before 15 October 2010; or
 - (ii) are the subject of an effective development approval for development relating to a dwelling given before 15 October 2010.

relevant noise sensitive place means a noise sensitive place that—

- (a) was built before 15 October 2010; or
- (b) is the subject of an effective development approval given before 15 October 2010.

road and traffic assessment report means a report—

-
- (a) prepared by a person registered as a registered professional engineer under the *Professional Engineers Act 2002*; and
 - (b) stating details of—
 - (i) the impact of the use on traffic and measures for addressing the impacts; and
 - (ii) proposed on-site vehicle parking and vehicular access to and from the premises.

6 Material change of use for community residence

- (1) A material change of use of premises for a community residence, if—
 - (a) the premises are included in a prescribed zone under a local categorising instrument; and
 - (b) no more than 7 support workers attend the residence in a 24-hour period; and
 - (c) at least 2 car parks are provided on the premises for use by residents and visitors; and
 - (d) at least 1 of the car parks stated in paragraph (c) is suitable for persons with disabilities; and
 - (e) at least 1 car park is provided on the premises for use by support workers.

- (2) In this section—

prescribed zone means—

- (a) any of the following zones stated in schedule 2—
 - (i) general residential zone, low density residential zone, low-medium density residential zone, medium density residential zone, high density residential zone, character residential zone or tourist accommodation zone;
 - (ii) centre zone, neighbourhood centre zone, local centre zone, district centre zone, major centre zone or principal centre zone;

- (iii) community facilities zone;
 - (iv) environmental management and conservation zone;
 - (v) rural zone;
 - (vi) rural residential zone; or
- (b) a zone, other than a zone stated in schedule 2, that is of a substantially similar type to a zone mentioned in paragraph (a).

7 Material change of use for wind farm

A material change of use for a wind farm.

Part 3 Operational work

8 Operational work by or for public sector entity

Operational work or plumbing or drainage work (including maintenance and repair work), if the work—

- (a) is carried out by or for a public sector entity authorised under a State law to carry out the work; and
- (b) is not development stated in section 26 of this schedule.

9 Operational work for ancillary works and encroachments

Operational work for ancillary works and encroachments—

- (a) carried out in accordance with a gazette notice under the Transport Infrastructure Act, section 50; or
- (b) done as required by a contract entered into with the chief executive (transport) under the Transport Infrastructure Act, section 50.

10 Operational work for substitute railway crossing

Operational work for the construction of a substitute railway crossing by a railway manager under the Transport Infrastructure Act, section 169.

11 Operational work performed by railway manager

Operational work performed by a railway manager under the Transport Infrastructure Act, section 260.

12 Operational work under rail feasibility investigator's authority

Operational work carried out under a rail feasibility investigator's authority given under the Transport Infrastructure Act, section 112.

13 Operational work under Coastal Act

Operational work that is digging or boring into land by an authorised person under the Coastal Act, section 134.

14 Operational work for navigational aid or sign

Operational work for—

- (a) an aid to navigation; or
- (b) a sign for maritime navigation.

15 Operational work for subscriber connection

- (1) Operational work for a subscriber connection.
- (2) In this section—

subscriber connection means an installation that is only for connecting a building, structure, caravan or mobile home to a line that forms part of a telecommunications network.

16 Operational work for agriculture

Operational work relating to—

- (a) management practices for the conduct of an agricultural use, other than—
 - (i) the clearing of native vegetation; or
 - (ii) operations of any kind and all things constructed or installed for taking or interfering with water under the Water Act, other than using a water truck to pump water; or
- (b) weed or pest control, unless the work involves the clearing of native vegetation; or
- (c) the use of fire under the Fire and Emergency Services Act; or
- (d) the conservation or restoration of natural environment as defined under the Environmental Protection Act, schedule 4; or
- (e) the use of premises for a forest practice.

17 Operational work for removing quarry material

Operational work for removing quarry material from—

- (a) a State forest, timber reserve, forest entitlement area, or Crown land, as defined under the Forestry Act; or
- (b) a forest consent area, as defined under the Forestry Act, if the quarry material is reserved to the State in a deed of grant under the Land Act.

18 Operational work for the removal, destruction or damage of a marine plant

Operational work that is the removal, destruction or damage of a marine plant.

19 Operational work for harvesting trees for wood production

Operational work that is, or is necessary for, harvesting trees for wood production on premises in a rural zone, if the development complies with schedule 13.

20 Operational work on off-road motorcycling facility land

Operational work that is filling or excavating, or for a dam or earth bank, if—

- (a) the work is carried out on off-road motorcycling facility land; and
- (b) the work relates to an off-road motorcycling facility; and

Examples of work relating to an off-road motorcycling facility—

- work carried out for the construction of the facility
 - work relating to the operation of the facility, including the construction or maintenance of fire breaks, recreational trails, roads, tracks, viewing mounds or water storage facilities
- (c) the work does not—
 - (i) increase the risk of flooding on the premises or other premises; or
 - (ii) result in contamination of, or interfere with water flows into, any surface water or groundwater; and
 - (d) the work involves measures, identified in an erosion and sediment control plan under section 5(1)(g)(iii), for minimising erosion and sediment run-off impacts on the premises caused by the work; and
 - (e) land on which filling or excavating is carried out is stabilised after the work is completed.

Part 4 Reconfiguring a lot

21 Particular reconfigurations

- (1) Reconfiguring a lot other than a lot as defined under the Land Title Act.
- (2) Reconfiguring a lot as defined under the Land Title Act, if the reconfiguration—
 - (a) requires a building format plan of subdivision under the Land Title Act and the plan does not subdivide land on or below the surface of the land; or
 - (b) is for the amalgamation of 2 or more lots; or
 - (c) is for the incorporation, under the *Body Corporate and Community Management Act 1997*, section 41, of a lot with common property for a community titles scheme; or
 - (d) is for the conversion, under the *Body Corporate and Community Management Act 1997*, section 43, of lessee common property within the meaning of that Act to a lot in a community titles scheme; or
 - (e) relates to the acquisition of land, including by agreement, under the Acquisition Act, by a constructing authority or an authorised electricity entity, for a purpose for which land may be taken under that Act; or
 - (f) relates to the acquisition of land by agreement, other than under the Acquisition Act, by a constructing authority or an authorised electricity entity for a purpose for which land may be taken under that Act; or
 - (g) is for land that—
 - (i) is held by the State, or a statutory body representing the State; and
 - (ii) is being reconfigured for a purpose for which land may be taken under the Acquisition Act, whether or not the land relates to an acquisition; or

-
- (h) relates to the acquisition of land for water infrastructure; or
 - (i) is for reconfiguring a lot that is, or includes, strategic port land; or
 - (j) is for the Transport Infrastructure Act, section 240; or
 - (k) is for implementing the *Aboriginal and Torres Strait Islander Land Holding Act 2013*; or
 - (l) is under an instrument of lease and the lessee is an authorised electricity entity; or
 - (m) is under a relevant instrument of lease.
- (3) In this section—

relevant instrument of lease means an instrument of lease for a grant of a residential lease over a part of a lot that—

- (a) was previously subject to a social housing lease; and
- (b) is the same part of the lot that was subject to—
 - (i) a partial surrender of the social housing lease; or
 - (ii) if the part of the lot is the last remaining part of the social housing lease—a whole surrender of the lease.

residential lease means a lease for residential use—

- (a) given under the *Aboriginal Land Act 1991* to an Aboriginal person; or
- (b) given under the *Torres Strait Islander Land Act 1991* to a Torres Strait Islander.

social housing lease means a lease granted to the State under the *Aboriginal Land Act 1991* or the *Torres Strait Islander Land Act 1991* for the purpose of providing subsidised housing for residential use.

Part 5 Other development

22 Development for a mining or petroleum activity

- (1) Development for an activity authorised under—
 - (a) the *Mineral Resources Act 1989*, including an activity for the purpose of 1 or more of the following Acts—
 - (i) the *Alcan Queensland Pty. Limited Agreement Act 1965*;
 - (ii) the *Central Queensland Coal Associates Agreement Act 1968*;
 - (iii) the *Commonwealth Aluminium Corporation Pty. Limited Agreement Act 1957*;
 - (iv) the *Mount Isa Mines Limited Agreement Act 1985*;
 - (v) the *Queensland Nickel Agreement Act 1970*;
 - (vi) the *Thiess Peabody Coal Pty. Ltd. Agreement Act 1962*; or
 - (b) the *Offshore Minerals Act 1998*; or
 - (c) the *Petroleum Act 1923* or the *Petroleum and Gas Act*, other than an activity relating to building and operating an oil refinery; or
 - (d) the *Petroleum (Submerged Lands) Act 1982*.
- (2) Development for a mining activity, as defined under the *Environmental Protection Act*, section 110, that an environmental authority applies to.
- (3) Development for a petroleum activity as defined under the *Environmental Protection Act*, section 111.

23 Development for geothermal exploration

Development for geothermal exploration carried out under a geothermal exploration permit under the *Geothermal Energy Act 2010*.

24 Development for GHG storage activities

Development for a GHG storage activity carried out under a GHG authority under the *Greenhouse Gas Storage Act 2009*.

25 Development directed under a State law

Development that a person is directed to carry out under a notice, order or direction made under a State law.

26 Development for infrastructure activities

- (1) Development for ancillary works and encroachments carried out by or for the State.
- (2) Development for the construction of the following infrastructure, if the infrastructure is government supported transport infrastructure—
 - (a) an aid to navigation;
 - (b) a public marine facility;
 - (c) road transport infrastructure;
 - (d) transport infrastructure.
- (3) Development that is the use of, or for the maintenance, repair or upgrading of—
 - (a) an aid to navigation; or
 - (b) a public marine facility; or
 - (c) road transport infrastructure; or
 - (d) transport infrastructure.
- (4) Development that—
 - (a) is adjacent to—
 - (i) an aid to navigation; or
 - (ii) a public marine facility; or
 - (iii) road transport infrastructure; or
 - (iv) transport infrastructure; and

- (b) is ancillary to the use, maintenance, repair or upgrading of the infrastructure.

Examples for paragraph (b)—

excavating, crushing, screening, cutting, filling, preparing construction material (including concrete), storing materials, removing vegetation, building dams, fences, site offices and worker accommodation

- (5) Development for a supply network or for private electricity works that form an extension of, or provide service connections to, properties from the network, if the network operates at standard voltages up to and including 66kV, other than development for—
- (a) a new zone substation or bulk supply substation; or
- (b) the augmentation of a zone substation or bulk supply substation that significantly increases the input or output standard voltage.

- (6) In this section—

upgrading, of infrastructure, means carrying out work that is reasonably required to ensure the efficient and safe operation of the infrastructure.

Examples—

- building a dedicated left-turning lane on a road to reduce the risk of collision between vehicles turning left and vehicles traveling straight ahead
- replacing a roundabout with traffic signals to improve the flow of traffic
- widening a road to create a verge so that vehicles can pull over safely

27 Development under South Bank Corporation Act 1989

Development within the meaning of the *South Bank Corporation Act 1989*, but only until the development completion date under that Act.

28 Development that is PDA-related development

Development that is PDA-related development.

29 Development for a connection under SEQ Water Act

Development for a connection under the SEQ Water Act, chapter 4C or any work for the connection.

30 Development for public housing

- (1) Development for public housing that the chief executive (housing) considers is substantially inconsistent with a relevant local instrument, if—
- (a) the chief executive (housing) does all of the following things before the development starts—
 - (i) gives the local government information, including plans or specifications, about the proposed development;
 - (ii) publishes a notice about the proposed development in a newspaper circulating generally in the locality of the premises;
 - (iii) gives notice of the proposed development to the owner of all adjoining premises;
 - (iv) places a notice about the proposed development on the premises; and
 - (b) the notices under paragraph (a)(ii), (iii) and (iv)—
 - (i) are in the form approved by the chief executive (housing); and
 - (ii) state where information about the proposed development may be inspected and purchased; and
 - (iii) state the period (the *consultation period*) within which a submission may be made, which must be at least 15 business days after the day paragraph (a) is complied with; and
 - (iv) state that submissions about the proposed development may be made to the chief executive (housing) during the consultation period; and
 - (c) the notice under paragraph (a)(iv) is displayed on the premises for all of the consultation period; and

- (d) information about the proposed development, including plans and specifications, is available for all of the consultation period—
 - (i) for viewing or downloading, free of charge, from the housing department’s website; and
 - (ii) for inspection, free of charge, and purchase at the housing department’s office, and any other place the chief executive (housing) approves, during business hours; and
 - (e) the chief executive (housing) considers any properly made submissions when deciding whether or not to carry out the development.
- (2) Development for public housing that the chief executive (housing) is satisfied is not substantially inconsistent with a relevant local instrument, if, before the development starts, the chief executive (housing) gives the local government information, including plans or specifications, about the proposed development.

- (3) In this section—

business day does not include a day between 20 December of a year and 5 January of the next year.

owner, of adjoining premises, means—

- (a) if the adjoining premises are subject to the *Integrated Resort Development Act 1987* or the *Sanctuary Cove Resort Act 1985*—the primary thoroughfare body corporate; or
- (b) if the adjoining premises are subject to the *Mixed Use Development Act 1993*—the community body corporate; or
- (c) subject to paragraphs (a) and (b), if the adjoining premises are subject to the *Building Units and Group Titles Act 1980*—the body corporate; or
- (d) if the adjoining premises are, under the *Body Corporate and Community Management Act 1997*, scheme land for a community titles scheme—

-
- (i) the body corporate for the scheme; or
 - (ii) if the adjoining premises are scheme land for more than 1 community titles scheme—the body corporate for the community titles scheme that is a principal scheme; or
- (e) if there is a time share scheme, as defined under the Local Government Act, for a structure on the adjoining premises—the person notified to the local government concerned as the person responsible for the administration of the scheme as between the participants in the scheme; or
 - (f) if the adjoining premises are land being bought from the State for an estate in fee simple under the Land Act—the buyer; or
 - (g) if the adjoining premises are land granted in trust or reserved and set apart and placed under the control of trustees under the Land Act—the trustees of the land; or
 - (h) if paragraphs (a) to (g) do not apply—the person who is entitled to receive rent for the premises or who would be entitled to receive rent for the premises if the premises were rented to a tenant.

relevant local instrument means a local instrument applying to the premises that the development is to be carried out on.

Note—

See also the *Housing Act 2003*, sections 94G and 94H.

31 Development for detention centre on lot 395 on SP118987

Development for a detention centre under the *Youth Justice Act 1992* on lot 395 on SP118987, if the development—

- (a) results in an increase in capacity of the centre to accommodate not more than 16 detainees; and
- (b) results in any building or structure being at least the same distance from the road frontage of the lot as the nearest existing building or structure; and

- (c) does not reduce the number of existing car parks at the centre; and
- (d) complies with assessment benchmarks stated in the State Planning Policy relevant to the development, to the extent the matters relate to—
 - (i) liveable communities; and
 - (ii) mining and extractive resources; and
 - (iii) natural hazards, risk and resilience; and
 - (iv) strategic airports and aviation facilities; and
 - (v) water quality.

32 Development for detention centre on lot 409 on SP257441

- (1) Development for a detention centre under the *Youth Justice Act 1992* in the area (the *development area*) shown on the detention centre map, if the development—
 - (a) results in a detention centre with capacity to accommodate not more than 32 detainees; and
 - (b) results in any new building or covered outdoor area being at least 6m from each boundary of the development area; and
 - (c) results in any new building or covered outdoor area having a height of not more than the higher of the following—
 - (i) the tallest building located on lot 395 on SP118987;
 - (ii) 15m; and
 - (d) complies with AS 2560.1:2018 Sports lighting Part 1: General principles for any outdoor lighting; and
 - (e) results in any car park being located within—
 - (i) the development area; or
 - (ii) lot 395 on SP118987; and

- (f) complies with assessment benchmarks stated in the State Planning Policy relevant to the development, to the extent the matters relate to—
- (i) liveable communities; and
 - (ii) mining and extractive resources; and
 - (iii) natural hazards, risk and resilience; and
 - (iv) strategic airports and aviation facilities; and
 - (v) water quality.
- (2) In this section—

detention centre map means the map called ‘development area map’ dated 3 June 2019 and published on the website of the department within which the *Youth Justice Act 1992* is administered.

Schedule 7 Accepted development

section 18

Part 1 Building work

1 Building work declared under Building Act

Building work declared under the Building Act, section 21 to be accepted development.

2 Building work by or for the State or a public sector entity

- (1) Building work, other than building work mentioned in section 1, carried out by or for the State or a public sector entity, to the extent the building work complies with the relevant provisions for the building work.
- (2) In this section—
relevant provisions, for building work, see the Building Act, section 21(5).

Part 2 Material change of use

3 Material change of use for prescribed aquaculture

- (1) A material change of use for prescribed aquaculture, if requirements for the material change of use are prescribed under the Fisheries Act, section 32 and the material change of use complies with the requirements.
- (2) In this section—
indigenous freshwater fish means a fish that is—
 - (a) a freshwater fish as defined under the *Fisheries (General) Regulation 2019*, schedule 11; and

-
- (b) indigenous, within the meaning of the Fisheries Act, schedule 1, definition *indigenous fisheries resources*, to—
 - (i) only Queensland freshwaters; or
 - (ii) both Queensland freshwaters and Queensland tidal waters.

indigenous marine fish means a fish that is indigenous, within the meaning of the Fisheries Act, schedule 1, definition *indigenous fisheries resources*, to only Queensland tidal waters.

prescribed aquaculture means—

- (a) the aquaculture of indigenous freshwater fish species only for aquarium display or human consumption carried out—
 - (i) in a river basin or catchment that the species is native to; and
 - (ii) in ponds, or using above-ground tanks, that have a total water surface area of no more than 10ha; or
- (b) the aquaculture of indigenous freshwater fish only for aquarium display or human consumption, or of non-indigenous freshwater fish only for aquarium display, carried out using only above-ground tanks—
 - (i) that have a total floor area, excluding water storage area, of no more than 100m²; and
 - (ii) that are impervious to predators and rainwater; or
- (c) the aquaculture of indigenous marine fish only for aquarium display carried out using only above-ground tanks that have a total floor area, excluding water storage areas, of no more than 100m².

4 Material change of use in a State forest

A material change of use in a State forest or timber reserve under the Forestry Act, if the material change of use is for 1 or more of the following—

- (a) conservation;
- (b) planting trees, or managing, felling and removing standing trees, in a plantation or native forest;
- (c) grazing;
- (d) recreation.

Part 3 Operational work

5 Operational work for taking or interfering with water

- (1) Operational work, other than PDA-related development, that involves taking or interfering with water in a watercourse, lake or spring, if—
 - (a) the taking or interfering is allowed under the Water Act, chapter 2, part 3, division 1; or
 - (b) the work involves the replacement of a pump and the capacity of the new pump to take water is no more than the capacity of the existing pump; or
 - (c) the work involves the installation of a pump to take water under a water entitlement that—
 - (i) is managed under a resource operations licence, an interim resource operations licence or a distribution operations licence under the Water Act; or
 - (ii) states the rate at which water may be taken; or
 - (d) the interfering is allowed under a water licence under the Water Act and the work complies with the conditions of the licence; or
 - (e) the taking or interfering involves using a water truck to pump water.
- (2) Operational work, other than PDA-related development, that—
 - (a) involves 1 or more of the following—

-
- (i) taking or interfering with water in a watercourse, lake or spring, other than as stated in subsection (1);
 - (ii) taking or interfering with underground water through a subartesian bore;
 - (iii) taking overland flow water; and
 - (b) is—
 - (i) prescribed as not assessable development under the Water Act, section 39(f); or
 - (ii) particular operational work that complies with the requirements prescribed under the Water Act, section 1014(2)(g).
 - (3) Operational work, other than PDA-related development, that—
 - (a) involves taking or interfering with underground water in part of an underground water area; and
 - (b) is prescribed as accepted development for the part under the Water Act, section 1046(2)(b).

Note—

See also the Water Act, section 1046(3).

- (4) In this section—
water entitlement see the Water Act, schedule 4.

6 Operational work for waterway barrier works

Operational work for constructing or raising waterway barrier works, if requirements for the work are prescribed under the Fisheries Act, section 32 and the work complies with the requirements.

7 Operational work in a declared fish habitat area

Operational work completely or partly within a declared fish habitat area, if requirements for the work are prescribed under

the Fisheries Act, section 32 and the work complies with the requirements.

8 Operational work impacting on marine plants

Operational work that is the removal, destruction or damage of a marine plant, if requirements for the work are prescribed under the Fisheries Act, section 32 and the work complies with the requirements.

9 Operational work in wetland protection areas

Operational work in a wetland protection area that—

- (a) is high impact earthworks; and
- (b) is carried out for electricity operating works or government supported transport infrastructure; and
- (c) complies with schedule 14.

10 Operational work for tidal works or work within a coastal management district

Operational work that—

- (a) is either of the following—
 - (i) tidal works;
 - (ii) work carried out completely or partly in a coastal management district that involves interfering with quarry material, as defined under the Coastal Act, on State coastal land above high-water mark; and
- (b) is undertaken—
 - (i) by a local government; or
 - (ii) by the Gold Coast Waterways Authority; or
 - (iii) by or for the department in which the Transport Infrastructure Act or the Transport Planning Act is administered; and

- (c) complies with the requirements for the work prescribed under the Coastal Act, section 167(5)(b).

11 Operational work relating to levees

- (1) Operational work that is the following, if the work complies with the requirements for the work stated in the Water Regulation, section 101A—
 - (a) the construction of a new category 1 levee;
 - (b) the modification of an existing levee if, after the modification, the levee will fulfil the requirements for a category 1 levee.
- (2) In this section—
category 1 levee see the Water Regulation, section 101(2).

12 Operational work for clearing native vegetation

Operational work that is clearing native vegetation to which an accepted development vegetation clearing code applies if the work complies with the code.

Schedule 8 Assessment manager for development applications

section 21

Table 1	
Column 1 Development application type	Column 2 Assessment manager
Brisbane core port land	
1 If the development application is for— <ul style="list-style-type: none"> (a) a material change of use of premises that is— <ul style="list-style-type: none"> (i) completely or partly on Brisbane core port land; and (ii) categorised as assessable development under the Brisbane port LUP; or (b) operational work that is— <ul style="list-style-type: none"> (i) completely on Brisbane core port land; and (ii) categorised as assessable development under the Brisbane port LUP; or (c) reconfiguring a lot that is— <ul style="list-style-type: none"> (i) completely or partly on Brisbane core port land; and (ii) assessable development under the Transport Infrastructure Act, chapter 8, part 3C 	The chief executive
Building work assessable against building assessment provisions	
2 If the development application is for building work only and— <ul style="list-style-type: none"> (a) all or part of the building work must be assessed against the building assessment provisions; and (b) a private certifier (class A) is, under the Building Act, section 48, performing functions for the application 	The private certifier

Table 1A	
Column 1 Development application type	Column 2 Assessment manager
Particular building work assessable against a local instrument	
<p>1 If the development application is for building work or part of building work and—</p> <ul style="list-style-type: none"> (a) the building work or part must be assessed against a local instrument; and (b) the matters in the local instrument that the building work or part must be assessed against include matters other than— <ul style="list-style-type: none"> (i) the building assessment provisions; and (ii) the matters mentioned in schedule 9, part 3, division 2; and (c) the building work or part is completely in a single local government area; and (d) the development application is not a development application mentioned in table 1, item 1 	The local government
<p>2 If the development application is for building work or part of building work and—</p> <ul style="list-style-type: none"> (a) the building work or part must be assessed against a local instrument; and (b) the building work or part requires impact assessment; and (c) the building work or part is completely in a single local government area; and (d) the development application is not a development application mentioned in table 1, item 1 	The local government

Table 2	
Column 1 Development application type	Column 2 Assessment manager
Other development in a single local government area or tidal area	

Table 2	
Column 1 Development application type	Column 2 Assessment manager
<p>1 If table 1 does not apply and the development application is for—</p> <ul style="list-style-type: none"> (a) building work that is completely in a single local government area and— <ul style="list-style-type: none"> (i) all or part of the building work must be assessed against the building assessment provisions; and (ii) the local government is receiving, assessing and deciding the application under the <i>Building Act 1975</i>, section 51; or (b) development, other than building work, completely in a single local government area and any of the following apply— <ul style="list-style-type: none"> (i) any part of the development is assessable development under a local categorising instrument or schedule 10, part 13, division 4, part 15 or 16; (ii) the development is reconfiguring a lot, other than a lot that is, or includes, airport land; (iii) the development is for a brothel; (iv) the development is operational works relating to reconfiguring a lot; or (c) prescribed tidal works completely in the tidal area for a single local government area; or (d) prescribed tidal works— <ul style="list-style-type: none"> (i) partly in the tidal area for a single local government area; and (ii) not in the tidal area for another local government area or a port authority’s strategic port land; or (e) prescribed tidal works— <ul style="list-style-type: none"> (i) starting in the tidal area for a local government area; and 	<p>The local government</p>

Table 2	
Column 1 Development application type	Column 2 Assessment manager
<ul style="list-style-type: none"> (ii) extending into the tidal area for another local government area; and (iii) not in the tidal area for a port authority’s strategic port land; or (f) operational work that is constructing an artificial waterway in a single local government area, if the work— <ul style="list-style-type: none"> (i) is carried out completely or partly in a coastal management district; and (ii) relates to reconfiguring a lot 	

Table 3	
Column 1 Development application type	Column 2 Assessment manager
Strategic port land and strategic port land tidal areas	
1 If tables 1 and 2 do not apply and the development application is for— <ul style="list-style-type: none"> (a) development completely on a single port authority’s strategic port land; or (b) tidal works completely in the tidal area for a single port authority’s strategic port land; or (c) tidal works— <ul style="list-style-type: none"> (i) partly in the tidal area for a single port authority’s strategic port land; and (ii) not in the tidal area for a local government area or another port authority’s strategic port land 	The port authority
Airport land	
2 If tables 1 and 2 do not apply and the development application is for development completely or partly on airport land, whether or not the development includes tidal works	The chief executive

Table 4	
Column 1 Development application type	Column 2 Assessment manager
Environmentally relevant activities	
<p>1 If tables 1 to 3 do not apply and the development application is for—</p> <ul style="list-style-type: none"> (a) a material change of use for an environmentally relevant activity; and (b) no other assessable development 	<p>For an environmentally relevant activity that is devolved to a local government under the Environmental Protection Regulation—the local government</p> <p>for all other environmentally relevant activities stated in column 1—the chief executive</p>
Development on a local heritage place or for a levee	
<p>2 If tables 1 to 3 do not apply and the development application is for 1 or more of the following completely in a single local government area and no other assessable development—</p> <ul style="list-style-type: none"> (a) development on a local heritage place, other than a Queensland heritage place; (b) operational work that is— <ul style="list-style-type: none"> (i) construction of a new category 2 levee or a new category 3 levee; or (ii) modification of an existing levee if, after the modification, the levee will fulfil the requirements for a category 2 levee or category 3 levee 	<p>The local government</p>
Other particular prescribed assessable development	
<p>3 If tables 1 to 3 do not apply and the development application is for 1 or more of the following and no other assessable development, other than a material change of use for an environmentally relevant activity—</p>	<p>The chief executive</p>

Table 4	
Column 1 Development application type	Column 2 Assessment manager
<ul style="list-style-type: none"> (a) a material change of use for aquaculture; (b) operational work that is the clearing of native vegetation; (c) operational work completely or partly in a declared fish habitat area; (d) a material change of use for a hazardous chemical facility; (e) operational work that is the removal, destruction or damage of a marine plant; (f) operational work that is the construction of a dam, or relates to a dam, if— <ul style="list-style-type: none"> (i) because of the work, the dam must be failure impact assessed; and (ii) the accepted failure impact assessment for the dam states that the dam has, or will have, a category 1 failure impact rating or category 2 failure impact rating; (g) assessable development on a Queensland heritage place; (h) a material change of use of premises that is carried out on a lot that shares a common boundary with another lot that is or contains a Queensland heritage place; (i) a material change of use of premises that is carried out on a lot that contains a Queensland heritage place, but is not carried out on the Queensland heritage place; (j) development for removing quarry material from a watercourse or lake; (k) operational work that involves taking or interfering with water under the Water Act; (l) operational work that is— <ul style="list-style-type: none"> (i) tidal works not on strategic port land; or 	

Table 4	
Column 1 Development application type	Column 2 Assessment manager
<p>(ii) work carried out completely or partly within a coastal management district;</p> <p>(m) operational work that is constructing or raising waterway barrier works;</p> <p>(n) operational work that is high impact earthworks in a wetland protection area</p>	

Schedule 9 Building work under Building Act

sections 20, 22, 26, 27, 30, 31, 33 and 34

Part 1 Assessable development

1 Assessable development—building work under the Building Act

Building work under the Building Act is assessable development, unless the building work is accepted development under schedule 7.

Part 2 Assessment by assessment manager

Column 1	Column 2
1 Category of assessment	Code assessment
2 Assessment benchmarks	(a) The building assessment provisions (b) The matters stated to be assessment benchmarks in the State Planning Policy, part E, to the extent the matters relate to strategic airports, and aviation facilities, as defined under the State Planning Policy
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Part 3 Referral agency’s assessment

Note—

A development application for building work may also require referral to a referral agency under schedule 10.

Division 1 Chief executive as referral agency

Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if the building work is on premises completely or partly seaward of a coastal building line under the Coastal Act
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral—	
(a) if the building work is on Brisbane core port land	Nil
(b) otherwise	\$3,313.00

Table 2—Declared fish habitat area	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if the building work— (a) is in a declared fish habitat area; and (b) is not non-referable building work
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral— (a) if the building work is on Brisbane core port land (b) if paragraph (a) does not apply and the applicant holds a resource allocation authority for all of the development (c) if paragraphs (a) and (b) do not apply and the development is expected to cause a permanent loss of capacity of tidal land— (i) if the development is to be carried out in an area of no more than 500m ² (ii) otherwise	Nil \$1,655.00 \$6,625.00 \$13,248.00

Table 2—Declared fish habitat area	
Column 1	Column 2
(d) if paragraphs (a) and (b) do not apply and the development is not expected to cause a permanent loss of capacity of tidal land—	
(i) if the development is to be carried out in an area of no more than 1,500m ²	\$6,625.00
(ii) otherwise	\$13,248.00

Table 3—State transport corridor	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for building work that is assessable development under section 1, if all or part of the premises are within 25m of a State transport corridor and the building work—</p> <p>(a) does not relate to—</p> <ul style="list-style-type: none"> (i) a material change of use stated in schedule 10, part 9, division 4, subdivision 2, table 4, item 1, column 2, paragraph (a) or (c) or part 13, division 1, subdivision 2, table 4, item 1, column 2; or (ii) reconfiguring a lot stated in schedule 10, part 9, division 4, subdivision 2, table 1, item 1, column 2 or table 3, item 1, column 2; or (iii) government supported transport infrastructure; and <p>(b) is for a non-residential purpose; and</p>

Table 3—State transport corridor	
Column 1	Column 2
	(c) involves the redirection or intensification of site stormwater from the premises, through a pipe or culvert with a cross-sectional area of more than 625cm ² , to a State transport corridor
2 Referral agency	The chief executive
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	The State development assessment provisions
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral— (a) if the building work is on Brisbane core port land (b) otherwise	Nil \$1,655.00 for each State transport corridor that all or part of the premises is within 25m of

Table 4—Future State transport corridor	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if all or part of the premises are a future State transport corridor and the building work does not relate to—

Table 4—Future State transport corridor	
Column 1	Column 2
	<p>(a) a material change of use stated in schedule 10, part 9, division 4, subdivision 2, table 4, item 1, column 2, paragraph (b) or part 13, division 1, subdivision 2, table 4, item 1, column 2; or</p> <p>(b) reconfiguring a lot stated in schedule 10, part 9, division 4, subdivision 2, table 2, item 1, column 2; or</p> <p>(c) government supported transport infrastructure</p>
2 Referral agency	The chief executive
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	The State development assessment provisions
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral—	
(a) if the building work is on Brisbane core port land	Nil
(b) otherwise	\$1,655.00 for each future State transport corridor on the premises

Division 2 Local government as referral agency

Table 1—Particular class 1 and 10 buildings and structures involving possible amenity and aesthetic impacts

Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1 and is for a building or structure that is— (a) a single detached class 1(a)(i) building, class 1(a)(ii) building made up of not more than 2 attached dwellings or a class 10 building or structure; and (b) in a locality, and of a form, for which the local government has, by resolution or in its planning scheme, declared that the form may— (i) have an extremely adverse effect on the amenity, or likely amenity, of the locality; or (ii) be in extreme conflict with the character of the locality
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building or structure will impact on the amenity or aesthetics of the locality, including, for example, whether the building or structure complies with a matter stated in a local instrument that regulates impacts on amenity or aesthetics
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—

Table 1—Particular class 1 and 10 buildings and structures involving possible amenity and aesthetic impacts

Column 1	Column 2
7 Matters referral agency’s assessment may have regard to	—

Table 2—Particular buildings for residential purposes

Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1 and is for a building, other than a class 1, 2, 3 or 4 building, for residential purposes
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building is suitable for residential purposes
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 3—Design and siting

Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if—

Table 3—Design and siting	
Column 1	Column 2
	<p>(a) the Queensland Development Code, part 1.1, 1.2 or 1.3 applies to the building work and, under the part, the proposed building or structure does not include an acceptable solution for a relevant performance criteria under the part; or</p> <p>(b) under the Building Act, section 33, an alternative provision applies for the building work and, under the provision, the proposed building or structure is not of the quantifiable standard for a relevant qualitative statement under the provision; or</p> <p>(c) all of the following apply—</p> <ul style="list-style-type: none"> (i) under the Building Regulation, section 10, the planning scheme includes a provision about a matter provided for under performance criteria P4, P5, P7, P8 or P9 of the Queensland Development Code, part 1.1 or 1.2; (ii) the provision applies for building work; (iii) under the provision, the proposed building or structure is not of the quantifiable standard for a relevant qualitative statement under the provision
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	For building work stated in item 1, column 2, paragraph (a)—whether the proposed building or structure complies with the performance criteria stated in the paragraph

Table 3—Design and siting	
Column 1	Column 2
	For building work stated in item 1, column 2, paragraph (b) or (c)—whether the proposed building or structure complies with the qualitative statement stated in the paragraph
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 4—Fire safety in particular budget accommodation buildings	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if the work relates to a budget accommodation building and the building must, under the Building Act, section 220, comply with the fire safety standard under that Act
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether, after the building work is completed, the building will comply with the fire safety standard under the Building Act
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—

Table 4—Fire safety in particular budget accommodation buildings	
Column 1	Column 2
7 Matters referral agency's assessment may have regard to	—

Table 5—Higher risk personal appearance services	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if— (a) the Queensland Development Code, part 5.2 applies to the work; and (b) the work does not comply with an acceptable solution stated in the part
2 Referral agency	The local government
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	Whether the building work complies with the performance criteria stated in the Queensland Development Code, part 5.2 that are relevant to the acceptable solution
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—

Table 6—Building work for residential services	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if the building work is for premises in which a residential service, as defined under the Residential Services Act, section 4, is conducted or proposed to be conducted
2 Referral agency	The local government
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	Whether, if the building work is carried out, the premises would comply with the Queensland Development Code, part 5.7
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—

Table 7—Building work for removal or rebuilding	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if the building work is, or relates to— (a) the removal of a building or other structure, whether or not for rebuilding at another site; or (b) the rebuilding of a building or other structure removed from another site
2 Referral agency	The local government

Table 7—Building work for removal or rebuilding	
Column 1	Column 2
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	(a) Whether the local government should require security, of no more than the value of the building work, for the performance of the work (b) If security is required, the amount and form of security that is appropriate for the development
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 8—Building work for particular class 1 buildings relating to material change of use	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if— (a) the building work is for— (i) a class 1(a)(i) building; or (ii) a class 1(a)(ii) building made up of not more than 2 attached dwellings; and (b) a material change of use that relates to the building work— (i) is for a residential purpose in a residential zone; and

Table 8—Building work for particular class 1 buildings relating to material change of use	
Column 1	Column 2
	(ii) would have required a development permit if schedule 6, part 2, section 2(2) did not apply for the material change of use
2 Referral agency	The local government
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	The relevant provisions of a local instrument that would apply for the application if schedule 6, part 2, section 2(2) did not apply for the material change of use
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—

Table 9—Temporary accommodation buildings	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for building work that is assessable development under section 1, if—</p> <p>(a) the building work is for a temporary accommodation building as defined under the Building Regulation, section 54A; and</p> <p>(b) the Queensland Development Code, part 3.3 applies to the work; and</p> <p>(c) the requirements of acceptable solution A1 stated in the part are not complied with</p>

Table 9—Temporary accommodation buildings	
Column 1	Column 2
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building work complies with performance criteria 1 of the Queensland Development Code, part 3.3
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 10—Building work relating to end of trip facilities for Queensland Development Code, part 4.1	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if— (a) the building work is for development that performance criteria P12 of the Queensland Development Code, part 4.1, applies to; and (b) the development application does not comply with the performance criteria
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building work complies with performance criteria P12 of the Queensland Development Code, part 4.1

Table 10—Building work relating to end of trip facilities for Queensland Development Code, part 4.1

Column 1	Column 2
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 11—Building work for class 1 building on premises with on-site wastewater management system

Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if— (a) the building work is for a class 1 building; and (b) an on-site wastewater management system, as defined under the Queensland Plumbing and Wastewater Code, has been installed on the premises; and (c) the work involves adding 1 or more bedrooms to the building
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building work complies with the Queensland Plumbing and Wastewater Code, part 1, performance criteria P2
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—

Table 11—Building work for class 1 building on premises with on-site wastewater management system	
Column 1	Column 2
7 Matters referral agency’s assessment may have regard to	—

Table 12—Flood hazard area	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1, if all or part of the premises are in a flood hazard area and 1 or both of the following apply— (a) the application states a defined flood level that is lower than a defined flood level declared by the local government under the Building Regulation, section 13 for the part of the flood hazard area where the premises are; (b) the application states a maximum flow velocity of water that is lower than a maximum flow velocity of water declared by the local government under the Building Regulation, section 13 for the part of the flood hazard area where the premises are
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	If item 1, column 2, paragraph (a) applies—whether the defined flood level stated in the development application is appropriate having regard to all or any of the following matters— (a) any flood modelling carried out for the premises or all or part of the flood hazard area where the premises are;

Table 12—Flood hazard area	
Column 1	Column 2
	<p>(b) any recorded flood levels for all or part of the flood hazard area where the premises are;</p> <p>(c) any other matter the local government considers relevant</p> <p>If item 1, column 2, paragraph (b) applies—whether the maximum flow velocity of water stated in the development application is appropriate having regard to all or any of the following matters—</p> <p>(a) any flood modelling carried out for the premises or all or part of the flood hazard area where the premises are;</p> <p>(b) any flow velocity of water that has been recorded for a flood for—</p> <p style="padding-left: 40px;">(i) all or part of the flood hazard area where the premises are; or</p> <p style="padding-left: 40px;">(ii) the part of the premises that the building work is to be carried out on;</p> <p>(c) any other matter the local government considers relevant</p>
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Division 3 Other persons as referral agency

Table 1—Fire safety systems generally	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for building work that is assessable development under section 1 that involves—</p> <ul style="list-style-type: none"> (a) a fire safety system for a building or structure, other than a temporary structure or special structure as defined under the Building Act, schedule 2, if the building work— <ul style="list-style-type: none"> (i) requires special fire services stated in schedule 19, part 1; or (ii) includes an alternative solution assessed against the performance requirements of the Building Code, volume 1, or the performance criteria in the Queensland Development Code, part 2.2, for the fire safety system; or (iii) includes an alternative solution assessed against the relevant performance requirements of the Building Code or the performance criteria stated in the Queensland Development Code, part 2.3, for the fire safety system; or (b) a fire safety system for a budget accommodation building, if the work involves a solution— <ul style="list-style-type: none"> (i) assessed against the performance criteria in the Queensland Development Code, part 2.1 or the performance requirements of the Building Code, volumes 1 and 2, for the fire safety system; and

Table 1—Fire safety systems generally	
Column 1	Column 2
	<p>(ii) that includes a fire safety management plan as a condition of the use and occupation of the building; or</p> <p>(c) a residential care building under the Queensland Development Code, part 2.2</p>
2 Referral agency	The Queensland Fire and Emergency Service
3 Limitations on referral agency's powers	Referral agency may give advice only
4 Matters referral agency's assessment must be against	<p>If item 1, column 2, paragraph (a)(i) applies—the matters stated in schedule 19, part 2</p> <p>If item 1, column 2, paragraph (a)(ii) or (iii) applies—the Building Act, chapter 3 and the building assessment provisions</p> <p>If item 1, column 2, paragraph (b) applies—the fire safety management plan</p> <p>If item 1, column 2, paragraph (c) applies—</p> <p>(a) whether the building work complies with the Queensland Development Code, part 2.2; and</p> <p>(b) whether a fire and evacuation plan for the building under the Fire and Emergency Services Act complies with the Queensland Development Code, part 2.2, schedule 2</p>
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—

Table 1—Fire safety systems generally	
Column 1	Column 2
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	<p>Nil</p> <p><i>Note—</i></p> <p>However, see also the <i>Building Fire Safety Regulation 2008</i>, part 6 for fees that may apply, under that regulation, in relation to the development application.</p>

Table 2—Water-based fire safety installations	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for building work that is assessable development under section 1 involving a water-based fire safety installation, as defined under the <i>Building Fire Safety Regulation 2008</i>, schedule 3, for a building or structure, if the building work includes—</p> <p>(a) the installation of the water-based fire safety installation; and</p> <p>(b) an alternative solution assessed against performance criteria P3, P4 and P5 of the Queensland Development Code, part 6.1</p>
2 Referral agency	The Queensland Fire and Emergency Service
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building work complies with performance criteria P3, P4 and P5 of the Queensland Development Code, part 6.1
5 Matters referral agency’s assessment must have regard to	—

Table 2—Water-based fire safety installations	
Column 1	Column 2
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral	<p>Nil</p> <p><i>Note—</i></p> <p>However, see also the <i>Building Fire Safety Regulation 2008</i>, part 6 for fees that may apply, under that regulation, in relation to the development application.</p>

Table 3—Fire safety for farm buildings	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for building work that is assessable development under section 1, if—</p> <p>(a) performance criteria P1 of the Queensland Development Code, part 3.7 applies to the building work and the work includes an alternative solution assessed against performance criteria P1; or</p> <p>(b) performance criteria P3 of the Queensland Development Code, part 3.7 applies to the building work and the work—</p> <p>(i) does not comply with the Queensland Development Code, part 3.7, acceptable solution A3(1)(a)(ii), (2) or (3); or</p> <p>(ii) includes an alternative solution assessed against performance criteria P3 of the Queensland Development Code, part 3.7</p>

Table 3—Fire safety for farm buildings	
Column 1	Column 2
2 Referral agency	The Queensland Fire and Emergency Service
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	If item 1, column 2, paragraph (a) applies—whether the building work complies with performance criteria P1 of the Queensland Development Code, part 3.7 If item 1, column 2, paragraph (b) applies—whether the building work complies with performance criteria P3 of the Queensland Development Code, part 3.7
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	Nil <i>Note—</i> However, see also the <i>Building Fire Safety Regulation 2008</i> , part 6 for fees that may apply, under that regulation, in relation to the development application.

Table 4—Retail meat premises	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1 for a retail meat premises, if—

Table 4—Retail meat premises	
Column 1	Column 2
	(a) the Queensland Development Code, part 5.3 applies to the work; and (b) the work is required to comply with performance criteria for the work stated in the part, other than by an acceptable solution
2 Referral agency	Safe Food Production QLD established under the <i>Food Production (Safety) Act 2000</i>
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building work complies with the performance criteria stated in the Queensland Development Code, part 5.3
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	Nil

Table 5—Private health facilities	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1 for a private health facility, if— (a) the Queensland Development Code, part 5.5, applies to the work; and (b) the work is required to comply with performance criteria for the work stated in the part, other than by an acceptable solution

Table 5—Private health facilities	
Column 1	Column 2
2 Referral agency	The chief health officer established under the <i>Hospital and Health Boards Act 2011</i>
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	Whether the building work complies with the performance criteria stated in the Queensland Development Code, part 5.5
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral	Nil

Table 6—Pastoral workers' accommodation	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 1 for accommodation provided for a person performing pastoral work, as defined under the <i>Pastoral Workers' Accommodation Act 1980</i> , if— (a) the Queensland Development Code, part 5.6 applies to the work; and (b) the work is required to comply with the performance criteria for accommodation stated in the part, other than by an acceptable solution
2 Referral agency	The chief executive of the department in which the <i>Pastoral Workers' Accommodation Act 1980</i> is administered

Table 6—Pastoral workers’ accommodation	
Column 1	Column 2
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the building work complies with the performance criteria stated in the Queensland Development Code, part 5.6
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	Nil

Table 7—Building work over or near relevant infrastructure relating to Queensland Development Code, part 1.4	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for building work that is assessable development under section 1, if—</p> <ul style="list-style-type: none"> (a) the Queensland Development Code, part 1.4 applies to the work; and (b) the work will be carried out on a lot that contains, or is adjacent to a lot that contains, a sewer, water main or stormwater drain; and (c) either— <ul style="list-style-type: none"> (i) the work does not comply with an acceptable solution for a relevant performance criteria stated in the part; or

Table 7—Building work over or near relevant infrastructure relating to Queensland Development Code, part 1.4

Column 1	Column 2
	<p>(ii) the work is for a class of building or structure for which the part does not state an acceptable solution; and</p> <p>(d) the relevant service provider is not the applicant</p>
2 Referral agency	The relevant service provider
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the proposed building or structure complies with the performance criteria in the Queensland Development Code, part 1.4 that relate to a sewer, water main or stormwater drain
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral, if the referral agency is a public sector entity other than a local government	<p>An amount—</p> <p>(a) the referral agency considers to be reasonable; and</p> <p>(b) that is not more than the reasonable cost of the referral agency performing its functions as referral agency</p>

Schedule 10 Development assessment

sections 19, 20, 22, 26, 27, 30, 31, 33 and 34

Part 1 Airport land

Division 1 Assessable development

1 Assessable development—development on airport land

Development on airport land is assessable development, if—

- (a) the land use plan for the airport land states the development is assessable development; or
- (b) the development is a material change of use that is inconsistent with the land use plan for the airport land.

Division 2 Assessment by assessment manager

Table 1—Assessable development under s 1	
Column 1	Column 2
1 Category of assessment	Impact assessment, if the land use plan requires impact assessment Otherwise, code assessment
2 Assessment benchmarks	Matters stated to be assessment benchmarks for the development in the land use plan
3 Matters code assessment must have regard to	—

Table 1—Assessable development under s 1	
Column 1	Column 2
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager	\$1,655.00

Division 3 Referral agency’s assessment

Table 1—Assessable development under s 1	
Column 1	Column 2
1 Development application requiring referral	Development application for assessable development under section 1, if the chief executive is the prescribed assessment manager for the application
2 Referral agency	The local government
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The impacts of the proposed development, identified by the local government, on land in its local government area, other than airport land
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Part 2 Brothels

Division 1 Prohibited development

2 Prohibited development—material change of use for a brothel

- (1) A material change of use of premises for a brothel is prohibited development if—
- (a) more than 5 rooms in the proposed brothel are to be used to provide prostitution; or
 - (b) the premises are—
 - (i) in, or within 200m of the closest point on any boundary of, a residential area, measured by the shortest route a person may reasonably and lawfully take, on foot or by vehicle; or
 - (ii) within 200m of the closest point on any boundary of land on which there is a residential building or public building; or
 - (iii) within 100m of the closest point on any boundary of land on which there is a residential building or public building, measured in a straight line; or
 - (c) for premises in a town with a population of less than 25,000—
 - (i) the local government for the town has prohibited all material changes of use for a brothel within the local government area; and
 - (ii) the Minister has agreed that the development should be prohibited.
- (2) In this section—
- public building** means—
- (a) a hospital; or
 - (b) a kindergarten; or

- (c) a place of worship; or
- (d) a school; or
- (e) another place regularly frequented by children for recreational or cultural activities.

residential area means—

- (a) an area that is mainly residential; or
- (b) an area approved for residential uses; or
- (c) an area intended to be residential in character.

residential building means a building, or part of a building, mainly used for private residential use, other than a building, or part of a building, used only for caretaker’s accommodation on premises in an industrial area.

Division 2 Assessable development

3 Assessable development—material change of use for a brothel

A material change of use of premises for a brothel is assessable development.

Division 3 Assessment by assessment manager

Table 1—Assessable development under s 3	
Column 1	Column 2
1 Category of assessment	Code assessment if— (a) all or part of the premises are— (i) in an industrial area; or

Table 1—Assessable development under s 3	
Column 1	Column 2
	(ii) strategic port land; or (b) the planning scheme was made after 1 July 2000 and requires code assessment Otherwise, impact assessment
2 Assessment benchmarks	If the local government is the prescribed assessment manager—the <i>Prostitution Regulation 2014</i> , schedule 3
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Part 3 Clearing native vegetation

Division 1 Prohibited development

4 Prohibited development—clearing native vegetation other than for a relevant purpose

- (1) Operational work that is the clearing of native vegetation on prescribed land is prohibited development to the extent the work—
 - (a) is not for a relevant purpose under the *Vegetation Management Act*, section 22A; and
 - (b) is not exempt clearing work; and
 - (c) is not accepted development under schedule 7, part 3, section 12.
- (2) A material change of use that is assessable development under a local categorising instrument is prohibited development if and to the extent—

- (a) the material change of use involves operational work that is prohibited development under subsection (1), other than operational work approved under a development approval; and
- (b) the chief executive would, because of the clearing, be a referral agency for the material change of use under division 4, table 3 if a development application were made for the material change of use.

Division 2 Assessable development

5 Assessable development—clearing native vegetation on prescribed land

Operational work that is the clearing of native vegetation on prescribed land is assessable development, unless the clearing is—

- (a) exempt clearing work; or
- (b) accepted development under schedule 7, part 3, section 12.

Division 3 Assessment by assessment manager

Table 1—Assessable development under s 5	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—

Table 1—Assessable development under s 5	
Column 1	Column 2
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager—	
(a) if the operational work is necessary environmental clearing because it is necessary to—	
(i) restore the ecological and environmental condition of land	Nil
(ii) divert existing natural channels in a way that replicates the existing form of the natural channels	\$6,625.00
(iii) prepare for the likelihood of a natural disaster	Nil
(iv) remove contaminants from land	Nil
(b) if the operational work is for a purpose other than reconfiguring a lot, a material change of use or necessary environmental clearing and the clearing is—	
(i) of an area less than 5ha and is for establishing a necessary fence, firebreak, road or vehicular track, or necessary built infrastructure	\$3,313.00
(ii) fodder harvesting as defined under the Vegetation Management Act, schedule	\$3,313.00
(iii) for managing thickened vegetation as defined under the Vegetation Management Act, schedule	\$3,313.00

Table 1—Assessable development under s 5	
Column 1	Column 2
(iv) the clearing of encroachment as defined under the Vegetation Management Act, schedule	\$3,313.00
(v) necessary for controlling declared pests or vegetation that is not native vegetation	Nil
(vi) necessary for ensuring public safety	Nil
(c) otherwise	\$13,248.00

Division 4 Referral agency’s assessment

Table 1—Assessable development under s 5	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 5, other than an application— (a) for operational work relating to reconfiguring a lot stated in table 2, item 1, column 2; or (b) for operational work relating to a material change of use stated in table 3, item 1, column 2; or (c) that the chief executive is the assessment manager for
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions

Table 1—Assessable development under s 5	
Column 1	Column 2
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Table 2—Reconfiguring a lot that is assessable development under s 21	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for reconfiguring a lot that is assessable development under section 21, if—</p> <ul style="list-style-type: none"> (a) a lot that the application relates to is 5ha or larger; and (b) the size of any lot created is 25ha or less; and (c) either— <ul style="list-style-type: none"> (i) the reconfiguration involves operational work that is assessable development under section 5, other than operational work that is only the clearing of regulated regrowth vegetation; or (ii) on any lot created, accepted operational work, other than operational work that is only the clearing of regulated regrowth vegetation, may be carried out
2 Referral agency	The chief executive

Table 2—Reconfiguring a lot that is assessable development under s 21	
Column 1	Column 2
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral—	
(a) if the reconfiguration involves a material change of use stated in table 3, item 1, column 2	Nil
(b) if paragraph (a) does not apply and the reconfiguration is rearranging the boundaries of a lot	\$1,655.00
(c) if paragraph (a) does not apply and the reconfiguration is the subdivision of 1 lot into 2 lots on premises that do not include an endangered regional ecosystem, of concern regional ecosystem or essential habitat for protected wildlife	\$3,313.00
(d) if paragraphs (a), (b) and (c) do not apply	\$6,625.00

Table 3—Material change of use that is assessable development under a local categorising instrument

Column 1	Column 2
<p>1 Development application requiring referral</p>	<p>Development application for a material change of use that is assessable development under a local categorising instrument and relates to a lot that is 5ha or larger, if—</p> <ul style="list-style-type: none"> (a) the application— <ul style="list-style-type: none"> (i) is for a preliminary approval that includes a variation request; and (ii) relates to a lot that contains native vegetation shown on the regulated vegetation management map as a category A area or category B area; and (iii) is for a material change of use, other than a non-referable material change of use; or (b) the application is not stated in paragraph (a) and all of the following apply— <ul style="list-style-type: none"> (i) the material change of use does not involve prescribed clearing; (ii) accepted operational work may be carried out because of the material change of use, or the material change of use involves operational work that is assessable development under section 5;

Table 3—Material change of use that is assessable development under a local categorising instrument	
Column 1	Column 2
	(iii) the accepted operational work or assessable operational work includes development other than the clearing of regulated regrowth vegetation on freehold land, indigenous land, land the subject of an occupation licence under the Land Act, or land the subject of a lease given under the Land Act for agriculture or grazing purposes
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral—	
(a) if the material change of use—	\$3,313.00
(i) does not involve reconfiguring a lot, or involves reconfiguring a lot that is the subdivision of 1 lot into 2 or rearranging the boundaries of a lot; and	
(ii) is on premises that does not include an endangered regional ecosystem, of concern regional ecosystem or essential habitat for protected wildlife	
(b) otherwise	\$6,625.00

Part 4 **Contaminated land**

Division 1 **Assessable development**

6 **Assessable development—material change of use on contaminated land**

A material change of use of premises is assessable development if—

- (a) all or part of the premises are on—
 - (i) the contaminated land register; or
 - (ii) the environmental management register; and
- (b) the premises are not being used for a sensitive land use; and
- (c) the material change of use involves—
 - (i) a sensitive land use; or
 - (ii) a commercial use involving an accessible underground facility, including, for example, a basement car park, workshop or office; and
- (d) neither the contaminated land register nor the environmental management register state that the premises are suitable for the proposed use in accordance with a site suitability statement for the premises.

Division 2 Assessment by assessment manager

Table 1—Assessable development under s 6	
Column 1	Column 2
1 Category of assessment	Code assessment
2 Assessment benchmarks	Whether the contaminated land register or the environmental management register states that the premises are suitable for the proposed use in accordance with a site suitability statement for the premises
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager	Nil

Division 3 Referral agency's assessment

Column 1	Column 2
1 Development application requiring referral	Development application for the following development, if all or part of the premises are shown as an area of substantial unexploded ordnance potential in a mapping layer in the development assessment mapping system published on the department's website— (a) reconfiguring a lot that is assessable development under section 21; (b) a material change of use that is assessable development under a local categorising instrument
2 Referral agency	The chief executive
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	The State development assessment provisions
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral	\$827.00

Part 5 Environmentally relevant activities

Division 1 Prohibited development

7 Prohibited development—development in North Stradbroke Island Region

- (1) Development in the North Stradbroke Island Region is prohibited development—
 - (a) if the development is for an environmentally relevant activity stated in the Environmental Protection Regulation, schedule 2, part 4, section 16; and
 - (b) to the extent the development involves dredging or extracting more than 10,000t of material a year.
- (2) In this section—

North Stradbroke Island Region see the *North Stradbroke Island Protection and Sustainability Act 2011*, section 5.

Division 2 Assessable development

8 Assessable development—material change of use for an environmentally relevant activity

- (1) A material change of use of premises for an environmentally relevant activity is assessable development, if the activity is a concurrence ERA (the *relevant ERA*).
- (2) However, subsection (1) does not apply if—
 - (a) an environmental authority to carry out a concurrence ERA has been approved for the premises; and
 - (b) the relevant ERA and concurrence ERA are to be carried out under the environmental authority; and
 - (c) the relevant ERA has a lower aggregate environmental score than the concurrence ERA.

Division 3 Assessment by assessment manager

Table 1—Assessable development under s 8	
Column 1	Column 2
1 Category of assessment	Code assessment
2 Assessment benchmarks	<p>If the local government is the prescribed assessment manager—the matters prescribed as assessment benchmarks for the development under the Environmental Protection Act, section 580(4)(a)</p> <p>If the chief executive is the prescribed assessment manager—the State development assessment provisions</p>
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application if the chief executive is the assessment manager—	
(a) if the environmentally relevant activity involves a relevant activity stated in the Environmental Protection Regulation, schedule 2, section 2, 3 or 4	\$3,313.00
(b) otherwise—	
(i) if the aggregate environmental score for the environmentally relevant activity is 25 or less	\$1,655.00
(ii) if the aggregate environmental score for the environmentally relevant activity is more than 25, but no more than 74	\$3,313.00

Table 1—Assessable development under s 8	
Column 1	Column 2
(iii) if the aggregate environmental score for the environmentally relevant activity is more than 74	\$13,248.00

Division 4 Referral agency’s assessment

Table 1—Devolved environmentally relevant activity	
Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use that is assessable development under section 8, if— (a) the environmentally relevant activity that is the subject of the application has been devolved to a local government under the Environmental Protection Regulation; and (b) the local government is not the prescribed assessment manager for the application
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The matters prescribed under the Environmental Protection Act, section 580(4)(b) as matters the referral agency must assess the development against
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—

Table 1—Devolved environmentally relevant activity	
Column 1	Column 2
7 Matters referral agency’s assessment may have regard to	—

Table 2—Non-devolved environmentally relevant activities	
Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use that is assessable development under section 8, if— (a) the environmentally relevant activity the subject of the application has not been devolved to a local government under the Environmental Protection Regulation; and (b) the chief executive is not the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Part 6 Fisheries

Division 1 Aquaculture

Subdivision 1 Assessable development

9 Assessable development—material change of use for aquaculture

A material change of use of premises for aquaculture is assessable development, unless the material change of use is accepted development under schedule 7, part 2, section 3.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 9	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager— (a) if the aquaculture—	 \$3,313.00

Table 1—Assessable development under s 9	
Column 1	Column 2
<ul style="list-style-type: none"> (i) is carried out in a tank, pond or hatchery; and (ii) is not expected to cause the discharge of waste into Queensland waters 	
(b) if the aquaculture—	\$6,625.00
<ul style="list-style-type: none"> (i) is carried out in a tank, pond or hatchery that covers an area of 100ha or less; and (ii) is expected to cause the discharge of waste into Queensland waters 	
(c) if the aquaculture—	\$13,248.00
<ul style="list-style-type: none"> (i) is carried out in a tank, pond or hatchery that covers an area of more than 100ha; and (ii) is expected to cause the discharge of waste into Queensland waters 	
(d) if the aquaculture—	\$13,248.00
<ul style="list-style-type: none"> (i) is carried out on tidal land; and (ii) involves the addition of feed 	
(e) if—	\$3,313.00
<ul style="list-style-type: none"> (i) the aquaculture is carried out on tidal land that covers an area of 50ha or less and does not involve the addition of feed; and (ii) the applicant holds a resource allocation authority for the material change of use 	
(f) if—	\$6,625.00

Table 1—Assessable development under s 9	
Column 1	Column 2
<p>(i) the aquaculture is carried out on tidal land that covers an area of more than 50ha and does not involve the addition of feed; and</p> <p>(ii) the applicant holds a resource allocation authority for the material change of use</p>	
<p>(g) otherwise</p>	\$13,248.00

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 9	
Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use that is assessable development under section 9, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—

Table 1—Assessable development under s 9	
Column 1	Column 2
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Division 2 Declared fish habitat area

Subdivision 1 Assessable development

10 Assessable development—operational work in declared fish habitat area

Operational work completely or partly in a declared fish habitat area is assessable development, unless the work is accepted development under schedule 7, part 3, section 7.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 10	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—

Table 1—Assessable development under s 10	
Column 1	Column 2
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager—	
(a) if the applicant holds a resource allocation authority for all of the development	\$1,655.00
(b) if paragraph (a) does not apply and the development is expected to cause a permanent loss of capacity of tidal land—	
(i) if the development is to be carried out in an area of no more than 500m ²	\$6,625.00
(ii) otherwise	\$13,248.00
(c) if paragraph (a) does not apply and the development is not expected to cause a permanent loss of capacity of tidal land—	
(i) if the development is to be carried out in an area of no more than 1,500m ²	\$6,625.00
(ii) otherwise	\$13,248.00

Subdivision 3 Referral agency’s assessment

Note—

For the referral agencies for a development application for building work under the Building Act in a declared fish habitat area, see schedule 9, part 3, division 1, table 2.

Table 1—Assessable development under s 10	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 10, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Division 3 Marine plants

Subdivision 1 Assessable development

11 Assessable development—operational work involving marine plants

Operational work that is the removal, destruction or damage of a marine plant is assessable development, unless the work is—

- (a) accepted development under schedule 7, part 3, section 8; or

- (b) for reconfiguring a lot that is assessable development under section 21, or for a material change of use that is assessable development, and both of the following apply—
 - (i) a development permit is in effect for the reconfiguration or material change of use;
 - (ii) the chief executive, or the chief executive (fisheries), had functions and powers as a referral agency or prescribed assessment manager in relation to the removal, destruction or damage of marine plants for the development application for the development permit; or
- (c) PDA-related development.

Subdivision 2 **Assessment by assessment manager**

Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager— (a) if—	 \$3,313.00

Table 1—Assessable development under s 11	
Column 1	Column 2
<p>(i) the operational work is the removal, destruction or damage of marine plants covering an area less than 25m²; or</p> <p>(ii) the operational work is to be carried out in an area that is above the level of the highest astronomical tide; or</p> <p>(iii) the operational work is for education or research</p>	
<p>(b) if—</p> <p>(i) the operational work is the removal, destruction or damage of marine plants covering an area of at least 25m², but no more than 500m², and is expected to cause a loss of capacity of tidal land; or</p> <p>(ii) the operational work is the removal, destruction or damage of marine plants covering an area of at least 25m², but no more than 1,500m², and is not expected to cause a loss of capacity of tidal land</p>	\$6,625.00
<p>(c) if—</p> <p>(i) the operational work is the removal, destruction or damage of marine plants covering an area of more than 500m² and is expected to cause a loss of capacity of tidal land; or</p> <p>(ii) the operational work is the removal, destruction or damage of marine plants covering an area of more than 1,500m² and is not expected to cause a loss of capacity of tidal land</p>	\$13,248.00

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 11	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 11, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Column 1	Column 2
1 Development application requiring referral	Development application for reconfiguring a lot that is assessable development under section 21 or a material change of use, if— (a) the development involves operational work that is the removal, destruction or damage of a marine plant, other than operational work that is— (i) PDA-related development; or (ii) accepted development under schedule 7, part 3, section 8; and (b) there is no development permit for the operational work
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral— (a) for a material change of use or reconfiguring a lot, if—	\$3,313.00

Table 2—Reconfiguring a lot or material change of use involving removal, destruction or damage of marine plants

Column 1	Column 2
<ul style="list-style-type: none"> (i) the development involves the removal, destruction or damage of marine plants covering an area less than 25m²; or (ii) the development is to be carried out in an area that is above the level of the highest astronomical tide; or (iii) the development is for education or research 	
<p>(b) for a material change of use or reconfiguring a lot, if—</p>	\$6,625.00
<ul style="list-style-type: none"> (i) the development involves the removal, destruction or damage of marine plants covering an area of at least 25m², but no more than 500m², and is expected to cause a loss of capacity of tidal land; or 	
<ul style="list-style-type: none"> (ii) the development involves the removal, destruction or damage of marine plants covering an area of at least 25m², but no more than 1,500m², and is not expected to cause a loss of capacity of tidal land 	
<p>(c) for a material change of use or reconfiguring a lot, if—</p>	\$13,248.00

Table 2—Reconfiguring a lot or material change of use involving removal, destruction or damage of marine plants

Column 1	Column 2
<p>(i) the development involves the removal, destruction or damage of marine plants covering an area of more than 500m² and is expected to cause a loss of capacity of tidal land; or</p> <p>(ii) the development involves the removal, destruction or damage of marine plants covering an area of more than 1,500m² and is not expected to cause a loss of capacity of tidal land</p>	

Division 4 Waterway barrier works

Subdivision 1 Assessable development

12 Assessable development—operational work for waterway barrier works

Operational work that is constructing or raising waterway barrier works is assessable development, unless the work is accepted development under schedule 7, part 3, section 6.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 12	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager—	
(a) for each waterway barrier works the subject of the application, if—	\$3,313.00
(i) the applicant has a fish movement exemption notice under the Fisheries Act for the application and the notice still applies; or	
(ii) the waterway barrier works are to be constructed or raised in a low-risk waterway and the primary purpose of the works is not the impounding of water	
(b) for each waterway barrier works the subject of the application, if—	\$6,625.00
(i) the waterway barrier works are a bridge to be constructed in a major-risk waterway; or	

Table 1—Assessable development under s 12	
Column 1	Column 2
(ii) the waterway barrier works are to be constructed or raised in a moderate-risk waterway or high-risk waterway and the primary purpose of the works is not the impounding of water	
(c) for each waterway barrier works the subject of the application, if—	\$13,248.00
(i) the primary purpose of the waterway barrier works is to impound water; or	
(ii) the waterway barrier works are to be constructed or raised in a major-risk waterway or an unmapped tidal waterway and is not a bridge	
(d) otherwise, for each waterway barrier works the subject of the application	\$3,313.00

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 12	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 12, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—

Table 1—Assessable development under s 12	
Column 1	Column 2
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Part 7 Hazardous chemical facilities

Division 1 Assessable development

13 Assessable development—material change of use for a hazardous chemical facility

A material change of use for a hazardous chemical facility is assessable development.

Division 2 Assessment by assessment manager

Table 1—Assessable development under s 13	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager	\$13,248.00

Division 3 Referral agency’s assessment

Table 1—Assessable development under s 13	
Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use that is assessable development under section 13, unless the chief executive is the prescribed assessment manager
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—

Table 1—Assessable development under s 13	
Column 1	Column 2
4 Matters referral agency's assessment must be against	The State development assessment provisions
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral	\$827.00

Part 8 Heritage places

Division 1 Local heritage places

Subdivision 1 Assessable development

14 Assessable development—development on local heritage place

Development on a local heritage place, other than a Queensland heritage place, is assessable development, unless—

- (a) the development is building work carried out by or for—
 - (i) the State; or
 - (ii) a public sector entity; or
- (b) the development is carried out by the State on designated premises; or
- (c) the development is stated in schedule 6; or
- (d) an exemption certificate under the Heritage Act has been given for the development by the chief executive

officer of the local government for the local government area where the place is.

Notes—

- 1 For development on a local heritage place on airport land, see also the Airport Assets Act, section 54.
- 2 For development on a local heritage place on Brisbane core port land, see also the Transport Infrastructure Act, section 283ZV.

Subdivision 2 Assessment by assessment manager

Column 1	Column 2
1 Category of assessment	Impact assessment, if a local categorising instrument requires impact assessment Otherwise, code assessment
2 Assessment benchmarks	If the local government is the prescribed assessment manager— (a) for a local heritage place on the local government’s local heritage register under the Heritage Act—the code in the <i>Queensland Heritage Regulation 2015</i> , schedule 2; or (b) for a local heritage place identified in the local government’s planning scheme—the relevant provisions of a local categorising instrument
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 14 that is building work	
Column 1	Column 2
1 Development application requiring referral	Development application for building work that is assessable development under section 14, unless the local government is the prescribed assessment manager
2 Referral agency	The local government
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	For a local heritage place on the local government’s local heritage register under the Heritage Act—the code in the <i>Queensland Heritage Regulation 2015</i> , schedule 2 For a local heritage place identified in the local government’s planning scheme—the relevant provisions of a local categorising instrument
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Division 2 Queensland heritage place

Subdivision 1 Assessable development

15 Assessable development—development on or adjoining a Queensland heritage place

- (1) Development on a Queensland heritage place is assessable development, unless—
 - (a) an exemption certificate under the Heritage Act has been given for the development by the chief executive of the department in which that Act is administered; or
 - (b) the development is, under section 78 of that Act, liturgical development; or
 - (c) the development is carried out by the State; or
 - (d) the development is PDA-related development; or
 - (e) the development is carried out for the cross river rail project.
- (2) A material change of use of premises is assessable development, if—
 - (a) the material change of use is carried out on a lot that shares a common boundary with another lot that is or contains a Queensland heritage place; or
 - (b) the material change of use is carried out on a lot that contains a Queensland heritage place, but is not carried out on the Queensland heritage place.
- (3) However, subsection (2) does not apply if 1 or more of the following apply—
 - (a) the Queensland heritage place is an archaeological State heritage place as defined under the Heritage Act, schedule;
 - (b) the material change of use is carried out more than 75m from the boundary of the Queensland heritage place;

- (c) the material change of use is for a single storey dwelling house only;
- (d) the material change of use is for a dwelling house only and all buildings constructed as part of the use are more than 25m from the boundary of the Queensland heritage place;
- (e) all buildings and structures, other than dwelling houses, constructed as part of the material change of use have a height of less than 3.5m;
- (f) the material change of use involves only alterations to existing buildings and structures, with all alterations to the exterior of a building or structure being minor building work;
- (g) the material change of use is PDA-related development.

(4) In this section—

cross river rail project means the project known as the cross river rail project described in—

- (a) the Coordinator-General's report for the environmental impact statement for the project, dated December 2012, under the State Development Act; and
- (b) any Coordinator-General's change report for the project under that Act.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 15(1)	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	If section 277 of the Act applies—the matters stated in section 277(2)(b) and (3) of the Act
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager—	
(a) if the development is a material change of use of premises that would result in the premises comprising at least 1 dwelling but not more than 4 dwellings	Nil
(b) if the development is building work, or operational work, relating to premises comprising at least 1 dwelling but not more than 4 dwellings	Nil
(c) otherwise	\$3,313.00

Table 2—Assessable development under s 15(2)	
Column 1	Column 2
1 Category of assessment	Code assessment
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager— (a) if the development is a material change of use of premises that would result in the premises comprising at least 1 dwelling but not more than 4 dwellings (b) otherwise	Nil \$1,655.00

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 15(1)	
Column 1	Column 2
1 Development application requiring referral	Development application for assessable development under section 15(1), unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—

Table 1—Assessable development under s 15(1)	
Column 1	Column 2
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	If section 277 of the Act applies—the matters stated in section 277(2)(b) and (3) of the Act
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral— (a) if the development is on Brisbane core port land (b) otherwise	Nil The fee that would be payable to the chief executive if the chief executive were the assessment manager

Table 2—Assessable development under s 15(2)	
Column 1	Column 2
1 Development application requiring referral	Development application for assessable development under section 15(2), unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—

Table 2—Assessable development under s 15(2)	
Column 1	Column 2
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Part 9 Infrastructure-related referrals

Division 1 Designated premises—referral agency’s assessment

Table 1—Development on designated premises	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for development on premises that are the subject of a designation made by the Minister, if—</p> <ul style="list-style-type: none"> (a) the development is assessable development under a local categorising instrument; and (b) the infrastructure the subject of the designation is to be supplied by a public sector entity; and (c) the premises are not owned by or for the State; and (d) the development is for a purpose other than the designated purpose; and (e) the development will not be carried out by or for the State

Table 1—Development on designated premises	
Column 1	Column 2
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	—
5 Matters referral agency’s assessment must have regard to	The designation
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	\$1,655.00

Division 2 Electricity infrastructure—referral agency’s assessment

Table 1—Reconfiguring a lot subject to an easement or near a substation site	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for reconfiguring a lot that is assessable development under section 21, if—</p> <p>(a) all or part of the lot is subject to an easement—</p> <p>(i) for the benefit of a distribution entity, or transmission entity, under the Electricity Act; and</p> <p>(ii) for a transmission grid or supply network; or</p>

Table 1—Reconfiguring a lot subject to an easement or near a substation site	
Column 1	Column 2
	(b) part of the lot is within 100m of a substation site
2 Referral agency	The chief executive of the distribution entity or transmission entity
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The purposes of the Electricity Act and the Electrical Safety Act
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 2—Material change of use of premises near a substation site or subject to an easement	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for a material change of use that is assessable development under a local categorising instrument and does not relate to reconfiguring a lot, if—</p> <p>(a) all or part of the premises are within 100m of a substation site; or</p> <p>(b) both of the following apply—</p> <p>(i) all or part of the premises are subject to an easement for the benefit of a distribution entity, or transmission entity, under the Electricity Act;</p>

Table 2—Material change of use of premises near a substation site or subject to an easement	
Column 1	Column 2
	(ii) the easement is for a transmission grid or supply network
2 Referral agency	The chief executive of the distribution entity or transmission entity
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The purposes of the Electricity Act and the Electrical Safety Act
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 3—Operational work on premises subject to an easement or near a substation site	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for operational work that is filling or excavating if the operational work is assessable development under a local categorising instrument and either of the following apply—</p> <p>(a) both of the following apply—</p> <p>(i) all or part of the premises are subject to an easement for the benefit of a distribution entity, or transmission entity, under the Electricity Act;</p> <p>(ii) all or part of the work is on the easement;</p>

Table 3—Operational work on premises subject to an easement or near a substation site	
Column 1	Column 2
	(b) all or part of the work is within 10m of a substation site
2 Referral agency	The chief executive of the distribution entity or transmission entity
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The purposes of the Electricity Act and the Electrical Safety Act
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Division 3 Oil and gas infrastructure—referral agency’s assessment

Table 1—Reconfiguring a lot subject to a pipeline easement	
Column 1	Column 2
1 Development application requiring referral	Development application for reconfiguring a lot that is assessable development under section 21, if— (a) all or part of the lot is subject to an easement for the benefit of the holder of a pipeline licence under the Petroleum and Gas Act; and (b) the easement is for the construction or operation of the pipeline that is the subject of the pipeline licence

Table 1—Reconfiguring a lot subject to a pipeline easement	
Column 1	Column 2
2 Referral agency	If the holder of the licence is not an individual—the chief executive, however described, of the holder If the holder of the licence is an individual—the individual
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The purposes of the Petroleum and Gas Act
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 2—Material change of use of premises subject to a pipeline easement	
Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use that is assessable development under a local categorising instrument and does not relate to reconfiguring a lot, if— (a) all or part of the premises are subject to an easement for the benefit of the holder of a pipeline licence under the Petroleum and Gas Act; and (b) the easement is for the construction or operation of the pipeline that is the subject of the pipeline licence; and

Table 2—Material change of use of premises subject to a pipeline easement	
Column 1	Column 2
	(c) all or part of a structure or work that is the natural and ordinary consequence of the use is, or will be, on the easement
2 Referral agency	If the holder of the licence is not an individual—the chief executive, however described, of the holder If the holder of the licence is an individual—the holder
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The purposes of the Petroleum and Gas Act
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 3—Operational work on premises subject to a pipeline easement	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is— (a) assessable development under a local categorising instrument; and (b) filling, excavating, compacting, drilling, boring or piling, not relating to reconfiguring a lot, if— (i) all or part of the premises are subject to an easement for the benefit of the holder of a pipeline licence under the Petroleum and Gas Act; and

Table 3—Operational work on premises subject to a pipeline easement	
Column 1	Column 2
	(ii) all or part of the work is on the easement
2 Referral agency	If the holder of the licence is not an individual—the chief executive, however described, of the holder If the holder of the licence is an individual—the holder
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The purposes of the Petroleum and Gas Act
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

**Division 4 State transport infrastructure—
referral agency’s assessment**

**Subdivision 1 State transport infrastructure
generally**

Table 1—Aspect of development stated in schedule 20

Column 1	Column 2
<p>1 Development application requiring referral</p>	<p>Development application for an aspect of development stated in schedule 20 that is assessable development under a local categorising instrument or section 21, if—</p> <ul style="list-style-type: none"> (a) the development is for a purpose stated in schedule 20, column 1 for the aspect; and (b) the development meets or exceeds the threshold— <ul style="list-style-type: none"> (i) for development in local government area 1—stated in schedule 20, column 2 for the purpose; or (ii) for development in local government area 2—stated in schedule 20, column 3 for the purpose; and (c) for development in local government area 1—the development is not for an accommodation activity or an office at premises wholly or partly in the excluded area <p>However, if the development is for a combination of purposes stated in the same item of schedule 20, the threshold is for the combination of purposes and not for each individual purpose.</p>

Table 1—Aspect of development stated in schedule 20	
Column 1	Column 2
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral— (a) if the development involves reconfiguring a lot stated in subdivision 2, table 1, item 1, column 2, table 2, item 1, column 2 or table 3, item 1, column 2 or a material change of use stated in subdivision 2, table 4, item 1, column 2— (i) for premises in local government area 1 (ii) for premises in local government area 2 (b) if paragraph (a) does not apply— (i) for premises in local government area 1 (ii) for premises in local government area 2	 \$3,313.00 \$1,655.00 \$6,625.00 \$3,313.00

Subdivision 2 State transport corridors and future State transport corridors

Table 1—Reconfiguring a lot near a State transport corridor	
Column 1	Column 2
1 Development application requiring referral	Development application for reconfiguring a lot that is assessable development under section 21, if— <ul style="list-style-type: none"> (a) all or part of the premises are within 25m of a State transport corridor; and (b) 1 or more of the following apply— <ul style="list-style-type: none"> (i) the total number of lots is increased; (ii) the total number of lots adjacent to the State transport corridor is increased; (iii) there is a new or changed access between the premises and the State transport corridor; (iv) an easement is created adjacent to a railway as defined under the Transport Infrastructure Act, schedule 6; and (c) the reconfiguration does not relate to government supported transport infrastructure
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—

Table 1—Reconfiguring a lot near a State transport corridor	
Column 1	Column 2
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral—	
(a) if the reconfiguration results in less than 50 lots	$\$1,655.00 + (\$827.00 \times S)$ where— <i>S</i> means the number of State transport corridors that all or part of the premises are within 25m of, minus 1 <i>Example—</i> For premises within 25m of 3 State transport corridors, the fee is $\$1,655.00 + (\$827.00 \times 2) = \$3,309.00$.
(b) if the reconfiguration results in 50 lots or more, but no more than 200 lots	$\$3,313.00 + (\$1,655.00 \times S)$ where— <i>S</i> means the number of State transport corridors that all or part of the premises are within 25m of, minus 1 <i>Example—</i> For premises within 25m of 3 State transport corridors, the fee is $\$3,313.00 + (\$1,655.00 \times 2) = \$6,623.00$.
(c) if the reconfiguration results in more than 200 lots	$\$6,625.00 + (\$3,313.00 \times S)$ where—

Table 1—Reconfiguring a lot near a State transport corridor	
Column 1	Column 2
	<p><i>S</i> means the number of State transport corridors that all or part of the premises are within 25m of, minus 1</p> <p><i>Example—</i></p> <p>For premises within 25m of 3 State transport corridors, the fee is $\\$6,625.00 + (\\$3,313.00 \times 2) = \\$13,251.00$.</p>

Table 2—Reconfiguring a lot that is a future State transport corridor	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for reconfiguring a lot that is assessable development under section 21, if—</p> <p>(a) all or part of the premises are a future State transport corridor; and</p> <p>(b) the total number of lots is increased; and</p> <p>(c) the reconfiguration does not relate to government supported transport infrastructure</p>
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral—	

Table 2—Reconfiguring a lot that is a future State transport corridor	
Column 1	Column 2
(a) if the reconfiguration results in less than 50 lots	\$827.00 for each future State transport corridor
(b) if the reconfiguration results in 50 lots or more, but no more than 200 lots	\$1,655.00 for each future State transport corridor
(c) if the reconfiguration results in more than 200 lots	\$3,313.00 for each future State transport corridor

Table 3—Reconfiguring a lot near a State-controlled road intersection	
Column 1	Column 2
1 Development application requiring referral	Development application for reconfiguring a lot that is assessable development under section 21, if— (a) all or part of the premises are— (i) adjacent to a road (the <i>relevant road</i>) that intersects with a State-controlled road; and (ii) within 100m of the intersection; and (b) 1 or more of the following apply— (i) the total number of lots is increased; (ii) the total number of lots adjacent to the relevant road is increased; (iii) there is a new or changed access between the premises and the relevant road; and (c) the reconfiguration does not relate to government supported transport infrastructure
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—

Column 1	Column 2
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral— (a) if the reconfiguration involves reconfiguring a lot stated in table 1, item 1, column 2 (b) if paragraph (a) does not apply and the reconfiguration results in 50 lots or less (c) if paragraph (a) does not apply and the reconfiguration results in more than 50 lots, but no more than 200 lots (d) if paragraph (a) does not apply and the reconfiguration results in more than 200 lots	Nil \$827.00 \$1,655.00 \$3,313.00

Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use, other than an excluded material change of use, that is assessable development under a local categorising instrument, if all or part of the premises— (a) are within 25m of a State transport corridor; or

Table 4—Material change of use of premises near a State transport corridor or that is a future State transport corridor	
Column 1	Column 2
	<p>(b) are a future State transport corridor; or</p> <p>(c) are—</p> <p style="padding-left: 40px;">(i) adjacent to a road that intersects with a State-controlled road; and</p> <p style="padding-left: 40px;">(ii) within 100m of the intersection</p>
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may be against	—
8 Fee for referral—	
<p>(a) if the material change of use involves reconfiguring a lot stated in table 1, item 1, column 2, table 2, item 1, column 2 or table 3, item 1, column 2</p> <p>(b) if paragraph (a) does not apply and the material change of use is stated in item 1, column 2, paragraph (a) and does not involve new relevant vehicular access to a State transport corridor—</p> <p style="padding-left: 40px;">(i) for premises that consist of at least 1 dwelling but no more than 4 dwellings</p>	<p>Nil</p> <p>\$827.00 for each State transport corridor that all or part of the premises is within 25m of</p>

Table 4—Material change of use of premises near a State transport corridor or that is a future State transport corridor

Column 1	Column 2
(ii) otherwise	<p>$\\$1,655.00 + (\\$827.00 \times S)$</p> <p>where—</p> <p><i>S</i> means the number of State transport corridors that all or part of the premises is within 25m of, minus 1</p> <p><i>Example—</i></p> <p>For premises within 25m of 3 State transport corridors, the fee is $\\$1,655.00 + (\\$827.00 \times 2) = \\$3,309.00$.</p>
(c) if paragraph (a) does not apply and the material change of use is stated in item 1, column 2, paragraph (c) and does not involve new relevant vehicular access to a State transport corridor—	
(i) for premises that consist of at least 1 dwelling but no more than 4 dwellings	\$827.00
(ii) otherwise	\$1,655.00
(d) if paragraph (a) does not apply and the material change of use is stated in item 1, column 2, paragraph (a) or (c) and involves a new relevant vehicular access to a State transport corridor—	
(i) for premises that consist of at least 1 dwelling but no more than 4 dwellings	<p>$\\$1,655.00 + (\\$827.00 \times S)$</p> <p>where—</p> <p><i>S</i> means the number of State transport corridors that all or part of the premises is within 25m of, minus 1</p>

Table 4—Material change of use of premises near a State transport corridor or that is a future State transport corridor	
Column 1	Column 2
(ii) otherwise	<p><i>Example—</i></p> <p>For premises within 25m of 3 State transport corridors, the fee is $\\$1,655.00 + (\\$827.00 \times 2) = \\$3,309.00$.</p> <p>$\\$3,313.00 + (\\$1,655.00 \times S)$</p> <p>where—</p> <p><i>S</i> means the number of State transport corridors that all or part of the premises is within 25m of, minus 1</p> <p><i>Example—</i></p> <p>For premises within 25m of 3 State transport corridors, the fee is $\\$3,313.00 + (\\$1,655.00 \times 2) = \\$6,623.00$.</p>
(e) if paragraph (a) does not apply and all or part of the premises are a future State transport corridor—	
(i) for premises that consist of at least 1 dwelling but no more than 4 dwellings	\$827.00 for each future State transport corridor
(ii) otherwise	\$1,655.00 for each future State transport corridor

Table 5—Operational work on premises near a State transport corridor	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for operational work, if—</p> <p>(a) all or part of the premises are within 25m of a State transport corridor; and</p> <p>(b) the work—</p>

Table 5—Operational work on premises near a State transport corridor	
Column 1	Column 2
	<ul style="list-style-type: none"> (i) relates to access to a State transport corridor; or (ii) involves extracting, excavating or filling more than 50m³; or (iii) involves the redirection or intensification of site stormwater from the premises, through a pipe or culvert with a cross-sectional area of more than 625cm², to a State transport corridor; and <p>(c) the work does not relate to—</p> <ul style="list-style-type: none"> (i) a material change of use stated in table 4, item 1, column 2, paragraph (a) or (c); or (ii) reconfiguring a lot stated in table 1, item 1, column 2 or table 3, item 1, column 2; or (iii) government supported transport infrastructure
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Table 5—Operational work on premises near a State transport corridor	
Column 1	Column 2
8 Fee for referral	$\$3,313.00 + (\$1,655.00 \times S)$ where— <i>S</i> means the number of State transport corridors that all or part of the premises is within 25m of, minus 1 <i>Example—</i> For premises within 25m of 3 State transport corridors, the fee is $\$3,313.00 + (\$1,655.00 \times 2) = \$6,623.00$.

Table 6—Operational work on premises that is a future State transport corridor	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work, if— (a) all or part of the premises are a future State transport corridor; and (b) the work does not relate to— (i) a material change of use stated in table 4, item 1, column 2, paragraph (b); or (ii) reconfiguring a lot stated in table 2, item 1, column 2; or (iii) government supported transport infrastructure
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—

Table 6—Operational work on premises that is a future State transport corridor	
Column 1	Column 2
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	$\$3,313.00 + (\$1,655.00 \times F)$ where— <i>F</i> means the number of future State transport corridors on the premises, minus 1 <i>Example—</i> For premises that have 3 future State transport corridors on the premises, the fee is $\$3,313.00 + (\$1,655.00 \times 2) = \$6,623.00$.

Subdivision 3 State-controlled transport tunnels and future State-controlled transport tunnels

Table 1—Reconfiguring a lot on or near a State-controlled transport tunnel or future State-controlled transport tunnel	
Column 1	Column 2
1 Development application requiring referral	Development application for reconfiguring a lot that is assessable development under section 21, if— (a) all or part of the premises are— (i) a State-controlled transport tunnel; or

Table 1—Reconfiguring a lot on or near a State-controlled transport tunnel or future State-controlled transport tunnel	
Column 1	Column 2
	<p>(ii) a future State-controlled transport tunnel; or</p> <p>(iii) within 50m of a State-controlled transport tunnel or a future State-controlled transport tunnel; and</p> <p>(b) the reconfiguration does not relate to government supported transport infrastructure</p>
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	\$6,625.00

Table 2—Material change of use of premises on or near a State-controlled transport tunnel or future State-controlled transport tunnel	
Column 1	Column 2

8 Fee for referral	\$6,625.00

Part 10 Koala habitat area

Division 1 Prohibited development

16 Prohibited development—material change of use in priority koala assessable development area

- (1) A material change of use of premises for an urban activity is prohibited development to the extent the premises are in—
 - (a) a priority koala assessable development area; and
 - (b) a koala habitat area; and
 - (c) an area designated under a local categorising instrument for conservation, open space, rural or rural residential purposes.
- (2) However, subsection (1) does not apply to a material change of use—
 - (a) that is accepted development; or
 - (b) that is exempted development; or
 - (c) for a single dwelling on a lot larger than 2,000m²; or
 - (d) that, if a development application were made for the material change of use, must be assessed against the assessment benchmarks prescribed under schedule 11, part 2, section 2, 3, 4 or 5.
- (3) In this section—

urban activity—

 - (a) means the use of premises for a residential, industrial, retail or commercial activity; but
 - (b) does not include—
 - (i) an aeronautical facility; or
 - (ii) animal keeping; or
 - (iii) an activity that relies on the tourist trade; or
 - (iv) a cemetery; or

- (v) a childcare centre; or
- (vi) a community hall; or
- (vii) a crematorium; or
- (viii) a detention facility; or
- (ix) an educational establishment; or
- (x) emergency services; or
- (xi) a forestry or primary industry activity; or
- (xii) an activity that is reasonably associated with a forestry or primary industry activity; or
- (xiii) a hospital; or
- (xiv) infrastructure for water, waste management, telecommunications or electricity; or
- (xv) outdoor sport and recreation; or
- (xvi) a clubhouse, grandstand or tourist accommodation relating to outdoor sport and recreation; or
- (xvii) a place of worship; or
- (xviii) tourist accommodation that is part of a use mentioned in subparagraph (v), (vi), (viii), (ix), (xiii) or (xvii); or
- (xix) a commercial or retail activity that is ancillary to a use mentioned in subparagraph (iii), (v), (vi), (viii), (ix), (xiii) or (xvii).

Division 2 Assessment by assessment manager

Table 1—Development on premises in a koala habitat area	
Column 1	Column 2
1 Category of assessment	The category of assessment stated for the development in a local categorising instrument
2 Assessment benchmarks	For a development application that schedule 11 applies to—the assessment benchmarks stated for the development in schedule 11, part 2
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Part 11 Noise sensitive place on noise attenuation land

17 Prohibited development—material change of use for a noise sensitive place

A material change of use of premises for a noise sensitive place is prohibited development, if—

- (a) the use is on a part of the premises that—
 - (i) is noise attenuation land; and
 - (ii) has noise levels exceeding 45dBA(L_{Aeq}) during the operation of an off-road motorcycling facility on off-road motorcycling facility land; and

- (b) any building work for the use does not comply with the outcomes prescribed for noise category 2 in the Queensland Development Code, part 4.4.

Part 12 Operational work for reconfiguring a lot

Division 1 Assessable development

18 Assessable development—operational work for reconfiguring a lot

Operational work for reconfiguring a lot is assessable development, if the reconfiguration is also assessable development.

Division 2 Assessment by assessment manager

Table 1—Assessable development under s 18	
Column 1	Column 2
1 Category of assessment	Code assessment
2 Assessment benchmarks	—
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Part 13 Ports

Division 1 Brisbane core port land

Subdivision 1 Assessment by assessment manager

Table 1—Assessable development on Brisbane core port land	
Column 1	Column 2
1 Category of assessment	<p>Code assessment, if the development is on Brisbane core port land and either of the following apply—</p> <p>(a) the development is reconfiguring a lot that is assessable development requiring code assessment under the Transport Infrastructure Act, section 283ZM(4);</p> <p>(b) the development is assessable development requiring code assessment under the Brisbane port LUP</p> <p>Impact assessment, if the development is on Brisbane core port land and is assessable development requiring impact assessment under the Brisbane port LUP</p>
2 Assessment benchmarks	The Brisbane port LUP
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager—	

Table 1—Assessable development on Brisbane core port land	
Column 1	Column 2
(a) if the development is consistent with the Brisbane port LUP and requires code assessment	\$9,659.00
(b) if the development is inconsistent with the Brisbane port LUP and requires—	
(i) code assessment	\$15,179.00
(ii) impact assessment	\$27,597.00

Subdivision 2 Referral agency’s assessment

Table 1—Material change of use on Brisbane core port land	
Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use of premises on Brisbane core port land, if— (a) the Brisbane port LUP categorises the material change of use as assessable development; and (b) the chief executive is the prescribed assessment manager for the application
2 Referral agency	Brisbane City Council
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The material impacts of the proposed development, identified by the council, on land in its local government area, other than Brisbane core port land
5 Matters referral agency’s assessment must have regard to	—

Table 1—Material change of use on Brisbane core port land	
Column 1	Column 2
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—

Table 2—Operational work near a State transport corridor	
Column 1	Column 2
1 Development application requiring referral	<p>Development application for operational work on Brisbane core port land that is categorised as assessable development under the Brisbane port LUP, if—</p> <ul style="list-style-type: none"> (a) all or part of the premises are within 25m of a State transport corridor; and (b) the work— <ul style="list-style-type: none"> (i) relates to access to the State transport corridor; or (ii) involves extracting, excavating or filling more than 50m³; or (iii) involves the redirection or intensification of site stormwater from the premises through a pipe or culvert with a cross-sectional area of more than 625cm², to a State transport corridor; and (c) the work does not relate to— <ul style="list-style-type: none"> (i) a material change of use stated in table 4, item 1, column 2, paragraph (a) or (c); or (ii) government supported transport infrastructure
2 Referral agency	The chief executive

Table 2—Operational work near a State transport corridor

Division 2 Land within Port of Brisbane’s port limits—referral agency’s assessment

Table 1—Development below high-water mark and within port limits generally	
Column 1	Column 2
1 Development application requiring referral	Development application for development that is— (a) below high-water mark; and (b) within the Port of Brisbane’s port limits under the Transport Infrastructure Act
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	Nil

Table 2—Development below high-water mark and within port limits if applicant is not port operator

Column 1	Column 2
1 Development application requiring referral	Development application for development stated in table 1, item 1, column 2, if the port operator is not the applicant
2 Referral agency	The port operator
3 Limitations on referral agency’s powers	Referral agency may give advice only
4 Matters referral agency’s assessment must be against	The safety and operational integrity of the port
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

**Division 3 Land within limits of another port—
assessable development**

Table 1—Prescribed assessable development within limits of a port

Column 1	Column 2
1 Development application requiring referral	Development application for development that is— (a) prescribed assessable development; and (b) on land below high-water mark and within the limits of a port under the Transport Infrastructure Act

Table 1—Prescribed assessable development within limits of a port	
Column 1	Column 2
2 Referral agency	The chief executive of the port authority for the land
3 Limitations on referral agency’s powers	If the development complies with all of the following, the referral agency may give advice only— (a) the development is carried out at a distance of at least 200m from a shipping channel or an entry and exit shipping corridor for the port; (b) the development is carried out at a distance of at least 100m from a swing basin, a commercial shipping wharf, a mooring, anchorage or spoil grounds; (c) the development is carried out at a distance of at least 1,000m from a planned port facility identified in a land use plan for strategic port land
4 Matters referral agency’s assessment must be against	Port authority functions under the Transport Infrastructure Act, chapter 8, part 3
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Division 4 Priority port’s master planned area

Note—

For the relationship between port overlays and planning instruments, and between port overlays and land use plans for strategic port land, see the Sustainable Ports Act, sections 26 and 27.

Subdivision 1 Assessable development

19 Assessable development—development in priority port’s master planned area

Development in a priority port’s master planned area is assessable development, if—

- (a) the port overlay for the master planned area states the development is assessable development; and
- (b) the development is not in—
 - (i) a priority development area; or
 - (ii) a State development area.

Subdivision 2 Assessment by assessment manager

Column 1	Column 2
1 Category of assessment	Impact assessment, if the port overlay requires impact assessment Otherwise, code assessment
2 Assessment benchmarks	Matters stated in the port overlay for the master planned area to be assessment benchmarks for the development
3 Matters code assessment must have regard to	Matters stated in the port overlay for the master planned area to be matters the assessment manager must have regard to in assessing the development
4 Matters impact assessment must have regard to	Matters stated in the port overlay for the master planned area to be matters the assessment manager must have regard to in assessing the development

Division 5 Strategic port land

Subdivision 1 Assessable development

20 Assessable development—development on strategic port land

Development on strategic port land is assessable development, if—

- (a) either—
 - (i) the land use plan for the strategic port land states the development is assessable development; or
 - (ii) the development is a material change of use that is inconsistent with the land use plan; and
- (b) for premises in a priority port’s master planned area—the port overlay for the master planned area does not state a different category of development for the development.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 20	
Column 1	Column 2
1 Category of assessment	Code assessment
2 Assessment benchmarks	If the port authority is the assessment manager—the land use plan for the strategic port land

Table 1—Assessable development under s 20

4 Matters impact assessment must have regard to	—

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 20(a)(ii)	
Column 1	Column 2
1 Development application requiring referral	Development application for assessable development stated in section 20(a)(ii)
2 Referral agency	The Minister responsible for administering the Transport Infrastructure Act
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The Transport Infrastructure Act, section 287A
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—

Part 14 Reconfiguring a lot under Land Title Act

Division 1 Assessable development

21 Assessable development—reconfiguring a lot under Land Title Act

Reconfiguring a lot under the Land Title Act is assessable development, unless the reconfiguration—

- (a) is stated in schedule 6, part 4, section 21(2); or
- (b) is of a lot that is, or includes, Brisbane core port land; or

Note—

For reconfiguring a lot on Brisbane core port land, see the Transport Infrastructure Act, section 283ZM.

- (c) is for reconfiguring a South Bank lot within the corporation area under the *South Bank Corporation Act 1989*; or
- (d) is of a lot that is in a priority development area, or that is PDA-associated land for a priority development area, within the meaning of the Economic Development Act, schedule 1.

Division 2 Assessment by assessment manager

Note—

For the referral agencies for particular development applications for reconfiguring a lot that is assessable development under section 21, see the other parts of this schedule.

Table 1—Assessable development under s 21	
Column 1	Column 2
1 Category of assessment	<p>Code assessment, if—</p> <ul style="list-style-type: none"> (a) schedule 12 applies to the reconfiguration and either— <ul style="list-style-type: none"> (i) no part of the lot to be reconfigured is in an SEQ development area; or (ii) all or part of the lot to be reconfigured is in an SEQ development area, but the reconfiguration is an exempt subdivision; or (b) impact assessment is not required for the reconfiguration <p>Impact assessment, if—</p> <ul style="list-style-type: none"> (a) a local categorising instrument requires impact assessment for the reconfiguration and schedule 12 does not apply to the reconfiguration; or (b) all or part of the lot to be reconfigured is in an SEQ development area and the reconfiguration is a subdivision other than an exempt subdivision
2 Assessment benchmarks	For reconfiguring a lot that schedule 12 applies to and that requires code assessment—the assessment benchmarks prescribed in schedule 12 for the development
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Part 15 SEQ development area

Division 1 Reconfiguring a lot—referral agency’s assessment

Column 1	Column 2
1 Development application requiring referral	Development application for reconfiguring a lot that is completely or partly in an SEQ development area, if— (a) the reconfiguration is assessable development under section 21 and requires impact assessment; and (b) the reconfiguration is a subdivision other than an exempt subdivision
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	Whether the development is consistent with the future planning intent for the area in which the premises are located <i>Note—</i> See also section 41.
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	\$1,655.00

Division 2 Material change of use**Subdivision 1 Assessable development****22 Assessable development—material change of use in SEQ development area**

- (1) A material change of use of premises that are completely or partly in an SEQ development area is assessable development.
- (2) However, subsection (1) does not apply if—
 - (a) all of the following apply—
 - (i) the material change of use is accepted development, or assessable development requiring code assessment, under a local categorising instrument;
 - (ii) the use results in a gross floor area of not more than 10,000m²;
 - (iii) the premises have an area of not more than 10,000m²; or
 - (b) the material change of use is for—
 - (i) a dwelling house; or
 - (ii) a dwelling unit; or
 - (iii) a dual occupancy, if both dwellings are on a single lot; or
 - (iv) caretaker's accommodation; or
 - (c) the material change of use is excluded development.

Subdivision 2 Assessment by assessment manager

Column 1	Column 2
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral— (a) if the material change of use involves reconfiguring a lot for which the chief executive is a referral agency under division 1, table 1, item 1, column 2 (b) otherwise	Nil \$1,655.00

Part 16 SEQ regional landscape and rural production area and SEQ rural living area

Division 1 Reconfiguring a lot

23 Prohibited development—reconfiguring a lot in SEQ regional landscape and rural production area

- (1) Reconfiguring a lot is prohibited development to the extent the lot is in the SEQ regional landscape and rural production area, if the reconfiguration—
 - (a) is a subdivision; and
 - (b) is assessable development under section 21.
- (2) However, subsection (1) does not apply if—
 - (a) the reconfiguration is an exempt subdivision; or
 - (b) the lot is in an SEQ rural subdivision precinct and the reconfiguration is consistent with the purpose statement,

and minimum lot size, for the zone applying to the lot under a local planning instrument; or

- (c) each lot created by the reconfiguration is at least 100ha; or
 - (d) the lot is in an area identified in a gazette notice by the Minister as having a rural residential purpose and an application for the reconfiguration was properly made under the old Act or the repealed IPA on or before 6 December 2010.
- (3) In this section—

SEQ rural subdivision precinct means an area in the SEQ region identified in a gazette notice by the Minister as a rural subdivision precinct.

Division 2 Tourist or sport and recreation activity

Subdivision 1 Assessable development

24 Assessable development—material change of use for tourist activity or sport and recreation activity

A material change of use of premises for a tourist activity or sport and recreation activity is assessable development if—

- (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
- (b) the use—
 - (i) results in a gross floor area of more than 5,000m² on the premises, excluding any part of the premises that is used for tourist accommodation or accommodation for employees; or

- (ii) involves an ancillary commercial or retail activity with a gross floor area of more than 250m²; or
- (iii) provides accommodation for more than 300 persons; and
- (c) the material change of use is not—
 - (i) excluded development; or
 - (ii) an exempt material change of use.

Division 3 Community activity

Subdivision 1 Prohibited development

25 Prohibited development—material change of use for residential care facility

A material change of use of premises for a residential care facility is prohibited development if—

- (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
- (b) the use results in a gross floor area of more than 5,000m² on the premises; and
- (c) the material change of use is not excluded development.

Subdivision 2 Assessable development

26 Assessable development—material change of use for residential care facility

A material change of use of premises for a residential care facility is assessable development if—

- (a) all or part of the premises are in—

-
- (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
 - (b) the use results in a gross floor area of not more than 5,000m² on the premises; and
 - (c) the material change of use is not excluded development.

27 Assessable development—material change of use for another community activity

A material change of use of premises for a community activity, other than a residential care facility, is assessable development if—

- (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
- (b) the use—
 - (i) results in a gross floor area of more than 5,000m² on the premises, excluding any part of the premises that is used for tourist accommodation or accommodation for employees; or
 - (ii) involves an ancillary commercial or retail activity with a gross floor area of more than 250m²; or
 - (iii) provides accommodation for more than 300 persons; and
- (c) the material change of use is not—
 - (i) excluded development; or
 - (ii) an exempt material change of use.

Division 4 Indoor recreation**Subdivision 1 Assessable development****27A Assessable development—material change of use for indoor recreation**

A material change of use of premises for indoor recreation is assessable development if—

- (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
- (b) the use—
 - (i) results in a gross floor area of more than 3,000m² on the premises, excluding any part of the premises that is used for tourist accommodation or accommodation for employees; or
 - (ii) involves more than 250 persons, including employees, being on the premises at any time; or
 - (iii) provides accommodation for more than 100 persons; and
- (c) the material change of use is not—
 - (i) excluded development; or
 - (ii) an exempt material change of use.

Division 5 Residential development

27B Prohibited development—material change of use for residential development

- (1) A material change of use of premises for a residential development is prohibited development to the extent the premises are in—
 - (a) the SEQ regional landscape and rural production area; or
 - (b) the SEQ rural living area.
- (2) However, subsection (1) does not apply if the material change of use is—
 - (a) excluded development; or
 - (b) an exempt material change of use.

Division 6 Urban activity**Subdivision 1 Prohibited development****27C Prohibited development—material change of use for shopping centre**

- (1) A material change of use of premises for a shopping centre is prohibited development to the extent the premises are in—
 - (a) the SEQ regional landscape and rural production area; or
 - (b) the SEQ rural living area.
- (2) However, subsection (1) does not apply if the material change of use is excluded development.

Subdivision 2 Assessable development**27D Assessable development—material change of use for biotechnology industry**

A material change of use of premises for a biotechnology industry is assessable development if—

- (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
- (b) either—
 - (i) the use results in a gross floor area of more than 800m² on the premises; or
 - (ii) the total area of all outdoor areas on the premises associated with the use is more than 1,500m²; and
- (c) the material change of use is not—
 - (i) excluded development; or

- (ii) an exempt material change of use.

27E Assessable development—material change of use for service station

- (1) This section applies to a material change of use of premises for a service station if—
 - (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
 - (b) the material change of use is not—
 - (i) excluded development; or
 - (ii) an exempt material change of use.
- (2) The material change of use is assessable development if—
 - (a) the premises are within 25m of a State-controlled road; and
 - (b) the use results in a gross floor area of more than 1,250m² on the premises, excluding any part of the premises that is a bathroom facility, or rest area, for the exclusive use of drivers of heavy vehicles; and
 - (c) the total area of all outdoor areas on the premises associated with the use is more than 2,000m², excluding any outdoor area that is used exclusively for—
 - (i) a rest area; or
 - (ii) the manoeuvring of vehicles; or
 - (iii) the parking of vehicles for no more than 20 hours; or
 - (iv) another activity that is necessary for the carrying out of the use.
- (3) Also, the material change of use is assessable development if—

-
- (a) the premises are more than 25m from a State-controlled road; and
 - (b) either—
 - (i) the use results in a gross floor area of more than 1,250m² on the premises; or
 - (ii) the total area of all outdoor areas on the premises associated with the use is more than 2,000m².

27F Assessable development—material change of use for another urban activity

A material change of use of premises for an urban activity, other than a biotechnology industry or service station, is assessable development if—

- (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
- (b) either—
 - (i) the use results in a gross floor area of more than 800m² on the premises; or
 - (ii) the total area of all outdoor areas on the premises associated with the use is more than 1,500m²; and
- (c) the material change of use is not—
 - (i) excluded development; or
 - (ii) an exempt material change of use.

Division 7 Combined uses**Subdivision 1 Assessable development****27G Assessable development—material change of use for combined use**

- (1) A material change of use of premises is assessable development if—
- (a) all or part of the premises are in—
 - (i) the SEQ regional landscape and rural production area; or
 - (ii) the SEQ rural living area; and
 - (b) the material change of use is for 2 or more of the following uses—
 - (i) a community activity;
 - (ii) indoor recreation;
 - (iii) a sport and recreation activity;
 - (iv) a tourist activity;
 - (v) an urban activity; and
 - (c) no part of the material change of use is assessable development under division 2, 3, 4 or 6; and
 - (d) the use—
 - (i) results in a gross floor area of more than 5,000m² on the premises, excluding any part of the premises that is used for tourist accommodation or accommodation for employees; or
 - (ii) provides accommodation for more than 300 persons.
- (2) However, subsection (1) does not apply to the extent the material change of use—
- (a) is excluded development; or

- (b) is an exempt material change of use.
- (3) Subsection (4) applies if—
 - (a) the material change of use involves excluded development or an exempt material change of use; and
 - (b) because of the carrying out of the excluded development or exempt material change of use only, the use results in a gross floor area of more than 5,000m² on the premises, or provides accommodation for more than 300 persons.
- (4) The material change of use is not assessable development under subsection (1).

Part 17 Tidal works or work in a coastal management district

Division 1 Assessable development

28 Assessable development—operational work that is tidal works or work in a coastal management district

- (1) Operational work is assessable development, if the work is—
 - (a) tidal works; or
 - (b) any of the following carried out completely or partly in a coastal management district—
 - (i) interfering with quarry material, as defined under the Coastal Act, on State coastal land above high-water mark;
 - (ii) disposing of dredge spoil, or other solid waste material, in tidal water;
 - (iii) constructing an artificial waterway;
 - (iv) removing or interfering with coastal dunes on land, other than State coastal land, that is in an erosion prone area.
- (2) However, subsection (1) does not apply to operational work that—
 - (a) is accepted development under schedule 7, part 3, section 10; or
 - (b) is excluded work; or

(c) is PDA-related development.

(3) In this section—

excluded work means operational work, other than work that section 166(4) of the Act applies in relation to, that—

- (a) is maintenance work on a lawful work; or
- (b) is tidal works that alter a prescribed structure, other than an alteration that—
 - (i) creates a roofed structure, including a shed or a gazebo; or
 - (ii) changes the footprint of the prescribed structure; or
 - (iii) changes the dimensions or structural capacity of the prescribed structure; or
 - (iv) may affect safe navigable access to, or from, tidal water or to, or from, properties next to tidal water, including alterations to clearance heights or lighting; or
- (c) is stated in subsection (1)(b)(i) or (iv), if the work is minor work that—
 - (i) has an insignificant impact on coastal management; and
 - (ii) is reversible or expendable.

prescribed structure means a lawful structure that is—

- (a) a boat ramp; or
- (b) a bridge; or
- (c) a jetty; or
- (d) a pontoon; or
- (e) a slipway; or
- (f) a wharf.

Table 1—Assessable development under s 28

6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral— (a) if the material change of use involves reconfiguring a lot stated in table 5, item 1, column 2 (b) otherwise	Nil \$3,313.00

Part 18 Urban design

Table 1—Material change of use that is assessable development under a local categorising instrument	
Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use of premises in a prescribed local government area that is assessable development under a local categorising instrument, unless— (a) the premises are included in a following zone under a local categorising instrument— (i) a rural zone, rural residential zone or township zone stated in schedule 2;

Table 1—Material change of use that is assessable development under a local categorising instrument	
Column 1	Column 2
	<p>(ii) a zone of a substantially similar type to a zone stated in paragraph (i); or</p> <p>(b) the primary use of the premises will be 1 or a combination of the following—</p> <ul style="list-style-type: none"> (i) an agricultural supplies store; (ii) animal husbandry; (iii) animal keeping; (iv) bulk landscape supplies; (v) cropping; (vi) a garden centre; (vii) indoor sport and recreation; (viii) an industry activity; (ix) intensive animal industry; (x) intensive horticulture; (xi) a showroom; (xii) a motor sport facility; (xiii) a relocatable home park; (xiv) a residential use, other than a multiple dwelling; (xv) a transport depot; (xvi) a warehouse; (xvii) a wholesale nursery; or

Table 1—Material change of use that is assessable development under a local categorising instrument	
Column 1	Column 2
	<p>(c) the material change of use increases the gross floor area on the premises by less than—</p> <p>(i) for premises in the local government area of the Brisbane City Council or the Gold Coast City Council—50,000m²; or</p> <p>(ii) otherwise—25,000m²; or</p> <p>(d) a preliminary approval is in effect for the material change of use and the chief executive assessed the development application for the preliminary approval against the matters stated in item 4; or</p> <p>(e) written advice evaluating the urban design for the development given to the applicant by 1 of the following entities is attached to or given with the development application—</p> <p>(i) the Queensland Government Architect;</p> <p>(ii) an entity established by a local government for the purpose of providing advice about urban design, and stated in a gazette notice published by the chief executive for this part</p>
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	The referral agency may give advice only
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—

Table 1—Material change of use that is assessable development under a local categorising instrument	
Column 1	Column 2
7 Matters referral agency’s assessment may have regard to	Any other matter relevant to the effects of the design for the development
8 Fee for referral	\$15,874.00

Part 19 Water-related development

Division 1 Taking or interfering with water

Subdivision 1 Assessable development

29 Assessable development—operational work that involves taking or interfering with water

Operational work that involves the following work is assessable development, unless the work is PDA-related development or accepted development under schedule 7, part 3, section 5—

- (a) taking or interfering with water in—
 - (i) a watercourse, lake or spring; or
 - (ii) a dam constructed on a watercourse or lake;
- (b) taking or interfering with underground water through an artesian bore, as defined under the Water Act, schedule 4, other than through a monitoring bore;
- (c) taking or interfering with underground water through a subartesian bore, if—
 - (i) the works are prescribed as assessable development under the Water Act, section 39(f); or
 - (ii) the work does not comply with the requirements that are prescribed under the Water Act,

section 1014(2)(g) for the work to be characterised as accepted development;

- (d) taking or interfering with underground water in a part of an underground water area, if the work is prescribed as assessable development for the part under the Water Act, section 1046(2)(b);

Note—

See also the Water Act, section 1046(3).

- (e) taking overland flow water, if—
 - (i) the works are prescribed as assessable development under the Water Act, section 39(f); or
 - (ii) the work does not comply with the requirements that are prescribed under the Water Act, section 1014(2)(g) for the work to be characterised as accepted development.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 29	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Table 1—Assessable development under s 29	
Column 1	Column 2
5 Fee for development application, if the chief executive is the assessment manager—	
(a) if the work involves the taking of water	\$165.00
(b) if the work involves interfering with water	\$6,625.00

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 29	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 29, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Division 2 Removing quarry material

Subdivision 1 Assessable development

30 Assessable development—development for removing quarry material

Development for removing quarry material from a watercourse or lake is assessable development, unless the development is PDA-related development.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 30	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager	\$3,313.00

Subdivision 3 Referral agency's assessment

Column 1	Column 2
1 Development application requiring referral	Development application for assessable development under section 30, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency's powers	—
4 Matters referral agency's assessment must be against	The State development assessment provisions
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral— (a) if the development is building work on Brisbane core port land (b) otherwise	Nil \$3,313.00

Division 3 Referable dams

Subdivision 1 Assessable development

31 Assessable development—operational work for referable dams

Operational work that is the construction of a dam, or relates to a dam, is assessable development, if—

- (a) because of the work, the dam must be failure impact assessed; and
- (b) the accepted failure impact assessment for the dam states the dam has a category 1 failure impact rating or a category 2 failure impact rating.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 31	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager—	

Table 1—Assessable development under s 31	
Column 1	Column 2
(a) if the accepted failure impact assessment for the dam states the dam has, or will have, a category 2 failure impact rating	\$13,248.00
(b) if the accepted failure impact assessment for the dam states the dam has, or will have, a category 1 failure impact rating, and the dam is, or is intended to be— (i) more than 20m high; and (ii) capable of impounding 5,000ML or more	\$6,625.00
(c) otherwise	\$3,313.00

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 31	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 31, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—

Table 1—Assessable development under s 31	
Column 1	Column 2
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Division 4 Levees

Subdivision 1 Assessable development

32 Assessable development—operational work for levees

The following operational work is assessable development—

- (a) construction of a new category 2 levee;
- (b) construction of a new category 3 levee;
- (c) modification of an existing levee if, after the modification, the levee will fulfil the requirements for a category 2 levee;
- (d) modification of an existing levee if, after the modification, the levee will fulfil the requirements for a category 3 levee.

Subdivision 2 Assessment by assessment manager

Table 1—Assessable development under s 32	
Column 1	Column 2
1 Category of assessment	Code assessment, if the development application is for development that is assessable development under section 32(a) or (c) Impact assessment, if the development application is for development that is assessable development under section 32(b) or (d)
2 Assessment benchmarks	The Water Regulation, schedule 10
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—

Subdivision 3 Referral agency’s assessment

Table 1—Assessable development under s 32(b) or (d)	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 32(b) or (d)
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions

Table 1—Assessable development under s 32(b) or (d)	
Column 1	Column 2
5 Matters referral agency's assessment must have regard to	—
6 Matters referral agency's assessment may be against	—
7 Matters referral agency's assessment may have regard to	—
8 Fee for referral	\$6,625.00

Part 20 Wetland protection area

Division 1 Prohibited development

33 Prohibited development—operational work in a wetland protection area

Operational work that is high impact earthworks in a wetland protection area is prohibited development, if—

- (a) the development is carried out for—
 - (i) electricity operating works; or
 - (ii) government supported transport infrastructure; and
- (b) the development is not accepted development under schedule 7, part 3, section 9.

Division 2 Assessable development

34 Assessable development—operational work in wetland protection area

Operational work that is high impact earthworks in a wetland protection area is assessable development, unless the operational work—

- (a) is for a domestic housing activity; or
- (b) is the natural and ordinary consequence of development that is a material change of use, or reconfiguring a lot, and all of the following apply—
 - (i) the material change of use or reconfiguration involves high impact earthworks in a wetland protection area;
 - (ii) a development permit is in effect for the material change of use or reconfiguration;
 - (iii) the chief executive, or the chief executive (environment), had functions and powers as a referral agency or prescribed assessment manager in relation to the earthworks for the development application for the development permit; or
- (c) is accepted development under schedule 7, part 3, section 9.

Division 3 Assessment by assessment manager

Table 1—Assessable development under s 34	
Column 1	Column 2
1 Category of assessment	Code assessment, if the chief executive is the prescribed assessment manager
2 Assessment benchmarks	If the chief executive is the prescribed assessment manager—the State development assessment provisions
3 Matters code assessment must have regard to	—

Column 1	Column 2
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager	\$3,313.00

Division 4 Referral agency’s assessment

Table 1—Assessable development under s 34	
Column 1	Column 2
1 Development application requiring referral	Development application for operational work that is assessable development under section 34, unless the chief executive is the prescribed assessment manager for the application
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	The fee that would be payable to the chief executive if the chief executive were the assessment manager

Table 2—Reconfiguring a lot in a wetland protection area	
Column 1	Column 2
1 Development application requiring referral	Development application for reconfiguring a lot that is assessable development under section 21, if— (a) all or part of the premises are in a wetland protection area; and (b) the reconfiguration results in more than 6 lots, or any lot created is less than 5ha; and (c) the reconfiguration involves operational work that is high impact earthworks in a wetland protection area, other than operational work— (i) for a domestic housing activity; or (ii) that is accepted development under schedule 7, part 3, section 9
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	\$3,313.00

Column 1	Column 2
1 Development application requiring referral	Development application for a material change of use that is assessable development under a local categorising instrument, other than a material change of use relating to a domestic housing activity, government supported transport infrastructure or electricity operating works, if— (a) all or part of the premises are in a wetland protection area; and (b) the material change of use involves operational work that is high impact earthworks in a wetland protection area
2 Referral agency	The chief executive
3 Limitations on referral agency’s powers	—
4 Matters referral agency’s assessment must be against	The State development assessment provisions
5 Matters referral agency’s assessment must have regard to	—
6 Matters referral agency’s assessment may be against	—
7 Matters referral agency’s assessment may have regard to	—
8 Fee for referral	\$3,313.00

Part 21 Wind farms

Division 1 Assessable development

35 Assessable development—material change of use for a wind farm

A material change of use of premises for a wind farm is assessable development, unless the whole of the premises are subject to a designation for infrastructure for electricity operating works for a wind farm.

Division 2 Assessment by assessment manager

Column 1	Column 2
1 Category of assessment	<p>Code assessment, if—</p> <p>(a) all wind turbines for the wind farm are at least 1,500m from a sensitive land use on a non-host lot; or</p> <p>(b) 1 or more wind turbines for the wind farm are less than 1,500m from a sensitive land use on a non-host lot and the owner of the non-host lot has, by deed, agreed to the turbines being less than 1,500m from the sensitive land use</p> <p><i>Note for paragraph (b)—</i></p> <p>See the <i>Property Law Act 1974</i>, section 45 for the formal requirements for deeds executed by individuals.</p> <p>Otherwise, impact assessment</p>

Table 1—Assessable development under s 35	
Column 1	Column 2
2 Assessment benchmarks	The State development assessment provisions
3 Matters code assessment must have regard to	—
4 Matters impact assessment must have regard to	—
5 Fee for development application, if the chief executive is the assessment manager	\$13,248.00

Schedule 11 Assessment benchmarks for development in koala habitat area

schedule 10, part 10

Part 1 Preliminary

1 Application and purpose of schedule

- (1) This schedule applies to a development application if—
 - (a) all or part of the premises are in a koala habitat area; and
 - (b) the development is—
 - (i) a material change of use; or
 - (ii) operational work; or
 - (iii) reconfiguring a lot, other than a reconfiguration that does not create an additional lot.
- (2) However, this schedule does not apply to a development application—
 - (a) if the chief executive is the prescribed assessment manager for the development application; or
 - (b) to the extent the development is—
 - (i) assessable development under a variation approval; or
 - (ii) prescribed assessable development, other than reconfiguring a lot that is assessable development under schedule 10, part 14, division 1, section 21; or
 - (iii) exempted development.
- (3) Part 2 prescribes assessment benchmarks that an assessment manager must assess the development against.
- (4) Subsection (5) applies if—

-
- (a) a local categorising instrument states assessment benchmarks (*local assessment benchmarks*) for the development; and
 - (b) the local assessment benchmarks relate to the conservation of koalas.
- (5) The local assessment benchmarks are not inconsistent with the assessment benchmarks in part 2 to the extent the local assessment benchmarks contain extra requirements for the development.

Part 2 **Assessment benchmarks**

2 Assessment benchmarks—particular development in identified koala broad-hectare area

- (1) This section applies to the development application if—
- (a) all or part of the development is in an identified koala broad-hectare area; and
 - (b) the development is not for a domestic housing activity; and
 - (c) neither section 3 nor 5 applies to the development application.
- (2) The following matters are assessment benchmarks for the development—
- (a) the development provides, to the greatest extent practicable, safe koala movement measures that are appropriate for—
 - (i) the development; and
 - (ii) the habitat connectivity value of the premises;
 - (b) any clearing of native vegetation complies with part 3;
 - (c) measures are implemented to ensure that construction activities on the premises do not increase the risk of death or injury to koalas;

- (d) any area on the premises that is cleared of native vegetation is progressively rehabilitated, if—
 - (i) the vegetation was removed as a result of construction activities; and
 - (ii) the area is to be used to provide for safe koala movement measures, including, if appropriate, koala movement infrastructure;
 - (e) if an area is to be used to provide for safe koala movement measures—the development involves landscaping that provides food, shelter and movement opportunities for koalas.
- (3) In this section—
- habitat connectivity value***, of premises, means the extent to which the premises facilitate the movement of koalas across the premises, having regard to—
- (a) the characteristics of the premises, including, for example—
 - (i) whether koalas are present on the premises; and
 - (ii) the condition of any koala habitat on the premises; and
 - (iii) whether there is a waterway or ecological corridor on the premises; and
 - (iv) whether the premises contain remnant vegetation or regulated regrowth vegetation; and
 - (b) whether the premises are near—
 - (i) a koala habitat area, particularly a bushland habitat area, high value rehabilitation habitat area or medium value rehabilitation habitat area; or
 - (ii) an area of remnant vegetation, or regulated regrowth vegetation, in which koalas are present, or which contains regional ecosystems in which koalas are known to be present (where the ecosystems are consistent with essential koala habitat, for example); or

- (iii) an area of ecological significance; or
 - (iv) a waterway; or
 - (v) an ecological corridor; and
- (c) factors that may reduce or adversely affect koala movement, including, for example—
- (i) the proximity and location of roads or other infrastructure; and
 - (ii) any indirect impacts of development on the ecological features of the premises; and
 - (iii) ecological changes to koala habitat happening at the boundary of the premises.

koala movement infrastructure means infrastructure that provides for safe koala movement either above or below an area that poses a risk to safe koala movement, including, for example, a fauna overpass or underpass with koala safety fencing associated with a road.

safe koala movement measure means a measure that facilitates the safe movement of koalas across premises, including, for example, by minimising threats to koalas or providing food or refuge for koalas.

3 Assessment benchmarks—particular development relating to existing development approval

- (1) This section applies to the development application if—
- (a) all or part of the development is in an assessable development area; and
 - (b) the development—
 - (i) is approved by a preliminary approval in effect for the premises; or
 - (ii) is operational work relating to a material change of use, or reconfiguring a lot, that is approved by a development approval in effect for the premises.
- (2) However, this section does not apply if the development is for a domestic housing activity.

- (3) The matters stated in section 2(2)(a) to (d) are assessment benchmarks for the development.

4 Assessment benchmarks—development for particular infrastructure

- (1) This section applies to the development application if—
- (a) all or part of the development is in an assessable development area; and
 - (b) the development is for—
 - (i) linear infrastructure; or
 - (ii) infrastructure stated in schedule 5.
- (2) However, this section does not apply if section 2, 3, or 5 applies to the development application.
- (3) The following matters are assessment benchmarks for the development—
- (a) the development avoids clearing non-juvenile koala habitat trees in an area that is—
 - (i) a bushland habitat area; or
 - (ii) a high value rehabilitation habitat area; or
 - (iii) a medium value rehabilitation habitat area;
 - (b) if the clearing of non-juvenile koala habitat trees can not be avoided in an area stated in paragraph (a)—
 - (i) the amount of clearing is minimised; and
 - (ii) any significant residual impact of the clearing is offset;
 - (c) the matters stated in section 2(2)(a) to (e).

- (4) In this section—

linear infrastructure means infrastructure that is linear.

Examples—

infrastructure for electricity distribution or transmission, a pipeline, a road, a railway

5 Assessment benchmarks—development for extractive industry

- (1) This section applies to the development application if—
 - (a) all or part of the development is in an assessable development area; and
 - (b) the development is for an extractive industry.
- (2) However, this section does not apply if section 3 applies to the development application.
- (3) The following matters are assessment benchmarks for the development—
 - (a) the development involves the clearing of koala habitat trees only if the clearing is necessary for—
 - (i) dredging material from the bed of a water body; or
 - (ii) extracting material from a pit or quarry; or
 - (iii) screening, washing, grinding, milling, sizing or separating material extracted from a pit or quarry; or
 - (iv) carrying out work that is the natural and ordinary consequence of an activity under subparagraphs (i) to (iii);
 - (b) the development avoids clearing non-juvenile koala habitat trees in an area that is—
 - (i) a bushland habitat area; or
 - (ii) a high value rehabilitation habitat area; or
 - (iii) a medium value rehabilitation habitat area;
 - (c) if the clearing of non-juvenile koala habitat trees can not be avoided in an area stated in paragraph (b)—
 - (i) the amount of clearing is minimised; and
 - (ii) any significant residual impact of the clearing is offset;
 - (d) extraction activities are staged in accordance with operational need;

- (e) the development involves measures to ensure the risk of death or injury to koalas is not increased;
- (f) any area on the premises that is cleared of native vegetation is progressively rehabilitated after extraction activities stop in the area;
- (g) the matters stated in section 2(2)(a), (b), (d) and (e).

6 Assessment benchmarks—development in priority koala assessable development area

- (1) This section applies to the development application if all or part of the development is in a priority koala assessable development area.
- (2) However, this section does not apply if—
 - (a) the development is for a domestic housing activity; or
 - (b) section 2, 3, 4 or 5 applies to the development application.
- (3) The following matters are assessment benchmarks for the development—
 - (a) the development does not involve clearing non-juvenile koala habitat trees in a bushland habitat area;
 - (b) the development avoids clearing non-juvenile koala habitat trees in an area that is—
 - (i) a high value rehabilitation habitat area; or
 - (ii) a medium value rehabilitation habitat area;
 - (c) if the clearing of non-juvenile koala habitat trees can not be avoided in an area stated in paragraph (b)—
 - (i) the amount of clearing is minimised; and
 - (ii) any significant residual impact of the clearing is offset;
 - (d) the matters stated in section 2(2)(a) to (e).

7 Assessment benchmarks—development in koala assessable development area

- (1) This section applies to the development application if all or part of the development is in a koala assessable development area.
- (2) However, this section does not apply if—
 - (a) the development is for a domestic housing activity; or
 - (b) section 2, 3, 4 or 5 applies to the development application.
- (3) The following matters are assessment benchmarks for the development—
 - (a) the development does not involve clearing non-juvenile koala habitat trees in an area that—
 - (i) is a bushland habitat area; and
 - (ii) is not in the SEQ urban footprint; and
 - (iii) is not designated in a local instrument for urban purposes;
 - (b) the development avoids clearing non-juvenile koala habitat trees in an area that—
 - (i) is a bushland habitat area and is in the SEQ urban footprint; or
 - (ii) is a high value rehabilitation habitat area; or
 - (iii) is a medium value rehabilitation habitat area;
 - (c) if the clearing of non-juvenile koala habitat trees can not be avoided in an area stated in paragraph (b)—
 - (i) the amount of clearing is minimised; and
 - (ii) any significant residual impact of the clearing is offset;
 - (d) the matters stated in section 2(2)(a) to (e).

Part 3 Requirements for native vegetation clearing

8 Requirements for clearing

- (1) For part 2, the clearing of native vegetation on premises must be carried out in a way that ensures—
 - (a) koalas have enough time to move from the area being cleared without human intervention; and
 - (b) links between koala habitats are maintained to allow koalas to move from the area being cleared; and
 - (c) a tree is not cleared if—
 - (i) a koala is present in the tree; or
 - (ii) the crown of the tree overlaps another tree in which a koala is present; and
 - (d) a non-juvenile koala habitat tree is only cleared under the guidance of a koala spotter.
- (2) Also, for premises larger than 3ha—
 - (a) the clearing must be carried out in stages, with each stage involving the clearing of—
 - (i) if the total area to be cleared is 6ha or less—no more than 50% of the area; or
 - (ii) if the total area to be cleared is larger than 6ha—no more than 3ha, or 3% of the area, whichever is greater; and
 - (b) clearing must not be carried out on the premises between each stage of clearing for at least 1 period starting at 6p.m. on a day and ending at 6a.m. the following day.
- (3) In this section—

koala spotter means a person who—

 - (a) has demonstrated experience in locating koalas in koala habitats or conducting fauna surveys; and

- (b) holds a current authority under the *Nature Conservation Act 1992* for the activities stated in paragraph (a).

Part 4 Request about koala habitat area

9 Request to assessment manager

- (1) This section applies in relation to a development application to which section 4, 5, 6 or 7 applies, if a part of the premises is in a following area (each a *koala habitat classification area*)—
- (a) a bushland habitat area;
 - (b) a rehabilitation habitat area;
 - (c) an area of koala habitat value;
 - (d) an area unsuitable for koalas.
- (2) The applicant may, in writing, request that the assessment manager decide that, for assessing and deciding the development application, the part is taken to be in a different koala habitat classification area.
- (3) The request must be accompanied by a report, prepared by an appropriately qualified person, about the koala habitat value of the part.

10 Deciding request

- (1) The assessment manager may make the requested decision if—
- (a) for a decision that the part is taken to be a bushland habitat area—the part—
 - (i) is 2ha or more, or less than 2ha but within 50m of bushland; and
 - (ii) contains mainly forested areas of native vegetation, including areas ranging from closed canopy forest to open woodland; and

- (iii) contains a variety of trees of the *Eucalyptus* genus typically used by koalas for food, shelter, movement or dispersal; and
 - (iv) is not a plantation forest; or
- (b) for a decision that the part is taken to be a rehabilitation habitat area—the part—
 - (i) is on a lot of 0.5ha or more; and
 - (ii) contains native vegetation as forested areas, scattered trees, areas of grass and bare surfaces; and
 - (iii) contains trees that koalas typically use for food or shelter; and
 - (iv) allows for the movement and dispersal of koalas; and
 - (v) allows for genetic exchange between koalas; or
- (c) for a decision that the part is taken to be an area of koala habitat value—the part—
 - (i) is on a lot of less than 0.5ha; and
 - (ii) contains native vegetation as forested areas, scattered trees, areas of grass and bare surfaces; and
 - (iii) contains trees that koalas typically use for food or shelter; and
 - (iv) allows for the movement and dispersal of koalas; and
 - (v) allows for genetic exchange between koalas; or
- (d) for a decision that the part is taken to be an area unsuitable for koalas—the part—
 - (i) contains mainly bare and impervious surfaces; and
 - (ii) is separated from other areas of koala habitat; and
 - (iii) contains a high level of threats for koalas; and

Examples of areas that contain a high level of threats for koalas—

areas containing transport infrastructure, industrial areas, major urban centres

- (iv) is within an area of at least 10,000ha which generally does not contain koalas.
- (2) If the assessment manager makes the requested decision—
- (a) the assessment manager must give the applicant notice of the decision; and
 - (b) the part is taken, for assessing and deciding the development application, to be in the koala habitat classification area decided by the assessment manager.
- (3) If the assessment manager decides not to make the requested decision, the assessment manager must give the applicant notice of the decision, including the reasons for the decision.

Schedule 12 Particular reconfiguring a lot requiring code assessment

section 28(2) and schedule 10, part 14

1 Application of schedule

- (1) This schedule applies to reconfiguring a lot if—
 - (a) the lot is in—
 - (i) an industry zone; or
 - (ii) a residential zone, other than a park residential zone or rural residential zone; and
 - (b) the reconfiguration is the subdivision of 1 lot, other than a rear lot, into 2 lots (each a *created lot*); and
 - (c) each created lot is at least the minimum lot size for the relevant zone stated in a local instrument; and
 - (d) the reconfiguration is consistent with the purpose statement for the relevant zone stated in a local instrument.
- (2) However, this schedule does not apply if—
 - (a) all or part of the premises are in an erosion prone area or any of the following areas under a local instrument—
 - (i) a flood hazard area;
 - (ii) a bushfire hazard area;
 - (iii) a landslide hazard area;
 - (iv) a storm tide inundation area; or
 - (b) an overlay in a local instrument applies to all or part of the premises.

2 References to local instrument

In this schedule, a reference to a local instrument is a reference to a local instrument applying to the premises.

3 Assessment benchmarks

The assessment benchmarks for the reconfiguration are—

- (a) the frontage of each created lot complies with the minimum frontage requirements for the relevant zone stated in a local instrument; and
- (b) the building envelope of each created lot complies with the building envelope requirements for the relevant zone stated in a local instrument; and
- (c) the reconfiguration involves the creation of a rear lot only if the local instrument states that a rear lot is consistent with the relevant zone; and
- (d) the number of lots, including rear lots, adjoining each created lot complies with the maximum number of adjoining lots for the relevant zone stated in a local instrument; and
- (e) if the reconfiguration creates a rear lot—
 - (i) an access strip for the rear lot does not adjoin the access strip of more than 1 other rear lot; and
 - (ii) no more than 2 rear lots are accessed from the head of a single cul-de-sac; and
- (f) if a local instrument states minimum setback distances for the relevant zone—the distance of a building or structure from a boundary of a created lot complies with the minimum setback distances stated in the local instrument; and
- (g) if the reconfiguration is in a residential zone and a local instrument does not state minimum setback distances for the zone—the distance of an existing building or structure from a boundary of a created lot complies with the minimum setback distances stated in the Queensland Development Code, parts 1.1 to 1.3; and
- (h) a new building or structure on the premises—
 - (i) will comply with the Queensland Development Code, part 1.4; and

- (ii) will be outside of an existing or planned infrastructure easement; and
- (i) each created lot has access to the road network through—
 - (i) direct road frontage; or
 - (ii) an access strip; or
 - (iii) an access easement, if a local instrument states that an access easement is consistent with the relevant zone; and
- (j) access from each created lot to the road network—
 - (i) is lawful, safe and practical; and
 - (ii) is designed and built in accordance with requirements for the relevant zone stated in a local instrument, including requirements about width, length or gradient; and
- (k) if a local instrument does not state a minimum width for an access strip or access easement in the relevant zone—an access strip or access easement for a created lot has a minimum width of—
 - (i) for reconfiguring a lot in a residential zone—5m; or
 - (ii) for reconfiguring a lot in an industry zone—8m; and
- (l) if a local instrument does not state a maximum length requirement for an access strip or access easement in the relevant zone—an access strip or access easement for a created lot has a maximum length of 50m; and
- (m) if the premises are in a reticulated water area—each created lot is connected to the reticulated water supply system; and
- (n) if the premises are not in a reticulated water area—each created lot has an alternative potable water supply source that complies with the minimum storage capacity requirements for the relevant zone stated in a local instrument; and

- (o) if the premises are in an area with a sewerage service—each created lot is connected to the sewerage service; and
- (p) if the premises are not in an area with a sewerage service—each created lot has an effluent treatment and disposal system designed and built in accordance with the requirements stated in a local instrument; and
- (q) each lot is connected to a supply network and telecommunication network, if required under a local instrument; and
- (r) any other infrastructure necessary to service the lots will be provided, designed and built in accordance with the requirements stated in a local instrument; and
- (s) the release of sediment from the premises, including from erosion and sediment-laden stormwater runoff—
 - (i) is minimised during and after construction; and
 - (ii) complies with the requirements stated in a local instrument; and
- (t) filling and excavating on the premises—
 - (i) does not cause a vertical change to the natural ground level of more than 1 metre; and
 - (ii) does not result in ponding on the premises or adjoining land; and
 - (iii) complies with the requirements stated in a local instrument.

Schedule 13 Requirements for cropping involving forestry for wood production

schedule 6, sections 3 and 19

Part 1 Requirements

1 Requirements for material change of use or operational work

- (1) This section applies to—
 - (a) a material change of use of premises for cropping involving forestry for wood production; or
 - (b) operational work that is, or is necessarily associated with, harvesting trees for wood production.
- (2) A local categorising instrument is prohibited from stating that the development is assessable development in a rural zone, if—
 - (a) the use or work is at a distance of at least the separation distance stated in part 2, table 1, column 2 from a structure or thing stated in part 2, table 1, column 1 opposite the separation distance; and
 - (b) seedlings within the separation distance stated in paragraph (a) are removed if the seedlings—
 - (i) are the same species as the trees to be harvested; and
 - (ii) are not native to the local area; and
 - (c) for land with a slope of more than 10% but less than 25%—the development uses only—
 - (i) mechanical strip cultivation on the contour; or
 - (ii) spot cultivation; or
 - (iii) manual cultivation; and

-
- (d) for land with a slope of 25% or more—the development uses only—
 - (i) spot cultivation; or
 - (ii) manual cultivation; and
 - (e) the construction, operation or maintenance of a track or road for the development does not adversely affect—
 - (i) a natural drainage feature on the land; or
 - (ii) land that is subject to erosion or landslide; and
 - (f) a track or road for the development—
 - (i) is appropriately drained; and
 - (ii) has a stable surface; and
 - (g) drainage structures for a track or road for the development are regularly maintained; and
 - (h) drainage water from a track or road for the development is directed away from exposed soils and onto undisturbed ground or other areas with a stable surface; and
 - (i) for development involving a forest for wood production that is less than 40ha—a fire break that is at least 7m wide, measured from the base of the outermost tree in the forest to be harvested, is established and maintained; and
 - (j) for development involving a forest for wood production that is at least 40ha, but less than 100ha—a fire break that is at least 10m wide, measured from the base of the outermost tree in the forest to be harvested, is established and maintained; and
 - (k) for development involving a forest for wood production that is 100ha or more—
 - (i) a fire break that is at least 20m wide, measured from the base of the outermost tree in the forest to be harvested, is established and maintained; or
 - (ii) both of the following things are established and maintained—

- (A) a fire break that is at least 10m wide, measured from the base of the outermost tree in the forest to be harvested;
 - (B) a fuel reduction area immediately behind the fire break that is at least 10m wide; and
- (l) trees to be harvested in the fuel reduction area are pruned to a minimum height of 5m when the trees reach a height of 10m; and
 - (m) firebreaks are kept clear of flammable material with a height of more than 1m; and
 - (n) fire access tracks and roads that are at least 4m wide are established and maintained on the premises; and
 - (o) each part of the forest for wood production is within 250m of a fire access track or road.
- (3) Despite subsection (2)(a), the following works may be carried out within the separation distance stated in the subsection—
- (a) the construction of roads and tracks for the development;
 - (b) maintenance works for the development.
- (4) In this section—
- firebreak*** means a firebreak between—
- (a) the forest for wood production; and
 - (b) any infrastructure or neighbouring land.

Part 2 Separation distances

Column 1 Structure or thing	Column 2 Separation distance
1 A watercourse shown on the regulated vegetation management map (1:100,000) and classified as stream order 1 to 2 under the Strahler stream order classification system	5m from the defining bank of the watercourse
2 A watercourse shown on the regulated vegetation management map (1:100,000) and classified as stream order 3 to 5 under the Strahler stream order classification system	10m from the defining bank of the watercourse
3 A watercourse shown on the regulated vegetation management map (1:100,000) and classified as stream order 6 under the Strahler stream order classification system	20m from the defining bank of the watercourse
4 A State-owned protected area or forest reserve under the <i>Nature Conservation Act 1992</i>	10m from the boundary of the protected area or forest reserve
5 A category A area, category B area, category C area or category R area	10m from the boundary of the area
6 A dwelling	100m from the dwelling, or another distance that complies with the Building Code and AS 3959-2009 <i>Construction of buildings in bushfire-prone areas</i>
7 A machinery shed	A distance that is the longer of the following— (a) 25m from the machinery shed; (b) a distance from the machinery shed that equals 1.5 times the maximum height of the trees to be harvested

Table 1—Separation distances	
Column 1 Structure or thing	Column 2 Separation distance
8 A transmission grid, supply network or above-ground pipeline, that services more than 1 premises and is not the subject of an easement	A distance that is the longer of the following— (a) 25m from the structure; (b) a distance from the structure that equals 1.5 times the maximum height of the trees to be harvested

Schedule 14 Requirements for high impact earthworks in a wetland protection area

schedule 7, part 3, section 9

1 Requirements for high impact earthworks in wetland protection area

- (1) This section applies to operational work in a wetland protection area that is high impact earthworks carried out for—
 - (a) electricity operating works; or
 - (b) government supported transport infrastructure.
- (2) The operational work is accepted development if—
 - (a) the work is not carried out in a wetland in the wetland protection area; or
 - (b) both of the following apply—
 - (i) the work is not carried out within the boundary of a wetland that has been delineated and mapped in accordance with the Queensland Wetland Definition and Delineation Guidelines by, or for, the person carrying out the work;
 - (ii) the person carrying out the work gives a notice stating the work to be carried out to the chief executive (environment) before the work starts; or
 - (c) the work complies with section 2; or
 - (d) the work provides for remedial action to be carried out; or
 - (e) the person carrying out the work—
 - (i) provides a counterbalancing environmental offset; and

- (ii) gives a notice stating the work to be carried out to the chief executive (environment) before the work starts.

(3) In this section—

counterbalancing environmental offset means an environmental offset that—

- (a) counterbalances any significant adverse impacts of the operational work; and
- (b) is calculated in accordance with any relevant environmental offsets policy under the *Environmental Offsets Act 2014*.

Queensland Wetland Definition and Delineation Guidelines means the Queensland Wetland Definition and Delineation Guidelines published by the department in which the Environmental Protection Act is administered.

2 Criteria for operational work

- (1) For section 1(2)(c), the operational work must comply with the following criteria—
 - (a) the operational work is not carried out within a buffer around all wetlands in the wetland protection area that—
 - (i) for a wetland in an urban area—is at least 50m wide; or
 - (ii) for a wetland not in an urban area—is at least 200m wide; or
 - (iii) has the minimum width stated in an environmental evaluation of the wetland;
 - (b) the operational work—
 - (i) results in a net ecological benefit to, and improvement of, the environmental values and functioning of all wetlands in the wetland protection area; or

-
- (ii) involves rehabilitation of the hydrological regime of all wetlands in the wetland protection area; or
 - (iii) involves restoring the natural hydrological regime of all wetlands in the wetland protection area; or
 - (iv) does not adversely affect the surface water hydrological regime of any wetland in the wetland protection area; or
 - (v) minimises adverse impacts on the surface water hydrological regime of all wetlands in the wetland protection area by—
 - (A) ensuring there is no change to the reference high-flow duration frequency curve, the low-flow duration frequency curve, the low-spells frequency curve, and the mean annual flow to and from each wetland; and
 - (B) ensuring stream flows into each wetland comply with the environmental flow objectives stated in a water plan under the Water Act applying to the wetland; and
 - (C) if the work will result in an increased volume or velocity of stormwater flows into a wetland—collecting and re-using the stormwater;
 - (c) the operational work returns the water table and hydrostatic pressure in the wetland protection area to their natural state, or both of the following apply—
 - (i) saline water does not enter freshwater aquifers in the wetland protection area;
 - (ii) the water table and hydrostatic pressure in the wetland protection area are not lowered or raised outside of the bounds of variability existing immediately before the operational work starts;
 - (d) the operational work—
 - (i) does not change the quantity or quality of stormwater entering any wetland in the wetland protection area; or

- (ii) results in a change to the quantity or quality of stormwater entering a wetland in the wetland protection area, but the change does not cause the stormwater to be inconsistent with any water quality guidelines and water quality objectives under the *Environmental Protection (Water and Wetland Biodiversity) Policy 2019*; or
 - (iii) minimises adverse impacts on the wetland protection area caused by stormwater entering the area;
- (e) the operational work does not involve clearing vegetation in any wetland in the wetland protection area or in a buffer under paragraph (a);
- (f) the operational work—
 - (i) is not in a buffer under paragraph (a); or
 - (ii) avoids degrading land in the wetland protection area by using engineering designs and solutions for the horizontal and vertical alignment of infrastructure; or
 - (iii) complies with an erosion and sediment control plan for the wetland protection area;
- (g) the operational work—
 - (i) is not within an ecological corridor in the wetland protection area; or
 - (ii) is not within an ecological corridor that is established and maintained in accordance with the *Wetland Rehabilitation Guidelines for the Great Barrier Reef Catchment* prepared by Wetland Care Australia for the Commonwealth Government; or
 - (iii) does not adversely affect the movement of fauna that may use or move through a wetland in the wetland protection area as part of the fauna's normal life cycle;
- (h) the operational work—

-
- (i) provides for the removal of non-native pest species from the wetland protection area; or
 - (ii) includes pest management practices for non-native pest species in the wetland protection area that protect the long-term functioning of wetlands in the area; or
 - (iii) does not result in the introduction of non-native pest species to a wetland in the wetland protection area; or
 - (iv) provides pest dispersal prevention measures that manage the threat of non-native pest species to wetlands in the wetland protection area, but do not interfere with the movement of native fauna in the wetland protection area;
- (i) the operational work—
 - (i) does not cause noise, light or visual disturbances to native fauna in the wetland protection area; or
 - (ii) complies with a noise, light and visual disturbances report;
 - (j) a monitoring plan is prepared and implemented to monitor the effects of the operational work on the ecological and hydrological functioning of the wetlands in the wetland protection area.

(2) In this section—

environmental evaluation, of a wetland, means an evaluation—

- (a) of the environmental values and functioning of the wetland, including threats to the wetland; and
- (b) that is carried out by an appropriately qualified person in accordance with the Queensland Wetland Buffer Guideline published by the department in which the Environmental Protection Act is administered.

noise, light and visual disturbances report means a report prepared by a qualified ecologist, or a person with similar experience, that—

- (a) assesses the impacts of noise, light and visual disturbances on native fauna in the wetland protection area; and
- (b) recommends measures for mitigating any impacts.

Schedule 15 Required fee for particular change applications and extension applications

section 39

Column 1	Column 2	Column 3
	Type of application	Required fee
1	Change application for a minor change to a development approval— (a) if the development approval was given for a prescribed development application— (i) made by a registered non-profit organisation; or (ii) to which section 38 applied (b) otherwise	\$827.50 \$1,655.00
2	Change application other than for a minor change to a development approval	The fee that would be payable to the assessment manager if the change application were a development application
3	Extension application— (a) if the development approval that the extension application relates to was given for a prescribed development application made by a registered non-profit organisation (b) otherwise	\$413.50 \$827.00

Schedule 16 Prescribed amount

section 52

Notes—

- 1 This schedule was inserted by amending legislation that commenced on 1 July 2019.
- 2 See also section 112(2) of the Act.

Table 1—Prescribed amount	
Column 1	Column 2
Use	Prescribed amount
Residential uses	
1 Dwelling house	1 \$20,956.80 for each dwelling with 2 or less bedrooms
2 Dual occupancy	
3 Caretaker’s accommodation	2 \$29,339.55 for each dwelling with 3 or more bedrooms
4 Multiple dwelling	
Accommodation (short-term)	
1 Tourist park	1 If the tourist park has tent or caravan sites— (a) \$10,478.40 for each group of 2 sites or less (b) \$14,669.75 for each group of 3 sites 2 If the tourist park has cabins— (a) \$10,478.40 for each cabin with 2 or less bedrooms (b) \$14,669.75 for each cabin with 3 or more bedrooms
2 Hotel	1 \$10,478.40 for each suite with 2 or less bedrooms
3 Short-term accommodation	2 \$14,669.75 for each suite with 3 or more bedrooms
4 Resort complex	3 \$10,478.40 for each bedroom that is not part of a suite

Table 1—Prescribed amount	
Column 1	Column 2
Use	Prescribed amount
Accommodation (long-term)	
1 Relocatable home park	1 \$20,956.80 for each relocatable dwelling site for 2 or less bedrooms 2 \$29,339.55 for each relocatable dwelling site for 3 or more bedrooms
2 Community residence 3 Retirement facility 4 Rooming accommodation	1 \$20,956.80 for each suite with 2 or less bedrooms 2 \$29,339.55 for each suite with 3 or more bedrooms 3 \$20,956.80 for each bedroom that is not part of a suite
Places of assembly	
1 Club 2 Community use 3 Function facility 4 Funeral parlour 5 Place of worship	1 \$73.35 for each square metre of gross floor area 2 \$10.50 for each square metre impervious to stormwater
Commercial (bulk goods)	
1 Agricultural supplies store 2 Bulk landscape supplies 3 Garden centre 4 Hardware and trade supplies 5 Outdoor sales 6 Showroom	1 \$146.70 for each square metre of gross floor area 2 \$10.50 for each square metre impervious to stormwater
Commercial (retail)	

Table 1—Prescribed amount	
Column 1	Column 2
Use	Prescribed amount
1 Adult store 2 Food and drink outlet 3 Service industry 4 Service station 5 Shop 6 Shopping centre	1 \$188.60 for each square metre of gross floor area 2 \$10.50 for each square metre impervious to stormwater
Commercial (office)	
1 Office 2 Sales office	1 \$146.70 for each square metre of gross floor area 2 \$10.50 for each square metre impervious to stormwater
Educational facility	
1 Childcare centre 2 Community care centre 3 Educational establishment	1 \$146.70 for each square metre of gross floor area 2 \$10.50 for each square metre impervious to stormwater
Entertainment	
1 Hotel 2 Nightclub entertainment facility 3 Theatre 4 Resort complex	1 \$209.55 for each square metre of gross floor area, other than areas for providing accommodation 2 \$10.50 for each square metre impervious to stormwater
Indoor sport and recreation	
1 Indoor sport and recreation	1 \$209.55 for each square metre of gross floor area, other than court areas 2 \$20.90 for each square metre of gross floor area that is a court area 3 \$10.50 for each square metre impervious to stormwater

Table 1—Prescribed amount	
Column 1	Column 2
Use	Prescribed amount
High impact industry or special industry	
1 High impact industry 2 Special industry	1 \$73.35 for each square metre of gross floor area 2 \$10.50 for each square metre impervious to stormwater
Other industry	
1 Low impact industry 2 Medium impact industry 3 Research and technology industry 4 Rural industry 5 Warehouse 6 Marine industry	1 \$52.40 for each square metre of gross floor area 2 \$10.50 for each square metre impervious to stormwater
High impact rural	
1 Cultivating, in a confined area, aquatic animals or plants for sale 2 Intensive animal industry 3 Intensive horticulture 4 Wholesale nursery 5 Winery	1 \$20.90 for each square metre of gross floor area
Low impact rural	
1 Animal husbandry 2 Cropping 3 Permanent plantation 4 Wind farm	Nil
Essential services

Schedule 17 Tribunal fees

section 56

	\$
1 Declaration under the Act, chapter 6, part 2, division 2	276.55
2 Appeal about a development application, change application or extension application involving a material change of use for a classified building—	
(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	407.15
(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	677.40
3 Appeal about an enforcement notice, if the notice relates to a material change of use for a classified building—	
(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	407.15
(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	677.40
4 Appeal about a development condition stated in the Act, schedule 1, section 1(2)(d)—	
(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	407.15
(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	677.40

§

- 5 Appeal about a development application, change application or extension application involving building work under the Building Act relating to a class 1 building or class 10 building or structure—
- (a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal 407.15
- (b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal 677.40
- 6 Appeal about a decision under the Building Act, or the *Plumbing and Drainage Act 2018*, that may be made to a tribunal and for which an information notice is required to be given, if the decision relates to a class 1 building or class 10 building or structure—
- (a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal 407.15
- (b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal 677.40
- 7 Appeal about a decision under the Building Act about the inspection of building work, if the decision relates to a class 1 building or class 10 building or structure—
- (a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal 407.15
- (b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal 677.40
- 8 Appeal about an enforcement notice, if the notice relates to a class 1 building or class 10 building or structure—

		\$
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	407.15
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	677.40
9	Appeal about a decision under the Residential Services Act, section 29, if the decision relates to a class 1 building or class 10 building or structure—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	407.15
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	677.40
10	Appeal about a development application, change application or extension application involving building work under the Building Act relating to a class 2, 3, 4, 5, 6, 7, 8 or 9 building with a floor area of 500m ² or less—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	593.20
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	855.95
11	Appeal about a decision under the Building Act, or the <i>Plumbing and Drainage Act 2018</i> , that may be made to a tribunal and for which an information notice is required to be given, if the decision relates to a class 2, 3, 4, 5, 6, 7, 8 or 9 building with a floor area of 500m ² or less—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	593.20

		\$
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	855.95
12	Appeal about a decision under the Building Act about the inspection of building work, if the decision relates to a class 2, 3, 4, 5, 6, 7, 8 or 9 building with a floor area of 500m ² or less—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	593.20
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	855.95
13	Appeal about an enforcement notice, if the notice relates to a class 2, 3, 4, 5, 6, 7, 8 or 9 building with a floor area of 500m ² or less—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	593.20
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	855.95
14	Appeal about a decision under the Residential Services Act, section 29, if the decision relates to a class 2, 3, 4, 5, 6, 7, 8 or 9 building with a floor area of 500m ² or less—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	593.20
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	855.95

	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	713.85
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	984.15
21	Appeal under the SEQ Water Act, section 99BRBE—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	407.15

		\$
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	677.40
22	Appeal under the SEQ Water Act, section 99BRBF—	
	(a) for an appeal about a review decision relating to a decision to give an infrastructure charges notice—	
	(i) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	713.85
	(ii) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	984.15
	(b) otherwise	689.75
23	Appeal under the SEQ Water Act, section 99BRBFA—	
	(a) if the appeal is to be decided by a tribunal without a site inspection by the tribunal or a member of the tribunal	713.85
	(b) if the appeal is to be decided by a tribunal after a site inspection by the tribunal or a member of the tribunal	984.15

Schedule 18 **Approving plans of subdivision**

section 69

1 Request for approval of plan of subdivision

- (1) A person may, by notice, ask a local government to approve a plan of subdivision for reconfiguring a lot.
- (2) The request—
 - (a) if the local government has a form for the request—must be in that form; and
 - (b) must be accompanied by the required fee.
- (3) If the request relates to reconfiguring a lot that is approved under a development permit, the request may be made only if the development permit is in effect.
- (4) If a development condition of a development permit requires the plan of subdivision to be given to the local government, the request must be made—
 - (a) if the development permit states a date by which the request must be made—on or before the stated date; or
 - (b) otherwise—within 2 years after the development permit takes effect, or the longer period agreed between the person and the local government.

2 Assessing request

- (1) If the request relates to a plan of subdivision for reconfiguring a lot that is approved under a development permit, or a plan of subdivision required under a development condition of a development permit, the request must be assessed against the following criteria—
 - (a) the development conditions of the development permit about the reconfiguration have been complied with, or the applicant has given satisfactory security to the local government to ensure compliance with the conditions;

- (b) for a reconfiguration requiring operational work—
 - (i) the development conditions of the development permit about the operational work have been complied with; or
 - (ii) the applicant has given satisfactory security to the local government to ensure compliance with the development conditions;
 - (c) there are no outstanding rates or charges levied by the local government or expenses that are a charge over the land under any Act;
 - (d) the plan has been prepared in accordance with the development permit;
 - (e) the conditions of a water approval under the SEQ Water Act have been complied with;
 - (f) there are no outstanding fees or charges levied by a distributor-retailer under the SEQ Water Act.
- (2) If the request relates to a plan of subdivision for reconfiguring a lot that is not assessable development, the request must be assessed against the following criteria—
- (a) the plan is consistent with any development permit relevant to the premises;
 - (b) there are no outstanding rates or charges levied by the local government or expenses that are a charge over the land under any Act;
 - (c) the conditions of a water approval under the SEQ Water Act have been complied with;
 - (d) there are no outstanding fees or charges levied by a distributor-retailer under the SEQ Water Act.

3 Deciding request

- (1) If the request complies with the criteria for the request stated in section 2, the local government must approve the request.
- (2) The local government must give notice of the approval to the person making the request within—

- (a) if the request complies with the criteria stated in section 2 when it is received by the local government—
20 business days after it is received; or
 - (b) if the request does not comply with the criteria stated in section 2 when it is received by the local government—
20 business days after the person gives notice to the local government that the criteria stated in section 2 have been complied with; or
 - (c) another period agreed between the local government and the person making the request.
- (3) If the Act that the plan of subdivision is to be registered or recorded under requires a particular form for the registration or recording, the notice must be in that form.

Schedule 19 Special fire services and matters for referral agency's assessment

schedule 9, part 3, division 3

Part 1 Special fire services

- 1 air-handling systems used for smoke control
- 2 emergency lifts
- 3 sound systems and intercom systems for emergency purposes
- 4 fire control centres
- 5 fire detection and alarm systems, other than—
 - (a) stand-alone smoke alarms not required to be interconnected or connected to a fire indicator panel; or
 - (b) smoke alarms in a class 1 building that are required to be interconnected; or
 - (c) smoke alarms in a sole-occupancy unit in a class 2, 3 or 4 building that are required to be interconnected
- 6 fire hydrants
- 7 fire mains, other than fire mains that connect only fire hose reels
- 8 services provided under conditions imposed under the Building Act, section 79
- 9 services required under the Building Code, volume 1, part E1.10
- 10 smoke and heat venting systems
- 11 smoke exhaust systems
- 12 special automatic fire suppression systems, including foam, deluge and gas flooding systems

- suitability of contents, ventilation, signage, lighting and sound levels of control centre

Fire detection and alarm systems, other than stand-alone smoke alarms not required to be interconnected or connected to a fire indicator panel

- achievement of specified performance of detection and alarm systems
- location and operation of main fire indicator panel, sub-indicator panels, mimic panels, repeater panels, strobe lights and directional signs
- operation of direct fire service alarm
- suitability of nominated types of detection in all areas, and the location of manual call points
- suitability of weather protection, accessibility and lighting of equipment
- if the sensitivity of a fire detection or alarm system can be changed—suitability of the sensitivity setting having regard to the location of the system and the Australian Standard for that system

Firefighting equipment

- achievement of specified performance
- location and suitability of booster connections and enclosures
- location and suitability of internal and roof hydrants and external hydrants including fire separation from neighbouring buildings
- operation of fixed pump-set controls and status indication
- provision of extra hydrant services as stated in AS 2419
- provision of suitable facilities for testing internal hydrants

- provisions for connection of fire authority portable relay booster pump
- provisions for hardstanding for fire appliances

Hazardous buildings

- suitability of special fire services and site requirements for hazardous buildings stated in the Building Act, section 79

Provision for special fire hazards

- suitability of special fire services for the protection of special hazards as stated in the Building Code, volume 1, part E1.10

Special automatic fire suppression systems

- achievement of specified performance
- location of control valves
- provision of access for fire service vehicles
- provision of interface with other systems and direct fire service alarm
- suitability of extinguishment media

Sprinklers

- operation of direct fire service alarm and location of directional signs
- operation of pump-set controls and status indications
- provision of suitable fire protection for special hazards as stated in AS 2118
- location of valve room, pump-sets, water alarm and booster point

Wall-wetting sprinklers

- location of isolating valves
- provision of suitable signs

Large isolated buildings

- suitability of site provisions for access by fire service vehicles

Schedule 20 Development impacting on State transport infrastructure and thresholds

schedule 10, part 9, division 4, subdivision 1

Column 1 Purpose	Column 2 Threshold for local government area 1	Column 3 Threshold for local government area 2
Material change of use		
1 Accommodation activity that is 1, or a combination, of the following— (a) a dual occupancy; (b) a dwelling house; (c) a multiple dwelling; (d) non-resident workforce accommodation; (e) a relocatable home park; (f) a retirement facility; (g) rooming accommodation; (h) rural workers' accommodation	200 dwellings	50 dwellings
2 Accommodation activity that is 1, or a combination, of the following— (a) nature-based tourism; (b) a resort complex; (c) short-term accommodation; (d) a tourist park	Premises designed to accommodate 300 people	Premises designed to accommodate 75 people

Column 1 Purpose	Column 2 Threshold for local government area 1	Column 3 Threshold for local government area 2
3 Club 4 Hotel 5 Function facility 6 Theatre	8,000m ² increase of gross floor area or seating capacity for 1,500 people	4,000m ² gross floor area or seating capacity for 1,500 people
7 Shop 8 Showroom 9 Shopping centre (including theatres, food and drink outlets and offices) 10 Hardware and trade supplies	8,000m ² increase of gross floor area	4,000m ² gross floor area
11 Office	12,000m ² increase of gross floor area	6,000m ² gross floor area
12 Hospital 13 Residential care facility	100 beds	50 beds
14 Educational establishment that is 1, or a combination, of the following— (a) a primary school; (b) a secondary school; (c) a college; (d) a university; (e) a technical institute	All new establishments and extensions to establishments likely to accommodate an extra 100 students	All new establishments and extensions to establishments likely to accommodate an extra 100 students
15 Tourist attraction 16 Major sport, recreation and entertainment facility	5,000m ² total site area or, if totally indoor, 8,000m ² increase of gross floor area	5,000m ² total site area or, if totally indoor, 4,000m ² gross floor area
17 Extractive industry 18 High impact industry, other than an abattoir 19 Special industry	Using machinery having an annual throughput of product of 10,000t	Using machinery having an annual throughput of product of 10,000t

Column 1 Purpose	Column 2 Threshold for local government area 1	Column 3 Threshold for local government area 2
20 Intensive animal industry 21 High impact industry that is an abattoir	Total facility capacity of— (a) for cattle— 2,000 head; or (b) for pigs—3,000 head; or (c) for sheep— 10,000 head; or (d) for poultry— 200,000 birds	Total facility capacity of— (a) for cattle— 2,000 head; or (b) for pigs—3,000 head; or (c) for sheep— 10,000 head; or (d) for poultry— 200,000 birds
22 A use that is 1, or a combination, of the following— (a) warehouse; (b) medium impact industry; (c) low impact industry	16,000m ² gross floor area (combined total of uses)	8,000m ² gross floor area (combined total of uses)
23 Car park (including heavy vehicle parking)	5,000m ² total site area	5,000m ² total site area
24 Airport, bus or ferry terminal	All	All
Reconfiguring a lot		
25 Accommodation activity that is 1, or a combination, of the following— (a) a dual occupancy; (b) a dwelling house; (c) a multiple dwelling; (d) non-resident workforce accommodation; (e) a relocatable home park; (f) a retirement facility; (g) rooming accommodation; (h) rural workers' accommodation	200 dwellings	50 dwellings

Column 1 Purpose	Column 2 Threshold for local government area 1	Column 3 Threshold for local government area 2
26 Accommodation activity that is 1, or a combination, of the following— (a) nature-based tourism; (b) a resort complex; (c) short-term accommodation; (d) a tourist park	Premises designed to accommodate 300 people	Premises designed to accommodate 75 people
27 Agricultural supplies store 28 Bulk landscape supplies 29 Food and drink outlet 30 Garden centre 31 Hardware and trade supplies 32 Market 33 Office 34 Outdoor sales 35 Parking station 36 Sales office 37 Service station 38 Shop 39 Shopping centre 40 Showroom 41 Veterinary service	12,000m ² total site area (combined total)	3,000m ² total site area (combined total)
42 Industry activity	32,000m ² total site area (combined total)	16,000m ² total site area (combined total)
Operational works		
43 Filling or excavating not related to a material change of use or reconfiguring a lot	10,000t	10,000t

Schedule 21 Exempt clearing work

schedule 24, definition *exempt clearing work*

Part 1 Clearing and other activities or matters—general

1 Clearing and other activities or matters for premises generally

- (1) Clearing vegetation under a development approval for a material change of use or reconfiguring a lot, if—
 - (a) the approval is for a development application for which the chief executive is a referral agency in relation to vegetation clearing; or
 - (b) the approval is for a development application—
 - (i) that relates only to lots of less than 5ha; and
 - (ii) for which a local government is the prescribed assessment manager.
- (2) Clearing an area of vegetation within a watercourse, as defined under the Vegetation Management Act, schedule, or a lake for an activity, other than an activity relating to a material change of use or reconfiguring a lot, if—
 - (a) the clearing is—
 - (i) subject to an approval process, and is approved under the Act or another Act; or
 - (ii) a necessary and unavoidable consequence of an activity allowed by a permit given under the Water Act, section 221; or
 - (iii) a necessary and unavoidable consequence of an activity carried out under the Riverine Protection Permit Exemption Requirements; and
 - (b) either—

- (i) the clearing is under an accepted development vegetation clearing code, other than if the vegetation is in a category A area; or
 - (ii) the area is less than 0.5ha of a least concern regional ecosystem in a category B area; or
 - (iii) the area is less than 0.5ha in a category C, R or X area.
- (3) Clearing vegetation in an area declared under the Vegetation Management Act, section 19F, if the clearing is carried out—
 - (a) under the management plan for the area; and
 - (b) for—
 - (i) 1 or more purposes stated in the Vegetation Management Act, section 22A(2)(b), (c), (f), (g), (h) or (j); or
 - (ii) establishing a necessary fence, firebreak, road or vehicular track and the clearing can not reasonably be avoided or minimised.
- (4) Clearing vegetation—
 - (a) under a land management agreement for a lease under the Land Act; and
 - (b) for 1 or more of the purposes stated in the Vegetation Management Act, section 22A(2)(b), (c), (d), (f), (g), (h) or (j).
- (5) A traditional Aboriginal or Torres Strait Islander cultural activity, other than a commercial activity.
- (6) A resource activity as defined under the Environmental Protection Act, section 107.
- (7) Development for geothermal exploration carried out under a geothermal exploration permit under the *Geothermal Energy Act 2010*.
- (8) Clearing vegetation, for an airport-related purpose, on airport premises.
- (9) An activity under the Fire and Emergency Services Act, section 53, 68 or 69.

-
- (10) An activity under—
- (a) the Electricity Act, section 101 or 112A; or
 - (b) the *Electricity Regulation 2006*, section 17.
- (11) An activity authorised under the Forestry Act.
- (12) Clearing vegetation on premises in an area for which an area management plan under the Vegetation Management Act, section 20J is in force at the time of the clearing, if—
- (a) the owner of the premises, within the meaning of that Act, or a person authorised by the owner, does the clearing; and
 - (b) the clearing complies with the area management plan, including any condition of the plan requiring the owner to give notice of the clearing to the chief executive of the department in which that Act is administered.
- (13) Clearing vegetation on land stated in the Forestry Act, section 55(1)(b), (c) or (d) to the extent the clearing is for accessing and extracting quarry material for road works under the Transport Infrastructure Act.
- (14) Clearing vegetation for the construction or maintenance of infrastructure stated in schedule 5, if—
- (a) the clearing is on designated premises; or
 - (b) the infrastructure is government supported transport infrastructure.
- (15) Clearing vegetation in an area for which a disaster situation declaration has been made, if the clearing—
- (a) is necessary to prevent or minimise—
 - (i) loss of human life, or illness or injury to humans; or
 - (ii) property loss or damage; or
 - (iii) damage to the environment; and
 - (b) happens during the period starting when the disaster situation declaration was made and ending on the later of the following days—

- (i) the day that is 1 year after the day on which the disaster situation declaration was made;
 - (ii) another day decided by the chief executive by notice.
- (16) Clearing vegetation that is necessary to carry out a cadastral survey of an existing property boundary, geotechnical survey or geological survey, if the area cleared is—
 - (a) for an area in which the survey is conducted—a maximum area of 100m²; and
 - (b) for an area necessary for reasonable access to the area in which the survey is conducted—a maximum of 10m wide.
- (17) Clearing vegetation that is necessary to remediate contaminated land recorded in the environmental management register or contaminated land register.
- (18) Clearing vegetation that is necessary to carry out activities authorised to be carried out at land on which an abandoned mine exists under the *Mineral Resources Act 1989*, section 344A.
- (19) Clearing vegetation that the Vegetation Management Act does not apply to or affect.

Note—

For clearing vegetation that the Vegetation Management Act does not affect, see, for example, section 74 of that Act.

- (19A) Clearing vegetation in accordance with a restoration notice under the Vegetation Management Act or an enforcement notice under the Act if the clearing is carried out for—
 - (a) 1 or more of the purposes stated in the Vegetation Management Act, section 22A(2)(b), (c), (g) or (j); or
 - (b) establishing a necessary fence, firebreak, road or vehicular track and the clearing can not reasonably be avoided or minimised.
- (20) In this section—

airport premises means premises used, or to be used, completely or partly for an airport-related purpose.

airport-related purpose means—

- (a) the construction, operation or maintenance of a strategic airport, including—
 - (i) air transport infrastructure; and
 - (ii) core airport infrastructure on airport land; or
- (b) an activity or facility supporting the economical, efficient or safe functioning of a strategic airport; or

Examples for paragraph (b)—

- manufacturing aircraft or aircraft components
- servicing aircraft

- (c) an activity or facility supporting the financial viability of a strategic airport; or

Examples for paragraph (c)—

- operating an air charter business or air freight depot
- operating a flight training or skydiving business

- (d) for premises on airport land—development consistent with the land use plan for the airport land.

disaster situation declaration, for an area, means a declaration of a disaster situation for the area under the *Disaster Management Act 2003*, section 64 or 69 if—

- (a) the declaration relates to an event stated in section 16(1)(a) of that Act; and
- (b) the disaster situation has not ended under section 71 of that Act.

management plan, for an area declared under the *Vegetation Management Act*, section 19F, means the management plan for the area that accompanied the notice given by the owner of the land under section 19E of that Act, as amended from time to time.

remediate, contaminated land, see the *Environmental Protection Act*, schedule 4.

Riverine Protection Permit Exemption Requirements means the document called the ‘Riverine Protection Permit Exemption Requirements’ that is—

- (a) approved by the chief executive of the department in which the Water Act is administered; and
- (b) published on that department's website.

Part 2 Clearing for particular land

2 Freehold land

For freehold land, clearing vegetation—

- (a) for a forest practice; or
- (b) that is residential clearing; or
- (c) that is necessary for essential management; or
- (d) in a category X area; or
- (e) that is PDA-related development; or
- (f) under an accepted development vegetation clearing code, other than clearing in a category A area; or
- (g) that is the following vegetation, if the clearing is for urban purposes in an urban area—
 - (i) regulated regrowth vegetation;
 - (ii) an of concern regional ecosystem in a category B area;
 - (iii) a least concern regional ecosystem in a category B area; or
- (h) that is the following vegetation, if the clearing is necessary for routine management in an area of the land—
 - (i) regulated regrowth vegetation;
 - (ii) a least concern regional ecosystem in a category B area; or
- (i) for development—

- (i) that is for an extractive industry, as defined under the Vegetation Management Act, schedule, in a key resource area; and
- (ii) to the extent the clearing involves clearing regulated regrowth vegetation, other than in a category A area; or
- (j) for development—
 - (i) that is a significant community project; and
 - (ii) to the extent the clearing involves clearing regulated regrowth vegetation, other than in a category A area.

3 Indigenous land

For indigenous land, clearing vegetation—

- (a) for a forest practice, other than on land on which the State owns the trees; or
- (b) for residential clearing; or
- (c) that is necessary for essential management; or
- (d) in a category X area; or
- (e) that is PDA-related development; or
- (f) under an accepted development vegetation clearing code, other than in a category A area; or
- (g) that is gathering, digging or removing forest products for use under the *Aboriginal and Torres Strait Islander Communities (Justice, Land and Other Matters) Act 1984*, section 62; or
- (h) that is the following vegetation, if the clearing is for urban purposes in an urban area—
 - (i) regulated regrowth vegetation;
 - (ii) an of concern regional ecosystem in a category B area;
 - (iii) a least concern regional ecosystem in a category B area; or

- (i) that is necessary for routine management in an area of the land, if the vegetation is—
 - (i) regulated regrowth vegetation; or
 - (ii) a least concern regional ecosystem in a category B area; or
- (j) for development—
 - (i) that is for an extractive industry, as defined under the Vegetation Management Act, schedule, in a key resource area; and
 - (ii) to the extent the clearing involves clearing regulated regrowth vegetation, other than in a category A area; or
- (k) for development—
 - (i) that is a significant community project; and
 - (ii) to the extent the clearing involves clearing regulated regrowth vegetation, other than in a category A area.

4 Land leased under Land Act

- (1) For land leased under the Land Act for agriculture or grazing purposes, clearing vegetation—
 - (a) that is residential clearing; or
 - (b) that is necessary for essential management; or
 - (c) in a category X area; or
 - (d) under an accepted development vegetation clearing code, other than in a category A area; or
 - (e) that is necessary for routine management in an area of the land, if the vegetation is—
 - (i) regulated regrowth vegetation; or
 - (ii) a least concern regional ecosystem in a category B area; or
 - (f) for development—

- (i) that is for an extractive industry, as defined under the Vegetation Management Act, schedule, in a key resource area; and
 - (ii) to the extent the clearing involves clearing regulated regrowth vegetation, other than in a category A area; or
 - (g) for development—
 - (i) that is a significant community project; and
 - (ii) to the extent the clearing involves clearing regulated regrowth vegetation, other than in a category A area.
- (2) For land leased under the Land Act, other than for agriculture or grazing purposes, clearing vegetation that is consistent with the purposes of the lease, if the clearing—
- (a) is residential clearing; or
 - (b) is necessary for essential management; or
 - (c) is in a category R area or category X area; or
 - (d) is under an accepted development vegetation clearing code, other than in a category A area; or
 - (e) is for urban purposes in an urban area and involves clearing vegetation that is—
 - (i) regulated regrowth vegetation; or
 - (ii) an of concern regional ecosystem in a category B area; or
 - (iii) a least concern regional ecosystem in a category B area; or
 - (f) is necessary for routine management in an area of the land and the vegetation is—
 - (i) regulated regrowth vegetation; or
 - (ii) a least concern regional ecosystem in a category B area.

5 Land dedicated as a road under Land Act

For land that is dedicated as a road under the Land Act, clearing vegetation—

- (a) that is carried out by a local government, or by or for the chief executive (transport), if the clearing—
 - (i) is necessary to construct or maintain road transport infrastructure or to source construction material for roads; or
 - (ii) is a category R area or category X area; or
- (b) that is carried out by a local government—
 - (i) to remove vegetation that is not native vegetation; or
 - (ii) in accordance with a biosecurity plan made by the local government under the *Biosecurity Act 2014*; or
- (c) that is necessary to remove or reduce the imminent risk that the vegetation poses of serious personal injury or damage to infrastructure; or
- (d) by fire under the Fire and Emergency Services Act to reduce hazardous fuel load; or
- (e) that is necessary to maintain infrastructure on the road, other than fences; or
- (f) that is necessary to maintain a boundary fence to the maximum width of 3m; or
- (g) that is necessary for reasonable access to adjoining land from the formed road for a maximum width of 10m; or
- (h) that is necessary to maintain a firebreak or garden on the road; or
- (i) under an accepted development vegetation clearing code, other than in a category A area.

6 Particular trust land under Land Act

For land that is trust land under the Land Act, other than indigenous land, clearing vegetation—

- (a) that is carried out, or allowed to be carried out, by the trustee; and
- (b) that is consistent with achieving the purpose of the trust; and
- (c) that—
 - (i) is necessary for essential management; or
 - (ii) is in a category R area or category X area; or
 - (iii) is to remove vegetation that is not native vegetation; or
 - (iv) is in accordance with a relevant biosecurity plan under the *Biosecurity Act 2014*; or
 - (v) is for urban purposes in an urban area and the vegetation is an of concern regional ecosystem, or a least concern regional ecosystem, in a category B area; or
 - (vi) is necessary for routine management in an area of the land, if the vegetation is a least concern regional ecosystem in a category B area; or
 - (vii) is under an accepted development vegetation clearing code, other than in a category A area.

7 Unallocated State land

For land that is unallocated State land, clearing vegetation—

- (a) that is carried out, or allowed to be carried out, by the chief executive of the department in which the Land Act is administered; and
- (b) that—
 - (i) is necessary for essential management; or
 - (ii) is to control declared pests or vegetation that is not native vegetation; or

- (iii) is PDA-related development; or
- (iv) is in a category R area or category X area; or
- (v) is necessary for routine management in an area of the land, if the vegetation is a least concern regional ecosystem in a category B area; or
- (vi) is under an accepted development vegetation clearing code, other than in a category A area.

8 Land subject to a licence or permit under Land Act

For land that is subject to a licence or permit under the Land Act, clearing vegetation—

- (a) that is carried out by the licensee or permittee; and
- (b) that—
 - (i) is necessary for essential management; or
 - (ii) is PDA-related development; or
 - (iii) is in a category R area or category X area; or
 - (iv) is for urban purposes in an urban area, if the vegetation is—
 - (A) regulated regrowth vegetation; or
 - (B) an of concern regional ecosystem in a category B area; or
 - (C) a least concern regional ecosystem in a category B area; or
 - (v) is necessary for routine management in an area of the land, if the vegetation is a least concern regional ecosystem in a category B area or regulated regrowth vegetation; or
 - (vi) is under an accepted development vegetation clearing code, other than in a category A area.

Schedule 22 Publicly accessible documents

section 70

Part 1 Local governments

1 Documents local government must keep available for inspection and purchase

- (1) A local government must keep the following documents available for inspection and purchase—
 - (a) each current State planning instrument that applies to the local government area;
 - (b) each public notice repealing a State planning instrument that applied to the local government area;
 - (c) each current local planning instrument for the local government area, including any LGIP;
 - (d) each notice, and any amended notice, given by the chief executive to the local government under section 18(3) of the Act;
 - (e) each proposed local planning instrument for the local government area, including any proposed amendments of a local planning instrument;
 - (f) each amendment of a local planning instrument made by the local government;
 - (g) each public notice published by the local government about—
 - (i) making or amending, or proposing to make or amend, a local planning instrument; or
 - (ii) repealing a TLPI or planning scheme policy; or
 - (iii) reviewing a planning scheme;
 - (h) a copy of any written reasons given to the chief executive under section 25(2)(a) of the Act;

- (i) each superseded planning scheme for the local government area;
- (j) each repealed or expired TLPI for the local government area;
- (k) each explanatory statement, report, study, supporting material or document used in the preparation of a local planning instrument or LGIP for the local government area;
- (l) each document mentioned in the local government's LGIP;
- (m) any notice given to the local government by the Minister under section 26 or 27 of the Act;
- (n) a report, mentioned in section 30(5) of the Act, prepared by the local government;
- (o) each current designation made by the local government;
- (p) a designation register for all designations made by the local government that are in effect;
- (q) any notice given to the local government by the Minister under section 37(2) or (5), 38(2), 39(3)(a) or 40(2)(a) of the Act;
- (r) any notice given or published by the local government under section 37(6) of the Act about making or amending a designation;
- (s) any notice given by the local government under section 38(2), 39(3)(b) or 40(2)(b) of the Act;
- (t) each exemption certificate given by or to the local government under section 46 of the Act;
- (u) an exemption certificate register;
- (v) if the local government keeps a list of persons who are appropriately qualified to be an assessment manager for a development application—the list of persons, including—
 - (i) the date each person was included on the list; and

- (ii) the qualifications, contact details and website address of each person on the list;
- (w) any direction given to the local government under section 96 of the Act;
- (x) each charges resolution of the local government;
- (y) an infrastructure charges register;
- (z) each infrastructure agreement that the local government is a party to, or a copy of which is given to the local government under section 153 of the Act;
- (za) each breakup agreement that the local government is a party to;
- (zb) each show cause notice and enforcement notice—
 - (i) given by the local government under the Act or the Building Act; or
 - (ii) a copy of which was given to the local government under the Act or the Building Act by an enforcement authority or private certifier;
- (zc) any notice given by, or to, the local government about withdrawing a show cause notice or enforcement notice;
- (zd) each enforcement order made by the P&E Court on the application of the local government;
- (ze) the local government's register stated in the Building Act, section 251;
- (zf) the local government's register of resolutions about land liable to flooding made under the Building Act;
- (zg) each exemption given by the local government under the Building Act, chapter 8, part 2, division 3 or 4;
- (zh) each document given to the local government by a private certifier (class A) under the Building Act, section 86(1);
- (zi) each record the local government must keep under the Building Act, section 230;

- (zj) all development information the local government has about a building development application under the Building Act, other than information that may be purchased from the registrar of titles;
- (zk) each superseded planning scheme request made to the local government under section 29 of the Act.
- (2) A State planning instrument stated in subsection (1)(a) must be kept available for inspection and purchase from when the instrument is made until it is repealed or replaced, or otherwise expires.
- (3) A proposed local planning instrument, or amendment of a local planning instrument, (the *instrument*) stated in subsection (1)(e) must be kept available for inspection and purchase for the period—
 - (a) starting—
 - (i) if the instrument is publicly notified—the day the instrument is publicly notified; or
 - (ii) otherwise—the day the instrument is proposed to be made; and
 - (b) ending the day the instrument is made, or the local government decides not to make the instrument.
- (4) A notice under subsection (1)(g)(iii) must be kept available for inspection and purchase for 40 business days after the notice is published.
- (5) Despite subsection (1), the obligation under subsection (1)(zj) only applies if the person seeking the development information applies for the information in the form approved by the chief executive (housing).
- (6) In this section—

development information, for a building development application under the Building Act, means information about—

 - (a) the physical characteristics and location of infrastructure related to the application; and

- (b) local government easements, encumbrances or estates or interests in land likely to be relevant to the application; and
- (c) site characteristic information likely to affect the assessment of the application.

Examples of information mentioned in paragraph (c)—

- design levels of proposed road or footway works
- design or location of stormwater connections
- design or location of vehicle crossings
- details of any Queensland heritage place or local heritage place
- discharge of swimming pool backwash water
- flood level information
- limitations on driveway gradients
- limitations on the capacity of sewerage, stormwater and water supply services
- location of any erosion control districts
- location of contaminated land
- location of land-slip areas
- location of mine subsidence areas

2 Documents local government must keep available for inspection only

- (1) A local government must keep available for inspection only—
 - (a) a private certifier application register for the following applications relating to the local government’s local government area—
 - (i) all development applications made to a private certifier as the assessment manager;
 - (ii) all change applications made to a private certifier as the responsible entity; and
 - (b) if the local government removes a person from a list stated in section 1(1)(v)—a register of all persons removed from the list which includes the following information for each person removed—

- (i) the person's name and contact details;
 - (ii) the date the person was originally included in the list;
 - (iii) the date the person was removed from the list.
- (2) Subsection (1)(a) does not apply for a development application or change application until the local government—
 - (a) is given a copy of the decision notice for the application; or
 - (b) is advised by the private certifier that the application has lapsed or been withdrawn.

3 Documents local government must or may publish on website

- (1) A local government must publish the documents stated in section 1(1)(c), (e) to (j), (n), (p) and (r) to (v) on the local government's website.

Note—

See also sections 115(8) and 118(1)(a) of the Act.

- (2) A proposed local planning instrument, or amendment of a local planning instrument, stated in section 1(1)(e) must be kept on the website for the period stated in section 1(3).
- (3) A notice stated in section 1(1)(g)(iii) must be kept on the website for 40 business days after the notice is published.
- (4) A local government may publish on the local government's website—
 - (a) a document stated in section 1(1)(d), (y), (zb) or (zc) to (zg); or
 - (b) the local government's private certifier application register.

Part 2 **Particular assessment managers**

4 **Application of part**

This part applies to an assessment manager, other than a private certifier.

5 **Documents assessment manager must keep available for inspection and purchase**

- (1) An assessment manager must, for each development application and change application, other than a change application for a minor change, made to the assessment manager, keep available for inspection and purchase—
 - (a) the application and any supporting material for the application; and
 - (b) any request made by the assessment manager to the applicant for extra information about the application and any response to the request; and
 - (c) any referral agency's response for the application; and
 - (d) any properly made submission about the application.
- (2) If the assessment manager is a prescribed assessment manager, the assessment manager must also keep the following documents available for inspection and purchase—
 - (a) for each building development application under the Building Act for a building that is approved by the assessment manager—the application and the approval documents for the application as defined under the Building Act, schedule 2;
 - (b) any direction given to the assessment manager by the Minister, or a copy of which is given to the assessment manager, under chapter 3, part 6, division 2 of the Act;
 - (c) any call in notice or proposed call in notice given to the assessment manager;

- (d) each decision notice for a development application, change application or extension application, and each negotiated decision notice, given by the assessment manager, including any plans and specifications approved by the assessment manager in relation to the notice;
 - (e) each decision notice for a development application, change application or extension application, and each negotiated decision notice, a copy of which was given to the assessment manager by a chosen assessment manager;
 - (f) each notice of the cancellation of a development approval given to the assessment manager by a chosen assessment manager;
 - (g) each deemed approval notice given to the assessment manager;
 - (h) each decision notice on a change application given to the assessment manager under section 83(1) of the Act;
 - (i) each agreement the assessment manager or a referral agency is a party to about a development condition of a development approval;
 - (j) each show cause notice and enforcement notice given by the assessment manager as an enforcement authority;
 - (k) each notice given by the assessment manager withdrawing a show cause notice or enforcement notice;
 - (l) each enforcement order made by the P&E Court on the application of the assessment manager as an enforcement authority.
- (3) The documents stated in subsection (1) must be kept available for inspection and purchase from when the assessment manager receives the development application or change application until—
- (a) the application is withdrawn or lapses; or
 - (b) otherwise—the end of the last period during which an appeal may be made against a decision on the application.

-
- (4) The obligation under subsection (2)(a) applies only until—
- (a) if the building the subject of the approval is a class 10 building, other than a swimming pool fence, the earlier of the following to happen—
 - (i) the building’s demolition or removal;
 - (ii) the end of 10 years from when the approval was given; or
 - (b) if the building the subject of the approval is of any other class or is a swimming pool fence—the building’s demolition or removal.
- (5) The obligation under subsection (2)(c) applies in relation to a proposed call in notice for an application only until the Minister gives a call in notice for the application, or decides not to call in the application.

6 Documents assessment manager must keep available for inspection only

- (1) The assessment manager must keep available for inspection only—
- (a) an application register for all development applications and change applications, other than change applications for a minor change, made to the assessment manager; and
 - (b) if the assessment manager is a prescribed assessment manager—an application register for all development applications and change applications, other than change applications for a minor change, made to a chosen assessment manager instead of the prescribed assessment manager.
- (2) However—
- (a) the obligation under subsection (1)(a) stops applying to a person that is a chosen assessment manager if the person is removed from the list of persons appropriately qualified to be an assessment manager held by the prescribed assessment manager; and

- (b) subsection (1)(a) does not apply for a development application or change application until the decision notice for the application has been given, or was required to be given, or the application lapses or is withdrawn; and
- (c) subsection (1)(b) does not apply for a development application or change application until the prescribed assessment manager—
 - (i) is given a copy of the decision notice for the application; or
 - (ii) is advised by the chosen assessment manager that the application has lapsed or been withdrawn.

7 Documents assessment manager must or may publish on website

- (1) The assessment manager must publish on the assessment manager's website—
 - (a) the documents stated in section 5(1); and
 - (b) if the assessment manager is a prescribed assessment manager—the documents stated in section 5(2)(d) to (h); and
 - (c) the assessment manager's application register.

Note—

See also section 63(4) of the Act.

- (2) A document stated in section 5(1) must be kept on the website for the period stated in section 5(3), but may be kept on the website after that period has ended.
- (3) The obligation under subsection (1)(c) stops applying to a person that is a chosen assessment manager if the person is removed from the list of persons appropriately qualified to be an assessment manager held by the prescribed assessment manager.
- (4) A prescribed assessment manager may keep the following documents on the assessment manager's website—

-
- (a) for each development application, change application, extension application or cancellation application made to the prescribed assessment manager, or to a chosen assessment manager instead of the prescribed assessment manager—
 - (i) all the material about the application the assessment manager has received before the application is decided; and
 - (ii) each notice, request or agreement about the application given or made under the Act or development assessment rules; and
 - (iii) all correspondence about the application between the applicant, the assessment manager, a referral agency or a submitter;
 - (b) a document stated in section 5(2)(i) to (k).

Part 3 Referral agencies

Note—

See also section 56(6) of the Act.

8 Documents referral agency must keep available for inspection and purchase

A referral agency must keep available for inspection and purchase—

- (a) each agreement the referral agency is a party to about a development condition of a development approval; and
- (b) each show cause notice and enforcement notice given by the referral agency as an enforcement authority; and
- (c) each notice given by the referral agency withdrawing a show cause notice or enforcement notice; and
- (d) each enforcement order made by the P&E Court on the application of the referral agency as an enforcement authority.

9 Documents referral agency must keep available for inspection only

- (1) A referral agency must keep available for inspection only a register for all development applications and change applications given to the referral agency under section 54 of the Act.
- (2) Subsection (1) does not apply for a development application or change application until the decision notice for the application has been given, or was required to be given, or the application lapses or is withdrawn.
- (3) The register must include the following information for each development application and change application given to the referral agency—
 - (a) the day the application was given to the referral agency;
 - (b) the applicant's name and address;
 - (c) a property description that identifies the premises or the location of the premises;
 - (d) if the application is a development application—a description of the proposed development;
 - (e) if the application is a change application—a description of the proposed change;
 - (f) information about the referral agency's powers in assessing the application;
 - (g) whether the referral agency asked the applicant for extra information about the application;
 - (h) whether a referral agency's response was given by the referral agency and, if so, the day the response was given;
 - (i) if the application is a development application that was approved—whether a change application for the approval has been made to the referral agency as the responsible entity and, if the change application was approved, the day it was approved.

10 Documents referral agency may publish on website

A referral agency may publish on the referral agency's website—

- (a) a document stated in section 8; or
- (b) the referral agency's register stated in section 9(1); or
- (c) for each development application and change application given to the referral agency under section 54 of the Act—
 - (i) the application and all the material about the application the referral agency has received before the application is decided; or
 - (ii) any request made by the referral agency to the applicant requesting further information about the application and any response to the request; or
 - (iii) the referral agency's response for the application; or
 - (iv) each notice, request or agreement about the application given or made under the Act or development assessment rules; or
 - (v) all correspondence about the application between the applicant, assessment manager and referral agency; or
- (d) for each change application made to the referral agency as the responsible entity—
 - (i) all the material about the application the referral agency has received before the application is decided; or
 - (ii) each notice, request or agreement about the application given or made under the Act or development assessment rules; or
 - (iii) all correspondence about the application between the applicant, the assessment manager and the referral agency.

-
- (ii) the qualifications, contact details and website address of each person on the list;
 - (n) each exemption certificate given by the chief executive under section 46 of the Act;
 - (o) an exemption certificate register;
 - (p) any direction given by the Minister under chapter 3, part 6, division 2 of the Act;
 - (q) each call in notice and proposed call in notice given by the Minister;
 - (r) each report prepared by the Minister under section 97(1) or 106(1) of the Act;
 - (s) each guideline made by the Minister or chief executive under section 36(3), 116(2), 117(2) or 283 of the Act;
 - (t) each show cause notice and enforcement notice a copy of which was given to the chief executive under section 170 of the Act;
 - (u) any notice given to the chief executive about withdrawing a show cause notice or enforcement notice;
 - (v) each notice of appeal given to the chief executive under section 230(3)(f) of the Act;
 - (w) a register of registered premises;
 - (x) a notice given to the chief executive under the old Act, section 456(8), as continued in effect under the P&E Court Act, section 80(1).
- (2) A proposed State planning instrument, or amendment of a State planning instrument, (the *instrument*) stated in subsection (1)(b) must be kept available for inspection and purchase from when the instrument is publicly notified until the instrument is made or the Minister decides not to make the instrument.
- (3) The obligation under subsection (1)(q) applies in relation to a proposed call in notice for an application only until the Minister gives a call in notice for the application, or decides not to call in the application.

- (4) The register of registered premises must, for each registered premises, include the following information—
- (a) the real property description of the premises;
 - (b) a map of the affected area for the registered premises;
 - (c) the day the registration ends;
 - (d) whether any conditions have been imposed on the registration and, if so, what the conditions are;
 - (e) the type and level of emissions from the activity carried out at the premises.

12 Documents chief executive must keep available for inspection only

The chief executive must keep the following documents available for inspection only—

- (a) each State planning instrument that has been repealed or replaced, or has otherwise expired;
- (b) if a current State planning instrument, or a State planning instrument stated in paragraph (a), was amended—the instrument as in effect just before the amendment was made;
- (c) all current local planning instruments, including current LGIPs;
- (d) all amendments of current local planning instruments;
- (e) each public notice published by a local government about repealing a TLPI or planning scheme policy;
- (f) each notice given to the chief executive by a local government under section 38(2), 39(3)(b) or 40(2)(b) of the Act;
- (g) if the chief executive removes a person from a list stated in section 11(1)(m)—a register of all persons removed from the list that includes the following information for each person removed—
 - (i) the person's name and contact details;

- (ii) the date the person was originally included in the list;
- (iii) the date the person was removed from the list.

13 Documents chief executive must or may keep on website

- (1) The chief executive must keep on the department's website—
 - (a) a document stated in section 11(1)(a) to (e), (g), (i), (j), (k) to (n), (r) or (v); and
 - (b) a document stated in section 12(a) or (b); and
 - (c) each notice and amended notice given to a local government under section 18(3) of the Act; and
 - (d) a proposed call in notice given by the Minister.

Note—

See also section 70(1) of the Act.

- (2) A proposed State planning instrument, or amendment of a State planning instrument, stated in section 11(1)(b) must be kept on the department's website for the period stated in section 11(2).
- (3) The obligation under subsection (1)(d) applies in relation to a proposed call in notice for an application only until the Minister gives a call in notice for the application, or decides not to call in the application.
- (4) The chief executive may keep on the department's website—
 - (a) any notice given by the Minister to a local government under section 27(2) of the Act; or
 - (b) a document stated in section 11(1)(o) or (r) to (u); or
 - (c) a document stated in section 12(c) to (f); or
 - (d) a call in notice given by the Minister.

Part 5

Private and sensitive information

14 Prescribed documents

The following documents are prescribed for section 264(6) of the Act—

- (a) for a local government—a document stated in section 1(1)(ze) to (zj);
- (b) for an assessment manager—
 - (i) the supporting material for a development application or change application; and
 - (ii) a document stated in section 5(2)(a); and
 - (iii) the assessment manager’s application register.

Schedule 23 Content of planning and development certificates

section 71

1 Limited planning and development certificates

A limited planning and development certificate for premises must include—

- (a) a summary of the provisions of any planning scheme or charges resolution applying specifically to the premises; and
- (b) if a TLPI applies to the premises and suspends or otherwise affects the operation of a planning scheme provision stated in paragraph (a)—a description of the way in which the TLPI suspends or otherwise affects the provision; and
- (c) if a variation approval is in effect for the premises—a description of the way in which the variation approval varies the effect of a planning scheme provision stated in paragraph (a); and
- (d) if a State planning instrument applies to the premises—the name of the instrument; and
- (e) a description of any designation applying to the premises; and
- (f) a copy of any information recorded for the premises in the infrastructure charges register kept by the local government.

2 Standard planning and development certificates

- (1) A standard planning and development certificate for premises, in addition to the information contained in a limited planning and development certificate, must include or be accompanied by—

- (a) a copy of every decision notice or negotiated decision notice for a development approval in effect for the premises; and
- (b) details of any changes made to a development approval in effect for the premises; and
- (c) details of any approval given to extend the currency period of a development approval in effect for the premises; and
- (d) a copy of every deemed approval notice relating to the premises, if the development approval that the notice relates to has not lapsed; and
- (e) a copy of every continuing approval stated in the repealed IPA, section 6.1.23(1)(a) to (d) relating to, and in effect for, the premises, including any approval, consent or permission that, under the repealed LGP&E Act, section 8.10(8) was continued in effect as if it were an approval, consent or permission stated in the repealed IPA, section 6.1.23(1)(a) to (d); and
- (f) details of any decision to approve or refuse an application to amend a planning scheme made under the repealed LGP&E Act, section 4.3, including any conditions of approval, relating to the premises; and
- (g) a copy of every compliance certificate given under the old Act relating to the premises and in effect at the time the standard planning and development certificate is given, including any changes made to the compliance certificate; and
- (h) a copy of any exemption certificate for development on the premises given by the local government under section 46 of the Act, including—
 - (i) the day the certificate was given; and
 - (ii) if the certificate is no longer in effect for the premises—the day it stopped having effect; and
- (i) a copy of any judgment or order of the P&E Court, a tribunal or a building and development dispute resolution committee under the old Act, about—

- (i) a development approval in effect for the premises;
or
- (ii) a condition included in a compliance certificate in effect for the premises; and
- (j) a copy of any agreement that the local government is a party to about a development condition of a development approval in effect for the premises; and
- (k) a copy of any agreement that a referral agency is a party to about a development condition of a development approval in effect for the premises, if the local government has been given a copy of the agreement; and
- (l) a copy of any infrastructure agreement applying to the premises that the local government—
 - (i) is a party to; or
 - (ii) has received a copy of under section 153 of the Act; and
- (m) a description of each amendment, proposed to be made by the local government to its planning scheme, that has not yet been made at the time the certificate is given; and
- (n) if the premises are within a declared master planned area—
 - (i) a copy of each master plan (a *current master plan*) applying to the premises that continues to have effect under section 315 of the Act; and
 - (ii) a copy of each notice of decision or negotiated decision given under the old Act about a master plan application under that repealed Act for a current master plan; and
 - (iii) a copy of any judgement or order of the P&E Court or a building and development committee under the old Act about a condition included in a current master plan; and

- (o) a copy of any decision notice given for a change application made under section 317 of the Act to change a rezoning condition that applies to the premises.
- (2) In this section—

declared master planned area means an area identified as a master planned area in a master planned area declaration.

master planned area declaration means a declaration made under the old Act, section 133, as in force before the commencement of the *Sustainable Planning and Other Legislation Amendment Act (No. 2) 2012*, section 29.

3 Full planning and development certificates

- (1) A full planning and development certificate for premises, in addition to the information contained in a limited and standard planning and development certificate, must include or be accompanied by—
 - (a) if a relevant approval for the premises includes conditions (including conditions about the carrying out of works or the payment of money, other than under an infrastructure agreement) imposed, or required to be imposed, by the local government—a statement about the fulfilment or non-fulfilment of each condition, at a stated day after the day the certificate was applied for; and
 - (b) if an infrastructure agreement applies to the premises and the local government is a party to the agreement—
 - (i) details of the nature and extent of any obligations under the agreement that have not been fulfilled; and
 - (ii) details of any security required under the agreement, including whether any payment required to be made under the security has been made; and
 - (c) details of any prosecution, or proceedings for a prosecution, for a development offence under the Act,

the old Act or the repealed IPA relating to the premises that the local government is aware of.

(2) However—

- (a) subsection (1)(a) does not apply in relation to a condition of a relevant approval if the condition relates to the ongoing use of the premises; and
- (b) the applicant may request that a full planning and development certificate be given without the information normally contained in a limited or standard planning and development certificate.

(3) In this section—

relevant approval, for premises, means—

- (a) a development approval in effect for the premises; or
- (b) a master plan applying to the premises that continues to have effect under section 315 of the Act.

Schedule 24 Dictionary

section 3

accepted development vegetation clearing code see the Vegetation Management Act, section 19O(1) and (2).

accepted failure impact assessment, for a dam, means a failure impact assessment of the dam that has been accepted under the Water Supply Act, section 349.

accepted operational work, for a material change of use or reconfiguring a lot, means operational work that—

- (a) is the clearing of native vegetation—
 - (i) for essential management; or
 - (ii) for routine management; or
 - (iii) on freehold land, or land leased under the Land Act, if the clearing is necessary for prescribed building work; and
- (b) would be assessable development under schedule 10, part 3, division 2, section 5 if it were carried out on the lot immediately before the material change of use or reconfiguration happened, but because of the material change of use or reconfiguration is exempt clearing work.

accommodation activity means—

- (a) caretaker's accommodation; or
- (b) a community residence; or
- (c) a dual occupancy; or
- (d) a dwelling house; or
- (e) a dwelling unit; or
- (f) a home-based business; or
- (g) a multiple dwelling; or

-
- (h) nature-based tourism; or
 - (i) non-resident workforce accommodation; or
 - (j) a relocatable home park; or
 - (k) a residential care facility; or
 - (l) a resort complex; or
 - (m) a retirement facility; or
 - (n) rooming accommodation; or
 - (o) rural workers' accommodation; or
 - (p) short-term accommodation; or
 - (q) a tourist park.

adjoining premises means premises that share a common boundary, including premises that meet at a single point on a common boundary.

adult store means the use of premises for the primary purpose of displaying or selling—

- (a) sexually explicit materials; or
- (b) products and devices that are associated with, or used in, a sexual practice or activity.

advertising device—

- (a) means a permanent sign, structure or other device used, or intended to be used, for advertising; and
- (b) includes a structure, or part of a building, the primary purpose of which is to support the sign, structure or device.

aggregate environmental score, for an environmentally relevant activity, see the Environmental Protection Regulation, section 13.

agricultural supplies store means the use of premises for the sale of agricultural supplies and products.

Examples of agricultural supplies and products—

animal feed, bulk veterinary supplies, chemicals, farm clothing, fertilisers, irrigation materials, saddlery, seeds

aid to navigation see the Marine Safety Act, section 104.

Airport Assets Act means the *Airport Assets (Restructuring and Disposal) Act 2008*.

airport land see the Airport Assets Act, section 7.

air service means the use of premises for—

- (a) the arrival or departure of aircraft; or
- (b) housing, servicing, refuelling, maintaining or repairing aircraft; or
- (c) the assembly and dispersal of passengers or goods on or from an aircraft; or
- (d) training and education facilities relating to aviation; or
- (e) aviation facilities; or
- (f) an activity that—
 - (i) is ancillary to an activity or facility stated in paragraphs (a) to (e); and
 - (ii) directly services the needs of aircraft passengers.

Examples of an air service—

airport, air strip, helipad

air transport infrastructure see the Transport Infrastructure Act, schedule 6.

alternative solution see the Building Act, schedule 2.

ancillary works and encroachments see the Transport Infrastructure Act, schedule 6.

animal husbandry means the use of premises for—

- (a) producing animals or animal products on native or improved pastures or vegetation; or
- (b) a yard, stable, temporary holding facility or machinery repairs and servicing, if the use is ancillary to the use in paragraph (a).

Examples of animal husbandry—

cattle stud, grazing of livestock, non-feedlot dairy

animal keeping means the use of premises for—

- (a) boarding, breeding or training animals; or
- (b) a holding facility or machinery repairs and servicing, if the use is ancillary to the use in paragraph (a).

Examples of animal keeping—

aviary, cattery, kennel, stables, wildlife refuge

application register means a register that includes the following information for each application that must be recorded in the register—

- (a) if the application was made to a chosen assessment manager—the name and contact details of the chosen assessment manager;
- (b) the name and address of the applicant;
- (c) the day the application was made;
- (d) a property description that identifies the premises or the location of the premises;
- (e) if the application was a development application—the type of development applied for;
- (f) if the application was a change application—a description of the change applied for;
- (g) the names of any referral agencies;
- (h) whether the application required code assessment or impact assessment, or both code assessment and impact assessment;
- (i) whether public notification of the application was required;
- (j) whether the application lapsed or was withdrawn or decided;
- (k) if the application was decided—
 - (i) the day it was decided; and
 - (ii) whether the application was approved, approved subject to conditions or refused; and

- (iii) whether the application was taken to have been approved under section 64 of the Act; and
 - (iv) for an application approved subject to conditions—whether any of the conditions included the conditions of a referral agency, and if so, the name of the referral agency; and
 - (v) whether a negotiated decision notice was also given for the application and if so, the day it was given; and
 - (vi) if the application was a development application that was approved—whether a later change application or extension application for the approval has been approved and, if so, the day the application was approved; and
 - (vii) if there was an appeal about the decision—whether the decision was changed because of the outcome of the appeal;
- (l) if an approval for the application has been cancelled—the day the cancellation took effect.

aquaculture see the Fisheries Act, schedule 1.

area of koala habitat value means an area in the SEQ region shown as any of the following on a map of koala habitat values—

- (a) high value other;
- (b) medium value other;
- (c) low value other.

area unsuitable for koalas means an area in the SEQ region shown as generally not suitable on a map of koala habitat values.

artificial waterway see the Coastal Act, section 8.

assessable development area means an area shown as either of the following on a map of assessable development areas—

- (a) a koala assessable development area;
- (b) a priority koala assessable development area.

associated primary industry activity—

- (a) means the use of premises for an activity that is associated with 1 or more of the following uses carried out on the same premises or other premises in the surrounding area—
- (i) animal husbandry;
 - (ii) animal keeping;
 - (iii) aquaculture;
 - (iv) cropping;
 - (v) an extractive industry;
 - (vi) an intensive animal industry;
 - (vii) intensive horticulture;
 - (viii) a permanent plantation;
 - (ix) a rural industry;
 - (x) a winery; but

Example for paragraph (a)—

the use of premises for storing vehicles that are used for a permanent plantation on adjoining premises

- (b) does not include—
- (i) a biotechnology industry; or
 - (ii) a community activity; or
 - (iii) indoor recreation; or
 - (iv) residential development; or
 - (v) a sport and recreation activity; or
 - (vi) a tourist activity.

authorised electricity entity means an electricity entity authorised, or taken to be authorised, under the Electricity Act, section 116(1), to acquire land.

bar means the use of premises, with seating for 60 or less people, for—

- (a) selling liquor for consumption on the premises; or

- (b) an entertainment activity, or preparing and selling food and drink for consumption on the premises, if the use is ancillary to the use in paragraph (a).

basement means a space—

- (a) between a floor level in a building and the floor level that is immediately below it; and
- (b) no part of which is more than 1m above ground level.

biotechnology industry means the use of premises for the production of fuel, chemicals, plastic or other materials using, wholly or mainly, a product, waste product or by-product from a rural activity or utility installation.

Brisbane core port land see the Transport Infrastructure Act, section 283K.

Brisbane port LUP means the plan, approved under the Transport Infrastructure Act, chapter 8, part 3C, that regulates development on Brisbane core port land.

brothel see the *Prostitution Act 1999*, schedule 4.

budget accommodation building see the Building Act, section 216.

Building Regulation means the *Building Regulation 2006*.

bulk landscape supplies means the use of premises for the bulk storage and sale of mainly non-packaged landscaping and gardening supplies, including, for example, soil, gravel, potting mix or mulch.

bushland habitat area means an area in the SEQ region shown as any of the following on a map of koala habitat values—

- (a) high value bushland;
- (b) medium value bushland;
- (c) low value bushland.

busway corridor means—

- (a) land on which busway transport infrastructure is situated; or

-
- (b) land on which busway transport infrastructure works are carried out; or
 - (c) land on which services for the maintenance or operation of busway transport infrastructure are situated.

busway transport infrastructure see the Transport Infrastructure Act, schedule 6.

busway transport infrastructure works see the Transport Infrastructure Act, schedule 6.

caretaker's accommodation means the use of premises for a dwelling for a caretaker of a non-residential use on the same premises.

category 1 failure impact rating see the Water Supply Act, schedule 3.

category 2 failure impact rating see the Water Supply Act, schedule 3.

category 2 levee see the Water Regulation, section 101(3).

category 3 levee see the Water Regulation, section 101(4).

category A area means an area shown on the regulated vegetation management map or a PMAV as a category A area.

category B area means an area shown on the regulated vegetation management map or a PMAV as a category B area.

category C area means an area shown on the regulated vegetation management map or a PMAV as a category C area.

category R area means an area shown on the regulated vegetation management map or a PMAV as a category R area.

category X area means an area shown on the regulated vegetation management map or a PMAV as a category X area.

cemetery means the use of premises for the interment of bodies or ashes after death.

change of use, for schedule 5A, see schedule 5A, part 1, section 1.

chief executive (environment) means the chief executive of the department in which the Environmental Protection Act is administered.

chief executive (fisheries) means the chief executive of the department in which the Fisheries Act is administered.

chief executive (housing) means the chief executive of the housing department.

chief executive (transport) means the chief executive of the department in which the Transport Infrastructure Act is administered.

childcare centre means the use of premises for the care, education and minding, but not residence, of children.

Examples of a childcare centre—

before or after school care, crèche, early childhood centre, kindergarten, vacation care

class, for a building or structure, means the classification for the building or structure under the Building Code.

club means the use of premises for—

- (a) an association established for social, literary, political, sporting, athletic or other similar purposes; or
- (b) preparing and selling food and drink, if the use is ancillary to the use in paragraph (a).

coastal dune means a ridge or hillock of sand or other material—

- (a) on the coast; and
- (b) built up by wind.

coastal management see the Coastal Act, section 11.

coastal management district means a coastal management district under the Coastal Act, other than an area declared under section 54(2) of that Act.

Coastal Regulation means the *Coastal Protection and Management Regulation 2017*.

commercial character building, for schedule 5A, see schedule 5A, part 1, section 1.

commercial use includes the use of premises for selling goods or providing a service to the public.

Examples of a commercial use—

food and drink outlet, health care service, office, shop

common material, for a development application, means—

- (a) all the material about the application that the assessment manager receives before the application is decided, including—
 - (i) any material relating to a proposed development application that is substantially similar to the development application as made; and
 - (ii) any material attached to, or given with, the development application; and
 - (iii) any material relating to the application given to the assessment manager after the application is made; and
 - (iv) any referral agency's response, including any advice or comment given by a referral agency and any response given under section 57 of the Act; and
 - (v) any properly made submissions about the application, other than a submission that is withdrawn; and
 - (vi) any other submission about the application that the assessment manager has accepted; and
 - (vii) any other advice or comment about the application that a person gives to the assessment manager; and
- (b) if a development approval for the development is in effect—the approval; and
- (c) an infrastructure agreement applying to the premises.

community activity means—

- (a) a childcare centre; or

- (b) a community care centre; or
- (c) a community residence; or
- (d) a community use; or
- (e) a detention facility; or
- (f) an educational establishment; or
- (g) a place of worship; or
- (h) a residential care facility; or
- (i) tourist accommodation, or accommodation for employees, that is ancillary to a use stated in paragraphs (a) to (i); or
- (j) a commercial use that is ancillary to a use stated in paragraphs (a) to (i).

community care centre—

- (a) means the use of premises for—
 - (i) providing social support to members of the public; or
 - (ii) providing medical care to members of the public, if the use is ancillary to the use in subparagraph (i); but
- (b) does not include the use of premises for providing accommodation to members of the public.

Examples of a community care centre—

disability support service, drop-in centre, respite centre, indigenous support centre

community residence—

- (a) means the use of premises for residential accommodation for—
 - (i) no more than—
 - (A) 6 children, if the accommodation is provided as part of a program or service under the *Youth Justice Act 1992*; or

- (B) 6 persons who require assistance or support with daily living needs; and
- (ii) no more than 1 support worker; and
- (b) includes a building or structure that is reasonably associated with the use in paragraph (a).

community use means the use of premises for—

- (a) providing artistic, social or cultural facilities or community services to the public; or
- (b) preparing and selling food and drink, if the use is ancillary to the use in paragraph (a).

Examples of a community use—

art gallery, community centre, community hall, library, museum

concurrence ERA see the Environmental Protection Regulation, section 15.

constructing authority see the Acquisition Act, schedule 2.

container, in relation to the container refund scheme, see the *Waste Reduction and Recycling Act 2011*, section 99M.

container refund depot means the use of premises for the collection, receiving, sorting, counting, aggregating, storing, handling, distributing, crushing, compounding or transferring of containers for the container refund scheme.

container refund drop off means the collection, receiving, sorting, counting, aggregating, storing, handling or transferring of containers for the container refund scheme.

container refund scheme see the *Waste Reduction and Recycling Act 2011*, schedule.

contaminated land see the Environmental Protection Act, schedule 4.

contaminated land register means the contaminated land register under the Environmental Protection Act.

coordinated project see the State Development Act, schedule 2.

core airport infrastructure see the Airport Assets Act, schedule 3.

correctional facility means—

- (a) a detention centre under the *Youth Justice Act 1992*; or
- (b) a corrective services facility under the *Corrective Services Act 2006*.

created lot see schedule 12, section 1(1)(b).

crematorium means the use of premises for the cremation or aquamation of bodies.

cropping means the use of premises for—

- (a) growing and harvesting plants, or plant material, that are cultivated in soil, for commercial purposes; or
- (b) harvesting, storing or packing plants or plant material grown on the premises, if the use is ancillary to the use in paragraph (a); or
- (c) repairing and servicing machinery used on the premises, if the use is ancillary to the use in paragraph (a).

Examples of cropping—

forestry for wood production, fodder and pasture production, producing fruit, nuts, vegetables and grains, plant fibre production, sugar cane growing, vineyard

dam—

- (a) generally, has the meaning given by the Water Act, schedule 4; and
- (b) for schedule 8, schedule 10, part 19, division 3 and this schedule, definition *accepted failure impact assessment—*
 - (i) has the meaning given by the Water Supply Act, schedule 3; and
 - (ii) includes a proposed dam.

declared fish habitat area see the Fisheries Act, schedule 1.

declared pest means a plant, other than a native species of plant, that is any of the following under the *Biosecurity Act 2014*—

- (a) invasive biosecurity matter;

Note—

For invasive biosecurity matter under the *Biosecurity Act 2014* see—

- 1 the *Biosecurity Act 2014*, schedule 1, part 3 or 4 or schedule 2, part 2; and
- 2 the note to the *Biosecurity Act 2014*, schedules 1 and 2.

- (b) controlled biosecurity matter;

- (c) regulated biosecurity matter.

defined flood level see the Building Regulation, section 13(5).

defining bank, of a watercourse, means—

- (a) the bank that confines the seasonal flows of the watercourse before the point of flooding; or
- (b) the seasonal high water line.

designation register means a register that includes the following information for each designation that must be recorded in the register—

- (a) the day the designation was made;
- (b) the real property description of the designated premises;
- (c) the type of infrastructure, and details of the development, for which the premises has been identified;
- (d) any requirements for the infrastructure that are included in the designation;
- (e) if the designation has been amended—the day the amendment was made.

detention facility means the use of premises for the lawful detention of persons.

Example of a detention facility—

correctional facility

development footprint, on premises, means the total area of the premises covered by a building, structure or landscaping.

domestic housing activity means the construction or use of a single dwelling on a lot and any reasonably associated building or structure.

Examples of a building or structure that could be reasonably associated with a single dwelling—

a building or structure used for a home-based business, a secondary dwelling

domestic outbuilding means a non-habitable class 10a building that is—

- (a) a shed, garage or carport; and
- (b) ancillary to a residential use carried out on the premises where the building is.

dual occupancy—

- (a) means a residential use of premises for 2 households involving—
 - (i) 2 dwellings (whether attached or detached) on a single lot or 2 dwellings (whether attached or detached) on separate lots that share a common property; and
 - (ii) any domestic outbuilding associated with the dwellings; but
- (b) does not include a residential use of premises that involves a secondary dwelling.

dwelling means all or part of a building that—

- (a) is used, or capable of being used, as a self-contained residence; and
- (b) contains—
 - (i) food preparation facilities; and
 - (ii) a bath or shower; and
 - (iii) a toilet; and
 - (iv) a wash basin; and

(v) facilities for washing clothes.

dwelling house means a residential use of premises involving—

- (a) 1 dwelling for a single household and any domestic outbuildings associated with the dwelling; or
- (b) 1 dwelling for a single household, a secondary dwelling and any domestic outbuildings associated with either dwelling.

dwelling unit means the use of premises containing a non-residential use for a single dwelling, other than a dwelling for a caretaker of the non-residential use.

Economic Development Act means the *Economic Development Act 2012*.

educational establishment means the use of premises for—

- (a) training and instruction to impart knowledge and develop skills; or
- (b) student accommodation, before or after school care, or vacation care, if the use is ancillary to the use in paragraph (a).

Examples of an educational establishment—

college, outdoor education centre, primary school, secondary school, special education facility, technical institute, university

Electrical Safety Act means the *Electrical Safety Act 2002*.

Electricity Act means the *Electricity Act 1994*.

electricity operating works means operating works under the Electricity Act, section 12(3).

emergency services means the use of premises by a government entity or community organisation to provide—

- (a) essential emergency services; or
- (b) disaster management services; or
- (c) management support facilities for the services.

Examples of emergency services—

ambulance station, evacuation centre, fire station, police station

endangered regional ecosystem see the Vegetation Management Act, schedule.

environmental authority means an environmental authority under the Environmental Protection Act.

environmentally relevant activity see the Environmental Protection Act, section 18.

environmental management register means the environmental management register under the Environmental Protection Act.

Environmental Protection Regulation means the *Environmental Protection Regulation 2019*.

environmental value see the Environmental Protection Act, section 9.

environment facility—

- (a) means the use of premises for a facility for the appreciation, conservation or interpretation of an area of cultural, environmental or heritage value; but
- (b) does not include the use of premises to provide accommodation for tourists and travellers.

erosion prone area see the Coastal Act, schedule.

essential habitat, for protected wildlife, see the Vegetation Management Act, section 20AC(2).

essential management means clearing native vegetation—

- (a) for establishing or maintaining a necessary firebreak to protect infrastructure, other than a fence, road or vehicular track, if the maximum width of the firebreak is equal to 1.5 times the height of the tallest vegetation next to the infrastructure, or 20m, whichever is the wider; or
- (b) for establishing a necessary fire management line, if the maximum width of the clearing for the fire management line is 10m; or

-
- (c) necessary to remove or reduce the imminent risk that the vegetation poses of serious personal injury or damage to infrastructure; or
 - (d) by fire under the Fire and Emergency Services Act to reduce hazardous fuel load; or
 - (e) necessary to maintain infrastructure (including core airport infrastructure, buildings, fences, helipads, roads, stockyards, vehicular tracks, watering facilities and constructed drains, other than contour banks), unless the clearing is for sourcing construction material; or
 - (f) for maintaining a garden or orchard, other than clearing predominant canopy trees to maintain underplantings established within remnant vegetation; or
 - (g) on land leased under the Land Act for agriculture or grazing purposes, to source construction timber to repair infrastructure on the land, if—
 - (i) the infrastructure is in need of immediate repair; and
 - (ii) the clearing does not cause land degradation; and
 - (iii) restoration of a similar type to, and to the extent of, the removed trees is ensured; or
 - (h) on freehold land by the owner of the land to source construction timber to maintain infrastructure on any land of the owner, if—
 - (i) the clearing does not cause land degradation; and
 - (ii) restoration of a similar type to, and to the extent of, the removed trees is ensured.

excluded area, for schedule 10, part 9, division 4, subdivision 1, means the part of the local government area of the Brisbane City Council or the Gold Coast City Council that is shown as being in the threshold exemption areas layer in the department's development assessment mapping system published on the department's website.

excluded development means development—

- (a) on premises in an SEQ rural enterprise precinct, if the development is consistent with the plan approved by the Minister by gazette notice for the precinct; or
- (b) carried out under a development permit, or that is consistent with a variation approval in effect for the premises on which the development is carried out, if the application for the permit or approval—
 - (i) was properly made under the repealed IPA before 28 July 2009; or
 - (ii) was assessed by a referral agency under the repealed SEQ SPRP, division 2; or
 - (iii) was assessed by a referral agency under schedule 10, part 15, division 1 or division 2, subdivision 3; or
- (c) that is consistent with a rezoning approval, as defined under the repealed SEQ SPRP, that relates to the premises on which the development is carried out, if the development entitlements under the rezoning approval are reflected in—
 - (i) a planning scheme; or
 - (ii) a development permit; or
 - (ii) a notice stated in the repealed SEQ SPRP, section 1.5(2)(e)(ii); or
- (d) stated in schedule 6; or
- (e) for a coordinated project; or
- (f) in a State development area; or
- (g) on premises wholly or partly in the SEQ regional landscape and rural production area or the SEQ rural living area, if—
 - (i) the premises are included in an urban zone under a local categorising instrument; or
 - (ii) all of the following apply—
 - (A) the premises were in a biodiversity development offset area declared by gazette

notice under the repealed koala State planning policy;

- (B) the development is carried out under a development permit;
- (C) the application for the development permit was properly made before 22 February 2019.

excluded material change of use means a material change of use of premises that—

- (a) does not involve a new or changed access between the premises and any of the following—
 - (i) a State transport corridor;
 - (ii) a road that intersects with a State-controlled road;
 - (iii) a road that intersects with a railway crossing; and
- (b) is for—
 - (i) 1 or more of the following uses—
 - (A) a dwelling house;
 - (B) a secondary dwelling;
 - (C) a domestic outbuilding associated with a dwelling house on the premises;
 - (D) a dwelling unit;
 - (E) a dual occupancy;
 - (F) caretaker's accommodation;
 - (G) a community residence; or
 - (ii) a use other than a service station, fast food outlet, telecommunication facility or use stated in subparagraph (i), and all of the following apply—
 - (A) the premises have a gross floor area of no more than 100m² and the material change of use does not increase the gross floor area;
 - (B) the material change of use does not involve building work, other than building work that is wholly inside a building;

- (C) if the material change of use involves building or extending a hardstanding area—the hardstanding area or extension is not more than 25m².

exempt clearing work means operational work that is the clearing of native vegetation—

- (a) on prescribed land, if the clearing is—
- (i) clearing, or for another activity or matter, stated in schedule 21, part 1; or
 - (ii) clearing stated in schedule 21, part 2 for the land; or
- (b) that, under the Vegetation Management Act, section 74, is not affected by that Act.

exempted development means—

- (a) development for a coordinated project; or
- (b) development in a State development area; or
- (c) development in the area of a development control plan that the old Act, section 857 applies to; or
- (d) development for infrastructure stated in schedule 5, if the development is carried out by or for the State or a public sector entity; or
- (e) development that results in—
 - (i) a total area of 500m² or less being cleared of native vegetation; or
 - (ii) a development footprint of 500m² or less; or
 - (iii) a total area of 5,000m² or less of gravel, rock or sand being extracted; or
 - (iv) a total area of 5,000m² or less being excavated or filled.

exemption certificate register, for a local government or the chief executive, means a register that includes the following information for each exemption certificate given by the person under section 46 of the Act—

-
- (a) the day the certificate was given;
 - (b) the real property description of the premises the certificate applies to;
 - (c) the name of the person the certificate was given to;
 - (d) the development for which a development approval is not required;
 - (e) whether the exemption certificate is in effect and, if not, the day the certificate stopped having effect.

exempt material change of use means a material change of use of premises—

- (a) for—
 - (i) an air service; or
 - (ii) an associated primary industry activity; or
 - (iii) caretaker's accommodation; or
 - (iv) a cemetery; or
 - (v) a crematorium; or
 - (vi) a dual occupancy, if both dwellings are on a single lot; or
 - (vii) a dwelling house; or
 - (viii) a dwelling unit; or
 - (ix) emergency services; or
 - (x) an environment facility; or
 - (xi) an extractive industry; or
 - (xii) a landing; or
 - (xiii) major electricity infrastructure; or
 - (xiv) a park; or
 - (xv) a renewable energy facility other than a facility for generating electricity or energy from a source of bioenergy; or
 - (xvi) a rural activity; or

- (xvii) a substation; or
- (xviii) a telecommunications facility; or
- (xix) a utility installation other than a transport service;
or
- (xx) a wind farm; or
- (b) that is consistent with a development approval in effect for the premises, if the application for the approval was assessed by a referral agency under schedule 10, part 16.

exempt subdivision means a subdivision that—

- (a) is excluded development; or
- (b) does not create a new lot; or
- (c) creates only 1 new lot, if the new lot is to be used for—
 - (i) a cemetery; or
 - (ii) a crematorium; or
 - (iii) a detention facility; or
 - (iv) emergency services; or
 - (v) an environment facility; or
 - (vi) major electricity infrastructure; or
 - (vii) a park; or
 - (viii) a renewable energy facility; or
 - (ix) a substation; or
 - (x) a telecommunications facility; or
 - (xi) a utility installation other than a transport service;
or
- (d) divides 1 lot into 2 lots, if—
 - (i) the divided lot is severed by a road that was gazetted before 2 March 2006 or a State-controlled road; and
 - (ii) the road forms the whole of the boundary between the lots; or

-
- (e) is consistent with a material change of use approved under a development approval that applies to the lot being subdivided, if the application for the development approval was properly made under the repealed IPA before 31 October 2006; or
 - (f) is stated in an application for a development approval for a material change of use to be necessary for the material change of use, if—
 - (i) a development approval was given for the material change of use and is in effect; and
 - (ii) either—
 - (A) the material change of use was assessed by a referral agency under schedule 10, part 16; or
 - (B) the material change of use was assessed by a referral agency under the repealed SEQ SPRP, division 2.1 as complying with the assessment criteria stated in the division for the material change of use.

existing levee see the Water Act, section 1247(2).

extractive industry means the use of premises for—

- (a) extracting or processing extractive resources; and
- (b) any related activities, including, for example, transporting the resources to market.

failure impact assessed means failure impact assessed under the Water Supply Act, section 343.

failure impact assessment see the Water Supply Act, section 342(1).

fast-track development means development that meets the criteria stated in the State development assessment provisions for fast-track development.

Fire and Emergency Services Act means the *Fire and Emergency Services Act 1990*.

fire safety management plan see the Fire and Emergency Services Act, section 104FC.

fire safety system see the Building Code, volume 1, part A1.1.

Fisheries Act means the *Fisheries Act 1994*.

flood hazard area means a flood hazard area designated by a local government under the Building Regulation, section 13(1)(a).

Flying Start for Queensland Children program means the program established by the State in June 2011 that—

- (a) provides funding for new educational facilities and refurbishments in schools; and
- (b) is known as the ‘Transition of Year 7, from the last year of primary schooling to the first year of secondary schooling, as outlined in the Education White Paper - A Flying Start for Queensland Children’.

food and drink outlet means the use of premises for—

- (a) preparing and selling food and drink for consumption on or off the premises; or
- (b) providing liquor for consumption on the premises, if the use is ancillary to the use in paragraph (a).

Examples of a food and drink outlet—

cafe, coffee shop, drive-through facility, kiosk, milk bar, restaurant, snack bar, takeaway shop, tearoom

forest practice see the Vegetation Management Act, schedule.

Forestry Act means the *Forestry Act 1959*.

freehold land see the Vegetation Management Act, schedule.

function facility means the use of premises for—

- (a) receptions or functions; or
- (b) preparing and providing food and liquor for consumption on the premises as part of a reception or function.

funeral parlour—

- (a) means the use of premises for—

-
- (i) arranging and conducting funerals, memorials and other similar events; or
 - (ii) a mortuary; or
 - (iii) storing and preparing bodies for burial or cremation; but
- (b) does not include the use of premises for the burial or cremation of bodies.

future busway corridor means land identified in a guideline made under the Transport Planning Act, section 8E as a future transport corridor for—

- (a) busway transport infrastructure; or
- (b) busway transport infrastructure works.

future light rail corridor means land identified in a guideline made under the Transport Planning Act, section 8E as a future transport corridor for—

- (a) light rail transport infrastructure; or
- (b) light rail transport infrastructure works.

future railway corridor means—

- (a) land identified in a guideline made under the Transport Planning Act, section 8E as a future transport corridor for—
 - (i) rail transport infrastructure; or
 - (ii) other rail infrastructure; or
 - (iii) railway works; or
- (b) future railway land.

future railway land see the Transport Infrastructure Act, section 242.

future State-controlled road means a road or land that the chief executive (transport) has, by notice given to a local government and published in the gazette under the Transport Infrastructure Act, section 42, stated is intended to become a State-controlled road.

future State-controlled transport tunnel means a tunnel that forms part of a future State transport corridor.

future State transport corridor means—

- (a) a future busway corridor; or
- (b) a future light rail corridor; or
- (c) a future railway corridor; or
- (d) a future State-controlled road.

garden centre means the use of premises for—

- (a) selling plants; or
- (b) selling gardening and landscape products and supplies that are mainly in pre-packaged form; or
- (c) a food and drink outlet that is ancillary to the use in paragraph (a).

Gold Coast waters see the *Gold Coast Waterways Authority Act 2012*, section 7(1).

Gold Coast Waterways Authority means the Gold Coast Waterways Authority established under the *Gold Coast Waterways Authority Act 2012*.

government supported transport infrastructure means infrastructure for transport that is for public use and is—

- (a) funded, wholly or partly, by the State or Commonwealth; or
- (b) provided by a person, other than under a development approval or infrastructure agreement, on conditions that—
 - (i) are agreed to by the Government; and
 - (ii) are intended to support the commercial viability of the infrastructure.

gross floor area, for a building, means the total floor area of all storeys of the building, measured from the outside of the external walls and the centre of any common walls of the building, other than areas used for—

-
- (a) building services, plant or equipment; or
 - (b) access between levels; or
 - (c) a ground floor public lobby; or
 - (d) a mall; or
 - (e) parking, loading or manoeuvring vehicles; or
 - (f) unenclosed private balconies, whether roofed or not.

ground level means—

- (a) the level of the natural ground; or
- (b) if the level of the natural ground has changed, the level as lawfully changed.

hardware and trade supplies means the use of premises for selling, displaying or hiring hardware and trade supplies, including, for example, house fixtures, timber, tools, paint, wallpaper or plumbing supplies.

hazardous chemical facility means the use of premises for a facility at which a prescribed hazardous chemical is present or likely to be present in a quantity that exceeds 10% of the chemical's threshold quantity under the Work Health and Safety Regulation, schedule 15.

health care service means the use of premises for medical purposes, paramedical purposes, alternative health therapies or general health care, if overnight accommodation is not provided on the premises.

Examples of a health care service—

dental clinic, medical centre, physiotherapy clinic

highest astronomical tide means the highest level of the tides that can be predicted to occur under average meteorological conditions and under any combination of astronomical conditions.

high impact earthworks—

- (a) means operational work that changes the form of land, or involves placing a structure on land, in a way that diverts water to or from a wetland in a wetland protection area and involves excavating or filling—

- (i) if the work is carried out in the wetland or within 200m of the wetland—more than 100m³; or
- (ii) otherwise—more than 1,000m³; but
- (b) does not include operational work—
 - (i) that is excavating to establish underground infrastructure, other than infrastructure for drainage or stormwater flows, if the excavated land is to be restored, as far as practicable, to its original contours after the infrastructure is established; or
 - (ii) to maintain dams, fences, helipads, roads, stockyards, vehicular tracks or watering facilities; or
 - (iii) to alter, maintain, repair, replace, rehabilitate, remove or service government supported transport infrastructure; or
 - (iv) to take preventative or remedial action in relation to government supported transport infrastructure; or
 - (v) to maintain systems and services relating to government supported transport infrastructure; or
 - (vi) in tidal water; or
 - (vii) for a forest practice; or
 - (viii) to reinstate earthworks destroyed by floods or landslides; or
 - (ix) to restore or conserve the ecological processes or hydrological functions of a wetland protection area; or
 - (x) to laser level land without change to the previously levelled contours or slopes; or
 - (xi) for government supported transport infrastructure for which the funding and construction arrangements were approved by the State or Commonwealth before 31 October 2011; or

- (xii) carried out under the Electricity Act, section 101 or 112A; or
- (xiii) carried out under the Fire and Emergency Services Act, section 53, 68 or 69; or
- (xiv) carried out under a geothermal exploration permit under the *Geothermal Energy Act 2010*; or
- (xv) that is completely or partly in a declared fish habitat area, if the work is prescribed assessable development; or
- (xvi) that is constructing or raising waterway barrier works, if the work is accepted development under schedule 7, part 3, section 6.

high impact industry means the use of premises for an industrial activity—

- (a) that is the manufacturing, producing, processing, repairing, altering, recycling, storing, distributing, transferring or treating of products; and
- (b) that a local planning instrument applying to the premises states is a high impact industry; and
- (c) that complies with any thresholds for the activity stated in a local planning instrument applying to the premises, including, for example, thresholds relating to the number of products manufactured or the level of emissions produced by the activity.

high-risk waterway means a waterway shown in the waterways spatial data layer as a high-risk waterway.

high value rehabilitation habitat area means an area in the SEQ region shown as high value rehabilitation on a map of koala habitat values.

home-based business means the use of a dwelling or domestic outbuilding on premises for a business activity that is subordinate to the residential use of the premises.

hospital means the use of premises for—

- (a) the medical or surgical care or treatment of patients, whether or not the care or treatment requires overnight accommodation; or
- (b) providing accommodation for patients; or
- (c) providing accommodation for employees, or any other use, if the use is ancillary to the use in paragraph (a) or (b).

hotel—

- (a) means the use of premises for—
 - (i) selling liquor for consumption on the premises; or
 - (ii) a dining or entertainment activity, or providing accommodation to tourists or travellers, if the use is ancillary to the use in subparagraph (i); but
- (b) does not include a bar.

household means 1 or more individuals who—

- (a) live in a dwelling with the intent of living together on a long-term basis; and
- (b) make common provision for food and other essentials for living.

housing department means the department in which the *Housing Act 2003* is administered.

identified koala broad-hectare area means either of the following areas, if a local planning instrument contains provisions facilitating the development of the area for urban purposes—

- (a) an area shown on an identified koala broad-hectare area map as an identified koala broad-hectare area;
- (b) an area that is an assessable development area and identified in a gazette notice by the Minister as an identified koala broad-hectare area.

identified koala broad-hectare area map means each of the following maps, dated 31 May 2010 and published by the department in which the *Nature Conservation Act 1992*, part 5, is administered—

-
- (a) identified koala broad-hectare area—01 Oxley Wedge;
 - (b) identified koala broad-hectare area—02 Rochedale;
 - (c) identified koala broad-hectare area—03 Coomera;
 - (d) identified koala broad-hectare area—04 Ripley Valley;
 - (e) identified koala broad-hectare area—05 Kinross Road;
 - (f) identified koala broad-hectare area—06 South East Thornlands;
 - (g) identified koala broad-hectare area—07 Palmview.

indigenous land see the Vegetation Management Act, schedule.

indoor recreation means—

- (a) a food and drink outlet; or
- (b) a hotel; or
- (c) indoor sport and recreation; or
- (d) a major sport, recreation and entertainment facility at which events are carried out mainly indoors; or
- (e) tourist accommodation, or accommodation for employees, that is ancillary to a use stated in paragraphs (a) to (d); or
- (f) a commercial use that is ancillary to a use stated in paragraphs (a) to (d).

indoor sport and recreation means the use of premises for a leisure, sport or recreation activity conducted wholly or mainly indoors.

Examples of indoor sport and recreation—

amusement parlour, bowling alley, gymnasium, squash court

industrial area means—

- (a) an area (however described) designated in a planning instrument as industrial; or

Examples of ways of describing industrial areas—

- low impact industry, medium impact industry, high impact industry or special industry

- heavy industry or light industry
 - commercial industry
 - service industry
 - general industry
 - waterfront and marine industry
 - extractive industry
- (b) an area that is predominantly industrial in character, having regard to—
- (i) dominant land uses in the area; or
 - (ii) the planning instruments applying to the area.

industry activity means—

- (a) an extractive industry; or
- (b) a high impact industry; or
- (c) a low impact industry; or
- (d) a marine industry; or
- (e) a medium impact industry; or
- (f) a research and technology industry; or
- (g) a service industry; or
- (h) a special industry; or
- (i) a warehouse.

industry zone, for schedule 12, means an area (however described) designated in a local categorising instrument as industrial.

infrastructure, for the definitions *essential management* and *routine management*, includes a building, or other structure, built or used for any purpose.

Note—

See also schedule 2 of the Act, definition *infrastructure*.

infrastructure charges register, for a local government, means a register that includes the following information for each charge levied by the local government—

-
- (a) the real property description of the premises the charge applies to;
 - (b) the charges resolution under which the charge was levied;
 - (c) the amount of the charge levied;
 - (d) how the charge was worked out;
 - (e) if an automatic increase provision applies to the charge—
 - (i) that the charge is subject to automatic increases; and
 - (ii) how the increases are worked out under the provision;
 - (f) if all or part of the charge has been paid—the amount paid and the day on which it was paid;
 - (g) if the charge has not been paid in full—the amount of the charge unpaid;
 - (h) details of any offset or refund given;
 - (i) if the charge was levied as a result of a development approval—the approval reference number and the day the approval will lapse;
 - (j) if infrastructure is to be provided instead of paying the charge—details of any infrastructure still to be provided;
 - (k) if the levied charge is the subject of an infrastructure agreement—details of the agreement.

infrastructure provider, for a development application, means a local government that—

- (a) is the prescribed assessment manager for the application; and
- (b) either—
 - (i) supplies trunk infrastructure for development; or
 - (ii) has an agreement with another person that supplies trunk infrastructure for development.

intensive animal industry—

- (a) means the use of premises for—
 - (i) the intensive production of animals or animal products, in an enclosure, that requires food and water to be provided mechanically or by hand; or
 - (ii) storing and packing feed and produce, if the use is ancillary to the use in subparagraph (i); but
- (b) does not include the cultivation of aquatic animals.

Examples of intensive animal industry—

feedlot, piggery, poultry and egg production

intensive horticulture—

- (a) means the use of premises for—
 - (i) the intensive production of plants or plant material carried out indoors on imported media; or
 - (ii) the intensive production of plants or plant material carried out outside using artificial lights or containers; or
 - (iii) storing and packing plants or plant material grown on the premises, if the use is ancillary to the use in subparagraph (i) or (ii); but
- (b) does not include the cultivation of aquatic plants.

Examples of intensive horticulture—

greenhouse, hydroponic farm, mushroom farm

key resource area see the State Planning Policy.

koala assessable development area means an area shown as a koala assessable development area on a map of assessable development areas.

koala habitat area means an area that—

- (a) is any of the following—
 - (i) a bushland habitat area;
 - (ii) a rehabilitation habitat area;
 - (iii) an area of koala habitat value; but

(b) is not an area unsuitable for koalas.

koala habitat classification area see schedule 11, part 4, section 9(1).

koala habitat tree means—

- (a) a tree of the *Corymbia*, *Melaleuca*, *Lophostemon* or *Eucalyptus* genera that is edible by koalas; or
- (b) a tree of a type typically used by koalas for shelter, including, for example, a tree of the *Angophora* genus.

L^{Aeq} means the constant sound pressure level that has the same acoustic energy as a fluctuating noise level.

lake see the Water Act, schedule 4.

land degradation see the Vegetation Management Act, schedule.

landing means the use of premises for a structure—

- (a) for mooring, launching, storing and retrieving vessels; and
- (b) from which passengers embark and disembark.

land use plan means—

- (a) for strategic port land—a plan approved under the Transport Infrastructure Act, section 286; or
- (b) for airport land—a land use plan approved under the Airport Assets Act, chapter 3, part 1.

least concern regional ecosystem see the Vegetation Management Act, schedule.

light rail corridor means—

- (a) land on which light rail transport infrastructure is situated; or
- (b) land on which light rail transport infrastructure works are carried out; or
- (c) land on which services for the maintenance or operation of light rail transport infrastructure are situated.

light rail transport infrastructure see the Transport Infrastructure Act, schedule 6.

light rail transport infrastructure works see the Transport Infrastructure Act, schedule 6.

local government area 1 means the local government area of—

- (a) Brisbane City Council; or
- (b) Bundaberg Regional Council; or
- (c) Cairns Regional Council; or
- (d) Fraser Coast Regional Council; or
- (e) Gold Coast City Council; or
- (f) Ipswich City Council; or
- (g) Logan City Council; or
- (h) Moreton Bay Regional Council; or
- (i) Redland City Council; or
- (j) Scenic Rim Regional Council; or
- (k) Sunshine Coast Regional Council; or
- (l) Townsville City Council.

local government area 2 means a local government area that is not local government area 1.

local instrument means a local planning instrument or variation approval.

loss of capacity, of tidal land, means the loss of the capacity of the land to sustain marine plants of the quality or quantity sustained on the land before operational work is carried out.

low impact industry means the use of premises for an industrial activity—

- (a) that is the manufacturing, producing, processing, repairing, altering, recycling, storing, distributing, transferring or treating of products; and

- (b) that a local planning instrument applying to the premises states is a low impact industry; and
- (c) that complies with any thresholds for the activity stated in a local planning instrument applying to the premises, including, for example, thresholds relating to the number of products manufactured or the level of emissions produced by the activity.

low-risk waterway means a waterway shown in the waterways spatial data layer as a low-risk waterway.

maintenance cover, for a sewer, stormwater drain or water main, means a cover, whether above, at, or below ground level, for a chamber through which a person, machine or device may access the sewer, stormwater drain or water main to inspect, maintain or replace the sewer, stormwater drain or water main.

major electricity infrastructure—

- (a) means the use of premises for—
 - (i) a transmission grid or supply network; or
 - (ii) a telecommunication facility, if the use is ancillary to the use in subparagraph (i); but
- (b) does not include the use of premises for a supply network or private electricity works stated in schedule 6, section 26(5), unless the use involves—
 - (i) a new zone substation or bulk supply substation; or
 - (ii) the augmentation of a zone substation or bulk supply substation that significantly increases the input or output standard voltage.

major-risk waterway means a waterway shown in the waterways spatial data layer as a major-risk waterway.

major sport, recreation and entertainment facility means the use of premises for large-scale events, including, for example, major sporting, recreation, conference or entertainment events.

Examples of a major sport, recreation and entertainment facility—

convention centre, exhibition centre, horse racing facility, sports stadium

map of assessable development areas means each of the following maps, dated 31 May 2010 and published by the department in which the Environmental Protection Act, chapter 5 is administered—

- (a) map SPRP_KHV4;
- (b) map SPRP_KHV7;
- (c) map SPRP_KHV9;
- (d) map SPRP_KHV10;
- (e) map SPRP_KHV13;
- (f) map SPRP_KHV14;
- (g) map SPRP_KHV18;
- (h) map SPRP_KHV19;
- (i) map SPRP_KHV20;
- (j) map SPRP_KHV23;
- (k) map SPRP_KHV24;
- (l) map SPRP_KHV25;
- (m) map SPRP_KHV29.

map of koala habitat values means each of the following maps, dated 31 May 2010 and published by the department in which the Environmental Protection Act, chapter 5, is administered—

- (a) map SPP_KHV1;
- (b) map SPP_KHV3;
- (c) map SPP_KHV4;
- (d) map SPP_KHV6;
- (e) map SPP_KHV7;
- (f) map SPP_KHV9;
- (g) map SPP_KHV10;

- (h) map SPP_KHV13;
- (i) map SPP_KHV14;
- (j) map SPP_KHV18;
- (k) map SPP_KHV19;
- (l) map SPP_KHV20;
- (m) map SPP_KHV22;
- (n) map SPP_KHV23;
- (o) map SPP_KHV24;
- (p) map SPP_KHV25;
- (q) map SPP_KHV28;
- (r) map SPP_KHV29;
- (s) map SPP_KHV32.

mapped area see section 59(1)(a)(i).

marine industry means the use of waterfront premises for—

- (a) manufacturing, storing, repairing or servicing vessels or maritime infrastructure; or
- (b) providing fuel or disposing of waste, if the use is ancillary to the use in paragraph (a).

Examples of marine industry—

boat building, boat storage, dry dock

marine plant see the Fisheries Act, section 8.

Marine Safety Act means the *Transport Operations (Marine Safety) Act 1994*.

market means the use of premises on a regular basis for—

- (a) selling goods to the public mainly from temporary structures, including, for example, stalls, booths or trestle tables; or
- (b) providing entertainment, if the use is ancillary to the use in paragraph (a).

master planned area, for a priority port, see the Sustainable Ports Act, section 6.

maximum flow velocity of water see the Building Regulation, section 13(5).

medium impact industry means the use of premises for an industrial activity—

- (a) that is the manufacturing, producing, processing, repairing, altering, recycling, storing, distributing, transferring or treating of products; and
- (b) that a local planning instrument applying to the premises states is a medium impact industry; and
- (c) that complies with any thresholds for the activity stated in a local planning instrument applying to the premises, including, for example, thresholds relating to the number of products manufactured or the level of emissions produced by the activity.

medium value rehabilitation habitat area means an area in the SEQ region shown as medium value rehabilitation on a map of koala habitat values.

minor building work means building work that increases the gross floor area of a building by no more than the lesser of the following—

- (a) 50m²;
- (b) an area equal to 5% of the gross floor area of the building.

moderate-risk waterway means a waterway shown in the waterways spatial data layer as a moderate-risk waterway.

modify, for an existing levee, see the Water Regulation, schedule 19.

monitoring bore means a water bore used for monitoring—

- (a) the physical characteristics of an aquifer; or
- (b) the physical, chemical or biological characteristics of water in an aquifer.

Examples of physical characteristics of water—

standing water level, water discharge rate, water pressure

motor sport facility means the use of premises for—

- (a) organised or recreational motor sports; or
- (b) facilities for spectators, including, for example, stands, amenities and food and drink outlets, if the use is ancillary to the use in paragraph (a).

Examples of a motor sport facility—

car race track, go-kart track, trail bike park, 4WD park

multiple dwelling means a residential use of premises involving 3 or more dwellings, whether attached or detached, for separate households.

native vegetation means vegetation under the Vegetation Management Act.

nature-based tourism means the use of premises for a tourism activity, including accommodation for tourists, for the appreciation, conservation or interpretation of—

- (a) an area of environmental, cultural or heritage value; or
- (b) a local ecosystem; or
- (c) the natural environment.

Examples of nature-based tourism—

environmentally responsible accommodation facilities including cabins, huts, lodges and tents

necessary environmental clearing see the Vegetation Management Act, schedule.

new or changed access, between premises and a road or State transport corridor, means—

- (a) the use of a new location as a relevant vehicular access between the premises and the road or corridor; or
- (b) the construction of a new relevant vehicular access between the premises and the road or corridor; or
- (c) the extension of an existing relevant vehicular access between the premises and the road or corridor; or

Example for paragraph (c)—

widening a driveway to allow access by a wide-turning vehicle

- (d) an increase in the number of vehicles regularly using an existing relevant vehicular access between the premises and the road or corridor; or
- (e) a change in the type of vehicles regularly using an existing relevant vehicular access between the premises and the road or corridor.

nightclub entertainment facility means the use of premises for—

- (a) providing entertainment that is cabaret, dancing or music; or
- (b) selling liquor, and preparing and selling food, for consumption on the premises, if the use is ancillary to the use in paragraph (a).

noise attenuation land means land shown as noise attenuation land on the map called ‘Noise attenuation zone for off-road motorcycling facility’, dated March 2017 and published by the department.

noise sensitive place means a dwelling used for residential purposes or short-term accommodation.

non-host lot means a lot no part of which is used for a wind farm or part of a wind farm.

non-juvenile koala habitat tree means a koala habitat tree that—

- (a) is more than 4m tall; or
- (b) has a trunk with a circumference of more than 31.5cm, measured at 1.3m above the ground.

non-referable building work means building work in a declared fish habitat area, if the work is reasonably necessary for—

- (a) the maintenance of structures built in accordance with the requirements, under any Act, relating to the structure; or

Examples of structures—

- boat ramps, boardwalks, drains, fences, jetties, roads, safety signs, swimming enclosures and weirs

- powerlines or associated powerline infrastructure
- (b) educational or research purposes relating to the declared fish habitat area; or
- (c) monitoring the impact of development on the declared fish habitat area; or
- (d) the construction or placement of structures, including, for example, safety signs, swimming enclosures or aids to navigation, if—
 - (i) the impact on the area is minor; and
 - (ii) the structures are built in accordance with the requirements, under any Act, relating to the structure.

non-referable material change of use means a material change of use—

- (a) for an urban purpose in an urban area; and
- (b) that is carried out on a lot, other than a lot that—
 - (i) if the lot contains vegetation shown on the regulated vegetation management map as a category B area—contains an endangered regional ecosystem; or
 - (ii) is dedicated as a road under the Land Act; or
 - (iii) is unallocated State land.

non-resident worker means a person who—

- (a) performs work as part of—
 - (i) a resource extraction project; or
 - (ii) a project identified in a planning scheme as a major industry or infrastructure project; or
 - (iii) a rural use; and
- (b) lives, for extended periods, in the locality of the project, but has a permanent residence elsewhere.

Example of a non-resident worker—

a person engaged in fly-in/fly-out, or drive in/drive out, working arrangements

non-resident workforce accommodation means the use of premises for—

- (a) accommodation for non-resident workers; or
- (b) recreation and entertainment facilities for persons residing at the premises and their visitors, if the use is ancillary to the use in paragraph (a).

of concern regional ecosystem see the Vegetation Management Act, schedule.

office—

- (a) means the use of premises for—
 - (i) providing an administrative, financial, management or secretarial service or function; or
 - (ii) the practice of a profession; or
 - (iii) providing business or professional advice or services; but
- (b) does not include the use of premises for making, selling or hiring goods.

Examples of an office—

bank, real estate agency

off-road motorcycling includes motocross, enduro, dirt track riding, moto-trials, mini-khana and recreational trail bike riding.

off-road motorcycling facility means the use of premises for—

- (a) off-road motorcycling; or
- (b) facilities that are ancillary to off-road motorcycling.

Examples of ancillary facilities—

- camping facilities
- caretaker's accommodation
- club house facilities
- pit areas
- spectator facilities
- toilets and shower or change room facilities

- vehicle and equipment storage facilities
- viewing stands

off-road motorcycling facility land means land comprising—

- (a) lot 50 on SP233714; or
- (b) lot 1 on RP61998; or
- (c) lot 1 on RP61996; or
- (d) lot 3 on RP61997; or
- (e) lot 39 on RP17872; or
- (f) lot 38 on RP17872.

operating hours, for schedule 5A, see schedule 5A, part 1, section 1.

other rail infrastructure see the Transport Infrastructure Act, schedule 6.

outdoor area, for premises, means an area on the premises other than—

- (a) a driveway that is used only for providing access between the premises and a road; or
- (b) an area used only for protecting or enhancing the visual amenity of the premises; or

Example for paragraph (b)—

an area used for planting or ornaments

- (c) a part of a building that is relevant to calculating the gross floor area of the building.

outdoor sales means the use of premises for—

- (a) displaying, selling, hiring or leasing vehicles, boats, caravans, machinery, equipment or other similar products, if the use is mainly conducted outdoors; or
- (b) repairing, servicing, selling or fitting accessories for the products stated in paragraph (a), if the use is ancillary to the use in paragraph (a).

outdoor sport and recreation means the use of premises for—

- (a) a recreation or sporting activity that is carried on outdoors and requires areas of open space; or
- (b) providing and selling food and drink, change room facilities or storage facilities, if the use is ancillary to the use in paragraph (a).

Examples of outdoor sport and recreation—

cricket oval, driving range, golf course, swimming pool, tennis court

overland flow water see the Water Act, schedule 4.

park means the use of premises, accessible to the public free of charge, for sport, recreation and leisure activities and facilities.

parking station means the use of premises for parking vehicles, other than parking that is ancillary to another use.

PDA-associated development, for a priority development area, see the Economic Development Act, schedule 1.

PDA-related development means—

- (a) development in a priority development area; or
- (b) PDA-associated development for a priority development area.

permanent plantation means the use of premises for growing, but not harvesting, plants for carbon sequestration, biodiversity, natural resource management or another similar purpose.

Petroleum and Gas Act means the *Petroleum and Gas (Production and Safety) Act 2004*.

place of worship means the use of premises for—

- (a) organised worship and other religious activities; or
- (b) social, education or charitable activities, if the use is ancillary to the use in paragraph (a).

plan of subdivision means a plan or agreement (however described) for reconfiguring a lot—

- (a) unless the reconfiguration relates to—

-
- (i) the acquisition of land, including by agreement, under the Acquisition Act, by a constructing authority or an authorised electricity entity, for a purpose for which land may be taken under that Act; or
 - (ii) the acquisition of land by agreement, other than under the Acquisition Act, by a constructing authority or an authorised electricity entity, for a purpose for which land may be taken under that Act; or
 - (iii) land held by the State, or a statutory body representing the State, that is being reconfigured for a purpose for which land may be taken under the Acquisition Act, whether or not the land relates to an acquisition; or
 - (iv) the acquisition of land for water infrastructure; or
 - (v) a lot that is, or includes, airport land, strategic port land or Brisbane core port land; or
- (b) other than a plan lodged under the Acquisition Act, section 12A as a result of a reconfiguration stated in paragraph (a)(i).

PMAV means a property map of assessable vegetation under the Vegetation Management Act.

port authority see the Transport Infrastructure Act, schedule 6.

port operator see the Transport Infrastructure Act, section 267.

port overlay, for a priority port's master planned area, means the port overlay made for the area under the Sustainable Ports Act, part 2, division 3.

port service means the use of premises for—

- (a) the arrival and departure of vessels; or
- (b) the movement of passengers or goods on or off vessels; or
- (c) storing, servicing, maintaining or repairing vessels; or

- (d) ancillary uses that directly service the needs of passengers of the vessels.

prescribed assessable development means development stated to be assessable development in—

- (a) schedule 9; or
- (b) schedule 10, other than schedule 10, part 15 or 16.

prescribed building work means building work for a single dwelling on a lot, and any reasonably associated building or structure, if—

- (a) a development permit has been given for the building work; or
- (b) the building work is stated in schedule 7, part 1, section 2; or
- (c) the dwelling is for public housing.

prescribed clearing means—

- (a) clearing vegetation on freehold land or land leased under the Land Act, if—
 - (i) the clearing is necessary for building a single dwelling on a lot, and any reasonably associated building or structure; and
 - (ii) there is no other dwelling on the lot; or
- (b) clearing vegetation on indigenous land, if the clearing is necessary for building 1 or more dwellings, and any reasonably associated building or structure, for—
 - (i) Aboriginal or Torres Strait Islander inhabitants of the land; or
 - (ii) persons providing educational, health, police or other community services for the inhabitants.

prescribed development application see sections 33(1) and 34(1).

prescribed hazardous chemical—

- (a) means a hazardous chemical that—

-
- (i) is stated in the Work Health and Safety Regulation, schedule 15, table 15.1; or
 - (ii) belongs to a class, type or category of hazardous chemicals stated in the Work Health and Safety Regulation, schedule 15, table 15.2; but
- (b) does not include a liquid that is an agricultural chemical product under the *Agricultural and Veterinary Chemicals Code Act 1994* (Cwlth), if—
- (i) the liquid is stored on premises in a rural zone; and
 - (ii) the liquid is for use in a primary industry activity; and
 - (iii) the total amount of liquid stored on the premises is less than 10,000L; and
 - (iv) the liquid is stored in packages that are labelled and ready for use by an end user.

prescribed industrial premises see schedule 5A, part 3, section 4(1).

prescribed land means—

- (a) freehold land; or
- (b) indigenous land; or
- (c) any of the following under the Land Act—
 - (i) leased land;
 - (ii) land dedicated as a road;
 - (iii) trust land, other than indigenous land;
 - (iv) unallocated State land;
 - (v) land subject to a licence or permit; or
- (d) land that is the property of the State under the Land Act, section 9 or 13A(1) or (2).

prescribed local government area means the local government area of—

- (a) Brisbane City Council, other than the part of the area to which the City Centre Neighbourhood Plan under the Council's planning scheme applies; or
- (b) Cairns Regional Council; or
- (c) Gold Coast City Council; or
- (d) Ipswich City Council; or
- (e) Logan City Council; or
- (f) Mackay Regional Council; or
- (g) Moreton Bay Regional Council; or
- (h) Noosa Shire Council; or
- (i) Redland City Council; or
- (j) Rockhampton Regional Council; or
- (k) Sunshine Coast Regional Council; or
- (l) Toowoomba Regional Council; or
- (m) Townsville City Council.

prescribed retail premises see schedule 5A, part 2, section 2(1).

priority development area see the Economic Development Act, schedule 1.

priority koala assessable development area means an area shown as a priority koala assessable development area on a map of assessable development areas.

priority port see the Sustainable Ports Act, section 5.

private certifier application register means a register that includes the following information for each application that must be recorded in the register—

- (a) the name and contact details of the private certifier to whom the application was made;
- (b) the information stated in this schedule, definition *application register*, paragraphs (b) to (g) and (j) to (l).

private certifier (class A) means a private certifier whose licence under the Building Act has a development approval endorsement under that Act.

public housing—

- (a) means housing—
 - (i) provided by, or for, the State or a statutory body representing the State; and
 - (ii) for short or long term residential use; and
 - (iii) totally or partly subsidised by the State or a statutory body representing the State; and
- (b) includes services provided mainly for residents of the housing.

public marine facility see the Transport Infrastructure Act, schedule 6.

qualitative statement see the Building Act, section 33(6).

quantifiable standard see the Building Act, section 33(6).

Queensland Development Code means the document called ‘Queensland Development Code’ published by the department in which the Building Act is administered.

Queensland Plumbing and Wastewater Code see the *Plumbing and Drainage Act 2018*, section 7(1).

rail transport infrastructure see the Transport Infrastructure Act, schedule 6.

railway corridor means—

- (a) land on which rail transport infrastructure or other rail infrastructure is situated; or
- (b) land on which railway works are carried out, if the works relate to rail transport infrastructure or other rail infrastructure; or
- (c) land on which services for the maintenance or operation of rail transport infrastructure or other rail infrastructure are situated.

railway crossing see the Transport Infrastructure Act, schedule 6.

railway manager see the Transport Infrastructure Act, schedule 6.

railway works see the Transport Infrastructure Act, schedule 6.

referable dam see the Water Supply Act, section 341.

refund amount, for schedule 5A, see schedule 5A, part 1, section 1.

registered non-profit organisation means an incorporated organisation that is—

- (a) recorded in the register kept under the *Collections Act 1966*, part 6; or

Note—

The register of charities kept under the *Collections Act 1966* can be inspected on the website of the Office of Fair Trading.

- (b) recorded in a register kept under a law of another State substantially corresponding to the register kept under the *Collections Act 1966*, part 6; or

- (c) a registered entity within the meaning of the *Australian Charities and Not-for-profits Commission Act 2012* (Cwlth).

Note—

The Australian Charities and Not-for-profits Register kept under the *Australian Charities and Not-for-profits Commission Act 2012* (Cwlth) can be inspected on the website of the Australian Charities and Not-for-profits Commission.

regulated regrowth vegetation see the Vegetation Management Act, schedule.

regulated vegetation management map see the Vegetation Management Act, section 20A.

regulatory maps means maps SEQ RP1 to SEQ RP 32, dated August 2017 and published on the department's website.

rehabilitation habitat area means an area in the SEQ region shown as any of the following on a map of koala habitat values—

- (a) high value rehabilitation;
- (b) medium value rehabilitation;
- (c) low value rehabilitation.

relevant industrial use, for schedule 5A, see schedule 5A, part 1, section 1.

relevant retail use, for schedule 5A, see schedule 5A, part 1, section 1.

relevant service provider means—

- (a) for a sewer—the sewerage service provider, as defined under the Water Supply Act, schedule 3, for the sewer; or
- (b) for a stormwater drain—the owner of the stormwater drain; or
- (c) for a water main—the water service provider, as defined under the Water Supply Act, schedule 3, for the water main.

relevant vehicular access, between premises and a road or State transport corridor, means—

- (a) a road, other than a pedestrian or bicycle path, that provides access between the premises and the road or corridor; or
- (b) a driveway that provides access between the premises and the road or corridor.

relevant zone means the zone applying to premises under a local instrument.

relocatable home park means the use of premises for—

- (a) relocatable dwellings for long-term residential accommodation; or
- (b) amenity facilities, food and drink outlets, a manager's residence, or recreation facilities for the exclusive use of

residents, if the use is ancillary to the use in paragraph (a).

remnant vegetation see the Vegetation Management Act, schedule.

renewable energy facility—

- (a) means the use of premises for the generation of electricity or energy from a renewable energy source, including, for example, sources of bioenergy, geothermal energy, hydropower, ocean energy, solar energy or wind energy; but
- (b) does not include the use of premises to generate electricity or energy to be used mainly on the premises.

repealed IPA means the repealed *Integrated Planning Act 1997*.

repealed koala State planning policy means the State planning policy, made under the old Act, called ‘State Planning Policy 2/10–Koala Conservation in South East Queensland’ as in force immediately before the State planning policy was repealed under the old Act.

repealed SEQ SPRP—

- (a) in relation to an application under the old Act or repealed IPA for a development approval, means the State planning regulatory provisions made under that repealed Act for the SEQ region and as in force when the application was properly made under that repealed Act; or
- (b) otherwise, means the State planning regulatory provisions made under the old Act for the SEQ region and as in force immediately before the repeal of the old Act.

research and technology industry means the use of premises for an innovative or emerging industry that involves designing and researching, assembling, manufacturing, maintaining, storing or testing machinery or equipment.

Examples of research and technology industries—

aeronautical engineering, biotechnology industries, computer component manufacturing, computer server facilities, energy industries, medical laboratories

residential care facility means the use of premises for supervised accommodation, and medical and other support services, for persons who—

- (a) can not live independently; and
- (b) require regular nursing or personal care.

Examples of a residential care facility—

convalescent home, nursing home

residential clearing means prescribed clearing, if—

- (a) the building work for the dwelling that necessitates the clearing is carried out—
 - (i) under a development permit; or
 - (ii) by, or for, the State or a public sector entity; or
- (b) the dwelling that necessitates the clearing is for public housing.

residential development—

- (a) means the use of premises for a residential purpose, including, for example, a relocatable home park or retirement facility; but
- (b) does not include—
 - (i) a community residence; or
 - (ii) a detention facility; or
 - (iii) a residential care facility; or
 - (iv) tourist accommodation; or
 - (v) accommodation for employees, including rural workers' accommodation.

Residential Services Act means the *Residential Services (Accreditation) Act 2002*.

residential zone means premises (however described) designated in a local categorising instrument as residential.

Examples of ways of describing premises—

- general residential
- low density, low-medium density, medium density or high density residential
- character residential
- tourist accommodation

resort complex means the use of premises for—

- (a) tourist and visitor accommodation that includes integrated leisure facilities; or

Examples of integrated leisure facilities—

bars, meeting and function facilities, restaurants, sporting and fitness facilities

- (b) staff accommodation that is ancillary to the use in paragraph (a); or
- (c) transport facilities for the premises, including, for example, a ferry terminal or air service.

resource allocation authority means a resource allocation authority issued under the Fisheries Act.

retail use, for schedule 5A, see schedule 5A, part 1, section 1.

retirement facility means a residential use of premises for—

- (a) accommodation for older members of the community, or retired persons, in independent living units or serviced units; or
- (b) amenity and community facilities, a manager's residence, health care and support services, preparing food and drink or staff accommodation, if the use is ancillary to the use in paragraph (a).

roadside stall means the use of premises for the roadside display and sale of goods in a rural area.

road transport infrastructure see the Transport Infrastructure Act, schedule 6.

rooming accommodation means the use of premises for—

-
- (a) residential accommodation, if each resident—
- (i) has a right to occupy 1 or more rooms on the premises; and
 - (ii) does not have a right to occupy the whole of the premises; and
 - (iii) does not occupy a self-contained unit, as defined under the *Residential Tenancies and Rooming Accommodation Act 2008*, schedule 2, or has only limited facilities available for private use; and
 - (iv) shares other rooms, facilities, furniture or equipment outside of the resident's room with 1 or more other residents, whether or not the rooms, facilities, furniture or equipment are on the same or different premises; or
- (b) a manager's residence, an office or providing food or other services to residents, if the use is ancillary to the use in paragraph (a).

Examples of rooming accommodation—

boarding house, hostel, monastery, off-site student accommodation

routine management, for clearing native vegetation on land, means the clearing of native vegetation—

- (a) to establish a necessary fence, road or vehicular track, if the maximum width of the clearing for the fence, road or track is 10m; or
- (b) to build necessary built infrastructure, including core airport infrastructure, other than contour banks, fences, roads or vehicular tracks, if—
 - (i) the clearing is not to source construction timber; and
 - (ii) the total area cleared is less than 2ha; and
 - (iii) the total area covered by the infrastructure is less than 2ha; or
- (c) on freehold land by the owner of the land to source construction timber for establishing necessary infrastructure on any land of the owner, if—

- (i) the clearing does not cause land degradation; and
 - (ii) restoration of a similar type to, and to the extent of, the removed trees, is ensured; or
- (d) by the lessee of land leased under the Land Act for agriculture or grazing purposes to source construction timber, other than commercial timber, for establishing necessary infrastructure on the land, if—
- (i) the clearing does not cause land degradation; and
 - (ii) restoration of a similar type to, and to the extent of, the removed trees, is ensured.

rural activity means—

- (a) an agricultural supplies store; or
- (b) animal husbandry; or
- (c) animal keeping; or
- (d) aquaculture; or
- (e) cropping; or
- (f) an intensive animal industry; or
- (g) intensive horticulture; or
- (h) a permanent plantation; or
- (i) a roadside stall; or
- (j) a rural industry; or
- (k) rural workers' accommodation; or
- (l) a wholesale nursery; or
- (m) a winery.

rural industry means the use of premises for—

- (a) storing, processing or packaging products from a rural use carried out on the premises or adjoining premises; or
- (b) selling products from a rural use carried out on the premises or adjoining premises, if the use is ancillary to the use in paragraph (a).

rural workers' accommodation means the use of premises as accommodation, whether or not self-contained, for employees of a rural use, if—

- (a) the premises, and the premises where the rural use is carried out, are owned by the same person; and
- (b) the employees are not non-resident workers.

rural zone means premises (however described) designated in a local categorising instrument as rural.

sales office means the use of premises for the temporary display of land parcels or buildings that—

- (a) are for sale or proposed to be sold; or
- (b) can be won as a prize in a competition.

secondary dwelling means a dwelling, whether attached or detached, that is used in conjunction with, and subordinate to, a dwelling house on the same lot.

sensitive land use means—

- (a) caretaker's accommodation; or
- (b) a childcare centre; or
- (c) a community care centre; or
- (d) a community residence; or
- (e) a detention facility; or
- (f) a dual occupancy; or
- (g) a dwelling house; or
- (h) a dwelling unit; or
- (i) an educational establishment; or
- (j) a health care service; or
- (k) a hospital; or
- (l) a hotel, to the extent the hotel provides accommodation for tourists or travellers; or
- (m) a multiple dwelling; or
- (n) non-resident workforce accommodation; or

- (o) a relocatable home park; or
- (p) a residential care facility; or
- (q) a resort complex; or
- (r) a retirement facility; or
- (s) rooming accommodation; or
- (t) rural workers' accommodation; or
- (u) short-term accommodation; or
- (v) a tourist park.

SEQ development area means an area in the SEQ region identified in a gazette notice by the Minister as a major development area.

SEQ regional landscape and rural production area—

- (a) means an area in the SEQ region shown on the regulatory maps as a regional landscape and rural production area; but
- (b) does not include an SEQ development area.

SEQ regional plan means the regional plan for the SEQ region.

SEQ rural enterprise precinct means an area in the SEQ region identified in a gazette notice by the Minister as a rural enterprise precinct.

SEQ rural living area—

- (a) means an area in the SEQ region shown on the regulatory maps as a rural living area; but
- (b) does not include an SEQ development area.

SEQ urban footprint means a part of the SEQ region shown on the regulatory maps as urban footprint.

service industry means the use of premises for an industrial activity that—

- (a) does not result in off-site air, noise or odour emissions; and

(b) is suitable for location with other non-industrial uses.

Examples of service industries—

audio visual equipment repair, bicycle repairs, clock and watch repairs, computer repairs, dry cleaning, film processing, hand engraving, jewellery making, laundromat, locksmith, picture framing, shoe repairs, tailor

service station means the use of premises for—

- (a) selling fuel, including, for example, petrol, liquid petroleum gas, automotive distillate or alternative fuels; or
- (b) a food and drink outlet, shop, trailer hire, or maintaining, repairing, servicing or washing vehicles, if the use is ancillary to the use in paragraph (a).

sewer—

- (a) means a sewer that is part of a sewerage system under the *Plumbing and Drainage Act 2018*; and
- (b) includes a maintenance cover for the sewer.

shop means the use of premises for—

- (a) displaying, selling or hiring goods; or
- (b) providing personal services or betting to the public.

Examples of a shop—

betting agency, corner store, department store, discount variety store, hair dressing salon, liquor store, supermarket

shopping centre means the use of premises for an integrated shopping complex consisting mainly of shops.

short-term accommodation—

- (a) means the use of premises for—
 - (i) providing accommodation of less than 3 consecutive months to tourists or travellers; or
 - (ii) a manager's residence, office, or recreation facilities for the exclusive use of guests, if the use is ancillary to the use in subparagraph (i); but

- (b) does not include a hotel, nature-based tourism, resort complex or tourist park.

showroom means the use of premises for the sale of goods that are of—

- (a) a related product line; and
- (b) a size, shape or weight that requires—
 - (i) a large area for handling, display or storage; and
 - (ii) direct vehicle access to the building that contains the goods by members of the public, to enable the loading and unloading of the goods.

Examples of a showroom—

bulk stationary supplies, bulky goods sales, bulk home supplies, motor vehicle sales showroom

significant community projects see the Vegetation Management Act, section 10(5).

significant residual impact see the *Environmental Offsets Act 2014*, schedule 2.

site suitability statement, for premises, means a site suitability statement included in a site investigation report, or validation report, for the premises under the Environmental Protection Act.

sole-occupancy unit means a room, or other part of a building, used as a dwelling by a person to the exclusion of any other person.

special industry means the use of premises for an industrial activity—

- (a) that is the manufacturing, producing, processing, repairing, altering, recycling, storing, distributing, transferring or treating of products; and
- (b) that a local planning instrument applying to the premises states is a special industry; and
- (c) that complies with any thresholds for the activity stated in a local planning instrument applying to the premises, including, for example, thresholds relating to the

number of products manufactured or the level of emissions produced by the activity.

sport and recreation activity means—

- (a) a major sport, recreation and entertainment facility at which events are carried out mainly outdoors; or
- (b) a motor sport facility at which the motor sports are carried out mainly outdoors; or
- (c) outdoor sport and recreation; or
- (d) tourist accommodation, or accommodation for employees, that is ancillary to a use stated in paragraphs (a) to (c); or
- (e) a commercial use that is ancillary to a use stated in paragraphs (a) to (c).

spring see the Water Act, schedule 4.

State coastal land see the Coastal Act, section 17.

State-controlled road includes State toll road corridor land.

State-controlled transport tunnel means a tunnel that forms part of a State transport corridor.

State development area see the State Development Act, schedule 2.

State development assessment provisions means the document made by the Minister called ‘State development assessment provisions’, dated 1 July 2019 and published on the department’s website.

State Planning Policy means the State planning policy dated July 2017 and published on the department’s website.

State toll road corridor land see the Transport Infrastructure Act, schedule 6.

State transport corridor means—

- (a) a busway corridor; or
- (b) a light rail corridor; or
- (c) a railway corridor; or

(d) a State-controlled road.

storey—

(a) means a space within a building between 2 floor levels, or a floor level and a ceiling or roof, other than—

(i) a space containing only a lift shaft, stairway or meter room; or

(ii) a space containing only a bathroom, shower room, laundry, toilet or other sanitary compartment; or

(iii) a space containing only a combination of the things stated in subparagraph (i) or (ii); or

(iv) a basement with a ceiling that is not more than 1m above ground level; and

(b) includes—

(i) a mezzanine; and

(ii) a roofed structure that is on, or part of, a rooftop, if the structure does not only accommodate building plant and equipment.

stormwater drain—

(a) means infrastructure used for receiving, storing, transporting or treating stormwater; and

(b) includes a maintenance cover for the stormwater drain.

strategic airport means a strategic airport within the meaning of the State Planning Policy.

strategic port land see the Transport Infrastructure Act, section 286(5).

subartesian bore see the Water Act, schedule 4.

subdivision means reconfiguring a lot stated in schedule 2 of the Act, definition *reconfiguring a lot*, paragraphs (a) and (d).

substation means the use of premises—

(a) as part of a transmission grid or supply network to—

(i) convert or transform electrical energy from one voltage to another; or

- (ii) regulate voltage in an electrical circuit; or
- (iii) control electrical circuits; or
- (iv) switch electrical current between circuits; or
- (b) for a telecommunications facility for—
 - (i) works as defined under the Electricity Act, section 12(1); or
 - (ii) workforce operational and safety communications.

substation site—

- (a) means premises that contain a substation and are larger than 50m²; but
- (b) does not include premises used for—
 - (i) pole mounted substations, transformers or voltage regulators; or
 - (ii) pad mounted substations or transformers.

supply network see the Electricity Act, section 8.

supporting material, for a development application or change application, means any material, including site plans, elevations and supporting reports, about the aspect of the application assessable against or having regard to the planning scheme that—

- (a) was given to the assessment manager by the applicant; and
- (b) is in the assessment manager's possession when the request to inspect and purchase is made.

Sustainable Ports Act means the *Sustainable Ports Development Act 2015*.

telecommunications facility means the use of premises for a facility that is capable of carrying communications and signals by guided or unguided electromagnetic energy.

temporary use means a use that—

- (a) is carried out on a non-permanent basis; and

- (b) does not involve the construction of, or significant changes to, permanent buildings or structures.

theatre means the use of premises for—

- (a) presenting movies, live entertainment or music to the public; or
- (b) the production of film or music; or
- (c) the following activities or facilities, if the use is ancillary to a use in paragraph (a) or (b)—
 - (i) preparing and selling food and drink for consumption on the premises;
 - (ii) facilities for editing and post-production;
 - (iii) facilities for wardrobe, laundry and make-up;
 - (iv) set construction workshops;
 - (v) sound stages.

Example of a theatre—

cinema, concert hall, film studio, music recording studio

tidal area see section 19(3) of the Act.

tidal land see the Fisheries Act, schedule 1.

tidal water see the Coastal Act, schedule.

tourist accommodation means the use of premises for providing accommodation of less than 3 consecutive months to tourists or travellers.

tourist activity means—

- (a) nature-based tourism; or
- (b) a resort complex; or
- (c) a tourist attraction; or
- (d) a tourist park; or
- (e) tourist accommodation, or accommodation for employees, that is ancillary to a use stated in paragraphs (a) to (d); or

- (f) a commercial use that is ancillary to a use stated in paragraphs (a) to (d).

tourist attraction means the use of premises for—

- (a) providing entertainment to, or a recreation facility for, the general public; or
- (b) preparing and selling food and drink for consumption on the premises, if the use is ancillary to the use in paragraph (a).

Examples of a tourist attraction—

theme park, zoo

tourist park means the use of premises for—

- (a) holiday accommodation in caravans, self-contained cabins, tents or other similar structures; or
- (b) amenity facilities, a food and drink outlet, a manager's residence, offices, recreation facilities for the use of occupants and their visitors, or staff accommodation, if the use is ancillary to the use in paragraph (a).

transmission grid see the Electricity Act, section 6.

transport depot means the use of premises for—

- (a) storing vehicles, or machinery, that are used for a commercial or public purpose; or
- (b) cleaning, repairing or servicing vehicles or machinery, if the use is ancillary to the use in paragraph (a).

Examples of a transport depot—

using premises to store buses, taxis, trucks, heavy vehicles or heavy machinery

transport infrastructure means—

- (a) active transport infrastructure as defined under the Transport Planning Act, section 8A(3); or
- (b) air transport infrastructure; or
- (c) busway transport infrastructure; or
- (d) light rail transport infrastructure; or

- (e) miscellaneous transport infrastructure as defined under the Transport Infrastructure Act, section 416; or
- (f) other rail infrastructure; or
- (g) public marine transport infrastructure as defined under the Transport Infrastructure Act, schedule 6; or
- (h) public passenger transport infrastructure as defined under the Transport Planning Act, schedule 1; or
- (i) rail transport infrastructure; or
- (j) a road on State toll road corridor land; or
- (k) a State-controlled road.

Transport Planning Act means the *Transport Planning and Coordination Act 1994*.

transport reasons see the Transport Infrastructure Act, section 283I.

trust land means land comprising a reserve, or deed of grant in trust, under the Land Act.

unallocated State land see the Land Act, schedule 6.

underground water see the Water Act, schedule 4.

underground water area means an area declared to be an underground water area under the Water Act, section 1046(1).

urban activity—

- (a) means the use of premises for an urban purpose; but
- (b) does not include—
 - (i) a community activity; or
 - (ii) indoor recreation; or
 - (iii) residential development; or
 - (iv) a sport and recreation activity; or
 - (v) a tourist activity.

urban area means—

- (a) an area identified in a gazette notice by the chief executive as an urban area; or

- (b) if no gazette notice has been published—an area identified as an area intended for an urban purpose, or for an urban purpose in the future, on a map in a planning scheme that—
- (i) identifies the area using cadastral boundaries; and
 - (ii) is used exclusively or mainly to assess development applications.

Example of a map for paragraph (b)—

a zoning map

urban purpose means a purpose for which land is used in cities or towns—

- (a) including residential, industrial, sporting, recreation and commercial purposes; but
- (b) not including rural residential, environmental, conservation, rural, natural or wilderness area purposes.

urban zone means—

- (a) any of the following zones stated in schedule 2—
 - (i) general residential zone, low density residential zone, low-medium density residential zone, medium density residential zone, high density residential zone or character residential zone;
 - (ii) centre zone, neighbourhood centre zone, local centre zone, district centre zone, major centre zone or principal centre zone;
 - (iii) industry zone, low impact industry zone, medium impact industry zone, high impact industry zone, special industry zone, research and technology industry zone, industry investigation zone or waterfront and marine industry zone;
 - (iv) emerging community zone;
 - (v) innovation zone;
 - (vi) mixed use zone;
 - (vii) specialised centre zone;

(viii) township zone; or

- (b) a zone, other than a zone stated in schedule 2, that is of a substantially similar type to a zone stated in paragraph (a).

utility installation means the use of premises for—

- (a) a service for supplying or treating water, hydraulic power or gas; or
- (b) a sewerage, drainage or stormwater service; or
- (c) a transport service; or
- (d) a waste management service; or
- (e) a maintenance depot, storage depot or other facility for a service stated in paragraphs (a) to (d).

Vegetation Management Act means the *Vegetation Management Act 1999*.

veterinary service means the use of premises for—

- (a) the medical or surgical treatment of animals; or
