Current as at 1 July 2019

Reprint note

The National Electricity Law is applied (with modifications) as a law of Queensland by the *Electricity—National Scheme (Queensland) Act 1997*. This version is the Law as it applies in Queensland—see the *Electricity—National Scheme (Queensland) Act 1997*, section 6. It is intended a new reprint of the National Law will be prepared by the Office of the Queensland Parliamentary Counsel when any change in the National Law takes effect.

National scheme legislation may not be entirely consistent with Queensland's current drafting style.

- (a) that—
 - (i) is directly related to the purchase or sale, or price for the purchase or sale, of electricity from the wholesale exchange during a stated period; and
 - (ii) the liable entity entered into to manage its exposure in relation to the volatility of the spot price; or
 - (b) of another type prescribed by the Rules to be a qualifying contract.
- (2) However, a qualifying contract does not include a contract or arrangement mentioned in subsection (1)(a) that is prescribed by the Rules to be an excluded contract for the reliability obligations.
- (3) A liable entity's *net contract position* during a particular period is—

- (a) the number of megawatts of electricity to which the liable entity's qualifying contracts under subsection (1) relate for the period; and
 - (b) adjusted in accordance with the Rules to account for the likelihood that, despite the qualifying contracts, the liable entity retains exposure in relation to the volatility of the spot price during the period.
- (4) In this section—
- spot price* means the price for electricity purchased from the wholesale exchange in a region determined in accordance with the Rules.

14P Obligation to report net contract position

- (1) The liable entity must give the AER a report about the liable entity's net contract position for the stated trading intervals during the reliability gap period as at the contract position day—
- (a) that complies with subsection (2); and
 - (b) on or before the reporting day stated in the T-1 reliability instrument.

A liable entity may adjust the liable entity's net contract position for a stated trading interval during a reliability gap period after the contract position day for the purposes of sections 14R and 14S in accordance with the Rules.

14R Obligation to have contracted sufficiently for one-in-two year peak demand forecast

- (1) This section applies if the peak demand is more than the one-in-two year peak demand forecast for the reliability gap period during a stated trading interval in the reliability gap period.
- (2) The liable entity must comply with the obligation that the liable entity's net contract position for the trading interval is not less than the liable entity's share of the one-in-two year peak demand forecast for the trading interval determined in accordance with the Rules.

Note—

Subsection (2) is a reliability obligation civil penalty provision: See the definition of "reliability obligation civil penalty provision" in section 2AA(1a).

- (3) For subsection (2), the liable entity's net contract position for a trading interval is—
 - (a) if the liable entity has adjusted its net contract position under the Rules—the liable entity's net contract position for the trading interval as at the day provided under the Rules; or

14S Obligation to maintain net contract position

The Rules may require a liable entity to maintain its net contract position for the stated trading intervals in the reliability gap period during the period that—

- (a) starts on the contract position day; and
- (b) ends when the reliability gap period ends.

Division 4 AEMO as procurer of last resort

14T AEMO may recover costs for procurer of last resort function

- (1) The Rules may provide for a cost recovery scheme that allows AEMO to recover the costs AEMO incurs as the procurer of last resort for a region.
- (2) AEMO is the procurer of last resort for a region if—
 - (a) a T-1 reliability instrument is made for a forecast reliability gap in a region; and
 - (b) AEMO performs its function under the Rules of entering into contracts to secure the availability of electricity reserves in relation to the reliability gap period stated in the instrument in the region.
- (3) The cost recovery scheme under the Rules may provide for AEMO to recover the costs from the liable entities for the region who breach section 14R(2) or an obligation under the Rules mentioned in section 14S during the reliability gap period.
- (4) However, a liable entity is not liable to more than \$100 000 000 under the cost recovery scheme in relation to a reliability gap period in a region.

Division 1A Wholesale electricity markets—AER monitoring and reporting functions

18A Definitions

(1) In this Division—

confidential supplier information means information obtained from a wholesale electricity supplier by the AER under section 18D(1)(b) that is taken to be confidential information under section 18D(2);

effective competition has the meaning given by section 18B;

wholesale electricity supplier means a Registered Participant who supplies electricity or services through the wholesale exchange operated and administered by AEMO under this Law and the Rules.

18B Meaning of effective competition

For the purposes of this Division, the AER must, in assessing whether there is *effective competition* within a wholesale electricity market, have regard to—

- (a) whether there are active competitors in the market and whether those competitors hold a reasonably sustainable position in the market (or whether there is merely the threat of competition in the market); and
- (b) whether prices are determined on a long term basis by underlying costs rather than the existence of market power, even though a particular competitor may hold a substantial degree of market power from time to time; and
- (c) whether barriers to entry into the market are sufficiently low so that a substantial degree of market power may only be held by a particular competitor on a temporary basis; and
- (d) whether there is independent rivalry in all dimensions of the price, product or service offered in the market; and
- (e) any other matters that the AER considers relevant.

18C AER wholesale market monitoring and reporting functions

- (1) The AER wholesale market monitoring functions are as follows:
 - (a) to monitor and review on a regular and systematic basis the performance of wholesale electricity markets in accordance with this Law and the Rules;
 - (b) in connection with paragraph (a), to identify and analyse whether, in relation to a particular wholesale electricity market—
 - (i) there is effective competition within the market; and

- (ii) there are features of the market that may be detrimental to effective competition within the market; and
 - (iii) there are features of the market that may be impacting detrimentally on the efficient functioning of the market (and, if so, to assess the extent of the inefficiency);
 - (c) other monitoring or analysing functions that relate to offers and prices (including forecast prices, actual prices and bidding) within any wholesale electricity market conferred on the AER by the Rules.
- (2) The AER wholesale market reporting functions are as follows:
 - (a) to prepare, at least once every 2 years, a report on the results of the performance of the AER wholesale market monitoring functions;
 - (b) to provide, as the AER thinks fit, advice on the results of the performance of the AER wholesale market monitoring functions to the MCE, including advice as to—
 - (i) the AER's opinion (and reasons for the opinion) on whether those results identify, in relation to a wholesale electricity market monitored, features of the market (whether systemic or otherwise) that—
 - (A) may be detrimental to effective competition within the market; or
 - (B) may be impacting detrimentally on the efficient functioning of the market,such that a legislative, regulatory or other response is required; and
 - (ii) any limitations that the AER considers may restrict its ability to communicate with relevant persons about the results of the performance of the AER wholesale market monitoring functions;

- (c) other reporting requirements that relate to the AER wholesale market monitoring functions conferred on the AER by the Rules.
- (3) A report prepared under subsection (2)(a) must, in relation to a wholesale electricity market monitored during the period to which the report relates (which must be a period of at least 5 years), contain a discussion and analysis of—
- (a) the results of the performance of the AER wholesale market monitoring functions for the relevant period; and
 - (b) features of the market that impact detrimentally on the efficient functioning of the market and the achievement of the national electricity objective, including (but not limited to)—
 - (i) the presence of significant barriers to entry; or
 - (ii) any other features of the industry structure that give rise to concerns that there may not be effective competition within the market; and
 - (c) inefficiencies in the market, their causes and whether conditions in the market are such that the inefficiencies are likely to impact detrimentally in the long term on the efficient functioning of the market; and
 - (d) the monitoring methodology applied and the results of indicators, tests and calculations performed; and
 - (e) other matters of a long term nature relevant to effective competition within the market, including, for example, observations relating to planned increases in interconnector capacity and trends in demand for electricity and in the uptake of alternative sources of energy.
- (4) The AER must publish a report prepared under subsection (2)(a) on its website.

18D Provision, use and disclosure of information

- (1) The following provisions apply to the performance of the AER wholesale market monitoring functions:
 - (a) the AER must, in performing the AER wholesale market monitoring functions in relation to a wholesale electricity market, use publicly available information to identify any relevant matter referred to in section 18C(1);
 - (b) if the AER has, in accordance with paragraph (a), identified any such relevant matter, the AER may, in accordance with its powers under this Part, obtain information from a wholesale electricity supplier—
 - (i) to assist it in determining whether—
 - (A) there is effective competition within the market; and
 - (B) there are features of the market that may be detrimental to effective competition within the market; and
 - (C) there are features of the market that may be impacting detrimentally on the efficient functioning of the market (and, if so, to assess the extent of the inefficiency); and
 - (ii) if there is an inefficiency identified, to analyse if the inefficiency gives rise to competition in the market that is not effective competition (or, in relation to an inefficiency identified by the AER but that is no longer present in the market, if the inefficiency gave rise to competition in the market that was not effective competition).
- (2) information obtained under subsection (1)(b) is taken to have been given to the AER in confidence (whether or not an express claim of confidentiality is made when the information is given).
- (3) Despite anything to the contrary in this Part, the AER must not use confidential supplier information for any purpose other than

the performance of the AER wholesale market monitoring functions or the AER wholesale market reporting functions.

- (4) Despite anything to the contrary in this Part, the AER must not disclose confidential supplier information unless—
 - (a) the disclosure is for the purposes of the AER wholesale market monitoring functions or the AER wholesale market reporting functions; and
 - (b) the confidential supplier information has been combined or arranged with other information so that it does not reveal any confidential aspects of the confidential supplier information or identify the wholesale electricity supplier to whom the information relates.
- (5) A requirement to disclose information at common law, including under the rules of natural justice, to the extent that the information is confidential supplier information, is limited to the disclosure of such information in accordance with subsection (4) (and the common law, including the rules of natural justice, are modified by force of this subsection so as to accord with subsection (4)).
- (6) If the AER exercises its powers under this Part to obtain information contained in a document for the purposes of subsection (1)(b), the AER must return the document to the person from whom it was obtained—
 - (a) within 12 months of obtaining the document; or
 - (b) if it is not reasonably practicable to return the document within the 12 month period referred to in paragraph (a), as soon as is reasonably practicable to do so after the expiry of that 12 month period.

18E Immunity from liability

- (1) Despite any Act or law to the contrary, no liability for breach of confidence attaches to a designated entity with respect to the disclosure of confidential supplier information by any designated entity if the designated entity who made the disclosure reasonably believed—

-
- (a) that the information was not confidential supplier information; or
 - (b) that the information disclosed did not reveal any confidential aspects of the information or would not identify the wholesale electricity supplier to whom the information relates.
- (2) In this section—
- designated entity* means—
- (a) the AER; or
 - (b) a member of the AER; or
 - (c) a person assisting the AER to perform its functions (or in the exercise of its powers) under this Division.

 - (ii) to develop appropriate and relevant criteria, or an appropriate and relevant methodology, for the purpose of the required assessment;
 - (f) give the AEMC other specific directions in respect of the conduct of a MCE directed review.

43 Notice of MCE directed review

- (1) The AEMC must publish notice of a MCE directed review on its website and in a newspaper circulating generally throughout Australia.
- (2) The AEMC must publish a further such notice if a term of reference or a requirement or direction relating to the MCE directed review is varied.

44 Conduct of MCE directed review

Subject to any requirement or direction of the MCE, a MCE directed review—

- (a) may be conducted in such manner as the AEMC considers appropriate; and
- (b) may (but need not) involve public hearings.

Division 5 Other reviews

45 Reviews by AEMC

- (1) The AEMC may conduct a review into—
 - (a) the operation and effectiveness of the Rules; or
 - (b) any matter relating to the Rules.
- (2) A review—
 - (a) may be conducted in such manner as the AEMC considers appropriate; and
 - (b) may (but need not) involve public hearings.
- (3) During the course of a review, the AEMC may—
 - (a) consult with any person or body that it considers appropriate;
 - (b) establish working groups to assist it in relation to any aspect, or any matter or thing that is the subject, of the review;
 - (c) commission reports by other persons on its behalf on any aspect, or matter or thing that is the subject, of the review;

Division 6 Miscellaneous

46 AEMC must publish and make available up to date versions of Rules

The AEMC must, at all times—

- (a) maintain, on its website, a copy of the National Electricity Rules, as in force from time to time; and
- (b) make copies of the National Electricity Rules, as in force from time to time, available to the public for inspection at its offices during business hours.

47 Fees

- (1) The AEMC may charge a fee specified, or a fee calculated in accordance with a formula or methodology specified, in the Regulations for services provided by it in performing or exercising any of its functions or powers under this Law, the Regulations or the Rules.
- (2) The fee must not be such as to amount to taxation.

48 Confidentiality of information

- (1) Information provided to the AEMC for the purposes of a MCE directed review or a review conducted by the AEMC under section 45 is confidential information for the purposes of Division 4 or 5 if—
 - (a) the person who provides it claims, when providing it to the AEMC, that it is confidential information; and
 - (b) the AEMC decides that the information is confidential information.
- (2) Nothing prevents the disclosure of confidential information in a report to the MCE or a Minister of a participating jurisdiction under Division 4 or 5, but the AEMC must ensure that the information is identified as such in the report.

[s 49]

- (3) If the AEMC decides that information provided to it for the purposes of a MCE directed review, or a review conducted by the AEMC under section 45, is confidential information, the AEMC, the MCE or a Minister of a participating jurisdiction may only make public a version of the report from which the information has been omitted.
- (4) If information is omitted from a published version of a report as being confidential information, a note to that effect must be included in the report at the place in the report from which the information is omitted.

Note—

See also section 31 of this Law and section 24 of the Australian Energy Market Commission Establishment Act 2004 of South Australia.

 - 4 AEMO has additional functions and powers under the National Energy Retail Law and the National Energy Retail Rules.
- (2) In its role as National Transmission Planner, AEMO has the following functions:
- (a) to prepare, maintain and publish a plan for the development of the national transmission grid (the National Transmission Network Development Plan) in accordance with the Rules;
 - (b) to establish and maintain a database of information relevant to planning the development of the national transmission grid and to make the database available to the public;
 - (c) to keep the national transmission grid under review and provide advice on the development of the grid or projects that could affect the grid;
 - (d) to provide a national strategic perspective for transmission planning and coordination;

- (e) any other functions conferred on AEMO under this Law or the Rules in its capacity as National Transmission Planner.
- (3) AEMO must, in carrying out functions referred to in this section, have regard to the national electricity objective.

49A AEMO's power to carry out statutory functions

AEMO has the power to do all things necessary or convenient for or in connection with its statutory functions.

49B Delegation

- (1) Subject to subsection (2) and the Rules, AEMO may delegate any of its functions or powers under this Law or the Rules to—
 - (a) a director, officer or employee of AEMO; or

- (2) However, a function or power classified by the Regulations as non-delegable cannot be delegated.
- (3) A delegate may, subject to AEMO's directions, subdelegate a delegated function or power to a director, officer or employee of AEMO.
- (4) A delegate (or subdelegate) must comply with any direction given by AEMO that is relevant to the exercise of the delegated functions or powers.

Division 2 AEMO’s adoptive jurisdiction functions

Subdivision 1 Preliminary

50 Application of this Division

- (1) Subdivision 2 applies to, and in relation to, a participating jurisdiction if (and only if) the application Act of that jurisdiction, or an instrument made under that Act, declares that it does so apply.
- (2) Subdivision 3 applies to, and in relation to, a participating jurisdiction if (and only if) the application Act of that jurisdiction, or an instrument made under that Act, declares that it does so apply.
- (3) A Rule or other form of subordinate legislation made for the purposes of Subdivision 2 or 3 applies to and in relation to a participating jurisdiction if (and only if) the relevant Subdivision applies to and in relation to that jurisdiction.

50A AEMO to account to relevant Minister for performance of adoptive functions

- (1) AEMO must, at the written request of the Minister of an adoptive jurisdiction, provide information about the performance of its adoptive functions with respect to that jurisdiction.
- (2) Protected information provided in response to a request under subsection (1) must be identified as such by AEMO at the time of providing the information.
- (3) No fee is to be charged for the provision of information under this section.

Subdivision 2 AEMO's additional advisory functions

50B Additional advisory functions

- (1) AEMO's additional advisory functions are as follows:
 - (a) to prepare and publish a report on an adoptive jurisdiction's declared power system;
 - (b) to report to the Minister of an adoptive jurisdiction on matters relevant to the future capacity and reliability of the declared power system.
- (2) The additional advisory functions are to be exercised as follows:
 - (a) a report on an adoptive jurisdiction's declared power system is to be prepared and published under subsection (1)(a) at the request of the Minister of the relevant jurisdiction;
 - (b) a report is to be provided under subsection (1)(b) at the request of the Minister of the relevant jurisdiction or on AEMO's own initiative.
- (3) A report under subsection (1)(a) must include an assessment of the performance of connections between transmission systems and distribution systems in the relevant jurisdiction and the need (if any) for new connections.
- (4) A request under subsection (1)(a) or (1)(b) may be for a single report or for reports to be made on an annual or other periodic basis.

Subdivision 3 AEMO's declared network functions

50C AEMO's declared network functions

- (1) AEMO's declared network functions are as follows:

- (a) to plan, authorise, contract for, and direct, augmentation of the declared shared network;
 - (b) to provide information about the planning processes for augmentation of the declared shared network;
 - (c) to provide information and other services to facilitate decisions for investment and the use of resources in the adoptive jurisdiction's electricity industry;
 - (d) to provide shared transmission services by means of, or in connection with, the declared shared network;
 - (e) any other functions, related to the declared transmission system or electricity network services provided by means of or in connection with the declared transmission system, conferred on it under this Law or the Rules;
 - (f) Any other functions, related to the declared transmission system or electricity network services provided by means of or in connection with the declared transmission system, conferred on it under a law of the adoptive jurisdiction.
- (2) AEMO—
- (a) is not limited in planning augmentation of the declared shared network to its role as National Transmission Planner; and
 - (b) may make or issue market information instruments as may be necessary or expedient for that or any other declared network function.

50D Network agreement

- (1) A declared transmission system operator must have an agreement (a network agreement) with AEMO—
- (a) for the provision of electricity network services (shared network capability services) for the performance of AEMO's declared network functions; and

- (b) containing such other provisions as may be required by the Rules.

Note—

Subsection (1) is a civil penalty provision.

- (2) A declared transmission system operator or a prospective declared transmission system operator must, if asked to do so by AEMO, offer to enter into a network agreement with AEMO subject to and in accordance with the Rules.
- (3) The offer must be submitted within 20 business days after the date of the request.
- (4) The terms and conditions of a network agreement under this section are to be regarded as protected information but are liable to disclosure under the provisions of Division 6 that allow for the disclosure of protected information.

Exception

Insofar as the terms and conditions of a network agreement can be inferred from a determination to be published on AEMO's website under section 50H(6), they are not to be regarded as protected information.

- (5) The Rules may require or regulate the provision of shared network capability services.
- (6) If there is any inconsistency between a network agreement and a transmission determination as to the price of electricity network services to be provided by means of, or in connection with, the declared transmission system, the transmission determination prevails.
- (7) In this section—

prospective declared transmission system operator means a person who is to carry out an augmentation of the declared transmission system and who may therefore become a declared transmission system operator on completion of the augmentation.

50E Connection agreements

- (1) A person to whom this section applies must have connection agreements as follows:
 - (a) an agreement with AEMO for the provision of shared transmission services; and
 - (b) an agreement with the relevant declared transmission system operator for the provision of connection services as defined in the Rules.
- (2) An agreement required by this section must be in accordance with the Rules.
- (3) If—
 - (a) a person to whom this section applies (the applicant) wants to connect to a declared shared network; but
 - (b) the fault levels at the proposed connection point would, if the connection were allowed, be likely to exceed the limits fixed under the Rules,

AEMO may, as a condition of entering into a connection agreement with the applicant, require the applicant to make a contribution to the cost of carrying out the augmentation to the declared shared network necessary to reduce fault levels to an acceptable level.

- (4) This section applies to each of the following:
 - (a) a network service provider for a distribution system situated in the adoptive jurisdiction;
 - (b) another network service user who is provided with electricity network services by means of, or in connection with, the declared shared network.

50F Augmentation

- (1) A declared transmission system operator must not augment the declared shared network, or any part of the declared shared network, unless—

- (a) AEMO authorises or directs the operator to carry out the augmentation; or
 - (b) the operator wins a competitive tender conducted by AEMO to carry out the augmentation; or
 - (c) the augmentation is authorised by the Rules.
- (2) In deciding whether a proposed augmentation to the declared shared network should proceed, AEMO—
- (a) must undertake a cost benefit analysis; and
 - (b) must apply a probabilistic (as distinct from a deterministic) approach to determining the benefit of an augmentation unless—
 - (i) a probabilistic approach will not produce a materially different result; or
 - (ii) it is not reasonably practicable to use a probabilistic approach; or
 - (iii) a probabilistic approach is, for some other reason, inappropriate.

Example—

Probabilistic planning is not relevant to negotiated network services. Hence, if the services to be provided as a result of the augmentation are negotiated network services, a probabilistic approach would be inappropriate.

- (3) Subject to the Rules, AEMO must conduct a competitive tender to determine who will carry out an augmentation to a declared shared network.
- (4) A declared transmission system operator—
- (a) must do anything required by the Rules to facilitate the planning, construction or operation of an augmentation; and
 - (b) must, at AEMO's request, do anything else reasonably required by AEMO to facilitate the planning, construction or operation of an augmentation.

Example—

A declared transmission system operator will be required by the Rules to enter into an augmentation connection agreement with the person responsible for operation of an augmentation to connect the augmentation with the declared shared network.

- (5) A declared transmission system operator must not engage in conduct that has the effect of preventing or hindering the planning, construction or operation of an augmentation.

Note—

Subsections (1), (4) and (5) are civil penalty provisions: See the definition of “civil penalty provision” in section 2AA(1).

50G AEMO to have qualified exemption for performing statutory functions

- (1) For performing statutory functions, AEMO—
- (a) is not required to be registered as a Registered participant; and
 - (b) is not subject to the provisions of the Rules applicable to network service providers.
- (2) However—
- (a) a Rule applicable to a Registered participant or a network service provider extends (with or without modification) to AEMO if provision is made for its application (or modified application) to AEMO by the Rules; and
 - (b) provision may be made for extending the application of such a Rule to AEMO even though AEMO does not own, control or operate the declared shared network.

50H Resolution of dispute arising from attempt to negotiate a network agreement or augmentation connection agreement

- (1) The AER may, on application by AEMO or 1 or more declared transmission system operators, make a determination to resolve a dispute arising from an attempt to negotiate—

- (a) a network agreement or an augmentation connection agreement; or
 - (b) an amendment to a network agreement or an augmentation connection agreement.
- (2) The determination may determine the terms and conditions of the agreement or the amendment.
- (3) If the AER determines the terms and conditions of an agreement or an amendment, an agreement is taken to arise between the interested parties, or the agreement between the interested parties is taken to be amended, in accordance with the AER's determination.
- (4) A determination may only be made under this section if—
- (a) the AER is satisfied that the applicant has made a reasonable, but unsuccessful, attempt to negotiate the agreement or amendment; and
 - (b) the AER has given AEMO and all declared transmission system operators that are to be affected by the determination an opportunity to make representations about the terms of the proposed determination.
- (5) A determination under this section takes effect on a date specified in the determination.
- (6) A determination under this section must be published on AEMO's website.
- (7) In this section, a reference to a declared transmission system operator extends to a prospective declared transmission system operator within the meaning of section 50D(7).

50J General principles governing determinations

- (1) A determination under this Subdivision must be compatible with the proper performance of AEMO's declared network functions.
- (2) In determining a dispute about a network agreement or an augmentation connection agreement, or an amendment to a network agreement or an augmentation connection agreement,

the AER must have regard to the Rules and the allocation of functions, powers and duties between AEMO and the declared transmission system operator, so far as relevant to—

- (a) the allocation of risk under such an agreement; or
 - (b) the provision of shared network capability services; or
 - (c) any other matter that has a bearing on the subject matter of such an agreement.
- (3) A determination cannot alter the allocation of risk under an existing network agreement unless AEMO agrees.
- (4) The provisions applicable to the determination of an access dispute apply to a determination by the AER under this Subdivision with the following changes:
- (a) section 131(1)(c), section 131(2), section 132 and section 133 do not apply; and
 - (b) any further changes necessary to adapt those provisions to the determination of a dispute under this Division.
- (5) In this section, a reference to a declared transmission system operator extends to a prospective declared transmission system operator within the meaning of section 50D(7).

Division 3 Information etc to be provided to Ministers

51 Ministerial request

- (1) The MCE or a Minister of a participating jurisdiction may ask AEMO for information, a report or other services.
- (2) The request may be accompanied by a written statement of the purpose for which the information, report or other services are sought.

51A Compliance with request

- (1) AEMO must comply with a request under this Division.

[s 51B]

- (2) However, if compliance with the request would involve disclosure of protected information, AEMO may only provide the information if its disclosure is authorised under this Law or the Rules.

Note—

The Minister of an adoptive jurisdiction may be entitled to certain protected information under section 50A.

51B Quarterly report

- (1) AEMO must report to the MCE in each quarter on its work under this Division for the previous quarter.
- (2) The report must—
- (a) summarise each request received in the relevant quarter; and
 - (b) state by whom each request was made.

Division 4 Fees and charges

52 AEMO fees and charges

- (1) AEMO may—
- (a) determine fees and charges for services provided by it under this Law or the Rules; and
 - (b) charge for and recover the fees and charges in accordance with this Law and the Rules.
- (2) The fees and charges for a service are to be determined on a non-profit basis that—
- (a) provides for full recovery of the costs of providing the service; and
 - (b) does not amount to taxation; and
 - (c) is consistent with the requirements of the Rules.

- (3) Exact equivalence is not required between the costs of providing a service and the revenue derived from providing the service in a particular accounting period if there are reasonable grounds to believe that costs will over time approximate revenue.

Note—

This section does not prevent AEMO from generating a profit from the performance of non-statutory functions (such as the provision of consultancy services). Any such profit would not, however, be available for distribution to members.

- (4) Despite the above provisions, a component of AEMO's fees and charges may, if the Rules so provide, relate to costs that are not specifically referable to services provided under this Law or the Rules.

Note—

As a general rule, AEMO's expenditures will be allocated to services provided to the electricity industry or the gas industry. Subsection (4) deals with costs that cannot be wholly attributed to either industry.

- (5) This section does not limit AEMO's power to determine, charge for and recover fees and charges for carrying out functions conferred by jurisdictional legislation.
- (6) In this section—
service includes the performance of statutory functions.

Division 5 Information gathering

53 Information gathering powers

- (1) If AEMO considers it reasonably necessary to do so for the exercise of a relevant function, it may—
- (a) make a general market information order requiring information from persons of a class specified in the order; or
 - (b) serve a market information notice requiring information from the person to whom the notice is addressed.

- (2) A relevant function is—
 - (a) an NTP function; or
 - (b) an additional advisory function; or
 - (c) a declared network function; or
 - (d) any other statutory function for which this Law authorises AEMO to gather information by means of a market information instrument.
- (3) In considering whether to make a general market information order or to issue a market information notice and, if so, the terms of the order or notice, AEMO must have regard to the reasonable costs of efficient compliance.
- (4) A market information instrument—
 - (a) must specify—
 - (i) the information, or categories of information, that is to be provided to AEMO; and
 - (ii) the time by which the information is required; and
 - (iii) in the case of a general market information order—the class of persons to which the order applies; and
 - (iv) in the case of a market information notice—the name of the person to whom the notice is addressed; and
 - (b) may specify the manner and form in which information must be provided.
- (5) Without limiting subsection (4), a market information instrument—
 - (a) may require information of any of the following kinds:
 - (i) historic, current and forecast information;
 - (ii) information that may be derived from other information in the possession or control of the person required to provide the information; and
 - (b) may require the provision of information on an annual or other periodic basis.

53A Making and publication of general market information order

- (1) Before making a final decision to make a general market information order, AEMO must—
 - (a) invite persons of the class to which the proposed order is addressed to make representations about the terms of the proposed order within a period (at least 20 business days) specified in the invitation; and
 - (b) consider any written representations made in response to the invitation within the specified period.
- (2) As soon as practicable after a general market information order is made—
 - (a) the order must be published on AEMO's website; and
 - (b) notice of the making of the order must be published in a newspaper circulating generally throughout Australia.

53B Service of market information notice

- (1) Before serving a market information notice, AEMO must—
 - (a) give the person on whom AEMO intends to serve the market information notice (the respondent) written notice of its intention to do so; and
 - (b) give the respondent a draft of the market information notice.
- (2) A notice under subsection (1) must—
 - (a) invite the respondent to make written representations to AEMO about whether AEMO should serve the market information notice; and
 - (b) specify the period (at least 20 business days) allowed for making the representations.
- (3) AEMO must consider written representations made in response to the invitation within the specified period before making a final decision to serve the market information notice.

53C Compliance with market information instrument

- (1) A market information instrument takes effect as follows—
 - (a) in the case of a general market information order—on publication on AEMO’s website; or
 - (b) in the case of a market information notice—on service of the notice on the person to whom it is addressed.
- (2) AEMO may, by written notice, exempt a person from compliance with a general market information order—
 - (a) unconditionally or on specified conditions; and
 - (b) wholly or to a specified extent.
- (3) Subject to any exemption, a person who is a member of a class to which a general market information order applies must comply with the order.

Note—

Subsection (3) is a civil penalty provision.

- (4) A person on whom a market information notice is served must comply with the notice.

Note—

Subsection (4) is a civil penalty provision.

- (5) The duty to comply with a market information instrument prevails over a duty of confidence.
- (6) However—
 - (a) a person cannot be required by a market information instrument to disclose information that is the subject of legal professional privilege; and
 - (b) a natural person cannot be required by a market information instrument to disclose information that would incriminate the person or make the person liable to a criminal penalty under the law of an Australian jurisdiction (whether or not the jurisdiction is a participating jurisdiction).

- (7) A person incurs no liability, by complying with a market information instrument, for breach of contract, breach of confidence or any other civil wrong.

53D Use of information

Subject to this Law, the Rules and the Regulations, AEMO may use information obtained by market information instrument or in any other way for any purpose connected with the exercise of any of its statutory functions.

53E Providing false or misleading information

A person must not, in purported compliance with a market information instrument, provide information to AEMO that the person knows is false or misleading in a material particular.

Maximum penalty:

- (a) in the case of a natural person—\$2000;
- (b) in the case of a body corporate—\$10,000.

Division 6 Protected information

Subdivision 1 AEMO's obligation to protect information

54 Protected information

- (1) AEMO must take all reasonable measures to protect from unauthorised use or disclosure information (*protected information*)—
- (a) given to it in confidence; or
 - (b) given to it in connection with the performance of its statutory functions and classified under the Rules or the Regulations as confidential information.

[s 54A]

- (2) AEMO makes unauthorised use of protected information if (and only if) it uses the information contrary to this Law, the Rules or the Regulations.

Note—

Section 53D authorises AEMO (subject to the Law, the Rules and the Regulations) to use information (whether obtained by market information instrument or in any other way) for any purpose connected with the exercise of any of its statutory functions.

- (3) AEMO makes an unauthorised disclosure of protected information if the disclosure is not authorised under this Law, the Rules or the Regulations.

Subdivision 2 Disclosure of protected information held by AEMO

AEMO is authorised to disclose protected information if it has the written consent of the person from whom the information was obtained.

54C Disclosure required or permitted by law etc

- (1) The disclosure of protected information as required or permitted by a law of the Commonwealth, a State or Territory is authorised.
- (2) The disclosure of protected information to any of the following is authorised:
 - (a) the Australian Competition and Consumer Commission;

-
- (b) the Australian Energy Regulator;
 - (c) the Australian Energy Market Commission;
 - (ca) the Energy Security Board;
 - (d) the Economic Regulation Authority of Western Australia;
 - (e) a jurisdictional regulator;
 - (f) if the information is reasonably required by an energy ombudsman to resolve a dispute between a Registered participant and a retail customer but the information is not end-use consumer information—the energy ombudsman;
 - (g) a prescribed body;
 - (h) any staff or consultant assisting a body mentioned above in performing its functions or exercising its powers.
- (3) A person or body to whom protected information is disclosed under subsection (2) may use the information for any purpose connected with the performance of the functions, or the exercise of the powers, of the person or body.
 - (4) AEMO may impose conditions to be complied with in relation to protected information disclosed under subsection (2).
 - (5) The disclosure of protected information by a person in the ordinary course of carrying out functions as an officer or employee of, or consultant to, AEMO or a body mentioned in subsection (2) is authorised.

54D Disclosure for purposes of court and tribunal proceedings

AEMO is authorised to disclose protected information for the purposes of—

- (a) civil or criminal proceedings; or
- (b) a proceeding before the Tribunal or a tribunal established by or under a law of this jurisdiction or another participating jurisdiction.

54E Disclosure of document with omission of protected information

- (2) AEMO must include a note at the place in the document from which the protected information is omitted to the effect that protected information has been omitted from the document.

54F Disclosure of non-identifying information

AEMO is authorised to disclose protected information if—

- (a) it does not disclose any elements of the information that could lead to the identification of the person to whom the information relates; or
- (b) the manner in which it discloses the information does not identify the person to whom that information relates.

Example—

Protected information may be combined or arranged with other information to prevent the identification of the person to whom the protected information relates.

54FA Disclosure of information in an aggregated form

AEMO is authorised to disclose information given to it in confidence, in compliance with this Law or the Rules or voluntarily, if the information has been combined or arranged with other information so that it does not reveal any confidential aspects of the information.

54G Disclosure of protected information for safety, proper operation of the market etc

- (1) AEMO is authorised to disclose protected information if—
 - (a) the disclosure is necessary for—

-
- (i) the safety, reliability or security of the supply of electricity; or
 - (ii) the safety, reliability or security of the national electricity system; or
 - (b) the disclosure is necessary for the proper operation of the national electricity market; or
 - (c) the information is customer profiling information for facilitating retail competition; or
 - (d) the information is in the public domain.
- (2) AEMO may impose conditions to be complied with in relation to information disclosed under subsection (1)(a), (b) or (c).

54H Disclosure of protected information authorised if detriment does not outweigh public benefit

- (1) Subject to this section, AEMO is authorised to disclose protected information after the restricted period if AEMO is of the opinion—
- (a) that the disclosure of the information would not cause detriment to the person who has given it or to a person from whom that person received it; or
 - (b) that, although the disclosure of the information would cause detriment to such a person, the public benefit in disclosing it outweighs that detriment.
- (2) Before disclosing the protected information, AEMO must give the person who gave the protected information—
- (a) a written notice (an initial disclosure notice) stating—
 - (i) that AEMO wishes to disclose the information, specifying the nature of the intended disclosure; and
 - (ii) that AEMO is of the opinion required by subsection (1); and

- (iii) that the person, within the period specified in the notice, may make representations to AEMO against disclosure of the information; and
 - (b) AEMO's decision, in writing, setting out the reasons why AEMO—
 - (i) wishes to make the disclosure; and
 - (ii) is of the opinion required by subsection (1).
- (3) If AEMO is aware that the person who gave the protected information in turn received the information from another person and is aware of the other person's identity and address, AEMO must, before disclosing the information give the other person—
 - (a) a written notice (an initial disclosure notice) stating—
 - (i) that AEMO wishes to disclose the information, specifying the nature of the intended disclosure; and

71L Leave for user or consumer intervener

- (1) A user or consumer intervener may apply to the Tribunal for leave to intervene in a review of a reviewable regulatory decision under this Subdivision.
- (2) The Tribunal may grant leave to a user or consumer intervener to intervene in a review under this Subdivision.
- (3) Without limiting subsection (2), the Tribunal may grant leave to a user or consumer intervener to intervene in a review under this Division if the Tribunal is satisfied—
 - (a) the user or consumer intervener, in its application for leave to intervene, raises a matter that will not be raised by the AER or the applicant; or
 - (b) the information or material the user or consumer intervener wishes to present, or the submissions the user or consumer intervener wishes to make, in the review is likely to be better presented if submitted by the user or consumer intervener rather than another party to the review; or

-
- (c) the interests of the user or consumer intervener or its members are affected by the decision being reviewed.
 - (4) For the purposes of subsection (3)(c)—
 - (a) the interests of a user or consumer intervener are to be taken to be affected if the reviewable regulatory decision being reviewed relates to an object or purpose of the user or consumer intervener;
 - (b) the interests of a user or consumer intervener are not to be taken to not be affected only because those interests do not coincide with the interests of the applicant.

71M Interveners may raise new grounds for review

- (1) An intervener may raise in a review under this Subdivision any of the grounds specified in section 71C even if the ground that is raised by the intervener is not raised by the applicant.
- (1a) If an intervener raises a new ground for review under subsection (1) and the matter referred to in subsection (1a), the intervener must also specify the manner in which a determination made by the Tribunal varying the reviewable regulatory decision, or setting aside the reviewable regulatory decision and a fresh decision being made by the AER following remission of the matter to the AER by the Tribunal, on the basis of 1 or more grounds raised in the notice of intervention or in the application for review, either separately or collectively, would, or would be likely to, result in a materially preferable NEO decision.
- (2) To avoid doubt, it is for the intervener to establish the ground referred to in subsection (1).

71N Parties to a review under this Subdivision

The parties to a review under this Subdivision are—

- (a) the applicant; and
- (b) AER; and
- (c) an intervener.

71O Matters that may and may not be raised in a review

- (1) The AER, in a review under this Subdivision, may—
 - (a) respond to any matter raised by the applicant or an intervener; and
 - (b) raise any other matter that relates to—
 - (i) a ground for review; or
 - (ii) a matter raised in support of a ground for review; or
 - (iii) a matter relevant to the issues to be considered under section 71P(2a) and (2b).
- (2) In a review under this Subdivision, the following provisions apply in relation to a person or body, other than the AER (and so apply at all stages of the proceedings before the Tribunal):
 - (a) a regulated network service provider to whom the reviewable regulatory decision being reviewed applies may not raise in relation to the issue of whether a ground for review exists or has been made out any matter that was not raised and maintained by the provider in submissions to the AER before the reviewable regulatory decision was made;
 - (b) a regulated network service provider whose commercial interests are materially affected by the reviewable regulatory decision being reviewed may not raise in relation to the issue of whether a ground for review exists or has been made out any matter that was not raised and maintained by the provider in submissions to the AER before the reviewable regulatory decision was made;
 - (c) an affected or interested person or body (other than a provider under paragraph (a) or (b)) may not raise in relation to the issue of whether a ground for review exists or has been made out any matter that was not raised by the person or body in a submission to the AER before the reviewable regulatory decision was made;
 - (d) subject to paragraphs (a), (b) and (c)—

-
- (i) the applicant, or an intervener who has raised a new ground for review under section 71M, may raise any matter relevant to the issues to be considered under section 71P(2a) and (2b); and
 - (ii) any person or body, other than the applicant or an intervener who has raised a new ground for review under section 71M, may not raise any matter relevant to the issues to be considered under section 71P(2a) and (2b) unless it is in response to a matter raised by—
 - (A) the AER under subsection (1)(b)(iii); or
 - (B) the applicant under subparagraph (i); or
 - (C) an intervener under subparagraph (i).
- (3) For the purposes of subsection (2)(d)—
- (a) a reference to an applicant includes a reference to a person or body who has applied to the Tribunal for leave to apply for a review under this Subdivision; and
 - (b) a reference to an intervener includes a reference to a person or body who has applied to the Tribunal for leave to intervene in a review under this Subdivision.

71P Tribunal must make determination

- (1) If, following an application, the Tribunal grants leave in accordance with section 71B(1), the Tribunal must make a determination in respect of the application.

Note—

See section 71Q for the time limit within which the Tribunal must make its determination.

- (2) Subject to subsection (2a), a determination under this section may—
- (a) affirm the reviewable regulatory decision; or
 - (b) vary the reviewable regulatory decision; or

- (c) set aside the reviewable regulatory decision and remit the matter back to the AER to make the decision again in accordance with any direction or recommendation of the Tribunal.
- (2a) Despite subsection (2), the Tribunal may only make a determination—
- (a) to vary the reviewable regulatory decision under subsection (2)(b); or
 - (b) to set aside the reviewable regulatory decision and remit the matter back to the AER under subsection (2)(c),
- if—
- (c) the Tribunal is satisfied that to do so will, or is likely to, result in a decision that is materially preferable to the reviewable regulatory decision in making a contribution to the achievement of the national electricity objective (a ***materially preferable NEO decision***) (and if the Tribunal is not so satisfied the Tribunal must affirm the decision); and
 - (d) in the case of a determination to vary the reviewable regulatory decision—the Tribunal is satisfied that to do so will not require the Tribunal to undertake an assessment of such complexity that the preferable course of action would be to set aside the reviewable regulatory decision and remit the matter to the AER to make the decision again.
- (2b) In connection with the operation of subsection (2a) (and without limiting any other matter that may be relevant under this Law)—
- (a) the Tribunal must consider how the constituent components of the reviewable regulatory decision interrelate with each other and with the matters raised as a ground for review; and
 - (b) without limiting paragraph (a), the Tribunal must take into account the revenue and pricing principles (in the same manner in which the AER is to take into account these principles under section 16); and

-
- (c) the Tribunal must, in assessing the extent of contribution to the achievement of the national electricity objective, consider the reviewable regulatory decision as a whole; and
 - (d) the following matters must not, in themselves, determine the question about whether a materially preferable NEO decision exists:
 - (i) the establishment of a ground for review under section 71C(1);
 - (ii) consequences for, or impacts on, the average annual regulated revenue of a regulated network service provider;
 - (iii) that the amount that is specified in or derived from the reviewable regulatory decision exceeds the amount specified in section 71F(2).
- (2c) If the Tribunal makes a determination under subsection (2)(b) or (c), the Tribunal must specify in its determination—
- (a) the manner in which it has taken into account the interrelationship between the constituent components of the reviewable regulatory decision and how they relate to the matters raised as a ground for review as contemplated by subsection (2b)(a); and
 - (b) in the case of a determination to vary the reviewable regulatory decision—the reasons why it is proceeding to make the variation in view of the requirements of subsection (2a)(d).
- (3) For the purposes of making a determination of the kind in subsection (2)(a) or (b), the Tribunal may perform all the functions and exercise all the powers of the AER under this Law or the Rules.
- (4) (Repealed)
- (5) A determination by the Tribunal affirming, varying or setting aside the reviewable regulatory decision is, for the purposes of this Law (other than this Part), to be taken to be a decision of the AER.

71Q Target time limit for Tribunal for making a determination under this Subdivision

- (1) The Tribunal must use its best endeavours to make a determination in respect of the application for review under this Subdivision—
 - (a) within 3 months after the Tribunal grants leave in accordance with this Subdivision (the standard period); or
 - (b) if the standard period is extended under this section—that period as extended.
- (2) If the Tribunal is unable to make a determination in respect of the application within the standard period, or that period as extended, the Tribunal must, by notice in writing, extend the standard period or that period by a specified period.
- (3) The Tribunal must give a copy of the notice to—
 - (a) the applicant; and
 - (b) every other party to the application.
- (4) The Tribunal may extend the standard period, or that period as extended, more than once.
- (5) If the Tribunal extends a period, it must publish a notice in a newspaper circulating generally throughout Australia and on its website—
 - (a) stating that it has done so; and
 - (b) specifying a date by which it must now use its best endeavours to make the determination.

71R Matters to be considered by Tribunal in making determination

- (1) Subject to this section, the Tribunal, in acting under this Division with respect to a reviewable regulatory decision—
 - (a) must not consider any matter other than review related matter (and any matter arising as a result of consultation under paragraph (b)); and

-
- (b) must, before making a determination, take reasonable steps to consult with (in such manner as the Tribunal thinks appropriate)—
- (i) network service users and prospective network service users of the relevant services; and
 - (ii) any user or consumer associations or user or consumer interest groups,
that the Tribunal considers have an interest in the determination, other than a user or consumer association or a user or consumer interest group that is a party to the review.
- (2) (Repealed)
- (3) If in a review the Tribunal is of the view that a ground for review has been made out, the Tribunal may, on application by a party to the review, allow new information or material to be submitted if the party can establish to the satisfaction of the Tribunal that the information or material—
- (a) was publicly available or known to be available to the AER when it was making the reviewable regulatory decision; or
 - (b) would assist the Tribunal on any aspect of the determination to be made and was not unreasonably withheld from the AER when it was making the reviewable regulatory decision,
and was (in the opinion of the Tribunal) information or material that the AER would reasonably have been expected to have considered when it was making the reviewable regulatory decision.
- (4) Subject to this Law, for the purpose of subsection (3)(b), information or material not provided to the AER following a request for that information or material by it under this Law or the Rules is to be taken to have been unreasonably withheld.
- (5) Subsection (4) does not limit what may constitute an unreasonable withholding of information or material.
- (5a) In addition, if in a review the Tribunal is of the view—

- (a) that a ground for review has been made out; and
 - (b) that it would assist the Tribunal to obtain information or material under this subsection in order to determine whether a materially preferable NEO decision exists,
the Tribunal may, on its own initiative, take steps to obtain that information or material (including by seeking evidence from such persons as it thinks fit).
- (5b) The action taken by a person acting in response to steps taken by the Tribunal under subsection (5a) must be limited to considering decision related matter under section 28ZJ.
- (6) In this section—
review related matter means—
- (a) the application for review; and
 - (b) a notice raising new grounds for review filed by an intervener; and
 - (c) the submissions made to the Tribunal by the parties to the review; and
 - (d) decision related matter under section 28ZJ; and
 - (e) any other matter properly before the Tribunal in connection with the relevant proceedings.

Subdivision 3 Tribunal review of information disclosure decisions

71S Application for review

- (4) The person must lodge the application with the Tribunal no later than 5 business days after the date of the last notice given under section 28ZB or section 54H (as the case requires).

71T Exclusion of public in certain cases

On the application of a party to a review under this Subdivision, the Tribunal may conduct the review in the absence of the public.

71U Determination in the review

- (1) Subject to this Division, on receipt of an application under section 71S, the Tribunal must make a determination in respect of the application.
- (2) A determination under this section must only—
- (a) affirm the information disclosure decision; or
 - (b) forbid disclosure by the AER or AEMO of the information or document to which the information disclosure decision relates; or
 - (c) restrict, as specified in the determination, the intended disclosure by the AER or AEMO of the information or document to which the information disclosure decision relates.
- (3) For the purposes of making a determination of the kind in subsection (2)(a), the Tribunal may perform all the functions

and exercise all the powers of the AER or AEMO (as the case requires) under this Law or the Rules.

- (4) A determination by the Tribunal affirming the information disclosure decision, or forbidding or restricting disclosure of information, is, for the purposes of this Law (other than this Part), to be taken to be a decision of the AER or AEMO (as the case requires).

71V Tribunal must be taken to have affirmed decision if decision not made within time

- (1) This section applies if the Tribunal does not make a determination under section 71U within 20 business days after an application is lodged under section 71S.

Subdivision 4 General

71X Costs in a review

- (1) Subject to this section, the Tribunal may order that a party to a review under this Division pay all or a specified part of the costs of another party to the review.
- (2) The Tribunal must not make an order requiring the AER or a small/medium user or consumer intervener to pay the costs of another party to the review unless the Tribunal considers that the AER or intervener has conducted their case in the review without due regard to—

-
- (a) the costs that would have to be incurred by another party to the review as a result of that conduct; or
 - (b) the time required by—
 - (i) the Tribunal to hear the review as a result of that conduct; or
 - (ii) another party to prepare their case as a result of that conduct; or
 - (c) in the case of an order relating to the AER—the submissions or arguments made to the Tribunal by another party.
- (3) The Tribunal may make an order requiring a user or consumer intervener (that is not a small/medium user or consumer intervener) that has intervened in the review to pay all or part of the costs of another party to the review if the Tribunal considers that the intervener has conducted their case in the review without due regard to—
- (a) the costs that would have to be incurred by another party to the review as a result of that conduct; or
 - (b) the time required by—
 - (i) the Tribunal to hear the review as a result of that conduct; or
 - (ii) another party to prepare their case as a result of that conduct; or
 - (c) the submissions or arguments made to the Tribunal by another party.

71Y Amount of costs

- (1) If the Tribunal makes an order for costs in a review under this Division other than an order for costs against a small/medium user or consumer intervener, the Tribunal may in that order fix the amount of costs payable by a party to the review on—
 - (a) a party and party basis; or
 - (b) a solicitor and client basis; or

- (c) an indemnity basis; or
 - (d) any other basis as the Tribunal may decide.
- (2) If the Tribunal makes an order for costs against a small/medium user or consumer intervener in favour of another party in a review under this Division, the order must be limited to the payment of the reasonable administrative costs (as determined by the Tribunal) of that other party.

71YA Costs not to be passed on

- (1) This section applies to any expenditure or cost that a network service provider incurs, or is forecast to incur, as a result of or incidental to a review under this Division, including costs awarded under section 71X.
- (2) A network service provider—
- (a) must not, for the purposes of a network revenue or pricing determination, include as part of its capital expenditure or operating expenditure any expenditure or cost to which this section applies; and
 - (b) must not recover from end users or seek a pass through of any expenditure or cost to which this section applies.
- (3) This section applies despite any provision to the contrary in this Law, the Rules or a network revenue or pricing determination (and this section prevails to the extent of any inconsistency between such a provision and this section).

71Z Review of Division

Division 3B Enforcement of access determinations

71ZA Enforcement of access determinations

- (1) If the Court is satisfied, on the application of a party to an access determination, that another party to the determination has engaged, is engaging, or is proposing to engage in conduct that constitutes a contravention of the determination, the Court may make all or any of the following orders:
 - (a) an order granting an injunction on such terms as the Court thinks appropriate—
 - (i) restraining the other party from engaging in the conduct; or
 - (ii) if the conduct involves refusing or failing to do something—requiring the other party to do that thing;
 - (b) an order directing the other party to compensate the applicant for loss or damage suffered as a result of the contravention;
 - (c) any other order that the Court thinks appropriate.
- (2) The revocation of an access determination does not affect any remedy under subsection (1) in respect of a contravention of the determination that occurred when the determination was in force.
- (3) If the Court has power under subsection (1) to grant an injunction restraining a person from engaging in particular conduct, or requiring a person to do anything, the Court may

- (c) there is an imminent danger of substantial damage to any person if the first mentioned person engages in conduct of that kind.

71ZE Factors relevant to granting a mandatory injunction

The power of the Court to grant an injunction under section 71ZA requiring a person to do a thing may be exercised whether or not—

- (b) the person has previously refused or failed to do that thing; or
- (c) there is an imminent danger of substantial damage to any person if the first mentioned person refuses or fails to do that thing.

 - (a) a relevant person is required to pay an amount to AEMO or another relevant person; or
 - (b) AEMO is required to pay an amount to a Registered participant,

that amount in a relevant court of competent jurisdiction as a civil debt payable to them.

- (2) If, under the Rules, a relevant person is required to pay an amount to AEMO or another relevant person, or AEMO is required to pay an amount to a Registered participant, and the Rules do not specify a date for payment of that amount—

 - (b) the relevant person that issued the notice to pay, or AEMO (as the case requires), may, if that amount is not paid within 28 days after it is due in accordance with that notice, recover that amount in a relevant court of competent jurisdiction as a civil debt payable to them.
- (3) Subsection (1) and (2) apply despite a relevant person or AEMO disputing, in accordance with the Rules, an amount to be paid under the Rules, or specified in a notice to pay, unless—

- (d) the date, time and place of the alleged breach;
- (e) the infringement penalty for the alleged breach;
- (f) the manner in which the infringement penalty may be paid;
- (g) the time (being not less than 28 days after the date on which the notice is served) within which the infringement penalty must be paid;

- (b) if the breach is alleged to have been committed by a body corporate—\$20,000 or any lesser amount that is prescribed by the Regulations in relation to the relevant civil penalty provision.

77 AER cannot institute proceedings while infringement notice on foot

On serving an infringement notice under this Division, the AER must not institute a proceeding in respect of the breach for which the infringement notice was served if—

- (a) the time for payment stated in the infringement notice has not expired; and
- (b) the infringement notice has not been withdrawn by the AER in accordance with section 79.

78 Late payment of penalty

The AER may accept payment of the infringement penalty even after the expiration of the time for payment stated in the infringement notice if—

- (b) the infringement notice has not been withdrawn by the AER in accordance with section 79.

- (b) the infringement penalty is accepted in accordance with section 78.

82 Payment not to have certain consequences

83 Conduct in breach of more than one civil penalty provision

- (1) If the conduct of a person constitutes a breach of 2 or more relevant civil penalty provisions, an infringement notice may be served on the person under this Division in relation to the breach of any one or more of those provisions.

86 Corporations also in breach if officers and employees are in breach

If an officer or employee of a corporation commits an act in their capacity as officer or employee of the corporation that would, if that act were committed by the corporation, constitute a breach of a provision of this Law, the Regulations or the Rules, the corporation is taken to have contravened that provision.

89 AEMC must have regard to certain matters in relation to the making of jurisdictional derogations

In making a jurisdictional derogation, the AEMC must have regard to whether—

- (a) the derogation provides for the orderly transfer of the regulation of the electricity industry in a participating jurisdiction under jurisdictional electricity legislation to the regulation of that industry under the national electricity legislation; or
- (b) the derogation continues existing regulatory arrangements applying to the electricity industry in a participating jurisdiction and the Minister of the participating jurisdiction requesting the derogation has notified, in writing, the AEMC that he or she considers it necessary and appropriate that the existing regulatory arrangements continue; or
- (c) the derogation is necessary to exempt, on an ongoing basis, generating, transmission or distribution systems or other facilities owned, controlled or operated in the participating jurisdiction to which the derogation relates from complying with technical standards relating to connection to the national electricity system set out in the Rules because those systems or facilities, by reason of their design or construction, are unable to comply with those standards.

- (3) A Minister of a participating jurisdiction, after consulting with the Ministers of the other participating jurisdictions, may request the AEMC to make a jurisdictional derogation in respect of the jurisdiction of which he or she is a Minister.
- (4) The Reliability Panel may only request the AEMC to make a Rule that relates to its functions.

Note—

Section 38(2) describes the functions of the Reliability Panel.

 - (a) AEMO consents to the making of the Rule; or
 - (b) the Rule is requested by the Minister of the relevant adoptive jurisdiction.

91A AEMC may make more preferred Rule in certain cases

The AEMC may make a Rule that is different (including materially different) from a market initiated proposed Rule (a more preferable Rule) if the AEMC is satisfied that, having regard to the issue or issues that were raised by the market initiated proposed Rule (to which the more preferable Rule relates), the more preferable Rule will or is likely to better contribute to the achievement of the national electricity objective.

91B AEMC may make Rules that are consequential to a Rule request

- (1) Despite section 91(2), the AEMC may, having regard to a request to make a Rule under section 91(1), make a Rule under this Law, the National Gas Law or the National Energy Retail Law that is necessary or consequential, or corresponds, to the Rule.

 - (b) treat any later request as a submission in relation to the earliest Rule request.
- (2) For the purposes of this Part, the AEMC may treat a consolidated Rule as being received by it on the day it receives either the first or last of the Rule requests forming part of the consolidated Rule request.

94 Initial consideration of request for Rule

- (2) If the AEMC considers that, having regard to the matters set out in subsection (1), it should not take any action under this Division in respect of the request for the making of the Rule, the AEMC must make a decision to that effect and inform the person or body, in writing, that requested the Rule of that decision.
- (3) Despite subsection (1) or (2), the AEMC may make a decision to the effect that it should not take any action under this Division in respect of the request for the making of the Rule if the person or body that made the request has not complied with a notice in accordance with section 94A.

 - (c) a request for a Rule is a request for an urgent Rule,
the AEMC may make the relevant Rule in accordance with this Division (except sections 98 to 101) and as if the period of time within which the final Rule determination in respect of the relevant Rule must be published were 8 weeks from the date of publication of the notice under section 95.
- (2) Before making a Rule as set out in subsection (1), the AEMC must include in a notice under section 95 a statement to the effect that the AEMC may make the relevant Rule if the AEMC does not receive a written request, and reasons, not to do so from any person or body within 2 weeks of publication of that notice.

- (4) If the AEMC is of the opinion that the reasons given by a person or body in a written request for it not to make the non-controversial Rule or urgent Rule are misconceived or lacking in substance, the AEMC must—
- (a) make a decision to that effect; and
 - (b) give the person or body its reasons, in writing, for that decision without delay.
- (5) If the AEMC is of the opinion that the reasons given by a person or body in a written request for it not to make the non-controversial Rule or urgent Rule, are not misconceived or lacking in substance, the AEMC must publish a notice to the effect that it will make the relevant Rule in accordance with this Division (other than this section).

Part 10 Access Disputes

Division 1 Interpretation and application

123 Definitions

In this Part—

dispute hearing means a hearing conducted by the AER for the purpose of making an access determination;

party, in relation to an access dispute, has the meaning given by section 127.

124 Part does not limit how disputes about access may be raised or dealt with

This Part is not to be taken to limit how a dispute about access to an electricity network service may be raised or dealt with.

Division 2 Notification of access dispute

125 Notification of access dispute

- (1) Subject to this section, if a prospective network service user or network service user is unable to agree with a network service provider about 1 or more aspects of access to an electricity network service provided by means of, or in connection with—

- (a) a distribution system; or
- (b) a transmission system,

owned, controlled or operated by that network service provider, the prospective network service user, network service user or network service provider may notify the AER, in writing, that an access dispute exists.

Note—

Access dispute is defined in section 2A.

- (2) A notification must be accompanied by the fee (if any) prescribed by the Regulations.
- (3) On receiving a notification under subsection (1), the AER must notify, in writing, of the access dispute—
 - (a) the network service provider, if a prospective network service user or network service user (as the case requires) notified the AER of the access dispute under subsection (1);
 - (b) the prospective network service user or network service user (as the case requires), if the network service provider notified the AER of the access dispute under subsection (1).

126 Withdrawal of notification

- (1) The person who notified the AER of an access dispute under section 125(1) may withdraw that notification at any time before the AER makes an access determination in respect of that access dispute.
- (2) The notification must be withdrawn by notice in writing.
- (3) If the notification is withdrawn, it is taken for the purposes of this Part never to have been given.

127 Parties to an access dispute

The parties to an access dispute are—

- (a) the person notifying the AER of an access dispute under section 125(1); and
- (b) a person notified by the AER under section 125(3); and
- (c) if the AER is of the opinion that the resolution of the access dispute may involve requiring another person to do something—that other person; and
- (d) any other person who applies in writing to be made a party and is accepted by the AER as having a sufficient interest.

Division 3 Access determinations

128 Determination of access dispute

- (1) Unless the AER terminates an access dispute under section 131, the AER must, subject to this Part and the Rules, make a determination on access by (as the case requires) the prospective network service user or network service user.

Note—

A delegate of the AER may make the access determination. See section 17 of this Law and section 44AAH of the Competition and Consumer Act 2010 of the Commonwealth.

- (2) In making an access determination the AER must comply with this Part and the Rules.
- (3) An access determination must—
 - (a) be in writing; and
 - (b) include a statement of reasons for making the determination; and
 - (c) be given to the parties without delay.
- (4) An access determination has effect on and from the date specified in the determination.

129 AER may require parties to mediate, conciliate or engage in an alternative dispute resolution process

- (1) The AER may require the parties, in accordance with the Rules, to mediate, conciliate or engage in another alternative dispute resolution process for the purpose of resolving the access dispute.
- (2) A party must comply with a requirement under subsection (1).

130 Access determination must give effect to network revenue or pricing determination

The AER must, in making an access determination, give effect to a network revenue or pricing determination—

- (a) applying to the electricity network services provided, or to be provided, that are the subject of the access dispute; and
 - (b) in effect at the time the determination is made,
- (even though that determination may not have been in force when notification of the access dispute was given).

131 AER may terminate access dispute in certain cases

- (1) The AER may at any time terminate an access dispute (without making an access determination) if the AER considers that—
 - (a) the notification of the access dispute was vexatious; or
 - (b) the subject matter of the dispute is trivial, misconceived or lacking in substance; or
 - (c) the party who notified the access dispute had, but did not avail itself of, an opportunity to engage in negotiations in good faith with the other party before that notification; or
 - (d) a specified dispute termination circumstance has occurred.

-
- (2) Subject to section 133, the AER may also terminate an access dispute (without making an access determination) if the AER considers that the aspect of access about which there is a dispute is expressly or impliedly dealt with under an agreement between, as the case requires—
- (a) the prospective network service user and network service provider;
 - (b) the network service user and network service provider.
- (3) In this section—

specified dispute termination circumstance means a circumstance specified by the Rules as being a circumstance, the occurrence of which, entitles the AER to terminate an access dispute (without making an access determination).

132 AER must terminate access dispute if there is genuine competition

Despite anything to the contrary in this Part, the AER must terminate an access dispute (without making an access determination) if the AER considers that the electricity network service the subject of the dispute could be provided on a genuinely competitive basis by a person other than the network service provider or an associate of the provider.

133 Restrictions on access determinations

- (1) The AER must not make an access determination that—
- (a) would have the effect of preventing a network service user obtaining a sufficient amount of an electricity network service to be able to meet the network service user's reasonably anticipated requirements, measured at the time the access dispute was notified; or
 - (b) subject to subsection (2), is inconsistent with a connection agreement between the parties to the access dispute.

- (2) The AER may make an access determination that is inconsistent with a connection agreement between the parties to the access dispute if the AER is of the opinion the connection agreement affects the quality and security of electricity network service being provided to another person.
- (3) In this section—
- connection agreement** means an agreement between a network service provider and—
- (a) an owner, controller or operator of a generating system about the connection of that system to a transmission system or distribution system owned, controlled or operated by the network service provider; or
 - (b) a person who purchases electricity supplied through a transmission system or distribution system owned, controlled or operated by the network service provider about the connection of that person's loads to that transmission system or distribution system; or
 - (c) another network service provider about the connection of transmission systems or distribution systems (as the case requires) owned, controlled or operated by the providers.

134 Access determination need not require the provision of an electricity network service

An access determination may, but need not, require a network service provider to provide an electricity network service to a prospective network service user.

Division 4 Variation of access determinations

135 Variation of access determinations

- (1) The AER may vary an access determination on the application of any party to the determination. However, it cannot vary the final determination if any other party objects.

Note—

If the parties cannot agree on a variation, a new access dispute can be notified under section 125.

- (2) Section 133 applies to a variation under this section as if—

 - (9) If a function or power is delegated to a particular officer or the holder of a particular office—
 - (a) the delegation does not cease to have effect merely because the person who was the particular officer or the holder of the particular office when the power was delegated ceases to be the officer or the holder of the office; and

- (7) After the enactment of a provision mentioned in subclause (2) but before the provision's commencement, this clause applies as if the references in subclause (2) and (5) to the commencement of the empowering provision were references to the commencement of the provision mentioned in subclause (2) as amended by the empowering provision.

Law, except so far as the context or subject matter otherwise indicates or requires.

- (2) The fact that a provision of this Schedule refers to this Law and not also to a statutory instrument does not, by itself, indicate that the provision is intended to apply only to this Law.
- (3) In this clause—
statutory instrument includes the Regulations, a reliability instrument, the rate of return instrument or the Rules.

41A Rate of return instrument construed not to exceed the legislative power of the Legislature of this jurisdiction or the powers conferred by this Law

- (4) In particular, if a provision of the National Electricity Rules appears to impose a duty on the Tribunal or AER to perform a function or exercise a power in matters or circumstances in which the assumption of the duty cannot be validly authorised under the law of the Commonwealth, or is otherwise ineffective, the provision is to be construed as if its operation were expressly confined to—
- (a) acts or omissions of corporations to which section 51(xx) of the Constitution of the Commonwealth applies; or
 - (b) acts or omissions taking place in the course of, or in relation to, trade or commerce between this jurisdiction and places outside this jurisdiction (whether within or outside Australia); or
 - (c) acts or omissions taking place outside Australia, or in relation to things outside Australia.
