- (b) the management of the licence area in a way consistent with sustainable management practices for plantation forests that are generally accepted in the Australian plantation forestry industry at the relevant time.

Division 2 Plantation licences

61QA Agreements to deal with natural resource product etc.

- (1) The Minister may grant a corporation the right to deal with natural resource product on specified State plantation forests or specified parts of State plantation forests for the purpose of plantation forestry and for incidental purposes under this Act

- (7) To remove any doubt, it is declared that a right of a plantation licensee to enter and remain in, and use, the licence area under a plantation licence is not a right of exclusive possession and, subject to this Act, is coextensive with the lawful rights of members of the public and others to enter and remain in, and use, the licence area.

61QB Related agreements

- (1) The chief executive or the fire commissioner (individually or in any combination) may enter into 1 or more agreements (*related agreements*) with a plantation licensee or a plantation sublicensee about operational and other matters relevant to the use, maintenance and management of the licence area.
