the AER has at the time it makes that decision or instrument; and

AEMO may, in accordance with the Rules, make GSOO Procedures.

91DG Nature of GSOO Procedures

- (1) GSOO Procedures are a form of statutory instrument directed at the collection of information for the gas statement of opportunities.
- (2) The GSOO Procedures may deal with the following matters:
 - (a) the matters specified by the Rules;
 - (b) any other matter relevant to the gas statement of opportunities on which this Law or the Rules contemplate the making of Procedures.
- (3) The GSOO Procedures—
 - (a) may vary according to the persons, times, places or circumstances to which they are expressed to apply; and

- (b) may confer functions or powers on, or leave any matter or thing to be decided by, AEMO; and
 - (c) may confer rights or impose obligations; and
 - (d) may confer power on AEMO to make or issue guidelines, tests, standards and other documents of an administrative nature; and
 - (e) may confer power on AEMO to require a person to whom a right is conferred, or an obligation is imposed, under the Procedures—
 - (i) to comply with a guideline, standard or other document of an administrative nature; or
 - (ii) to conduct, or submit to, a test designated by AEMO under the Procedures; and
 - (f) may exempt, or confer a power of exemption, from the application of the Procedures or specified provisions of the Procedures; and
 - (g) may contain provisions of a savings or transitional nature.
- (4) AEMO must not, without the consent of the MCE, make Procedures that confer a right or function, or impose an obligation, on the MCE or a Minister of a participating jurisdiction.
- (5) The GSOO Procedures cannot—
- (a) create an offence; or
 - (b) provide for a criminal or civil penalty.

91DH Compliance with GSOO Procedures

Division 5 Fees and charges

91E AEMO fees and charges

- (1) AEMO may—
- (a) determine fees and charges for services provided by it under this Law, the Rules or the Procedures; and
 - (b) charge for, and recover, the fees and charges in accordance with this Law and the Rules.
- (2) The fees and charges for a service are to be determined on a non-profit basis that—
- (a) provides for full recovery of the costs of providing the service; and
 - (b) does not amount to taxation; and
 - (c) is consistent with the requirements of the Rules.
- (3) Exact equivalence is not required between the costs of providing a service and the revenue derived from providing the service in a particular accounting period if there are reasonable grounds to believe that costs will over time approximate revenue.

Note—

This section does not prevent AEMO from generating a profit from the performance of non-statutory functions (such as the provision of consultancy services). Any such profit would not, however, be available for distribution to members.

- (4) Despite the above provisions, a component of AEMO's fees and charges may, if the Rules so provide, relate to costs that are not specifically referable to services provided under this Law, the Rules or the Procedures.

Note—

As a general rule, AEMO's expenditures will be allocated to services provided to the electricity industry or the gas industry. Subsection (4) deals with costs that cannot be wholly attributed to either industry.

- (5) This section does not limit AEMO's power to determine, charge for and recover fees and charges for carrying out functions conferred by jurisdictional legislation.
- (6) In this section—
service includes the performance of statutory functions.

Division 6 Information gathering

Subdivision 1 Market information orders and market information notices

- (2) A *relevant function* is—

- (3) A general market information order or a market information notice may only be addressed to persons of a class declared by the Regulations to be a class to which such an order or notice may be addressed.
- (4) In considering whether to make a general market information order or to issue a market information notice and, if so, the terms of the order or notice, AEMO must have regard to the reasonable costs of efficient compliance.
- (4a) Subsections (3) and (4) do not apply to an order or notice relating to an east coast gas system reliability and supply adequacy function.
- (4b) The Rules may specify a person, or class of persons, to whom an order or notice relating to an east coast gas system reliability and supply adequacy function may be issued.
- (5) A market information instrument—
 - (a) must specify—
 - (i) the information, or categories of information, that is to be provided to AEMO; and
 - (ii) the time by which the information is required; and
 - (iii) in the case of a general market information order—the class of persons to which the order applies; and
 - (iv) in the case of a market information notice—the name of the person to whom the notice is addressed; and
 - (b) may specify the manner and form in which information must be provided.
- (6) Without limiting subsection (5), a market information instrument—

 - (b) consider any written representations made in response to the invitation within the specified period.
- (2) A general market information order must be published on AEMO's website as soon as practicable after it is made.
- (3) Subsection (1) does not apply to an order relating to an east coast gas system reliability and supply adequacy function.
- (4) AEMO must, before making an order relating to an east coast gas system reliability and supply adequacy function—
 - (a) consider the extent to which persons of the class to which the proposed order is addressed may make representations about the terms of the proposed order; and
 - (b) invite those persons to make representations to the extent AEMO considers possible in the circumstances.

91FB Service of market information notice

- (1) Before serving a market information notice, AEMO must—

91FC Compliance with market information instrument

- (1) A market information instrument takes effect—
 - (a) in the case of a general market information order—on publication on AEMO’s website; or
 - (b) in the case of a market information notice—on service of the notice on the person to whom it is addressed.
- (2) AEMO may, by written notice, exempt a person from compliance with a general market information order—
 - (a) unconditionally or on specified conditions; and
 - (b) wholly or to a specified extent.
- (3) Subject to any exemption, a person who is a member of a class to which a general market information order applies must comply with the order.
- (4) A person on whom a market information notice is served must comply with the notice.

[s 91FD]

- (5) The duty to comply with a market information instrument prevails over a duty of confidence.
- (6) However—
 - (a) a person cannot be required by a market information instrument to disclose information that is the subject of legal professional privilege; and
 - (b) a natural person cannot be required by a market information instrument to disclose information that would incriminate the person or make the person liable to a criminal penalty under the law of an Australian jurisdiction (whether or not the jurisdiction is a participating jurisdiction).

Division 11 Other matters

91KD Disclosure of information for purpose of market trials

- (1) This section applies if AEMO—
 - (a) conducts a trial relating to the operation and administration of a market, or a part of a market, for covered gas; and
 - (b) under, or for the purpose of, that trial is given information by another person (the *discloser*) that relates to another person.
- (2) The discloser, by giving the information to AEMO, incurs no liability for breach of contract, breach of confidence or any other civil wrong.
- (3) AEMO, by giving or disclosing the information to a person, or publicly releasing the information, incurs no liability for breach of contract, breach of confidence or any other civil wrong.

Part 7 Regulation of retail gas markets

Division 1 Registration

91L Retail gas markets

- (1) A retail market for 1 or more covered gases in each participating jurisdiction constitutes a *retail gas market*.
- (2) A *regulated retail gas market* is a retail gas market the operation of which is governed under the Rules or Procedures (or both).

91LA Retail market participation

- (1) A person participates in a regulated retail gas market in a registrable capacity if the person is classified under the Rules as a participant in the relevant market.
- (2) A person cannot be classified under the Rules as a participant in a regulated retail gas market unless the person falls within 1 or more of the following classes:
 - (a) service providers;
 - (b) users;
 - (c) blend processing service providers;
 - (d) producers;
 - (e) storage providers;
 - (f) traders;
 - (g) a class prescribed under the Regulations.

91LB Registration required for market participation

- (1) A person must not participate in a regulated retail gas market in a registrable capacity unless registered (or exempted from registration) in accordance with the Rules.
- (2) A person may also be exempted from registration by or under jurisdictional gas legislation.
- (3) A person who participates in a regulated retail gas market in 2 or more registrable capacities must be registered (or exempted from registration) in both or all those capacities.
- (4) For performing statutory functions, AEMO is not required to be registered.

91LC Certificates of registration etc

- (1) A certificate signed by an authorised officer certifying that a person named in the certificate is registered, or exempted from registration, is evidence of the registration or exemption.

-
- (2) For this section, an *authorised officer* is AEMO's CEO or a person authorised by the CEO to issue certificates under this section.

Division 2 Retail Market Procedures

91M Retail Market Procedures

AEMO may, in accordance with the Rules, make Retail Market Procedures.

91MA Nature of Retail Market Procedures

- (1) Retail Market Procedures are a form of statutory instrument directed at the regulation of a retail gas market.
- (2) The Retail Market Procedures may deal with the following matters:
- (a) the matters specified by the Rules;
 - (b) any other matter relevant to a regulated retail gas market on which this Law or the Rules contemplate the making of Procedures.
- (3) The Retail Market Procedures—
- (a) may apply to regulated retail gas markets generally or any 1 or more of the regulated retail gas markets; and
 - (b) may vary according to the persons, times, places or circumstances to which they are expressed to apply; and
 - (c) may confer functions or powers on, or leave any matter or thing to be decided by, AEMO; and
 - (d) may confer rights or impose obligations on Registered participants, exempted participants, users, end users or other persons; and
 - (e) may require a Registered participant or an exempted participant to give an indemnity against injury, damage

- or loss arising from the participant's failure to comply with requirements imposed by the Procedures; and
- (f) may confer power on AEMO to make or issue guidelines, tests, standards and other documents of an administrative nature; and
 - (g) may confer power on AEMO to require a person on whom a right is conferred, or an obligation imposed, under the Procedures—
 - (i) to comply with a guideline, standard or other document of an administrative nature; or
 - (ii) to conduct, or submit to, a test designed by AEMO under the Procedures; and
 - (h) may exempt, or confer a power of exemption, from the application of the Procedures or specified provisions of the Procedures; and
 - (i) may contain provisions of a savings or transitional nature.
- (4) AEMO must not, without the consent of the MCE, make Retail Market Procedures that confer a right or function, or impose an obligation, on the MCE or a Minister of a participating jurisdiction.
- (5) The Retail Market Procedures cannot—
- (a) create an offence; or
 - (b) provide for a criminal or civil penalty.

91MB Compliance with Retail Market Procedures

- (1) AEMO and each person to whom the Retail Market Procedures are applicable must comply with the Procedures.
- (3) If AEMO has reasonable grounds to suspect a breach of the Retail Market Procedures, it must, after making such inquiries and investigation as it considers appropriate, make a decision as to whether the breach is a material breach.
- (4) If AEMO decides the breach is material, AEMO—

- (a) must publish the decision and the reasons for it on its website; and
 - (b) may direct the person suspected of the breach to rectify it or to take specified measures to ensure future compliance (or both); and
 - (c) may refer the breach to the AER.
- (5) A direction by AEMO under subsection (4)(b) must—
- (a) specify the breach; and
 - (b) specify the date by which the direction is to be complied with; and
 - (c) be addressed to, and given to, the person suspected of the breach.
- (6) A person to whom a direction is given under subsection (4)(b) must comply with the direction.
- (7) AEMO must give a copy of its decision under subsection (3), its reasons for the decision and (if relevant) any direction under subsection (4)(b) to the AER.
- (8) If AEMO decides the breach is not material, AEMO must—
- (a) publish the decision and the reasons for it on its website; and
 - (b) give a copy of the decision and the reasons for it to the AER.

Note—

AEMO may provide the AER with relevant information (including protected information) related to a suspected breach of the Procedures. (For disclosure of protected information, see section 91GC(2)(b).)

Chapter 3 Regulatory framework for pipelines

Part 1 Scheme pipeline determinations and scheme pipeline elections

Division 1 Scheme pipeline determinations

92 AER may make scheme pipeline determination

- (1) The AER may, on its own initiative or on the application of any person, make a determination that a non-scheme pipeline is a scheme pipeline (a *scheme pipeline determination*).
- (2) An application for a scheme pipeline determination must—
 - (a) be made in accordance with the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be accompanied by the fee prescribed by the Regulations (if any); and
 - (d) be dealt with in accordance with the Rules.

93 Requirements for making, or not making, a scheme pipeline determination

- (1) A scheme pipeline determination or a decision not to make a scheme pipeline determination must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules; and

- (e) if a scheme pipeline determination is made—specify the date the determination takes effect.
- (2) For subsection (1)(e), the date specified must be at least 6 months, but not more than 12 months, after the determination is made.

94 Effect of scheme pipeline determination

A pipeline the subject of a scheme pipeline determination—

- (a) becomes a scheme pipeline when the scheme pipeline determination takes effect; and
- (b) continues to be a scheme pipeline while the scheme pipeline determination remains in effect.

Division 2 Scheme pipeline elections

95 Scheme pipeline elections

- (1) A service provider for a non-scheme pipeline may elect for the pipeline to be dealt with under this Law as a scheme pipeline (a *scheme pipeline election*).
- (2) A scheme pipeline election must be made in accordance with the Rules.

96 Effect of scheme pipeline elections

- (1) A scheme pipeline election takes effect on a day, determined by the AER, that is at least 6 months, but not more than 12 months, after the AER receives the election.
- (2) However, if the AER does not make a determination under subsection (1), the scheme pipeline election takes effect on the day that is 12 months after the AER receives the election.
- (3) On the day a scheme pipeline election takes effect under this section, the non-scheme pipeline the subject of the scheme pipeline election becomes a scheme pipeline.

99 Effect of scheme pipeline revocation determination

A pipeline the subject of a scheme pipeline revocation determination ceases to be a scheme pipeline when the scheme pipeline revocation determination takes effect.

Part 3 Greenfields incentive determinations and greenfields price protection determinations

Division 1 Greenfields incentive determinations

100 AER may make greenfields incentive determination

- (1) The AER may, on the application of the service provider for a greenfields pipeline project, make a determination that the pipeline the subject of the greenfields pipeline project cannot become a scheme pipeline during the operative period for the determination (a *greenfields incentive determination*).
- (2) An application for a greenfields incentive determination—
 - (a) cannot be made after the pipeline is commissioned; and
 - (b) must be made in accordance with the Rules; and
 - (c) must include a description of the pipeline that meets the requirements specified by the Rules; and
 - (d) must contain the information required by the Rules; and
 - (e) need not describe, or include details of, excluded infrastructure; and
 - (f) must be accompanied by the fee prescribed by the Regulations (if any); and
 - (g) must be dealt with in accordance with the Rules.

101 Requirements for making, or not making, a greenfields incentive determination

- (1) A greenfields incentive determination or a decision not to make a greenfields incentive determination must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules; and
 - (e) if a greenfields incentive determination is made—specify the date the determination takes effect.
- (2) The AER may, in having regard to the matters mentioned in section 112, decide a period during which a greenfields incentive determination is to continue in operation that is less than 15 years.
- (3) If the AER decides a period under subsection (2), the greenfields incentive determination must also specify the period.

102 Effect of greenfields incentive determination

- (1) A greenfields incentive determination takes effect on and from the date specified in the determination.
- (2) The period during which a greenfields incentive determination continues in force (the *operative period*) is—
 - (a) if the AER decides a period under section 101(2) that is less than 15 years—that period; or
 - (b) otherwise—15 years from the commissioning of the pipeline.
- (3) During the operative period, the pipeline the subject of the greenfields incentive determination cannot become a scheme pipeline.

-
- (4) An application for a scheme pipeline determination in relation to a pipeline to which a greenfields incentive determination applies can be made—
- (a) before the end of the operative period for the greenfields incentive determination; but
 - (b) only if the scheme pipeline determination is to commence from, or after, the end of the operative period.

103 Requirement for conformity between pipeline description and pipeline as constructed

- (1) Subject to this Part—
- (a) a greenfields incentive determination applies to the pipeline as described in the relevant pipeline description; and
 - (b) if the pipeline, as constructed, materially differs from the pipeline as described in the relevant pipeline description, the determination does not apply to the pipeline and the service provider is not entitled to its benefit.
- (2) In determining whether a pipeline, as constructed, materially differs from the relevant pipeline description, excluded infrastructure is not to be taken into account.
- (3) In this section—
- relevant pipeline description* means a description of the pipeline required to be included in the application for the greenfields incentive determination made under section 100.

104 Power of AER to amend pipeline description

- (1) The AER may, on application by the service provider for a pipeline to which a greenfields incentive determination applies, amend the relevant pipeline description.
- (2) An amendment cannot, however, be made under this section after the pipeline has been commissioned.

(3) In deciding whether to make the amendment sought, the AER must have regard to the criteria that were relevant to the making of the greenfields incentive determination.

(3) In this section—

relevant pipeline description means a description of the pipeline required to be included in the application for the greenfields incentive determination made under section 100.

Division 2 Early termination of greenfields incentive determination

105 Greenfields incentive determination may lapse

- (1) A greenfields incentive determination lapses if the pipeline to which it applies is not commissioned within 3 years after the determination takes effect.
- (2) The AER may, in a particular case, extend the 3 year period mentioned in subsection (1).

106 Revocation by consent

The AER may, at the request of the service provider for the pipeline to which a greenfields incentive determination applies, revoke the determination.

107 Revocation for misrepresentation

The AER may revoke a greenfields incentive determination on the ground that—

- (a) the applicant misrepresented a material fact on the basis of which the determination was made; or
- (b) the applicant failed to disclose material information that the applicant was required to disclose under this Chapter.

108 Exhaustive provision for termination of greenfields incentive determination

A greenfields incentive determination does not terminate, and cannot be revoked, before the end of the operative period for the determination other than as provided for under this Part.

Division 3 Greenfields price protection determinations

109 AER may make greenfields price protection determination

- (1) The AER may, on the application of the service provider for a greenfields pipeline project, make a determination that prices and non-price terms and conditions for particular pipeline services provided by means of a pipeline that are specified in the determination are protected, in the manner provided for in the Rules, in any arbitration of an access dispute involving the pipeline (a *greenfields price protection determination*).
- (2) An application for a greenfields price protection determination—
 - (a) cannot be made after the pipeline is commissioned; and
 - (a) must be made in accordance with the Rules; and
 - (c) must contain the information required by the Rules; and
 - (d) must be dealt with in accordance with the Rules.

110 Requirements for making, or not making, a greenfields price protection determination

- (1) The AER must not make a greenfields price protection determination unless—
 - (a) the pipeline the subject of the determination is also the subject of a greenfields incentive determination; and
 - (b) the AER is satisfied—

- (i) that—
 - (A) the pipeline has been developed following a competitive process; and
 - (B) the prices and non-price terms and conditions for pipeline services that will be made available to prospective users during the operative period for the greenfields price protection determination have been set as a result of that process; or
- (ii) that—
 - (A) one or more form of regulation factors effectively constrained the exercise of market power by the service provider when the prices and non-price terms and conditions for pipeline services that will be made available to prospective users during the operative period for the greenfields price protection determination were determined; and
 - (B) the making of the determination will, or is likely to, contribute to the achievement of the national gas objective.
- (2) For the purposes of subsection (1)(b)(i)(A), a pipeline is taken to have been developed following a competitive process if the AER is reasonably satisfied from the information provided to it by the applicant for the greenfields price protection determination that there was competition (whether formal or informal) to develop the pipeline between 2 or more prospective service providers that—
 - (a) were not related bodies corporate of each other; and
 - (b) did not include a related body corporate of the applicant.

Example—

Competition between prospective service providers could involve the service providers competing on the basis of—

- (a) different pipeline routes; or

-
- (b) an expansion of an existing pipeline and the development of a new pipeline.
- (3) A greenfields price protection determination or a decision not to make a greenfields price protection determination must—
- (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules; and
 - (e) if a greenfields price protection determination is made, specify—
 - (i) the date the determination takes effect; and
 - (ii) the operative period for the determination.
- (4) For subsection (3)(e)(ii), the operative period for a greenfields price protection determination—
- (a) is the period during which the prices and non-price terms and conditions specified in the determination will be made available to prospective users; but
 - (b) cannot be longer than the operative period for the greenfields incentive determination relating to the pipeline.

111 Effect of greenfields price protection determination

- (1) A greenfields price protection determination—
- (a) takes effect on and from the date specified in the determination; and
 - (b) continues in operation for the operative period for the determination mentioned in section 110(4).
- (2) A greenfields price protection determination ends if the greenfields incentive determination to which the greenfields price protection determination relates ceases to apply to the pipeline.

Part 4 Principles governing the making of particular determinations

112 Principles governing the making of particular determinations

- (1) This section sets out principles that apply for the making of the following determinations (each a *relevant determination*) by the AER—
 - (a) a scheme pipeline determination under Part 1 Division 1;
 - (b) a scheme pipeline revocation determination under Part 2;
 - (c) a greenfields incentive determination under Part 3.
- (2) In deciding whether to make a relevant determination, the AER must consider the effect of regulating the pipeline, to which the determination would apply, as a scheme pipeline or non-scheme pipeline on—
 - (a) the promotion of access to pipeline services; and
 - (b) the costs that are likely to be incurred by an efficient service provider; and
 - (c) the costs that are likely to be incurred by efficient users and efficient prospective users; and
 - (d) the likely costs of end users.
- (3) In doing so the AER—
 - (a) must have regard to the national gas objective; and
 - (b) must have regard to—
 - (i) the form of regulation factors; and
 - (ii) for a greenfields incentive determination—the extent to which the form of regulation factors or competition to develop the pipeline (whether formal or informal) between 2 or more unrelated

prospective service providers will, or is likely to, pose an effective constraint on the exercise of market power in respect of services provided by means of the pipeline for the period the determination is in operation; and

Example—

Competition between prospective service providers could involve the service providers competing on the basis of—

- (a) different pipeline routes; or
 - (b) an expansion of an existing pipeline and the development of a new pipeline.
- (c) may have regard to any other matter it considers relevant, including, for example, any information it obtains in the course of performing its functions.

Example for paragraph (c)—

The AER may have regard to information contained in a report made by a mediator in relation to an access dispute.

- (4) For subsection (3)(b)(ii), prospective service providers are unrelated if the service providers—
- (a) are not related bodies corporate of each other; and
 - (b) do not include a related body corporate of the applicant for the greenfields incentive determination.

Part 5 **Access arrangements for scheme pipelines**

Division 1 **Submissions generally**

113 **Submission of access arrangement or revisions to applicable access arrangement**

A scheme pipeline service provider must submit to the AER, for approval by the AER under the Rules, an access arrangement or revisions to an applicable access arrangement,

in relation to the pipeline services the service provider provides or intends to provide—

- (a) in the circumstances specified by the Rules; and
- (b) within the period of time specified by the Rules.

Division 2 Provisions relating to applicable access arrangements

114 Protection of certain pre-existing contractual rights

- (1) An applicable access arrangement must not have the effect of depriving a person of a relevant protected contractual right.
- (2) In this section—

relevant exclusivity right means an express contractual right that arose on or after 30 March 1995 that—

- (a) prevents a service provider supplying pipeline services to persons who are not parties to the contract; or
- (b) limits or controls a service provider’s ability to supply pipeline services to persons who are not parties to the contract,

but does not include a user’s contractual right to obtain a certain amount of pipeline services;

relevant protected contractual right means—

- (a) in the case of an applicable access arrangement approved under an applicable arrangement decision—a right under a contract (other than a relevant exclusivity right) in force immediately before that access arrangement was submitted for approval under this Law; or
- (b) in the case of an applicable access arrangement made under an applicable arrangement decision because—
 - (i) an access arrangement was not submitted for approval as required under section 113—a right

under a contract (other than a relevant exclusivity right) in force immediately before the date on which an access arrangement was required to be submitted for approval; or

- (ii) an access arrangement was not approved under an applicable arrangement decision—a right under a contract (other than a relevant exclusivity right) in force immediately before the date on which that access arrangement was submitted for approval.

115 Service provider may enter into agreement for access different from applicable access arrangement

Subject to sections 83C and 135, nothing in this Law is to be taken as preventing a service provider from entering into an agreement with a user or a prospective user about access to a pipeline service provided by means of a scheme pipeline that is different from an applicable access arrangement that applies to that pipeline service.

116 Applicable access arrangements continue to apply regardless of who provides pipeline service

An applicable access arrangement applies to a pipeline service provided, or to be provided, by means of a scheme pipeline regardless of who provides that pipeline service.

Part 6 Classification and reclassification of pipelines

Division 1 Classification of pipelines

117 Application for classification of pipeline

- (1) This section applies if a pipeline is not classified as a distribution or transmission pipeline under a licence or

authorisation granted in relation to the pipeline under jurisdictional gas legislation.

- (2) Within 20 business days after the commissioning of the pipeline, the service provider for the pipeline must apply to the AER for the pipeline to be classified as a distribution pipeline or transmission pipeline.
- (3) An application for a classification decision must—
 - (a) be made in accordance with the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be accompanied by the fee prescribed by the Regulations (if any); and
 - (d) be dealt with in accordance with the Rules.

Division 2 Reclassification of pipelines

118 Reclassification of pipelines

- (1) The AER may, on its own initiative or on the application of a service provider, make a decision for a pipeline to be reclassified as—
 - (a) if the pipeline is a transmission pipeline—a distribution pipeline; or
 - (b) if the pipeline is a distribution pipeline—a transmission pipeline.
- (2) An application for a reclassification decision must—
 - (a) be made in accordance with the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be accompanied by the fee prescribed by the Regulations (if any); and
 - (b) be dealt with in accordance with the Rules.

Division 3 Provisions relating to classification and reclassification decisions

119 Requirements for making classification or reclassification decisions

- (1) In making a classification decision or reclassification decision, the AER must have regard to—
 - (a) the national gas objective; and
 - (b) the pipeline classification criterion.
- (2) A classification decision or reclassification decision must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules.

120 Effect of classification decision or reclassification decision

On the making of a classification decision or reclassification decision, a pipeline is—

- (a) if the pipeline is classified or reclassified as a distribution pipeline—a distribution pipeline; or
- (b) if the pipeline is classified or reclassified as a transmission pipeline—a transmission pipeline.

Part 7 **AER reviews into designated pipelines**

121 **AER reviews**

- (1) The MCE may request the AER to conduct a review into, and report to it as to, whether a pipeline should continue to be a designated pipeline.
- (2) A service provider that provides pipeline services by means of a designated pipeline may request the AER to conduct a review into, and report to the MCE as to, whether that pipeline should continue to be a designated pipeline.
- (3) A request under subsection (1) or (2) must be in writing.
- (4) On receiving a request under this section, the AER must conduct a review as to whether the pipeline the subject of the request should continue to be a designated pipeline.
- (5) In conducting a review under this section, the AER must—
 - (a) have regard to—
 - (i) the national gas objective; and
 - (ii) whether there has been a material change in competition in a market served by the designated pipeline; and
 - (b) consult, in accordance with the Rules, with the public.
- (6) On the completion of a review under this section, the AER must prepare a report and—
 - (a) give the report to the MCE; and
 - (b) publish the report on its website.
- (7) The AER must also give a copy of the report to the service provider that has requested the review.

Chapter 4 General requirements for provision of pipeline services

Part A1 Preliminary

130 Application of this Chapter

- (1) This Chapter applies in relation to scheme pipelines and non-scheme pipelines.
- (2) Also, this Chapter, or a provision of this Chapter, applies to a person other than a service provider as if a reference in the Chapter or provision to a service provider were a reference to the person—
 - (a) if—
 - (i) this Chapter, or the provision, is prescribed by the Regulations for the purposes of this subsection; and
 - (ii) the person—
 - (A) is prescribed by the Regulations for the purposes of this subsection; or
 - (B) is a member of a class of persons prescribed by the Regulations for the purposes of this subsection; and
 - (b) subject to any modifications prescribed by the Regulations for the purposes of this subsection.

-
- (c) an associate of a service provider or a person referred to in paragraph (b),
must not engage in conduct for the purpose of preventing or hindering the access of another person to a pipeline service provided by means of the pipeline.
- (2) For the purposes of subsection (1), a person is deemed to engage in conduct for a particular purpose if—
- (a) the conduct is or was engaged in for that purpose or for a purpose that includes, or included, that purpose; and
- (b) that purpose is or was a substantial purpose.
- (3) A person may be taken to have engaged in conduct for the purpose referred to in subsection (1) even though, after all the evidence has been considered, the existence of that purpose is ascertainable only by inference from the conduct of the person or of any other person or from other relevant circumstances.
- (4) Subsection (3) does not limit the manner in which the purpose of a person may be established for the purpose of subsection (1).
- (5) In this section—
- (a) a reference to engaging in conduct is a reference to doing or refusing to do any act, including the following—
- (i) refusing to supply a pipeline service;
- (ii) without reasonable grounds, limiting or disrupting a pipeline service;
- (iii) making, or giving effect to a provision of a contract or arrangement, arriving at, or giving effect to, a provision of an understanding, or requiring the giving of, or giving, a covenant; and
- (b) a reference to refusing to do an act includes a reference to—
- (i) refraining (otherwise than inadvertently) from doing that act; or

- (ii) making it known that that act will not be done.
- (6) Subsection (1) does not apply to conduct engaged in in accordance with an agreement, if the agreement was in force on 30 March 1995.

Example—

An example of conduct which may be prohibited if the requisite purpose is established is refusing to supply, or limiting or disrupting the supply of, a pipeline service to a user or prospective user for technical or safety reasons without reasonable grounds.

135 Service provider must comply with queuing requirements

A service provider must comply with the queuing requirements of an applicable access arrangement or the Rules.

136 Compliance with pipeline interconnection principles

Subject to section 91BF, a service provider must comply with the principles relating to the interconnection of pipelines and facilities (the *pipeline interconnection principles*) specified in the Rules.

136A Prohibition against increasing charges to subsidise particular development

- (1) This section applies to a service provider for a transmission pipeline, other than a pipeline within a declared transmission system.
- (2) The service provider must not increase a charge for a pipeline service payable by an existing user to the service provider to subsidise the development of an extension, or expansion of the capacity, of the pipeline.
- (3) However, subsection (2) does not apply to a service provider if the service provider is exempt from complying with subsection (2) under the Rules.

- (4) Nothing in this section prevents a service provider from charging an existing user of the service provider for pipeline services provided by means of an extension, or expansion of the capacity, of a pipeline.

136B Prohibition on bundling of services

A service provider must not make it a condition of the provision of a particular pipeline service to a prospective user that the prospective user accept another service from the service provider unless the bundling of the services is reasonably necessary.

136C Service providers must publish prescribed transparency information

- (1) A service provider must—
 - (a) publish the information relating to pipelines and pipeline services specified in the Rules made for the purposes of this paragraph (the *prescribed transparency information*); and
 - (b) ensure the prescribed transparency information is published in accordance with the Rules.
- (2) However, subsection (1) does not apply to a service provider if the service provider is exempt from complying with subsection (1) under the Rules.

Part 2 **Structural and operational separation requirements (ring fencing)**

Division 1 **Interpretation**

137 **Definitions**

In this Part—

additional ring fencing requirement has the meaning given by section 143(1);

 - (b) the sale, marketing or advertising of pipeline services is only an incidental part of the person’s function or role (as an officer, employee, consultant or independent contractor or agent of a service provider, or an associate of a service provider).

Example—

A person in the position of general manager of marketing of a service provider or an associate of a service provider would be marketing staff whereas a person in the position of chief executive officer, or chief financial officer, of a service provider or an associate of a service provider would not be marketing staff.

Division 2 Minimum ring fencing requirements

139 Carrying on of related businesses prohibited

A service provider must not carry on a related business.

140 Marketing staff and the taking part in related businesses

- (1) A service provider must ensure that none of its marketing staff are officers, employees, consultants, independent contractors or agents of an associate of the service provider that takes part in a related business.
- (2) A service provider must ensure that none of its officers, employees, consultants, independent contractors or agents are marketing staff of an associate of the service provider that takes part in a related business.

- (1) Subject to this Division and subject to and in accordance with the Rules, the AER may make a determination requiring a service provider or associate of a service provider named in the determination to do, or refrain from doing, a thing specified in the determination (an *additional ring fencing requirement*).
- (2) In specifying an additional ring fencing requirement the AER must have regard to the following principles:

- (a) in the case where 1 part of the business of a service provider (*business unit A*) is providing pipeline services to another part of the business of the service provider (*business unit B*), the service provider must ensure that business unit A provides the pipeline services to business unit B as if business unit B were a separate unrelated entity;
 - (b) in the case where a service provider is providing pipeline services to an associate of the service provider, the service provider must ensure that those services are provided as if the associate of the service provider were a separate unrelated entity;
 - (c) users and prospective users should have sufficient information in order to understand whether a service provider is complying with paragraph (a) or (b).
- (3) The AER must—
- (a) notify, in writing, the service provider or associate named in the AER ring fencing determination of the making of that determination; and
 - (b) give the service provider or associate a copy of the AER ring fencing determination.
- (4) An AER ring fencing determination must specify the date on and after which the service provider or associate of a service provider must do, or refrain from doing, a thing specified in the determination (a *notified compliance date*).
- (5) A notified compliance date must not be a date that is earlier than 10 business days after the date the service provider or associate of a service provider is given a copy of the AER ring fencing determination.
- (6) A service provider or associate of a service provider must comply with every additional ring fencing requirement specified in an AER ring fencing determination on and after the notified compliance date.

144 AER to have regard to likely compliance costs of additional ring fencing requirements

In making an AER ring fencing determination the AER must have regard to the likely costs that may be incurred by, as the case requires—

- (a) an efficient service provider; or
- (b) an efficient associate of a service provider,

in complying with an additional ring fencing requirement specified in the determination.

145 Types of ring fencing requirements that may be specified in an AER ring fencing determination

Without limiting what may be specified as an additional ring fencing requirement, the AER, in an AER ring fencing determination, may require a service provider to—

- (a) ensure that its business and business activities are conducted, structured and arranged in the particular manner specified;

Example 1—

An AER ring fencing determination may require the service provider to ensure that persons employed or engaged by the service provider in relation to the provision of pipeline services are not also associates, or employed by associates, of the service provider that take part in a related business and how this must be effected.

Example 2—

An AER ring fencing determination may require the service provider to put in place electronic, physical and procedural security measures in respect of the offices and computer systems of the service provider, and of the offices and computer systems of its associates, so that certain specified employees or persons engaged by the service provider do not have access to certain specified information.

- (d) that associate contract is an approved associate contract; or
- (e) that provision is contained in an approved associate contract.

148 Service provider must not enter into or give effect to associate contracts inconsistent with competitive parity rule

(1) A service provider must not—

- (a) enter into an associate contract that is; or
- (b) vary an associate contract so that contract, as varied, is; or
- (c) give effect to a provision of an associate contract that is, inconsistent with the competitive parity rule unless—
- (d) that associate contract is an approved associated contract; or
- (e) that provision is contained in an approved associate contract.

- (2) For the purposes of subsection (1), and any Rules made for the purposes of that subsection, the competitive parity rule is the rule that a service provider must ensure that any pipeline services that the service provider provides to an associate of the service provider are provided to that associate as if that associate were a separate unrelated entity.

Division 5 Exemptions from particular requirements

148AA Exemptions from section 147(c)

- (1) Section 147(c) does not prevent a service provider from giving effect to a provision of an associate contract if the contract is for an associate pipeline service, and—
- (a) if the associate pipeline service relates to 1 or more types of relevant covered gas—the provision was entered into before the commencement of the *Statutes Amendment (National Energy Laws) (Other Gases) Act 2023*; or
 - (b) if the associate pipeline service relates to 1 or more types of prescribed primary gas—the provision was entered into before the gas became a prescribed primary gas; or

- (3) Without limiting the conditions that may be imposed under subsection (2), an exemption may be given subject to conditions requiring a service provider to—
 - (a) ensure that its business and business activities are conducted, structured and arranged in the particular manner specified in the exemption; or
 - (b) disclose, in the manner specified in the exemption, to the AER and to the public, specified information about its business activities, operations, structure and arrangements.

Part 3 Negotiation of access

- (A) the promotion of access to pipeline services and any other benefits that may be associated with the application; and
 - (B) the costs that are likely to be incurred by the person or class of persons if they were operating efficiently; and
- (b) consult, in accordance with the Rules, with the public.
- (5) On the completion of a review under this section, the AER must prepare a report and—

or prospective user (as the case requires) (including a determination that does not require a service provider to provide access to any pipeline services).

- (2) In making an access determination, the relevant adjudicator must comply with this Chapter and the Rules.
- (3) An access determination may deal with any matter relating to access by the user or prospective user to the pipeline services specified by the Rules for the purposes of this subsection.
- (4) The Rules may also, in connection with the making of an access determination, contain provisions for or with respect to such things as—

162 Matters to be taken into account for access disputes

In making an access determination, the relevant adjudicator for an access dispute the subject of the determination must take into account any matters specified in the Rules for the purposes of this section.

163 Restrictions on access determinations

- (1) An access determination must not have any of the following effects:
- (a) preventing a user from obtaining a sufficient amount of a pipeline service under a contract or previous access determination to be able to meet the user's reasonably anticipated requirements, measured at the time the access dispute was notified;
 - (b) preventing a user or prospective user from obtaining, by the exercise of a pre-notification right, a sufficient amount of a pipeline service to be able to meet the user's or prospective user's actual requirements;
 - (c) depriving a person of a relevant protected contractual right.

Division 2 Particular provisions relating to scheme pipeline access disputes

165 Access determination must give effect to applicable access arrangement

- (1) This section applies subject to sections 161, 164 and 166 and any Rules made for the purposes of this Part.
- (2) In making an access determination for a scheme pipeline access dispute, the dispute resolution body must give effect to the applicable access arrangement (the *relevant applicable access arrangement*)—
 - (a) applying to the pipeline services provided, or to be provided, by means of the access dispute pipeline; and
 - (b) in effect at the time the determination is made.
- (3) Subsection (2) applies even though the relevant applicable access arrangement may not have been in force when notice of the access dispute was given.

166 Rules may allow determination that varies applicable access arrangement for installation of a new facility

- (1) This section applies in relation to an access determination for a scheme pipeline access dispute that requires—
 - (a) a service provider to install or construct a new facility to expand the capacity of the access dispute pipeline; and
 - (b) the user or prospective user who is a party to the access dispute to contribute some or all of the capital to fund the installation or construction of the new facility.
- (2) Without limiting section 74, the Rules may—
 - (a) confer a function or power on the dispute resolution body, when making the access determination, to vary the applicable access arrangement; and

 - (d) specify the content of the access determination.

Part 6 Variation of access determinations

167 Variation of access determination—scheme pipeline disputes

- (1) This section applies in relation to an access determination for a scheme pipeline access dispute.
- (2) The dispute resolution body may vary the access determination on the application of any party to the determination, but cannot vary the final determination if any other party objects.

Note—

If the parties cannot agree on a variation, a new access dispute can be notified under section 152.

- (3) Section 163 applies to a variation under this section as if—
 - (a) an access dispute arising out of the access determination had been notified when the application was made to the dispute resolution body for the variation of the determination; and
 - (b) the variation were the making of an access determination in the terms of the varied determination.

168 Variation of access determination—non-scheme pipeline disputes

- (1) This section applies in relation to an access determination for a non-scheme pipeline access dispute.
- (2) The access determination may be varied by agreement between all parties to the access determination.
- (3) The Rules may also contain provisions with respect to seeking variations to an access determination.
- (4) The provisions of this Chapter about the arbitration of an access dispute apply with necessary modifications to a proposal under the Rules to vary an access determination or to a dispute arising out of such a proposal.

Part 7 Termination of access dispute

169 Relevant adjudicator may terminate access dispute in particular circumstances

- (1) The relevant adjudicator for an access dispute may at any time terminate the access dispute (without making an access determination) if—
 - (a) the notice of dispute given under section 152 is withdrawn; or
 - (b) the relevant adjudicator considers that—

- (i) the pipeline service the subject of the access dispute could be provided on a genuinely competitive basis by a person other than the service provider or an associate of the service provider; or
 - (ii) the notice of the access dispute was vexatious; or
 - (iii) the subject matter of the dispute is trivial, misconceived or lacking in substance; or
 - (iv) the party who notified the access dispute did not negotiate in good faith; or

 - (vi) there is some other good reason why the dispute should be terminated.
- (2) Subject to section 163, the relevant adjudicator for an access dispute may also terminate the access dispute (without making an access determination) if the relevant adjudicator considers that the aspect of access about which there is a dispute is expressly or impliedly dealt with under a contract between the user or prospective user and the service provider.
- (3) Furthermore, a relevant adjudicator who is an arbitrator for a non-scheme pipeline access dispute may terminate an arbitration (without making an access determination) if the arbitrator considers that the user or prospective user seeking access is not engaging in the arbitration in good faith.
- (4) In this section—
- specified dispute termination circumstance* means a circumstance specified by the Rules as being a circumstance, the occurrence of which, entitles the relevant adjudicator for an access dispute to terminate the access dispute (without making an access determination).

Part 8 Compliance with access determinations

170 Compliance with access determination

- (1) Subject to the Rules and subsection (2)—
 - (a) a party to a scheme pipeline access dispute in respect of which an access determination is made must comply with the access determination; and

Note—

See also Chapter 8 Part 6 in relation to the enforcement of access determinations.

- (2) A user or prospective user of a pipeline service to which an access determination relates is not bound to seek access to the service.
- (3) However, if a user or prospective user of a pipeline service seeks or obtains access, the user or prospective user is bound by any relevant provision of the access determination.

171 Subsequent service providers bound by access determinations

- (1) An access determination applies to every subsequent service provider as if that subsequent service provider were a party to the access dispute in respect of which the access determination was made.
- (2) In this section—

subsequent service provider means a service provider (other than the service provider to whom the access determination applies) who provides pipeline services—

 - (a) the subject of the access dispute; and
 - (b) in respect of which the access determination was made.

176 Procedure of relevant adjudicator

- (1) In a dispute hearing the relevant adjudicator for an access dispute—
 - (a) is not bound by technicalities, legal forms or rules of evidence; and

 - (b) the Energy Security Board is satisfied that the Rules are consistent with the national gas objective; and
 - (c) the Energy Security Board has undertaken consultation on the Rules in accordance with any requirements determined by the MCE.
- (4) Rules in the nature of a derogation may be made under this section even though there may not have been a request for a derogation.
- (5) Section 74(3) applies to Rules made under subsection (1) in the same way as that section applies to Rules made by the AEMC.
- (6) As soon as practicable after making Rules under this section, the South Australian Minister must—
- (a) publish notice of the making of the Rules in the South Australian Government Gazette; and
 - (b) make the Rules publicly available.
- (7) The notice referred to in subsection (6)(a) must state—
- (a) the date on which the Rules commence operation; or
 - (b) if different Rules will commence operation on different dates, those dates.

-
- (5) The AEMC may only make a Rule that affects the allocation of powers, functions and duties between AEMO and a service provider for a declared transmission system if—
- (a) AEMO consents to the making of the Rule; or
 - (b) the Rule is requested by the Minister of the relevant adoptive jurisdiction.

296 AEMC may make more preferable Rule in certain cases

The AEMC may make a Rule that is different (including materially different) from a market initiated proposed Rule (a *more preferable Rule*) if the AEMC is satisfied that, having regard to the issue or issues that were raised by the market initiated proposed Rule (to which the more preferable Rule relates), the more preferable Rule will or is likely to better contribute to the achievement of the national gas objective.

297 AEMC may make Rules that are consequential to a Rule request

- (1) Despite section 295(2), the AEMC may, having regard to a request to make a Rule under section 29(1), make a Rule under this Law, the National Electricity Law or the National Energy Retail Law that is necessary or consequential, or corresponds, to the Rule.
- (2) For the purposes of this Chapter, the AEMC must treat a Rule it may make under subsection (1) as if it were part of the Rule to be made on that request.

298 Content of requests for a Rule

A request for the making of a Rule—

- (a) must contain the information prescribed by the Regulations or the Rules (or both); and
- (b) must, subject to section 299, be accompanied by the fee prescribed by the Regulations (if any); and

- (c) may be accompanied by a draft of the Rule to be made.

299 Waiver of fee for Rule requests

The AEMC may waive the payment of any fee prescribed by the Regulations for the purposes of section 298.

300 Consolidation of 2 or more Rule requests

- (1) If the AEMC considers it necessary or desirable that 2 or more requests for the making of a Rule should be dealt with together, the AEMC may—
- (a) treat those requests as 1 request for the purposes of this Chapter (a *consolidated Rule request*); or
 - (b) treat any later request as a submission in relation to the earliest Rule request.
- (2) For the purposes of this Chapter, the AEMC may treat a consolidated Rule request as being received by it on the day it receives either the first or last of the Rule requests forming part of the consolidated Rule request.

301 Initial consideration of request for Rule

- (1) Subject to this Chapter, as soon as practicable after receiving a request for the making of a Rule (an *active request*), the AEMC must consider whether—
- (a) the active request appears to—
 - (i) contain the information prescribed by the Regulations or the Rules (or both); and
 - (ii) not be misconceived or lacking in substance; and
 - (b) the subject matter of the active request appears to be for or with respect to a matter in respect of which the AEMC may make a Rule under this Law; and

Note—

Section 74 and Schedule 1 to this Law specify the subject matter for Rules.

-
- (c) the subject matter of the active request appears to relate to the subject matter of—
 - (i) a Rule made, or a request for the making of a Rule under section 295(1) not proceeded with, in the 12 months immediately before the date of receipt of the active request; or
 - (ii) another request for the making of a Rule under section 295(1) in respect of which the AEMC is taking action under this Part; and
 - (d) in the case of an active request for a trial Rule—the subject matter of the request appears to relate to the subject matter of—
 - (i) a trial waiver granted by the AER; or
 - (ii) an application for a trial waiver that has been received by the AER (but that has not been granted at the time of the active request for the trial Rule).
- (2) If the AEMC considers that—
- (a) in the case of an active request for the making of any Rule—having regard to the matters set out in subsection (1), it should not take any action under this Part in respect of the active request; or
 - (b) in the case of an active request for the making of a trial Rule—it should not take any action under this Part in respect of the active request on the basis that—
 - (i) the trial project to which the active request relates—
 - (A) is unlikely to be carried out; or
 - (B) offers no reasonable prospect of leading to better services and outcomes for consumers of gas; or
 - (ii) the trial Rule requested—
 - (A) is unnecessary to enable the trial project to be undertaken (including, for example,

because the trial project could be undertaken under a trial waiver); or

- (B) is unlikely to enable the trial project to be undertaken; or
- (C) should be the subject of a request for a Rule other than a trial Rule,

the AEMC must make a decision to that effect and inform the person or body, in writing, that requested the Rule of that decision.

- (3) Despite subsection (1) or (2), the AEMC may make a decision to the effect that it should not take any action under this Part in respect of the active request if the person or body that made the active request has not complied with a notice in accordance with section 302.
- (4) In making a decision under subsection (3), the AEMC must have regard to any representation it receives under section 302(4).
- (5) A decision under subsection (2) or (3) must—
 - (a) set out the reasons for the decision; and
 - (b) be given to the person or body that made the active request without delay; and
 - (c) in the case where the decision was made only because of the matters set out in subsection (1)(c)—be published.
- (6) Subject to this Chapter, if the AEMC considers that, having regard to the matters set out in subsection (1), it should take action under this Part in respect of an active request the AEMC must publish notice of that active request in accordance with section 303.
- (7) The AEMC must, as soon as practicable after receiving an active request relating to a trial Rule, consult with AEMO on the matter.

302 AEMC may request further information from Rule proponent in certain cases

- (1) This section applies if the AEMC—
 - (a) receives a request for the making of a Rule under section 295(1); and
 - (b) considers, having regard to the nature and content of the request, that further information is required from the person or body that has made the request to assist it to understand the request's purpose or content.
- (2) The AEMC may, by notice in writing, request the person or body that made the request under section 295(1) to provide the AEMC further information.
- (3) A notice under subsection (2) must specify—
 - (a) the kind of information the AEMC requires from the person or body; and
 - (b) the time within which that information must be provided to the AEMC.
- (4) A person or body given a notice under this section may make a written representation to the AEMC as to why it cannot provide the information specified in the notice within the time specified in the notice.

303 Notice of proposed Rule

- (1) This section applies if the AEMC—

 - (b) forms an intention to make an AEMC initiated Rule.
- (2) The AEMC must publish—
 - (a) notice of the request or intention (as the case requires); and
 - (b) a draft of the proposed Rule; and
 - (c) any other document prescribed by the Regulations.

- (3) A notice published under this section must—
 - (a) invite written submissions and comments from any person or body in relation to the proposed Rule by the date specified in the notice by the AEMC, being a date that is not less than 4 weeks from the date the notice is published; and
 - (b) contain any other information prescribed by the Regulations.
- (4) Nothing in this Part is to be taken as requiring the AEMC to publish notices under this section in the same order as it—
 - (a) considers that it should take action under this Part in respect of a request for the making of a Rule; or
 - (b) forms an intention to make an AEMC initiated Rule.

304 Publication of non-controversial or urgent final Rule determination

- (1) Subject to this section, if the AEMC considers that—
 - (a) an AEMC initiated Rule is a non-controversial Rule; or
 - (b) a request for a Rule is a request for a non-controversial Rule; or
 - (c) a request for a Rule is a request for an urgent Rule,the AEMC may make the relevant Rule in accordance with this Part (except sections 307 to 310) and as if the period of time within which the final Rule determination in respect of the relevant Rule must be published were 8 weeks from the date of publication of the notice under section 303.
- (2) Before making a Rule as set out in subsection (1), the AEMC must include in a notice under section 303 a statement to the effect that the AEMC may make the relevant Rule if the AEMC does not receive a written request, and reasons, not to do so from any person or body within 2 weeks of publication of that notice.

-
- (3) The AEMC must not make a Rule in accordance with this section if, following publication of a notice under section 303 containing a statement to the effect set out in subsection (2)—
 - (a) the AEMC receives a written request not to do so; and
 - (b) the reasons set out in that request are not, in its opinion, misconceived or lacking in substance.
 - (4) If the AEMC is of the opinion that the reasons given by a person or body in a written request for it not to make the non-controversial Rule or urgent Rule are misconceived or lacking in substance, the AEMC must—
 - (a) make a decision to that effect; and
 - (b) give the person or body its reasons, in writing, for that decision without delay.
 - (5) If the AEMC is of the opinion that the reasons given by a person or body in a written request for it not to make the non-controversial Rule or urgent Rule, are not misconceived or lacking in substance, the AEMC must publish a notice to the effect that it will make the relevant Rule in accordance with this Part (other than this section).

304A Publication of final Rule determination for trial Rule

- (1) If the AEMC considers that a request for a Rule is a request for a trial Rule, the AEMC may make the relevant Rule in accordance with this Part (except sections 307 to 310) and as if the period of time within which the final Rule determination in respect of the relevant Rule must be published were 10 weeks from the date of publication of the notice under section 303.
- (2) Sections 304 and 305 do not apply to a request for a trial Rule.

 - (ii) a conclusion for the making of a Rule contained in an AEMC Rule review.
- (2) The AEMC may take action under this Part in respect of the request without complying with section 303(3)(a) or 307 if it is of the opinion that—
- (a) in the case where the request has been made by a gas market regulatory body in the circumstances described in subsection (1)(a)—the consultation conducted by the gas market regulatory body was adequate, having regard to—
 - (i) the nature and content of that request; and
 - (ii) the kind of consultation conducted by the gas market regulatory body;
 - (b) in the case where a request has been made by a person or the MCE in the circumstances described in subsection (1)(b)—
 - (i) the request reflects, or is consistent with, the relevant recommendation contained in the MCE directed review or relevant conclusion in the AEMC Rule review (as the case requires); and
 - (ii) there was adequate consultation with the public by it on the content of the relevant recommendation or relevant conclusion during the MCE directed review or AEMC Rule review (as the case requires).
- (3) To avoid doubt—

Part 2 General

2 Law to be construed not to exceed legislative power of Legislature

- (1) This Law is to be construed as operating to the full extent of, but so as not to exceed, the legislative power of the Legislature of this jurisdiction.
- (2) If a provision of this Law, or the application of a provision of this Law to a person, subject matter or circumstance, would, but for this clause, be construed as being in excess of the legislative power of the Legislature of this jurisdiction—
 - (a) it is a valid provision to the extent to which it is not in excess of the power; and

-
- (b) the remainder of this Law, and the application of the provision to other persons, subject matters or circumstances, is not affected.
- (3) Without limiting subclause (2), this Law is not to be construed as imposing any duty on the Australian Competition Tribunal or AER to perform a function or exercise a power if the imposition of the duty would be in excess of the legislative power of the Legislature of this jurisdiction.

Note—

The term *function* is defined in clause 10 to include “duty”.

- (4) In particular, if a provision of this Law appears to impose a duty on a Commonwealth officer or body to perform a function or exercise a power, the duty is taken to be imposed by the provision to the extent to which imposing the duty—
- (a) is within the legislative powers of this jurisdiction; and
- (b) is consistent with the constitutional doctrines under the Constitution of the Commonwealth restricting the duties that may be imposed on a Commonwealth officer or body.
- (4a) To avoid doubt, a provision of this Law does not impose the duty on the Commonwealth officer or body to the extent to which imposing the duty would—
- (a) contravene any constitutional doctrine under the Constitution of the Commonwealth restricting the duties that may be imposed on a Commonwealth officer or body; or
- (b) otherwise exceed the legislative powers of this jurisdiction.
- (4b) If imposing on the Commonwealth officer or body the duty to do that thing would—
- (a) contravene any constitutional doctrine restricting the duties that may be imposed on a Commonwealth officer or body; or
- (b) otherwise exceed the legislative powers of both the State and the Commonwealth,

the provision of this Law is taken instead to confer on the Commonwealth officer or body a power to do that thing at the discretion of the Commonwealth officer or body (as the case may require).

- (5) This clause does not limit the effect that a provision of this Law would validly have apart from this clause.

3 Changes of drafting practice not to affect meaning

Differences of language between provisions of this Law or the Rules may be explicable by reference to changes of legislative drafting practice and do not necessarily imply a difference of meaning.

- (2) The fact that a provision of this Schedule refers to this Law and not also to a statutory instrument does not, by itself, indicate that the provision is intended to apply only to this Law.
- (3) In this clause—
statutory instrument includes the Regulations, the rate of return instrument, the Rules or Procedures.

51A Rate of return instrument construed not to exceed the legislative power of the Legislature of this jurisdiction or the powers conferred by this Law

- (1) A rate of return instrument is to be construed as operating to the full extent of, but so as not to exceed, the legislative power of the Legislature of this jurisdiction or the power conferred by this Law under which it is made.

-
- (2) If a provision of the rate of return instrument, or the application of a provision of the instrument to a person, subject matter or circumstance, would, but for this clause, be construed as being in excess of the legislative power of the Legislature of this jurisdiction or the power conferred by this Law under which it is made—
- (a) it is a valid provision to the extent to which it is not in excess of the power; and
 - (b) the remainder of the instrument, and the application of the provision to other persons, subject matters or circumstances, is not affected.

52 National Gas Rules to be construed so as not to exceed the legislative power of the Legislature of this jurisdiction or the powers conferred by this Law

 - (b) the remainder of the National Gas Rules, and the application of the provision to other persons, subject matters, or circumstances, is not affected.
- (3) Without limiting subclause (2), the National Gas Rules are not to be construed as imposing any duty on the AER to perform a function or exercise a power if the imposition of the duty would be in excess of the legislative power of the Legislature of this jurisdiction.

Note—

The term *function* is defined in clause 10 to include “duty”.

- (4) In particular, if a provision of the National Gas Rules appears to impose a duty on a Commonwealth officer or body to perform a function or exercise a power, the duty is taken to be imposed by the provision to the extent to which imposing the duty—
- (a) is within the legislative powers of this jurisdiction; and
 - (b) is consistent with the constitutional doctrines under the Constitution of the Commonwealth restricting the duties that may be imposed on a Commonwealth officer or body.
- (4a) To avoid doubt, a provision of the National Gas Rules does not impose the duty on the Commonwealth officer or body to the extent to which imposing the duty would—
- (a) contravene any constitutional doctrine under the Constitution of the Commonwealth restricting the duties that may be imposed on a Commonwealth officer or body; or
 - (b) otherwise exceed the legislative powers of this jurisdiction.
- (4b) If imposing on the Commonwealth officer or body the duty to do that thing would—
- (a) contravene any constitutional doctrine restricting the duties that may be imposed on a Commonwealth officer or body; or
 - (b) otherwise exceed the legislative powers of both the State and the Commonwealth,
- the provision of the National Gas Rules is taken instead to confer on the Commonwealth officer or body a power to do that thing at the discretion of the Commonwealth officer or body (as the case may require).
- (5) This clause does not limit the effect that a provision of the National Gas Rules would validly have apart from this clause.

53 Invalid Rules

 - (a) revive anything not in force or existing at the time of the order of the Court; or

 - (c) affect a right, privilege or liability acquired, accrued or incurred under the Rule; or
 - (d) affect a penalty arising because of a breach of the Rule; or
 - (e) affect an investigation, proceeding or remedy in relation to such a right, privilege, liability or penalty.
- (2) A penalty may be imposed and enforced, and any such investigation, proceeding or remedy may be begun, continued or enforced as if the Rule had not been ordered by the Court as invalid.

53A Invalid rate of return instrument

- (1) This clause applies if the Court orders (by declaration or otherwise) that a rate of return instrument is invalid.
- (2) The AER must make a new rate of return instrument under this Law to replace the invalid instrument.
- (3) Until the invalid instrument is replaced, the rate of return on capital and the value of imputation credits under the invalid instrument continue to apply for the purposes of this Law.
- (4) However, the AER must deal with any affected access arrangement decision to apply the new rate of return instrument to the decision as if the new instrument had applied from the start of the decision.
- (5) Subclause (4) applies despite section 30Q(1).
- (6) In this clause—

affected access arrangement decision means an access arrangement decision to which the invalid instrument applied or continued to apply;
