Plumbing and Drainage Act 2018

An Act about plumbing and drainage, and the licensing of plumbers and drainers

Part 1 Preliminary

Division 1 Introduction

1 Short title

This Act may be cited as the *Plumbing and Drainage Act 2018*.

2 Commencement

- (1) This Act, other than the following provisions, commences on a day to be fixed by proclamation—
- part 9, division 1A, other than section 176F(2)
 - sections 192A to 192K, 193A to 193G and 196(3) to (6)
 - schedule 2, amendments of the *Building Industry Fairness (Security of Payment) Act 2017*.
- (2) The *Acts Interpretation Act 1954*, section 15DA does not apply to part 9, division 3.

3 Main purpose of Act

- (1) The main purpose of this Act is to regulate the carrying out of plumbing or drainage work in a way that reduces risks to—
- (a) public health and safety; and

- (b) the environment.
- (2) The main purpose of this Act is to be achieved primarily by—
 - (a) establishing a licensing scheme to ensure all plumbing or drainage work, other than unregulated work, is carried out by persons who are qualified to carry out the work; and
 - (b) requiring plumbing or drainage work to be carried out in compliance with the code requirements for the work; and
 - (c) establishing a framework for approving particular plumbing or drainage work and particular treatment plants.

4 Act binds all persons

This Act binds all persons, including the State and, as far as the legislative power of the Parliament permits, the Commonwealth and the other States.

Division 2 Interpretation

5 Definitions

The dictionary in schedule 1 defines particular words used in this Act.

6 Categories of plumbing or drainage work

- (1) Plumbing or drainage work consists of the following categories of work—
 - (a) permit work;
 - (b) notifiable work;
 - (c) minor work;
 - (d) unregulated work.

- (2) **Permit work** is plumbing or drainage work prescribed by regulation as permit work.
- (3) **Notifiable work** is plumbing or drainage work prescribed by regulation as notifiable work.
- (4) **Minor work** is plumbing or drainage work prescribed by regulation as minor work.
- (5) **Unregulated work** is plumbing or drainage work prescribed by regulation as unregulated work.

7 The Queensland Plumbing and Wastewater Code

- (1) The *Queensland Plumbing and Wastewater Code* is the document called ‘Queensland Plumbing and Wastewater Code’ made by the chief executive and published on the department’s website, as amended from time to time.
- (2) The Queensland Plumbing and Wastewater Code does not take effect under this Act until it is approved by regulation.

8 The Plumbing Code of Australia

The *Plumbing Code of Australia* is the document in force from time to time called ‘National Construction Code, volume 3—Plumbing Code of Australia’ published by the Australian Building Codes Board.

9 Code requirements

- (1) The **code requirements**, for plumbing or drainage work, are the requirements about the plumbing or drainage work under—
 - (a) the Queensland Plumbing and Wastewater Code; and
 - (b) a provision of the Plumbing Code of Australia prescribed by regulation; and
 - (c) a part of the Queensland Development Code prescribed by regulation; and

- (d) the local laws of a local government relating to plumbing or drainage that are not inconsistent with this Act.
- (2) If the Queensland Plumbing and Wastewater Code is inconsistent with a provision of the Plumbing Code of Australia or a part of the Queensland Development Code prescribed under subsection (1), the Queensland Plumbing and Wastewater Code prevails to the extent of the inconsistency.
- (3) If a provision of the Plumbing Code of Australia is inconsistent with a part of the Queensland Development Code prescribed under subsection (1), the part prevails to the extent of the inconsistency.
- (4) A regulation may prescribe how plumbing or drainage work, or a plan for plumbing or drainage work, can comply with the code requirements for the work.

10 References to plumbing or drainage work

In this Act, a reference to plumbing or drainage work is taken to include plumbing or drainage that results from, or is affected by, the plumbing or drainage work, to the extent the context permits.

11 References to local governments

For administering this Act within an area, a reference in this Act to a local government is taken to be a reference to the entity administering this Act within the area under section 135.

Part 2 Licensing

Division 1 Classes of licences

12 Classes of licences

- (1) The commissioner may grant—
 - (a) a plumbers licence; or
 - (b) a drainers licence; or
 - (c) a restricted licence.
- (2) The commissioner may grant a provisional licence for each class of licence mentioned in subsection (1).

Note—

The commissioner may make an endorsement on a licence under section 25.

13 Work that may be carried out under licences

- (1) The holder of a plumbers licence may carry out only the plumbing work for which the licence is granted.
- (2) The holder of a drainers licence may carry out only the drainage work for which the licence is granted.
- (3) The holder of a restricted licence may carry out only the plumbing or drainage work for which the licence is granted.
- (4) The holder of a provisional licence may carry out only the plumbing or drainage work for which the licence is granted.
- (5) The scope of work for a particular class of licence is the scope of work prescribed by regulation for the licence.
- (6) This section is subject to section 25.

Division 2 Granting licences

14 Qualifications and practical experience required for licence

The chief executive must—

- (a) decide the qualifications and practical experience that an individual must have to be granted a licence; and
- (b) publish on the department’s website the required qualifications and practical experience for the licence.

15 Entitlement to licence

- (1) An individual is entitled to a licence if, on application by the individual, the commissioner is satisfied the individual has the qualifications and practical experience for the licence.
- (2) However, the individual is not entitled to a licence if—
 - (a) the individual holds an interstate or New Zealand licence that is suspended; or
 - (b) the individual—
 - (i) held an interstate or New Zealand licence that was cancelled; and
 - (ii) does not hold an interstate or New Zealand licence that is in force.

16 Application for licence

An application for a licence must—

- (a) be made to the commissioner; and
- (b) be in the approved form; and
- (c) be accompanied by—
 - (i) evidence of the applicant’s qualifications and practical experience; and

- (ii) the fee prescribed by regulation; and
- (iii) if the applicant is licensed by an interstate or New Zealand licensing authority—written details of any conditions of the licence.

Note—

An application for a licence and an application for an endorsement on a licence may be made at the same time. See section 27.

17 Inquiry about applicant

- (1) The commissioner may investigate an applicant, including whether or not the applicant has been convicted of an offence against this Act or the repealed Act.
- (2) The commissioner may, by notice given to the applicant within 20 business days after the commissioner receives the application, require the applicant within a reasonable period of at least 20 business days stated in the notice—
 - (a) to give the commissioner the further information the commissioner reasonably requires to decide the application; and
 - (b) to undergo a written, oral or practical examination at a reasonable place to assess the applicant's ability to competently practise the plumbing and drainage trade.
- (3) The commissioner may require the information mentioned in subsection (2)(a) to be verified by a statutory declaration.
- (4) The applicant is taken to have withdrawn the application if the applicant does not comply with the notice within the stated period.

18 Extending decision period for application

- (1) This section applies if the commissioner needs to extend the decision period for an application for a licence because of the complexity of the issues that must be considered in deciding the application.

Example—

an application requiring the commissioner to obtain and consider information about the applicant from a foreign licensing authority

- (2) The commissioner may at any time before the end of the decision period give notice to the applicant that—
 - (a) because of the complexity of the issues that must be considered in deciding the application, the commissioner needs to extend the decision period; and
 - (b) the period within which the commissioner must decide the application is extended to a stated day that is 20 business days after the end of the decision period.
- (3) Also, the applicant and commissioner may, at any time before the end of the decision period for the application, agree in writing on a day by which the application must be decided.
- (4) In this section—

decision period, for an application for a licence, means 20 business days after the commissioner receives—

- (a) if the applicant was required to give information under section 17(2)(a)—the information; or
- (b) if the applicant was required to undergo an examination under section 17(2)(b)—the results of the examination; or
- (c) otherwise—the application.

19 Deciding application

- (1) The commissioner must consider an application for a licence and decide to—
 - (a) grant the licence; or
 - (b) grant a provisional licence for the class of licence applied for; or
 - (c) refuse to grant a licence.
- (2) The commissioner may grant a provisional licence to the applicant only if—

- (a) the commissioner reasonably believes the applicant needs more practical experience before being granted the licence applied for; or
 - (b) the commissioner reasonably believes the applicant does not have the qualifications required under section 15(1), but does have enough practical experience to be able to carry out work under the provisional licence; or
 - (c) the applicant holds a corresponding licence; or
 - (d) the commissioner reasonably believes the applicant has the qualifications and practical experience required under section 15(1), but requires evidence, or further evidence, of the qualifications and experience to be given to the commissioner.
- (3) If, at the end of the decision period for the application, the commissioner has failed to decide the application, the failure is taken to be a decision to refuse to grant a licence.

- (4) In this section—

corresponding licence means—

- (a) an interstate or New Zealand licence; or
- (b) a licence, however called, issued in another country, that authorises the applicant to carry out the work to which the application relates.

decision period, for an application for a licence, means—

- (a) if there is no extended period or agreed day for deciding the application under section 18—20 business days after the commissioner receives—
 - (i) if the applicant was required to give information under section 17(2)(a)—the information; or
 - (ii) if the applicant was required to undergo an examination under section 17(2)(b)—the results of the examination; or
 - (iii) otherwise—the application; or

- (b) if there is an extended period or agreed day for deciding the application under section 18—the extended period or the period ending on the agreed day.

20 Imposing conditions on licence

The commissioner may grant a licence on the conditions the commissioner considers necessary or desirable for the licensee to competently practise the plumbing and drainage trade.

21 Steps to be taken after application decided

- (1) If the commissioner decides to grant a licence to an applicant, the commissioner must as soon as practicable issue a licence to the applicant.
- (2) Subsection (3) applies if the commissioner decides to—
 - (a) grant a licence on conditions; or
 - (b) grant a provisional licence; or
 - (c) refuse to grant a licence.
- (3) The commissioner must give the applicant an information notice about the decision as soon as practicable after making the decision.

Note—

For reviews of the decision, see the *Queensland Building and Construction Commission Act 1991*, part 7, division 3.

- (4) If the commissioner grants a licence on conditions, the information notice must also state the non-review period for the conditions.
- (5) If the commissioner decides to refuse to grant a licence or the application is withdrawn, the commissioner must refund the application fee paid, less the amount of the cost to the commissioner of processing the application.

22 Form of licence

A licence must state—

- (a) the licensee's name; and
- (b) the expiry date of the licence; and
- (c) the licence number; and
- (d) the licence class; and
- (e) any conditions of the licence.

23 Duration of licence

A licence remains in force for the period stated in the licence of not more than—

- (a) for a provisional licence—1 year; or
- (b) for another licence—5 years.

Division 3 Upgrading provisional licences

24 Commissioner may upgrade provisional licence

- (1) This section applies if—
 - (a) an individual applied for a licence; and
 - (b) the commissioner granted a provisional licence to the individual; and
 - (c) the individual's provisional licence has not expired; and
 - (d) the individual satisfies the commissioner about an issue that caused the commissioner to grant the provisional licence to the individual instead of the licence applied for.
- (2) The commissioner may, without another application being made under division 2, grant the individual the licence originally applied for, with or without any conditions imposed on the provisional licence.

- (3) The provisional licence is cancelled if a licence is granted under subsection (2).

Division 4 Endorsements

25 Endorsements on licences

- (1) The commissioner may make an endorsement on a licence that the holder of the licence may carry out particular plumbing or drainage work.
- (2) The scope of work for a particular endorsement on a licence is the scope of work prescribed by regulation for the endorsement.
- (3) The holder of a licence that has an endorsement may carry out the particular plumbing or drainage work for which the endorsement is made on the licence in addition to the plumbing or drainage work for which the licence is granted.
- (4) An endorsement on a licence remains in force for the period stated on the licence for the endorsement but no longer than the period for which the licence remains in force.

26 Qualifications and practical experience required for endorsement

The chief executive must—

- (a) decide the qualifications and practical experience that an individual must have for an endorsement to be made on the individual's licence; and
- (b) publish on the department's website the required qualifications and practical experience for the endorsement.

27 Entitlement to endorsement

- (1) An individual is entitled to an endorsement on a licence if, on application by the individual, the commissioner is satisfied the

individual has the qualifications and practical experience for the endorsement.

- (2) A licensee may apply to the commissioner for an endorsement on the licensee's licence at any time.
- (3) An individual who has applied for a licence may, together with or after making the application, apply for an endorsement on the licence if the licence is issued.

28 Application for endorsement

An application for an endorsement to be made on a licence must—

- (a) be made to the commissioner; and
- (b) be in the approved form; and
- (c) be accompanied by—
 - (i) evidence of the applicant's qualifications and practical experience; and
 - (ii) the fee prescribed by regulation.

29 Deciding application

- (1) The commissioner must consider an application for an endorsement to be made on a licence and decide to—
 - (a) grant the application; or
 - (b) refuse to grant the application.
- (2) If the commissioner decides to refuse to grant the application, the commissioner must give the applicant an information notice about the decision as soon as practicable after making the decision.

Note—

For reviews of the decision, see the *Queensland Building and Construction Commission Act 1991*, part 7, division 3.

Division 5 Renewing licences

30 Notice of expiry of licence

The commissioner must give each licensee notice of the expiry of the licensee's licence at least 40 business days before its expiry.

31 Application to renew licence

- (1) A licensee, other than a provisional licensee, may apply to the commissioner to renew the licensee's licence.
- (2) The application must—
 - (a) be made before the licence expires; and
 - (b) be in the approved form; and
 - (c) be accompanied by the fee prescribed by regulation.
- (3) The fee mentioned in subsection (2)(c) is the reduced fee prescribed by regulation if the applicant gives the commissioner a statutory declaration stating the applicant—
 - (a) is retired; and
 - (b) does not intend to carry out plumbing or drainage work for payment after the licence is renewed.
- (4) If a licensee applies to renew the licensee's licence on or before the day it would otherwise expire, the licence continues in force from the day the licence would have expired until the day a new licence is issued to the applicant under section 32(1).
- (5) However, subsection (4) does not apply to a licence that is suspended or otherwise ends under this Act.
- (6) If a licensee does not apply to renew the licensee's licence on or before the day the licence expires, the licence expires at the end of the day.
- (7) Subsection (6) applies whether or not the commissioner has complied with section 30 in relation to the expiry.

- (8) If an application does not comply with subsection (2), the commissioner must, as soon as practicable, tell the applicant how the application does not comply.

32 Deciding application

- (1) If an application to renew a licence complies with section 31(2), the commissioner must, as soon as practicable, issue a new licence to the applicant.
- (2) The licence is subject to the same conditions as the licence that expired or is due to expire.
- (3) If the application does not comply with section 31(2), the commissioner must—
- (a) refuse to renew the licence; and
 - (b) give the applicant an information notice about the decision.
- (4) If an endorsement was made on the licence that expired or is due to expire, the commissioner must make the endorsement on the renewed licence unless the commissioner is satisfied the licensee is no longer entitled to have the endorsement made on the licence.

Note—

For reviews of the decision, see the *Queensland Building and Construction Commission Act 1991*, part 7, division 3.

Division 6 Restoring expired licences

33 Application to restore licence

- (1) If a licence has expired, the person who was the licensee for the licence may apply to the commissioner to restore the licence.
- (2) The application must—
- (a) be made within 1 year after the day the licence expired; and

- (b) be in the approved form; and
 - (c) be accompanied by the fee prescribed by regulation.
- (3) The fee mentioned in subsection (2)(c) is the reduced fee prescribed by regulation if the applicant gives the commissioner a statutory declaration stating the applicant—
- (a) is retired; and
 - (b) does not intend to carry out plumbing or drainage work for payment after the licence is restored.
- (4) If the application does not comply with subsection (2), the commissioner must, as soon as practicable, tell the applicant how the application does not comply.

34 Deciding application

- (1) If an application to restore a licence complies with section 33(2), the commissioner must, as soon as practicable, restore the licence to the applicant.
- (2) The licence is subject to the same conditions as the licence that expired.
- (3) If the application does not comply with section 33(2), the commissioner must—
- (a) refuse to restore the licence; and
 - (b) give the applicant an information notice about the decision.
- (4) If an endorsement was made on the licence that expired, the commissioner must make the endorsement on the restored licence unless the commissioner is satisfied the licensee is no longer entitled to have the endorsement made on the licence.

Note—

For reviews of the decision, see the *Queensland Building and Construction Commission Act 1991*, part 7, division 3.

Division 7 Reviewing licence conditions

35 Review of licence conditions started by licensee

- (1) A licensee may apply to the commissioner for a review of the conditions of the licensee's licence.
- (2) However, the application may not be made—
 - (a) during the non-review period for the conditions; or
 - (b) if the licensee has applied to QCAT for a review of the decision to impose the conditions—while QCAT is reviewing the decision.
- (3) The application must—
 - (a) be in the approved form; and
 - (b) be accompanied by the fee prescribed by regulation.

36 Review of licence conditions started by commissioner
