

Nature Conservation (Protected Areas Management) (Conondale and Other National Parks) Amendment Regulation 2018

Explanatory notes for SL 2018 No. 221

made under the

Nature Conservation Act 1992

General Outline

Short title

Nature Conservation (Protected Areas Management) (Conondale and Other National Parks) Amendment Regulation 2018.

Authorising law

Sections 35 and 175 of the *Nature Conservation Act 1992* (the Act)

Policy objectives and the reasons for them

The Act provides instructions on how development applications to install, maintain or use infrastructure on national parks should be dealt with. The Act contains strict criteria which must be satisfied before the grant of an authority for such infrastructure can be made by the chief executive.

Section 35(1) of the Act states that:

- (1) The chief executive may grant, make, issue or give a lease, agreement, licence, permit or other authority over, or in relation to, land in a national park if:
 - (a) the use under the authority is only for a service facility or an ecotourism facility; and
 - (b) if the use under the authority is for a service facility, the Chief Executive is satisfied-
 - (i) the cardinal principle for the management of national parks will be observed to the greatest possible extent; and
 - (ii) the use will be in the public interest; and

- (iii) the use is ecologically sustainable; and
 - (iv) there is no reasonably practicable alternative to the use; and
- (c) if the use under the authority is for an ecotourism facility, the chief executive is satisfied-
- (i) the use will be in the public interest; and
 - (ii) the use is ecologically sustainable; and
 - (iii) the use will provide, to the greatest possible extent, for the preservation of the land's natural condition and the protection of the land's cultural resources and values; and
- (d) the use under the authority is prescribed under a regulation made for this section to be a permitted use for the area.

The chief executive may not delegate the power under Section 35 in accordance with section 141 of the Act.

The following proposed uses have been assessed and have met the requirements under section 35(1)(b) of the Act:

1. Operation and maintenance of an existing service facility (for a communications use) by the Public Safety Business Agency (PSBA) within Conondale National Park at the site described as Authority Area covering parts of Lot 135 and 274 on NPW746 on QPWSAP000051;
2. Operation and maintenance of an existing service facility (for a water supply use) by the Whitsunday Regional Council within Conway National Park at the site described as Authority Area within Lot 43 on NPW1144 on QPWS1980; and
3. Operation and maintenance of an existing service facility (for a water supply use) by Seqwater within Glass House Mountains National Park at the site described as Authority Areas A, B, C, D and E over parts of Lot 127 and Lot 589 on NPW725 and Lot 1 on AP19221 on QPWAP00013.

Before the chief executive may grant a Section 35 authority for the above activities, the uses and the relevant national parks must be prescribed in Schedule 3 of the *Nature Conservation (Protected Areas Management) Regulation 2017*.

Achievement of policy objectives

To achieve its objective, the amendment regulation will amend Schedule 3 of the *Nature Conservation (Protected Areas Management) Regulation 2017* to:

- permit the proposed service facility in Conondale National Park at the sites described as Authority Area covering parts of Lots 135 and 274 on NPW746 on QPWSAP000051;
- permit the proposed service facility in Conway National Park at the site described as Authority Area within Lot 43 on NPW1144 on QPWS1980; and
- permit the proposed service facility in Glass House Mountains National Park at the sites described as Authority Areas A, B, C, D and E over parts of Lot 127 and Lot 589 on NPW725 and Lot 1 on AP19221 on QPWAP00013.

Consistency with policy objectives of authorising law

The amendment regulation is consistent with the main objectives of the Act.

Inconsistency with policy objectives of other legislation

This amendment regulation is not inconsistent with any other legislation.

Benefits and costs of implementation

The amendment regulation is an administrative process to provide for the authorisation of infrastructure on the protected areas in compliance with section 35 of the Act.

Consistency with fundamental legislative principles

The amendment regulation is consistent with the fundamental legislative principles in accordance with section 4(5) of the *Legislative Standards Act 1992*.

Consultation

Through departmental correspondence, on-site visitations and via telephone conversations, officers of the Department of Environment and Science, Queensland Parks and Wildlife Service consulted with the applicants and the key stakeholders.

Standard notification or consultation included addressing Native Title and other agencies where joint land administration arrangements occur.

In accordance with *The Queensland Government Guide to Better Regulation*, the Office of Best Practice Regulation was not consulted in relation to the regulatory proposal. The Department of Environment and Science applied a self-assessable exclusion from undertaking further regulatory impact analysis (Category g – regulatory proposals that are of a machinery nature).

All parties support the amendments.

No changes to the amendment regulation were required as a result of the consultation.
