Sustainable Planning Act 2009

An Act for a framework to integrate planning and development assessment so that development and its effects are managed in a way that is ecologically sustainable, and for related purposes

Chapter 1 Preliminary

Part 1 Introduction

1 Short title

This Act may be cited as the *Sustainable Planning Act 2009*.

2 Commencement

This Act commences on a day to be fixed by proclamation.

Part 2 Purpose and advancing the purpose

3 Purpose of Act

The purpose of this Act is to seek to achieve ecological sustainability by—

- (a) managing the process by which development takes place, including ensuring the process is accountable, effective and efficient and delivers sustainable outcomes; and

- (b) managing the effects of development on the environment, including managing the use of premises; and
- (c) continuing the coordination and integration of planning at the local, regional and State levels.

4 Advancing Act's purpose

- (1) If, under this Act, a function or power is conferred on an entity, the entity must—
 - (a) unless paragraph (b) or (c) applies—perform the function or exercise the power in a way that advances this Act's purpose; or
 - (b) if the entity is an assessment manager other than a local government—in assessing and deciding a matter under this Act, have regard to this Act's purpose; or
 - (c) if the entity is a referral agency other than a local government (unless the local government is acting as a referral agency under devolved or delegated powers)—in assessing and deciding a matter under this Act, have regard to this Act's purpose.
- (2) Subsection (1) does not apply to code assessment or compliance assessment under this Act.

5 What advancing Act's purpose includes

- (1) Advancing this Act's purpose includes—
 - (a) ensuring decision-making processes—
 - (i) are accountable, coordinated, effective and efficient; and
 - (ii) take account of short and long-term environmental effects of development at local, regional, State and wider levels, including, for example, the effects of development on climate change; and
 - (iii) apply the precautionary principle; and

- (iv) seek to provide for equity between present and future generations; and
 - (b) ensuring the sustainable use of renewable natural resources and the prudent use of non-renewable natural resources by, for example, considering alternatives to the use of non-renewable natural resources; and
 - (c) avoiding, if practicable, or otherwise lessening, adverse environmental effects of development, including, for example—
 - (i) climate change and urban congestion; and
 - (ii) adverse effects on human health; and
 - (d) considering housing choice and diversity, and economic diversity; and
 - (e) supplying infrastructure in a coordinated, efficient and orderly way, including encouraging urban development in areas where adequate infrastructure exists or can be provided efficiently; and
 - (f) applying standards of amenity, conservation, energy, health and safety in the built environment that are cost-effective and for the public benefit; and
 - (g) providing opportunities for community involvement in decision making.
- (2) For subsection (1)(a)(iii), the precautionary principle is the principle that lack of full scientific certainty should not be used as a reason for postponing a measure to prevent degradation of the environment if there are threats of serious or irreversible environmental damage.
- (3) In this section—
- natural resources*** includes biological, energy, extractive, land and water resources that are important to economic development because of their contribution to employment generation and wealth creation.

- (1B) The temporary local planning instrument has effect on and from the day the local government resolution was made.
- (2) If a planning scheme is amended, the amendment has effect on and from—
 - (a) the day the making of the amendment is notified in the gazette; or
 - (b) if a later day for the commencement of the amendment is stated in the amendment—the later day.

-
- (3) A temporary local planning instrument has effect until the instrument expires or is repealed.

Note—

For when particular provisions of a planning scheme have no effect for development in the SEQ region, see the SEQ Water Act, section 78A.

121 When planning scheme policy and amendments have effect

A planning scheme policy or amendment of a planning scheme policy for a planning scheme area has effect on and from—

- (a) the day the making of the policy or amendment is first notified in a newspaper circulating generally in the local government's area; or
- (b) if a later day for the commencement of the policy or amendment is stated in the policy or amendment—the later day.

122 Consolidating planning schemes

- (1) A local government may prepare and adopt a consolidated planning scheme.
- (2) The guideline mentioned in section 117(1) does not apply to the preparation or adoption of the consolidated planning scheme.
- (3) The consolidated planning scheme is, in the absence of evidence to the contrary, taken to be the local government's planning scheme on and from the day the consolidated planning scheme is adopted by the local government.
- (4) As soon as practicable after the local government adopts the consolidated planning scheme, the local government must give the chief executive a certified copy of the consolidated planning scheme.

Division 3 Repealing local planning instruments

123 Repealing temporary local planning instruments

- (1) A temporary local planning instrument may be repealed by—
 - (a) a resolution of a local government; or
 - (b) the adoption of a planning scheme or an amendment of a planning scheme that specifically repeals the instrument.
- (2) However, a local government must have the Minister's written approval to make a resolution under subsection (1)(a) if the temporary local planning instrument—
 - (a) was made by the local government under the direction of the Minister under section 126; or
 - (b) was made by the Minister under section 128 after the local government did not comply with a direction of the Minister under section 126; or
 - (c) was made by the Minister under section 129.
- (3) The local government must publish, in a newspaper circulating generally in the local government's area and in the gazette, a notice stating the following—
 - (a) the name of the local government;
 - (b) the name of the temporary local planning instrument being repealed;
 - (c) the day the resolution was made;
 - (d) the purpose and general effect of the resolution.
- (4) On the day the notice is published in the gazette, or as soon as practicable after the day, the local government must give the chief executive a copy of the notice.
- (5) The repeal takes effect—
 - (a) if the resolution is made under subsection (1)(a)—on the day the resolution is notified in the gazette; or

- (b) if the temporary local planning instrument is repealed by the making of a planning scheme or an amendment of a planning scheme—on the day the planning scheme or amendment takes effect.

124 Repealing planning scheme policies

- (1) A local government may, by resolution, repeal a planning scheme policy, other than a planning scheme policy that is replaced by another planning scheme policy.
- (2) If a local government makes a resolution under subsection (1), the local government must give the Minister a copy of the resolution.
- (3) The local government must publish, in a newspaper circulating generally in the local government's area, a notice stating the following—
 - (a) the name of the local government;
 - (b) the name of the planning scheme policy being repealed;
 - (c) the day the resolution was made.
- (4) On the day the notice is published, or as soon as practicable after the notice is published, the local government must give the chief executive a copy of the notice.
- (5) The repeal takes effect—
 - (a) on the day the notice is first published in the newspaper;
or
 - (b) if the notice states a later day—on the later day.
- (6) Also, if a new planning scheme, other than an amendment of a planning scheme, is made for a planning scheme area, all existing planning scheme policies for the area are repealed on the day the planning scheme takes effect.

Part 6 Powers of State in relation to local planning instruments

Division 1 Direction to take action about local planning instruments

125 Procedures before exercising particular power

- (1) Before a power is exercised under section 126 or 127, the Minister must give written notice of the proposed exercise of the power to the local government to be affected by the exercise of the power.
- (2) However, notice need not be given if the power is proposed to be exercised at the local government's request.
- (3) The notice must state—
 - (a) the reasons for the proposed exercise of the power; and
 - (b) a period within which the local government may make submissions to the Minister about the proposed exercise of the power.
- (4) The Minister must consider any submissions made under subsection (3) and advise the local government that the Minister has decided—
 - (a) not to exercise the power; or
 - (b) to exercise the power.
- (5) If the Minister decides to exercise the power, the Minister must advise the local government the reasons for deciding to exercise the power.

126 Power of Minister to direct local government to take particular action about local planning instrument

- (1) This section applies if the Minister is satisfied it is necessary to give a direction to a local government—

-
- (a) to protect or give effect to a State interest; or
 - (b) to ensure a local planning instrument, proposed local planning instrument or proposed amendment of a local planning instrument appropriately reflects the standard planning scheme provisions.
- (2) The Minister may direct the local government to take an action in relation to—
- (a) a local planning instrument; or
 - (b) a proposed local planning instrument; or
 - (c) a proposed amendment of a local planning instrument.
- (3) The direction may be as general or specific as the Minister considers appropriate and must state the reasonable period within which the local government must comply with the direction.
- (4) Without limiting subsection (2), the direction may require the local government to—
- (a) review its planning scheme; or
 - (b) make a planning scheme or amend its planning scheme; or
 - (c) make or repeal a temporary local planning instrument; or
 - (d) make, amend or repeal a planning scheme policy.

127 Power of Minister to direct local government to prepare a consolidated planning scheme

The Minister may direct a local government to prepare a consolidated planning scheme.

128 Power of Minister if local government does not comply with direction

- (1) If the local government does not comply with the Minister's direction under section 126 or 127 within the reasonable

period stated in the direction, the Minister may take the action the Minister directed the local government to take.

- (2) Anything done by the Minister under subsection (1) is taken to have been done by the local government and has the same effect as it would have had if the local government had done it.
- (3) An expense reasonably incurred by the Minister in taking an action under subsection (1) may be recovered from the local government as a debt owing to the State.

Division 2 Making or amending local planning instrument without direction

129 Power of Minister to take action about local planning instrument without direction to local government

- (1) Subsection (2) applies if the Minister is satisfied urgent action is necessary to protect or give effect to a State interest.
- (2) The Minister may make or amend a local planning instrument without giving a direction under section 126 to the local government about the making or amendment of the local planning instrument.
- (3) Subsection (4) applies if the Minister is satisfied a local planning instrument does not appropriately reflect the standard planning scheme provisions.
- (4) The Minister may amend the local planning instrument without giving a direction under section 126 to the local government about the amendment of the instrument.
- (5) Before acting under subsection (2) or (4), the Minister must give written notice of the proposed action to the local government to be affected by the action.
- (6) The notice must state the reasons for taking the action.
- (7) To remove any doubt, it is declared that the Minister is not required to consult with anyone before taking the action.

Chapter 5 Designation of land for community infrastructure

Part 1 Preliminary

200 Who may designate land

A Minister or a local government may, under this chapter, designate land for community infrastructure prescribed under a regulation for this section.

Note—

In this chapter, *Minister* includes any Minister. See definition *Minister* in schedule 3 (Dictionary).

201 Matters to be considered when designating land

Land may be designated for community infrastructure only if the Minister or local government is satisfied the community infrastructure will—

- (a) facilitate the implementation of legislation and policies about environmental protection or ecological sustainability; or
- (b) facilitate the efficient allocation of resources; or
- (c) satisfy statutory requirements or budgetary commitments of the State or local government for the supply of community infrastructure; or
- (d) satisfy the community's expectations for the efficient and timely supply of the infrastructure.

202 What designations may include

A designation may include—

- (a) requirements about works or the use of the land for the community infrastructure, including the height, shape,

bulk or location of the works on the land, vehicular access to the land, vehicular and pedestrian circulation on the land, hours of operation of the use, landscaping on the land and ancillary uses of the land; and

- (b) other requirements designed to lessen the impacts of the works or the use of the land for community infrastructure, including procedures for environmental management.

203 How IDAS applies to designated land

Development under a designation is exempt development, to the extent the development is either, or both, of the following—

- (a) self-assessable development, development requiring compliance assessment or assessable development under a planning scheme;
- (b) reconfiguring a lot.

204 Relationship of designation to State Development and Public Works Organisation Act 1971

- (1) Subsection (2) applies if land in a declared State development area under the *State Development and Public Works Organisation Act 1971* is designated under this part.
- (2) Despite part 6, division 1 of that Act, development of the land in accordance with the designation—
 - (a) is taken to be development of the land in accordance with the approved development scheme for the land under that Act; and
 - (b) does not contravene section 84A or 84B of that Act.

205 How infrastructure charges apply to designated land

If a public sector entity that is a department or part of a department proposes or starts development under a

designation, the entity is not required to pay any adopted charge for the development.

206 How designations must be shown in planning schemes

- (1) If a local government designates land, or notes a designation of land by the Minister on its planning scheme, the designation or note must—
 - (a) identify the land; and
 - (b) state the type of community infrastructure for which the land was designated; and
 - (c) state the day the designation was made; and
 - (d) refer to any matters included as part of the designation under section 202; and
 - (e) be shown in the planning scheme in a way that other provisions in the planning scheme applying to the land remain effective even if the designation is repealed or ceases to have effect.
- (2) To remove any doubt, it is declared that—
 - (a) a designation is part of a planning scheme; and
 - (b) designation is not the only way community infrastructure may be identified in a planning scheme; and
 - (c) the provisions of a planning scheme, other than the provision that designates land, applying to designated land remain effective even if the designation is repealed or ceases to have effect.

Part 2 Ministerial designations

207 Matters the Minister must consider before designating land

- (1) Before designating land, the Minister must be satisfied that, for the development the subject of the proposed designation—
 - (a) adequate environmental assessment has been carried out; and
 - (b) in carrying out environmental assessment under paragraph (a), there was adequate public consultation; and
 - (c) adequate account has been taken of issues raised during the public consultation; and
 - (d) for land to which section 204 applies—adequate account has been taken of the approved development scheme mentioned in that section.
- (2) The Minister must also consider—
 - (a) every properly made submission under subsection (4); and
 - (b) for land to which a State planning regulatory provision applies—the provision; and
 - (c) for land in a designated region—the region’s regional plan; and
 - (d) each relevant State planning policy; and
 - (e) each relevant local planning instrument.
- (3) For subsection (1), there has been adequate environmental assessment and public consultation in carrying out environmental assessment if—
 - (a) the assessment and consultation has been carried out as required by guidelines made by the chief executive under section 760 for assessing the impacts of the development; or

- (b) the processes under chapter 6, part 4 and part 5, division 2, have been completed for a development application for the community infrastructure to which the designation relates; or
 - (c) the process under chapter 9, part 2, division 2, has been completed for an EIS for development for the community infrastructure; or
 - (d) public notification has been carried out for a planning scheme, or an amendment of a planning scheme, that includes the community infrastructure, under the guideline mentioned in section 117(1); or
 - (e) the Coordinator-General has, under the *State Development and Public Works Organisation Act 1971*—
 - (i) prepared a report under section 34D of that Act evaluating an EIS for, or including, development for the community infrastructure; or
 - (ii) prepared a report under section 34L of that Act evaluating an IAR for, or including, development for the community infrastructure and a draft of the IAR was publicly notified under section 34H or 34K(3) of that Act; or
 - (f) the process under the Environmental Protection Act, chapter 3, part 1 has been completed for an EIS for development for the community infrastructure.
- (4) However, if written notice of the proposed designation has not been given to each of the following entities about an action mentioned in subsection (3), the Minister must give written notice of the proposed designation to the entities inviting submissions about the proposed designation—
- (a) the owner of any land to which the proposed designation applies;
 - (b) each local government the Minister is satisfied the designation affects.

- (5) A notice given under subsection (4) must give the entities at least 15 business days to make a submission.

208 Procedures after designation

- (1) If the Minister designates land, the Minister must give a notice to—
- (a) each owner of the land; and
 - (b) each local government the Minister is satisfied the designation affects; and
 - (c) the chief executive.
- (2) The notice must state each of the following—
- (a) that the designation has been made;
 - (b) the description of the land;
 - (c) the type of community infrastructure for which the land has been designated;
 - (d) any matters mentioned in section 202 and included as part of the designation.
- (3) The Minister must also publish a gazette notice stating the matters mentioned in subsection (2)(a) to (c).

209 Procedures if designation does not proceed

If the Minister decides not to proceed with a proposed designation, the Minister must give a notice, stating that the designation will not proceed, to the persons mentioned in section 208(1)(a) and (b).

210 Effects of ministerial designations

A designation made under this part—

- (a) if the designation states that it replaces an existing designation—replaces the existing designation; and
- (b) has effect on and from—

- (i) the day the designation is notified in the gazette; or
- (ii) if a later day for the commencement of the designation is stated in the notice—the later day.

211 When local government must include designation in planning scheme

- (1) If a local government receives a notice from a Minister stating that the Minister has made a designation in or near its planning scheme area, the local government must note the designation on—
 - (a) its planning scheme (if any); and
 - (b) any new planning scheme it makes before the designation ceases to have effect.
- (2) The note is not an amendment of the planning scheme.

Part 3 Local government designations

212 Designation of land by local government

- (1) A local government may only designate land by using the process stated in the guideline mentioned in section 117(1) to include the designation as a substantive provision of its planning scheme.
- (2) Subsection (1) applies whether or not the local government owns the land.
- (3) However, land identified in an LGIP as land for community infrastructure is not designated land unless it is also specifically identified as designated land.

213 Designating land the local government does not own

- (1) This section applies if the local government proposes to designate land it does not own.
- (2) Before the start of the consultation period for making or amending a planning scheme intended to include the designation, the local government must give written notice of the proposed designation to the owner of the land.
- (3) The notice must state the following—
 - (a) the description of the land proposed to be designated, including a plan of the land;
 - (b) the type of community infrastructure for which the designation is proposed;
 - (c) the reasons for the designation;
 - (d) that written submissions about any aspect of the proposed designation may be given to the local government during the consultation period.

Part 4 Duration and reconfirmation of designations

214 Duration of designations

- (1) A designation ceases to have effect—
 - (a) if the designation is made by a Minister—6 years after notice of the designation was published in the gazette (the *designation cessation day*); or
 - (b) if the designation is made by a local government—6 years after the planning scheme or amendment that incorporated the designation took effect (also the *designation cessation day*).
- (2) If, after designating land but before the designation cessation day, a local government makes a new planning scheme and

includes an existing designation as a substantive provision of the new planning scheme—

- (a) the existing designation continues to have effect until its designation cessation day under subsection (1); and
- (b) section 213 does not apply to remaking the designation in the new planning scheme.

215 When designations do not cease

- (1) A designation does not cease to have effect on the designation cessation day if—
 - (a) on the designation cessation day, an entity other than a public sector entity or the local government owns, or has a public utility easement over, the designated land and construction of community infrastructure started before the designation cessation day; or
 - (b) on the designation cessation day, a public sector entity or the local government owns, or has a public utility easement, for the same purpose as the designation, over, the designated land; or
 - (c) before the designation cessation day, a public sector entity or the local government gave a notice of intention to resume the designated land under the Acquisition Act, section 7; or
 - (d) before the designation cessation day, a public sector entity or the local government signed an agreement to take under the Acquisition Act or to otherwise buy the designated land; or
 - (e) for a designation made by the Minister—before the designation cessation day, the Minister gave the local government written notice reconfirming the designation.
- (2) However, if a public sector entity or a local government discontinues proceedings to resume designated land, whether before or after the designation cessation day, the designation ceases to have effect the day the proceedings are discontinued.

- (3) To remove any doubt, it is declared that a designation of land or any notice given to an owner about a designation of land does not constitute a notice of intention to resume under the Acquisition Act, section 7.

216 Reconfirming designation

- (1) If the Minister gives a local government written notice under section 215(1)(e) reconfirming a designation—
- (a) the local government must display the notice in a conspicuous place in the local government's public office; and
 - (b) the Minister must—
 - (i) give the owner of the land a copy of the notice; and
 - (ii) publish the notice in the gazette; and
 - (c) the designation has effect for another 6 years after the notice is published in the gazette.
- (2) When a local government receives a notice from the Minister reconfirming a designation in or near its planning scheme area, the local government must again note the designation on—
- (a) its planning scheme (if any); and
 - (b) any new planning scheme it makes before the designation ceases to have effect.
- (3) The note is not an amendment of the planning scheme.
- (4) A reconfirmation of a designation is taken to be a designation to which sections 214 and 215 apply.

- (2) If the repeal is made by a local government and the land is owned by an entity other than the local government, the local government must give a copy of the notice to the owner.

220 When designation ceases to have effect

The designation ceases to have effect on the day the notice is published in the gazette.

221 Local government to note repeal on planning scheme

- (1) If a local government repeals a designation or receives a notice from the Minister advising that the Minister has repealed a designation, the local government must note the repeal on its planning scheme.
- (2) The note is not an amendment of the planning scheme.

Part 6 Acquiring designated land

222 Request to acquire designated land under hardship

- (1) Subsection (3) applies if the owner of an interest in designated land (the *designated interest*) is suffering hardship because of the designation.
- (2) However, subsection (3) does not apply if—
 - (a) the designated land is land—
 - (i) over which there is an existing public utility easement; or
 - (ii) for which a process has started under the Acquisition Act to acquire a public utility easement; and
 - (b) the designation is for community infrastructure for which the easement exists or is being acquired.

- (3) The owner may ask the designator to buy—
 - (a) the designated interest; or
 - (b) if the owner has an interest in land adjoining the designated land and retaining the interest without the designated interest would also cause the owner hardship—the designated interest and the interest in the land adjoining the designated land.

223 Decision about request

- (1) The designator must, within 40 business days after the request is received, decide to—
 - (a) grant the request; or
 - (b) take other action under section 226; or
 - (c) refuse the request.
- (2) In deciding whether or not the owner is suffering hardship, the designator must consider each of the following—
 - (a) whether the owner must sell an interest mentioned in section 222(3)(a) or (b) without delay for personal reasons, including to avoid loss of income, and has tried unsuccessfully to sell the interest at a fair market value (disregarding the designation);
 - (b) whether the owner has a genuine intent to develop the interest, but development approval has been, or is likely to be, refused because of the designation;
 - (c) the extent to which development would be viable because of the designation if the owner exercised rights conferred under any development approval.

224 Notice about grant of request

If the designator decides to grant the request, the designator must, within 5 business days after deciding the request, give the owner a notice stating the designator proposes to buy the nominated interest.

225 Notice about refusal of request

If the designator decides to refuse the request, the designator must, within 5 business days after deciding the request, give the owner a notice stating—

- (a) the request has been refused; and
- (b) the owner may appeal against the decision.

226 Alternative action designator may take

If the designator decides not to buy the nominated interest, the designator may, instead of taking action under section 225 and within 5 business days after deciding the request, give the owner a notice stating that the designator proposes to—

- (a) exchange the nominated interest for property held by the designator; or
- (b) repeal the designation or remove the designation from the designated interest; or
- (c) investigate the removal of the designation from the designated interest.

227 If the designator does not act under the notice

- (1) This section applies if the designator gave a notice under section 224 or 226 and, within 40 business days after giving the notice, the designator has not—
 - (a) signed an agreement with the owner to buy the nominated interest or to take the nominated interest under the Acquisition Act, part 2, division 3; or
 - (b) signed an agreement with the owner to exchange the nominated interest; or
 - (c) repealed the designation or removed the designation from the designated interest.
- (2) The designator must, within 5 business days after the end of the period mentioned in subsection (1), give the owner a notice of intention to resume the nominated interest.

- (3) The notice given under subsection (2) is taken to be a notice of intention to resume given under the Acquisition Act, section 7.
- (4) However, the Acquisition Act, sections 13 and 41, do not apply to the resumption.

228 How value of interest is decided

If an interest in designated land is taken under the Acquisition Act, the effect of the designation must be disregarded in deciding the value of the interest taken.

Part 7 Delegation of Minister's functions

229 Ministers may delegate particular administrative functions about designations

A Minister may delegate the Minister's functions under sections 208, 209 and 224 to 227 to—

- (a) the chief executive or a senior executive of any department for which the Minister has responsibility; or
- (b) the chief executive officer of a public sector entity.

Chapter 6 Integrated development assessment system (IDAS)

Part 1 Preliminary

Division 1 Introduction

230 What is IDAS

IDAS is the system detailed in this chapter for integrating State and local government assessment and approval processes for development.

231 Categories of development under Act

- (1) The categories of development under this Act are as follows—
 - (a) exempt development;
 - (b) self-assessable development;
 - (c) development requiring compliance assessment;
 - (d) assessable development;
 - (e) prohibited development.
- (2) Under this Act, all development is exempt development unless it is—
 - (a) self-assessable development; or
 - (b) development requiring compliance assessment; or
 - (c) assessable development; or
 - (d) prohibited development.

232 Regulation may prescribe categories of development or require code or impact assessment

- (1) A regulation may prescribe that development is—
 - (a) self-assessable development; or
 - (b) development requiring compliance assessment; or
 - (c) assessable development.

Note—

See section 397(3) for matters a regulation under subsection (1)(b) must state.

- (2) Also, a regulation may prescribe development that a planning scheme, a temporary local planning instrument or a preliminary approval to which section 242 applies can not declare to be self-assessable development, development requiring compliance assessment, assessable development or prohibited development.
- (3) In addition, a regulation may require code or impact assessment, or both code and impact assessment, for assessable development.

Note—

Under this Act, the following also may state that development is self-assessable development, development requiring compliance assessment or assessable development requiring code or impact assessment, or both code and impact assessment—

- (a) a State planning regulatory provision;
- (b) a temporary local planning instrument;
- (c) a preliminary approval to which section 242 applies;
- (d) a planning scheme.

233 Relationship between regulation and planning scheme, temporary local planning instrument or local law

- (1) To the extent a planning scheme or temporary local planning instrument is inconsistent with a regulation made under section 232(1) or (2), the planning scheme or temporary local planning instrument is of no effect.

- (2) However, to the extent a planning scheme or temporary local planning instrument is inconsistent with a regulation made under section 232(1) because the planning scheme or temporary local planning instrument states development is self-assessable but the regulation states the development is assessable—
 - (a) codes in the planning scheme or temporary local planning instrument for the development are not applicable codes; but
 - (b) must be complied with.
- (3) If a regulation requires code assessment for development, a planning scheme or temporary local planning instrument can not require impact assessment instead of code assessment for the aspect of development the code is about.
- (4) To the extent a planning scheme or temporary local planning instrument is inconsistent with a regulation mentioned in section 232(3), for assessable development, the planning scheme or temporary local planning instrument is of no effect.
- (5) Subsections (3) and (4) apply whether the regulation was made before or after the commencement of the planning scheme or temporary local planning instrument.
- (6) A regulation under this or another Act may also identify a code, or a part of a code, as a code, or a part of a code, that can not be changed under a local planning instrument or a local law.
- (7) To the extent a local planning instrument or a local law is inconsistent with the scope of a code, or a part of a code, identified in the regulation mentioned in subsection (6), the local planning instrument or local law is of no effect.

234 Relationship between sch 1 and planning instruments

To the extent a planning instrument purports to provide for any matter about development that is prohibited development under schedule 1, the planning instrument is of no effect.

Division 2 **Particular provisions about categories of development**

235 Exempt development

- (1) A development permit is not necessary for exempt development.
- (2) Also, exempt development need not comply with planning instruments, other than a State planning regulatory provision.
- (3) Nothing in subsection (2) stops a planning instrument, a development approval or compliance permit affecting exempt development if—
 - (a) the development is the natural and ordinary consequence of another aspect of development that is self-assessable development, development requiring compliance assessment or assessable development; and
 - (b) the effect mitigates impacts of the self-assessable development, development requiring compliance assessment or assessable development.

Example for subsection (3)—

A development approval for a material change of use may include conditions, including, for example, conditions about landscaping, parking or buildings that are the natural and ordinary consequence of the material change of use if the conditions would mitigate impacts, including, for example, visual amenity, noise or traffic generation, of the material change of use.

236 Self-assessable development

- (1) A development permit is not necessary for self-assessable development.
- (2) However, self-assessable development must comply with applicable codes.

Note—

It is an offence to carry out self-assessable development in contravention of applicable codes. See section 574 (Self-assessable development must comply with codes).

237 Development requiring compliance assessment

- (1) A development permit is not necessary for development requiring compliance assessment.
- (2) A compliance permit is necessary for development requiring compliance assessment.

Note—

It is an offence to carry out development requiring compliance assessment without a compliance permit. See section 575 (Carrying out development without compliance permit).

238 Assessable development

A development permit is necessary for assessable development.

Note—

It is an offence to carry out assessable development without a development permit. See section 578 (Carrying out assessable development without permit).

239 Prohibited development

- (1) An application or request for compliance assessment can not be made for development if the development is prohibited development.
- (2) If an application or request for compliance assessment is made and any part of the development applied for is prohibited development, the application or request is taken not to have been made and IDAS does not apply to it.

Note—

It is an offence to carry out development that is prohibited development. See section 581 (Offence to carry out prohibited development).

Division 3 Approvals for IDAS

Subdivision 1 Preliminary

240 Types of approval

The types of approval under this Act for IDAS are—

- (a) a preliminary approval; and
- (b) a development permit; and
- (c) a compliance permit; and
- (d) a compliance certificate.

Note—

See part 10 (Compliance stage) for provisions about compliance permits and compliance certificates.

Subdivision 2 Preliminary approvals

241 Preliminary approvals

- (1) *A preliminary approval—*
 - (a) approves development, but does not authorise assessable development to take place; and
 - (b) approves development—
 - (i) to the extent stated in the approval; and
 - (ii) subject to the conditions of the approval.
- (2) However, there is no requirement to get a preliminary approval for development.

Note—

See also section 245A.

242 Preliminary approval may affect a local planning instrument

- (1) This section applies if—
 - (a) an applicant applies for a preliminary approval; and
 - (b) part of the application states the way in which the applicant seeks the approval to vary the effect of any local planning instrument for the land.
- (2) Subsection (3) applies to the extent the application is for—
 - (a) development that is a material change of use; and
 - (b) the part mentioned in subsection (1)(b).
- (3) If the preliminary approval approves the material change of use, the preliminary approval may, in addition to the things an approval may do under part 5, do either or both of the following for the material change of use or development relating to the material change of use—
 - (a) state that the development is—
 - (i) exempt development; or
 - (ii) self-assessable development; or
 - (iii) development requiring compliance assessment; or
 - (iv) assessable development requiring code or impact assessment, or both code and impact assessment;
 - (b) identify or include codes for the development.

Note—

For other things that a preliminary approval to which this section applies may do, see part 10 (Compliance stage).

- (4) Subsection (5) applies to the extent the application is for—
 - (a) development other than a material change of use; and
 - (b) the part mentioned in subsection (1)(b).
- (5) If the preliminary approval approves the development, the preliminary approval may, in addition to the things an approval may do under part 5, do either or both of the following for the development—

- (a) state that the development is—
 - (i) exempt development; or
 - (ii) self-assessable development; or
 - (iii) development requiring compliance assessment; or
 - (iv) assessable development requiring code or impact assessment, or both code and impact assessment;
 - (b) identify or include codes for the development.
- (6) To the extent the preliminary approval, by doing either or both of the things mentioned in subsection (3) or (5), is different from the local planning instrument, the approval prevails.
- (7) However, subsection (3) or (5) no longer applies to development mentioned in subsection (3)(a) or (5)(a) when the first of the following happens—
- (a) the development approved by the preliminary approval and authorised by a later development permit or compliance permit is completed;
 - (b) the time limit for completing the development ends.

Note—

For the time limit for completing development, see section 343 (When approval lapses if development started but not completed—preliminary approval).

- (8) To the extent the preliminary approval is inconsistent with a regulation made under section 232(1), (2) or (3), the preliminary approval is of no effect.

Subdivision 3 Development permits

243 Development permits

A *development permit* authorises assessable development to take place—

- (a) to the extent stated in the permit; and
- (b) subject to—

-
- (i) the conditions of the permit; and
 - (ii) any preliminary approval relating to the development the permit authorises, including any conditions of the preliminary approval.

Note—

See also section 245A.

Subdivision 4 Other matters about development approvals

244 Development approval includes conditions

A development approval includes any conditions—

- (a) imposed by the assessment manager; and
- (b) that a concurrence agency has given in a response under section 285 or 290, or an amended response under section 290; and
- (c) that the Minister has directed the assessment manager to attach to the approval under section 419; and
- (d) that under another Act must be imposed on, or that apply to, the development approval.

Example for paragraph (d)—

The conditions taken to be imposed under the Building Act, chapter 4, part 5, division 1.

245 Development approval attaches to land

- (1) A development approval—
 - (a) attaches to the land the subject of the application to which the approval relates; and
 - (b) binds the owner, the owner's successors in title and any occupier of the land.

- (2) To remove any doubt, it is declared that subsection (1) applies even if later development, including reconfiguring a lot, is approved for the land or the land as reconfigured.

245A Development permits for building work given by private certifiers

- (1) This section applies to a development application for a development permit that—
 - (a) is for building work; and
 - (b) is made to a private certifier as assessment manager.
- (2) Subsection (3) applies to the development application if any part of the building work requires impact assessment.
- (3) A development permit given by the private certifier for the building work does not authorise the carrying out of the part requiring impact assessment, unless a relevant preliminary approval is in effect for the part.
- (4) Subsection (5) applies to the development application if—
 - (a) any part of the building work must be assessed against a matter that is not a building assessment provision; and
 - (b) the matter is not within the jurisdiction of a referral agency.
- (5) A development permit given by the private certifier for the building work does not authorise the carrying out of the part requiring assessment against the matter, unless a relevant preliminary approval is in effect for the part.
- (6) This section applies despite sections 241(2) and 243.
- (7) In this section—

relevant preliminary approval means a preliminary approval given by an entity other than a private certifier.

Division 4 Assessment managers and referral agencies

Subdivision 1 Assessment managers

246 Who is the assessment manager

- (1) The *assessment manager* for an application is the entity prescribed under a regulation as the assessment manager for the application.
- (2) Without limiting subsection (1), the regulation may state that the assessment manager for an application is the entity decided by the Minister.
- (3) If, under the regulation, the assessment manager is to be decided by the Minister, the Minister may instead require the application to be split into 2 or more applications.

247 Role of assessment manager

The assessment manager for an application administers and decides the application, but may not always assess all aspects of development for the application.

Note—

See section 312 (When assessment manager must not assess part of an application).

248 Jurisdiction of local government as assessment manager for particular development

If a local government is the assessment manager for development not completely within the local government's planning scheme area—

- (a) sections 246(1) and 247 apply despite the Local Government Act, section 9 and the City of Brisbane Act, section 11; and

- (b) to the extent the application is for development for prescribed tidal work, the local government has the jurisdiction to assess the application in addition to any other jurisdiction it may have for assessing the application.

249 When assessment manager also has jurisdiction as concurrence agency

- (1) If an entity is the assessment manager and has 1 or more jurisdictions as a concurrence agency, whether or not the jurisdiction has been devolved or delegated to the entity—
 - (a) the entity is not a concurrence agency; but
 - (b) the entity's jurisdiction as assessment manager includes each jurisdiction the entity would have had as a concurrence agency.
- (2) Despite subsection (1)(a), the entity's fee under section 260(1)(d) for a development application is taken to include the fee that would have been payable under section 272(1)(c) for the application if the entity were a concurrence agency for the application.

Subdivision 2 Referral agencies

250 Who is an *advice agency*

An *advice agency*, for an application, is—

- (a) an entity prescribed under a regulation as an advice agency for the application; or
- (b) if the functions of the entity in relation to the application have been devolved or delegated to another entity—the other entity.

251 Who is a *concurrence agency*

A *concurrence agency*, for an application, is—

- (a) an entity prescribed under a regulation as a concurrence agency for the application; or
- (b) if the functions of the entity in relation to the application have been devolved or delegated to another entity—the other entity.

252 Who is a *referral agency*

A *referral agency* is an advice agency or a concurrence agency.

254 Jurisdiction of referral agencies for applications—generally

- (1) A referral agency has, for assessing and responding to the part of an application giving rise to the referral, the jurisdiction or jurisdictions prescribed under a regulation.
- (2) If 2 or more entities prescribed as referral agencies are the same entity (however called), the entities are taken to be a single referral agency with multiple jurisdictions.

255 Concurrence agencies if Minister decides assessment manager

- (1) This section applies if—
 - (a) the assessment manager for an application is decided by the Minister; and
 - (b) the Minister is satisfied 1 or more other entities, that are not concurrence agencies for the application, could have been the assessment manager for the application.
- (2) The Minister may state that 1 or more of the entities are to be a concurrence agency for the application.
- (3) An entity that becomes a concurrence agency under subsection (2) has the jurisdiction it would have had if it were the assessment manager.

Subdivision 2A Chief executive assessing particular applications as assessment manager or referral agency

255A Application requiring code assessment

- (1) This section applies if—
 - (a) the chief executive is the assessment manager for an application; and
 - (b) any part of the application requires code assessment.
- (2) For assessing the part of the application—
 - (a) section 313(2)(c), (4) and (5) does not apply; and
 - (b) the chief executive may have regard, and give the weight the chief executive is satisfied is appropriate, to the matters prescribed under a regulation.

255B Application requiring impact assessment

- (1) This section applies if—
 - (a) the chief executive is the assessment manager for an application; and
 - (b) any part of the application requires impact assessment.
- (2) For assessing the part of the application—
 - (a) section 314(2)(c) does not apply; and
 - (b) the chief executive may have regard, and give the weight the chief executive is satisfied is appropriate, to the matters prescribed under a regulation.

255C Chief executive assessing application as a referral agency

- (1) This section applies if the chief executive is assessing an application as a referral agency.

- (2) For assessing the application—
 - (a) section 282(1)(c) and (e) does not apply; and
 - (b) the chief executive may have regard, and give the weight the chief executive is satisfied is appropriate, to the matters prescribed under a regulation.

255D Chief executive imposes conditions or recommends conditions be imposed on development approval

- (1) Subsection (3) applies if the chief executive—
 - (a) is the assessment manager for an application and imposes a condition on the development approval; or
 - (b) is a concurrence agency for an application and, in a concurrence agency's response given under section 285 or 290 or in an amended response given under section 290, tells the assessment manager that a condition must attach to the development approval; or
 - (c) is an advice agency for an application and, in an advice agency's response given under section 291, makes a recommendation to the assessment manager about a condition that should attach to the development approval, and the assessment manager imposes the condition.
- (2) Subsection (3) also applies if—
 - (a) the chief executive is a referral agency for a matter within the referral agency's jurisdiction about a development; and
 - (b) the chief executive gives a referral agency's response under section 271 before an application for the development is made that—
 - (i) if the chief executive is a concurrence agency—tells the assessment manager that a condition must attach to any development approval for the application; or

[s 255E]

- (ii) if the chief executive is an advice agency—makes a recommendation to the assessment manager about a condition that should attach to any development approval and the assessment manager imposes the condition on a development approval for the application; and
 - (c) the functions of the chief executive as a referral agency in relation to the application are lawfully devolved or delegated to the assessment manager.
- (3) The chief executive may nominate an entity to be the assessing authority for the development to which the development approval relates for the administration and enforcement of a matter relating to the condition.
- (4) If the chief executive nominates an entity under subsection (3), the chief executive must give the entity a written notice to that effect.

255E Relationship with other Acts

- (1) This section applies to an application if—
- (a) the chief executive is the assessment manager or a referral agency for the application; and
 - (b) had the application been made before the commencement of this section, an entity (a *relevant entity*) other than the local government would have been the assessment manager, or the referral agency, for the application; and
 - (c) another Act imposes requirements on the relevant entity assessing the application as the assessment manager or referral agency.
- (2) If there is an inconsistency between this subdivision and the other Act, this subdivision prevails to the extent of the inconsistency.
- (3) Subsection (2) applies despite express words or an implied intention to the contrary in the other Act.

-
- (4) Without limiting subsections (2) and (3)—
- (a) a provision of the other Act stating that matters referred to in that Act to which the relevant entity in assessing the application must or may have regard does not apply to the chief executive in assessing the application; and
 - (b) for assessing the application, the chief executive may under section 255A(2)(b), 255B(2)(b) or 255C(2)(b) have regard, and give the weight the chief executive considers appropriate, to the matters prescribed under a regulation for that section, despite any provision in the other Act that states the relevant entity must or may have regard to other particular matters.
- (5) Subsection (6) applies if, under the other Act, a function is conferred on the relevant entity for assessing a matter as the assessment manager or a referral agency for the application.
- (6) For assessing the matter—
- (a) the function is conferred on the chief executive; and
 - (b) the chief executive may, but is not required to, have regard to the other Act's purpose.
- (7) If a provision of the other Act states that the relevant entity may impose particular conditions on any development approval for the application—
- (a) the provision does not apply to the chief executive for imposing conditions on the development approval; but
 - (b) any condition the chief executive imposes on the development approval must comply with section 345.
- (8) If a provision of the other Act states that the relevant entity would be, or would be taken to be, the assessment manager or a referral agency for assessing a matter for the application, the chief executive is, or is taken to be, the assessment manager or the referral agency for assessing the matter.
- (9) Subsection (10) applies if a provision of the other Act (a *stated provision*) requires the applicant to give the relevant entity a document relating to the application.

[s 256]

- (10) Despite the stated provision, the applicant must give the chief executive the document.
- (11) Subsection (12) applies if, under the other Act, a function is conferred—
 - (a) on the relevant entity as the assessment manager or a referral agency for the application; and
 - (b) for an investigative or enforcement purpose.
- (12) For the purpose, the relevant entity is taken to be the assessment manager or a referral agency for the application.
- (13) This section does not apply to the *Airport Assets (Restructuring and Disposal) Act 2008*, chapter 3, part 2 or the *Sustainable Ports Development Act 2015*.
- (14) In this section—

application includes part of an application.

assessing, an application or a matter, includes deciding the application or the matter.

function includes power.

must have regard to includes must comply with.

Subdivision 3 Additional third party advice or comment about applications

256 Assessment manager or concurrence agency may seek advice or comment about application

- (1) The assessment manager or a concurrence agency for an application may ask any person for advice or comment about the application at any stage of IDAS, other than the compliance stage.
- (2) There is no particular way advice or comment may be asked for and received and the request may be by publicly notifying the application.
- (3) To remove any doubt, it is declared that—

- (a) asking for and receiving advice or comment does not extend any stage; and
- (b) public notification under subsection (2) is not notification under part 4, division 2.

Division 5 Stages of IDAS

257 Stages of IDAS

- (1) IDAS involves the following possible stages—
 - application stage
 - information and referral stage
 - notification stage
 - decision stage
 - compliance stage.
- (2) Not all stages, or all parts of a stage, apply to all applications.

Example—

An application for development approval for a factory requiring code assessment and a referral for workplace health and safety purposes involves 3 stages—the application, information and referral and decision stages.

- (3) For development requiring compliance assessment only, the compliance stage is the only stage that applies to the development.

Division 6 Giving notices electronically

259 Giving notices using e-IDAS

- (1) This section applies if, under the application stage, information and referral stage, notification stage or decision stage of IDAS, an entity (the *first entity*) is required to give another entity a notice in writing about an application made using e-IDAS.

- (2) The first entity may comply with the requirement by electronically sending to the other entity, using e-IDAS, the information required to be given in the notice.

Part 2 Application stage

Division 1 Application process

Subdivision 1 Applying for development approvals

260 Applying for development approval

- (1) Each application must—
- (a) be made to the assessment manager; and
 - (b) be in the approved form or made electronically under section 262(3); and
 - (c) be accompanied by any supporting information the approved form states is mandatory supporting information for the application; and
 - (d) be accompanied by—
 - (i) if the assessment manager is a local government—the fee for administering the application fixed by resolution of the local government; or
 - (ii) if the assessment manager is another public sector entity—the fee prescribed under a regulation under this or another Act; and

Note—

See also section 249(2).

-
- (e) if, under section 263, the consent of the owner of the land the subject of the application is required for the making of the application—
 - (i) contain or be accompanied by the owner’s written consent; or
 - (ii) include a declaration by the applicant that the owner has given written consent to the making of the application.

Note—

A single application may be made for both a preliminary approval and a development permit.

- (2) The approved form—
 - (a) must contain a mandatory requirements part; and
 - (b) may make provision for mandatory supporting information for the application.
- (3) In making an application, the applicant must give the information required under the mandatory requirements part of the approved form.

261 When application is a *properly made application*

- (1) An application is a *properly made application* only if—
 - (a) either—
 - (i) the application complies with section 260(1) and (3); or
 - (ii) the assessment manager for the application—
 - (A) is satisfied the application complies with section 260(1)(a), (b), (d) and (e) and (3); and
 - (B) receives and, after considering any noncompliance with section 260(1)(c), accepts the application; and
 - (b) if the application is taken, under the Environmental Protection Act, section 115, to also be an application for

an environmental authority—the application complies with the Environmental Protection Act, section 125, as if a reference to—

- (i) the application were a reference to the development application; and
 - (ii) the applicant were a reference to the applicant for the development application.
- (2) Despite subsection (1)(b), the Environmental Protection Act, section 125(1)(a) and (b) does not apply to the application.

262 Special provision about electronic applications

- (1) The chief executive may approve an electronic system to send and receive electronic communications for carrying out actions involved in IDAS.
- (2) The electronic system approved by the chief executive under subsection (1) is called *e-IDAS*.
- (3) If an applicant can use e-IDAS for making an application—
 - (a) the application may be made by electronically sending to the assessment manager, using e-IDAS, the information required in the approved form for the application in the format provided for under e-IDAS; and
 - (b) electronic communications for carrying out actions involved in IDAS may be made using e-IDAS.
- (4) Subsection (5) applies if—
 - (a) an applicant uses e-IDAS for making an application; and
 - (b) an action required to be taken under IDAS for the application has not been taken by the end of the last day for taking the action; and
 - (c) e-IDAS does not operate for any period on the last day.
- (5) The person required to take the action may extend the period for taking the action under IDAS by not more than 2 business

days after the end of the day on which e-IDAS begins to operate again by—

- (a) taking the action within 2 business days after the end of that day; and
 - (b) giving each other party to the application written notice of the extension at the same time as the action is taken using e-IDAS.
- (6) If a person acts under subsection (5), the period for taking the action under IDAS is extended until the time the action is taken using e-IDAS and the notice is given.
- (7) In this section—

party, to an application, means each of the following—

- (a) the applicant;
- (b) the assessment manager;
- (c) any referral agency to which the action required to be taken relates.

263 When owner's consent is required for application

- (1) The consent of the owner of the land the subject of an application is required for its making if the application is for—
- (a) a material change of use of premises or reconfiguring a lot; or
 - (b) work on land below high-water mark and outside a canal as defined under the *Coastal Protection and Management Act 1995*; or
 - (c) work on rail corridor land as defined under the Transport Infrastructure Act.
- (2) Despite subsection (1)—
- (a) to the extent the land the subject of the application has the benefit of an easement, and the development is not inconsistent with the terms of the easement, the consent

[s 265]

of the owner of the servient tenement is not required;
and

- (b) the consent of the owner of the land is not required to the extent—
 - (i) the land the subject of the application is acquisition land; and
 - (ii) the application relates to the purpose for which the land is to be taken or acquired.

265 Approved material change of use required for particular developments

- (1) This section applies if, at the time an application for a development permit is made—
 - (a) a structure or works, the subject of the application, may not be used unless a development permit exists for the material change of use of premises for which the structure is, or works are, proposed; and
 - (b) there is no development permit for the change of use; and
 - (c) approval for the material change of use has not been applied for in the application or a separate application.
- (2) The application is taken also to be for the change of use.

Subdivision 2 Notices about receipt of applications

266 Notice about application that is not a properly made application

- (1) If the application is not a properly made application, the assessment manager must give the applicant a notice stating—
 - (a) that the application is not a properly made application; and

-
- (b) the reasons the assessment manager is satisfied the application is not a properly made application; and
 - (c) the action the assessment manager is satisfied the applicant must take for the application to comply with section 261.
- (2) The assessment manager must give the applicant the notice within 10 business days after the assessment manager receives the application.
- (3) If the applicant does not take the action mentioned in subsection (1)(c) within 20 business days after receiving the notice, or the further period agreed between the assessment manager and the applicant—
- (a) the application lapses; and
 - (b) the assessment manager must as soon as practicable—
 - (i) return the application to the applicant, other than any part of the application made electronically; and
 - (ii) refund to the applicant the fee mentioned in section 260(1)(d) that accompanied the application, less a reasonable fee, if any, decided by the assessment manager for processing the application.

267 Notice about properly made application

- (1) This section applies if the application is a properly made application.
- (2) The assessment manager must give the applicant a notice (the *acknowledgement notice*) unless—
- (a) the application relates to development that requires code assessment only; and
 - (b) there are no referral agencies, or all referral agencies have stated in writing that they do not require the application to be referred to them under the information and referral stage.

- (3) The acknowledgement notice must be given to the applicant within 10 business days after the assessment manager receives the properly made application (the *acknowledgement period*).

268 Content of acknowledgement notice

The acknowledgement notice must state the following—

- (a) the type of approval applied for;
- (b) which of the following aspects of development the application seeks a development approval for—
 - (i) carrying out building work;
 - (ii) carrying out plumbing or drainage work;
 - (iii) carrying out operational work;
 - (iv) reconfiguring a lot;
 - (v) making a material change of use of premises;
- (c) whether an aspect of the development applied for requires code assessment, and if so, the names of all the codes the assessment manager considers to be applicable codes for the development;
- (d) whether an aspect of the development applied for requires impact assessment, and if so, the public notification requirements;
- (e) the name and address of each referral agency for the application, and whether the referral agency is an advice or concurrence agency;
- (f) if the assessment manager does not intend to make an information request under section 276—the assessment manager does not intend to make an information request;
- (g) if there are referral agencies for the application—the application will lapse unless the applicant gives to each referral agency the referral agency material within the period mentioned in section 272(2).

Division 2 End of application stage

269 When does application stage end

The application stage for a properly made application ends—

- (a) if the application is an application that requires an acknowledgement notice to be given—the day the acknowledgement notice is given; or
- (b) if the application is an application that does not require an acknowledgement notice to be given—the day the properly made application was received.

Part 3 Information and referral stage

Division 1 Preliminary

270 Purpose of information and referral stage

The information and referral stage for an application—

- (a) gives the assessment manager and any concurrence agencies the opportunity to ask the applicant for further information needed to assess the application; and
- (b) gives concurrence agencies the opportunity to exercise their concurrence powers; and
- (c) gives the assessment manager the opportunity to receive advice about the application from referral agencies.

271 Referral agency responses before application is made

- (1) Nothing in this Act stops a referral agency from giving a referral agency's response on a matter within its jurisdiction about a development before an application for the development is made to the assessment manager.

[s 272]

- (2) However, a referral agency is not obliged to give a referral agency's response mentioned in subsection (1) before the application is made.
- (3) If a concurrence agency gives a referral agency's response before an application for the development is made to the assessment manager, the applicant must, if asked by the concurrence agency, give the concurrence agency the agency's application fee mentioned in section 272(1)(c).

Division 2 Giving material to referral agencies

272 Applicant gives material to referral agency

- (1) The applicant must give each referral agency the following things (the *referral agency material*)—
 - (a) a copy of the application, unless the referral agency already has a copy;
 - (b) a copy of the acknowledgement notice, unless the referral agency was the entity that gave the notice;
 - (c) if the referral agency is a concurrence agency—
 - (i) generally—the agency's application fee prescribed under a regulation under this or another Act; or
 - (ii) if the functions of the concurrence agency in relation to the application have been devolved or delegated to a local government, the fee that is, by resolution, adopted by the local government.
- (2) The referral agency material must be given to all referral agencies within—
 - (a) 20 business days after the applicant receives the acknowledgement notice; or
 - (b) the further period agreed between the assessment manager and the applicant.
- (3) However, the applicant need not give a referral agency the referral agency material if—

-
- (a) the applicant gave the assessment manager a copy of the referral agency's response mentioned in section 271(1) with the application; and
 - (b) the referral agency's response states that—
 - (i) the agency does not require a referral under this section; or
 - (ii) the agency does not require a referral under this section if any conditions, including a time limit within which the application must be made, stated in the response are satisfied; and
 - (c) any conditions mentioned in paragraph (b)(ii) are satisfied.
- (4) The assessment manager may, if asked by the applicant, give the referral agency material to a referral agency on behalf of the applicant for a fee, not more than the assessment manager's reasonable costs of giving the material.
- (5) To the extent the functions of a referral agency in relation to the application have been lawfully devolved or delegated to the assessment manager, subsections (1) to (4), other than subsection (1)(c), do not apply.

273 Lapsing of application if material not given

- (1) The application lapses if the applicant does not comply with section 272.
- (2) However, if the application is revived under section 274(1), the application lapses if the applicant does not comply with section 274(2).

274 When application taken not to have lapsed

- (1) An application that, other than for this section, would lapse under section 273(1) is revived if, within 5 business days after the application would otherwise have lapsed, the applicant gives the assessment manager written notice that the applicant seeks to revive the application.

[s 275]

- (2) If the application is revived under subsection (1), the applicant must comply with section 272 before the end of—
 - (a) 5 business days after giving the notice mentioned in subsection (1); or
 - (b) the further period agreed between the assessment manager and the applicant.
- (3) If the application is revived under subsection (1), for the purpose of the IDAS process the application is taken not to have lapsed under section 273(1).

275 Applicant to advise assessment manager when material given

- (1) After complying with section 272, the applicant must give the assessment manager written notice of the day the applicant gave each referral agency the referral agency material.
- (2) To the extent the functions of a referral agency in relation to the application have been lawfully devolved or delegated to the assessment manager, subsection (1) does not apply.

Division 3 Information requests

276 Information request to applicant

- (1) The assessment manager and each concurrence agency may ask the applicant, by written request (an *information request*), to give further information needed to assess the application.
- (2) A concurrence agency may only ask for information about a matter that is within its jurisdiction.
- (3) An information request must state that the application will lapse unless the applicant gives the assessment manager or concurrence agency a response under section 278.
- (4) If the assessment manager makes the request, the request must be made—

-
- (a) for an application requiring an acknowledgement notice to be given—within 10 business days after giving the acknowledgement notice (the *information request period*); and
 - (b) for an application that does not require an acknowledgement notice to be given—within 10 business days after the day the properly made application was received (also the *information request period*).
- (5) If a concurrence agency makes the request—
- (a) the request must be made within 10 business days after the agency's referral day (also the *information request period*); and
 - (b) the concurrence agency must—
 - (i) give the assessment manager a copy of the request; and
 - (ii) advise the assessment manager of the day the request was made.
- (6) Without limiting subsection (1), an assessment manager or concurrence agency may, within the limits of their jurisdiction, include in an information request advice to the applicant about how the applicant may change the application.

277 Extending information request period

- (1) The assessment manager or a concurrence agency may, by written notice given to the applicant and without the applicant's agreement, extend the information request period by not more than 10 business days.
- (2) Only 1 notice may be given by each entity under subsection (1) and the notice must be given before the entity's information request period ends.
- (3) The information request period may be further extended if the applicant, at any time, gives written agreement to the extension.

- (4) If the information request period is extended for a concurrence agency, the concurrence agency must advise the assessment manager of the extension.

278 Applicant responds to any information request

- (1) If the applicant receives an information request from the assessment manager or a concurrence agency (the *requesting authority*), the applicant must respond by giving the requesting authority—
 - (a) all of the information requested; or
 - (b) part of the information requested together with a written notice asking the requesting authority to proceed with the assessment of the application; or
 - (c) a written notice—
 - (i) stating that the applicant does not intend to supply any of the information requested; and
 - (ii) asking the requesting authority to proceed with the assessment of the application.
- (2) If the requesting authority is a concurrence agency, the applicant must also give a copy of the applicant's response to the assessment manager.

279 Lapsing of application if no response to information request

- (1) The application lapses if the applicant does not comply with section 278 within—
 - (a) for an application required by an enforcement notice or in response to a show cause notice—3 months after receiving the information request (the *response period*) or the further period agreed between the applicant and the entity making the information request; or
 - (b) for any other application—6 months after receiving the information request (also the *response period*) or the

further period agreed between the applicant and the entity making the information request.

- (2) However, if the application is revived under section 280(1), the application lapses if the applicant does not comply with section 280(2).
- (3) Subsection (4) applies if—
 - (a) the applicant asks the entity making the information request to agree to extend the response period; and
 - (b) the entity does not respond to the request until 5 business days before the response period ends, or later; and
 - (c) the entity does not agree to the extension.
- (4) The response period does not end until 10 business days after the response, advising that the entity does not agree to the extension, is received.
- (5) The entity making the information request must not unreasonably refuse to extend the response period.

280 When application taken not to have lapsed

- (1) An application that, other than for this section, would lapse under section 279(1) is revived if, within 5 business days after the application would otherwise have lapsed, the applicant gives the assessment manager and the concurrence agency that made the information request written notice that the applicant seeks to revive the application.
- (2) If an application is revived under subsection (1), the applicant must comply with section 278 before the end of—
 - (a) 5 business days after giving the notice mentioned in subsection (1); or
 - (b) the further period agreed between the assessment manager and the applicant.

- (3) If the application is revived under subsection (1), for the purpose of the IDAS process the application is taken not to have lapsed under section 279(1).

281 Referral agency to advise assessment manager of response

Each referral agency must, after receiving the applicant's response, advise the assessment manager of the day of the applicant's response under section 278.

Division 4 Referral agency assessment

Subdivision 1 Assessment generally

282 Referral agency assesses application

- (1) Each referral agency must, to the extent relevant to the development and within the limits of its jurisdiction, assess the application against each of the following—
- (a) the State planning regulatory provisions applied by the referral agency;
 - (b) the regional plan for a designated region, to the extent it is not identified in the planning scheme as being appropriately reflected in the planning scheme;
 - (c) for a concurrence agency—any applicable concurrence agency codes that are identified as a code for IDAS in this or another Act;
 - (d) State planning policies applied by the referral agency, to the extent the policies are not identified in—
 - (i) any relevant regional plan as being appropriately reflected in the regional plan; or
 - (ii) the planning scheme as being appropriately reflected in the planning scheme;

-
- (e) the laws that are administered by, and the policies that are reasonably identifiable as policies applied by, the referral agency.

Note—

However, if the chief executive is a referral agency for the application, see section 255C.

- (2) Also, each referral agency must, to the extent relevant to the development and within the limits of its jurisdiction, assess the application having regard to each of the following—
 - (a) the State planning regulatory provisions not applied by the referral agency;
 - (b) State planning policies not applied by the referral agency, to the extent the policies are not identified in—
 - (i) any relevant regional plan as being appropriately reflected in the regional plan; or
 - (ii) the planning scheme as being appropriately reflected in the planning scheme;
 - (c) a temporary local planning instrument for the planning scheme area;
 - (d) the planning scheme;
 - (e) if the land to which the application relates is designated land—its designation;
 - (f) to the extent the referral agency’s jurisdiction involves the assessment of the cost impacts of supplying infrastructure for development under chapter 8, part 2, division 2, subdivision 2 or part 3—any relevant charges resolution.
- (3) Despite subsections (1) and (2) a referral agency—
 - (a) may give the weight it considers appropriate to any planning instruments, laws, policies, codes and resolutions, of the type mentioned in subsection (1) or (2), coming into effect after the application was made, but before the agency’s referral day; but

- (b) must disregard any planning scheme or temporary local planning instrument for the planning scheme area if the referral agency's jurisdiction is limited to considering the effect of the building assessment provisions on building work.

283 Referral agency's assessment period

- (1) The period a referral agency has to assess the application (the *referral agency's assessment period*) is—
 - (a) the number of business days, starting on the day immediately after the agency's referral day and being less than 30 business days, prescribed under a regulation; or
 - (b) if there is no regulation under paragraph (a)—30 business days, starting on the day after the agency's referral day.
- (2) A referral agency's assessment period includes the information request period.
- (3) The referral agency's assessment period mentioned in subsection (1) applies even if there is no information request period for the application because an EIS is required.
- (4) The referral agency's assessment period does not include—
 - (a) any extension for giving an information request; or
 - (b) any period in which the agency is waiting for a response to an information request.

284 Extending referral agency's assessment period

- (1) A concurrence agency may, by written notice given to the applicant and without the applicant's agreement, extend its referral agency's assessment period by not more than—
 - (a) if a regulation under section 283(1)(a) has prescribed the referral agency's assessment period—the number of business days, being less than 20 business days, prescribed under a regulation; or

-
- (b) if paragraph (a) does not apply—20 business days.
- (2) A notice under subsection (1) may be given only before the referral agency's assessment period ends.
- (3) The referral agency's assessment period may be further extended, including for the purpose of providing further information to the referral agency, if the applicant, before the period ends, gives written agreement to the extension.
- (4) If the referral agency's assessment period is extended for a concurrence agency, the agency must advise the assessment manager of the extension.

Subdivision 2 Concurrence agency responses

285 When concurrence agency must give response for particular matters

- (1) Subsection (2) applies if a concurrence agency—
- (a) wants the assessment manager to include concurrence agency conditions in the development approval, or to refuse the application; or
- (b) under this Act, requires the assessment manager to do something else in relation to the application.
- (2) The concurrence agency must give its response (a ***concurrence agency's response***) to the assessment manager, and give a copy of its response to the applicant, before the referral agency's assessment period for the application and any extension of that period ends.

Note—

Under section 271, a referral agency may give a referral agency's response about development before an application for the development is made.

286 Effect if concurrence agency does not give response

- (1) If a concurrence agency does not give a response under section 285, the assessment manager must decide the application as if the agency had assessed the application and had no concurrence agency requirements.
- (2) However, the concurrence agency's response is taken to be a refusal of the application if—
 - (a) the application is a building development application; and
 - (b) the concurrence agency is the local government; and
 - (c) the matter being decided by the concurrence agency is a matter other than assessing the amenity and aesthetic impact of a building or structure; and
 - (d) the concurrence agency does not give a response under section 285.

287 Concurrence agency's response powers

- (1) A concurrence agency's response may, within the limits of the concurrence agency's jurisdiction, tell the assessment manager 1 or more of the following—
 - (a) the conditions that must attach to any development approval;
 - (b) that any approval must be for part only of the development;
 - (c) that any approval must be a preliminary approval only;
 - (d) a different period for section 341(1)(b), (2)(c) or (3)(b).
- (2) Alternatively, a concurrence agency's response must, within the limits of the concurrence agency's jurisdiction, tell the assessment manager—
 - (a) the concurrence agency has no requirements relating to the application; or
 - (b) to refuse the application.

-
- (3) However, subsection (2)(b) does not apply to the extent a concurrence agency's jurisdiction is about the assessment of the cost impacts of supplying infrastructure to development.
 - (4) Subsection (5) applies if a concurrence agency's response is about the part of an application for a preliminary approval mentioned in section 242 that states the way in which the applicant seeks approval to vary the effect of any applicable local planning instrument for the land.
 - (5) The concurrence agency's response may, within the limits of the concurrence agency's jurisdiction, tell the assessment manager in relation to the part of the application—
 - (a) that the concurrence agency has no requirements relating to the part of the application; or
 - (b) if an approval is given, to do any of the following—
 - (i) approve only some of the variations sought;
 - (ii) subject to section 242(3) and (5)—approve different variations from those sought; or
 - (c) to refuse the variations sought.
 - (6) A concurrence agency's response may also offer advice to the assessment manager about the application.

288 Limitation on concurrence agency's power to refuse application

- (1) To the extent a concurrence agency's jurisdiction is about assessing the effects of development on designated land, the concurrence agency may only tell the assessment manager to refuse the application if—
 - (a) the concurrence agency is satisfied the development would compromise the intent of the designation; and
 - (b) the intent of the designation could not be achieved by imposing conditions on the development approval.
- (2) To the extent a local government's concurrence agency jurisdiction is about assessing the amenity and aesthetic impact of a building or structure, the concurrence agency may

[s 289]

only tell the assessment manager to refuse the application if the concurrence agency considers—

- (a) the building or structure, when built, will have an extremely adverse effect on the amenity or likely amenity of its neighbourhood; or
- (b) the aesthetics of the building or structure, when built, will be in extreme conflict with the character of its neighbourhood.

289 Concurrence agency's response to include reasons for refusal or conditions

- (1) If a concurrence agency's response, other than a refusal taken to have been given under section 286(2), requires an application to be refused or requires a development approval to include conditions, the response must include reasons for the refusal or inclusion.
- (2) If—
 - (a) a concurrence agency's response is for the part of an application for a preliminary approval mentioned in section 242 that states the way in which the applicant seeks approval to vary the effect of any applicable local planning instrument for the land; and
 - (b) the response requires the assessment manager to take an action mentioned in section 287(5)(b) or to refuse the variations sought;

the response must include reasons for the requirement.

290 How a concurrence agency may change its response or give late response

- (1) Despite section 285, a concurrence agency may, after its referral agency's assessment period and any extension of that period ends but before the application is decided—
 - (a) give a response (a *concurrence agency's response*) if the applicant has given written agreement to the content

- of the response or the Minister has given the concurrence agency a direction under section 420; or
- (b) amend its response if—
 - (i) the applicant has given written agreement to the amended response or the Minister has given the concurrence agency a direction under section 420; or
 - (ii) the amended response relates directly to a change made to a development application in response to an information request or a matter raised in a properly made submission for the application.
- (2) If a concurrence agency proposes to amend a response under subsection (1)(b)(ii), the concurrence agency must give written notice of the proposal to the assessment manager and the applicant within 5 business days after receiving notice of the change under section 352.
- (3) The assessment manager must not decide the application until the first of the following happens—
- (a) the assessment manager receives a copy of the amended response;
 - (b) the end of 10 business days after the notice is given under subsection (2).
- (4) If a concurrence agency gives or amends a response under subsection (1), the concurrence agency must give—
- (a) to the assessment manager—the response or the amended response and a copy of any agreement under subsection (1)(a) or (b)(i); and
 - (b) to the applicant—a copy of the response or the amended response.

Subdivision 3 Advice agency responses

291 When advice agency must give response for particular matters

- (1) Subsection (2) applies if an advice agency wants the assessment manager to consider its advice or recommendations when assessing the application.
- (2) The advice agency must give its response (an *advice agency's response*) to the assessment manager, and give a copy of its response to the applicant, before the referral agency's assessment period for the application and any extension of that period ends.

Note—

Under section 271, a referral agency may give a referral agency's response about development before an application for the development is made.

292 Advice agency's response powers

- (1) An advice agency's response may, within the limits of the advice agency's jurisdiction, make a recommendation to the assessment manager about any aspect of the application relevant to the assessment manager's decision on the application, including, for example—
 - (a) the conditions that should attach to any development approval; and
 - (b) that any approval should be for part only of the application; and
 - (c) that any approval should be a preliminary approval only.
- (2) Alternatively, an advice agency's response may, within the limits of the advice agency's jurisdiction, advise the assessment manager that—
 - (a) the advice agency has no recommendations relating to the application; or
 - (b) it should refuse the application.

- (3) An advice agency's response may also tell the assessment manager to treat the response as a properly made submission.

Division 5 End of information and referral stage

293 When does information and referral stage end

- (1) If there are no referral agencies for the application, the information and referral stage ends when—
- (a) the assessment manager states in the acknowledgement notice that it does not intend to make an information request; or
 - (b) if a request has been made—the applicant has finished responding to the request; or
 - (c) if neither paragraph (a) nor paragraph (b) applies—the assessment manager's information request period has ended.
- (2) If there are referral agencies for the application, the information and referral stage ends when—
- (a) the assessment manager has received the notice from the applicant under section 275; and
 - (b) an action mentioned in subsection (1)(a) or (b) has happened or the assessment manager's information request period has ended; and
 - (c) all referral agency's responses have been received by the assessment manager or, if all the responses have not been received, all referral agency's assessment periods have ended.

Part 4 Notification stage

Division 1 Preliminary

294 Purpose of notification stage

The notification stage gives a person—

- (a) the opportunity to make submissions, including objections, that must be taken into account before an application is decided; and
- (b) the opportunity to secure the right to appeal to the court about the assessment manager's decision.

295 When notification stage applies

- (1) The notification stage applies to an application if either of the following applies—
 - (a) any part of the application requires impact assessment;
 - (b) the application is an application to which section 242 applies.
- (2) Subsection (1) applies even if—
 - (a) code assessment is required for another part of the application; or
 - (b) a concurrence agency advises the assessment manager it requires the application to be refused.
- (3) However, subsection (1)(b) does not apply if—
 - (a) a preliminary approval to which section 242 applies has been given for land; and
 - (b) the application does not seek to change the type of assessment for the development or, if it does, it seeks only 1 or both of the following—

-
- (i) to change development requiring code assessment to self-assessable development or development requiring compliance assessment;
 - (ii) to increase the level of assessment for development; and
- (c) a code proposed as part of the application is substantially consistent with a code in the preliminary approval.
- (4) However, this part does not apply for an application to which chapter 9, part 7 applies.

Note—

See chapter 9 (Miscellaneous), part 7 (Notification stage for particular aquaculture development) for the notification stage that applies for development applications to which that part applies.

296 When notification stage can start

- (1) If there are no concurrence agencies and the assessment manager has stated in the acknowledgement notice that the assessment manager does not intend to make an information request, the applicant may start the notification stage as soon as the acknowledgement notice is given.
- (2) If no information requests have been made during the last information request period, the applicant may start the notification period as soon as the last information request period ends.
- (3) If an information request has been made during the information request period, the applicant may start the notification period as soon as the applicant gives—
 - (a) all information request responses to all information requests made; and
 - (b) copies of the responses to the assessment manager.

Division 2 Public notification

297 **Applicant or assessment manager to give public notice of application**

- (1) The applicant or, with the applicant's written agreement, the assessment manager must—
 - (a) publish a notice at least once in a newspaper circulating generally in the locality of the land; and
 - (b) place a notice on the land in the way prescribed under a regulation; and
 - (c) give a notice to the owners of all land adjoining the land.
- (2) If the assessment manager carries out notification for the applicant, the assessment manager may require the applicant to pay a fee, of not more than the assessment manager's reasonable costs for carrying out the notification.
- (3) For subsection (1)(c), roads, land below high-water mark and the beds and banks of rivers are taken not to be adjoining land.
- (4) In this section—

owner, for land adjoining the land the subject of the application, means—

 - (a) if the adjoining land is subject to the *Integrated Resort Development Act 1987* or the *Sanctuary Cove Resort Act 1985*—the primary thoroughfare body corporate; or
 - (b) if the adjoining land is subject to the *Mixed Use Development Act 1993*—the community body corporate; or
 - (c) subject to paragraphs (a) and (b), if the adjoining land is subject to the *Building Units and Group Titles Act 1980*—the body corporate; or
 - (d) if the adjoining land is, under the *Body Corporate and Community Management Act 1997*, scheme land for a community titles scheme—
 - (i) the body corporate for the scheme; or

-
- (ii) if the adjoining land is scheme land for more than 1 community titles scheme—the body corporate for the community titles scheme that is a principal scheme; or
 - (e) if there is a time share scheme, as defined under the Local Government Act, for a structure on the adjoining land—the person notified to the local government concerned as the person responsible for the administration of the scheme as between the participants in the scheme; or
 - (f) if the adjoining land is land being bought from the State for an estate in fee simple under the *Land Act 1994*—the buyer; or
 - (g) if the adjoining land is land granted in trust or reserved and set apart and placed under the control of trustees under the *Land Act 1994*—the trustees of the land; or
 - (h) if paragraphs (a) to (g) do not apply—the person for the time being entitled to receive the rent for the land or who would be entitled to receive the rent if the land were let to a tenant at a rent.

298 Notification period for applications

- (1) The *notification period* for the application must be at least—
 - (a) 30 business days starting on the day after the last action under section 297(1) is carried out, if any of the following apply for the application—
 - (i) there are 3 or more concurrence agencies;
 - (ii) all or part of the development—
 - (A) is assessable under a planning scheme; and
 - (B) is prescribed under a regulation for this subparagraph;
 - (iii) all or part of the development is the subject of an application for a preliminary approval mentioned in section 242; or

[s 299]

- (b) if paragraph (a) does not apply—15 business days starting on the day after the last action under section 297(1) is carried out.
- (2) The notification period must not include any business day from 20 December in a particular year to 5 January in the following year, both days inclusive.

299 Requirements for particular notices

- (1) The notices mentioned in section 297(1) must be in the approved form.
- (2) The notice placed on the land must remain on the land for all of the notification period.
- (3) All actions mentioned in section 297(1) must be completed within 5 business days after the first of the actions is carried out.
- (4) A regulation may prescribe different notification requirements for an application for development on land located—
 - (a) outside any local government area; or
 - (b) within a local government area but in a location where compliance with section 297(1) would be unduly onerous or would not give effective public notice.

300 Applicant to give assessment manager notice about particular matters

If the applicant carries out notification, the applicant must, within 5 business days after the day the last of the actions mentioned in section 297(1) is carried out, give the assessment manager written notice of the day the last of the actions is carried out.

301 Notice of compliance to be given to assessment manager

If the applicant carries out notification, the applicant must, within 20 business days after the notification period ends, give

the assessment manager written notice that the applicant has complied with the requirements of this division.

302 Application lapses if notification not carried out or notice of compliance not given

- (1) An application to which the notification stage applies lapses if—
 - (a) the last action under section 297(1) is not carried out before the end of 20 business days after the applicant was entitled to start the notification stage or the further period agreed between the assessment manager and the applicant; or
 - (b) the applicant has not complied with section 301 within the period stated in the section or the further period agreed between the assessment manager and the applicant.
- (2) However, if the application is revived under section 303(1), the application lapses if the applicant does not comply with—
 - (a) if subsection (1)(a) applies to the application—section 303(2); or
 - (b) if subsection (1)(b) applies to the application—section 303(3).

303 When application taken not to have lapsed

- (1) An application that, other than for this section, would lapse under section 302(1) is revived if, within 5 business days after the application would otherwise have lapsed, the applicant gives the assessment manager written notice that the applicant seeks to revive the application.
- (2) If the application is revived under subsection (1) and section 302(1)(a) applies to the application, the applicant must, within 10 business days after giving the notice under subsection (1) or the further period agreed between the assessment manager and the applicant, carry out the actions under section 297(1).

[s 304]

- (3) If the application is revived under subsection (1) and section 302(1)(b) applies to the application, the applicant must, within 5 business days after giving the notice under subsection (1) or the further period agreed between the assessment manager and the applicant, comply with section 301.
- (4) If the application is revived under subsection (1), for the purpose of the IDAS process the application is taken not to have lapsed under section 302(1).

304 Assessment manager may assess and decide application if some requirements not complied with

- (1) Despite section 301, the assessment manager may assess and decide an application even if some of the requirements of this division have not been complied with, if the assessment manager is satisfied any noncompliance has not—
 - (a) adversely affected the awareness of the public of the existence and nature of the application; or
 - (b) restricted the opportunity of the public to make properly made submissions.
- (2) However, the assessment manager can not assess and decide an application that has lapsed and has not been revived under this division.

Division 3 Submissions about applications

305 Making submissions

- (1) During the notification period, any person other than the applicant or a concurrence agency may make a submission to the assessment manager about the application.
- (2) The assessment manager must accept a submission if the submission is a properly made submission.

- (3) However, the assessment manager may accept a written submission even if the submission is not a properly made submission.
- (4) If the assessment manager has accepted a submission, the person who made the submission may, by written notice—
 - (a) amend the submission during the notification period; or
 - (b) withdraw the submission at any time before a decision about the application is made.

306 Submissions made during notification period effective for later notification period

- (1) This section applies if—
 - (a) a person makes a submission under section 305(1) and the submission is a properly made submission or the assessment manager accepts the submission under section 305(3); and
 - (b) the notification stage for the application is repeated for any reason.
- (2) The properly made submission is taken to be a properly made submission for the later notification period and the submitter may, by written notice—
 - (a) amend the submission during the later notification period; or
 - (b) withdraw the submission at any time before a decision about the application is made.
- (3) The submission the assessment manager accepted under section 305(3) is taken to be part of the common material for the application unless the person who made the submission withdraws the submission before a decision is made about the application.

Division 4 End of notification stage

307 When does notification stage end

The notification stage ends—

- (a) if notification is carried out by the applicant—when the assessment manager receives the written notice mentioned in section 301; or
- (b) if notification is carried out by the assessment manager for the applicant—when the notification period ends.

Part 5 Decision stage

Division 1 Preliminary

308 Assessment necessary even if concurrence agency refuses application

This part applies even if a concurrence agency advises the assessment manager the concurrence agency requires the application to be refused.

309 When does decision stage start

- (1) If an acknowledgement notice for an application is required, the decision stage for the application starts the day after all other stages applying to the application, other than the compliance stage, have ended.
- (2) If subsection (1) does not apply to an application, the decision stage for the application starts—
 - (a) if an information request has been made about the application—the day the applicant responds to the information request; or

-
- (b) if an information request has not been made about the application—the day the properly made application was received.
 - (3) However, the assessment manager may start assessing the application before the start of the decision stage.

310 Effect on decision stage if action taken under Native Title Act (Cwlth)

- (1) This section applies if an assessment manager takes action under the *Native Title Act 1993* (Cwlth), section 24HA or 24KA.
- (2) If the assessment manager takes the action before the decision stage starts, the decision stage does not start until the action is completed.
- (3) If the assessment manager takes the action after the decision stage has started, the decision stage stops the day after the action is taken and starts again the day after the action is completed.

Division 2 Assessment process

311 References in div 2 to planning instrument, code, law or policy

In this division, other than section 317, a reference to a planning instrument, code, law or policy is a reference to a planning instrument, code, law or policy in effect when the application was properly made.

312 When assessment manager must not assess part of an application

- (1) This section applies to the part of an application (the *coordinated part*) for which, were it a separate development application, there would be a different assessment manager.

- (2) Despite sections 313 to 315, the assessment manager must not assess the development the subject of the coordinated part.

313 Code assessment—generally

- (1) This section applies to any part of the application requiring code assessment.
- (2) The assessment manager must assess the part of the application against each of the following matters or things to the extent the matter or thing is relevant to the development—
- (a) the State planning regulatory provisions;
 - (b) the regional plan for a designated region, to the extent it is not identified in the planning scheme as being appropriately reflected in the planning scheme;
 - (c) any applicable codes, other than concurrence agency codes the assessment manager does not apply, that are identified as a code for IDAS under this or another Act;

Note—

However, if the chief executive is the assessment manager for the application, see section 255A.

- (d) State planning policies, to the extent the policies are not identified in—
 - (i) any relevant regional plan as being appropriately reflected in the regional plan; or
 - (ii) the planning scheme as being appropriately reflected in the planning scheme;
- (e) any applicable codes in the following instruments—
 - (i) a temporary local planning instrument;
 - (ii) a preliminary approval to which section 242 applies;
 - (iii) a planning scheme;
- (f) if the assessment manager is an infrastructure provider—the provider’s LGIP, if any.

Note—

See chapters 2 and 3 for particular provisions about the relationship between the matters or things mentioned in subsection (2).

- (3) In addition to the matters or things against which the assessment manager must assess the application under subsection (2), the assessment manager must assess the part of the application having regard to the following—
 - (a) the common material;
 - (b) any development approval for, and any lawful use of, premises the subject of the application or adjacent premises;
 - (c) any referral agency's response for the application;
 - (d) the purposes of any instrument containing an applicable code.
- (4) If the assessment manager is not a local government, the laws that are administered by, and the policies that are reasonably identifiable as policies applied by, the assessment manager and that are relevant to the application, are taken to be applicable codes in addition to the applicable codes mentioned in subsection (2)(c) or (e).
- (5) The assessment manager must not assess the application against, or having regard to, anything other than a matter or thing mentioned in this section.
- (6) Subsection (2)(a), (b) and (d) does not apply for the part of an application involving assessment against the Building Act.

314 Impact assessment—generally

- (1) This section applies to any part of the application requiring impact assessment.
- (2) The assessment manager must assess the part of the application against each of the following matters or things to the extent the matter or thing is relevant to the development—

[s 314]

- (b) the regional plan for a designated region, to the extent it is not identified in the planning scheme as being appropriately reflected in the planning scheme;
- (c) if the assessment manager is not a local government—the laws that are administered by, and the policies that are reasonably identifiable as policies applied by, the assessment manager and that are relevant to the application;

Note—

However, if the chief executive is the assessment manager for the application, see section 255B.

- (d) State planning policies, to the extent the policies are not identified in—
 - (i) any relevant regional plan as being appropriately reflected in the regional plan; or
 - (ii) the planning scheme as being appropriately reflected in the planning scheme;
- (e) a temporary local planning instrument;
- (f) a preliminary approval to which section 242 applies;
- (g) a planning scheme;
- (h) for development not in a planning scheme area—any planning scheme or temporary local planning instrument for a planning scheme area that may be materially affected by the development;
- (i) if the assessment manager is an infrastructure provider—the provider’s LGIP, if any.

Note—

See chapters 2 and 3 for particular provisions about the relationship between the matters or things mentioned in subsection (2).

- (3) In addition to the matters or things against which the assessment manager must assess the application under subsection (2), the assessment manager must assess the part of the application having regard to the following—
 - (a) the common material;

- (b) any development approval for, and any lawful use of, premises the subject of the application or adjacent premises;
- (c) any referral agency's response for the application.

315 Code and impact assessment—superseded planning scheme

- (1) If the application is a development application (superseded planning scheme), the assessment manager must assess and decide the application as if—
 - (a) the application were an application to which the superseded planning scheme applied; and
 - (b) the existing planning scheme was not in force; and
 - (c) for chapter 8, parts 2 and 3, the infrastructure provisions of the existing planning scheme applied; and
 - (d) for section 848, the existing planning scheme policy applied.
- (2) This section applies despite sections 81, 120 and 121.

316 Assessment for s 242 preliminary approvals that affect a local planning instrument

- (1) This section applies to an application for a preliminary approval mentioned in section 242.
- (2) Sections 313 and 314 apply to any part of the application requiring code or impact assessment.
- (3) Subsection (4) applies to the part of the application that states the way in which the applicant seeks to vary the effect of any applicable local planning instrument for the land.
- (4) The assessment manager must assess the part of the application having regard to—
 - (a) the common material; and

[s 317]

- (b) the result of the assessment manager's assessment of any parts of the application requiring code or impact assessment; and
- (c) all of the following to the extent they are relevant to the application—
 - (i) the State planning regulatory provisions;

 - (iii) State planning policies, to the extent the policies are not identified in—
 - (A) any relevant regional plan as being appropriately reflected in the regional plan; or
 - (B) the planning scheme as being appropriately reflected in the planning scheme; and
- (d) the consistency of the proposed variations with aspects of the local planning instrument, other than the aspects sought to be varied; and
- (e) the effect the proposed variations would have on any right of a submitter for following applications, with particular regard to the amount and detail of supporting material for the current application available to any submitters; and
- (f) any referral agency's response for the application.

317 Assessment manager may give weight to later planning instrument, code, law or policy

- (1) In assessing the application, the assessment manager may give the weight it is satisfied is appropriate to a planning instrument, code, law or policy that came into effect after the application was made, but—

-
- (a) before the day the decision stage for the application started; or
 - (b) if the decision stage is stopped—before the day the decision stage is restarted.
- (2) However, for a development application (superseded planning scheme), subsection (1) does not apply to an existing local planning instrument, other than any infrastructure provisions or planning scheme policy applied in relation to the assessment of the application under section 315(1)(c) and (d).

Division 3 Decision

Subdivision 1 Decision-making period

318 Decision-making period—generally

- (1) The assessment manager must decide the application within 20 business days after the day the decision stage starts (the *decision-making period*).
- (2) The assessment manager may, by written notice given to the applicant and without the applicant's agreement, extend the decision-making period by not more than 20 business days.
- (3) Only 1 notice may be given under subsection (2) and it must be given before the decision-making period ends.
- (4) However, the decision-making period may be further extended, including for the purpose of providing further information to the assessment manager, if the applicant, at any time before the decision is made, gives written agreement to the extension.
- (5) If there is a concurrence agency for the application, the decision must not be made before 10 business days after the day the information and referral stage ends, unless the applicant gives the assessment manager written notice that it does not intend to take action under section 320 or 321.

- (6) Despite subsections (2) and (4), the decision-making period can not be extended or further extended if the assessment manager has been given a direction under section 418(1)(c) to decide the application.

319 Decision-making period—changed circumstances

Despite section 318, the decision-making period starts again from its beginning—

- (a) if a concurrence agency gives a concurrence agency's response or an amended concurrence agency's response under section 290—the day after the response or amended response is received by the assessment manager; or
- (b) if the decision-making period is stopped under section 320—the day after the assessment manager receives further written notice withdrawing the notice stopping the decision-making period; or
- (c) if the decision-making period is stopped under section 321, the day after the first of the following to happen—
 - (i) the assessment manager receives, under section 321, a copy of all reissued concurrence agency's responses for the application;
 - (ii) the assessment manager receives further written notice withdrawing the notice stopping the decision-making period.

320 Applicant may stop decision-making period to make representations

- (1) If the applicant wishes to make representations to a referral agency about the agency's response, the applicant may, by written notice given to the assessment manager, for not more than 3 months, stop the decision-making period at any time before the decision is made.

- (2) If a notice is given, the decision-making period stops the day the assessment manager receives the notice.
- (3) The applicant may withdraw the notice at any time.

321 Applicant may stop decision-making period to request chief executive's assistance

- (1) The applicant may, at any time before the application is decided—
 - (a) by written notice (the *request*) given to the chief executive, ask the chief executive to resolve conflict between 2 or more concurrence agency's responses containing conditions the applicant is satisfied are inconsistent; and
 - (b) by written notice given to the assessment manager, for not more than 3 months, stop the decision-making period.
- (2) The request must identify the conditions the applicant is satisfied are inconsistent.
- (3) After receiving the request, the chief executive must give a notice acknowledging receipt of the request to the applicant and each affected concurrence agency.
- (4) In responding to the request, the chief executive may, after consulting the concurrence agencies, exercise all the powers of the concurrence agencies necessary to reissue 1 or more concurrence agency's responses to address any inconsistency.
- (5) If the chief executive reissues a concurrence agency's response, the chief executive must give the response to the applicant and give a copy of the response to—
 - (a) the affected concurrence agency; and
 - (b) the assessment manager.
- (6) The applicant may withdraw the notice given under subsection (1)(b) at any time.

Subdivision 2 Decision rules—generally

323 Application of sdiv 2

This subdivision does not apply to the part of an application for a preliminary approval mentioned in section 242 that states the way in which the applicant seeks approval to vary the effect of any applicable local planning instrument for the land.

324 Decision generally

- (1) In deciding the application, the assessment manager must—
 - (a) approve all or part of the application; or
 - (b) approve all or part of the application subject to conditions decided by the assessment manager; or
 - (c) refuse the application.
- (2) The assessment manager's decision must be based on the assessments made under division 2.
- (3) The assessment manager's decision must not be inconsistent with a State planning regulatory provision.
- (4) To remove any doubt, it is declared that—
 - (a) the assessment manager may give a preliminary approval, other than a preliminary approval to which section 242 applies, even though the applicant sought a development permit; and
 - (b) if the assessment manager approves only part of an application, the balance of the application is refused.

325 Effect of concurrence agency's response

- (1) If a concurrence agency's response requires conditions to be attached to a development approval for the application, the assessment manager must attach to any approval, in the exact

form given by the concurrence agency, the concurrence agency conditions.

- (2) If a concurrence agency's response has, under section 287(1)(b) or (c), stated an action that must be taken, the assessment manager must take the action.
- (3) If a concurrence agency's response has, under section 287(1)(d), stated a different period for section 341(1)(b), (2)(c) or (3)(b), the assessment manager must, on any development approval, state the period.
- (4) If a concurrence agency's response requires the application to be refused, the assessment manager must refuse it.

326 Other decision rules

- (1) The assessment manager's decision must not conflict with a relevant instrument unless—
 - (a) the conflict is necessary to ensure the decision complies with a State planning regulatory provision; or
 - (b) there are sufficient grounds to justify the decision, despite the conflict; or
 - (c) the conflict arises because of a conflict between—
 - (i) 2 or more relevant instruments of the same type, and the decision best achieves the purposes of the instruments; or
Example of a conflict between relevant instruments—
a conflict between 2 State planning policies
 - (ii) 2 or more aspects of any 1 relevant instrument, and the decision best achieves the purposes of the instrument.
Example of a conflict between aspects of a relevant instrument—
a conflict between 2 codes in a planning scheme
- (2) In this section—

relevant instrument means a matter or thing mentioned in section 313(2) or 314(2), other than a State planning regulatory provision, against which code assessment or impact assessment is carried out.

Subdivision 3 Decision rules—application under section 242

327 Decision if application under s 242 requires assessment

- (1) In deciding the part of an application for a preliminary approval mentioned in section 242 that states the way in which the applicant seeks approval to vary the effect of any applicable local planning instrument for the premises, the assessment manager must—
 - (a) approve all or some of the variations sought; or
 - (b) subject to section 242(3) and (5)—approve different variations from those sought; or
 - (c) refuse the variations sought.
- (2) The assessment manager's decision must be based on the assessments made under division 2.
- (3) The assessment manager's decision must not be inconsistent with a State planning regulatory provision.
- (4) To the extent development applied for under other parts of the application is refused, any variation relating to the development must also be refused.

328 Effect of concurrence agency's response

- (1) If the part of the application is approved and a concurrence agency's response has, under section 287(5)(b), stated an action that must be taken, the assessment manager must take the action.

-
- (2) If a concurrence agency's response requires the variations to be refused, the assessment manager must refuse the variations.

329 Other decision rules

- (1) The assessment manager's decision must not conflict with a relevant instrument unless—
- (a) the conflict is necessary to ensure the decision complies with a State planning regulatory provision; or
 - (b) there are sufficient grounds to justify the decision, despite the conflict; or
 - (c) the conflict arises because of a conflict between—
 - (i) 2 or more relevant instruments of the same type, and the decision best achieves the purposes of the instruments; or

Example of a conflict between relevant instruments—
a conflict between 2 State planning policies

- (ii) 2 or more aspects of any 1 relevant instrument, and the decision best achieves the purposes of the instrument.

Example of a conflict between aspects of a relevant instrument—
a conflict between 2 codes

- (2) In this section—

relevant instrument means a matter or thing mentioned in section 316(4)(c) or (d), other than a State planning regulatory provision, the assessment manager must have regard to in assessing the part of the application.

Subdivision 4 Deemed decision for particular applications

330 Application of sdiv 4

This subdivision applies to an application requiring code assessment only, other than—

- (a) an application for a preliminary approval to which section 242 applies; or
- (b) an application that a concurrence agency has directed the assessment manager to refuse or approve in part only; or
- (c) an application for development—
 - (i) in a wet tropics area under the *Wet Tropics World Heritage Protection and Management Act 1993*; or
 - (ii) in a strategic environmental area under the *Regional Planning Interests Act 2014*; or
 - (iii) on a Queensland heritage place; or
 - (iv) in a protected area, critical habitat or area of major interest under the *Nature Conservation Act 1992*; or
- (d) a vegetation clearing application under the *Vegetation Management Act*; or
- (e) a building development application; or
- (f) an application for which chapter 9, part 7 applies.

331 Deemed approval of applications

- (1) If the assessment manager does not decide the application within the decision-making period, including any extension of the period, the applicant may before the application is decided give written notice (a *deemed approval notice*) to the assessment manager that the application should be deemed to have been approved by the assessment manager.

- (2) A deemed approval notice for an application must be in the approved form.
- (3) If the applicant acts under subsection (1), the applicant must at the same time give a copy of the deemed approval notice to each entity mentioned in section 334(1)(b) or (c) that would be entitled to receive a decision notice for the application.
- (4) Subsections (5) to (9) apply if the applicant gives the assessment manager a deemed approval notice for an application.
- (5) For this Act, the assessment manager is taken to have decided to approve the application on the day the deemed approval notice is received.
- (6) Despite section 334(2), the assessment manager must, within 10 business days after receiving the deemed approval notice, give the applicant a decision notice approving the application or approving the application subject to conditions.
- (7) Despite section 324(4)(a), a decision notice given for the application after a deemed approval notice is received must state that the approval is—
 - (a) if a concurrence agency has directed that any approval for the application must be a preliminary approval only—a preliminary approval; or
 - (b) if the application is for a preliminary approval—a preliminary approval; or
 - (c) if the application is for a development permit and paragraph (a) does not apply—a development permit; or
 - (d) if the application is for a preliminary approval and a development permit, and paragraph (a) does not apply—a combined preliminary approval and development permit.
- (8) If a decision notice or negotiated decision notice is not given for the application, the approval is taken to be a development approval given by the assessment manager in the form of—

[s 332]

- (a) if a concurrence agency has directed that any approval for the application must be a preliminary approval only—a preliminary approval; or
 - (b) if the application is for a preliminary approval—a preliminary approval; or
 - (c) if the application is for a development permit and paragraph (a) does not apply—a development permit; or
 - (d) if the application is for a preliminary approval and a development permit, and paragraph (a) does not apply—a combined preliminary approval and development permit.
- (9) If a decision notice is not given and a concurrence agency's response tells the assessment manager a different period for section 341(1)(b), (2)(c) or (3)(b), the different period applies for the deemed approval.

332 Standard conditions for deemed approvals

- (1) If the assessment manager does not give a decision notice for the application, the deemed approval is subject to the conditions (the *standard conditions*) made by the Minister and in effect at the time the deemed approval notice was given to the assessment manager.
- (2) Before making or amending the standard conditions, the Minister must consult with the persons or entities the Minister considers appropriate.
- (3) The Minister must notify the making or amendment of the standard conditions in the gazette.
- (4) If a deemed approval is subject to the standard conditions, the conditions are taken to have been imposed by the assessment manager.
- (5) This section does not limit section 244.

Example for subsection (5)—

If an assessment manager does not give a decision notice for an application and a concurrence agency's response required conditions to

be imposed on the development approval, the concurrence agency conditions apply to the approval in addition to the standard conditions.

333 Limitation on giving deemed approval notice

- (1) If, under a provision of an Act, the assessment manager can not decide an application until an action or thing is done or happens, the applicant can not give a deemed approval notice for an application to which this subdivision applies until the action or thing is done or happens.
- (2) If the Minister gives the assessment manager a direction under section 418(1)(b) for a particular application, the applicant can not give a deemed approval notice for the application until the end of the period stated in the direction for deciding the application.
- (3) This section applies despite section 331(1).

Division 4 Notice of decision

334 Assessment manager to give notice of decision

- (1) The assessment manager must give written notice of the decision in the approved form (the *decision notice*) to—
 - (a) the applicant; and
 - (b) each referral agency; and

 - (d) whether the assessment manager is taken to have approved the application under section 331;
 - (e) if the application is approved subject to conditions—
 - (i) the conditions; and

 - (iii) for each condition about infrastructure imposed under chapter 8—the provision under which the condition was imposed;
 - (f) if the application is refused—
 - (i) whether the assessment manager was directed to refuse the application and, if so, the name of the concurrence agency directing refusal and whether the refusal is solely because of the concurrence agency's direction; and

- (ii) for a refusal for any reason other than because of a concurrence agency's direction—the reasons for the refusal;
 - (g) if the application is approved—whether the approval is a preliminary approval, a development permit or a combined preliminary approval and development permit;
 - (h) if all or part of the application is for a preliminary approval mentioned in section 242 and a variation to an applicable local planning instrument has been approved under this Act—the variation;

 - (o) the rights of appeal for the applicant and any submitters.
- (2) To remove doubt, it is declared that subsection (1)(n) does not require the assessment manager to give reasons for each condition of approval.

- (3) Also, if the application is a building development application, the decision notice must—
 - (a) include the approved drawings for the development approval; and
 - (b) if the development involves building work that is building, repairing or altering a building—state the classification or proposed classification of the building or parts of the building under the BCA.
- (6) If the application is taken to have been approved under section 331, the decision notice need not include the matters mentioned in subsection (1)(m) or (n).
- (7) In this section—

relevant instrument, in relation to an assessment manager's decision, means a matter or thing mentioned in section 313(2), 314(2) or 316(4)(c) or (d), other than a State planning regulatory provision, against which the assessment was carried out or to which the assessment manager had regard.

336 Material to be given with decision notice

When the assessment manager gives a decision notice under section 334, the assessment manager must also give a copy of—

- (a) any relevant appeal provisions; and
- (b) any plans and specifications approved by the assessment manager in relation to the decision notice.

337 Assessment manager to give copy of decision notice to principal submitter

- (1) If the application is approved, the assessment manager must give a copy of the decision notice to each principal submitter within 5 business days after the earliest of the following happens—

- (a) the applicant gives the assessment manager a written notice stating that the applicant does not intend to make representations mentioned in section 361(1);
 - (b) the applicant gives the assessment manager notice of the applicant's appeal;
 - (c) the applicant's appeal period ends.
- (2) If the application is refused, the assessment manager must give a copy of the decision notice to each principal submitter at about the same time as the decision notice is given to the applicant.
- (3) A copy of the relevant appeal provisions must also be given with each copy of the decision notice.

338 Decision notice given by private certifier

If the decision notice is given by a private certifier, sections 334 to 337 apply subject to the Building Act, chapter 4, part 6.

Division 5 Approvals

339 When approval takes effect

- (1) If the application is approved, or approved subject to conditions, the decision notice, or if a negotiated decision notice is given, the negotiated decision notice, is taken to be the development approval and has effect—
- (a) if there is no submitter and the applicant does not appeal the decision to the court or a building and development committee, from when—
 - (i) the decision notice is given; or
 - (ii) if a negotiated decision notice is given—the negotiated decision notice is given; or

- (b) if there is a submitter and the applicant does not appeal the decision to the court or a building and development committee—
 - (i) when the submitter’s appeal period ends; or
 - (ii) if the last submitter gives the assessment manager written notice that the submitter will not be appealing the decision before the period mentioned in subparagraph (i) ends—on the day the last submitter gives the notice; or
 - (c) if an appeal is made to the court or a building and development committee, subject to sections 490(3) and 553(3) and the decision of the court or committee under section 496 or 564—when the appeal is finally decided or withdrawn.
- (2) However, if the approval relates to land that was acquisition land to which section 263(2)(b) applied when the application was made, the development approval does not have effect until the later of the following—
- (a) the day the land is taken or acquired under the *State Development and Public Works Organisation Act 1971* or the Acquisition Act;
 - (b) the time the development approval would, other than for this subsection, have effect.
- (3) If a decision notice or negotiated decision notice is not given for an application to which a deemed approval relates, the deemed approval has effect—
- (a) if the applicant does not appeal the decision to the court or a building and development committee, from when the decision notice should have been given under section 331(6); or
 - (b) if an appeal is made to the court or a building and development committee, subject to sections 490(3) and 553(3) and the decision of the court or committee under section 496 or 564—when the appeal is finally decided or withdrawn.

-
- (4) If a submitter acts under subsection (1)(b)(ii), the assessment manager must give the applicant a copy of the submitter's notice.
 - (5) In this section—
submitter includes an advice agency that has told the assessment manager to treat its response as a properly made submission.

340 When development may start

- (1) Development may start—
 - (a) when a development permit for the development takes effect; or
 - (b) if an application for a development permit is taken to have been approved under section 331 and the assessment manager does not give a decision notice for the application—when the deemed approval for the application has effect.
- (2) Subsection (1) applies subject to any condition applying under section 346(1)(b) to a development approval for the development.

341 When approval lapses if development not started

- (1) To the extent a development approval is for a material change of use of premises, the approval lapses if the first change of use under the approval does not start within the following period (the *relevant period*)—
 - (a) 4 years starting the day the approval takes effect;
 - (b) if the approval states a different period from when the approval takes effect—the stated period.
- (2) To the extent a development approval is for reconfiguring a lot, the approval lapses if a plan for the reconfiguration is not given to the local government within the following period (also the *relevant period*)—

[s 341]

- (a) for reconfiguration not requiring operational works—2 years starting the day the approval takes effect;
 - (b) for reconfiguration requiring operational works—4 years starting the day the approval takes effect;
 - (c) if the approval states a different period from when the approval takes effect—the stated period.
- (3) To the extent a development approval is for development other than a material change of use of premises or reconfiguring a lot, the approval lapses if the development does not substantially start within the following period (also the *relevant period*)—
- (a) 2 years starting the day the approval takes effect;
 - (b) if the approval states a different period from when the approval takes effect—the stated period.
- (4) Despite subsections (1) and (2), if there are 1 or more related approvals for a development approval mentioned in subsection (1) or (2), the relevant period is taken to have started on the day the latest related approval takes effect.
- (5) If a monetary security has been given in relation to any development approval, the security must be released if the approval lapses under this section.
- (6) The lapsing of a development approval for a material change of use of premises or reconfiguring a lot does not cause an approval mentioned in subsection (3) to lapse.
- (7) In this section—
- related approval*, for a development approval for a material change of use of premises (the *earlier approval*), means—
- (a) the first development approval for a development application made to a local government or private certifier, or first compliance permit for a request for compliance assessment made to a local government or entity nominated by a local government, within 2 years of the start of the relevant period, that is—

-
- (i) to the extent the earlier approval is a preliminary approval—a development permit or compliance permit for the material change of use of premises; or
 - (ii) to the extent the earlier approval is a development permit or a preliminary approval for development mentioned in section 242(3)(a)(i) or (ii)—a development permit or compliance permit for building work or operational work necessary for the material change of use of premises to take place; and
- (b) each further development permit, for a development application made to a local government or private certifier within 2 years of the day the last related approval takes effect, that is for building work or operational work necessary for the material change of use of premises to take place; and
 - (c) each further compliance permit, for a request for compliance assessment made to a local government or entity nominated by a local government within 2 years of the day the last related approval takes effect, that is for building work or operational work necessary for the material change of use of premises to take place.

related approval, for a development approval for reconfiguring a lot (also the ***earlier approval***), means—

- (a) the first development permit for a development application made to a local government, or first compliance permit for a request for compliance assessment made to a local government or entity nominated by a local government, within 2 years of the start of the relevant period, that is—
 - (i) to the extent the earlier approval is a preliminary approval—for the reconfiguration; or
 - (ii) to the extent the earlier approval is a development permit for reconfiguring a lot—for operational work related to the reconfiguration; and

[s 342]

- (b) each further development permit, for a development application made to a local government within 2 years of the day the last related approval takes effect, that is for operational work related to the reconfiguration; and
- (c) each further compliance permit, for a request for compliance assessment made to a local government or entity nominated by a local government within 2 years of the day the last related approval takes effect, that is for operational work related to the reconfiguration.

342 When approval lapses if development started but not completed—general

- (1) Subsection (2) applies if—
 - (a) a condition requires assessable development, or an aspect of assessable development, to be completed within a particular time; and
 - (b) the assessable development, or aspect, is started but not completed within the time.
- (2) The approval, to the extent it relates to the assessable development or aspect not completed, lapses.
- (3) However, even though the approval has lapsed, any security paid under a condition mentioned in section 346(1)(f) may be used in a way stated by the approval, including, for example, to finish the development.
- (4) This section does not apply to a preliminary approval to which section 242 applies.

343 When approval lapses if development started but not completed—preliminary approval

- (1) This section applies to a preliminary approval to which section 242 applies if development, or an aspect of development, to which the approval relates is started but not completed within the prescribed period for the approval.

-
- (2) The approval, to the extent it relates to the development or aspect not completed, lapses at the end of the prescribed period.
- (3) In this section—
- prescribed period*, for a preliminary approval to which section 242 applies, means—
- (a) if a condition of the approval requires development, or an aspect of development, to which the approval relates to be completed within a stated period—the stated period; or
 - (b) if paragraph (a) does not apply—the period, if any, nominated by the applicant for that purpose and stated in the application to which the approval relates; or
 - (c) if paragraphs (a) and (b) do not apply—
 - (i) 5 years after the day the preliminary approval takes effect; or
 - (ii) if there is 1 or more related approvals for the preliminary approval—5 years after the day the last related approval takes effect.

related approval, for a preliminary approval, means a related approval for the preliminary approval under section 341(7).

Division 6 Conditions

344 Application of div 6

This division applies to each condition in a development approval whether the condition is a condition—

- (a) a concurrence agency directs an assessment manager to impose; or
- (b) decided by an assessment manager; or
- (c) attached to the approval under the direction of the Minister.

345 Conditions must be relevant or reasonable

- (1) A condition must—
 - (a) be relevant to, but not an unreasonable imposition on, the development or use of premises as a consequence of the development; or
 - (b) be reasonably required in relation to the development or use of premises as a consequence of the development.
- (2) Subsection (1) applies despite the laws that are administered by, and the policies that are reasonably identifiable as policies applied by, an assessment manager or concurrence agency.

346 Conditions generally

- (1) A condition may—
 - (a) place a limit on how long a lawful use may continue or works may remain in place; or
 - (b) state a development may not start until other development permits or compliance permits, for development on the same premises, have been given or other development on the same premises, including development not covered by the development application, has been substantially started or completed; or
 - (c) require compliance with an infrastructure agreement relating to the land; or
 - (d) require a document or work to be subject to compliance assessment; or
 - (e) require development, or an aspect of development, to be completed within a particular time; or
 - (f) require the payment of security under an agreement under section 348 to support a condition mentioned in paragraph (e).
- (2) A condition imposed under subsection (1)(c) is taken to comply with section 345.

Note—

See chapter 8, parts 2 and 3 for other conditions that may be imposed on a development approval.

346A Environmental offset conditions

- (1) This section applies to a condition that requires or otherwise relates to an environmental offset (an *environmental offset condition*).
- (3) If the applicant has entered into an agreement about an environmental offset for this section, a condition may require the applicant to comply with the agreement.
- (3A) An agreement entered into under subsection (3) is not an environmental offset agreement under the *Environmental Offsets Act 2014*.
- (3B) Section 347(1)(b) and (c) does not apply in relation to a deemed condition.
- (4) A condition imposed under subsection (3)—
 - (a) is taken to comply with section 345; and
 - (b) is not invalid on the ground of being uncertain or lacking finality.
- (5) If an entity other than the applicant agrees, under an agreement mentioned in subsection (3), to carry out works required for the development, section 347(1)(b) and (c) do not apply to a condition stating that those works must be undertaken by the entity.

Note—

Also, under section 348, the applicant may enter into an agreement to establish the obligations, or secure the performance, of a party to the agreement about an environmental offset condition.

- (6) An environmental offset condition may require an environmental offset to be undertaken on land on which the development is undertaken or on other land in the State.

346B Conditions of authority

- (1) This section applies if, on or after the commencement of this section, a condition comes into force that is an environmental offset condition under section 346A.
- (2) To the extent the environmental offset condition is inconsistent with a deemed condition, the deemed condition prevails.

Note—

See the *Environmental Offsets Act 2014*, section 5(3). Under that provision, particular imposed conditions prevail over deemed conditions.

347 Conditions that can not be imposed

A condition must not—

- (a) be inconsistent with a condition of an earlier development approval or compliance permit still in effect for the development; or
- (b) other than under chapter 8, part 2 or 3— require a monetary payment for the establishment, operating or maintenance costs of, or works to be carried out—
 - (i) for development infrastructure; or
 - (ii) for the imposition of a condition by a State infrastructure provider— infrastructure or works to protect or maintain the infrastructure operation; or

Note—

Chapter 8, parts 2 and 3 deal with infrastructure conditions.

- (c) state that works required to be carried out for a development must be undertaken by an entity other than the applicant; or
- (d) require an access restriction strip; or
- (e) limit the time a development approval has effect for a use or work forming part of a network of community

infrastructure, other than State-owned or State-controlled transport infrastructure; or

- (f) require a person to enter into an infrastructure agreement.

347A Conditions about water infrastructure

- (1) This section applies if an assessment manager or concurrence agency is a participating local government of a distributor-retailer.
- (2) A condition can not be imposed in relation to the distributor-retailer's water infrastructure about a matter for which the SEQ Water Act requires a water approval.

Examples of conditions that can not be imposed—

- works to be carried out
 - a monetary payment
 - land in fee simple to be given
 - that an infrastructure agreement be entered into
- (3) However, a condition may be imposed that any necessary water approval under the SEQ Water Act must be obtained from a distributor-retailer.

348 Agreements

The applicant may enter into an agreement with an entity, including, for example, an assessment manager or a concurrence agency, to establish the obligations, or secure the performance, of a party to the agreement about a condition.

349 Covenants not to be inconsistent with development approvals

- (1) Subsection (2) applies if a covenant under the *Land Act 1994*, section 373A(4) or the *Land Title Act 1994*, section 97A(3)(a) or (b) is entered into in connection with a development application.

- (iii) does not change the type of development approval sought; and
 - (iv) does not require impact assessment for any part of the changed application, if the original application did not involve impact assessment.
- (2) In deciding whether a change is a minor change under subsection (1)(d), the planning instruments or law in force at the time the change was made apply (the *applicable law*).
- (3) Application of the applicable law does not stop a change mentioned in subsection (1)(d)(ii) or (iv) from being a minor change only because the applicable law, if applied to the application as originally made, would require referral to any additional referral agencies or involve impact assessment.

Division 2 Procedure for changing applications

351 Changing application

- (1) Before an application is decided, the applicant may change the application by giving the assessment manager written notice of the change.

Note—

An assessment manager or concurrence agency may, in an information request, advise an applicant about changing an application. See section 276 (Information request to applicant).

- (2) An applicant can not change an application if the change would, if the application were remade including the change, result in the application—
- (a) not being a properly made application; or
 - (b) involving prohibited development.
- (3) Subsection (2)(a) does not apply to the applicant if the applicant takes the action that would be necessary to make the application a properly made application if it were remade.

- (4) If the change to the application is, or includes, a change of applicant, the notice of the change—
 - (a) may be given to the assessment manager by the person proposing to become the applicant; and
 - (b) must be accompanied by the written consent of the person who is the applicant immediately before the change.

352 Assessment manager to advise referral agencies about changed applications

When the assessment manager receives notice of the change, the assessment manager must give a copy of the notice to the following entities and advise them of its effect under division 3—

- (a) any referral agencies for the original application;
- (b) if the change requires the application to be referred to a referral agency, other than a referral agency mentioned in paragraph (a)—the referral agency.

Note—

Under section 290(1)(b)(ii), a concurrence agency may amend its concurrence agency's response for particular changes to the application.

Division 3 Changed applications—effect on IDAS

353 Effect on IDAS—minor change

- (1) IDAS does not stop for a changed application if the change is a minor change of the application.
- (2) For a changed application, the notification stage does not again apply, and is not required to restart, if—
 - (a) the change is a minor change; and

- (b) the notification stage applied to the original application; and
- (c) the change was made during the notification stage or after the notification stage ended.

354 Effect on IDAS—changes about matters relating to submissions or information requests

- (1) This section applies to a changed application if—
 - (a) the change is not a minor change of the application; and
 - (b) the assessment manager is satisfied the change—
 - (i) only deals with a matter raised in a properly made submission for the application; or
 - (ii) is in response to an information request.
- (2) IDAS does not stop for the changed application.
- (3) Subsection (4) applies if the notification stage applied to the original application and the change was made during the notification stage or after the notification stage ended.
- (4) The notification stage must restart or be repeated unless the assessment manager is satisfied the change would not be likely to attract a submission objecting to the thing comprising the change, if the notification stage were to apply to the change.
- (5) Also, if the notification stage applies to the changed application, the assessment manager can not decide the application until the notification stage has ended.

355 Effect on IDAS—other changes

- (1) Subsection (2) applies to a changed application if—
 - (a) the change is not a minor change; and
 - (b) the assessment manager is satisfied the change is not a change that—

- (i) only deals with a matter raised in a properly made submission for the application; or
 - (ii) is in response to an information request.
- (2) The IDAS process stops on the day the notice of the change is received by the assessment manager and starts again from the start of the acknowledgement period.
- (3) Subsection (4) applies to a changed application if—
 - (a) the IDAS process has stopped under subsection (2) for the application; and
 - (b) the notification stage applied to the original application; and
 - (c) the change was made during the notification stage or after the notification stage ended.
- (4) The notification stage must be repeated unless the assessment manager is satisfied the change would not be likely to attract a submission objecting to the thing comprising the change, if the notification stage were to apply to the change.

Division 4 Withdrawing applications

356 Withdrawing an application

- (1) At any time before the application is decided, the applicant may withdraw the application by giving written notice of the withdrawal to—
 - (a) the assessment manager; and
 - (b) any referral agency.
- (2) If within 1 year of withdrawing the application, the applicant makes a later application that is not substantially different from the withdrawn application, any properly made submission about the withdrawn application is taken to be a properly made submission about the later application.

Part 7 Missed referral agencies

357 Notice of missed referral agency

- (1) This section applies if an applicant has not referred an application to a referral agency (the *missed referral agency*) as required under section 272.
- (2) A party to the application may, by written notice given to each other party to the application, advise the other parties that the applicant has not referred the application as required under section 272.
- (3) In this section—
party, to an application, means the applicant, assessment manager and each referral agency for the application.

358 Effect of missed referral agency on information and referral stage and notification stage

- (1) This section applies if a notice is given under section 357(2) during the information and referral stage or the notification stage for the application.
- (2) Despite section 273, the application does not lapse.
- (3) The IDAS process for the application does not stop.
- (4) However, the decision stage for the application does not start until—
 - (a) the information and referral stage is carried out in relation to the missed referral agency; and
 - (b) either—
 - (i) all referral agency's responses for the application have been received; or
 - (ii) all referral agency's assessment periods for the application have ended; and
 - (c) the notification stage has ended.

[s 359]

- (5) If the applicant gives the notice under section 357(2), the applicant must comply with section 272 for the missed referral agency within 10 business days after giving the notice.
- (6) If another party to the application gives the notice under section 357(2), the applicant must comply with section 272 for the missed referral agency within 10 business days after receiving the notice.
- (7) If the notice under section 357(2) is given during the notification stage for the application and the applicant has started or carried out notification under section 297, notification under section 297 need not be restarted or carried out again for the application.

359 Effect of missed referral agency on decision stage

- (1) This section applies if a notice is given under section 357(2) during the decision stage for the application and before the application is decided.
- (2) Despite section 273, the application does not lapse.
- (3) The application can not be decided until the information and referral stage for the application is carried out in relation to the missed referral agency.
- (4) If the applicant gives the notice under section 357(2), the applicant must comply with section 272 for the missed referral agency within 10 business days after giving the notice.
- (5) If another party to the application gives the notice under section 357(2), the applicant must comply with section 272 for the missed referral agency within 10 business days after receiving the notice.
- (6) The applicant is not required to again carry out notification under section 297 for the application, if the notification has been carried out.
- (7) The decision stage for the application starts again—

- (a) on the day the referral agency's response for the missed referral agency is received by the assessment manager;
or
- (b) if the missed referral agency does not give a referral agency's response—on the day the referral agency's assessment period of the missed referral agency ends.

Part 8 Dealing with decision notices and approvals

Division 1 Changing decision notices and approvals during applicant's appeal period

360 Application of div 1

This division applies only during the applicant's appeal period.

361 Applicant may make representations about decision

- (1) The applicant may make written representations to the assessment manager about—
 - (a) a matter stated in the decision notice, other than a refusal or a matter about which a concurrence agency told the assessment manager under section 287(1) or (5); or
 - (b) the standard conditions applying to a deemed approval.
- (2) However, the applicant can not make representations under subsection (1)(a) about a condition attached to an approval under the direction of the Minister.

362 Assessment manager to consider representations

The assessment manager must consider any representations made to the assessment manager under section 361.

363 Decision about representations

- (1) If the assessment manager agrees with any of the representations about a decision notice or a deemed approval, the assessment manager must give a new decision notice (the *negotiated decision notice*) to—
 - (a) the applicant; and
 - (b) each principal submitter; and
 - (c) each referral agency; and
 - (d) if the assessment manager is not the local government and the development is in a local government area—the local government.
- (2) Before the assessment manager agrees to a change under this section, the assessment manager must consider the matters the assessment manager was required to consider in assessing the application, to the extent the matters are relevant.
- (3) Only 1 negotiated decision notice may be given.
- (4) The negotiated decision notice—
 - (a) must be given within 5 business days after the day the assessment manager agrees with the representations; and
 - (b) must comply with section 335; and
 - (c) must state the nature of the changes; and
 - (d) replaces—
 - (i) the decision notice previously given; or
 - (ii) if a decision notice was not previously given and the negotiated decision notice relates to a deemed approval—the standard conditions applying to the deemed approval.

-
- (5) If the assessment manager does not agree with any of the representations, the assessment manager must, within 5 business days after the day the assessment manager decides not to agree with any of the representations, give written notice to the applicant stating the decision about the representations.

364 Giving new notice about charges for infrastructure

- (1) This section applies if the development approved by the negotiated decision notice is different from the development approved in the decision notice or deemed approval in a way that affects the amount of a levied charge.
- (2) The local government may give the applicant a new infrastructure charges notice to replace the original notice.

366 Applicant may suspend applicant's appeal period

- (1) If the applicant needs more time to make the representations, the applicant may, by written notice given to the assessment manager, suspend the applicant's appeal period.
- (2) The applicant may act under subsection (1) only once.
- (3) If the representations are not made within 20 business days after the day written notice was given to the assessment manager, the balance of the applicant's appeal period restarts.
- (4) If the representations are made within 20 business days after the day written notice was given to the assessment manager—
- (a) if the applicant gives the assessment manager a notice withdrawing the notice under subsection (1)—the balance of the applicant's appeal period restarts the day after the assessment manager receives the notice of withdrawal; or
 - (b) if the assessment manager gives the applicant a notice under section 363(5)—the balance of the applicant's appeal period restarts the day after the applicant receives the notice; or

- (c) if the assessment manager gives the applicant a negotiated decision notice—the applicant’s appeal period starts again the day after the applicant receives the negotiated decision notice.

Division 2 Changing approvals—request for change after applicant’s appeal period ends

Subdivision 1 Preliminary

367 What is a *permissible change* for a development approval

- (1) A *permissible change*, for a development approval, is a change to the approval that would not, because of the change—
 - (a) result in a substantially different development; or
 - (b) if the application for the approval were remade including the change—
 - (i) require referral to additional concurrence agencies; or
 - (ii) for an approval for assessable development that previously did not require impact assessment—require impact assessment; or
 - (c) for an approval for assessable development that previously required impact assessment—be likely, in the responsible entity’s opinion, to cause a person to make a properly made submission objecting to the proposed change, if the circumstances allowed; or
 - (d) cause development to which the approval relates to include any prohibited development.
- (2) For deciding whether a change is a permissible change under subsection (1)(b) or (d), the planning instruments or law in force at the time the request for the change was made apply.

368 Notice about proposed change before request is made

- (1) This section applies if a person proposes to make a request under section 369 to change a development approval.
- (2) Before making the request, the person may advise any relevant entity about the person's intention to make the request and the details of the proposed change.
- (3) The relevant entity may give the person a written notice (a *pre-request response notice*) stating whether or not the entity objects to the proposed change.
- (4) In this section—

relevant entity means an entity to whom the person would, under section 372, be required to give a copy of the request if it were made.

Subdivision 2 Procedure for changing approvals

369 Request to change development approval

- (1) If a person wants to make a permissible change to a development approval, the person must by written notice ask the following entity (the *responsible entity*) stated for the change or approval to make the change—
 - (a) if the change is to a condition imposed by the Minister under part 11, division 1—the Minister;
 - (b) if the approval was given by the Minister under part 11, division 2—the Minister;
 - (c) if the change is to a condition of the approval imposed by a concurrence agency—the concurrence agency;
 - (d) if the approval was given by the court—the court;
 - (e) for another change or approval—the assessment manager for the application to which the approval relates.
- (2) If a request is made to the Minister under subsection (1)(b) and the Minister is satisfied the change does not affect a State

interest, the Minister may refer the request to the original assessment manager.

- (3) If the Minister refers the request to the original assessment manager, the original assessment manager is taken to be the responsible entity for the development approval.
- (4) If the development approval is for building work or operational work for the supply of community infrastructure on land designated for the community infrastructure, a request under subsection (1) may be made only by the person who intends to supply, or is supplying, the infrastructure.

370 Notice of request

- (1) If the responsible entity has a form for the request under section 369, the request must be in the form.
- (2) Also, the request must be accompanied by—
 - (a) the fee for the request—
 - (i) if the responsible entity is a local government—fixed by a resolution of the local government; or
 - (ii) if the responsible entity is another public sector entity or the Minister—prescribed under a regulation under this or another Act; and
 - (b) a copy of any pre-request response notice relevant to the request; and
 - (c) evidence to show the person making the request has complied with section 372.
- (3) The request may be accompanied by other information the person making the request considers relevant.

371 When owner's consent required for request

If the person making the request is not the owner of the land to which the development approval attaches, the request must be accompanied by the owner's consent unless—

-
- (a) the approval relates to land that was acquisition land to which section 263(2)(b) applied when the application for the approval was made; or
 - (b) the approval is for building work or operational work for the supply of community infrastructure on land designated for the community infrastructure; or
 - (c) the consent of the owner would not be required under section 263(1) if a development application were made for the requested change; or
 - (d) the responsible entity is satisfied that—
 - (i) having regard to the nature of the proposed change, the owner has unreasonably withheld consent; and
 - (ii) the requested change does not materially affect the owner's land; or
 - (e) the responsible entity is satisfied that—
 - (i) because of the number of owners of the land, it is not practicable to obtain the owners' consent; and
 - (ii) the requested change does not materially affect the owners' land.

Example for paragraph (e)(i)—

It may not be practicable to obtain the consent of all the owners of land if the land was subdivided, after the development approval was given, and is subsequently owned by multiple persons.

372 Copy of request to be given to particular entities

- (1) When the person makes the request, the person must give a copy of the request to the following—
 - (a) if the responsible entity is a concurrence agency—
 - (i) the assessment manager for the application to which the development approval applies (the *original application*); and

[s 373]

- (ii) any other concurrence agencies for the original application;
 - (b) if the responsible entity is the Minister or the court—the assessment manager and any concurrence agencies for the original application;
 - (c) if the responsible entity is the assessment manager—any concurrence agencies for the original application;
 - (d) another entity prescribed under a regulation.
- (2) Despite subsection (1), the person need not give a copy of the request to an entity that has given the person a pre-request response notice for the request.

Subdivision 3 Assessing and deciding request for change

373 Particular entities to assess request for change

- (1) An entity given a copy of the request under section 372 must, within 20 business days after receiving the request, give the responsible entity a written notice advising—
- (a) it has no objection to the change being made; or
 - (b) it objects to the change being made and the reasons for the objection.
- (2) If the entity (the *relevant entity*) does not give a written notice within 20 business days after receiving the copy of the request, the responsible entity must decide the request as if the relevant entity had no objection to the request.

374 Responsible entity to assess request

- (1) To the extent relevant, the responsible entity must assess the request having regard to—
- (a) the information the person making the request included with the request; and

-
- (b) the matters the responsible entity would have regard to if the request were a development application; and
 - (c) if submissions were made about the original application—the submissions; and
 - (d) any notice about the request given under section 373 to the entity; and
 - (e) any pre-request response notice about the request given to the entity.
- (2) For subsection (1)(b), the responsible entity must have regard to the planning instruments, plans, codes, laws or policies applying when the original application was made, but may give the weight it considers appropriate to the planning instruments, plans, codes, laws or policies applying when the request was made.

375 Responsible entity to decide request

- (1) After assessing the request under section 374, the responsible entity must decide to—
- (a) approve the request, with or without conditions; or
 - (b) refuse the request.
- (2) A condition imposed under subsection (1)(a) must—
- (a) be relevant to the proposed change; and
 - (b) comply with section 345.
- (3) If no other entity is required to be given a copy of the request under section 372, the responsible entity must decide the request within 30 business days after receiving the request.
- (4) If another entity is required to be given a copy of the request under section 372, the responsible entity—
- (a) must not decide the request until the first of the following happens—
 - (i) a written notice has been received under section 373 from each entity given a copy of the request;

- (ii) the period of 25 business days after the responsible entity received the request ends; but
- (b) must decide the request within 30 business days after receiving the request.
- (5) However, the responsible entity and the person making the request may agree to extend the period within which the entity must decide the request by not more than 20 business days.
- (6) Subsections (3) to (5) do not apply if the responsible entity is the court.

376 Notice of decision

- (1) The responsible entity must give written notice of the decision to each of the following—
 - (a) the person who made the request;
 - (b) if the responsible entity is not the assessment manager—the assessment manager;
 - (c) any referral agency for the original application;
 - (d) if the responsible entity is not a local government and the development approval relates to land in a local government area—the local government whose local government area includes the land;
 - (e) if the request relates to a development approval given by the Minister under part 11, division 2 and the Minister referred the request to the original assessment manager—the Minister.
- (2) The notice must—
 - (a) state all of the following—
 - (i) the day the request was made;
 - (ii) the day the development approval for the original application was decided;
 - (iii) the decision;

- (iv) if the request was refused—the reasons for the decision; and
 - (b) if the request was approved and the responsible entity is a concurrence agency—be accompanied by a copy of the concurrence agency’s response for the original application showing the changes; and
 - (c) if the request was approved and paragraph (b) does not apply—be accompanied by a copy of the decision notice, if any, for the original application showing the changes.
- (3) Subsection (4) applies if—
- (a) the responsible entity is the assessment manager for the application to which the approval relates; and
 - (b) the decision is to refuse the request or approve the request on conditions.
- (4) If the notice is given to the person who made the request or an entity that gave the responsible entity a notice under section 373 or a pre-request response notice, the notice also must state—
- (a) that the person or entity may appeal against the decision; and
 - (b) how the person or entity may appeal.
- (5) Subsection (6) applies if—
- (a) the responsible entity is a concurrence agency; and
 - (b) the decision is to refuse the request or approve the request on conditions.
- (6) If the notice is given to the person who made the request, the notice also must state—
- (a) that the person may appeal against the decision; and
 - (b) how the person may appeal.

377 When decision has effect

If the decision is to approve the request for a permissible change, the decision takes effect—

- (a) on the day the notice mentioned in section 376(1) is given to the person who made the request; or
- (b) if a person has appealed against the decision—on the day the appeal is finally decided or withdrawn.

Division 3 Changing or cancelling particular conditions—other than on request

378 When condition may be changed or cancelled by assessment manager or concurrence agency

- (1) This section applies for a development condition under another Act if, under the other Act, ‘development condition’ is defined with reference to a development approval.
- (2) However, if under the other Act an entity is authorised to change or cancel conditions of a development approval in a different way, the other Act prevails to the extent of any inconsistency with this section.
- (3) The development condition may be changed or cancelled by—
 - (a) if the condition was imposed as a concurrence agency condition—the entity that was the concurrence agency; or
 - (b) if the condition was imposed by an assessment manager—the entity that was the assessment manager; or
 - (c) if paragraph (a) or (b) does not apply—the entity that has jurisdiction for the condition.
- (4) However, the condition may be changed or cancelled only on a ground mentioned in the other Act.

- (5) The change or cancellation may be made without the consent of the owner of the land to which the approval attaches and any occupier of the land.
- (6) Section 345 applies to the changed condition.
- (7) If the entity is satisfied it is necessary to change or cancel the condition, the entity must give written notice to the owner of the land to which the approval attaches and any occupier of the land.
- (8) The notice must—
 - (a) state the following—
 - (i) the proposed change or cancellation and the reasons for the change or cancellation;
 - (ii) that each person to whom the notice is given may make a written submission to the entity about the proposed change or cancellation;
 - (iii) the period, which must be at least 15 business days after the notice is given, within which the submission may be made; and
 - (b) if the condition was imposed by a concurrence agency—be accompanied by a copy of the concurrence agency's response for the original application showing the changes; and
 - (c) if paragraph (b) does not apply—be accompanied by a copy of the decision notice, if any, for the original application showing the changes.
- (9) After considering any submissions, the entity must give to each person to whom the notice was given—
 - (a) if the entity is not satisfied the change or cancellation is necessary—written notice stating it has decided not to change or cancel the condition; or
 - (b) if the entity is satisfied the change or cancellation is necessary—written notice stating it has decided to change or cancel the condition, and include details of the changed conditions or cancellation.

[s 379]

- (10) If the entity was a concurrence agency, the entity must also give the entity that was the assessment manager written notice of the change or cancellation.
- (11) The changed condition or cancellation takes effect from the day the notice is given to the owner of the land.

Division 4 Cancelling approvals

379 Request to cancel development approval

- (1) The owner of the land the subject of an application, or another person with the owner's consent, may by written notice ask the assessment manager to cancel the development approval.
- (2) The request must be accompanied by the fee for the request—
 - (a) if the assessment manager is a local government—fixed by a resolution of the local government; or
 - (b) if the assessment manager is another public sector entity—prescribed under a regulation under any Act.
- (3) Subsection (1) applies to an owner of land designated for community infrastructure only if the owner is the entity who intends, or intended, to supply the infrastructure.

380 Restriction on making request

- (1) Cancellation can not be requested under section 379(1) if development under the development approval has started.
- (2) Also, cancellation can not be requested under section 379(1) unless written consent to the cancellation is given by—
 - (a) if there is a written arrangement between the owner and another person under which the other person proposes to buy the land—the person proposing to buy the land; or
 - (b) if the application is for land the subject of a public utility easement—the entity in whose favour the easement is given.

381 Assessment manager to cancel approval

After receiving the request under section 379, the assessment manager must—

- (a) cancel the approval; and
- (b) give notice of the cancellation to the person who applied for the cancellation and to each concurrence agency.

382 Release of monetary security

If a monetary security has been given in relation to the approval, the security must be released if the approval is cancelled.

Division 5 Extending period of approvals

- (1) If, before a development approval lapses under section 341, a person wants to extend a period mentioned in that section, the person must, by written notice—

 - (b) ask the assessment manager to extend the period.
- (2) The notices must be given at about the same time.
- (3) The notice to the assessment manager must—
 - (a) if the assessment manager has a form for the request—be in the form; and
 - (b) include a copy of each notice given under subsection (1)(a); and
 - (c) be accompanied by the fee—
 - (i) if the assessment manager is a local government—fixed by a resolution of the local government; or

- (ii) if the assessment manager is another public sector entity—prescribed under a regulation under any Act; and
 - (d) if the person making the request is not the owner of the land to which the approval attaches—be accompanied by the owner’s consent if, under section 263(1), the written consent of the owner of the land the subject of the application for the approval was required for the making of the application.
- (4) Despite subsection (3)(d), the notice to the assessment manager need not be accompanied by the owner’s consent if the assessment manager is satisfied that—
- (a) having regard to the nature of the request, the owner has unreasonably withheld consent; or
 - (b) because of the number of owners of the land, it is not practicable to obtain the owners’ consent.

Example for subsection (4)(b)—

It may not be practicable to obtain the consent of all the owners of land if the land was subdivided, after the development approval was given, and is subsequently owned by multiple persons.

384 Request can not be withdrawn

A request under this division may not be withdrawn.

385 Concurrence agency may advise assessment manager about request

A concurrence agency given a notice under section 383(1)(a) may give the assessment manager a written notice—

- (a) stating it has no objection to the extension being approved; or
- (b) stating it objects to the extension being approved and giving reasons for the objection.

386 Deciding particular requests

- (1) This section applies if the request for the extension was accompanied by evidence showing that the person asked a chief executive for the chief executive's written agreement to the extension.
- (2) The assessment manager must refuse the request if the chief executive gives the assessment manager written notice that the chief executive does not agree to the extension.
- (3) If the chief executive agrees to the extension, the assessment manager must decide the request within 30 business days after receiving the written agreement.
- (4) Subsection (3) applies despite section 387(1).

388 Deciding request

- (1) In deciding a request under section 383, the assessment manager must only have regard to—
 - (a) the consistency of the approval, including its conditions, with the current laws and policies applying to the development, including, for example, the amount and type of infrastructure contributions, or charges payable under chapter 8, parts 2 and 3; and

- (b) the community's current awareness of the development approval; and
 - (c) whether, if the request were refused—
 - (i) further rights to make a submission may be available for a further development application; and
 - (ii) the likely extent to which those rights may be exercised; and
 - (d) the views of any concurrence agency for the approval given under section 385.
- (2) If the assessment manager does not receive a notice under section 385 from a concurrence agency within 20 business days after the day the request was received by the assessment manager, the assessment manager must decide the request as if the concurrence agency had no objection to the request.
- (3) Despite subsection (2), if the development approval is subject to a concurrence agency condition about the period mentioned in section 341, the assessment manager must not approve the request unless the concurrence agency advises it has no objection to the extension being approved.
- (4) If the assessment manager receives a notice under section 385 from a concurrence agency within 20 business days after the day the request was received by the assessment manager, the assessment manager must have regard to the notice when deciding the request.

389 Assessment manager to give notice of decision

After deciding the request, the assessment manager must give written notice of the decision to the person asking for the extension and any concurrence agency that gave the assessment manager a notice under section 385.

390 Approval does not lapse until request is decided

Despite section 341, the development approval does not lapse until the assessment manager decides the request.

- (3) Also, if the appellant is a person who made a request for compliance assessment, the court must decide the appeal based on the laws and policies applying when the request was made, but may give weight to any new laws and policies the court considers appropriate.
- (4) To remove any doubt, it is declared that if the appellant is the applicant or a submitter for a development application—
 - (a) the court is not prevented from considering and making a decision about a ground of appeal (based on a concurrence agency's response) merely because this Act required the assessment manager to refuse the application or approve the application subject to conditions; and
 - (b) in an appeal against a decision about a development application (superseded planning scheme), the court also must—
 - (i) consider the aspect of the appeal relating to the assessment manager's consideration of the superseded planning scheme as if the application

- were made under the superseded planning scheme;
and
 - (ii) in considering the aspect, disregard the planning scheme applying when the application was made.
- (5) In addition, if the appellant is a person who made a request for compliance assessment—
- (a) the court is not prevented from considering and making a decision about a ground of appeal (based on a response given by a local government under section 402) merely because this Act required the compliance assessor to give an action notice or include conditions in a compliance permit or compliance certificate; and
 - (b) in an appeal against a decision about a request for compliance assessment assessed and decided under a superseded planning scheme, the court also must—
 - (i) consider the appeal as if the request were made under the superseded planning scheme; and
 - (ii) disregard the planning scheme applying when the request was made.

496 Appeal decision

- (1) In deciding an appeal the court may make the orders and directions it considers appropriate.
- (2) Without limiting subsection (1), the court may—
 - (a) confirm the decision appealed against; or
 - (b) change the decision appealed against; or
 - (c) set aside the decision appealed against and make a decision replacing the decision set aside.
- (3) If the court acts under subsection (2)(b) or (c), the court's decision is taken, for this Act, other than this division, to be the decision of the entity making the appealed decision.

-
- (4) If the appeal is an appeal against the decision of a building and development committee, the court may return the matter to the committee with a direction that the committee make its decision according to law.

497 Court may allow longer period to take an action

In this part, if an action must be taken within a specified time, the court may allow a longer time to take the action if the court is satisfied there are sufficient grounds for the extension.

- (1) A party to a proceeding may, under the rules of court, appeal a decision of the court on the ground—

- (2) However, the party may appeal only with the leave of the Court of Appeal or a judge of appeal.

501 Lodging appeal stops particular actions

- (2) If a decision on an appeal about a condition imposed on a compliance permit is appealed under this division, the development must not be started until the appeal under this division is decided or withdrawn.
- (3) Despite subsections (1) and (2), if the Court of Appeal is satisfied the outcome of the appeal before it would not be affected if the development or part of the development is started before the appeal is decided, the Court of Appeal may allow the development or part of the development to start before the appeal is decided.

Note—

See section 554B(2)(b), for examples of when it is not reasonably practicable.

- (5) The chief executive must give all parties to the committee proceeding written notice of the decision to end the proceeding.

- (3) Despite subsection (2), the assessing authority need not give a show cause notice if it reasonably considers it is not appropriate in the circumstances to give the notice.

Note—

Until 1 July 2016, identification of trunk infrastructure may also take place by resolution. See, for example, section 979.

Part 2 Provisions for local governments

Division 1A Preliminary

628A Application of pt 2

This part, other than section 629 and division 4, applies to a local government only if the local government's planning scheme includes an LGIP.

Division 1 Charges for trunk infrastructure

Subdivision 1 Power to adopt charges

629 State planning regulatory provision governing charges

- (1) A State planning regulatory provision may impose a maximum for each adopted charge—
 - (a) under this chapter in relation to providing trunk infrastructure for development; or
 - (b) under the SEQ Water Act in relation to providing trunk infrastructure.
- (2) The Minister may, by gazette notice, change the amount of a maximum adopted charge.
- (3) Any increase under subsection (2) in a maximum adopted charge over a financial year must not be more than an amount equal to the amount of the maximum adopted charge at the start of the financial year multiplied by the 3-year moving average annual percentage increase in the PPI index for the period of 3 years ending at the start of the financial year.
- (4) The SPRP (adopted charges) may also—
 - (a) provide for the charges breakup; and

-
- (b) state development for which there may be an adopted charge under this chapter or land uses for which there may be an adopted charge under the SEQ Water Act for trunk infrastructure; and
 - (c) provide for the parameters mentioned in section 633(2).
- (5) In this section—

maximum adopted charge means the maximum for an adopted charge imposed under an SPRP (adopted charges) as mentioned in subsection (1) as the amount of that maximum is changed, from time to time, under subsection (2).

SPRP (adopted charges) means a State planning regulatory provision that imposes a maximum for each adopted charge under this chapter.

630 Power to adopt charges by resolution

- (1) A local government may, by resolution (a *charges resolution*), adopt charges (each an *adopted charge*) for providing trunk infrastructure for development.
- (2) However—
 - (a) a charges resolution does not, of itself, levy an infrastructure charge; and
 - (b) the making of a charges resolution is subject to this subdivision and subdivision 2; and
 - (c) an adopted charge must not be for—
 - (i) work or use of land authorised under the *Greenhouse Gas Storage Act 2009*, the *Mineral Resources Act 1989*, the *Petroleum Act 1923* or the *Petroleum and Gas (Production and Safety) Act 2004*; or
 - (ii) development in a priority development area under the *Economic Development Act 2012*.
- (3) A charges resolution must state the day when an adopted charge under the resolution is to take effect.

Note—

See section 634(2).

Subdivision 2 Charges resolutions

631 Contents—general

- (1) An adopted charge may be made only if it is—
 - (a) permitted under the SPRP (adopted charges); and
 - (b) no more than the maximum adopted charge for providing trunk infrastructure for development.

Note—

See also section 632(5).

- (2) There may be different adopted charges for developments in different parts of the local government's area.
- (3) Also, a charges resolution may do the following—
 - (a) declare there is no adopted charge for part or all of the relevant local government area;
 - (b) provide for automatic increases in levied charges from when they are levied to when they are paid (an ***automatic increase provision***).
- (4) However, an automatic increase provision must state how increases under it are to be worked out.
- (5) Also, the automatic increase must not be more than the lesser of the following—
 - (a) the difference between the levied charge and the maximum adopted charge the local government could have levied for the development when the charge is paid;
 - (b) the increase for the PPI index for the period starting on the day the levied charge was levied and ending on the day it is paid, adjusted by reference to the 3-yearly PPI index average.

(6) In this section—

3-yearly PPI index average means the PPI index smoothed in accordance with the 3-year moving average quarterly percentage change between quarters.

632 Provisions for participating local governments and distributor-retailers

(1) This section applies to each of the following (the *parties*)—

- (a) a local government that, under the SEQ Water Act, is a participating local government for a distributor-retailer;
- (b) the distributor-retailer.

(2) The parties may agree about the charges breakup (a *breakup agreement*).

(3) A breakup agreement prevails over a charges breakup under the SPRP (adopted charges).

(4) A charges resolution of the local government must state the charges breakup for all adopted charges under the resolution.

(5) However, the adopted charges must not be more than the proportion of the maximum adopted charges the local government may have under—

- (a) a breakup agreement to which it is a party; or
- (b) if it is not a party to a breakup agreement—the SPRP (adopted charges).

(6) Subsection (7) applies if there is a charges resolution of the local government and the parties later enter into a breakup agreement with a different charges breakup from the resolution.

(7) The breakup agreement does not take effect until the later of the following—

- (a) the local government makes a new charges resolution that reflects the agreement;
- (b) the distributor-retailer adopts a new infrastructure charge schedule that reflects the agreement.

633 Working out cost of infrastructure for offset or refund

- (1) For the purpose of working out an offset or refund under this part, a charges resolution must include a method for working out the cost of the infrastructure the subject of the offset or refund.
- (2) The method must be consistent with the parameters for the purpose provided for under—
 - (a) the SPRP (adopted charges); or
 - (b) if the parameters are not provided for under the SPRP (adopted charges)—a guideline made by the Minister and prescribed by regulation.

633A Criteria for deciding conversion application

- (1) A charges resolution must include criteria for deciding a conversion application.
- (2) The criteria must be consistent with parameters for the criteria provided for under a guideline made by the Minister and prescribed by regulation.

634 Steps after making charges resolution

- (1) On making a charges resolution, a local government must—
 - (a) upload and keep the resolution on its website; and
 - (b) attach the resolution to each copy of its planning scheme that it gives to, or publishes for, others.

Note—

A charges resolution is not part of a planning scheme even if it is attached to the scheme.

- (2) The charges under the charges resolution take effect—
 - (a) if the charges resolution is uploaded on the relevant local government website before the beginning of the day stated in the resolution as the day for the charges to take effect—on the day stated in the resolution; or

-
- (b) otherwise—on the day the charges resolution is uploaded on the website.

Subdivision 3 Levying charges

635 When charge may be levied and recovered

- (1) This section applies if—
- (a) a development approval has been given; and
 - (b) an adopted charge applies for providing the trunk infrastructure for the development; and
 - (c) section 205 does not apply to the development.
- (2) The local government must give the applicant an infrastructure charges notice.

Note—

Under section 364, a local government may give a new infrastructure charges notice for a negotiated decision notice.

- (3) The local government must give the notice—
- (a) generally—
 - (i) if it is the assessment manager—at the same time as, or as soon as practicable after, the development approval is given; or
 - (ii) if it is a concurrence agency—within 10 business days after it receives a copy of the development approval; or
 - (b) if the development approval is a deemed approval for which a decision notice has not been given—within 20 business days after the local government receives a copy of the deemed approval notice; or
 - (c) if paragraphs (a) and (b) do not apply—within 20 business days after the local government receives a copy of the development approval.

- (4) Subsection (3) is subject to any provision under which an infrastructure charges notice may be amended or replaced.

Note—

See sections 626(3), 643(1), 657(3) and 662(4)(b).

- (5) The infrastructure charges notice lapses if the development approval stops having effect.
- (6) If the infrastructure charges notice levies on the applicant an amount for a charge worked out by applying the adopted charge (a **levied charge**), the following apply for the levied charge—
- (a) its amount is subject to sections 636 and 649;
 - (b) it is payable by the applicant;
 - (c) it attaches to the land;
 - (d) it only becomes payable as provided for under subdivision 4;
 - (e) it is subject to any agreement under section 639(1).

636 Limitation of levied charge

- (1) A levied charge may be only for additional demand placed upon trunk infrastructure that will be generated by the development.
- (2) In working out additional demand, the demand on trunk infrastructure generated by the following must not be included—
- (a) an existing use on the premises if the use is lawful and already taking place on the premises;
 - (b) a previous use that is no longer taking place on the premises if the use was lawful at the time it was carried out;
 - (c) other development on the premises if the development may be lawfully carried out without the need for a further development permit.

-
- (3) However, the demand generated by a use or development mentioned in subsection (2) may be included if an infrastructure requirement that applies or applied to the use or development has not been complied with.
- (3A) Also, the demand generated by development mentioned in subsection (2)(c) may be included if—
- (a) an infrastructure requirement applies to the land on which the development will be carried out; and
 - (b) the infrastructure requirement was imposed on the basis of development of a lower scale or intensity being carried out on the land.
- (4) In this section—

charges notice means—

- (a) an infrastructure charges notice; or
- (b) a notice mentioned in section 977(1).

infrastructure requirement means a charges notice, or a condition of a development approval, that requires infrastructure or a payment in relation to demand on trunk infrastructure.

637 Requirements for infrastructure charges notice

- (1) An infrastructure charges notice must state all of the following for the levied charge—
- (a) its current amount;
 - (b) how it has been worked out;
 - (c) the land;
 - (d) when it will be payable under section 638 (without considering any possible operation of section 639);
 - (e) if an automatic increase provision applies—
 - (i) that it is subject to automatic increases; and
 - (ii) how the increases are worked out under the provision;

- (f) whether an offset or refund under this part applies and, if so, information about the offset or refund, including when the refund will be given.
- (1A) However, the infrastructure charges notice need not include the information mentioned in subsection (1)(f) if the person who is to receive the notice has—
- (a) advised, in writing, the local government giving the notice that the information need not be included in the notice; or
 - (b) indicated, in an approved form, that the information need not be included in the notice.
- (2) The infrastructure charges notice must also include, or be accompanied by, an information notice about the decision to give the notice.

Subdivision 4 Payment

638 Payment triggers generally

- (1) A levied charge becomes payable—
- (a) if the charge applies for reconfiguring a lot—when the local government that levied the charge approves the plan of subdivision for the reconfiguration; or
 - (b) if the charge applies for building work—when the certificate of classification or final inspection certificate for the building work is given; or
 - (c) if the charge applies for a material change of use—when the change happens; or
 - (d) if the charge applies for other development—on the day stated in the infrastructure charges notice under which the charge was levied.
- (2) This section is subject to section 639.

639 Agreements about payment or provision instead of payment

- (1) The recipient of an infrastructure charges notice and the local government that gave it may agree about either or both of the following—
 - (a) whether the levied charge under the notice may be paid other than as required under section 638 including whether it may be paid by instalments;
 - (b) whether infrastructure may be provided instead of paying part or all of the levied charge.
- (2) If the levied charge is subject to an automatic increase provision, the agreement must state how increases in the charge are payable under the agreement.

Subdivision 5 Changing charges during relevant appeal period

640 Application of sdiv 5

This subdivision applies to the recipient of an infrastructure charges notice (the *original notice*) given by a local government.

641 Submissions for infrastructure charges notice

During the relevant appeal period, the recipient may make submissions to the local government about the original notice.

642 Consideration of submissions

The local government must consider the submissions.

643 Decision about submissions

- (1) If the local government decides it agrees with a submission, it must, within 5 business days after making the decision, give

the recipient a new infrastructure charges notice (a *negotiated notice*).

- (2) The local government may give only 1 negotiated notice.
- (3) A negotiated notice—
 - (a) must be in the same form as the original notice; and
 - (b) must state the nature of the changes; and
 - (c) replaces the original notice.
- (4) If the local government decides it does not agree with any of the submissions, it must, within 5 business days after making the decision, give the recipient a notice stating the decision.
- (5) Despite another provision of this Act, the relevant appeal period for the infrastructure charges notice starts again when the recipient is given the notice under subsection (4).

644 Suspension of relevant appeal period

- (1) If the recipient needs more time to make submissions, the recipient may give the local government a notice (a *suspension notice*) suspending the relevant appeal period.
- (2) The recipient may give only 1 suspension notice.
- (3) If the submissions are not made within 20 business days after the giving of the suspension notice, the balance of the relevant appeal period restarts.
- (4) If submissions are made within the 20 business days and the recipient gives the local government a notice withdrawing the suspension notice, the balance of the relevant appeal period restarts the day after the local government receives the notice of withdrawal.

Division 2 Development approval conditions about trunk infrastructure

Subdivision 1 Conditions for necessary trunk infrastructure

645 Application and operation of sdiv 1

- (1) This subdivision applies if trunk infrastructure necessary to service premises the subject of a development application (the *subject premises*)—
 - (a) has not been provided; or
 - (b) has been provided but is inadequate.
- (2) Sections 646 and 647 provide for a local government to be able to impose particular conditions on the development approval (each condition is a *necessary infrastructure condition*).

646 Necessary infrastructure condition for LGIP-identified infrastructure

- (1) This section applies if the LGIP identifies adequate trunk infrastructure to service the subject premises.
- (2) The local government may impose a condition requiring either or both of the following to be provided at a stated time—
 - (a) the identified infrastructure;
 - (b) different trunk infrastructure delivering the same desired standard of service.

647 Necessary infrastructure condition for other infrastructure

- (1) This section applies if the LGIP does not identify adequate trunk infrastructure to service the subject premises.

- (2) The local government may impose a condition on a development approval that requires development infrastructure necessary to service the premises to be provided at a stated time.

Note—

See section 627, definition *trunk infrastructure*.

- (3) However, a local government may impose a condition under subsection (2) only if the development infrastructure services development consistent with the assumptions stated in the LGIP about the type, scale, location or timing of future development.

648 Deemed compliance with necessary or reasonable requirements

- (1) A necessary infrastructure condition is taken to comply with the relevant or reasonable requirements if—
 - (a) generally, the infrastructure required is—
 - (i) necessary to service the subject premises; and
 - (ii) the most efficient and cost-effective solution for servicing other premises in the general area of the subject premises; and
 - (b) for a necessary infrastructure condition that requires the provision of the infrastructure on the subject premises—its provision is not an unreasonable imposition on—
 - (i) the development; or
 - (ii) the use of the subject premises as a consequence of the development.
- (2) To remove any doubt, it is declared that a necessary infrastructure condition may be imposed for infrastructure even if it will service premises other than the subject premises.

649 Offset or refund requirements

- (1) This section applies if—
 - (a) trunk infrastructure the subject of a necessary infrastructure condition services, or is planned to service, premises other than the subject premises; and
 - (b) an adopted charge applies to the development.
- (2) If the cost of the infrastructure required to be provided under the condition is equal to or less than the amount worked out by applying the adopted charge to the development, the cost must be offset against that amount.

Note—

For how the cost is worked out, see sections 633 and 657.

- (3) If the cost of the infrastructure required to be provided under the condition is more than the amount worked out by applying the adopted charge to the development—
 - (a) there is no amount payable for the development approval; and
 - (b) the local government must refund the applicant an amount equal to the difference between the establishment cost of the trunk infrastructure and the amount worked out by applying the adopted charge to the development.

Example—

A necessary infrastructure condition of a development approval requires transport infrastructure to be provided. The cost of the transport infrastructure is \$500,000. Adopted charges apply to the development at a total amount of \$600,000. The cost of the infrastructure under the necessary infrastructure condition (\$500,000) must be offset against the total amount worked out by applying the adopted charge to the development (\$600,000), rather than offsetting it only against the part of the charge relating to transport infrastructure.

Subdivision 2 Conditions for additional trunk infrastructure costs

650 Power to impose

- (1) A local government may impose a condition (an *additional payment condition*) requiring the payment of additional trunk infrastructure costs only if—
 - (a) the development—
 - (i) will generate infrastructure demand of more than that required to service the type or scale of future development that the LGIP assumes; or
 - (ii) will require new trunk infrastructure earlier than when identified in the LGIP; or
 - (iii) is for premises completely or partly outside the PIA; and
 - (b) the development would impose additional trunk infrastructure costs on the local government after taking into account either or both of the following—
 - (i) levied charges for the development;
 - (ii) trunk infrastructure provided, or to be provided, by the applicant under this part.
- (2) However, an additional payment condition must not be imposed for a State infrastructure provider.
- (3) An additional payment condition is taken to comply with the relevant or reasonable requirements to the extent the infrastructure is necessary, but not yet available, to service the development.
- (4) Subsection (3) applies even if the infrastructure is also intended to service other development.
- (5) The power to impose an additional payment condition is subject to the rest of this subdivision.

651 Content of additional payment condition

- (1) An additional payment condition must state all of the following—
 - (a) why it was imposed;
 - (b) the amount of the payment to be made under the condition;
 - (c) details of the trunk infrastructure for which the payment is required;
 - (d) when the amount becomes payable (the *payment time*);
 - (e) that the applicant may, instead of making the payment, elect to provide part or all of the trunk infrastructure;
 - (f) if the applicant so elects—
 - (i) any requirements for providing the trunk infrastructure; and
 - (ii) when it must be provided.
- (2) Unless the applicant and the local government otherwise agree, the payment time is—
 - (a) if the trunk infrastructure is necessary to service the premises—by the day the development, or work associated with the development, starts; or
 - (b) otherwise—
 - (i) if the additional payment condition applies for reconfiguring a lot—when the local government approves the plan of subdivision for the reconfiguration; or
 - (ii) if the additional payment condition applies for building work—when the certificate of classification or final inspection certificate for the work is given; or
 - (iii) if the additional payment condition applies for a material change of use—when the change happens.

652 Restriction if development completely in PIA

- (1) This section applies for an additional payment condition imposed by a local government for development completely inside the PIA.
- (2) The additional payment condition may require a payment only as follows—
 - (a) for trunk infrastructure to be provided earlier than planned in the LGIP—the additional establishment cost that would be incurred by the local government in providing the trunk infrastructure earlier than planned;
 - (b) for infrastructure associated with a different type or scale of development from that assumed in the LGIP—the establishment cost of any additional trunk infrastructure made necessary by the development.

653 Other area restrictions

- (1) This section applies for an additional payment condition imposed by a local government for development completely or partly outside the PIA.
- (2) The additional payment condition may only require the payment of—
 - (a) the establishment cost of infrastructure that is—
 - (i) made necessary by the development; and
 - (ii) if the relevant local government's planning scheme indicates the premises is part of an area intended for future development for non-rural purposes—necessary to service the rest of the area; and
 - (b) either or both of the following establishment costs of any temporary infrastructure—
 - (i) costs required to ensure the safe or efficient operation of infrastructure needed to service the development;
 - (ii) costs made necessary by the development; and

- (c) any decommissioning, removal and rehabilitation costs of the temporary infrastructure; and
- (d) the maintenance and operating costs for up to 5 years of the infrastructure and temporary infrastructure as mentioned in paragraphs (a) and (b).

654 Refund if development in PIA

- (1) This section applies for an additional payment condition imposed by a local government for development completely inside the PIA.
- (2) The local government must refund the payer the proportion of the establishment cost of the infrastructure that—
 - (a) may be apportioned reasonably to other users of the infrastructure; and
 - (b) has been, is or is to be, the subject of a levied charge by the local government.

655 Refund if development approval ceases

- (1) This section applies if—
 - (a) a development approval subject to an additional payment condition no longer has effect; and
 - (b) a payment has been made under the condition; and
 - (c) construction of the infrastructure the subject of the condition has not substantially started before the development approval no longer has effect.
- (2) The local government must refund the payer any part of the payment the local government has not spent, or contracted to spend, on designing and constructing the infrastructure.
- (3) Timing of the refund is subject to terms agreed between the payer and local government.

656 Additional payment condition does not affect other powers

To remove any doubt, it is declared that the imposition of an additional payment condition does not prevent a local government from doing the following—

- (a) adopting charges for trunk infrastructure and levying charges;
- (b) imposing a condition for non-trunk infrastructure;
- (c) imposing a necessary infrastructure condition.

Subdivision 3 Working out cost for required offset or refunds

657 Process

- (1) This section applies if—
 - (a) a development approval requires the applicant to provide trunk infrastructure; and
 - (b) the local government has given the applicant for the development approval an infrastructure charges notice that includes details of an offset or refund under this part relating to the establishment cost of the trunk infrastructure; and
 - (c) the applicant does not agree with the value of the establishment cost.
- (2) The applicant may, by notice to the local government, require it to use the method under the relevant charges resolution to recalculate the establishment cost.
- (2A) A notice under subsection (2) must be given to the local government before the levied charge under the infrastructure charges notice becomes payable under section 638.
- (3) By notice to the applicant, the local government must amend the existing infrastructure charges notice.

-
- (4) The amended infrastructure charges notice must adopt the method to work out the establishment cost.

Division 3 Miscellaneous provisions about trunk infrastructure

Subdivision 1 Conversion of particular non-trunk infrastructure before construction starts

658 Application of sdiv 1

This subdivision applies if—

- (a) a particular condition of a development approval under section 665 requires non-trunk infrastructure to be provided; and
- (b) the construction of the non-trunk infrastructure has not started.

Note—

The combined effect of the definitions *trunk infrastructure* and *non-trunk infrastructure* under section 627 is that where infrastructure is not identified in an LGIP it is, by default, non-trunk infrastructure.

659 Application to convert infrastructure to trunk infrastructure

- (1) The applicant for the development approval may apply (a *conversion application*) to convert non-trunk infrastructure to trunk infrastructure.
- (2) The application must be made to the local government in writing.

660 Deciding conversion application

- (1) The local government must consider and decide the conversion application within the required period.
- (2) In deciding the conversion application, the local government must have regard to the criteria for deciding the application in its charges resolution.
- (3) However, at any time before making the decision, the local government may give a notice to the applicant requiring the applicant to give information the local government reasonably needs to make the decision.
- (4) The notice must state—
 - (a) what information it requires; and
 - (b) a period of at least 10 business days for giving the information; and
 - (c) the effect of subsection (5).
- (5) The application lapses if the applicant does not comply with the notice within the later of the following—
 - (a) the period stated in the notice for giving the information;
 - (b) any later period, as agreed within the period stated in the notice, between the local government and the applicant.
- (6) In this section—

required period means 30 business days after—

 - (a) generally—the making of the application; or
 - (b) if an information requirement is made—the requirement is complied with.

661 Notice of decision

- (1) As soon as practicable after deciding the conversion application, the local government must give the applicant notice of the decision.
- (2) If the decision is to convert non-trunk infrastructure to trunk infrastructure, the notice must state whether an offset or

refund under this part applies and, if it does, details of the offset or refund.

- (3) If the decision is not to convert non-trunk infrastructure to trunk infrastructure, the notice must be an information notice about the decision.

662 Effect of and action after conversion

- (1) This section applies if the decision on a conversion application is to convert non-trunk infrastructure to trunk infrastructure.

Note—

See section 627, definition *trunk infrastructure*.

- (2) The condition of the relevant development approval requiring the non-trunk infrastructure to be provided no longer has effect.
- (3) Within 20 business days after making the decision, the local government may amend the development approval by imposing a necessary infrastructure condition for the trunk infrastructure.

- (1) A State infrastructure provider may impose a condition on a development approval (a *State-related condition*) about—

Examples of actions that subsection (3) requires—

- disclosing to the other party to the negotiation in a timely way information relevant to entering into the proposed agreement
- considering and responding in a timely way to the other party's proposals about the proposed agreement
- giving reasons for each response

672 Content of infrastructure agreement

- (1) An infrastructure agreement must—
- (a) if obligations under it would be affected by a change in the ownership of land the subject of the agreement—include a statement about how the obligations must be fulfilled in that event; and
 - (b) if the fulfilment of obligations under it depends on development entitlements that may be affected by a change to a planning instrument—include a statement about both of the following—
 - (i) refunding or reimbursing amounts paid under the agreement;
 - (ii) changing or cancelling the obligations if the development entitlements are changed without the obligee's consent; and
 - (c) include any other matter required by regulation to be included.

document evidencing the owner's consent to the local government for the land to which the consent applies.

- (6) The part is released from the obligations.
- (7) The obligations are no longer binding on the owner of the part.

675 Exercise of discretion unaffected by infrastructure agreement

An infrastructure agreement is not invalid merely because its fulfilment depends on the exercise of a discretion by a public sector entity about an existing or future development application.

676 Infrastructure agreement prevails over approval and charges notice

- (1) If an infrastructure agreement is inconsistent with a development approval or charges notice, the agreement prevails to the extent of the inconsistency.
- (2) However, if a State infrastructure provider (other than the chief executive) is a party to the infrastructure agreement, subsection (1) applies only if the chief executive has approved the agreement.

Chapter 9 Miscellaneous

Part 1 Existing uses and rights protected

681 Lawful uses of premises on commencement

- (1) To the extent an existing use of premises was lawful immediately before the commencement of this Act, the use is taken to be a lawful use under this Act on the commencement.
- (2) To remove any doubt, it is declared that subsection (1) does not, and has never, affected or otherwise limited a requirement under another Act to obtain an approval for the existing use.

Example of an approval—

an environmental authority under the Environmental Protection Act

682 Lawful uses of premises protected

- (1) Subsection (2) applies if—

- (a) immediately before the commencement of a planning instrument or an amendment of a planning instrument, the use of premises was a lawful use of the premises; or
 - (b) immediately before an existing planning instrument starts applying to land, the use of premises was a lawful use of the premises.
- (2) Neither the instrument nor the amendment can—
- (a) stop the use from continuing; or
 - (b) further regulate the use; or
 - (c) require the use to be changed.

683 Lawfully constructed buildings and works protected

To the extent a building or other work has been lawfully constructed or effected, neither a planning instrument nor an amendment of a planning instrument can require the building or work to be altered or removed.

684 New planning instruments can not affect existing development approvals or compliance permits

- (1) This section applies if—
- (a) a development approval or compliance permit exists for premises; and
 - (b) after the approval or permit is given, a new planning instrument or an amendment of a planning instrument commences.
- (2) To the extent the approval or permit has not lapsed, neither the planning instrument nor the amendment can stop or further regulate the development, or otherwise affect the approval or permit.

685 Implied and uncommenced right to use premises protected

- (1) Subsection (2) applies if—

- (a) a development approval comes into effect for a development application; and
 - (b) when the application was properly made, a material change of use, for a use implied by the application, was self-assessable development or exempt development; and
 - (c) after the application was properly made, but before the use started, a new planning instrument, or an amendment of a planning instrument—
 - (i) declared the material change of use to be assessable development or development requiring compliance assessment; or
 - (ii) changed an applicable code for the material change of use.
- (2) The use is taken to be a lawful use in existence immediately before the commencement of the new planning instrument or amendment if—
- (a) the development, the subject of the approval, is completed within the time stated for completion of the development in—
 - (i) a permit; or
 - (ii) this Act; and
 - (b) the use of the premises starts within 5 years after the completion.
- (3) Subsection (4) applies if—
- (a) a compliance permit comes into effect for development; and
 - (b) when the request for compliance assessment of the development was made, a material change of use, for a use implied by the development, was self-assessable development or exempt development; and
 - (c) after the request was made, but before the use started, a new planning instrument, or an amendment of a planning instrument—

[s 686]

- (i) declared the material change of use to be assessable development or development requiring compliance assessment; or
 - (ii) changed an applicable code for the material change of use.
- (4) The use is taken to be a lawful use in existence immediately before the commencement of the new planning instrument or amendment if the use of the premises starts within 5 years after the compliance permit is given.

686 State forests

For this Act, each of the following is taken to be an existing lawful use of a State forest—

- (a) conservation;
- (b) planting trees, or managing, felling and removing standing trees, for an ongoing forestry business in a plantation or native forest;
- (c) grazing;
- (d) recreation.

687 Particular development may still be assessable or self-assessable development or development requiring compliance assessment

Nothing in this part stops development in relation to a lawful use being prescribed under a regulation under section 232(1) as self-assessable development, development requiring compliance assessment or assessable development if the development begins after it is so prescribed.

Part 2 Environmental impact statements

Division 1 Preliminary

688 When EIS process applies

This part applies for development prescribed under a regulation, if the development—

- (a) is or is proposed to be the subject of a development application; or

 - (i) whether or not to proceed with a proposed designation; and
 - (ii) if the designation proceeds—the requirements included in the designation;

Note—

See section 202 (What designations may include).

- (g) to meet any assessment requirements under—
 - (i) the Commonwealth Environment Act for development that is, or includes, a controlled action under that Act; or
 - (ii) a bilateral agreement;

Notes—

- 1 For controlled actions under the Commonwealth Environment Act, see section 67 (What is a *controlled action*?) of that Act.
- 2 For assessment requirements of controlled actions, see chapter 4, part 8 (Assessing impacts of controlled actions) of that Act.
- 3 For bilateral agreements, see chapter 3 (Bilateral agreements) of that Act.

693 Preparation of draft EIS

- (1) The proponent must prepare a draft EIS and give it to the chief executive together with the fee prescribed under a regulation for administering the remaining EIS process.

 - (7) A local government receiving a copy of the draft EIS must make the copy available for inspection and purchase until the last day for making submissions.

695 Making submissions on draft EIS

- (1) Until the last day for making submissions—

- (a) any person may make a submission to the chief executive about the draft EIS; and

- (a) asking the proponent to change the draft EIS in a way stated in the notice; or
 - (b) stating the chief executive has accepted the draft EIS as the EIS for the development.

- (3) The chief executive's action under subsection (2) must be based on the chief executive's considerations under subsection (1).
- (4) If the chief executive asks the proponent to change the draft EIS, the chief executive must, when the chief executive is satisfied with the changed draft EIS, give the proponent a notice stating the chief executive has accepted the changed draft as the EIS for the development.

697 EIS assessment report

The chief executive must prepare a report (an *EIS assessment report*) about the EIS within 30 business days after the chief executive gave the proponent the notice under section 696(2)(b).

698 Criteria for preparing report

In preparing the EIS assessment report, the chief executive must consider each of the following—

 - (ii) the entities that would be the assessment manager and all referral agencies for a development application for the development, if an application is made; and
- (c) to the extent the development for which the EIS has been prepared is for community infrastructure intended to be carried out on land proposed to be designated for the infrastructure—the entity who would be the designator under chapter 5; and
- (d) another entity prescribed under a regulation.

Division 3 How EIS process affects IDAS

701 How IDAS applies for development the subject of an EIS

- (1) Subsection (2) applies to a development application to the extent the development is the subject of the EIS.
- (2) For the application—
 - (a) the EIS and the EIS assessment report are part of the supporting material; and
 - (b) sections 276 to 281 and the notification stage do not apply; and
 - (c) for development requiring impact assessment—a properly made submission about the draft EIS is taken to be a properly made submission about the application; and
 - (d) if there is a referral agency—the referral agency’s assessment period does not start unless the chief executive gives the referral agency the material under section 700; and
 - (e) if there is no referral agency—the decision stage does not start unless the chief executive gives the assessment manager the material under section 700; and
 - (f) if the application is changed in a way that the development is substantially different—the EIS process starts again for the development.
- (3) If the application has not been made, subsection (2) applies only to the extent—
 - (a) the application is made within 3 months after the chief executive gives the applicant all of the material as required under section 700; and
 - (b) the development is substantially the same as the development to which the EIS relates.
- (4) The chief executive may extend the time mentioned in subsection (3)(a) at any time before the period ends.

Division 4 How EIS process affects designation

702 Matters a designator must consider

- (1) Subsection (2) applies to the extent the development, the subject of the EIS, is development for community infrastructure intended to be carried out on land proposed to be designated for the infrastructure.
- (2) In fulfilling the designator's functions under sections 4(1)(a) and 5(1), the designator must have regard to the EIS and the EIS assessment report.

Part 3 Compensation

703 Definitions for pt 3

In this part—

change, for an interest in land, means a change to the planning scheme or any planning scheme policy affecting the land.

owner, of an interest in land, means an owner of the interest at the time a change relating to the interest is made.

704 Compensation for reduced value of interest in land

- (1) An owner of an interest in land is entitled to be paid reasonable compensation by a local government if—
 - (a) a change reduces the value of the interest; and
 - (b) a request is made to a local government under chapter 3, part 2, division 5—
 - (i) to apply a superseded planning scheme to the carrying out of assessable development; or

- (ii) to assess and decide a proposed development application under a superseded planning scheme; or
 - (iii) to—
 - (A) accept a request for compliance assessment of development that is assessable development and was development requiring compliance assessment under a superseded planning scheme; and
 - (B) assess and decide the request under the superseded planning scheme; and
 - (c) the local government decides to refuse the request; and
 - (d) a development application for a development permit has been made for the development for which the request was made; and
 - (e) the application is assessed having regard to the planning scheme and planning scheme policies in effect when the application was made; and
 - (f) the assessment manager, or, on appeal, the court or building and development committee—
 - (i) refuses the application; or
 - (ii) approves the application in part or subject to conditions or both in part and subject to conditions.
- (2) Also, an owner of an interest in land is entitled to be paid reasonable compensation by a local government if—
- (a) a change reduces the value of the interest; and

 - (i) to apply a superseded planning scheme to the carrying out of development requiring compliance assessment; or

- (ii) to assess and decide a proposed request for compliance assessment under a superseded planning scheme; and
 - (c) the local government decides to refuse the request mentioned in paragraph (b); and
 - (d) a request for compliance assessment has been made for the development for which the request mentioned in paragraph (b) was made; and
 - (e) the request for compliance assessment is assessed having regard to the planning scheme and planning scheme policies in effect when the request was made; and
 - (f) the compliance assessor, or, on appeal, the court or building and development committee approves the application subject to conditions.
- (3) In addition, an owner of an interest in land is entitled to be paid reasonable compensation by a local government if—
- (a) a change reduces the value of the interest; and
 - (b) a request is made to a local government under chapter 3, part 2, division 5—
 - (i) to apply a superseded planning scheme to the carrying out of prohibited development; or
 - (ii) to accept, assess and decide a proposed development application or to accept, assess and decide a proposed request for compliance assessment for prohibited development under a superseded planning scheme; and
 - (c) the local government decides to refuse the request.

705 Compensation for interest in land being changed to public purpose

An owner of an interest in land is entitled to be paid reasonable compensation by a local government if because of a change the only purpose for which the land could be used,

other than the purpose for which it was lawfully being used when the change was made, is for a public purpose.

706 Limitations on compensation under ss 704 and 705

- (1) Despite sections 704 and 705, compensation is not payable if the change—
 - (a) has the same effect as another statutory instrument, other than a temporary local planning instrument, in relation to which compensation is not payable; or
 - (b) is made to include a mandatory part of the standard planning scheme provisions; or
 - (c) is made to include a part of the standard planning scheme provisions (the *standard part*) and the effect of the part is substantially similar to the part of the planning scheme or planning scheme policy replaced by the standard part; or
 - (d) is about the relationships between, the location of, or the physical characteristics of buildings, works or lots, but the yield achievable is substantially the same as it would have been before the change; or
 - (e) is about a designation made under chapter 5; or
 - (f) is about the matters comprising a priority infrastructure plan; or
 - (g) is about the matters comprising a planning scheme policy to which section 847 applies; or
 - (h) removes or changes an item of infrastructure shown in the scheme; or
 - (i) affects development that, had it happened under the superseded planning scheme—
 - (i) would have led to significant risk to persons or property from natural processes (including flooding, land slippage or erosion) and the risk could not have been significantly reduced by conditions attached to a development approval; or

- (ii) would have caused serious environmental harm and the harm could not have been significantly reduced by conditions attached to a development approval.
- (2) For subsection (1)(d), yield for residential building work is substantially the same if—
 - (a) the proposed residential building has a gross floor area of not more than 2000m²; and
 - (b) the gross floor area of the proposed residential building is reduced by not more than 15%.
- (3) Also, compensation is not payable—
 - (a) for a matter under this part if compensation has already been paid for the matter to a previous owner of the interest in land; or
 - (b) for anything done in contravention of this Act; or
 - (c) if infrastructure shown in a planning scheme is not supplied, or supplied to a different standard, or supplied at a different time than the time stated in the planning scheme.
- (4) If a matter for which compensation is payable under this part is also a matter for which compensation is payable under another Act, the claim for the compensation must be made under the other Act.
- (5) In this section—

gross floor area means the sum of the floor areas (inclusive of all walls, columns and balconies, whether roofed or not) of all stories of every building located on a site, excluding the areas (if any) used for building services, a ground floor public lobby, a public mall in a shopping centre, and areas associated with the parking, loading and manoeuvring of motor vehicles.

mandatory part, of the standard planning scheme provisions, means a part of the provisions that the provisions state—

- (a) must be included in a local planning instrument; and

-
- (b) a local government does not have a discretion to include an alternative part of the provisions in its planning scheme or a planning scheme policy.

Example—

The standard planning scheme provisions might state that all planning schemes must include a particular car parking code set out in the provisions. If, under the provisions, there is no alternative to including this particular car parking code, the code is a mandatory part of the standard planning scheme provisions.

yield means—

- (a) for buildings and works—the gross floor area, or density of buildings or persons, or plot ratio, achievable for premises; and
- (b) for reconfiguring a lot—the number of lots in a given area of land.

707 Compensation for erroneous planning and development certificates

If a person suffers financial loss because of an error or omission in a planning and development certificate, the person is entitled to be paid reasonable compensation by the local government.

708 Time limits for claiming compensation

A claim for compensation under this part must be given to the local government—

- (a) if the entitlement to claim the compensation is under section 704(1)—within 6 months after the day the application mentioned in section 704(1)(d) is refused or approved in part, or subject to conditions or approved both in part and subject to conditions; or
- (b) if the entitlement to claim the compensation is under section 704(2)—within 6 months after the day the request for compliance assessment mentioned in section 704(2)(d) is approved subject to conditions; or

- (c) if the entitlement to claim the compensation is under section 704(3)—within 6 months after the day the request mentioned in section 704(3)(b) is refused; or
- (d) if the entitlement to claim the compensation is under section 705—within 2 years after the day the change came into effect; or
- (e) if the entitlement to claim the compensation is under section 707—at any time after the day the certificate is given.

709 Time limits for deciding and advising on claims

- (1) The local government must decide each claim for compensation within 60 business days after the day the claim is made.
- (2) The chief executive officer of the local government must, within 10 business days after the day the claim is decided—
 - (a) give the claimant written notice of the decision; and
 - (b) if the decision is to pay compensation—notify the amount of the compensation to be paid; and
 - (c) advise the claimant that the decision, including any amount of compensation payable, may be appealed.

710 Deciding claims for compensation

- (1) In deciding a claim for compensation under this part, the local government must—
 - (a) grant all of the claim; or
 - (b) grant part of the claim and reject the rest of the claim; or
 - (c) refuse all of the claim.
- (2) However, if the entitlement to claim the compensation is under section 705, the local government may decide the claim by—

- (a) giving a notice of intention to resume the interest in the land under the Acquisition Act, section 7; or
- (b) in addition to making a decision under subsection (1)(b) or (c)—decide to amend the planning scheme so that use of the land for the purposes the land could have been used for under the superseded planning scheme would be consistent with the new or amended planning scheme or planning scheme policy.

711 Calculating reasonable compensation involving changes

- (1) For compensation payable because of a change mentioned in section 704 or 705, reasonable compensation is the difference between the market values, appropriately adjusted having regard to the following matters, to the extent they are relevant—
 - (a) any limitations or conditions that may reasonably have applied to the development of the land if the land had been developed under the superseded planning scheme;
 - (b) any benefit accruing to the land from the change, including but not limited to the likelihood of improved amenity in the locality of the land;
 - (c) if the owner has an interest in land adjacent to the land, any benefit accruing to the adjacent land because of—
 - (i) the coming into effect of the change or any other change made before the claim for compensation was made; or
 - (ii) the construction of, or improvement to, infrastructure on the adjacent land under the planning scheme or planning scheme policy, other than infrastructure funded by the owner, before the claim for compensation was made;
 - (d) the effect of any other changes to the planning scheme or planning scheme policy made since the change, but before the request under chapter 3, part 2, division 5 was made;

- (e) if the request under chapter 3, part 2, division 5 was refused and a development application, made for the development for which the request was made, is approved in part or subject to conditions—the effect of the approval on the value of the land;
 - (f) if the request under chapter 3, part 2, division 5 was refused and a request for compliance assessment, made for the development for which the request was made, is approved subject to conditions—the effect of the approval on the value of the land.
- (2) Despite subsection (1), if the land for which compensation is claimed has, since the day of the change, become or ceased to be separate from other land, the amount of reasonable compensation must not be increased because the land has become, or ceased to be, separate from other land.
 - (3) In this section—

difference between the market values is the difference between the market value of the interest in land immediately before the change came into effect, disregarding any temporary local planning instrument, and the market value of the interest immediately after the change came into effect.

712 When compensation is payable

If compensation is payable under this part, the compensation must be paid within 30 business days after the last day an appeal could be made against the local government's decision about the payment of compensation, or if an appeal is made, within 30 business days after the day the appeal is decided or withdrawn.

- (1) This section applies if—
- (a) a local government is satisfied the taking of land would help to achieve the strategic outcomes stated in its planning scheme; or
 - (b) at any time after a development approval or compliance permit has taken effect, the local government is satisfied—
 - (i) the development the subject of the development approval or compliance permit would create a need to construct infrastructure on land or carry drainage over land; and
 - (ii) the applicant for the development approval or the person who made the request for compliance assessment has taken reasonable measures to obtain the agreement of the owner of the land to actions that would facilitate the construction of the infrastructure or the carriage of the drainage, but has not been able to obtain the agreement; and
 - (iii) the action is necessary to allow the development to proceed.
- (2) If the local government satisfies itself of a matter in subsection (1) and the Governor in Council approves of the taking of the land, the local government is taken to be a

constructing authority under the Acquisition Act and under that Act may take the land.

- (3) If the local government satisfies itself of the matters in subsection (1)(b), it is immaterial that the applicant or person who requested compliance assessment may also derive any measurable benefit from the resumption action.
- (4) To avoid any doubt, it is declared that the local government's power under this section to purchase or take land as a constructing authority under the Acquisition Act includes the ability to purchase or take an easement under section 6 of that Act.

715 Power of assessment manager or other entity to enter land in particular circumstances

- (1) An assessment manager or its agent, or a relevant entity for a request for compliance assessment or its agent, may enter land at all reasonable times to undertake works if the assessment manager or entity is satisfied—
 - (a) implementing a development approval or compliance permit would require the undertaking of works on land other than the land the subject of the approval or permit; and
 - (b) the applicant or person who requested compliance assessment has taken reasonable steps to obtain the agreement of the owner of the land to enable the works to proceed, but has not been able to obtain the agreement; and

- (2) A claim for the compensation must be made—
 - (a) to the assessment manager or entity in the approved form; and
 - (b) within 2 years after the entitlement to compensation arose.
- (3) The assessment manager or entity must decide the claim within 40 business days after the claim is made.

- (2) To the extent a structure plan is inconsistent with a regulation made under section 232(1) or (2), the structure plan is of no effect.
- (3) If there is an inconsistency between a structure plan and a State planning instrument, the State planning instrument prevails to the extent of the inconsistency.

- (3) However, if—
 - (a) the structure plan for the declared master planned area requires 1 or more master plans for all or part of the land; and
