# Environmental Protection Act 1994

An Act about the protection of Queensland's environment

## Chapter 1 Preliminary

### Part 1 Introductory provisions

#### 1 Short title

This Act may be cited as the *Environmental Protection Act 1994*.

### Part 2 Object and achievement of Act

#### 3 Object

The object of this Act is to protect Queensland's environment while allowing for development that improves the total quality of life, both now and in the future, in a way that maintains the ecological processes on which life depends (*ecologically sustainable development*).

#### 4 How object of Act is to be achieved

- (1) The protection of Queensland's environment is to be achieved by an integrated management program that is consistent with ecologically sustainable development.
- (2) The program is cyclical and involves the following phases—
  - (a) phase 1—establishing the state of the environment and defining environmental objectives;

[s 4]

---

- (b) phase 2—developing effective environmental strategies;
  - (c) phase 3—implementing environmental strategies and integrating them into efficient resource management;
  - (d) phase 4—ensuring accountability of environmental strategies.
- (3) The relationship between each of the phases is shown in the figure appearing at the end of this Act.
- (4) Phase 1 is achieved by—
- (a) researching the state of the environment, including essential ecological processes; and
  - (b) deciding environmental values to be protected or achieved by consulting industry, government departments and the community.
- (5) Phase 2 is achieved by—
- (a) developing environmental protection policies that, among other things—
    - (i) decide environmental indicators; and
    - (ii) establish ambient and emission standards for contaminants; and
    - (iii) require waste management, including waste prevention and minimisation; and
    - (iv) advise on management practices; and
  - (b) promoting environmental responsibility and involvement within the community.
- (6) Phase 3 is achieved by—
- (a) integrating environmental values into land use planning and management of natural resources; and
  - (b) ensuring all reasonably practicable measures are taken to protect environmental values from all sources of environmental harm; and
  - (c) monitoring the impact of the release of contaminants into the environment; and

- (d) requiring persons who cause environmental harm to pay costs and penalties for the harm.
- (7) Phase 4 is achieved by—
- (a) reviewing the results of human activities on the environment; and
  - (b) evaluating the efficiency and effectiveness of environmental strategies; and
  - (c) reporting publicly on the state of the environment.

## **5 Obligations of persons to achieve object of Act**

If, under this Act, a function or power is conferred on a person, the person must perform the function or exercise the power in the way that best achieves the object of this Act.

## **6 Community involvement in administration of Act**

This Act is to be administered, as far as practicable, in consultation with, and having regard to the views and interests of, industry, Aboriginal peoples and Torres Strait Islander peoples under Aboriginal tradition and Island custom, interested groups and persons and the community generally.

## **6A Principles of environmental protection**

- (1) This Act is to be administered having regard to—
- (a) the following principles of environmental policy as set out in the Intergovernmental Agreement on the Environment—
    - (i) the precautionary principle;
    - (ii) intergenerational equity;
    - (iii) conservation of biological diversity and ecological integrity;

- (iv) improved valuation, pricing and incentive mechanisms (which includes the principle known as the principle of polluter pays); and
  - (b) the principle (known as the principle of proportionality) that a decision, action or thing directed towards minimising harm or a risk of harm to the environment should be proportionate to the harm or risk of harm that is being addressed; and
  - (c) the principle (known as the principle of primacy of prevention) that prevention of harm to the environment is preferred to remedial or mitigation measures.
- (2) If a provision of this Act requires the chief executive or administering authority to consider, or have regard to, the standard criteria, the chief executive or administering authority—
- (a) must consider, or have regard to, the standard criteria; and
  - (b) need not but may consider, or have regard to, any other principle mentioned in subsection (1).

## **Subdivision 3 Environmental harm and nuisance**

### **14 Environmental harm**

- (1) *Environmental harm* is any adverse effect, or potential adverse effect (whether temporary or permanent and of whatever magnitude, duration or frequency) on an environmental value, and includes environmental nuisance.
- (2) *Environmental harm* may be caused by an activity—
  - (a) whether the harm is a direct or indirect result of the activity; or

- (b) whether the harm results from the activity alone or from the combined effects of the activity and other activities or factors.

## 15 Environmental nuisance

*Environmental nuisance* is unreasonable interference or likely interference with an environmental value caused by—

## 16 Material environmental harm

(1) *Material environmental harm* is environmental harm—

  - (b) that causes actual or potential loss or damage to property of an amount of, or amounts totalling, more than the threshold amount but less than the maximum amount; or
  - (c) that results in costs of more than the threshold amount but less than the maximum amount being incurred in taking appropriate action to—
    - (i) prevent or minimise the harm; and
    - (ii) rehabilitate or restore the environment to its condition before the harm.
- (2) The chief executive must ensure a threshold amount calculated under subsection (3), definition *threshold amount*, paragraph (b) is published on the department's website during the financial year to which it relates.
- (3) In this section—

***maximum amount*** means the threshold amount for serious environmental harm.

***threshold amount*** means—

- (a) for the financial year ending 30 June 2023—\$10,000; or

## **17A Exclusions**

Despite sections 14 and 15, a thing stated in schedule 1, part 2 is not environmental harm or environmental nuisance.

## **Subdivision 4 Environmentally relevant activities**

### **18 Meaning of *environmentally relevant activity***

Each of the following is an *environmentally relevant activity*—

- (a) an agricultural ERA as defined under section 79;
- (b) a resource activity as defined under section 107;
- (c) an activity prescribed under section 19 as an environmentally relevant activity.

### **19 Environmentally relevant activity may be prescribed**

- (1) A regulation may prescribe an activity as an environmentally relevant activity if the Governor in Council is satisfied—
  - (a) that—
    - (i) a contaminant will or may be released into the environment when the activity is carried out; and
    - (ii) the release of the contaminant will or may cause environmental harm; or
  - (b) the activity will or may otherwise adversely affect an environmental value of the marine environment.
- (1A) Without limiting subsection (1), a regulation under that subsection may prescribe an activity carried out in a relevant

Great Barrier Reef Marine Park area as an environmentally relevant activity.

- (2) To remove any doubt, a regulation made under subsection (1) may not modify the definition of an agricultural ERA or a resource activity.
- (3) In this section—

***Great Barrier Reef Marine Park*** means the Great Barrier Reef Marine Park under the *Great Barrier Reef Marine Park Act 1975* (Cwlth).

***relevant Great Barrier Reef Marine Park area*** means an area—

- (a) partly within the State and partly outside the State, but within the Great Barrier Reef Marine Park; or
- (b) of which—
  - (i) part is within the State but not within the Great Barrier Reef Marine Park; and
  - (ii) part is outside the State but within the Great Barrier Reef Marine Park.

## **19A Interaction between prescribed ERAs and resource activities**

- (1) This section applies in relation to an environmental authority for a resource activity if 1 or more activities (each an ***ancillary activity***) carried out under the authority as part of a resource activity is also a prescribed ERA.
- (2) The resource activity is taken to be comprised of—
  - (a) the ancillary activities; and
  - (b) the other activities carried out under the authority as a resource activity.
- (3) The ancillary activities are taken to be resource activities for the purpose of applications for an environmental authority.
- (4) However, the ancillary activities are taken to be prescribed ERAs for the purpose of the following—

- (a) the power to impose conditions on the environmental authority under chapter 5, part 5, division 6;
- (b) the fees that apply to the environmental authority under this Act.

## **Subdivision 5 Environmental management**

### **21 Best practice environmental management**

- (1) The *best practice environmental management* of an activity is the management of the activity to achieve an ongoing minimisation of the activity's environmental harm through cost-effective measures assessed against the measures currently used nationally and internationally for the activity.
- (2) In deciding the *best practice environmental management* of an activity, regard must be had to the following measures—
  - (a) strategic planning by the person carrying out, or proposing to carry out, the activity;
  - (b) administrative systems put into effect by the person, including staff training and monitoring and review of the systems;
  - (c) public consultation carried out by the person;
  - (d) product and process design;
  - (e) waste prevention, treatment and disposal.
- (3) Subsection (2) does not limit the measures to which regard may be had in deciding the *best practice environmental management* of an activity.

## Subdivision 6 Prescribed conditions

### 21A Meaning of *prescribed condition*

- (1) A *prescribed condition*, for a small scale mining activity, is a condition prescribed under a regulation for the carrying out of the activity.

*Example of a prescribed condition—*

a condition about rehabilitating land

- (2) It is also a *prescribed condition* for carrying out a small scale mining activity that the holder of the mining tenure (a *small scale mining tenure*) for the activity must not carry out, or allow the carrying out of, the activity unless the holder has given a surety—
- (a) of the amount prescribed by regulation; and
  - (b) in the form approved by the scheme manager under the *Mineral and Energy Resources (Financial Provisioning) Act 2018*, section 56.
- (3) However, subsection (2) does not apply if the holder's small scale mining tenure is a prospecting permit.

## Part 4 Operation of Act

### 22 Act binds all persons

This Act binds all persons, including the State, and, as far as the legislative power of the Parliament permits, the Commonwealth and the other States.

### 23 Relationship with other Acts

- (1) This Act is in addition to, and does not limit, any other Act.
- (2) If this Act conflicts with an Act as follows, that Act prevails, but only to the extent of the conflict—
- *Ambulance Service Act 1991*

- *Biosecurity Act 2014*
- *Disaster Management Act 2003*
- *Fire Services Act 1990*
- *Public Safety Preservation Act 1986, part 3*
- *Radiation Safety Act 1999*
- *Transport Operations (Marine Pollution) Act 1995.*

## **24 Effect of Act on other rights, civil remedies etc.**

- (1) This Act does not limit any civil right or remedy that exists apart from this Act, whether at common law or otherwise.
- (2) Without limiting subsection (1), compliance with this Act does not necessarily show that an obligation that exists apart from this Act has been satisfied or has not been breached.
- (3) In addition, a breach of the general environmental duty or the duty to restore the environment does not, of itself, give rise to a civil right or remedy.

## **25 Extra-territorial application of Act**

A person commits an offence against this Act if—

- (a) the person causes environmental harm within the State by conduct engaged in outside the State; and
- (b) the conduct would constitute the offence against this Act if it were engaged in by the person within the State.

- (b) identify the environmental values to be enhanced or protected under the policy.
- (2) An environmental protection policy may—
- (a) state the objectives to be achieved and maintained under the policy; or

    - (i) quantifying ambient conditions;
    - (ii) the qualities and maximum quantities of any contaminant permitted to be released into the environment;
    - (iii) the minimum standards to be complied with in the installation or operation of vehicles, plant or equipment for the control of contaminants or waste from stated sources or places;
    - (iv) measures designed to protect the environment or minimise the possibility of environmental harm; or

- (a) prescribing offences for contraventions of the policy; and
  - (b) fixing a maximum penalty of a fine of not more than 40 penalty units for the contravention.

### **33 Policies are subordinate legislation**

An environmental protection policy is subordinate legislation and does not have effect until it is approved by the Governor in Council.

### **34 Giving effect to policies**

On approval of an environmental protection policy, the administering authority must give effect to the policy.

  - (b) refuse to allow the submitted EIS to proceed.
- (2) The chief executive may extend the decision period by up to 12 months if—
- (a) the proponent agrees in writing to the extension; and
  - (b) the chief executive has not previously extended the decision period for the submitted EIS.
- (3) The chief executive may allow the EIS to proceed only if the chief executive considers it addresses the final terms of reference in an acceptable form.
- (3A) Also, the chief executive must refuse to allow the EIS to proceed if, having regard to the submitted EIS—
- (a) the chief executive is satisfied it is unlikely the project could proceed under this Act or another law, including, for example, because the project—
    - (i) would contravene a law of the Commonwealth or the State; or
    - (ii) would give rise to an unacceptable risk of serious or material environmental harm; or
    - (iii) would have an unacceptable adverse impact on a matter of State environmental significance or a matter of national environmental significance; or
    - (iv) would have an unacceptable adverse impact on an area of cultural heritage significance; or
  - (b) the chief executive is required to refuse to allow the EIS to proceed under a regulatory requirement.
- (4) If the decision is to allow the EIS to proceed, the chief executive may also fix a minimum period for the making of submissions about the EIS.
- (5) However, the period fixed must be at least 30 business days and must end at least 30 business days after the EIS notice is published.

- 
- (5A) Subsection (5B) applies if—
- (a) under the final terms of reference for the EIS, the EIS submitted by the proponent includes a proposed PRC plan; and
  - (b) the proposed PRCP schedule for the plan identifies an area of land as a non-use management area under section 126D(2)(b); and
  - (c) the chief executive decides to allow the EIS to proceed.
- (5B) The chief executive must, as soon as practicable after making the decision, ask a qualified entity to—
- (a) carry out a public interest evaluation for each area of land mentioned in subsection (5A)(b); and
  - (b) give the chief executive a report about the evaluation that complies with section 316PB.
- (5C) The request under subsection (5B)—
- (a) must be in writing; and
  - (b) must require the report to be given to the chief executive within—
    - (i) a stated period of not more than 12 months; or
    - (ii) if the chief executive decides to extend the period mentioned in subparagraph (i) by not more than 6 months—the extended period.
- (6) The chief executive must, within 10 business days after the decision is made, give the proponent written notice of the decision and of any submission period fixed.
- (7) If the decision is to refuse to allow the EIS to proceed, or to allow the EIS to proceed on conditions, the notice must be an information notice for the decision that also states—
- (a) if the proponent has not previously resubmitted the EIS under section 49A—that the proponent may resubmit the EIS under that section; or

- (b) if the proponent has previously resubmitted the EIS under section 49A—that the proponent can not further resubmit the EIS under that section.
- (8) In this section—
- qualified entity* means an entity, other than the proponent, that has the experience and qualifications, prescribed by regulation, necessary to carry out a public interest evaluation.

#### **49A Proponent may resubmit EIS**

- (1) This section applies if—
  - (a) the chief executive decides, under section 49, to refuse to allow the EIS to proceed, or to allow the EIS to proceed on conditions; and
  - (b) the EIS has not previously been resubmitted under this section.
- (2) The proponent may resubmit, with changes, the EIS to the chief executive within—
  - (a) 3 months after the day notice of the decision is given to the proponent under section 49(6); or
  - (b) if the chief executive and the proponent have, within the 3 months, agreed to a different period—the different period.
- (3) The proponent may resubmit the EIS under subsection (2) only once.
- (4) The resubmitted EIS must be accompanied by the fee prescribed by regulation.
- (5) The following provisions apply to the resubmitted EIS as if a reference in the provision to an EIS or submitted EIS were a reference to the resubmitted EIS—
  - (a) section 48;
  - (b) section 49.
- (6) If the EIS is resubmitted because the chief executive decided to allow the EIS to proceed on conditions—

- (a) without limiting section 49(3), the chief executive may allow the EIS to proceed only if the chief executive considers the conditions have been met; and
- (b) the notice given under section 49(6) must include the decision mentioned in paragraph (a).

## **Division 4            Notification stage**

### **Subdivision 1        Public notice requirements**

#### **51        Public notification**

- (1) This section applies if the chief executive decides to allow an EIS to proceed and gives the proponent a notice about the decision under section 49(6).
- (2) Within 20 business days after the giving of the notice, the proponent must—
  - (a) give written notice about the EIS (the *EIS notice*) to—
    - (i) each affected person for the project; and
    - (ii) each interested person; and
    - (iii) any other person decided by the chief executive; and
  - (b) after giving the EIS notice under paragraph (a), publish the EIS notice—
    - (i) on a website; and
    - (ii) in another way prescribed under a regulation or decided by the chief executive; and
  - (c) make a copy of the submitted EIS available on a website.
- (3) The chief executive may decide another person for subsection (2)(a)(iii) or another way of publishing the EIS notice for subsection (2)(b)(ii) only by giving the proponent

an information notice about the decision before the notice is published.

- (4) The proponent must keep the information mentioned in subsection (2)(b) and (c) available on a website from the start of the submission period until—
  - (a) if the proponent is given notice by the chief executive under section 56A(5) that the submitted EIS may not proceed and the proponent does not apply for a review of or appeal against the decision—the day the notice is given; or
  - (b) if the proponent is given notice by the chief executive under section 56A(5), as applied by section 56AA(5), that the submitted EIS may not proceed—the day the notice is given; or
  - (c) if paragraphs (a) and (b) do not apply—the day that is 2 years after the chief executive gives the proponent an EIS assessment report under section 57(2).
- (5) This section is subject to section 68.

## 52 Required content of EIS notice

- (1) The EIS notice must be in the approved form and state the following—
  - (a) a description of the project and the operational land;
  - (b) where the submitted EIS may be inspected;
  - (c) where copies of, or extracts from, the submitted EIS may be obtained;
  - (d) that anyone may make a submission to the chief executive about the submitted EIS;
  - (e) the period (the *submission period*) during which submissions may be made;
  - (f) how to make a properly made submission;
  - (g) another matter prescribed under a regulation.

*Note—*

For paragraphs (b) and (c), see sections 65 (Public access to draft terms of reference or submitted EIS), 540A (Registers to be kept by chief executive) and 542 (Inspection of register).

- (2) The submission period must be at least 30 business days and must end after the later of the following to end—
  - (a) any minimum period for the making of submissions about the EIS fixed by the chief executive under section 49(4) before the notice is published under section 51(2)(b);
  - (b) 20 business days after the publication.

### **53 Declaration of compliance**

- (1) The proponent must, within 10 business days after the EIS notice is published, give the chief executive a statutory declaration declaring—
  - (a) whether or not the proponent has complied with the notice requirements under sections 51 and 52; and
  - (b) the name and address of each person to whom the EIS notice was given under section 51.
- (2) A copy of the EIS notice must be attached to the declaration.
- (3) The proponent is taken to have complied with the requirements if—
  - (a) a declaration is given under this section; and
  - (b) the declaration states the proponent has complied with the notice requirements.

*Note—*

For what happens if the declaration states the requirements have not been complied with, see section 68 (Substantial compliance with notice requirements may be accepted).

## **Subdivision 2      Submissions and response to report about public interest evaluation**

### **54      Right to make submission**

A person may, within the submission period, make a submission to the chief executive about the submitted EIS.

### **55      Acceptance of submissions**

- (1) The chief executive must accept a submission if it—
  - (a) is written; and
  - (b) is signed by or for each person (*signatory*) who made the submission; and
  - (c) states the name and address of each signatory; and
  - (d) is made to the chief executive; and
  - (e) is received on or before the last day of the submission period.
- (2) A submission that complies with subsection (1) is called a *properly made submission*.
- (3) The chief executive may accept a written submission even if it is not a properly made submission.

### **56      Response to submissions**

- (1) The chief executive must, within 10 business days after the submission period ends, give the proponent a copy of the following documents—
  - (a) each submission accepted by the chief executive;
  - (b) if a public interest evaluation has been carried out for a proposed non-use management area for the project—the report about the public interest evaluation.

- 
- (1A) However, if the report mentioned in subsection (1)(b) is received by the chief executive after the submission period ends, the chief executive must give the proponent copies of the documents mentioned in subsection (1) within 10 business days after the report is received by the chief executive.
- (1B) If subsection (1)(b) applies, the chief executive must also, subject to section 316PE, give a copy of the report to each person who made a submission under section 54 about the EIS at the same time as the chief executive gives the proponent a copy of the report.
- (2) The proponent must, within the relevant period, consider the submissions and give the chief executive—
- (a) a summary of the submissions; and
  - (b) a statement of the proponent’s response to the submissions; and
  - (c) if subsection (1)(b) applies—a statement of the proponent’s response to the report; and
  - (d) any amendments of the submitted EIS because of the submissions or report, together with an EIS amendment notice under section 66 for the amendments.
- (3) In this section—
- relevant period*** means—
- (a) generally—
    - (i) if section (1)(b) applies and an entity asks for a review of the report under section 316PC—20 business days after notice of the reviewing entity’s decision is given to the proponent under section 316PC(7); or
    - (ii) otherwise—20 business days after the proponent is given a copy of all submissions accepted by the chief executive; or
  - (b) if the chief executive and the proponent have, within the 20 business days, agreed to a different period—the different period.

**56A Assessment of adequacy of response to submission and submitted EIS**

- (1) This section applies if—
  - (a) a submission is accepted by the chief executive under section 55; or
  - (b) a public interest evaluation is carried out for a proposed non-use management area for the project.
- (2) The chief executive must, within 20 business days after the relevant period under section 56—
  - (a) consider the submitted EIS and the documents given under section 56(2); and
  - (b) decide whether to allow the submitted EIS to proceed under divisions 5 and 6.
- (3) The period may be extended if, at any time before the decision is made, the proponent has agreed in writing to the extension.
- (4) The chief executive may allow the submitted EIS to proceed only if the chief executive considers—
  - (a) the proponent's response to the submission, and any report about a public interest evaluation, is adequate; and
  - (b) the submitted EIS is consistent with the recommendations made in any report about a public interest evaluation; and
  - (c) the proponent has made all appropriate amendments to the submitted EIS because of the submission and any report about a public interest evaluation.
- (4A) The chief executive must refuse to allow the submitted EIS to proceed if, having regard to the submitted EIS—
  - (a) the chief executive is satisfied it is unlikely the project could proceed under this Act or another law, including, for example, because the project—
    - (i) would contravene a law of the Commonwealth or the State; or

- 
- (ii) would give rise to an unacceptable risk of serious or material environmental harm; or
  - (iii) would have an unacceptable adverse impact on a matter of State environmental significance or a matter of national environmental significance; or
  - (iv) would have an unacceptable adverse impact on an area of cultural heritage significance; or
- (b) the chief executive is required to refuse to allow the submitted EIS to proceed under a regulatory requirement.
- (5) The chief executive must, within 10 business days after the decision is made, give the proponent written notice of the decision.
- (6) If the decision is to refuse to allow the submitted EIS to proceed, the chief executive must give the proponent an information notice for the decision that also states—
- (a) if the proponent has not previously resubmitted the EIS under section 56AA—that the proponent may resubmit the EIS under that section; or
  - (b) if the proponent has previously resubmitted the EIS under section 56AA—that the proponent can not further resubmit the EIS under that section.

### **56AA Proponent may resubmit EIS**

- (1) This section applies if the chief executive decides, under section 56A, to refuse to allow the EIS to proceed.
- (2) The proponent may resubmit, with changes, the submitted EIS and the proponent's response to the submission or report mentioned in section 56A(1) to the chief executive within—
  - (a) 20 business days after notice of the decision is given to the proponent under section 56A(5); or
  - (b) if the chief executive and the proponent have, within the 20 business days, agreed to a different period—the different period.

[s 57]

---

- (3) The proponent may resubmit under subsection (2) only once.
- (4) A resubmitted EIS must be accompanied by the fee prescribed by regulation.
- (5) Section 56A applies to the resubmitted EIS and response to submission or report as if a reference in the provision to a submitted EIS or the proponent's response to the submission or report were a reference to the resubmitted EIS or proponent's response to the submission or report.

## **Division 5                    EIS assessment report**

### **57            EIS assessment report**

- (1) This section applies only if the chief executive has given the proponent a notice under section 56A(5), including as applied by section 56AA(5), of a decision that the submitted EIS may proceed under this division and division 6.
- (2) The chief executive must give the proponent a report (an *EIS assessment report*) about the submitted EIS within 30 business days after—
  - (a) if, at the end of the submission period, the chief executive has accepted any submissions—the day the notice mentioned in subsection (1) was given; or
  - (b) otherwise—the end of the submission period.

*Note—*

For public inspection of the EIS assessment report, see sections 540A (Registers to be kept by chief executive) and 542 (Inspection of register).

### **58            Criteria for preparing report**

In preparing an EIS assessment report, the chief executive must consider the following—

- (a) the final terms of reference for the EIS;
- (b) the submitted EIS;

- (c) all properly made submissions and any other submissions accepted by the chief executive;
- (d) the standard criteria;
- (e) another matter prescribed under a regulation.

## **59 Required content of report**

An EIS assessment report must—

- (a) address the adequacy of the EIS in addressing the final terms of reference; and
- (b) address the adequacy of any management, monitoring, planning or other measures for minimising adverse environmental impacts for the project; and
- (c) make recommendations about the suitability of the project; and
- (d) recommend any conditions on which any approval required for the project may be given; and
- (e) contain another matter prescribed under a regulation.

## **59A Lapsing of EIS assessment report**

- (1) An EIS assessment report for a project lapses—
  - (a) on the day that is 3 years after the day the chief executive gives the proponent the EIS assessment report under section 57(2); or
  - (b) if, before the day mentioned in paragraph (a), the chief executive extends the period mentioned in that paragraph—on the day the extended period ends.
- (2) However, if the proponent applies for an environmental authority before the EIS assessment report lapses under subsection (1), the report does not lapse until—
  - (a) if the application for the environmental authority is refused—the application is decided and any appeal against the decision is finalised or withdrawn; or

- (b) if the application for the environmental authority is granted—the authority takes effect.

## **Division 6                    Completion of process**

### **60            When process is completed**

- (1) The process under this part is completed for an EIS when the proponent is given an EIS assessment report for the EIS.
- (2) The process is taken to have been completed for a coordinated project if the Coordinator-General's report for the EIS or IAR for the project has been given to the project's proponent.
- (3) The process is taken to have been completed for another project if—
  - (a) an EIS or a similar statement, however called, for the project has been—
    - (i) finalised under the Commonwealth Environment Act, section 104(1); or
    - (ii) completed under another Commonwealth Act or a State Act; and
  - (b) the chief executive decides the process under this part has been complied with, or substantially complied with, for the EIS or statement.

## **Division 7                    Miscellaneous provisions**

### **Subdivision 1            Inquiries by chief executive**

#### **61            Application of sdiv 1**

This subdivision applies during—

- (a) any stage under divisions 2 to 6; and

- 
- (b) the taking of a step or the making of a decision within any stage under divisions 2 to 6.

*Example of when subdivision applies—*

- 1 when the chief executive is preparing the final terms of reference
- 2 when the proponent is preparing the EIS
- 3 when the administering authority is preparing an EIS assessment report

## **62 Chief executive may seek advice, comment or information**

- (1) The chief executive may seek and consider relevant advice, comment or information from the proponent or another person.
- (2) The request may be by public notice.
- (3) If the request is made of the proponent, it must be written, and must state a reasonable period for the giving of the advice, comment or information sought.

## **63 Disclosure of relevant documents or information**

The chief executive may give anyone a document or information if it—

- (a) is mentioned in this part; or
- (b) is required to be given to the chief executive under this part; or
- (c) relates to the project or the process under this part.

## **64 Making of inquiry does not of itself alter EIS process**

Asking for and receiving, or giving, a document or advice, comment or information under this subdivision does not—

- (a) replace any public notice or other stage or step required under divisions 2 to 6; or

- (b) extend or reduce the period required to take a step or make a decision under divisions 2 to 6; or
- (c) affect or limit a provision of divisions 2 to 6 that allows the chief executive and the proponent to agree about the period for the taking of a step under the EIS process.

## Subdivision 2      Public inspection

### 65      Public access to draft terms of reference or submitted EIS

If a person asks the proponent for a copy of the draft terms of reference for an EIS or the submitted EIS, the proponent must, on payment of the appropriate fee to the proponent, give the person the copy.

*Note—*

See also sections 540A (Registers to be kept by chief executive) and 542 (Inspection of register).

For the appropriate fee, see section 543 (Appropriate fee for copies).

## Subdivision 3      Amending EIS

### 66      Amending EIS

- (1) The proponent may amend or replace the submitted EIS (the *original EIS*) at any time before the EIS assessment report is given to the proponent.
- (2) However, the submitted EIS can not be amended during the submission period for the EIS.
- (3) Also, an amendment may be made only by giving the chief executive written notice of the amendment (an *EIS amendment notice*).
- (4) An EIS amendment notice must be accompanied by the fee prescribed under a regulation.

- (5) The submitted EIS is taken to be the original EIS, as amended from time to time by an EIS amendment notice given for the original EIS.

## **Subdivision 4      Effects of noncompliance with process**

### **67      Process is suspended**

- (1) This section applies if the proponent—
  - (a) does not comply with a requirement under the EIS process for an EIS; or
  - (b) becomes entitled to take the next step under the process and has not taken the step.
- (2) The following are suspended until the requirement is complied with or the step is taken—
  - (a) the EIS process for the EIS;
  - (b) any obligations of the chief executive under this part for the EIS.
- (3) The proponent's draft terms of reference or submitted EIS lapse on the later of the following days if the requirement has not been complied with or the step has not been taken—
  - (a) the first anniversary of the suspension;
  - (b) if the chief executive and the proponent have, before the first anniversary, agreed to a later day—the later day.
- (4) This section is subject to sections 47 and 68.

### **68      Substantial compliance with notice requirements may be accepted**

- (1) If the proponent has not complied with the notice requirements under division 2, subdivision 2 or division 4, subdivision 1, the chief executive must decide whether to

allow the EIS to proceed under this part as if the noncompliance had not happened.

- (2) The chief executive may decide to allow the EIS to proceed only if the chief executive is satisfied there has been substantial compliance with the requirements.
- (3) If the chief executive decides not to allow the EIS to proceed, the chief executive must, within 10 business days after the decision is made—
  - (a) fix a new period for compliance with the requirements (the *new notice period*); and
  - (b) either fix—
    - (i) if the noncompliance was with division 2, subdivision 2—a new comment period; or
    - (ii) if the noncompliance was with division 4, subdivision 1—a new submission period; and
  - (c) give the proponent an information notice about the decision not to allow the EIS to proceed and the decision about the new notice period.
- (4) The information notice must state the new notice period and the new comment or submission period.
- (5) The new notice period applies despite the period for giving the notice under section 43(3) or 51(2).

## Part 2 Voluntary preparation of EIS

### 69 Purpose of pt 2

- (1) The purpose of this part is to allow the proponent for a project to voluntarily prepare an EIS for the project by using the EIS process, if it is appropriate to do so.
- (2) The purpose is achieved by providing for an approval process for the voluntary preparation of an EIS.

---

## 70 Projects that may be approved for EIS

- (1) The proponent for a project may apply to the chief executive for approval to prepare an EIS for a project.
- (2) However, an application can not be made for a project if—
  - (a) an EIS requirement is in force for an application under this Act relating to the project; or
  - (b) the Commonwealth Environment Act requires the project to be assessed under chapter 4, part 8 of that Act and the EIS process has not been decided as an accredited process under the Commonwealth Environment Act; or

*Note—*

See the Commonwealth Environment Act, sections 47 (Agreement may declare classes of actions do not need assessment) and 87 (Minister must decide on approach for assessment).

- (c) an EIS or similar statement, however called, must be prepared for the project under another State Act and that Act does not allow the EIS or statement to be prepared under the EIS process.

## 71 Requirements for application

An approval application must be—

- (a) in the approved form; and
- (b) supported by enough information to allow the chief executive to decide whether an EIS is appropriate for the project; and
- (c) supported by enough documents or information to establish that the applicant may enter land to which the project relates to carry out any necessary studies for the EIS; and
- (d) accompanied by—

- (i) the documents that, under section 41(3), must accompany a submitted draft terms of reference for an EIS; and
- (ii) the fee prescribed under a regulation.

## **72 Deciding application**

- (1) The chief executive must consider the application and decide either to grant or refuse the approval.
- (2) However, the chief executive may grant the approval only if the chief executive considers an EIS is appropriate for the project.
- (3) The chief executive must, within 10 business days after the decision is made, give the proponent a written notice stating the decision, and the reasons for it.

## **Part 3 Decision about whether EIS may be required**

### **73 Main purpose of part and its achievement**

- (1) The main purpose of this part is to allow a person who is considering applying for an environmental authority for a project to find out whether an EIS would be required for the application under this Act.
- (2) The main purpose is achieved by providing for a process for the chief executive to decide whether an EIS would be required under this Act for an application for an environmental authority (an *EA application*) for a project.

### **73A Proposed applicant may apply for decision about EIS**

- (1) A person may apply to the chief executive—
  - (a) for a decision about whether an EIS would be required under this Act for an EA application for a project; and

- (b) for approval to prepare an EIS for a project if the chief executive decides an EIS would not be required under this Act for an EA application for the project.
- (2) The application may be made—
  - (a) for only a decision under subsection (1)(a); or
  - (b) for a decision under subsection (1)(a) and, if applicable, an approval under subsection (1)(b).

### **73B Requirements for application**

The application must be—

- (a) in the approved form; and
- (b) supported by enough information to allow the chief executive to decide whether an EIS would be required for an EA application for the project; and
- (c) if the application includes an application for an approval under section 73A(1)(b)—
  - (i) supported by enough documents or information to establish that the applicant may enter land to which the project relates to carry out any necessary studies for the EIS; and
  - (ii) the documents that, under section 41(3), must accompany a submitted draft terms of reference for an EIS; and
- (d) accompanied by the fee prescribed by regulation.

### **73C Deciding application**

- (1) The chief executive must consider the application and decide—
  - (a) whether an EIS would be required under this Act for an EA application for the project; and
  - (b) if the application includes an application for an approval under section 73A(1)(b) and the chief executive decides

an EIS would not be required under this Act for an EA application for the project—to grant or refuse the approval.

- (2) In making a decision under subsection (1)(a), the chief executive must consider the standard criteria.
- (3) The chief executive may grant an approval under subsection (1)(b) only if the chief executive considers an EIS is appropriate for the project.
- (4) The chief executive must, within 10 business days after the decision is made, give the applicant a written notice stating the decision, and the reasons for it.

## **Chapter 4A    Great Barrier Reef protection measures**

### **Part 1                    Preliminary**

#### **74        Purpose of chapter**

The purpose of this chapter is to provide for measures to improve the quality of the water entering the Great Barrier Reef to—

- (a) support the outstanding universal value of the Great Barrier Reef for which the reef was inscribed on the World Heritage List; and
- (b) protect and enhance the biological integrity and diversity of the aquatic ecosystems of the Great Barrier Reef, including—
  - (i) the coral reef, mangrove and seagrass ecosystems of the reef; and

- (ii) the aquatic ecosystems of the river basins from which water enters the Great Barrier Reef; and
- (c) improve the health and resilience of the aquatic ecosystems of the reef so they are better able to withstand and recover from disturbances.

## 75 What is the *Great Barrier Reef catchment*

- (1) The *Great Barrier Reef catchment* is the area shown on a map prescribed by regulation as the Great Barrier Reef catchment.
- (2) Each part of the Great Barrier Reef catchment shown as a river basin on the map is a *river basin*.

## 76 Other definitions for chapter

In this chapter—

*agricultural ERA* see section 79.

*agricultural ERA standard* see section 81(1).

*carries out*, an agricultural ERA, see section 80.

*Great Barrier Reef catchment* see section 75(1).

*river basin* see section 75(2).

# Part 2 Environmental protection policy

## 77 Environmental protection policy must set objectives for reduced contaminant loads

- (1) This section applies in relation to the entry of the following contaminants to the water of the Great Barrier Reef because of human activity carried out on land in the Great Barrier Reef catchment—
  - (a) dissolved inorganic nitrogen in the water;

- (b) sediment suspended in the water.
- (2) The Minister must ensure an environmental protection policy sets an objective to reduce the load of each of the contaminants entering the waters from each river basin in the catchment.
- (3) The objective must be to reduce each of the loads to a stated limit, over a stated period, that is consistent with achieving the improvement in the quality of the water entering the Great Barrier Reef stated in the purpose of this chapter.
- (4) This section does not limit the matters relating to the quality of the water entering the Great Barrier Reef that may be dealt with in an environmental protection policy.
- (5) In this section—  
*load*, of a contaminant that enters water, means the total mass of the contaminant that enters the water in a year.

## **78 Objectives set in policy must be reviewed every 5 years**

- (1) The Minister must review an environmental protection policy, to the extent the policy sets an objective mentioned in section 77(2), at least once—
  - (a) in the period of 5 years after the policy is made; and
  - (b) in each subsequent 5-year period.
- (2) A review must be started during a period mentioned in subsection (1) and completed within 1 year.

## **Part 3 Requirements for carrying out agricultural ERAs**

### **79 What is an *agricultural ERA***

- (1) An *agricultural ERA* is any of the following activities carried out, on a commercial basis, on land in the Great Barrier Reef catchment—

(a) cattle grazing;

(b) horticulture;

*Example—*

commercial cultivation of bananas

(c) cultivation of another crop.

*Example—*

commercial cultivation of sugarcane or grains

(c) an objective set by an environmental protection policy under section 77.

(3) Without limiting section 318, an agricultural ERA standard may include a standard condition—

- (a) about the use of water, nutrients, agricultural chemical products or other substances in carrying out the agricultural ERA; or
- (b) that requires compliance with a prescribed methodology for—
  - (i) working out the amount of a nutrient to be applied to a crop, plant or soil without exceeding the needs of the crop or plant, or a plant in the soil; or
  - (ii) conducting tests related to carrying out the agricultural ERA, including, for example, tests of soil, water or plants and the intervals at which the tests must be carried out; or

    - (i) the quantity and quality of the water used, treated, stored or disposed of;
    - (ii) protection of the environmental values affected by each relevant CSG activity;
    - (iii) the disposal of waste, including, for example, salt, generated from the management of the water;
  - (f) the action proposed to be taken if any of the management criteria are not complied with, to ensure the criteria will be able to be complied with in the future.
- (2) The proposed management of the water can not provide for using a CSG evaporation dam in connection with carrying out a relevant CSG activity unless—
- (a) the application includes an evaluation of—
    - (i) best practice environmental management for managing the CSG water; and
    - (ii) alternative ways for managing the water; and
  - (b) the evaluation shows there is no feasible alternative to a CSG evaporation dam for managing the water.
- (3) This section does not apply for a site-specific application for a CSG activity if—

- (a) the Coordinator-General has evaluated an EIS for the CSG activity under the State Development Act; and
- (b) there are Coordinator-General's conditions for each relevant activity the subject of the application; and
- (c) an assessment of the environmental risks of the activity would be the same as the evaluation mentioned in paragraph (a), if completed.

### **126A Requirements for site-specific applications—particular resource projects and resource activities**

- (1) This section applies to a site-specific application, involving the exercise of underground water rights, for—
  - (a) a resource project that includes a resource tenure that is a mineral development licence, mining lease or petroleum lease; or
  - (b) a resource activity for which the relevant tenure is a mineral development licence, mining lease or petroleum lease.
- (2) The application must also state the following—
  - (a) any proposed exercise of underground water rights during the period in which resource activities will be carried out under the relevant tenure;
  - (b) the areas in which underground water rights are proposed to be exercised;
  - (c) for each aquifer affected, or likely to be affected, by the exercise of underground water rights—
    - (i) a description of the aquifer; and
    - (ii) an analysis of the movement of underground water to and from the aquifer, including how the aquifer interacts with other aquifers and surface water; and
    - (iii) a description of the area of the aquifer where the water level is predicted to decline because of the exercise of underground water rights; and

- 
- (iv) the predicted quantities of water to be taken or interfered with because of the exercise of underground water rights during the period in which resource activities are carried out;
  - (d) the environmental values that will, or may, be affected by the exercise of underground water rights and the nature and extent of the impacts on the environmental values;
  - (e) any impacts on the quality of groundwater that will, or may, happen because of the exercise of underground water rights during or after the period in which resource activities are carried out;
  - (f) strategies for avoiding, mitigating or managing the predicted impacts on the environmental values stated for paragraph (d) or the impacts on the quality of groundwater mentioned in paragraph (e).

### **126B Main purpose of PRC plan**

The main purposes of a PRC plan are to—

- (a) require the holder of an environmental authority issued for a site-specific application for a mining activity relating to a mining lease to plan for how and where environmentally relevant activities will be carried out on land in a way that maximises the progressive rehabilitation of the land to a stable condition; and
- (b) provide for the condition to which the holder must rehabilitate the land before the authority may be surrendered.

### **126C Requirements for PRC plan**

- (1) A proposed PRC plan must—
  - (a) be in the approved form; and
  - (b) describe the following—

- (i) each resource tenure, including the area of each tenure, to which the application relates;
  - (ii) the relevant activities to which the application relates;
  - (iii) the likely duration of the relevant activities; and
- (c) include—
  - (i) a proposed PRCP schedule that complies with section 126D; and
  - (ii) a detailed description, including maps, of how and where the relevant activities are to be carried out; and
  - (iii) details of the consultation undertaken by the applicant in developing the proposed PRC plan; and
  - (iv) details of how the applicant will undertake ongoing consultation in relation to the rehabilitation to be carried out under the plan; and
- (d) state the extent to which each proposed post-mining land use for land, or non-use management area, identified in the proposed PRCP schedule for the plan is consistent with—
  - (i) the outcome of consultation with the community in developing the plan; and
  - (ii) any strategies or plans for the land of a local government, the State or the Commonwealth; and
- (e) for each proposed post-mining land use for land, state the applicant's proposed methods or techniques for rehabilitating the land to a stable condition in a way that supports the rehabilitation milestones under the proposed PRCP schedule; and
- (f) identify the risks of a stable condition for land mentioned in paragraph (e) not being achieved, and how the applicant intends to manage or minimise the risks; and

- 
- (g) for each proposed non-use management area, state the reasons the applicant considers the area can not be rehabilitated to a stable condition because of a matter mentioned in section 126D(2); and
  - (h) for each matter mentioned in paragraph (g), include copies of reports or other evidence relied on by the applicant for each proposed non-use management area; and
  - (i) for each proposed non-use management area, state the applicant's proposed methodology for achieving best practice management of the area to support the management milestones under the proposed PRCP schedule for the area; and
  - (j) include the other information the administering authority considers necessary to decide whether to approve the PRCP schedule for the plan.
- (2) The matters mentioned in subsection (1), other than the matter mentioned in subsection (1)(c)(i), are the *rehabilitation planning part* of the proposed PRC plan.

## 126D Requirements for proposed PRCP schedule

- (1) A proposed PRCP schedule must—
- (a) for the area of each resource tenure described in the PRC plan, state—
    - (i) the proposed post-mining land use for the land; or
    - (ii) that the applicant considers the land to be a non-use management area; and
  - (b) for each proposed post-mining land use mentioned in paragraph (a)(i), state—
    - (i) each rehabilitation milestone required to achieve a stable condition for the land; and
    - (ii) when each rehabilitation milestone is to be achieved; and

- (c) for each non-use management area mentioned in paragraph (a)(ii), state—
    - (i) each management milestone for the area; and
    - (ii) when each management milestone is to be achieved; and
  - (d) include maps showing the land mentioned in paragraphs (a), (b) and (c).
- (2) The PRCP schedule may state that land is a non-use management area only if—
- (a) carrying out rehabilitation of the land would cause a greater risk of environmental harm than not carrying out the rehabilitation; or
  - (b) both of the following apply—
    - (i) the risk of environmental harm as a result of not carrying out rehabilitation of the land is confined to the area of the relevant resource tenure;
    - (ii) the applicant considers, having regard to each public interest consideration, that it is in the public interest for the land not to be rehabilitated to a stable condition.
- (3) Despite subsection (2), if land the subject of the proposed PRCP schedule will contain a void situated wholly or partly in a flood plain, the schedule must provide for rehabilitation of the land to a stable condition.
- (4) For subsection (1)(b)(ii), the PRCP schedule must provide for each rehabilitation milestone to be achieved as soon as practicable after the land to which it relates becomes available for rehabilitation.
- (5) For subsection (4), land is **available for rehabilitation** if the land is not being mined, unless—
- (a) the land is being used for operating infrastructure or machinery for mining, including, for example, a dam or water storage facility; or

- 
- (b) the land is identified in the proposed PRCP schedule or the application for an environmental authority for relevant activities to which the schedule relates as containing a probable or proved ore reserve that is to be mined within 10 years after the land would otherwise have become available for rehabilitation; or
  - (ba) the land is required for the mining of a probable or proved ore reserve mentioned in paragraph (b); or
  - (c) the land contains permanent infrastructure identified in the proposed PRCP schedule as remaining on the land for a post-mining land use.
- (6) In this section—

***mined*** means mined within the meaning of the Mineral Resources Act, section 6A.

***probable or proved ore reserve*** means a probable ore reserve or proved ore reserve mentioned in the listing rules made by ASX Limited (ACN 008 624 691) for the listing of corporations on the Australian stock exchange.

***void*** means an area of land to be excavated in the carrying out of a mining activity.

## **127 When application is a *properly made application***

An application for an environmental authority under section 116(1) is a ***properly made application*** if it complies with this division.

## **Division 4 Notices about not properly made applications**

### **128 Notice about application that is not a properly made application**

- (1) This section applies if an application is not a properly made application.

- (2) The administering authority must, within 10 business days after receiving the application, give the applicant a notice stating the following—
  - (a) it is not a properly made application;
  - (b) the reasons the administering authority is satisfied it is not a properly made application;
  - (c) the action the administering authority is satisfied the applicant must take for the application to be a properly made application;
  - (d) the period of at least 20 business days after the notice is given within which the applicant must give written notice to the administering authority that the action has been taken;
  - (e) that, if the applicant does not give the notice mentioned in paragraph (d) within the stated period, the application will lapse under section 129.

## **129 When application lapses**

- (1) This section applies if the applicant is given a notice under section 128(2).
- (2) The application lapses if the applicant does not, within the stated period or the further period agreed between the administering authority and the applicant—
  - (a) take the action mentioned in section 128(2)(c); and
  - (b) give the administering authority written notice that the action has been taken.

## **Division 5 Joint applicants**

### **130 Nomination of principal applicant**

- (1) This section applies if joint applicants jointly apply for 1 or more environmental authorities.

- 
- (2) The person nominated in the application as the principal applicant for the application may, for all applicants for the application, give to the administering authority a notice or other document relating to the application or a proposed PRC plan for the application.
  - (3) The administering authority may—
    - (a) give a notice or other document relating to the application or a proposed PRC plan for the application to all the applicants, by giving it to the principal applicant nominated in the application; or
    - (b) make a requirement under this chapter relating to the application or a proposed PRC plan for the application of all the applicants, by making it of the principal applicant nominated in the application.

## Division 6                      Changing applications

### Subdivision 1                  Preliminary

#### 131      Meaning of *minor change*

- (1) A *minor change*, for an application or proposed PRC plan, is any of the following changes to the application or plan—
  - (a) a change that merely corrects a mistake about the name or address of the applicant;
  - (b) a change of applicant;
  - (c) a change that merely corrects a spelling or grammatical error;
  - (d) a change that the administering authority is satisfied would not adversely affect the ability of the authority to assess the changed application.
- (2) For subsection (1)(d), a *minor change* does not include a change that would have the effect that the type of application is changed.

## **Subdivision 2 Procedure for changing applications**

### **132 Changing application or proposed PRC plan**

- (1) Before an application is decided or a proposed PRCP schedule is approved, the applicant may change the application or proposed PRC plan for the schedule by giving the administering authority—
  - (a) written notice of the change; and
  - (b) the fee prescribed under a regulation.
- (2) An applicant can not change an application or proposed PRC plan if the change would, if the application were remade including the change, result in the application not being a properly made application.
- (3) Subsection (2) does not apply to the applicant if the applicant takes the action that would be necessary to make the application a properly made application if it were remade.
- (4) If the change to the application is, or includes, a change of applicant, the notice of the change—
  - (a) may be given to the administering authority by the person proposing to become the applicant; and
  - (b) must be accompanied by the written consent of the person who is the applicant immediately before the change.

## **Subdivision 3 Changed applications—effect on assessment process**

### **133 Effect on assessment process—minor changes and agreed changes**

- (1) The assessment process does not stop for a changed application or proposed PRC plan if—

- 
- (a) the change is a minor change of the application or plan;  
or
  - (b) the administering authority gives its written agreement to the change.
- (2) For the changed application or proposed PRC plan, the notification stage does not again apply, and is not required to restart, if—
- (a) the notification stage applied to the original application or plan; and
  - (b) the change was made during the notification stage or after the notification stage ended.

### **134 Effect on assessment process—other changes**

- (1) Subsection (2) applies to a changed application or proposed PRC plan if—
- (a) the change is not a minor change; and
  - (b) the administering authority has not given its written agreement to the change.
- (2) The assessment process stops on the day the notice of the change is received by the administering authority and starts again from the end of the application stage.
- (3) Subsection (4) applies to a changed application or proposed PRC plan if—
- (a) the assessment process has stopped under subsection (2) for the application or proposed PRC plan; and
  - (b) the notification stage applied to the original application; and
  - (c) the change was made during the notification stage or after the notification stage ended.
- (4) The notification stage must be repeated unless the administering authority is satisfied the change would not be likely to attract a submission objecting to the thing the subject

of the change, if the notification stage were to apply to the change.

## **Division 7                      Withdrawing applications**

### **135      Withdrawing an application**

At any time before an environmental authority is issued, the applicant may withdraw the application by giving written notice of the withdrawal to the administering authority.

## **Division 8                      End of application stage**

### **136      When does application stage end**

The application stage for an application ends—

- (a) if the applicant is given a notice under section 128(2)—the day the administering authority receives the notice mentioned in section 128(2)(d); or
- (b) otherwise, the earlier of the following—
  - (i) if the administering authority is satisfied the requirements under the application stage have been complied with—when the administering authority becomes satisfied the requirements have been complied with;
  - (ii) 10 business days after the administering authority receives the application.

### **136A    Administering authority must obtain report about public interest evaluation for particular applications**

- (1) This section applies if—
  - (a) the application stage for a site-specific application for a mining activity relating to a mining lease has ended; and

- 
- (b) there is a proposed PRC plan for the application that includes a proposed PRCP schedule identifying an area of land as a non-use management area under section 126D(2)(b); and
  - (c) either—
    - (i) a public interest evaluation by a qualified entity for the area of land mentioned in paragraph (b) has not been carried out for an EIS; or
    - (ii) a public interest evaluation by a qualified entity for the area of land mentioned in paragraph (b) has been carried out for an EIS and, since the evaluation was carried out, the proposed non-use management area has changed.
- (2) The administering authority must, as soon as practicable after the later of the application stage ending or the proposed PRC plan being submitted, ask a qualified entity to—
- (a) carry out a public interest evaluation for each area of land mentioned in subsection (1)(b); and
  - (b) give the administering authority a report about the evaluation that complies with section 316PB.

*Note—*

See section 167A(4) for when particular reports must be given to the administering authority under paragraph (b).

- (3) In this section—

*EIS* includes an EIS under the State Development Act.

*qualified entity* means an entity, other than the applicant, that has the experience and qualifications, prescribed by regulation, necessary to carry out a public interest evaluation.

## **Part 3 Information stage**

### **Division 1 Preliminary**

#### **137 Purpose of information stage**

The information stage for an application gives the administering authority the opportunity to ask the applicant for further information needed to assess the application.

#### **138 When information stage applies**

Subject to section 139, the information stage applies to—

- (a) variation applications; and
- (b) site-specific applications.

#### **139 Information stage does not apply if EIS process complete**

(1) This section applies if—

- (a) either—
  - (i) the EIS process for an EIS for each relevant activity the subject of the application has been completed and the EIS assessment report relating to each relevant activity has not lapsed under section 59A; or
  - (ii) in evaluating an EIS under the State Development Act, the Coordinator-General has stated conditions mentioned in section 34D(3)(b) of that Act that relate to each relevant activity the subject of the application; and
- (b) since the EIS mentioned in paragraph (a)(i) or the evaluation mentioned in paragraph (a)(ii) was completed—

- 
- (i) for an environmental authority—the environmental risks of the activity and the way the activity will be carried out have not changed; or
  - (ii) for a proposed PRC plan—
    - (A) a post-mining land use or non-use management area has not changed; or
    - (B) achieving a stable condition for land has not changed; or
    - (C) the way a post-mining land use will be achieved, or a non-use management area will be managed, has not changed in a way likely to result in significantly different impacts on environmental values compared to the impacts on the values under the EIS; or
    - (D) the day by which rehabilitation of land to a stable condition will be achieved has not changed.
- (2) However—
- (a) this section applies for a variation application or site-specific application only if the matters mentioned in section 125(1)(l) have been provided to the administering authority (whether with the application, through the EIS or in another way); and
  - (b) this section applies for a site-specific application for a mining activity relating to a mining lease only if there is a proposed PRC plan for the application.
- (3) The information stage does not apply to the application.

## **Division 2                      Information requests**

### **140      Information request to applicant**

- (1) The administering authority may ask the applicant, by written request (an *information request*), to give further information needed to assess the application.
- (2) An information request must state that the application will lapse unless the applicant gives the administering authority a response under section 146.

### **141      Content of information request**

- (1) The administering authority must state in an information request the period (the *information response period*) within which the applicant must give a response under section 146.
- (2) The information response period must be—
  - (a) if an EIS is required for the application under section 143(2)—a period of at least 2 years after the final terms of reference are given to the proponent under section 46(1); or
  - (b) otherwise—a period of at least 6 months after the giving of the information request.

### **143      EIS may be required**

- (1) This section applies for a site-specific application for a resource activity if—
  - (a) the application does not relate to a coordinated project; and
  - (b) any of the following apply—
    - (i) the chief executive has granted an approval for the applicant to voluntarily prepare an EIS under chapter 3, part 2 and the EIS process has not yet been completed under chapter 3, part 1;

- 
- (ii) an EIS process for an EIS for the application has otherwise not been completed under chapter 3, part 1;
  - (iii) an EIS assessment report relating to the application has lapsed under section 59A.
- (2) Without limiting section 140(1), the administering authority may include in an information request—
    - (a) if subsection (1)(b)(i) applies—a requirement that the EIS process be completed and an EIS be provided for the application; or
    - (b) otherwise—a requirement that the applicant complete an EIS process and provide an EIS for the application.
  - (3) If subsection (1)(b)(ii) or (iii) applies, in deciding whether an EIS is required for an application, the administering authority must consider the standard criteria.
  - (4) A requirement under subsection (2) ceases to have effect if a relevant activity or tenure for the application is, or is included in, a coordinated project.
  - (5) If the chief executive has made a decision under section 73C that an EIS would not be required for an application for an environmental authority for a project, the administering authority must not require an applicant for an environmental authority for the project to provide an EIS for the application.
  - (6) Subsection (5) does not apply if the environmental risks of the activities proposed to be carried out under the project, and the way the activities are to be carried out, are different from the environmental risks and activities considered by the chief executive when making the decision under section 73C.

### **143A Proposed PRC plan required for particular applications**

- (1) This section applies for a site-specific application for a mining activity relating to a mining lease if there is no proposed PRC plan for the application.

- (2) Without limiting section 140(1), the administering authority must include in an information request a requirement that the applicant submit a proposed PRC plan for the application.
- (3) The proposed PRC plan must comply with part 2, division 3.

#### **144 When information request must be made**

An information request must be made—

- (a) for a site-specific application, within the following periods (each the *information request period*)—
  - (i) if the application is accompanied by a proposed PRC plan—30 business days after the day the application stage ends for the application;
  - (ii) otherwise, but subject to subparagraphs (iii) and (iv)—20 business days after the day the application stage ends for the application;
  - (iii) if a proposed PRC plan is submitted before the end of the period mentioned in subparagraph (ii)—30 business days after the day the application stage ends for the application;
  - (iv) if a proposed PRC plan is submitted after the end of the period mentioned in subparagraph (ii) in response to an information request made in that period— 10 business days after the proposed PRC plan is submitted; or
- (b) for a variation application—within 10 business days after the day the application stage ends for the application (also the *information request period*).

#### **145 Extending information request period**

- (1) The administering authority may, by written notice given to the applicant and without the applicant's agreement, extend the information request period by not more than 10 business days.

- 
- (2) Only 1 notice may be given by the administering authority under subsection (1) for the application and the notice must be given before the information request period ends.
  - (3) The information request period may be further extended if the applicant, at any time, gives written agreement to the extension.

## **Division 3                      Responding to information request**

### **146      Applicant responds to any information request**

- (1) If the applicant receives an information request from the administering authority, the applicant must respond by giving the authority—
  - (a) all of the information requested; or
  - (b) part of the information requested together with a written notice asking the authority to proceed with the assessment of the application; or
  - (c) a written notice—
    - (i) stating that the applicant does not intend to supply any of the information requested; and
    - (ii) asking the authority to proceed with the assessment of the application.
- (2) Despite subsection (1), if the information request requires the applicant to provide an EIS for the application under section 143(2), the EIS process under chapter 3 must be completed and the EIS provided.
- (3) Also, despite subsection (1), if the information request requires the applicant to submit a proposed PRC plan for the application under section 143A, a proposed PRC plan complying with part 2, division 3 must be submitted.

## **147 Lapsing of applications if no response to information request**

- (1) An application lapses if the applicant does not comply with section 146 within—
  - (a) the information response period stated in the information request; or
  - (b) the further period agreed between the applicant and the administering authority.
- (2) If the applicant asks the administering authority to agree to extend the information response period, the request must be made at least 10 business days before the last day of the information response period.
- (3) The administering authority must, within 5 business days after receiving the request—
  - (a) decide whether to agree to the extension; and
  - (b) give an information notice of the decision.

## **Division 4 End of information stage**

### **148 When does information stage end**

The information stage ends when—

- (a) if an information request has been made—the applicant has finished responding to the request and the administering authority has received the response; or
- (b) if an information request has not been made, the earlier of the following—
  - (i) when the administering authority decides not to make an information request;
  - (ii) the information request period has ended.

---

## **Part 4                      Notification stage**

### **Division 1                Preliminary**

#### **149      When notification stage applies**

Subject to section 150, the notification stage applies to an application if—

- (a) any part of the application is for a mining activity relating to a mining lease; or
- (b) the application is a site-specific application and any part of the application is for a geothermal activity, GHG storage activity or petroleum activity.

#### **150      Notification stage does not apply to particular applications**

(1) This section applies if—

- (a) for an EIS under this Act—
  - (i) the EIS for each relevant activity the subject of the application has been notified under section 51; and
  - (ii) for a site-specific application for a mining activity relating to a mining lease—the notification of the EIS for the mining activity under section 51 included a notification of a proposed PRC plan for the application; and
- (b) for an EIS under the State Development Act—
  - (i) the EIS for each relevant activity the subject of the application has been notified under section 33 of that Act; and
  - (ii) for a site-specific application for a mining activity relating to a mining lease—the notification of the EIS for the mining activity under section 33 of that

Act included a notification of a proposed PRC plan for the application; and

- (c) for an application for an environmental authority, since the EIS mentioned in paragraph (a) or (b) was notified—
    - (i) the environmental risks of the relevant activity and the way it will be carried out have not changed; or
    - (ii) if the application proposes a change to the way the relevant activity will be carried out—the administering authority is satisfied the change would not be likely to attract a submission objecting to the thing the subject of the change, if the notification stage were to apply to the change; and
  - (d) for a proposed PRC plan notified with an EIS mentioned in paragraph (a) or (b), since the EIS was notified—
    - (i) a post-mining land use or non-use management area has not changed; or
    - (ii) the day by which rehabilitation of land to a stable condition will be achieved has not changed.
- (2) The notification stage does not apply to the application.
- (3) However, a properly made submission about the EIS is taken to be a properly made submission about the application.
- (4) In this section—
- EIS* means an EIS under this Act or the State Development Act.

## **151 When notification stage can start**

- (1) The applicant may start the notification stage at any time after the application stage ends for the application.
- (2) However, if the application is a site-specific application for a mining activity relating to a mining lease, the applicant may

---

start the notification stage only if there is a proposed PRC plan for the application.

## **Division 2                      Public notice**

### **152      Public notice of application**

- (1) The applicant must give and publish a notice about the application (the *application notice*).
- (2) The application notice must be given and published—
  - (a) simultaneously or together with, and in the same way as, any public notice for an application under resource legislation for a relevant tenure for the application; or
  - (b) if public notice is not required to be given for an application under resource legislation for a relevant tenure for the application—
    - (i) in a newspaper circulating generally in the area where the relevant resource activity is proposed to be carried out; and
    - (ii) before the day that is 10 business days after the end of the information stage for the application; or
  - (c) in another way prescribed under a regulation.
- (3) The administering authority may decide an additional or substituted way to give or publish the application notice if it gives the applicant an information notice about the decision before the application notice is given.
- (4) This section is subject to section 159.

### **153      Required content of application notice**

- (1) An application notice must be in the approved form and state the following—
  - (a) a description of each relevant resource activity;
  - (b) the land on which each activity is to be carried out;

- (c) for a standard or variation application—where copies of the standard conditions for the relevant activity or authority may be obtained;
  - (d) where the application documents may be inspected or accessed;
  - (e) where copies of, or extracts from, the application documents may be obtained;
  - (f) that any entity may make a submission to the administering authority about the application documents;
  - (g) the period (the *submission period*) during which submissions may be given;
  - (h) how to make a properly made submission;
  - (i) another matter prescribed under a regulation.
- (2) Also, subsection (3) applies if the process for an EIS, for a relevant activity the subject of the application, was notified before the notification stage for the application started.
- (3) The application notice must state where, in the application documents mentioned in subsection (1)(d), information about the following changes between the EIS, since the EIS was notified, and the application documents, are shown—
- (a) for an environmental authority—
    - (i) the environmental risks of the activity that have changed as a result of the proposed changes to the way the relevant activity is to be carried out; and
    - (ii) the proposed changes to the way the relevant activity is to be carried out;
  - (b) for a proposed PRC plan notified with the EIS—
    - (i) the proposed change to a post-mining land use or non-use management area; and
    - (ii) the proposed change to the day by which rehabilitation of land to a stable condition will be achieved.

- (4) This section is subject to section 159.

#### **154 Submission period for application—mining activities**

*Note—*

For the last objection day under the Mineral Resources Act, see section 252 of that Act.

#### **155 Submission period for application—other resource activities**

The submission period for an application for a resource activity other than a mining activity can not end before the later of the following—

- (4) In this section—  
*access period* see section 157(2).

## **157 Public access to application documents**

- (1) The administering authority must, for all of the access period—
  - (a) keep the application documents for the application open for inspection by members of the public during office hours on business days at—
    - (i) the authority's head office; or
    - (ii) the office of the authority located nearest to the land to which the application relates; or

- (2) In this section—  
*access period* means the period that—
  - (a) starts the day after the application stage for the application ends; and
  - (b) ends on the earlier of the following—
    - (i) the day the application lapses or is withdrawn;

- 
- (ii) if the application is for a mining activity relating to a mining lease and the application is referred to the Land Court under section 185—the day a final decision about the application is made under section 194(2);
  - (iii) if the application is for a mining activity relating to a mining lease and the application is not referred to the Land Court—20 business days after the notice is given under section 181;
  - (iv) otherwise—the review date.

## 158 Declaration of compliance

- (1) The applicant must give the administering authority a declaration about whether or not the applicant has complied with the following requirements (the *public notice requirements*)—

## **159 Substantial compliance may be accepted**

- (1) This section applies if the applicant—

    - (ii) fix a new submission period for the application and give the applicant written notice of the period; and
    - (iii) give the applicant an information notice about the decision.
- (6) The stated substituted way to give or publish the application notice applies instead of the requirements for giving or publishing the notice under section 152.

- 
- (7) If the administering authority states a substituted way to give or publish the application notice, section 158 applies to the applicant as if—
- (a) a reference to section 152 were a reference to the notice given under subsection (5)(b)(i); and
  - (b) a reference to the submission period were a reference to the submission period fixed under subsection (5)(b)(ii).
- (8) Despite subsection (5)(a), if the administering authority decides not to allow the application to proceed, any properly made submissions for the application continue to have effect.

## **194A Final decision on application**

- (1) The administering authority's final decision on an application for an environmental authority must be—
- (a) if a draft environmental authority was given for the application—
    - (i) the application be approved on the basis of the draft environmental authority for the application; or
    - (ii) the application be approved, but on stated conditions that are different from the conditions in the draft environmental authority; or

  - (b) if the authority states a day or an event for it to take effect—on the stated day or when the stated event happens; or
  - (c) otherwise—on the day the authority is issued.

*Note—*

See section 297 for conditions about when the holder of an environmental authority for a resource activity must not carry out, or allow the carrying out, of the activity under the authority.

- (2) However, the day an environmental authority takes effect may not be before—
  - (a) if the authority is for a resource activity—the day the relevant tenure is granted to the applicant; or
  - (b) if a development permit for a material change of use of premises is necessary under the Planning Act for carrying out an activity that relates to the authority—the day the development permit takes effect; or

## **201 Term of environmental authority**

- (1) An environmental authority continues in force until the earlier of the following to happen—

- (a) if the environmental authority states it will lapse after a stated period—the end of the stated period;
  - (b) the authority is cancelled, surrendered or suspended under this chapter.
- (2) To remove any doubt, it is declared that an environmental authority continues in force in relation to an ERA carried out on land identified by reference to a resource tenure even if the resource tenure expires or is cancelled.

## **202 Environmental authority includes conditions**

An environmental authority includes the conditions of the authority.

*Note—*

The *Environmental Offsets Act 2014*, part 6, states further conditions that apply to an environmental authority and those further conditions are called deemed conditions. A breach of a deemed condition may be dealt with under this Act.

## **Division 5A PRCP schedules**

### **202A Requirements for PRCP schedule**

A PRCP schedule must—

- (a) be in the approved form; and
- (b) contain all conditions imposed on the schedule.

### **202B When PRCP schedule takes effect**

A PRCP schedule has effect on the day the environmental authority for carrying out relevant activities on land to which the schedule relates takes effect.

---

**202C Term of PRCP schedule**

- (1) A PRCP schedule continues in force until the environmental authority for the relevant activities to which the PRCP schedule relates is cancelled or surrendered.
- (2) To remove any doubt, it is declared that a PRCP schedule continues in force—
  - (a) in relation to a relevant activity carried out on land identified by reference to a resource tenure, even if the resource tenure expires or is cancelled; and
  - (b) even if the environmental authority for carrying out a relevant activity on land to which the PRCP schedule relates is suspended under part 11 or 11A.

**202D PRCP schedule includes conditions**

A PRCP schedule includes the conditions imposed on the schedule.

**202E Environmental authority overrides PRCP schedule**

If there is an inconsistency between an environmental authority and a PRCP schedule, the environmental authority prevails to the extent of the inconsistency.

**Division 6 Conditions****203 Conditions generally**

- (1) The administering authority may only impose a condition on an environmental authority, draft environmental authority, PRCP schedule or draft PRCP schedule if—
  - (a) it considers the condition is necessary or desirable; and
  - (b) if the authority is for an application to which section 115 applies—the condition relates to the carrying out of the relevant prescribed ERA.

- (2) Despite subsection (1), if this Act or a regulatory requirement requires the administering authority to impose a condition, the administering authority must impose the condition.
- (3) Subsection (1) only applies for a proposed condition for an environmental authority given for a standard application if—
  - (a) the application relates to a mining lease; and
  - (b) a properly made submission was made for the application; and
  - (c) the condition is not a standard condition for the relevant activity or authority.

#### **204 Conditions that must be imposed for standard or variation applications**

- (1) Subsection (2) applies for an environmental authority or draft environmental authority given for a standard or variation application.
- (2) The administering authority must impose on the authority a condition requiring the holder of the authority to take all reasonable steps to ensure the relevant activity complies with the eligibility criteria for the activity.
- (3) A condition imposed under subsection (2) is taken to be a standard condition imposed on the authority.

#### **205 Conditions that must be imposed if application relates to coordinated project**

- (1) This section applies for an application if—
  - (a) the administering authority decides to approve the application, or a PRCP schedule for a proposed PRC plan for the application, subject to conditions; and

authority or schedule stated in the Coordinator-General's report for the EIS or IAR for the project as conditions for the relevant activity (*Coordinator-General's conditions*).

*Note—*

In evaluating an EIS under the State Development Act, the Coordinator-General may state conditions mentioned in section 34D(3)(b) of that Act.

- (3) However, if a report for a public interest evaluation for an area of land identified as a non-use management area in the PRCP schedule or draft PRCP schedule includes a recommendation that is inconsistent with the Coordinator-General's conditions, the conditions imposed by the administering authority must be consistent with the report.
- (4) Any other condition imposed on the authority or PRCP schedule can not be inconsistent with a Coordinator-General's condition.

## **206 Environmental authorities for particular resource activities includes particular conditions**

- (1) An environmental authority issued for a resource activity other than a mining activity is taken to include a condition prohibiting the use of restricted stimulation fluids.

*Example of the use of restricted stimulation fluids—*

the use of hydrocarbon chemicals to stimulate the fracturing of coal seams

- (2) Also, an environmental authority issued for a petroleum activity is taken to include a condition prohibiting the injection of a GHG stream into the Great Artesian Basin for the purpose of enhanced petroleum recovery.
- (3) A condition mentioned in subsection (1) or (2) is taken to be a standard condition imposed on the environmental authority.
- (4) In this section—

*restricted stimulation fluids* means fluids used for the purpose of stimulation, including fracturing, that contain the

following chemicals in more than the maximum amount prescribed under a regulation—

- (a) petroleum hydrocarbons containing benzene, ethylbenzene, toluene or xylene;

  - (a) each rehabilitation milestone and management milestone;
  - (b) when each rehabilitation milestone and management milestone is to be achieved.

- (2) The condition must also state—
- (a) the criteria (the *compliance criteria*) the document or work must comply with; and
  - (b) that the statement of compliance must state whether the document or work complies with the compliance criteria; and

  - (d) when the statement of compliance and supporting information must be given to the administering authority.

## **209 Environmental offset conditions**

- (1) An environmental offset condition may require an environmental offset to be carried out on land on which a relevant activity for the environmental authority is carried out or on other land in the State.

- (4) The environmental authority holder may enter into an agreement with the administering authority or another entity to establish the obligations, or secure the performance, of a party to the agreement about a condition.
- (5) A reference in subsection (3) or (4) to the holder of an environmental authority entering into an agreement includes the holder entering into an agreement before the environmental authority is issued.

- 
- (6) An agreement entered into under subsection (3) or (4) is not an environmental offset agreement under the *Environmental Offsets Act 2014*.

## **210 Inconsistencies between particular conditions of environmental authorities**

- (1) This section applies if—
- (a) an environmental authority contains conditions identified in the authority as standard conditions and other conditions (the *non-standard conditions*); and
  - (b) there is any inconsistency between the standard conditions and the non-standard conditions.
- (2) The non-standard conditions prevail to the extent of the inconsistency.

  - (g) for an environmental authority for a petroleum activity—
    - (i) involves constructing a new pipeline that does not exceed 150km; or
    - (ii) involves extending an existing pipeline so that the extension does not exceed 10% of the existing length of the pipeline; and
  - (h) if the amendment relates to a new relevant resource tenure for the authority that is an exploration permit or GHG permit—seeks, in the amendment application under section 224, an amended environmental authority that is subject to the standard conditions for the relevant activity or authority, to the extent it relates to the permit.

***properly made amendment application*** see section 227AAA.

## **Division 2                      Making amendment application**

### **224      Who may apply**

The holder of an environmental authority or PRCP schedule may, at any time, apply to the administering authority to amend the environmental authority or PRCP schedule (an *amendment application*).

*Examples of when the holder may wish to make an amendment application—*

- an environmental authority or PRCP schedule has been issued for a resource project and the holder proposes to carry out additional resource activities as part of the project
- to complement an application under the P&G Act, chapter 4, part 6 to amend a relevant pipeline licence

### **225      Amendment application can not be made in particular circumstances**

- (1) Despite section 224, an amendment application for an environmental authority for a prescribed ERA can not be made if—
  - (a) the proposed amendment involves changes to the relevant activity; and
  - (b) a development permit for a material change of use of premises is necessary under the Planning Act for the carrying out of the changed activity; and
  - (c) neither of the following applications has been made under the Planning Act—
    - (i) a development application for a development permit mentioned in paragraph (b);
    - (ii) a change application to change a development permit to authorise a material change of use of premises in relation to the changed activity.
- (2) Also, despite section 224, an amendment application for an environmental authority can not be made if—

- 
- (a) the proposed amendment is to add an environmentally relevant activity; and
  - (b) if the amendment application were approved, the addition of the activity would result in the environmental authority applying to activities that were not being carried out as an ERA project.
- (3) In addition, despite section 224, if the holder relied on section 125(8) in the application for the environmental authority, an application can not be made to extend the term of the authority.
- (4) Despite section 224, an amendment application for an environmental authority for a petroleum activity can not be made if the proposed amendment would allow the carrying out of an activity under the authority that is, or involves, the injection of a GHG stream into the Great Artesian Basin for the purpose of enhanced petroleum recovery.

## **226 Requirements for amendment applications generally**

- (1) An amendment application must—
- (a) be made to the administering authority; and
  - (b) be in the approved form; and
  - (c) be accompanied by the fee prescribed by regulation; and
  - (d) describe the proposed amendment; and
  - (e) describe the land that will be affected by the proposed amendment; and
  - (f) include any other document relating to the application prescribed by regulation.
- (2) However, subsection (1)(d) and (e) does not apply to an application for a condition conversion.

### **226AA Requirement for amendment application by holder of environmental authority and PRCP schedule**

- (1) This section applies if—

- (a) the holder of an environmental authority and a PRCP schedule for the environmental authority (each a *relevant environmental requirement*) makes an amendment application; and
  - (b) the application is to amend only 1 of the relevant environmental requirements; and
  - (c) the approval of the amendment application would result in the relevant environmental requirement to which the application relates being inconsistent with the other relevant environmental requirement.
- (2) The holder must make an amendment application to amend both relevant environmental requirements in a way that, if the amendment application were approved, would not result in 1 of the relevant environmental requirements being inconsistent with the other relevant environmental requirement.

## **226A Requirements for amendment applications for environmental authorities**

- (1) If the amendment application is for the amendment of an environmental authority, the application must also—
- (a) describe any development permits in effect under the Planning Act for carrying out the relevant activity for the authority; and
  - (b) state whether each relevant activity will, if the amendment is made, comply with the eligibility criteria for the activity; and
  - (c) if the application states that each relevant activity will, if the amendment is made, comply with the eligibility criteria for the activity—include a declaration that the statement is correct; and
  - (d) state whether the application seeks to change a condition identified in the authority as a standard condition; and
  - (e) if the application relates to a new relevant resource tenure for the authority that is an exploration permit or

- 
- GHG permit—state whether the applicant seeks an amended environmental authority that is subject to the standard conditions for the relevant activity or authority, to the extent it relates to the permit; and
- (f) include an assessment of the likely impact of the proposed amendment on the environmental values, including—
    - (i) a description of the environmental values likely to be affected by the proposed amendment; and
    - (ii) details of emissions or releases likely to be generated by the proposed amendment; and
    - (iii) a description of the risk and likely magnitude of impacts on the environmental values; and
    - (iv) details of the management practices proposed to be implemented to prevent or minimise adverse impacts; and
    - (v) if a PRCP schedule does not apply for each relevant activity—details of how the land the subject of the application will be rehabilitated after each relevant activity ends; and
  - (g) include a description of the proposed measures for minimising and managing waste generated by amendments to the relevant activity; and
  - (h) include details of any site management plan or environmental enforcement order issued under section 362(1) that relates to the land the subject of the application.
- (2) Subsection (1)(f) does not apply for an amendment application for an environmental authority if—
- (a) either—
    - (i) the process under chapter 3 for an EIS for the proposed amendment has been completed; or
    - (ii) the Coordinator-General has evaluated an EIS for the proposed amendment and there are

Coordinator-General's conditions that relate to the proposed amendment; and

- (b) an assessment of the environmental risk of the proposed amendment would be the same as the assessment in the EIS mentioned in paragraph (a)(i) or the evaluation mentioned in paragraph (a)(ii).
- (3) Also, subsection (1)(a), (d), (e), (f), (g) and (h) does not apply to an application for a condition conversion.
- (4) Despite subsection (1)(f), (g) and (h), if the amendment application is for an environmental authority for the prescribed ERA mentioned in the *Environmental Protection Regulation 2019*, schedule 2, section 13A—
  - (a) it need only include the matters mentioned in subsection (1)(f)(i) to (iv), (g) and (h) to the extent the matters relate to fine sediment, or dissolved inorganic nitrogen, entering the water of the Great Barrier Reef or Great Barrier Reef catchment waters; and
  - (b) subsection (1)(f)(v) does not apply for the amendment application.

## **226B Requirements for amendment applications for PRCP schedules**

An amendment application for a PRCP schedule must be accompanied by an amended rehabilitation planning part for the holder's PRC plan that complies with section 126C in relation to the proposed amendment.

## **227 Requirements for amendment applications—CSG activities**

- (1) This section applies for an amendment application if—
  - (a) the application relates to an environmental authority for a CSG activity; and
  - (b) the proposed amendment would result in changes to the management of CSG water; and

- (c) the CSG activity is an ineligible ERA.
- (2) The application must also—
  - (a) state the matters mentioned in section 126(1); and
  - (b) comply with section 126(2).

### **227AA Requirements for amendment applications—underground water rights**

- (1) This section applies for an amendment application if—
  - (a) the application relates to a site-specific environmental authority for—
    - (i) a resource project that includes a resource tenure that is a mineral development licence, mining lease or petroleum lease; or
    - (ii) a resource activity for which the relevant tenure is a mineral development licence, mining lease or petroleum lease; and
  - (b) the proposed amendment involves changes to the exercise of underground water rights.
- (2) The application must also state the matters mentioned in section 126A(2).
- (3) In this section—

*site-specific environmental authority* means an environmental authority that includes 1 or more ineligible ERAs.

### **227AAA When amendment application is a properly made amendment application**

An amendment application under section 224 is a *properly made amendment application* if it complies with this division.

## **Division 2AA        Notices about not properly made amendment applications**

### **227AAB Notice about amendment application that is not a properly made amendment application**

- (1) This section applies if an amendment application is not a properly made amendment application.
- (2) The administering authority must, within 10 business days after receiving the amendment application, give the applicant a notice stating the following—
  - (a) it is not a properly made amendment application;
  - (b) the reasons the administering authority is satisfied it is not a properly made amendment application;
  - (c) the action the administering authority is satisfied the applicant must take for the application to be a properly made amendment application;
  - (d) the period of at least 20 business days after the notice is given within which the applicant must give written notice to the administering authority that the action has been taken;
  - (e) that, if the applicant does not give the notice mentioned in paragraph (d) within the stated period, the amendment application will lapse under section 227AAC.

### **227AAC When amendment application lapses**

- (1) This section applies if the applicant is given a notice under section 227AAB(2).
- (2) The amendment application lapses if the applicant does not, within the stated period or the further period agreed between the administering authority and the applicant—
  - (a) take the action mentioned in section 227AAB(2)(c); and

- (b) give the administering authority written notice that the action has been taken.

## **Division 2A                      Provision for particular amendment applications**

### **227A Early refusal of particular amendment applications and requirement to replace environmental authority**

- (1) This section applies to an amendment application if the proposed amendment would change a condition imposed under section 204 on the environmental authority to which the application relates.
- (2) The administering authority may, within 10 business days after receiving the amendment application, refuse the application under this section.
- (3) Also, if the administering authority refuses the application, the authority may require the holder of the environmental authority to make a site-specific application for a new environmental authority under part 2 to replace the environmental authority.
- (4) However, section 316P(3) to (7) applies to the requirement as if a reference to the holder of the environmental authority were a reference to the applicant.
- (5) The administering authority must give the applicant written notice of any refusal under subsection (2).
- (6) Divisions 3 to 5 do not apply to the amendment application if the administering authority refuses the application under this section.

## Division 3                      Assessment level decisions

### 227B Amendment applications to which div 3 does not apply

This division does not apply to an amendment application for a condition conversion.

### 228 Assessment level decision for amendment application

- (1) The administering authority must, after receiving an amendment application, decide whether the proposed amendment is a major or minor amendment—
  - (a) if the administering authority gives the applicant a notice under section 227AAB(2)—within 10 business days after the applicant gives the administering authority the notice mentioned in section 227AAB(2)(d); or
  - (b) otherwise—within 10 business days after receiving the amendment application.
- (2) Despite section 223, definition *minor amendment (PRCP threshold)*, paragraphs (e) and (f), the administering authority may decide under subsection (1) that a proposed amendment changing the order of at least 2 of the days when rehabilitation of land to a stable condition will be achieved is a minor amendment if the administering authority is satisfied the applicant has—
  - (a) undertaken adequate consultation with the community in relation to the proposed amendment; and
  - (b) adequately addressed any matters raised by the community during consultation.
- (3) The decision under subsection (1) is the ***assessment level decision*** for the application.
- (4) If the assessment level decision is that the amendment is a major amendment, the applicant must pay an assessment fee prescribed by regulation.

---

**229 Notice of assessment level decision**

- (1) The administering authority must, within 10 business days after the assessment level decision is made, give the applicant a written notice stating—
  - (a) the assessment level decision; and
  - (b) if the decision is that the proposed amendment is a major amendment—the reasons for the decision.
- (2) Also, if the assessment level decision is that the amendment is a major amendment, the written notice must also state that—
  - (a) the applicant must pay an assessment fee prescribed by regulation; and
  - (b) an assessment of the application under division 4 will not proceed until the assessment fee mentioned in paragraph (a) is paid.

**230 Administering authority must require public notification for particular amendment applications**

- (1) This section applies if—
  - (a) an amendment application is for an environmental authority for a resource activity; and
  - (b) the assessment level decision is that the amendment is a major amendment.
- (2) The notice given under section 229 must state that part 4 applies to the amendment application.

**Division 4 Process if proposed amendment is a major amendment**

**231 Application of div 4**

This division applies if the assessment level decision for an amendment application is that the proposed amendment is a major amendment.

## **232 Relevant application process applies**

- (1) Section 136A and parts 3 to 5 apply in relation to the amendment application—
  - (a) if the amendment application is for a PRCP schedule—as if the amendment application and amended rehabilitation part for the holder’s PRC plan were a proposed PRC plan accompanying a site-specific application; or
  - (b) otherwise—as if it were a site-specific application.
- (2) However, if the amendment application is for a PRCP schedule, part 4 does not apply to the application to the extent the change—
  - (a) reduces the area of a non-use management area under the schedule; or
  - (b) is likely to reduce, or cause no change to, the impacts on environmental values caused by the activities the subject of the schedule.
- (2A) Also, the following provisions do not apply for an amendment application for an environmental authority for a mining activity relating to a mining lease—
  - (a) sections 139(2)(b) and 143A;
  - (b) sections 150(1)(a)(ii) and (b)(ii) and 151(2).
- (3) The provisions applied under this section apply—
  - (a) as if a reference in sections 144 and 151 to the end of the application stage were a reference to the later of the following—
    - (i) the day notice of the assessment level decision is given;
    - (ii) the day the fee mentioned in section 228(4) is paid; and
  - (b) with any other necessary changes; and
  - (c) subject to subsection (4) and sections 234 and 235.

- 
- (3A) Also, if the assessment level decision is that the amendment is a major amendment, an assessment of the application under parts 3 to 5 as applied by this section may not proceed until the prescribed assessment fee is paid.
- (4) To remove any doubt, it is declared that a submission made under section 160, as applied under subsection (1)—
- (a) may be made about an existing provision of the environmental authority or PRCP schedule only to the extent the provision is proposed to be amended under the amendment application; and
  - (b) can not be made about activities carried out under the environmental authority or PRCP schedule before the deciding of the amendment application.

### **234 Submission period**

- (1) Despite sections 153(1)(g) and 154, the submission period for the application is the period fixed by the administering authority by written notice to the applicant.
- (2) However, the period must be at least 20 business days and must end at least 20 business days after the publication of the application notice.

### **235 Criteria for deciding amendment application**

Despite section 176(2)(b) or 176A, the matters mentioned in section 176(2)(b) or 176A may only be considered to the extent they relate to the proposed amendment.

### **236 Changing amendment application**

- (1) Before the amendment application is decided, the applicant may change the application by giving the administering authority—
  - (a) written notice of the change; and
  - (b) the fee prescribed under a regulation.

- (2) An applicant can not change an amendment application if the change would, if the application were remade including the change, result in the application not being a properly made amendment application.
- (3) Subsection (2) does not apply to the applicant if the applicant takes the action that would be necessary to make the application a properly made amendment application if it were remade.

**237 Effect on assessment of amendment application—minor change**

- (1) The assessment of a changed amendment application under parts 3 to 5, as applied under section 232(1), does not stop if—
  - (a) the change is a minor change of the application; or
  - (b) the administering authority gives its written agreement to the change.
- (2) For the changed application, the notification stage does not again apply, and is not required to restart, if—
  - (a) the notification stage applied to the original amendment application; and
  - (b) the change was made during the notification stage or after the notification stage ended.

**238 Effect on assessment of amendment application—other changes**

- (1) Subsections (2) to (5) apply to a changed amendment application if—
  - (a) the change is not a minor change; and
  - (b) the administering authority has not given its written agreement to the change.

- 
- (2) The assessment of the application under parts 3 to 5, as applied under section 232(1), stops on the day notice of the change is received.
  - (3) If the information stage applies to the changed application—
    - (a) the administering authority may, within 10 business days after notice of the change is received, ask the applicant to give further information needed to assess the application; and
    - (b) a request under paragraph (a) is taken to be an information request under section 140, as applied under section 232; and
    - (c) if no information request is made under paragraph (a)—the information stage for the changed application is taken to have ended; and
    - (d) if the notification stage also applies to the changed application—the applicant may start the notification stage the day notice of the change is given.
  - (4) If the information stage does not apply to the changed application, but the notification stage applies, the assessment of the application restarts from section 152.
  - (5) If neither the information stage nor the notification stage apply to the changed application, the assessment of the application restarts from the start of the decision stage.
  - (6) Subsection (7) applies to a changed application if—
    - (a) the assessment of the application has stopped under subsection (2); and
    - (b) the notification stage applied to the original application; and
    - (c) the change was made during the notification stage or after the notification stage ended.
  - (7) The notification stage must be repeated unless the administering authority is satisfied the change would not be likely to attract a submission objecting to the thing the subject

of the change, if the notification stage were to apply to the change.

## **Division 5                      Process if proposed amendment is minor amendment**

### **239      Application of div 5**

This division applies if—

- (a) the assessment level decision for an amendment application is that the proposed amendment is a minor amendment; or
- (b) an amendment application is for a condition conversion for an environmental authority.

### **240      Deciding amendment application**

- (1) The administering authority must decide either to approve or refuse the application—
  - (a) if the application is for a condition conversion for an environmental authority—within 10 business days after the application is received; or
  - (b) otherwise—
    - (i) within 10 business days after notice of the assessment level decision is given to the applicant; or
    - (ii) if the applicant agrees to extend the period mentioned in subparagraph (i) by no more than 20 business days—within the extended period.
- (2) The administering authority may approve the amendment application if it is satisfied the proposed amendment is necessary or desirable.
- (3) If the administering authority decides to approve the application, it may also make any other amendments to the

---

conditions of the environmental authority or PRCP schedule it considers—

- (a) relate to the subject matter of the proposed amendment; and
- (b) are necessary or desirable.

## **241 Criteria for deciding amendment application**

In deciding the application, other than an application for a condition conversion, the administering authority must—

- (a) comply with any relevant regulatory requirement; and
- (b) subject to paragraph (a), have regard to each of the following—
  - (i) the amendment application;
  - (ii) the existing environmental authority or PRCP schedule;
  - (iii) the standard criteria.

## **Division 6 Steps after deciding amendment application**

### **242 Steps after deciding amendment application**

- (1) If the administering authority decides to approve the amendment application, it must, within 5 business days after the decision is made—
  - (a) amend the environmental authority or PRCP schedule to give effect to the amendment; and
  - (b) issue the amended environmental authority or PRCP schedule to the applicant; and
  - (c) include a copy of the amended environmental authority or PRCP schedule in the relevant register.

- (2) Subsection (3) applies if the administering authority decides to—
  - (a) refuse the application; or
  - (b) make an amendment, other than an amendment agreed to by the applicant.
- (3) The administering authority must, within 5 business days after the decision is made, give the applicant an information notice about the decision.

- (g) be accompanied by the fee prescribed by regulation.

## **Division 2                      Deciding amalgamation application**

### **247      Deciding amalgamation application**

### **250C De-amalgamation**

- (1) If the administering authority receives a de-amalgamation application that complies with section 250B, the administering authority must—
  - (a) de-amalgamate the environmental authority to give effect to the de-amalgamation; and
  - (b) for de-amalgamation of an environmental authority for relevant activities to which a PRCP schedule relates—de-amalgamate the schedule to the extent necessary to give effect to the de-amalgamation of the authority; and
  - (c) issue the de-amalgamated environmental authorities to the applicant; and
  - (d) give the applicant a copy of any de-amalgamated PRCP schedules; and

- (e) include a copy of each environmental authority issued under paragraph (c), and each de-amalgamated PRC plan, in the relevant register.
- (2) The administering authority must comply with subsection (1)—
  - (a) within 15 business days after the day the de-amalgamation application is received; or
  - (b) if the applicant agrees to extend the period mentioned in paragraph (a) by a period of not more than 10 business days—within the extended period.
- (3) If a PRCP schedule is de-amalgamated under subsection (1)(b), the holder of each de-amalgamated schedule must be the holder of the de-amalgamated environmental authority.
- (4) Despite subsection (2), if an ERC decision is, or has been, in effect for the environmental authority, the administering authority may only do the things mentioned in subsection (1)(a) to (e) after the administering authority makes an ERC decision for each of the proposed de-amalgamated environmental authorities.
- (5) The conditions of each de-amalgamated environmental authority may vary from the conditions imposed on the environmental authority immediately before the de-amalgamation—
  - (a) to the extent necessary for the de-amalgamation; and
  - (b) only if the applicant agrees in writing to the variation.

## **250D When de-amalgamation takes effect**

The de-amalgamation of an environmental authority takes effect—

- (a) if it relates to a transfer tenure—when both of the following things have happened—
  - (i) the transfer tenure is transferred;

part of the authority that relates to the activity to be carried out by the new person.

- (2) However, an application can not be made by a holder if section 125(8) was relied on in the application for the environmental authority.

### **253 Requirements for transfer application**

A transfer application must—

- (a) be made to the administering authority in the approved form; and
- (b) include the name and address of the proposed holder of the environmental authority or each part of the environmental authority; and
- (c) be signed by the existing holder and the proposed holder; and
- (d) state whether the proposed holder is a registered suitable operator; and
- (e) if the proposed holder is not a registered suitable operator—be accompanied by an application for registration as a suitable operator under chapter 5A, part 4, division 1; and
- (f) be accompanied by the fee prescribed under a regulation.

### **254 Deciding transfer application**

- (1) The administering authority must consider each transfer application and decide to—
  - (a) approve the transfer; or
  - (b) refuse the transfer.
- (2) Despite subsection (1), the application must be approved if the proposed holder is a registered suitable operator.
- (3) The decision under subsection (1) must be made—

- 
- (a) if the proposed holder is a registered suitable operator—within 10 business days after the transfer application is received; or
  - (b) if the proposed holder is not a registered suitable operator—when an application for registration as a suitable operator is decided under chapter 5A, part 4, division 1.

## 255 Steps after deciding transfer application

- (1) If the administering authority decides to approve a transfer application under section 254(1)(a), it must, within 5 business days after the decision is made—

- (a) amend the relevant environmental authority to give effect to the transfer; and

*Example for paragraph (a)—*

For a transfer application for an environmental authority that is an amalgamated corporate authority, the proposed holders may be the existing holder for part of the authority and a new holder for part of the authority. The administering authority must amend the existing authority by dividing it into 2 new authorities.

- (b) issue the amended environmental authority (the ***transferred environmental authority***) to each holder; and
    - (c) include a copy of the transferred environmental authority in the relevant register.
- (2) If the administering authority decides to refuse a transfer application, it must, within 10 business days after the decision is made, give the existing holder and the proposed holder written notice of the decision.

## 256 Notice to owners of transfer

- (1) This section applies if—
  - (a) a person is issued a transferred environmental authority under section 255(1)(b); and

- (b) the person is not the owner of the land to which the authority relates.
- (2) The person must, within 10 business days after receiving the authority, give each owner of the land to which the authority relates written notice it has been issued the authority.  
Maximum penalty—10 penalty units.

## **Part 10                      Surrender of environmental authorities**

### **Division 1                      Preliminary**

#### **257      Who may apply for surrender**

- (1) The holder of an environmental authority may apply to the administering authority to surrender the environmental authority (a *surrender application*).
- (2) Subsection (3) applies if—
  - (a) the environmental authority relates to a mining activity; and
  - (b) under the Mineral Resources Act, the holder of the environmental authority has sought a conditional surrender of all or part of a relevant mining tenure.
- (3) A surrender application may only be made for the part of the environmental authority relating to land to which a new mining tenure will not apply if the conditional surrender is approved.
- (4) Subsection (5) applies if a relevant tenure for the environmental authority is to be surrendered under resource legislation.
- (5) A surrender application for the authority may only be made if an application to surrender the relevant tenure is also made under resource legislation.

- 
- (6) Subsections (3) and (5) apply despite subsection (1).
- (7) In this section—

*conditional surrender*, of a mining tenure, means a surrender in relation to the tenure of a type mentioned in the Mineral Resources Act, section 107(7), 161(4), 210(13) or 309(12).

## 258 Notice by administering authority to make surrender application

- (1) This section applies for an environmental authority for—

- (b) if the relevant tenure is a mining tenure—the tenure is replaced with a new tenure of the same type in respect of all or part of the land included in the relevant tenure; or
- (c) a replacement environmental authority is issued to the holder, and the replacement environmental authority has taken effect.

*Note—*

For when an environmental authority takes effect, see section 200.

## **260 Failure to comply with surrender notice**

The holder of an environmental authority to whom a surrender notice has been given must comply with the notice unless the holder has a reasonable excuse.

- (1) This section applies for an environmental authority for—

- 
- (a) a mining activity; or
  - (b) a petroleum activity; or
  - (c) a geothermal activity.
- (2) The administering authority may approve a surrender application for a part of the environmental authority.

*Examples for subsection (2)—*

- 1 An environmental authority relates to a mining claim and a mining lease. Under the Mineral Resources Act, the holder of the authority seeks to surrender the mining lease. The holder may, under this part, seek to surrender that part of the authority that relates to the mining lease.
- 2 An environmental authority relates to 1 mining tenure. Under the Mineral Resources Act, the holder of the tenure may seek to surrender part of the tenure. The holder of the authority may, under this part, seek to surrender that part of the authority that relates to the part of the resource tenure to be surrendered.

## **Division 4                    Requests for information**

### **265    Administering authority may request further information**

- (1) The administering authority may ask the applicant, by written request, to give further information needed to assess the surrender application.
- (2) The request must be made within 10 business days after the application is received.

## **Division 5                    Deciding surrender applications**

### **266    Deciding surrender application**

- (1) The administering authority must decide to—
  - (a) approve the surrender application; or
  - (b) refuse the surrender application.
- (2) Of the following periods that apply to a surrender application, a decision under subsection (1) about the application must be made within the later of the periods to end—
  - (a) if the administering authority requests further information under section 265(1)—40 business days after the further information is received by the authority;
  - (b) if the administering authority does not request further information under section 265(1)—40 business days after the application is made;
  - (c) if the environmental authority is for a resource activity and the relevant tenure is an exploration permit or mineral development licence—60 business days after the relevant tenure ends;

- 
- (d) if the environmental authority is for a resource activity and the relevant tenure is a mining lease or petroleum lease—90 business days after the relevant tenure ends.

## **267 Advice from relevant resource legislation chief executive about surrender application**

- (1) The administering authority may, before it makes a decision to refuse a surrender application for an environmental authority for a mining activity, seek advice from the chief executive of the department in which the Mineral Resources Act is administered.
- (2) Also, the administering authority may, before it decides a surrender application for an environmental authority for a resource activity, seek advice from the chief executive administering the relevant resource legislation about the post-surrender management report for land the subject of the application.
- (3) The advice may be sought in the way the administering authority considers appropriate.
- (4) If the advice is given, it must be given within the period required under section 266(2) for the administering authority to make the decision.

## **268 Criteria for decision generally**

In deciding a surrender application, the administering authority must—

- (a) comply with any relevant regulatory requirement; and
- (b) subject to paragraph (a), consider each of the following—
  - (i) the application;
  - (ii) any monitoring results relating to the rehabilitated area the subject of the application;
  - (iii) a final rehabilitation report and post-surrender management report accompanying the application;

- (iv) the compliance statement for the environmental authority or the part of the environmental authority the subject of the application, and any PRCP schedule for carrying out a relevant activity under the authority;
  - (v) any advice given under section 267 by the chief executive administering the resource legislation;
  - (vi) another matter prescribed under an environmental protection policy or a regulation; and
- (c) if a progressive certification has been given for a relevant tenure for the environmental authority—
- (i) confirm that the certified area for the relevant tenure still meets the criteria under section 318ZI against which it was certified; and
  - (ii) if the confirmation is made—give full effect to the certification; and
- (d) if the environmental authority relates to land for which particulars are or were recorded in the environmental management register—consider whether or not the land has been removed from the environmental management register or the land has a site management plan approved for it.

### **268A Criteria for decision—prescribed resource activities in overlapping area**

- (1) This section applies if—
- (a) the environmental authority the subject of the surrender application—
    - (i) is for a prescribed resource activity; and
    - (ii) relates to land in an overlapping area; and
  - (b) another prescribed resource activity (the *overlapping prescribed resource activity*) is being, or is proposed to be, carried out in the overlapping area.

- 
- (2) In deciding the surrender application, the administering authority must also consider—
- (a) the extent to which compliance with a rehabilitation condition of the environmental authority, or a PRCP schedule, is impossible or impractical due to the carrying out of the overlapping prescribed resource activity; and
  - (b) whether an environmental authority or PRCP schedule for the overlapping prescribed resource activity has been amended to include a condition equivalent to the rehabilitation condition of the environmental authority to be surrendered.

## **269 Restrictions on giving approval**

- (1) The administering authority may only approve a surrender application if—
- (a) the authority is satisfied the conditions of the environmental authority have been complied with; and
  - (b) if the environmental authority is subject to conditions requiring rehabilitation, and a PRCP schedule does not apply for a relevant activity under the environmental authority—
    - (i) the authority is satisfied the land on which each relevant activity for the environmental authority has been carried out has been satisfactorily rehabilitated; or
    - (ii) the authority has issued a transitional environmental program and it is satisfied the land will be satisfactorily rehabilitated under the program; and
  - (c) if a PRCP schedule applies for carrying out a relevant activity under the environmental authority—the administering authority is satisfied the rehabilitation milestones and management milestones under the schedule have been met; and

- (d) if a regulation has prescribed another circumstance for this section—the administering authority is satisfied of the circumstance.
- (2) Despite subsection (1)(b), the administering authority may approve a surrender application for an environmental authority that relates to land in an overlapping area if—
- (a) the administering authority is satisfied compliance with a rehabilitation condition of the environmental authority, or a PRCP schedule, is impossible or impractical due to the carrying out of an overlapping prescribed resource activity in the area; and
  - (b) an environmental authority or PRCP schedule for the overlapping prescribed resource activity has been amended to include a condition equivalent to the rehabilitation condition of the environmental authority to be surrendered.

### **269A Effect of approval of surrender application on PRCP schedule**

- (1) This section applies if—
- (a) the administering authority approves a surrender application, other than a surrender application for a part of an environmental authority; and
  - (b) a PRCP schedule applies for carrying out relevant activities under the environmental authority as in force before the surrender.
- (2) On the approval of the surrender application, the PRCP schedule ceases to have effect.

### **270 When application may be refused**

- (1) This section applies if—
- (a) a surrender application for a partial surrender of an environmental authority for an ERA project is made; and

- (b) if the application was approved, the environmental authority would not apply to all remaining areas that form the project.
- (2) Without limiting sections 266(1) and 268, the administering authority may refuse the surrender application.

## Division 6 Residual risk requirements

### 271 Payment may be required for residual risks

- (1) This section applies for a surrender application for an environmental authority for a resource activity.
- (2) The administering authority may, by written notice, require the applicant to pay the administering authority, or another entity that performs functions under this Act, a stated amount within a stated reasonable period for the residual risks of land the subject of the surrender application.

*Example of another entity—*

the scheme manager under the *Mineral and Energy Resources (Financial Provisioning) Act 2018*

- (3) A requirement under subsection (2) is a ***residual risks requirement***.
- (4) If a progressive certification has previously been given for a relevant tenure for the environmental authority, the administering authority must, in deciding to require the payment, confirm that the area of the relevant tenure still meets the criteria under section 318ZI against which it was certified.

### 272 Criteria for decision to make residual risks requirement

The administering authority may make a residual risks requirement for the surrender application only if it is satisfied the requirement is justified having regard to—

- (a) the degree of risk of environmental harm likely to happen if the land the subject of the application is

managed under the relevant requirements of this Act and instruments made under it; and

- (b) the likelihood of action being needed to—
  - (i) reinstate rehabilitation that fails to establish a safe, stable and self-sustaining ecosystem; or
  - (ii) maintain environmental management processes needed to protect the environment; or

*Example of an action for subparagraph (ii)—*

plugging a GHG well that is found to be leaking GHG into an overlying aquifer

- (iii) restore the environment because of environmental harm resulting from relevant resource activities for the environmental authority; and

*Example of an action for subparagraph (iii)—*

pumping contaminated water to the surface for treatment

- (c) the cost of likely action in comparison with the cost of best practice environmental management of the similar use of land that has not previously been affected by the activities.

## **273 Amount and form of payment**

- (1) The administering authority must decide the amount and form of the payment required.
- (2) The administering authority must have regard to the residual risk assessment guideline in deciding the amount of the payment.
- (3) Despite subsections (1) and (2), the administering authority can not require a payment of an amount more than the amount that, in the authority's opinion, represents the likely management costs.
- (4) In this section—

*likely management costs*, in relation to land the subject of a surrender application, means all likely costs and expenses that may be incurred in carrying out remedial action or ongoing

---

management activities in relation to the land because of residual risks of the land.

## **Division 7                      Directions about rehabilitation**

### **274      Directions to carry out rehabilitation may be given if surrender refused**

- (1) This section applies if the administering authority decides to refuse a surrender application for an environmental authority for a resource activity.
- (2) The administering authority may give the applicant a written direction (the *rehabilitation direction*) to carry out further stated rehabilitation within a stated reasonable period.
- (3) The direction must be given to the applicant with the notice of the refusal of the application required under section 275(b).
- (4) The notice of refusal must also include an information notice about the decision to give the direction.
- (5) In this section—  
*rehabilitation* includes environmental management.

## **Division 8                      Miscellaneous provisions**

### **275      Steps after deciding surrender application**

The administering authority must, within 10 business days after deciding a surrender application—

- (a) if the decision is to approve the surrender—
  - (i) record, in the relevant register, the surrender and, if there is a post-surrender management report for land the subject of the application, the existence of the report; and
  - (ii) give the applicant—

- (A) written notice of the decision; and
  - (B) an information notice about any decision under section 271 for the application; and
  - (iii) give written notice of the decision to the scheme manager; and
  - (iv) if there is a post-surrender management report for land the subject of the application—give written notice of the existence of the report to each owner or occupier of the land; or
- (b) if the decision is to refuse the surrender—give the applicant an information notice about the decision.

### **275A Administering authority may amend PRCP schedule**

- (1) This section applies if—
- (a) a surrender application for part of an environmental authority is approved; and
  - (b) a PRCP schedule applies for carrying out a relevant activity under the environmental authority as in force before the surrender; and
  - (c) because of the approval of the surrender application, the holder is no longer required to comply with a requirement under the PRCP schedule or a condition imposed on the schedule.
- (2) The administering authority must, within the relevant period—
- (a) amend the PRCP schedule or a condition imposed on the schedule to remove the requirement; and
  - (b) give a copy of the amended PRCP schedule to the holder; and
  - (c) include a copy of the amended PRCP schedule in the relevant register; and
  - (d) give the holder an information notice about the amendment.

(3) In this section—

*relevant period* means 10 business days after the administering authority decides the surrender application.

## **275B Recording of residual risks**

- (1) This section applies if the administering authority approves a surrender application for which there is a post-surrender management report that includes a risk management plan for land the subject of the surrender application.
- (2) As soon as practicable after approving the surrender application, the administering authority must give the registrar of titles written notice of the following—
  - (a) each lot (each an *affected lot*), comprising or included in the land, in relation to which remedial action or ongoing management activities may need to be carried out;
  - (b) the existence of the relevant post-surrender management report for each affected lot.
- (3) The notice must include particulars of each affected lot.
- (4) The registrar must keep records that—
  - (a) show each affected lot is subject to residual risks; and
  - (b) state the places where the relevant post-surrender management report for each affected lot may be inspected.
- (5) The registrar must keep the records in a way that a search of the register kept by the registrar under any Act relating to title to an affected lot will show—
  - (a) the affected lot is subject to residual risks; and
  - (b) the existence of the relevant post-surrender management report for the affected lot.
- (6) If the administering authority forms the belief that an affected lot is not or is no longer subject to residual risks—

- (a) the administering authority must, as soon as practicable after forming the belief, give the registrar written notice of the belief; and
  - (b) the registrar must, as soon as practicable after receiving the notice under paragraph (a), remove the details mentioned in subsection (5)(a) and (b) for the affected lot from the registrar's records.
- (7) In this section—
- lot* means—
- (a) a lot under the *Land Title Act 1994*; or
  - (b) a separate, distinct parcel of land for which an interest is recorded in a register under the *Land Act 1994*.

*relevant post-surrender management report*, for an affected lot, means the post-surrender management report for the land, the subject of a surrender application, comprising or including the affected lot.

## **276 Restriction on surrender taking effect if payment required for residual risks**

- (1) This section applies if the applicant has, under section 271, been required to pay an amount for residual risks of the area the subject of a surrender application.
- (2) Despite section 275, a decision to approve the surrender does not take effect until the requirement has been complied with.

## **Part 11**                      **Cancellation or suspension of environmental authorities**

### **Division 1**                      **Preliminary**

#### **277**      **Automatic cancellation if replacement environmental authority given**

- (1) An environmental authority is cancelled if a replacement environmental authority for the authority has taken effect.
- (2) The administering authority must, as soon as practicable after the replacement environmental authority takes effect, record particulars of the cancellation in the relevant register.

#### **277A**      **Cancellation of particular environmental authority on holder's request**

- (1) This section applies to an environmental authority that—
  - (a) is in effect on the commencement of the section; and
  - (b) is for a mining activity that—
    - (i) is an eligible ERA; and
    - (ii) is a small scale mining activity; and
    - (iii) is carried out under a mining claim or an exploration permit, including a mining claim that, under the Mineral Resources Act, section 816, has been converted from a mining lease.
- (2) The holder of the environmental authority may give the chief executive a notice in the approved form asking the chief executive to cancel the authority.
- (3) On receiving a notice under this section, the chief executive must cancel the environmental authority.
- (4) If the chief executive cancels an environmental authority, the chief executive must—

- (a) give the holder notice of the cancellation; and
  - (b) record the cancellation in the relevant register.
- (5) Divisions 2 and 3 do not apply to a cancellation of an environmental authority under this section.
- (6) No amount of any annual fee paid by the holder is refundable to the holder because of a cancellation under this section.

## **278 Cancellation or suspension by administering authority**

- (1) The administering authority may cancel or suspend an environmental authority if an event mentioned in subsection (2) has happened and the procedure under division 2 is followed.
- (2) For subsection (1), the events are as follows—
- (a) the environmental authority was issued because of a materially false or misleading certificate, declaration or representation, made either orally or in writing;
  - (b) financial assurance required under a condition of the environmental authority has not been given in the amount or in the form required under the notice given under section 311;

### **278A Effect of cancellation or suspension of environmental authority on PRCP schedule**

- (1) If a PRCP schedule applies for carrying out a relevant activity to which a suspended environmental authority relates, the schedule—

- (a) continues in force for the relevant activity; and
  - (b) is not affected by the suspension.
- (2) If a PRCP schedule applies for carrying out a relevant activity under an environmental authority that is cancelled, the schedule ceases to have effect on the cancellation.

### **278B Effect of suspension generally**

- (1) The suspension of a holder's environmental authority does not affect the continued application of the following provisions in relation to the holder—
- (a) this division;
  - (b) part 6;
  - (c) part 10;

## **Division 2                      Procedure for cancellation or    suspension by administering    authority**

### **279      Application of div 2**

This division applies if the administering authority proposes to cancel, suspend or extend the suspension of an environmental authority.

### **280      Notice of proposed action**

- (1) The administering authority must give the environmental authority holder a written notice stating each of the following—
  - (a) the action (the *proposed action*) the administering authority proposes taking under this division;
  - (b) the grounds for the proposed action;
  - (c) the facts and circumstances that are the basis for the grounds;
  - (d) if the proposed action is to suspend or extend the suspension of the environmental authority—the proposed suspension period or extended period of suspension;
  - (e) that the holder may, within a stated period, make written representations to show why the proposed action should not be taken.
- (2) The stated period must end at least 20 business days after the holder is given the notice under subsection (1).
- (3) For subsection (1)(d), the proposed suspension period or extended period of suspension may be fixed by reference to a stated event.

*Example for subsection (3)—*

If a ground on which the proposed action is to be taken is that financial assurance required under a condition of the environmental authority has

not been given, the proposed suspension period or extended period of suspension may be stated as the period or extended period of suspension ending when the financial assurance is given.

## **281 Considering representations**

The administering authority must consider any written representation made within the stated period by the environmental authority holder.

## **282 Decision on proposed action**

- (1) If, after complying with section 281, the administering authority still believes a ground exists to take the proposed action, it may—
  - (a) suspend or extend the suspension of the environmental authority for no longer than the proposed suspension period or extended period of suspension; or
  - (b) if the proposed action was to cancel the environmental authority—either cancel the environmental authority or suspend it for a fixed period.
- (2) The decision under subsection (1) is the *proposed action decision*.
- (3) If the administering authority at any time decides not to take the proposed action, it must promptly give the environmental authority holder written notice of the decision.

## **283 Notice of proposed action decision**

- (1) The administering authority must, within 10 business days after the proposed action decision is made, give the environmental authority holder an information notice about the decision.
- (2) If the proposed action decision relates to an environmental authority for resource activities, the administering authority must also give written notice of the decision to the chief executive administering the resource legislation.

- 
- (3) The decision takes effect on the later of the following—
    - (a) the day the notice is given to the holder;
    - (b) a later day of effect stated in the notice.
  - (4) However, if the decision was to cancel, suspend or extend the suspension of the environmental authority because of the conviction of the holder for an offence, the cancellation, suspension or extended period of suspension—
    - (a) does not take effect until—
      - (i) the period to appeal against the conviction ends; and
      - (ii) if the appeal is made against the conviction—the appeal is finally decided or is otherwise ended; and
    - (b) has no effect if the conviction is quashed on appeal.

## **Division 3                      Steps after making decision**

- (1) This section applies if the proposed action decision is to take action and the decision has taken effect.
- (2) The administering authority must, as soon as practicable—
  - (a) take the action; and
  - (b) record the action in the relevant register.
- (3) Also, if the action is suspension or an extension of suspension of an environmental authority, the administering authority must record when the suspension period or extended period of suspension starts and ends in the relevant register.
- (4) A suspension or extension of suspension of an environmental authority ends at the end of the day recorded in the relevant register as the end of the suspension period or extended period of suspension.

## **284AA Cancellation after suspension if annual fee not paid**

- (1) This section applies if—
  - (a) the proposed action decision is to take action and the decision has taken effect; and
  - (b) the action is suspension or an extension of suspension of an environmental authority for a period or extended period ending when the annual fee for the environmental authority is paid; and
  - (c) the annual fee for the environmental authority is not paid within 20 business days after the proposed action decision takes effect.
- (2) The administering authority may cancel the environmental authority if the procedure under division 2 is followed.
- (3) The suspension period or extended period of suspension for the environmental authority continues until the earlier of the following—

## **Division 3                      Deciding suspension applications**

### **284C Deciding suspension application**

The administering authority must, within 20 business days after receiving the suspension application, decide whether to—

- (a) approve the application; or
- (b) refuse the application.

## **284D Criteria for deciding suspension application**

In deciding the application, the administering authority must consider—

- (a) the degree of risk of environmental harm that has already been caused by the relevant activity, or that might reasonably be expected to be caused during the suspension or extension of the suspension of the relevant activity; and
- (b) the likelihood of action being required to rehabilitate or restore and protect the environment because of environmental harm being caused during the suspension or extension of the suspension of the relevant activity; and
- (c) the environmental record of the holder.

## **284F Steps after deciding suspension application**

- (1) The administering authority must, within 5 business days after deciding a suspension application—

## **Part 13**                      **Plan of operations**

### **289**      **Definition for part**

In this part—

*plan of operations*, for a petroleum lease, includes a plan of operations given to the administering authority for a proposed lease substantially the same as the petroleum lease.

### **290**      **Application of part**

This part applies in relation to an environmental authority for a petroleum activity authorised under a petroleum lease, if the petroleum activity is an ineligible ERA.

### **291**      **Plan of operations required to act under petroleum lease**

The holder of the environmental authority must not carry out, or allow the carrying out of, a petroleum activity under the petroleum lease unless either—

- (a) all of the following apply—
  - (i) the holder has given the administering authority a plan of operations for the petroleum activities;

- (3) The compliance statement must comply with section 292(2).
- (4) The holder's plan of operations is taken to be the original plan, as amended from time to time by any amendment under this section.
- (5) However, an amendment can not extend the plan period.
- (6) The original plan ceases to apply if it is replaced.
- (7) A replacement plan may apply for a period of no more than 5 years after the day the notice of the replacement plan is given under this section.

## **294 Failure to comply with plan of operations**

The environmental authority holder must, when carrying out a petroleum activity under the petroleum lease, comply with the plan of operations.

Maximum penalty—100 penalty units.

## **Part 14**                      **Matters relating to costs of rehabilitation**

### **Division 1**                      **Estimated rehabilitation costs for resource activities and ERC decisions**

#### **Subdivision 1**              **Preliminary**

#### **296**      **Definitions for division**

In this division—

*ERC decision* means a decision of the administering authority under section 300 about the estimated rehabilitation cost for a resource activity.

*ERC period*, for the estimated rehabilitation cost for a resource activity, means—

- (a) if a PRCP schedule applies for the activity—the period of between 1 and 5 years stated in the application for an ERC decision under section 298(2)(b); or
- (b) if the activity is a petroleum activity that is an ineligible ERA, other than a petroleum activity to which a plan of operations applies, or the activity relates to a 1923 Act petroleum tenure granted under the *Petroleum Act 1923*—the period of between 1 and 5 years stated in the ERC decision about the estimated rehabilitation cost; or
- (c) if a plan of operations applies for the activities—the plan period for the plan of operations; or
- (d) otherwise—the total period during which the resource activity is likely to be carried out under the environmental authority for the activity.

*estimated rehabilitation cost*, for a resource activity, see section 300(2).

## 297 Condition about ERC decision

It is a condition of an environmental authority for a resource activity that the holder must not carry out, or allow the carrying out of, a resource activity under the authority unless—

- (a) an ERC decision is in effect for the resource activity when the activity is carried out; and
- (b) the holder has paid a contribution to the scheme fund or given a surety for the authority under the *Mineral and Energy Resources (Financial Provisioning) Act 2018*; and
- (c) the holder has complied with the requirements under the *Mineral and Energy Resources (Financial Provisioning) Act 2018* for paying a contribution to the scheme fund, or giving a surety for the authority, as required from time to time.

## Subdivision 2 Applications

### 298 Applying for ERC decision

- (1) The holder of an environmental authority for a resource activity may apply to the administering authority for an ERC decision for the resource activity.
- (2) The application must—
  - (a) be in the approved form; and
  - (b) state the ERC period to which the application relates; and
  - (c) state the amount the holder considers to be an estimate of the total cost, for the ERC period, of the following, worked out in compliance with the methodology decided by the chief executive—
    - (i) rehabilitating the land on which the resource activity is carried out;

- (ii) preventing or minimising environmental harm, or rehabilitating or restoring the environment, in relation to the resource activity; and
- (d) include the other information the administering authority considers necessary to make the ERC decision; and
- (e) include a compliance statement made by or for the holder stating the amount mentioned in paragraph (c) for the ERC period—
  - (i) is worked out in compliance with the methodology mentioned in that paragraph; and
  - (ii) if a PRCP schedule or plan of operations applies for the resource activities—is consistent with the schedule or plan.

## **299 Administering authority may require additional information**

- (1) The administering authority may, within 10 business days after receiving the application, give the holder a written notice asking the holder to provide further information the authority requires to make the ERC decision.
- (2) The administering authority may, by written notice given to the holder, extend the period within which the administering authority may make a request under subsection (1) by no more than 10 business days.
- (3) The notice mentioned in subsection (2)—
  - (a) may only be given once by the administering authority for the application; and
  - (b) must be given before the period mentioned in subsection (1) ends.
- (4) The period within which the administering authority may make a request under subsection (1) may be further extended if the holder, at any time, agrees in writing to the further extension.

- 
- (5) The notice asking the holder to provide further information must state a period of at least 10 business days within which the information must be given.
  - (6) If the holder does not comply with the notice, the administering authority may make the ERC decision without the further information.

### **Subdivision 3      Changing applications**

#### **299A    Meaning of *minor ERC change***

A *minor ERC change*, for an application for an ERC decision for a resource activity, is any of the following changes to the application—

- (a) a change that merely corrects a mistake about the name or address of the applicant;
- (b) a change that merely corrects a spelling or grammatical error;
- (c) a change that the administering authority is satisfied would not adversely affect the ability of the authority to assess the changed application.

#### **299B    Changing application**

- (1) Before an ERC decision is made, the applicant may change the application by giving the administering authority written notice of the change.
- (2) However, the applicant can not change the application in a way that would result in section 298 not being complied with for the application.
- (3) A notice may be given under this section only once in relation to the application.

## **299C Effect on ERC decision process**

- (1) The periods mentioned in section 299 and 300 are not affected by the making of a change to the application if—
  - (a) the change is a minor ERC change; or
  - (b) the administering authority agrees in writing to this subsection applying in relation to the change.
- (2) If subsection (1) does not apply in relation to the change, sections 299 and 300 apply in relation to the changed application as if it were a new application received by the administering authority when notice of the change was given to the administering authority under section 299B(1).

## **Subdivision 4 ERC decisions**

### **300 Making ERC decision**

- (1) After receiving an application for an ERC decision for a resource activity, the administering authority must decide, for the ERC period, the amount of the estimated cost of—
  - (a) rehabilitating the land on which the resource activity is carried out; and
  - (b) preventing or minimising environmental harm, or rehabilitating or restoring the environment, in relation to the resource activity.
- (2) The amount of the estimated cost decided under subsection (1) is called the *estimated rehabilitation cost* for the resource activity.
- (3) The decision must be made within—
  - (a) the later of—
    - (i) 15 business days after the application is received; or
    - (ii) if a notice given under section 299(1) is given to the holder of the environmental authority—10 business days after the day the further information

---

is received or the holder fails to comply with the notice; or

- (b) if the holder agrees to a longer period of no more than 20 business days—the longer period.
- (4) However, if the decision is for an application that accompanied a de-amalgamation application, the decision must be made—
- (a) within the longer of the periods mentioned in subsection (3) that applies to a decision for any of the proposed de-amalgamated environmental authorities to which the application relates; and
  - (b) at the same time as the decision under this section for each of the proposed de-amalgamated environmental authorities to which the application relates.
- (5) In making the decision, the administering authority must have regard to—
- (a) whether the estimate of the total cost mentioned in section 298(2)(c) has been worked out, for the ERC period, as mentioned in that paragraph; and
  - (b) the guidelines under section 550.
- (6) The ERC decision—
- (a) takes effect on—
    - (i) if the decision is for an application that accompanied a de-amalgamation application—the day the de-amalgamation takes effect under section 250D; or
    - (ii) otherwise—the day the decision is made; and
  - (b) subject to section 305, remains in effect until the day the ERC period to which the decision relates ends.

### **301 Notice of decision**

- (1) The administering authority must, within 5 business days after making the ERC decision, give an information notice for the decision to—
  - (a) the holder of the environmental authority; and
  - (b) the scheme manager.
- (2) The notice must state—
  - (a) the estimated rehabilitation cost for the resource activity; and
  - (b) the period for which the ERC decision is in force.

### **302 Application for new ERC decision before expiry**

- (1) This section applies to the holder of an environmental authority for a resource activity for which an ERC decision is in force.
- (2) The holder must apply, under section 298, for a new ERC decision—
  - (a) for an environmental authority for a petroleum activity to which a plan of operations applies—
    - (i) if the day the holder gives the administering authority a plan of operations to replace the plan of operations that applies to the activity is at least 20 business days before the ERC period to which the decision relates ends—on that day; or
    - (ii) otherwise—at least 20 business days before the ERC period to which the decision relates ends; or
  - (b) otherwise—at least 3 months before the ERC period to which the decision relates ends.

Maximum penalty—100 penalty units.

---

**303 Administering authority may direct holder to re-apply for ERC decision**

- (1) This section applies if the administering authority—
  - (a) becomes aware of a change relating to the carrying out of a resource activity by a holder of an environmental authority that may result in an increase in the estimated rehabilitation cost for the activity; or
  - (b) approves an application to amalgamate an environmental authority with another environmental authority under section 247; or
  - (c) becomes aware an ERC decision was made on the basis of materially incorrect or misleading information.
- (2) The administering authority—
  - (a) may decide to direct the holder to re-apply, under section 298 for an ERC decision for the resource activity; and
  - (b) must give the holder an information notice for a decision to give a direction under paragraph (a).
- (3) The notice must state a reasonable period within which the holder must comply with the direction.
- (4) The holder must comply with the direction.

Maximum penalty—100 penalty units.

**304 When holder must re-apply for ERC decision**

- (1) This section applies in relation to the holder of an environmental authority for a resource activity if—
  - (a) there is an increase in the likely maximum amount of disturbance to the environment as a result of the holder carrying out the resource activity; or
  - (b) there is a change relating to the carrying out of the resource activity that may result in an increase in the estimated rehabilitation cost for the activity; or

- (c) the holder's annual return given under section 316IA states there has been a change to the carrying out of the activity that may affect the estimated rehabilitation cost; or
  - (d) the administering authority approves an application to amalgamate the environmental authority with another environmental authority under section 247.
- (2) The holder must re-apply, under section 298, for an ERC decision for the resource activity—
- (a) if subsection (1)(a) or (b) applies—within 10 business days after the holder becomes aware of the increase or change; or
  - (b) if subsection (1)(c) applies—within 10 business days after the holder gives the annual return to the administering authority; or
  - (c) if subsection (1)(d) applies—within 10 business days after the administering authority amalgamates the environmental authorities under section 248.

Maximum penalty—100 penalty units.

- (2) If the chief executive believes a condition of the recognition of the program should be amended, the chief executive may amend the condition under this division.

### **318YQ Grounds for suspending or cancelling program recognition**

Each of the following is a ground for suspending or cancelling recognition of an accreditation program—

- (a) the recognition was obtained by materially incorrect or misleading information or by a mistake;
- (b) the owner of the program has contravened a condition of the recognition;
- (c) the owner of the program has committed—
  - (i) an offence against this Act; or
  - (ii) an offence against a law relating to the supply or use of an agricultural chemical product; or
  - (iii) an offence against a law of the Commonwealth, another State or a foreign country that substantially corresponds to an offence mentioned in subparagraph (i) or (ii).

### **318YR Show cause notice**

- (1) The chief executive must give a notice under this section (a *show cause notice*) to the owner of a recognised accreditation program if the chief executive proposes to take any of the following actions (the *proposed action*)—
- (a) direct the owner to amend the program;
  - (b) amend a condition of the recognition of the program;
  - (c) suspend or cancel the recognition of the program.
- (2) The show cause notice must state each of the following—

- (b) if the proposed action is to direct the owner to amend the accreditation program or a condition of the program's recognition—
    - (i) the proposed amendment; and
    - (ii) the reasons for the proposed amendment;
  - (c) if the proposed action is to suspend or cancel the recognition of the program—
    - (i) the ground for the proposed action; and
    - (ii) an outline of the facts and circumstances forming the basis for the ground;
  - (d) if the proposed action is to suspend the recognition of the program—the proposed suspension period;

- (3) The show cause period must end at least 28 days after the holder is given the show cause notice.

### **318YS Representations about show cause notice**

- (1) The owner of the accreditation program may make written representations about the show cause notice to the chief executive in the show cause period.
- (2) The chief executive must consider all representations made during the show cause period.

### **318YT Ending show cause process without further action**

- (1) This section applies if, after considering the representations made during the show cause period, the chief executive—
  - (a) if the proposed action was to direct the owner of the accreditation program to amend the program or to amend a condition of the recognition of the

- program—no longer considers the program or condition should be amended; or
- (b) if the proposed action was to suspend or cancel the recognition of the program—
    - (i) no longer believes a ground exists to suspend or cancel the recognition of the program; or
    - (ii) no longer believes taking the proposed action is warranted.
- (2) The chief executive must—
- (a) take no further action about the show cause notice; and
  - (b) give a notice that no further action is to be taken about the show cause notice to the owner of the accreditation program.

### **318YU Amendment, suspension or cancellation**

- (1) Subsection (2) applies if, after considering any representations made during the show cause period, the chief executive—
- (a) if the proposed action was to suspend or cancel the recognition of the accreditation program—believes a ground exists for suspension or cancellation; and
  - (b) believes taking the proposed action is warranted.
- (2) The chief executive may—

  - (c) if the proposed action was to suspend the recognition of the program for a stated period—suspend the recognition for no longer than the stated period; and

- 
- (d) if the proposed action was to cancel the recognition of the program—suspend the recognition for a stated period or cancel the recognition.
  - (3) If the chief executive decides to act under subsection (2), the chief executive must give an information notice for the decision to the owner of the accreditation program as soon as is practicable.
  - (4) The decision takes effect on—
    - (a) the day the information notice is given to the person; or
    - (b) a later day stated in the information notice.

### **318YV Immediate suspension of recognition of accreditation program**

- (1) This section applies if the chief executive believes—
  - (a) a ground exists to suspend the recognition of an accreditation program; and
  - (b) it is necessary to suspend the recognition of the program immediately because—
    - (i) persons who are carrying out an agricultural ERA in a way that contravenes an agricultural ERA standard have been accredited under the program; or
    - (ii) there is an immediate and serious risk that persons who are carrying out an agricultural ERA in a way that contravenes an agricultural ERA standard will be accredited under the program.
- (2) The chief executive may suspend the recognition of the accreditation program immediately by giving the owner of the accreditation program—
  - (a) an information notice for the decision to immediately suspend the recognition; and
  - (b) a show cause notice for the suspension or cancellation of the recognition under section 318YR.

- (3) The suspension—
  - (a) operates when the notices are given to the owner of the accreditation program; and
  - (b) continues to operate until the earliest of the following—
    - (i) the chief executive cancels the suspension;
    - (ii) the show cause notice is finally dealt with by a notice given under section 318YT or 318YU;

- (2) The owner must give written notice about the amendment, suspension, cancellation or ending of the program, to each person who is accredited under the accreditation program within 5 business days after the amendment, suspension, cancellation or ending takes effect.  
Maximum penalty—100 penalty units.
- (3) If the recognition of the accreditation program is suspended, the notice under subsection (2) must state the period of the suspension.
- (4) Within 5 business days after giving a notice to the accredited persons under subsection (2), the owner must give the chief executive—

## Part 6 Progressive certification for resource activities

### Division 1 Preliminary

#### 318Z What is *progressive certification*

- (1) The administering authority may, under this division, certify that a particular area within a relevant tenure for a resource project has been rehabilitated under all relevant requirements of—
  - (a) this Act; and
  - (b) the environmental authority under which the resource project is authorised; and
  - (c) a PRCP schedule applying to the activities carried out under the environmental authority; and
  - (d) a relevant guideline or other document made under this Act.
- (2) The certification is a *progressive certification* for the relevant tenure.
- (3) The area the subject of the progressive certification is a *certified area* for the relevant tenure.

#### 318ZA Effect of progressive certification

- (1) If progressive certification has been given for a relevant tenure, the requirements mentioned in section 318Z(1) are taken to have been complied with for the certified area for the tenure.
- (2) Subsection (1) applies despite another provision of this Act or any change in the requirements.

- (3) However, this section is subject to section 318ZB.

### **318ZB Continuing responsibility of holder relating to certified area**

- (1) This section applies if progressive certification has been given for a relevant tenure.
- (2) The holder of the environmental authority to which the relevant tenure relates must maintain the certified area for the relevant tenure under the conditions of the authority, or rehabilitation milestones or management milestones under a PRCP schedule, in force when the certification was given (the *existing conditions*).
- (3) Any change to the conditions of the environmental authority, or rehabilitation milestones or management milestones under the schedule, is of no effect to the extent it purports to impose a more stringent obligation for the certified area than an obligation applying under the existing conditions or milestones.

*Example of a change to impose a more stringent requirement—*

A change to an existing condition to require rehabilitation to alter a gradient to a lower slope is more stringent because of the necessarily increased costs of recontouring the gradient.

- (4) The obligation under subsection (2) ends on the last of the following to happen—
  - (a) the surrender under resource legislation of the relevant tenure, or part of the relevant tenure;
  - (b) the environmental authority or PRCP schedule ends or ceases to have effect;
  - (c) if the existing conditions include a condition requiring compliance with an obligation after the authority ends or ceases to have effect—compliance with the condition.

---

## Division 2                      Applying for progressive certification

### 318ZC Who may apply for progressive certification

The holder of an environmental authority for a resource project may apply for progressive certification (the *progressive certification application*) for a relevant tenure for the environmental authority.

### 318ZD Requirements for progressive certification application

- (1) The application must be—
  - (a) in the approved form; and
  - (b) supported by enough information to enable the administering authority to decide the application; and
  - (c) accompanied by—
    - (i) a progressive certification report for the environmental authority, and any PRCP schedule relating to the environmental authority, that complies with section 318ZF; and
    - (ii) a compliance statement for the report; and
    - (iii) the fee prescribed under a regulation.
- (2) The compliance statement must—
  - (a) be made for the environmental authority holder; and
  - (b) state—
    - (i) the extent to which activities carried out under the environmental authority relating to the proposed certified area for the relevant tenure have complied with the conditions of the environmental authority and any PRCP schedule relating to the authority; and
    - (ii) the extent to which the progressive certification report is accurate.

### **318ZE Amending progressive certification application**

- (1) The applicant may, at any time before the administering authority decides the progressive certification application, amend the application.
- (2) However, the amendment may be made only by giving the administering authority a written notice stating the amendment.
- (3) The notice must be accompanied by the fee prescribed under a regulation.
- (4) If an application is amended under this section, the process for assessing and deciding the application restarts from section 318ZG.

## **Division 3 Progressive certification report and further information**

### **318ZF Requirements for progressive certification report**

The progressive certification report must—

- (a) contain the following information—
  - (i) if a PRCP schedule applies for the relevant activities carried out in the proposed certified area—
    - (A) information showing how the rehabilitation milestones and management milestones under the PRCP schedule have been achieved; and
    - (B) information about the extent to which the relevant conditions stated in the PRCP schedule have been complied with;
  - (ii) otherwise—information required under section 264, as if a reference in the section to land were a reference to the proposed certified area; and
- (b) include—

- (i) a map of an appropriate scale that shows the proposed certified area; and
- (ii) relevant information to locate the proposed certified area, including, for example, GPS information or a survey; and
- (c) if progressive certification has previously been given for a relevant tenure for the environmental authority—
  - (i) state when the certification was given; and
  - (ii) identify the certified area the subject of the certification.

### **318ZG Administering authority may request further information**

- (1) The administering authority may ask the applicant, by written request, to give further information needed to assess the progressive certification application.
- (2) The request must be made within 10 business days after the application is received.

## **Division 4                      Deciding progressive certification application**

### **318ZH Deciding progressive certification application**

The administering authority must decide to give or refuse the progressive certification—

- (a) if the administering authority requests further information under section 318ZG(1)—within 40 business days after the further information is received by the authority; or
- (b) otherwise—within 40 business days after the application is received.

### **318ZI Criteria for decision**

- (1) In deciding the progressive certification application, the administering authority must—
  - (a) comply with any relevant regulatory requirement; and
  - (b) subject to paragraph (a), consider the following—
    - (i) the standard criteria;
    - (ii) the progressive certification report accompanying the application;

    - (v) further information received in response to a request under section 318ZG(1);
    - (vi) the matters prescribed under an environmental protection policy or by regulation.
- (2) The administering authority may give the progressive certification only if the administering authority is satisfied of each of the following circumstances—
  - (a) the conditions of the environmental authority have been complied with for the proposed certified area;
  - (b) if the environmental authority is subject to conditions about rehabilitation and a PRCP schedule does not apply for the proposed certified area—the land on which each relevant resource project has been carried out in relation to the area has been satisfactorily rehabilitated;
  - (c) if a PRCP schedule applies for the proposed certified area—the schedule has been complied with in relation to the area;
  - (d) each other circumstance (if any) prescribed by regulation as a circumstance of which the administering authority must be satisfied for this section.

---

### **318ZJ Steps after making decision**

If the administering authority decides the progressive certification application, it must, within 10 business days after the decision is made—

- (a) if the decision was to give the progressive certification—
  - (i) record particulars of the certification in the relevant register for the environmental authority; and
  - (ii) if a PRCP schedule applies for relevant activities carried out in the certified area—record particulars of the certification in the relevant register for the schedule; and
  - (iii) give written notice of the decision to the applicant; or
- (b) if the decision was to refuse the progressive certification—give the applicant an information notice about the decision.

### **318ZJA Administering authority may amend PRCP schedule**

- (1) This section applies if—
  - (a) the administering authority decides to give the progressive certification; and
  - (b) a PRCP schedule applies for relevant activities carried out on the certified area; and
  - (c) an amendment of the schedule is required because of the progressive certification.
- (2) The administering authority may amend the PRCP schedule to the extent necessary because of the progressive certification.
- (3) The administering authority must—
  - (a) give a copy of the amended PRCP schedule to the holder; and
  - (b) give an information notice about the amendment to the holder; and

- (c) record the amendment in the relevant register.

## Chapter 7 Environmental management

### Part 1 Environmental duties

#### Division 1 Duty to prevent and minimise environmental harm

##### 319 General environmental duty

- (1) A person must not carry out any activity that causes, or is likely to cause, environmental harm unless the person takes all reasonably practicable measures to prevent or minimise the harm (the *general environmental duty*).

*Note—*

See section 24(3) (Effect of Act on other rights, civil remedies etc.).

- (2) A person commits an offence if—
- (a) the person contravenes the general environmental duty in relation to an activity; and
  - (b) the contravention causes, or is likely to cause, serious or material environmental harm.

Maximum penalty—

- (a) if the offence is committed wilfully—4,500 penalty units or 2 years imprisonment; or
  - (b) otherwise—1,655 penalty units.
- (3) However, a person does not commit an offence against subsection (2) for a contravention of the general environmental duty in relation to an activity if—

- 
- (a) the contravention arises only because the person does an act that causes, or is likely to cause, environmental harm; and
  - (b) either—
    - (i) a thing mentioned in section 493A(2) authorises the act to be done and provides for reasonably practicable measures to be taken in relation to the doing of the act; or
    - (ii) in doing the act, the person complies with a code of practice that applies in relation to the doing of the act.
- (4) In deciding the measures required to be taken under subsection (1), regard must be had to, for example—
- (a) the nature of the harm or potential harm; and
  - (b) the sensitivity of the receiving environment; and
  - (c) the current state of technical knowledge for the activity; and
  - (d) the likelihood of successful application of the different measures that might be taken; and
  - (e) the financial implications of the different measures as they would relate to the type of activity.
- (5) Also, in deciding whether the general environmental duty is contravened regard may be had to whether a person fails, for example, to do any of the following in carrying out an activity—
- (a) install, use and maintain plant, equipment, processes or systems in a way that minimises risks of environmental harm that may arise in connection with the activity;
  - (b) use and maintain systems for the identification, assessment and control of risks of environmental harm that may arise in connection with the activity, and for the evaluation of the effectiveness of controls;
  - (c) use and maintain systems to ensure that all substances are handled, stored, used or transported in a way that

minimises risks of environmental harm that may arise in connection with the activity;

- (d) use and maintain systems to ensure that information, instruction, supervision and training is provided to any person engaging in the activity in a way that minimises risks of environmental harm that may arise in connection with the activity.
- (6) A reference in subsection (3) to an act includes an omission and a reference to doing an act includes making an omission.

### **319A Special provision for activities involving relevant industrial chemicals**

- (1) This section applies to a person carrying out an activity that involves a relevant industrial chemical.
- (2) The person is taken not to comply with the general environmental duty unless the person complies with any risk management measures for the chemical under a scheduling decision under the *Industrial Chemicals Environmental Management (Register) Act 2021* (Cwlth).
- (3) Subsection (2)—
  - (a) does not limit the application of section 319 to the person; and
  - (b) applies even if the person has otherwise taken all reasonably practicable measures to prevent or minimise environmental harm caused, or likely to be caused, by the activity.

### **319B Prosecutions for contravention of general environmental duty**

- (1) This section applies if—
  - (a) a person engages in conduct that constitutes a relevant act mentioned in section 493A(1) (the *relevant conduct*); and

- 
- (b) the person is charged with an offence in relation to the relevant conduct (the *relevant offence*); and
  - (c) the person is intending to rely on the defence under section 493A(3) in relation to the relevant offence.
- (2) In a proceeding for the relevant offence, the person may not be charged with an alternative offence against section 319(2) in relation to the same, or substantially the same, conduct as the relevant conduct.
- (3) Any information obtained from the person in relation to the defence under section 493A(3) in a proceeding for the relevant offence can not be used against the person in a proceeding for an offence against section 319(2) that is constituted by the same, or substantially the same, conduct as the relevant conduct.

## Division 1A            Duty to restore the environment

### 319C    Duty to restore the environment

- (1) This section applies to a person causing or permitting, or who caused or permitted, an incident involving contamination of the environment to happen that results in unlawful environmental harm.
- (2) The person must, as soon as reasonably practicable after the incident happens, take measures, as far as reasonably practicable, to rehabilitate or restore the environment to its condition before the harm (the *duty to restore the environment*).
- (3) A person commits an offence if—
- (a) the person contravenes the duty to restore the environment; and
  - (b) the contravention relates to harm that is serious or material environmental harm.

Maximum penalty—

- (a) if the offence is committed wilfully—4,500 penalty units or 2 years imprisonment; or
  - (b) otherwise—1,655 penalty units.
- (4) In deciding the measures required to be taken under subsection (2), regard must be had to, for example—
- (a) the nature and extent of the environmental harm caused by the contamination; and
  - (b) the sensitivity of the receiving environment to remedial measures that might be taken in relation to the environmental harm; and
  - (c) the current state of technical knowledge for remedial measures that might be taken in relation to the environmental harm; and
  - (d) the likelihood of successful application of the different measures that might be taken in relation to the environmental harm; and
  - (e) the financial implications of the different measures that might be taken in relation to the environmental harm.

#### **471 Failure to comply with signal**

- (1) A person must obey a signal under section 459(2) to stop or not to move a vehicle, unless the person has a reasonable excuse for not obeying the signal.

Maximum penalty—100 penalty units.

- (3) If the help required is the answering of a question or producing of a document by an individual (other than a document required to be held or kept by the individual under this Act or a development condition of a development approval), it is not a reasonable excuse for the individual to fail to answer the question, or produce the document, on the ground that complying with the requirement might tend to incriminate the individual.
- (4) When making a requirement mentioned in subsection (3), the authorised person must inform the individual of the following—

[s 474]

---

- (a) the individual is obliged to answer the question or produce the document despite the rule of law relating to privilege against self-incrimination;

Maximum penalty—50 penalty units.

- (2) The person must comply with the requirement, unless the person has a reasonable excuse for not complying with it.
- Maximum penalty—50 penalty units.
- (3) For subsection (2), it is not a reasonable excuse for an individual to fail to answer a question that complying with the requirement might tend to incriminate the individual.
- (4) However, incriminating evidence for an individual who answers a question is not admissible in evidence against the individual in a civil or criminal proceeding, other than a proceeding for an offence for which the falsity or misleading nature of the answer is relevant.
- (5) The person does not commit an offence against this section if the information sought by the authorised person is not in fact relevant to the offence.

  - (b) the representative had the state of mind.
- (2) An act or omission done or omitted to be done for a person by a representative of the person within the scope of the representative's actual or apparent authority is taken, in a proceeding for an offence against this Act, to have been done or omitted to be done also by the person, unless the person proves the person took all reasonable steps to prevent the acts or omissions.

  - (b) the officer was not in a position to influence the conduct of the corporation in relation to the offence.
- (5) Subsection (6) applies if the act or omission of a corporation that causes an offence to be committed happens earlier than the time of the commission of the offence.

## **Subdivision 2 Existing authorities for mining activities**

### **586 Existing authority becomes an environmental authority (mining activities)**

- (1) This section applies if, immediately before the commencement day—

    - (a) the decided conditions; and
    - (b) any condition that—
      - (i) under the Mineral Resources Act, would have been imposed on a relevant mining tenement had the amending Act not been enacted; and

- (5) Subsection (4) applies despite the Mineral Resources Act or the terms of an instrument granting the security or other document, including, for example, a term that the security or its benefit is not transferable.
- (6) For section 364(1), the form of the financial assurance for each relevant mining tenement is taken to have been required in the same form as each security given or required for the tenement.
- (7) However, the financial assurance is taken to have been given for valuable consideration and any instrument granting it is taken to have been executed as a deed under seal by each party to the instrument.
- (8) The amount of financial assurance for each relevant mining tenement is taken to have been decided under section 364(3) as the lesser of the following—

### **603C Deciding application if additional conditions requested**

- (1) This section applies if the conversion application is for a non-code compliant authority for a level 2 mining project and additional conditions are requested in the application.
- (2) The administering authority must, within 10 business days after it receives the application, decide whether—
  - (a) to grant the application; and
  - (b) if it decides to grant—to impose the additional conditions.
- (3) However, an additional condition may be imposed only if the administering authority considers—
  - (a) the condition is necessary or desirable; and
  - (b) that, if the condition is imposed, the proposed non-code compliant authority would still be for a level 2 mining project.
- (4) In making the decisions, the administering authority must consider the criteria mentioned in section 173(2).
- (5) On, the granting of the application, the relevant transitional authority is taken to be a non-code compliant authority for a level 2 mining project.

- (e) the amendment is necessary to prevent environmental harm not already authorised under the environmental authority.

### **606 Ministerial power to amend**

  - (b) surrender the applicant's transitional authority.
- (3) The application must—
  - (a) be in the approved form; and
  - (b) if the stated mining tenement holder is not the applicant—be accompanied by the tenement holder's written consent.

### **616E Procedure for unfinished applications**

- (1) This section applies if—
  - (a) before the commencement, a person applied under the existing Act for, or in relation to, an SAA environmental authority (mining) for a mining lease provided for under a special agreement Act; and
  - (b) the application has not been decided.
- (2) Subject to subsections (3) to (7)—
  - (a) the application is taken to have been made on the commencement; and

- (b) chapter 5 applies to the application, with necessary changes, as if it were a non-code compliant application for a level 1 mining project.
- (3) If the application was accompanied by an environmental management overview strategy under the pre-amended MRA, section 245, the strategy is taken to be an environmental management plan submitted by the applicant under section 201.
- (4) If a certificate of application for the mining lease was endorsed by the mining registrar under the pre-amended MRA, section 252, the person is taken to have given and published an application notice under section 211 for the application.
- (5) If the person gave an environmental impact statement under the pre-amended MRA, section 264, the EIS process is taken to have been completed under section 60.

## **Subdivision 4      Special provisions for transitional authorities (SAA)**

### **616F Transitional authority (SAA) taken to be non-code compliant**

A transitional authority (SAA) is taken to be a non-code compliant authority under chapter 5, issued for mining activities for a level 1 mining project.

### **616G Limited application of s 426 for transitional authority (SAA)**

- (1) Section 426 does not apply to a person carrying out an SAA mining activity that is not authorised under a transitional authority (SAA) if—
  - (a) the person was carrying out the activity immediately before the commencement; and
  - (b) either—
    - (i) the holder of the authority has made a relevant amendment application or a relevant new application about the activity under the authority and the application has not been decided; or
    - (ii) the holder of the authority has given the administering authority notice of the activity (an *activity notice*) and no more than 30 days have passed since the notice was given.
- (2) However, an activity notice can not be given if an activity notice has already been given for the activity or another activity that is substantially the same as the activity.
- (3) An activity notice must state—
  - (a) the mining lease or agreement under which the activity is being carried out; and
  - (b) the nature of the activity; and

- (c) that the activity is not authorised under the conditions of the authority.
- (4) To remove any doubt, it is declared that this section does not limit the application of sections 430 and 431 to the holder of the authority.
- (5) In this section—

*relevant amendment application*, about an SAA mining activity under a transitional authority (SAA), means an application to amend the authority that, if granted, would allow the carrying out of the activity under the transitional authority (SAA).

*relevant new application*, about an SAA mining activity under a transitional authority (SAA), means an application under the current Act for an environmental authority (mining activities) for a level 1 mining project, that, if granted, would allow the carrying out of the activity under the environmental authority (mining activities).

### **616H Requirement to apply for new authority or amend etc. transitional authority (SAA)**

- (1) The holder of a transitional authority (SAA) must, within 3 years after the commencement, apply under the current Act for—
  - (a) an environmental authority (mining activities) for a level 1 mining project; or
  - (b) an amendment of the transitional authority (SAA) for converting it to an environmental authority (mining activities) for a level 1 mining project; or
  - (c) the surrender of the transitional authority (SAA); or
  - (d) the transfer of the transitional authority (SAA) to an entity other than a wholly-owned subsidiary of the holder of the authority within the meaning of the Corporations Act.

*Note—*

If subsection (1) is not complied with, the transitional authority (SAA) ends. See section 616M.

- (2) To remove any doubt, it is declared that the transfer of a transitional authority (SAA) to a wholly-owned subsidiary of the holder of the authority within the meaning of the Corporations Act does not constitute compliance with the obligation under subsection (1).

### **616I Financial assurance for transitional authority (SAA)**

- (1) This section applies if, under the Mineral Resources Act or a special agreement Act, security has been deposited, lodged or required in relation to a relevant mining lease for a transitional authority (SAA).
- (2) A condition is taken to have been imposed, under section 364, on the authority that the authority holder must give the administering authority financial assurance for each relevant mining lease.
- (3) If the security has been deposited under the Mineral Resources Act or a special agreement Act for a relevant mining lease, the requirement under the condition to give the financial assurance is taken to have been complied with for the lease—
  - (a) from the time the whole amount of the security has been deposited; and
  - (b) until the plan of operations for the lease is amended or replaced under section 235.
- (4) The financial assurance required under the condition is taken to be security for the matters mentioned in section 364(1)(a) and (b) in relation to the authority.
- (5) Subsection (4) applies despite the Mineral Resources Act or the terms of an instrument granting the security or other document, including, for example, a term that the security or its benefit is not transferable.

- 
- (6) The form of each security given or required to be given for a relevant mining lease is taken to be the form of the financial assurance for the lease decided under section 364(3).
  - (7) However, the financial assurance for the relevant mining lease is taken to have been given for valuable consideration and any instrument granting it is taken to have been executed as a deed under seal by each party to the instrument.
  - (8) The amount of financial assurance for each relevant mining lease is taken to have been decided under section 364(3) as the lesser of the following—
    - (a) the amount of security given or required for each relevant mining lease;
    - (b) any amount the administering authority decides would have been the amount under section 364(3) for the financial assurance had the amount been decided on the commencement.
  - (9) Section 365 and chapter 11, part 3 do not apply to financial assurance under this section or to a decision under subsection (8)(b).

### **616J Effect of financial assurance on security**

- (1) The financial assurance condition under section 616I only affects a security to the extent provided under that section.
- (2) Without limiting subsection (1), section 616I does not affect or change—
  - (a) the security as a security under the Mineral Resources Act or a special agreement Act; or
  - (b) the matters for which the security was given under the Mineral Resources Act or special agreement Act; or
  - (c) the enforcement of the security under the Mineral Resources Act or special agreement Act.
- (3) Section 616I, or any thing done under it, does not—
  - (a) discharge a security; or

- (b) discharge or release a surety or other obligee, wholly or partly, from an obligation; or
  - (c) fulfil a condition allowing a person to terminate an instrument or be released, wholly or partly, from an obligation or modify the operation or effect of an instrument or obligation.
- (4) If the advice or consent of, or giving notice to, a person would be necessary to give effect to the giving of the financial assurance—
- (a) the advice is taken to have been obtained; and
  - (b) the consent or notice is taken to have been given.

### **616K Plan of operations**

- (1) This section applies if a plan of operations for a relevant mining lease for a transitional authority (SAA) was in force under the Mineral Resources Act immediately before the commencement.
- (2) The plan of operations—
- (a) is taken to be the plan of operations for the authority submitted under section 233; and
  - (b) continues in force only until the earlier of the following—
    - (i) the end of the period, stated in the plan, to which the plan applies;
    - (ii) the plan is replaced under section 235.
- (2A) Subsection (2)(a) is subject to subsection (2B) and the Mineral Resources Act, section 735(4A).
- (2B) The special agreement Act to which the authority relates and the existing Act continue to apply for amending the plan of operations as if the amending Act, other than for the insertion of section 584, had not been enacted.

- (3) Section 540(1)(e)(vi) does not apply to a plan of operations that, under this section, is taken to be the plan of operations for a transitional authority (SAA).
- (4) For this section, the relevant provisions of a mining plan approved under part 2 of the agreement defined under the *Mount Isa Mines Limited Agreement Act 1985* are taken to be a plan of operations for each mining lease to which they relate.

### **616L First anniversary day for transitional authority (SAA)**

The first anniversary day for a transitional authority (SAA) is—

- (a) if the SAA environmental authority (mining) forming the basis for the transitional authority (SAA) was a licence under the existing Act—the next occurring anniversary of the anniversary day of the authority under the existing Act; or
- (b) otherwise—1 year after the commencement.

### **616M End of transitional authority (SAA)**

- (1) A transitional authority (SAA) ends if—
  - (a) the holder of the authority does not comply with section 616H(1); or
  - (b) the authority is amended under subdivision 6 and the amended authority has taken effect under the current Act; or
  - (c) the authority is transferred under chapter 5, part 9 and the transfer has taken effect under the current Act; or
  - (d) the surrender of the authority is approved under the current Act; or
  - (e) an environmental authority (mining activities) for the SAA mining activity the subject of the transitional authority (SAA) is issued and has taken effect under the current Act.

[s 616N]

---

- (2) However, despite subsection (1)(c), if a transitional authority (SAA) is transferred under chapter 5, part 9 to a wholly-owned subsidiary of the holder of the authority within the meaning of the Corporations Act, the authority does not end.
- (3) To remove any doubt, it is declared that subsection (1) does not limit chapter 5, part 12.

## **Subdivision 5      Applications for new authorities**

### **616N    Application of sdiv 5**

This subdivision applies if the holder of a transitional authority (SAA) (the *relevant transitional authority*) makes an application under section 616H(1)(a) (the *new authority application*) for an environmental authority (mining activities) for a level 1 mining project of which the SAA mining activity the subject of the relevant transitional authority is a part.

  - (4) For applying section 219(5)(b), the reference to each objector is taken to be a reference to the applicant.
  - (5) The objection period for the application starts on the day the administering authority gives the applicant a draft environmental authority and ends 20 business days after that day.
  - (6) Subsections (7) and (8) apply for processing the application if—
    - (a) no part of the application relates to a wild river area; and
    - (b) an EIS is not required for the application under section 162(3A).
  - (7) The administering authority is taken to have decided under section 162(1) that no EIS is required for the application.

### **616S    Application of current Act to amendment application**

Chapter 5, part 8 applies to the making and deciding of the amendment application for the transitional authority (SAA), subject to sections 616T and 616U.

### **616T    No public notice or EIS requirement for particular amendment applications**

- (1) This section applies for processing the amendment application for the transitional authority (SAA) if each mining activity to which the application relates is authorised under the conditions of the authority.
- (2) Chapter 5, part 6, division 6, and section 254 do not apply for the application.
- (3) Subsection (4) applies if the assessment level decision for the application under section 246(1)(a) or 247(3) is that the level of environmental harm is likely to be significantly increased.
- (4) The EIS decision for the application is taken to be that an EIS is not required for the proposed amendment.

---

- (b) the reference to section 605 were a reference to section 616W.

**Subdivision 7 Amendment of transitional authorities (SAA) other than by application**

**616W Additional grounds for amendment by administering authority**

For applying section 292 for a transitional authority (SAA), the following grounds apply, as well as the grounds under section 292(2)—

- (a) the administering authority can not, by applying section 616C, work out the conditions of the authority;

[s 616X]

---

- (b) a condition of the authority under section 616C creates a right or imposes an obligation that the administering authority considers is uncertain or not reasonably enforceable;
- (c) the holder of the authority submits or amends a plan of operations for the authority;
- (d) the amendment of the transitional authority (SAA) is necessary to prevent environmental harm not already authorised under the authority.

### **616X Ministerial power to amend**

- (1) The Minister may amend a transitional authority (SAA) if the Minister—
  - (a) gives the authority holder an amendment notice proposing the amendment; and
  - (b) considers the written representations, if any, made by the holder within the stated period in the notice.

## **Subdivision 8 Provisions for chapter 4 activities**

### **616Y Application of sdiv 8**

- (1) This subdivision applies if—
  - (a) immediately before the commencement, an environmental authority was in force under the existing Act as it applied under section 614(1); and
  - (b) the authority is for a chapter 4 activity to which a special agreement Act applies.
- (2) Subsection (3) applies to an activity that—
  - (a) is carried out under a sublease of a mining lease; and
  - (b) would be a chapter 4 activity if it were not carried out under a sublease of a mining lease.
- (3) To remove any doubt, it is declared that the activity is a chapter 4 activity.

### **616Z Continuing effect of environmental authority as a registration certificate and development approval**

- (1) From the commencement—
  - (a) the environmental authority has effect as if it were a registration certificate for the activity; and
  - (b) the environmental authority has effect as if the holder of the authority were the registered operator for the activity; and
  - (c) the environmental authority has effect as if it were—
    - (i) if the activity would, after the commencement, be a mobile and temporary activity—a development approval for a material change of use under the repealed *Integrated Planning Act 1997*, schedule 8, part 1, table 5, item 3; or
    - (ii) in any other case—a development approval for a material change of use under the repealed

*Integrated Planning Act 1997*, schedule 8, part 1, table 2, item 1; and

- (d) any condition of the environmental authority has effect as if it were a development condition of the development approval.
- (2) The conditions of the environmental authority are taken to include any condition that the administering authority is, under section 73B(2), required to impose under a regulatory requirement had it been deciding a development application for the chapter 4 activity at the commencement.
- (3) This section stops applying if the environmental authority ends under section 616ZB.

### **616ZA Additional ground for changing or cancelling development conditions**

- (1) The administering authority may change or cancel a condition of the environmental authority if—
  - (a) the change or cancellation is necessary because the condition is no longer appropriate as a development condition of a development approval for the activity; or
  - (b) the condition needs to be changed or cancelled so that the administering authority, in applying section 616Z, can accurately and reliably identify the conditions of the development approval; or
  - (c) the conditions are otherwise unclear, uncertain or contradictory.
- (2) However, the administering authority must not act under subsection (1) if the change or cancellation adversely affects the interests of the registered operator for the activity.
- (3) If the condition is changed it must in substance reflect the intent of the condition as included in the environmental authority as it existed before the commencement.
- (4) If the administering authority changes or cancels a condition, it must within 10 business days—

- (a) record the particulars of the change or cancellation in the appropriate register; and
  - (b) give the registered operator—
    - (i) a copy of the development conditions as applying after the change or cancellation; and
    - (ii) a registration certificate.
- (5) In this section—  
**condition**, of the environmental authority, does not include any condition taken to be included under section 616Z(2).

### **616ZB End of environmental authority**

An environmental authority for a chapter 4 activity under this subdivision ends if any of the following happens—

- (a) the person carrying out the activity changes;
- (b) there is a material change of use of premises for the activity, as defined under the Planning Act, schedule 2, definition *material change of use*, paragraph (a) or (b);
- (c) if the activity is carried out under a sublease of a mining lease—the sublease expires or is cancelled or surrendered;
- (d) a development approval for the activity takes effect.

### **616ZC Administering authority may issue replacement documents**

- (1) The administering authority may give to the person carrying out the chapter 4 activity—
  - (a) if the activity was carried out at 1 location—a development approval for the location; or

  - (a) is not, at the time the order is issued, a related person of the company; but
  - (b) was, during the transitional period, a related person of the company.
- (2) For the purpose of deciding if a person was, during the transitional period, a related person of a company, this Act applies as if the amending Act had commenced on the introduction day.

**747 Requirements under environmental protection orders may relate to past matters**

An environmental protection order issued under section 363AC or 363AD may impose requirements relating to a relevant activity carried out, or environmental harm caused, before the commencement.

### **748 Particular applications made but not decided before commencement**

- (1) This section applies if—
  - (a) an application of a type mentioned in section 126A or 227AA was made before the commencement; and
  - (b) immediately before the commencement, the application had not been decided.
- (2) The application must be dealt with and decided as if the *Environmental Protection (Underground Water Management) and Other Legislation Amendment Act 2016* had not commenced.

### **749 Administering authority to make decision on s 683 applications**

- (1) This section applies to an application of a type mentioned in section 683(1)(a) or (b) that was made, but not decided, before the commencement of that section.
- (2) If, before the commencement of this section, the EPA Minister had not made a decision under former section 225 and former section 225 would have applied to the application, section 683(2) continues to apply to the application but the administering authority and not the EPA Minister must make the decision under former section 225.
- (3) In this section—  
***EPA Minister*** means the Minister administering this Act.

---

*former section 225* means section 225 as in force immediately before the commencement of the *Environmental Protection (Greentape Reduction) and Other Legislation Amendment Act 2012*, section 7.

***mining EA applicant*** means an applicant for a site-specific application for a mining activity relating to a mining lease, if the application is made on or before the PRCP start date.

***mining EA holder*** means—

- 
- (a) a person who, on the commencement, is the holder of an environmental authority for a mining activity relating to a mining lease, if a relevant activity for the authority is an ineligible ERA; or
  - (b) a person who becomes the holder of an environmental authority for a mining activity authorised under a mining lease, if the holder was, before the authority is issued, the mining EA applicant for the authority.

***PRCP start date*** means the day, prescribed by regulation for this definition, that is no later than 1 November 2019.

***pre-amended Act*** means this Act as in force before the commencement.

## **751 Pre-amended Act applies to mining EA applicants**

- (1) This section applies in relation to a mining EA applicant.
- (2) The pre-amended Act, chapter 5, parts 1 to 5, applies to the mining EA applicant's site-specific application as if the amending Act had not commenced.
- (3) If an environmental authority is issued to the mining EA applicant for the application, the amended Act applies in relation to the environmental authority on and from the day the authority is issued.
- (4) However, section 431A does not apply in relation to the environmental authority until the earlier of the following days—
  - (a) the day the applicant fails to comply with a notice given to the applicant under section 754;
  - (b) the day a PRCP schedule for the environmental authority is approved.

## **752 Existing plan of operations for petroleum lease**

- (1) This section applies to a plan of operations for an environmental authority for petroleum activities relating to a

petroleum lease, if the plan was given to the administering authority before the commencement.

- (2) On the commencement, the plan of operations continues as a plan of operations under section 291.
- (3) However, if the plan period stated in the plan ends more than 3 years after the commencement, the plan period is taken to end on the day that is 3 years after the commencement.

### **753 Plan of operations for mining lease**

- (1) This section applies if—
  - (a) a mining EA holder gave a plan of operations to the administering authority for a mining lease under the pre-amended Act; and
  - (b) on the commencement, the plan period for the plan under the pre-amended Act, section 288(1)(b) has not ended.
- (2) The plan of operations continues as a plan of operations under the pre-amended Act, and the pre-amended Act, sections 289, 290 and 291 continue to apply in relation to the plan of operations, until the earliest of the following days—
  - (a) the day the plan period for the plan of operations ends;
  - (b) the day a PRCP schedule is approved for the holder for the mining lease;
  - (c) if the holder of the mining lease re-applies for an ERC decision under the amended Act, section 304—the day the ERC decision for the application is made.
- (2A) However, from the commencement, the holder may not, under the pre-amended Act, section 289—
  - (a) replace the plan; or
  - (b) amend the plan in a way that increases the total area of land the subject of a rehabilitation program mentioned in the pre-amended Act, section 288(1)(c)(iii).

- 
- (3) If the plan of operations ends before the day a PRCP schedule is approved for the holder's mining lease, section 431A does not apply to the holder until the earlier of the following days—
- (a) the day the holder fails to give a proposed PRC plan in compliance with a notice given to the holder under section 754;
  - (b) the day a PRCP schedule is approved for the holder.
- (4) However, subsection (5) applies if—
- (a) the holder fails to comply with the notice given to the holder under section 754 because the holder purported to give the administering authority a proposed PRC plan in compliance with the notice; and
  - (b) the administering authority gives the holder written notice for a decision to refuse to approve the proposed PRCP schedule.
- (5) Section 431A does not apply to the holder until—
- (a) if the holder re-applies for approval of another proposed PRCP schedule within 40 business days after the written notice is given—the day the administering authority—
    - (i) issues a PRCP schedule under section 195; or
    - (ii) gives the holder written notice refusing to approve the other PRCP schedule; or
  - (b) otherwise—40 business days after the written notice mentioned in subsection (4)(b) is given.

## **754 Requirement for mining EA holders to give proposed PRC plan**

- (1) The administering authority must, within the period stated in subsection (2), give each mining EA holder a notice stating—
- (a) the holder must give the administering authority a proposed PRC plan that complies with sections 126C and 126D for the relevant activities the subject of the holder's environmental authority; and

- (b) the period, of not less than 6 months from the day the notice is given, within which the holder must comply with the notice.

*Note—*

See also section 797.

- (2) The notice must be given within the period—
  - (a) starting on the PRCP start date; and
  - (b) ending—
    - (i) on the day that is 3 years after the PRCP start date; or
    - (ii) if the environmental authority is issued on or after the day mentioned in subparagraph (i)—within 6 months after the environmental authority is issued.
- (3) The holder is not required to comply with a requirement under section 126C(1)(g) or (h) or 126D(2) or (3) for the proposed PRCP schedule for the plan in relation to land if—
  - (a) an outcome for the land has been identified under a land outcome document; and
  - (b) the outcome for the land is the same as, or substantially similar to, the outcome for the land if it were a non-use management area under a PRCP schedule.

*Example of an outcome for land—*

A residual void or pit authorised under an environmental authority may constitute the outcome for the land on which the void or pit is located, even though the environmental authority or any other land outcome document does not expressly state anything about the outcome for the land, other than authorising the void or pit.

- (4) However, if the environmental authority or any other land outcome document does not state sufficient detail to identify either the location or area of the land to which the outcome relates, the proposed PRC plan must state—
  - (a) if the area is not identified—how the total area of the land to which the outcome relates will be minimised; and

- 
- (b) if the location is not identified—how the mining EA holder will ensure the location of the land to which the outcome relates minimises risks to the environment.
  - (5) For subsections (3) and (4), if there is an inconsistency in land outcome documents for land, the document appearing first in the list mentioned in section 750, definition *land outcome document* prevails to the extent of the inconsistency.
  - (6) The administering authority must keep a register of an extract of a written agreement mentioned in section 750, definition *land outcome document*, paragraph (f) that identifies the location or area of land mentioned in subsection (4).
  - (7) Sections 541, 542 and 543 apply in relation to a register mentioned in subsection (6).
  - (8) Subsection (9) applies in relation to a proposed PRC plan required under a notice mentioned in subsection (1).
  - (9) A regulation may prescribe exceptional circumstances, in addition to a matter mentioned in section 126D(5), in which land the subject of the PRC plan that is not being mined is taken not to be available for rehabilitation for section 126D(4).

## **755 Administering authority must assess proposed PRC plan**

- (1) The administering authority must assess a proposed PRC plan given to the authority in compliance with a notice given under section 754.
- (2) The assessment process under chapter 5, parts 2 to 5 of the amended Act apply in relation to the proposed PRC plan as if the PRC plan accompanied an application for an environmental authority for a relevant activity made under section 125(1)(n).
- (3) However, for applying the assessment process under subsection (2)—
  - (a) the periods mentioned in sections 144(a)(ii), 168(1)(b) and 194(2)(a)(ii) are taken to apply to the administering authority for the assessment process; and

[s 755A]

---

- (b) the submission period mentioned in section 154 is taken to be the period, of at least 20 business days after the giving and publishing of the application notice for the PRC plan under section 152, decided by the administering authority; and
  - (c) the application stage and notification stage apply subject to sections 755A and 755B.
- (4) If a requirement for the proposed PRCP schedule does not apply to the holder under section 754(3), section 176A(3) does not apply in relation to the administering authority in deciding whether to approve the schedule to the extent the requirement does not apply to the holder.
- (6) In addition to the matters the administering authority must consider in deciding whether to approve the PRCP schedule for the proposed PRC plan under sections 176A and 194B, the authority must also have regard to—
- (a) each land outcome document for land to which the proposed PRC plan relates; and
  - (b) to the extent possible, the matters the administering authority would have had regard to if the proposed PRC plan had accompanied an application for the holder's environmental authority.

### **755A Application of requirement for public interest evaluation for application stage**

- (1) Section 136A does not apply for the assessment of a proposed PRC plan under section 755(2), unless—
- (a) the PRCP schedule for the proposed PRC plan identifies a non-use management area under section 126D(2)(b); and
  - (b) the holder is required to comply with a requirement under section 126C(1)(g) or (h) or 126D(2) or (3) for the proposed PRCP schedule in relation to land because section 754(3) does not apply for the area.
- (2) Subsection (3) applies if—

- 
- (a) a public interest evaluation is required for the assessment of the proposed PRCP plan; and
  - (b) the qualified entity carrying out the evaluation considers an alternative option to approving the area as a non-use management area under section 316PA(2)(c); and
  - (c) the financial viability of the mining activity or resource project would be jeopardised if the alternative option were implemented.
- (3) The report for the public interest evaluation under section 136A(2) must include a consideration of the stage of, and the land outcome documents relating to, the mining activity or resource project.

### **755B Application of notification stage**

- (1) This section applies if either of the following matters is satisfied in relation to land the subject of a proposed PRCP schedule—
- (a) the outcome for land under a land outcome document is the same as, or substantially similar to, the post-mining land use or non-use management area stated for the area under the proposed PRCP schedule; or
  - (b) for an area of land stated in a land outcome document that could be a proposed non-use management area under the PRCP schedule—the schedule proposes a post-mining land use for all or part of the land.

*Example of an outcome for land—*

A residual void or pit authorised under an environmental authority may constitute the outcome for the land on which the void or pit is located, even though the environmental authority or any other land outcome document does not expressly state anything about the outcome for the land, other than authorising the void or pit.

- (2) The notification stage under chapter 5, part 4 does not apply for the assessment of the proposed PRCP schedule under section 755(2), to the extent of the matter.

- (3) If the notification stage under chapter 5, part 4 applies for the assessment process because the outcome for land under a land outcome document is different to the outcome for the land under the proposed PRCP schedule, a submission under section 160 may relate only to the difference in outcome for the area.
- (4) For applying subsection (2), if there is an inconsistency in land outcome documents for land, the document appearing first in the list mentioned in section 750, definition *land outcome document* prevails to the extent of the inconsistency.

#### **756 Administering authority may amend environmental authority**

- (1) This section applies if the administering authority approves the PRCP schedule for a proposed PRC plan mentioned in section 755.
- (2) The authority may amend the holder's environmental authority for the relevant activities the subject of the schedule—
  - (a) to the extent necessary to remove matters relating to rehabilitation that are dealt with in the schedule; and
  - (b) to make any clerical or formal change resulting from the approval of the schedule.
- (3) If the administering authority amends the environmental authority under this section, chapter 5, part 6 applies as if the amendment were a matter mentioned in section 215(2).

#### **757 Applications for decision about amount and form of financial assurance**

- (1) This section applies in relation to an environmental authority for a resource activity if, before the commencement, the administering authority had not given the holder of the environmental authority a notice under the pre-amended Act, section 296 about the amount and form of financial assurance required under a condition of the environmental authority.

- 
- (2) The pre-amended Act, chapter 5, part 12, division 2, subdivision 2 continues to apply in relation to the environmental authority as if the amending Act had not commenced.
  - (3) Despite subsection (2), the administering authority must—
    - (a) transfer to the scheme manager any financial assurance for the resource activity that is given in cash to the authority after the commencement; and
    - (b) take all necessary steps to transfer to the scheme manager any instruments or other forms of financial assurance in relation to the resource activity that are given to the authority after the commencement.

## **758 When existing condition requiring financial assurance ends**

- (1) This section applies if—
  - (a) before the commencement, the administering authority imposed a condition on an environmental authority for a resource activity under the pre-amended Act, section 292; and
  - (b) on the commencement, the environmental authority is in force.
- (2) On the day an ERC decision is, or is taken to have been, made for the environmental authority, the condition no longer has effect.
- (3) However, if—
  - (a) the administering authority has given the holder of the environmental authority a notice under the pre-amended Act, section 296 about its decision in relation to the amount and form of financial assurance required under a condition of the environmental authority; and
  - (b) the holder has not complied with the condition before the commencement;

the condition continues to have effect until the financial assurance for the environmental authority has been given to the administering authority in the amount and form required by the notice.

(3A) Also, if—

- (a) the administering authority has given the holder of the environmental authority a notice about a proposed requirement to increase the amount of financial assurance under the pre-amended Act, section 306; and
- (b) the requirement has not taken effect before the commencement;

the condition continues to have effect until the increased amount of financial assurance has been given to the administering authority.

(3B) In addition, if section 760 applies for the financial assurance, the condition continues to have effect until—

- (a) the application mentioned in that section is decided; and
- (b) the amount of financial assurance under the decision has been given to the administering authority.

(4) After the condition stops having effect for an environmental authority under this section, the administering authority may—

- (a) amend the environmental authority to remove the condition; and
- (b) issue the amended environmental authority to the holder.

## **759 Claiming on or realising financial assurance started before the commencement**

- (a) before the commencement, the administering authority gave a written notice under the pre-amended Act, section 299 to an entity who gave a financial assurance; and

- 
- (b) on the commencement, the administering authority has not decided whether to make a claim on or realise the financial assurance under the pre-amended Act, section 301.
  - (2) If the financial assurance was given for an environmental authority for a prescribed ERA, the pre-amended Act, chapter 5, part 12, division 2, subdivision 3 continues to apply in relation to the financial assurance, as if the amending Act had not commenced.
  - (3) If the financial assurance was given for a small scale mining activity or an environmental authority for a resource activity, the amended Act, chapter 5, part 14, division 3 applies in relation to the financial assurance as if—
    - (a) the notice were a notice given under section 316E; and
    - (b) a written representation about the notice given by the entity before the commencement were a representation given under section 316E; and
    - (c) the financial assurance were a scheme assurance.

  - (b) on the commencement, the application has not been decided.
- (2) The pre-amended Act, chapter 5, part 12, division 2, subdivision 4 continues to apply in relation to the financial assurance.
- (3) Despite subsection (2), the administering authority must—

- (a) transfer to the scheme manager any financial assurance for the environmental authority that is given in cash to the authority after the commencement; and
- (b) take all necessary steps to transfer to the scheme manager any instruments or other forms of financial assurance in relation to the resource activity that are given to the authority after the commencement.

## **761 ERC decisions for environmental authorities for resource activities**

- (1) This section applies in relation to an environmental authority for a resource activity in force on the commencement, if—
  - (a) before the commencement, a notice about the amount and form of financial assurance was given to the holder of the authority under the pre-amended Act, section 296; or
  - (b) if section 757 applies to the environmental authority—a notice about the amount and form of financial assurance is given to the holder of the authority for a resource activity.
- (2) On the relevant day for the environmental authority, an ERC decision is taken to have been made for the resource activity under the amended Act, section 300.
- (3) For applying the amended Act, chapter 5, part 14—
  - (a) the estimated rehabilitation cost under the ERC decision is taken to be the amount of the financial assurance for the environmental authority decided by the administering authority under the pre-amended Act, section 295; and
  - (b) subject to subsection (5), the ERC period for the ERC decision is taken to be the period starting on the relevant day for the environmental authority, and ending on—
    - (i) if the resource activity relates to a mining lease—the day the holder’s plan of operations, continued under section 753, ends; or

- 
- (ii) if the resource activity relates to a petroleum activity for an ineligible ERA or a 1923 Act petroleum tenure granted under the *Petroleum Act 1923*—the day that is 3 years after the relevant day or, if the plan period for the holder’s plan of operations for the activity ends earlier, the day the plan period ends; or
  - (iii) otherwise—the day all resource activities carried out under the environmental authority have ended.
- (4) The administering authority must, as soon as practicable after the relevant day for the environmental authority, comply with section 301 in relation to the ERC decision.
  - (5) If the notice given under section 301 states that the ERC period for the ERC decision ends on a day that is later than the day mentioned in subsection (3)(b) for the environmental authority, the ERC period ends on the day stated in the notice.
  - (6) The amended Act, section 297 applies in relation to the environmental authority on and from the relevant day for the authority.
  - (7) In this section—

***relevant day***, for an environmental authority, means—

- (1) This section applies to an environmental authority for a resource activity in force on the commencement if section 761 does not apply in relation to the authority.

- (2) On the commencement, an ERC decision is taken to have been made for the resource activity under the amended Act, section 300.
- (3) For applying the amended Act, chapter 5, part 14—

    - (i) if, before the commencement, the holder has given financial assurance to the administering authority—the amount of the financial assurance given; or
    - (ii) otherwise—nil; and
  - (b) the ERC period for the ERC decision is taken to be 3 years starting on the commencement.

### **763 Application of s 298 before PRC plan is in force**

- (1) This section applies in relation to a mining EA holder if, on the day the holder applies for a new ERC decision, a PRCP schedule is not yet in force for the mining activities.
- (2) Despite section 296, definition *ERC period*, the holder's application must, for section 298(2)(b), state a period of between 1 and 5 years.

### **764 Application of s 21A of amended Act**

- (1) This section applies to a small scale mining activity being carried out on the commencement, other than an activity carried out under a prospecting permit.
- (2) On the commencement, the prescribed condition mentioned in the amended Act, section 21A(2) applies in relation to carrying out the activity.

### **765 Transfer of funds**

- (1) On the commencement, the administering authority must—

### **765A Application of part if holder of environmental authority changes**

- (1) This section applies if, on or after the commencement of a provision of this part (the *relevant provision*)—
  - (a) a mining EA holder for an environmental authority stops being the holder of the environmental authority; and
  - (b) another person (the *transferee*) becomes the holder of the environmental authority.
- (2) From the day the transferee becomes the holder of the environmental authority (the *transfer day*), a reference in the relevant provision to the mining EA holder is taken to include a reference to the transferee.
- (3) If, before the transfer day, the administering authority gave a notice under section 754(1) to the mining EA holder, from the transfer day—
  - (a) the notice is taken to have been given to the transferee; and
  - (b) anything done by the mining EA holder to comply with the notice is taken to have been done by the transferee.

### **765B Application of s 431A for particular mining EA holders**

- (1) This section applies—

- (a) to a mining EA holder for a mining lease who was required to have a plan of operations under the pre-amended Act if, before 1 April 2019—
    - (i) the holder gave a plan of operations for the mining lease to the administering authority; and
    - (ii) the plan period for the holder’s plan of operations ended; and
    - (iii) a new plan of operations was not given to the administering authority; or

# Transitional provisions for Environmental Protection (Great Barrier Reef Protection Measures) and Other Legislation Amendment Act 2019

### 767 Definitions for part

In this part—

*amendment Act* means the *Environmental Protection (Great Barrier Reef Protection Measures) and Other Legislation Amendment Act 2019*.

*previous*, for a provision of this Act, means as in force from time to time before the commencement.

### 768 Initial agricultural ERA standards

- (1) This section applies to a document if—
- (a) on or before the commencement, the chief executive makes the document as though it was an ERA standard made under section 318; and
  - (b) the document states it is an agricultural ERA standard for section 81; and

- (c) sections 318A and 318B were not complied with in relation to the standard before it was made.
- (2) A regulation under section 318D may approve the document as an ERA standard even though sections 318A and 318B were not complied with before the standard was made.

## **769 Recognition of existing accreditation programs**

- (1) An accreditation program for an agricultural ERA prescribed by regulation for this section within 6 months after the commencement is taken to have been recognised for the agricultural ERA by the chief executive under chapter 5A, part 5A.
- (2) The following are conditions of the recognition of an accredited program for an agricultural ERA under subsection (1)—
  - (a) within 6 months after the regulation mentioned in subsection (1) commences, the owner of the program must—
