Corrective Services Regulation 2017

Part 1 Preliminary

1 Short title

This regulation may be cited as the *Corrective Services Regulation 2017*.

2 Commencement

This regulation commences on 1 September 2017.

Part 2 Prisoners and other offenders

Division 1 Accommodation

3 Accommodation

- (1) An Aboriginal or Torres Strait Islander prisoner is to be accommodated in a corrective services facility as close as practicable to the prisoner's family unless the chief executive is satisfied the prisoner does not want to be accommodated near the prisoner's family.

Note—

For an Aboriginal or Torres Strait Islander prisoner, the concept of family may be wider than is ordinarily understood because of the prisoner's cultural background.

- (2) In deciding what is practicable, the chief executive must consider all relevant factors, including, for example—
- (a) whether the prisoner's accommodation in the corrective services facility closest to the prisoner's family would pose an unacceptable risk to the safety of persons, including the prisoner, in the facility; and

[s 4]

- (b) the prisoner's security classification; and
- (c) any orders to which the prisoner is subject.

Example—

An Aboriginal prisoner who is subject to a maximum security order can not be accommodated in the corrective services facility closest to the prisoner's family unless the corrective services facility contains a maximum security unit.

4 Separate confinement

- (1) The chief executive must ensure a prisoner undergoing separate confinement—
 - (a) can access reticulated water, a toilet and shower facilities that, as far as practicable, are constructed in a way to prevent the prisoner from associating with other prisoners; and
 - (b) is given the same type of mattress, sheets, blankets and pillow as the prisoner would have were the prisoner not in separate confinement; and
 - (c) is given clothing appropriate for the prevailing conditions; and
 - (d) is given the opportunity to exercise, in the fresh air, for at least 2 daylight hours a day, unless a health practitioner advises that it would not be in the interests of the prisoner's health to exercise for a stated period or indefinitely.
- (2) The chief executive must keep a record of the advice received from a health practitioner under subsection (1)(d).

Division 2 Breaches of discipline

5 Breaches of discipline—Act, s 113

For section 113(1) of the Act, each of the following acts or omissions, if committed by a prisoner, is a breach of discipline—

- (a) contravening a lawful direction of a corrective services officer;
- (b) wilfully carrying out, in a careless or negligent way, something the prisoner is lawfully directed to do by a corrective services officer;
- (c) making something not expressly or impliedly approved as something the prisoner may make;
- (d) possessing or concealing something not expressly or impliedly approved as something the prisoner may possess;
- (e) knowingly consuming something not expressly or impliedly approved as something the prisoner may consume;
- (f) wilfully consuming or inhaling something likely to induce an intoxicated state, other than medication taken as prescribed by a health practitioner;
- (g) without the approval of a corrective services officer or health practitioner—
 - (i) possessing or taking medication; or
 - (ii) giving or administering medication to another prisoner;
- (h) using abusive, indecent, insulting, obscene, offensive or threatening language in someone else's presence;
- (i) acting in an indecent or offensive way in someone else's presence;
- (j) acting in a way contrary to the security or good order of a corrective services facility;
- (k) making a complaint, other than a complaint to an official visitor or the chief inspector, about an act or omission of another prisoner or a corrective services officer, that is frivolous or vexatious;
- (l) organising or taking part in gambling;

[s 6]

- (m) without a corrective services officer's approval, altering the prisoner's appearance, or another prisoner's appearance, so it significantly differs from the prisoner's appearance described in the record kept under section 10 of the Act;
- (n) wilfully damaging, destroying, removing or otherwise interfering with a video camera or other device used for monitoring part of the prison;
- (o) wilfully damaging or destroying clothing issued to the prisoner or another prisoner;
- (p) wilfully damaging or destroying property rented by the prisoner or another prisoner;
- (q) wilfully damaging or destroying any property that is part of a corrective services facility, or other property of the State in the facility;
- (r) obtaining another prisoner's property, other than in circumstances expressly approved, or intentionally damaging another prisoner's property;
- (s) sending mail purporting to be privileged mail if it is not privileged mail;
- (t) giving a positive test sample or being taken, under section 43(4) of the Act, to have given a positive test sample;
- (u) attempting to do anything mentioned in paragraphs (a) to (s).

6 Prisoner to be given copy of details kept about breaches of discipline

- (1) The chief executive must give a prisoner a copy of the details contained in the register kept under section 120 of the Act for each breach of discipline it is decided the prisoner has committed.
- (2) The copy must be given to the prisoner as soon as practicable after the details are entered in the register.

Division 3 Safety orders

7 Safety order conditions—Act, s 53

For section 53(3) of the Act, the conditions are as follows—

- (a) the extent to which the prisoner is to be separated from other prisoners accommodated in the corrective services facility;
- (b) any special needs of the prisoner and how the needs must be met;
- (c) how and when the prisoner may receive visits;
- (d) the amount of property the prisoner may keep and access during the period of the safety order;
- (e) the prisoner’s access to approved activities, courses and programs;
- (f) the phone calls and electronic communications the prisoner may make.

8 Safety order for Aboriginal or Torres Strait Islander prisoner

- (1) After making a safety order for an Aboriginal or Torres Strait Islander prisoner, the chief executive must tell the following persons about making the order—
 - (a) a cultural liaison officer;
 - (b) if an Aboriginal or Torres Strait Islander elder, respected person or indigenous spiritual healer has been appointed for the corrective services facility—the elder, respected person or indigenous spiritual healer;
 - (c) the person nominated by the prisoner as the prisoner’s contact person.
- (2) When telling the cultural liaison officer about making the safety order, the chief executive must ask the officer to visit the prisoner.

[s 8A]

- (3) A failure to comply with subsection (1) or (2) does not invalidate the making of the safety order.
- (4) In this section—
cultural liaison officer means a corrective services officer who holds an appointment as a cultural liaison officer.

Division 4 Searches and test samples

8A Meaning of terms used in division

- (1) In this division—
men's corrective services facility means a corrective services facility other than a women's corrective services facility.
qualified corrective services officer means a corrective services officer who has successfully completed training approved by the chief executive for the taking of a test sample of urine for analysis.
women's corrective services facility—
 - (a) means a corrective services facility, or part of a corrective services facility, established as a women's facility, centre or work camp; and
 - (b) includes the following—
 - (i) Brisbane Women's Correctional Centre;
 - (ii) the women's facilities at the Townsville Correctional Complex;
 - (iii) the women's work camp at Bowen;
 - (iv) Numinbah Correctional Centre;
 - (v) the women's work camp at Warwick;
 - (vi) the women's facilities at the Southern Queensland Correctional Complex;
 - (vii) Helana Jones Community Corrections Centre.

- (2) A reference in this division to a female corrective services officer, female health practitioner or female helper is a reference to a person who—
 - (a) presents themselves in the relevant capacity as a female; or
 - (b) is designated by the chief executive as a person who may exercise powers for which, respectively, a female corrective services officer, female health practitioner or female helper is required.
- (3) A reference in this division to a male corrective services officer, male health practitioner or male helper is a reference to a person who—
 - (a) presents themselves in the relevant capacity as a male; or
 - (b) is designated by the chief executive as a person who may exercise powers for which, respectively, a male corrective services officer, male health practitioner or male helper is required.
- (4) A reference in this division to a prisoner detained in a women’s corrective services facility includes a reference to a prisoner who—
 - (a) is in the Princess Alexandra Hospital Secure Unit; and
 - (b) has—
 - (i) been transferred to the unit from a women’s corrective services facility; or
 - (ii) been designated by the chief executive as a prisoner who will be accommodated in a women’s corrective services facility.
- (5) A reference in this division to a prisoner detained in a corrective services facility includes a reference to the prisoner while the prisoner is, under the Act, lawfully outside the corrective services facility.

8B Modification of procedures to take account of needs of prisoner

- (1) A prisoner may request the modification of the usual search or urine test sample procedures to take account of the special or diverse needs of the prisoner.

Examples—

- 1 To take account of needs associated with gender diversity, sexual orientation or a history of abuse, a prisoner may request a modification to enable powers to be exercised by a female or male corrective services officer, health practitioner or helper.
 - 2 To take account of needs associated with cultural or religious practices, a prisoner may request a modification to enable a headdress to be searched in a particular way.
 - 3 To take account of needs associated with a disability, a prisoner may request a modification to enable a prosthesis to remain in place or be searched in a particular way.
- (2) The prisoner must be given an opportunity to make the request—
- (a) on admission to a corrective services facility or as soon as practicable after admission; and
 - (b) within reasonable limits, at a later time.
- (3) The chief executive must decide whether to accept a modification requested by the prisoner as soon as practicable after the request is made.
- (4) For a modification of a procedure requiring the exercise of powers by a female or male corrective services officer, health practitioner or helper—
- (a) the modification is limited to enabling the powers to be exercised by a male rather than female, or a female rather than male, corrective services officer, health practitioner or helper; and

Note—

See section 8A(2) and (3) in relation to the meaning of the terms female or male corrective services officer, health practitioner or helper.

- (b) the modification may, in the case of powers of search, be limited to the exercise of powers in relation to the upper body or lower body of the prisoner.
- (5) A modification requested by a prisoner must be accepted unless the chief executive reasonably believes—
- (a) the modification—
 - (i) is not associated with the genuine needs of the prisoner; or
 - (ii) is requested for an improper purpose; or
 - (b) accommodating the modification—
 - (i) would not be practicable; or
 - (ii) would pose an unacceptable risk to the safety or welfare of corrective services officers or other persons; or
 - (c) for a modification of search procedures—accommodating the modification would reduce the effectiveness of the search to an unacceptable extent.
- (6) The chief executive may withdraw the acceptance of a modification—
- (a) at the request of the prisoner; or
 - (b) if the chief executive subsequently forms the opinion that the modification would not now be accepted if it were requested.
- (7) The chief executive must keep the following records—
- (a) a record of each accepted modification for a prisoner;
 - (b) a record of each decision not to accept a modification requested by a prisoner and the reasons for the decision;
 - (c) a record of the withdrawal of the acceptance of a modification for a prisoner and the reasons for the withdrawal.

 - (b) a prisoner detained in a men’s corrective services facility must be searched by a male corrective services officer.

Note—

For a personal search of a prisoner, whether a corrective services officer observing but not carrying out the search is a female or male corrective services officer is irrelevant.

For a search requiring the removal of clothing of a prisoner, only corrective services officers carrying out the search may be present—see section 9.

- (4) The usual procedure for the search is subject to modifications accepted under section 8B.
- (5) However, subsection (4) does not apply if the chief executive reasonably believes accommodating the modification—
 - (a) would pose an unacceptable risk to—
 - (i) the security or good order of the place at which the search is carried out; or

- (ii) the safety or welfare of the prisoner, a corrective services officer or other person; or
- (b) is not practicable.

9 Additional requirements for search requiring removal of clothing—Act, s 39A

- (1) A search requiring the removal of a prisoner’s clothing must not be carried out in the presence of a person other than the corrective services officers carrying out the search.
- (2) If the prisoner is detained in a women’s corrective services facility, steps must be taken to ensure that no male corrective services officer views the search through an electronic device that monitors the area in which the prisoner is searched.
- (3) If the prisoner is detained in a men’s corrective services facility, steps must be taken to ensure that no female corrective services officer views the search through an electronic device that monitors the area in which the prisoner is searched.
- (4) However, subsections (2) and (3) do not apply if the chief executive reasonably believes—
 - (a) there is no suitable corrective services officer readily available to view the search through the electronic device that monitors the area in which the prisoner is searched; and
 - (b) the search is being conducted in circumstances of imminent risk to the life or safety of the prisoner or a corrective services officer.

 - (i) for an offender detained in a women’s corrective services facility—the officer observing must be a female corrective services officer; and
 - (ii) for an offender detained in a men’s corrective services facility—the officer observing must be a male corrective services officer; and
 - (c) the usual procedure is subject to modifications accepted under section 8B unless the chief executive reasonably believes accommodating the modification—
 - (i) would pose an unacceptable risk to the safety or welfare of the observer; or
 - (ii) is not practicable.
- (7) If the offender is not detained, observation of the offender while the test sample is being given is at the discretion of the chief executive.
- (8) If the offender is not detained and a corrective services officer is to observe the offender while the test sample is being given—

- (a) the offender must be given a reasonable opportunity to request that the observer be a female corrective services officer or a male corrective services officer; and
 - (b) the request must be accommodated unless the chief executive reasonably believes—
 - (i) the request is made for an improper purpose; or
 - (ii) accommodating the request—
 - (A) would pose an unacceptable risk to the safety or welfare of the observer; or
 - (B) is not practicable.
- (9) A corrective services officer who is present during the test but who is not to observe the offender while the test sample is being given must be able to see the observer.

12 How test sample must be taken—Act, s 42

- (1) A corrective services officer taking a test sample from an offender must wear disposable gloves during all stages of taking the test sample until—
