145N Notifying local fire ban

- (1) Notice of the imposition of a local fire ban must be published on the department's website (***normal publication***).
- (2) However, if notice of the imposition of a local fire ban can not for technical or other reasons be conveniently published by normal publication, notice of the imposition may be published (***alternative publication***)—
 - (a) in another way decided by the commissioner; and
 - (b) by normal publication as soon as practicable.
- (3) Notice of the imposition of a local fire ban must—

-
- (a) state the local government area to which the ban applies; and
 - (b) if appropriate, describe the part of the local government area to which the ban applies; and
 - (c) state the types of fires the lighting of which are prohibited under the ban; and
 - (d) state the period of the ban.
- (4) As well as publishing notice of the imposition of a local fire ban by normal publication or alternative publication, the commissioner may cause the imposition of the ban to be publicised in any other way the commissioner considers appropriate.
- (5) This section applies despite the *Financial Accountability Act 2009*, section 88F.

145O Cancelling local fire ban

- (1) If, while a local fire ban is in force, the commissioner considers the fire emergency for which the ban was imposed has ceased to exist, the commissioner must, by notice published under this section, cancel the ban.
- (2) Notice of the cancellation of a local fire ban must be published on the department's website (*normal publication*).
- (3) However, if notice of the cancellation of a local fire ban can not for technical or other reasons be conveniently published by normal publication, notice of the cancellation may be published (*alternative publication*)—
 - (a) in another way decided by the commissioner; and
 - (b) by normal publication as soon as practicable.
- (4) As well as publishing notice of the cancellation of a local fire ban by normal publication or alternative publication, the commissioner may cause the cancellation of the ban to be publicised in any other way the commissioner considers appropriate.

- (4) A local fire ban remains in force until the earlier of the following happens—
 - (a) the period of the ban stated in the notice published for the ban ends;
 - (b) the ban is cancelled.

145Q Effect of local fire ban on other authorisations to light fires

While a local fire ban remains in force, any authority given under this or another Act to light a fire in the fire ban area ceases to have effect, to the extent to which the authority applies to fires the lighting of which is prohibited under the ban.

145R Contravening local fire ban

While a local fire ban is in force, a person must not light a fire in the fire ban area if the lighting of the fire is prohibited under the ban.

Maximum penalty—50 penalty units or 6 months imprisonment.

145S Evidentiary aid about local fire ban

In a proceeding for an offence against section 145R, a certificate purporting to be signed by the commissioner stating the following matters is evidence of the matters—

- (b) the types of fire the lighting of which was prohibited under the ban.

Division 2 Declarations of state of fire emergency

- (3) To ensure public knowledge of a declaration of a state of fire emergency or an amendment or revocation of a declaration in the area to which it applies, the commissioner must take measures to give widespread publicity of the declaration or the amendment or revocation of the declaration.
- (4) However, any alleged failure to take measures under subsection (3) in relation to a declaration of a state of fire

emergency or an amendment of a declaration is not an excuse for failure to comply with the declaration.

- (5) This section applies despite the *Financial Accountability Act 2009*, section 88F.

145V Period of state of fire emergency

A state of fire emergency declared by the commissioner remains in force—

- (2) A notice may be given to a person under subsection (1) whether or not a notice has been given under section 146A or, where a notice has been given under that section, whether or not the person has complied with the notice.
- (3) A person required by notice given under subsection (1) to prepare and lodge an off-site emergency plan is referred to in this part as the *person responsible for the plan*.
- (4) An off-site emergency plan must provide for measures to be taken in preparation for a hazardous materials emergency or upon a hazardous materials emergency occurring so that danger that may thereby arise to any person who or property that is outside the premises to which the plan relates or to the environment is avoided or limited.

146C Assistance with plans

- (1) The commissioner must provide an advisory service and, to the extent practicable, assist in the preparation and implementation of off-site emergency plans.
- (2) A person responsible for a plan is liable to pay to the commissioner charges for any advice or other assistance provided.

146D Approval of plans

Where an emergency plan is lodged, the commissioner—

prescribed fire safety installation means a prescribed fire safety installation within the meaning of section 146M.

146K Application to prisons

This part applies in relation to a building that is, or that is treated as part of, a prison for the purposes of the *Corrective Services Act 2006*, but an authorised fire officer is not competent to exercise a power conferred by sections 149K to 149V in relation to such a building without the consent of the person in charge of the prison within the meaning of the *Corrective Services Act 2006*.

Division 2 Obligations of persons for fire safety

Subdivision 1 Means of escape and prescribed fire safety installations

146L Occupier of building to maintain means of escape from building

The occupier of a building must maintain at all times free from obstruction adequate means of escape in the event of fire threatening any part of the building.

Maximum penalty—

- (a) if the contravention causes multiple deaths—2,000 penalty units or 3 years imprisonment; or
- (b) if the contravention causes death or grievous bodily harm—1,000 penalty units or 2 years imprisonment; or

[s 146M]

- (c) if the contravention causes bodily harm—750 penalty units or 1 year’s imprisonment; or
- (d) otherwise—100 penalty units.

Note—

This provision is an executive liability provision—see section 150J.

146M Occupier of building to maintain prescribed fire safety installations

- (1) The occupier of a building must maintain at all times every prescribed fire safety installation to a standard of safety and reliability in the event of fire.

Maximum penalty—

- (a) if the contravention causes multiple deaths—2,000 penalty units or 3 years imprisonment; or

- (e) otherwise—100 penalty units.

Note—

This provision is an executive liability provision—see section 150J.

- (2) It is a defence to a charge made under this Act that an occupier of a building, in contravention of subsection (1), has failed to maintain for the building a prescribed fire safety installation for the defendant to prove—
 - (a) that the prescribed fire safety installation would not be required to be maintained for the building if the building were constructed at the time of the alleged offence and was unnecessary for the purposes of fire safety; or

- (b) that in lieu of the prescribed fire safety installation there is maintained a fire safety installation of equivalent or greater effectiveness.
- (3) For the purposes of this section—

Act includes any Act and any proclamation, order in council, regulation, rule, local law or other instrument of subordinate legislation made under any Act, whenever passed or made whether or not it has ceased to exist.

146N Additional requirement for monitored systems

- (1) The occupier of a building must maintain each monitored system for the building to ensure an unacceptable number of unwanted alarms are not signalled from the system.
- (2) For subsection (1), the number of unwanted alarms signalled from a monitored system is unacceptable if the number signalled since the end of the last financial year is—
 - (a) more than 4; and
 - (b) more than the average number for the last financial year published under subsection (4).
- (3) However, the commissioner may decide that, despite subsection (2), the number of unwanted alarms signalled from a monitored system is acceptable, having regard to—
 - (a) the size and other characteristics of the building; and
 - (b) how the building is used; and
 - (c) the number of detector heads in the building; and

- (d) whether the system also relates to other buildings.
- (4) As soon as practicable after 30 June each year, the commissioner must calculate, and notify in the gazette, the average number of unwanted alarms for monitored systems for the last financial year.
- (5) The number must be calculated by dividing the total number of unwanted alarms signalled from all monitored systems during the last financial year by the total number of monitored systems in operation during the last financial year.
- (6) In this section—

detector head means a part of a monitored system that detects smoke or heat and sends a signal to another part of the system.

emergency means a situation in which there is danger of harm to persons or property from a fire or hazardous materials emergency.

emergency alarm means an alarm, from a monitored system for a building, signalled to QFR to attend the building.

maintain, a monitored system, includes—

- (a) ensure the system is in good repair; and
- (b) ensure each part of the system is properly installed and appropriately located; and
- (c) ensure the system is able to distinguish between a fire and normal conditions in the building; and
- (d) implement measures for avoiding unwanted alarms from the system.

Examples of implementing measures for paragraph (d)—

- establishing requirements for persons working near the system to isolate the system while using tools that may cause an unwanted alarm
- giving information sheets to guests in the building about the sensitivity of the system and how to avoid causing an unwanted alarm
- for a building used to provide residential accommodation that has a high level of unwanted alarms, installing an alarm acknowledgement facility under AS1670.1—2004

monitored system, for a building, means an automatic smoke detection and alarm system—

- (a) that is a prescribed fire safety installation for the building; and
- (b) that is monitored by QFR.

unwanted alarm means an emergency alarm signalled at a time when the commissioner is satisfied there was no emergency requiring the attendance of QFR.

Subdivision 2 Fire and evacuation plan

146O Fire and evacuation plan

- (1) The occupier of a building must—
 - (a) maintain at all times a plan of the action to be taken by persons within the building in the event of fire threatening the building adequate to ensure their own and other persons safety (a ***fire and evacuation plan***); and
 - (b) provide adequate instructions to prescribed persons in the building concerning the action to be taken by them in the event of fire threatening the building in order to ensure their own and other persons safety.

Maximum penalty—

- (a) if the contravention causes multiple deaths—2,000 penalty units or 3 years imprisonment; or
 - (b) if the contravention causes death or grievous bodily harm—1,000 penalty units or 2 years imprisonment; or
